NUCLEAR SCIENCE ABSTRACTS

A semimonthly publication of the USAEC Office of Information Services, John A. Harris, Director.
Published by the USAEC Technical Information Center, Robert L. Shannon, Manager.

Nuclear Science Abstracts provides the only comprehensive abstracting and indexing coverage of the international nuclear science literature. It covers scientific and technical reports of the U. S. Atomic Energy Commission and its contractors, other U. S. Government agencies, other governments, universities, and industrial and research organizations. In addition, books, conference proceedings, individual conference papers, patents, and journal literature on a worldwide basis are abstracted and indexed. Each issue of *Nuclear Science Abstracts* includes four indexes: subject, personal author, corporate author, and report number.

The following organizations scan and abstract the nuclear science literature in their respective countries:

Atomic Energy of Canada Limited
Australian Atomic Energy Commission
Danish Atomic Energy Commission
Finnish Atomic Energy Commission
French Atomic Energy Commission
Japan Atomic Energy Bureau–Atomic Energy Research Institute
Institutt for Atomenergi (Norway)
Aktiebolaget Atomenergi (Sweden)
United Kingdom Atomic Energy Authority
Zentralstelle für Atomkernenergie-Dokumentation (West Germany)

Numerous organizations, societies, and publishers throughout the world provide *Nuclear Science Abstracts* with advance page-proof copy of their publications.

A list of the journals scanned regularly and the abbreviations used appears in the January 15 issue of *Nuclear Science Abstracts* and is supplemented in the July 15 issue. The January 15 issue also describes the scope and arrangement of the subject matter covered in *Nuclear Science Abstracts.* The subject matter covered is also described in TID-4552, *Subject Scope of Nuclear Science Abstracts,* available free from the USAEC Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830. An outline of the subject categories appears in the Contents of each issue.

HOW TO OBTAIN NUCLEAR SCIENCE ABSTRACTS

Nuclear Science Abstracts is available to the public on a subscription basis from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402.

Commencing in 1973, *NSA* will be issued in two volumes per calendar year. Volume 27 will consist of 12 regular issues January through June, and Volume 28 will consist of 12 regular issues July through December.

For the two 12-issue volumes, the annual subscription rate is $75.50 for domestic subscribers and $94.50 for foreign subscribers. A single issue costs $3.25 domestic rates or $4.07 foreign rates. Domestic rates apply to the United States, Canada, Mexico, and Central and South American countries except Argentina, Brazil, Guyana, French Guiana, Surinam, and British Honduras.

Indexes will be cumulated only for each volume, i.e., on a six-month volume basis.

The annual subscription rate for the two volume indexes is $62.00 for domestic subscribers and $77.50 for foreign subscribers.

The following cumulative indexes are available:

From Johnson Reprint Corporation, 111 Fifth Avenue, New York, N. Y. 10003:

Vols. 1–4, Subjects and Authors (1948–1950), $30.00.

From Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. 20402:

Vols. 5–10, Subjects and Authors (1951–1956), $5.25.

Vols. 11–15, Subjects (1957–1961), $19.00.
Vols. 11–15, Personal Authors (1957–1961), $14.25.
Vols. 11–15, Corporate Authors (1957–1961), $2.50.

Vols. 16–20, Subjects (1962–1966), $36.00.
Vols. 16–20, Personal Authors (1962–1966), $22.50.
Vols. 16–20, Corporate Authors (1962–1966), $3.75.

Vol. 21, Subjects and Authors (1967), $16.00.
Vol. 22, Subjects and Authors (1968), $26.00
Vol. 23, Subjects and Authors (1969), $25.75.
Vol. 24, Subjects and Authors (1970), $22.50.
Vol. 24, Authors (1970), Suppl., $2.00.
Vol. 25, Subjects and Authors (1971), $27.50.
Vol. 26, Subjects and Authors (1972), $37.75.

Cumulative Report Number Index, Vols. 1–15 Revised, $4.00.

Cumulative Report Number Index, Vols. 16–20 Revised, $5.50.

Cumulative Report Number Index, Vols. 21–26, $9.00.

Nuclear Science Abstracts is available on an exchange basis to universities, research institutions, industrial firms, and publishers of scientific information. Government agencies may obtain *NSA* free of charge. Inquiries should be directed to the USAEC Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830.

Nuclear Science Abstracts is also available on 16-mm and 35-mm microfilm in reel or cartridge from Princeton Microfilm Corporation, Alexander Road, Princeton, New Jersey 08540. The cost of Vols. 1–26 (1948–1972) including *Abstracts of Declassified Documents* (1947–1948) is $730.00. The indexes for *Nuclear Science Abstracts* Vols. 1–26 (1948–1972) are also available for $385.00. The cost of each volume (six months) of *NSA* and its indexes is $45.

STAFF OF NUCLEAR SCIENCE ABSTRACTS

Editor and Production Manager
David E. Bost

Associate Editors
Everett J. Hoffman
John W. Norris
Lawrence T. Whitehead

Section Editors
M. Catherine Grissom
Robert C. Kelly
Henry D. Raleigh
Charles E. Stuber
Lee M. Thompson

Descriptive Cataloging Specialist
J. Paul Meredith

Subject Heading Specialist
Sidney F. Lanier

Corporate Author Specialist
Clara L. Fox

Report Number Specialist
Helen W. White

Evaluators
Thomas S. Chapman
John H. Mitchell
Mary H. Newman

Abstractors
E. Ray Bedford
Jane G. Buchanan
D. Lamar Cason
David C. Cunningham
Theodore F. Davis
James R. Dulaney
Helga B. Gerstner
Phyllis C. Hansen
Carolyn D. Houston
W. Hugh Kinser
Lisbeth C. Lieberman
William D. Matheny
Dora H. Moneyhun
Jean F. Peckham
Mona H. Raridon
Julia S. Redford
Jesse W. Rushing
Robert W. Rutkowski
Francis S. Sachs
Lila B. Smith
Polly C. Summers
Helen L. Ward
Kenneth S. Warren
Milton O. Whitson
Martha C. Wilson

Publishing Coordinator
Charles R. Bruce

Computer Processing Coordinator
Noboru Kawakami

Communication concerning the editorial policy and content of *Nuclear Science Abstracts* should be addressed to the Editor, *Nuclear Science Abstracts*, USAEC Technical Information Center, P. O. Box 62, Oak Ridge, Tennessee 37830.

analysis of guinea pig, for potassium and sodium by neutron activation, 23:4565
blast effects on, of animals following detonation of explosives, effects of pressure variations on, 22:38335 (DASA-2064)
book: Clinical Radiation Pathology, Vol. 2, 23:8081
damage of, effects of exposure to high pressures on, 21:28516(R) (DASA-1858)
diffusion of thorium dioxide in cochlea of, of guinea pigs, 23:20099
diseases of, treatment with strontium-90, 21:10983
distribution of thorium oxides in tissues of, of guinea pig, 23:26674
distribution of thorium oxides in tissues of, of guinea pigs following injection, 23:38433
effects of bilateral vestibulotomy of, on development of radiation sickness in irradiated rabbits, 21:16449(T) (JPRS-38272, pp 45)
electrolyte analysis of perilymph of inner, by neutron activation, 22:21406 (KFKI-6/1967)
functions of inner, effects of, on γ-radiosensitivity of rabbits, 22:6892
lymph vessels of rabbit, regeneration rate after x irradiation, 21:12990
overpressure in man, tolerance to, 21:39441 (AD-640921)
radiation dose to human, from therapy of tinea capitis, phantom study of x, 23:9950
radiation effect on labyrinth of pigeon, laser, 21:13008
radiation effects on black-pigmented, of rabbit, laser, 21:9001
radiation effects on blood vessels in rabbit, protective effects of trihydroxyethylrutoside against electron, 22:40797
radiation effects on blood vessels of, in rabbits, protective effects of troxerutin against electron, 23:781
radiation effects on cells of organ of Corti in inner, of guinea pigs, x, 24:48430
radiation effects on cells of vestibular apparatus of, of guinea pigs, 2000 to 7000 R x, 24:34570
radiation effects on denervated rabbit, x, 25:47008
radiation effects on enzyme mucopolysaccharide, and protein-bound sulfhydryl activity in labyrinth of, of guinea pigs, 24:27706
radiation effects on function and structure of vestibular organs in, of monkeys and rabbits, γ, 22:31209 (UCRL-17751, pp 81-141)
radiation effects on function of auditory analyzer of guinea pig, x, 21:34743(T) (N-67-15553)
radiation effects on function of vestibular analyzer of, in guinea pigs, combined effects of acceleration on γ, 23:26905
radiation effects on function of vestibular analyzer in, of rabbits, x, 22:6905
radiation effects on function of, following therapy of tumors in surrounding tissues, 21:6597
radiation effects on function of, of man following therapy for oral cancer, review of γ, 22:51904
radiation effects on functions of vestibular analyzer in, of guinea pigs, chronic γ, 22:12757(T) (NASA-TT-F-413, pp 192-211)
radiation effects on inner, of guinea pigs and rabbits, pathological x, 22:23600(T) (N-67-18922)
radiation effects on inner, of guinea pigs, x, 22:51890
radiation effects on morphogenesis of, of Ambystoma maculatum, effects of temperature on, x, 22:40921
radiation effects on physiology of vestibular apparatus of rabbit, effects of radioprotective agents on, 21:16373(T) (JPRS-38272, pp 46)
radiation effects on response of vestibular analyzer in, of man following therapeutic exposure, x, 21:32742(T) (N-67-13790)
radiation effects on sensitivity of vestibular analyzer in, of rabbits, in relation to incidence of nystagmus, γ, 22:36364
radiation effects on sensitivity of vestibular analyzer in, of rabbits, 22:36364
radiation effects on sensory cells in inner, in guinea pigs, electron microscopic studies on x, 24:51013
radiation effects on sensory cells in inner, of guinea pigs after 3 hr to 1 wk, x, 23:41457
radiation effects on skin transplants on, of rabbits, silver-111 and iodine-131 β and γ, 22:21439
radiation effects on vestibular analyzer of, in guinea pigs, combined effects of vibrations on γ, 22:12758(T) (NASA-TT-F-413, pp 212-28)
radiation effects on vestibular apparatus of inner, of rabbits, role of sympathetic nervous system in γ, 25:37874(T) (JPRS-53068)
radiation effects on vestibular function of, of astronauts, 21:16449(T) (JPRS-38272, pp 45)
radiation effects on, following radiotherapy of head and neck area, 21:16474
radiation effects on, of dogs, histological studies of otosclerotic, 24:41982
radiation effects on, of mice, secondary laser, 22:10838
radiation effects on, of rabbits, high energy α, 22:12936
radiation injuries to rabbit, protective effects of phlogodym against β, 21:34709
radioactive ion diffusion into inner, of guinea pig, 21:6654
radioinduced carcinomas in external, of rabbits following strontium-90 injection, effects of age and dose on β, 23:38803
radioinduced inhibition of growth of, following therapy of cutaneous hemangiomas during childhood, 21:28667
radioinduced injuries to vestibulocochlear analyzer of human, following therapy for tumors, 24:32242
radioinduced lesions of labyrinthine capsule of, in man, x, 21:22505
radioinduced otosclerosis of, after therapy, 21:22567
radiotherapy of carcinomas of human, use of surface moulage in rotational cobalt-60 γ, 23:38713
radiotherapy of chronic inflammations of, in man, use of intratubal strontium-90 β applicators for, 24:34561
radiotherapy of eustachian tubes of human, use of cobalt-60 and strontium-90 for β and γ, 24:21312
radiotherapy of labyrinth of, in man, apparatus for, 22:33887
radiotherapy of neoplasms of human, use of iridium-192 applicators for contact β, 23:50789
removal of labyrinths of, of rabbits, effects of, on γ-radiosensitivity, 22:28685
strontium-85 incorporation in bones of, in dogs in comparison with other bones, 22:28276 (NYO-2147-13, pp 16-22)
use of mouse, for testing ultraviolet sources, 21:18166
vestibular organs of, function and structure of, as related to space research, 22:31209 (UCRL-17751, pp 81-141)

antineutrino luminosity of, (T), 24:48984
atmosphere development, (T), 22:52311 (BNL-50114)
atmosphere of, conservation equations in flux divergence form for description of behavior of, 23:31263 (UCRL-50593)
atmosphere of, erosion by solar wind during magnetic-field reversal, (T), 23:51359
book: Global Distribution of Radioactive Strontium over the Earth's Surface (in Russian), 24:44128
book: Physical and Radiobiological Investigations of Artificial Satellites of the Earth, 25:55342
book: Physics and Chemistry of the Earth, 21:30538
cavity resonances, frequency variations of ionosphere—, 21:41915
cavity resonator between lower ionosphere and, multimode analysis of model of, 21:35103
charged-particle environment of, low-energy, 21:46217 (N-67-18353)
chemical composition of core region of, antineutrino study of, (T), 24:22777
chemical composition of, soft antineutrino detection for, 24:30438
chemical history of, critical elemental fractionations in, (T), 25:40338
conference on geology and phase transformations in upper mantle of, Canberra, Australia, June 6 to 10, 1969, 24:36401
conference on interior of, Newcastle upon Tyne, England, 3/67, (T), 24:30124
corotation of magnetosphere with the, (T), 22:5220
cosmic dust accretion rate on, review of measurements of, 22:26198
cosmic dust accretion, (T), 22:17216
cosmic dust accretion, (T), 22:21945
crust evolution, model for determination of, 23:9539 (UCRL-71187)
crust failure, effects of tilts on, 25:2035(R) (RLO-2095-2)
crust of, use of lead isotope content of minerals to study, 21:34333
crust structure of, model derived from Novaya Zemyla explosion waves, 22:35970
crust thickness of, calculation using seismic data from underground nuclear explosions, 25:10748
crust thickness of, in Idaho and Nevada, seismological studies to determine, 21:45271
crustal structure of, determination by nuclear explosions of, 21:12544
crustal structure of, determination using seismic waves, 21:45270
day length of, effect of torsional magnetohydrodynamic vibrations in core on, (T), 25:16976
deuterium abundance in upper atmosphere of, (E/T), 23:16623
deuterium abundance in, (T), 25:24798
displacement of, effect of underground nuclear explosion on, 21:10497
distance to Moon, effects of an anisotropic gravitational mass on, (T), 25:27358
distance to Sun, effect on E-region ionization, (E/T), 25:52720
effect on gyroscope precession in earth satellite for test of Einstein and Brans—Dicke gravitation theories, (T), 25:7735
effects of heliolatitude on cosmic-ray intensity in interplanetary space, (T), 21:35050
effects of surface structure of, on atmospheric nuclear explosion-generated Rayleigh wave amplitudes, 24:44154
electric currents in, correlation with geomagnetic-field daily, lunar, and disturbance variations, (E/T), 25:58889
electric field of, perturbation by γ-induced ionization of air, (T), 24:17779
electromagnetic cavity, elf resonant oscillations of ionosphere-, (T), 22:2948
electromagnetic sensing from satellites, conference on, 22:19734
element abundance in, radioactive, (T), 24:48984
element abundances in, rhenium-187 and osmium-187, (T), 24:4983
element determination in, antineutrino-induced K-shell capture for, 24:30438
elemental abundances in, (T), 22:26110
environment of, conference on, 21:828
evolution hypothesis for, 21:30538

evolution of circumterrestrial dust cloud, (T), 21:33089
expansion due to decreasing gravitational constant, (T), 24:30118
expansion of, due to changes in gravitational potential energy, (T), 24:30125
fission product content in two hemispheres of, 21:12527 (AERE-R-5260)
fluid viscosity of core, mechanical, (T), 21:2337 (NP-16362)
formation of crust of, (T), 25:45288
formation of, (T), 25:40337
gamma emission from, spectra of, (E), 24:50462
gamma scattering on air—earth boundaries, properties of, 22:7343
glossary of terms and abbreviations, 22:21785 (RAE-TR-67158)
gravitational redshift of, orbiting clock experiment for, (T), 24:17608
gravity field of, concept of anomalous, 21:21123
heat generation on, from spontaneous fission of radioisotopes, determination of, 24:9501
hydrogen abundance in corona of, (E), 22:11334
hydromagnetic dynamo of the, theory of, 22:34441
hydromagnetic dynamo theory of core of, (T), 24:48978 (N-70-18915)
hydromagnetic oscillations in, (T), 21:31344
illumination for observations by astronauts, 21:3702 (N-66-29456)
impulsive stresses in, effect of underground nuclear explosions on, 21:10490 (UCID-5033)
internal structure of, use of nuclear explosion-produced seismic data for studies of, 24:16725
iodine-129 occurrence and distribution in, 21:42964(R) (NYO-844-71)
ionosphere of, characteristics of, (T), 24:32608
iron and iron—nickel alloy density in core of, (E), 21:23069 (LA-DC-7524)
isotope evolution in dynamic, model for strontium and lead, 22:31727
Lyman-α radiation detection in vicinity of, (E), 22:29135
magnetic field components for, computer program for calculating, 21:18268(R) (PB-173549)
magnetic fields in, generation of, (T), 25:22316
magnetic moment of, effects on carbon-14 production in atmosphere, (E), 24:5019
magnetic-field generation in, at large dynamo numbers, (T), 25:24822
magnetohydrodynamic interactions in liquid core of, (T), 22:7199
magnetohydrodynamic-wave reflection and refraction by, effects on geomagnetic field, (T), 25:7215
magnetospheric boundary of, (T), 22:906
mantle of, conference on, 22:26196
mantle of, mathematical analysis of convection current in, 22:42912 (CU-2663-9, App.V)
mantle of, potassium, thorium, and uranium content in rocks of upper, 22:2201
mass of, laser ranging to moon for determining ratio of gravitational to inertial, 22:37193
materials of, international conference on dynamic properties of, Albuquerque, New Mexico, Aug. 23 to 25, 1967, 23:9579
meteor interaction with atmosphere of, antimatter, (T), 21:44226
motion fields in, shock absorbing system for strong, 21:19526 (SC-TM-67-48)
motion of, near nuclear explosion in halite, 21:8494
motion of, quasi-periodic variability of gravitational constant for solar activity correlation with anomalous, 23:46223
motion of, use of conductor moving in magnetic field to measure absolute, 21:22218
motion relative to frame of reference defined by 3°K background radiation, (E), 25:45281
motion through 3°K cosmic radiation, 23:14585
neutron flux incident on, cosmic thermal, (E), 24:30063
noise spectra of worldwide thunderstorm activity, diurnal variations of Schumann resonance power from, in Earth—ionosphere cavity, (E/T), 25:38234
origin of life on, review of, 22:33734
origin of life on, study of, 22:25788
origin of organic compounds on, 22:25789
penetration studies of, development of equipment for, (E), 21:19813(R) (SC-CR-66-2114)
physics of core of, 25:8189(T) (UCRL-Trans-10500)
potassium content and distribution in, method for determination of, 22:23146
primitive conditions on, biogenesis during, 21:4431 (UCRL-16806, pp 42-3)
primitive conditions on, biogenesis during, 21:4432 (UCRL-16806, pp 44-52)
processes in interior of, fission-track dating of magnetic, mechanical, and thermal events in, (T), 24:30127
radial gradient of cosmic-ray density between Sun and, (T), 22:31664
radio-wave propagation at vlf in waveguide of ionosphere—, (T), 23:10538
radioactive element distribution in, airborne γ spectrometric method of determining, 23:24104
radioactivity in core region, antineutrino emission from natural, (T), 24:22777
radioinduced formation of amino acids and peptides under conditions of primitive, x, 22:45443
radioisotope content of mantle of, relations with earth crust formation process, 24:25118
radioisotopes in crust of, calculation of underground nuclear explosion induced, 22:21225 (HNS-1229-54)
Raman scattering in atmosphere of, rotational, (E), 23:8432
rare earth content, 21:30538
rare-gas abundance on, (E), 24:19530
resonance characteristics of Earth—ionosphere cavity, (T), 22:36823
resonance frequencies of Earth—ionosphere cavity, excitation by single dipole source, Schumann, (T), 25:38241
resonances of shell bounded by ionosphere and, frequencies and Q-factors of, (T), 22:5252
revolution of, general relativity theory for, (T), 25:53333
rotation effects on interaction of solar wind with magnetosphere, 21:2116
rotation of, effects of solar corpuscular streams on magnetosphere and, (T), 21:39921
rotation of, general relativity theory for, (T), 25:53333
rotation rate fluctuations for, pulsar periods for measuring, (T), 24:3068
rotation rate of, use of pulsar period changes to measure, (T), 24:15072
rotation velocity of, solar wind effects on, (T), 21:37284(T) (N-67-18957)
rubidium content and distribution in, method for determination of, 22:23146
seismic crustal function of, 21:1474
seismic response to gravitational wave in 1-Hz band, (T), 23:27325
seismic wave propagation by, effects of fault zones on, 23:11678
seismic wave propagation through, from Salmon event, 21:19780 (VUF-3014)
shape of, book: Introduction to Space Science, 22:19898
shock propagation through, from nuclear explosions in air, 21:252 (AD-634468)
shock wave propagation through, calculation of, 22:47257 (UCRL-13357)
solar wind flow to, effects of Moon on, (E), 22:29152
solar-wind flow past, review, 24:37111
solar-wind interactions with, (T), 22:24167
solar-wind interactions with, (T), 24:42556
strain in surface of, at Round Mountain, Nev. following Handley and Jorum Events, 25:21224
strain in surface of, following Benham underground nuclear explosion, performance of strain gage for, 24:20910
strain in surface of, following Benham underground nuclear explosion, equipment for measurement of, 24:20915
strength of dikes of, effect of Rayleigh waves from nuclear explosions on, 21:8487 (N-66-31960)
stress in crust of, measurement of, 25:41706 (MIT-3966-3)
stress waves in, from underground nuclear explosions, method for calculation and measurement of, 23:2449
strontium content and distribution in, method for determination of, 22:23146
strontium-90 content at surface of, 22:42885
strontium-90 fallout on, 23:4927(R) (HASL-200)
surface lunar variations of diurnal magnetic fields and pressure, out-of-phase phenomena with ionosphere solar variations, (E/T), 25:56037
surface solar variations of diurnal magnetic fields and pressure, out-of-phase phenomena with ionosphere solar variations, (E/T), 25:56036
temperature changes due to fusion energy in years 2000 to 2020, 25:58956
temperature of upper mantle of, calculation of, (T), 22:47236
temperature of, effects of history of sun on, 22:25787
thermal history of, soft antineutrino detection for, 24:30438
velocity measurement from 3°K cosmic radiation, theory for, 23:3817
velocity through cosmic background microwaves, (T), 23:6871
velocity through the 3°K cosmic background, method for measuring, (T), 22:31561
velocity with respect to cosmic background microwaves, (E), 23:34250
wave propagation in stratified medium consisting of ionosphere, atmosphere, and, (T), 21:23088
x-ray albedo from, detection of, (E), 23:34163
EARTHQUAKES

detection and discrimination of, from nuclear explosions, use of teleseismic signals for, 21:22063
detection and identification by seismological means, review of international study group recommendations on, 23:2438
detection and identification of, development of seismic array data analyzer for, 22:196
detection and identification of, signal shape and pressure wave method for, 24:14113
detection at ORNL Station ORT from Aug. 1969 to Aug. 1970, station operation for, 25:18556 (ORNL-4584, pp 41)
detection in central California, development of Large-Scale Seismic Array for, 21:41051(R) (AD-647554)
detection of Project Rulison area, during Sept. 1969, 24:41459 (CGS-746-5)
detection of, analysis of seismic wave data for, 21:12543(R) (AD-640212)
detection of, data on seismic methods for, 24:22817
detection of, effects of distance on seismic methods for, 22:18997
detection of, performance of large aperture seismic arrays for, 22:33578 (AD-662632)
detection of, seismologic differentiation for, 21:8485
detection of, seismological station corrections for, 21:41052(R) (AD-649264)
detection of, use of LASA for, 21:16033
detection of, use of seismological data for, 21:199 (AD-632956)
detection of, use of seismological data for, 21:196 (AD-629431)
detection of, use of seismological data for, 21:200 (AD-632957)
discrimination between nuclear underground explosions and, teleseismic method for, 23:40905
discrimination between underground nuclear explosions and, seismic methods for, 21:10486
discrimination between underground nuclear explosions and, using seismic P-wave spectra, 25:57599
discrimination between underground nuclear explosions and, using short period seismic array data, 25:57600
discrimination between underground nuclear explosions and, seismic wave magnitude method for, 24:27253(T) (JPRS-50421)
discrimination from underground nuclear explosions, seismic data analysis for, 21:198 (AD-631340)
discrimination from underground nuclear explosions, Rayleigh-wave spectral ratio method for, 25:290
discrimination from underground nuclear explosions, seismic methods for, 21:1475 (AD-631105)
discrimination from underground nuclear explosions, seismic methods for, 23:2435
discrimination from underground nuclear explosions, use of long-period seismic wave data for, 23:49970
distribution near Nevada Test Site following Benham underground nuclear explosion, (E), 24:20917
effects of Colombian, in July 1967, 22:35963 (CGS-P-117)
effects of June 21, 1967 Fairbanks, Alaska, on structures, 24:20908 (JAB-99-51)
effects of, design of Japanese reactors against, 21:10147
effects on 850-ft guyed stack, 25:10391 (TID-25618)
effects on avalanches, landslides, and rockfalls of, use of Modified Mercalli intensities for comparison of, 21:30530 (HN-20-1024)
effects on BWR-type nuclear power plants, models for simulating dynamic, (T), 25:57598
effects on cantilever-type buildings, effects of stiffness and strength of horizontal and vertical members on, 22:18661 (NVO-99-31)
effects on Colombian and Venezuelan structures from 1967, 22:39963 (NVO-99-25)
effects on deformation of basalt formations in Pasco Basin, 23:11635 (BNWL-715(Pt.4), pp 2-4)
effects on deformation of soils, relations with soil properties, 24:22814
effects on design characteristics of graphite moderated gas cooled power reactors, 23:37564
effects on design requirements for nuclear facility at Brasimone, Italy, 24:29405 (RT/ING-(70)1)
effects on design requirements for nuclear facility at Brasimone, Italy, 24:29404 (RT/ING-(69)25)
effects on design requirements in Japan of power reactors, 25:5939
effects on design requirements of power reactor Class 1 equipment and structures, 25:57108
effects on design requirements of U.S. power reactors, 23:49578
effects on dynamic response of nuclear power plants, role of soil—structure interaction in, (T), 25:39618
effects on foundations of large structures, factors effecting dynamic, 25:18160
effects on gamma radiation intensity in rocks of Matsushiro area, Japan, 22:27909
effects on JPDR containment vessel, 21:14011
effects on landslides in Pasco Basin, 23:11634 (BNWL-715(Pt.4), pp 1-2)
effects on low-rise structures of moderate sized, near inhabited areas, 22:12171 (NVO-99-19)
effects on Midwest Fuel Recovery Plant, 25:26325 (DOCKET-50268-7)
effects on Midwest Fuel Recovery Plant, 24:13995 (DOCKET-50268-4)
effects on Midwest Fuel Recovery Plant, evaluation of, 23:38024 (DOCKET-50268-2)
effects on motion of buildings, spectral response method for prediction of, 24:16724
effects on nuclear power plant design and construction criteria, 24:22818
effects on nuclear power plant structures, conference on analysis of, 25:54166
effects on nuclear power plants, design and dynamic analysis to minimize, 23:21837
effects on nuclear power plants, design to minimize, 23:43420
effects on nuclear power plants, probabilistic methods for analysis of, 24:22810
effects on nuclear power plants, standards for instrumentation for determining, 25:35061
effects on nuclear power station components, use of response spectrum method for determining, 23:34911 (GA-9232)
effects on nuclear reactor structures, effects of interactions of soils and structures on, 25:18156 (ORO-3822-7)
effects on piping components and systems, summary of experience on, 25:4188 (TID-25553)
effects on piping systems, simplified design method for minimizing, 23:26423
effects on power reactor cooling system and buildings, 25:44079 (UCLA-ENG-7037)
effects on power reactor, design criteria for evaluation, 23:37386 (TID-25021)
effects on radioisotope content of ground waters in USSR, (E), 25:54775
effects on radon content of Tashkent mineral waters, 22:8211
effects on reactor containment structure vibration, model analysis of, 23:24033
effects on reactor containment vessels, tests for simulation of, 22:23184
effects on reactor design and site selection, 22:6436 (ORNL-4168, pp 1-60)
effects on reactor safety, 23:9681 (ORNL-4316, pp 1-69)

effects on reactor siting and design, survey on, 24:43681 (ORNL-NSIC-28)
effects on reactor vessels, model studies of, 25:54305
effects on safety of head-end ventilation system in West Valley Processing Plant, 24:46300 (DOCKET-50201-44)
effects on safety of nuclear power plants, basic concepts and problems in determination of, 24:22806
effects on safety of nuclear power plants, geologic and seismic factors influencing assessment of, 24:22807
effects on safety of West Valley Processing Plant, 24:16621 (DOCKET-50201-31)
effects on safety of West Valley Processing Plant, 25:26324 (DOCKET-50201-68)
effects on safety of West Valley Reprocessing Plant, 24:46299 (DOCKET-50201-42)
effects on soil behavior, 25:8108 (TID-25580)
effects on soil interaction with reactor foundation structures, 25:10245 (ORO-3822-5)
effects on structures, method for determining seismic input data for analysis of, 24:22809
effects on structures, spectral matrix method for prediction of, 22:23243 (NVO-99-33)
effects on structures, statistical method for evaluation of, 24:22811
effects on West Valley Processing Plant design criteria, 25:18496 (DOCKET-50201-65)
energy and magnitude of, 21:30538
epicenter location using seismic wave propagation measurements, travel time bias in, 23:2436
frequency and intensity of Italian, from year 1500 to present, 24:29403 (RT/ING-(69)24)
frequency and intensity of, at three nuclear sites in Italy, 24:29402 (RT/ING-(69)23)
ground motion at Union Bay, Washington from, analysis of data on, 24:16722
ground motion during, response of reactor structures to, 23:11116 (HN-189(Rev.))
ground motion during, use of explosive-generated shock waves for simulation of, 23:11116 (HN-189(Rev.))
ground motion from April 9, 1968 Borrego Mt., measurement at San Onofre power plant site, 24:33811
ground motion from San Fernando, predictions for Glendale area, 25:54812 (NVO-1163-TM-30)
ground motion from, computer analysis and simulation of, 23:43422
ground motion from, damage to multistory buildings from, 22:12459 (NVO-99-30)
ground motion from, effect on damage to structures from, 21:36309 (HN-20-1021)
ground motion from, effects of soil—structure interaction on building-base, 24:22813
ground motion from, effects on reactor safety, 24:39092 (ORNL-4446, pp 23-5)
ground motion from, effects on Sedan Project crater slopes from, 23:31444 (NVO-1163-138)
ground motion from, engineering intensity scale for rating of, 24:16723
ground motion from, parametric method for prediction of, 24:22808
ground motion from, proposed engineering intensity scale for rating, 24:335 (JAB-99-73)
ground motions from, effects of soil conditions on, (T), 24:22812
ground motions from, evaluation of analog computer models for simulating seismograms of, 24:46379 (NVO-1163-217)
ground motions from, methods for determining nuclear power plant site, 24:31522 (TID-25438)
ground motions from, structural damage thresholds from, 23:9590
ground shocks from, source array measurement of, 23:43423
intensity at three proposed nuclear sites in Italy, statistical evaluation of, 24:29400 (RT/ING-(69)14)
intensity measurement of, for use in reactor site evaluation, 21:4640 (AECL-2597)
intensity of "design", at PEC reactor site in Italy, method for definition of, 24:29401 (RT/ING-(69)22)
mechanisms of underground fluid injection-induced, at Denver, Colorado, 24:48197 (ORNL-TM-3154)
modification by the use of underground nuclear explosions, (T), 24:41464
occurrence at Brasimone area, Italy, relations with geologic conditions, 25:21217 (RT/ING-(70)10)
occurrence at Hanford, Washington of, geological evidence on frequency of, 22:25493 (BNWL-481-3, pp 3-5)
occurrence at Nevada Test Site following Benham underground nuclear explosion, 24:2328
occurrence at NRTS, seismic measurements for prediction of, 25:260 (IDO-12073, pp 43-5)
occurrence following Benham underground nuclear explosion, near- and far-field seismic measurements for prediction of, 24:20913
occurrence following nuclear explosions, feasibility studies of, 25:6444
occurrence following underground nuclear explosions, effects of shear wave polarization on, 25:54814
occurrence following underground nuclear explosions, 23:21845 (TID-24996)
occurrence from Project Rulison, comparison of preshot and postshot, 24:27252 (CGS-746-2)
occurrence in Aleutian Islands, effects of Project Milrow nuclear explosion on, 24:19118 (CGS-746-101)
occurrence in Amchitka Island region, effects of Milrow Event on, 25:57597
occurrence in Amchitka Island region, effects of Milrow Event on, 25:48676 (CGS-746-120)
occurrence in Central Nevada Test Area, Sept. 1969 to Oct. 1970, 25:44462 (USGS-474-109)
occurrence in neutron stars, (T), 24:10227
occurrence near Nevada Test Site during 1950 to 1971, (E), 25:57589 (CGS-746-12)
occurrence near Nevada Test Site following Benham underground nuclear explosion, (E), 24:20917
occurrence near Nevada Test Site, effects of Benham underground nuclear explosion on, 24:20912
occurrence of distant, during Sept. 1961 to Dec. 1968, effects of nuclear explosions on, 24:46383
occurrence of micro-, in eastern Nevada and Death Valley, California, effects of Benham underground nuclear explosion on, (E), 24:20911
occurrence of secondary, following underground nuclear explosions, 24:9546
occurrence of, effects of underground nuclear explosions on, 23:40904
occurrence of, effects of underground nuclear explosions on, 24:46384
piping systems to withstand, design of nuclear power plant, 23:19881
prediction of, (T), 24:41464
production by underground nuclear explosions, 23:45425 (NVO-40(Rev.2), pp 227-37)
protection against, typical building code requirements for, 23:11116 (HN-189(Rev.))
protection of power reactors against, feasibility of barge-mounting of reactor for, 23:28525
protection of power reactors against, survey of designs for, 22:53283(T) (ORNL-tr-1940)
reactor protection against, description of multi-cylinder concentric blankets for, 22:14343(P)
reactor safety hazards from predicted, legal aspects of, 23:26060
resistance of nuclear power plants to, floating breakwater concept for, 22:32793
response and velocity spectra for, 23:11116 (HN-189(Rev.))
response of reactors to, use of vibration testing for simulation of, 23:40380
rock stresses at Morrow Point underground power plant from, elastic vibration method for calculation of, 22:25557 (SA-6)
seismic activity from micro-, in western US, measurement of, 25:10731
seismic intensity of, methods for evaluation of, 24:22816
seismic studies for Tokai-Mura Power Reactor safety, 22:14159
seismic wave amplitude spectra from low-intensity, performance of high gain long period seismometer for recording, 24:11716
seismic wave magnitude of, method for calculation of, 21:19780 (VUF-3014)
seismic wave propagation from, (E/T), 25:37506(T) (UCRL-Trans-10436)
seismic wave propagation from, compared with Project Gasbuggy, 23:21842 (PNE-G-32)
seismic wave spectra for, comparison with underground nuclear explosions, 25:288
seismic wave spectra for, comparison with underground nuclear explosion data, 24:22821
seismic wave travel times from, compared to nuclear explosions, 21:8486
seismic waves from shallow, at teleseismic distances, propagation of, 24:7538
seismic waves from shallow, travel times for P, 23:11681
seismic waves from shallow, travel times for, (E), 24:22822
seismic waves from worldwide, large aperture seismic array studies of multipath propagation of Rayleigh-type, 25:289
seismic waves from, and Project Gasbuggy underground nuclear explosion, comparison of travel times for, 25:41952 (AD-838894)
seismic waves from, compared with underground nuclear explosions, 24:22804 (USGS-474-58)
seismic waves from, comparison of nuclear explosion-generated Rayleigh waves with, 24:336
seismic waves from, comparison of P-wave spectra of, (E), 25:32098
seismic waves from, dynamic and kinematic characteristics of, 25:6443
seismic waves from, propagation in crust of eastern Canadian shield of, (E), 24:33809
seismic waves of, ionospheric propagation of acoustic waves from, (E), 24:37361
shock waves from, effects on mechanical structures of, 21:16048
short-period seismic energy radiation patterns from, 21:36180
site response to, stochastic simulation method for prediction of, 23:9578 (JAB-99-39)
stimulation by Calabash, Cruet, and Pod underground nuclear explosions at Yucca Flat, Nevada, 25:6442 (USGS-474-94)
stress in pressure vessel support-skirts from, analysis of simulated asymmetries, 23:11259
stress relaxation in crust of neutron stars, (T), 23:41824
stresses on building structures from, analysis of seismic, (E/T), 22:12207(T) (ORNL-tr-1824)
structural response to June 27, 1966 Parkfield, California, relation to ground acceleration, 22:12171 (NVO-99-19)
surface faulting from, effect on nuclear power plant siting of, 22:8207 (TID-24124)
vibrations from, intensity spectra of, 21:25625(R) (GEAP-5427)
water wave generation by, hazards to Amchitka Island, Alaska from tsunami, 24:41457 (NVO-289-7)

iron-55 content in sea cucumber, caught in Columbia River plume, 21:18018
Legasterios sp., ecology in Amchitka Island, Alaska, feasibility studies for possible nuclear testing, 24:44454(R) (BMI-171-128)
Luidia senegalensis, content of stable elements in, from Puerto Rico coast, 22:21408 (PRNC-104, pp 54-6)
Lytechinus pictus, radiation effects on development of embryos of, cobalt-60 γ, 24:12222 (UCRL-50717)
Lytechinus pictus, radiation effects on development of eggs of, γ, 24:2771
Lytechinus pictus, radioinduced division delay in developing eggs of, effects of chemical agents on recovery from γ, 24:27607 (ANL-7615, pp 25-32)
Neocomatella sp., strontium-90 distribution in, in Gulf of Mexico, 24:12028(T) (AEC-tr-7128, pp 51-6)
ophiuroids, ecology at Eniwetok Atoll, 23:35683(R) (SAN-226-4-X)
oxygen isotope fractionation in, 23:13716
Paracentrotus lividus, radiosensitivity of sperm of, effects of psoralen on uv, 22:21563
Paracentrotus lividus, zinc-65 uptake by developing eggs of, 23:20106
photoreactivating activity in, review of distribution of, 25:21807
plutonium-239 content of marine, in Greenland during 1968 following nuclear weapons accident, 25:21640
Psammechinus miliarus, radiation effects on mitosis in ova of, 21:16320
radiation injuries in, regeneration of starfish following x, 21:3445
radioisotope accumulation by, in aquariums and natural ecosystems, cerium-144, cesium-137, and ruthenium-106, 23:26783
radioisotope content of marine, lead-210, polonium-210, and radium-226, 23:769 (ANL-7360, pp 68-149)
radioisotope content of sea cucumbers and sea urchins in Pacific Ocean, lead-210 and polonium-210, 25:10997(R) (RLO-2225-T-14-1)
radioisotope uptake by, from sea water, 21:20115
radioisotope uptake by, in Columbia River estuary, 23:9906(R) (RLO-1750-28)
Scorpaena porcus, radioinduced chromosome aberrations in embryos of, protective effects of streptomycin against yttrium-91, 24:16954
sea urchins, radioinduced delay of cleavage in gametes of, recovery from cesium-137 γ, 24:32142 (ANL-7489, pp 13-19)
Strongylocentrotus drobachiensis, ecology in Amchitka Island, Alaska, feasibility studies for possible nuclear testing, 24:44454(R) (BMI-171-128)
Strongylocentrotus purpuratus, uptake of leucine and thymidine by developing eggs of, effects of deuterium oxide on, 23:45639
Strongylocentrotus puvpuvatus, radiation effects on DNA synthesis in developing eggs of, uv and x, 22:28337
Strongylocentrotus sp., effects of Milrow underground nuclear test on populations of, in vicinity of Amchitka Island, Alaska, 25:49131
strontium-90 content of, in Gulf of Mexico and Red Sea, comparison of, 23:24578 (A-AC.82/G/L-1254, pp 3-9)
strontium-90 determination in, from Black Sea, radiometric method for, 21:8809(T) (AEC-tr-6641, pp 121-7)
Tripneustes esculenta, radioisotope uptake by, chromium-51, iron-59, manganese-54, zinc-65, 23:12044 (PRNC-60)
zinc-65 content of marine, of Oregon effects of diel, season, and geographic location on, 22:31015
zinc-65 contept of, in Pacific Ocean off Oregon, 23:18011 (CONF-670503-, pp 380-8)
zinc-65 distribution in organs of, 23:2760
zinc-65 distribution in tissues of starfish, effects of feeding habits on, 21:39373(R) (RLO-1750-22(Vol.1))

ECLOGITES
analysis of nodules of, from Roberts Victor mine, South Africa for lead, rubidium, strontium, thorium, and uranium, 25:20910
analysis of nodules of, from Roberts Victor mine, South Africa for lead-204/lead-206, lead-204/lead-207, lead-204/lead-208, and rubidium-87/strontium-86, 25:20910

energy exchange within, 24:22523(R) (COO-1711-9)
energy transfer in forest, solar and thermal, 22:6772 (ORNL-4168, pp 61-118)
evaluation of animal, at Nevada Test Site, 21:36537
fallout contamination of, in Japan, 24:2601
fallout distribution in, 21:36618
fallout distribution in forest, marine, and peninsular, in Alaska, variations in, 25:37770 (BNWL-1551(Pt.2), pp 5-11)
fallout distribution in tropical rain forest, tracer study of, using cerium-144, cesium-137, and zinc-95, 23:50401 (PRNC-129, pp 1-86)
fallout transport in marine, mathematical model for, 24:12036 (BMI-171-123)
fallout transport through, from environmental contamination, 24:46594
fission product distribution in model of stream, 22:19303
fission product fate in aquatic, 24:41875 (AECL-3430, pp 19-31)
fission products transport in aquatic, 24:7727 (AECL-3374)
food production for rodents in desert, 22:25800 (UCLA-12-668, pp 37-58)
hazards to animals and plants in desert-steppe, from fires, 25:37745(R) (BNWL-1550(Vol.1)(Pt.2))
herbicide metabolism in, review of, 22:14913 (ORNL-TM-2042)
host-parasite relations of ticks in field, tracer study of, 24:9803(R) (ORO-3514-9)
interactions in aquatic, 24:39465 (ORNL-4446, pp 137-52)
interactions of algae—bacteria—macrophyte, in littoral of lakes, 24:16353 (COO-1599-25(Pt.2))
interactions of epiphytic algae and bacteria or macrophytes in littoral of lakes, 24:16351 (COO-1599-24)
iodine isotope transport through, research program for analysis of kinetics of, 25:16082
iodine-131 content of components of lake, 23:17975 (CONF-670503-, pp 278-84)
iodine-131 transport in aquatic, 24:23155
legislation governing protection of, in USA, 25:37829 (A/CONF.49/P-89)
management of aquatic reservoir, 23:29431
manganese-54 distribution in aquatic, role of crustaceans, fish, nd plants in, 24:48464 (NP-18395)
mercury contamination of, research on, 25:32375
mineral content of vegetation of, in Guatemala and Panama, 23:50407
mineral cycling in salt marsh, effects of pesticide, radioactive, and thermal pollution on, 25:37753 (NYO-3995-18)
mineral distribution in aquatic, role of vascular hydrophytes in, 22:19299(R) (NYO-3018-18)
mineral transport in aquatic, reaction dynamics for, 25:24073 (BNWL-SA-3291)
mobility of frogs, insects, lizards, and snails in, tracer study of, 23:50402 (PRNC-129, pp 87-121)
mobility of small animals in, tracking of, using attached radiation sources, 23:43656
model of Amchitka Island lowland stream, 25:49145
model of hypothetical, numerical solution methods for differential equations in simplified energy flow, 25:18289 (ORNL-IBP-70-4)
modeling of, code for linear, 25:44278 (ORNL-IBP-71-2)
nitrogen cycles in dune and grassland, equations for, 23:9904 (ORNL-4316, pp 71-160)
nuclear explosion effects on animal and plant, on Amchitka Island, Alaska, 25:49148
nuclear test effects on Amchitka Island marine and terrestrial, use of Milrow data in predictions of Cannikin, 25:42318 (TID-25735)
nutrient cycling and productivity of dystrophic lake-bog, 25:37182(R) (COO-1770-3)
nutrient cycling in tropical forest, tracer studies, 25:20897 (TID-25656)
nutrient cycling through tropical rain forest, 23:45686
nutrients and water transport through tropical rain forest, 22:49282(R) (PRNC-119)
organic production in ocean, relation of hydrodynamic processes to, 24:43900(R) (ORO-3845-2)
pesticide transport through, of Long Island estuaries, 22:14905 (BNL-50057, pp 111-22)
phosphorus cycling in Douglas Fir forest, computer simulation of, 23:9904 (ORNL-4316, pp 71-160)
phosphorus-32 transport in food chain of simple, 23:17984 (CONF-670503-, pp 709-10)
plant associations of, in Manitoba, Canada, 24:17011 (AECL-3424)
plant populations in terrestrial, in Colombia and Panama, transport of stable elements through, 23:45685
plutonium movement in aquatic, 25:55150 (CONF-710401-, pp 407-10)
pollution of aquatic, chemical, 23:40837
preservation of U.S., effects of fossil fuel and nuclear power plants thermal effluents on, 25:23218
productivity in plant, use of computers for determining effects of site factors on, 22:23478 (ORNL-TM-1974)
productivity of grassland, in East Tennessee, computer models for primary seasonal, 23:37856 (ORNL-4310)
productivity of salt marsh epiphytic, effects of environmental stress on, 25:37754(R) (NYO-3995-20)
properties of Walker Branch Watershed, facilities and methods for studies of, 23:52510 (ORNL-TM-2271)
radiation dose in, evaluation of lithium-7 fluoride thermoluminescent dosimeters for low-level γ, 24:31977 (ANL-7489, pp 116-17)
radiation dose to biological components of, development of models for estimating, 25:37742 (A/CONF.49/P-85)
radiation dose to organisms in marine, following discharge of radioactive wastes into seawater, 25:42373
radiation effects and interactions in aquatic and terrestrial, progress report on, 22:10674(R) (BNWL-480)
radiation effects on alpine plant, uv, 23:29428
radiation effects on animal-plant-soil, 22:51875 (TID-4060(1st Ed.))
radiation effects on aquatic and terrestrial, bibliography on, 25:46763 (ORNL-NSIC-95)
radiation effects on aquatic, from nuclear weapons testing and operation of nuclear power plants, 24:39467 (RLO-2225-T-1-1)
radiation effects on aquatic, recovery patterns following, 25:52013
radiation effects on arthropod, at Nevada Test Site following nuclear explosion, fallout, 23:2805
radiation effects on cesium-137 and cobalt-60 transport in aquatic microcosmal, effects of biotic complexity on fast neutron, 23:12043 (ORNL-4318)
radiation effects on Colorado, 25:21613(R) (COO-1156-40)
radiation effects on composition of granite outcrop, γ, 23:14140
radiation effects on composition of, on granite outcrops, γ, 22:23480(R) (ORO-2412-7)
radiation effects on decay and production of humus and litter in oak-pine forest, chronic γ, 22:45471
radiation effects on desert, 22:25800 (UCLA-12-668, pp 37-58)
radiation effects on desert shrub, high-level local fallout, 25:42717 (EGG-1183-2272)
radiation effects on desert, low-level γ, 24:41794
radiation effects on diversity and structure in oak-pine forest, γ, 21:36538
radiation effects on dominant species of oldfield, combined effects of environment on γ, 23:35682(R) (ORO-3299-20)
radiation effects on flower production and growth of shrubs in desert, chronic high-dose γ, 24:17012 (UCLA-12-761)
radiation effects on forest, 25:52011 (A/CONF.49/P-685)
radiation effects on forest, review of, 22:47499
radiation effects on function and structure of terrestrial, in comparison to effects of other forms of pollution, review of, 24:34203
radiation effects on granite outcrop, γ, 23:17969 (CONF-670503-, pp 99-109)
radiation effects on graphite outcrop, 23:17988 (ORO-2412-18)
radiation effects on growth and survival of plant species in natural, beta and gamma, 25:42316(R) (ORO-3299-107)
radiation effects on growth of algae and invertebrates in salt marsh, effects of light on, 25:39807 (NYO-3995-19)
radiation effects on growth of animals and plants in, cosmic, 24:17018
radiation effects on growth of marine periphytal, contaminated with cerium-144 and cesium-137, 25:18936
radiation effects on island community, of Southeastern granite outcrops, 23:35682(R) (ORO-3299-20)
radiation effects on kinetics of cesium-137 and cobalt-60 in aquatic, fast neutron, 23:41275
radiation effects on lichens and trees of forest, γ, 22:31016
radiation effects on marine, in relation to waste disposal, review of, 25:26683
radiation effects on marine, in USSR, 23:38517
radiation effects on marine, review of, 22:28396
radiation effects on Mediterranean, cesium-137 γ, 24:41793
radiation effects on metabolism in granite outcrop, following exposure to simulated fallout particles coated with yttrium-90, 25:42320
radiation effects on natural, relation of radiosensitivity of insect populations to, 23:45883
radiation effects on old field, effects of dose and dose rate on γ, 23:43719
radiation effects on plant, chronic γ, 22:51487
radiation effects on plant, in vicinity of Cabriolet event, Nevada Test Site, 23:41272 (PNE-956)
radiation effects on plant, in vicinity of Cabriolet event, fallout β and γ, 23:41272 (PNE-956)
radiation effects on populations of animals and plants in desert, chronic low-level γ, 23:43717 (UCLA-12-734)
radiation effects on Puerto Rican forest, γ, 21:20112 (UCLA-12-612, pp 77-93)
radiation effects on quantitative compositional changes in, chronic γ, 22:23479(R) (ORO-2412-1)
radiation effects on rain forest in Puerto Rico, recovery from cesium-137 β and γ, 23:17968 (CONF-670503-, pp 88-98)
radiation effects on rain forest, in Puerto Rico, 25:42317(R) (PRNC-147)
radiation effects on reproductive potential of dominant plant species of granite outcrop, acute simulated fallout β, 25:42718 (ORO-3299-110)
radiation effects on secondary succession of plants in tropical rain forest, γ, 23:50401 (PRNC-129, pp 1-86)

radiation effects on shrubs and trees of forest, cesium-137 γ, 22:47497
radiation effects on soil, research applications of γ, 23: 38515 (AERE-R-6061)
radiation effects on succession of plant, on bed of White Oak Lake, 22:21462
radiation effects on survival of animals and plants in desert, research studies at UCLA from July 1969 to July 1970, 25:4425(R) (UCLA-12-782)
radiation effects on terrestrial, research at Battelle-Northwest during 1969 on, 24:50801 (BNWL-1306(Pt.2), pp 2.1-31)
radiation effects on transport of cesium-137 and cobalt-60 in aquatic microcosmic, combined effects of biotic complexity on fast neutron, 23:9904 (ORNL-4316, pp 71-160)
radiation effects on tropical rain forest, γ, 25:21639 (TID-24270, pp I.191-289)
radiation effects on tropical rain forest, in Puerto Rico, γ, 22:47496(R) (PRNC-103)
radiation effects on tropical rain forest, recovery of plant components from γ, 22:49282(R) (PRNC-119)
radiation effects on, at Nevada Test Site, 22:23480(R) (ORO-2412-7)
radiation effects on, at Nevada Test Site, 22:25800 (UCLA-12-668, pp 37-58)
radiation effects on, combined effects of environment on ionizing and thermal, 23:29429
radiation effects on, following nuclear excavation, safety feasibility study of, 23:50561
radiation effects on, in Brazil, chronic high-level natural background, 23:7972 (NYO-2577-10)
radiation effects on, in Brazil, chronic high-level natural background, 23:7973(R) (NYO-3273-11)
radiation effects on, in Brazil, natural background, 22: 6770(R) (NYO-3273-9)
radiation effects on, in Chalk River area from waste disposal, 22:2502 (AECL-2665)
radiation effects on, in rain forest of Puerto Rico, experimental cesium-137 γ, 22:43476 (PRNC-61)
radiation effects on, in tropical rain forest, 22:6772 (ORNL-4168, pp 61-118)
radiation effects on, in tropical rain forests, γ, 25:21633 (TID-24270)
radiation effects on, in vicinity of Trisaia reprocessing plant in Italy, 24:39469 (RT/PROT-(69)43)
radiation effects on, natural and fallout, 24:41784
radiation effects on, of aphids in Brookhaven Forest, chronic γ, 22:8500
radiation effects on, of Marchantia polymorpha with other bryophytes, natural γ, 23:50405
radiation effects on, of Panola Mountain, effects of day length, rainfall, soil moisture, and temperature on, 24: 23139(R) (ORO-2412-24)
radiation effects on, projected long-term, 25:23206
radiation effects on, regeneration of animal and plant populations following nuclear explosions, 23:29427
radiation effects on, reinvading detonation site following nuclear explosion, effects of time on, 23:29476 (UCRL-71443)
radiation effects on, review of ionizing, 23:50586 (CONF-671135-, pp 107-35)
radiation effects on, surrounding Rulison detonation, fallout, 24:23131 (BMI-171-201)
radiation hazards to, from Plowshare Project, philosophy underlying safety standards, 24:23143 (SWRHL-82, pp 176-184)
radiation monitoring near Casaccia Nuclear Center in Italy in relation to critical crops, critical population groups, and maximum rates of radioisotope discharge, 25:16163
radiation monitoring of aquatic, in Danube River during 1958 to 1967, total β, 24:7850
radiation monitoring of Arctic, in Finland, 21:36571 (CONF-670503-18)
radioactive contamination in, in Japan, 23:14139
radioactive contamination of aquatic, by nuclear excavation, 22:10740 (BNWL-480, pp 153-93)
radioactive contamination of aquatic, effects of concentration factors in organisms on, 22:17002 (UCRL-50347)
radioactive contamination of aquatic, in Colombia and Panama following nuclear excavation of interoceanic canal, 24:14442 (BMI-171-22)
radioactive contamination of marine, analysis of, in relation to concentration factors, 23:20227
radioactive contamination of, by mixed fission products, methods for studies of, 21:18019
radioactive contamination of, during and after nuclear excavation, 23:18005 (CONF-670503-, pp 9-22)
radioactive contamination of, effects of fallout and wastes from reactor power plants on, 25:18941
radioactive contamination of, hazards from, 21:39423
radioactive contamination of, in vicinity of nuclear facilities, methods for assessment of, 21:20176 (NP-16616)
radioactive contamination problems in marine, conference on, 23:20226
radioactive elements in marine, review of natural, 22: 8232 (ORO-2411-8)
radioactive waste disposal in, standards for, 24:2648(T) (ORNL-tr-1677)
radioactivity of running-water, using periphyton attached to artificial substrate, analysis of, 25:29478
radioactivity transport through, 22:51875 (TID-4060(1st Ed.))
radiobiology effects of plant, in Grenoble, France, 23: 29417(T) (AEC-tr-7038)
radiobiology of, proceedings of symposium on, 1967, 23: 17963 (CONF-670503)
radiobiology research in marine, 25:35117
radiocobalt transport in artificial aquatic, double tracer study of, 25:2549
radioecology of lanthanide-contaminated aquatic, 23: 43715 (CEA-Bib-138)
radioecology of marine, bibliography on, 24:7770 (TID-3917)
radioisotope accumulation by organisms in aquatic, effects of stable element content on, 25:55158
radioisotope accumulation in aquatic, in Finland, 25: 18930 (NYO-3446-14, Paper 27)
radioisotope accumulation studies in, of granitic outcrops of Georgia Piedmont, 21:19759 (NP-16464)
radioisotope behavior in tropical rain forest, evaluation of fallout, 22:47496(R) (PRNC-103)
radioisotope behavior in, γ-spectrometry of absolute and relative, 21:22365 (BNWL-SA-993)
radioisotope concentration factors for, review of, 24: 31902
radioisotope contamination of aquatic, following nuclear excavation, 24:9827 (CONF-690303-, pp 75-94)
radioisotope contamination of aquatic, in relation to public health hazards, review of, 24:7793
radioisotope contamination of pasture, transfer coefficient for radioisotope content of milk following cesium-137 and strontium-85, 24:48380
radioisotope content in Northeast Pacific Ocean, June 1969, 23:13669 (BNWL-715(Pt.2), pp 1-149)
radioisotope content of aqueous and terrestrial, in Finland, 25:37789(R) (NYO-3446-15)
radioisotope content of components of, in Columbia River Estuary and adjacent Pacific Ocean, 24: 14443(R) (RLO-1750-54)
radioisotope content of marine, design of model for compartmental analysis of, 22:10750
radioisotope content of plankton and water in marine, 23:29484
radioisotope content of, at Eniwetok Proving Grounds during 1964, survey of, 23:9944 (UWFL-93(Pt.2))
radioisotope content of, in Colorado during 1969, 24: 21096(R) (COO-1156-35)
radioisotope content of, of Colorado during 1961 to 1967, determination of fallout contribution to, 22: 21459(R) (COO-1156-28)
radioisotope cycling in aquatic, cesium-137 and strontium-90, 24:570
radioisotope cycling in aquatic, cobalt-58 and ruthenium-106, 25:24128(R) (EUR-4546)
radioisotope cycling in aquatic, in White Oak Lake, 25: 21624 (ORNL-4634, pp 104-10)
radioisotope cycling in aquatic, use of specific activity concept for predicting kinetics of, 25:32376
radioisotope cycling in terrestrial, 24:39463 (ORNL-4446, pp 76-112)
radioisotope cycling in terrestrial, 25:21619(R) (ORNL-4634)
radioisotope cycling in terrestrial, development of model for, 25:21621 (ORNL-4634, pp 21-52)
radioisotope cycling in White Oak Lake, 24:39464 (ORNL-4446, pp 113-36)
radioisotope deposition in marine and terrestrial, of Alaska, rate of fallout, 24:48457 (BNWL-1307(Pt.2), pp 5-7)
radioisotope distribution and transport in aquatic and terrestrial, cesium-137, potassium-40, and radium-228, 25:21643
radioisotope distribution by aquatic, 21:43355
radioisotope distribution in Alaskan, effects of fallout from 1959 to 1967 on, 21:39396 (BNWL-SA-1327)
radioisotope distribution in aquatic and terrestrial, 24: 31878(R) (BNWL-1050(Pt.2))
radioisotope distribution in aquatic and terrestrial, 22: 33777 (TID-3910(Suppl.5))
radioisotope distribution in fresh-water, marine, and terrestrial, 21:26389 (RT/BIO-(67)1)
radioisotope distribution in marine, of Columbia River estuary, 23:9906(R) (RLO-1750-28)
radioisotope distribution in plants of mountain-tundra and taiga biogeocenoses, 24:41785
radioisotope distribution in, mathematical models for, 21:12883
radioisotope distribution in, of Columbia River estuary, 21:39373(R) (RLO-1750-22(Vol.1))
radioisotope mineralization and immobilization in tree litter, effects of faunal and microbial populations on kinetics of long-lived fallout, 24:6016
radioisotope retention by grasses in pasture, effects of atmospheric precipitation on, 24:6014
radioisotope sorption by dead tissues of plants in aquatic, cerium-144, cesium-137, ruthenium-106, and strontium-90, 24:7777
radioisotope studies in Colorado, report of 1968, 23: 20142(R) (COO-1156-30)
radioisotope tracer studies of agricultural, review, 25: 51968 (CONF-710428-, Paper 5)
radioisotope transfer through, use of compartmental analysis for determining, 21:39368 (BMI-171-009)
radioisotope transfer to man in tropical, use of system analysis for prediction of, 23:17985 (CONF-670503-, pp 731-9)
radioisotope transport and uptake in Alaska, 24:50801 (BNWL-1306(Pt.2), pp 2.1-31)
radioisotope transport in aquatic, cesium-137, cobalt-60, and ruthenium-106, 24:21105
radioisotope transport in aquatic, development of mathematical model for, 25:2542
radioisotope transport in aquatic, following nuclear cratering event, factors affecting, 25:39808
radioisotope transport in aquatic, statistical analysis of, 25:10998
radioisotope transport in arctic, of Alaska, fallout, 23: 50395 (BNWL-1051(Pt.2), pp 14-17)
radioisotope transport in food chains of nuclear explosion-contaminated estuarine and marine, in relation to daily ingestion by man, use of stable element content of fish and invertebrates for predicting, 25:8627
radioisotope transport in food chains of nuclear explosion-contaminated tropical, ecological model for predicting, 25:8626
radioisotope transport in fresh water, method for direct measurement of, 23:26713
radioisotope transport in freshwater, 25:2541
radioisotope transport in freshwater, following nuclear detonation, effects of leaching on fallout, 25:4479
radioisotope transport in freshwater, model for, 24: 20875 (ORO-490-20)
radioisotope transport in laboratory, effects of environmental factors on, 23:43401(R) (TID-25134)
radioisotope transport in marine, cerium-144, cesium-137, and ruthenium-106, 23:26783
radioisotope transport in marine, following waste disposal, use as tracer in studies of metabolism of cadmium, cerium, cesium, cobalt, iodine, strontium, and zinc by animals and plants, 24:31897
radioisotope transport in phytoplankton, in relation to productivity, 23:33663 (AAEC/TM-492)
radioisotope transport in terrestrial microcosmic, cesium-137, manganese-54, and phosphorus-32, 23:9904 (ORNL-4316, pp 71-160)
radioisotope transport in, development of dynamic models for, 25:37742 (A/CONF.49/P-85)
radioisotope transport through animal and plant, 23: 48007 (UCLA-12-724, pp 1-21)
radioisotope transport through aquatic and terrestrial, bibliography on, 25:46763 (ORNL-NSIC-95)
radioisotope transport through freshwater, use of water basin model to determine, 23:26714
radioisotope transport through salt marsh, mathematical models for, 23:48005(R) (ORO-3238-7)
radioisotope transport through salt-marsh, phosphorus-32 and zinc-65 tracer study of, 22:6773(R) (ORO-3238-3)
radioisotope transport through terrestrial, following nuclear excavation detonation, model for determining mechanisms of fallout, 24:23144 (SWRHL-82, pp 401-35)
radioisotope transport through, in relation to food chain processes, mathematical simulation of, 24:50801 (BNWL-1306(Pt.2), pp 2.1-31)
radioisotope transport through, to man, mechanisms for, 24:34191
radioisotope transport through, use of biological models and computer calculations for measurements of kinetics of, 25:57947 (CONF-710501-35)
radioisotope transport time in, calculations of, 25:26751 (UCRL-50163(Pt.7))
radioisotope uptake by algae in freshwater, sessile method for measurement, 22:43275
radioisotope uptake by living and nonliving components of aquatic, statistical analysis of cesium-137, cobalt-60, manganese-54, strontium-85, and zinc-65, 23:9904 (ORNL-4316, pp 71-160)
radioisotope uptake by organisms in aquatic, following nuclear cratering event, 25:39808
radioisotope uptake by plants and trees of river bank, 23:29419(T) (AEC-tr-7040)
radiosensitivity of old field, effects of seasons on, 23: 35682(R) (ORO-3299-20)
radiosensitivity of typical, under conditions of nuclear warfare, 21:20233 (NP-16462)
radium-226 accumulation in, of Colorado rivers, uranium mill waste, 23:17976 (CONF-670503-, pp 307-18)
radium-226 distribution in aquatic, 22:47498
recovery of desert grass—shrub—plant, following exposure to blast, fire, and radiation during surface and underground nuclear explosions, 25:37757 (UCLA-12-817)
research on aquatic, in Chalk River, Canada area, 24: 39450(R) (AECL-3451)
ruthenium cycling in aquatic, 23:43282
ruthenium transfer in aquatic, bibliography on, 22:51486 (CEA-Bib-123)
ruthenium-106 contamination of marine, comparison between soluble and insoluble, 25:18944
safety studies of Amchitka Island, Alaska, in relation to possible underground explosion testing, 1968 progress report on, 23:26709(R) (BMI-171-116)
sampling of materials in, for radionuclide content, reliability of data from, 21:14616 (BNWL-280, pp 100-1)
secondary succession in, of abandoned cultivated fields, bibliography on, 22:38237 (ORNL-TM-2104)
seismic disturbances of aquatic on Amchitka Island, Alaska, effects of, on primary productivity, 23:26710 (BMI-171-117)
Spartina salt marsh, arthropod radioisotope exchange in, 21:8750
strontium isotope accumulation and transfer in forest, following inoculation in young loblolly pines, 22:43274 (TID-24597)
strontium-85 distribution in tissues of animals in freshwater pond, 21:36536 (NP-16906)
strontium-90 accumulation by animals in aquatic, 25: 11006
strontium-90 contamination of marine, 24:12039
strontium-90 content in arctic, factors affecting, 21: 12798
strontium-90 content in cattail marsh, maize field, and oakwood, 21:26442
strontium-90 content of organisms of aquatic, in Black Sea area, 23:17986 (NP-17713)
strontium-90 distribution in aquatic, effects of uptake by fresh-water plants on, 24:7778
strontium-90 transport in field crop, effects of agricultural practices, hydrology, and soil type on, 25: 16085
strontium-90 uptake by aquatic algae, crustacean, and fish, 23:38518
study of plankton, of Oyster Bay, Jamaica, 23:2804(R) (NYO-3480-10)
survey in vicinity of Trisaia Reprocessing Plant to determine methods for disposal of low-activity liquid radioactive wastes, 25:29479
survey in vicinity of underground nuclear explosions, programs for, 23:45682 (NVO-40(Rev.2), pp 301-11)
survey of animal and plant, in Georgia and South Carolina, 25:24075(R) (ORO-2412-35)
survey of aquatic, in proposed Atlantic-Pacific interoceanic canal area, 24:34190

survey of benthic marine algal, at Amchitka Island, Alaska, 23:26708 (BMI-171-115)
survey of Johnston Island, effects of dredging on, 21:23793(R) (NVO-90-1)
survey of marine, Jervis Bay, Australia, nuclear power plant site, 25:42314 (CONF-710511-3)
temperature effects on marine, 24:23151(R) (TID-25339)
thermal effects in Columbia River, from Hanford Production Reactors, 24:43839 (BNWL-SA-3465)
thermal effluent effects on, bibliography on, 25:10159 (ORNL-NSIC-81)
thermal pollution of, limits for industrial, 23:43398 (CONF-680309, pp 153-67)
trace element content in fish and fish livers from Lake Erie, Lake Michigan, and Lake Superior, 25:21644
trace element distribution in marine, tracer study on, 25:48373 (CONF-710501-32)
trace element pathways in Arctic Lake, 25:15451(R) (SAN-310-P-4-10)
trace elements in Arctic lake, movement of, 21:22368(R) (SAN-310-P-4-3)
transfer matrices in freshwater and terrestrial, construction of models for, 25:39388 (ORNL-IBP-71-3)
transport of chlorine-36-labeled DDT in marsh, 21:34626 (COO-1358-3)
transport of trace elements in lake, in Arctic regions, 23:29424(R) (SAN-310-P-4-6)
tritium cycling in tropical rain forest, following application in simulated rainfall or pulse injection into trees, 23:50401 (PRNC-129, pp 1-86)
tritium cycling in, radiation hazards to man from, 25:39865
tritium cycling in, relation of radiation dose to man to, 25:37793 (UCRL-73085)
tritium effects on and distribution in, 25:48230
tritium movement in tropical, tracer studies of, 24:41491 (CONF-700101-(Vol.1), pp 422-38)
variation in shortgrass, statistics of basic, 24:41086(R) (COO-1821-2)
variation of Great Lakes, effects of 16 power reactors thermal effluents on, 24:22372
vegetation in desert, effects on populations of darkling beetles, 21:14615 (BNWL-280, pp 103-4)
water movement through old-field, mathematical model for tritiated and stable, 25:41690 (CONF-710501-25)
water movement through old-field, tritium tracer study of, 25:41687 (CONF-710501-20)
zinc cycling in aquatic, effects of, on zinc-65 distribution, 22:14980
zinc-65 content of, in Columbia River estuary, 22:45469
zinc-65 distribution and movement in biota, sediment, and water of aquatic, 22:14980
zinc-65 distribution in estuarine, effects of, on uptake by man, 22:474
zinc-65 distribution in fresh-water, 23:20143 (COO-1499-3)
zinc-65 distribution in tissues of animals in freshwater pond, 21:36536 (NP-16906)
zinc-65 transport by broomsedge in field, 23:17983 (CONF-670503-, pp 665-71)
zinc-65 transport through, of Pacific Ocean benthic animals, effects of depth, distance from Columbia River delta, and season on, 24:14444 (RLO-1750-54, pp 130-2)
ECUADOR
radioactivity in air and milk in, measurement of fallout, 25:11068
radioactivity monitoring in atmosphere and milk of, 1966 to 1967, 25:41940
radioisotopes in agriculture in, 25:27134 (CONF-680112-, pp 245-6)

EDDY CURRENT TESTING
calculations in, computer program for, 23:40960 (ORNL-TM-2501)
circuit for, 23:41131(R) (IDO-17299)
design of, use of digital computers for, 21:19870 (ORNL-P-2723)
development and uses in industry, review on, 25:21265
development for detection of departure from nucleate boiling, 23:41131(R) (IDO-17299)
development for inspection of coolant channels in beryllium reflector components, 24:2870 (ORNL-4470, pp 218-21)
development for LMFBR materials, 24:16807 (ORNL-4480, pp 114-17)
development for LMFBR materials, 24:44212 (ORNL-4560, pp 127-8)
development for measurement of transient diametrical growth and temperature of fuel rods, 23:41131(R) (IDO-17299)
development for reactor materials, 24:33849 (BNWL-1349-1, pp 8.1-37)
development for reactor materials, 24:4414 (ORNL-4440, pp 155-9)
development of computerized method for, for reactor materials, 24:11747 (BNWL-1223, pp 8.1-19)
development status of, 22:33620
developments in, 23:8166 (ORNL-4370, pp 125-32)
developments in, review of recent, 23:9664 (BNWL-919, pp 7.1-12)
distance gage development for precise static measurements in, 25:46419 (Y-1793)
electric current input for, response of exciting coil to pulsed step function-type, (E/T), 25:341 (BNWL-1406)
equipment and method for coating cracks in Rover fuel elements, 25:21257 (LA-4590)
equipment and method for crack detection in irradiated fuel element cladding, 25:46603
equipment and method for detecting defects in fast reactor fuel cladding, design and performance of, 25:6497
equipment and method for detecting defects in fuel cladding, 25:6492
equipment and method for detecting defects in fuel cladding and reactor tubes, development of high-resolution, 25:6494
equipment and method for determination of oxide content of sintered aluminum powders and extrusions, 23:13963 (ORNL-4352)
equipment and method for distinguishing inside and outside surface defects, two-frequency, 25:34833
equipment and method for electric conducting tubes, 23:31498(P)
equipment and method for high-temperature crack detection in carbon—metal carbide composites, 22:51191 (LA-DC-9382)
equipment and method for measurement of defects in reactor materials, 25:29287 (ORNL-4630, pp 145-9)
equipment and method for multiparameter, 23:16054 (BNWL-953)
equipment and methods for liquid propellant rocket engine components, 23:17723
equipment and methods for reactor materials, 24:16808 (ORNL-4480, pp 266-73)
equipment and methods for, development of, 23:19914 (BNWL-996)
equipment and methods for, historical development and current status of, 25:34835
equipment and methods for, of reactor materials at ORNL, development of, 25:34829
equipment and methods for, review of Battelle-Northwest, 22:36010 (BNWL-SA-1395)
equipment design and performance, 22:267 (ANL-7334)
equipment for, 22:37626 (BNWL-765)
equipment for detection and measurement of seams in rolled uranium rods, 24:39167 (NLCO-1059)
equipment for fast reactor fuel cladding, 23:31500
equipment for flaw detection in tubes by, display, 23:47872 (BNWL-1158)
equipment for fuel cladding, design and performance of CSF-67, 23:11730 (CEA-CONF-1073)
equipment for LMFBR materials, design of, 24:36529 (ORNL-4520, pp 173-4)
equipment for LMFBR materials, development of, 25:48768 (ORNL-TM-3416, pp 148-9)
equipment for measuring oxide coating thickness on fuel elements, 24:39207 (IN-1317, pp 233-381)
equipment for multiparameter, 21:46025(R) (BNWL-CC-761)
equipment for reactor fuel element cladding, 23:33344
equipment for small diameter stainless steel tubing, description of sinusoidal, 23:16055 (BNWL-SA-2275)
equipment for tube, engineering drawings for design of hybrid coil, 25:46606
equipment for wall thickness of finned tubes, 23:33361
equipment for, analysis of coil vector potential in, 23:24407 (ORNL-4384)
equipment for, design of coil for, 25:8440 (ORNL-4600, pp 266-70)
equipment for, design of toroidal probe, 22:38166(P)
equipment for, design of ultrastable, 22:38165(P)
equipment for, lift-off compensation, 22:4380(P)
instrument coil design for, using computers, 24:44213 (ORNL-4560, pp 251-60)
instrument design and performance for, in nonmagnetic walls of pressure vessels, 21:32034 (RISO-M-546)
instrumentation for, coil encircling two-conductor rod, 25:28911 (Y-1787)
method for crack detection during thermal transients, 22:51192 (LA-DC-9429)
method for crack detection in reactor components during thermal transients, 23:31502
method for defects in reactor materials, development of, 24:36530 (ORNL-4520, pp 308-14)
method for detection of defects in breeder reactor fuel cladding, 25:39670 (CEA-R-3989)
method for detection of defects in stainless steel fuel cladding, 25:32685(R) (WARD-4210-T-3-2)
method for determination of metal defects, 24:10076 (ANL-7587)
method for EBR-II stainless steel fuel cladding tubes, 25:347
method for electrically-conducting tubes and reactor fuel rods, 25:57692(P)
method for flaws in reactor tubes and tube supports, 25:340 (BNWL-1349-2, pp 8.1-8)
method for liquid—metal fast reactor fuel cladding, 23:33343
method for LMFBR components and materials, 25:8439 (ORNL-4600, pp 153-6)
method for materials, review of, 25:26440
method for metal tubing incorporating hybrid coil configuration and sequential sampling, 24:29467 (BNWL-1355)
method for metals using pulsed electromagnetic fields, (T), 25:6490
method for multidimensional representation of signals, 24:22915 (BNWL-1279, pp 8.1-24)
method for multiparameter pulsed, 23:17713 (BNWL-976)
method for pulsed, of bonded fuel elements and fuel element cladding for liquid metal-cooled fast reactors, 25:6491
method for radiation capsules, 21:1961 (UNC-5136)
method for reactor components and materials, development of, 25:48769 (ORNL-TM-3416, pp 232-8)
method for reactor materials, 25:29288 (ORNL-4630, pp 271-9)
method for reactor materials and components, 23:24408 (ORNL-4390, pp 177-88)
method for reactor materials, effects of electromagnetic induction variations on, 25:48767 (ORNL-TM-3300, pp 304-12)
method for seam depths in rolled uranium rods, 23:24857(R) (NLCO-995)
method for small metal tubes, 24:14206
method for sodium-bonded stainless steel-clad carbide fuels, 24:25244
method for tube flaws in supported areas, 24:46442 (BNWL-1468)
method for tube inspection, development of, 23:47717 (ORNL-4420, pp 188-97)
method for type 316 stainless steel fuel element cladding, 23:33354
method for wall thickness measurement and failure of tubes, 24:22918
method for welded joints in reactors, 25:57680 (ORNL-TM-3561)
method for, of reactor fuel elements, 21:32342(P)
method using conducting mask, 23:50084 (ANL-7172)
method using electric conductivity measurements for inspecting aluminum fuel element cladding, 25:6511
method using electric conductivity measurements to determine thickness of stainless steel pipes in water-cooled reactor cooling circuit, 25:6493
methods and recommended practices for, ASTM standards for, 22:40332
methods development for, 21:12607 (ORNL-3970, pp 118-24)
methods development for, 22:8741 (ORNL-4170, pp 119-23)
methods for LMFBR materials, development of, 25:2408 (ORNL-4570, pp 96-7)
methods for reactor materials, development of, 24:2407 (ORNL-4470, pp 118-20)
methods for reactor materials, development of, 25:2409 (ORNL-4570, pp 149-51)
methods for welds, development of, 25:48766 (ORNL-TM-3300, pp 170-3)
methods of multiparameter, for materials and parts, 23:38208 (BNWL-1058, pp 7.1-14)
pattern recognition program for metal tube, 23:9665 (BNWL-942)
performance in evaluation of stainless steel fuel cladding, 24:19181
probe coil problems in, analytical solutions to, (E/T), 22:2271 (ORNL-TM-1987)
probe for coating crack detection in Rover fuel elements, design of masked, 25:57699
problems in, computer programs for solving, 25:37212 (ORNL-TM-3295)
problems in, vector potential method for solution of, 23:24407 (ORNL-4384)
sensing coil design for, (E/T), 22:12556 (BNWL-473, pp 10.1-12)
transformation device for multiparameter, 25:12878 (BNWL-1469)

EDWIN I. HATCH POWER REACTOR, UNIT 1
accident analyses for, analytical methods for, 22:30141 (DOCKET-50321-2)
auxiliary systems for, final safety analysis of, 25:23187 (DOCKET-50321-21)
buildings and structures for, final safety analysis of, 25:23187 (DOCKET-50321-21)
buildings and systems for, seismic analysis procedures for Class I and Class II, 23:23823 (DOCKET-50321-8)
buildings for, modifications of seismic design criteria for, 23:34866 (DOCKET-50321-10)
buildings for, seismic classifications and analyses of, 23:15543 (DOCKET-50321-6)
construction of, receipt of permit application for, 24:43680 (DOCKET-50366-1)
construction of, request for not suspending permit for, 25:59976 (DOCKET-50321-24)
containment structures for, tabulation of penetrations for secondary and primary-secondary, 23:19430 (DOCKET-50321-7)
containment system for, design bases for standby gas treatment and secondary, 23:19430 (DOCKET-50321-7)
containment system for, design of auto-relief interlock for, 23:37368 (DOCKET-50321-11)
containment systems for, design details for, 23:15543 (DOCKET-50321-6)
containment systems for, final safety analysis of, 25:23185 (DOCKET-50321-19)
containment systems for, preliminary safety analysis of, 22:30140 (DOCKET-50321-1)
containment systems for, preliminary safety analysis of residual heat removal system for, 22:30140 (DOCKET-50321-1)
containment vessel for, list of penetrations and estimated leakages for secondary, 23:15543 (DOCKET-50321-6)
control rods for, description and analysis of drive system for, 22:30143 (DOCKET-50321-4)
control rods for, design and functioning rod block monitor for, 23:34866 (DOCKET-50321-10)
control rods for, design of rod block monitor for, 23:37368 (DOCKET-50321-11)

control systems and instrumentation for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
control systems for, calibration, inspection, and testing of the rod block monitoring subsystem of, 23:23823 (DOCKET-50321-8)
control systems for, final safety analysis of, 25:23186 (DOCKET-50321-20)
cooling system for, analysis of safety relief valve actuation, malfunction, and sizing for primary, 23:23823 (DOCKET-50321-8)
cooling system for, final safety analysis of, 25:23185 (DOCKET-50321-19)
cooling system for, methods for brittle fracture prevention in primary, 23:19430 (DOCKET-50321-7)
cooling system for, program for in-service inspection of primary, 23:15543 (DOCKET-50321-6)
cooling system for, surveillance schedules for, 23:31115 (DOCKET-50321-9)
cooling system in-service inspection program for, preliminary safety analysis of, 24:20534 (DOCKET-50321-14)
cooling systems for, preliminary safety analysis of, 22:30140 (DOCKET-50321-1)
cooling systems for, test temperature requirements for pipes for, 23:23823 (DOCKET-50321-8)
core and internals for, effects of dynamic loadings on fracture toughness of materials for, 23:15543 (DOCKET-50321-6)
core cooling system for, boron requirements for standby liquid, 23:19430 (DOCKET-50321-7)
core for, analysis of design and operation of isolation cooling system for, 23:23823 (DOCKET-50321-8)
core for, preliminary safety analysis of, 22:30140 (DOCKET-50321-1)
core for, preliminary safety analysis of design changes for, 23:23823 (DOCKET-50321-8)
core for, preliminary safety analysis of high and low pressure coolant injection system for, 22:30140 (DOCKET-50321-1)
core for, preliminary safety analysis of spray cooling system for, 22:30140 (DOCKET-50321-1)
core for, test program for spray cooling for, 22:30143 (DOCKET-50321-4)
core for, thermal design of, 22:30143 (DOCKET-50321-4)
design basis accident in, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
design basis accidents in, preliminary analysis of radiological effects of, 22:53271 (DOCKET-50321-5)
design of, compliance with AEC General Design Criteria of, 22:30143 (DOCKET-50321-4)
design parameters of, final safety analysis of, 25:23184 (DOCKET-50321-18)
effluents from, additional information on chemical and radioactive, 25:46206 (DOCKET-50321-23)
effluents from, effects on environment of chemical, radioactive, and thermal, 25:20668 (DOCKET-50321-16)
effluents from, radionuclide content of liquid and gaseous, 23:15543 (DOCKET-50321-6)
electrical power supply systems for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
electrical power systems for, final safety analysis of, 25:23187 (DOCKET-50321-21)
emergency and auxiliary systems for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
Emergency Core Cooling System for, design and diagrams for suction piping, 23:37368 (DOCKET-50321-11)
emergency core cooling system for, final safety analysis of, 25:23185 (DOCKET-50321-19)
Emergency Core Cooling Systems for, design bases for, 23:34866 (DOCKET-50321-10)
Emergency Core Cooling Systems for, evaluation of capability and design of, 23:15543 (DOCKET-50321-6)
emergency-core cooling systems for, preliminary safety analysis of, 22:30140 (DOCKET-50321-1)
engineered safeguards for, design bases and performance requirements for, 23:19430 (DOCKET-50321-7)
engineered safeguards for, design details of residual heat removal, autorelief, and standby liquid control systems of, 23:23823 (DOCKET-50321-8)
engineered safeguards for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
fuel element storage at, tornado protection of area for spent, 23:15543 (DOCKET-50321-6)
fuel elements for, effects of ECCS operation on peak cladding temperatures of, 23:15543 (DOCKET-50321-6)
inspection program for, in-service, 25:23188 (DOCKET-50321-22)
instrumentation for, final safety analysis of, 25:23186 (DOCKET-50321-20)
instrumentation for, scram set-points for protective, 23:19430 (DOCKET-50321-7)
operation of, receipt of license application for, 24:43680 (DOCKET-50366-1)
operations aspects of, final safety analysis of, 25:23188 (DOCKET-50321-22)
operations aspects of, final safety analysis of, 25:23187 (DOCKET-50321-21)
owners of, changes in officers and directors of, 23:31115 (DOCKET-50321-9)
piping for, requirements for designs of main steam line and primary system, 23:34866 (DOCKET-50321-10)
piping systems for, pressure integrity of, 25:23188 (DOCKET-50321-22)
power conversion systems for, final safety analysis of, 25:23187 (DOCKET-50321-21)
pumps for, development programs for jet, 22:30143 (DOCKET-50321-4)
quality assurance program for, 23:19430 (DOCKET-50321-7)
quality assurance program for, 25:23188 (DOCKET-50321-22)
quality assurance program for, preliminary safety analysis for, 22:53271 (DOCKET-50321-5)
radiation monitoring system for, description of area, 23:19430 (DOCKET-50321-7)
radioactive waste control at, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
radioactive waste disposal system for, final safety analysis of, 25:23187 (DOCKET-50321-21)
radwaste systems for, instrumentation and controls for the solid, liquid, and gaseous, 23:23823 (DOCKET-50321-8)
regulatory action on, AEC, 22:44854
regulatory action on, summary of USAEC, 23:43071
safety evaluation of, USAEC Division of Reactor Licensing, 23:40267 (DOCKET-50321-12)
scram circuits for, evaluation of reliability of flow reference, 23:37368 (DOCKET-50321-11)
shielding and structures for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
shielding for, final safety analysis of, 25:23187 (DOCKET-50321-21)
shutdown to cold condition of, procedures for outside-control-room, 23:15543 (DOCKET-50321-6)
site for, final safety analysis of, 25:23184 (DOCKET-50321-18)
site for, geological analysis for, 22:30142 (DOCKET-50321-3)
site for, geological data of intake structure, 24:45964 (DOCKET-50321-15)
site for, hydrology study for, 22:30142 (DOCKET-50321-3)
site for, preliminary safety analysis of, 22:30140 (DOCKET-50321-1)
site for, seismic analysis for, 22:30142 (DOCKET-50321-3)
site for, water table and soil data on, 23:19430 (DOCKET-50321-7)
stack disposal system for, design parameters and site geological data for main, 25:20669 (DOCKET-50321-17)
steam and power conversion systems for, preliminary safety analysis of, 22:30141 (DOCKET-50321-2)
steam line break accidents in, analysis of, 23:15543 (DOCKET-50321-6)
structure for, stress limits for support, 24:45964 (DOCKET-50321-15)
support structures for, preliminary safety analysis of, 24:7004 (DOCKET-50321-13)
technical specifications for, outline of proposed, 22:30143 (DOCKET-50321-4)
valves for, design bases for sizing of safety and relief, 23:15543 (DOCKET-50321-6)
EDWIN I. HATCH POWER REACTOR, UNIT 2

effluents from, effects on environment of chemical, radioactive, and thermal, 25:20668 (DOCKET-50321-16)
electrical systems for, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
emergency and auxiliary systems for, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
emergency core cooling system for, conformance to interim acceptance criteria of, 25:46217 (DOCKET-50366-13)
emergency core cooling system for, preliminary safety analysis of, 24:45976 (DOCKET-50366-3)
inspection requirements for, preliminary safety analysis of, 24:45979 (DOCKET-50366-6)
operation aspects of, preliminary safety analysis of, 24:45976 (DOCKET-50366-3)
operations aspects of, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
operations aspects of, preliminary safety analysis of, 24:45977 (DOCKET-50366-4)
operations aspects of, preliminary safety analysis of, 24:45975 (DOCKET-50366-2)
operations aspects of, preliminary safety analysis of, 24:45979 (DOCKET-50366-6)
operations aspects of, revised and additional data on, 25:8033 (DOCKET-50366-7)
operations aspects of, revised and additional data on, 25:34299 (DOCKET-50366-9)
operations aspects of, revised and additional data on, 25:39202 (DOCKET-50366-10)
operations aspects of, revised and additional data on, 25:41358 (DOCKET-50366-11)
operations aspects of, revised and additional data on, 25:46217 (DOCKET-50366-13)
operations aspects of, revised and additional data on, 25:51000 (DOCKET-50366-14)
operations aspects of, revised and additional data on, 25:56969 (DOCKET-50366-15)
operations aspects of, revised and additional data on, 25:59992 (DOCKET-50366-16)
operations aspects of, revised and additional data on, 25:59993 (DOCKET-50366-17)
piping systems for, preliminary safety analysis of, 24:45979 (DOCKET-50366-6)
quality assurance program for, 24:45979 (DOCKET-50366-6)
quality assurance program for, 25:41358 (DOCKET-50366-11)
radiation protection at, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
radioactive effluents from, preliminary safety analysis of, 24:45979 (DOCKET-50366-6)
radioactive waste handling at, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
shielding for, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
site for, preliminary safety analysis of, 24:45975 (DOCKET-50366-2)
steam and power conversion systems for, preliminary safety analysis of, 24:45978 (DOCKET-50366-5)
technical specifications for, proposed, 24:45979 (DOCKET-50366-6)
EEDTA
see Acetic Acid, Oxybis(ethylenenitrilo)tetra-
EGCR
see Experimental Gas-Cooled Reactor
EGG YOLKS
radiation effects on, chromatographic study of cholesterol derivatives following light, 23:17923
EGGS
see also Egg Yolks
analysis for strontium-90 by solvent extraction of yttrium-90 using dibutyl phosphate and β spectrometry, 23:35010
analysis of amphibian, for uracil-containing compounds, 21:8675 (ORNL-3999, pp 134-9)
analysis of bird, for strontium-89, scintillation method for, 21:10268
analysis of chicken, for mercury by neutron activation, 25:31881
availability in postattack environment, 21:24456 (USNRDL-TRC-67-3)
barium-133 uptake by chicken, following administration to hens, 21:41331
calcium-45 uptake by chicken, following administration to hens, 21:41331
calcium-45 uptake in shells of chicken, effects of dietary calcium on, 21:28358
calcium-45 uptake in shells of chicken, effects of dietary calcium on, 21:28366
carbon-14 uptake by fish, from contaminated water, role of phytoplankton in, 22:25837
cesium-134 and -137 deposition in chicken, effect of dose on, 21:16274
cesium-137 content in Faeroe Island, during 1965, 21:16340 (RISO-131)
cesium-137 content of chicken, 21:43413
cesium-137 content of, in Netherlands during 1966, 22:15001 (RA-30)
cesium-137 removal from chicken, use of citric acid for, 24:34326
deuterium oxide toxicity for amphibian, cytological analysis of, 22:40576
development of sea urchin, protein synthesis during, 22:38193(R) (EUR-3912)
effects of powdered shells of, combined with radioprotective substances on reduction of radiation hazards to uranium mining personnel, 25:42510
grain beetles, effects of dose of γ radiation on, 21:14723
hatchability of, from progeny of γ-irradiated fig moths, 25:52184 (A/CONF.49/P-2)
infectivity of native and uv-irradiated Newcastle Disease virus in incubated hen, 23:29403
iodine-131 content of, 21:43412
iodine-131 deposition in chicken, effects of pilocarpine, potassium iodide, and potassium perchlorate on, 21:34571
iodine-131 uptake by yolks of chicken, following ingestion, 22:25752
iodine-131 uptake by, of chickens following ingestion, 22:25752
iodine-131 uptake by, of chickens, effects of dose on, 22:51332
maturation stages of Diatraea saccharalis, 21:22830 (PRNC-95)
mitosis in Arbacia, combined effects of colchicine and water-d_2 on, 23:899
mutations induced in, of Drosophila by DNA following ingestion, 23:33668(R) (ORO-3844-1)
nucleic acid and protein metabolism in amphibian, effects of deuterium on, 22:43448
parthenogenesis in chicken, following insemination with γ-irradiated sperm, 25:32579
phosphorus-32 deposition in, of Aedes vexans, determination of smallest detectable amount of, 21:26363
phosphorus-32 labeling of Altica carduorum, method for, 25:39792
production and quality of chicken, from chickens conceived with γ-irradiated semen, 24:2770
production by chickens, effects of dietary strontium on, 21:45571

production by mallard ducks, effects of, on zinc-65 metabolism, 24:23085(R) (COO-1744-2)
production of viable, by moths, effects of mating with γ-radiosterilized males on, 25:11338
protein synthesis in, 22:38192(R) (EUR-3607)
purification of phosvitin from vertebrate, 21:10236 (ORNL-3999, pp 65-78)
radiation dose-rate to fish, in β and γ radioactive medium, methods for calculation of, 23:24606 (AHSB(RP)R-87)
radiation effects combined with incubation conditions on silkworm, x, 21:20344
radiation effects of germinal plasma in, of frogs, effects of stage of oogenesis on uv, 22:10692
radiation effects on Angoumois grain moth, adult emergence following gamma and infrared, 25:49280
radiation effects on animal and vegetal hemispheres of Rana pipiens, uv, 21:20410
radiation effects on assassin bug, effects of nutrition on, 25:19099
radiation effects on biochemistry of powdered, γ, 21:9040
radiation effects on capacity of frog, for fertilization, large dose γ, 24:48679
radiation effects on chicken, respiration rate in embryos after γ, 21:26646
radiation effects on cytogenetics of Drosophila melanogaster, x, 21:20145
radiation effects on deposition of, by cabbageworms, effects of dose on γ, 24:34835
radiation effects on development and survival of Chinook salmon, effects of dose and dose-rate on γ, 25:42616(R) (RLO-2225-T-2-2)
radiation effects on development and survival of fish, effects of dose on x, 25:19103 (PG-Report-1013)
radiation effects on development of cotton leaf worm, effects of age, dose, and dose fractionation on γ, 24:34603
radiation effects on development of fish, strontium-89, strontium-90, and yttrium-90, 25:21563
radiation effects on development of fish, x, 21:36718
radiation effects on development of frog, γ, 21:24623
radiation effects on development of inseminated, of Drosophila melanogaster, x, 22:40910
radiation effects on development of mosaic, of Tubifex, x, 22:8610
radiation effects on development of nematode, effects of dose on x, 25:4692 (COO-1209-13)
radiation effects on development of salmon, effects of dose on γ, 23:43855 (CONF-681216-1)
radiation effects on development of sea urchin, γ, 24:2771
radiation effects on development of silkworm, effects of age of pupae at exposure on x, 24:34595
radiation effects on development of snail, β and γ, 21:36717
radiation effects on development of sweet potato weevil, effects of exposure of males on γ, 21:24695
radiation effects on development of, following exposure of adult sugarcane borers, γ, 22:52124
radiation effects on development of, of chickens, x, 23:38777
radiation effects on development of, of frogs, effects of ferritin content on high strength magnetic field, 25:6792
radiation effects on development of, of frogs, effects of cortical exposure on uv, 24:34629(R) (RLO-2011-7)
radiation effects on development of, of reduviid bugs, effects of dose on x, 25:29620
radiation effects on development of, of sand dollars, effects of dose on uv, 21:30898
radiation effects on DNA synthesis in sea urchin, γ, 21:8910 (COO-78-142, pp 120-37)
radiation effects on DNA synthesis in sea urchin, uv, 21:8910 (COO-78-142, pp 120-37)
radiation effects on embryonated chicken, biochemical γ, 22:25980
radiation effects on Enterobacteriaceae in, γ, 21:28687
radiation effects on fertilized tench, in relation to survival of prelarvae, cobalt-60 γ, 24:7999
radiation effects on fertilized, of toads, mutagenic, 22:49322
radiation effects on frequency of laying of, by chickens, x, 22:45696
radiation effects on frog, x, 21:16261(R) (EUR-3059.f)
radiation effects on fruit fly Strumeta tryoni, effects of temperature on γ, 21:20384
radiation effects on genetics and mortality of Drosophila, effects of oxygen on x, 21:22706
radiation effects on genetics of amphibian, γ, 21:20357
radiation effects on genetics, morphology, and survival of Black Sea fish, following uptake of radioisotopes, 23:9825(T) (AEC-tr-6940, pp 47-51)
radiation effects on glycolysis in unfertilized sea urchin, cobalt-60 γ, 24:39437
radiation effects on growth of Salmonella typhimurium in powdered, effects of dose and storage time on, 25:24472
radiation effects on hatchability and production of, deposited by insects exposed as pupae or at emergence, γ, 21:13047
radiation effects on hatchability of Artemia, effects of dose fractionation on γ, 21:24604
radiation effects on hatchability of Artemia, γ, 21:20038
radiation effects on hatchability of bird, review of γ, 23:934 (TID-24521)
radiation effects on hatchability of carp, acute β or γ, 25:32581
radiation effects on hatchability of mosquito, effects of dose on γ, 25:29614
radiation effects on hatchability of silkworm, x, 25:42609
radiation effects on hatchability of, from brine shrimp, x, 23:6561
radiation effects on hatchability of, of tobacco bollworm and budworm, uv, 22:36347
radiation effects on hatching and synthesis of nucleic acids in, of Bombyx mori, γ, 22:28373
radiation effects on hatching number and time of flour beetle and grain mite, effects of age on γ, 25:24317
radiation effects on hatching of cereal leaf beetle, β, γ, and x, 22:45681
radiation effects on hatching of chicken, effects of total dose on cesium-137 γ, 24:46665
radiation effects on hatching of fish, effects of dose on γ, 24:21282 (THAI.-AEC-13)
radiation effects on hatching of fruit fly, natural background, 22:47591
radiation effects on hatching of tick, following administration of carbon-14 to females, β, 24:31828
radiation effects on hatching of, of chickens, effects of exposure of embryos on, γ, 22:28664
radiation effects on hatching of, of fruit flies, effects of age and dose on γ, 24:6106
radiation effects on hatching of, of insects, effects of dose on cobalt-60 γ, 22:28691
radiation effects on hatching of, of Mediterranean fruit flies, effects of exposure of male on γ, 23:48289 (NYO-2043-194, pp 52-83)
radiation effects on hatching of, of root-knot nematode, γ, 21:22666
radiation effects on hatching rate of, of marine animals, γ, 24:34229
radiation effects on human, control of, through timing of medical diagnostic studies x, 23:10011
radiation effects on infectivity of Neoascaris vitulorum larvae from irradiated, in mice, γ, 21:34755
radiation effects on maturation and viability of Ascaris lumbricoides and Trichocephalus trichiurus, uv, 21:22769
radiation effects on maturation of human, low-dose x, 23:31973 (NYO-3970-20)
radiation effects on maturation of, of Schistosoma mansoni following paternal exposure, 24:34599
radiation effects on mitosis during embryological stages in, of termites, x, 23:20330
radiation effects on mitosis in sea urchin, γ, 21:8910 (COO-78-142, pp 120-37)
radiation effects on mitosis in sea urchin, γ, kinetics of, 21:14743
radiation effects on mitosis in sea urchin, uv, 21:8910 (COO-78-142, pp 120-37)
radiation effects on mortality of Drosophila, following exposure of Stage 7 oocyte, effects of post-exposure treatment with oxygen and nitrogen on x, 23:38537
radiation effects on mortality of Drosophila, protective effects of hydrogen sulfide against x, 22:28604
radiation effects on mortality of, of marine fish, 24:34228
radiation effects on mutation frequency and survival of, in x-radiosensitive strains of silkworms, effects of strain on correlation between uv, 25:6766
radiation effects on nuclear grafted, of newt, γ, 21:6658
radiation effects on number laid by grain moths and percentage hatched following exposure of male, effects of dose on γ, 25:46955
radiation effects on number of deposited, by codling moths, effects of pupal exposure on γ, 24:32161
radiation effects on peeling characteristics of hard-cooked, γ, 21:13091
radiation effects on poultry, effects of, on changes in growth and productivity, γ, 23:20348
radiation effects on production of, by birds, effects of dose and dose rate on γ, 24:25564
radiation effects on production of, by chickens, β, 21:45539
radiation effects on production of, by chickens, cobalt-60 γ, 24:2804
radiation effects on production of, by chickens, cobalt-60 γ, 22:23643
radiation effects on production of, by cotton leaf moths, effects of dose and larval exposure on γ, 25:11247
radiation effects on production of, by cotton leaf worm exposed as pupae, γ, 25:19097
radiation effects on production of, by female mosquitoes in relation to sterilization, γ, 23:29726
radiation effects on production of, by fish, x, 21:16488
radiation effects on production of, by Habrobracon sp., combined effects of space flight on strontium-85 γ, 24:21119
radiation effects on production of, by habrobracon wasps, effects of space flight on γ, 24:32177
radiation effects on production of, by hens following ingestion of iodine-131, 25:29661
radiation effects on production of, by populations of Drosophila, effects of geographic region and parental exposure on x, 24:44585
radiation effects on production of, by rice beetles, γ, 21:26638
radiation effects on production of, by silkworms, effects of dose on, 23:5014
radiation effects on production of, following irradiation of pupae of rice stem borer, effects of dose on γ, 22:36397
radiation effects on production of, in chickens, recurrent cobalt-60 γ, 23:35895
radiation effects on production of, in young chickens, β and γ, 22:40831 (ORO-657, pp 46-64)
radiation effects on proteins of, immunoelectrophoretic and starch gel electrophoretic studies on, 25:26631
radiation effects on rate of hatching of chicken, effects of dose and dose rate on high voltage x, 23:35896
radiation effects on redistribution of potassium ions in, of Misgurnus fossilis, x, 23:45670
radiation effects on rheology of albumin of, effects of temperature on γ, 25:26923
radiation effects on Rhodnius, 25:46963
radiation effects on Salmonella infection in, 21:45851
radiation effects on sea urchin, delay of DNA synthesis and developmental abnormalities in embryos following laser, 24:41954
radiation effects on sulfhydryl groups in protein, x, 22:23439
radiation effects on survival of Ascaris, effects of dose and incubation on ionizing, 23:38761
radiation effects on survival of bagworm, effects of developmental stage on γ, 23:45883
radiation effects on survival of Drosophila, protective effects of hydrogen sulfide against x, 24:2721
radiation effects on survival of fruit fly, on bananas, γ, 25:32635
radiation effects on survival of, of sugarcane borer, effects of dose on γ, 23:12187 (PRNC-122)
radiation effects on tobacco budworm, γ, 23:900
radiation effects on uptake of leucine by protein of sea urchin, γ, 22:12799
radiation effects on viability of Drosophila, following exposure of pole cells, uv, 24:34604
radiation effects on viability of snail, effects of dose on x, 22:6885
radiation effects on viability of Tribolium castaneum and T. confusum, whole-body x, 21:24608
radiation effects on viability of, of fruit flies, x, 22:33967
radiation effects on viability of, of fruit flies, effects of dose on γ, 23:48291(R) (NYO-3989-2)
radiation effects on, following exposure of pole cells, uv, 24:34605
radiation effects on, of Ascaridia galli and Heterakis gallinarum, uv, 24:12227
radiation effects on, of Ascaris, 22:23667
radiation effects on, of Biomphalaria glabrata, γ and x, 24:41963
radiation effects on, of cereal insects, effects of dose on γ, 25:21822
radiation effects on, of cereal leaf beetles, relation of, to parasitization by Anaphes flavipes, 24:23304
radiation effects on, of Collembola, effects of dose on β and γ, 23:20328 (ORNL-TM-2466, pp 40-6)
radiation effects on, of Drosophila melanogaster, γ, 22:10864
radiation effects on, of frogs, elimination of primordial germ cells in larvae following uv, 22:10849
radiation effects on, of frogs, laser, 22:12783
radiation effects on, of fruit flies, effects of pulse frequency on β, 22:23667
radiation effects on, of fruit flies, phosphorus-32 β, 23:22355 (CONF-670649-7)
radiation effects on, of Heliothis virescens, effects of stage of embryonic development on γ, 23:24714
radiation effects on, of insects, effects of, on development of abdomen, uv, 23:20336
radiation effects on, of locusts, effects of age of eggs and dose on γ, 22:31243
radiation effects on, of locusts, effects of incubation time on γ, 21:43501
radiation effects on, of male Ascardidia galli, lethal x, 22:40898
radiation effects on, of man, legal aspects of x, 22:15010
radiation effects on, of mice, x, 22:51940
radiation effects on, of rice moths in comparison to effects on larvae, pupae, and adults, γ, 25:49273
radiation effects on, of rice weevils, cobalt-60 γ, 22:10822 (AECD/AG-22)
radiation effects on, of salmon, latent γ, 24:36815(R) (RLO-2225-T-2-1)
radiation effects on, of silkworms, effects of seasons on latent γ, 23:12188
radiation effects on, of silkworms, latent γ, 24:21277
radiation effects on, of spider mites, effects of dose on γ, 24:14637
radiation effects on, of spiders, morphogenetic analysis of x, 22:28637
radiation effects on, of Tribolium castaneum, lethal γ, 21:32726 (AECD/AG-20)
radiation effects on, of trout, latent x, 22:15072
radiation injuries to moth, γ, 21:6639
radiation processing effects on amino acid content of, 25:55364
radiation processing of dried, effects of, on growth of Salmonellae, γ, 21:26712
radiation processing of dried, in Japan, γ, 22:43511
radiation processing of liquid whites of, effects of, on functional and physical properties, cobalt-60 γ, 23:29949
radiation processing of powdered, for inhibition of Salmonella, 25:611
radiation processing of whole, effects of, on quality, ionizing, 23:8097
radiation processing of, combined effects of heat on effects of, on amino acids and proteins, 22:52123
radiation processing of, effects of culture medium on recovery of Salmonella following γ, 25:13620
radiation processing of, effects of dose and temperature on, 25:47074
radiation processing of, effects of, on flavor, γ, 21:34845
radiation processing of, effects of, on vitamin content, 24:48793
radiation processing of, evaluation of methods for, 21:45859
radiation processing of, in dried or frozen form, 21:26716
radioactive contamination during nuclear warfare, calculation of, 21:20233 (NP-16462)
radioinduced ablation of maternal chromosomes in, of frogs, laser, 23:31702
radioinduced aneuploidy in, of Drosophila, effects of genotype on frequency of γ, 22:33789
radioinduced chromosome aberrations in, of Drosophila, effects of meiotic stage at exposure on lethal x, 24:21128
radioinduced decay of free radicals in Artemia, γ, 21:20038
radioinduced division delay in developing sea urchin, effects of chemical agents on recovery from cesium-137 γ, 24:27607 (ANL-7615, pp 25-32)
radioinduced dominant lethal mutations in Anopheles pharoensis, frequency of γ, 21:24389
radioinduced dominant lethality in, of Drosophila, effects of sigma virus on x, 22:33780(R) (NYO-3905-2)

radioinduced mitosis delay in sea urchin, recovery from damage leading to, γ and uv, 22:25712 (COO-78-163, pp 39-63)
radioinduced mitotic delay in sea urchin, combined effects of puromycin and nitrogen on γ, 24:32162
radioinduced mortality in, of grain beetles Attagenus piceus and Trogoderma glabrum, γ, 21:18144
radioinduced mutations in crab, cosmic, 21:6480
radioinduced mutations in, of Habrobracon, effects of mitotic stage on x, 24:21134
radioinduced mutations in, of mice, effects of age on incidence of x, 22:4590(R) (NYO-3314-10)
radioinduced mutations in, of Misgurnus fossilis following incubation in solutions with strontium-90 and yttrium-90, effects of stage of development on β, 25:16093
radioinduced recessive lethal mutations in newly inseminated, of Drosophila, x, 23:38544
radioinduced tumors in nucleated and un-nucleated segments of Drosophila, x, 24:6105
radioisotope accumulation by fish, effects of stage of development on intensity of, 25:21576
radioisotope accumulation in loach, embryonic development following, 25:46693
radioisotope content of chicken, following uptake from food, cesium-137 and strontium-90, 23:33613
radioisotope content of tick, following inoculation of females, 25:18934(R) (ORO-3514-10)
radioisotope content of, in countries of EAEC during 1965, cesium-137 and strontium-90, 22:40660 (EUR-3640)
radioisotope content of, in Faroe Islands during 1969, cesum-137 and strontium-90, 25:4476(R) (RISO-221)
radioisotope content of, in Italy, cesium-137 and strontium-90, 22:51588
radioisotope content of, in Netherlands during 1963, cesium-137 and strontium-90, 22:33817 (RA-32)
radioisotope content of, in Richland Area, Washington during 1967, 23:33702 (BNWL-983(App.))
radioisotope removal from chicken, effects of storage on cesium-137 and strontium-90, 24:36751
radioisotope removal from, of chickens, effects of storage time on cesium-137 and strontium-90, 24:34315
radioisotope uptake by fish, effects of, on dose to embryos, 24:50923
radiopreservation of powdered, effects on wholesomeness of, 21:9040
radiopreservation of, feasibility of, 21:446
radiopreservation of, nutritional and technological aspects of, 21:9045
radiopreservation of, techniques for, 21:9046
radioprotective effects of ovomucoid from, on inactivation of trypsin, γ, 22:520
radioprotective effects of, in rabbits, combined effects of vitamin D_3 on, 22:38366
radiosensitivity of adzuki-bean weevil, effects of dose on γ, 23:48195
radiosensitivity of boll weevil, following exposure to cobalt-60, 21:6617
radiosensitivity of cotton leaf worm, effects of age on cobalt-60 γ, 24:44586
radiosensitivity of developing fish, effects of temperature on, 23:9825(T) (AEC-tr-6940, pp 47-51)
radiosensitivity of early stages of silkworm, 21:20117(R) (NP-16482)
radiosensitivity of grain mite Acarus siro, γ, 21:18201
radiosensitivity of grain moth, γ, 21:26636
radiosensitivity of insect, γ, 21:28711
radiosensitivity of long headed flour beetle, effects of dose on γ, 24:51020
radiosensitivity of rice weevil, acute cobalt-60 γ, 23:6628
radiosensitivity of Sitophilus oryzae, cobalt-60 γ, 25:13558
radiosensitivity of, of Tribolium confusum, uv and x, 21:11051
radiosterilization of, effects of, on storage life, 21:28705
shell strength measurements, beta backscatter method for, 25:23900
shell strength measurements, radiometric gage for, 25:49029
shell strength of, beta-backscatter method for measuring, 22:30882
shell strength of, design of β backscatter tester for, 22:30887
shell strength of, use of beta backscatter method to measure, 22:21296
shell thickness measurements of, beta backscatter gage for, 25:4323 (NYO-4028-TA-1)
strontium-85 uptake by shells of chicken, effects of dietary calcium on, 21:28366
strontium-89 content of, in chickens, 22:6768
strontium-89 uptake by chicken, following administration to hens, 21:41331
strontium-90 contamination of, physiological factors affecting, 21:43410
strontium-90 content in Faeroe Island during 1965, 21:16340 (RISO-131)
strontium-90 content of, following intravenous and oral administration to chickens, 25:23949(T) (AEC-tr-7195, pp 25-31)
strontium-90 content of, in Netherlands during 1966, 22:15001 (RA-30)
strontium-90 deposition in chicken, effects of age on, 22:51340
strontium-90 removal from, of chickens, effectiveness of solutions for, 24:19315
thymidine uptake by Arbacia, effects of pressure on, tritium-labeled, 22:434
tritium uptake and retention by, of rainbow trout, hatching and larval development following, 25:37714 (BNWL-SA-3711)
uptake of leucine and thymidine by developing sea urchin, effects of deuterium oxide on, 23:45639
zinc-65 uptake and distribution by salmon, effects of dyes, pH, and temperature on, 22:51334

EGYPT
calcium content of human diet in, during 1968, 23:35702 (A-AC-82/G/L-1280)
cesium-137 content of man during 1970 in, whole-body counting of, 25:26740 (NP-18728)
deuterium content of natural waters in, 21:14164
economics of nuclear power in, 24:45860
excavation projects in, possible uses of underground nuclear explosions for large-scale, 25:51655 (A/CONF.49/P-144)
fallout strontium-90 deposition over, during 1968, 23:35702 (A-AC-82/G/L-1280)
farm animal mineral nutrition in, use of calcium-45 and phosphorus-32 for studies on, 25:51986
mineral prospecting in, methods for radioactive, 24:44138
mineral prospecting in, radiometric methods for non-radioactive, 24:44108
nuclear materials research in, 22:8179
nuclear materials research in, 25:52420 (A/CONF.49/P-146)
nuclear power and desalination prospects in, 24:28904
nuclear power in, effects on military defense of, 23:49577
nuclear power plants for, development for, 25:54015 (A/CONF.49/P-137)
radiation dose received by atomic energy personnel in, during 1962 through 1969, 25:26749 (NP-18732)
radiation dose to man in monazite area of, γ spectrometry of, 24:34339
radiation monitoring of atmosphere, human bones, and precipitation in, during 1969, 25:37787 (NP-18731)
radiation protection planning in, for accidental exposure of personnel, 24:7892
radiation protection programs in, 25:52089 (A/CONF.49/P-142)
radioactivity monitoring in atmosphere over, during 1968, total α, β, and γ, 23:35702 (A-AC-82/G/L-1280)
radioinduced leukopenia in personnel in Atomic Energy Establishment in, 25:47021
radioisotope content of man in, during 1968, whole-body cesium-137 and potassium-40, 23:35703 (A-AC-82/G/L-1281)
radioisotope sorption by soils of, cesium, strontium, 24:2651
radioisotope uses in, activities of Middle Eastern Regional Radioisotope Center for developing, 25:51709 (A/CONF.49/P-797)
reactor development in, review of information on, 21:4406 (AD-632925)
research in agriculture, biological sciences, and medicine in, use of radiation sources and radioisotopes in applied and basic, 24:44387
research reactor operation experience in, 24:46095
strontium-90 content of human diet in, during 1968, 23:35702 (A-AC-82/G/L-1280)

chemistry of, review on, 23:15865
complexes of trivalent, with β-diketones, energy transfer and luminescence studies on, 25:6334
complexes of, anion exchange, solvent extraction, and spectrophotometric studies of chloride and thiocyanate, 25:51425 (ORNL-TM-3486)
deposition on foils for use as radiation targets, electrolytic method for, 25:49384 (UCRL-73121)
determination of, 22:14434 (ORNL-4196, pp 93-8)
determination of, in irradiated HFIR fuel elements, 21:1421(R) (ORNL-3965)
determination of, methods for, 22:23114
energy levels of, 25:7145 (UCRL-19530, pp 191-220)
helium ion reactions with, production of mendelevium-258 from, 21:45171
oxidation potential for trivalent—tetravalent, 25:57437
polarographic behavior of trivalent, 25:6290 (UCRL-19530, pp 270-308)
preparation of divalent, in calcium fluoride crystal, 24:38891
preparation of uniform thin layers of, on beryllium, platinum, and stainless steel plates by electrodeposition from organic reagents, 24:6181
processing of, health physics aspects of, 23:17527
production and separation of, review of, 22:6363
production and uses of, review on, 25:13059
production by neutron irradiation of californium targets, 23:24222(R) (ORNL-4376)
production in thermonuclear explosions, review of, 21:4646
recovery from isotope separator parts by leaching and ion exchange, 22:25466 (UCRL-50404)
separation by extraction chromatography using bis(2-ethylhexyl) orthophosphate, 23:17532
separation by extraction using sodium amalgams, 22:37718 (UCRL-17989, pp 181-252)
separation from acetate solutions of actinides using sodium amalgam, effects of oxidizing agents on, 23:17529
separation from americium, californium, and curium by ion exchange using 2-hydroxy-2-methylbutyric acid, 23:357 (ORNL-4272, pp 92-128)
separation from aqueous solutions by electrolysis and amalgamation on mercury cathode, 21:43034
separation from aqueous solutions by solvent extraction using alkyl-substituted ammonium salts, 22:6376
separation from aqueous solutions of citric, malic, 2-methyllactic, and tartaric acids by solvent extraction using bis(2-ethylhexyl) phosphate, 24:48165
separation from biological samples by solvent extraction using dibutyl N,N-diethylcarbamylphosphonate, 24:38757
separation from californium and fermium using high-pressure ion exchange column, 23:357 (ORNL-4272, pp 92-128)
separation from californium by extraction chromatography, 21:40968
separation from carboxylic acids and mixtures with aminopolyacetic acids by solvent extraction using bis(2-ethylhexyl) phosphate, 22:16663
separation from curium using high-pressure ion exchange, 24:9486
separation from fermium and mendelevium by extraction chromatography using bis(2-ethylhexyl) phosphate, 24:2286
separation from fermium by extraction chromatography using bis(2-ethylhexyl) orthophosphate, 23:17532
separation from hydrochloric, nitric, and perchloric acid solutions by solvent extraction using dibutyl diethylcarbamoylphosphonate, 24:48151
separation from lithium nitrate solutions by solvent extraction using tridodecylmethylammonium nitrate, 24:33762 (RCN-113)
separation from mendelevium by electrolysis, 23:49772 (UCRL-18667, pp 277-312)
separation from mendelevium by extraction using sodium amalgam, 22:37718 (UCRL-17989, pp 181-252)
separation from mendelevium, electrolytic, 22:156
separation from other actinides, development of methods for, 24:213 (ORNL-4422, pp 154-82)
separation from other transuranium elements by extraction chromatography using DEHPA, 23:49914
separation from other transuranium elements by high-pressure ion exchange, 24:22751
separation of mendelevium from, by extraction into sodium amalgam or electrodeposition method, 23:15934
separation of, from californium and fermium by chromatography using α-hydroxyisobutyrate, 21:1421(R) (ORNL-3965)
separation of, from californium by fused-salt method, 21:3163(P)
separation of, methods for, 22:23114
separation of, survey on methods for, 21:24098
spectra in hydrochloric acid solutions, absorption, 22:2070
spectra in solution, absorption, 24:20750 (UCRL-19507)
spectra of, 24:33626(R) (UCRL-50006-70)
spectra of, absorption, 25:37260(R) (UCRL-50006-71)
spectra of, bibliography on analyses of optical, 24:30142 (NBS-SPEC. PUBL-306-4)
spectra of, measurement of wavelengths and relative intensities of lines of, 22:1000
structure of, valence electron, 21:45135
EINSTEINIUM CHLORIDES
crystal structure and lattice parameters of, 23:49771 (UCRL-18667, pp 255-76)
crystal structure of, 23:28790
preparation and structure of crystalline, 25:13018
preparation and structure of $EsCl_3$, 24:20750 (UCRL-19507)
spectra of hydrochloric acid solutions of, 25:13018
EINSTEINIUM IODIDES
spectra, 22:37718 (UCRL-17989, pp 181-252)
EINSTEINIUM IONS
energy levels of Es II, interval between ground and first excited levels of, (E), 24:47001
formation in calcium fluoride crystals, (E), 25:7145 (UCRL-19530, pp 191-220)
spectra in calcium fluoride crystals, (E), 25:7145 (UCRL-19530, pp 191-220)
spectra of trivalent, in hydrochloric acid solution, absorption, 23:21718
EINSTEINIUM ISOTOPES
decay properties of, tables and charts on, (E), 22:7723
determination in einsteinium by mass spectrometry, 24:2131
fission of, thresholds for spontaneous, 21:13860
production, properties, and separation of, review on, 24:41338
EINSTEINIUM ISOTOPES Es-245
production from uranium-238 (N-14,7n) reactions, (E), 21:17364
EINSTEINIUM ISOTOPES Es-246
production from uranium-238 (N-14,6n) reactions, (E), 21:17364
EINSTEINIUM ISOTOPES Es-247
production from uranium-238 (N-14,5n) reactions, (E), 21:17364
EINSTEINIUM ISOTOPES Es-248
alpha spectra and half-life, (E), 24:13369
EINSTEINIUM ISOTOPES Es-249
alpha decay-K x-ray ratio for, (E), 24:13369
alpha spectra and half-life, (E), 24:13369
nuclear spin and parity, (E), 24:13369
EINSTEINIUM ISOTOPES Es-250
alpha spectra and half-life, (E), 24:13369
EINSTEINIUM ISOTOPES Es-251
alpha decay-K x-ray ratio for, (E), 24:13369
alpha spectra and half-life, (E), 24:13369
nuclear spin and parity, (E), 24:13369
EINSTEINIUM ISOTOPES Es-252
alpha and electron-capture decay of, α and γ spectra for, (E), 23:17084(R) (COO-1779-4)
EINSTEINIUM ISOTOPES Es-253
alpha decay of oriented, angular distribution of α particles from, (E), 25:7878
alpha decay of, α energy for, (E), 25:31357
alpha decay of, half-life for, (E), 24:1823 (ORNL-4437, pp 20-39)
alpha reactions (α,n) and (α,2n) at 38 MeV, cross sections for, (E), 25:46049
alpha spectra, (E), 25:53777

compounds, preparation of microgram quantities of, 25:13018
determination in neutron-irradiated plutonium dioxide, 22:14419 (DP-1137)
hyperfine structure in emission spectrum of, 22:43870
hyperfine structure in emission spectrum of, (E), 24:47001
incorporation in radiation targets, 23:8340 (ORNL-4370, pp 193-7)
neutron absorption cross sections and resonance integrals for, thermal, (E), 22:20567 (DP-MS-67-112)
nuclear magnetic dipole moment and spin, (E), 24:47001
nuclear magnetic moment of, (E), 25:7878
production at HFIR and TRU, 25:2294 (ORNL-4572, pp 109-34)
production at TRU, 25:44403(R) (ORNL-4666)
production at TRU, 25:10654(R) (ORNL-4588)
production at TRU, July—Dec., 1969, 24:36269(R) (ORNL-4540)
production by reactor irradiation of californium-252, rabbit target for, 24:5676 (ORNL-4428)
production by target irradiation in HFIR and processing in TRU, 25:57524 (ORNL-TM-3343)
production in ORNL High-Flux Isotope Reactor, review on, 23:26273
production in the FR2 reactor, (E), 25:50721 (KFK-1338)
production of, 23:24222(R) (ORNL-4376)
production of, developments in, 24:20792(R) (ORNL-4447)
production of, optimum californium-252 irradiation period for, 24:213 (ORNL-4422, pp 154-82)
purification and properties of, 24:20750 (UCRL-19507)
separation from HFIR targets, method for, 24:5707 (ORNL-TM-2434)
spectra in gadolinium iodide, emission, 23:28673(R) (UCRL-50006-69)
spectra of ionic, in lanthanum trichloride, luminescence, 23:28673(R) (UCRL-50006-69)
spectra of, hyperfine structure in emission, 22:37717 (UCRL-17989, pp 159-66)
EINSTEINIUM ISOTOPES Es-254
alpha decay of isomeric, half-life and spectra for, (E), 21:23503
alpha reactions (α,n) at 38 MeV, cross section for, (E), 25:46049
determination in neutron-irradiated plutonium dioxide, 22:14419 (DP-1137)
fission of, half-life for spontaneous, (E), 21:23503
half-life and type of decay of, 22:42698
neutron fission cross section of, thermal, (E), 23:1882 (WASH-1093)
neutron fission of isomeric, cross section for thermal, (E), 23:1920
neutron fission of, cross section for thermal, (E), 23:1920
product of isomeric, 24:20792(R) (ORNL-4447)
production as by-product of californium-252, 25:6474
production in ORNL High-Flux Isotope Reactor, review on, 23:26273
production of 39.3-hr isomer of, 23:24222(R) (ORNL-4376)
EINSTEINIUM ISOTOPES Es-255
alpha decay of, half-life and spectra for, (E), 21:23503
determination in neutron-irradiated plutonium dioxide, 22:14419 (DP-1137)
fission of, half-life for spontaneous, (E), 21:23503
production in ORNL High-Flux Isotope Reactor, review on, 23:26273
EINSTEINIUM OXYCHLORIDES
crystal structure and lattice parameters of, 23:49771 (UCRL-18667, pp 255-76)
crystal structure of, 23:28790
preparation and structure of, 24:20750 (UCRL-19507)
preparation and structure of crystalline, 25:13018

book: Longitudinal Space-Charge Waves, 21:26980
book: Low-Temperature Plasma Generators, in Russian, 23:48916
book: Physics of Gas Discharge Plasma, 25:3076
boundary sheath near floating plate in argon, (E), 24:21786
cathode drops in, electrode composition effects on, 21:28322
cathode spots in, transition from distributed emission in, 25:36112
characteristics of stabilized, in channel with distributed gas supply, (E), 22:52817
conductance time constant of high-pressure, (E), 23:51640
conference on high-pressure, summaries of papers from, 22:7308
construction of low-current, for measuremet of iron spectra, (E), 25:14245
cooling of constricted, transpiration, 21:20918
current and potential distributions in MPD, (T), 22:9182
current chopping in low-pressure, magnetically induced, (E), 22:31840
current density distributions in magnetic fields, (T), 24:8467
current distribution over plane shielded cathode in glow discharge, 21:15183 (RFP-792)
current expansion in axial magnetic fields, limitation of, 25:14267
current measurements in plasma generators, precision of, 21:37499
current spokes in magnetoplasmadynamic, occurrence and properties of, 25:36110
current spokes in magnetoplasmadynamic, rotation properties of, 25:36111
current—voltage characteristics of, for plasma production, 25:36161
currents in magnetoplasmadynamic, (E), 23:1434(R) (N-68-27701)
description and operation of spark gaps for current impulse generators, 22:4305 (INR-823/XVIII/PF)
description of safety modifications for small, 22:14756(R) (UCRL-50007-67-2)
design and performance for neutron production, 21:29317(T) (LA-tr-67-42)
design and performance for plasma production, 21:40035 (IHT-2-10)
design and performance of high-current plasmatron, 22:4506
design and performance of wall-stabilized, for gas heating, 21:734
design and performance with longitudinal plasma blowout, 21:20980
design as charged particle source, 21:20946(P)
design for high-temperature plasma production, 21:3893(P)
design for high-temperature plasma production, 21:3894(P)
design for plasma heating, 22:52738
design for producing thermonuclear reactions, 23:51713(P)
design for production of quiescent plasma, variable-parameter, 21:27203
design for steady-state plasma production, 23:1482 (AD-671979)
design of ac nitrogen plasmatron, 22:5336
design of high-pressure and high-current long, for plasma production, (E), 25:3112
design of magnetically balanced, 21:35196
design of reflex, for plasma production, 25:3111 (LYCEN-7065)
design of rotating, for plasma heating, 21:807(P)
design of source of, for spectroscopic measurements of isothermal plasma, 24:26237
design of stable plasmatron, (E), 22:9393
design of titanium electrode, for plasma production, 21:18756
design of wall-stabilized argon, for vacuum uv spectroscopy, 25:59006
design of wall-stabilized, with magnetic adjustable characteristic, 22:36949

development and operation of low-inductance 50 kV, 21:2256
development for solar wind simulation, 22:34353(R) (AD-661285)
development for use as switch in plasma research power supplies, 21:30573 (CLM-R-71)
development for vacuum uv studies, 24:12811
development of cascade high-power chamber for, 22: 29481(T) (NP-tr-1647)
development of high-pressure plasma, as uv source for accurate radiometry, 21:6334(R) (N-66-28024)
development of high-temperature and power-stabilized, 21:27195(T) (AD-640728)
displacement of wall-stabilized, in toroidal geometries, 25:14269
drag width of short moving, in argon, 22:7316
effects on animal and bacterial viruses, lethal, 23:29914
effects on graphite and graphite composites, ablative, 22: 52230
effects on high-temperature fatigue of nickel, 22:37955
effects on phase and structural transformations of tungsten carbide in transition metal carbide surface layers, 23:12432
effects on radioresistant and radiosensitive strains of Escherichia coli, bactericidal, 23:50947
electric conduction from jet to cylindrical anode, 22: 34620 (AD-660571)
electric conductivity decay in wall-stabilized, 22:50185
electric conductivity decay in, common gas, (E), 24: 3341
electric current density and temperature measurement in hydrogen, 25:14268
electric field distribution in dc plasmatron, 22:4535
electric field distribution in hydrogen, with axial magnetic field, (E), 25:3083
electric field strength in constant-current plasmatron, 21:41084
electric field strength in, air, argon, and hydrogen effects on, 21:5303
electric properties of rotating plasmatron, 22:5335
electrode behavior in subsonic argon flows, 21:20984
electrode heating in, plasma motion effects on, (E/T), 22:9385
electrode performance in high-current, use of composite metallic and dielectric insulators for improving, 21:663
electrode potential drop in plasmatron, with vortex gas stabilization, 21:41080
electrode properties in ac, auxiliary, 21:30749
electrodes of torch, properties of cold and thermionic, 21:30748
electron and ion temperature measurements in axial flow, argon, (E/T), 22:9298
electron beam emission from magnetoplasmadynamic, (E), 23:32404
electron density and temperature measurement in, hydrogen, 21:42041
electron density determination in plasma of ac carbon, method for, 21:743
electron density distribution functions in grid region of three-electrode, (E), 23:25318 (BMwF-FBK-69-3, pp 7.1-9)
electron density in wall-stabilized argon, laser interferometer measurement of, 22:7271
electron density in, effects of cathode vapors on, (E), 23:1394
electron distribution function at electrode boundary, 22: 31804 (FEI-106)
electron distribution with time in helium positive column, (E), 22:19958
electron distributions in flowing argon—cesium, for MHD generators, 21:20983
electron emission for plasma—metal vapor filled, 21: 20744
electron emission from plasma—electrode interface, angular distribution of, (T), 24:1429
electron temperature of argon in, measurement from spectral line intensities, (E/T), 22:36894
electron thermalization in cesium plasma in, 21:11651
electron thermalization in cesium, (E), 23:12813
energy balance and voltage—current characteristic for, in hydrogen gas, (T), 24:35441
energy balance at low pressures and high currents, (E), 23:39462
energy balance equations and transport coefficients for nonthermal plasmas, (T), 25:1210
energy balance in argon, 22:9331
energy balance in plasmatron, with opposite jets, (T), 22:9386
energy balance in stabilized, in argon, 22:46174
energy balance in wall-stabilized mercury and xenon, radiation component of, (E/T), 23:23103
energy balance of 100,000 deg K high-pressure, (E/T), 21:806
energy properties of plasma generator, (E/T), 23:30564
energy transfer and electron conduction in argon, (E/T), 22:13500
energy transfer in, development of instrumentation and testing procedures for studying, 21:30744 (SC-DC-67-1796)
erosive effects on copper—tungsten alloys, effects of alloy preparation method on, 22:49691
flow effects on low-power-gradient, in transverse magnetic field, 23:20754
flow in magnetic fields, model for predicting aerodynamic drag in, 21:16851
fluid mechanics of magnetically balanced, in cross-flows, (E/T), 23:12620
gas excitation and ionization in, argon, 22:17695
gas flow field in wall-stabilized, with transverse magnetic fields, (T), 22:36919
gas flow in hollow cathode, properties of, 22:44176
gas heating by stabilized, at high pressures, calculation of characteristics of, 25:59059
gas heating in, properties of, (T), 22:22125
gas instreaming effects on, radial, 21:33475
gas velocify field in magnetically deflected wall-stabilized, (E), 25:47520
Hall effect in high-current, (T), 23:27642
heat exchange properties in plasmatron, 22:4533
heat properties in, for plasma production, (E), 22:9396
heat transfer between, and heated substances, 21:43185
heat transfer from gas to electrode in plasmatron, (E), 22:9390
heat transfer in vortex plasma generators, 23:3518
heat transfer in, magnetic field effects on, 22:11474
heat transfer through cathode spot of quick-flow, in coaxial plasma generator, (E), 23:14813
heat transfer to immersed wires in, plasma ionization effects on, (E/T), 25:7378
initiation by ion bombardment, (E), 25:9442
interaction of 200- to 400-A, with aerodynamic and magnetic fields, (E), 22:1030 (AD-646589)
interactions with magnetic and aerodynamic fields, review of, 21:13562 (ARL-66-0184)
ion density distribution of xenon in, (T), 25:3085 (LYCEN-7061)
ion density in cesium, molecular, (E), 23:8617
ion heating in carbon, to moderate temperatures, 21: 13531 (ORNL-4063, pp 36-70)
ion heating in longitudinal magnetic field in heavy-current, anomalous, (T), 25:38398
ion temperature in hydrogen, Doppler measurement of, 25:9413(T) (SC-T-71-3001)
ion temperature measurements in hollow-cathode, 22: 22147 (TID-24331, pp 121-52)
ionization distribution in, gamma radiation effects on, 21:9345
ionization in, effect of disturbances in Langmuir layer on, 22:31803 (FEI-96)
ionization processes in low-voltage, nonequilibrium, (T), 22:20025
jet structure in magnetically balanced, 23:1465
magnetic field effects on cross-flow, transverse, (E), 25: 52795
magnetic field effects on pressure in, (T), 24:28288
magnetic self-striction in low-pressure mercury vapor, with remote walls, 24:49167
magnetic self-striction in low-pressure, Gvosdover effect in, 25:9441
magnetohydrodynamic phenomena in, 21:20995
microwave oscillations in hot-cathode, amplification of, (E), 24:28260
model for nonequilibrium helium in, 24:28283
model of high-intensity noncylindrical positive column, 23:48918
model of wall-stabilized toroidal, 25:3088
momentum transfer of stationary, in transverse magnetic fields, (T), 23:27422
motion in coaxial cross-field plasma accelerator with logarithmic-spiral cathode, anomalous rotational, 24: 17742
motion induced by magnetic field between ring electrodes, (E), 22:48126
noise propagation along electron current in, 22:36918
operation of back-streaming dc plasma generator, 23: 1483 (N-68-25877)
operation of disk-stabilized low-pressure, properties of, 23:6995
operation of hollow-cathode, new mode for, 25:9432(T) (SC-T-70-4051)
operation of hydrogen, in axial magnetic fields, (E), 21: 11661 (IPP-3/44)
operation of nonstationary, theory for, 21:11664
operation of plasmatron, plasma temperatures in, (E/T), 23:34439(T) (AD-679663)
operation of sectional plasmatrons with compressed channels, 24:28301
oscillations in magnetized carbon, low-frequency, 22: 15539
oscillations in reflex, with low magnetic fields, 25:19666
oscillations in self-adjusting plasmatron, 22:4534
oscillations of free-burning, in oscillating transverse magnetic field, (T), 24:32847
performance as light source in 1100- to 3100-A region, 25:25101 (MPI-PAE/EXTRATERR-29)
performance for production of multicharged ions, 25: 43731 (JINR-P7-5177)
performance of 25-kW hollow-cathode, lithium-fueled, (E), 24:30327
performance of electrothermally accelerated hydrogen jet, 21:42123(R) (AD-645119)
performance of high-current, effect of mass injection on, (E/T), 24:35405
performance of high-current, effects of plasma beams on, 22:17666
performance of pulsed constricted, for high temperature plasma production, (E), 24:26215
performance of three-phase ac plasmatron, for plasma production, 21:20982
performance of titanium electrode, for plasma production, 21:18758
performance of two-chamber and bilateral plasmatrons, (E), 22:9364
performance under passive-crowbar operation, for plasma production, 21:31461 (BMwF-FBK-67-34)
plasma acceleration patterns in quasi-steady, argon, 25: 14281
plasma compression and heating in, method for, (E), 22: 26363(P)
plasma confinement and heating in 100-kA, hydrogen, 21:15097
plasma currents in, due to self-magnetic compression, (E) , 23:39461(T) (SC-T-69-1031)
plasma density and electric field calculations at electrode boundary, 25:1206
plasma density and particle diffusion in energetic, effects of magnetic fields and pressure on, (E), 21:37459
plasma density and temperature in free-burning, 25:7368
plasma density in, argon and cesium, 22:44128
plasma density measurements in hollow-cathode, 22: 22148 (TID-24331, pp 167-209)
plasma diagnostics, 24:30313 (IPP-3/103)
plasma diagnostics in asymmetric, spectroscopic, (E/T), 24:3303 (AD-692511)
plasma diagnostics in free-burning, spectroscopic, (E/T), 25:58998
plasma diagnostics in hollow cathode, scanner system for, (E), 23:23087
plasma diagnostics in hollow-cathode argon, 24:26150 (AD-700307)
plasma diagnostics in hollow-cathode, (E), 23:16779 (N-68-33838)
plasma diagnostics in vacuum lithium-electrode, spectroscopic, 21:44030 (MATT-547)
plasma diagnostics in weak-discharge, using optical probes, 24:49119
plasma diagnostics in, cesium, 21:46322
plasma diagnostics in, optical probing for, 25:3065
plasma diagnostics in, review of methods for particle-density and temperature measurement, 23:30532
plasma diagnostics in, spectroscopic, 25:45457
plasma diagnostics in, spectroscopic measurement of electron density and atom and ion temperatures, 22: 41549
plasma diagnostics in, spectroscopic, (E/T), 25:56139
plasma diagnostics in, temperature from emission spectra, 25:22485
plasma diagnostics in, use of vacuum uv radiation for, 22:34586 (AD-662626)
plasma diagnostics in, using carbon dioxide lasers, 24: 51616 (IPP-4/4)
plasma diagnostics of high-current pulsed, 21:23214 (NP-16669)
plasma diagnostics using molecular hydrogen ion beam probing, 24:30311(R) (AD-687181)
plasma diffusion in magnetic fields, quasi-ambipolar, (T), 25:17187
plasma diffusion waves in, (E), 22:9307 (TID-24203, pp 53-71)
plasma drift wave instabilities in, (T), 24:6552
plasma drift waves in, lithium, (T), 25:40678
plasma electron and atom temperature determination from spectra in, 22:5320
plasma electron and ion energy distribution in, hydrogen, 21:11615
plasma electron density measurement in, using lasers, (T) , 23:12778
plasma electron energy distribution in, measurement of, 21:29216
plasma electron energy distributions in high-pressure, 21:29217
plasma electron temperature measurement in, using double floating probe, 22:24267
plasma electron temperatures in, spectral determination of, 21:9551
plasma flow in constricted, equilibrium model for, 24: 17924
plasma flow in inherent fields of, compressible, (T), 25: 3103
plasma flow in positive column, properties of, 24:49172
plasma flow in self-induced magnetic field in, (T), 25: 36103 (DLR-FB-70-13)
plasma flow in vortex-stabilized plasmatron, (E), 22: 9362
plasma flow in wall-constricted, properties of, (E/T), 22: 39061 (N-68-11083)
plasma flow in, longitudinal, (E), 22:15534
plasma flow in, longitudinal, (E), 22:15533
plasma heat flux measurements in, 21:2270
plasma heating in high-pressure, pulse, 21:16900
plasma heating in toroidal, effects of curvature on wall-stabilized, 25:33213
plasma instabilities and turbulence in argon, (E/T), 25: 56196(R) (N-71-25028)
plasma instabilities in reflex, effects of steady-state oscillations on, (E/T), 25:19707
plasma instabilities in, hydrogen, 21:44141 (ORNL-4150, pp 71-102)
plasma instabilities in, with external magnetic fields, 21: 44127(R) (NP-16948)
plasma instability in rotating hydrogen, Rayleigh—Taylor, (E), 23:42335 (IPP-3/83)
plasma ion temperature, charge exchange, and collisions in argon, (E), 22:34616
plasma jet expansion in, supersonic, (E), 24:47226
plasma jet instability in, neutral drag, (E/T), 25:52800
plasma jet production in, near-electrode phenomena in, (E), 23:51679
plasma jet structure in, coupling of magnetic and flow field in, (E), 25:40623
plasma jets from MPD, thrust of, 25:30503
plasma kinetics in high-pressure, helium, 21:44141 (ORNL-4150, pp 71-102)
plasma kinetics in, temperature effects on collision cross sections in, 21:44117
plasma kinetics in, transverse magnetic field effects on, 21:42047 (ARL-67-0119)
plasma luminescence in channel of, radial and axial development of, 21:42103
plasma motion in high-current, (T), 24:3370
plasma motion in, with transverse magnetic fields, (E), 22:31831
plasma motion near electrodes in, (E), 22:17647
plasma nonequilibrium effects in atmospheric, argon, (E/T), 25:25107
plasma nonequilibrium properties in, argon and helium, 24:37462
plasma oscillations at anode in, alkali metal, (T), 22: 41588
plasma oscillations in energetic, properties of, (E), 21: 7206(R) (AD-634023)
plasma oscillations in magnetic fields, rotating, (E), 24: 28358
plasma oscillations in thruster, spectra of, (E), 25:7384
plasma oscillations in, argon, 21:35175
plasma oscillations in, electrode effects on, 21:29248
plasma oscillations near anode of, alkali metal, (E/T), 21:5271(R) (NP-16397)
plasma production and flow in 100-kOe magnetic fields, (E), 23:18669

plasma production and heating in, enthalpy distribution in, (T), 25:1218
plasma production at low temperatures by, 22:52825
plasma production in pulsed, at high pressures, 24:26216
plasma production in superhigh-pressure pulsed, in argon and helium, (E), 24:47261
plasma production in titanium electrode, magnetic field effects on hydrogen, 21:18755
plasma production in transpiration-cooled, uncertainties in, (E), 24:19902
plasma production in, argon—hydrogen mixture effects on, 24:21811
plasma production in, shock wave effects on spark, (E/T), 22:13507
plasma production kinetics in low-voltage, cesium, 22:5382
plasma production kinetics in low-voltage, cesium, 22:5381
plasma properties in heavy-current, longitudinal, (E), 23:32400
plasma properties in high-current, hydrogen, 22:5330
plasma properties in high-pressure, 22:31806 (ORNL-4238, pp 67-104)
plasma properties in high-pressure pulsed, (E), 24:17908
plasma properties in high-pressure, argon, (E), 23:51637
plasma properties in high-pressure, hydrogen, (T), 23:34434
plasma properties in hollow-cathode, 22:9308 (TID-24203, pp 73-134)
plasma properties in hollow-cathode, argon, 21:29226 (TID-23827, pp 141-216)
plasma properties in low-voltage, rare gas, 22:34624(R) (AD-661073)
plasma properties in low-voltage, research on, 22:34625(R) (AD-661304)
plasma properties in sodium-containing argon, with rotating water hollow cylinder, 21:46324
plasma properties in spark, hydrogen, (E), 23:16794
plasma properties in stationary, helium, (E/T), 24:49130
plasma properties in toroidal, with cold gas blanket, (T), 23:32425
plasma properties in wall-stabilized, (T), 23:25297
plasma properties in, combined effects of irradiation and conduction in, (T), 25:25123
plasma properties in, with transverse magnetic fields, (T), 23:18642 (AD-674057)
plasma properties near cathode in MPD accelerators, (E), 25:45465
plasma properties near cathode region of MPD, (E), 25:40626
plasma properties near cathode region of MPD, (E), 25:43353 (N-71-19984)
plasma radial temperature distribution in column, mercury, 24:28299
plasma radial temperature distribution in dc, 21:42030
plasma radiations from, dense, (E), 25:49889 (AD-708161)
plasma resonances in positive column, 21:11633(R) (SU-IPR-124)
plasma rotation in interelectrode region of, (E), 24:32832
plasma rotation in, photographic observations of, (E), 24:35409
plasma rotational instabilities in, Rayleigh—Taylor, (E), 23:51698
plasma sheath near electrodes of, collisionless theory for, 21:7249
plasma spectra in high current, argon and helium, 21:23165
plasma spectra in, helium, 21:5254
plasma spectral analysis at outlet of plasmatron, argon, 24:40097
plasma spectral line profiles in pulsed, helium, (E), 25:25112
plasma stability in short-current pulsed, hydrogen, (E), 24:10566
plasma stabilization by rotation of tube in, (E), 23:20944(P)
plasma stabilization in, operational parameters for vortex, 21:20993
plasma temperature and electron density in spark, hydrogen, (E), 25:56142
plasma temperature distribution and thermal conductivity in argon, spectral measurements of, (E), 25:56140
plasma temperature distribution in strong magnetic fields, (T), 23:20888 (NP-17811)
plasma temperature distributions in, argon and nitrogen, 21:11603 (ARL-65-92)
plasma temperature in cylindrically symmetric column, 22:52759
plasma temperature in, method for increasing, 21:7176(T) (ORNL-tr-1438)
plasma temperature measurement in argon, spectroscopic, 25:30478(T) (SC-T-713024)
plasma temperature measurement in high power, argon, 21:44045
plasma temperature measurement in, argon, (T), 23:44393 (PB-184132)
plasma temperature measurement using photoelectric spectroscopy, (E), 23:23089
plasma temperature measurements in argon, spectroscopic, 25:52781 (AD-720856)
plasma temperature measurements in, argon, 22:34619
plasma temperature measurements in, spectral analysis of argon, 21:44036
plasma temperature, voltage, and electric field measurement in uranium dc, 22:52749
plasma thermal conductivities in, 21:25130(R) (N-67-13538)
plasma thermal conductivity in circular tube, 21:20964
plasma thermal conductivity in, argon, (E), 22:22151
plasma thermal conductivity in, nitrogen, 22:9332
plasma thermodynamic equilibrium in, argon, 21:37443 (ARL-67-0060)
plasma transport in MPD, (E), 23:42264
plasma transport properties in, 21:13556 (AGARD-CP-8(Vol.2), pp 473-93)
plasma turbulent flows in, argon and nitrogen, (E), 24:40058 (AD-705200)
plasma velocities in Bogen, properties of, 21:40029
plasma velocities in, Doppler measurement of axial and rotational, (E), 24:30333
plasma waves and rotation in hollow-cathode, (E), 22:26389
plasma-cluster production in dc, in inhomogeneous magnetic fields, 25:11905
potential breakdown in crossed fields, (T), 24:1426
potential breakdown in magnetic fields, resistance in, (E), 23:10481
potential calculations for low-pressure plasma sources, 22:9389
potential changes in, pressure effects on, (E), 22:9391
potential distribution in cascade, (E), 23:34418
potential in ac, radial and axial phase distribution of, 21:20002
potential regulation in plasmatron, by changing the gas flow ratio through vortex chambers, (E), 22:9363
potential variations in plasmatron, (E), 22:9388
power supply for MPD, electrolytic capacitor current pulse networks, 25:52796
power supply for, used in duoplasmatron ion sources, 21:25379
pressure dependence on anode drop voltage in high pressure, 21:26304
pressure effects on electric field and radiation characteristics of, 130-atm, (E), 25:30509
pressure increase in hydrogen, with axial magnetic field, 21:13603(T) (ORNL-tr-1440)
pressure measurement near anode of high-current, 25:56155
properties in cross-flow gas and transverse magnetic field, (T), 23:36690
properties in crossed and flow fields, (T), 23:12816(R) (AD-669354)
properties in strong magnetic fields, (E/T), 25:59005
properties in turbulent flows, (E), 23:18599 (AD-674614)
properties of axially symmetric wall-stabilized, (T), 23:16816
properties of convected balanced, in transverse magnetic fields, (E/T), 23:27619 (N-69-18041)
properties of cylindrical, effects of natural radial convection on, (T), 24:3366
properties of dc coaxial plasmatron, (E), 22:9394
properties of free-burning, in transverse magnetic fields and gas flow, (E/T), 25:9282
properties of helium, at 10 atm, (E/T), 24:40054
properties of helium, with needle electrodes, (E), 24:3306 (N-69-36755)
properties of hf plasma torch, 21:20981
properties of high-current and high-frequency plasmatron, (E), 22:50199
properties of high-current free-burning, in air, (E), 25:5093
properties of high-frequency high-voltage, in vacuum, 22:9724(T) (ANL-Trans-535)
properties of high-pressure pulsed argon, 21:35197
properties of high-pressure pulsed, in helium and hydrogen, 21:31455
properties of high-vacuum, discharge, 21:30752
properties of hollow-cathode, (E/T), 25:9431(T) (SC-T-70-4050)
properties of hollow-cathode, gas flow in, (E/T), 25:9433(T) (SC-T-70-4053)
properties of hollow-cathode, review of, 21:23212 (CEA-Bib-88)
properties of induction-coupled argon, at atmospheric pressures, 22:12689
properties of low-current, for measurement of iron spectra, (E), 25:14245
properties of low-pressure positive column, in longitudinal magnetic fields, 22:44135
properties of low-voltage Knudsen, in cesium—argon mixtures, (E), 23:51630
properties of low-voltage, in noble gases, 22:46161
properties of low-voltage, volt—ampere, 22:28203 (FEI-95)
properties of magnetically balanced, (E), 23:48895
properties of magnetoplasmadynamic, 22:39066(R) (N-68-13516)
properties of nonsteady coaxial, in fully developed plasma flows, 21:32534
properties of plasma arc balanced magnetically in transverse gas stream flow and heat-transfer, (E), 22:2903
properties of plasmatron with interelectrode insert, 21:41081
properties of plasmatron, effect of convective heat exchange on, 21:41082
properties of plasmatron, for production of plasma, 23:10674
properties of plasmatron, volt—ampere, 22:38852
properties of plasmatron, volt-ampere, (E), 22:19202
properties of radiation-dominated, temperature profiles, (T), 24:30344
properties of reflex, at low pressures, 21:13608
properties of rotationally stabilized, (T), 23:44419
properties of self-maintained plasmatron, 22:4532
properties of self-stabilized plasmatron, pulsations in, 21:41083
properties of spherically symmetric static, (T), 21:23168
properties of stabilized, (T), 22:9361
properties of stabilized, in air, argon, nitrogen, and oxygen, 22:11473
properties of transpiration-cooled porous electrode, for plasma production, 22:22190
properties of vortex-stabilized plasmatron, (E), 22:9395
properties of wall-stabilized toroidal, (T), 25:40642
properties of wall-stabilized, in channels, (T), 22:44127
properties of, in channel with gas flow, (T), 23:27420
properties of, nonstationary, (T), 22:9387
properties of, review with respect to applications in atomic physics, 23:30532
properties of, volt—ampere, 22:31864
radiations from argon and nitrogen, energy transport in, 22:50157
rare gas ionization and excitation in torch, 21:31464
research on high voltage, in vacuum, 23:42801
spark gap for triggering 60 kV spark gaps, design of submaster, 23:17664
spark-gap design for machine tool setting, 22:14645
spectra from argon, 21:2215
spectra from spark discharges in, optical, 21:27134
spectra from, use of magnetic fields for improvements in emission, for analytical chemistry, 24:16408 (JUL-614-RW)
spectra of free-burning, oscillator strengths in, (T), 24:25887
spectra of neutral silicon in argon, between silicon anode and carbon cathode, 21:46370
spot motion in crossed electric and magnetic fields, 21:7273 (AD-633730)
stability and shape of magnetically balanced cross-flow, (E), 24:17920
stability and slanting in thermionic rail accelerator, (T), 22:43967
stabilization in nitrogen in crossed convective and magnetic fields, (E), 24:15188
stabilization of ac argon, coaxial flow, 22:39074 (N-68-21242)
stabilization of cylindrical, whirl, 23:3503
stabilization with forced vortex, (E), 23:46465
striking of, method and device for, 23:25387(P)
structure in magnetic annular discharges in hydrogen, (E), 23:25331
temperature and flow fields in wall-stabilized magnetically deflected, (E/T), 24:15291
temperature calculation for ac, 24:1386
temperature distributions in hydrogen cascade, up to 27,000°K, (E), 23:25300
temperature field in plasmatron, with vortex stabilization, (E), 22:9392
temperature fields near electrodes in plasmatron, (E), 22:19213
temperature measurements in high-current, in transverse magnetic field, 22:5337
temperature of argon in high-pressure, brightness, (E), 25:33219
temperature profile in small cross section, 22:41614
temperature profiles of argon, hydrogen, and nitrogen, (T), 22:9360
temperature radial distribution in nitrogen, (E), 24:17894
theory for coaxial plasmatron, with gas flowing in axial magnetic field, 23:34435
theory for operation in narrow-slot chamber, (T), 23:14802
theory for radial mass inflow, 23:44415 (AD-687862)
theory for radial pressure profile in hydrogen, 13-moments approximation, 25:3105
theory for radial pressure profile in hydrogen, 5-moments approximation, 25:3104
theory for, under conditions of natural convection, 23:10660
theory of diffusion in low-voltage, in cesium vapors, 21:18493
theory of low-voltage, in cesium vapor, 22:3041 (IAE-1160, pp 29-42)
theory of low-voltage, in short gaps, 22:46176
theory of MPD, with nonequilibrium ionization, 22:39067 (N-68-14559)
thermal analysis and arc-flow interactions in anode regime of, 21:18750(R) (N-66-22938)
thermal conductivity of hydrogen in, between 2000 and 7000°K, 23:14753
thermal conductivity of, (T), 21:11618
time constants for nonstationary, 22:20021
transport coefficients for high-pressure, (E/T), 24:3323
transport functions for cylindrical, hydrogen, (E/T), 23:46462
transport properties in high-power, hydrogen and nitrogen, (E), 24:3329 (AD-689277)
trigger for, design and performance of nanosecond ruby laser, 22:21373 (CERN-67-33)
use as radiation source for military applications, 22:41620 (AD-662350)
use for air plasma production at 35,000°K, 23:42332
use for measurement of high-temperature gas transport, 21:33379
use in limiting internal surges in electric power transmission from nuclear reactors, 22:14610
use in low-power MHD thrustor, (E), 21:24963 (N-67-13098)
use of hollow-cathode, for spectrographic determination of lithium in refractory oxides, 22:12245
use of plasmatron, for plasma production and heating, 21:37498
use of spark gap, for laser beam pulsing, 25:59076(T) (UCRL-Trans-10556)
use of vortex stabilized argon, for simulation of solar spectrum (E), 21:797 (N-66-23848)
voltage—current characteristics of linear dc, for plasma production, (E), 25:49908
x-ray intensity distribution from positive column of, (E), 21:20938
ytterbium chloride dissociation and ionization in low-voltage, (E), 24:6532 (SGAE-PH-87/1969)
ELECTRIC CAPACITORS
admittance in plasma, diagnostic use of, 25:14251
amplification by instability in rf-sustained plasma, parametric, (E), 23:51702
characteristics of KFA Julich 1.2-MJ bank of, determination of current and voltage, 22:45213 (BMwF-FBK-68-21)
charge storage in Mylar-insulated, model of electron-induced, 21:9257 (NASA-CR-656)
charge transients in aluminum—silicon nitride—silicon, 23:6728
charging by means of exploding wires, pulse, (E), 23:32490

construction and testing of 20 kV and 40 kV spark gaps for, for plasma physics research, 21:30571 (BMwF-FBK-67-36)
current flow from high-voltage, time dependence of, 25:36202
current shaping techniques for high voltage, 25:57268 (SC-DR-710463)
description of 12.5 kJ, 25:37194 (MHSMP-71-33)
design and manufacture for plasma research, 24:12846 (LA-4142)
design and performance of impulse, for plasma accelerators, 21:16218 (INR-710/XVIII/P)
design and testing of 40-kV energy-storage, 21:3342 (UCRL-13209)
design for accelerator and thermonuclear research, 25:33319
design for controlled thermonuclear fusion research, 21:18624
design for coupling rf power supply to cavity resonators of synchrotrons, 23:39885(P)
design for plasma turbulence heating experiment, 22:46102 (IPP-4/50)
design of banks of, for 2-MJ high-beta toroidal plasma experiment, 25:30563 (EUR-4593, pp 219-25)
design of banks of, for fusion research, 25:30582 (EUR-4593, pp 393-400)
design of high-Q, for plasma experiments, 25:30595 (EUR-4593, pp 545-50)
design of high-Q, with liquid and gas impregnation, 25:30594 (EUR-4593, pp 541-4)
design of stable 1 pF charge injection, for charge sensitive semiconductor detector preamplifiers, 23:35495
design of unit for above 100-kV range, 25:30571 (EUR-4593, pp 293-9)
design, fabrication, and performance of pulse discharge, cost reduction study for, 21:38853 (UCRL-13302)
development for space uses, 21:26747(R) (NASA-CR-54358)
development for use at 800 to 1600°C, review on, 24:14639 (BNL-50215)
development of magnetic energy storage system using exploding foils, 24:40127
discharge analysis of, for plasma research, 23:6974(T) (SC-T-68-1551)
discharge of banks of, design of 60 kV spark gap for, 23:17663
discharge of banks of, design of copper sulfate liquid resistor for energy absorption from, 23:17665
electron effects on electric properties of variable, 21:37554
electron tunneling across interface in annealed tantalum/tantalum oxide, (T), 22:15632
electronic properties of gold-doped oxidized silicon surfaces of, 22:13069
energy absorption by dielectrics in, for use in microwave dosimetry, 24:41879 (BRH/DBE-70-1, pp 153-72)
fabrication by neutron-transmutation doping, 24:50649
fabrication of high-temperature, feasibility of, 21:34889(R) (NASA-CR-54359)
fabrication of MOS, for minimum radiation sensitivity, 22:12738
failure analysis of pulsed, for plasma research, 21:35135 (IPP-4/35)
gamma effects on electric properties of variable, 21:37554
impedance calculations for parallel-plate, in plasmas, 25:3100
insulator foils for banks of, surface discharges on, 25:30581 (EUR-4593, pp 385-92)
ion implantation effects on sodium-ion drift in silicon oxide layers in MOS, sodium and nitrogen, 25:37679
load inductance of high-voltage, method for shorting, 25:41665 (SC-DR-710154)
module design for banks of, engineering drawings for, 21:34385
monitoring in bank sections, design of equipment for, 21:34386
noise reduction in high voltage, method for systematic, 21:1683
performance for x-ray dose rate measurements, 24:16902
performance of banks of, effect on magnetically driven flyer plates, 22:12189 (SCL-DR-67-116)
performance of thin films of niobium oxide as, 23:6723
power supply and logic for storage capacitor banks, for pulsing magnets, 21:4169
properties of ceramic, for synchrotron kicker-magnet pulse lines, 23:28119
properties of cylindrical, as analyzer for nonrelativistic charged particles, 21:37977
properties of ignitrons for 20 kV capacitor discharge circuits, 22:45214 (IPP-4/44)
properties of oxidized silicon surfaces of metal-oxide-semiconductor, 22:13069
properties of plane plasma-filled, in crossed electric and magnetic fields, (T), 25:27718
properties of pyrolytic boron nitride wafer-type, 22:652(R) (N-67-22066)
radiation effects in air and vacuum, 21:39654(R) (AD-651144)
radiation effects on, 22:710(R) (AD-648742)
radiation effects on, 21:14923 (SC-TM-66-2625)
radiation effects on, 21:12735 (AD-641642)
radiation effects on electric properties of, 1.5-MeV electron and gamma, 23:2731 (HMI-B-72)
radiation effects on leakage current of aluminum electrolytic, 50-kV x, 25:23935
radiation effects on metal—insulator—silicon, electron, 21:6388
radiation effects on metal—silica—silicon, 21:25740 (SC-CR-67-2571)
radiation effects on metal-coated surface-oxidized silicon, model of gamma and neutron, 22:11019
radiation effects on MOS, 22:33707
radiation effects on MOS and MNS, use of conductance-versus-voltage measurements for determining, 22:14902
radiation effects on MOS, 1-MeV electron, 24:33978 (CEA-CONF-1508)
radiation effects on MOS, 25-MeV proton, 25:37702
radiation effects on MOS, reactor, 25:44752
radiation effects on Mylar, electron, neutron, and proton, 22:416(R) (AD-648643)
radiation effects on performance of, electron and in-pile, 21:34971(R) (AD-641673)
radiation effects on steam-grown silicon oxide MOS, gamma, 21:45494
radiation effects on threshold voltage of metal—nitride—oxide—silicon, 22:30927
radiation effects on transient response of circuits containing, 22:28266
radiation effects on wet aluminum electrolytic, increase in leakage current due to x, 25:15984
radiation effects on, electron and gamma, 25:13327 (LCIE-364)
radiation effects on, in simulated space flight, 23:45602
radiation effects on, manual on, 21:18303 (UCID-4544)
radiation effects on, statistical prediction of, 21:1923
radiation hazards associated with vacuum fired and variable, 23:9939 (ORNL-4316, pp 231-69)
radioinduced interface states in MOS, effects of heat treatment in electric field on 1-MeV electron, 25:35080
radioinduced ionization and conductivity in, charged-particle, electron, gamma, and neutron, 21:6381
radioinduced leakage currents in electrolytic, dose rate dependence of x, 24:16902
radioinduced space-charge buildup in MOS, 22:33706
radioinduced surface and bulk effects in MOS, neutron, 22:33705
safety circuit for discharge system of, overvoltage, 22:12716(P)
simulator for pulsed plasma discharges, 22:34669
switch for, development of vacuum clamp, 21:18268(R) (PB-173549)
switches for 20-kJ, 40-kV, vacuum start and clamp, 25:30570 (EUR-4593, pp 287-91)
switches for fast energy-storage systems, high-power spark-gap, 25:30565 (EUR-4593, pp 241-50)
switches for plasma research, development of spark gap, 21:30573 (CLM-R-71)
switches for, design of high-current crowbar, 25:25173
switches for, design of solid dielectric multichannel crowbar, 25:30580 (EUR-4593, pp 379-84)
switches for, performance of exploding-foil, 25:30574 (EUR-4593, pp 319-38)
switches for, testing of master gap, 21:28302 (IPP-4/40)
switching systems for large, performance of trigatrons without decoupling leads, 21:30580 (CONF-661016, pp 3-7)
transmission lines for high-voltage, development of coaxial cable, 21:25104 (LA-DC-8087)
trigger system for plasma research, light pulse, 21:30587 (CONF-661016, pp 315-24)
use as auxiliary power source in direct current electric arc welding, 23:4764(P)
use in device for measuring pressure differences in glove boxes, 21:22081(P)
use of cylindrical, as analyzer for relativistic charged particles, 22:10594 (IA-1131)
use of cylindrical, as charged-particle analyzer, 22:23373
voltage distribution in, effects of applied pulses on, 21:28301 (IPP-4/39)

ELECTRIC CAPACITY
calculation for two-dimensional coaxial circular and square cylinders, (T), 22:39947 (AECL-3110)

characteristics of lithium/selenium, with and without iron addition for current collection, 22:52556 (ANL-7425, pp 172-89)
characteristics of lithium/tellurium, at 470-480°C, 22:52556 (ANL-7425, pp 172-89)
design and irradiation performance of fission—, 21:18487 (JPL-TR-32-970)
design and performance of fission, 21:5108 (JPL-TR-32-981)
design for measuring thermodynamics of plutonium compounds by EMF methods, 22:31463
design for stress corrosion testing of chromium—iron—nickel alloys in sodium hydroxide, 24:8052(R) (COO-2018-5)
design of promethium-147-powered, 25:54922(P)
development of high-specific-energy high-specific-power secondary, 22:36774 (ANL-7450, pp 90-104)
development of thermally regenerative galvanic, (E), 22:26270 (ANL-7375, pp 160-75)
development of thermally regenerative, with lithium and sodium anodes for direct energy conversion, 22:52556 (ANL-7425, pp 172-89)
materials development for thermally regenerative galvanic, 23:9264
operation of regenerative emf, 21:25935(R) (ANL-7225)
performance and predictability of standard, 24:20681 (UCRL-71935(Rev.1))
properties of, using alkali metals and charge transfer complexes, 25:57221(R) (COO-1707-12)
stability of saturated standard reference, detection of changes in, 22:6225 (SC-TM-67-765)
thermally regenerative galvanic, with fused-salt electrolytes, (E), 22:24087 (ANL-7316)
use in energy conversion, review of present status of, 22:29320

ELECTRIC CHARGES
book: Longitudinal Space-Charge Waves, 21:26980
Compton effect and energy absorption by, (T), 25:9615
constancy of electron, (T), 25:19883
constant of, variation over cosmological time scales, (T), 25:47314
Coulomb force between point, spinor representation of Maxwell equations for, (T), 25:41052
Coulomb law for, experimental test of, 24:42916
current distributions of accelerated nonradiating, electromagnetic potentials for, 22:26538
determination of, in normal and neoplastic liver cells, 21:20079
Dirac's relation for electric and magnetic charge strengths, 23:1569
distribution in aerosols, random nature of, 24:16706
distribution on ultrahigh vacuum cleaved silicates, 23:33373
effects of excess, in Universe, cosmological, (T), 24:1247
Einstein—Maxwell equations for point, classical eigenenergy in general relativity theory for, 24:37907
energies of point, in polarized vacuum in Lorentz-invariant electrodynamics, field, 25:9867
equations for coupled gravitational—massless scalar field—electric charge system, essential singularities in spherically symmetric initial solutions of, 24:3761
existence of magnetic charge, evidence for, (T), 21:15240
field of uniformly moving, evaluation of Galilean transformation of special relativity from, 24:5340
interactions of elementary, stochastic processes for description of, 24:15436
kinetics of electron-emission-induced unipolar, on radioactive aerosol particles in external electric field, (E), 24:19098
kinetics of, moving at speed of light, (T), 24:24194
Lorentz invariance of, 25:27988
measurement of aerosol particle, during alpha decay, 23:7642
measurement of aerosol particle, during beta decay, 24:5757
measurement of raindrop, design of system for, 22:18957 (BNWL-481-1, pp 74-6)
measurement of raindrop, improved system for, 23:9567 (BNWL-715-3, pp 150-3)
measurement of raindrop, use of spectrometer for, 23:9566 (BNWL-715-3, pp 140-9)
measurement on capacitive device, circuit for, 24:14369(P)
measurements on raindrops, 25:48636 (BNWL-1551(Vol.2)(Pt.1), pp 91-7)
motion in electromagnetic field in general relativity theory, geodesics of Einstein connection for paths of, (T), 25:36443
motion in electromagnetic field, Lorentz transformation for invariant electric tension vector, 25:56567
motion in field of magnetic charge, relation between charge quantization and angular momentum for, 23:42721
motion of point test, in external electromagnetic field with radiation reaction, geodesics of affine connection for, (T), 25:53090
motion of point, effect of radiation reaction on, 24:37683
motion of point, radiation reaction as retarded self-interaction from, 25:53273
motion of point, spin effects extracted from Lorentz—Dirac equations of, 24:45379
neutralization in USSR industry, use of radioisotopes for, 25:51704 (A/CONF.49/P-699)
production on surfaces of radioactive crystals, 23:21769
propagation of point, along channel axis of gyrotropic dielectric, radiation from, (T), 23:46568
quantization condition for, Schwinger, 24:49390
quantization of, 23:7122
quantization of, relation between compactness of gauge group and, 24:37698
quantization relation between magnetic and, derivation of Schwinger, 23:44618
radiation effects on response to, by muscles, 21:4870
radiation effects on, in myosin, uv, 21:369
radiation from falling, photon production from scalar meson interactions with external gravitational fields from classical equation of motion for, (T), 25:25512
radiation from uniformly accelerated, 24:49392
radiation of, solutions of Einstein—Maxwell equations for spherically symmetric, (T), 25:43710
removal of static, radioisotopic method for, 22:33613
superselection rule for, 24:42912
superselection rule for, existence of, 21:42304
testing Coulomb's law of force between, 21:35789 (COO-1112-118)
theory for geometrodynamical analog to, excluded possibilities in, (T), 25:53079
time variation of fundamental, 22:5131
time variation of fundamental, 22:5132
transport from electrode injection into insulating liquids, (E/T), 25:33105
variation of e^2, limit on time, 22:13708

fallout effects on atmospheric, nuclear explosion, 21:11509
measurement and numerical analysis of, from 4 to 300°K, 25:58929 (FRNC-TH-72)
measurement at high pressures, cell for simultaneous two-sample, 22:43151 (FOA-4-4361-23)
measurement at high temperatures, correction for leakage currents due to thermionic emission, 25:14455
measurement in aqueous solutions, design of electrodeless meter for, 22:16927 (CEA-R-3344)
measurement in fissile and nonfissile materials, design of Ispra I reactor experimental facility for high temperature, 23:16009 (EUR-4196)
measurement in solids to 1400°C, equipment for, 21:13260 (ORNL-3970, pp 36-41)
measurement in wire embedded in silver-filled epoxy adhesives, 21:39621 (SC-DR-67-425)
measurement of equilibrium and nonequilibrium, in seeded combustion products of MHD generator, 21:37236
measurement of insulator, by four-probe technique, 25:36310 (HEDL-SA-119)
measurement of liquid metal, monitoring of impurities by, 21:24139(T) (ORNL-tr-1609)
measurement of reactor primary-coolant, for system corrosion and erosion rate estimation, 21:35749
measurement of, design of conductance bridge for, 22:25328 (ORNL-4229, pp 50-67)
measurement of, development of system for, 22:19580 (BNWL-455, Paper 12.1-100)
measurement of, feasibility of immersion-type rf probe for, 22:52745
measurement of, for wetting, bubble formation, and void fraction determination, 21:3213
measurement of, use of linear tapered sections in method for, 24:24982 (UCRL-72348)
measurements at low temperatures, eddy current method for, 21:43994
measurements for aluminum fuel cladding tubes, use with eddy current testing to determine cladding defects and dimensions, 25:6511
measurements for stainless steel pipes in water-cooled reactor cooling circuit, use with eddy current method to determine pipe thickness, 25:6493
measurements in steel tubing welds, method for weld testing using, 25:6498
measurements of metal samples, superconducting device for, 24:44364
method for measurement of oxygen solubility by, 21:454(R) (EIMAC-TR-66-15)
quantum mechanical basis for Wiedemann—Franz law, (T), 23:44578
radial pulsations of infinite cylinders with infinite, (T), 21:36979
temperature coefficient of, dynamic method for measurement of, 25:58241
theory for liquid metals, 21:13165
use for evaluating of radiopreservation of fish, 21:26724
use for studying sodium-exposed materials, 21:36793
use in measuring residual surface stresses of materials, 22:14737 (CONF-671011-, pp 168-83)
ELECTRIC CONDUCTORS

accumulator using superconducting circuit, design, 24:28151(P)
calibration of dc, new wide range source for, 24:26856 (BDX-613-134)
charged-particle energy storage and, in magnetosphere, 22:5233
Cherenkov radiation production by modulated, in transparent inverted dielectric, (T), 23:51902
collection by electrostatic probe, magnetic and velocity effects on ionospheric, 21:39865 (NP-16939)
construction of system of ionospheric, from geomagnetic storm data, 21:39930
dangers to human body, 21:10882(T) (ORNL-tr-1386)
density determination of ionospheric, by magnetic field measurements, 21:23108
diffusion in shock tubes, effect of varying magnetic fields on, 21:28133
distribution in conductor, for skin effect, (T), 22:5447
distribution in equatorial electrojet, vertical, 21:33288
distribution in ionosphere, effects of lunar tidal winds on, differential equations for, 24:45148
distribution in ionosphere, effects of solar tides on, differential equations for, 24:45147
distribution in vicinity of sunspots, (E/T), 25:7056
distribution, calculation of geomagnetic field of axisymmetric, 21:9402
dosimetry calculations based on, induced in tissues by 0.5 to 60 MeV neutrons, 21:6513
effect on tidal-wave transmission in ionized atmosphere, (T), 25:38236
effects of direct, on diffusion of oxygen ions in pure and alloyed zirconium oxide, 21:9225
effects of direct, on surface structure of tungsten wires, 21:13203
effects of modulated, on etching tantalum in non-aqueous electrolytes, 23:22473
effects of pulsed step function-type input, on response of exciting coil during eddy current testing, (E/T), 25:341 (BNWL-1406)
effects of variation in, on doses delivered by linear accelerators, 21:6555
effects of, on heart and respiration, 21:10877 (ORNL-P-2656)
effects of, on x-radiosensitivity of transplanted tumors, 21:4839
effects on acceleration of geomagnetically trapped electrons, (E), 21:702
effects on activity of blood catalase in x-irradiated rats, 23:9877
effects on calcium, potassium, and sodium flux in cultured x-irradiated sciatic nerve membranes from toads, 23:43686(R) (ORO-3270-5)
effects on fat, glycogen, and nucleic acid content of x-irradiated rats, 23:9878
effects on geomagnetic field, geomagnetic bays from, (T), 22:5235
effects on iodine-131 metabolism in schizophrenic patients, 23:2782
effects on magnetic fluctuations in magnetosphere, field-aligned, 21:13440
effects on mitosis in γ-irradiated rootlets of cotton plants, effects of seed exposure on, 23:6616
effects on oxygen consumption by x-irradiated rats, 23:10082
effects on retina of grass frogs, 23:50887
effects on seasonal variations in ionospheric E region, S/sub q/, 21:35099
effects on spinal cord of cats, x-ray-induced modification of, 22:28626 (NYO-2147-13, pp 193-5)
effects on x radiosensitivity of rats, 25:42530
electron and proton contribution to storm-time ring current, 21:37297
field formed by drift in radiation belts, (T), 21:39918
generation by external electric field in polar cap, ionospheric, 21:41912
generation by generalized dynamo mechanism, geomagnetic variations from, 21:7114
generation in ionosphere, relation of auroral-zone x-ray flux to, 21:7126
generation of storm-time extraterrestrial ring, relation of trapped particles to, 21:41894(R) (AD-648909)
intensity in ionosphere, relation of polar magnetic substorms to, 21:35083
intensity in ionosphere, relation of sunspot cycle to, 21:37335
intensity in midlatitude ionosphere, height profile of Sq, 21:7088
intensity of world-wide S/sub q/, electrojets correlated with, 21:37334
interaction with plasma background in Astron, (T), 21:27117 (UCRL-50187)
leads for 100- to several thousand-A, design of helium-vapor-cooled, 22:4522
magnetic activity and ionospheric, polar, 22:5222
magnetic storms and ionospheric, sudden commencement and initial phase of, (T), 21:37305
magnetic-field measurements and auroral zone, 22:5262
magnetosphere ring, asymmetry in, (T), 21:39778
measurement at earth surface by electric field amplitude impedance, 21:32062 (SC-DC-67-1782)
measurement down to 30 nA, modified Josephson junction for, 23:41137 (UCRL-19030)
measurement in ionization chambers, statistical errors in, 21:3284
measurement of high-impulse, methods for, 22:393 (UCID-15220)
measurement of high-voltage, in x-ray generators, 23:50781
measurement of horizontal, in polar cap ionosphere, 22:31700
measurement of subpicoampere to microampere, design of MOSFET current-to-frequency converter for, 25:57894
measurements of ionospheric mid-latitude Sq, 21:7113
motion of filaments of, in polar cap region, poleward, (E), 24:12703
occurrence in ionospheric dynamo region, generation of E x B drifts from east—west, (E/T), 25:38258
occurrence of ring, correlation with geomagnetic pulsations, 21:25027
problems of eddy, computer program for solution of, 22:22893 (K-1740)
production by conversion of heat, regenerative electrochemical systems for, 21:45069 (ANL-7325, pp 179-96)
production by electrochemical means using uranium trioxide melt, 22:27723(P)
properties and structure of unipolar sunspot, 21:16684
protection against high-frequency, medical standards for, 22:40719
radiation effects on sensitivity of rats to, x, 22:36390
radioprotective effects of direct, on mitotic activity of bone marrow cells and phagocytic activity of reticuloendothelial cells in rats, x, 25:42530
reduction of stray, in ultrahigh vacuum systems, 22:16827
relation of ionospheric auroral-zone, with solar-disturbance daily variation during IGY, (E/T), 25:17041
sensitivity of human eye to, during dark adaptation, effects of enucleation on, 23:2965(T) (UCRL-Trans-10173)
sensitivity of human eye to, effects of enucleation on, 23:2966(T) (UCRL-Trans-10174)
solar radiation effects on atmospheric, (E/T), 21:18511
use for simulating nucleonic cascades, 21:36445
use of high frequency ac, in decladding irradiated fuel elements, 22:10458(P)
use of thermally stimulated, for age estimation of basalt, 24:36391
uses of, for increase in penetration of radiative ions into inner ear of guinea pig, 21:6654
variations in telluric, comparison of auroral-brightness fluctuations and, 22:1061
variations in telluric, comparison of geomagnetic fluctuations and, 22:1061
ELECTRIC DISCHARGE

electrode sheath kinetics in plasma, 22:44180
electrodes for, theory of thick dynamic positive ion sheath, 24:19893
electromagnetic radiation from cold-cathode Penning, 21:35153 (CEA-R-3081)
electron avalanche in helium, simulation by Monte Carlo calculations, 25:56265(T) (ORNL-tr-2518)
electron avalanches in hydrogen, losses from, 25:59010
electron backscattering in, (T), 23:18651
electron balance equation for thermally inhomogeneous positive column, (T), 24:49175
electron beam extraction from Penning, 23:52078
electron beams from constricted, up to 50 eV energies, 24:17952
electron behavior in collision-dominated weakly ionized positive column, (T), 23:1454
electron bunching in meniscus, (E/T), 22:48132
electron bunching in multipactor, correlation with light bursts, (E), 23:25330
electron cyclotron echoes in positive column, research on, 22:1272(R) (SU-IPR-198)
electron cyclotron harmonic wave propagation in argon positive column, (E), 24:51728 (IPP-2/84)
electron cyclotron harmonics in PIG, self-absorption resonance in, 22:3042 (IPP-3/60)
electron cyclotron radiations from PIG, 24:17902
electron cyclotron resonance absorption in hf, 22:13476
electron density and gas pressure in active zone level of hollow cathode, 25:20872 (NP-18708)
electron density and potential measurements in PIG, 22:3024
electron density and temperature development in hydrogen, (E), 24:28270
electron density and temperature in hf helium, 21:18647
electron density and temperature in high-frequency, (E), 23:32348 (NP-17903)
electron density conditions for hf capacitive, fast, (E), 22:26415
electron density in active region of hollow-cathode, (E/T), 25:33224
electron density in helium—krypton, 21:29210
electron density in low-pressure, Langmuir paradox in, (E/T), 23:18602
electron density in oxygen plasma positive column, (E), 24:17904
electron density measurement in positive column, at average pressures, (E/T), 24:8442
electron density measurement in pulsed xenon, using laser interferometer, 21:25119
electron density of disintegrating plasma in pulsed, 22:41568
electron density profiles in positive column, effects of gas heating and volume recombination on, 21:18656
electron diffusion in, Townsend's coefficient of ionization for, 23:1439
electron diffusion theory for, 21:16917
electron distribution and ionization rate in cesium, effect of electric fields on, (T), 24:1434
electron distribution function for collision-dominated positive column, (T), 22:41603
electron distribution function for helium, (T), 23:42305
electron distribution function for low-voltage cesium, (E), 24:3349
electron distribution function in, effects of diaphragm on, (T), 25:9471
electron distribution in high-current argon, 24:40069
electron distribution in spherical and cylindrical, 23:1391
electron distribution in Townsend, (T), 23:25338 (BMwF-FBK-69-3, pp 14.1-7)
electron drift velocities in cesium, (E), 23:51645
electron drift velocities in, Doppler measurements of, 21:37436
electron drift velocity in neon positive column, 24:45243
electron ejection from Penning, using microwave resonators, 21:7007
electron emission in low-pressure, by metastable nitrogen molecules, secondary, (E), 22:9378
electron energy balance equation for positive column, self magnetic fields in, (T), 25:59038
electron energy distribution from point cathodes in, 22:9372
electron energy distribution function for cesium, (T), 23:44436
electron energy distribution function for hf induction, (E/T), 25:49888
electron energy distribution function for neon positive column, radial changes of, 25:38438
electron energy distribution function in weakly ionized gaseous, effect of inelastic collision cross sections on, (T), 25:49894 (FRNC-TH-38)
electron energy distribution in cesium, Langmuir-probe measurement of, (T), 25:9419
electron energy distribution in helium positive column, (E), 25:36119
electron energy distribution in hf, circuit for measuring, (E), 24:37455
electron energy distribution in neon, effects of Coulomb collisions on, (T), 25:49900
electron energy distribution in noisy, two-probe measurement of, 24:45228
electron energy distribution in striations in, (T), 23:42306
electron energy distribution measurement in time varying, method for, (E), 23:42248
electron energy distribution measurement in, (E), 25:56138
electron energy in hf ring-type, rare gas, 24:47213
electron energy spectra and potential drop in Penning, (E), 22:22161
electron extraction from Penning, instabilities in, 25:56148
electron flow to cathode in Penning, in high vacuum, 22:15532
electron gas randomization by trapped electroacoustic waves in, (T), 22:13479
electron inhomogeneities in hollow cathode helium, 21:29250
electron kinetic phenomena in reflex, (E), 23:42275
electron loss processes in air afterglow, (E), 23:39470
electron motion in positive column, high velocity, 21:31390
electron oscillations in, ion—acoustic wave excitation of, (E), 22:17648
electron processes in pulsed nanosecond, (T), 22:50194
electron temperature determination in cold, (T), 23:46481
electron temperature distribution in non-equilibrium, spectroscopic measurements, 23:1380
electron temperature in positive column, relaxation length in, (T), 23:42309
electron temperatures and densities in hollow-cathode, Langmuir-probe analysis method for low-energy, 24:15286
electron temperatures and quantum energies in flash x-ray, 21:43764
electron velocities in low-pressure dc, (E), 23:44412
electron velocity distribution function for neon positive column, (E), 25:40629
electron velocity distribution in positive column of, (T), 22:3023
electron—ion recombination in positive column, (T), 24:28293
electron-flow equations for, approximate solutions for, 21:13606
electrons in, magnetic field effects on fast, 22:5383
electrophoresis in gaseous, (E), 24:3331 (AD-691007)
electrostatic wave propagation in argon positive column, (E/T), 23:10667
energy balance in capillary, with evaporating walls, 22:41613
energy balance in constricted high-power, (T), 24:47241
energy balance in helium, in positive columns, 24:42667
energy balance in high-frequency electrodeless, (T), 22:52823
energy balance in positive column, in helium, (E/T), 24:49126 (NP-18450)
energy characteristics of high-power, in air, (E), 24:49143
energy conditions in hf unipolar, 23:6998
energy distribution in low-temperature, effects of inelastic collisions on, (T), 23:12837
energy exchange processes in high pressure, 22:39094
energy levels of helium in hf, relaxation processes of excited, 24:25982
energy storage for, use of superconductors in, (T), 21:37341 (CEA-R-3243)
energy-level transitions in positive column of helium—xenon, (E), 22:5065
excitation in, inert-gas sensitization of, 22:40115
excitation of atomic spectra in helium-supported, 21:40772 (IS-1600, Paper 3)
excitation of mercury ions in low-pressure, spectroscopic study of mechanisms for, 22:41319
excitation processes in helium hollow-cathode, (E), 25:2890
excited states in capillary argon, radial distribution of, 23:3456
formation time in crossed magnetic field, 21:31425 (UCRL-17448)
frequency conversion in sheath capacitance of dc, between coaxial cylinders, (E/T), 23:3486
frequency range of stationary induction, optimum, 22:34677
frequency tuning of, by varying diameter of cylindrical hollow arc, 22:10664(P)
Fresnel dragging of 3-cm microwaves in low-pressure, (E), 23:1449
gas bubble formation in liquids by, 22:34345
gas properties in, frequency effects on, 22:17696
gas temperature measurements in argon pressure, neutral, 22:29504
harmonic generation in microwave gas, review, 22:5351
helium excitation in stationary PIG, population densities from, (E/T), 25:30479
hydrogen ionization in Penning, polarized, 22:7131 (JINR-P9-3589)

hydrogen-ion motion in, 21:42066
ignition phase of electrodeless ring, (E), 25:25100 (JUL-691-PP)
impedance properties in stationary high-frequency, 22:3048 (JUL-481-PP)
impurity effects on low-pressure rare gas, (T), 23:39473
intensity transitions in rf-excited, in helium, (E), 23:39466
ion and drift wave propagation in positive column, (T), 22:26385 (SU-IPR-226)
ion beam extraction from, ion optical system for dense, 21:43815
ion burst reflection from potential barrier of gridded energy analyzer in, (E), 25:9531
ion current distribution on cathode in Penning, 21:44085
ion current near center of hollow cathode, (E/T), 23:34405
ion emission from cathodes in vacuum breakdown, (E), 25:43383
ion emission from double sheath, H^-, (E), 25:35843
ion emission from Penning, in inhomogeneous magnetic fields, 24:37454
ion emission from rf, (T), 23:16815
ion emission from, effects of wall space-charge on, (E), 23:16798
ion energy analysis at cathode, from conduction through rare gases, 23:1444
ion energy and angular distributions from cathode in Penning in air, 21:15189
ion energy distribution near wall of positive column, (T), 23:42303
ion flow to cathode in Penning-type, 21:20954
ion heating in hf, skin effects in, (E), 24:23947
ion kinetics in Penning, 21:7262
ion mass conversion in krypton afterglow, (E), 24:23972
ion oscillations in hollow cathodes in magnetic fields, 24:37446
ion sampling through anode and cathode of dc, (E), 24:1404
ion species in high-pressure argon and cesium, (E/T), 23:34397(R) (AD-683685)
ion trajectories in Penning, calculation of, 25:36133
ion velocity distribution in free-fall positive column, (T), 25:38439
ion wave damping in nonuniform plasma, (E/T), 23:44469
ion wave excitation in mercury, nonlinear effects on, (E), 25:49949
ion wave excitation in neon, properties of, (E), 23:42272
ion wave propagation and instabilities in positive column, in magnetic fields, (T), 21:11633(R) (SU-IPR-124)
ion—acoustic wave echoes in dc, (E), 23:42364
ion—acoustic wave instabilities in gaseous, 21:29312
ion—acoustic waves in helium, collisional effects on, (E), 23:44468
ion-pair production in, mean energy for, (E/T), 25:9161(T) (LA-tr-70-24)
ion-wave propagation in hollow-cathode, in magnetic fields, (E), 24:32864
ionization and attachment in oxygen at low pressure, 23:16795
ionization and drift waves in helium positive column, (E/T), 23:39503 (SU-IPR-301)
ionization and recombination processes in hollow-cathode, calculations, 24:40087
ionization coefficients in nitrogen containing radioactive impurities, 23:16828
ionization layers in argon column, self-excitation of, (T), 25:9465
ionization nonequilibrium in pulsed, during cooling of, (T), 25:9462
ionization wave excitation in positive columns by acoustic pulses, (E), 25:56154
ionization waves in positive column, axisymmetric, (T), 25:47546
ionization waves in positive column, feedback control of, (T), 25:27773
ionization waves in, nonlinear coupling of, 22:34651 (TID-24491, pp 74-6)
ionization, diffusion, and space charge effects on mobility measurements in, 23:1403 (AD-670810)
ionization-conditioned column contraction in medium-pressure, 23:6996
kinetic theory for collisional positive column, 25:1212
laser action in xenon by high-current pinched, 24:12813
layer phenomena in positive column of low pressure nitrogen, 21:27174
layer properties of positive column of low pressure argon, 21:27175
light scattering in, diffuse reflection and transmission in, (T), 21:33171
maintenance by Lorentz force of cesium-seeded argon, (E), 22:5180(T) (CEA-tr-R-1903)
measurements in electron-irradiated dielectric polymers, 21:44200
mechanism of point—plane corona, in air, photodetachment and photoionization in, 21:24924
mechanisms in Mylar-insulated condensers, effects of electron irradiation on, 21:9257 (NASA-CR-656)
microwave emission from hollow cathode, coherent, 21:9560 (NASA-CR-660)
microwave radiations from reflex, in magnetic fields, (E), 24:49138
model for coaxial, snowplow, 22:1186 (LA-3770, Paper C7)
model for microwave emission from Venus, 22:4972
motion of low-pressure arc, between concentric electrodes in transverse magnetic field, (E/T), 24:17919
neutral atom production and secondary electron emission in rf argon, 22:52546
neutron emission from deuterium plasma focus, anisotropies in, (E), 23:25386
neutron emission from focused noncylindrical, (E), 23:20950
neutron emission from noncylindrical rotating, in plasma, 21:29318
nitrogen dissociation in weak rf, mechanism involving intermediate excited states for, (E), 23:3287
noise emission from electrodeless ring, with static magnetic field, 22:5324 (CONF-670810-6)
noise emission in gaseous, 21:44108
noise production in low-pressure positive-column, in helium and neon, 21:29209
optical characteristics of high-power, in air, (E), 24:49143
oscillations in mercury, effect of dc conductivity on, (E), 23:32529
oscillations in negative hydrogen ion-rich reflex, low-frequency, (E), 25:52881
oscillations in PIG hydrogen, in uniform and divertor-type magnetic fields, (E), 23:14818
oscillations in spherical magnetized cold-cathode, vlf, (E), 25:30617
oxygen atom formation in, in oxygen and water vapor, 21:3118
ozone synthesis in, under flow conditions, kinetics of, 22:1941(T) (ANL-Trans-522)
patterns in electron-irradiated insulation plates, 22:28974
performance of laser-triggered spark gaps, 25:30566 (EUR-4593, pp 259-64)
pinch effect in cylindrical, (T), 23:46480
plasma acceleration in, by self-induced magnetic field, 21:42127
plasma acoustic kink instability in, argon, 21:29297
plasma ambipolar diffusion in magnetic fields, (E/T), 23:5433
plasma ambipolar diffusion in positive column, 21:46348
plasma anomalous behavior in cylindrical column, (E), 22:26381 (NP-17439)
plasma anomalous diffusion and oscillations in afterglow, (E), 24:35489
plasma anomalous diffusion in afterglow, (E), 21:35134 (IPP-2/62)
plasma anomalous diffusion in cold-cathode reflex, properties of, 22:11408(R) (SU-IPR-207)
plasma anomalous resistivity in turbulent, (E), 25:7394
plasma boundary interactions in, properties of, 23:1432 (N-68-25821)
plasma boundary layer near cathode, nonequilibrium, (T), 25:45474
plasma boundary layer over cathode in, nonequilibrium, (T), 25:43361 (N-71-12679)
plasma collisions in, static theory for immediate pressure, 21:9585
plasma column of capillary, capillary radius effect on temperature of, (E), 21:2214
plasma conductivity enhancement by, supersonic argon, (E), 25:9451
plasma contraction in positive columns, effects of nonuniform distribution on excitation and ionization processes in, (T), 24:51610
plasma currents in linear, magnetic interruption of, 21:31444
plasma cyclotron resonance in, temperature effects on, 21:31434
plasma dc electric conductivity in turbulent cylindrical, (E), 24:40059 (ORNL-TM-3038)
plasma decay in inert gases at high pressure with cesium vapor impurity, (E), 23:7006
plasma decay in PIG reflex, in strong magnetic fields, 21:18771
plasma density and radiations from high-pressure, (E), 24:28269
plasma density distribution in, effects of volume recombination on, (E/T), 24:10522
plasma density in pulsed, deuterium, 23:5386
plasma density measurements in positive column, using microwaves, (E), 24:51628
plasma density measurements in, mercury, 21:31418
plasma density profiles in low-temperature diffusion-controlled, (E/T), 25:1190
plasma density variations in high-impulse, (E), 22:22157
plasma diagnosis in electrodeless, (E/T), 22:50140
plasma diagnosis in, probe noise in, (E), 23:12784
plasma diagnostics in afterglow, microwave and spectroscopic, (E/T), 24:30312 (AD-691905)
plasma diagnostics in dense lithium, high-current pulsed, (E/T), 25:33238
plasma diagnostics in hf, spectroscopic, (E), 23:34389(T) (AEC-tr-7065)
plasma diagnostics in high-current with skin effect, microwave, 25:9428
plasma diagnostics in high-current with skin effect, microwave, 25:9424
plasma diagnostics in low-pressure, in longitudinal magnetic fields, (E/T), 25:1178
plasma diagnostics in Penning, using rf resonance probes, 21:15104 (CONF-660221-, pp 376-80)
plasma diagnostics in PIG, methods for, 21:15103 (CONF-660221-, pp 372-5)
plasma diagnostics in positive column, continuous spectra for helium, (E/T), 24:26159
plasma diagnostics in positive column, microwave, (E), 25:30483
plasma diagnostics in positive column, use of atomic temperatures for, (E/T), 24:26158
plasma diagnostics in positive column, using double Langmuir probes, 25:5081 (N-70-32493)
plasma diagnostics in positive column, using Langmuir probes, 24:35396
plasma diagnostics in reflex, using cw laser scattering, 22:29472
plasma diagnostics in reverse-brush-cathode, digital correlation measuring device for, 24:47202 (IPPJ-DT-16)
plasma diagnostics in, noise temperature using external probes, 24:40051
plasma diagnostics in, probe techniques for, 21:15110
plasma diagnostics in, surface wave analysis for, (E/T), 21:11602 (AFCRL-66-765)
plasma diagnostics in, turbulent electric field measurement using Stark profiles, (E), 25:43344
plasma diagnostics in, using cesium emission spectra, 25:25094
plasma diffusion and instability in cold-cathode PIG, (E), 25:49893
plasma diffusion equation for positive column, approximate solution for, 21:29198
plasma diffusion in collision-dominated positive column, radial structure in, 24:35431
plasma diffusion in cross-field heating device, helium, (E), 24:19884
plasma diffusion in hf, in magnetic fields, (E/T), 24:8431
plasma diffusion in induced hf, (E/T), 23:42257
plasma diffusion in Penning, effect of lf oscillations on, 24:35373
plasma diffusion in positive column, ambipolar, (E), 25:22477
plasma diffusion in positive column, for small electron densities, (T), 21:46313
plasma diffusion in positive column, normal to anomalous, (E/T), 24:26172
plasma diffusion in positive column, transverse, 22:34708
plasma diffusion in shf, longitudinal and transverse, (E), 25:45447 (NP-18916)
plasma diffusion in Townsend, in uniform electric fields, 22:7300
plasma drift dissipative instabilities in afterglow, (E), 24:28326
plasma drift instabilities in afterglow, helium, (E), 24:35447
plasma drift instabilities in, properties of, 23:5414
plasma drift instabilities in, stabilization using rf electric fields, (E), 25:27787
plasma drift instability in oscillating PIG, 21:44134
plasma drift-dissipative instabilities in afterglow, dynamic stabilization of, (E), 25:27786
plasma electric conductivity in stabilized, argon, (E/T), 25:1194
plasma electric properties in Penning, 21:9612
plasma electric properties in pulsed, xenon, (E), 23:18638
plasma electron cyclotron harmonic resonances in electrodeless, 21:40018
plasma electron temperatures in high-power pulsed, 21:46320
plasma energy distribution in striating, time-resolved measurements of, 25:5077 (AD-710597)
plasma energy in ring-type, xenon, 21:15108
plasma equilibrium and stability in cylindrical, with homogeneous temperature, (T), 25:45501
plasma excitation in hf ring electrode, nitrogen, 21:15186
plasma excitation temperatures in high-current hollow-cathode, 22:52750
plasma flow from hot-cathode Penning, into vacuum, (E), 24:1400
plasma flow toward electrodes in, effects of transverse field on, (E), 24:21785
plasma heating in high-current, collisional effects on, 25:17132
plasma heating in high-current, efficiency of, (E/T), 24:40036 (KHFTI-69/43)
plasma heating in metal chambers by absorption of cold electrons, 25:40594
plasma heating in skinned-current, turbulent, (E), 24:12779 (NP-18106)
plasma heating in strong, efficiency of, 24:19871
plasma heating in, with skin current, turbulent, (E), 24:21754(T) (MATT-Trans-99)
plasma heating of quartz walls in, gas protection of, (E), 24:6548
plasma helical instabilities in positive column, effect on density and potential distribution, (T), 25:27738
plasma helical instabilities in positive column, in magnetic fields, (E), 23:18681
plasma helical instabilities in positive column, in crossed fields, 21:40045
plasma helical instability in hollow positive column, effect of azimuthal magnetic field on, (E), 22:31874
plasma helical instability in Penning, 21:9626
plasma in positive column, microwave-excited, (T), 25:14336 (NP-18662)
plasma instabilities and anomalous diffusion in reflex, 22:52836
plasma instabilities in hf, electron temperature in, (E/T), 24:24010 (NP-18188)
plasma instabilities in high-current, collective interactions in, (E), 24:17968
plasma instabilities in modified Penning, temperature, (T), 24:40115
plasma instabilities in positive column of finite length, in magnetic fields, (E/T), 24:51701
plasma instabilities in positive column, helical, (T), 25:47569
plasma instabilities in positive column, in hf electric fields, (E/T), 25:40675
plasma instabilities in positive column, relations for helical, ion acoustic, and drift, (T), 23:36710 (SU-IPR-296)
plasma instabilities in positive column, research on, (E/T), 22:1272(R) (SU-IPR-198)
plasma instabilities in short tubes, in weak magnetic fields, (E/T), 24:35471
plasma instabilities in, conditions for electrothermal, (T), 24:28318
plasma instabilities in, criteria for interchange, (T), 24:40116
plasma instabilities in, research on, (E/T), 21:3897(R) (SU-IPR-106)
plasma instability in electron cyclotron resonance discharges, enhanced, 22:46193 (TID-24666, pp 135-44)
plasma instability in modified PIG, low-frequency, (E/T), 23:42336 (IPP-3/92)

plasma instability in positive column, quasi-linear theory of spiral, 23:51685 (UR-3942-5)
plasma interactions in high-current, collective, (E), 24:15296 (KHFTI-69-30)
plasma interactions in low-density high-current, collective, (E), 24:45239(T) (AEC-tr-7165)
plasma interactions in, collective, (E), 24:15297 (KHFTI-69-31)
plasma interactions with magnetic fields in, temperature distributions in, 21:755(R) (AD-631569)
plasma interchange instabilities in positive column, effect of oscillations on, (T), 24:28325
plasma ion density measurement using Stark broadening, molecular hydrogen, 25:3068
plasma ion heating in Penning, (E), 25:5075
plasma ion oscillation intensities in hot cathode, 21:15174
plasma ionization and energy level populations in positive column, 24:42666
plasma ionization and motion in rf, (E), 24:51646
plasma ionization in, effects of inelastic electron—atom collisions on, (T), 24:45260
plasma ionization instabilities in crossed-field, 22:17705
plasma ionization instability in self-sustaining low-pressure, in magnetic fields, (E/T), 25:36159
plasma ionization wave equation for, asymptotic stability of, 21:42130
plasma jet production and stabilization in hf torch, 21:803
plasma jet production in conical electrode, 21:2267
plasma jets in, ionization processes in, (T), 25:47549
plasma kinetics in column, in axial magnetic fields, (T), 21:9563 (TID-23490)
plasma kinetics in hollow cathode, 21:7286
plasma kinetics in intermediate-pressure, in magnetic fields, (T), 21:11631 (SU-IPR-105)
plasma kinetics in positive column, low-pressure, (T), 21:9606
plasma loss from positive column, above critical magnetic field, (T), 22:13495
plasma luminescence in high-energy, 21:3888
plasma microwave conductivity in PIG, 23:8616
plasma noise analysis in PIG, 23:3521
plasma nonequilibrium effects in stationary, rare gas, (T), 25:1209
plasma oscillations and transport in reflex, 22:48103 (SU-IPR-204)
plasma oscillations in anode region of, uhf, 21:42101
plasma oscillations in cylindrical, low-frequency resonance, 21:31443
plasma oscillations in hollow-cathode, relation to anomalous diffusion, 25:17229
plasma oscillations in hollow-cathode, weakly turbulent, (E), 24:1456
plasma oscillations in hot-cathode Penning, lf, (E), 24:28366
plasma oscillations in hot-cathode PIG, (E), 21:9623
plasma oscillations in low-pressure Penning, (E/T), 25:36242
plasma oscillations in low-pressure, in magnetic fields, (E), 25:1246
plasma oscillations in low-pressure, longitudinal, 22:50182
plasma oscillations in magnetized afterglows with transverse currents, (E), 25:36175
plasma oscillations in magnetized cold-cathode, (E), 24:26248 (N-70-15129)
plasma oscillations in PIG, resonant, 21:18686
plasma oscillations in positive column, helium, (E), 21:18712
plasma oscillations in, nonlinear behavior of Tonks—Dattner resonance, (E), 23:42283
plasma oscillations in, overstable modes due to resistive gradients in, 22:5374
plasma potential and temperature in axial magnetic fields, hydrogen, 24:32845
plasma processes in low-pressure spark, (E), 24:40062
plasma production and diagnostics in PIG, 21:7274 (AD-636956)
plasma production and properties in large V-groove electrodes, (E), 23:44443 (N-69-29140)
plasma production and properties in Penning, 23:10678
plasma production and properties in reflex, negative hydrogen ion, 24:35442
plasma production and stability in rf, 21:796 (LRP-27/66)
plasma production in afterglow, rate equations for, 24:42704
plasma production in capillary, in magnetic fields, (E), 23:20933
plasma production in coaxial, x-ray spectra from, 21:44119 (SC-DC-67-1864)
plasma production in hf electrodeless, properties of, 22:29527
plasma production in modified PIG-type, 25:30543
plasma production in Penning, (E), 23:46486 (CEA-CONF-1312)
plasma production in rf, efficiency for, 21:9614
plasma production in, effects of local fluid constriction on, (E), 25:52837
plasma production in, kinetic model for, 21:800
plasma production using large V-groove cathode, (E), 25:40656
plasma properties in afterglow, volume densities and wall currents in, (T), 25:45473 (SC-RR-710089)
plasma properties in auto-oscillating PIG, nonlinear, 22:7289
plasma properties in electrodeless, argon, (T), 24:40090
plasma properties in hf positive column, frequency effects on, 21:18702
plasma properties in high-pressure and high-frequency, (E), 24:12802
plasma properties in high-pressure high-frequency, (E), 24:21779(T) (JPRS-50157)
plasma properties in high-voltage, in magnetic fields, (E), 23:34406(R) (AD-682306)
plasma properties in inhomogeneous electric and transverse magnetic fields, (E), 23:42265
plasma properties in kiloampere, 22:50156
plasma properties in kiloampere, in hydrogen, (E), 21:23211 (AD-643197)
plasma properties in Penning, correlation analysis for, (E), 24:49137
plasma properties in Penning, in inhomogeneous magnetic mirror fields, (E), 22:52779
plasma properties in positive column, in magnetic fields, (E), 25:22513
plasma properties in positive column, in magnetic fields, (E), 25:22471
plasma properties near electrodes in, 23:10661
plasma radial density distribution in positive column, in magnetic fields, (T), 24:30322
plasma radial distribution measurements in, argon, (E/T), 25:1179
plasma radiations from, electron cyclotron frequency, (E), 25:17161
plasma research in, conference on, 21:20910
plasma resonance effects in, nonlinear effects on, (E), 24:51651
plasma resonance loading in dc, (E/T), 23:42255

properties in flowing potassium-seeded argon plasma, (E), 23:42261
properties in helium, oscillographic analysis of, 21:7285
properties in low-pressure, in longitudinal magnetic fields, (T), 25:25122
properties of argon and neon positive column, breakdown, 21:37488
properties of coaxial, (T), 24:17941
properties of cold cathode Penning, (T), 21:29267
properties of cold cathode reflex, in weak magnetic fields, 21:29266
properties of cold cathode, at low pressures, 25:43346 (JINR-P9-5753)
properties of constricted positive column, in alkali-metal-seeded rare gases, 22:1237
properties of hf vortex, (T), 21:2265
properties of hf, in gases, 22:44133
properties of high-current, in alkali-metal-seeded rare gases, 25:59023
properties of high-current, in vacuum, (E/T), 25:49882 (NP-18972)
properties of high-power constricted capillary, 25:33253
properties of high-pressure electrodeless, 22:46171
properties of high-pressure inductive plasmatron, 24:12835
properties of high-voltage pulsed, in hydrogen, 21:44082
properties of hollow cathode, plasma beam instability effects on, 21:35174
properties of Knudsen low-voltage, with hot cathodes, 21:37225
properties of low-pressure positive column, 21:42067
properties of low-pressure positive column, 21:42068
properties of low-pressure, in magnetic fields, 21:29274
properties of magnetized positive column, in turbulence, (T), 23:32416
properties of medium-pressure positive column, (T), 23:42312
properties of medium-pressure positive column, in rare gases, 23:6993
properties of multipacting, at electron cyclotron resonance, (E), 23:18620 (CONF-680113-(Vol.1), pp 145-7)
properties of negative point to plane breakdown in a free electron gas, (E), 22:24348
properties of neon positive column, (E), 23:23116
properties of neon positive column, (T), 23:23146
properties of nonstationary, periodic, (T), 23:42311
properties of oscillatory electron—ion, (E/T), 24:3322
properties of Penning, correlation study of, (E), 22:19973(T) (MATT-Trans-51)
properties of Penning-type, at very low pressures, 21:25159
properties of positive column, in longitudinal magnetic fields, (E), 23:42277
properties of positive column, nonlinear asymptotic analysis of, (T), 22:13499
properties of positive column, nonlinear effects on, (T), 23:30555
properties of pulsed toroidal, in crossed fields, (E), 22:29499
properties of pulsed, in cooled vacuum cathodes, 22:48125
properties of rare gas, 21:27166
properties of rf-generated, in static magnetic fields, review, (E/T), 22:52833
properties of rotating Slepian, with Penning ion source, (E), 23:12864
properties of self-supporting, 24:35403 (IAE-1795)
properties of self-sustaining, in moving gas, (E), 24:1399
properties of super hf, near plasma resonance, 21:18715

properties of transient, time-resolved techniques for studying, 25:33249
properties of wall stabilized, with axial gas flow, (E/T), 21:3890
properties of, conference papers on, 24:8453
quenching rate of metastable helium atoms in positive column of, (E), 23:51625
radiation effects on charge transfer in, gamma and x, (E), 21:24174
radiation effects on time lag in gaseous, γ, 21:26076
radiation-induced instability in plasma capacitor, parametric amplification of rf-, (E), 23:51702
radiations from 34-GHz microwave harmonic, 23:7008
radiations from argon plasma in, coherent, (E), 24: 47224(T) (UCRL-Trans-10478)
radiations from planar afterglow with reflecting walls, decay of resonance, 23:7011
radiations from positive column near electron cyclotron harmonics, single-particle, (E/T), 25:52802
radiations from pulsed, time characteristics of, 22:5333
rare-gas-atom excitation and ionization in, cross sections for, (T), 23:8477
research on high voltage, in vacuum, 23:42801
resistance of pulsed column, in xenon, 23:10659
role in origin of life on earth, 22:33734
shock interactions with plasma in fast thetatron, collective, (E), 23:20906
shock wave production in plasma, steepening of MHD switch-on, 21:44070 (NP-17050)
shock waves in, parameters of ionized air in front of, (E), 25:56160
shock-wave formation in moving plasma in, (E/T), 24: 35418
short circuiting by plasma jets, 22:48116
similarity criterion of, in gases, 22:44186
similarity principle for multipacting, (T), 22:7297
simulation of spark, in air, (T), 25:52826
sound propagation in low-pressure plasma in, (E), 22: 17669

charged-particle motion with radiation reaction in uniform, relativistic, 25:47786
charged-particle orbits in radial, periodic solutions of nonlinear differential equation for, (T), 25:53087
charged-particle random drift motion in, differential equation for change of time and average energy for, (T), 24:24305
charged-particle scattering by separable nonlocal and repulsive Coulomb potential, exact expressions for amplitude and equivalent local potential for, (T), 25:25373
charged-particle scattering in, solution of one-dimensional electrical transport equation for elastic and inelastic, 25:17329
charged-particle trajectories in combined axially symmetric magnetic and, (T), 24:1495
charged-particle wave-packet center of gravity in attractive Coulomb, (T), 24:18124
conference on particles and fields in magnetosphere, Santa Barbara, California, 8/69, 24:42569
conference on upper atmospheric currents and electric fields, Boulder, Colo., 8/70, 25:38252
configuration in central region of AVF cyclotron, magnetic analog of, 22:39517
convection in auroral zone and at 1500 km, double-probe measurements of dc, (E), 25:43216 (N-71-18405)
Coulomb wave function for, expansion in terms of spherical Bessel functions for, (T), 25:41056
creation of, correlation with plasmaspheric and plasmapause phenomena, (E/T), 25:49817
current in ionospheric polar electrojets, plasma measurements for height-independent, (E), 25:9335
current instabilities in high-latitude ionosphere, field-aligned, (T), 25:38229
current reversal times of ionospheric equatorial electrojet, seasonal variation-dependent, (E), 24:45091
currents observations during Mar. 18, 1969 substorms from barium cloud releases at 12.4 R/sub E/, (E), 25:27620
detection in interplanetary space by Pioneer 8, (E), 23:1129
detection of dc vector ionospheric auroral zone, Langmuir probe operation for, (E/T), 25:9301
detection of, associated polar substorms, (E), 22:17528
determination from plasmoid motion in toroidal magnetic fields, (E), 21:3874
development in neutron stars, (T), 23:51189
development in region of ionospheric hydrogen arc, relation to proton-flux precipitation, (T), 25:16992
development of low-inductive spark gap, for high voltages in air, 25:7375 (BMBW-FBK-70-17)
Dirac equation in constant orthogonal magnetic and, solution for, 23:44711
distribution and origin of magnetospheric, (T), 22:29350
distribution at low-altitude auroral zones and polar caps, relation with simultaneous charged-particle distribution, (E), 25:43219 (N-71-20708)
distribution in central region of synchrocyclotron, 22:3558 (JINR-P9-3497)
distribution in drift region of silicon p—i—n detectors, 21:315
distribution in ionosphere and magnetosphere, fast-particle inhomogeneity-associated, (T), 25:16922
distribution in magnetosphere, 21:678 (AD-633251)
distribution of longitudinal, in magnetosphere, (T), 23:14687
disturbance of, far behind moving body in collisionless plasma, (T), 24:39969
effect of longitudinal, on trapped electron motion in asymmetric magnetosphere, (E/T), 25:38244
effect on B-region ionization from midnight to sunrise, Feb. 22, 1968, (E/T), 25:16889(R) (N-70-36900)
effect on boiling heat transfer in two-phase fluid flow, 21:32311 (NYO-2404-76)
effect on electron drift velocity in dense plasma, (T), 21:18726
effect on F-region ion-drift vertical velocity, (E/T), 25:43224
effect on heat transfer and particle transport in gas-solid suspensions, 21:12583
effects of alternating, on electron tunneling between superconductors, 21:5228
effects of azimuthal components of, in Q devices, 23:42260 (IPP-2/76)
effects of combined magnetic and, on heat transfer of incompressible fluid in laminar flow between parallel plates, 23:46352
effects of constant, on charged-particle motion in dipole magnetic field, (T), 22:24134
effects of east-west, on midlatitude ionospheric F2 layer, (T), 25:27529
effects of external oscillating, on parametric excitation in plasmas, (T), 21:37478
effects of external, on plasma stability, (T), 21:7298
effects of high-frequency, on oscillations in plasma in constant magnetic field, (T), 23:51670
effects of internal magnetic field and asymmetric gradient of, on differential angular correlations in crystals, (T), 25:38585
effects of interplanetary, on alpha/proton ratio in solar flares, (E), 24:10290
effects of localized, on photocathode of photomultipliers, 21:20008
effects of oscillating, on electron velocity distribution function in ionosphere, (T), 24:30233
effects of randomly varying gradients in, on Moessbauer line shapes, (T), 22:11546
effects of simultaneous magnetic and, on S-state atoms, (T), 21:43828
effects of solar-wind, on shape and intensity of ionospheric current systems, (E), 25:22447
effects of substorm-associated, on enhancements in electron concentrations in midlatitude nighttime F region, (E/T), 25:43253
effects of sudden variations of, on Stark effect, (E/T), 22:36712(T) (UCRL-Trans-10250)
effects of surface, on oxidation of uranium by moist air, 23:38927
effects of, on polymerization of acrylonitrile, 21:8387
effects on beryllium-7 diffusion in beryllia, 22:52267
effects on charged-particle motion in inhomogeneous magnetic fields, (T), 22:34442
effects on charged-particle motion in magnetosphere, (T), 23:25213
effects on destruction of latent images in nuclear emulsions, 22:33641
effects on diffusion and potential distribution in magnetized cold plasma, (E/T), 22:7282
effects on diffusion of nickel in nickel-base—molybdenum alloy at 950 to 1300°C, 24:10054
effects on diffusion of trapped particles in magnetosphere, (T), 23:22981 (N-68-37753)
effects on electric conductivity of gamma-irradiated sodium silicate glass, 21:21073
effects on electromagnetic wave propagation in magnetoactive plasma, 21:46333 (N-67-19043)
effects on electron acceleration in solar flares, 21:14939
effects on electron density and behavior of midlatitude ionospheric F region, (T), 25:27528
effects on formation of magnetospheric field-aligned electron-density irregularities, (T), 25:38267
effects on γ radiolysis of gaseous hydrogen chloride, 22:4204
effects on hydrogen atoms, spontaneous ionization from, (T), 25:52621
effects on ionization efficiency of photons in anthracene, 24:37177(R) (NYO-2962-8)
effects on ionospheric F-region diurnal behavior, (T), 25:9315
effects on isotope diffusion in solids, determination of, 21:27241
effects on light scattering by diatomic molecules, 21:599 (JINR-P-2897)
effects on lithium-ion tunneling in potassium chloride crystals, 23:27710
effects on luminescence in argon induced by α particles, (E), 23:41932
effects on luminescence of electroluminophors, 24:31411
effects on luminescence of thallium-activated potassium iodide phosphors, 21:29380
effects on luminescence of zinc sulfide:copper phosphor in combination with x radiation, (E), 24:15403
effects on luminescence of zinc sulfide:sulfur phosphor in combination with x radiation, 21:29378
effects on magnetospheric convection, (E), 22:36837
effects on mechanism of gamma radiolysis of 1,4-cyclohexadiene, 22:8114
effects on mid-latitude F regions, (T), 24:1327
effects on negative-ion absorption by vortex lines in helium II, (E), 21:7146
effects on optical spectra of M' and R' centers in lithium fluoride, 22:48155 (NYO-3464-12)
effects on particle acceleration in solar flares, (T), 22:17293
effects on plasma heat transfer, 22:237
effects on positron decay in semiconductors, (E), 21:2046
effects on positronium annihilation in oxygen, (E), 21:6973 (AROD-3347:7)
effects on pulsed radioinduced currents in crystalline quartz, 25:45552
effects on radioinduced chemical processes, 22:21133
effects on radioinduced fluorescence of anthracene or pyrene in cyclohexane solutions, 22:42749
effects on radioinduced fluorescence of aromatic hydrocarbons in cyclohexane, 23:17465
effects on radioinduced luminescence of liquid scintillators, 23:40687
effects on radiolysis, 22:40131
effects on radiolysis of gases, 23:17475
effects on radiolysis of hydrocarbons, 21:28017
effects on radiolysis of liquid hydrocarbons, 24:27108(R) (RRL-2310-296)
effects on rate of radioinduced polymerization of styrene, 22:8124
effects on rate of radioinduced polymerization of styrene, 22:42709(T) (AEC-tr-6937, pp 69-74)
effects on runaway electrons in plasma, quasilinear theory for, 21:27160
effects on scintillations in liquid phosphors, 23:2581
effects on solidification in bismuth—tin alloy, 21:41575 (IS-1600, Paper 5)
effects on space-charge regions above aurorae, (E/T), 25:7286
effects on spectra of foil-excited helium ion beams, (E/T), 21:43824
effects on stability of inhomogeneous plasma, 21:3905
effects on surface self-diffusion in niobium, field-emission microscope study of, 23:3581
effects on surface superconductivity of tin films, (E), 21:15073
effects on thermoluminescence of diamonds, 22:24408 (IA-1128, pp 21-54)
effects on viscosity of electroviscous dispersions, 21:11482
effects on weakly interacting boson gas, uniform, (T), 21:13473
electric-conducting emulsions in, motion of, (E), 25:27501
electrodynamics of, steady-state cosmology in, (T), 23:48695
electron acceleration in plasma in, (E/T), 22:24343
electron acceleration of quasi-static, as trigger mechanism for solar flares, (T), 25:55760
electron beam stability in crossed magnetic and, (T), 22:7144
electron bound states in finite dipole, analysis using Hamilton—Jacobi theory, 22:24503
electron bound states in point dipole, (T), 22:24504
electron bound states in point dipole, quantization of classical solution, 21:44221
electron energy eigenfunctions and eigenvalues in finite dipole, (T), 23:12993 (ORNL-4297)
electron interactions at high energies, Feynman diagrams for physical description of, 23:46658
electron interactions with Coulomb, solution of relativistic quantum equation for, 23:27776
electron kinetics in strong crossed magnetic and, diffusion approximation for hot, (T), 25:19960
electron motion in constant crossed magnetic and, exact solutions of Dirac equation for, (T), 24:47400
electron motion in constant, radiation spectrum from, (T), 23:39652
electron motion in crossed magnetic and, (E), 22:24781
electron motion in crossed magnetic and, electromagnetic radiation from, 21:26982
electron motion in crossed magnetic and, orbit calculations for relativistic, 23:44795
electron motion in homogeneous magnetic and quadrupole, cyclotron frequency for free, (E), 22:18054
electron motion in orthogonal magnetic and, solutions of Dirac equation for, 24:26397
electron motion in random, (T), 23:7068
electron motion in, differential probability quantum processes in, 25:14498
electron motion in, dynamic symmetry group in quantum mechanics for, 22:9647
electron reactions with nuclear Coulomb, additive potential method for solution of wave equation for displacement from, 23:36472(T) (CERN-Trans-68-11)
electron scattering by nuclear Coulomb, at high energies, distortion effects for radiation from, (T), 25:25368
electron scattering by, second approximation of generalized WKB method for, (T), 25:50031
electron uniform acceleration in external, Maxwell electrodynamics for paradox of radiation from, (T), 25:9709
electron-ion collisions in plasma in, model for, 21:2225 (MATT-441)
electrons in Coulomb, Farri—Sommerfeld—Maue approximation for wave functions for, 21:9676
electrons in homogeneous time-varying, wave-mechanical description of, 21:2341
elementary particle mass in constant, (T), 25:9729
elementary particle weak interactions in time-dependent, Green functions in quantum kinetic equation theory for, 22:9560
emissions in magnetosphere, with frequencies above local electron cyclotron frequency, (E), 25:7235
estimation of large-scale magnetospheric, (T), 25:33153
excitation of charged-particle motion in constant magnetic fields, coherent states for, (T), 25:17438
existence in rotating magnetic relativistic stars, (T), 24:4915
fermion motion in, neutral charge, 21:9675
fermion motion in, neutral, (T), 21:2410
fermion motion in, photon emission from neutral, 21:42320
focusing properties of, 23:52047(T) (LIB/Trans-215)
focusing properties of sector, of axially-symmetric type with curve boundaries, 23:25724 (IAE-1667)
focusing properties of static axial-symmetric, 21:29682(T) (AD-645794, pp 65-83)
focussing properties of arrangement of crossed magnetic and, 22:24781
generation in equatorial electrojet region, (E/T), 21:41936
generation of, by solar-wind interaction with planetary bodies, 25:40491
image aberrations of second order of electrostatic sector, 22:16902
intensities in auroral forms from barium vapor releases, (E), 23:39393
intensity across ionospheric auroral-arc boundary, measurements of parallel and perpendicular, (E), 25:9303
intensity in auroral zones from barium ion cloud releases, (E), 24:42588
intensity in distant magnetotail, (E), 24:10270
intensity in ionospheric equatorial and medium latitudes during twilight from barium cloud releases, (E), 25:9285 (MPI-PAE/EXTRATERR-49/70)
intensity in solar corona and wind, (T), 24:48968
intensity measurements in ionosphere with barium cloud releases, 24:49079
intensity near equipotential surfaces, (T), 21:7380 (LA-3512)
intensity observations at low altitudes over auroral zones and polar caps, simultaneous charged-particle observations and, 25:56030
intensity of auroral-zone vlf, as observed with Javelin rocket, (E), 23:44241(R) (AD-684439)
intensity of equatorial irregularities in sporadic E, relation to ionospheric large-amplitude traveling waves, (T), 25:38260
intensity of magnetospheric, from frequency drift of micropulsations, (T), 23:20790
intensity of magnetospheric, method of determining, (T), 24:17747 (N-69-40039)
intensity of, parallel to magnetic field in auroral zone, (E), 22:15416
interaction with a classical relativistic plasma, (T), 21:37468
interactions with atoms, review of experimental methods for study of, 23:30336
interactions with bounded magnetized plasma, penetration of, 21:15141
interactions with electrons in quantum electrodynamics, 23:51987
interactions with limited magnetoplasma, penetration of, (T), 21:33449
interactions with neutron electric dipole moment, parity and time reversal violation in, 23:16921 (ORNL-TM-2308)

interactions with photons in quantum electrodynamics, 23:51987
ion motion in, (T), 22:13477
ion motion in, effects of charge-exchange collisions on, (T), 21:20777
ionization effects on atoms, (T), 21:14955
joint distribution at two points in, characteristic function of, (T), 24:37011 (AD-695453)
light propagation in, frequency change in, (T), 23:27323
magnitude of, from lunar particle shadows, (T), 24:26085
measurement in auroral ionosphere, balloon electrostatic-probe, (E), 25:27545
measurement in electric arcs, air, argon, and hydrogen effects on, 21:5303
measurement in ionosphere and magnetosphere, 22:5265
measurement in ionosphere and magnetosphere, 21:37278 (ESRO-SP-8)
measurement in ionosphere auroral zone, 21:13448
measurement in upper atmosphere by relative motion of ion and neutral clouds, (E), 23:16723
measurement of atmospheric, in Vietnam, 21:10474
measurement of auroral zone, (E), 24:51536
measurement of gradient in nuclear, method for, 23:44956
measurement of gravitationally induced, near metals, 22:3385
measurement of ionospheric, weak electron beam method for, 22:38887 (N-68-17614)
measurement of upper atmosphere, after ejection and ionization of barium vapor, 24:23942
measurements in auroral electrojet and polar cap regions from barium cloud releases, (E), 24:42589
measurements in auroral ionosphere, three simultaneous ambient, (E), 25:38262
measurements in auroral zone on sounding rockets, quasi-static dc and ac, (E), 25:24971
measurements in auroral zone, (E), 22:13332
measurements in ionosphere, design of field effect electrometer amplifier for, 21:10695 (N-66-37998)
measurements in magnetosphere, theory of, 22:5266
measurements of dc ionospheric, double probe technique for, 24:42590
measurements of magnetospheric, ion-cloud and sounding-rocket, (E), 25:27545
model of, in ionosphere, (T), 25:24974
neutron scattering by, cross section for, 21:33650
observations of near-Earth vlf, Pioneer 9, (E), 25:24976
origin in planetary upper atmosphere, (E/T), 25:38246
origin of magnetopause, relation with charged-particle flux at 6.6 R/sub E/ during satellite crossing of magnetopause, (E), 25:16941
pair production by external, probabilities of spinor and scalar, (T), 24:35627
parameter for radial, in electrohydrodynamic power generator, (T), 23:6906
penetration into plasma with fractionally accommodating boundary, (T), 23:12790
performance for focusing ion and electron beams, 21:2018
photon scattering by Coulomb, asymptotics and amplitudes of Delbrueck, (T), 25:33625
plasma acceleration by, kinetics during, (T), 21:46334 (SC-RR-67-703)
plasma confinement in, glow discharge, 21:9525
plasma diffusion in, 21:2200
plasma flow in magnetospheric rotation-induced, analysis for studying cold, (T), 25:7251
plasma heating and diffusion in stochastic, rates for, (T), 21:727
plasma heating by random external, rate of, (E), 22:3064
plasma motion in magnetic and, research on, 21:3865
plasma relaxation in hf, electron-ion, (T), 25:30545
plasmoid acceleration in crossed magnetic and, 21:3875
positron focusing in, solution to idealized problem of, 21:37117
positron production in nuclear Coulomb, with Z > 137, (T), 25:1459
power spectra of magnetospheric, dependencies and origin of fluctuating, (E), 25:40482
production and existence of interplanetary and magnetospheric, (T), 22:5258
production from charged particle diffusion across magnetic fields, (E), 21:7252
production in charcoal bodies, test of Einstein equivalence principle from charged particle acceleration for, 22:9533
production in ionosphere by convection in magnetosphere, (T), 22:34384
production in magnetosphere, vacuum-merging mechanism of convection-driven cross-tail, (E/T), 25:30387
production of magnetic-field-aligned, from hot magnetospheric plasma interaction with cold ionosphere, (E/T), 25:45378
production of radio pulses from extensive air showers by atmospheric, (T), 21:37216
production of scalar particles and electron—positron pairs from photon interactions in constant and uniform, (T), 22:22360
production of uniform, conformal-mapping analysis of parallel plate, 25:12045 (IPPJ-T-4)
propagation in the ionosphere, (T), 23:32249
properties around planar probes in interplanetary space, photoemission and probe surface parameters affecting, (T), 25:27359
properties in presence of ion flux, (T), 25:30705
properties of ionospheric and magnetospheric, from simultaneous balloon flights, (E), 25:22413
relation of interplanetary, and geomagnetic-field variations in polar regions, (E), 24:21663
relation of solar-wind, with Sept. 22, 1966 magnetic disturbances, (E), 25:22447
relation to ionospheric vertical plasma-drift velocities at magnetic equator, east-west, (E), 25:7242
relation to sudden onset of striations in ionospheric barium ion clouds, (T), 25:7245
scattering in Coulomb, wave packet formalism for potential, (T), 25:33866
scattering in potential Coulomb, Regge poles for large coupling constants for, (T), 25:41109 (DESY-71/17)
sketching techniques for, 22:7570 (INFN/AE-66/6, pp 102-16)
spectra of turbulent, in solar wind at 0.75 to 1 AU, (E), 25:35767
splitting of drift shells by dawn-to-dusk magnetospheric, (T), 25:16955
symmetry properties of nonrelativistic Coulomb, radial Coulomb integral evaluation from O(4), 24:26477
tachyon motion in Coulomb, (T), 24:33039
theory for noninterfering magnetic and, 23:36807
thresholds for producing particle tracks in microwave spark chambers, 21:39232
transformation of ionospheric, (T), 23:32249
use for processing agricultural products, review on, 21:45857
use for production of microwave oscillations in semiconductive media, 21:22190 (CEA-Bib-77)
use in MHD generators to increase gas conductivity, (E), 21:7052(P)
use in separating ions of opposite charges, 21:6357
use of hf, for plasma drift stabilization, 21:11674
use of uhf, for determining nuclear level lifetimes, 23:49452
variations across bow shock and magnetosheath, (E), 25:27539
variations in Arctic, Antarctic, and oceanic atmosphere, diurnal, (E/T), 25:38238
variations in ionospheric and magnetospheric, OV1 and OGO 6 data on, 24:42591
Electric Furnaces

design for operation using 1600°F saturated potassium vapor, 22:647(R) (BNL-50077)
design for Oyster Creek Station, 21:27743
design for short time pulses, 22:49008(P)
design for use in radioisotope-fueled Brayton cycle power system, 25:13168 (N-70-41276)
design for use with small portable reactors, 21:35644(R) (ORNL-4136)
design of 3-KW Brayton-cycle, 21:41069
design of 800 kV, 100 nsec, 25:54386 (SC-RR-710341)
design of Atomics International conceptual 1000 MW(e) LMFBR, 24:18580 (AI-AEC-12792(Vol.4))
design of constant-current dc, with temperature stabilization, 22:2460
design of direct cycle gas turbine, for conceptual 1000 MW fast reactors, 24:16121 (EIR-163)
design of flux pump for powering superconducting devices, 25:49856
design of high voltage dc, for use with linear accelerator, 24:360(P)
design of high-voltage, using Faraday cup, 22:5705(P)
design of homopolar, 23:16792(P)
design of homopolar, for producing high currents for superconducting magnets, 22:11363
design of homopolar, with superconducting inductor, 23:6958
design of large-capacity turbo-, for nuclear power plants, 25:15816
design of rotating dewar and field winding for superconducting alternator, 25:1146
design of space power reactor, effects of surface area and specific mass on, 21:44928
design of, using thermionic converter and gas turbine engine in combination, 21:24961(P)
design parameters for space power, 21:40654(R) (SAN-679-3)
design parameters of 0.25 to 10 MW(e) inductor alternator-type, for space nuclear power systems, 22:30281 (SAN-679-6)
design standards for power reactor auxiliary diesel, 25:28705
development for 0.25 to 10 MW(e) potassium Rankine cycle nuclear space power systems, 22:37552 (CONF-680802-1)
development for organic Rankine-cycle power units, status of, 21:41108
development for space, 21:28138
development of 18-MV Marx, as energy store of Hermes II flash x-ray generator, 23:26433
development of 500 W(e) turbo-,, 21:28139
development of closed cycle gas turbine, for gas cooled power reactors, 25:20690
development of homopolar superconducting dc, 23:1317
development of isotopic, European Nuclear Energy Agency study of, 22:8307
development of multi-reactor driven, for Pickering Power Reactor, 22:3809 (AECL-2941)
development of signal generators for testing oscilloscope accuracy, 22:43153 (IPP-1/73)
development of SNAP-8, 21:17510(R) (AGC-3297)
development of steam turbines for nuclear power plants, conference on, 24:24779 (CONF-690549)
development of, for SNAP-50/SPUR, 21:19820
efficiency for desalting operations, 24:39114 (ORNL-TM-2909)
fabrication and testing of rotary ac, using magnetic shielding and trapping by superconducting plates, (E), 24:2348
failure of alternators of Nimrod main magnet power supply, 21:38058
failures in pole dovetails in Bevatron power supply, 23:28099
fatigue failures in pulse-loaded 46,000 kVA, performance of S/N fatigue life gages for detection of, 23:49995 (UCRL-18423(Rev.))
feasibility of homopolar, using superconducting field windings, 25:9394
field windings for, properties of superconducting, (T), 22:15500
inspection problems for nuclear power plant steam turbines, 24:24779 (CONF-690549)
magnetic flux diffusion in cylindrically imploding megagauss, (T), 25:50044
operating characteristics of superconducting, 25:40579
operation of power reactor, analysis of optimum rotation speed for, 24:43800
operation of turbines for nuclear power plants, control systems for, 24:24779 (CONF-690549)
performance in graphite moderated carbon dioxide cooled power reactors, 24:28931
performance in space power systems, 22:12975
performance of gas and steam turbine, in high temperature 1000 to 2000 MW(e) gas cooled reactor power conversion systems, 24:16229
performance of graphite moderated carbon dioxide cooled power reactor, 24:28929
performance of mercury Rankine cycle turbine-alternator, startup and steady-state, (E), 25:1945 (N-70-34304)
performance of SNAP-8 alternator-type, 21:31998 (NASA-TN-D-4037)
performance of, using superconducting elements, 25:19635
power cycles for land-based, development of Rankine, 24:25199 (NASA-SP-5057, pp 35-89)
properties and applications of superconducting, 22:41528
re-entry of radioisotope space, assessment of hazards to human population from, 22:38293
rotor design for potassium cooled, for nuclear space power systems, 22:37903 (CONF-680802-3)
rotor dynamics of, effects of eccentricity and misalignment on, 22:37902 (CONF-680802-2)
rotors for hydrogen-cooled turbo, materials for, 22:47672 (CONF-671007-5)
rotors for SNAP-50/SPUR, properties of materials for, 21:36781 (BNL-50054)
rotors for, magnetic materials for use in solid, 21:34889(R) (NASA-CR-54359)
stators for, testing at 800 to 1100°F under vacuum, 21:26747(R) (NASA-CR-54358)
switching of high current impulse, use of spark gaps for, 22:4305 (INR-823/XVIII/PP)
systems development for SNAP-8, 21:19450(R) (NASA-CR-72103)
testing gas-bearing Brayton-cycle turbo, for space use, 21:41070

testing of diesel, for supplying emergency power to nuclear power plants, 23:2047
testing of SNAP-8 turbine—alternator, 23:31212 (N-69-20913)
use for producing pulsed magnetic fields with high energy capacity, 22:14615
use in nuclear power plants, economics of, 21:34094 (EUR-2757.e, pp 229-)
ELECTRIC INSULATORS
see also Dielectrics
compaction in ceramic insulated conductors, standard for determination of, 25:42190 (RDT-C-2-1-T)
compaction of ceramic, for sheathed thermocouples, methods for measuring, 25:4402
contamination of ceramic, in Wigner-type irradiation rig, 21:34372 (TRG-Report-1404, Paper 10)
corrosion testing of oxide, in lithium at 400 to 550°C, (E), 23:27409 (ANL-7550, pp 74-92)
current injection in, study of space-charge-limited, (T), 22:23481(R) (PRNC-102)
design for use under high g-forces, 25:12867 (BDX-613-213)
design of compacted magnesium oxide powder, for magnets in radiation environment, 23:28078
design of high voltage, for T(d,n) neutron generator, 23:6327(P)
design of porous, for insulation and cryogen circulation in superconducting solenoid, 22:10475(P)
design parameters for gas cleaned, for in-core instrumentation in gas cooled reactors, 25:10191(P)
development for lithium—selenium batteries, 25:16404(R) (ANL-7663)
development for SNAP-15A thermocouples, 22:37936 (GA-7976)
development for use at 800 to 1600°C, review on, 24:14639 (BNL-50215)
development of aluminum oxide, for in-core use, 25:37694
development of high-voltage, for accelerators, 23:27956
development of Kapton—Teflon, for superconducting magnet coils, 25:40580
development of porcelain, for high voltage power cable penetration in reactor containment vessel, 25:12705 (JAERI-Memo-4197)
development of radiation-crosslinked poly(vinyl chloride) for, 21:25927(P)
development of radiation-resistant, 25:54599 (ORNL-4717, p 117-24)
development of radiation-resistant, 21:21970 (ORNL-4076, pp 117-39)
development of radiation-resistant plastic, for use in electrostatic dosimeters, 24:49246(R) (ORNL-TM-2986)
dielectric properties of solid, at cryogenic temperatures, 23:12707
dielectric strength of, for use with SNAP-8 motors, 21:20608(R) (NASA-CR-54716)
electric charge formation in irradiated, processes of space, 21:3366
electric conductivity measurements of refractory oxide, using four-probe technique, 25:36310 (HEDL-SA-119)
electric conductivity of, radiation effects on, 22:16271(R) (BNWL-666)
electrical properties of commercial, 24:41879 (BRH/DBE-70-1, pp 153-72)
electron reactions with, secondary electron emission from, 21:20766
flows in laminated, probability of overlap of, 21:32078(T) (AWRE-Trans-53)
ion reactions at 40 to 70 keV with, x radiation from positive, 22:50507
ion reactions in keV range with, method for depth distribution measurement based on solubility effects of, 22:34286
paints for, method using radioactive powders for testing, 23:47870(P)
performance at 2000°R of beryllium oxide, evaluation for thermocouples, 22:28916 (WANL-TME-1549)
performance of metal oxide, effects of fast reactor environment on, (E), 25:15354 (WHAN-IR-42)
performance of Phenoxy and polyethylene fluidized-bed-deposited, 22:11100 (BDX-613-100)
performance of plastic foils in liquids, 25:30569 (EUR-4593, pp 281-6)
phase transformations in, detection by dielectric constant measurement, 22:48985 (SC-DC-68-2410)
phonon-induced structure in junctions with thallium and metals, 21:27072
polarization effects in in-core oxide, 25:4400
polarization effects on oxide, 25:14437 (WHAN-SA-75)
polymer application as, 21:26932
preparation of high-voltage radioresistant, incorporating stress and thermal stability, 23:14423(P)
radiation damage in, bibliography on, 21:7853 (AD-635088)
radiation effects at 60 to 1230°C on polycrystalline alumina, fast neutron, 25:32313 (ORNL-4678)
radiation effects on Argonne ZGS magnet, gamma, 23:28077
radiation effects on conductivity of, electron and x, 22:12721
radiation effects on discharge patterns of plates, electron, 22:28974
radiation effects on elastomer-based, for cables, 24:34983
radiation effects on electric and mechanical properties of, used in superconducting magnets, gamma and neutron, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
radiation effects on electric properties of pyrrone-type polymers, γ, 24:31344
radiation effects on electric, mechanical, and physical properties of, fast neutron, 24:44819 (ORNL-4560, pp 198-9)
radiation effects on epoxy resin, for magnet coils, 22:11106
radiation effects on long-term mechanical properties of, gamma and neutron, 25:788
radiation effects on materials for, 24:1109 (N-69-33236)
radiation effects on mechanical properties of, electron and gamma, 24:17404
radiation effects on organic, 22:784
radiation effects on polyethylene, gamma, 23:51153
radiation effects on polymeric, 23:49866
radiation effects on polymeric, gamma, 23:51154
radiation effects on properties of B-kind, γ, 25:55101
radiation effects on properties of, at high temperatures, 25:49590
radiation effects on properties of, γ and electron, 23:40767
radiation effects on space charge in polyethylene terephthalate, electron, (E/T), 22:7366
radiation effects on space charge in, gamma and x, 21:10720
radiation effects on thermal breakdown of, theory of, 23:2733
radiation effects on thermionic, 24:37003 (ORNL-4586, pp 118-25)
radiation effects on thermionic converter, fast neutron, 25:49578 (ORNL-TM-3416, pp 214-15)
radiation effects on thermionic sheath trilayer, fast-neutron, 25:55096 (N-71-24635)
radiation effects on, 1.3 MeV gamma and 6.0 MeV electron, 25:2819 (LCIE-342)
radiation effects on, electron and x, 21:19084(R) (AD-642415)
radiation effects on, fast neutron, 25:54599 (ORNL-4717, p 117-24)
radiation effects on, guide for, 25:35081
radiation effects on, in absence of external field, method for measuring x, 21:23244(R) (AD-802845)
radiation effects on, manual on, 21:18303 (UCID-4544)
radiation effects on, preparations for testing fast neutron, 23:20559 (ORNL-4350, pp 146-7)
radiation effects on, used in superconducting magnets of accelerators, 22:50492 (SLAC-PUB-469)
radiation exposure limits for, standard guide for neutron and gamma, 25:35075
radiation resistance of, 22:25375 (ORNL-4229, pp 183-7)
radiation resistance of, γ, 21:45208 (ORNL-4145, pp 289-91)
radiation resistance of, methods for improving, 24:13875 (ORNL-4400, pp 151-7)
radiation-generated wave propagation in elastic, laser simulation of, (T), 24:42754 (SC-RR-70-428)
radioinduced conductivity in, scaling laws for electron, 23:17885
radioinduced crosslinking of polyethylene, on copper cables, 3-MeV electron, 24:13930
radioinduced current pulses in, 13-MeV electron, 22:43198
radioinduced degradation of organic foils of, 0.1- to 3-keV electron, 24:46555
radioinduced electric conductivity in polystyrene, effects of additives, end groups, and temperature on rapid decay of, 24:49246(R) (ORNL-TM-2986)
radioinduced electric conductivity in, electron beam, (E), 21:9648
radioinduced electrification of, gamma, (T), 25:14430
radioinduced ionization and conductivity in, charged-particle, electron, gamma, and neutron, 21:6381
radioinduced space charge formation in, processes of, 21:3366
reactions with bromine pentafluoride, 23:40614 (K-1753)
resistance of Durock, effect of sodium vapor on, 22:22653(R) (ANL-7419)
resistivity measurements at high temperature, 25:4401
resistivity measurements of, space-charge effects at high temperatures on, 25:15968 (WHAN-SA-69)
specifications for ceramic, for high-temperature instrument use, standard for, 25:42204 (RDT-C-18-1-T)
surface potential of, measurement using ion ejection by electron bombardment, 22:3184
testing of inorganic, for use on potassium-sodium pump motor assembly, 21:20608(R) (NASA-CR-54716)
testing of organic, for use in stator-core systems in SNAP-8, 21:20608(R) (NASA-CR-54716)
testing of organosilicate press-material VNPM-1, in reactor core, 25:13330
testing of polymeric, for use in lithium—selenium batteries, 25:32637(R) (ANL-7745)
testing of trilayer niobium/alumina/niobium sheath, thermal stability, 24:12669 (GA-9465)
treatment of the exciton by the many-electron theory, 21:11697(T) (ORNL-tr-1506)
use of oil, in high voltage pulse transformer, 21:30330 (SC-TM-67-208)
use of vacuum for, bibliography on, 22:10536
Electric Lamps
see Light Sources
ELECTRIC METERS
(See also specific meters, e.g., Voltmeters.)
accuracy of, used as test equipment, 21:19791 (BDX-613-76)
design and performance of impedance, for measuring void fractions in two-phase fluid flow, 22:391 (KR-118)
development of capacitance, for dimensional measurement, 25:28910 (Y-1783)
development of thermal-EMF zirconium hydride, 25:23909 (DUN-4238)
performance in determination of sodium oxide in liquid sodium, 21:7857(R) (APDA-195)
ELECTRIC MOMENTS

generation using dual-purpose nuclear power plants, 22:14622
generation using dual-purpose nuclear power plants, 22:14626
generation using fission products for large heat sources, 21:26097
generation using fossil fuels and nuclear power, economics of, 22:14627
generation using isotopic fueled Rankine cycle power units, industrial feasibility of, 21:26113
generation using isotopic generators, safety considerations for terrestrial, 21:26118
generation using isotopic heat sources and thermodynamic conversion systems, 21:26110
generation using isotopic heat sources, design and performance of germanium—silicon alloy thermocouples for, 21:26106
generation using isotopic heat sources, direct conversion processes for, 21:26080
generation using isotopic heat sources, economic aspects of, 21:26119
generation using isotopic heat sources, evaluation of SNAP devices for, 21:26098
generation using isotopic heat sources, evaluation of, 21:26091
generation using isotopic heat sources, evaluation of, 21:26089
generation using isotopic heat sources, in Europe, 21:26095
generation using isotopic heat sources, in France, 21:26096
generation using isotopic heat sources, investigation of thermoelectric materials in RIPPLE program for, 21:26100
generation using isotopic heat sources, RIPPLE program for, 21:26099
generation using large milliwatt isotopic thermoelectric generators, feasibility of, 21:24165 (HIT-3627-15(Del.))
generation using nuclear Stirling engine, review of possibilities for, 21:26111
generation using photoelectric two-step nuclear battery, 21:26116
generation using radioisotope decay heat, 23:38198(P)
generation using radioisotope heat source, 23:19912(P)
generation using radioisotope heat sources, 23:24385 (CONF-670649-18)
generation using radioisotope thermoelectric generators, 22:10514
generation using Rankine cycle power conversion system, 21:26114
generation using Stirling engine, efficiency of, 21:26112
generation using strontium-90-fueled isotopic generator, feasibility study of, 21:26105
generation using thermionic isotopic generator, 21:26104
generation using thermoelectric isotopic generator, 21:26020
generation using thermoelectric isotopic generator of very low power, 21:26109
generation using underground nuclear explosion-stimulated geothermal heat, economic aspects of, 24:41541 (CONF-700101-(Vol.2), pp 1376-83)
generation using underground nuclear explosions-stimulated geothermal heat, 24:41542 (CONF-700101-(Vol.2), pp 1384-5)
load growth in Northwestern U. S., forcast of, 24:35946
magnetohydrodynamic generation with nuclear reactor as heat source, 25:40422
operation of systems of, effect of magnetic storms on, (E/T), 25:58887
optimization for gaseous diffusion plants, 23:4779 (CONF-681015-1)
overload protection of superconducting power equipment, 22:46080
production by gigantic MHD generator in ionosphere, 23:5265(T) (JPRS-46941)
production by isotopic generators, European possibilities for, 22:8307
production by Latina Power Reactor, 21:30131(R) (EUR-3462.i)
production by nuclear reactors, site selection for, 21:1451
production by nuclear reactors, summary of 1970 worldwide, 25:25895
production by reactors, outlook and status of EURATOM, 21:21630 (EUR-2773.e)
production by West German nuclear power plants to year 2000, fuel economics and requirements for, 24:9991
production cost in nuclear power plants, analysis of, 21:4387
production costs for combined U. S.-Mexico dual-purpose power reactor, 23:13418 (TID-24767)
production from fossil-fueled plants, effects of air pollution from, 23:15662
production from nuclear and fossil-fired plants, corporate model for evaluation of, 24:18532
production from power reactors in agro-industrial complexes, effects of reactor-type on cost of, 23:11167 (ORNL-4290)
production from power reactors in agro-industrial complexes, effects of production of fertilizer materials on cost of, 23:11167 (ORNL-4290)
production from reactors of, effects of fuel cycle costs on, 23:13381
production from U. S.-Mexico dual-purpose reactors, analysis of demand for, 23:13418 (TID-24767)
production growth and pattern of, 23:45045 (AECL-3293)
production in Austria from nuclear power plants, estimates of load demand and, 23:13374
production in Germany, management and distribution aspects of, 23:11149
production in hydroelectric and thermal power plants, economic predictions for, 22:27514 (BNWL-SA-1546)
production in Macedonia, sources of, 21:15695
production in Netherland during 1960 to 1980, effects of power reactor development on, 23:33010
production in Norway, studies of future, 21:2864(R) (KR-109)
production in space, development of systems for, 22:33607
production in U.S.S.R., analysis of present and future, 23:4487(T) (AEC-tr-6993)
production in UK, forecasts to year 2000, 25:57633
production in US through 1985, fuel requirements for, 23:11672
production in Yugoslavia, economics of, 21:15694
production in Yugoslavia, predictions of, 21:15692
production of, conference on new sources and methods for, 25:34205
production of, effects of nuclear energy on industrial structure for, 23:7374
production of, feasibility of dual-purpose reactors for, 22:10448
production of, predictions of energy resources for worldwide, 24:46391 (CONF-700810-17)
production of, review on methods for increased, 25:15813
production of, using nuclear reactors, policy considerations for, 21:36207 (TID-23872)
production rates in radioisotope thermoelectric converters, effects on long-term converter operation, 25:18595 (SC-RR-70-854)
production requirements in Sweden to 1985 of, effects of nuclear power on, 22:20818 (NP-17271)
production using geothermal heat sources fractured by deep underground nuclear explosions, feasibility study of, 25:44467 (PNE-1550)
production using nuclear power plants, evolution in U. S. of, 22:1801
production using radioisotopes, 22:14729
program for space, outlook and status of national, 22:43962
programs in developing countries, summary of, 25:54137 (A/CONF.49/P-761)
quality assurance programs of utility companies, 21:8184
requirements for building service at Brookhaven National Laboratory, evaluation of present and future, 24:11720 (BNL-50173)
requirements for future, system planning to meet nuclear, 22:25037
requirements for, forecasts of worldwide, 23:37459
requirements for, survey of Italian, 22:1814
requirements in future, 21:27722
requirements in Japan to 1970, 24:20644(T) (LIB/Trans-240)
requirements in study and exploration of oceans, 21:26090
requirements in US to 2000, prediction of total, 25:2393
requirements to 2000 A.D., survey of U.S. fuel sources for meeting, 23:21829 (BNL-13252)
requirements to year 2000, forecasts of worldwide, 25:54325 (A/CONF.49/P-420)
resources to year 2000, forecasts of worldwide, 25:54325 (A/CONF.49/P-420)
simulation of invester owned utility company providing, description of computer program for, 23:33015
superconductivity and cryogenics in, uses of, 25:56114
systems for distribution of, dynamic programming solution of problems of load demand on, 24:22545 (ORNL-TM-2881)
systems for, optimal dispatching sequence for combined hydro-thermal-pumped storage, 25:8156 (ORNL-4624)
transmission equipment for, solar flare effects on, (T), 22:34199
transmission in ultrahigh vacuum, sliding electrical contact materials for, 21:24843
transmission interruption of, indicator design using shutter—x-ray source alignment, 23:9624(P)
transmission lines in Finland, effects of first power reactor on load stability of, 23:13387
transmission of reactor-produced, use of spark gaps to limit surges in, 22:14610
transmission of, computer program for estimating cost of, 22:39952 (BNWL-743)
transmission of, using superconductors, 25:30445
transmission systems for ac, superconducting, 25:40577
transmission systems for, development of underground, 25:60109
turbogenerators for production of, design comparison of cesium and potassium vapor, 23:13908 (ORNL-TM-2024)
uses in chemical industry, review of, 21:38609
ELECTRIC PROBES
see also Electric Arcs
see also Electron Probes
admittance of plane grid capacitor, in plasma, (E), 23:12769
admittance of spherical, ion sheath effects on, 25:22497
analysis of ellipsoidal Langmuir, in slightly ionized collision-dominated plasma, 21:9553
book: Electric Probes in Plasmas, 24:15280
book: Electrical Probes for Plasma Diagnostics, 24:45231
book: Instrumentation for High Speed Plasma Flow, 21:2218
book: Plasma Diagnostics, 23:10610
boundary conditions for adsorbing—emitting, in plasma, 24:23955
boundary corrections for coaxial three-coil conductivity—velocity, in plasma, (T), 23:27609 (N-69-15308)
calibration by electron beams, for reentry vehicles, 24:23885
calibration of Langmuir, cylindrical photo-ionization chamber for, 25:36100
current flow for probe-to-plasma system, (T), 23:44401
current flow to cylindrical, in collisional magnetoplasmas, (T), 25:36098
current flow to, in turbulent flowing plasmas, 25:38406
current in retarding-potential plasma, relation to integral electron flux in ionosphere, (E/T), 25:27682
current measurements for floating potentials, for plasma diagnostics, 22:7267
current to Langmuir, in collision-dominated plasmas in magnetic fields, (T), 24:3309
current—voltage characteristics of electrostatic, in plasma, 24:23960
current—voltage properties of floating-double, plasma electron temperature measurement from, 22:39051
current-voltage properties of continuum flush-mounted, 24:43906 (SC-RR-70-413)
currents drawn to negatively biased wedge in collisionless plasma, predictions, 22:48094
currents in spherical electrostatic, in plasma, (T), 24:8439
design and fabrication for plasma diagnostics, 21:31396 (CONF-661016, pp 355-8)
design and performance of conduction-type, for measuring film thicknesses and flow regimes in two-phase flow through circular tubes, 25:324(R) (GEAP-10214)
design and performance of glow discharge, for determination of fluid properties, 21:10537 (NYO-2930-9)
design and performance of ion-sensitive, for magneto plasma diagnostics, 21:8646
design and performance of Langmuir calorimetric, for ion beam diagnostics, 21:12726
design and performance of, for measuring film thickness between components of two-dimensional, stratified, turbulent, two-phase flow, 23:16032 (ANL-7444)
design and properties of periodic potential, for plasma diagnostics, 24:8446
design and use of, for intracavitary measurements, 21:6511
design for charged-particle beam studies, 21:6361
design for determining beam position in accelerators, 21:22220(P)
design for ionosphere diffusion measurements, 22:26313
design for ionospheric research, (E), 22:26310
design for measurement of phase and velocity distributions in two-phase flow, 22:21282
design for measurement of soil thermal conductivity, 21:43168
design for measuring plasma electron densities, 22:26369
design for Pioneer C, D, and E space, to measure ionospheric ion and electron density and angular distributions, (E), 25:49795 (N-71-12768)
design for void measurement in liquid metals, 23:40913 (BNL-50149, pp 123-52)
design of adjustable Langmuir, for determining spatial distribution of electron temperatures in plasmas, 25:46654
design of capacitance-type, for determining growth of plants, 21:34517 (ORNL-4091, pp 22-35)
design of electrostatic, for ionospheric electron density and temperature measurements, 22:10662
design of flush-mounted electrostatic, for space vehicle reentry studies, 24:51619 (SC-RR-70-413-A)
design of four-electrode, for conductivity measurements of ionized air, 21:23206
design of ion resonance, for plasma density measurements, 21:33381
design of Langmuir, for measuring floating potential in plasma, 22:45370
design of masked eddy current, for detection of coating cracks in Rover fuel elements, engineering drawings for, 25:57699
design of scanning analyzer, for plasma diagnostics, 24:45230(P)
design of swept Langmuir, at 150 V/μ sec, 25:40602
design of tungsten-tipped, to determine plutonia particle distribution in mixed-oxide fuel pellets, 21:38755
design of, for clinical dosimetry of γ and x rays, 21:4812(P)
development for incorporation in fuel examination glove boxes, 24:16738 (CONF-690910-, pp 420-34)
development for measuring conductivity of two-phase mixtures, 21:26052
development for plasma diagnostics in PIG discharges, 21:15103 (CONF-660221-, pp 372-5)
development for testing ion engines, 21:37415 (AD-650857)
development of Langmuir, for measurement of electron density and temperature in ionosphere, 21:35089

development of Langmuir, for measuring electron density in atmosphere, 21:7075 (AD-633920)
development of near-field, for measurement of electromagnetic radiation, 24:46535 (BRH/DEP-70-16)
diagnostic use for current measurements in high-voltage rf plasma discharges, 21:44047
distortion properties of, used in plasma diagnosis, 23:8590
effects of electron-emitting, on plasma ion sheath, (T), 24:35398
effects on ionization and recombination in partially ionized plasma, 25:5084
effects on noise and ion oscillations in Etude stellarator, (E), 24:10575 (MATT-743)
effects on plasma kinetics, second harmonics from modulated, 22:1166
electromagnetic fields from pulsed, in homogeneous cold plasma, (T), 24:35383
electron current saturation calculation with cylindrical, in magnetic field, 22:41557
electron current saturation in magnetic fields, 23:3465
electron heating effects on plasma temperature, (T), 23:44400
electrostatic sheath kinetics in ionized gases, 21:15111
end effects on cyclindrical Langmuir, at ionosphère satellite conditions, 24:26094
fabrication of tungsten/boron nitride, for high-temperature measurements, 21:13128 (ORNL-3970, pp 246-7)
feasibility of rf immersion-type, for electric conductivity measurement, 22:52745
frequency analysis in rf discharges, (E/T), 23:16783
impedance analysis in plasmas, (E), 24:37441
impedance loss in cold magnetoplasma, (T), 23:48820
impedance of hf quadrupole, in magnetoplasmas, 24:26152
impedance of rf conductivity, effects of plasma collision frequency and inhomogeneity on, 24:8447
impedance of rf, in plasma in static magnetic fields, (E/T), 24:37352
ion collection on multiple-grid, in plasma, 24:51615 (IPP-2/83)
ion current collection of cylindrical, in plasma in weak magnetic fields, (T), 24:12794
ion current extrapolation for Langmuir, (T), 22:36900
ion current flow from collision-dominated plasma to cylindrical, (T), 24:40049
ion current flow to spherical, in high-pressure plasma jets, (T), 24:42661
ion current measurements for plasma diagnostics over varying pressure range, 24:49123
ion current to plane, in flowing plasma, (T), 25:14249
ion current to probe at high and intermediate pressures, saturation, 24:49122
ion current to probe in plasma at intermediate pressures, saturation, (T), 24:49120
ion flux to flat, in moving plasma, (T), 25:33225
method of Langmuir-probe analysis for low-energy electron groups in hollow-cathode discharge, 24:15286
model simulation of rocket-borne ion-sampling, 21:34502(R) (AD-649854)
noise analysis in gas discharges, (E), 23:12784
performance for density measurements in collisionless plasma, 25:38407
performance for diagnosing ionized gas flows, (E), 23:34388 (AD-684574)
performance for diagnostics of low-temperature plasmas, 24:30320
performance for diagnostics of pulsed high-temperature plasma, 24:40039 (AD-704822)
performance for diagnostics of time-dependent plasma, 24:30324
performance for electron energy distribution measurements in perturbed plasmas, (E/T), 25:47508
performance for ion current measurements in laser-produced plasma, 25:30477 (NP-18765)
performance for ion density measurements in plasma torch, (E/T), 25:14250
performance for ionization measurements in high-pressure plasmas, 24:47211
performance for plasma density measurements, 22:24263
performance for plasma diagnosis, effects of electron attachment on, (T), 23:14769
performance for plasma diagnostics, 21:2207
performance for plasma diagnostics, 23:48886
performance for plasma diagnostics, (T), 24:3318
performance for plasma diagnostics, dust effects on, 25:47507
performance for plasma diagnostics, effect of surface conditions on, (E), 24:28241
performance for plasma diagnostics, effects of secondary electrons on, 22:24264
performance for plasma diagnostics, effects of thermionic electron emission on, (T), 24:21771
performance for plasma electron density measurements, effects of fluctuations on, 22:3022
performance for plasma energy spectra measurements, (E), 23:25291 (BMwF-FBK-69-3, pp 1.1-15)
performance for plasma jet diagnostics, 25:33226
performance for plasma jet electrical measurements, (E/T), 24:3313
performance for plasma potential measurements in magnetic fields, (E), 25:25087(T) (LA-4431-tr)
performance for plasma potential measurements, (E), 25:58992
performance for turbulent plasma diagnostics, probe geometry effects on, (E), 25:58983
performance for use in dc and hf gas discharges, (E), 23:20892
performance in glow discharge plasmas, impurity effects on, 24:45232
performance in measuring ionospheric electron densities, (E), 22:31723
performance of 4-electrode mutual-impedance, for ionospheric plasma diagnostics, 21:31420
performance of capacitive and floating Langmuir, in turbulent plasma, 25:33222
performance of conductivity, for tenuous plasmas, (E/T), 23:20897
performance of conical Langmuir, for diagnostics of shock-heated plasmas, (E/T), 25:56144
performance of cooled static, for electron diagnostics in dense plasma, (E), 21:9554
performance of cooled, for plasma diagnostics, (E), 24:15279
performance of cylindrical Langmuir, for diagnostics of low-density argon plasma, (E), 25:11873
performance of cylindrical Langmuir, in aligned plasma flows, (E), 25:22489
performance of cylindrical Langmuir, in transition regime, (E), 25:14242 (AD-711095)
performance of cylindrical, for plasma density measurement at medium pressures, 25:30494
performance of dielectric and double resonance, for plasma densities, 21:7191
performance of double Langmuir and Faraday-cup ion, for plasma jet diagnostics, 22:1159 (LA-3770, Paper E9)
performance of double Langmuir, for diagnostics of magnetized positive column, 25:5081 (N-70-32493)
performance of double, effect of electron and ion drifts on, (T), 25:58981
performance of double, for electric field measurement in plasma, 25:25089
performance of double, for plasma density and temperature measurements in afterglows, 24:47214
performance of double, for plasma measurements in strong magnetic fields, (E), 23:34386(T) (AD-683090)
performance of dual, for turbulent plasma diagnostics, (E/T), 25:49874 (KHFTI-70-71)
performance of electrodeless conductivity, for plasma diagnostics, 24:19872
performance of electrostatic, for flame plasma diagnostics, (T), 24:1387
performance of electrostatic, for measurements in collisionless plasma sheaths, (E/T), 25:33231
performance of electrostatic, for plasma flame diagnostics, (E), 25:22484
performance of emission, for plasma potential measurements, (E), 25:22491
performance of floating double, for plasma jet diagnostics, 25:19659
performance of free molecular cylindrical Langmuir, for turbulent plasma diagnosis, (E/T), 23:34383 (AD-681838)
performance of hf spherical and Langmuir, for electron density measurements, (E), 23:34396
performance of hot and cold, for plasma diagnostics, (E), 25:58986
performance of ion, for diagnostics of supersonic plasma flows, 24:35399
performance of Langmuir for plasma density measurements, (E), 23:14762
performance of Langmuir for plasma diagnostics, comparison with collisionless probe theory, 24:28242
performance of Langmuir for plasma diagnostics, wing-slope techniques for analyzing, 21:29218
performance of Langmuir, collisional effects for use in helium discharges, 24:32818
performance of Langmuir, collisional effects on, 25:56135
performance of Langmuir, for diagnostics of laser-produced plasmas, (E), 25:43342
performance of Langmuir, for diagnostics of positive column discharges, 24:35396
performance of Langmuir, for electron density and temperature measurements in flowing plasma boundary layers, (E), 25:52785
performance of Langmuir, for electron energy distribution measurement in cesium discharges, (T), 25:9419
performance of Langmuir, for electron temperature measurement in plasma jets, 24:47205
performance of Langmuir, for electron temperatures in laser-induced plasmas, 21:736 (AD-631517)
performance of Langmuir, for plasma density measurements in magnetic fields, 25:1172 (EUR-CEA-FC-540)
performance of Langmuir, for plasma density measurements in Q devices, 21:35140 (CONF-670104-Pt.2, pp 523-30)
performance of Langmuir, for plasma diagnostics, 22:1167
performance of Langmuir, for plasma jet diagnostics, 22:1165
performance of Langmuir, for plasma jet electron temperature measurements, 21:5246 (SC-DC-66-2267)
performance of Langmuir, for plasma wave measurements, 21:752
performance of Langmuir, for positive column diagnostics containing moving striations, 21:747
performance of Langmuir, for time-resolved electron energy distribution measurements, (E), 25:14246
performance of Langmuir, for use in collision-dominated plasmas, (T), 23:34385 (AD-682519)
performance of modified Langmuir, for plasma diagnostics, (T), 22:19956
performance of multi-electrode, for plasma diagnostics, (E), 24:1376
performance of multi-electrode, for plasma diagnostics, (E), 24:1384
performance of multi-electrode, for plasma diagnostics, (E), 24:1383
performance of multi-grid, for plasma diagnostics, 25:22494
performance of multigrid energy analyzers for plasma diagnostics, effects of first grid on, 24:49124
performance of piezo-, for measurement of small pressure pulses in plasma, 24:21762 (JUL-607-PP)
performance of polarized pyrometric, for energetic plasma diagnostics, 21:35144 (CONF-670104-Pt.2, pp 589-98)
performance of positively biased, for ionospheric diagnostics, (T), 25:24981
performance of quadrupole, for ionospheric plasma diagnostics, 24:37353
performance of resistance-type, for studies of flow structure in rod bundles, 24:19144
performance of resonance and rf impedance, effects of magnetic fields on, 21:37426
performance of rf and Langmuir, for plasma density measurements, 21:37431
performance of rf impedance method for plasma electron density and collision frequency measurements, (E), 25:1184
performance of rf resonance, for diagnosing quiescent cesium plasma, 21:35149
performance of rf resonance, for plasma diagnostics, 21:20923 (IPP-2/54)
performance of sounding, for plasma diagnostics, (E), 24:3312
performance of space potential, for plasma diagnostics, (E/T), 24:3311
performance of spherical Langmuir, for plasma diagnostics, (T), 25:1171 (AD-709185)
performance of spherical resonance, in magnetized plasma, (E), 23:12771
performance of spherical, for plasma jet diagnostics, 25:30482
performance of thin-wire Langmuir, in transition and free-molecular flow regimes, 24:35401
performance of three-coil, for plasma velocity and conductivity measurements, (T), 25:49875(R) (N-70-41180)
performance on space vehicles, double-spherical, (E), 24:32725 (AD-701011)
plasma flow past flat plate, current collection in, 22:15513 (SC-DC-67-2052)
plasma sheath diagnostics near plane, rf impedance measurements for, (E), 24:15284
plasma wave effects on response of Langmuir, (T), 24:8438
positioning mechanisms for plasma diagnostics, 24:24046 (LA-4250, pp CII.7.1-4)
potential changes in Langmuir, effects of alternating voltage on, 21:46325
potential distribution in electric discharges, effects of output voltage on, 21:46323
potential drop across pre-sheath of plane, (T), 24:23953
potential of emitting, in high-density seeded plasma, 24:35394
preamplifier for, design of, 21:7617
properties for magnetoplasma diagnostics, (T), 22:29475
properties for use in plasma diagnostics, γf, 22:52747
properties of cylindrical Langmuir, in low-density plasmas, 25:58999
properties of cylindrical, in magnetoplasma, 21:14508
properties of electrostatic cylindrical, in plasma, 22:34605
properties of electrostatic, in ionospheric plasmas, (E), 25:56012
properties of hot Langmuir, for plasma diagnostics, 21:44039
properties of Langmuir, for discharge plasma diagnosis, 23:1390
properties of Langmuir, for plasma diagnosis, 23:1392
properties of Langmuir, for plasma diagnostics, 21:10700
properties of quadrupolar, in hot isotropic plasma, 24:51623
properties of resonance, near plasma ion frequency, 21:39993
properties of spherical electrostatic, for diagnostics of bounded plasma, 24:21770
properties of thin cylindrical, in isotropic plasmas, (T), 24:1388
properties of, used in shock tubes, 21:27136
resonance properties in nonuniform plasmas, (E), 23:42247
resonance rectification effects on diagnostic use for plasma research, 21:39985 (SU-IPR-177)
resonances of rf, in plasma, 21:2208
response analysis of directional Langmuir, for particle-flux measurements in plasma, 24:51626
response of cylindrical Langmuir, in plasma transition regime, (E/T), 25:56136
response of free-molecule cylindrical Langmuir, in turbulent plasma, (E/T), 24:6528
response of Langmuir, effects of ion—atom collisions on, (E), 25:43340 (N-71-17594)
response of Langmuir, in laser-produced flowing plasmas, (E/T), 25:45487(R) (ORO-3819-3)
response of Langmuir, in strong magnetic fields, (E), 25:40597
response of Langmuir, in turbulent plasma, (E/T), 24:47208
response of spherical, to alternating potentials in plasma, (T), 23:12773
response of transient, for dense plasma diagnostics, 24:10505 (AD-695052)
sheath kinetics when close to plasma potential, 24:40048
shot noise in plasma, reduction by electron—neutral atom collisions, 22:44096
simulation of resonant, computer, (T), 23:12768
temperature effects of double nonemitting, on plasma electron temperature measurements, (E/T), 24:17888
theory and use of electrostatic, for diagnosing high-temperature alkali-seeded argon plasma, 22:11425
theory for collisionless electrostatic, 21:17921
theory for diagnostics of argon discharge, large-sheath concept for continuum, 25:9429
theory for double spherical electrostatic, for plasma diagnostics, 21:33377
theory for electrostatic planar and spherical, 21:10696 (NASA-CR-704)
theory for electrostatic, continuum, 21:7193
theory for electrostatic, in weakly ionized plasma, (T), 25:52790
theory for plasma diagnostics, 21:7198

theory for plasma ion densities around flat plates, 22: 24265
theory for resonance plane, for plasma diagnostics, 22: 24274
theory for resonance, in magnetoplasma, 21:7192
theory for use in plasma diagnostics, 24:40046
theory in fully ionized plasma, in magnetic fields, (T), 24:10512
theory of axisymmetric electrostatic, continuum, 25: 33232
theory of blunt-body electrostatic, for plasma jet diagnostics, (T), 24:51618 (SC-RR-70-331)
theory of continuum flush, in weakly ionized flowing gas, 25:40596
theory of cooled spherical electrostatic, continuum, (T), 23:18607
theory of cooled spherical electrostatic, in continuum gas, 25:58982
theory of cylindrical, for magnetoplasma, 21:5741
theory of cylindrical, for plasma diagnostics, 21:5249
theory of cylindrical, for plasma diagnostics, 24:37442
theory of cylindrical, in collisionless magnetized plasma, 23:42245
theory of cylindrical, in flowing plasma, 25:27681
theory of electrostatic, for plasma diagnostics, 21:13546
theory of electrostatic, for use in ionospheric D region, (T), 23:36606
theory of electrostatic, in magnetic fields, 23:1396
theory of electrostatic, in MHD fluids, 21:15018
theory of electrostatic, in partially ionized gas, 23:12772
theory of electrostatic, in plasma in strong magnetic fields, 22:52739 (AD-672273)
theory of electrostatic, in stationary quiescent plasma, 24:47212
theory of electrostatic, time-dependent, 24:15278
theory of hot diffusion, 22:44109
theory of hot spherical, for plasma diagnostics, 21:5251
theory of Langmuir, development of, 23:6981
theory of Langmuir, for diagnosing collisional plasmas, 22:1272(R) (SU-IPR-198)
theory of Langmuir, for plasma jet diagnostics, 21: 25113(R) (N-67-11698)
theory of Langmuir, for use in flowing collisionless plasma, 23:5391
theory of quasi-static cylindrical, for magnetoplasma, 21: 12721
theory of resonance, for use in plasma diagnostics, 22: 26372
theory of satellite electrostatic, 21:39294
theory of spherical and cylindrical electrostatic, 23:1242 (AD-670158)
theory of spherical and cylindrical Langmuir, in collisionless Maxwellian plasma, 22:11427
theory of spherical electrostatic, continuum, 25:17139
theory of spherical electrostatic, for plasma diagnostics, 22:3031
theory of spherical electrostatic, in plasma, 22:24262
theory of spherical electrostatic, plasma ionization effects on continuum, 21:44031 (N-67-23272)
theory of spherical Langmuir, diffusion, 23:30527
theory of spherical Langmuir, for plasma diagnostics, 22: 13444
theory of spherical, for plasma diagnostics, 24:35400
use for argon plasma density measurements in positive column discharges, 22:34593 (TID-24491, pp 99-109)
use for charge carrier density measurement in plasma with Druyvesteyn electron distribution, (E/T), 23: 23093
use for determining expansion properties in shock tubes, 22:1220
use for diagnosis of cesium plasma in thermionic converters, 23:8495
use for diagnosis of magnetoplasmas, electron drift velocity effects on, 22:34603
use for diagnosis of quiescent plasmas, noise in, (E), 23: 1376 (IPPJ-71)
use for diagnostics of discharge plasma, pressure effects on, (E), 25:33240
use for diagnostics of hydrogen arc plasmas, 24:30313 (IPP-3/103)
use for diagnostics of low-density plasma, 21:35142 (CONF-670104-Pt.2, pp 563-78)
use for diagnostics of low-pressure gaseous discharges, 24:12853 (AD-481429)
use for diagnostics of natural gas combustion products, 24:21767
use for diagnostics of weakly ionized plasma, electron heat transfer in, (E), 23:23092
use for electron density measurements in ionospheric F-region, 23:44244 (AD-686114)
use for electron temperature measurements in flame plasmas, (E), 23:20896
use for electron temperature measurements in rf discharges, (E), 23:14765
use for high-speed plasma diagnostics, 22:36899
use for hydrogen plasma density and temperature measurements at cyclotron resonance, 22:5318
use for ion diagnostics of cesium plasma, 21:31401
use for low-temperature cesium plasma electron density measurements, 22:13435 (FEI-20)
use for measurements in flowing partially ionized dense gases, 23:6983
use for measuring beam current and position in cyclotrons, system for controlling, 21:17254
use for measuring space and time evolution of distribution function for plasma, 21:35143 (CONF-670104-Pt.2, pp 579-87)
use for plasma diagnosis, effects of electron emission on, (T), 23:12785
use for plasma diagnostics, 21:11605 (MIT-1842-36)
use for plasma diagnostics, (T), 21:15113
use for plasma diagnostics, automatic recording of double, (E), 23:14764
use for plasma diagnostics, conference on, 25:5080(T) (LA-4520-TR)
use for plasma diagnostics, effect of magnetic field and collisions on, (T), 23:36658
use for plasma diagnostics, inverse problem in, 24:45233
use for plasma diagnostics, perturbation of electron energy distribution in, (T), 21:3834
use for plasma electron density and collision frequency measurements, (E), 23:20894
use for plasma jet diagnostics, 22:22141
use for plasma potential measurements, (E), 23:51603 (CEA-CONF-1394)
use for quiescent plasma diagnosis, noise in, 23:6984
use for relative density measurements in low-density plasma, 24:35387
use for vlf electric field measurements in ionosphere, 22: 34502
use for void fraction determination in two-phase fluid flow, 21:24162
use in ionospheric research, techniques for, 22:44004
use in measurement of ionospheric parameters, 22:1067
use in measurements in NaK-seeded argon flow, 22: 44097
use in plasma diagnostics, effect of temperature and electric field on impedance in, (T), 23:46457
use in plasma diagnostics, equations for floating potential and current for, 23:14754
use of admittance, for plasma electron temperature measurements, 22:48096
use of conical electrostatic, for plasma diagnostics, 24: 26151 (AD-701083)
use of continuum ion, for diagnosis of turbulent plasma, 21:33380
use of dc, for discharge plasma diagnostics, 21:9544
use of dc, for electric field measurements in space plasmas, 22:31699
use of double electrostatic, for plasma jet diagnostics, 22:13446
use of double floating, for electron temperature measurement in electric arcs, 22:24267
use of double microfield, for plasma diagnostics, (E), 25: 58990
use of double, for plasma electric conductivity measurements, (E), 23:51611
use of double, for plasma jet ion temperature measurement, (E), 23:34394(P)
use of electrostatic, for argon plasma jet density measurements, 22:1152(R) (AD-646891)
use of electrostatic, for diagnosing alkali metal plasma, 22:19946 (MATT-520)
use of electrostatic, for diagnosing electrodeless rf plasma, 22:19950
use of electrostatic, for magnetoplasma electron densities, 21:29206
use of flush electrostatic for plasma diagnosis, edge effects in, (T), 23:23086
use of glass-coated platinum wire, for locating steam bubbles in nucleate boiling test loop, 21:34392(R) (EURAEC-1811)
use of grid, for plasma ion temperature measurements, 22:48093
use of Langmuir for plasma diagnosis, relation of ion density to ion current, (T), 23:12786
use of Langmuir for plasma diagnostics, time-resolved, 24:51622
use of Langmuir, for diagnosing low-pressure xenon plasmas, 22:26367
use of Langmuir, for diagnostics of laser-produced streaming plasmas, (E), 24:37433(R) (ORO-3819-2)
use of Langmuir, for electron energy distributions in discharge plasmas, (E/T), 23:25294 (BMwF-FBK-69-3, pp 11.1-12)
use of Langmuir, for ionization measurements in shock tubes, 22:31794
use of Langmuir, for ionospheric density and temperature measurements, (E), 23:18502 (AD-672808)
use of Langmuir, for measurement of drift-wave potential oscillations in plasma, (T), 25:27809
use of Langmuir, for measurements in flowing collisionless plasma, (E/T), 22:11426
use of Langmuir, for mercury arc plasma diagnosis, (E), 23:18598 (AD-673699)
use of Langmuir, for plasma diagnosis, 23:3450 (IPPJ-DT-9)
use of Langmuir, for plasma electron density measurements, 22:34615
use of Langmuir, for striation analysis in positive columns, 23:1382
use of Langmuir, variation of rf response with amplitude and frequency, (T), 23:42240
use of negative Langmuir, kinetic theory for plasma diagnostics, 22:22136 (MATT-563)
use of plane grid capacitors, for plasma diagnosis, (T), 23:12770
use of plane resonance, for plasma diagnostics, (T), 24: 17891
use of plane, for plasma diagnostics in toroidal traps, 25: 9410(T) (CTO-736)
use of retarding potential traps, for ionospheric measurements, 22:52661
use of rf Langmuir, for plasma diagnosis, 23:12775
use of rf resonance, for diagnostics of Penning plasmas, 21:15104 (CONF-660221-, pp 376-80)
use of rf, for plasma space potential measurements, (E), 24:12795
use of short-exposure, for plasma jet temperature measurements, (E), 23:39448
use of spherical Langmuir, second derivative of curve from helium discharges, (E/T), 23:25292 (BMwF-FBK-69-3, pp 4.1-8)
use of spherical, for ion collection in collisional plasma, (E/T), 22:36893
use of static, for boundary-layer ion-density profile measurements, 21:8521
use of thermo anemometer—Langmuir, for plasma diagnostics, 24:17885
use of thermoanemometer—Langmuir, for rarefied plasma diagnostics, 24:26156
use of thin cylindrical, for plasma measurements in magnetic fields, 23:10621
use of three symmetric, for plasma diagnostics, 22:9284
use of two perpendicular Langmuir, to measure velocity of plasma stream, 24:17893
use of, with multichannel pulse analyzer for chemical analyses, 21:15835(R) (UCID-15066)
use to identify reaction products in radioisotope containment materials, 21:45307 (SC-CR-67-2656)
use with pressure tubes, for plasma jet diagnostics, 22: 9286
uses in nondestructive testing, 25:26440
wave production at plasma resonance, harmonics of, 21: 29204 (TID-23827, pp 71-134)
ELECTRIC PROPERTIES
analysis of electrical lead material, for optimized cryostat operation, (T), 21:30572 (CEA-R-3167)
radioinduced changes in, of rabbit brain, acute x, 23: 10068
research on, in Japan, index of papers in Busseiron—Kenkyu (1943 to 1962) on, 21:12385 (UCRL-14288)
Electric Resistance
see Electric Conductivity
Electric Resistors
see Resistors
Electric Switchgear
see Switches
ELECTRIC TRANSIENTS
generation of clean and noisy, for accelerometer outputs during shock tests, 21:34200 (SC-DC-67-1833)
ELECTRICAL ENGINEERING
cryogenics in, trends in uses of, 24:41099(T) (LA-tr-70-10)
design practices for electromagnetic protection in military systems, 23:2464 (UCRL-71024(Rev.1))
network design in, computer calculation of poles and zeros for, 22:211 (TID-24088)
research at Ispra, Italy, 1961 to 1967, 23:17645 (EUR-3940-3)
Electricity

design for chemical-recovery MHD cycle, 22:52580
design for gas discharge ion sources for neutron generators, 21:46658(P)
design for magnetohydrodynamic generators, 24:5029(P)
design for MHD devices, 21:20817(P)
design for MHD devices, controlled cooling in, 21:20816(P)
design for MHD generator, 21:3743(P)
design for pressurized Van de Graaff generators, 22:9725(T) (LB/G-2577)
design for radial acceleration of charged-particle beams, calculation of profiles for, 23:3887
design for use in x-ray flash generator, 21:17766
design improvement for MHD converter, 25:38187(P)
design of composite, for MHD generators, 21:43872(P)
design of composite, for MHD generators, 22:36781(P)
design of high-temperature, for MHD generators, 21:31290(P)
design of metallic recessed, with heat-resistant filler for MHD generator, 21:18495(P)
design of pressurized spark gap with saturable inductance, materials evaluation for, 22:45215 (IPP-4/54)
design of pressurized two-electrode spark gap with saturable inductance, 22:45216 (IPP-4/55)
design of reference, for electrochemical studies at high pressures and temperatures, 25:29779
design of rotating disk, for metal deposition from nonaqueous systems, 22:25226 (UCRL-17957)
design of rotating-disk, for metal deposition from nonaqueous solvents, 22:45029 (UCRL-18043, pp 7-105)
design of signal, for measuring properties of charged-particle beams, (T), 21:6361
design of wheel-type, for spot welding beryllium, 24:2903(P)
design optimization for series-connected MHD generator, 23:5267
design theory for, used in focusing of intense charged-particle beams, 22:22493
development and analysis of materials for, used in high-performance thermionic converters, 21:649(R) (NP-16349)
development for hand welding in sinterplants, 23:51025
development for molten salts, 25:10434 (ORNL-4636, pp 7-13)
development for thermionic converters, 23:6902(R) (NP-17700)
development of composite mercury graphite, for use in studies on trace metals in environmental samples, 22:27626 (MIT-905-108, pp 33-62)
development of dropping bismuth, for double-layer capacitance measurements on fused salts, 22:37707 (BNL-50082, pp 27-39)
development of emitter, for thermionic converters, 23:8497(P)
development of platinum working, for controlled-potential coulometry, 22:35742 (UCRL-50417)
development of reference, for molten fluoride salts, 25:15625 (ORNL-4622, pp 60-118)
development of reference, for molten fluorides, 24:13799 (ORNL-4400, pp 1-29)
development of reference, for use in molten fluorides, 23:19693 (ORNL-4344, pp 109-99)
development of stable reference, for use in molten fluorides, 24:46307 (ORNL-4548, pp 93-186)
differential capacity of electrical double layer at interface of aqueous solutions with silver iodide, 21:23791 (IS-T-145)
drop time of dropping-mercury, apparatus for precise control of, 22:14425 (ORNL-4196, pp 1-12)
effects of dimensions of graphite, on spectrochemical carrier distillation analysis of thorium oxide, 23:37873(R) (NBL-247)
effects of properties of, on sensitivity of spectrochemical analysis of radioactive substances, 21:30384
effects of size of, on performance of combustion-driven MHD generator, 25:2398
effects of surface state of platinum, on oxidation studies on metals, 21:14178(R) (EURAEC-1294)
effects of uniformity of absorption capacity of, on spectrochemical determination of metals in solutions using rotating disk electrodes, 23:34979
electric breakdown of vacuum insulated, under rf stress, 23:28063
electric conductivity measurements with solid, influence of construction material on, 21:12419
electric fields in circular concave, analysis of quadrupole, 22:39519
electrochemical properties of conducting glass, for determination of transuranium elements, 24:13734 (ORNL-4466, pp 12-25)
electrochemical studies of MHD ceramic, 22:11295
electrochemistry of single crystal silver, 22:27626 (MIT-905-108, pp 33-62)
electrochemistry of single-crystal, 21:15878(R) (MIT-905-81)
electron emission from plasma—electrode interface, angular distribution of, (T), 24:1429
erosion in coaxial plasma accelerator, 25:33289
erosion in high-current and high-pressure discharges, 25:30495 (EUR-4593, pp 251-6)
erosion in pulsed plasma accelerators, material evaluation for, 25:36207
erosion or entrainment in MPD arcs, 24:21643
exchange current densities and transfer coefficients in systems of, Chronopotentiometric measurement of, 23:104 (ORNL-4306, pp 106-19)
fabrication for 28V heat pipe-thermionic converter module, 23:24347(R) (NYO-3979-1)
fabrication of carbon, apparatus for, 21:4994(P)
fabrication of carbon, process for, 21:4995(P)
fabrication of silver chloride, for organic electrolyte batteries, 24:29136 (SC-CR-69-3290)
flow phenomena adjacent to, in conductive gas, (E), 22:52582
focusing properties of systems of, used in accelerator tubes, 22:26750
free convection at vertical, in presence of supporting electrolyte, 23:40616 (UCRL-18735, pp 5-80)
gas breakdown conductivity between, in vacuum, 21:36202 (NP-16688)
heat transfer from flowing argon—potassium plasma to, 25:33288
immersion in plasma, volt—ampere characteristics of cathode, (T), 25:3107
insulators for high-current arc, composite metallic and dielectric, 21:663
interactions of tungsten, with cesium plasma, properties of, 23:1233 (N-68-30593)
interface studies in fused salts, 23:17389(T) (ANL-Trans-703, pp 1-8)
kinetic behavior in molten salt electrolytes, 23:14349
mass transfer boundary layers on extended, optical methods for study of convective, 25:46410 (UCRL-20324)
material for high-temperature MHD, ceramic, 24:12673(P)
materials for fuel cells and MHD generators, refractory oxides as, 25:45606
materials for MHD generators, testing of, 24:27773
microdischarges in gaps of, theory of, 22:39123
multipactoring effect between two plane parallel plate, 22:26743
operation in magnetohydrodynamic generators, performance of, 25:2940
organic compound reactions at, 22:10123(R) (COO-1148-112)
oxidation-reduction reactions in porous and tubular, effects of flow rate on efficiency of, 21:45864 (ORNL-4164, pp 83-94)
performance characteristics of, used in electrical discharge machining, (E), 21:42865 (Y-1582)
performance for detection of radon leakage in sealed radium containers, 22:2515
performance in air—1 percent potassium discharges, 22:5182
performance of chromium—molybdenum—nickel, for welding nickel-base alloys, 23:46065
performance of fluoride vapor-deposited tungsten—niobium, thermionic, (E), 25:4993 (TEE-4125-1)
performance of graphite-base, for machining carbides, 22:23869
performance of ion-selective, 22:14428 (ORNL-4196, pp 33-44)
performance of oxygen, effects of thulium oxide on, 25:29098
performance of porous gas, effects of periodic movement of gas—electrolyte interface on, 21:44997 (UCRL-17594)
performance of porous-gas, effects of periodic interface displacement on, 21:30402 (UCRL-17330, pp 1-78)
performance of vertical-orfice rapid Teflon dropping-mercury, 22:14428 (ORNL-4196, pp 33-44)
plasma sheath near, collisionless theory for, 21:7249
polarization in molten sodium disilicate glass containing iron, 22:35741 (UCRL-18200)
polarization of suspension, effects of catalyst concentration on, 24:181 (ORNL-4437, pp 87-97)
positioning of electromagnetic isotope separator, design of device for remote, 24:50516 (CEA-N-1323)
potential breakdown between plasma and negative, 22:3037 (AWRE-O-78/67)
potential difference between identical, at different temperatures in ionized gases, (E), 21:7045 (CEA-R-2974)
potential ranges of glassy carbon, pyrolytic graphite, and platinum, effects of organic compounds on usable, 23:107 (RFP-1221)
potentials of aluminum, platinum, and stainless-steel, effects of radiation and irradiated solutions on, (E), 22:28735 (EURAEC-2010)
potentials of platinum, in aqueous thallic—thallous ion solutions, 21:23710 (BNL-994, pp 45-69)
preparation and properties of fluoride-sensitive membrane, 22:16439
preparation and properties of multilayer membrane, 21:42915(R) (NYO-2279-3)
preparation and properties of platinum and rhodium, 21:26747(R) (NASA-CR-54358)
preparation of rare earth chromite, method for, 22:52247(P)
production for seam welding, 21:24710
properties and uses of multilayer, 21:42915(R) (NYO-2279-3)
properties in MHD generators, model analysis of, 22:52565
properties of carbon, in anodic stripping voltammetry, 23:31255 (MIT-905-133, pp 37-77)
properties of ion selective, 23:4 (IN-1203, pp 8-29)
properties of liquid ion exchange membranes as, for polyvalent ions, 22:21054 (ORO-1797-11, pp 1-113)
properties of screen, for electrolysis of flowing streams, 23:103 (ORNL-4306, pp 73-105)
properties of stagnation-point, in seeded plasmas, 21:7240
properties of suspension, 24:181 (ORNL-4437, pp 87-97)
radiation effects on calomel, fluoride specific, glass, and nitrate specific, γ, 25:2231
radiation effects on performance of oxygen, β and γ, 23:40676 (BNL-50149, pp 40-75)
radiation effects on performance of oxygen, thulium-170 β and γ, 25:29098
radiation effects on potential of saturated calomel, γ, 23:40676 (BNL-50149, pp 40-75)
radiation effects on silver, gamma, 21:9200(R) (N-66-27530)
radiation effects on stability of calomel and indicator, α and γ, 24:13777 (ORNL-4466, pp 62-88)
radiation effects on storage battery, gamma, 21:24276(R) (N-67-11722)
reaction distribution in flooded-porous, 21:30402 (UCRL-17330, pp 1-78)
reaction distribution within flooded porous, method for measuring, 22:45029 (UCRL-18043, pp 7-105)
reactions at spherical, polarographic kinetic currents for first-order, one-half regeneration, 23:52505 (IN-1274)
reactions of thiosulfates at rotating pyrolytic graphite, 22:14426 (ORNL-4196, pp 12-15)
research on cermet, for thermionic converters, 23:30380(T) (AEC-tr-7044)
response of lanthanum fluoride, in aqueous chloride media, 22:25329 (ORNL-4229, pp 84-104)
shape of, used for measuring shift of center-of-gravity of charged particle beams, 22:3576
sorptive properties for organic compounds, 21:18268(R) (PB-173549)
sorptive properties for oxygen on surface of platinum, electrochemical kinetics of, 22:27626 (MIT-905-108, pp 33-62)
space—charge sheath effects on currents in flowing plasmas, (T), 24:37465
standard for copper and copper alloy arc-welding, 25:42767 (RDT-M-1-7-T)
standard for corrosion resistant chromium and chromium—nickel steel-covered welding, 25:41972 (RDT-M-1-1-T)
standard for low alloy steel covered arc-welding, 25:42765 (RDT-M-1-4-T)
standard for mild steel covered arc-welding, 25:42764 (RDT-M-1-3-T)
standard for mild steel, for gas—metal—arc welding, 25:42766 (RDT-M-1-6-T)
standard for nickel and nickel alloy bare welding, 25:42771 (RDT-M-1-11-T)
standard for nickel and nickel alloy covered welding, 25:42770 (RDT-M-1-10-T)
standard for stainless steel bare, 25:42763 (RDT-M-1-2-T)
standard for surfacing, 25:39628 (RDT-M-1-5-T)
temperature of, effects on MHD generator performance, (E/T), 23:22964
theory of suspension, 24:181 (ORNL-4437, pp 87-97)
thermionic properties of zirconium carbide, in cesium vapors, 21:37224
thermionic work function of mixed crystalline-phase oxygen—zirconium, at 1600 to 1850°C, effects of oxygen content on, 24:34945 (BMBW-FBK-70-1, pp 309-19)
thermochemical protection of, in MGD apparatuses, effects of injected gases on, 23:51424

use of glass, in heavy water, 22:23025
use of platinum micro-, in study of γ radiolysis of aerated aqueous solutions of ferricyanides and ferrocyanides, 23:35212
use of porous, for electrolysis of saline waters, developments in, 21:45864 (ORNL-4164, pp 83-94)
use of, for measuring electric capacity of protozoan, Opalina, 21:11148
vaporization during brief intense electric discharge, 23:12737(T) (RFP-Trans-44)
voltage breakdown of, plasma diagnostics and material release in high-, (E), 23:32357
work functions for, effects of patchiness and surface area on, 25:35931
Electrodialysis

ELECTROHYDRODYNAMIC GENERATORS
book: Electronic Energy Converters (in German), 23:16699
channels for gas, resistive-wall, (E/T), 23:3325
charge generation by corona discharge in, 21:41870
charged-particle production in, 21:43863
charged-particle size for, analysis of optimum, 25:9262
description of, and possible uses, 23:51420
description of, for power without pollution, 24:28149
design improvements for, 24:28153(P)
design of, 23:8489(P)
design of coal-fueled electrogasdynamic, 21:41073
development for power generation, 21:23041
development of, 21:41869
development of, 23:5266 (NP-17676)
development of, (T), 22:7198
development possibilities for, 25:2938
duct design for corona discharge generation in, 24:3224(P)
duct flow in linear voltage, 24:21646
efficiency of, (E/T), 23:51421
electric and thermal properties of, (E/T), 21:33235 (CEA-R-3158)
electric field distribution in channel flow in, (T), 23:14668
electric fields in, Fortran IV computer program for, 23:30388 (AD-680006)
electric fields in, radial space charge, 21:27035
electric loading for, 25:47358 (AD-716102)
electric parameters of open- and closed-cycle, (E), 21:27028 (ARL-67-0008)
energy conversion in, partial condensation on ions in, 22:1026(R) (AD-646740)
energy losses in, from electrode erosion and Joule heating, (T), 24:3407
gas flow in ducts of linear voltage, 25:30339
gas-dispersed media in, application of, (E), 24:47074
ion currents from alkali metals, (E/T), 24:8381
ion density distribution in, (T), 23:14668
ion injectors for single- and two-phase, (E), 24:10404 (AD-694906)
ion production by corona discharges for, properties of, 22:19834
operation and principles of, 22:52597
performance for power generation, possibilities of, 22:19831
performance of ballistic, 22:19833
performance of, influence of charge spreading on, 21:41871
performance of, with different conversion channel geometries, (T), 24:35241
performance testing of, methods for, 22:19835
performance, determination of, (T), 22:19832
power generation by, principles and progress in, 23:20741
power production by, review on, 23:25186
properties of, 21:41855
radial electric field parameter in segmented-electrode, (T), 23:6906
research lectures on, 23:20736 (AGARDograph-122)
space charge in slender-channel, (T), 24:28148
temperature measurement in 50-MW facility, 25:16865 (AD-713672)
theory of three-dimensional axially symmetric, 22:41398 (AE-324)
use for bulk power generation, 23:36565
uses of, engineering aspects of, 23:20745
ELECTROHYDRODYNAMICS
conference on, review of IUTAM—IUPAP, Cambridge, Mass., 3/69, 24:26046
drag on body moving in rarefied plasma, 21:24964
electroconvection induced across temperature gradient, traveling wave bulk, 21:18498 (N-67-12924)
energy conversion by, survey papers on, 23:20736 (AGARDograph-122)
energy conversion in, (T), 21:39854
equation for two drops, solutions of nonlinear differential, 23:51426
heat and mass transfer in electroconductive media, (T), 22:9149
Lorentz-invariant magneto-, (T), 24:10413
optimization applied to, (T), 23:1247
principles of energy conversion, (T), 22:7198

research in, 21:43848(R) (N-67-21161)
stability in, free surface, 22:26288
theory of, general-relativistic, 21:18846
theory of, taking into account "magnetic charge", 22:24100
ELECTROJETS
auroral index for, behavior in relation to ssc, (E), 23:25226
auroral, geomagnetic variation preceding, (E), 23:18517
auroral, occurrence inside auroral oval associated with plasma sheet expansion, (E), 25:7278
auroral, occurrence of daytime polar cap magnetic disturbances preceding nighttime, (E), 25:2978
backscattering in equatorial, Hall-current instability mechanism of long-wavelength, (T), 25:38259
characteristics of auroral, (E), 23:39393
characteristics of equatorial, (T), 23:25197
characteristics of non-two-stream equatorial, irregularities in, (E), 23:25225

characteristics of, correlated with world-wide S/sub q/ current, 21:37334
contour maps of equatorial, (E), 22:41455
current density in and near equatorial, determined by rocket-borne magnetometers, 21:23107
current distribution in equatorial, vertical, 21:33288
current in equatorial, model to investigate gradient instability in, (E/T), 25:30379
current intensity, rocket measurements of, 21:23108
current reversal in equatorial, nighttime, 21:13462
current reversal times of equatorial, effects of seasonal variations on, (E), 24:45091
current system in polar E-region, correlation with magnetic disturbances, (E/T), 25:38263
currents of auroral-zone, spatial extent of return, (E/T), 25:40493
currents of auroral-zone, spatial extent of return, (T), 24:12706
development of auroral, relation to auroral-zone x-ray pulsations, (E), 23:27464
development of auroral, relation to interplanetary magnetic-field behavior, (E), 25:45384
development of polar, during polar magnetic substorms, (E/T), 25:56029
distribution of return current of auroral-zone, during polar substorms, (E), 25:5003
disturbance field (Dst) variation in region of equatorial, (E), 23:14683
drift of, over South American stations, (E), 23:6925
effect of toroidal magnetic fields on, (E), 23:18518
effects of auroral, on fast electron absorption and scattering in upper atmosphere, (T), 25:27589
effects of auroral, on heating of thermospheric winds, (T), 25:58864
effects of auroral, on precipitated auroral electrons, (T), 22:52639
effects of equatorial, electromagnetic induction in surface and mantle, (E), 23:27487
effects of equatorial, on excitation of longitudinal EM waves, (T), 24:12699
effects of equatorial, on generation of long-period traveling ionospheric disturbances, (T), 24:35259
effects of equatorial, on geomagnetic field, rocket-borne magnetometer measurements of, 24:39948
effects of solar eclipse on equatorial, in Central Pacific, (E), 23:34325
effects on diurnal variation of geomagnetic field, (E), 23:42046
effects on polar magnetic substorms, 21:35083
electric field generation in region of, (E/T), 21:41936
electric field measurements near auroral, 23:48829
electric fields in polar, plasma measurements for height-independent, (E), 25:9335
electron drift in equatorial, effect of magnetic activity on, (E/T), 25:58905
electron drift velocity near coastal Peruvian equatorial, daytime westward and nighttime eastward, (E), 24:45127
electron-drift velocities in nighttime equatorial, (E), 23:23000
electrostatic plasma instabilities in equatorial, (E/T), 25:58900
equatorial, properties of, (E), 23:42112
expansion of auroral, during auroral substorms, (E), 25:7303
formation of equatorial, 21:23129
generation of bow waves by equatorial, in supersonic motion, (T), 24:35261
generation of internal gravity waves in neutral atmosphere by equatorial, (T), 23:42068
geomagnetic-field variations in equatorial, (E), 24:30226
infrasonic waves from moving auroral, (E/T), 23:42084
intensity in auroral boundaries, relation to visual aurorae occurrence, (E), 25:58857
intensity of, solar radiation effects on, 21:18539
intensity variations and path of equatorial, relation of world-wide S/sub q/ currents to, 21:23126
ion motion in auroral, characterization of auroral electric fields from artificial, (E/T), 25:55959
ionospheric horizontal drifts within equatorial region of, 21:11503
irregularities and electric current in equatorial, effects of electron-density variations and electron motion on, (E/T), 25:47415
irregularities in E-region equatorial, mechanism of Type-II, (T), 24:39947
location of polar, during geomagnetic storm, Oct. 31 to Nov. 2, 1968, (E), 25:1077
longitudinal extent and intensity of auroral, (E/T), 25:40457
magnetic field measurements near auroral, 23:48829
magnetic fluctuations in equatorial, origin of, 21:15040
magnetic-field disturbances in polar, characteristics of vector components of, (E/T), 25:47445
mechanism of auroral, description of electric-discharge, (E/T), 25:58909
model for equatorial, with a meridional current system, (T), 23:42056
model of equatorial, (T), 22:36817
model of equatorial, involving meridional currents, 22:5250
model of, including meridional currents, (E), 24:26090
observation of equatorial, in Central Pacific, (E), 23:34325
occurrence of polar, and intense negative bays inside auroral zone, 21:46261
occurrence of polar, intense negative bays inside auroral zone from, 21:43924
pattern of polar, (E), 22:38924
plasma inhomogeneity formation in equatorial, quasi-linear equations of electron and ion, (T), 25:55986
plasma instabilities in, nonlinear stabilization of two-stream, (T), 23:48833
plasma irregularities in equatorial, vhf echoes from, 25:19573
plasma-wave irregularities in equatorial, secondary, (E), 21:13452
polarization of auroral, (T), 22:52648
position of auroral, hourly changes in conjugate, (E/T), 25:38264
position of ionospheric current, relation with boundary of captured electrons with E greater than or equal to 280 keV in radiation belts, (E/T), 25:11782
position of, in ionosphere, (E), 23:39397
production processes of auroral, relation to magnetospheric magnetic storm generation, (E), 25:30400
properties of auroral and equatorial, (T), 23:1282
properties of equatorial, 21:23086
radio echoes from irregularities in equatorial, (E), 21:13452
relation of auroral, to auroral arcs, electric fields, and precipitating particles, (E), 24:51536
relation of currents in auroral, to radio aurora, (T), 25:36006
relation of equatorial, and ionospheric equatorial anomaly, 23:51468
relation of equatorial, to blanketing-type sporadic-E, (E/T), 24:26052
relation of equatorial, with ionospheric F2 anomaly and q-type sporadic-E layer, (E/T), 25:9291
relation of intensity of auroral, with low-latitude DS-current component during intense geomagnetic storms, (E/T), 25:27619
relation to geomagnetic field variations, (E), 22:47908
structure of auroral, from measurements of field components, (E/T), 25:9334
structure of auroral-zone, micro-, (E), 24:12704
theory of auroral, 21:11534
variations in equatorial, reversal times of seasonal, (E/T), 25:38253
variations of equatorial, diurnal, (E), 24:35317
variations of equatorial, in Peru, 24:17815
westward traveling surge in auroral, absence of hydrogen emission in, (E), 23:42115
westward traveling surge in ionospheric auroral, effect of polar substorm development on, (E/T), 25:7249
ELECTROKINETICS
radiation effects on, of erythrocytes of mice, effects of dose on x, 23:14130
ELECTROLUMINESCENCE
research on, 23:27703
spectra from crystals, digital time-to-pulse height converter for measuring, 22:51275 (AD-662627)
ELECTROLYSIS

apparatus for, design of, 21:34285(P)
gas evolution in high-current, cathodic, 23:40616 (UCRL-18735, pp 5-80)
metal dissolution in, in aqueous salt solutions, 21:12402
performance in separating actinide oxides from alkali metal chloride melts, 21:25964(P)
performance of fused salt, for electrowinning light metals, 24:48810
testing for removal of radioisotopes from steel, 21:45651
use for decontamination of stainless steel surfaces, 21:43434
use in fabrication of very small holes in metal plates, equipment and method for, 22:10166(T) (ORNL-tr-1827)
use in fuel reprocessing, 22:8175(T) (ANL-Trans-544)
use in production of heavy water, 21:36072 (AAEC/TM-368)
use of countercurrent, in activation analysis, 25:54493
use with filtration and ion exchange for water decontamination, 21:24150(P)
uses in reprocessing of reactor fuels, 22:10262(P)
uses of, in separation of metallic compounds from multicomponent alloys, 21:3514
ELECTROLYTES
analysis of supporting, for cadmium, indium, and lead by oscillopolarography, 23:13641
analysis of, for chlorine, fluorine, oxygen, silicon, and sodium, activation, 21:12296
chemical activity in, 24:11527
chemistry of concentrated, 24:26861(R) (COO-1712-5)
composition for electroplating beryllium, 21:6792(P)
composition for optimum production of anodic zirconium oxide, survey on, 23:36235
conductance and pair distribution of symmetrical, (T), 21:18728
conductance and pair distribution of, (T), 21:18723
conductivity of, correction to Kubo formula for electric, (T), 23:23135
conference on structure and transport processes in, Montpellier, France, Sept., 1968, 24:11526
content in muscles, measurement of, using neutron activation analysis of biopsy specimens, 21:21891
corrosive effects on titanium-base alloys under potentiostatic conditions, relations of anions with stress, 23:36007
current density in solutions of, migration contribution to free convection, 25:34489 (UCRL-20322)
densities of, method for extrapolating, 22:23003 (IA-1128, pp 97-146)
determination of, in muscle biopsy samples, by neutron activation analysis, 21:14699
development for lithium/tin fuel cell, lithium aluminate-filler, (E), 23:27409 (ANL-7550, pp 74-92)
development for organic electrolyte battery operable at -54 to 121°C, 22:27522 (SC-CR-67-2855)
diffusion and migration in solutions of, 25:34488 (UCRL-18597(Rev.))
diffusion in aqueous, thermodynamics of, 24:48016(T) (ORNL-tr-2364)
diffusion in concentrated, 24:26877 (UCRL-19128)
dissociation equilibria in solutions of, effects of dielectric constant on isothermal, 22:25329 (ORNL-4229, pp 84-104)
effects of inert, on chronopotentiometric constants, 23:104 (ORNL-4306, pp 106-19)
effects of pretreatments with aqueous solutions of, on inhibition of stress corrosion cracking of aluminum—titanium—vanadium alloy foils by methanol, 25:22018
effects on critical temperature of water, 22:25329 (ORNL-4229, pp 84-104)
effects on diffusion of strontium in soil, 21:20019 (ARCRL-16, pp 27-69)
effects on water determination by NMR techniques, 21:32125
electric conductivity and pair distribution of symmetrical, (T), 23:16781(T) (ORNL-tr-2068)
electric conductivity in solid, research on mixed, 25:12883(R) (COO-1440-21)
electric conductivity of aqueous solutions of, at 0 to 800°C and to 4000 bars, 21:22841 (ORNL-4076, pp 55-79)
electric conductivity of aqueous solutions of, at 0 to 800°C and to 4000 bars, 22:25329 (ORNL-4229, pp 84-104)
electric conductivity of solid, 25:11472(R) (AD-708705)
electric conductivity of, (T), 23:14772(T) (ORNL-tr-2067)
electric potential in heavy water, 22:37740
flow in electric and magnetic fields, 23:48787
flow in nickel refining process, radioactive tracer method for measurement of, 22:14712
free energy of solutions containing, 23:31256 (MIT-905-133, pp 91-3)
freezing point depression measurements on, relation of Debye—Hueckel theory to, 24:41098 (LA-4428)
freezing point measurements for aqueous solutions of, 23:4497 (LA-3891)
gas absorption by agitated aqueous solutions of, mass transfer coefficients and interfacial area for, 25:46411 (UCRL-20472)
gas absorption by agitated aqueous solutions of, mass transfer coefficients and interfacial area for, 24:33613 (UCRL-19570)
immobilization of fused salt, 24:43991 (ANL-7650, pp 41-66)
ion transport in solutions of, 24:11527
isopiestic ratios of, 24:36207 (ORNL-4586, pp 67-86)
isopiestic studies of very concentrated aqueous, 25:54535 (ORNL-4717, pp 57-82)
isopiestic studies of, design of equipment for, 22:25329 (ORNL-4229, pp 84-104)
losses from victorin-treated leaves of oats, effects of uranyl salts on, 24:34052
magnetohydrodynamic flow in, (E), 21:24968
mass transfer in systems of, multicomponent, 25:54719 (ORNL-4682, pp 229-39)
metabolism during acute intestinal radiation syndrome, 22:40887
metabolism in man, effects of age on, 21:21891
metabolism in man, tracer use of bromine-77, potassium-43, and sodium-24 mixtures for studies of, 24:33997
metabolism of, use of whole-body counting for determining, 21:12892 (STI/PUB-122)
nuclear magnetic resonance studies of solutions of, 23:14888
osmotic and activity coefficients for 31 aqueous binary mixtures of, 23:26138 (ORNL-4402)
oxygen ion conductance by solid, 22:10247
polymers of, thermodynamic properties of, at infinite dilution, 23:103 (ORNL-4306, pp 73-105)
preparation for electrodeposition of cadmium-zinc alloys from, 23:29990(P)
properties of concentrated solutions of, 22:25209(R) (COO-1712-1)
properties of paste, disks with lithium-halide eutectic, 24:1309 (ANL-7575, pp 136-69)
properties of paste, evaluation of, 24:43991 (ANL-7650, pp 41-66)
properties of solid, at high temperatures for use in thermodynamic studies, bibliography on, 24:41241 (CEA-Bib-180)
properties of solid, with oxygen conductivity, 22:27637
properties of solutions of, two-structure model for description of, 23:103 (ORNL-4306, pp 73-105)
radiation effects on balance of, in man with arterial hypertension, radon, 24:888
radiation effects on balance of, in mice, treatment of acute, 23:43806
radiation effects on distribution of, in brain of developing rats, x, 25:8758(R) (UCB-34-P-82-10)
radiation effects on excretion of, by monkeys, effects of breathing ethanol vapor on γ, 23:31900 (AD-682285)
radiation effects on excretion of, by rats, effects of dose on x, 25:24047
radiation effects on loss of, from carrot tissues, effects of dose and dose rate on γ, 24:46581
radiation effects on metabolism of, in animals, review of whole-body, 21:45532
radiation effects on metabolism of, in rat bone marrow, effects of hyperbaric oxygen and Proresid on γ, 25:32550
radiation effects on rat serum, protective effects of methylene blue against x, 25:42283
radiation effects on transport of, by the rat ileum, x, 22:49543
radiation effects on transport of, in intestines of rats, x, 22:10824 (BNWL-480, pp 1-19)
radiation effects on transport of, in rat intestine, x, 23:6564 (BNWL-714, pp 1.1-20)
radiation effects on urinary excretion of, 23:12234
radiation effects on, in soils, effects of moisture content of γ, 22:26021
radioinduced depression of transport of, across rat intestinal wall in vitro, x, 24:7759
radioinduced increase of, in eyes of rabbits, microwave, 21:18125
radiolysis of frozen aqueous solutions of, spectral studies on free radicals produced by, review on, 23:49829
separation of boron-10 from spent, by ion exchange and boric acid crystallization, 24:20853 (NUMEC-3292-11)

sorption of, in intestine of x-irradiated rats, 21:14538 (BNWL-280, pp 4-8)
sorptive properties of agitated aqueous solutions of, for gases, 25:6402 (UCRL-19530, pp 315-28)
sound velocity in aqueous solutions of, effects of viscosity on, 21:1368
testing of organic poly-, as filter bed conditioners for water treatment, 22:42933 (BNWL-734)
theory of, role of adiabatic invariants in, 21:15243
thermodynamic properties of binary, in aqueous solutions, compilation of, 22:39969 (UCRL-17767)
thermodynamic properties of bolaform, in aqueous solutions, 24:180 (ORNL-4437, pp 60-86)
thermodynamic properties of poly-, 22:40054(R) (NYO-2269-12)
thermodynamics of solutions of, 22:23003 (IA-1128, pp 97-146)
thermodynamics of, in electrostatic field, 21:5834 (IA-1082, pp 77-202)
titration of solid, method for coulombic, 25:11472(R) (AD-708705)
transport in intestines of rats, effects of taurocholic acid on, 22:10824 (BNWL-480, pp 1-19)
transport properties of binary, in aqueous solutions, compilation of, 22:39969 (UCRL-17767)
transport properties of concentrated solutions of, 22:10158 (UCRL-17768)
use for treatment of acute radiation damage in mice, 23:43806
uses in electrochemical machining of metals, requirements for, 23:27012
vapor pressure of, development of isopiestic apparatus for measuring, 22:23003 (IA-1128, pp 97-146)

book: Fundamentals of Quantum Electronics Vol. 2, Absorption and Emission of Electromagnetic Fields, 23:18848
book: Fundamentals of Quantum Optics, 22:17843
book: Magnetohydrodynamics, in Romanian, 24:5036
book: Maxwell Equations: Nonrelativistic and Relativistic Derivations from Electron Theory, 25:45620
boson energy levels and wave functions in external, charged relativistic intermediate-vector, (T), 25:3344
boson field interactions with external, formulation of semi-quantized quantum electrodynamics from charged vector, (T), 25:5413
calculation for amplitron-like cavity, computer program for, 23:23746(R) (AECL-3257)
calculation for linear accelerators, methods development for, 22:20497(R) (AECL-3009)
calculations for linear accelerators, computer program for, (T), 22:11944(R) (AECL-2780)
changes during spectroscopic analysis, detection of, 23:28708(P)
charge fluid spheres in, Einstein—Maxwell equations for, 24:3762
charged particle acceleration in crossed alternating, (E), 21:24904
charged particle interactions in external, probabilistic interpretation for relativistic, 23:23565
charged particle motion in circularly polarized, (T), 22:20098
charged particle motion in constant, relativistic, (T), 25:36363
charged particle motion in oscillating, (T), 23:23132
charged particle motion in plane circularly polarized, gyroresonance in, (T), 23:13000
charged particle motion in special-shape, solutions of Dirac and Klein—Gordon equations for, 22:44294
charged particle motion in stochastic, 22:9494
charged particle motion in time-dependent axially symmetric, 22:24276(R) (LA-3831(Add.))
charged particle motion in two hf rotating, effects of field parameters on, (T), 23:49022
charged particle motion in, (T), 25:43507(T) (JPRS-52839, pp 3-16)

charged particle motion in, Chapman—Enskog theory for, 25:17345
charged particle motion in, equation for variable-spin, (T), 25:53092
charged particle motion in, Hamilton—Jacobi equation for, 22:3231
charged particle motion in, radiation corrections for, (T), 25:56393
charged particle motion in, radiations from, (T), 21:44240
charged particle motion in, transition radiation from, (T), 25:50032
charged particle motion in, virial theorem for, (T), 21:46443
charged particle scattering by, relativistic formalism in weak-interaction approximation for, 22:52909
charged particle trajectories in, helical, (T), 21:33552
charged particles in external, group theoretical analysis of elementary, 24:28521
charged-particle acceleration by, with phase velocity greater than velocity of light, 24:49294
charged-particle coupling to, causality in Lorentz-covariant Lagrangian for, (T), 25:28068
charged-particle diffusion in weakly turbulent, Fokker—Planck equation for, (T), 25:30520
charged-particle focusing in cyclic accelerators by homogeneous, 21:17244
charged-particle interaction with external, wavepacket Volkov solutions for, 24:15526
charged-particle interactions with external, relativistic corrections to center-of-mass motion for, 25:7591
charged-particle interactions with transverse rotating, electrodynamic analog of wave diffraction phenomena in, (T), 25:12156
charged-particle interactions with, (T), 21:44310
charged-particle interactions with, in vacuum, (T), 21:11810
charged-particle interactions with, statistical theory of, 21:23057
charged-particle motion in arbitrary, polarization of radiations from, (T), 25:1352
charged-particle motion in axially symmetric, time-dependent harmonic oscillator for, 22:46365
charged-particle motion in constant and uniform external, two subgroups of Poincare group for elementary, 24:18107 (CNRS-CPT-69-P-311)
charged-particle motion in external, compensating gauge and space—time transformations for invariance operator groups of equations of, (T), 25:50169
charged-particle motion in external, equations with variable mass and spin magnitude and Newton first law for, 23:46787
charged-particle motion in external, in quantum electrodynamics, Markovian processes for, 24:15636 (INP-681, pp 126-49)
charged-particle motion in fluctuating, relation with quantum field theory for, 23:32820
charged-particle motion in inhomogeneous, with hf component, (T), 23:13012
charged-particle motion in large-amplitude inhomogeneous, (T), 22:37060
charged-particle motion in monochromatic plane wave of, (T), 21:11435
charged-particle motion in nonresonant hf, drift approximation for, 21:46362
charged-particle motion in planar-wave, radiation from relativistic, 22:5688
charged-particle motion in plane, stimulated radiation from, 24:24202
charged-particle motion in random, (T), 21:11637
charged-particle motion in solvable configuration of, Klein—Gordon spin-0, (T), 25:19950
charged-particle motion in stationary uniform, (T), 24:45402
charged-particle motion in stationary, random, averaged equation of, 21:13596
charged-particle motion in stochastic, review of, 23:51821
charged-particle motion in time-dependent axially symmetric classical, exact quantum theory for, 23:46813
charged-particle motion in time-dependent, coherent states and transition probabilities for, 25:1351
charged-particle motion in traveling-wave, 21:15238
charged-particle motion in unified gravitational and, induced transformation for, (T), 25:22904
charged-particle motion in uniform external, Green function for, 22:44377
charged-particle motion in, (T), 21:41758
charged-particle motion in, adiabatic theory of, 24:35592
charged-particle motion in, C and T invariance of equations for, 23:30783 (ITF-69-17)
charged-particle motion in, classical and quantum theories for spinning, 22:44380
charged-particle motion in, computer program for integrating equations of, 21:11827 (LA-3609, pp 229-32)
charged-particle motion in, covariant equations of magnetic-dipole, 24:12979
charged-particle motion in, dynamic symmetry group for, 25:53243
charged-particle motion in, Hamiltonian for, (T), 25:38611
charged-particle motion in, Langevin equation for, (T), 22:24509
charged-particle motion in, new equation for, (T), 25:40853
charged-particle motion in, nonlinear cyclotron resonance from, (T), 23:8702
charged-particle motion in, radiation mechanics of, 21:18863
charged-particle motion in, radiations from relativistic, 24:42847
charged-particle motion in, removal of fluctuations from expectation values of velocity and spin operators in Dirac and Kemmer theories for spinning, 24:26401
charged-particle motion in, singularity in Vaidya radiation from, (T), 25:30778
charged-particle motion in, space—time invariance principles for, 25:17344
charged-particle motion in, theory for, 21:7003
charged-particle motion with constant velocities in, Lorentz force relation with energy and momentum for, (T), 25:19946
charged-particle pair annihilation at potential barrier in time in external, probability for, (T), 25:27985
charged-particle radiative polarization in, with two waves traveling toward each other, (T), 25:59226
charged-particle separation at high energies in progressive, (T), 22:20386
charged-particle system interactions with, potentials and multipole moments for, (T), 25:56455
charged-particle trajectories in, generalized orthogonal coordinates for, (T), 25:50033
charged-particles in external, wave equation for spin-0, 24:10693(R) (NYO-3829-42)
classical laws of, (T), 21:11720 (ISS-66/27)
coherent states in indefinite-metric linear space for, 25:25482
commutators and time-ordered products of, equal-time, 22:24589
components of, measurement of voltage of electric and magnetic, 21:26446
compression of, electric field analysis in, (T), 23:27602 (AWRE-O-2/69)
conservation of coherent state distribution for, (T), 23:21023
construction of axially symmetric Einstein—Maxwell, method for, 22:35129
construction of axially symmetrical Einstein—Maxwell, method for, 22:32209 (KFKI-9/1968)
construction of, (T), 21:42221
correlation theory of quantized, 23:34639
cosmic-particle acceleration in pulsar, (T), 25:38184
Coulomb law for, modified divergence-free, (T), 25:19952
coupling of, superposition theory for, 23:46793
curvature tensor on asymptotically flat space—time for, asymptotic behavior of, 23:16999
description of gravitational fields and, unified, 23:23553
determination of, of traveling charge in beam duct, 23:19049 (BNL-50120(Pt.1), pp 400-8)
diffusion into conductors under pulsed discharge conditions, design curves for, 21:30586 (CONF-661016, pp 235-46)
Dirac equation in constant orthogonal electric and magnetic fields, solution for, 23:44711
Dirac equation transformation properties with, 24:37681
distributions in linear accelerators, methods for calculating, 21:33954(R) (AECL-2687)
effect of solar-wind flux variation on, Jan. 21 to March 21, 1969, (E), 25:27535
effect of strongly varying or stationary, on elementary particle decay, (T), 23:23434
effect on ion-acoustic wave generation in space, (T), 25:33343
effects of 1625 kh, on mitochondria of mice liver cells, 24:25552
effects of frequency on film superconductivity, (T), 24:28216
effects of gravitational and, on relativistic quantum energy of charged particles, (T), 23:46590
effects of penetrating, from moving plasma in MHD generators, 21:23048 (AD-643788)
effects of traveling-wave ultrahigh-frequency, on plasma jet instability in waveguide, 22:44190 (NP-17559)
effects of ultra-high frequency, on carbohydrate metabolism in brain of rats, 23:45663
effects of, on molecular systems, theory of effects of electronic coupling on, 21:365 (FSU-2690-31)
effects on acetylcholinesterase activity in vagal heart system of frog, 25:6644
effects on amino acid synthesis in liver and spleen of mice, high frequency, 21:43534
effects on biological materials and personnel, dosimetry for ultrahigh frequency, 24:27591
effects on biological materials, problems in dosimetry for low- to ultrahigh-frequency, 24:27590
effects on cells and molecules, 25:13571
effects on central nervous system of animals, low-intensity, 22:10823 (ATD-66-133)
effects on circadian cycle of man, weak, 23:29824(T) (SC-T-69-1021)
effects on cytology of endocrine glands and internal organs of mice, 25:6790
effects on development and growth rate of quail embryos, 24:39562
effects on electroencephalogram responses of rabbit brain, 23:26896
effects on gas-bearing turboalternator performance, 21:41070
effects on gravitational collapse, (T), 23:51354
effects on hydrogen atom orientation, 21:11425
effects on informational interconnections between organisms, 25:13572
effects on living organisms, 24:27661
effects on mammalian brain, role of neuroglia in, 21:36741
effects on military personnel, characteristics and treatment of superhigh-frequency, 24:2686
effects on nervous system of animals and man, 25:13571
effects on nuclear magnetic resonance in solids, time dependence of, 21:23277
effects on nucleic acid content of viscera in rabbits, 23:50839
effects on physiology of man, super high frequency, 22:25972
effects on plasma parameters in positive column, 21:23184
effects on radio wave-radiosensitivity of man, 22:23649
effects on reproduction and development of rats, 25:13571
effects on superconductors, time varying, 21:33357
effects on ultrastructure of liver of rats, 24:34122
effects on ultrastructure of mitochondria of rat livers, 24:36804
effects on vital activity of organisms, 25:13572
Einstein unified field equations for, wave solutions of gauge invariant generalization of field theories with asymmetric fundamental tensor in $V_3 \times V_3$ space-time for, 24:40477
Einstein unified field equations of gravitation and electromagnetism in $V_3 \times V_3$ space—time, 24:5344
Einstein unified theory for, physical constant from restriction to, 23:42741
Einstein—Maxwell equations for spherically symmetric charge radiation, solutions of, (T), 25:43710
Einstein—Maxwell equations for stationary, in general relativity, 23:1694
Einstein—Maxwell equations for, generalization of plane-wave solutions for, 23:42740
Einstein—Maxwell equations for, properties of cylindrically symmetric, (T), 25:20086
Einstein—Maxwell equations for, solutions of, 24:3759
Einstein—Maxwell equations for, spin coefficient formalism for algebraically special solutions to vacuum, (T), 25:45812
Einstein—Maxwell equations in, class of nonsingular static spherically symmetric solutions of modified, 23:52003
Einstein—Maxwell equations with plane symmetry for, exact static solution of system of, 24:20231
Einstein—Maxwell field equations for, 23:34656
Einstein—Maxwell field equations for, 23:34658
Einstein—Maxwell field equations for null, 23:42715
Einstein—Maxwell field equations for, degenerate case $\mu = 0$ for reduction of unknowns in, 23:37007
Einstein—Maxwell field equations for, exact stationary solution of, (T), 24:43035
Einstein—Maxwell field equations for, method for construction of stationary solutions of, (T), 24:43036
Einstein—Maxwell field equations in vacuo for spatially homogeneous, nonstatic solutions of, (T), 25:36559
Einstein—Maxwell fields with matter and pressure in, 25:17577
Einstein—Maxwell space-times in conserved quantities in asymptotically flat, 23:52002
Einstein—Maxwell, asymptotic expansions for, 23:32824
Einstein—Maxwell, Green theorem for conserved quantities of Newman—Penrose constants for coupled, 23:52001
Einstein—Maxwell, invariant transformations for Newman—Penrose constants of motion for coupled, 25:12279
Einstein—Maxwell, supplementary equations in Newman—Penrose formalism for, 25:22901
Einstein—Maxwell, with null current distribution, (T), 25:25518
Einstein—Schroedinger unified field theory in, analog of Birkoff theorem for, 24:40479
Einstein—Schroedinger unified field theory in, wave solutions in $V_3 \times V_3$ space—time for, 24:40480
Einstein-Maxwell equations for null, class of solutions of, (T), 25:1637
electric charge motion in external, with radiation reaction, geodesics of affine connection for point test, (T), 25:53090
electric charge motion in general relativity theory, geodesics of Einstein connection for paths of, (T), 25:36443
electric dipole, in presence of anisotropic plane, low-frequency horizontal, (T), 24:12726
electromagnetic-wave propagation in, frequency change in, (T), 23:27323
electron beam behavior in, between parallel semi-infinite plane conductors, 21:28989
electron behavior in strong external, 25:36369
electron coupling to proton, spinors in Weyl geometry for, 24:26478
electron energy levels and magnetic moment in, shift of Landau, (T), 24:20006
electron interactions in external, exact solutions of Dirac equation for, 22:34900
electron interactions in intense, photon emission from, 21:33642
electron interactions with plane monochromatic electromagnetic wave in quantized, wave function for, (T), 23:32670
electron interactions with, charge fluctuations and zitterbewegung in, 23:13128
electron interactions with, Dirac equation solutions for, 21:9674
electron interactions with, dynamic invariance in quantum electrodynamics for, 22:48368
electron interactions with, Green function for, 22:44284
electron interactions with, spin effects on Dirac, 22:44285
electron mass shift and anomalous magnetic moment in intense, enhancement of, (T), 24:10719
electron minimal coupling with, Dirac equation in Weyl space for, 24:6756
electron models in classical, review of extended, 24:28602 (AD-701726)
electron motion in crossed, induced radiation from, (T), 21:13779
electron motion in homogeneous, (T), 24:20039
electron motion in homogeneous, induced transitions of relativistic, (T), 24:6675
electron motion in intense crossed external, mass operator, eigenfunctions, and exact Green's function for, (T), 25:17431
electron motion in intense plane-wave, (T), 25:14506
electron motion in plane, radiations from, (T), 23:13014
electron motion in, calculations for, 23:52063
electron motion in, existence proof for solutions of classical two-electron problem for, (T), 25:53066
electron motion in, radiations from, (T), 23:13013
electron motion in, spin equation involving radiative effects, 24:21904

electron motion in, with axial symmetry, relativistic, 22: 1551
electron pair production in, energy loss from, (T), 22: 5533
electron production in γ + N interactions in strong, final-state interaction for, (T), 25:43606
electron scattering by strong, Kapitza—Dirac effect in, 21:26987
electron scattering by, field theory treatment of, 22:5466 (BARC-292)
electron self-energy in, divergenceless classical, (T), 25: 19952
electron spectrum in, quasi-energetic, (T), 24:21905
electron system interactions with external, electromagnetic many-body forces for, (T), 25:3328
electron—positron field interactions with external classical, elementary C* algebra for, 24:13156
elementary particle interactions in, CP violation in spinor, 21:25335
elementary particle interactions with, CP violation and electric current structure for neutral, 22:9562
elementary particle interactions with, CP violation in, 22:9649
elementary particle motion in external, group-theoretic analysis of, 25:7590
elementary particle motion in, (T), 22:5651
energy of quantum, analysis of retarded dispersion forces in terms of zero-point, 23:3799
energy tensor for null, (T), 21:44231
energy tensor of null, (T), 21:33579
energy—momentum tensor in general relativity theory, 24:18287
energy—momentum tensor in, review of relativistic, 23: 23532
equation and equivalence relation for unified matter and gravitational field and, in complex Weyl space, (T), 25:45815
equation for, mass operators in Bhakha, 23:3665 (BMwF-FBK-68-26)
equations containing higher derivatives for, modified Maxwell, 22:13843
equations for, 21:9385
equations for charged spin-$^1/_2$ matter, static solutions for combined Dirac—electromagnetic—gravitational, (T), 25:43703
equations for components of, in moving media, (T), 23: 46579
equations for null, solution of Einstein cosmological, 23: 15243
equations for principle tetrad type-D gravitational and, Newman—Penrose, 23:39831
equations for time-varying plasma, decoupled Maxwell—Euler, 24:15367
equations for, excluded possibilities of geometrodynamical analog to electric charge in, (T), 25:53079
equations for, Hamiltonian form of, 24:3729
equations of, generalization of metric tensor for unified, (T), 25:22881
equivalence principle in second order in Newtonian gravitational constant, 23:15242
event horizons in static space—times, (T), 22:34216
fermion interactions with external, two-component spinor theory for spin-$^1/_2$, 25:17562
fermion motion in, spin integrals for, 21:42319
fermions in external, formulation of relativistic quantum mechanics for spin-$^1/_2$, (T), 25:9841
Feynman rules from gauge-independent field theory for, 23:5676
field correlations and detector counting probability for system of interacting, 21:17935
field equations for combined gravitational and, with nonzero charge-current distribution, 22:53013
field equations for, invariance postulate for variational calculation of, 22:37187
field equations for, solution of Rainich—Misner—Wheeler, 23:3790
field equations in general relativity theory for nonstatic, 25:25481
field theories for, Einstein and Levi—Civita unified, 24: 26511
field theory for, nonexistence of isolated charge distribution in Bonner unified, (T), 25:50170
formulation of five-dimensional unitary, in Riemaniann space, 22:44488
frequency variation with effective shunt impedance of linear accelerator cell, (T), 21:40473(R) (PR-P-74)
gauge condition for nonradiative, in special relativity, 24:37856
gauge invariance in, relation of generalized Bondi—Metzner algebra to, 25:47921
gauge transformations for symmetry groups of potentials in, compensating, (T), 25:50169
generation by nuclear explosions, protection of electric and electronic equipment from, 24:14122 (CONF-690824-(summ.))
generation near boundary of conductor, (T), 21:24969
generation of class of non-Weyl-type, from axially symmetric vacuum gravitational field, (T), 25:22873
geometrical properties of, (T), 22:15650
geometrization theories for gravitational fields and, hypothesis for united, 23:37006
geometrodynamics for, Hlavaty conditions in general, 23:42738
geometrodynamics of null and nonnull, Newman—Penrose formalism for, 24:37857
geometrodynamics of null, (T), 21:7420
geometry of, computer program for solving Laplace equation in three dimensions for, 23:28116
gravitation effect in charged model from, 22:7558
gravitational interactions of Bose particle in, (T), 21: 27280
gravitational radiation analogy with electromagnetic radiation from class of generalized singular, 22:29756
graviton interactions wth static, photon production from, (T), 25:12272
Hamiltonian formalism on characteristic surfaces for, 25: 14773
hazards to human populations, 24:34716 (CONF-690335, pp 13-25)
hazards to nuclear personnel, role of industrial hygienist in evaluating and controlling protection practices and standards for, 24:41898
hygienic factor of, 21:26446
hyperquantization of, 24:47506
induction in plasma, properties of, 21:20959
initial value problem for coupled gravitational fields and, (T), 21:46450
intensity computation for magnetohydrodynamic research, 21:16855
interaction of conducting fluid with, velocity field of, (T), 21:672
interaction of neutrino magnetic moment with, (T), 25: 24792
interaction with three-level quantum system, semiclassical, 25:38602
interactions γ + e ⟶ γ (2γ) + e in constant, spectral and angular distributions for Compton and induced Compton, (T), 25:59368
interactions γ + e in, production of anti τ—τ pairs in, (T), 25:53057
interactions of complex scalar, Galilean-invariant theory for gauge invariance of, 25:47950
interactions of time-dependent, with electrons, (T), 23: 27772
interactions of, Lorentz vector field theory for, 21:37929
interactions with arbitrary-spin particles, Foldy—Wouthuysen transformation for, 22:3314
interactions with atomic system, effects of recoil in, (T), 24:30143
interactions with atoms and molecules, calculation using variational approach to perturbation theory, 22:52516
interactions with atoms, expansion of master equation for, 24:42852
interactions with atoms, induced emission from, 21: 39805
interactions with atoms, ionization in, (T), 21:11424
interactions with atoms, monochromatic, (T), 22:29231
interactions with atoms, quantum electrodynamics for, 22:46513
interactions with atoms, semiclassical theory of weak atomic-current, 23:25165
interactions with bounded plasma, anomalous skin effect in, (E), 23:23113
interactions with charged matter fields, invariance properties of spinor Lagrangians for, 23:36999
interactions with charged particles, statistical mechanics of, (T), 23:30550
interactions with charged vector meson fields, electrodynamics of, 23:42606
interactions with composite system, Hamiltonian for, 23: 39669
interactions with Dirac fields, spectral representations with Schwinger terms for, 23:16988
interactions with Dirac monopole, (T), 22:2833
interactions with electron plasma, confinement properties of, (T), 24:42642 (D-1-82-977)
interactions with gravitational fields in algebraically special Petrov-type spaces, 23:17000
interactions with gravitational fields, (T), 25:13946
interactions with gravitational fields, generalization of Kaluza—Klein theory for arbitrary nonabelian gauge group, 23:21161
interactions with gravitational fields, paradox in, 24: 37912
interactions with gravitational fields, perturbation theory for, 22:35116
interactions with gravitons and photons, 22:53032
interactions with human body surface, formula for calculation of, 24:27707
interactions with low-pressure plasma, striation production in, 21:31437
interactions with matter fields, invariance properties of spinor Lagrangians for, 23:37000
interactions with molecular systems, Hamiltonian for, 25:27943
interactions with moving plasma, coupling of rf, 24: 47280
interactions with particles, nondegenerate perturbation treatment of long-range, 22:34239 (COO-1112-160)
interactions with plasma in conducting cylinders, nonlinear skin effect in, (T), 23:36704
interactions with plasma in presence of Hall effect, hf, (T), 24:12823
interactions with plasma jets, theory for, 21:9567 (UTIAS-122)
interactions with plasma, average force in, (T), 25:49904
interactions with plasma, nonlinear theory for large-amplitude hf, 25:47582 (MATT-835)
interactions with plasma, particle acceleration in, 21: 18732
interactions with plasma, particle acceleration in, 21: 18731
interactions with plasma, quantum theory of, 23:36751
interactions with plasma, skin-effect theory for, 21:5289
interactions with plasma, theory for parametric shf, (T), 23:42353(T) (AEC-tr-7078)
interactions with plasma, theory of parametric uhf, 23: 42372
interactions with point charged particles, elementary measurement in classical electrodynamics for, 23: 42720
interactions with polarizable elastic media in theory of gravitation, 23:3822
interactions with scalar magnetic charge, (T), 22:2833
interactions with spin-$^3/_2$ particles in Bhabha theory, quantization of, 25:3439
interactions with spin-1 boson and spin-1/2 fermion fields, invariance properties of spinor Lagrangians for, 23:37000
interactions with spinor fields in gauge-independent, 23: 1686
interactions with system of identical bosons, relativistic quantum mechanics for, 24:28599
interactions with three-level atoms, (T), 25:49761
interactions with vacuum-current and charge fluctuations, classical approximations for, (T), 25:38774 (CEA-R-4142)
interactions with Yang-Mills fields, current and field commutation rules from gauge invariance of second kind for, 24:37887
invariant transformations and Newman—Penrose constants, (T), 22:17831
Lagrangian formalism for free Maxwell, in spinor notation, (T), 25:56541
Lagrangian function for, effect of anomalous magnetic moment of electron on nonlinear, 23:15032
lepton interactions in, electromagnetic interaction constant and flux and charge quantization for, 23: 15047
Lorentz transformations for invariant electric tension vector for motion of electric charges in, 25:56567
Maxwell equation for, Dirac equation relation with, (T), 25:41053
Maxwell equations for nonintegrable singular, 21:46513
Maxwell equations for nonnull, derivation of unified, 23: 36980
Maxwell equations for, advanced and retarded solutions for, (T), 25:9835
Maxwell equations for, classical effects from factorized spinor representation of, (T), 25:41052
Maxwell equations for, cylindrical wave solutions of, 25: 9873
Maxwell equations for, Dirac equations relation with, (T) , 25:45790 (JINR-P2-5798)
Maxwell equations for, in static gravitation, 25:31011
Maxwell equations for, symmetric space of group of, 25: 20052(T) (SLAC-Trans-130)
Maxwell equations in differential form for, harmonic integrals for, 24:35690
Maxwell field equations in space—time V_2 x V_2 corresponding to product of two surfaces for, wave solution of generalized, 23:36995
Maxwell free space field equations in, general relativistic scalar field theory in complex Weyl space for, (T), 25: 47969
Maxwell free-space equations for, general relativistic scalar field theory in complex Weyl space for, (T), 25: 45815
Maxwell—Minkowski equations for, in moving media, (T), 21:17004
measurement in space, 22:49866
measurements in cavity resonators, perturbation method for, 21:4143 (LYCEN-6627)
meson (K^0) interactions with, (T), 21:27330
meson (K^0) interactions with, K^0—anti K^0 transitions from, 21:37746
meson (π) interactions with, Segal quantum field theory for, 21:21301
meson interactions in constant external, Kemmer algebra for formula for vector, 22:37117
meson with anomalous magnetic moment in external, Pauli-type approximations for motion of vector, (T), 25:25359 (IFVE-SVM-70-31)
mesons in, gauge-invariant Lagrangian for massive vector, (T), 25:59555
metric for, solution of Kerr, (T), 25:1593
molecular multipole interactions with, canonical formulation of noncovariant quantum electrodynamics for, (T), 25:9842
molecule tensor properties in intense static, (T), 21:9299
momentum vector and spin tensor of extended bodies in arbitrary, 24:15676
neutrino interactions at high energies with, production of μ^+ + μ^- and e^- + e^+ pairs from, (T), 23:15056
Noether theorem for local, review of second, 24:24421
Noether theorems for, derivation of, (T), 25:17548
pair annihilation without photon emission in, Dirac equation for probability of, 24:3730
pair production in constant external, Dirac equation solutions for, 24:3730
particle in external, quantum Markovian process for single spinless nonrelativistic, 23:42728
particle interactions in external, review of relativistic theory for definite-mass and -spin, 24:1543
particle interactions in, (T), 21:23320
particle interactions with gravitational and, bound-state solutions for spin-1/2, 24:6763
particle interactions with, 2[2j + 1]-component formalism for relativistic equation for, 23:16953
particle interactions with, consistency of wave equations in De Sitter space for spin-1, 24:37924
particle motion in external, general Schroedinger equation for single arbitrary-spin nonrelativistic, 23: 42727
particle motion in external, Pauli equation for single spin-1/2 nonrelativistic, 23:42727
particle motion in, geodesics of affine connection in general relativity theory for, (T), 25:53345
particle motion in, spinning, (T), 25:14599
particle nonrelativistic wave equation invariance in, spin-0 and -1/2, (T), 25:30775 (JINR-P2-5522)
particle radiative polarization in, spin behavior for kinetics of, 24:35697
particle trajectories in hyperbolic, (T), 21:9334
particles in external, equation of motion of spin-one, 23: 25569
particles in, invariance of nonrelativistic Hamiltonian—Jacobi equation for, (T), 25:3430 (JINR-P2-5373)
particles with variable mass in external, equivalence principle for mass for, (T), 24:49596
penetration into magnetized plasma, (T), 23:12797
penetration into plasma slab in magnetic field of low-frequency, (T), 24:35504
penetration of concentrated pulsed, into metals in eddy current testing, 25:6490
photon beam interactions in static external, induced splitting in, (T), 21:21299

photon elastic interactions in uniform, probability for, 21:15291
photon Green function in general external homogeneous, (T), 25:33628
photon interactions $\gamma + \gamma$ in uniform, Schwinger formulation for coalescence in, 21:27423
photon interactions in homogeneous magnetic field, electron pair production from, (T), 25:53083
photon interactions in intense, electron pair production from, 21:33642
photon interactions with static, graviton production from, (T), 25:12272
photon mass in intense, enhancement of, (T), 24:10719
photon propagation and splitting in external, nonlinear Lagrangian for, 25:7718
photon propagation in external, vacuum refraction index for, (T), 21:13738
physical characteristics of, 25:13581
plasma acceleration and confinement in rf, review, (E/T), 21:44022
plasma confinement by nonuniform, (E/T), 21:23534(R) (ANL-7246)
plasma confinement in hf multipole, properties of, 21: 29199
plasma density distributions in strong stationary, 21: 23191
plasma electron distribution function in arbitrary time-dependent, (T), 25:9470
plasma interactions with, radiation pressure from time-averaged stress tensor for magnetoactive, 23:16772
plasma ion heating by external stochastic, (E), 23:18595
plasma jet confinement in strong microwave, 21:23156
plasma kinetic equation in external, ring approximation, (T), 23:1409 (INR-P-926)
plasma motion in hf, nonlinear theory of, 25:59037
plasma motion in random, averaged equation of, 21: 13596
plasma motion in, (T), 22:20012
plasma penetration in hf, in case of Ohm's law, (T), 24: 28354
plasma stability in strong uhf, 21:31472
polarization in general relativity, 23:51998
pondermotive forces of, effects on stability of cavity resonator walls, 21:21357
positron spectrum in, quasi-energetic, (T), 24:21905
potential of, Lorentz transformation of, 21:9677
potential of, physical significance of vector, (T), 25: 38773
potentials for accelerated nonradiating charge distributions, 22:26538
potentials in, spectral representations with Schwinger terms for, 23:16988
potentials of electric and magnetic dipoles moving in, special relativity for equation for, 24:35629
production by charged particle beams oscillating transversally between electrodes in storage rings, 22: 11814
production by surface nuclear explosions, development and testing of LEMP 1 computer program for calculation of, 24:33812 (LA-4346)
production by traveling charge in accelerator, space charge effects on beams due to, 23:3869
production during gravitational collapse, (T), 24:48980
production for plasma research, multi-tube generating bank for, 25:49923 (NP-18943)
production in normal and superconducting metals from time-dependent gravitational fields, (T), 24:49604
production of isolated pulses of, technique for, 22:19186 (EGG-1183-428)
propagation and quantization of Rarita—Schwinger waves in external, 24:13142
propagation in atmosphere, optical data-processing system for detection of nuclear explosions from, 23: 43421
propagation in gravitational field, 25:47965 (AD-718145)
propagation into thermal medium, Fokker—Planck equation for, (T), 24:30423
propagation of null, (T), 22:52908
propagation through slots in missile skin, excitation of internal circuitry by, 25:18308 (SC-R-70-4339)
propagation through transparent, moving medium in general space—time, 21:7411
propagation vector of null, divergence of, (T), 21:33575
properties in cold anisotropic plasma with two-dimensional inhomogeneity, (T), 25:30533
properties of Einstein—Maxwell, 23:42743
properties of generalized coherent states of, 22:50454
properties of, Clifford algebras for, 21:40136
properties of, produced by charged-particle motion in homogeneous media, angular-spectrum representation of, 25:9613
properties of, semiclassical and quantum descriptions of coherent, 22:34899
protection of electric and electronic equipment from, generated by nuclear explosions, 23:2464 (UCRL-71024(Rev.1))
protection of personnel in, methods for, 24:27595
proton interactions with, model for rho° production from, 22:22369 (NYO-1932(2)-130)
pulse propagation over plane surfaces, 25:36367
pulse transmission with impedance-loaded cylindrical, transient, 23:17824 (SC-CR-68-3547)
pulsing of 5-kG, at 1200 Hz, circuit for, 22:21378 (ORNL-4219, pp 18-28)
quantization in axiomatic field theory, 22:3518
quantization in magnetoactive media, (T), 21:42207
quantization of interacting, 25:3440
quantization of, covariant method of, 21:4112
quantization with only physical photons in, covariant theory of, 24:40465
quantization without charges for, electrodynamics constraints for, 24:28593
quantum correlation effect for, (T), 25:50174
quantum field theory for coherent states of, 22:5637
quantum forces of, cutoff-independent character of zero-point, 24:8594
quantum mechanical correlation functions for, 22:34816
quantum theory for, gyrotropic effects on, 23:39796
quantum theory of parametric amplification of, 21:42445
quantum theory of, characteristic states of creation and annihilation operators in, 21:9841
quantum theory of, parametric amplification of, 21: 42444
radiating systems of particles, formula for, 21:33563
radiation from electron circular motion in, classical, (T), 21:44214
radiation from, in unbounded compressible magnetoplasma, (T), 21:765 (AD-636581)
radiation scattering in linearized Einstein—Maxwell, (T), 25:59606
Rainich equations for nonstatic, in general relativity, 23: 12506
reactions with oriented atoms, (T), 22:45966
reflection and transmission, Cherenkov radiation from, 21:18872
relation of Einstein's equations to, 21:33577
relativity theory for charged dust stationary distribution in, general, 22:26716
relativity theory for null, general, 24:15674
response of buried two-wire transmission line to, generated in free space, 21:32062 (SC-DC-67-1782)
scalar—tensor theories for, Dicke assumptions in, 22: 46518
shielding of pulsed, by ferromagnetic materials, (E/T), 25:22577
solution of equations for class-one, (T), 21:5339(R) (NASA-CR-54718)
solution of field equations for rotating universes with dust and, 21:7422
solutions of Einstein—Maxwell equations for, in cosmological models, (T), 22:7076
source function relating gravitational field to, vector, 23: 44701 (AD-686058)
sources of, artificial and natural, 25:13581
space—time in plane symmetric class-one null, Petrov classification for general nonstatic axially symmetric, (T), 25:53275
space—time of class one in, spherically symmetric, 22: 41865
space-time for gravitational and, continuous geometry of relativistic theory for, 24:13176
spectral representations in renormalized vector theories, 23:15193 (ITF-68-39)
stability of geons toward gravitational collapse, 21:7403
stress—energy tensor in Bianchi cosmologies, 24:23720
structure of, behind screen with random fluctuations, (T), 22:24123
superconductor behavior in alternating, nonlinear effects, (T), 23:44365
symmetry groups for uniform, relativistic, (T), 25:3432
theory for already unified gravitational and, weak-field approximation for, 24:43009
theory for already unified, simplified intrinsic proof of Rainich differential relation for, 25:53278
theory for duality rotation relation between neutrino fields and, (T), 25:45790 (JINR-P2-5798)
theory for noninterfering electric and magnetic components of, 23:36807
theory for system of gravitational field, massless scalar field and, solutions in, (T), 25:59587
theory for tensor, equality of exterior product of universal vectors in, 21:46437
theory for test, optical scalars for approximation in, 22: 35178
theory for, conservation laws in, 21:9749
theory for, potential representation with rapidity vectors for fluid description in, (T), 25:22874
theory for, projective solution of integral equations for, 25:59214
theory for, Rainich problem in, 21:7393
theory of alternating, WKB approximation for, 22:29175 (ITEF-517)
theory of nonnull, in certain Riemannian fourfolds, 23: 34637
theory of nonstatic, in general relativity, 21:15249
theory of unified nonlinear, 24:45573
theory of unified, spherically symmetric solution in, 24: 37901
theory of, due to point source in ionosphere, 21:683 (AD-635212)
theory of, Hamiltonian field equations in relativity, 21: 9681
theory of, historical development of, 22:13621
theory of, Rainich unified, 24:52203
thermodynamics in continuous matter, 24:6670
transformation from one inertial frame to another from Coulomb's law and relativity theory, 21:27272
transport through wire screens, 24:31196 (SC-CR-69-3309)
use for charged-particle beam focusing, 21:15445
use in nondestructive testing, 21:36301 (Y-DA-1790)
use of axially symmetric, for focusing quasineutral ion beams, 21:35025
use of uhf and hf, to heat plasma electrons and ions, 22: 44076 (NP-17567)
use of, associated with electron beam of linear accelerator to determine beam parameters, 22:3553 (CEA-R-3126)
wave equation in finite domain, distribution of eigenfrequencies for, (T), 25:38772
wave functions for, reduction in free space of, 25:59347
wave functions for, reduction to irreducible representations of inhomogeneous Lorentz group, 24: 26468
wave propagation in stationary crossed, 22:48404
wave propagation of arbitrary-spin massive particles in, second-order equations for, 21:18854
Weierstrass characteristics for Einstein—Maxwell, admissible, 23:42742
Electromagnetic Flowmeters
see Flowmeters

ELECTROMAGNETIC LENSES

aberration coefficients of quadrupole, spherical, 21: 22219
aberration of axially symmetrical, correction of, 21: 15451
aberration of quadrupole doublet, calculation of, 22: 11748 (IFVE-OP-67-22-k)
aberration of quadrupole doublet, calculation of spherical, 21:4165
aberration of quadrupole, use of octupoles for compensation of spherical, 22:48400
aberration of short quadrupole, equations for spherical, 23:52099
aberration of stigmatic quadrupole doublet, spherical, 22: 48401
aberration of superconducting, with holmium poles, calculations for, 23:21204
aberrations and nonlinearities of, 25:17659
aberrations in plane retarding, effects on ion trajectories, 25:44522 (BMBW-FBK-70-28, pp 337-44)
aberrations in quadrupole, computer program for calculation of third-order, 24:15704 (CEA-N-1110)
aberrations of asymmetrized quadrupole, 25:56604
aberrations of ionic microanalyzers for filtering broad images, second order, 25:38822
aberrations of quadrupole, minimum aperature, (T), 23: 44794
aberrations of quadrupole, third-order, 24:38025
alignment of achromatic, for focusing charged-particle beams, 25:22928
alignment of quadrupole using magneto-optical effect, 24:18328
alignment of, method utilizing Cotton—Mouton effect for, 22:1557(P)
alignment tolerances for quadrupole, 22:5695
angular acceptance of quadrupolar multiplet, 22:5094
aperture aberrations in quadrupole, calculations for minimum, 24:26556
aperture aberrations of stigmatic quadrupole, correction of geometric, 22:35186
aperture of quadrupole, floating wire method for determining, 24:35754
atomic beam focusing in hexapole, effects of spherical aberration on, 24:37180
axis of, instrumentation for locating, 22:49161
beam focusing by quadrupole doublet, calculations for, 23:39872
beam matching calculations for singlet, doublet, and triplet, (T), 22:32512(R) (AECL-3108)
beam matching with quadrupole, 23:30885
beam matching with quadrupole, numerical studies on, (T), 22:46729(R) (AECL-3157)
beam matching with symmetric triplet quadrupole, 22: 20497(R) (AECL-3009)
beam optics in, analog system for displaying, 21:19124
beam optics in, analysis of, 22:20362 (BNL-12138)
book: Charged Particle Focusing by Quadrupole Lenses, 23:8887
book: Focusing and Mass Separation of High-Energy Particles, 24:22046
book: The Optics of Dipole Magnets, 23:21210
book: Transport of Charged Particle Beams, 21:25382
calculations for transport of ion beams with no change of properties, 24:1695 (TRI-68-9)
charged-particle beam aberration and drift by marginal fields with transverse variants in magnetic prisms, 22: 46653
charged-particle beam asymmetry in, calculation of, 22: 26748
charged-particle beam focusing in, (T), 21:41804
charged-particle beam motion in, effects of aberration on high-current, 25:20160
charged-particle beam optics in thin, with space charge, 25:9916 (UCRL-19313)
charged-particle beam optics in, graphical calculation of waist-to-waist transfer in, 24:30622
charged-particle beam properties in quadrupole, aberration effects on, 25:17605 (CEA-N-1286)
charged-particle beam transport in, transfer matrix calculation of spin aberrations in polarized, 25:5454 (LA-4465, pp 18.1-16)
charged-particle beam transport in, transformation matrix for beam ellipse matching in waist-to-waist, 25:3521
charged-particle deflection in magnetic prism, quantum description of, 23:1732
charged-particle focusing by, (T), 22:44256
charged-particle focusing errors in, shims for correction of, 23:33564
charged-particle focusing in quadrupole, 24:18324
charged-particle focusing in quadrupole and quadrupole doublet, 24:22030 (LFEN-NL-41-a)
charged-particle focusing in quadrupole and solenoid, proof of impossibility of achromatic, 25:33939
charged-particle focusing in quadrupole spiral, with longitudinal magnetic field, 24:5366
charged-particle focusing in three-sector magnetic prisms with 1/r fields, image parameters for, 25:20217
charged-particle focusing in, book on, 21:35036
charged-particle focusing in, with 1/r field, calculations for, 23:52086
charged-particle focusing in, with 1/r field, calculations for, 23:52084
charged-particle focusing properties of helical quadrupole, 25:36624
charged-particle motion in achromatic, equations for, 24: 1692 (SJC-A-69-1)
charged-particle motion in deflecting, removal of nonlinear effects in, 21:11893
charged-particle motion in quadrupole, first-order end effects in, 24:10877
charged-particle motion in symmetry plane of, calculations for bunched, 24:1717
charged-particle motion in two-potential, with distorted focusing layer, 25:3490
charged-particle motion in, matrix method for calculation of, 24:26563

charged-particle motion through periodic, containing lumped nonlinear elements, long term stability of, 22: 32371 (UCRL-17795(Add.))
charged-particle optics in quadruplet quadrupole, theory of inversion for, 22:32418
charged-particle optics in turn-over quadruplet quadrupole, calculation of angular acceptance for, 22: 29781 (CERN-68-6)
charged-particle optics in, calculation of quadrupolar multiplet acceptance for, 22:26755
charged-particle Stern—Gerlach experiment in orthogonal helical quadrupole, 25:40353
charged-particle trajectories in misaligned, analysis of first-order effects in, 25:3495
charged-particle trajectories in shielded, (E/T), 24:43092
charged-particle trajectories in strong-focusing helical quadrupole, 24:38011
charged-particle transport through, calculation of, 21: 23382
charged-particle transport through, computer program for calculations in, 23:49277
charged-particle-beam phase acceptance of quadrupole multiplet, invariance properties of bilinear and quadratic forms for, 25:1689
chromatic aberrations in, 21:29773
chromatic aberrations of inversion quadruplet, 22:44548
circuit for magnetic lens in electron microscope, adjustment of superconducting exciter, (E), 22:30753
description of charged-particle deflecting, controlled by pulsed current, 22:24783(P)
description of cross-field, for use as 5-MeV Van de Graaff accelerator beam analyzer, 22:22488 (ORNL-4219, pp 110-13)
description of system of quadrupole, for focusing 3-MeV proton beam, 24:22022 (AERE-R-6300)
description of variable field distribution, for beta spectrometers, 22:16896
design and construction of quadrupole, for beam handling in Van de Graaff accelerators, 21:15440 (CONF-660221-, pp 326-9)
design and fabrication of high-gradient quadrupole, for drift tubes of Berkeley heavy-ion linear accelerator, 23:19031 (BNL-50120(Pt.1), pp 52-9)
design and fabrication of superconducting quadrupole, 22:11773
design and performance for electron beam collimation, 22:10583
design and performance of 10-cm superconducting quadrupole, 24:45659
design and performance of three-dimensional rotationally-symmetric quadrupole, for mass spectroscopy by ion storage, 22:30912
design and performance of, for variable-energy beams, 23:3886
design and pole winding of superconducting quadrupole, 23:42786 (BNL-50155(Pt.3), pp 709-966)
design and uses of quadrupole and quadrupole—octupole, review on, 24:38007
design for charged-particle beam transport, TRANSPORT/360 program for, 24:43084 (SLAC-91)
design for expanding irradiation field of betatron beam, 23:49250(P)
design for focusing and separating polarized hydrogen atoms, 21:3644
design for increasing intensity of secondary particles from targets, 24:38024
design for ion beam focusing, 21:2568(P)
design of 12-cm bore superconducting dc quadrupole, 25:28111 (KFK-1218)
design of 2-n pole, for focusing charged particles, 23: 39875(P)
design of axially symmetric, for electron beam focusing, 21:43780
design of beam transport systems, 24:37999 (SLAC-PUB-762)
design of circular quadrupole, for beam transport, 25: 43757
design of correcting, for 300-GeV proton synchrotron, 22:1521 (CERN-563(Vol.1))
design of demountable multipole, 25:9928(P)
design of high-gradient drift-tube quadrupole, for linear accelerators, 21:9874 (UCRL-17156)
design of large quadrupole, with precise fields for 8- and 20-GeV/c SLAC spectrometers, 22:11784
design of magnetic horn for focusing meson beams, 24: 43077 (IFVE-SEF-69-73)
design of multipole permanent magnet lenses for focusing charged particle beams, 25:36619(P)
design of multipole permanent magnet, for focusing charged-particle beams, 23:8896(P)
design of multipole, with sequentially shim stepped coils for focusing charged particles, 23:10891(P)
design of one-turn quadrupole, 23:17032
design of pulsed quadrupole helicoidal, for focusing charged particles, 22:15897
design of quadrupole, 21:40473(R) (PR-P-74)
design of quadrupole, as low-resolution spectrometers and magnetic rigidity band-pass filters, 25:57901
design of quadrupole, current distribution for production of magnetic fields with given symmetry in two-dimensional problem for, 22:29792
design of quadrupole, for drift tubes of 200 MeV injector of AGS, 21:38045
design of quadrupole, for transporting pion beams in intense radiation fields, 25:25566(T) (LA-tr-71-1)
design of quadrupole, with septum wall, for secondary particles from targets, 22:35180(P)
design of quadrupole, with transfer matrix of unity, (T), 21:1006
design of Rabi-type, for focusing molecular beams, 22: 970
design of superconducting quadrupole, with correcting dipoles, 23:42786 (BNL-50155(Pt.3), pp 709-966)
design of superconducting shielded, 25:43748
design of ultra-narrow, high-quality, high-field quadrupole, 25:31051 (UCRL-20164)
design of, review of use of computer for optimization of, 22:40495
design of, uniqueness principle in field theory for, 23: 31090
design optimization for charged-particle beam focusing, algorithm for, 24:49665
design parameters of quadrupole, 22:44563
design, theory, and measurement of narrow quadrupole, 21:38044
development for focusing positron beams, 21:7591 (SAL-5)
development of ion beam brightness-conserving, 21: 15438 (CEA-R-3068)
development of iron-free quadrupole, 22:24753
development of magnetic horns, reflectors, and plasma lenses for generating high-intensity neutrino beams, 23:15306
development of niobium—titanium superconducting quadrupole, for beam focusing, 24:45660
development of plasma lenses, 25:25554 (IAE-1974)
development of superconducting, 21:29672 (SLAC-PUB-274)
development of superconducting quadrupole, using current sheets of Nb_3Sn, 21:7609
development of superconducting quadrupole, using niobium—tin alloys, 21:17206 (CONF-660918-, pp 262-3)
development of superconducting, for microscopy, 21: 3356
development of three-dimensional rotationally-symmetric quadrupole, for ion storage, 22:30909
development using superconducting magnets, 21:12710 (N-66-39339)
development with transaxial alternating magnetic field, 21:7615
displacement of neutron beam axis from magnetic axis of hexapole, due to gravity, 25:25560 (JINR-P3-5537)
effect of sextupole, on frequency shift of betatron oscillations in Brookhaven AGS, 23:15296 (BNL-13315)
effects of quadrupole, on momentum compaction changes in synchrotrons, 23:15295 (BNL-13314)
effects on polarization of charged particles, 22:7591
electron beam motion in bending and quadrupole, equations for, 23:44772
electron motion in, impossibility of diverging, 24:15753
electron-optical parameters of, calculation of, 25:36643
electron-optical properties of hollow, cylindrical, superconducting, 21:45485
electron-optical properties of two-potential two-dimensional, 25:3491
fabrication and testing of superconducting quadrupole, 23:42786 (BNL-50155(Pt.3), pp 709-966)
field axis of asymmetric-fed quadrupole, method for determining shift of, 22:13881
field calculations and measurements for asymmetric, 24: 38008
field calculations for achromatic multipole, with helical symmetry, 23:15327
field characteristics of, step-function approximations to cos ntheta for describing, 21:29647 (BNL-11337)
field equations for simple-coil multipole, 24:13242
field gradients of quadrupole, approximate method for calculating, 21:23380
field measurements in beam transport, system for, 24: 29596 (SLAC-PUB-750)
focal lengths and plane positions of quadrupole doublet and triplet, 23:8863 (AECL-3160)
focusing properties of asymmetrized quadrupole, third-order theory treatment of, 24:3816
focusing properties of double quadrupole, (E/T), 22: 50498
focusing properties of hexapolar, for atomic hydrogen beams, phase space calculations of, 23:18423
focusing properties of pair of quadrupole, 22:22484 (INP-579/PL)
focusing properties of quadrupole, 24:22048
focusing properties of quadrupole doublet, nomogram for first-order calculation of, (T), 25:50207
focusing properties of quadrupole doublet, used in accelerators, 22:11776
focusing properties of quadrupole, computer program for calculating, (T), 22:11944(R) (AECL-2780)
focusing properties of, using periodic permanent magnets, 21:1433
form factors for quadrupole, spinning coil method for measurement of, 24:35758
fringing field measurements of, 25:25602
Gaussian dioptrics of limited nonround, 21:11892
geometric aberrations of systems of quadrupole, possessing equivalent linear properties, 22:32357 (CEAL-2000, pp A168-71)
geometry of long iron-free superconducting quadrupole, optimization of, 24:38009
harmonic components of fields of quadrupole, measurement of, 25:20164
image production in quadrupole, stigmatic, 21:21327
ion beam acceptance of asymmetrized quadrupole singlet, calculation of, 25:20223
ion—optical properties of quadrupole, 22:13886
ion-optical properties of three-sector focusing prism with r^{-1} field, 24:47547
length of asymmetrized quadrupole, calculation and measurement of effective, 24:13238
magnetic center of multipole, procedure for locating, 21: 7598
magnetic center of quadrupole, method for locating, 23: 49246 (TRI-69-2)
magnetic field measurements in, computer-based system for automatic, 25:33891 (KFK-1220)
magnetic field measuring system for drift tube quadrupole, search coil, 25:31047 (SJC-A-71-1)
magnetic field shielding for charged particle focusing, 23:44790(P)
magnetic fields in quadrupole, phase-space representation of aberrations due to longitudinal, 21:11843 (LA-3609, pp 245-9)
magnetic fields in, alternating-direction-implicit method for calculation of, 21:37967 (UUIP-536)
magnetic shields for superconducting bending and quadrupole, 22:41907 (UCRL-18318)
magnetic structures in, equivalent four-terminal network for, 25:47997
magnetic-field distribution in superconducting, with dysprosium poles, (E/T), 22:17563
manufacture of quadrupole, field harmonic analysis and requirements for accuracy of, 21:29808
matching calculations for beams focused by antisymmetric and symmetric, 23:25719 (AECL-3193)
operation of beam focusing, use of analog computers for simulation of, 22:11801
optical axis and correction profiles for mass spectrometer, experimental methods for determining, 22:6700
optical characteristics of pair of quadrupole, 23:39870 (UJV-2177-A)
optical parameters of antisymmetrical doublet and symmetrical triplet quadrupole, for electrons at 1 to 10 MeV, nomograms for, 25:36630
optical properties of longitudinal periodic-field magnetic lenses for hyperfine state selection of hydrogen beams, 23:17848
optical properties of superconducting, for electron microscopy, 22:5284
optical properties of, with periodic longitudinal field, (T), 22:43896
optics equations for weak, electron, 24:1713
optimization of objective, for high-resolution electron microscopes, 22:35293(R) (ORNL-4230)
performance of dc superconducting quadrupole, 25: 31040 (KFK-1316)
performance of periodic, with additional electric fields, 21:20743
performance of quadrupole, electrode and pole configuration effects on, 21:39802
performance of quadrupole, for beam focusing in low-energy proton linear accelerators, space charge effects on, 21:38070
performance of sextupole, with direct nonlinearity for slow beam extraction from synchrotron, 25:9913 (NP-18594)
perturbation effects in iron-dominated two-dimensional symmetrical multipole, tables and graphs of first order, 23:52056 (UCRL-18916)
phase acceptance of alternating—gradient doublet quadrupole, with different apertures, 25:38811 (CERN-71-11)
phase acceptance of quadrupolar triplet, in divergent—convergent—divergent plane, 24:49643
phase acceptance of quadrupole doublet, analytics of, 22:46565 (CERN-68-28)
phase acceptance of triplet quadrupole, in terms of transfer matrix elements, 24:45622 (CERN-70-22)
phase shifts using quadrupole multiplets, theory for π and 2π, 21:5428 (BNL-10813)
phase space acceptance of helical quadrupole, 24:20274 (TRI-69-10)
phase space acceptance of quadrupole doublet, calculations for, 23:19045 (BNL-50120(Pt.1), pp 353-6)
pole shapes for quadrupole, Schwarz—Christoffel method of conformal mapping for calculating, 23:37031 (AECL-3253)
potential distribution of asymmetrized quadrupole, third-order theory treatment of, 24:3816
power supplies for deflection and focusing, for accelerators, 21:17226
properties of compensated dispersion system for focusing high-energy beams, 25:22929
properties of magnetic prisms for focusing charged-particle beams with wide angular divergence, 22:50495
properties of quadrupole, for beam extraction from U-120 cyclotron, 21:44477 (UJV-1850)
properties of superconducting, with holmium poles, 23: 21204
proton motion in strong-focusing quadrupole, 22: 1538(T) (CERN-Trans-67-4)
quantum treatment of ideal round, 23:17041
sensitivity of quadrupole, 22:15906
superconducting, with rare earth pole pieces, (T), 21: 31381
theory for nonexistence of double focus plasma, 24: 38051
theory of quadruplet quadrupole, 22:32358 (CEAL-2000, pp A172-4)
theory of reversal quadrupole, 22:3555 (CERN-67-22)
theory of symmetric quadrupole triplet, 23:30848 (CERN-69-2)
theory of symmetrical quadrupole triplet with alternating gradients, 22:5095
use for compensation of effect of intersectional gaps of proton linear accelerators, 21:29681(T) (AD-645794, pp 47-57)
use in focusing charged particles, book on, 21:46637
use in plasma diagnostics, 21:20937
use of alternating-gradient doublet and triplet, for achieving phase-space transformations, 21:29654 (CERN-67-8)
use of Glaser, for axisymmetric focusing of electron beams, 23:27998
use of hexapole, for hydrogen atomic beam focusing, 21: 43779
use of multipolar, for plasma transport, 22:9370
use of quadrupole and sextupole, for SLAC storage ring, 22:11829
use of quadrupole doublet, in electron microscopes, 22: 399
use of quadrupole, as reaction product spectrometer, 23: 10936(R) (COO-535-591)
use of quadrupole, for phase-space transformations, 21: 25359 (CERN-67-6)
use of quadrupole, in ISR storage ring, 22:11830
waist-to-waist transfer properties of quadrupole doublet and triplet, method for determining, 23:21216

winding configurations of ironless beam transport, analytical methods for, 22:11773
ELECTROMAGNETIC PUMPS
calculations with finite-width MHD channels for, higher harmonics of, 24:17726
cavitation and performance of helical induction, operating with potassium to 1300°F, (E), 22:8256 (ORNL-TM-1793)
design and operation of, for inducing rotary flow in liquid sodium, 25:51678
design and performance of dc, for liquid metals, 22:14616
design and performance of, improvements in, 25:32103(P)
design for electrically conducting fluid media, 22:42955(P)
design for Rankine power cycle, review on, 24:14639 (BNL-50215)
design for space power systems, review of, 25:2600 (BNL-50258)
design of automatic superconducting, 23:9622(P)
design of light weight, compact, reliable, for liquid metals, 21:17767(P)
design of, incorporating isolated tubes containing circulating sodium, 25:37526(P)
design optimization of flat linear induction, without short-circuit busbars, 23:47677
development and performance of, in sodium test loop, 23:45438 (ANL-7520(Pt.1), pp 506-14)
development and testing of flat linear induction, for liquid steel, 25:23731
development for liquid metals in Rankine cycle power plants, 24:25199 (NASA-SP-5057, pp 35-89)
development for liquid sodium cooled fast reactors, 25:23279
development for SNAP, 21:27785(R) (NAA-SR-12316)
development in U.K. for liquid metal cooled fast reactors, 24:52756
development of liquid-metal, for large space power systems, 22:14734
development of, for potassium vapor Rankine system, 21:4659 (NASA-SP-131, pp 201-38)
operation in liquid metal loops, review of, 23:50022(T) (JPRS-48330, pp 591-610)
operation in sodium loops, 22:12971
operation of alternating current SNAP-8, 21:44922 (N-67-22888)
performance data for annular linear induction (ALIP), 22:32735 (ANL-7310, pp 249-375)
performance of helical induction, with potassium to 1500°F to simulate lithium at 2200°F, cavitation and hydraulic, 25:4186 (ORNL-TM-2995)
performance of, effects of pump duct width on, 23:1020 (IS-1900, Paper 1)
performance requirements of liquid sodium, for reactors, comparison with mechanical pumps, 25:41958(T) (CONF-700307-8)
standard for liquid metal service, 25:41967 (RDT-E-3-9-T)
testing of helical induction, for use with space power systems, 21:38648
ELECTROMAGNETIC SEPARATION
see also Beam Separators
see also Calutrons
see also Mass Spectrography
see also Mass Spectrometers
chemical separation on-line in facilities for, use of recoil reactions for, 25:44404 (BMBW-FBK-70-28, pp 168-74)
conference on, Marburg, West Germany, Sept. 7 to 10, 1970, 25:44501 (BMBW-FBK-70-28)
contamination control in isotopic, review of methods for, 25:41992 (ORNL-4640)
description of Groningen isotope separator, 22:44212 (NP-17564)
design of mass meter for, 21:12589
development of operating procedures for, of cerium isotopes, 21:30633 (ORNL-4127)
development of operating procedures for, of lead isotopes, 21:30632 (ORNL-4107)
efficiency for collection of cobalt, copper, iron, nickel, tin, and zinc ions at 10 eV to 111 keV, 24:386
efficiency for isotopes, 22:37935 (CEA-R-3444)
efficiency of isotope, effects of charge-exchange-induced aberrations on, 25:44527 (BMBW-FBK-70-28, pp 394-7)
electrostatic lenses used in retardation devices for isotope, optical properties of, 22:25703
enrichment factor in isotope, use of ratio of dispersion to magnification for determining, 21:8537
equipment and methods for isotopic, review of, 22:28214
equipment for extraction of ions from plasma sources, optimization for beam production, 25:44520 (BMBW-FBK-70-28, pp 303-30)
equipment for isotope, beam handling system for ISOLDE, 25:44533 (BMBW-FBK-70-28, pp 473-80)
equipment for isotope, collector system for, 25:56584 (JINR-P6-5888)
equipment for isotope, description of 180° ORSIS, 25:57650 (CONF-711002-, pp 10-20)
equipment for isotope, description of HARWELL, 24:22021 (AERE-R-6254)
equipment for isotope, description of on-line, 25:44502 (BMBW-FBK-70-28, pp 14-43)
equipment for isotope, design and performance of Grenoble system for, 25:44526 (BMBW-FBK-70-28, pp 381-93)
equipment for isotope, design and performance of multifield sector-type, 25:44519 (BMBW-FBK-70-28, pp 282-302)
equipment for isotope, design of beam deflector and retardation collection system for, 25:44535 (BMBW-FBK-70-28, pp 525-32)
equipment for isotope, design of heavy-ion accelerators for, 25:44536 (BMBW-FBK-70-28, pp 534-61)
equipment for isotope, design of on-line TRISTAN, 25:44508 (BMBW-FBK-70-28, pp 78-86)
equipment for isotope, design of PINGIS, 25:44503 (BMBW-FBK-70-28, pp 44-8)
equipment for isotope, design of Princeton-Pennsylvania accelerator facility, 25:44504 (BMBW-FBK-70-28, pp 49-56)
equipment for isotope, design of Sidonie, 24:39156
equipment for isotope, development of two-stage, 25:41992 (ORNL-4640)
equipment for isotope, development on-line OSIRIS, 25:44505 (BMBW-FBK-70-28, pp 57-8)
equipment for isotope, for light elements, development of on-line, 25:44506 (BMBW-FBK-70-28, pp 59-67)
equipment for isotope, for proton-irradiated targets, design of semi-on-line, 25:44511 (BMBW-FBK-70-28, pp 104-7)
equipment for isotope, HILAC experimental facility, 24:13245
equipment for isotope, ion stigmatic focusing effects in variable geometry magnetic, 25:44525 (BMBW-FBK-70-28, pp 373-80)
equipment for isotope, performance of Sidonie, 24:39155
equipment for rare earth isotope, operation and performance of SIDONIE-type, 25:44516 (BMBW-FBK-70-28, pp 203-8)
equipment for short-lived iodine isotopes, design of Buenos Aires on-line ISOL, 25:44512 (BMBW-FBK-70-28, pp 108-17)
equipment for short-lived isotope, performance of on-line SOLIS, 25:44509 (BMBW-FBK-70-28, pp 87-98)
equipment for transplutonium elements, operational experience with SIDONIE, 25:44517 (BMBW-FBK-70-28, pp 209-12)
equipment for, description of laboratory-type, 25:57649 (CONF-711002-, pp 1-9)
equipment for, design and operation of Oak Ridge Sector Isotope Separator, 22:37938 (ORNL-4271)
equipment for, design and performance of, 24:19178
equipment for, design of vacuum, 24:14183
equipment for, of isotopes with light, medium, and heavy mass numbers, 21:14387 (CONF-660221-, pp 316-20)
equipment performance optimization for isotopic, 21:26073
field geometry optimization in isotope, for elimination of third order aberrations, 25:44524 (BMBW-FBK-70-28, pp 366-72)
ion beam production by, monoisotopic, 21:30636 (SGAE-PH-51/1967)
ion beams for isotope, electrode geometry for diverging, 25:44521 (BMBW-FBK-70-28, pp 331-6)
ion implantation target stage for, design of, 24:25207 (AERE-R-6330)
ion optics system for, design of, 25:54920
ion source development for, 21:8326 (JINR-P13-3019)
ion source for isotope, high-efficiency operation of, 21:19861
ion source for on-line, magnetron-type, 22:47399 (JINR-P13-3953)
ion source for, description of gas-discharging, 23:529 (JINR-P13-4061)
ion source for, high-temperature, 23:527 (CEA-R-3456)
ion source for, of isotopes at high temperatures, 24:2392 (CEA-CONF-1303)
ion sources for ISOLDE, design and optimization of, 25:13162 (JINR-P13-5369)
ion sources for isotope, design for Yasnapp-1 system, 25:44530 (BMBW-FBK-70-28, pp 440-6)
ion sources for isotope, design of cathode sputtering, 25:44529 (BMBW-FBK-70-28, pp 433-9)
ion sources for isotope, design of hollow-cathode, 25:44528 (BMBW-FBK-70-28, pp 423-32)
ion sources for isotope, efficiency of surface ionizing barium, 25:44531 (BMBW-FBK-70-28, pp 461-6)
ion sources for, design and operation of Plasmatron-type, 25:15844 (SGAE-PH-101/1970)
ion sources for, design of high intensity, 24:2391 (AERE-R-6138)
isotope collector for, remote controlled electrode positioning device for, 24:50516 (CEA-N-1323)
isotope contamination in two-stage Grenoble facility for, effects of ion scattering on, 24:46427 (CEA-CONF-1571)
isotopic contamination in two-stage Grenoble facility for, effects of ion scattering on, 24:46429 (CEA-R-4043)
magnetic focusing for isotope, method for calculating, 25:44523 (BMBW-FBK-70-28, pp 345-65)
method for highly enriched noble gas isotopes, in multimilligram quantities, 21:12588
method for on-line, of short-lived radioisotopes in far-off stability regions, 25:15848
research progress on, 22:37938 (ORNL-4271)
separators for isotope, performance of ORNL 180° sector and 540° helical, 25:44518 (BMBW-FBK-70-28, pp 213-23)
two-dimensional focusing in, use of homogeneous sector field for, 21:19846 (IA-1107)
use of devices employing, for ion implantation studies, 23:39545

buildup by induced Compton effect in strong radio sources, (T), 23:41820
characteristics of ionospheric broad-band frequency, (E/T), 25:43246
charged particle interactions with intense, quantum mechanical and classical treatments for, 22:46372
charged particle orbits driven by, (T), 21:44208 (BNWL-452)
charged-particle acceleration in moving traps produced by, 21:25375
charged-particle beam interactions with, near vacuum boundaries, 24:28458
charged-particle forward elastic scattering by plane, exact value of S-matrix for, 22:24583 (JINR-P2-3753)
charged-particle interactions with standing, near cyclotron resonance, 21:44479
charged-particle motion and radiation in strong, (T), 25:30116
charged-particle motion in field of plane, stochastic instability and conditions of applicability of quasilinear approximation for, 22:37120

charged-particle motion in fields of planar, radiation from relativistic, 22:5688
charged-particle motion in plane, radiating, (T), 23:32677
charged-particle motion induced by low-frequency, in constant magnetic field, (T), 23:1276
charged-particle stochastic auto-resonant acceleration in randomly polarized plane, in constant magnetic field, (T), 22:29664
conference on theory of, 21:42322
conference on theory of, 21:42323
conference on, in space, (T), 21:36958 (ESRO-SP-6)
conference on, Stresa, Italy, June 24—29, 1968, 25:33332
conversion of transverse to longitudinal, at plasma-dielectric boundaries, 21:5275
conversion of transverse to longitudinal, in plasma, 21:5276
cosmic background, synchrotron origin of, (T), 25:935
coupling in inhomogeneous plasma, (E), 25:56225 (CEA-CONF-1802)
coupling in plasma-filled waveguides, nonlinear, (T), 22:29505
coupling with electroacoustic waves, in inhomogeneous compressible magnetoplasma, 21:27157
coupling with electron acoustic waves in inhomogeneous lossy plasma, (T), 25:43404 (AD-715910)
coupling with longitudinal plasma waves in drifting magnetoplasma, (T), 24:42734
damping in inhomogeneities in cold collisionless plasma, (T), 25:59081(T) (AEC-tr-7272)
damping in inhomogeneous plasma near ion gyromagnetic frequency, (T), 23:18686 (CONF-680113-(Vol.1), pp 379-90)
damping in intense inhomogeneities of cold plasma, collisionless, 24:40132 (KHFTI-69/53)
damping in plasma, nonlinear Landau, (T), 25:30615
damping in plasma, nonlinear theory of cyclotron, (T), 23:18712
damping in plasmas, Landau, (T), 25:43408
deflection of, in gravitational fields, (T), 23:1142
detection below 3,000 cps, instrument design for, 21:41300
detection in magnetosheath, outer magnetosphere, and solar wind, (E), 24:42594
detection of elf ionospheric noise, techniques for, (E), 24:51491 (AD-706873)
detection of magnetospheric, (E), 22:17474
detection of nuclear explosion-generated, design of equipment for, 23:49980(P)
detection of quasi-trapped, in solar wind aboard OGO 5 on April 5, 1968, 24:39935
detection of vlf noise bursts by Javelin 8.46, (E), 23:42060
detection using plasmas and glow discharges, 24:21778
diffraction by metal plates in anisotropic plasma, 21:25121
diffraction by wedge in anisotropic media, 23:8620
diffraction in active media, theory of, 23:46519
diffraction of cylindrical, by ideal conducting wedge in anisotropic plasma, (T), 23:1458
diffraction of plane TM, on two parallel radial nonuniform plasma cylinders, (T), 22:36889
diffraction of plane, model for, (T), 21:23580
diffraction on impedance wedge in anisotropic plasma, (T), 24:17998
diffraction on ionospheric plasma, (T), 22:36810(T) (N-68-22366)
diffraction on radially inhomogeneous plasma, (T), 22:36943
diffraction problems of, simultaneous Wiener—Hopf equations in, (T), 22:44295
dispersion and attenuation of helicon, in plasma-filled waveguides, (T), 23:12918
dispersion in lower exosphere with multiple ionic species, (E), 24:30232
dosimetry near microwave ovens, 24:4626
dosimetry of high energy electromagnetic, method for calculation of, 23:43776
dosimetry of, effects of displacement of target on accuracy in calculations of, 25:11069
drift of vlf-chorus, relation to magnetic disturbances on nighttime side of Earth, longitudinal, (E), 25:33135
effects of LET of, on RBE, mathematical model for, 21:6408
effects of magnetosheath-generated, on magnetospheric heating, (T), 23:23007
effects of pulsed, on charged-particle motion in magnetic field, (T), 22:3228
effects of pulsed, on performance of electrical and electronic components of civil defense communication and power systems, 25:42506(R) (ORNL-4566(Pt.1))
effects of, on agricultural plants, mutagenic, 21:8775
effects on activity of neurons in visual cortex of rabbits, mechanisms of UHF, 24:46668
effects on alignment of oblique spheroidal rotator, (T), 24:39786
effects on behavior of monkeys, combined effects of x radiation on, 21:43536
effects on biochemistry and nervous system of rats, 23:48230
effects on blood pressure and central nervous system of animals, 23:45915
effects on brain of rabbits, high and ultrahigh frequency, 24:32189
effects on growth of rice plants in relation to energy, 24:17018
effects on human eyes, pathological, 25:11297
effects on insects for population control, 22:17068
effects on man, medical nomenclature for SHF and UHF, 22:36301
effects on mice, effects of dose on short and ultrashort, 24:2787
effects on nervous system of rabbits and rats, long term, low dose, ultra high frequency, 24:46660
effects on phenol content of urine of man, 22:25970
effects on physiology of nervous system in vertebrates, 21:36481(T) (NASA-TT-F-465)
effects on rabbits, combined effects of oxygen insufficiency on UHF, 23:26893
effects on radar personnel, protection against VHF, 23:29555
effects on resonance ionization of atoms, 21:20789
effects on secular stability of homogeneous charged rotating drop, (T), 25:52520
effects on tissues of man, protective effects of chemicals against combined effects of ionizing radiation on high-frequency, 22:23673
electric field component of <1000-Hz, in auroral ionosphere, (E), 24:42565
electron energy levels in, (T), 22:34814
electron interactions in field of background monochromatic, quantum intensity-dependent frequency shift in, (T), 22:44290
electron interactions in field of, Green function for, 23:23303 (ITF-68-88)
electron mass shift and peculiar motion in traveling, crossed electron and laser beams for determining, (E), 24:8555
electron mass shift and trajectory in traveling, (T), 23:15021
electron motion in field of, 21:43761
electron motion in field of plane, dependence of radiation stimulated emission on polarization, frequency, and spectral width of second perturbing wave for, (T), 23:51904
electron motion in plane polarized, spin orientation from induced radiation from, (T), 25:12161
electron scattering by standing, multiple, (T), 23:25138
electron scattering by standing, theory for, 23:18439
electron scattering by, method of measuring, 22:24046
electron scattering by, propagating along magnetic field, (T), 22:5228
electron-beam interaction with obliquely propagatng, dispersion equations for spiraling, (T), 25:25274
elementary particle motion in field of plane, (T), 22:5651
emission by electric dipoles in an anisotropic plasma column, (T), 23:30551
emission from a source, gravitational mass loss in, (T), 21:29412
emission from accelerated charged particles, (T), 22:29101
emission from charged particles in statistically nonuniform media, (T), 24:20010
emission from charged particles oscillating in linear force fields, (T), 24:4865
emission from charged particles traversing plane interfaces, image method for, (T), 21:20745
emission from cosmic plasma, (T), 23:16622
emission from Earth, conference on detection with satellites, 22:19734
emission from electron motion in crossed electric and magnetic fields, 21:26982
emission from electron-impact excited atoms, intensity beats in resonance radiation from interference from, 21:28960 (UCRL-17445)
emission from expanding supernova shells, coherent, (T), 25:30068
emission from extensive air showers, Monte-Carlo studies of, 24:19791
emission from finite dipole in moving plasma, (T), 22:7296
emission from magnetosphere, satellite measurement of vlf, 22:34495
emission from magnetosphere, stimulation of whistler mode of, 22:34494
emission from plasma with interacting longitudinal waves, 22:5355
emission from superconducting tunnel junctions, (E), 22:36867
emission from surface and high-altitude nuclear explosions, 21:692(R) (NP-16306)
emission from system of many excited atoms, 23:15212
emission from turbulent cosmic plasma, polarization of, (T), 23:25044
emission from weakly ionized xenon plasma, cyclotron harmonics of, 21:2246
emission in asymptotically plane spaces in general relativity theory, Newman—Penrose method for, 24:37913
emission of auroral vlf, relation to auroral cosmic-noise absorption, (E/T), 25:55999
emission of coherent radiation from quantum transitions in superconducting contacts, 21:31352
emission of natural, below 30 kc, 21:41938
emission of polar chorus, relation to geomagnetic variations, (E), 23:18516
emission of pulsed, from pulsars, (T), 23:39149
emission of "transition radiation" in charged particle penetration of two separating boundaries, 21:20772
emission of transition radiation in optical region from charged particles in dielectrics, 21:22978
emission of vlf chorus, effects of plasmapause location on, (E), 24:39923 (AD-704817)
emission of vlf hiss and light in aurorae, relation to x rays, (E), 23:6938
emission of vlf, mechanism for triggering, (T), 23:5323
energy density and frequency in gravitational fields, (T), 22:36623
energy of, from derived action-principle formula, (T), 24:20020
energy—momentum radiated by charge-current distribution, (T), 21:7414
enhanced band emission between 500 and 1000 Hz at ground and 2000 km, 22:34436
excitation and propagation in plasma along magnetic field, (T), 25:22568
excitation and propagation in weakly turbulent plasma, (T), 21:18714
excitation at upper hybrid frequency in inhomogeneous plasma, harmonic, 25:9521
excitation by ultrasound, (T), 23:5503
excitation in compressible plasma, (T), 21:7248
excitation in current-carrying plasma, 22:9350
excitation in plasma by acoustic wave interactions with density gradients, (T), 25:25190
excitation of elf sferics, intracloud and cloud-to-ground, (E/T), 25:38237
excitation of standing helicon, in cylindrical plasma, (E/T), 25:11908
excitation on surface of plasma jets, (T), 24:51741
fermion motion in planar, induced radiation and spin orientation from neutral, (T), 25:12160
flux along geomagnetic field, vlf measurement of Poynting, 24:32724(R) (AD-700931)
flux in extensive air showers, (E), 24:28132
flux of cosmic, incident on the Earth, (T), 23:30286
focusing by gravitational fields, (T), 24:25870
focusing in semi-confined, linear plasma layers, (T), 22:41584
focusing in two-level systems, nonlinear, (T), 22:11438
focusing in two-level systems, nonlinear, (T), 23:20962
frequency change upon propagation through electromagnetic and gravitational fields, (T), 23:27323
frequency of, effect of gravitation on, (E/T), 23:6872
generation in magnetosphere, (T), 22:24133
generation in magnetosphere, research on mechanisms of, (E/T), 25:47386 (AD-717781)
generation in solar-wind plasma in interplanetary space, upstream discrete wave-packet, (E), 25:16937
generation in topside ionosphere, pulsed, 21:37299
goniometry of, precision of, 24:11396(T) (SC-T-69-1060)
gravitational effect on test particle, Einstein field equation for, 23:27874
gravitational mass of radiated, active, (T), 25:53347
Green's functions for, in simple moving media, (T), 23:5497
group velocity in homogeneous anisotropic media, (T), 23:5297
instabilities in ion-cyclotron, above field-aligned single and multi-ion ionospheric F-layer, (T), 25:30373
interaction of high-frequency, with cyclotron waves in plasma, nonlinear, (T), 25:1249
interaction of potential surface, at plane boundary of anisotropic medium with charged-particle beam moving alongside, (T), 24:21906
interaction of right- and left-hand polarized, with longitudinal plasma waves in ionosphere, nonlinear, (T), 24:51539
interaction with electrons in inhomogeneous magnetic field, whistler-type, (T), 25:22454
interaction with hot dense plasma, confinement properties of rf, (T), 25:17130
interactions and coupling in hot plasmas, theory for, (E/T), 24:35484(R) (SU-IPR-357)
interactions and weak nonlinear resonance in cold plasma column, (T), 23:30583
interactions in bounded plasmas, nonlinear, (T), 23:12937
interactions in cold magnetized plasma, nonlinear, 22:41600
interactions in cold magnetoplasma, nonlinear transverse, (T), 23:39505 (SU-IPR-303)
interactions in cold magnetoplasma, synchronism and growth characteristics of nonlinear transverse, (T), 23:39506 (SU-IPR-304)
interactions in collision-dominated plasma, (T), 21:39998 (ARL-67-0102)
interactions in homogeneous electron plasma, three ordinary, (T), 25:49936
interactions in homogeneous magnetized plasma, coupling in, (E/T), 24:3418(R) (SU-IPR-336)
interactions in magnetized plasma, density determination from nonlinear, (E), 23:51601 (CEA-CONF-1392)
interactions in magnetized plasmas, nonlinear, (T), 25:52882
interactions in magnetoplasma, effect of electron density and temperature on, (T), 24:15359
interactions in magnetoplasma, nonlinear, (T), 22:13490
interactions in nonlinear media with saturation, (T), 24:10586
interactions in oscillating plasma, 21:2276
interactions in plasma, collective, (T), 23:20965
interactions in plasma, electron density measurement by nonlinear, (T), 25:27684
interactions in plasma, harmonics from coherent, 21:2257
interactions in plasma, isolation and amplification of difference frequency of, 21:18716
interactions in plasma, surface wave production from, 21:5282
interactions in plasma-filled waveguides, coupling in, (T), 24:5189
interactions in warm magnetoplasma, nonlinear cyclotron harmonic, (T), 23:7007
interactions of helicon and ion acoustic waves in plasma, nonlinear, (T), 25:30607
interactions of plane, with moving compressible plasma, (T), 23:14849
interactions of polarized, with photons, electron and boson pair production from, (T), 23:18847
interactions of stationary circularly polarized, with cold plasma in constant longitudinal magnetic field, analysis of nonlinear, 22:44110 (IPP-6/62)
interactions of traveling, with cyclotron waves from electron beam, 24:1719
interactions with bound electrons, kinetic equations for, (T), 23:25483
interactions with boundary of magnetoplasma and vacuum, (T), 24:21842
interactions with bounded compressible plasma, nonlinear effects in, (T), 22:39098
interactions with bounded plasma, (T), 22:46150
interactions with charged particles in cyclotron resonance amplification of whistlers in magnetosphere, (T), 22:43980 (D-1-82-0713)
interactions with classical and quantum plasma, 22:11469

interactions with cold plasma in magnetic field, circularly polarized, (T), 23:23210
interactions with cold plasma, nonlinear relativistic, (T), 23:30582
interactions with cold rotating plasma, cyclotron resonance in, 22:11434
interactions with collisionless plasma, anomalous heating in shf, (E), 23:39443 (NP-17962, pp 28-31)
interactions with collisionless plasma, fast electrons from shf, 25:47585 (NP-18958)
interactions with collisionless plasma, nonlinear effects in, 21:18730
interactions with collisionless plasma, perturbations from, (T), 23:34475 (CONF-680113-(Vol.4), pp 1203-17)
interactions with compressible magnetoplasma, reflection and transmission of, (T), 21:764 (AD-636493)
interactions with current-carrying plasma, two-stream instabilities from uhf, 22:3143
interactions with cyclotron waves in moving plasma, resonance transport in, (T), 23:18713
interactions with cylindrical plasma, (T), 22:46162
interactions with degenerate electron gas, (T), 23:44579
interactions with dense plasma, self-trapping of, (E), 25:36225
interactions with density disturbances in plasma, (T), 23:39518
interactions with density fluctuations in inhomogeneous magnetized plasma, extraordinary, (T), 25:5126
interactions with density fluctuations in inhomogeneous magnetized plasma, (E), 25:43402 (AD-715277)
interactions with electron beams, electric field determination from, 21:31245
interactions with electron plasma waves, nonlinear, (T), 25:25175
interactions with electron plasma, echoes from, (E), 22:9319
interactions with electron plasma, stochastic kinetic theory of strong, 25:52874
interactions with electrons in magnetoplasmas, (E), 25:24977
interactions with electrons in presence of parallel magnetic field, (T), 24:18048
interactions with electrons in quantized field, wave function for, (T), 23:32670
interactions with electrons, intensity-dependent gain in momentum for, (T), 22:34923
interactions with energetic trapped particles, transverse, 21:33266
interactions with finite-volume turbulent plasma, (T), 23:44467
interactions with fully ionized Vlasov plasmas, transverse, (T), 21:13581
interactions with half-space and slab plasma, oblique, (T), 25:14386
interactions with hf discharge plasma, energy transmission in, 22:17655
interactions with highly ionized cesium plasma, nonlinear, (E/T), 23:5434
interactions with hot plasma slab, penetration in, (T), 24:26261
interactions with imperfect Lorentz plasma, nonlinear effects from, (T), 25:40722
interactions with inhomogeneous magnetoplasma, linear transformation in, (T), 23:23191 (FTI-144)
interactions with inhomogeneous media, energy transfer in quasi-monochromatic, (T), 22:29494
interactions with inhomogeneous plasma column, upper hybrid resonance, (E/T), 25:14381
interactions with inhomogeneous plasma layers, nonlinear, (T), 23:39513
interactions with inhomogeneous plasma, diagnostic use of, 25:56145
interactions with inhomogeneous plasma, penetration of, (E), 25:40714
interactions with inhomogeneous plasma, second harmonics from, 23:16843
interactions with ion acoustic waves, discontinuity formation in nonlinear, (T), 25:1244
interactions with ion waves in plasma, coupling of, (T), 21:20972
interactions with ion—acoustic waves in isotropic plasma, trapping in resonant, (T), 25:14374
interactions with ionized gas slab, harmonic generation in, (T), 22:36927
interactions with ionized, spherical cloud, (T), 22:48091
interactions with ionizing shock, (T), 22:5242
interactions with ionosphere, emission of excited ion mode from, (T), 25:49816
interactions with isotropic plasma, complex refractive index of, 23:8615
interactions with loss-cone particle distribution in magnetosphere, (T), 24:17797
interactions with magnetic mirror-confined plasma, acceleration processes of hf, 21:44065 (NASA-SP-153, pp 199-216)
interactions with magnetically confined plasma, heating in, (E), 25:38392 (CONF-710607-144)
interactions with magnetized nonuniform plasma columns, longitudinal modes of, 21:9587
interactions with magnetized plasma, beam mixing in, (T), 23:23205
interactions with magnetized plasma, excitation of longitudinal oscillations in, (T), 25:9518
interactions with magnetoplasma, acceleration processes from circularly polarized, 21:44052 (CEA-R-3262)
interactions with magnetoplasma, cyclotron echo radiation from, (E/T), 22:6704
interactions with magnetoplasma, cyclotron echoes from, (T), 21:35151 (AD-654026)
interactions with magnetoplasma, cyclotron harmonic, 23:5400(R) (SU-IPR-259)
interactions with magnetoplasma, electron and ion resonance excitation in, 21:2223 (CEA-R-3053)
interactions with magnetoplasma, electron cyclotron echoes from, (E), 24:35484(R) (SU-IPR-357)
interactions with magnetoplasma, electrostatic oscillations from, (T), 24:35511
interactions with magnetoplasma, oblique, (T), 21:44099
interactions with magnetoplasma, penetration in, (T), 24:15363
interactions with magnetospheric homogeneous plasma, nonlinear mechanisms of, (T), 25:5031
interactions with matter in Universe, gravitational, (T), 25:13948
interactions with neutrons, Compton scattering in, (T), 21:33875
interactions with non-Maxwellian magnetoplasma, (T), 21:31423(R) (M-65-4-FR)
interactions with nonhomogeneous magnetoplasma, field properties from, 21:15151
interactions with nonhomogeneous magnetoplasma, nonlinear effects in, (T), 23:51736
interactions with nonisothermal plasma, excitation of ion—acoustic waves under skin-effect conditions, (E), 23:51728
interactions with nonisothermal plasma, lf resonances and averaged field potential in, (T), 23:36753
interactions with nonisothermal plasma, lf resonances and averaged potential in, (T), 25:3165
interactions with nonthermal plasmas, cyclotron resonance, (T), 25:43403 (AD-715636)
interactions with object with varying polarizability changes, radiation pressure on, (T), 23:34488
interactions with partially ionized plasma, electron density growth in, (T), 22:1246
interactions with partially ionized plasma, penetration in, (T), 23:32509
interactions with particles in ionosphere near lower hybrid resonance, (T), 24:5068
interactions with plasma and ion—acoustic waves, (T), 22:13488
interactions with plasma below second electron cyclotron harmonic, transverse and longitudinal coupling in, 21:42051 (NP-16945, pp 139-42)
interactions with plasma column, electron cyclotron echoes from, (E/T), 24:32867
interactions with plasma half-space, reflection and penetration of oblique incident, (T), 25:14361
interactions with plasma in bounded spherical cavities, (T), 23:42356
interactions with plasma in magnetic fields, (T), 24:26280
interactions with plasma in nonuniform magnetic fields, heating in, (T), 25:9404
interactions with plasma in waveguides and cavities, (T), 21:27158
interactions with plasma layers, oblique, (T), 23:42374
interactions with plasma layers, reflection from, (T), 24:10591
interactions with plasma near lower hybrid resonance, heating in, (E), 25:38390 (CONF-710607-142)
interactions with plasma slab, oblique incident, (T), 25:25186
interactions with plasma slab, oblique, (T), 24:32870
interactions with plasma waves, (T), 22:15531
interactions with plasma waves, properties of, (T), 22:5328(T) (NP-tr-1598)
interactions with plasma with exponential density distribution, (T), 25:56230 (INR-1321)
interactions with plasma, absorption at 27 MHz, 21:16925
interactions with plasma, acoustic instabilities from transverse, 25:17245
interactions with plasma, acoustic wave excitation in, (T), 24:40142
interactions with plasma, analysis using attenuators based on ferrite resonance switches, 23:46500(T) (AEC-tr-7067)
interactions with plasma, boundary effects in, 22:11436
interactions with plasma, Cherenkov heating of electrons in, (T), 22:29466
interactions with plasma, convective instabilities from, 21:812
interactions with plasma, convective instabilities from, 21:15161
interactions with plasma, cooperative effects in cyclotron echo phenomena in, 21:35161 (CONF-670104-Pt.2, pp 317-24)
interactions with plasma, coupling in, (T), 22:29508
interactions with plasma, coupling to cyclotron harmonic resonances in, 21:42052 (NP-16945, pp 142-6)
interactions with plasma, coupling with longitudinal electron waves, 21:42046 (AD-645745)
interactions with plasma, Darwin model for simulating, 25:14293
interactions with plasma, density profile measurements from extraordinary mode, (T), 24:42662
interactions with plasma, echoes in, (T), 24:35505
interactions with plasma, effect on microinstabilities for anisotropic ion temperatures, 25:59083 (CEA-CONF-1826)
interactions with plasma, effects on density distribution in, 21:46355
interactions with plasma, electro-acoustic wave excitation by hf, (T), 25:40715
interactions with plasma, electron and ion-acoustic oscillations from, (E/T), 21:2254
interactions with plasma, electron cyclotron echoes from, (E/T), 23:46512 (SU-IPR-311)
interactions with plasma, electron entrainment in, 21:35180
interactions with plasma, electron oscillations from, 21:778
interactions with plasma, energy absorption in, (T), 22:24284(T) (AD-666147)
interactions with plasma, excitation of, (T), 23:36747
interactions with plasma, from open-ended waveguides, (T), 24:32866
interactions with plasma, harmonics from, (T), 22:13498
interactions with plasma, heating by uhf, (E/T), 25:38391 (CONF-710607-143)
interactions with plasma, high-power hf, (E), 22:24285(T) (AD-666148)
interactions with plasma, in inhomogeneous magnetostatic field, (T), 23:18690 (CONF-680113-(Vol.2), pp 511-23)
interactions with plasma, low-amplitude, (T), 24:40144
interactions with plasma, microinstabilities from, (E/T), 22:22156
interactions with plasma, microwave harmonics from, 22:34630 (AD-662909)
interactions with plasma, negative Faraday rotation in, (E), 25:52865
interactions with plasma, nonlinear effects from electromagnetic, 23:34473(T) (AD-682974)
interactions with plasma, nonlinear effects from, (T), 22:44121
interactions with plasma, nonlinear processes in hf, (T), 23:32539
interactions with plasma, nonlinear processes in, (T), 24:24095
interactions with plasma, nonlinear relativistic, 21:42048 (IPP-6/58)
interactions with plasma, nonlinear theory for turbulent heating in, 23:44383 (CONF-680113-(Vol.5), pp 77-84)
interactions with plasma, parametric amplification in, (E), 22:29507
interactions with plasma, parametric effects of, 21:11655
interactions with plasma, parametric excitation of cyclotron harmonic waves in, (E), 23:18714
interactions with plasma, perturbations from, (T), 23:44465 (CONF-680113-(Vol.5), pp 253-69)
interactions with plasma, properties of low-frequency, (T), 21:42075
interactions with plasma, radiated power from, 23:8600
interactions with plasma, radiation pressure on vacuum boundary of, (T), 22:31825
interactions with plasma, reflection and transmission of, (T), 23:18694
interactions with plasma, reflection of harmonic components from, (T), 22:15540
interactions with plasma, remote control, heating, and diagnostic use of nonlinear, 25:38515 (CONF-710607-25)
interactions with plasma, resonances in, (T), 22:13501
interactions with plasma, self-trapping and self-focusing in, (T), 22:31813
interactions with plasma, shielding response of, 21:13553 (AD-641899)
interactions with plasma, skin effect in, (T), 25:33354
interactions with plasma, strong turbulence theory for, 22:46146 (TID-24666, pp 145-56)
interactions with plasma, theory for cyclotron resonance, 25:17221 (D-1-82-1010)
interactions with plasmoids, forces in, (T), 22:9323
interactions with positive column plasma, resonances from, (T), 21:3851
interactions with relativistic electron in magnetic mirror field, (T), 21:27124
interactions with relativistic plasma, nonlinear effects from, (T), 23:10648
interactions with scattering medium, smooth perturbation method for solution of general equations of multiple-wave scattering theory for, 22:46556
interactions with semi-infinite longitudinally drifting magnetoplasma, (T), 22:9320
interactions with thermal cesium plasma, nonlinear, 22:48131
interactions with toroidal plasma, polarization in, (T), 25:19735
interactions with turbulent plasma, effects on anomalous skin layer, (E), 22:3109
interactions with turbulent plasma, hf transverse, 21:15139
interactions with uniformly moving generalized media, (T), 21:18662 (AFCRL-66-827)
interactions with vacuum—plasma boundary, radiation pressure in, (T), 23:42297
interactions with warm magnetoplasma, theory of, 23:12904
interactions with weakly inhomogeneous plasma jets, uhf, 21:15133
interactions with weakly ionized plasma cylinder, resonance absorption of, (E), 21:2238
interactions with weakly ionized plasma, acoustic wave amplification in, (E), 22:19998
interactions with weakly ionized plasma, electron heating in, (T), 23:32310
interactions with weakly ionized plasma, harmonics from, (T), 25:33355
interception of inadvertently emanated, probability of, 24:29146 (SC-RR-70-37)
ionospheric Pc1 fluctuations, space—time variations of parameters of, 21:5188
magnetic emissions in magnetosheath near 100 Hz, (E), 23:30430
measurement near microwave ovens, alarm system and helical aerial detector for, 24:4512
measurement of field intensities of 400 MHz to 40 GHz, design of thin-film spherical bolometers for, 24:4513
measurement of, development of near-field probe for, 24:46535 (BRH/DEP-70-16)
modulation in magnetoplasma, kinetic theory of amplitude-modulated, (T), 25:35953
momentum in matter, Abraham—Minkowski controversy on, (T), 22:41719
multipole fields in general relativity, 21:7402
neutrino interactions with field of strong, production of $\mu^+ + \mu^-$ and $e^+ + e^-$ pairs from, (T), 23:15056
neutrino—antineutrino emission from plasmon decay, (T), 25:16732
neutron scattering by particles moving in, slow, (T), 25:20243
noise in the magnetotail current sheet, (T), 23:42080
nucleon motion in field of plane, Dirac equation for, 21:42318
particle interactions in field of, (T), 21:23320

particle interactions with circularly polarized plane, group theoretical treatment for mass shift in, (T), 25: 47777 (ORO-3992-49)
photon interactions with field of, in homogeneous magnetic field, electron pair production from, (T), 25: 53083
plasma acceleration with, along special transmission lines, (E), 22:50173
plasma-wave conversion into, in strong magnetic fields, (T), 23:16588
plasma-wave conversion to, under astrophysical conditions, (T), 24:12568
polarization of obliquely reflected, from isotropic plane-stratified plasma, (T), 23:32515
polarized beams of, solution of Dirac equation in field of two, (T), 21:13657
ponderomotive effects in resonance systems, 22:48403
potentials in, Dirac equation solution for, 21:9674
principles of electron paramagnetic resonance, 21:41771
production from transformation of plasma waves in solar corona, magnetic field effects on, (E/T), 24:42429
production in homogeneous plasma, harmonics of, (T), 21:7255
production in inhomogeneous magnetoplasma, nonlinear second harmonic of, (T), 21:7254
production in plasma varactors, harmonics of, 21:15130 (NP-16548)
production in signal generator, for use as radio beacons and submarine detection buoys, 21:16080(P)
production of auroral-zone vlf chorus, mechanism for, (T), 23:5322
production of high-frequency, by electron beams in solar-wind region upstream from bow shock, (E/T), 25: 56019
production of stationary electron, ion cyclotron, and electron, by bow shock at large Mach numbers, (E/T), 25:7225
production using nuclear battery and electric condenser, design of system for, 21:36220(P)
propagation across geomagnetic anomaly during S.I.D.s, (E), 22:9203
propagation across magnetic field in parabolic plasma layer, (T), 25:56236
propagation along annular plasma, (E/T), 21:2236
propagation along axially magnetized plasma column, power from, (T), 21:9568
propagation along cold collisionless axially magnetized plasma column, 25:14360 (AD-711649)
propagation along Earth—ionosphere waveguide, pulse function of path of, (T), 25:47423
propagation along helical conductor, effect of wire thickness on phase velocity in, 25:7792
propagation along helical conductors, effect of wire thickness on phase velocity in, 24:35739 (NP-18201)
propagation along magnetized plasma layers, effect of hf potential on, (T), 25:52861 (KHFTI-70/57)
propagation along plasma layer, large-amplitude TE mode, (T), 23:36739
propagation along plasma layers, effect of field pressure on, (T), 25:56235
propagation along plasma layers, high-amplitude, (T), 23:51737
propagation along vacuum—overdense plasma interface, surface, (T), 25:36214 (DEMO-71/5)
propagation and absorption in nonuniformly magnetized plasma at electron gyroresonance, (T), 24:12864
propagation and absorption in positive column plasma, (E/T), 24:49222
propagation and coupling in inhomogeneous media, (T), 22:17640
propagation and damping in plasma, harmonic ion cyclotron, 24:10574 (AD-694693)
propagation and dispersion of helicon, in nonuniform plasma, (T), 23:10666
propagation and growth in slab plasma, (T), 24:6564
propagation and reflection in layered magneto-ionic medium, (T), 21:37315
propagation and reflection in plasma, refractive index for, (T), 24:32871
propagation and reflection of transverse cyclotron, in plasma, (T), 25:11931
propagation at 400 km, diffusion of particles in presence of simultaneous ulf and vlf, (E/T), 25:16960
propagation at ulf and vlf in interplanetary space and magnetosphere, 24:37372
propagation at vertical incidence, reflection processes in ionospheric D and E regions at lf and vlf, (E), 24: 45131
propagation at vlf in magnetosphere, (T), 23:27523
propagation constant for waveguide with plasma filled dielectric tube, (T), 21:5256
propagation from source in isotropic plasma, (T), 21: 29278
propagation in a magnetoactive cosmic plasmic, change of polarization in, (T), 23:14521
propagation in afterglow plasma, helicon, (E/T), 24: 35491
propagation in anisotropic homogeneous plasma, distortion of, 22:17645
propagation in anisotropic inhomogeneous media, potential equations for, 21:23202
propagation in anisotropic lossless plasma, (T), 24:12854 (AD-695798)
propagation in anisotropic plasma, effect of electrostatic field on, (T), 24:3422
propagation in anisotropic plasma, matrix solutions for, (T), 23:25414
propagation in anisotropic plasmas, transient, (T), 24: 3430
propagation in anisotropic temperature plasma, instability of, (T), 24:28343 (N-70-19273)
propagation in astrophysical plasmas, (T), 22:43784
propagation in atmosphere, model analysis of ulf, 21: 33467
propagation in bounded cold plasma, (T), 25:27804
propagation in bounded magnetoplasma, dynamic potentials for, (T), 24:30368
propagation in bounded magnetoplasma, kinetic theory of, 22:11439
propagation in bounded, hot magnetoplasma, radiations from, 21:13565(R) (N-66-28833)
propagation in circular waveguides filled with inhomogeneous plasma, (T), 23:18689 (CONF-680113-(Vol.1), pp 503-10)
propagation in cold plasma, amplitude dispersion and nonlinear instability of whistler, (T), 23:30598
propagation in cold rotating plasma, energy absorption from, 21:29277
propagation in collisionless homogeneous plasma, dispersion relation of nonpotential ion-harmonic, (T), 25:7429
propagation in collisionless plasma, model for damping of, 21:37453 (RM-5356-PR)
propagation in compressible plasma with homogeneous drift velocity in magnetic field, (T), 23:39510
propagation in compressible plasma, dispersion relations for, 21:44075
propagation in contact cesium plasma near hybrid ion—electron resonant frequency, (E/T), 23:1455
propagation in cosmic-ray gases, transverse, 22:1212
propagation in curved space—time, (T), 21:35238
propagation in cylindrical magnetoplasma, circularly polarized, 22:5341
propagation in cylindrical magnetoplasma, trapped modes in, (T), 23:7014
propagation in cylindrical magnetoplasmas, (T), 21: 40006
propagation in cylindrical plasma columns of helicon, (T), 24:35495
propagation in cylindrical plasma, vacuum boundary conditions for helicon, (T), 24:5187
propagation in cylindrically stratified axially magnetized, transverse, (T), 23:36738
propagation in degenerate neutrino sea, photon—neutrino weak coupling theory for, 24:26398
propagation in dense plasma, collisional damping of whistler, 21:23207
propagation in discharge plasma, nonlinear theory of, (T), 25:38519
propagation in discharge plasmas, diagnostics from surface, (E/T), 21:11602 (AFCRL-66-765)
propagation in drifting isotropic hot plasma, (T), 21:763 (AD-636395)
propagation in drifting isotropic warm plasma, oblique, (T), 22:22183
propagation in drifting plasma, whistler, (T), 22:34691
propagation in earth—ionosphere cavity, frequency variations of resonances in, 21:41915
propagation in Earth—ionosphere cavity, source location of elf noise, (E/T), 25:38277
propagation in earth—ionosphere waveguide, 21:23088
propagation in Earth—ionospheric cavity, technique for analysis of transient elf, (E/T), 25:27592
propagation in Earth-ionospheric cavity, amplitude-frequency spectra of elf transient, (E/T), 25:27591
propagation in electromagnetoionic medium, cutoff conditions from dispersion relation for, (T), 21:43931
propagation in electron gases in magnetic fields, dispersion relations for, (T), 24:45389
propagation in finite gyrotropic plasma, separation constants for, 21:7229
propagation in finite plasma, kinetic theory for, 21: 15149
propagation in finite plasma, modes of, 21:7231
propagation in fully ionized plasma, nonlinear effects from, (T), 22:52780
propagation in geomagnetic field, Poynting-flux direction of, (E), 25:11780
propagation in gravitational field, 25:47965 (AD-718145)
propagation in half-space relativistic plasma, (T), 25: 19740
propagation in homogeneous magnetic fields, electron cyclotron resonance, (E), 23:18685 (CONF-680113-(Vol.1), pp 149-60)
propagation in horizontally stratified magnetospheric plasma, (T), 22:41472
propagation in hot collisionless plasma, solution of Vlasov equation for, 24:28352
propagation in hot cylindrical plasma, in inhomogeneous magnetic field, 22:1178 (IPP-6/60)
propagation in hot magnetized plasma, (T), 23:48941 (AD-689828)
propagation in hot plasma, whistler, (T), 22:31855
propagation in indium, m = +1 or -1 helicon, 21:13563 (CLM-R-66)
propagation in inhomogeneous cold plasma, attenuation in, (T), 24:28375
propagation in inhomogeneous compressible plasma, coupling with electron acoustic waves, (T), 22:7323
propagation in inhomogeneous magnetoplasma with uniaxial pressure, (T), 22:5362
propagation in inhomogeneous magnetoplasma, (T), 22: 36936
propagation in inhomogeneous magnetoplasma, excitation of second harmonic in, (E), 25:25177
propagation in inhomogeneous magnetoplasma, linear wave transformation in, (T), 23:46506(T) (AEC-tr-7069)
propagation in inhomogeneous magnetoplasma, nonlinear sum and difference frequency of, (T), 23:51727
propagation in inhomogeneous plasma with longitudinal field, asymptotic solutions for, (T), 23:23002
propagation in inhomogeneous plasma, (T), 25:27801
propagation in inhomogeneous plasma, nonlinear effects of, (T), 21:9594
propagation in inhomogeneous plasma, simultaneous transformation and channeling of energy in, (T), 25: 33325(T) (MATT-Trans-103)
propagation in inhomogeneous plasma, theory of, 24: 26249
propagation in inhomogeneous plasma, Vlasov equation for, (T), 22:11453
propagation in interplanetary magnetic field, ion cyclotron resonant instability of, (T), 24:8295
propagation in interstellar plasma, polarization transfer in, (T), 24:10346
propagation in interstellar space, dispersion of, (T), 25: 52578
propagation in ionized paramagnetic gas, dispersion relations for, 21:18508
propagation in ionosphere and magnetosphere, near ion gyrofrequency, (T), 25:1080
propagation in ionosphere at 0.001 to 0.1 Hz, model for, (T), 23:42044
propagation in ionosphere at 200 to 1300 km, Interkosmos-3 study of lf, (E), 25:30364
propagation in ionosphere with parabolic background, 21:43900
propagation in ionosphere, (T), 21:43931
propagation in ionosphere, effect of D-region reflection on oblique, (E), 23:32261
propagation in ionosphere, frequency variations of Schumann resonances in, (T), 24:32744
propagation in ionosphere, lf whistler mode from, 21: 7121
propagation in ionosphere, thin-film analysis for, (T), 23: 32262
propagation in ionospheric plasma, application of WKB method to nonlinear wave equation for, 25:1250
propagation in layered magnetoplasma, kinetic theory for, 21:35172
propagation in layered plasma medium, kinetic theory of, 22:5352
propagation in limited magnetoplasma, kinetic theory for, 21:18678
propagation in linear hard-core plasma configuration, lf, (E), 23:20971
propagation in lossless isotropic plasmas, (T), 21:7207 (AD-634083)
propagation in lower ionosphere and atmosphere from explosions, (E), 23:12687
propagation in lower ionosphere with periods corresponding to micropulsations, (T), 23:18529
propagation in lower ionosphere, effects of ions on elf and vlf, 23:39370
propagation in magnetized plasma with anisotropic pressure, coupled equations for, (T), 25:11946
propagation in magnetized plasma, self-focusing of whistler, (T), 23:18692
propagation in magnetized plasma, transverse, (T), 22: 17679
propagation in magnetized plasmas, electron counterstreaming modes in, (T), 23:23208
propagation in magnetoactive finite-temperature plasma, equations for nonlinear, 21:23182 (N-67-15299)
propagation in magnetoionic media, ion sheath effects on, 21:11638
propagation in magnetoionic media, plane, (T), 22:26403
propagation in magnetoionic media, vlf, (T), 22:48111
propagation in magnetoplasma slabs, numerical solutions for, (T), 23:23204
propagation in magnetoplasma, (T), 21:42116
propagation in magnetoplasma, (T), 21:44100
propagation in magnetoplasma, adiabatic transformation of, 22:13469
propagation in magnetoplasma, effect of charged-particle streaming on, 23:1470
propagation in magnetoplasma, eikonal equation for, 22: 36942
propagation in magnetoplasma, finite-amplitude, (T), 23: 46517
propagation in magnetoplasma, modes of, 21:3857
propagation in magnetoplasma, near cyclotron frequencies, circular polarized, 22:3045 (IPPCZ-74)
propagation in magnetoplasma, near electron cyclotron frequency, (E), 22:19965 (NP-17339)
propagation in magnetoplasma, nonlinear demodulation of, (T), 22:9327
propagation in magnetoplasma, refractive index equation for oblique, (T), 21:2227 (P-3188(RAND))
propagation in magnetoplasma, self-focusing in, (T), 21: 2234
propagation in magnetoplasma, self-modulation in, (T), 24:15360
propagation in magnetoplasmas, (T), 22:34675
propagation in magnetoplasmas, self-focusing properties of, (T), 21:787
propagation in magnetosphere, conference on conjugate point phenomena in, 23:3332 (CONF-670631-(Vol.2))
propagation in magnetosphere, self-consistent solution to spectral shape and intensities of vlf, (T), 25:52726
propagation in magnetosphere, turbulent whistler, (T), 23:44279
propagation in magnetosphere, whistler mode of, (T), 21:23196
propagation in magnetospheric ducts, model for, (T), 24: 5050 (N-69-34891)
propagation in metals in magnetic fields, 21:18816
propagation in mirror-confined plasma, cyclotron-frequency, (T), 23:51723
propagation in mirror-confined plasma, near upper hybrid frequency, (E), 25:36243
propagation in monoaxial crystal with electron plasma in quantized magnetic field, (T), 23:51724
propagation in moving magnetoplasma, (T), 22:46159
propagation in multicomponent plasma, (T), 23:32505
propagation in nonlinear anisotropic time-dependent plasma, transverse, (T), 22:29516
propagation in nonlinear ionized gas layers, (T), 22: 13452
propagation in nonlinear media, (T), 23:10647
propagation in nonlinear media, instability of fixed-phase beam of transverse, (T), 25:52877
propagation in nonlinear plasma, relativistic Doppler effect and group velocity in, (T), 25:36215 (DEMO-71/6)
propagation in nonlocal conducting plasma, helicon, (E/T), 21:35167 (NYO-2150-27)

propagation in nonuniform plasma layers, (T), 24:26246 (AD-700993)
propagation in nonuniform plasma, near second electron cyclotron harmonic, (T), 23:12910
propagation in nonuniform slightly gyrotropic media, (T), 21:40009
propagation in one-dimensional and one-component plasma, nonlinear processes in, (T), 21:15158
propagation in optically active media, in magnetic fields, (T), 23:18772
propagation in parallel-plate plasma-filled waveguides, (T), 22:29520
propagation in partially ionized plasma, nonlinear effects in, (T), 24:19927
propagation in periodic plasma, dispersion relation for, 24:35506
propagation in plasma boundary, diagnostic use of, 21:11612
propagation in plasma circular columns, (E), 22:24338
propagation in plasma column, theory for, 24:40147
propagation in plasma columns, (T), 22:52808
propagation in plasma columns, time-of-flight measurements for, 25:25184
propagation in plasma in magnetic fields, nonlinear, (T), 23:12914
propagation in plasma in magnetic mirrors, electron cyclotron, (T), 25:33335
propagation in plasma in sheared magnetic field, polarization change in, (E), 25:3146 (CEA-CONF-1608)
propagation in plasma layers, kinetic theory for, 21:7238
propagation in plasma near cyclotron frequency, relativisitc effects on dielectric behavior of, (T), 23:36752
propagation in plasma of helicon, (E/T), 24:35494
propagation in plasma waveguides in strong magnetic fields, (T), 21:7226
propagation in plasma waveguides, nonlinear effects of, 21:7253
propagation in plasma with negative dielectric constant, transverse, (T), 23:34485
propagation in plasma with negative ions, (T), 21:5296
propagation in plasma with sheared magnetic fields, (T), 25:27821
propagation in plasma, amplitude and phase distortion of Gaussian pulse carrier, 23:3480
propagation in plasma, band theory of helicon, 22:29485
propagation in plasma, circuit analysis of, (T), 23:44481
propagation in plasma, cyclotron instabilities in, (T), 25:38487
propagation in plasma, damping and instabilities from, 21:15180
propagation in plasma, decay instability of cyclotron harmonic, (T), 25:3162
propagation in plasma, density profile determination from extraordinary-wave, (E), 23:51602 (CEA-CONF-1393)
propagation in plasma, dispersion and absorption of, 21:11641
propagation in plasma, electron density effects on, (T), 22:24320
propagation in plasma, exact solutions for, (T), 23:46505(T) (AEC-tr-7062)
propagation in plasma, hf properties of, 24:35483(T) (AEC-tr-7146)
propagation in plasma, ion Bernstein modes from dispersion relations, (T), 23:12920
propagation in plasma, measurement of transient nonlinear effects from, 25:40604
propagation in plasma, nonlinear demodulation of amplitude-modulated, (T), 22:1226
propagation in plasma, nonlinear theory of, 23:12798
propagation in plasma, nonlinear theory of trapping in, 25:36230
propagation in plasma, nonlinear, (T), 23:18702
propagation in plasma, physical model of cyclotron damping, (T), 24:10578
propagation in plasma, Poyntings theorem for, (T), 23:46511 (ORO-3895-3)
propagation in plasma, pulse dispersions from, 21:25133(R) (SRRC-CR-66-48)
propagation in plasma, resonant frequencies and dispersion relations for, (T), 25:52858 (AD-719799)
propagation in plasma, self-focusing of, (T), 25:36226
propagation in plasma, small-amplitude, (E/T), 24:30370
propagation in plasma, solution of nonlinear relativistic Vlasov equation for, (T), 24:28351
propagation in plasma, splitting effect of cyclotron harmonic, (E/T), 23:51719 (CEA-CONF-1395)
propagation in plasma, theory for, 25:27803
propagation in plasma, theory for, (T), 23:25391 (AD-677649)
propagation in plasma, transverse, (T), 21:9577
propagation in plasma-filled cylindrical waveguides, hybrid, (E/T), 25:43405 (CERN-71-4)
propagation in plasma-filled waveguides, (T), 21:7266
propagation in plasma-filled waveguides, (T), 21:16934
propagation in plasma-filled waveguides, (T), 21:33466
propagation in plasma-filled waveguides, (T), 21:16951
propagation in plasma-filled waveguides, dipolar mode, (E), 23:34410 (NP-17867)
propagation in plasma-filled waveguides, dispersion modes of, 21:20976
propagation in plasma-filled waveguides, dispersion relations for, 21:37455 (UCRL-17564)
propagation in plasma-filled waveguides, effect of transverse density nonuniformities on, (T), 23:10652
propagation in plasma-filled waveguides, electron beam effects on, 21:20960
propagation in plasma-filled waveguides, electron collisions and drift velocity effects on, 21:18746
propagation in plasma-filled waveguides, high-intensity, (E), 22:44138
propagation in plasma-filled waveguides, in transverse magnetic fields, 23:44483
propagation in plasma-filled waveguides, mode theory of, 23:44482
propagation in plasma-filled waveguides, modes of, (T), 22:17644
propagation in plasma-filled waveguides, nonlinear effects of, 21:15145
propagation in plasma-filled waveguides, power flow in, 23:7012
propagation in plasma-filled waveguides, properties of, (T), 21:2264
propagation in plasma-filled waveguides, properties of, (T), 21:2248
propagation in plasma-filled waveguides, with axial magnetic field, 21:15169
propagation in plasmas near electron cyclotron frequency, (E), 23:20963
propagation in random media, (T), 24:8493
propagation in random medium, (T), 22:5256
propagation in random medium, (T), 21:11725
propagation in randomly inhomogeneous media, (T), 25:17349
propagation in relativistic plasma, dispersion relations for, (T), 24:18009
propagation in relativistically warm magneto-plasma, refractive index for, (T), 24:12861
propagation in Riemann space, 25:14499
propagation in semiconductors, electron temperature effects on, (T), 21:46356
propagation in sinusoidally striatified plasma media, (T), 23:32514
propagation in slab plasma, impedance sheet approximation for, 23:3481
propagation in slightly relativistic plasma, (T), 25:56228 (CEA-CONF-1806)
propagation in solar wind, (T), 22:52332
propagation in solid state plasma, normal to magnetic field, (T), 22:1284
propagation in space with Einstein metric for detection of gravitational waves, 22:50455
propagation in static gravitation field, 25:31011
propagation in stationary crossed field, 22:48404
propagation in stratified compressible plasma, electron acoustic coupling with, (T), 21:7220
propagation in stratified plasma, equations for transient, (T), 25:24996
propagation in stratified plasma, invariant imbedding techniques for, (T), 24:5193
propagation in superconducting thin-film transmission lines, slow-wave, (E/T), 23:29280
propagation in superconducting waveguide, attenuation coefficient for, 24:24484
propagation in the Galaxy, (T), 25:30220 (P-4494(RAND))
propagation in the ionosphere, asymptotic solutions for, (T), 22:13364
propagation in the lower ionosphere, (T), 23:14690
propagation in three-dimension inhomogeneous isotropic ionosphere, solution method of, (T), 25:16979
propagation in transverse magnetoplasma, stability of, (T), 22:31849
propagation in two-stream magnetoplasma, (T), 23:44472
propagation in two-streaming electron plasma, thermal stabilization of modified ordinary mode in, (T), 23:23209
propagation in two-temperature plasma, with periodic electric fields, (T), 24:30366
propagation in unbounded electron plasma, hf, (T), 23:12912
propagation in unbounded magnetoplasmas, dispersion relations for, 25:36218 (UARAEE-92)
propagation in underdense plasma, Doppler shift in, (T), 24:28360
propagation in uniaxial plasmas with curved magnetic fields, (T), 24:6559 (AD-694499)
propagation in uniform anisotropic Maxwellian plasma, (T), 23:12924
propagation in upstream solar wind, correlation of suprathermal protons with large-amplitude, (E), 25:7275
propagation in vacuum channel in plasma with magnetic fields, (T), 25:17251
propagation in vacuum channels in plasmas, (T), 25:38517 (EUR-CEA-FC-577)
propagation in warm drifting uniaxial electron plasma, dispersion relations for, (T), 24:18011
propagation in warm homogeneous magnetoplasma, cyclotron harmonic, (T), 25:17234
propagation in warm homogeneous magnetoplasma, cyclotron harmonic, (T), 23:46513 (SU-IPR-325)
propagation in warm homogeneous magnetoplasma, cyclotron harmonic, (T), 23:46514 (SU-IPR-326)
propagation in warm isotropic plasmas, (T), 21:7230
propagation in warm magnetoplasmas, nonlinear decay processes in, (T), 24:3437
propagation in warm plane stratified plasma, oblique, (T), 24:17995
propagation in warm plasma slabs with normal magnetic fields, oblique, 21:40007
propagation in warm plasma, oblique cyclotron harmonic, 25:17235
propagation in warm stratified electron plasma, singularities of coupled fields in, (T), 25:19756
propagation in warm turbulent magnetoplasma, coherent, (T), 24:32861
propagation in waveguides in presence of axially nonuniform or random perturbations, 21:41897 (CU-EE-100)
propagation in weakly ionized plasma, (T), 21:13558 (AGARD-CP-8(Vol.2), pp 587-618)
propagation in weakly ionized plasma, conductivity from, (T), 21:29255
propagation in weakly ionized plasma, conductivity from, (T), 21:29256
propagation in weakly ionized plasma, dispersion properties of small amplitude, (T), 21:3864
propagation in weakly ionized plasmas, resonant, 21:13592
propagation in weakly turbulent magnetized plasma, (T), 24:28350
propagation of 4- to 24-Hz elf atmospherics, simultaneous measurements of, (E), 25:47378 (AD-713890)
propagation of circularly polarized, in finite temperature electromagnetoplasma, (T), 22:36928
propagation of coupled electrostatic and, in compressible magnetoplasma, 21:42110
propagation of elf and vlf, below an anisotropic ionosphere, (T), 22:13359
propagation of elf, below an anisotropic ionosphere, (T), 22:46016
propagation of elf, between Sun and bow shock, (E), 24:39788 (AD-704564)
propagation of elf, in normal and disturbed ionosphere, (T), 23:39385
propagation of energy in free space by, (T), 21:11720 (ISS-66/27)
propagation of helicon, in solid-state plasma at low-frequency limit, 22:5430
propagation of helicon, in uniform nonresistive plasma, (T), 25:11936
propagation of hf, lf, and ultra lf, magnetospheric diagnostics from ground-based measurements of, 25:5030
propagation of intense, in two-component plasma, (T), 25:30619
propagation of ion cyclotron whistlers, effect of latitude variation of terrestrial magnetic field strength on, 23:39369
propagation of large-amplitude TM, in magnetoactive plasma, (T), 25:59094
propagation of low-frequency, in lower ionosphere, (T), 22:24140
propagation of low-frequency, in magnetosphere, (T), 23:30445
propagation of perturbation over plane surface, 25:36367
propagation of plasma column surfaces, electron density from, (T), 22:44107
propagation of proton gyrofrequency band, in ionosphere, (E), 22:31718
propagation of slow, in moving plasma, (T), 23:5294
propagation of step-function, in ionosphere, (T), 23:42098
propagation of strong cylindrical and spherical, from infinitely weakly ionized plasma, (T), 25:56240
propagation of surface, on plasma column from nonlinear excitation, (E), 22:24293
propagation of vlf and elf, in the magnetosphere, (T), 22:7209
propagation of vlf whistler-mode, through magnetosphere, (T), 25:38226
propagation of vlf, below anisotropic ionosphere models, (T), 22:9230
propagation of wave tails from bounded oscillating electric charge, second approximation to Einstein—Maxwell equations for, 25:59350
propagation on inhomogeneous plasma columns, surface, (E/T), 25:59100
propagation on plasma surfaces, electron density determination from, 21:18645
propagation on plasma surfaces, kinetic theory for, 21:15150
propagation on surface of adjacent plasma flows, (T), 25:36219 (UARAEE-97)
propagation on surface of fluctuating plasma column, (E), 24:30369
propagation on surface of moving plasma column, 23:7004
propagation on surface of plasma, (T), 21:44087
propagation on two parallel radially inhomogeneous plasma cylinders, (T), 23:46522
propagation through axially slotted plasma sheath, 21:11627 (NASA-CR-677)
propagation through cold inhomogeneous plasma, (T), 23:20967
propagation through compressible inhomogeneous plasma, (T), 21:31421 (AFCRL-67-0299)
propagation through conducting plasma slab, (T), 25:52876
propagation through inhomogeneous plasma, from ground plane, (T), 23:39507
propagation through interplanetary space, (T), 22:36560 (N-68-10164)
propagation through magnetoactive plasma, (T), 21:20947
propagation through slowly varying plasma, WKB solution of, (T), 25:30608
propagation through weak inhomogeneities in ionosphere, low-frequency, (T), 25:16973
propagation transverse through mirror-confined plasma, stabilization of, (T), 23:12828
propagation, velocity, and excitation in near-earth plasma, (E/T), 21:37313
quantum correlation effect for free, (T), 25:50174
radiation by charged particles, Wheeler—Feynman absorber theory for damping from, (T), 24:52006
radiation conversion into, in static magnetic fields in vacuum, gravitational, (T), 25:55805
radiation damping in magnetotail current sheet, (T), 23:42081
reactions with interstellar grains, impurity effects on, (T), 21:28938
reflection and propagation in moving plasma, nonlinear, (T), 25:25187
reflection and refraction by moving uniaxially anisotropic plasma slabs, (T), 23:30584
reflection and refraction in moving plasma layers, (T), 23:51738
reflection and refraction on plasma in homogeneous magnetic field, (T), 22:31856
reflection and transmission by moving plasma, 21:33441
reflection and transmission in drifting magnetoplasma, (T), 23:1462
reflection and transmission in homogeneous plasma sheaths, 21:20979

reflection and transmission in inhomogeneous plasma, (T), 25:36228
reflection and transmission in magnetoplasmas, optimum third-harmonic generation in, (T), 25:36244
reflection and transmission in plasma slabs, invariant imbedding method calculation of, (T), 24:3414 (INR-1099)
reflection and transmission in plasma slabs, invariant imbedding method calculation of, (T), 24:3416 (SC-R-69-1368)
reflection and transmission on plasma slab in magnetostatic fields, (T), 24:12860
reflection at boundary of plasma half-space, (T), 25:11939
reflection at boundary of relativistic plasma, (T), 23:16841
reflection at plasma—vacuum boundary, (T), 23:18715
reflection by cold magnetoplasma, (T), 21:11629 (NP-16466)
reflection coefficient for plane-layered lunite medium, (T), 22:827
reflection from boundary of semi-infinite plasma, 23:51740
reflection from cold lossless slab plasma, (T), 23:23206
reflection from D region, partial, (T), 22:47967
reflection from half-space plasma, oblique, (T), 23:36744
reflection from inhomogeneous absorption layer, 24:19920
reflection from inhomogeneous plasma with variable electron density, (T), 24:28357
reflection from interface between stationary and moving plasmas, (T), 25:49953
reflection from ionospheric F2 layer, tripling of, 23:5330
reflection from magnetically active plasma, oblique, (T), 23:44480
reflection from magnetoplasma, oblique, (T), 22:50162
reflection from moving magnetoplasma, (T), 22:22162
reflection from plasma boundaries, 22:1227
reflection from plasma jets, (T), 21:44076
reflection from plasma layers with Epstein profiles of electron density, (T), 23:51722
reflection from plasma with exponentially tapered electron density and fixed collision frequency, 23:44473
reflection from plasma, kinetic theory for, 21:20953
reflection from plasma, nonlinear theory of oblique incident, (T), 25:30626
reflection from semi-infinite warm general magnetoplasma, (T), 21:37308
reflection from stratified magnetoplasmas with perturbed profiles, (T), 21:39903
reflection from vacuum—plasma interface, (T), 24:1466
reflection in plasma, cyclotron echo, (E), 22:31836
reflection in plasma, effects of wall permittivity and plasma thickness on, 23:5428
reflection on anisotropic plasma, circularly polarized, 21:40008
reflection on inhomogeneous plasma layers, (T), 22:44146
reflection on interface of streaming plasma, (T), 23:12921
reflection on plasma, time delay in, 21:37482
reflection on shock waves, frequency shift in, 21:21846
reflection on shock waves, frequency shift in, 21:21846
reflection on shock waves, frequency shift in, 21:21846
reflection on sporadic-E layer, parameters from, 23:51505
refraction and focusing in nonuniform parabolic plasma layer, spherical, (T), 21:18718
refraction in cylindrical plasma, (T), 22:34652 (TID-24491, pp 76-85)
refraction in theta-pinch plasmas, 21:46330 (JUL-493-PP)
refractive index for oblique, in magnetoplasma, (T), 21:9602
scattering and transformation in magnetoplasma, electrodynamics of, 21:18721
scattering and transformation in plasma in electric and magnetic fields, (T), 23:18716
scattering and transformation in plasma in electric fields, (T), 22:22163
scattering at radio frequencies from plasma, (T), 22:24260
scattering by antiferromagnetic materials in strong magnetic fields, (T), 22:29840
scattering by arbitrary configuration, (T), 21:27332
scattering by atoms, coherent resonance, (T), 25:50041
scattering by beams of relativistic particles, (T), 25:9085
scattering by bound electrons, double scattering effects in, (T), 25:19949
scattering by charged particles, nonlinear, (T), 25:40236
scattering by cylindrical inhomogeneous plasma, (T), 22:15538
scattering by cylindrical irregularities in ionospheric plasma, (T), 23:6922
scattering by disturbances in rarefied plasma, (T), 21:25028
scattering by electrons at high energies, polarization parameters of photons emitted from, (T), 23:51900
scattering by ellipsoidal plasma moving along magnetic field, (T), 23:10653
scattering by ferromagnetic crystals, effects of fluctuations near critical point on, (T), 23:44507
scattering by finite objects in compressible plasma, (T), 21:13598
scattering by fluctuations in bounded plasma, reciprocity theorem for, (T), 24:37507
scattering by free electrons, classical theory of intensity-dependent frequency shift in, 22:29604
scattering by free electrons, cross section for second harmonic in, (T), 21:18859
scattering by free electrons, effect of radiation reaction on nonlinear, 21:24940
scattering by free electrons, effects of constant uniform magnetic field on, (T), 22:5477
scattering by free electrons, frequency shift in, 22:17371
scattering by impedance half-plane in anisotropic plasma, (T), 21:780
scattering by imperfectly conducting spheres, 24:49278 (SC-R-70-4277)
scattering by ionospheric irregularities, (T), 23:42092
scattering by magnetized plasma column, resonant absorption in, (T), 25:40712
scattering by magnetoplasma columns, near upper hybrid resonance, (E/T), 25:14382
scattering by nonuniform magnetized plasma column, (T), 24:21839
scattering by nonuniform plasma column, upper hybrid resonance, (E/T), 24:26256
scattering by plasma, electron temperature determination from millimeter-wavelength, (T), 24:23957
scattering by plasma, radiation transport approximation for, (T), 24:49211
scattering by plasma, range of cyclotron resonances from, (T), 25:25181
scattering by rough-surfaced silver foil, plasma radiation from, 21:27196 (D-1-82-0581)
scattering by small moving particles, (T), 22:37061
scattering by static gravitational field, classical and quantum field theoretic results for, 25:33841
scattering by static gravitational field, cross sections for, (T), 25:12138 (NYO-2262-TA-222)
scattering by systems of unknown charges, determination of phases from, 25:7497 (HUX-3780-27)
scattering by turbulent astrophysical plasma, (T), 24:46911
scattering by turbulent plasma, (T), 25:9481
scattering by turbulent plasma, transport equation for multiple, (T), 23:12901
scattering by turbulent pulsations in inhomogeneous magnetoplasma, (T), 23:14832
scattering by upper atmosphere, diagnostic use of, 24:30242
scattering from conducting cylinder with inhomogeneous plasma sheath, (T), 23:39472
scattering from cylindrical inhomogeneous plasma, (T), 24:32865
scattering from magnetic fluctuations in plasma, diagnostic use of optical, 25:30490
scattering from magnetically confined high-temperature plasma, (T), 24:8513
scattering from magnetized plasmas, Booker theorem for, 24:32735
scattering from plasma column, free-space, (E), 23:5432
scattering from plasma of finite size in space and time, (T), 24:26250
scattering from random plasma slab, back-, (T), 24:15368
scattering from turbulent plasma, model for calculating, 25:14364
scattering from underdense plasma slabs, (T), 24:1457
scattering from underdense turbulent plasma, frequency effects of, (T), 24:47290
scattering in anisotropic media, induced combinational, 21:3695
scattering in bounded plasma, nonlinear effects from, (T), 23:36740
scattering in compressible plasmas, boundary-value solutions for, 21:13590
scattering in compressible plasmas, ray optics solutions for, 21:13589
scattering in infinite and semi-infinite media, (T), 25:9009
scattering in inhomogeneous plasma near ion cyclotron frequency, (T), 23:12919
scattering in inhomogeneous plasma, effects on, (T), 21:23199
scattering in nonlinear Born—Infeld electrodynamics, (T), 21:42211
scattering in plasma, dispersion of, (T), 21:16933
scattering in plasma, properties of, (T), 24:10588
scattering in plasma, theory for two-dimensional inverse, 24:51754
scattering in plasma, time behavior of multiple, 21:754 (AD-631339)
scattering in spin-wave resonances in semiconductor antiferromagnets, (T), 25:14488
scattering in time-varying inhomogeneous media, (T), 24:3429
scattering in underdense turbulent plasma, (T), 25:47586 (UCRL-20689)
scattering of plasma half-space, Maxwell—Vlasov equation for, 21:18688
scattering of, conference on, 22:5152
scattering of, random walk approximation for analyzing, 25:3239
scattering on anisotropic hollow plasma column, resonances in, (T), 24:15374
scattering on anisotropic plasma, (T), 21:7267
scattering on anisotropic plasma, diagnostics from, 21:3816 (AD-642123)
scattering on argon, index of refraction from, 21:13552 (AD-641387)
scattering on charged particles in plasma, cross sections for, 22:5327(T) (AD-659875)
scattering on compressible cylindrical plasma, oblique incidence, 21:31450
scattering on critical electron density fluctuations in plasma, use of born theory for, 25:14363
scattering on cylinders and spheres, components for x-ray, (T), 21:3921
scattering on cylindrical plasma, angular distributions from, (E/T), 21:7218
scattering on cylindrical plasmas, (E/T), 22:50126(R) (EUR-CEA-FC-352)
scattering on density fluctuations in cylindrical plasma structures, (T), 21:31449
scattering on density fluctuations in plasma, (T), 21:11623 (N-66-19146)
scattering on dipole center systems, amplitudes for, (T), 21:3632 (JINR-P-2896)
scattering on ellipsoidal plasma formations in atmosphere, (T), 24:49223
scattering on free electrons, frequency mixing in, (T), 22:13613
scattering on free electrons, frequency mixing in, (T), 22:13612
scattering on gases, particle collisional effects on, 21:42108
scattering on geomagnetically trapped electrons, resonance, 22:34496
scattering on half-plane in cold anisotropic plasma, (T), 23:14851
scattering on high-temperature plasma, spectra from, 21:42084
scattering on hot plasma, diagnostic use of two-wavelength, 24:37435 (SIT-2582-33, pp 1-13)
scattering on hydrodynamic pulsations of turbulent plasma, (T), 23:23202
scattering on hydrodynamic pulsations of turbulent plasma, (E), 23:34477(T) (N-69-22179)
scattering on imperfectly conducting spheres, (T), 22:26382 (SC-R-68-1691)
scattering on imperfectly conducting spheres, (T), 22:26383 (SC-R-68-1692)
scattering on inhomogeneous and nonstationary plasmas, (T), 21:42061
scattering on inhomogeneous collisionless cylindrical plasma, (T), 22:29492
scattering on ionosphere, proton gyroresonance in incoherent, 21:40019
scattering on ionospheric irregularities, amplitude and phase scintillations from, 22:47994
scattering on ionospheric irregularities, Brillouin, (T), 22:29333
scattering on ionospheric plasma, effect of electron and ion collisions on Thomson, (T), 25:22420
scattering on magnetized plasma column, dipolar resonances in plane, 24:51753
scattering on magnetoplasma, stimulated Brillouin effect from, 22:9345
scattering on moving cylinder with plasma coating, (E/T), 23:51739
scattering on nonhomogeneous rotating ellipsoidal plasma, (T), 22:9376
scattering on nonpolarized neutron targets, (T), 23:1576
scattering on nonuniform cylindrical plasma, diagnostics from, 21:35137 (CEA-R-3133)
scattering on plasma in external electric fields, oscillations from, 21:44091
scattering on plasma in waveguides, (T), 24:18015
scattering on plasma jets, spectra from, (T), 22:19987
scattering on plasma mixtures, density determination from, 25:52791(P)
scattering on plasma, characteristic curves for collective, (T), 25:14375
scattering on plasma, cross sections for, 21:5255
scattering on plasma, cross sections for fundamental modes of, 23:3485
scattering on plasma, density and temperature determination from, (T), 24:3319
scattering on plasma, density determination from small-angle, (T), 23:18606
scattering on plasma, density measurement from phase changes in, 22:46130
scattering on plasma, detection limits for diagnostic use of, 25:36101
scattering on plasma, energy conversion in, 23:6988 (NP-17701)
scattering on plasma, induced Compton effect in, (T), 23:42285(T) (AEC-tr-7051)
scattering on plasma, nonlinear processes in, (T), 24:24094
scattering on plasma, oblique incidence, (T), 22:19994
scattering on plasma, statistical properties of coherent, (T), 21:13588
scattering on relativistic plasma, depolarization in, (T), 22:26366
scattering on spherical particles, transfer function for, (T), 21:23357
scattering on trapped electrons in magnetosphere, cyclotron and whistler, (E), 23:44280
scattering on turbulent plasma, shf, (T), 25:58996
scattering on turbulent weakly ionized plasma, (T), 22:36940
scattering on underdense plasma, multiple, (T), 23:30587
shapes of atmospherics, (E/T), 22:34455
shielding against, recommendations for premise and room, 24:28393(T) (CERN-Trans-69-21)
shielding of, performance of spheroidal shells for, 21:815 (SC-R-66-966)
solar-flare effects on vlf chorus recorded at Syowa Base, (E), 23:25090
spectra from Crab Nebula, model for, (T), 24:23621
spectra in bow shock, ion-cyclotron to electron-cyclotron, (E), 25:45375
spectra in degenerate electron fluid in magnetic field, 22:29655
spectral analysis of elf noise band observed by Alouette 2, (E), 23:42061
sudden decreases of atmospherics at 5 kHz, (E/T), 25:40503
sudden enhancement effects on elf atmospherics, relation to solar radio emission and flares, (E/T), 25:40503
sudden enhancements of field of, correlation with solar x-ray bursts, (E), 25:58888
sudden phase anomalies in 223-Hz, correlation with solar x-ray bursts, (E), 25:58888
symmetry of plane polarized transverse, space—time, (T), 24:28457
theory for linearly polarized, transverse, plane, electromagnetic compensating gauge transformations in, (T), 25:50169
theory of mechanics of radiation, 21:18863
time-dependent Green's function for, in moving simple media, (T), 21:17004
trajectories in ionosphere determined from Haselgrove theory, (T), 25:47412
transformation and absorption in plasma, hf, (E/T), 25:38516 (CONF-710607-140)

transformation in weakly inhomogeneous plasma, (T), 21:18675
transformation into longitudinal oscillations in inhomogeneous plasma near conducting surface, (T), 25:52859 (KHFTI-70/54)
transformation into plasma waves, coupled equations for, (T), 25:59105
transmission through ionosphere, ultrashort coherent pulsed, (T), 21:43901
transmission through plasma slabs having specified electron density-collision frequency profiles, (T), 24: 3417 (SC-R-69-1369)
travel time to space vehicles in solar orbits, general-relativistic effects on, (T), 25:11602
use for plasma diagnostics, (T), 21:15120
use for radiotherapy, physical factors in, 22:49442
use of millimetric and submillimetric, for plasma diagnostics, 25:33217(T) (MATT-Trans-9)
use of potential well between two counter, for particle acceleration, 21:29764
use of slowed down plane, for acceleration of charged particles, 21:29765
use of uhf, for plasma pinch studies, 22:44089 (NP-17570)
use of vhf, for plasma diagnostics, 21:39990
use with dielectric probes for plasma diagnostics, (T), 25:49880
uses in control of insect populations, review of, 21: 34748
velocity in quantum electrodynamics, (T), 21:9848
wavelengths in ionized media, design of device for determining, 23:30580 (CEA-R-3740)
ELECTROMAGNETISM

calculation of tubular helical, in weak axial-symmetric magnetic mirror, 22:52737
calibration for therapy, ionization chamber for, 24:14251
cathode for, design of, 25:25585(P)
characteristics in 10^3-A pulsed accelerators, 21:38093
charge density of, tri-electrode gun for increasing, 24: 1703
charge distribution in linac, measurement of, 24:5373
charge-exchange of ion beams by impact with, 22: 9724(T) (ANL-Trans-535)
chopper for, using beat frequency method, 24:13259
collimation in irradiation facility, use of magnetic field for, 21:41093(P)
collimation of betatron internal, 24:1704
collimation of Stanford Linear Accelerator, design of equipment for, 21:39088
collimator and scattering foil for 10- to 20-MeV, 25: 43767
collimator for Stanford Linear Accelerator, design of, 22:29821
collimator for Stanford Linear Accelerator, design of, 21:19833
collimator for, design and performance of, 22:10583
compression of ribbon, magnetic field, (T), 21:24933
conference on science and technology of, 2nd international, New York City, 4/66, 24:26304
conference on science and technology of, 2nd international, New York City, 4/66, 24:25658
containment in storage rings, dimensions and lifetime of, 21:9876(T) (SLAC-Trans-54)
control and monitoring of, in accelerators, 22:11845(P)
control and shaping of, in Stanford Linear Accelerator, 21:14367
critical currents in quasi-neutral, with compensated space charge, (E), 25:33921
critical currents of compensated and noncompensated relativistic, in drift space, 23:39890
current and energy for accelerator, equipment and method for measuring, 21:37970
current density and impedance characteristics of, from pulsed, high-current, field-emission cathodes, 23:27945
current density distribution of, study of, 25:43736
current density of, space-charge equations for cathode, (T), 21:2235
current density profile of 10- to 200-eV, design of automatic plotter for indicating, 21:41299
current in electrostatic velocity selectors, maximum useful, 22:16951
current in, invariance principle for brightness, 21:33141
current integrator for pulsed, 25:3517
current measurement in, technique for, 21:2017(T) (ORNL-tr-1383)
current measurements of, design and performance of shielded and unshielded Faraday cups for, 21:33817
current modulation by beam deflection in, 21:43829
currents in relativistic, critical, (T), 23:39293 (NP-17964)
defects induced in silicon by 45-MeV, annealing behavior and stress response of, (E), 21:9671
deflection aberrations, computer calculation of magnetic, 22:11206
deflection in magnetic fields of, spot distortion caused by, (T), 22:7146
deflection in magnetic systems, beam spread compensation for, 21:29019
deflection of, coma-dominated aberration in magnetic, (T), 21:43814
density of, conditions for super, 21:16835
density profile measurements of, metastable atom probe for, 25:21478
depth dose studies in hair of mice in relation to skin-sparing effect in therapy, high-energy, 23:35861 (ACRH-31, pp 45-53)
diffraction patterns produced by coherent, nonuniform magnetic field effects on, (T), 21:20758
diffraction study of cleaned (110) surfaces of niobium, (E), 21:42181
dimensions and lifetime in storage rings, 21:33824
dimensions and lifetime in storage rings, effects of number of particles on, 21:33825
directional distribution from accelerators at 1.5 to 8 MeV for irradiation, calculated and measured, 24:15739
divergence in magnetic-free region, (T), 21:9296
dose absorbed in carbon and water, ratio of, to cavity chamber ionization at various depths, 23:9833(R) (NYO-910-69)
dose calibration and distribution measurements of high-energy, use of lithium fluoride thermoluminescent dosimeters for, 21:1652
dose distribution in deep tissue therapy, 24:715
dose distribution in tissues, calculation of 25 keV to 1 MeV, 23:38577
dose distribution of 15-MeV, use of lithium fluoride thermoluminescent dosimeters for measuring, 21: 34496
dose rates at points in, ionization detector system for measuring differences in, 25:51916
dose rates from, relation to sample sizes, (T), 21:26989
dosimetry at 12 to 32 MeV, performance of glass photoluminescent dosimeters for, 25:42169
dosimetry for therapy of neoplasms, 23:12099
dosimetry for therapy, use of deflection magnet current to control, 21:41406
dosimetry of 18 MeV, for irradiation of oral cavity, 21: 12880
dosimetry of high-energy, NBS Fricke dosimeter for, 23: 22102
dosimetry of high-intensity pulsed, calorimeters for, 25: 4379 (SC-TM-69-298)
dosimetry of intense pulsed, thermoelastic response method for, 25:8569
dosimetry of intense, at 5 to 43 MeV, sensitivity of thermoluminescent dosimeters for, 25:42167
dosimetry of linac, p-i-n diode for, 25:48934
dosimetry of pulsed, performance of aluminum, copper, and titanium calorimeters for, 21:6309
dosimetry of, generated by Van de Graaff accelerators using cellophane, 21:10686
dosimetry of, use of polyvinylchloride films for, 21: 16207 (RISO-141)
dynamics of pulsed high-current relativistic, review on, 25:50390
effects of 1-MeV, on dielectrics, (E/T), 23:7058
effects of electron microscope, on defects in aluminum and copper specimens, 24:8040 (AERE-R-5944(Vol.2))
effects of focusing of, on production of welds by, 23: 14305 (CEA-CONF-1051)
effects of high-voltage electron microscope, on void growth in nickel at 280 to 480°C, 25:16551
effects on bacteria, bacteriophages, mammalian cells, and yeasts, 23:11995(R) (ORO-2832-74)
effects on radiosensitive dyes and inks for protection against forgery, 24:36294(P)
effects on survival of cultured hamster cells, effects of mitotic stage on, 23:45868
effects on water phantoms, hazards of induced thermal neutrons following high energy teletherapy, 23:43828
electric fields of, in plasma, coherent acceleration of protons by, 21:13748 (CONF-650923-32)
electric potential of, in electron-impact ion sources, (E), 21:628
electromagnetic radiation from, in linac section, 25: 50409
electrostatic focusing of, in symmetric planar structure, 21:9333
emission from magnetoplasmadynamic arcs, (E), 23: 32404
emission from Penning discharges, microwave resonator induced, 21:7007
emission of relativistic, from pulsars, (T), 23:46181
energy analysis of 23-keV pulsed, (E), 21:41772
energy analysis of low-energy large diameter, design of electrostatic lens for, 25:22948
energy broadening of, effect of electron source on energy resolution in velocity analysis of, (E), 23:14634

energy calibration of 20- to 40-MeV, threshold reactions for, 23:50504
energy calibration of high-energy, from betatrons and linear accelerators, magnetic and threshold techniques for, 23:50760
energy calibration using threshold energies of photodisintegration reactions, 24:26562
energy deposition in matter, formulation of, 22:31609
energy determination above 5 GeV, method for, 25:56609(P)
energy determination of, by dynamic programming methods, 24:6786
energy determination of, using neutron production monitoring, 25:31173(R) (RPI-328-200)
energy dissipation for normally incident, monoenergetic, algorithm for calculation of, 23:30630
energy distribution from electron guns, perturbing factors affecting, 22:22497
energy distribution in, effects on results of impact experiments, (T), 24:39820
energy distribution in, moving in longitudinal external magnetic field, (T), 25:25273
energy from betatrons for radiotherapy, use of absorbers for decreasing, 22:51696
energy loss straggling of helical, in thin magnetized foils, (T), 23:39297
energy measurement, spectroscopic method for, 25:33228
energy monitoring by attenuation in metal foils, 24:26560
energy of, design of equipment for dissipating, 22:41912
energy of, method for measuring, 21:14477
energy recovery of, device for, 25:53453
energy relaxation in, mechanism of, 21:16833
energy resolution of bunched, effects of drift distance on, 25:50563
energy spread in, kinetic theory of, (T), 23:25131 (BMwF-FBK-69-3, pp 21.1-13)
equations for, degenerate solutions of, 22:43914
equilibrium and stability of magnetically confined relativistic, (T), 25:56130
equilibrium characteristics of high-current rings of, in time-varying betatron magnetic fields, static and dynamic, 23:37051
equilibrium configuration of high-intensity, force-free, 25:14272
equilibrium of intense relativistic, in toroidal magnetic fields, 25:47703
equilibrium of relativistic, in toroidal magnetic geometries, (T), 25:33323
experiments employing retarding potential difference technique, use of multichannel analyzer in multiscaling mode for, 23:31582
filters and protective devices for high-energy, used in radiotherapy, 22:51694
focusing and transport of high-current charge-neutralized, in conducting boundaries, 25:56596 (SC-RR-710436)
focusing by axially symmetric magnetic fields, (T), 21:24936
focusing by magnetic fields, effect of local inhomogeneities on pulsations at edges, (E/T), 25:3524
focusing by magnetic fields, effect of thermal velocities on, 22:53059
focusing by magnetic fields, effect of thermal velocities on, 22:53060
focusing by periodic and uniform magnetic fields, comparison of, (T), 21:28990
focusing by periodic electrostatic fields, axially-symmetric, (T), 21:41805
focusing by transaxial alternating magnetic field, 21:7615
focusing by two-dimensional deflection, 21:33175
focusing for uniform irradiation, stationary magnetic field calculations for, 23:49290
focusing in electric and magnetic fields, 21:11391 (N-66-19088)
focusing in ion source, 21:24907
focusing in magnetic field, control system for constant, 22:39514(P)
focusing in periodic magnetic fields with additional electric fields, 21:20743
focusing in reversible magnetic fields, 23:49285
focusing in solenoid, measurement of magnetic field alignment for, 24:47540
focusing in superconducting lens system at 75 to 4 MeV, (E/T), 22:17563
focusing in superconducting magnetic lenses, (T), 21:31381
focusing in uniform accelerating space, effect of ionic space charge on, 23:19079 (GEPP-49)
focusing in varying electric and magnetic fields, scalloping behavior in, 22:24045
focusing in weak electromagnetic lenses, paraxial equations for, 24:1713
focusing of elliptic cross sectional, periodic electrostatic, 22:2781
focusing of high-power relativistic, using magnet systems, 24:51638 (AD-706040)
focusing of hollow spiraling, design of electrostatic lens system for, 22:53038(R) (AD-667906)
focusing of intense relativistic, self-, 21:761 (AD-634634)
focusing of relativistic, axially symmetric magnetic lenses for, 21:43780
focusing of relativistic, in drift and accelerating regions, 22:46644
focusing of ultrarelativistic, in linear accelerator, analysis of, 22:22486 (LAL-1178)
focusing of, electric field performance for, 21:2018
focusing of, electrostatic optical systems for, 22:7602
focusing of, instrument for locating magnetic field axis for, 22:49161
focusing of, optics for, 21:20765
focusing of, properties of Hughes—Rojansky capacitors for, 23:15325
focusing of, properties of, (T), 21:14959
focusing of, techniques for analysis of self-, 21:16834
focusing of, use of Glaser lenses for axisymmetric, 23:27998
focusing of, use of hemispherical grids for, 21:16786
focusing properties of magnetic laminas for microtron, vertical, 21:37976
focusing system for irradiation device, quadrupole lens, 24:26554
focusing using periodic permanent magnets, trajectory calculations for, 21:11433
focusing with thin quadrupole lenses, 22:7578
frequency multiplication of, in electrostatic multipole field, (T), 21:24930
frequency-multiplying in, effects of increasing magnetic field on device for, 21:14970
gyrofrequency of, Doppler shift of, (E), 22:43874
handling systems for accelerators, development of, 21:38109
injection and confinement in closed systems, method for, 24:37431
injection and temporary capture in magnetic mirror geometries, (E), 23:23063 (CEA-R-3568)
injection between equipotential planes, behavior beyond critical purveyance, 21:28989
injection in accelerator tubes with circular iris, model for transitory phenomena during, 22:26756
injection in low-pressure hydrogen-filled chamber, correlation between beam-front velocity and proton velocity, 24:47542
injection into Astron device, technique for relativistic, 24:45284
injection into closed magnetic traps, method for, (E), 23:44407(T) (AEC-tr-7082)
injection into closed toroidal systems, method for, (E), 23:12741 (NP-17743)
injection into cusped magnetic fields, relativistic, (E), 24:51601 (AD-706041)
injection into magnetic mirror machines, plasma production in, (E), 25:49906
injection into magnetic mirror systems, method for, 21:15089
injection into magnetic mirror traps, effects of space charge on, 22:41538(T) (NP-tr-1672)
injection into magnetic mirrors, relativistic, (E), 25:27688 (WASH-1159, pp 193-5)
injection into magnetic traps, critical adiabaticity parameter for, (E), 25:40845
injection into thermonuclear devices, time-dependent magnetic fields from, (T), 23:14752
injection of intense relativistic, into cusped magnetic field, (E), 24:28228
intensity of, electronic device for measuring, (E), 21:6292
intensity of, with energies greater than 200 MeV, design of Cherenkov detector for monitoring, 23:22042
interaction with electromagnetic waves propagating obliquely to magnetic field, dispersion equations for spiraling, (T), 25:25274
interaction with plasma, instabilites from, (T), 25:1229
interactions in crossed fields, instabilities from, (T), 23:5431
interactions in disk-loaded waveguide at high energy, synchrotron radiation from, 25:12317
interactions in plasma, finite length bound instabilities in, (T), 23:25361
interactions in plasma, promotion of hose instability in, (E), 21:16955
interactions in slow-wave ridged waveguide of high-current relativistic, 25:11932
interactions in thick beryllium target at 16 GeV, small-angle meson (π) beam production from, 21:17229
interactions of colliding, radiative effects in, (T), 21:13355(T) (SLAC-Trans-52)
interactions of cyclotron waves with traveling electromagnetic waves in, 24:1719
interactions of double-stream, (T), 22:5150
interactions of modulated relativistic, with plasma, (T), 25:38443
interactions of relativistic, with laser radiation, Compton effect in, 22:7141
interactions of spiraling, with plasma, instabilities from, 22:46144 (TID-24666, pp 96-102)
interactions of, radial, (T), 22:2805
interactions with air and oxygen, electric conductivity measurement from, 21:7275 (UCRL-50137)
interactions with argon and helium, plasma production in, (E), 24:6547
interactions with argon plasma, wave interactions from spiraling, (E/T), 24:42665
interactions with beam-generated plasma in plane diode configuration, (T), 25:40614 (N-71-17824)
interactions with bounded cylindrical plasma, oscillations from, 23:3496
interactions with bounded finite-temperature plasma, dispersion properties of, (T), 23:36687
interactions with bounded magnetoplasma, boundary conditions for, (T), 21:5283
interactions with bounded magnetoplasma, energy losses in, (T), 22:39121
interactions with bounded plasma, instabilities from relativistic, (T), 23:18641 (AD-672283)
interactions with bounded plasma, relativistic, 23:8628
interactions with bounded plasma, surface wave analysis for, (E/T), 23:39504 (SU-IPR-302)
interactions with cesium plasma diodes, diagnostic use of, 21:42040
interactions with cesium plasma, microwave amplification in, 22:9322
interactions with cesium plasma, oscillations from, (E/T), 24:3324
interactions with cold homogeneous plasma, nonlinear, (T), 25:33274
interactions with cold magnetized plasma, return current from relativistic, (T), 25:33275
interactions with cold magnetoplasma, synchrotron radiation from, (T), 23:23152
interactions with cold plasma of cylindrical, linear theory of, 24:8512
interactions with cold plasma, heating processes in, (E), 25:49871
interactions with cold plasma, wave interactions from, (T), 22:34657 (TID-24491, pp 131-6)
interactions with collisionless plasma discharge, thermal explosion from, (E/T), 25:43372
interactions with collisionless plasma, dispersion relations for linear waves from, 25:56170
interactions with collisionless plasma, energy transfer in, (T), 21:3835 (AD-641639)
interactions with collisionless plasma, nonlinear evolution of, (T), 25:40634
interactions with collisionless plasma, nonlinear time evolution of, (T), 24:21801
interactions with collisionless plasma, oscillations from, (T), 21:15170
interactions with collisionless plasma, selective excitation of harmonics from double counterstreaming, (T), 24:12834
interactions with confined plasma, instabilities from, (T), 25:7401
interactions with coupled spin-plasma waves in magnetically ordered semiconductors and metals, (T), 23:48971
interactions with dense plasma focus, neutron enhancement from, (E), 25:52857
interactions with dense plasma targets, collective deceleration of relativistic, (T), 25:33266(T) (ORNL-tr-2432)
interactions with dense plasma, collective slowing down of intense relativistic, (T), 25:14292
interactions with dense plasma, intense monoenergetic, (E/T), 25:30504
interactions with dense plasmas, self fields and currents from relativistic, (T), 25:56166 (NP-19012)
interactions with double-stream plasma, instabilities in, (T), 25:36174
interactions with electromagnetic waves, electric field determination from, 21:31245
interactions with electron plasma, Fokker—Planck analysis of relaxation in, 21:29281
interactions with electrostatic waves in plasma, instabilities from, 22:50178
interactions with fast magneto-acoustic waves in plasma, shf radiations from, (E), 24:40070
interactions with fast magnetoacoustic waves in plasma, (E), 23:32386
interactions with finite-amplitude plasma waves, theory for nonlinear relativistic, 24:35423
interactions with finite-beta plasma, equilibrium of relativistic, (T), 25:11887 (NYO-4077-1, Paper 5)
interactions with gases at intermediate and high gas densities, (T), 21:7022
interactions with gases in waveguides, plasma density from, 21:5304
interactions with gases, ion acceleration in, (E), 25:27696 (WASH-1159, pp 204-18)
interactions with gases, plasma production in nonvacuum, 22:34714
interactions with gases, variations in Townsend ionization coefficients for, 21:2023
interactions with helium plasma in collector with ionization cavity, 24:10559
interactions with helium plasma, electron cyclotron radiations from, 21:15126 (IPP-2/53)
interactions with helium plasma, electron velocity distributions in, 23:8603
interactions with helium plasma, microwave radiations from, (E), 22:29497
interactions with helium plasma, spectra analysis of, (E), 24:21780 (UCRL-50002-69, pp 151-67)
interactions with helium, fluorescence from, 21:29010
interactions with hf oscillations in plasma, (E), 24:37457
interactions with homogeneous cold plasma, (E/T), 23:32369 (SU-IPR-276)
interactions with homogeneous cold plasma, theory for, 23:32415 (SU-IPR-275)
interactions with homogeneous plasma, dispersion relations for linear waves from, (T), 25:56169
interactions with hydrogen magnetoplasma, properties from, (E), 22:39122
interactions with hydrogen plasma, ion cyclotron harmonics from, (E), 23:39465
interactions with hydrogen plasma, stationary distribution from, (T), 24:49165
interactions with hydrogen-ion clusters, dissociation in, 25:3109 (CEA-CONF-1610)
interactions with inhomogeneous finite plasma, quasi-linear relaxation in, 24:3372
interactions with inhomogeneous plasma in magnetic field, phase velocity and growth rate of instability modes in, (T), 24:28365
interactions with inhomogeneous plasma, electron—ion oscillations from, (E), 25:30506(T) (MATT-Trans-84)
interactions with inhomogeneous plasma, electrostatic wave propagation and amplification in, (T), 24:3376
interactions with inhomogeneous plasma, instabilities from, (T), 24:17961
interactions with inhomogeneous plasma, oscillations from relativistic, (T), 23:12836
interactions with inhomogeneous plasma, oscillations from, (T), 25:17183
interactions with inhomogeneous plasma, quasi-linear relaxation in, (T), 23:46471(T) (NP-tr-1837)
interactions with inhomogeneous plasma, quasilinear relaxation in, (T), 23:42319
interactions with inhomogeneous plasma, theory for weak, 23:42321
interactions with inhomogeneous plasma, transformation of waves and electron heating in, (T), 24:3367
interactions with inhomogeneous plasma, wave transformation and absorption in, (T), 23:25408
interactions with ionosphere, wave—particle interactions from, (E), 25:35967

interactions with layered dielectrics and plasma, resonance propagation in, 21:16950
interactions with layered plasmas, radiation spectra from, 21:3854
interactions with liquid helium, attenuation and lifetime of hot, (E), 23:34260
interactions with magnetically confined plasma, turbulent heating in, (E), 25:38341 (CONF-710607-49)
interactions with magnetized plasma, electron scattering by electrostatic fluctuations in, (E), 25:27699
interactions with magnetized plasma, excitation of characteristic oscillations in, (T), 24:1431
interactions with magnetized plasma, instabilities from, (E/T), 23:18616
interactions with magnetized plasma, radiations from relativistic, (T), 23:10636
interactions with magnetized plasma, rotational effects of, (E), 25:47527
interactions with magnetized plasmas, heating in, (E), 25:58972
interactions with magnetoactive plasma, wave excitation in, (T), 24:40092
interactions with magnetoplasma in waveguide, transformation of longitudinal into transverse energy in cyclotron, 25:3080
interactions with magnetoplasma, Bernstein mode excitation in, (E), 25:25179
interactions with magnetoplasma, characteristic oscillations from, (T), 24:1430
interactions with magnetoplasma, coherent Cherenkov radiation from, (T), 25:22526
interactions with magnetoplasma, electron—ion oscillations from, (E), 25:30505(T) (MATT-Trans-83)
interactions with magnetoplasma, hydromagnetic instabilities from, (T), 22:26308
interactions with magnetoplasma, oscillations from, 21:35165 (IPP-2/61)
interactions with magnetoplasma, oscillations from, (T), 22:19977
interactions with magnetoplasma, oscillations from, (T), 22:22146 (NP-17389)
interactions with magnetoplasma, wave excitation in, (T), 21:7264
interactions with magnetoplasmas, suppression of Bernstein waves in, (E), 25:22514
interactions with Maxwellian plasma at finite temperatures, dispersion relations for hf, (E/T), 24:10517 (N-70-11397)
interactions with Maxwellian plasma, nonlinear processes in, (T), 24:49145 (COO-2059-2)
interactions with Maxwellian plasma, temperature effects on hf, (T), 24:21799
interactions with mercury plasma, instabilities from slow, (E), 25:9447
interactions with mercury-discharge plasma, properties from transverse modulated, 21:37454 (SU-IPR-141)
interactions with mirror-confined hydrogen plasma, ion heating in, (E), 21:18623
interactions with mirror-confined plasma, heating in, 21:20921
interactions with mirror-confined plasma, instabilities from, (E/T), 23:10650
interactions with mirror-confined plasma, ion heating in, (E), 24:49114
interactions with mirror-confined plasma, wall potential effects on, (E), 23:23125
interactions with molecular hydrogen plasma, ion heating in, (E), 25:3054 (CEA-CONF-1611)
interactions with narrow tape helix, Smith—Purcell radiation from, 22:11203
interactions with neutral gas streams, plasma production in, 25:3113
interactions with neutral gas, turbulence from, (T), 25:9455 (AD-705265)
interactions with nitrogen, collision wave structure in, 22:9377
interactions with nitrogen, rotational temperature measurements from, 22:9038
interactions with nonisothermal plasma, Langmuir wave decays in, 22:3057
interactions with oscillations in homogeneous plasma, (T), 25:52827
interactions with pinched plasma, reverse current induction in, (T), 24:10538
interactions with plasma and neutral gas, relativistic, 25:25110
interactions with plasma at 17.7 keV, microwave radiations from, (E), 22:29511
interactions with plasma at finite temperature, instabilities from, (E/T), 23:39456 (SU-IPR-297)
interactions with plasma cavities, lf modes from modulated, (E/T), 25:40618
interactions with plasma density gradients, one-dimensional, (T), 24:45264 (ORNL-4545, pp 9-37)
interactions with plasma flute instabilities, stabilization of, (T), 24:45270
interactions with plasma in closed magnetic traps, heating in, 22:46114(T) (N-68-24459)
interactions with plasma in cold-cathode Penning discharges, radiations from, (E/T), 21:35153 (CEA-R-3081)
interactions with plasma in magnetic fields, excitation of Bernstein modes in, (E), 24:30331
interactions with plasma in magnetic fields, oscillations from, (T), 23:14799
interactions with plasma in magnetic mirror fields, heating in, (E), 23:32315
interactions with plasma in magnetic mirror traps, heating in, (E), 23:32314
interactions with plasma in magnetic mirror traps, heating in, 24:47189(T) (AEC-tr-7160)
interactions with plasma in magnetic mirrors, electron heating in, (E), 24:8432
interactions with plasma in magnetic mirrors, heating in, (E), 23:18581 (CONF-680113-(Vol.1), pp 289-318)
interactions with plasma in magnetic mirrors, heating processes in, (E/T), 24:6509 (NP-18059)
interactions with plasma in magnetic mirrors, instabilities from, (E), 24:30330
interactions with plasma in magnetic mirrors, method for injecting, (E), 23:36676
interactions with plasma in magnetic mirrors, production kinetics and oscillations in, (E), 23:39464
interactions with plasma in magnetic traps, instabilities from, 22:46173
interactions with plasma in open traps, heating in, (T), 24:12783
interactions with plasma in uniform magnetic field, electron heating in, (E), 23:12752
interactions with plasma in uniform magnetic fields, instabilities from, (E), 22:17650
interactions with plasma in uniform magnetic fields, fast neutron fluxes from, (E), 24:49135
interactions with plasma of cylindrical, wave growth in, (E/T), 24:8511
interactions with plasma of, produced in turbulent linear discharge, heating from, (E/T), 24:1369
interactions with plasma waves, heating and acceleration in, (T), 23:18583 (CONF-680113-(Vol.1), pp 391-406)
interactions with plasma, absorption of waves in, 22:17649
interactions with plasma, amplification in, 21:13550 (AD-639057)
interactions with plasma, amplification in, 21:46352
interactions with plasma, amplification in, 21:46372
interactions with plasma, amplification in, 22:3121
interactions with plasma, amplification in, 22:5340
interactions with plasma, amplification in, 23:3498
interactions with plasma, amplification of uhf radiations from, (E), 24:5163
interactions with plasma, anomalous scattering and phase focusing of modulated, (T), 23:51653
interactions with plasma, beam distribution functions for, 25:17156
interactions with plasma, beam energy spread and radiations from, (E), 22:31806 (ORNL-4238, pp 67-104)
interactions with plasma, beam modulation effects on wave growth in, (E), 25:36227
interactions with plasma, Bernstein wave excitation in, (E), 25:56241
interactions with plasma, boundary effects on instabilities from, (T), 23:48899 (AD-690128)
interactions with plasma, calculation of visible radiations from, 21:20945 (ORNL-TM-1797)
interactions with plasma, Cherenkov coupling for amplification in, (T), 21:768
interactions with plasma, Cherenkov coupling for amplification in, 21:769
interactions with plasma, coherent domains in parameter spaces inherent in, (E), 21:37463
interactions with plasma, coherent radiations from, (E), 24:3350
interactions with plasma, cold- and warm-plasma theories for, 21:16906
interactions with plasma, collision processes from relativistic, (T), 25:45472 (NP-18942)
interactions with plasma, collisionless relaxation of ultra-relativistic, (E/T), 25:38414 (CONF-710607-68)
interactions with plasma, collisionless thermalization in, (E), 23:36674
interactions with plasma, computer model of, 22:9308 (TID-24203, pp 73-134)
interactions with plasma, computer program for analyzing, 24:35414 (SC-RR-70-314)
interactions with plasma, computer simulation of, 21:44066 (NASA-SP-153, pp 217-35)
interactions with plasma, conference papers on, 24:8424
interactions with plasma, control of instabilities in, (E), 23:32376
interactions with plasma, coupled-mode description of, (T), 24:10539
interactions with plasma, critical current problem in relativistic, 24:42679(T) (UCRL-Trans-10470)
interactions with plasma, critical currents of relativistic, 24:28248 (NP-18233)
interactions with plasma, current density calculation for, 25:14321
interactions with plasma, current-convective instabilities from, 22:7276(T) (UCRL-Trans-10149)
interactions with plasma, current-convective instability in, 22:13522
interactions with plasma, cyclotron harmonic noise from, 21:46373
interactions with plasma, decay of, 22:5348
interactions with plasma, density decay and oscillations from, (E/T), 22:34654 (TID-24491, pp 118-22)
interactions with plasma, density effects on relativistic, (T), 24:17937
interactions with plasma, density effects on wave transformation in, (E/T), 25:59104
interactions with plasma, diagnostic use of, 21:9541 (UTIAS-120)
interactions with plasma, dispersion relations for, 21:20955
interactions with plasma, dispersion relations for low-density, 22:41596
interactions with plasma, dispersion relations for excited waves in, 24:45296
interactions with plasma, distribution functions for, (T), 24:37464
interactions with plasma, distribution functions for, (E), 23:34415
interactions with plasma, Doppler shifts at cyclotron frequency in, (E), 25:58997
interactions with plasma, dynamic effects of high nu/gamma, (E), 24:51641 (AD-708032)
interactions with plasma, E-layer precession in, (T), 25:11925 (NYO-4077-1, Paper 2)
interactions with plasma, echo method for diagnostics of, 24:26154
interactions with plasma, effect of collisions on instability in, (E/T), 25:9494
interactions with plasma, effect of electron collisions on instabilities in, (E/T), 25:22499
interactions with plasma, effects of pair scattering on stability of, (T), 23:51703
interactions with plasma, effects on plasma stability, 22:3107
interactions with plasma, electric field determination from, 21:11633(R) (SU-IPR-124)
interactions with plasma, electric field measurement from, 21:3897(R) (SU-IPR-106)
interactions with plasma, electroacoustic waves from, (T), 22:24326
interactions with plasma, electromagnetic wave excitation by relativistic, (T), 25:49931 (NP-18982)
interactions with plasma, electromagnetic wave excitation in, (T), 25:36235
interactions with plasma, electromagnetic wave production in, (E), 23:18639(P)
interactions with plasma, electron acceleration at beam instability, (E), 23:34417
interactions with plasma, electron acceleration in, (E), 23:46468
interactions with plasma, electron cyclotron instabilities and hf ionization in, (E), 23:23124
interactions with plasma, electron density measurement in, 22:44106
interactions with plasma, electron heating and turbulence in, (E), 24:35375
interactions with plasma, electron heating in, (E), 23:46450 (CEA-CONF-1313)
interactions with plasma, electron heating in, (E), 25:36118
interactions with plasma, electron heating in, (E/T), 23:12911
interactions with plasma, electron oscillations from, (E), 21:7257
interactions with plasma, electron resonance heating in, (E), 23:36646 (NP-17945)
interactions with plasma, electrostatic oscillations from, 21:27218
interactions with plasma, energetic ion emission from, (E), 24:12803
interactions with plasma, energy loss from, (T), 21:16937
interactions with plasma, energy loss in, (E), 21:3841(T) (AD-639428)
interactions with plasma, energy losses in, 21:33457
interactions with plasma, energy relaxation from cathode, 22:5353
interactions with plasma, equilibrium and stability of intense relativistic, (T), 24:28295
interactions with plasma, excitation and control of relaxation oscillations during, (E/T), 25:40593
interactions with plasma, excitation of Bernstein modes in, (E/T), 22:52819
interactions with plasma, excitation of hf oscillations in, (E), 23:27622
interactions with plasma, excitation of ion cyclotron harmonic waves in, (E), 22:22185
interactions with plasma, excitation of ion-cyclotron resonance in, (E/T), 21:39972 (TID-23971, pp 123-212)
interactions with plasma, excitation of lf oscillations and control of two-stream instabilities in, (E), 24:12809
interactions with plasma, excitation of longitudinal waves in, (T), 24:3373
interactions with plasma, excitation of nonlinear waves in, (T), 25:52872
interactions with plasma, excitation of surface modes in, (E), 23:44406 (AD-686374)
interactions with plasma, excitation of surface oscillations in, (E), 23:32410
interactions with plasma, excitation of whistler modes in, (E), 23:25322
interactions with plasma, fast beam-switching gun for, 23:39459 (D-1-82-871)
interactions with plasma, fine structure of distribution function for, (E), 25:1193
interactions with plasma, fine structure of distribution function for, (E), 25:52811
interactions with plasma, finite amplitude electrostatic waves from nonlinear, (T), 25:43365
interactions with plasma, finite moliere scattering in, (T), 25:45471 (AD-874659)
interactions with plasma, finite-geometry effects on nonlinear development of, (T), 24:17928
interactions with plasma, finite-temperature relativistic, (T), 25:22530
interactions with plasma, flute-like instabilities from relativistic, (T), 24:35463
interactions with plasma, formation of hot electron component in, (E/T), 24:49214
interactions with plasma, frequency multiplication in, 22:46141(R) (N-68-25551)
interactions with plasma, frequency reduction factors for, (T), 23:25353
interactions with plasma, growth and damping of wave—particle interactions in, (E), 24:15305
interactions with plasma, gun design for, 24:3330 (AD-690791)
interactions with plasma, harmonic current generation and multi-signal effects in, (T), 23:27636
interactions with plasma, harmonic generation and turbulencelike spectrum in, 21:42033
interactions with plasma, harmonic generation in, (E/T), 23:27617(R) (N-69-10968)
interactions with plasma, heating and enhanced diffusion in, (E), 24:6507 (AD-693807)
interactions with plasma, heating from modulated, 21:13531 (ORNL-4063, pp 36-70)
interactions with plasma, heating in linear discharges, (E), 24:28262
interactions with plasma, heating mechanism during, (E/T), 23:44379(T) (AEC-tr-7055)
interactions with plasma, heating mechanism of, 23:51593

interactions with plasma, hf instabilities from, (E), 22: 17711
interactions with plasma, hf instability threshold in, (E), 24:28267
interactions with plasma, hf oscillations in, (E), 24:1398
interactions with plasma, hf wave production in, (E), 23: 18640(P)
interactions with plasma, highly ionized ion production by relativistic, (E), 25:27694 (WASH-1159, pp 184-9)
interactions with plasma, hyperfrequency parametric amplification in, 24:47259
interactions with plasma, induced current from relativistic, (T), 25:11894
interactions with plasma, inhomogeneity effects on relaxation of ultrarelativistic, (T), 25:9472
interactions with plasma, instabilities from, 21:9621
interactions with plasma, instabilities from, 21:15201
interactions with plasma, instabilities from, 21:27216
interactions with plasma, instabilities from, 22:5371
interactions with plasma, instabilities from, 22:48117
interactions with plasma, instabilities from, 23:23177
interactions with plasma, instabilities from, 21:11633(R) (SU-IPR-124)
interactions with plasma, instabilities from double, (T), 23:12852
interactions with plasma, instabilities from hf, (T), 24: 1406 (SU-IPR-327)
interactions with plasma, instabilities from nonlinear, (T), 25:14296
interactions with plasma, instabilities from, (E), 23:1457
interactions with plasma, instabilities from, (E), 24: 23966
interactions with plasma, instabilities from, (E/T), 21: 2279
interactions with plasma, instabilities from, (E/T), 25: 17151
interactions with plasma, instabilities from, (T), 21: 16943
interactions with plasma, instabilities near electron cyclotron harmonics in, 22:44181
interactions with plasma, instabilities near electron cyclotron harmonics, (E), 23:34421
interactions with plasma, instabilities near ion frequency, (E/T), 24:40063
interactions with plasma, instability onset in, 21:9632
interactions with plasma, interactions of microwave and lf oscillations in, (E), 24:3343
interactions with plasma, ion cyclotron resonance excitation in, x-ray spectra from, and properties in minimum-B fields, 21:29226 (TID-23827, pp 141-216)
interactions with plasma, ion emission from, 21:33448
interactions with plasma, ion emission from, (E), 25: 30255 (EUR-4593, pp 67-74)
interactions with plasma, ion energy measurements in, 22:34594 (TID-24491, pp 111-16)
interactions with plasma, ion heating and lf instabilities in, (E), 24:51613
interactions with plasma, ion heating control by feedback system, (E/T), 24:47193
interactions with plasma, ion heating during development of hf instabilities, (E), 25:5073
interactions with plasma, ion heating from modulated, (E/T), 24:49104(R) (UCB-34-P-128-15)
interactions with plasma, ion heating in, (T), 25:19650
interactions with plasma, ion momentum analysis from, (E), 25:27697 (WASH-1159, pp 219-26)
interactions with plasma, ion oscillations from, (E/T), 22:24349
interactions with plasma, ion oscillations from, (E), 23: 25328
interactions with plasma, ion oscillations in, (T), 25: 47534
interactions with plasma, ion production in, (E), 25: 27695 (WASH-1159, pp 196-203)
interactions with plasma, ion wave excitation in, (E), 22: 26416
interactions with plasma, ion—acoustic wave interaction in, 25:1252
interactions with plasma, ion-acoustic wave excitation in, (E), 25:1247
interactions with plasma, ion-wave amplification in, (T), 25:7428
interactions with plasma, ion-wave excitation in, (E), 25: 14378
interactions with plasma, ionization instabilities from relativistic, (E), 25:47519 (AD-717399)
interactions with plasma, Landau damping and relation to inviscid shear flow, (T), 24:15370
interactions with plasma, lectures on, 21:37493
interactions with plasma, lf and hf oscillations from, (E), 22:11451
interactions with plasma, limitations on ion and electron heating in, 24:45220 (ORNL-4545, pp 72-103)
interactions with plasma, linear and nonlinear theory for, 24:35484(R) (SU-IPR-357)
interactions with plasma, longitudinal oscillations from, (T), 21:16949
interactions with plasma, longitudinal wave excitation in, (T), 25:56232 (NP-19020)
interactions with plasma, longitudinal wave reflection in, (T), 25:56247
interactions with plasma, low- and high-frequency instabilities from, 21:35201 (CONF-670104-Pt.2, pp 447-59)
interactions with plasma, low-frequency waves from, 21: 40031
interactions with plasma, microwave amplification in, 21:18658(R) (AD-640372)
interactions with plasma, microwave diagnostics of oscillations from, 21:11609(R) (NP-16471)
interactions with plasma, microwave emission during instability in, (E), 22:29530
interactions with plasma, microwave oscillations from, (E), 22:34703
interactions with plasma, microwave oscillations from, (E), 24:1401
interactions with plasma, microwave production in, (T), 25:33345
interactions with plasma, microwave scattering on fluctuations in, (E), 23:48891
interactions with plasma, microwave scattering on electron waves in, (E), 25:33346
interactions with plasma, millimeter wave production in, 22:41618
interactions with plasma, mode analysis for crossed-field amplifiers, 21:7269
interactions with plasma, mode coupling in, (E), 24: 23967
interactions with plasma, modulated relativistic, (E/T), 25:40628
interactions with plasma, multi-velocity stream formation in nonlinear, (E), 25:25114
interactions with plasma, noise levels of Langmuir oscillations from, (E), 25:56249
interactions with plasma, nonlinear development of wave instabilities from, (T), 24:42690
interactions with plasma, nonlinear effects and turbulent behavior in, (E), 23:23112
interactions with plasma, nonlinear effects from, 21: 40032
interactions with plasma, nonlinear effects of nonrelativistic and relativistic, (E), 25:38419 (CONF-710607-57)
interactions with plasma, nonlinear hydromagnetic instabilities from, (T), 22:19964 (JINR-P9-3690)
interactions with plasma, nonlinear instabilities in, (T), 23:46493 (CEA-CONF-1308)
interactions with plasma, nonlinear interaction of oscillations in, (T), 22:13491
interactions with plasma, nonlinear interactions of Bernstein waves in, (E), 25:25189
interactions with plasma, nonlinear limitation of two-stream instability in, (E), 25:22508
interactions with plasma, nonlinear oscillations from relativistic, (T), 23:51659
interactions with plasma, nonlinear perturbations and electron scattering in, (E), 25:27703
interactions with plasma, nonlinear phenomena in, 21: 15177
interactions with plasma, nonlinear processes in, (T), 24: 1420
interactions with plasma, nonlinear processes in, (E/T), 24:3418(R) (SU-IPR-336)
interactions with plasma, nonlinear processes in, (E), 22: 39071 (N-68-19962)
interactions with plasma, nonlinear properties of one-dimensional, (T), 25:27710
interactions with plasma, nonlinear radial self-focusing in, (T), 23:48911
interactions with plasma, nonlinear theory for electron oscillations in, (T), 25:9469
interactions with plasma, nonlinear theory for monochromatic wave excitation in, 25:14311
interactions with plasma, nonlinear theory of, 23:32420
interactions with plasma, nonlinear wave excitation in, (T), 24:19925
interactions with plasma, nonlinear, (T), 23:14776
interactions with plasma, oscillations at ion—ion hybrid frequencies, (E), 24:3336
interactions with plasma, oscillations from, 22:7290
interactions with plasma, oscillations from, 21:770
interactions with plasma, oscillations from, 21:5280
interactions with plasma, oscillations from, 21:15154
interactions with plasma, oscillations from, 22:41580
interactions with plasma, oscillations from, 23:3505
interactions with plasma, oscillations from, (E), 21: 16939
interactions with plasma, oscillations from, (E), 21: 33404 (NASA-CR-819)
interactions with plasma, oscillations from, (E/T), 22: 22148 (TID-24331, pp 167-209)
interactions with plasma, oscillations from, (T), 21: 16945
interactions with plasma, oscillations from, (T), 21: 20968
interactions with plasma, parametric amplification in, 22: 7288
interactions with plasma, particle acceleration in, 23: 3497
interactions with plasma, potential distribution from, (E), 21:7263
interactions with plasma, potential distribution measurements from, 25:36093
interactions with plasma, probe measurements of ion energy distribution in, 22:34715
interactions with plasma, production and heating in, (T), 23:36705 (UCRL-71775)
interactions with plasma, propagation of high-current relativistic, (T), 24:35427
interactions with plasma, properties of intense relativistic, 25:17166 (AD-713576)
interactions with plasma, properties of, (T), 24:35415
interactions with plasma, quantum electrodynamics for, 21:5273 (UCRL-50148)
interactions with plasma, quasi-linear dynamics from, 21:5300
interactions with plasma, quasi-linear equations for, 25: 36142
interactions with plasma, quasi-linear theory for two-body collisions, 24:15330
interactions with plasma, radial self-focusing in, (T), 23: 27639
interactions with plasma, radiations from unstable waves in, (E), 25:30510
interactions with plasma, radiations from, (E), 21:7212 (TID-23459, pp 65-77)
interactions with plasma, relativistic beam equilibria with back currents, (T), 24:49182
interactions with plasma, relativistic, (T), 22:29509
interactions with plasma, relaxation processes in, (E), 25:27700
interactions with plasma, research in USSR, 22:1130
interactions with plasma, research on, 22:19962 (IPPCZ-91)
interactions with plasma, research on, 21:27148 (TID-23760, pp 141-69)
interactions with plasma, research on, 22:50126(R) (EUR-CEA-FC-352)
interactions with plasma, research on relativistic, (E/T), 23:44403(T) (AEC-tr-7061)
interactions with plasma, research on, (E/T), 22: 26349(R) (IPPCZ-72)
interactions with plasma, research on, (T), 25:5125(R) (SU-IPR-389)
interactions with plasma, resonance heating of electrons in, (E), 24:10525(T) (AEC-tr-7107)
interactions with plasma, resonant resistive instabilities from, 22:7278
interactions with plasma, response to relativistic, (T), 25: 52823
interactions with plasma, reversibility and damping of double beam instabilities in, (E/T), 24:1446
interactions with plasma, reversibility of Vlasov equation for, 21:2260
interactions with plasma, rf amplification in, (E/T), 24: 15292
interactions with plasma, rf oscillations from, 21:39972 (TID-23971, pp 123-212)
interactions with plasma, slipping-stream instability analysis in, (T), 24:49190
interactions with plasma, slipping-stream instability analysis in, (T), 24:49189
interactions with plasma, small-amplitude oscillations from, (T), 25:33271
interactions with plasma, stability of nonlinear waves from counter-streaming, (T), 24:42739
interactions with plasma, stability of relativistic, 25: 36169
interactions with plasma, stabilization of two-stream instabilities in, (E), 24:26226
interactions with plasma, stochastic acceleration in, (T), 24:47267 (NYO-3782-4, App.13)
interactions with plasma, stochastic acceleration from nonlinear, (T), 25:11885 (NYO-4077-1, Paper 3)
interactions with plasma, structure of rf oscillations from, (T), 24:37474
interactions with plasma, structure of two-stream oscillations from, 24:47288
interactions with plasma, suppression of longitudinal electron oscillations by beam modulation, (E), 25: 27702
interactions with plasma, surface instabilities from, (T), 23:25356
interactions with plasma, surface wave propagation and amplification in, (E/T), 24:8508
interactions with plasma, surface waves from, (T), 21: 18706
interactions with plasma, symmetric and transverse modulation for, 21:11632 (SU-IPR-114)
interactions with plasma, synchrotron instability from relativistic, (T), 22:22176
interactions with plasma, temporal and spatial growth of fluctuations from, (T), 24:35430
interactions with plasma, theory for, 21:29226 (TID-23827, pp 141-216)
interactions with plasma, three-stage instability from, (E), 22:3138
interactions with plasma, three-wave interactions from, (T), 25:43407 (N-71-18696)
interactions with plasma, threshold of hf instabilities from, (E/T), 24:12799 (NP-18102)
interactions with plasma, threshold of hf instabilities from, (E/T), 24:45236(T) (AEC-tr-7159)
interactions with plasma, time behavior of electrom temperature in, (E), 23:32403
interactions with plasma, transition radiation from, (T), 25:22525
interactions with plasma, transverse modulation in, 21: 13551 (AD-639210)
interactions with plasma, transverse modulation in, 22: 7286
interactions with plasma, turbulent ion heating in, (T), 24:45264 (ORNL-4545, pp 9-37)
interactions with plasma, two-rotating stream instabilities from, (T), 25:40669
interactions with plasma, two-stream instabilities in, (T), 23:51694
interactions with plasma, two-stream instability in, (T), 22:41570 (ORO-3458-13)
interactions with plasma, wave electrodynamics of, (T), 23:12819 (NP-17757)
interactions with plasma, wave excitation and growth in, (E), 24:8502
interactions with plasma, wave excitation and transformations in, (T), 25:38429 (CONF-710607-61)
interactions with plasma, wave excitation in, 21:15144
interactions with plasma, wave excitation in, (E), 23: 32388
interactions with plasma, wave excitation in, (E), 24: 15300
interactions with plasma, wave excitation in, (E/T), 23: 7003
interactions with plasma, wave growth from, (T), 25: 3157
interactions with plasma, wave growth in, (T), 22:34658 (TID-24491, pp 137-40)
interactions with plasma, wave interactions from nonrelativistic, 21:37441 (AFCRL-67-0375)
interactions with plasma, wave interactions from, (T), 22:24337
interactions with plasma, wave interactions in, 22:39072 (N-68-20825)
interactions with plasma, wave propagation in, (T), 21: 23178 (AD-644695)
interactions with plasma, waves from, (T), 22:44115 (NP-17582)
interactions with plasma,electron heating in, T), 22: 17659
interactions with plasma-filled waveguides, 22:3068

interactions with plasmas, microwave radiations from high-current relativistic, (E), 25:22509
interactions with plasmas, nonlinear processes in, (T), 24:1419
interactions with positrons in Orsay storage ring, nonlinear, 21:29755
interactions with potassium plasma, oscillations from, 22:13458
interactions with preformed decay plasma, nonlinear stabilization of beam instability in, (E), 25:3126
interactions with quiescent plasma, multiple scattering and energy loss of test, 24:49127
interactions with slow waves in plasma waveguides, effect of inhomogeneities on, (T), 25:36234
interactions with solids, high-pressure-produced materials from strong relativistic, (T), 25:40813
interactions with surface waves in plasma, amplification in, (T), 23:32414 (SU-IPR-266)
interactions with surface waves in plasma, properties of, 22:46168
interactions with toroidal magnetic fields, nonadiabatic trapping of, 21:27115 (TID-23760, pp 175-9)
interactions with turbulent plasma, microwave radiations from, (E), 24:1397
interactions with warm plasma, wave reflection in, (T), 25:47580 (AD-717659)
interactions with waveguides, transverse wave, 22:11847
interactions with whistlers in solid-state plasmas, (E), 22:24277 (MATT-Q-25, pp 166-82)
interference fringes in colliding, after passing over long solenoid, 22:997
ion acceleration by intense relativistic, in gas-filled region, (E), 24:13231
ion acceleration in vacuum-spark plasma-produced, (E), 22:7159
isodose charts for, 25:16151
kinetic theory of finite-temperature relativistic, in plasma, 25:22530
kinetic theory of plasma of, in external magnetic field, 21:7236
Landau damping in crossed-field, relation to inviscid shear flow, 22:50074 (NYO-3863-9)
Landau damping in, (T), 21:35032
laser beam backscattering by, production of polarized photons by, 23:28202
laser beam backscattering by, production of polarized photons by, 23:28201
laser radiation from modulated, (T), 25:33497
magnetic compression of axially symmetric Brillouin-focused, (T/E), 23:36663
magnetic field calculation for relativistic rings of, self-consistent field theory for, 25:40698
mass instability in nonlinear regime, negative, 24:28333
measurement of semiconductor resistance by 5 to 30 keV, (E), 21:9654
microwave emission from relativistic high-current, (E), 24:51639 (AD-707086)
modulation device for, 21:18405 (AERE-M-1813)
modulation of, quantum theory of optical frequency, 25:38604
monitor for 2- to 8-MeV, design of collector, 25:20214
monitoring at 1.5 to 18 GeV, design of secondary emission monitor for, 23:29225
monitoring at Cambridge Synchrotron, rf loop monitor for, 22:46659
monitoring at DESY, calibration of systems for, 22:46658
monitoring at Frascati Synchrotron, calibration of quantameter for, 22:46691
monitoring at Nina synchrotron, design and performance of secondary emission quantameter for, 22:46667
monitoring at Nina synchrotron, rf cavity and toroid systems for, 22:46661
monitoring at Stanford Linear Accelerator, quantameter for, 23:1750
monitoring at Tokyo 1.3-GeV electron synchrotron, calibration of secondary emission monitor for, 22:46685
monitoring from 1.3-GeV electron synchrotron, Faraday cup for, 23:49287
monitoring in accelerators by light from residual gas in vacuum chamber, 22:9726(T) (UCRL-Trans-1360)
monitoring in electron-ring accelerator with photoluminescent glass plates, 24:35780
monitoring in Stanford Linear Accelerator, design of Faraday cup for, 21:32549
monitoring in Stanford Linear Accelerator, design of electronics for, 22:14899
monitoring methods for, review of, 25:24280
monitoring of 140-MeV, fast coaxial cup for, 23:37050
monitoring of 140-MeV, fast coaxial cup for, 22:22489 (ORNL-4219, pp 114-15)
monitoring of 600-keV pulsed, system for, 22:45337(R) (NYO-3510-5)
monitoring of charged, in linear accelerator, equipment for, 21:10524
monitoring of current of pulsed, ΔE silicon detector for, 25:404
monitoring of high-current, fast response Faraday cup for, 24:45705
monitoring of high-energy, Cherenkov detector for, 25:420 (AD-705505)
monitoring of high-energy, equipment for, 23:38250
monitoring of high-energy, using synchrotron radiation, 25:50513
monitoring of intense, development of equipment for, 25:21480
monitoring of low-intensity, rotating plastic scintillation detector for, 25:3497
monitoring of peak current of linac, digital, 25:12297 (CEA-N-1389)
monitoring of position of, secondary electron emission foils for, 25:25600
monitoring of pulsed, secondary electron emission system for, 23:21199(P)
monitoring of pulsed, system for position, 23:30847 (BMwF-FBK-69-10)
monitoring of, calibration of quantameters and thick-walled ionization chamber for, 25:33886 (INS-TH-66)
monitoring of, calibration of Wilson type quantameter for, 24:28667
monitoring of, design of secondary emission foil for, 24:3810(P)
monitoring of, design of system for, 23:10896(P)
monitoring of, mercury-filled calorimeter for, 23:23582
monitoring of, performance of secondary emission aluminum foils for, 21:6283
monitoring of, performance of secondary emission gold foils for, 21:6282
monitoring of, single-foil secondary emission monitors for, 22:46684
monitoring of, stabilization of secondary emission monitors for, 22:46686
monitoring of, using residual gas luminosity, 25:1680
monitoring system for 45-MeV, for radiotherapy, 25:25592
monitoring system for low-energy, for field emission source, 24:46548
monitoring systems for, current, 25:416 (NBS-TN-523)
monitors for high-current, method for stabilizing secondary emission, 22:32370 (SLAC-PUB-405)
monochromatization by electron mirrors, 23:1167
monochromators for low-energy, development of crossed-field, 23:1736
motion in bending magnets and quadrupoles, equations for, 23:44772
motion in crossed fields, boundary conditions for, (T), 25:58688
motion in crossed-field devices, rf traveling-wave effects on, 24:39383 (AECL-3559)
motion in electric and magnetic fields, equations for, 25:3486
motion in electrostatic fields, reduction factors for, (T), 21:24901
motion in magnetic and electrostatic fields, effects of radiations on, 22:15893
motion in magnetic fields, electromagnetic wave amplification in, 22:52529
motion in magnetic mirrors, effects of local electron cyclotron resonance on, (E), 24:42669
motion in radial sector-type FFAG synchrotron, calculations for, 23:44771
motion instability of spatially separated plasma, in homogeneous magnetic field, 21:18773
motion of relativistic cylindrical, in uniform longitudinal magnetic fields, (T), 25:50038
motion of self-focused relativistic, in pinch discharges, 22:38716 (AD-664135)
noise parameters in variable cross section, noninvariance of, (T), 24:10367
noise propagation in electrostatically focused, 22:24044
oscillations in cylindrically bounded, Landau damping of, (E/T), 21:18745
oscillations in hot, lf electrostatic, (T), 23:39516
oscillations in magnetic fields, limiting amplitudes of multivelocity, (T), 24:49295
oscillations in quasi-neutral, limiting current, 21:43787
penetration effect and atomic number corrections for, in electron probe microanalysis, 22:36715
penetration of solids by high-power density, (T), 21:6772
performance in melting of niobium-base and tantalum-base alloys, 22:15157
performance in welding dissimilar metals, 21:16571 (NP-16491)
performance of 6-kW gun using, for evaporation and deposition of thin films, 25:24571
phase distribution in bunched, design of analyzer for determining, 23:13175
plasma oscillation damping in, (E/T), 21:24919
plasma oscillation generation by, (E), 22:7332
polarization by elastic scattering at low energies from magnetic crystals, (T), 23:10723
polarization from γ + e resonant interactions in magnetic field, (T), 24:24301
polarization from induced radiation from motion in plane polarized electromagnetic wave, (T), 25:12161
polarization in electromagnetic fields, interference effects on, 22:1014
polarization in homogeneous magnetic field in storage rings, variation of, 23:17035
polarization in strong-focusing synchrotrons, resonance depolarization effects on, 22:15892
polarization of low-energy, optical method for measurement of, 23:39294
polarization of, effects of electric and magnetic fields on, review, 24:3144
polarization of, production processes for and properties from, 22:5102
polarization parameter test from phi → $K^+ + K^-$ decay, (E), 24:6690 (LAL-1222)
position monitoring of, sensitivity of metal foil secondary-emission detector for, 25:20173
potential distribution of ribbon, in short rectangular tubes, (T), 23:8703
production and application in atomic physics, review, 24:21592
production and diagnosis of pulsed, in 3 x 10^4 A region, 21:38094
production and use in medicine, review of, 25:24280
production and use of monoenergetic, 21:16832
production and use of unscanned wide-area, for space radiation-effects studies, 21:36477
production and uses of, review of, 21:23009
production for studying quasi-linear and nonlinear beam—plasma interactions, 25:30500
production from electron interactions with beryllium targets at 16 to 18 GeV, 21:17230
production in cold cathode discharges at low pressures, 25:43346 (JINR-P9-5753)
production in Stanford Linear Accelerator, design of equipment for, 22:14635
production of artificial aurorae with, ground-based optical observations of, 25:55962
production of elongated, cold-cathode discharge device for, 25:51949(P)
production of helical, design and performance of unsymmetric electron gun for, 24:20295
production of high current-density, device for, 22:16963(P)
production of high-density, for plasma production, (E), 24:51692(P)
production of high-energy, for tumor therapy, review of historical development of instrumentation for, 24:43091
production of intense polarized, magnetic bottle for trapping low-energy electrons in atomic hydrogen atmosphere for, 21:38001
production of intense relativistic, for fusion experiments, 25:30254 (EUR-4593, pp 59-65)
production of intense slow, method and apparatus for, (E), 25:22352
production of intense, bounded plasma method for, 24:12836
production of intense, for Astron experiment, 25:38492 (CONF-710607-12)
production of intense, relativistic, self-focusing, 22:15913
production of large area uniform, for space radiation environmental studies, 21:10718
production of monoenergetic, for use in activation analysis, 21:45028
production of paraxial, electrode calculations for, 22:29798
production of polarized low-energy, (E), 23:41973
production of polarized, by field emission from ferromagnets, (T), 23:1172
production of polarized, from optically pumped helium discharges, (E), 23:22905
production of polarized, review of methods for, 24:3144
production of polarized, review of methods for, 24:19749
production of polarized, survey on, 24:3791 (AD-690762)
production of polarized, using electron—magnon scattering, (T), 21:29700
production of, gun design for, 21:2211
production of, solution of internal problem for laminar axisymmetric, (T), 25:9618
production of, theory for crossed-field and magnetron sources, 25:9617
production of, with velocity spread of few percent for studying weak plasma turbulence, 23:5405
production with transverse energy, gun design for, 25:33061
propagation in air of high-current 350-keV, transit time of, 24:19885
propagation of high-intensity relativistic, through strong magnetic field, (T), 25:38833
propagation of intense relativistic, effects of magnetic guide field on, (T), 24:26347
propagation of intense, effect of acceleration and drift region configurations on, 25:50400
propagation of relativistic, in drift tube, axially dependent equilibrium for, 25:41156
properties between infinite plane gap electrodes, Monte Carlo calculation for, 25:9165
properties for use in fabrication of heat-resisting materials, 24:4749
properties for use in therapy, in comparison to x rays, 25:16264
properties of 3-MeV linear accelerator, 22:11805
properties of dense, analysis of, 23:42808
properties of intense nanosecond-pulsed, design concepts and diagnostic techniques for measurement of, 21:38095
properties of nonvacuum, 22:34714
properties of partially immersed relativistic, equilibrium solutions for, 22:36742
properties of pulsed, determination using stress-wave measurements in solid absorbers, 21:33123 (SC-DC-67-1791)
properties of specular low-energy, scattered by fcc metal single crystals, 23:40616 (UCRL-18735, pp 5-80)
properties of stationary state of high-intensity annular monoenergetic, 24:35752
properties of, hysteresis and virtual cathode formation in, 21:5080
protective effects of bone marrow transplants against development of injuries from, during leukemia therapy, 21:10940
proton acceleration by intense relativistic, in gas-filled region, (E), 24:13231
radiation emission by modulated, estimates of intensity of, (T), 25:53085
radiation emission effects in dynamics of relativistic, 25:28114 (NP-18634)
radiation from dc, Cherenkov, (E), 21:11451
radiations from high-current relativistic, microwave, (E), 25:22509
radiations from passage near diffraction grating, (E/T), 22:7140
radiations from relativistic, transition, (E), 25:22655
radiations from rotating, with polarized spins, 22:15718
radiations from ultrarelativistic, in cylindrical resonators, (T), 24:24191 (JINR-P9-4909)
radius of laminar-flow relativistic, paraxial-ray differential equation for describing, 22:46644
reactions of pulsed, with solids, explosion-like, 25:32846(T) (SC-T-713017)
reactions with cadmium sulfide single crystals, coherent radiation from, (E), 21:31210
reactions with ceramics, diamonds, glass, and metals, removal of material layers by, 25:35515
reactions with crystals, transmission coefficients for, 21:14961
reactions with gases, localized pinch model for energetic ion production from, (T), 24:52032
reactions with matter, plasma production in intense, (T), 25:36157

reactions with metal surfaces at 20 to 40 keV, energy losses in, 24:37182
reactions with metals, fusion reactions from, 25:5118(P)
reactions with mirror-confined plasma, 22:31790
reactions with solar-wind region upstream from bow shock, high-frequency electromagnetic waves from, (E/T), 25:56019
reactions with solid deuterium—tritium, plasma production in, (T), 25:38447 (CONF-710607-45)
reflection in thermionic cesium diodes, (T), 23:6904
relaxation of ultrarelativistic, in homogeneous and inhomogeneous plasma, quasi-linear, (T), 25:30534
research on, 21:16831
scanning of, linear sawtooth pulse generators for electrostatic, 21:7603
scattering and instabilities in, in absence of magnetic field, 21:7024
scattering at 2.91 and 5.89 MeV by thin and thick targets, energy and angular distributions, (E/T), 23:14859
scattering by crystals containing planar interfaces, wave amplitudes in, (T), 21:2296
scattering calculations for accelerator targets for shielding design, 23:34701
scattering in helium, threshold behavior and polarization functions, (E/T), 21:33182
scattering in thin silver films, secondary electron emission in, (E), 21:41796
scattering of coherent modulated, energy transfer from inelastic, 25:43106
scattering of laser radiation by, (E), 21:2206 (TID-23318, pp 193-206)
scattering on molecular beams, density measurements from, (E/T), 22:19786
scattering on plasma, diagnosis using small-angle, 22:34588 (AD-666475)
scattering on thick targets, angular distribution and energy spectra in, (T), 21:31195(R) (AD-640634)
shielding calculations for high-energy, 23:28066
shielding of 4- and 6-GeV, performance of concrete for, 21:21362
shock waves in, propagation of quasi-, 22:48402
signal propagation on, in temperate plasma, (T), 23:30585
size measurements of high-energy, using x-ray synchrotron radiation, 25:50512
slowdown in thick lead target, Monte Carlo calculation of, 24:28653
sorption by air and plastic, 23:11995(R) (ORO-2832-74)
space charge effects in linear accelerator, theoretical analysis of, 22:24775
space charge waves in, monotonically varying cross section, 21:35023
space-charge flows in, computer simulation of, (T), 23:30301
space-charge wavelengths in, calculation method for, 22:11762
space-charge waves in, longitudinal, (T), 21:26980
spectra from cesium covered tungsten (100) plane of, inelastic back-scattering, 23:24876
spin of, method for determining initial asymmetry in, 22:24609
stability in current-carrying plasma, (T), 22:5387(T) (UCRL-Trans-10147)
stability in external magnetic field, nonlinear longitudinal, 21:11887
stability in homogeneous magnetic fields, negative mass, 22:5037 (JINR-P9-3475-2)
stability in infinite magnetic fields of, with velocity shear, (T), 22:46577 (TID-24666, pp 106-7)
stability in plasma, critical-current thresholds, (E), 22:48139
stability in space-periodic electric field, 24:45703
stability in system with electrodes, (T), 21:11886
stability in vacuum, hydrodynamic, 25:43756
stability of circular, negative mass, 24:24011(T) (UCRL-Trans-1402)
stability of cylindrical, diocotron, (T), 22:24366
stability of cylindrical, in uniform magnetic field in smooth waveguide, 24:38046
stability of E-layer, cold plasma effects on negative mass, (T), 25:27746
stability of extremely relativistic, effects of transverse resistive walls on, 21:29758
stability of inhomogeneous relativistic, (T), 24:3401
stability of low-density crossed-field, diocotron, (T), 22:24308
stability of relativistic, accelerated by inhomogeneous electric fields, 23:42780(T) (AEC-tr-7064)
stability of ring currents in focusing magnetic fields, (T), 25:35838
stability of rotating, in crossed fields, (T), 22:7144
stability of space-charge-neutralized, effect of finite ion mass on, (T), 23:10642
stability of two symmetrical, at harmonics of electron cyclotron half-frequency, 23:34459
stability of, quasi-linear theory for, 21:20996
stability of, screening effects on negative mass, 22:5038 (JINR-P9-3476-2)
stability of, screening effects on negative mass, 22:46642(T) (UCRL-Trans-1370)
standards for use in production and processing of foods, 25:34814
storage in Cambridge Synchrotron, design and performance of damping system for, 22:32256 (CEAL-2000, pp 123-5)
storage ring for, design modification of Princeton-Stanford, 21:2537 (AD-634717)
synchrotron radiation collimation from, test of axial dimensions of, (E), 22:9541
synchrotron radiation from relativistic, fine structure of spectra of, (T), 24:5224
synchrotron radiation from relativistic, in magnetic fields, 24:5359 (JINR-E9-4751)
technology of, National Bureau of Standards role in, 21:23009
temperature measurements on, retarding potential method for, 21:22968 (AD-643532)
thermal velocity distributions in, 21:33140
trajectories in low-voltage electron gun, (E), 21:27012
trajectory equations for dense, paraxial approximation, 23:12593
transmission by crystals containing planar interfaces, wave amplitudes in, (T), 21:2296
transport in antisymmetrical doublet and symmetrical triplet quadrupole electromagnetic lenses, nomograms for parameters for, 25:36630
transport in z pinches, intense relativistic, (E), 25:40624
transport of 400-A 4-MeV, through Astron, 21:23216 (UCRL-70200)
transport of 500-mA, electrostatic lenses with periodic focusing for, 22:46654
transport of, effects of fringing fields in design of systems for, 25:37674
transport system for 4-MeV, description of feedback, 22:20382
transport system for, development of periodic focusing electrostatic, 21:9873 (JINR-P9-3024-1)
transport systems for linac, 24:35738 (NBS-TN-522)
use for analysis of confining magnetic field of C stellarator, (E), 23:27603 (MATT-Q-26, pp 1-141)
use for analyzing gases by exciting characteristic x-ray emission, 22:21397(P)
use for basic material analysis, 24:23733 (SC-RR-69-512)
use for determining magnetic surfaces in W Ib stellarator, 22:52730 (IPP-2/69)
use for diagnosing cyclotron echoes in plasma, 21:29224(R) (SU-IPR-145)
use for gas density and temperature measurements, 22:387
use for heating, design of power supply for, 21:8657
use for magnetic surface mapping in stellarators, 24:40126
use for measuring ion—acoustic wave propagation in plasma, (E), 24:15288
use for plasma electron confinement diagnostics in closed systems, 24:12796
use for plasma production, properties of, 25:33292
use for probing laser-produced plasmas, 25:40600
use for radiotherapy, planning of, 23:50762
use for rapidly heating wrought tungsten specimens for materials testing, 23:12297 (CONF-681031-1)
use for studying color centers in alkali metal halides, 22:11516
use for therapy of bronchopulmonary tumors in man, 42 MeV betatron, 23:38723
use for welding end closure of clad cermet fuel elements, 21:518(P)
use for welding, x-ray shielding calculations for, 22:44204
use in continuous melting of refractory metallic materials, 22:28903(P)
use in deposition of films on brazing surfaces to promote wetting, 21:3472
use in fabrication of poly(vinyl chloride)-insulated electric wires, 21:25905
use in fast-pulse generator, 22:4549(P)
use in measurement of electric fields in ionosphere, 22:38887 (N-68-17614)
use in melting and welding metals, 23:27006
use in melting of tungsten, 21:18251
use in melting refractory alloys and metals, 22:23734
use in melting steel, 22:2284
use in melting steel, 22:19491(T) (UCRL-Trans-10220)
use in metal melting furnace for drop-casting processes, 21:45870 (ORNL-TM-1935)
use in plasma diagnostics, (E), 21:16906
use in preparation of high-purity tungsten and tungsten alloys, 21:1881
use in production of high-melting single crystals, 21:9091(T) (ORNL-tr-1403)
use in purification of aluminothermic vanadium, 22:28753(R) (CEND-3742-329)
use in purification of refractory metals, methods and equipment for, 22:34031(P)
use in science and technology, (T), 21:39833
use in thermal conductivity measurements, 22:1956(R) (MLM-1405)
use in uniform irradiation of powders, 23:24262
use in vaporization and subsequent ionization of material for ion source, 25:33055
use in welding beryllium, 23:3036
use in welding plate type fuel elements, 22:8290(P)
use in welding reactor materials, 21:11197 (KFK-404)
use in welding titanium, zirconium, and niobium, 22:19505
use in welding, equipment and procedure for, 24:2904
use in zone melting of refractory metals, 21:18249
use in zone melting of refractory metals, equipment and methods for, 21:18248
use in zone melting production of monocrystalline molybdenum and tungsten, 21:26772
use in zone refining of metals, 21:3476
use of high-current relativistic, to generate stress waves in solids, 25:10791
use of oscillating, in ionization spectroscopy of surfaces, 24:16453
use of point-focus, for floating-zone melting of refractory metals, 22:663
uses in refining hafnium and zirconium, 21:26773
uses in refining of molybdenum and tungsten by zone melting, 21:9090(T) (ORNL-tr-1402)
uses in research, review of direct and indirect methods for, 22:5125
uses of modulated, in processing optical signals, 21:18405 (AERE-M-1813)
velocity modulation of, ion production and ion current from, (T), 21:24903
velocity spreading of bunched, 21:11410
wave damping in crossed-field, Landau, (T), 23:34428 (N-69-22895)
wave excitation in solids by, Alfven and spiral, 22:26468
wave kinetics in magnetically focused, (T), 25:52598(T) (LB/G-3055)
wave propagation in relativistic, large-amplitude nonlinear, (T), 24:37523
wave propagation in uncompensated ring, nonlinear stationary, (T), 25:53446
wave propagation on, orthogonal, 21:28988
windows for continuous irradiation processes, design of, 24:18348(P)
Electron Beams (e^+)
see Positron Beams
ELECTRON CAMERAS
design and performance of ultrahigh vacuum, for use at 10 to 50 kV energies, 22:15193
design and use of Anger radioisotope organ, using thallium-activated sodium iodide detectors, 22:10545
•ELECTRON CAPTURE
Auger electrons from, dosimetry in biological materials of, 23:22289 (NYO-3086-8, pp IX.1-19)
Bahcall corrections including Hartree—Fock rearrangement, (T), 25:5837
book: Numerical Tables for Beta Decay and Electron Capture, 23:23782
bremsstrahlung emission in K-shell, probability of internal, 22:32678
calculation of L/K and M/L ratios in, using refined bound state wave functions, (T), 23:44959
calculation of L/K probability ratios, 23:44957
calculation of L/K ratios in, using Hartree—Fock wave function, (T), 23:44960
calculation of L/sub 1/K ratio for low-z elements, (T), 22:32496
calculations for K- and L-, tables for, (T), 23:44958
calculations of L/K and M/L ratios for, (T), 23:13308 (KFK-830)
coincidence measurements of epsilon/β^+ ratio in, chance coincidence and dead time corrections for, (E), 22:14099
conference on, 23:44854
conference on, 23:44972
conference on, 23:44964
cross section for antineutrino-induced, (T), 21:44777
cross sections for, high-energy behavior of, (T), 22:21853
decay energy for, correction for atomic excitation energy to, (T), 25:46133
derivatives, use of nickel-63 detectors for high temperature study of, 23:41231(R) (TID-25162)
detection and measurement using the K and L x-ray coincidence method, 21:13893
effects of exchange and overlapping in, relativistic corrections to, (T), 25:28495
electron emission in K-, K-, 21:30052
electron pair formation in, internal, (T), 22:35397
exchange and overlap corrections in, (T), 25:17975
exchange correlations in, (T), 23:44961
hyperfine interactions from hole formation in, time-dependent, (E), 22:30064
internal bremsstrahlung angular distribution in, by polarized nuclei, (T), 25:25802
internal bremsstrahlung emission in, probability for, (T), 25:53863
internal bremsstrahlung emission in, review of research at Debrecen, 25:53620
internal bremsstrahlung emission in, review of research on, 23:44973
internal bremsstrahlung emission in, survey of research on, 25:59885
internal bremsstrahlung processes in, (E/T), 23:19326 (INR-P-950)
internal ionization of K shell during, probability for, (T), 25:43975
ionization in, probability for internal, (T), 24:13428
K-electron ejection in K-, relativistic corrections in, (T), 23:31067
L to K ratios for, determination from internal conversion coefficients, 23:31063
measurement of K/L ratios of, system for, 21:19232
measurement of LM/K ratios by x-ray spectroscopy, (E), 24:40601 (CNIE-IC-2)
measurement of ratios for, internal source scintillation spectrometer for, 25:8514
measurements of L-shell fluorescence yields and Coster—Kronig transition probabilities in, survey of, 23:44162
measurements of M/L and L/K ratios for, methods for making and interpreting, (E/T), 22:32669 (ORO-3346-21)
measurements of shell ratios using multi-wire proportional counters, method for calculating corrections to, 24:36605
measurements using proportional counters, use of solid sources in, 23:43569
mechanisms of orbital, in polyatomic molecules, 21:30484
nuclear decay energy for, measurement using inner bremsstrahlung spectra, 23:15510
nuclear shape-change effects on, (E), 23:44962
nuclear transitions in, chemical effects on, 22:42096 (BNL-50100)
positron to K-capture ratios in, (T), 23:44971
probabilities for K- and L-, calculations using self-consistent potentials, (T), 23:42972
probability ratios for K and L, (T), 25:31401
probability relative to beta decay, calculations of, (T), 25:28494
rate of, high-pressure 4π proportional detectors for measuring, 22:6564
ratios for allowed and first-forbidden transitions in, comparison of theory with experimental data for L/K, (E/T), 22:22631
ratios for allowed and first-forbidden transitions, L/K, (E/T), 21:10074 (ORO-3346-8(Rev.))
ratios to positron emission, review of research on, 23:44970
relativistic effects in K-electron ejection during K capture, (T), 24:35905
research on, review of recent, 24:38381

research on, summary of recent, 23:31046
research on, survey of, 23:44853
research on, survey of theoretical, 23:44963
theory of forbidden radiative, formalism using spherical tensor operators, (T), 23:44975
theory of resonance, induced by neutrino (anti ν/sub e/) absorption, (T), 22:24898(T) (BNL-tr-203)
theory of, status and testing of, (E/T), 22:22645
use for detection of biologically important organic derivatives in trace amounts, 23:41231(R) (TID-25162)
ELECTRON-DIFFRACTION ANALYSIS
apparatus for measuring inelastically scattered or photoemitted electrons in low-energy, Faraday-cup, 25:43474
bibliography on small-angle, 25:33457
book: Progress in Nuclear Energy. Series IX. Analytical Chemistry. Vol. 7, 21:25799
camera design for use at 10 to 50 kV, in ultrahigh vacuum, 22:15193
crystal structure studies using low-energy, for low-index platinum surface, 21:41603 (UCRL-17549)
data analysis for, computer program for, 25:34441 (AECL-3729)
detector arrangement for scanning, semiconductor, 21:4712
equipment and methods development for low-energy, 21:39643(R) (COO-1417-3)
equipment design for surface crystal structure of oxidized metals, 21:26800 (NP-16704)
equipment for low-temperature, cryostat, 25:21477
equipment for, design and performance of ultrahigh-vacuum high-energy, 22:43156 (NYO-3715-3)
equipment for, design of automatic scanning, 22:43167
filter for removing inelastically scattered electrons in, 22:52867
indexing of spots from zirconium lattice, 23:3553 (CISE-116)
intensities of low-energy, from beryllium and zinc cleaved surfaces, 25:14472
intensity calculations for low-energy, of beryllium, 25:36330
magnetic field effects on, nonuniform, 21:20758
method for crystal dislocation image profiles using FORTRAN computer program, 22:2645 (IS-1696)
method for hcp crystals using four-axis hexagonal pattern model, 22:38572
methods for studying atomic structure of liquid metals and alloys, review of, 23:48491
pattern indexing in, use of Kikuchi maps in, 21:23254 (UCRL-16411)
pattern interpretation for precipitates and stacking faults in, 21:23252 (UCRL-11852)
patterns of hcp structures, method for rapid indexing and Burgers vector analysis, 22:47689
performance for analysis of biological materials as compared to electron microscopy, 22:53504 (UCRL-18293)
research progress in, annual report, 1969—70 on, 25:43468 (NP-18657)
research progress on, 22:42653(R) (NP-17448)
research progress on, 24:36202(R) (NP-18259)
simulation of low-energy, for surface structure studies, 21:30402 (UCRL-17330, pp 1-78)
stopping power and backscatter effects in, 23:3244 (CONF-670655-1)
techniques development for low-energy, for studying single-crystal surfaces and inelastic scattering processes, 23:23242(R) (ORO-2755-24)
theory of, in crystals with particular application to contrast of voids, 21:44979 (ORO-3108-30)
use of low-energy, to study hydrogen sorption on niobium (110) surfaces, 23:23275
ELECTRON GAS
bremsstrahlung emission from relativistic, 22:9045
charged particle interactions with, stopping power of, (T), 22:26375 (BNL-10300)
charged-particle interaction with free, RPA calculation of double-plasmon excitation from, 24:21876
charged-particle reactions with, double-plasmon excitation in, 25:19757 (ORNL-4584, pp 58-73)
collective description of, in generalized RPA, 22:3066
combination with Bloch pairs in many-body theory of nearly free electrons, 25:9606
correlation energy evaluation in magnetic field, grand-partition-function method for, (T), 25:59223
correlation energy for, random phase approximation for, (T), 25:38626
correlation functions for classical, long-distance, (T), 25:17337
density and temperature of degenerate, (T), 25:40168
density of degenerate Fermi, behavior in external field, (T), 25:36365
dielectric constant of dense, containing fixed point charge, (T), 22:7411
dielectric constant of, hf, (T), 22:29498
dielectric function of, self-consistent Hartree—Fock calculation of, 25:17343
dimensionality effects on Fermi gas, (T), 24:20046
electric conductivity in intense magnetic field of relativistic degenerate, transverse, (T), 24:37596
electric conductivity of relativistic gas degenerate, (T), 24:15025
electric conductivity of relativistic, in intense magnetic field, (T), 24:18046
electron charge value in, quantum-electrodynamic corrections to, 24:28461
electron correlation functions for, short-distance, 25:40852
electron distribution around positrons in metal, (T), 25:12041
electron interaction energy in finite temperature, self-consistent field calculation of, (T), 25:33500
electron—ion interaction in, canonical transformation method for, 25:17332
energy—momentum relations for magnetized, quantum-mechanical, 25:17347
equilibrium properties of, upper and lower bounds for, (T), 25:3232
equilibrium statistical mechanics of, relativistic correction to, 25:7521
ground-state correlations of, contribution of coherent quasiboson-approximation modes to, 24:40203
ground-state energy of, calculation using three-body forces, (T), 25:20523
heating of ionospheric E-layer, mechanism of, (E/T), 25:9341
kinetic theory of, quantum mechanical analysis using test particle method, 22:11470
kinetics of classical, radial distribution function for, 22:17661
kinetics of in magnetic fields, Goldstone theorem for, 22:13455
Landau diamagnetism in, effects of Coulomb interactions on, (T), 24:20047
magnetic moment of magnetized, (T), 24:23611
opacity of relativistic degenerate, conductive, (T), 24:15025
oscillations in Lorentz, longitudinal, (T), 25:22558
oscillations in Lorentzian, Landau damping of longitudinal, (T), 25:27822
oscillations of degenerate relativistic, longitudinal, (T), 25:30529
photon transmission through hot planar, (T), 24:20026
plasmon excitation by relativistic electrons, calculation of mean free path for, 24:45378
plasmon excitation in, mean free path for double, 24:39809 (ORNL-4446, pp 163-76)
positron annihilation in, chemical potential and rate for, (T), 24:37214
positron effective mass in, (T), 24:15428
positron effective mass in, (T), 24:15439
positron interactions with, bound states in, (T), 25:27447
positronium formation in, two-body bound-state equation for, 25:980
radiative transfer in LTE atmosphere, Compton scatter source term for, 25:9440
spectra of degenerate, single-particle, 22:1004
spectra of degenerate, single-particle, 22:1003
stability of magnetically confined pure, characteristic, (T), 24:37484
stability of, Vlasov equilibria and, (T), 24:28320
theory for nonuniform, exchange potentials for, 24:42846
theory of, technique for summing iteration series in, 25:17338
thermodynamics of, collective theory for, 25:11896
transport coefficients of ionospheric, at 100 to 600 km, (E/T), 25:9302
wave propagation in strong magnetic fields, quantum electromagnetic, (T), 24:45389
Electron Guns

cooling system for, liquid helium, 21:8647
design and operation of high-resolution scanning, 24:38647 (ANL-7656)
design and performance of high-resolution, with superconducting lenses and cryogenic specimen stage, 21:3359
design and performance of scanning, 22:21017
design of 500-keV high resolution, 22:33684 (ORNL-4217, pp 140-57)
design of improved scanning, for examination of fuel materials, 24:12462 (BNWL-1223, pp 2.1-28)
design of simple scanning, using field emission gun without auxiliary lenses, 23:14099
design of simple scanning, using field-emission electron gun without aid of auxiliary lenses, 23:2691 (COO-1721-6)
design of superconducting, 23:6325
development of high resolution, at ORNL in 1968, 24:2083(R) (ORNL-TM-2666)
development of high resolution, with superconducting lenses, 24:52566(R) (ORNL-4534)
development of high-resolution, 21:31834(R) (ORNL-4082)
development of, using superconducting lenses, 21:12710 (N-66-39339)
diffraction channeling damage in iron and copper in high-voltage, 25:1295
effects on high-voltage, on void formation in specimens, (T), 25:58316
effects on oxidation of thin-film hcp zirconium specimens in, 23:12278
electromagnetic field in objective lens for high-resolution, method for calculating, 22:35293(R) (ORNL-4230)
electron accelerators for high voltage, 24:40528
electron channeling patterns in JSM-II scanning, generation of, 24:48341 (AECL-3654)
electron detection in field emission scanning, silicon semiconductor detector for secondary, 24:11789
electron detection in scanning, fabrication of scintillation detector for, 24:11794
electron emission from ion-bombardment, 24:18865(T) (UCRL-Trans-10434)
electron source for, design of field emission, 22:33684 (ORNL-4217, pp 140-57)
electron source for, design of pressurized 1-MeV accelerator, 23:27959
electron source for, use of linear accelerator for high-voltage, 23:52046 (KFK-957)
heating and tilting stage of Siemens, performance of Valdre, 22:30894 (UCRL-17773)
image contrast in, theory of, 22:10116 (AERE-R-5571)
lens column for 500-keV high-resolution, design of superconducting, 22:33684 (ORNL-4217, pp 140-57)
lens of, spatial frequency of, 25:54587(R) (AECL-3909)
lenses for, configuration of superconducting, 21:3356
lenses for, with superconducting coils, optical properties of magnetic, 22:36137
lenses in scanning, quadrupole, 22:399
magnetic lenses for, optical properties of superconducting, 22:5284
objective contamination by hydrocarbons in, effects of electron bombardment on, 23:4659
objective for, superconducting exciter circuit for magnetic lens used as, (E), 22:30753
operation and use of scanning, 23:22455
performance in evaluation of tungsten carbide hardness, 24:32492
performance in surface scanning of molybdenum—titanium-base alloys, effects of specimen polishing on, 23:30091
performance of high-resolution scanning, for observation of single atoms, 24:30147
performance of scanning-type, for metal fractographic studies, 23:41655 (Y-DA-2952)
performance of scanning-type, for study of fractures in metals, 24:17307 (CEA-CONF-1441)
power supplies for, development of regulated high-voltage, 22:33684 (ORNL-4217, pp 140-57)
print-out element for, development of radiation-sensitive polyacetylenic crystalline, 23:33231(P)
radiation hazards to personnel using, promethium-147 β, 24:894
radiation intensity in, device for indicating and/or measuring, 21:10674(P)
radiation leakage from, recommendations for protection against, 24:21192
radiation monitoring around, effects of filament wires on x, 24:21177
radiation protection equipment and methods for, 23:50225
radioactive labeling in, 21:42963 (JUL-77-RB)
resolution of, requirements for obtaining high, 22:33684 (ORNL-4217, pp 140-57)
resolution of, techniques for improvement of, 25:41832(R) (AECL-3851)
sample cooling system for Siemens Elmiskop I, design of liquid helium, 21:45485
sample damage by high voltage, effects of temperature on, 23:43998
sample holder for Philips EM200, for field ion specimens, 22:22905 (RD/B/M-1032)
samples in, development of microthermocouple for studying thermal effects of beam on, 23:7890(T) (ORNL-tr-2024)
secondary emission, use for metallography, 21:13272 (N-66-37678)
specimen carrier for, design of, 21:26325(P)
specimen chamber for vapor deposition studies, design of ultrahigh vacuum, 24:36548
use as research tool for study of corrosion, 23:24805
use for direct viewing of SNAP-9A debris particles and α tracks, 21:30638(R) (TLW-3547-2)
use for direct viewing of SNAP-9A debris particles and α tracks, 21:30639(R) (TLW-3547-3)
use for direct viewing of SNAP-9A debris particles and α tracks, 21:30637(R) (TLW-3547-1)
use for direct viewing of SNAP-9A, debris particles and α tracks, 21:30640(R) (TLW-3547-4)
use for production for pseudo-Kossel patterns from beryllium—copper alloys, 21:34538
use in combination with field ion microscopes in tungsten grain boundary studies, 25:19249
use in producing autoradiographs, magnetic focusing modification for improving, 23:6329
use of high-voltage, to simulate fast neutron-induced void swelling in metals, 25:58326
use of high-voltage, to simulate fast neutron-induced voids in metals, 25:52410 (RD/B/N-1879)
use of scanning, with electron microprobe analyzer, 21:40772 (IS-1600, Paper 3)
use of, for brain tissue studies, 21:6405

use with autoradiography to study cell ultrastructures, review of problems in, 23:11972 (CONF-671111-, pp 661-77)
use with heavy-ion accelerator for radiation damage studies, 25:2507
uses for measuring metal foil thickness, 21:28793(R) (BNWL-94)
uses of scanning, in analysis of reactor fuels, 24:46785 (TRG-Report-1952)
x-ray spectrometers for scanning, lithium-drifted silicon, 24:39333
ELECTRON MICROSCOPY

channeling patterns from alkali-metal halide crystals in scanning, effects of electron irradiation on, 25:45550
conference on, 25:57910
conference on current developments in, 24:39392
conference on, abstracts of papers presented at fourth European Regional, 25:26565
conference on, Houston, Texas, 1970,, 25:23922
contrast in, electron scattering cross sections in theory of, 25:22350
contrast theory of, principal equations relating to, 21:39284 (AERE-R-5499)
crystal preparation for, etching method for uranium dioxide, 21:31070 (BNWL-416)
dark field images in 1 MV, (E), 21:44156 (UUIP-500)
development at Chicago, June, 1967 through May, 1968, 22:23357(R) (COO-1721-2)
development of high resolution, for crystalline atomic planes, 24:8038 (AECL-3478)
development of scanning, review on, 24:36855 (AECL-3604)
developments in, review on, 22:25362
diffraction and channeling effects in high-resolution scanning, of bulk crystal surface, (T), 25:40785
dislocation contrast in high voltage, 25:60292 (UCRL-20700)
electron energy dispersion in, (E/T), 23:30625
equipment and methods for mixed oxide fuels, development of, 24:23505 (BNWL-1279, pp 2.1-26)
equipment and methods in, review on, 23:50225
equipment and techniques for studying reactions of ceramic reactor fuels at high temperatures, 22:36550
image intensity profiles from scattered electrons, (T), 24:12631
labeling of antibodies for, with uranium, 21:6421
labeling of antibodies for, with uranium, 21:6420
losses of phospholipids during fixation of sample preparation for lung tissue, 21:22290
method for, 23:30188
method for analysis of radioinduced defects in metals using, 21:11714
method for direct analysis of radioinduced crystal defect clusters, 25:40060 (CONF-710601-5)
method for immune-reaction, use of uranium-labeled antigens and osmium tetroxide fixation in, 21:17998
method for measuring disappearance voltages of second-order reflections, 25:42886 (UCRL-20500, pp 86-146)
method for structural characterization of corrosion products, 24:17212
method for studies of defect clusters in irradiated reactor materials, review of, 24:14826
method of staining for use in, 21:8668(R) (AD-634405)
methods and performance in characterization of actinide oxide powders, 24:44778 (BNWL-1441)
methods and uses of scanning, for studies of fractures in welds, 25:58215 (Y-DA-4280)
methods and uses of transmission, in materials science, 24:7390 (UCRL-19021)
methods and uses of, in high-temperature, high-resolution metallography, 22:41065
methods at 100 to 200 kV, 25:13628
methods for crystalline materials, 24:25741
methods for crystals, 23:41532 (UCRL-18735, pp 81-128)
methods for evaluating thin film radiation targets, 24:19165(R) (ORNL-TM-2889)
methods for use in materials science, 25:2748
oxidation of molybdenum particles by, 21:41539
pattern analysis in, use of Kikuchi maps in, 21:23254 (UCRL-16411)
performance for analysis of biological materials as compared to electron diffraction, 22:53504 (UCRL-18293)
photographic applications of, effectiveness of autoradiographic method for, 24:41727
program at UCRL, 24:41159 (UCRL-19628)
radioinduced changes in sections used for, electron, 21:17969
research progress in, 24:48029(R) (AECL-3665)
research progress in, annual report, 1969—70 on, 25:43468 (NP-18657)
research progress on, 25:10437 (ORNL-4636, pp 45-50)
research progress on, 22:42653(R) (NP-17448)
research progress on, 24:36202(R) (NP-18259)
research progress on, 25:10583(R) (AECL-3776)
research using high-voltage, 25:49974(R) (COO-2119-1)
resolution limit due to radiation damage, calculation for organic molecules, 25:15972
sample preparation for, 21:42963 (JUL-77-RB)
sample preparation for transmission, ceramic, 21:34945 (BNWL-SA-1223)
sample preparation for, antibody visualization using, 21:22315
sample preparation for, ion bombardment method for nonmetallic, 25:32832
sample preparation for, of grasshopper neuroblasts, 21:20322(R) (ORO-2575-32)
samples for, preparation of thin wire, 22:23737
sensitivity of autoradiographic measurement of, 21:28561
specimen heating by electron beam in, microthermocouple measurements, (E/T), 25:5163
specimen polishing for, electrolytic cell control system for, 22:14646
specimen preparation for transmission, 22:8729 (ORNL-4170, pp 19-26)
specimen preparation for transmission, method for thin, 22:28886 (BNWL-652)
specimen preparation for transmission, of heavy ion-bombarded stainless steel, 25:715
specimen preparation for transmission, rapid, 21:13156 (ORNL-3970, pp 21-4)
specimen preparation for, carbon replication method of metal surface, 23:40524 (UCRL-18818)
specimen preparation for, carbon replication of metal surfaces for, 25:6878 (UCRL-18818(Rev.))
specimen preparation for, equipment and method for semiautomatic, 21:14853 (ORNL-4066)
specimen preparation for, method for oriented, 23:41576
specimen preparation for, polyvinyl chloride impressions for indirect carbon replicas for, 25:28858(T) (LA-tr-71-25)
specimen preparation for, using tubes, 23:41572
specimen preparation of small-diameter thin-walled tubes, 23:8160 (ORNL-4370, pp 16-20)
specimen replication of irradiated fuel elements for, 22:42994 (ANL-7299, pp 173-97)
specimen thinning by ion beam for transmission, semiconductor, 25:52969
staining techniques for, of leukocytes, uranyl acetate, 21:26361
structure analysis for atomic resolution, principles of, 25:15970
technique using secondary electron emission under ion bombardment, 21:25197
technique using secondary electron emission under ion bombardment, 21:25199
techniques for cultured glial cells, 23:47739 (UCLA-12-724, pp 35-42)
techniques for myoglobin studies, 22:12748(R) (ORNL-4171)
tissue fixation for, use of glutaraldehyde for, 22:28272 (ANL-7278, pp 185-218)
trace characterization by, 22:30490
use for determining effects of γ radiation on cytology of tumor cells in human tonsils, 23:41492
use for determining effects of γ radiation on squamous cell carcinoma of uterine cervix, 24:9959
use for determining effects of laser radiation on carious and normal teeth, 23:38863
use for determining ultrastructure of collagen fibers in γ-irradiated rat tails, 23:2776
use for determining uv-radioinduced damage to cilia of Paramecium, 24:832
use for DNA sequence determination, feasibility of, 25:53752(R) (ORNL-4659)
use for high temperature inspection of structural and nuclear fuel materials, methods and equipment for, 23:28651 (BNWL-SA-1565)
use for studies of radioinduced solid-state polymerization, 21:24003
use in biochemical analysis, review on, 22:25271
use in research on nuclear fuels, 22:4315
use in resolution of radioactive labeling by steroscopic picture taking, 21:42963 (JUL-77-RB)
use in studies of defects in solids, 23:27694 (NP-17819, Chap.3.1)
use of anomalously wide images in, for radioinduced defect studies, 22:24482
use of dark-field, in defect studies of foils, (E), 21:21056 (UCRL-16264)
use of scanning, in biology and medicine, 23:50822
use of scanning, in composite material research, 22:49838 (AWRE-O-43/68)
use to study extended defects in nonstoichiometric solids, 25:22643
use with nuclear emulsions for analysis of radioactive materials, 21:17590
ELECTRON MULTIPLIER TUBES

aging and rejuvination, 22:4518
amplifier for channel, design of, 25:32231
blanking circuit design for magnetic, used in time-of-flight mass spectrometers, 22:12696
count rate of parallel-plate channel pressure dependence of spontaneous, 25:42099
delay time of Bendix 4028 Channeltron, effects of aging on, 25:57895
description for use with electrostatic analyzers for measurement of auroral electrons and protons, 25:57790
description of preamplified Spiraltron, 24:25278
design and operation of fast 18-stage, 22:4502 (KAPL-3352)
design of array of channeltron, for solar-wind electrostatic analysis on lunar surface, (E), 22:51230
design of flexible channel, made of electron conductive polymer, 23:41170
design study of flexible channel, made of electron conductive polymer, 23:41151
development for heavy charged and neutral particle detection, 22:28077
development for two dimensional scanning of radiochromatograms, 25:48924
development of carbon—aluminum parallel plate dynode, for detecting x rays, electrons, and charged particles, 23:9705
development of continuous-dynode, for detection of carbon-14 and tritium in radiochromatography, 24:25287
development of parallel plate channel, for use in electron spectroscopy, 24:44280
development of position-sensitive arrays of channel, for x-ray image dissection, 24:39309
development with secondary emission foil for space radiation, 24:33905
efficiency for 50-MeV protons through side walls of channel, 24:44283
efficiency for detecting low-energy protons and positive ions, 23:21951
efficiency for hydrogen atom detection at 3 to 20 keV, 24:44263
efficiency measurements for channel, electron source for, 25:8490
efficiency of channel, for electron detection, 22:40408
efficiency of channel, for electron detection at 1 to 50 keV, 25:18659
efficiency of channel, for proton detection, 22:40408
efficiency of channel, in magnetic fields, 25:4331
efficiency of Channeltron, for detecting electrons and protons, 23:9704
efficiency of continuous channel, for detection of positive ions, 21:43249
efficiency of Johnston, improvements in, 25:4332
electron energy distribution in curved, 25:34905
encapsulation of helical channel, for space flight applications, 25:8489
fabrication and operation of parallel-plate, for detection of charged particles and x radiation, 23:41017
fatigue data for Channeltron, relation to efficiency for electrons and protons, 23:45597
fatigue effects on Channeltron, 22:14890
fatigue of Channeltron, for detecting electrons and protons, 23:9704
gain degradation of lead-type channel, in ultra-high vacuum for use in high-altitude satellites, 24:19265
gain in continuous channel, calculation of steady-state current, 25:42067
gain of Bendix 4028 Channeltron, effects of aging on, 25:57895
gain of channel, effects of temperature on, 25:2470
gain of parallel-plate channel, pressure dependence of, 25:42099
gain stabilization for continuous channel, two-detector blanking method for, 24:48293
ion feedback in straight channel, 24:44284
ion production by straight channel, as function of residual gas, 25:44596
ion spectra from straight channel, used as low-energy ion source, 25:6592
lifetime and sensitivity of continuous channel, 22:19203
operation and performance for photon detection in beam—foil spectroscopy, 25:15973
operation and use for ion detection, 24:29497 (KAPL-P-3879)
operation of channel, at low temperatures for x-ray astronomy on-board satellites, 23:29274
operation of satellite-borne, with electrostatic analyzer for charged-particle spectroscopy, 24:48294
performance degradation of continuous-channel, mounted in electrostatic analyzers, 23:22043
performance for detecting low-energy hydrogen emission from plasma, (E), 23:34266 (ORNL-4401, pp 160-75)
performance for detecting metastable atomic and molecular beams, 23:41032
performance for hydrogen atom detection at 30 eV to 10 keV, 24:48280
performance for pulse counting for mass spectroscopy, 23:22130
performance in ultrahigh vacuum, 23:41163
performance of 26-stage silver—magnesium, in saturated pulse mode, 24:5903
performance of arrays of channel, for soft x-ray detection, 24:39308
performance of Bendix Channeltron CEM 4028, for charged particle detection, 24:25280
performance of coincidence Channeltron, for determining electronic wave functions from electron scattering by atoms and molecules, 23:35498
performance of continuous channel, in measuring radiation in Pioneer plasma analyzer, 25:4243
performance of open-type, review on, 24:44362
performance of parallel-channel, using silicon resistance strips for radiation detection, 23:45520
performance of spiral channel, for heavy positive ion detection, 24:11788
preparation by sputtering, 25:23790
production and properties of open-type, review on, 24:44362
pulse height distribution for, calculations of generalized, 25:18864
pulse-height distributions in, (E/T), 22:38176
readout device for array of channel, for two-dimensional x-ray image dissection, 25:23928
response and afterpulsing in, single electron, 22:12711
response of Bendix CEM 401 channel, for detection of alpha particles, 22:28098
response uniformity across window of funnel-type channel, for hydrogen beams at 1 to 20 keV, 24:39242
secondary electron yield vs primary energy for dynode-strip surface of commercial resistance-strip magnetic, 23:14094
sensitivity for detection of potassium atoms at 5 to 500 eV, 25:42079
sensitivity for ultraviolet radiation, range and degree of, 22:321
sensitivity of channel electron multipliers at 304 to 1493 A, 24:19274
stability characteristics of channel, long-term, 24:39248

time sampling of anode current of magnetic, method for, 23:9706
transformer coupling of continuous channel, 22:45372
use as ion detectors, 21:4733
use in 180° fast-scanning mass spectrometer, 22:401
use with Boyard—Alpert type exciter for detection of ground state atomic beams, 23:41176
uses of open-type, review on, 24:44362
ELECTRON PAIRS

annihilation in aluminum, rhodium, and silver, 21:33186
annihilation in flight, photon spectra from, (T), 23:9039 (TID-24667, pp 515-19)
annihilation in flight, total cross sections from reduced cross sections for four-photon, (T), 24:30478 (N-69-10274)
annihilation in normal aliphatic hydrocarbons, 21:31217
annihilation into any number of γ and μ^+—μ^- pairs, asymptotics of total cross sections for, (T), 25:38706
annihilation of arbitrarily polarized, photon emission from, (T), 21:27328
annihilation of, coincidence thallium-activated sodium iodide spectrometer for measuring radiation from, 22:10589
annihilation of, magnetic field effects on two-photon, 22:52495
annihilation of, tests of quantum electrodynamics from structure of Feynman amplitude for, (T), 25:30965
annihilation of, use of lithium-drifted germanium detector for Doppler broadening of radiation from, 21:18883
Cherenkov radiation from very high-energy moving dipole, in EAS, (T), 24:3574
detection of, scintillation response of thallium-activated sodium iodide crystals for, 21:10672
formation in nuclear beta decay, internal, (T), 22:35397
momentum distribution at Fermi surface, calculation using Green function, 21:13365
photoproduction at high momentum, review of experiments on, 21:31561
photoproduction in magnetic field, (T), 22:44373
photoproduction in nuclear field and in atomic field of neon, 21:42244
photoproduction in nuclear field, effects of nuclear moments on, (T), 24:18139
photoproduction in nuclear fields at 2.75 MeV, cross sections for, (E/T), 25:31361
photoproduction in spherical static nuclear charge distribution, (T), 22:50669
photoproduction of, elastic and inelastic nuclear form factors for, (T), 22:27392
photoproduction of, high momentum test of quantum electrodynamics from, (E), 21:2404 (SLAC-PUB-225)
photoproduction of, virtual Compton effect contribution to, (T), 21:11754
photoproduction on carbon as test of quantum electrodynamics at extremely small distances, 23:7169 (DESY-68/55)
photoproduction on carbon, production of virtual photons in, (E/T), 25:3252
photoproduction on carbon, radiative corrections in wide-angle, 21:2425
photoproduction on carbon, wide-angle, (E), 21:3970(R) (NP-16354)
photoproduction on cosmic nuclei as energy-loss mechanism, 24:37685
photoproduction on diamond crystals, 21:18444
photoproduction on hydrogen and carbon, test of quantum electrodynamics from, 24:32997
photoproduction on nuclei at high energies, accurate calculation of tables for nuclear radiation lengths from total cross sections for, 23:32598 (DESY-69/8)
photoproduction on nuclei, Compton graph contributions to cross section for, 21:42305
photoproduction yield of wide-angle, use in testing validity of quantum electrodynamics at small distances, (E), 21:9692
production amplitude of, S-matrix elements in Heisenberg representation for, 24:33060
production by 1.25- to 4 GeV electrons, cross sections for, (E), 23:13017(T) (SLAC-Trans-88)
production by focusing of laser radiation in vacuum, 24:15518
production by gamma quanta in nuclear fields, polarization effects on cross sections for, (T), 25:27996
production by high-energy muons, energy losses due to, 22:24611
production by laser beam scattering on dense plasma, 25:17153
production by polarized photons, dependence on photon polarization and multiple scattering effects for azimuthal asymmetry of plane of, (T), 24:3583
production by polarized photons, polarization measurement from, 22:3241
production cross sections below 2.5 MeV, calculation of total, 23:5571
production during mutual approach of heavy nuclei and vacuum polarization, 23:46257
production from bremsstrahlung reactions with carbon at 600 to 2000 MeV, wide-angle, (E), 21:17025
production from cosmic meson (μ) reactions with aluminum, carbon, and copper above 0.85 GeV, multiplate cloud chamber study of direct electron pair production from, (E), 22:9503
production from $e^- + Z \rightarrow e^- + e^+ + e^- + Z$ interactions in propane at 1.25 to 4 GeV, (E), 21:18879 (JINR-P1-3143)
production from $\gamma + N$ interactions, hard photon radiative correction for wide-angle, 21:17088
production from $\gamma + p$ interactions, electromagnetic contribution to, 21:23321
production from meson (μ) reactions with nuclei, cross sections for, (E), 21:31883
production from meson (π^-) reactions at 17 GeV/c in emulsions, pair energy, opening angle, and partition energy parameters from, (E), 22:5488
production from photon interactions in intense electromagnetic fields, 21:33642
production from photon interactions with circular polarized plane electromagnetic wave, (T), 23:18847
production from photon interactions with field of electromagnetic wave in homogeneous magnetic field, (T), 25:53083
production from photon interactions, lepton electromagnetic form factors from, 22:13719
production from photon reactions with nuclear Coulomb field at 900 MeV, angular distribution for, (E), 25:53000
production from $\pi + N \rightarrow N + e^- + e^+$ interactions, differential and total cross sections for, (T), 21:35312
production from $\pi^+ + e$ interactions at 16.2 GeV in emulsions, (E), 21:46463
production from $\pi^- + N$ interactions at 17 GeV/c in emulsions, (E), 21:3994
production in cascade showers in intergalactic space, 21:13410
production in charged particle interactions at high energies, asymptotic cross sections for, 25:43598
production in copper by electrons with total energies of 5.511 and 32 MeV, differential cross sections for direct, (T), 22:44803
production in cosmic meson (μ) reactions with nuclei at high energies, energy spectra of, (T), 23:36889
production in $e + e$ interactions, infinite-momentum quantum electrodynamic model for number and momentum distributions, total cross sections and amplitudes for, (T), 25:59345
production in $e^+ + e^-$ and $e + e$ interactions at high energies in colliding beams, total and differential cross sections for, (T), 25:36433 (LNF-71/1)
production in $e^+ + e^-$ and $e^- + e^-$ interactions at 1 to 10 GeV, cross sections for multiple, 25:53052
production in $e^- + Z \rightarrow e^- + e^+ + e^- + Z$ at high energies, differential cross sections for, 21:18946
production in electromagnetic field, energy loss from, (T), 22:5533
production in electron reactions in bubble chamber at 1.25 to 4 GeV, cross sections of, (E), 22:50275 (JINR-P1-4023)
production in electron reactions with copper at 5.8 MeV, cross sections for direct, (E), 25:3250
production in electron reactions with emulsion nuclei at 13.75 GeV, (E), 25:45640
production in electron reactions with nuclei at 1.25 to 4 GeV in propane bubble chamber, cross sections for, (E), 23:27738
production in electron reactions with nuclei at 13.75 GeV in emulsions, direct, (E), 25:14525
production in emulsions, energy estimation for, (T), 23:16951
production in field of nucleus with magnetic dipole moment, angular distributions and polarization of, (T), 25:17427
production in $\gamma + d$ and $\gamma + p$ interactions at 1.46 to 6.55 GeV, scintillation counter study of total cross sections for, (E), 24:51890
production in $\gamma + e^- \rightarrow e^+ + e^- + e^-$ interactions, cross sections for, 21:42307
production in $\gamma + e^- \rightarrow e^- + e^+ + e^-$ interactions, cross sections for, (T), 23:51880 (JINR-P2-4644)
production in $\gamma + \gamma \rightarrow e^+ + e^-$ interactions in isotropic photon gas, absorption probability for, 21:25258
production in $\gamma + \gamma$ and $\gamma + e$ interactions at high energies and small angles, cross sections for, (T), 24:10831
production in $\gamma + p$ interactions at nucleon resonance, real part of Compton amplitude from, 24:13009
production in high-energy bremsstrahlung interactions with high-intensity laser beams, (E), 25:33522
production in meson (eta) decays, branching ratios for, (T), 21:21178
production in meson (π^-) interactions in nuclear emulsions at 16.2 GeV/c, cross sections for direct, 22:26570
production in meson (π^+) interactions with bound nucleons in freon at 830 MeV/c, (E), 21:11743
production in meson (π^-) reactions with nuclei at 2.94 GeV/c, direct, (E), 25:9661
production in μ reactions with carbon, differential cross sections for, (T), 22:34825 (AD-665851)
production in nuclear E1 transitions, internal, (E/T), 22:20599
production in $p + n$ interactions at 960 to 1065 MeV, differential cross sections for, (T), 24:10785
production in $p + p$ interactions at 20 to 120 MeV, differential cross section for, (T), 25:12231
production in photon interactions in aluminum, carbon, copper, and lead at 1.2 to 4.0 GeV, total cross section for, (E), 22:34832
production in photon interactions in constant and uniform electric field, (T), 22:22360
production in photon reactions with aluminum, carbon, and copper at 1.5 to 3.6 GeV, cross sections for, (E), 23:14955
production in photon reactions with carbon and lead, virtual Compton scattering amplitude from yields of, (E), 22:5495
production in photon reactions with carbon at 1.802 GeV/c, spectrometer study of rho—ω interference and phase in, (E), 24:28469
production in photon reactions with carbon at 150 to 550 MeV, wide-angle, (E), 21:44251
production in photon reactions with carbon at 2.3 and 5.6 GeV, (E), 24:40233
production in photon reactions with carbon at high energies, cross sections for asymmetric, (E), 25:1360 (AD-708409)
production in photon reactions with carbon, cross sections for asymmetric, (E), 24:45407
production in photon reactions with carbon, gas Cherenkov and shower counter study of invariant mass in, (E), 22:22276 (CONF-670923-, pp 409-51)
production in photon reactions with carbon, test of quantum electrodynamics from, 22:50283
production in photon reactions with carbon, validity of quantum electrodynamics from, 21:29624 (NP-16779)
production in photon reactions with deuterium helium, and hydrogen at 2 to 10000 MeV, corrections to total cross sections for, (T), 24:20093 (DESY-70/3)
production in photon reactions with helium and hydrogen at low to high energies, total cross sections for, (T), 24:20092 (DESY-70/2)
production in photon reactions with helium, cross section from incoherent-scattering function for, (T), 22:44361
production in photon reactions with nuclei in emulsions, asymmetry ratio and differential cross sections in opening angle for, (E), 25:17364
production in photon scattering by nuclear Coulomb field at arbitrary energies and small angles, differential cross sections for, (T), 25:5335
production in photon scattering by nuclear field, polarization in, (T), 25:12158
production in $\pi + N$ interactions at 930 MeV/c, wide angle, (E), 21:875 (AERE-R-5287)
production in $\pi^- + p \rightarrow e^+ + e^- + n$ interactions at 275 MeV, energies and angles for, (E), 25:12099 (JINR-P1-5398)
production in $\pi^- + p \rightarrow e^+ + e^- + n$ interactions near $\Delta(1236)$, isobar model with Born terms for differential and total cross sections for, (T), 25:25420
production in $\pi^- + p$ interactions at 10 GeV/c in hydrogen bubble chamber, mechanism for, (E), 23:36847
production in $\pi^- + p$ interactions at 10 GeV/c, mechanism for, (E), 23:16933
production in quantum electrodynamics multiperipheral model at infinite momentum, 25:30974
production in rho $\rightarrow e^+ + e^-$ and $\omega \rightarrow e^+ + e^-$ decays, magnetic spectrometer and scintillation and Cherenkov counter study of, (E), 23:51831 (NEVIS-173)
production in short-range rectangular well-type potential, spontaneous, (T), 25:1459
production in thin crystals, review of, 22:44371
production in vacuum by alternating electric field, (T), 24:49376
production of Dalitz, from π^0 decay in emulsions, simultaneous localization of π^0 origins and detection for, (T), 24:40227 (IFA-CR-60)
production of Dalitz, in $\pi^0 \rightarrow \gamma + \gamma$ decay, PCAC for, 24:21949 (COO-264-540)
production of double, in quantum electrodynamic processes at high energies, total cross sections for, (T), 25:33625
production of high-energy wide-angle, review of experiments for quantum electrodynamics test from, 22:46514
production of shower, from photon interactions in liquid xenon at 100 to 2000 MeV, 23:18783
production of single and double, in quantum electrodynamic processes at high energies, (T), 25:33625
production of two, in electromagnetic interactions at high energies, cross sections for, (T), 24:49380
production of wide-angle, in $\gamma + p$ interactions and photon reactions with carbon above 4 GeV, quantum electrodynamics test from, (E), 23:51839
production of wide-angle, tests of validity of quantum electrodynamics at small distances from, 22:41846 (NP-17547)
production of, analytical approximations for total cross sections for, 23:5557 (SC-RR-68-619)
production of, angular cross section for, 25:7608
production of, electromagnetic form factor of medium for, 21:46517
production of, radiative corrections to symmetric, 22:26606
production of, tests of quantum electrodynamics from structure of Feynman amplitude for, (T), 25:30965
production on xenon by gamma reactions at 2.5 GeV, cross section for, (E), 21:40450
radiation from relativistic, intensities and angular distribution of spectral energy density for polarized, (T), 24:20111
spectra of, design and performance of acoustic spark chamber for measuring, 23:47825
ELECTRON PARAMAGNETIC RESONANCE
book: Chemical Consequences of Nuclear Spin, 25:30669
book: Electron Paramagnetic Resonance of Transition Ions, 24:30407
book: Electron Paramagnetic Resonance: Techniques and Applications, 22:52855
book: Free Radicals in Radiation Chemistry, in Polish, 22:47182
book: Nuclear Magnetic Resonance (in Russian), 23:39586
book: Use of Various Biophysics Methods in Selective-Genetics Studies, 23:35590
decoupling procedures for Green function equations, moment comparison of two, (T), 25:38607
developments in, review on, 22:25361
equipment, progressive- and resonant-wave helices for, (E/T), 23:42506 (CEA-R-3706)
evaluation of low-temperature, in analytical chemistry, 25:31
group theory for, 25:12910(T) (SC-T-713002)
hyperfine structure and, 22:9097
hyperfine structure studies by, 22:9102
isotope effect in crystal-field splitting for ground states in, (T), 22:24438
isotope structure in, 23:40616 (UCRL-18735, pp 5-80)
measurement of electron—nuclear double resonance at high pressures, cavity resonator for, 23:9800
nuclear spin relaxation times in pulse-saturated, of paramagnetic solutions, (E), 22:31961
principles of, 25:28838 (ANL-7764)

radiation effects on, of lyophilized microorganisms, cobalt-60 γ, 24:4573
relaxation effects in radiation chemistry, 23:17484
research progress on, equipment for, 23:8665(R) (COO-294-8)
spectra of aromatic ions and radicals, computer program for simulation of, 23:9277 (EUR-4064)
spectra of doubly-charged positive manganese ions in calcium sulfate powders, relation to thermoluminescence sensitivity of, 23:20024
spectral lines in, forbidden transitions and discrete saturation in, 23:23260
theoretical and experimental basis of, lectures on, 22:34743 (ISS-67/34)
use for study of Drosophila under aerobic conditions, 23:47916
use for study of γ and x radiation effects on peptides in solid state, 24:9733
use to study radioinduced free radicals in biological systems, 23:6347(T) (NP-tr-1690)
zero field line shapes in, 23:8665(R) (COO-294-8)

ELECTRON PROBE MICROANALYSIS
atomic number correction in, 24:20695
bibliography on, 1968-69, 24:26959
correction factors for, 24:48035
correction program for, using complex standards, 24:46175 (CEA-N-1289)
developments in, review on, 24:48034
electron reactions with specimens in, transport model for, 21:3654
equipment and methods for analysis of highly radioactive materials, 25:4011 (CEA-N-1340)
equipment for irradiated reactor fuel elements, 25:26157
equipment for radioactive samples, 25:26156
equipment for, semiconductor x-ray spectrometer, 24:39334
manual of quantitative, 25:37291
method for identification of inclusions in metals, 24:36924
method for irradiated fuels, 25:22207
method for reactor materials, 25:2731 (ORNL-4570, pp 215-23)
precision of, effects of metal specimen preparation on, 21:13191 (ORNL-3970, pp 231-5)
research progress on, 25:10437 (ORNL-4636, pp 45-50)
research progress on, 25:37260(R) (UCRL-50006-71)
sensitivity of, compared with other methods for chemical analysis, 24:38733
spectral line shifts in, magnitude of metal, 24:25638 (ANL-7417, pp 79-83)
ELECTRON PROBES
book: Progress in Nuclear Energy, Series IX, Vol. 9. Analytical Chemistry, 23:21632
circuit for x-ray spectrometers for micro-, pulse rate, 24:11868
design and performance for fuel analysis, 24:2869 (ORNL-4470, pp 213-17)
design for electron deposition in dielectrics, (E), 22:13579
development of, review of, 21:10706
instrumentation for, review of, 21:10706
performance in characterization of refractory materials, 23:6677
use for analyses of refractory metal carbide single crystals, 23:6735
use for analysis of uranium carbide (UC) rod type fuel element meltdown, 23:28639
use in microanalysis of radioactive material, shielded facility for, 22:27532 (GEAP-5344)
use in research on nuclear fuels, 22:4315
use of Langmuir, for electron temperature measurements in Penning discharges, 22:48092
ELECTRON-RING ACCELERATORS
accelerating system for, cryogenic high frequency, 24:15723(T) (SLAC-Trans-111)
accelerating system for, cryogenic high-frequency, 25:17608 (JINR-P9-5488)
beam acceleration and injection parameters for polarized protons, 25:1675(T) (UCRL-Trans-1419)
beam acceleration in, relativistic solitons and nonlinear waves as bunches for, 25:38818(T) (UCRL-Trans-1442)
beam acceleration in, relativistic solitons and nonlinear waves for, 24:47529 (JINR-P9-5090)
beam compression in, magnet flattopping circuits for, 23:28196
beam compressor test system for, design of, 23:28197
beam dynamics during axial acceleration in, effects of self fields on, 25:56595 (NP-19007)
beam dynamics in, radiation emission effects in electron, 25:28114 (NP-18634)
beam focusing of charged electron ring in collective ion linear accelerator, 23:7202 (JINR-P9-4135)
beam focusing of charged electron ring in collective ion linear accelerator, 24:8779(T) (KFK-tr-297)
beam injection in, 22:46587 (UCRL-18103, pp 101-5)
beam injection in adgezator, 23:21189(T) (UCRL-Trans-1390)
beam injection in printed circuit steering coils for, 25:28116 (UCRL-20165)
beam injection in, fast beam choppers for linac, 23:28199
beam injection in, theory of, 25:25544 (AECL-3779)
beam injector for, development of high-current electron induction linear accelerator, 25:25562 (JINR-P9-5601)
beam instabilities in ring compressor in, negative mass, 25:31058 (UCRL-20208)
beam instability due to coherent synchrotron radiation, 25:12311
beam instability due to negative mass effect, longitudinal, 25:12312
beam instability in, radiative, 24:5359 (JINR-E9-4751)
beam interactions with closed cylindrical cavity, 24:45657 (UCRL-18595)
beam monitoring in, methods for positive charged-particle, 25:43734 (UCRL-20664)
beam source for, properties of high-intensity annular monoenergetic, 24:35752
beam stability in Adgezator, negative mass effect on, 25:22918(T) (UCRL-Trans-1426)
beam stability in adgezator, negative mass effect on, 23:52044 (JINR-P9-4620)
characteristics and uses of 70-GeV proton, 22:46585 (UCRL-18103, pp 79-88)
characteristics of, 22:46593 (UCRL-18103, pp 145-63)
compressor coil system for, computer calculations pertaining to, 22:46606 (UCRL-18103, pp 254-62)
conference on, 22:46578 (UCRL-18103)
conference on, 24:35778
damping of minor radius in, during compression, 22:46608 (UCRL-18103, pp 270-2)
description of 1000-GeV proposal, 24:45706
description of multiply-charged ion, 23:52101
description of, for producing intense beams of high-energy protons, 22:24754
design and performance for ion acceleration to high energies, conceptual, 25:25582
design concepts for high-energy proton, preliminary, 25:31052 (UCRL-20169)
design of, relativistic kinematics associated with, 22:46602 (UCRL-18103, pp 224-7)
design of, using static magnetic field, 23:15324
design parameters for, 22:46597 (UCRL-18103, pp 191-4)
design parameters for 1000-GeV, static magnetic field, 23:28194
design parameters for accelerating polarized protons, 24:43079 (JINR-P1-5209)
design parameters for high-energy proton, 25:20161
design parameters of, 22:46596 (UCRL-18103, pp 186-90)
design parameters of, 22:46595 (UCRL-18103, pp 184-5)
design parameters of, effects of ring compression and equilibrium position of ions on, 22:46624 (UCRL-18103, pp 376-8)
design study of circular, 22:46599 (UCRL-18103, pp 207-9)
design study of static-field, 22:46600 (UCRL-18103, pp 210-18)
development, 22:46574 (NAL-10)
development, 25:53404 (A/CONF.49/P-695)
development and operation at Lawrence Radiation Laboratory Nov. 1968 to April 1969, 23:51868(R) (UCRL-18877)
development and research at Berkeley, 25:9917 (UCRL-20125)
development and research at Berkeley, 25:50392
development and research at Univ. of Maryland, 25:50393
development at Berkeley, 24:1696 (UCRL-18896)
development at Berkeley, 25:25578 (UCRL-20150)
development at Berkeley and Livermore, 24:35795
development at Dubna, 25:3515
development at Garching, 24:35787
development at Karlsruhe, 24:35782
development at LRL, 23:10876 (UCRL-18498)
development for acceleration of high-energy protons, 22:26747
development for use in nuclear chemistry and high-energy physics research, 22:46591 (UCRL-18103, pp 120-6)
development of, 23:27936
development of, 23:27937
development of, 23:37046(T) (UCRL-Trans-1395)
development of, 23:42800
development of, 24:20276
development of, 25:41146(T) (UCRL-Trans-1447)
development of high-energy proton, review of feasibility of, 22:46592 (UCRL-18103, pp 127-32)
development of, computer programs for, 22:46603 (UCRL-18103, pp 228-36)
development of, computer programs for, 22:46604 (UCRL-18103, pp 237-44)
development of, LRL model for, 22:46586 (UCRL-18103, pp 89-100)
development of, review on, 23:17049
development of, review on, 25:43739
development of, survey of, 23:42799 (UCRL-19242)
development of, trapping of 0.5-MeV electron ring in 15-kG pulsed magnetic mirror field for, 23:1749
development program at LRL, 25:7777 (UCRL-20084)
development status of, 22:46581 (UCRL-18103, pp 11-33)
development study for, 22:46594 (UCRL-18103, pp 164-83)
electron beam inflection in compressor for, 24:35790
electron beam injector for, 1.2-kA, 4-MeV, 25:31053 (UCRL-20174)
electron beam profiles in, photoluminescent glass plate measurements of, 24:35780
electron beam propagation in, relativistic, 25:5469
electron motion in, solution near Q = 1 resonance of equation describing, 22:46615 (UCRL-18103, pp 304-17)
electron oscillation amplitude in, if Q = 1 resonance is crossed, buildups of, 22:46614 (UCRL-18103, pp 301-3)
electron ring compression in Garching, measurements of, 25:50401
electron ring formation in cusped magnetic field, 25:50396
electron ring formation in static magnetic field, 25:33946
electron ring formation in, instabilities in, 25:33905 (UCRL-20183)
electron ring formation, compression, and extraction in, experiments on, 25:38831
electron ring stability in, self-consistent field analysis of, 25:35838
electron rings in, self-consistent field theory of relativistic, 25:40698
electron source for, development of high-brightness laser, 24:35785
electron source for, laser-induced emission, 24:30609 (IPP-3/100)
electron source for, properties of Febetron, 24:35792
electron source for, properties of Febetron 705 for use as, 25:50395
electron source for, properties of laser-induced emission, 25:50198 (IPP-0/7)
electron—ion beam in, kinetic model of plane high-current, 25:36604 (JINR-P9-5645)
electron—ion beam in, radial self-focusing of, 25:7783
electron—ion beam oscillations in, coupling resonances of transverse, 25:53434(T) (UCRL-Trans-1451)
electron—ion bunch diagnostics by bremsstrahlung in, 25:9908(T) (KFK-tr-337)
electron—ion bunch diagnostics by bremsstrahlung in, 25:36616(T) (UCRL-Trans-1440)
electron—ion bunches in, calculation of phase volume of, 25:12302 (JINR-P9-5405)
electron—ion bunches, acceleration of self-focusing, 25:50585
electron—ion cluster diagnostics by means of bremsstrahlung, 25:33915
electron—ion ring in, stability of, 23:21190(T) (UCRL-Trans-1392)
electron-ion bunch in, stationary state of polarized self-focusing, 24:10874(T) (UCRL-Trans-1401)
electron-ring defocusing due to diffraction radiation, 25:50270
electrostatic field of ions loaded in, configuration of, 22:46612 (UCRL-18103, pp 291-7)
electrostatic field of, amplitudes of oscillation for positive ions in, 22:46609 (UCRL-18103, pp 273-4)
force on ring in, 22:46605 (UCRL-18103, pp 245-53)
ion acceleration in electron beam in, 24:6774
ion acceleration in electron ring in decreasing magnetic field, 25:20131 (JINR-P9-5535)
ion density distribution in, 22:46612 (UCRL-18103, pp 291-7)
ion injector for Smokatron, 24:35791
ion loss by electron scattering in compressed electron rings in, 22:22491 (SLAC-PUB-386)
ion rate of production in, heavy, 22:46616 (UCRL-18103, pp 318-21)
ion storage in rings of, positive, 25:20210
ion—electron separation in, when crossing rf gaps, 22:46625 (UCRL-18103, pp 379-82)
ion—electron-ring interactions in, 22:46637 (UCRL-18103, pp 457-66)
magnet flattopping circuits for beam compression in, 23:28196
model of, development of LRL, 22:46588 (UCRL-18103, pp 106-10)
operating principles of, 23:39869(T) (UCRL-Trans-1398)
operating principles of high-duty-cycle, 23:37047(T) (UCRL-Trans-1396)
operation of accelerating system in, theory of, 23:13148 (JINR-P9-4171)
operation of accelerating system in, theory of, 23:34688(T) (UCRL-Trans-1394)
operation of collective ion, principle of, 23:19087 (UCRL-71415)
operation of electron-scattering plasma, for production of high-energy particles, relativistic aspects of, 23:15315
operation of heavy-ion, principles of, 23:52032 (CEA-CONF-1286)
operation of, theory of, 24:35731 (JINR-P9-5091)
operation of, theory of, 25:36617(T) (UCRL-Trans-1443)
particle motion in adgesator, calculation of, 23:8865 (JINR-P9-4132)
particle motion in adgezator, 23:21189(T) (UCRL-Trans-1390)
particle mutual oscillations in, electron and ion, 22:46636 (UCRL-18103, pp 448-56)
performance as source of highly-ionized heavy ions, 25:27439 (WASH-1159, pp 147-55)
performance for acceleration of alpha particles, 25:12305 (JINR-P9-5558)
performance for acceleration of heavy ions, 24:35789
performance of model, for acceleration of alpha particles, 25:36615(T) (UCRL-Trans-1434)
performance possibilities using storage ring duty cycle stretcher for acceleration of heavy ions, 24:35786
plasma ring equilibrium in, 23:37048(T) (UCRL-Trans-1397)
plasma rings in, properties of relativistic, 24:40526
potential well of toroid in, calculations of electrostatic, 22:46610 (UCRL-18103, pp 275-8)
Q-values of, at injection, effect of trapped ions on, 22:46613 (UCRL-18103, pp 298-300)
radiation loss in, perturbation method for evaluating, 24:35779
radiation losses in, diffraction radiation by line charge moving past comb in model of, (T), 25:28483
radiation losses in, survey on calculations of, 24:35784
research at Berkeley, status of, 25:31059 (UCRL-20611)
research on, status of, 24:1698
resonance crossing in, 24:35783
resonance crossing in, incoherent integral betatron, 24:40523
ring acceleration and compression in, relativistic, 23:25751
ring acceleration and focusing in, 22:46618 (UCRL-18103, pp 332-40)
ring acceleration in, economic and technological aspects of radiofrequency, 22:46582 (UCRL-18103, pp 34-43)
ring acceleration in, effect of rf fields on separation of electrons from electrons and protons during, 22:46621 (UCRL-18103, pp 350-62)
ring acceleration in, model for radiofrequency, 22:46584 (UCRL-18103, pp 65-78)
ring acceleration in, pulsed line method for, 22:46583 (UCRL-18103, pp 44-64)

ring acceleration in, rf and pulsed line, 22:46589 (UCRL-18103, pp 111-15)
ring acceleration in, stability of longitudinal phase motion during, 22:46621 (UCRL-18103, pp 350-62)
ring acceleration in, use of charged particle kinematics in linear accelerators for analysis of, 22:46619 (UCRL-18103, pp 341-3)
ring axial motion in, 22:46626 (UCRL-18103, pp 383-8)
ring coherent radiative instabilities in, analysis of compressed, 22:46633 (UCRL-18103, pp 434-41)
ring compression in, effect of coherent radiation during, 22:46634 (UCRL-18103, pp 442-5)
ring compression in, in pulsed field, 22:46607 (UCRL-18103, pp 263-9a)
ring compression in, magnetic field tolerances during, 25:56595 (NP-19007)
ring compression in, using static magnetic fields, 23:28193
ring compressor for Karlsruhe, parameters of, 24:35788
ring compressor for, mechanical features of, 25:28118 (UCRL-20177)
ring dynamics in, 24:26567
ring dynamics in compressor for, effects of synchrotron radiation on, 25:33911(T) (UCRL-Trans-1435)
ring dynamics in, accelerating field effects on, 24:47530 (JINR-P9-5142)
ring dynamics in, transient effect of accelerating field on, 25:14854(T) (UCRL-Trans-1420)
ring energy gain in, with rf cavities resonating in lowest mode, 22:46623 (UCRL-18103, pp 365-75)
ring energy loss calculations for corrugated cylindrical waveguide in, 24:35794
ring energy loss calculations for corrugated cylindrical waveguide in, 24:35793
ring equilibrium in helical magnetic field, equations for, 25:5448 (JINR-P9-5299)
ring equilibrium in helical magnetic field, equations for, (T), 25:50202(T) (UCRL-Trans-1446)
ring excitation of closed cylindrical cavity, calculation of, 23:28192
ring extraction from adgezator, 24:3798 (JINR-P9-4678)
ring extraction from adgezator, 23:21189(T) (UCRL-Trans-1390)
ring extraction in, by sequence of axially-shifted coils, 22:46617 (UCRL-18103, pp 328-31)
ring focusing in collective ion linear accelerator, 23:30851(T) (CERN-Trans-69-8)
ring formation and compression in, experimental test apparatus for, 22:46584 (UCRL-18103, pp 65-78)
ring formation in static magnetic field, 25-MeV, 23:28195
ring formation in, theory of, 25:25544 (AECL-3779)
ring formation in, use of synchrotron radiation effect for, 24:45658 (UCRL-19815)
ring image focusing in, squirrel cage system for, 24:5360 (JINR-P9-4737)
ring image focusing in, squirrel cage system for, 24:26547(T) (UCRL-Trans-1408)
ring image focusing in, use of thin dielectric layer on tube for enhancing incoherent, 22:46630 (UCRL-18103, pp 426-30)
ring instability in, non-linear regime of, (T), 25:28110 (JINR-P9-5622)
ring instability in, non-linear regime of, (T), 25:53435(T) (UCRL-Trans-1453)
ring motion in ripple magnetic field in, 25:12301 (JINR-P9-5394)
ring negative mass characteristics in, analysis of, 22:46635 (UCRL-18103, pp 446-7)
ring radial focusing by synchrotron radiation in, 25:33920
ring stability at initiation of acceleration in, lower bounds on self-focusing forces for, 25:1697
ring stability during spillout and acceleration, lower bounds on self-focusing for, 24:10873 (UCRL-19398)
ring stability in, 22:46639 (UCRL-18103, pp 484-500)
ring stability in ceramic compressor chambers in, 24:35781
ring stability in loaded, during compression and accelerating phase, (T), 22:46590 (UCRL-18103, pp 116-19)
ring stability in, problems of, 23:13147 (JINR-P9-4138)
ring stability in, use of Astron operation characteristics for analysis of, 22:46632 (UCRL-18103, pp 432-3)
ring—bunch dynamics in, impact mechanism in, 25:14855(T) (UCRL-Trans-1421)
self fields of toroid in, configuration of, 22:46611 (UCRL-18103, pp 279-90)
stability in, effects of shielding on negative-mass type of, 22:46638 (UCRL-18103, pp 467-83)
stripping time of heavy elements in, 22:46616 (UCRL-18103, pp 318-21)
synchronization of compression, release, and timing in, 22:46620 (UCRL-18103, pp 344-9)
theory, 23:37040 (NP-17918)
theory of, nonlinear, 24:49639
Touschek phenomenon in, 22:46631 (UCRL-18103, pp 431)
use for accelerating heavy ions, 24:28649 (NP-18231)

calibration for therapy, performance of ionization chambers for, 25:51917
cathode for gun-type, 25:3523(P)
cathode for gun-type, thorium dispenser, 21:7000
cathode structure for electron guns, high-temperature indirectly heated, 21:34537
cathodes for accelerator, properties of lanthanum hexaboride, yttrium hexaboride, and gadolinium hexaboride, 25:12316
cathodes for microtron, fabrication and properties of rare earth hexaboride, 24:46771 (NP-18432)
characteristics of high-current, for electron beam accelerators, (E), 25:5473
characteristics of low-energy guns, current-density and velocity-distribution, 21:26997
circuits for pulsing linac gun-type, 23:49253(P)
construction for Astron linear accelerator, metal-to-nonmetal brazing for, 23:25737 (UCRL-71542)
control circuit for electrode in gun-type, 23:21200(P)
control system for gun-type, light-combined conversion, 23:7206(P)
control systems for Van de Graaff, description of cathode-ray tube—photoelectric cell, 22:23386(P)
current regulator for gun, design of feedback, 22:30910(P)
cutoff potential of triode electron gun, effect of geometric parameters on, 22:52504
description of high-current, for use down to 1.0 nanosecond pulse length, 21:37998
description of, for use with nuclear geophysics equipment, 22:28262
design, 21:2573(P)
design and characteristics of 1.5-A 30-keV plasma, 24:13234
design and operation of two-anode electron gun using longitudinal compression, 22:39535
design and performance for polarized electrons, using oriented potassium atomic beam, 21:42511
design and performance of 50-kV electron gun, 23:23590
design and performance of 50-kV electron gun, with beam current of 15 mA, 22:44537 (INR-P-893/XVIII/PP)
design and performance of high-power relativistic, 24:51638 (AD-706040)
design and performance of monovelocity, 23:5211
design and performance of plasma, for welding, 23:31593
design and performance of polarized, for University of Bonn synchrotron, 23:30897
design and performance of pulsed highly-ionized, 22:1536 (YALE-2726-501)
design and performance of pulsed, for radiobiological studies, 23:23583
design and performance of pulsed, for Van de Graaff accelerators, 21:7613
design and performance of telefocus tetrode-type, 21:35026
design and performance of unsymmetric electron gun, for helical beam production, 24:20295
design and performance of, for time-of-flight mass spectrometer, 21:4484(R) (COO-1142-71)
design and testing of gun type, for flash evaporation of rare earths, 22:47265 (GEPP-40)
design for accelerators, 23:30872(P)
design for beam production with transverse energy, 25:33061
design for beam—plasma studies, 24:3330 (AD-690791)
design for beams of variable transverse energy spread, 23:42524
design for betatron, 24:6800(P)
design for betatron, with discharge-preventing circuitry, 22:7607(P)
design for electron and ion production, 21:4171(P)
design for intense slow beams, (E), 25:22352
design for irradiation facility, 22:8287(P)
design for magnetic field calculations, 21:16799
design for proton cyclotron model, 22:3579
design of, 21:23390(P)
design of 3-MeV 80-kA 50-ns pulsed, 23:16174 (CEA-CONF-1201)
design of 80-keV, for Stanford Linear Accelerator injection system, engineering drawings for, 22:29823
design of axially symmetric electron guns, 21:19097 (UCRL-70199)
design of cold-cathode discharge, 25:51949(P)
design of crossed-field, for injection into linacs, 25:59659(P)
design of detachable electron guns with niobium cathodes, 22:7579
design of electron guns, accuracy of numerical solutions for, 21:45483
design of fast beam-switching gun, for beam—plasma experiments, 23:39459 (D-1-82-871)
design of feedback controlled, 24:4507 (NP-18077)
design of field-emission gun, for high-intensity small-radius beams, 22:24776
design of gun for studying quasi-linear and nonlinear beam—plasma interactions, 25:30500
design of gun, for aerodynamic and plasma measurements, 21:2211
design of gun-type, for energies above 2 eV, 24:19715
design of gun-type, for injection into gases at atmospheric pressures through differential window, 25:18850
design of gun-type, for measurement of ionization reactions with molecules, 24:5965(P)
design of gun-type, with high frequency acceleration, 23:30864(P)
design of high energy, for electron-initiated polymerization curing of coatings, 22:23207(P)
design of high-current low-voltage, for production of metastable atomic and molecular beams, 24:48992
design of high-power electron gun having electron-bombarded apertured cathode with concave emission surface, 23:8904(P)
design of high-voltage irradiation machine, 23:6255(P)
design of low-energy, for efficiency measurements of channel electron multipliers, 25:8490
design of low-energy, producing small fluxes at 10^3 to 10^5/sec, 23:32870
design of low-temperature, 24:30656
design of Pierce gun with right-angle inflector as injection system for cyclic electron accelerator, 24:8792
design of Pierce gun, for atomic beam recoil scattering measurements, 24:48996
design of Pierce gun, for minimum beam diameter, 24:520
design of Pierce spherical triode, for Stanford linear accelerator, 21:37999
design of plasma, with compact hollow cathode, 22:52503
design of plasma-emission, 21:20946(P)
design of plasma-filled hollow-cavity, 22:9117(P)
design of polarized, survey of, 24:3791 (AD-690762)
design of pulsed, 22:9743(P)
design of pulsed high-power diode, 25:45847
design of short-pulse gun-type, for accelerators, 25:38829(P)
design of tri-electrode gun, for increasing charge density of electron beams, 24:1703
design of twin-filament, for betatrons, 22:9752(P)
design of, for polarized electrons, 22:36702(R) (AD-664668)
design of, for studies on decomposition of ammonia, 21:3110
design using nonuniform magnetic field, 22:37263(P)
design with plurality of control electrodes, 22:9750(P)
development and use of monoenergetic, 21:16832
development for use with 90° mass spectrometer, 22:14434 (ORNL-4196, pp 93-8)
development of, 21:40896
development of 80-keV polarized, 25:38132
development of gun-type slow monokinetic, 23:19078 (CEA-R-3646)
development of high-brightness laser, for electron-ring accelerator, 24:35785
development of low-emittance high-density laser-induced emission, 24:30609 (IPP-3/100)
development of polarized, based on elastic electron—hydrogen spin-exchange collisions, 24:38006
development of straight channel multipliers as, 25:44596
directory of firms providing, for use in radiation processing of food, 22:49664
electrode alignment method for gun-type, in accelerator, 23:44774
electrode calculations for producing paraxial beams, 22:29798
energy spectra from duoplasmatron, (E/T), 23:34703
fabrication of detachable electron guns with tungsten cathodes, 22:7586
filaments of, control and stabilization of circuits for heating, 21:34528 (UJV-1716)
ion acceleration in vacuum-spark plasma, (E), 22:7159
model for point-cathode, (T), 22:7147
monitoring of pulsed field emission, system for, 22:45337(R) (NYO-3510-5)
operating characteristics of hollow-anode gas discharge, 25:12319
operation of convergent-flow gun, for thin beams, 25:33919
operation of, principles of, 21:45528
optics of ring-beam, theoretical considerations of, 21:42491
performance of arc-discharge plasma in metal vapors, 21:20744
performance of electron guns, computer program for evaluating, 23:20047 (PEL-184)
performance of medium perveance, high convergence gun, (E), 21:27012
power supplies for bombardment-type, 22:11849(P)
properties of Febetron 705, 25:50395
properties of Febetron, for electron-ring accelerator, 24:35792
properties of gas discharge, for up to 50 eV energies, 24:17952
properties of laser-induced emission, 25:50198 (IPP-0/7)
properties of magnetoplasmadynamic arc, (E), 23:32404
properties of Penning discharges, 24:23974
properties of short-duration pulse, in discharge tubes, (E), 23:14632
replacement in Van de Graaff accelerators, device for efficient, 21:19131(P)
review of industrial, for plastics production, 23:28920
support for irradiation facility, using magnetic field, 23:11695(P)
testing of COGEN 1, 22:39954 (EGG-1183-449)
theory and uses of high perveance three-electrode guns, 22:12703
theory for crossed-field and magnetron, internal problem solution in, 25:9617
theory for laminar axisymmetric powerful, solution of internal problem for, 25:9618
use in self-calibrating ionization chamber, 21:24230(P)
use of double gun, with ultrahigh vacuum system for film deposition, 25:10806

design for wavelength shifting in spectrophotometers, engineering drawings for, 22:25709
design of analog simulator, for radiocardiography, 22: 21372 (CEA-R-3363)
design of anatomic site marking device for use during gamma camera scintigraphy, 25:37842
design of beam monitoring, for Stanford Linear Accelerator, engineering drawings for, 22:14899
design of correlator for signals up to 2.5 MHz bandwidth, 22:28219
design of dual pulse generator and discriminator, 22: 14898
design of high voltage divider and leakage monitor, engineering drawings for, 22:14897
design of high-speed time analyzer, to measure neutron deceleration and diffusion, 22:14612
design of high-voltage, for plasma injectors, 22:24249(T) (AD-666140)
design of noise generator based on radioactive source, 23:41156
design of rf separator, for Stanford Linear Accelerator, engineering drawings for, 22:14635
design of standard nuclear instrument modules, 22: 19193 (TID-20893(Rev.2))
design of ultrafast numerical sampler for studying elementary phenomena in ionized gases, 23:17814 (CEA-CONF-1011)
design of video signal digitizer, for analysis of particle tracks in photographic film, 23:7912(P)
design optimization of satellite-borne, 24:4540
design practices for electromagnetic protection in military systems, 23:2464 (UCRL-71024(Rev.1))
design, fabrication, and performance of transistorized, for radiation measurements, 21:34545
development at CEA, 22:23276
development at CERN, 1968, 23:37041(R) (NP-17947)
development at Israel Atomic Energy Commission, 24: 11858 (IA-1190, pp 271-303)
development at ORNL, Sept. 1968—Aug. 1969, 24:7690 (ORNL-4459, pp 6-14)
development at ORNL, Sept. 1969—Aug. 1970, 25: 13318(R) (ORNL-4620)
development at Risoe, 24:513(R) (RISO-M-923)
development at Saha Institute, 21:12098
development at Tunisian CEA 1966-1967, 22:14875(R) (NP-17229)
development for automatic evaluation of activity of radioactive samples, 21:26271 (KFK-276)
development for improved ultrasonic testing for material defects, 25:6487
development for plasma research, 22:24245 (MATT-Q-25, pp 357-63)
development for radiation detectors, 22:23266 (JEN-183-DF/1-56)
development for use with proximity transducers for liquid metal bearing clearance measurements, 24: 14129(R) (NYO-3930-6)
development in Denmark, 22:6678(R) (RISO-M-578)
development in France, 23:50128
development in France, survey of, 23:16080 (CEA-CONF-1189)
development of atmospheric cloud tracking, use of laser light source in, 22:16739 (SC-DR-67-115)
development of modular system of, for on-line computer applications, 23:22137
development of modular, for reactor control, 21:32513
development of modular, for reactor control, 21:32529
development of nuclear, 22:47407
development of nuclear, at CEA, 23:41015
development of radiation-hardened, for nuclear explosion environments, 23:50235
development of transitorized, for whole-body x-ray for dosimetry, 22:8531
development of, for high-energy physics, 21:3250 (UCSB-34-P-135-1)
developments at C.E.A, 21:34544
drift correction for binary cross-correlation, 22:21369 (AEEW-R-583)
electrical environment of, during Wishbone event, analysis of, 22:10637 (UCID-15210)
electromagnetic shielding by enclosures, environmental effects on, 22:44203
fabrication of, vacuum encapsulating machine for, 21: 6119
failure analysis at Riso, 22:16938 (RISO-165)
failure rate of control, use of dynamic programming to determine, 21:10508 (RT/EL-(66)3)
failure rates in reactor protective systems, analysis of, 24:50164
fire extinguishing system for mobile facilities of, design of self-contained, 21:44986 (SC-DC-67-2103)
inductance standards for, at 0.05 μH to 100 μH, 22: 1912 (BDX-613-98)
inspection of miniature radars, visual and electrical, 25: 51264 (BDX-613-451)
interference problems in, electromagnetic, 22:22920 (UCRL-18111)
irradiation testing of control components of, for SNAP-8, 21:8014 (NAA-SR-12042)
Josephson effect use in, 25:49837
leak testing of welded, methods for, 24:397
maintenance and service at ORNL, 23:16191 (ORNL-4335, pp 108-13)
maintenance of, measurement of gain from preventive, 21:38835 (RISO-M-512)
malfunctions in complex, diagnosis of, 25:44233(R) (BDX-613-431)
materials for vacuum devices, assortment and use of, 21: 4897(T) (JPRS-37911)
materials for, charge transfer properties of organic, 21: 16220 (RT/EL-(66)10)
microcircuits for, development of materials for, 24: 39677
modular system design for, for on-line computer applications, 23:9784 (AERE-R-5815)
noise reduction in, method for systematic, 21:1683
operation and maintenance of EG and G timing clock type TD-92, manual for, 22:14376 (EGG-1183-288)
performance for measuring activity of tritiated water in liquid toluene phosphors, 21:32422
performance for measuring nuclear yields, tests for determining, 25:54993 (AD-720974)
performance of, effects of nuclear explosions on, 21: 10969
performance of, evaluation of, 22:33686 (RISO-M-706)
performance onboard space vehicles, environmental effects on, 24:4532
performance predictions for design of, fault rate data for, 22:33687 (RISO-M-709)
performance standards for, in USA, relevance of Public Law 90-602 to, 24:34184 (CONF-690335, pp 34-8)
photomultiplier head, design of regulated dynode, (E), 22:5817(R) (NYO-GEN-72-28)
preparation of, using tantalum thin-film methods, 21: 3471
principles and operation of, for simulating fallout radioactivity, 21:39076 (NP-16770)
probability distributions for quantizing envelope detector, with sinusoidal signal in Gaussian noise at input, table of output, 21:47036 (SC-R-67-1185)
production of subminiature, using rolamite geometry, 23: 34965 (SC-RR-67-656-B)
protection from electromagnetic pulses generated by nuclear explosions, 24:14122 (CONF-690824-(summ.))
protection from nuclear explosions, design of structures for, 24:411
pulse shape discriminators, design of, (E), 22:5817(R) (NYO-GEN-72-28)
pulses from, statistical errors in analog and digital methods for direct rate ratio measurements of, 23: 41043 (EUR-4289, pp 349-53)
radiation and vacuum effects on micro-, 22:10673
radiation effects on logic, for space applications, 1-MeV electron, 24:4537
radiation effects on microminiaturized thin-film integrated circuit elements, 21:39654(R) (AD-651144)
radiation effects on performance of, γ, 21:34552 (N-67-17969)

radiation effects on reliability of passive components in, 24:4539
radiation effects on reliability of, gamma and neutron, 21:12737(R) (N-66-24404)
radiation effects on reliability of, in space environment, 24:33981
radiation effects on transistorized, 21:1969(R) (AD-632716)
radiation effects on, aboard Mariner 4, 20- to 137-MeV proton, 23:756 (N-68-27203)
radiation effects on, bibliography on, 25:479 (N-70-31746)
radiation effects on, bibliography on, 22:49773 (REIC-Access-111)
radiation effects on, conference on, 23:17860
radiation effects on, design of transient signal recording system for studying, 22:43197
radiation effects on, in accelerators, 24:27102 (CERN-70-5)
radiation effects on, manual on, 21:18303 (UCID-4544)
radiation effects on, nuclear explosion radiation simulators for studying transient, 25:29410
radiation effects on, onboard space vehicles, 24:4532
radiation effects on, trapped, 21:8663
radiation hardening of, for nuclear explosion environment, 25:21497
radiation hazards from use of, in high schools, survey of, 24:6053
radiation hazards from, provisions of U. S. Radiation Control for Health and Safety Act of 1968 for control of, 23:22313
radiation hazards of, conference on, 25:24193 (BRH/DEP-70-26)
radiation hazards to personnel and public in general from, survey of role of federal agencies in establishing or enforcing safety standards for control of, 25:16202 (BRH/DEP-70-28)
radiation hazards to public from, annual report of Bureau of Radiological Health on status of compliance of industry with federal programs and standards for control of, 25:16194 (BRH/OBD-70-3)
reliability for use in space, conference on, 24:4527
reliability of, 22:23384
reliability of nuclear reactor, analysis of, 22:37904 (DUN-SA-66)
reliability of, conference on, 23:31590
reliability of, x radiography and thermography testing of, 24:4501
requirements for auto- and cross-correlation spectral density measurements for reactor control, 22:1785
research and development at Greek AEC, 1967, 24:23038(R) (NP-18159)
research and development at Strasbourg, 24:33969
research at Greek AEC, 1952 to 1966, 24:23037(R) (NP-18156)
research at Juelich Nuclear Research Center, 1969, 25:15964(R) (NP-18602)
research on, 21:7211(R) (TID-23459)
research on reactor, at Ispra, Italy, 1961 to 1967, 23:17645 (EUR-3940-3)
research programs at Juelich on, 21:14127(R) (NP-16420)
response of in-building cabinet-housed, to shock from nuclear explosions, 22:51197
safety evaluation in relation to public health, 24:34716 (CONF-690335, pp 13-25)
safety standards for, in USA relevance of Public Law 90-602 to, 24:34365 (CONF-690335)
safety standards for, in USA, relevance of Public Law 90-602 to, 24:34182 (CONF-690335, pp 9-12)
safety standards for, in USA, relevance of Public Law 90-602 to, 24:34370 (CONF-690335, pp 77-83)
safety standards for, provisions of Public Law 90-602 relevant to, 24:34185 (CONF-690335, pp 57-71)
shielding of, hardness penalties in, 23:35579
shock mounts for protecting, effects of underground nuclear explosion-generated ground motions on, (T), 25:21219 (UCRL-50973)
signal nonlinearity introduced by amplitude-dependent time delay, measurement of, 24:50274 (EGG-1183-533)
standard for, CAMAC, 25:42218
standards for power reactor systems, development of, 24:45850
stochastic processes in, theory of, 24:14349 (EUR-4290, pp 45-54)
testing for failure and malfunction, methods for, 22:14607 (CONF-671011-, pp 314-39)
testing of, infrared methods for nondestructive, 21:4675(R) (N-66-29973)
testing of, instrumentation and methods for, 25:51306 (NASA-SP-5907(2))
testing of, used in radiation monitoring instruments, 22:6556 (CONF-650460-1)
testing procedures for, 21:26274 (NP-16372)
tunnel diode delay unit, design of, (E), 22:5817(R) (NYO-GEN-72-28)
tunnel diode set—reset device, design of, (E), 22:5817(R) (NYO-GEN-72-28)
use in nuclear physics, review of, 21:6340
use of differential voltage comparator, for level control of radiation alarm systems, 23:14075 (BNL-13258)
uses in high-energy physics, review of, 24:4486
voltage regulator for nuclear modular, 21:41304
ELECTRONIC FILTERS
characteristics of analog and digital, for radiation detectors, 24:33895
description for high-rate pulse-amplitude spectrometry, 23:31538 (BNL-13683)
description for multichannel pulse analyzers, 21:45449 (BNL-11794)
description of time-variant, for pulse amplitude spectrometers, 22:40449
description of time-variant, for semiconductor spectrometers, 23:22072
description of, for high-rate high-resolution pulse-amplitude spectrometry, 23:22073
design and performance for reducing pulse pile-up in scintillation and semiconductor detectors, 23:24429 (LAL-1211)
design and performance for reduction of harmonic components from power feeder for Brookhaven AGS, 22:44529 (BNL-12691)
design and performance of iterative passive, for shortening of pulse duration in scintillation and semiconductor detectors, 23:29178
design and performance of time-variant, for increasing performance of high-rate pulse-height spectroscopy, 21:30686 (BNL-11382)
design and performance of time-variant, for time analysis with semiconductor detectors, 23:11774
design and performance of, for generating synthetic seismograms of underground nuclear explosions, 25:291
design for improving resolution of nuclear spectrometers, 23:7773 (CEA-R-3420)
design for magnet power supplies for Argonne ZGS, 23:28097
design for main magnet power supply of BNL AGS, 21:7584 (BNL-9581)
design for semiconductor detectors, using double-diode circuit, 23:21992
design of amplitude and timing, for pulse amplifiers in nuclear detection systems, 21:39225
design of digital, for suppressing nonstatistical noise bursts in digital averaging, 24:48344(P)
design of double delay line, for shaping pulses from semiconductor detectors, 25:29366
design of lock-in detector, 25:3954 (IS-2389)
design of low-frequency-rejection, minimum-noise, for nuclear spectrometers, 23:41036 (EUR-4289, pp 47-54)
design of low-pass, 25:4399
design of near-optimum, for coaxial transmission lines, 25:57892
design of time-dependent, for improving resolution of semiconductor detectors used in nuclear spectroscopy, 22:33660
design of time-variant, for generating bipolar pulses with signal-to-noise ratios of unipolar pulses in pulse amplifiers, 23:35571
design of time-varying, for generating simulated seismograms from underground nuclear explosions, 23:16181 (NVO-1163-156)
design of triple-circuit band, 21:11877
design of two-dimensional nonrecursive, algorithm for optimum, 25:15467 (UCRL-72663)
design of, for VVR-M reactor water purification, 21:10207
performance in nuclear pulse amplifiers, 21:6353
performance of lithium-drifted germanium detectors and RLC, using pole-zero cancellation technique, 22:14884
performance of low-order phase-locked loop, large signal, 25:10407 (UCRL-72390)
phase distortion elimination using digital techniques, 24:46165 (Y-DA-3514)
requirements for semiconductor detectors, 23:21991
signal—noise ratio of time-dependent, for semiconductor spectrometers, 22:47361(T) (ORNL-tr-1971)
signal-to-noise ratio of gated, for semiconductor detectors, 23:21987
signal-to-noise ratio of time-dependent, used in nuclear spectroscopy, 22:25655
synthesis of RC-active, Haykim's method for, 22:6237 (UCRL-70510)
theory of digital, 24:43880 (IN-1411)
theory of, for nuclear spectroscopy, 24:50578 (LYCEN-7008)
use for radioactive atmospheric particulate matter, 21:43066

absorption and scattering in ionosphere, effects of auroral electrojet on fast, (T), 25:27589
absorption at 1.77 MeV in aluminum, carbon, copper, lead, and tin, (E), 21:23004
absorption by aluminum, gold, and silver foils, temperature dependence of coefficients for, (E), 21:9327
absorption by crystals, effects of point defects on, (E/T), 21:7365
absorption by doped and undoped silicon crystals, (E), 21:7365
absorption by magnesia single crystals at 100 to 1200 kV, effects of simultaneous reflections on, (E), 22:1312
absorption by materials at high energies, dose inhomogeneity estimation in, 25:32110
absorption coefficients of fast, measured from electron microscope images, (T), 21:13373
absorption in air and plastics at 0.02 to 50 keV, measurement and calculation of, 23:25743
absorption in air, efficiency of conversion of kinetic energy into photon energy at 3914 A during, 23:41951
absorption in aluminum and plexiglas shielding, Monte Carlo calculations of doses and spectra for, 24:35523
absorption in aluminum, copper, tin, and lead at 312 keV, (E/T), 25:40761
absorption in biologically significant materials, high energy, 22:51681
absorption in germanium and silicon, free surface displacement and velocity induced by, 23:10708
absorption in materials, transport theory for, 24:44969 (EUR-4452, pp 567-94)
absorption in polystyrene at 20 MeV, measured charge distribution for, 22:52490
absorption in upper atmosphere of fast, (E/T), 22:9215
absorption in water, calculated depth rate and charge distribution of, 22:52490
abundance in cosmic radiation, (T), 22:17434
abundance in galactic H I regions, (T), 24:32588
abundance in intergalactic space, (T), 23:14582
abundance in interplanetary space, (E), 22:26171
abundance in interstellar space, use of pulsars to determine, (T), 22:52351
abundance in primary cosmic radiation, (T), 22:21962
abundance near Venus, (T), 22:34135 (AD-662227)
abundances and temperatures in the exosphere, (T), 22:29335
acceleration and scattering of cosmic, by magnetic-field inhomogeneities of moving plasma, (T), 24:45070
acceleration at 4 keV in auroral, (E), 22:22055
acceleration at 6.6 R/sub E/ during magnetospheric substorms, (E), 22:47984
acceleration by cyclotron resonance, effects of electrostatic field on, (T), 23:42824
acceleration by electrodynamic space-charge effects, 23:25746
acceleration by nonlinear waves near earth, 21:29147
acceleration during magnetic storm on April 18, 1965, (E), 22:13344
acceleration during magnetospheric substorms, geomagnetic collapse-associated, (E/T), 25:7304
acceleration in auroral zone, (T), 23:5322
acceleration in auroral zone, mechanism for, (E/T), 25:14116
acceleration in collisionless shock wave in solar corona, (E), 23:39208
acceleration in external electric field, Maxwell electrodynamics for paradox of radiation from uniform, (T), 25:9709
acceleration in inner radiation belt, 21:9430
acceleration in ionosphere by electrostatic waves, (T), 24:32746
acceleration in jet of M87 radio galaxy, (E), 22:21834
acceleration in large magnetic fields, neutrino radiation by, 21:14937

acceleration in magnetic field, synchrotron emission from, (T), 21:9465
acceleration in magnetosphere, (E), 22:29361
acceleration in magnetosphere, (T), 23:42101
acceleration in microtron resonant cavity, measurement of peak voltage, 21:9888
acceleration in oblique pulses in magnetosphere, (E/T), 21:23071(T) (N-67-12929)
acceleration in radiation belts by bimodal diffusion, (T), 23:16736
acceleration in slotted-iris linear accelerators, dynamics of, 21:31654 (CEA-R-3112)
acceleration in smooth waveguides, method of auto-resonant, 21:19109
acceleration in solar flares, relation of electric fields to, 21:14939
acceleration in solar flares, relation to Type-I noise activity, (E), 25:19402
acceleration in solar flares, two-stage, (E/T), 25:30169
acceleration in supernovae to relativistic velocities, (T), 24:30071
acceleration in transition region behind earth's bow shock, (E), 21:687 (N-66-22228)
acceleration in transition region beyond magnetosphere, (E), 21:690 (N-66-23747)
acceleration in upper solar corona, (E), 23:36432
acceleration in Yerevan synchrotrons, numerical-analytical calculation of polarized, 21:29783
acceleration mechanisms in outer radiation zone, morphology of, (E), 23:23019
acceleration of 10- to 100-keV, by solar flares, (E), 25:35726
acceleration of cosmic, (T), 23:51315
acceleration of cosmic, in pulsars, (T), 24:15078
acceleration of geomagnetically trapped, by ionospheric currents, (E), 21:702
acceleration of low-energy cosmic, (T), 23:41870
acceleration of relativistic cosmic, (T), 25:58830
acceleration of relativistic, in Crab Nebula, 23:48642
acceleration of relativistic, in solar proton flares, (E/T), 25:22320
acceleration of solar, (E/T), 25:43067 (N-71-16749)
acceleration of ultrarelativistic, in Crab Nebula, (T), 23:41777
acceleration of ultrarelativistic, in nonthermal radio sources, (T), 23:48641
acceleration process in Crab Nebula, (T), 21:11363
acceleration to relativistic energies, mechanism for, (T), 22:36692
accelertion in solar flares due to quasistatic electric fields, (T), 25:55760
analysis of delta-ray, produced in heavy charged particle reactions with matter at high-energies, 23:13974 (BNWL-715(Pt.2), pp 181-225)
angular and energy distributions of, from argon ion reactions with copper, 21:2312
angular and energy distributions of, from proton reactions with helium and hydrogen, (E/T), 21:2034
angular and spatial distribution over polar caps, satellite observations of solar, (E), 25:27540
angular distribution asymmetry in e + d → e + d interactions, deuteron anapole moment for determination of, (T), 25:17432
angular distribution at 350 to 1200 km at low latitude, (E), 25:58904
angular distribution at various depths in cascade showers, (T), 22:21918
angular distribution from copper-64, in monocrystalline copper, 24:14825
angular distribution in iron and lead of cascade, equilibrium functions of, (T), 22:21917
angular distribution measurements in bremsstrahlung production, 21:27002
angular distribution of trapped, naturally and artificially injected, (E), 25:17042
angular distributions in cosmic showers, (T), 22:11288
angular distributions in high-energy cascade showers in air, (T), 24:21960
angular distributions in magnetosphere, satellite-borne detector system for measuring, 24:22990 (UCRL-50745)
angular distributions of equatorial 30 to 300 keV, in loss cone and at large angles, (E), 25:56027
anisotropy in synchrotron sources, pitch-angle, (T), 24:19643
anisotropy of greater than or equal to 70-keV solar, degree of, (E), 25:32975
anisotropy of primary cosmic, (T), 23:39354
annihilation and trapping of positive holes and, in γ-irradiated KCl—TlCl crystals, 21:2321
annihilation with positrons in > 10 solar mass stars, radiative corrections to, (T), 21:13318
anticorrelation with auroral structures during high magnetic activity, (E), 25:27581
anticorrelation with geomagnetic index, auroral zone, (E), 25:27582
arrival time distribution in cosmic showers, (T), 21:37207
arrival time in EAS at 10^{13} to 10^{19} EAS, validity of Lorentz invariance and upper limit for fundamental length in, (E), 24:10835
astrophysical significance of cosmic, 23:16686
asymmetry at 8.3 GV cutoff rigidity of cosmic primary, east—west, (E), 23:12597
atmospheric collision effects on loss rates of trapped, (E/T), 21:9442
attachment coefficient to carbon tetrachloride in helium, control of time resolution of pulsed spark chambers from total, (E), 23:38312 (BNL-13828)
attachment coefficients in air and nitrogen—oxygen mixtures, (E), 21:35018
attachment in nitrous oxide, 24:27108(R) (RRL-2310-296)
attachment to molecules in gas phase at 25 to 210°C, equipment for measuring rate of, 22:35777 (ORNL-TM-2216)
attachment to nitrous oxide and water, 23:35138(R) (RRL-2310-276)
attachment to sulfur fluorides in ionized argon flows at high temperatures, (E), 22:41340
attenuation in aluminum films at 1.5 and 2 keV, 24:25952
attenuation in biological materials, low energy, 24:44415 (EUR-4452, pp 529-39)
attenuation in human bones and in water, 23:38572
attenuation in magnetic fields, electromagnetic wave nonresonance negative absorption during, (T), 22:48200
auroral hiss from low-energy, interpretation in terms of incoherent Cherenkov radiation, (T), 22:15421
auroral precipitation of, position of oval of, (E), 23:39395
avalanches in proportional detectors, statistical analysis of, 24:2471
beam distribution during therapy, use of plane densitometer to analyze, 23:6528
beam interactions with hydrogen, proton acceleration and beam-front from, 24:47542
behavior during magnetic storm of April 17—18, 1965, (E), 22:13367
behavior in collision-dominated weakly ionized positive column, (T), 23:1454
binding energies in europium metal and oxide, (E), 22:52866
binding energies in highly ionized fission fragments, calculation of, 21:37121
binding energies in light positive ions, calculation for six statistical models, 21:18413
binding energies in platinum, (E), 22:13540 (UUIP-553)
binding energies of subshell, for hydrogen to zinc atoms and ions, 22:36717
binding energy in atoms, calculation of, 21:33135
binding energy of, Hartree—Fock calculations of, 22:38783
binding energy to electric dipoles, dipole moment, 22:7132 (ORNL-4168, pp 119-82)
binding in polar media of solvated, electronic polarization in polaron model of, (T), 24:18054
binding of trapped, to neutrons in irradiated lithium fluoride crystal, 24:26316
binding to finite dipoles, minimum moment required for, 21:3674

bremsstrahlung emission by 5.3- to 20.3-MeV, in thick gold—tungsten target, system for measuring absolute spectra of, 22:25667
bremsstrahlung emission by 50- and 100-keV, (E), 21:34013
bremsstrahlung emission by, precipitating into upper atmosphere, (T), 21:14964
bremsstrahlung emission from cosmic, (T), 24:19783
bremsstrahlung emission from fast, during intense aurorae, (E), 24:30259
bremsstrahlung emission from relativistic, in cosmic radio sources, collective, (T), 24:8271
bremsstrahlung emission from, effects on cross sections of $e^+ + e^- \rightarrow \mu^+ + \mu^-$ and $e^+ + e^- \rightarrow K^+(\pi^+) + K^-(\pi^-)$ interactions near resonant masses, (T), 25:40915 (LNF-70/51)
bremsstrahlung emission from, in cosmic showers, (T), 22:2841
bremsstrahlung emission in intense magnetic fields, (T), 24:8596
bremsstrahlung from, in extreme relativistic plasma, (T), 22:21837
bremsstrahlung spectra from 2- to 20-MeV, production in x-ray devices of, (T), 22:36710 (SC-DC-67-2399)
buildup calculations for 2-GeV protons on soft tissue slabs, (T), 23:10432 (ORNL-4316, pp 161-229)
buildup in ionospheric E-region, 21:1491 (UCRL-14849)
bunching in cylindrical cavity resonators, 22:20376(T) (AD-661900)
bursts of field-aligned, at high latitudes in magnetosphere, (E), 22:36808 (N-68-17072)
calibration of high-energy, from betatrons, threshold technique for, 23:50761
capture and loss by fast protons in argon, helium, hydrogen, and nitrogen, cross sections for, (E), 22:2816
capture and loss in swarm experiments, (T), 21:16917
capture by alkali metal halides, negative ion formation in, (E), 22:49986(T) (NRC-TT-1316)
capture by argon and neon, calculations on, 21:20732
capture by atoms, modified classical theory of, 21:20732
capture by beryllium-7 in solar and stellar interiors, (T), 23:14474
capture by beryllium-7, effects on solar neutrino emission, (T), 22:11148
capture by bromine, chlorine, and iodine ions in plasma, emission spectrum from, (E), 23:18391
capture by cobalt-57 in potassium iron oxalate, Moessbauer spectral studies on iron-57 production by, 23:47488
capture by deuterated and normal hydriodic, hydrobromic, and hydrochloric acids, swarm beam studies on, 21:27940 (ORNL-TM-1724)
capture by fluorine compounds, microwave cavity resonance method for studying thermal, 21:2230 (UCRL-17171)
capture by heavy and light water, cross sections for, 21:9295 (ORNL-4007, pp 121-69)
capture by iodine-125 in potassium iodates, sodium acid iodates, and sodium iodides, Moessbauer spectral studies on tellurium-125 production in, 24:36335
capture by molecular hydrogen atoms, cross sections for, excited atom formation from, (T), 22:992
capture by nitrous oxide at 300°K, pressure dependence of rate of, (E), 23:5248
capture by nuclei in dense stars, effects on temperature, (T), 25:8973
capture by nuclei, neutrino emission in stars from, (T), 22:13106
capture by oxygen, effects of ethylene and water as stabilizing agents in thermal, (E), 22:5117
capture by polar molecules, (T), 21:14974
capture by propyne, deuterium isotope effects on dissociative resonance, 22:8050
capture by protons and helium ions (He^+) in atmospheric gases, double, (E), 24:49015 (N-69-38564)
capture by protons, calculation of cross sections for, using Born approximation, 22:52482
capture cross sections in dissociative reactions, (T), 22:9095
capture in atom—ion collisions at 1 keV, calculation of cross sections for, 21:7014
capture in boron-trifluoride proportional counters, method for determining, 21:12667
capture in gamma-irradiated aqueous glasses of potassium and sodium hydroxides, 23:2321
capture in gamma-irradiated ice at -196°C, 22:23051
capture in γ-irradiated ice, effects of alcohols on, 24:38957
capture in helium ion and proton reactions with atomic hydrogen, impulse approximation cross sections for, 22:21854
capture in helium—hydrogen ion collisions, impact-parameter calculation of, 21:7015
capture in nitrobenzene and sulfur fluoride molecules, negative-ion formation and decay in nondissociative, (E), 21:3691
capture of, role of Auger process and electron shake-off in chemical effects from, 21:32220
cascade from collisions in decelerating medium, calculations on, 21:28016
channeling in copper thin single-crystal films at 50 keV, (E), 23:14880
channeling in crystals at ultrarelativistic energies, theory, 25:38545
channeling in crystals, review, 25:59165
channeling in crystals, review of particle and wave theories for interpretation of data on, 24:42792
channeling in crystals, review of wave theory of, 24:42791
channeling in gold at high energies, calculations of Bloch-wave, 24:26311
channeling in JSM-II scanning electron microscope, 24:48341 (AECL-3654)
channeling in magnesium oxide at 5, 10, and 15 MeV, 25:1304
channeling in monocrystals, (E/T), 24:32905
channeling in silicon and anthracene monocrystals at 148 keV, 25:9543
channeling in silicon single crystals at 16 to 28 MeV, bremsstrahlung spectra from, 24:37539
channeling in silver single-crystal films, effects on K x-ray yield, 23:44533
channeling in thin single crystals and foils, Rutherford-scattering study of, 24:47316
channeling patterns in alkali halide crystals, electron microscopy studies on, 24:43934(R) (AECL-3556)
channeling patterns in crystals, scanning electron microscopy studies on, 24:43934(R) (AECL-3556)
characteristics of auroral, (T), 24:15190
characteristics of auroral, (T), 22:47941
characteristics of auroral, (T), 23:36600
characteristics of solar-wind, Vela 4 measurements, (E), 22:41266
charge composition of 12- to 30-GeV cosmic, balloon measurements of, (E), 25:35920
charge composition of primary, between 200 MeV and 10 BeV, (E), 22:5157
charge difference (e - p), beam-deflection study of cesium and potassium atomic charge for upper limits to, (E), 23:42600
charge of, approximation for relation between renormalized and bare, (T), 25:1457
charge of, existence of hypothetical leptonic and muonic photons for difference of meson (μ) charge and, (T), 23:51889
charge of, existence of hypothetical leptonic and muonic photons for upper limit for leptonic, (E/T), 23:51889

charge of, inequality with protons, (E), 22:11573
charge of, Josephson effect for determining e/h ratio for, (E), 25:33829
charge of, relative to proton charge, (E), 25:7533
charge on, variation over cosmological time scales, (T), 25:47314
charge-deposition distribution at 4 to 24 MeV in beryllium, aluminum, copper, silver, and gold, (E/T), 25:13964
charge-sign ratio at 8.3-GV cutoff rigidity of cosmic primary, (E), 23:12597
charged particle energy losses to conduction and core, in crystals, (T), 21:40063 (BNL-11659)
chemical properties of, 21:45124
chemical reactions of, thermodynamics of, 23:35080
chemistry of hydrated, in oxygen-free solution of amino acids and peptides, 22:36200
Cherenkov emission from 10-keV, in lower magnetosphere, (E), 24:10443
Cherenkov emission from, on passing through a plate, (T), 22:44271
Cherenkov radiation emission in uniaxial crystal by, quantum theory, 24:30415
classical model for, 23:25551
classification of zero-energy bound states of two Dirac, in O(4) families, 24:49548
collection by spherical satellite in geomagnetic field, (T), 21:691 (NASA-CR-618)
collision damping mechanisms between proton beams and, in nonrelativistic case, 23:28000
collision frequency in lower ionosphere, rocket measurements of, 22:2935
collision processes in ionosphere, (E/T), 23:42094
collisions with atoms, conference on, 22:5143
collisions with atoms, theory of, 22:8995
collisions with molecules, electron impact spectrometer for studying inelastic, 22:38178
comparison to γ and x radiation for therapy of gynecologic carcinomas in man, review of, 24:21257
Compton effect for bound, calculation of, 23:18753(T) (UCRL-Trans-10311)
Compton wavelength of, (T), 22:5127
concentration over Kurukshetra, horizontal gradient-corrected ionization of total, (E), 25:38228
conductivity in cores of red-giant stars, (T), 23:5101
conference on atomic collision phenomena in solids, Brighton, England, Sept. 7 to 12, 1969, 24:42507
conference on electron mean free paths in metals, Zurich, 9/68, 23:34504
conference on use of high-energy, for therapy of neoplasms, 25:29596
configuration in boride and carbide dusts, effects of stability of, on toxicity to animals, 23:38439
confinement in toroidal apparatus, (E/T), 22:44199(R) (NYO-3863-8)
confinement of primary cosmic, (T), 24:28125
content in chromosphere, metallic emission regions, (E), 21:16737
content in interplanetary space between Earth and Venus, (E), 23:16606
content in ionosphere at Houghton, Michigan, 21:31312
content of space environment, hazards of, to manned missions, 22:6919
cooling in ionospheric D region, method for determining time constants for, 21:23076 (NP-16684)
correlation energy in four-electron systems, calculation of, 21:28974
correlation in atoms and molecules, spin and symmetry in Sinanoglu's pair-correlation theory of, 21:29020
correlation of >10-GeV cosmic, with universal black-body radiation at 3 deg K, 21:2071
correlation with magnetic fields at magnetospheric bow shock, 100- and 200-eV, (E), 25:43238
correlations in helium atom, variational-perturbation calculation of angular, 21:28973
correlations in narrow energy bands, connection with many-body perturbation theory, (T), 21:9309
correlations in narrow energy bands, perturbation expansion, (T), 21:9310
cosmic, anisotropy and propagation of, (T), 23:44202
cosmic, flux and spectrum at rigidity of 4.5 GeV, (E), 23:44205
cosmic-ray interactions with, in intergalactic space, x-ray background from, (T), 23:44199
coupling between molecules, theory of effects of, on system response to external electromagnetic field, 21:365 (FSU-2690-31)
coupling to electromagnetic field of proton, spinors in Weyl geometry for, 24:26478
coupling to mesons (μ), spark chamber study of upper limit for cross section of $e^- + e^- \rightarrow \mu^- + \mu^-$ interactions for determining, (E), 23:23407
coupling to neutrinos, effect of weak neutral currents on, (T), 24:40330
coupling to protons in two-fluid model of solar wind, (E/T), 25:922
coupling to protons, Hartree—Fock approximation in quantum electrodynamics for bound state of, 25:30989
coupling with electromagnetic fields, Dirac equation in Weyl space for minimal, 24:6756
current-intensity profile over auroral homogeneous arc to 135 km, (E), 25:16964
currents from Alfven layer to ionosphere, (T), 23:10507
currents in quantum field theory, definition of, 23:46807
damping of minor radius of toroidal configuration of, during compression, 22:46608 (UCRL-18103, pp 270-2)
decay $e \rightarrow e$ + anti $\tau + \tau$, electromagnetic field effect on probability for, (T), 23:23434
decay $e \rightarrow e + \tau$ + anti τ at high energies in magnetic field, polarizing effects in, (T), 24:24330
decay in irradiated dielectric polymers, discharge measurements, 21:44200
decay in pulse-irradiated gases, 22:18810(R) (RRL-2310-223)
decay in pulse-irradiated gases, microwave method for measuring, 22:30591(R) (RRL-2310-231)
decay in pulse-irradiated gases, microwave technique study of, 22:52480 (RRL-2310-224)
decay lifetimes of artificial Starfish, in inner radiation belt, (E/T), 25:22426
decay of fast hydrated, in pulse radiolysis, 24:31343(R) (NYO-3383-18)
decay of hydrated, from pulse radiolysis of aqueous ethanol solutions, 22:12387
decay of hydrated, in pulse radiolysis of deaerated water, 23:28915
decay of radiolytic solvated, effects of scavengers on, 25:6376
decay of trapped, in 3-methylpentane glasses, thermal, 23:47465(R) (ORO-2968-49)
decay of trapped, in γ radiolysis of heavy and light sodium hydroxide ices, effects of chloroacetic acid on isothermal, 24:46256
defects induced in antimony- and arsenic-doped germanium by 6- to 88-MeV, (E), 21:9670
degeneracy in early Universe, (T), 24:28061
degradation in alkali halides at 0.1 to 15 keV, calculations of, 23:3609
densities and temperatures in ionosphere at 100 to 240 km, Langmuir-probe investigation of, (E), 25:40502
densities in extensive air showers, use of scintillation detectors for digitizing, 22:364
density above ionosphere, temporal variation, 21:18504(R) (N-66-24953)
density and diffusion in arc plasmas, effects of magnetic field and pressure on, 21:37459
density and energy in ionosphere, satellite measurements of soft, 21:25008
density and energy in magnetosphere and interplanetary space, Mariner IV observations of, 21:11486(R) (N-66-19194)
density and ionization profiles for lower ionosphere, 21:11511
density and irregularities in ionosphere, BE-C satellite observations of, 21:29135
density and plasma scale height in topside ionosphere, Alouette I measurements of, 21:18507 (NASA-SP-3038)
density and plasma scale heights in topside ionosphere, 21:29097 (N-66-38867)
density and plasma scale heights in topside ionosphere, 21:29098 (N-67-14933)
density and scale heights in mid-latitude topside ionosphere, 21:39873
density and temperature in cesium plasma diode, effects of xenon on, (E), 21:27030 (LA-DC-8575)
density and temperature in ionosphere, development of Langmuir probe system for measuring, 21:35089
density and temperature in ionosphere, electrostatic probe for measuring, 22:10662
density and temperature in ionospheric F region using incoherent backscatter, 21:701
density and temperature in magnetosphere during Feb. 25, 1969 proton event, Langmuir probe, (E), 25:27566
density and temperature in northern auroral zone, simultaneous measurements of, 21:39899
density and temperature measurement in plasma, using floating probe, 23:14754
density at 1000 km of E > 230-keV and E > 40-keV, (E), 24:3246
density at 40 to 80 km, measurements of, 23:10493
density at 60 to 120° pitch angles in auroral zone, 1- to 30-keV, (E), 25:43248
density contours in ionosphere, relation of traveling disturbances to distortions of, 21:39876
density distribution and decay in artificial radiation belts following nuclear explosions, 21:9460
density distribution and decay of geomagnetically trapped, from high altitude nuclear explosion, 21:9458
density distribution in atoms, formulation of, (T), 21:46132
density distribution in geomagnetic tail, spatial, (E), 21:5147
density distribution in ionosphere, effects of geomagnetic activity on, (E), 21:2096
density distribution in ionosphere, parameters of cloud-like, (E), 21:2104
density distribution in ionosphere, rocket measurements of, 21:20850
density distribution in ionospheric F2 layer, temperature effect on, 21:679 (AD-633302)
density distribution in lower ionosphere, 21:37336
density distribution in the neutral sheet, directional and spatial, (E), 21:23070 (LA-DC-7554)
density distribution of ions loaded into toroidal configuration of, 22:46612 (UCRL-18103, pp 291-7)
density distributions in ionosphere, (E/T), 21:37326
density during propagation of ionospheric disturbances, (T), 21:5172
density during summer in ionosphere determined from mid-latitude by Faraday rotation from Early Bird, 21:2100
density fluctuations in cores of 10^7-GeV EAS, large transverse momentum emission of high-energy particles from, (E), 24:6682
density from 80 to 170 km in ionosphere, interaction mechanisms of, (E/T), 25:19583
density in active auroras, rocket measurements of, 21:39933
density in atmosphere, development of Langmuir probes for measuring, 21:7075 (AD-633920)
density in auroral E region, rocket measurements of, 21:39935
density in EAS, fluctuations of, 22:24072
density in environment of Venus, (E), 22:13147
density in equatorial ionosphere, effects of storms on, 21:15039
density in equatorial ionosphere, total columnar, 21:23097
density in exosphere, satellite measurements of, 21:18503(R) (N-66-24115)
density in extensive air showers, logarithmic normal distribution for, 23:44621
density in extensive air showers, performance of large area liquid scintillation detectors for determining, 22:316
density in fission fragment-generated plasma, predictions, 23:1230 (AD-670469)
density in highly disturbed ionosphere, antenna impedance probes for determining, 21:675(R) (AD-630591)
density in hydrogen plasma, use of double microwave interferometers for measuring, 23:4860
density in ionized helium, microwave absorption as function of, 21:41896 (AD-649541)
density in ionosphere, 21:674(R) (AD-629449)
density in ionosphere, 21:23074(R) (NP-16648)
density in ionosphere, 21:673(R) (AD-629430)
density in ionosphere above 100 km, 21:25026
density in ionosphere and exosphere, 21:16870
density in ionosphere auroral zone, 21:13444
density in ionosphere between 110 and 500 km, 21:41909
density in ionosphere calculated for day and night, 21:37320
density in ionosphere determined by differential Faraday effect using Explorer 22, 21:2098
density in ionosphere determined by method of coherent frequencies, 21:37319
density in ionosphere determined by radio waves from satellite, 21:37274 (AD-650722)
density in ionosphere determined by rocket-borne gyro-plasma probe, 21:41910
density in ionosphere determined by topside sounder in satellite, 21:700
density in ionosphere during May 1965 solar eclipse, instrumentation for, 21:5132 (N-66-30342)
density in ionosphere during solar cosmic-ray event, 21:25041
density in ionosphere during solar eclipse of July 20, 1963, 21:13431 (N-66-39694)
density in ionosphere during winter at middle latitudes, (E/T), 21:15049
density in ionosphere from Faraday fading of S-66 transmissions, 21:2095
density in ionosphere near auroral zone in winter, 21:33256 (AD-632264)
density in ionosphere near magnetic equator, 21:3751
density in ionosphere over Ahmedabad and Bombay, satellite measurements of, 21:7103
density in ionosphere, (E), 21:9411
density in ionosphere, (E), 21:41932
density in ionosphere, application of Schlomilch's equation to oblique incidence observations of, 21:35087
density in ionosphere, correlation with current measurements, 21:23108
density in ionosphere, differential Doppler method for determining, (E), 21:685 (AD-635380)
density in ionosphere, dispersion method for determining local, 21:24988
density in ionosphere, Electron 1 and Electron 3 observations of, 21:18510
density in ionosphere, electron temperature effect on, 21:23072 (N-67-15150)
density in ionosphere, Faraday rotation measurements from Early Bird of, 21:2101
density in ionosphere, geomagnetic and solar control of ionization determined from, 21:20858
density in ionosphere, high-latitude trough in, 21:43929
density in ionosphere, irregularities and, 21:41899
density in ionosphere, lunar tidal oscillations of, 21:29112
density in ionosphere, nuclear explosion effects on, 21:37309
density in ionosphere, radar determination of cislunar, 21:33259 (N-67-15900)
density in ionosphere, recombination coefficient of upper-E and F1 regions from rocket measurements of, 21:41911
density in ionosphere, relation of solar activity levels to, 21:5183
density in ionosphere, satellite measurement of, 21:41918
density in ionosphere, seasonal and diurnal variations of, 21:39863 (AD-650623)
density in ionosphere, seasonal variations in total, 21:23101
density in ionosphere, sounding methods for measuring, 21:37330
density in ionosphere, total, 21:5193
density in ionosphere, variability determined by, 21:29110
density in ionospheric C and D regions, method for determining daytime, 21:39916
density in ionospheric D region, 21:25014
density in ionospheric D region at sunrise, rocket measurements of, 21:13450
density in ionospheric D region during solar flare, 21:23111
density in ionospheric E region, 21:43911
density in ionospheric E region, Lyman-α radiation effects on, 21:5197
density in ionospheric E region, probe for measuring, 22:4526
density in ionospheric E region, relation of wind to, 21:46214(R) (N-66-31887)
density in ionospheric equatorial F region, continuity equation of, 21:5146
density in ionospheric equatorial F region, solar eclipse effects on, 21:23095
density in ionospheric equatorial F region, solar eclipse effects on, 21:23098
density in ionospheric F region at sunspot minimum, midlatitude, 21:39869
density in ionospheric F region in vicinity of mid-latitude trough, 21:2121
density in ionospheric F region resulting from diffusion of electron—ion gas, 21:5179

density in ionospheric F region, reaction rates for determining, 21:9419
density in ionospheric F region, seasonal and solar cycle variations of, 21:33270
density in ionospheric F region, temperature deduced from, 21:23124
density in ionospheric F1 and F2 layers, variations of, 21:16862
density in ionospheric F1 layer as function of zenith angle of sun, (E/T), 21:5166
density in ionospheric F2 layer, continuity equation for, 21:35080
density in ionospheric F2 layer, effect of diurnal temperature changes on, 21:33275
density in ionospheric F2 layer, high-altitude nuclear explosion effects on reduction in, 21:39871
density in ionospheric F2 layer, noon variations of, 21:5194
density in ionospheric F2 layer, planetary distribution of variability of maximum, 21:39911
density in ionospheric F2 layer, post culmination maximum, 21:37327
density in ionospheric F2 layer, solar activity effects on variations of maximum, (E/T), 21:5177
density in ionospheric F2 layer, temporal and geographic variations of, 21:7094
density in ionospheric F2 layer, variations at middle latitudes of, 21:11485(T) (AD-640722)
density in ionospheric F2 layer, wind effects on peak, 21:20861
density in ionospheric sporadic E layer, relation of auroral zenith luminosity to, 21:27066
density in lower ionosphere, from radio-wave phase velocity and attenuation, (E/T), 21:46259
density in lower ionospheric E region of, effects of geomagnetic activity on, 21:39924
density in magnetosphere whistler data used for determining, 21:37329
density in magnetosphere, contribution of photoelectric processes to low-energy, 21:33272
density in magnetosphere, radar determination of total, 21:43909
density in magnetosphere, whistler study of, 21:33286
density in mesosphere at 35°S latitude, 21:13446
density in meteor trails, determination of linear, 21:29115
density in nighttime equatorial F2 layer of ionosphere, effects of diffusion and electrodynamic drift on, (T), 21:18523
density in nighttime ionosphere from hydrogen and helium ultraviolet glow, (E/T), 21:15032
density in nighttime ionosphere, rate of change of, 21:23105
density in nighttime ionospheric F-region, satellite determined irregularities at equator of, 21:11504
density in outer ionosphere by satellite observations, 21:5136
density in outer ionosphere observed from Cosmos and Elektron satellites, 21:29119
density in outer ionosphere, cislunar, 21:29145
density in plasma sheet at 40 R/sub E/, spatial and geophysical parameters of energetic, (E), 25:16939
density in plasma sheet at 60 R/sub E/, dawn-to-dusk asymmetry of energetic, (E, 25:16938
density in plasma, relation to Stark broadening of Balmer lines, 21:44043
density in solar corona, design of space vehicle equipment for measuring, 23:26609 (N-69-19034)
density in solar corona, determination of, 21:1977
density in solar flares, (E), 22:909
density in solar flares, halfwidth method for determining, (T), 22:910
density in sporadic E layer of ionosphere, 21:5186
density in topside ionosphere, 21:15024 (N-66-27056)
density in topside ionosphere, 21:46222 (N-67-23964)
density in topside ionosphere during quiet and disturbed days, 21:29144
density in upper ionosphere, satellite topside measurements of, 21:3750
density measurement in dense argon plasma, using cooled electrostatic probe, (E), 21:9554
density measurement in dense transient plasmas, far-infrared laser interferometer for, 23:3458
density near auroral zone during winter in ionosphere, latitudinal and diurnal variations of, 21:2097
density of ionosphere as function of solar activity, 21:7092
density of ionosphere at Nairobi, satellite measurements of, 21:9412
density of ionosphere deduced from Alouette II high-latitude ionograms, 21:9418
density of ionosphere, direct observations of, 21:7096
density of ionosphere, impedance probe measurements of, 21:7125
density of ionosphere, wave interaction technique for measuring, 21:18520
density of ionospheric, satellite determination of, 21:11499
density of ionospheric, synchronous satellite monitoring of, 21:11500
density of primary cosmic, (E/T), 25:38183
density of relativistic, during original galaxy formation, (T), 23:14587
density of states in fluctuating potential, (T), 25:5240
density operators for, one-particle states and cluster expansions of, 24:20042
density perturbations in ionospheric F region, conjugacy of, 21:46265
density profile at 100 to 450 km in nighttime ionosphere, (E/T), 25:17036
density profiles in ionosphere during solar eclipse, computed, 21:15022 (AFCRL-66-741)
density profiles in ionosphere, variations in height of, 21:39923
density profiles in ionospheric D region, method for determining, 21:23076 (NP-16684)
density profiles in ionospheric F region, loss and transport from, 21:46260
density profiles in ionospheric low-latitude D and E regions, 21:686(R) (AD-640991)
density profiles in topside equatorial ionosphere, (E/T), 21:15044
density surrounding reentry vehicles, use of Langmuir probe to determine, 21:43892(R) (N-67-21425)
density variations at midlatitudes in outer radiation zone, (E), 24:5086
density variations in ionosphere determined by Faraday rotation from Syncom 3, 21:2099
density variations in lower ionosphere determined by disturbances from pulsed radio waves, 21:46258
density variations in topside ionosphere over American continents, 21:2103
density variations of, upper atmosphere, 22:36834
depth dose data survey of high-energy, 23:50505
detachment from atoms, stationary and nonstationary quantum problems soluble by contour integral technique for, 22:11743
detachment from negative ions moving in magnetic field, stripping, (T), 25:38618
detachment from oxygen ions in collisions with rare gas atoms, cross sections for, (E), 21:7033
detachment in reactions of hydrogen atoms with hydrogen ions below 12 eV, cross sections for associative, (T), 22:21874
detection aboard Explorer 12 satellite, response of zinc sulfide detectors for, 23:26514 (N-69-14028)
detection aboard OGO-F satellites, design of semiconductor detectors for, 22:40411
detection aboard OGO-I and III satellites, ionization chamber for, 22:43041
detection above 1.5 MeV, satellite-borne semiconductor telescope detectors for, 25:23810
detection and discrimination from low-energy protons, double layered scintillation detector consisting of thallium-activated cesium iodide evaporated on plastic NE-102 for, 22:40420
detection and energy measurement at 1 to 14 GeV, response of multiplate spark chamber for, 25:6578
detection and energy measurement up to 15 GeV/c, shower spectrometer for, 25:18779
detection and measurement above 100 MeV, design and performance of total-absorption Cherenkov spectrometers for, 23:31546
detection and measurement in coincidence experiments using silicon detectors, design of magnetic guide device for, 21:30723
detection and measurement in space, design and performance of switched electron—proton spectrometer for, 21:34483
detection and measurement in space, equipment and methods for, 22:49093
detection and measurement of 0.4- to 4-GeV, using transition x radiation, 24:48321
detection and measurement of 1- to 20-keV, in aurorae, design of cylindrical electrostatic analyzers for, 22:28096
detection and measurement of 10- to 10,000-eV auroral, calibration of electrostatic spectrometer for, 23:4831
detection and measurement of 50-keV to 4-MeV, in inner radiation belt, 23:44340
detection and measurement of cosmic, at 15 MeV to 15 GeV, balloon-borne telescope detector systems for, 24:44322
detection and measurement of energy spectrum of cosmic, at 60 to 500 keV, satellite-borne detector system for, 24:2447(T) (JPRS-49167)
detection and measurement of energy, flux density, direction, and location of high energy, equipment for, 23:31549
detection and measurement of low-energy auroral, by rocket, 21:24980 (N-67-15320)
detection and measurement of relativistic, aboard satellites, use of anthracene and silicon detectors for, 22:28099
detection and measurement of secondary, method for, 25:13963
detection and measurement of single, response of porous potassium chloride transmission dynodes of photomultipliers for, 21:16233
detection and measurement of small currents of, Faraday cup for, 22:14871 (CEA-R-3276)
detection and measurement of solar, by Mariner IV, 21:11332(R) (N-66-19199)
detection and measurement of, performance of superconducting magnet spectrometer using lithium-drifted silicon detector for, 21:34484
detection and measurement of, properties of photographic film for, 24:11776
detection and measurement on OGO-F satellite, design of solid-state detector for, 22:36033 (N-68-22703)
detection and measurement with gas-discharge counters on Luna-10, cosmic, 21:20802
detection and measurement with gas-discharge counters on Luna-10, 21:20867
detection and measurements in earth's environment by satellites, 21:46217 (N-67-18353)
detection and monitoring of hydrated, equipment for, 25:18854(P)
detection and tagging of high-energy, by bremsstrahlung production, 24:52282 (TID-25473(Vol.1), pp 163-5)
detection at 0.25 to 1.25 MeV, energy response functions for scintillation detectors for, 25:10832
detection at 1 to 50 keV, efficiency of channel electron multiplier for, 25:18659
detection at 10 to 100 keV, energy effects on resolution of surface-barrier silicon detector for, 25:8524
detection at 300 to 1600 MeV, separated function shower detector for, 25:15938
detection at 44, 144, and 234 MeV, efficiency of lead-electrode spark chamber for, 24:11837
detection at 5 to 40 keV, response of avalanche-type silicon detectors for, 22:45281(R) (NYO-3246-TA-3)
detection at 60 to 150 MeV, energy resolution of spark chamber spectrometer for, 24:11836
detection at 8 to 20 MeV of pulsed, integrated Cherenkov detector for, 24:11841
detection from hyperon (Λ) decay, gas Cherenkov detector with large phase-space acceptance for, 24:16888
detection in auroral zones and radiation belts by equipment on Kosmos 261 satellite, 25:17026
detection in decay of hyperons (Λ^0), gas Cherenkov counter for, 21:16125 (CONF-660918-, pp 205-6)
detection in decay of hyperons (Σ^-), large solid angle Freon-12 filled Cherenkov counter for, 21:16124 (CONF-660918-, pp 199-200)
detection in EAS, experimental arrangement for, (E), 22:45977
detection in extensive air showers, density spectra from, (E/T), 23:46311
detection in high gamma background, performance of semiconductor detectors for, 22:45301
detection in long-lived streams of energetic solar particles, (E), 23:25107
detection in rectangular cylindrical IK-6 ionization chambers, determination of pulse shape in, 21:1594
detection of 0.1- to 1.5-GeV, design and performance of spark chamber for, 23:45548
detection of 0.15- to 5.0-MeV, calculation and measurement of response of silicon detectors for, 23:21953
detection of 0.25- to 1.0-MeV, response of silicon detectors for, 22:40403
detection of 0.3- to 1.2-MeV, backscattering and bremsstrahlung effects on lithium-drifted silicon detectors for, (E/T), 22:49090
detection of 1- to 10-MeV, in diffuse aurora, (E), 23:18509
detection of 200- to 900-MeV, calibration of high-resolution lead-glass Cherenkov detector for, 25:42154
detection of 200-keV and 1.7 MeV, effects of backscattering on response of lithium-drifted silicon detectors for, 21:45379
detection of 25.2- and 40.8-MeV, resolution of large sodium iodide scintillation detectors for, 24:2468
detection of 265-keV to 767.2-MeV, response of lithium-drifted silicon detectors for, 22:28093
detection of 30- to 600-keV cosmic, satellite-borne semiconductor detector for, 23:6284 (LA-DC-9627)
detection of 30-keV, around the Moon, (E), 22:23915
detection of 4- to 14-GeV, total-absorption thallium-activated sodium iodide scintillation detector for, 23:9750
detection of 40-keV equatorial, during magnetic storms, (E), 23:16727
detection of 5- to 40-keV, efficiency of avalanche-type silicon detectors for, 23:19935(R) (NYO-3246-TA-4)
detection of 7- to 60-keV, resolution of photographic emulsions for, 22:40384
detection of 7- to 60-keV, response of photographic emulsions for, 22:40383
detection of bursts of, in subpolar stratosphere, (E), 23:10553
detection of conjugate photo-, at Millstone Hill, 24:17763
detection of cosmic primary, at 17 MeV to 1 GeV, (E), 23:27394 (N-69-15815)
detection of cosmic, (T), 21:3707
detection of cosmic, at 50 to 300 BeV, 22:21943
detection of cosmic, at 6 to 10 GeV, (E), 24:6385 (AD-694463)
detection of cosmic, between 12 MeV and 1 GeV, 23:44209
detection of cosmic, design of scintillation detector—spark chamber—shower spectrometer system for, 23:41062
detection of cosmic, spark chamber for, 21:6242
detection of energetic, at latitudes above outer-zone cutoff, (E), 23:16734
detection of exo, design and performance of point counter with quenching vapor above free liquid surface, 21:3287
detection of exo-, design and properties of open self-quenching cylindrical counter for, 22:10557
detection of exo-, G—M counter for, 23:14020
detection of exo-, scintillation counter for, 21:4711
detection of fast, design and performance of Cherenkov detector for, 21:6239
detection of galactic, method for, 22:52549 (AD-672326)
detection of greater than 10-eV, with retarding-potential analyzer aboard OGO 6, 24:51541
detection of high-energy, development of threshold gas Cherenkov counters for, 25:10874
detection of high-energy, performance of cadmium sulfide semiconductor detector for, 25:39721
detection of high-energy, resolution of Cherenkov shower detector for, 25:18786
detection of high-energy, total absorption thallium-activated sodium iodide scintillation detector for, 23:29144 (AD-683701)
detection of low-energy auroral, use of electron multipliers on rockets for, 22:2362
detection of low-energy cosmic, on Kosmos 261 satellite, 25:17023
detection of low-energy solar, over polar cap, latitude profiles from, 24:39950
detection of low-energy, design of position-sensitive silicon detector for, 22:28083
detection of low-energy, in auroral zones, design and performance of airborne scintillation detectors for, 21:32430
detection of low-energy, on day side of magnetosphere, (E), 23:5326
detection of low-energy, response of anthracene scintillation counter for, 22:16904
detection of monoenergetic, response functions of lithium-drifted silicon detectors for, 21:12631(R) (N-66-24954)

detection of photo-, design of scintillation system for, 22:28123
detection of photo-produced, on Kosmos 261 satellite in auroral zone, 25:17024
detection of pulsed, response of liquid ionization chambers for, 25:37581 (NP-18875)
detection of recoil, in Compton scattering, 21:11757
detection of relativistic, resolution of Cherenkov detector for, 23:44619
detection of secondary, current-voltage characteristics of instrument for, 21:14448
detection of secondary, in field emission scanning microscope, silicon semiconductor detector for, 24:11789
detection of single photo-, use of proportional detectors for, 21:16161
detection of soft, at sea level, 21:1458 (TID-23366)
detection of solar-wind, on lunar surface, suppression of uv sensitivity of detector for, 22:51230
detection of trapped, in gamma-irradiated organic glasses, 22:2118
detection of, based on x-ray transition radiation detection using streamer chamber, 25:26515
detection of, calibration of satellite-borne semiconductor system for, 22:23293
detection of, crystal surface effects on response of thallium-activated sodium iodide scintillation detectors for, 24:36580
detection of, design of compact gas Cherenkov detectors for, 21:36386
detection of, design of sector-field magnetic spectrometers for determining sensitivity of silicon surface-barrier detectors for, 23:43550
detection of, detector for discrimination from meson (π^-) in, 21:26150 (MIT-2098-299, pp 35-51)
detection of, development of low-background gas-filled counters for, 21:1603
detection of, development of total absorption shower cascade detectors for, 23:33399
detection of, duration of sensitive period of muscovite mica solid track detectors for, 22:8346
detection of, efficiency of channel electron multipliers for, 22:40408
detection of, fatigue and efficiency of Channeltron electron multipliers for, 23:9704
detection of, miniature scintillation detector for, 24:39217 (COO-1726-45)
detection of, model for nonlinear response of plastic scintillation detectors for, 25:15906
detection of, parallel plate electron multiplier for, 23:9705
detection of, preparation of electron-sensitive nuclear emulsion plates for, 22:45305
detection of, properties of IFA EN3 nuclear emulsion for, 24:46483
detection of, pulse time distribution of lithium-drifted silicon detectors used for, 22:23281
detection of, response and intrinsic line-widths of thallium-activated sodium iodide scintillation detectors for, 24:4449
detection of, response functions for silicon detectors for, 24:27350 (NBS-TN-489)
detection of, response of bubble chamber for, 23:38245 (JLI-3506-41)
detection of, response of NE-213 liquid scintillator for, 25:18655
detection of, response of nuclear emulsions for, 24:29507
detection of, response of organic scintillators for, 22:49087
detection of, response of plastic scintillation detectors for, 22:16870
detection of, scintillation decay time of anthracene detectors for, 22:43051
detection of, scintillation decay times for sodium-activated cesium iodide scintillation detectors for, 23:16120
detection of, scintillation response of thallium-activated sodium iodide crystals for, 21:10672
detection of, up to 20 MeV, sensitivity of dosimeters for, 22:375(R) (NYO-3510-3)
detection using organic scintillators, response functions for, 21:46643(R) (ORNL-4134)
detection with scintillation crystals at 2 to 40 keV, 21:41766
determination of RBE for, in biological systems and phantoms, 21:26648
dielectric constant of Bloch, in crossed electric and magnetic fields, 21:13668
dielectric constant of dense gas of, containing fixed point charge, (T), 22:7411
dielectric constant of gas of degenerate, transverse, (T), 23:44579
diffraction at Brillouin-zone face in metals in intermediate magnetic fields, probability, (T), 22:29539 (64-RL-3754-M)
diffraction by aluminum at 100 keV to 1 MeV, energy dependence of (222), (E), 21:42176
diffraction by crystals at low energies, theory, 22:29552
diffraction by crystals, effects of bremsstrahlung on linear absorption coefficient in, (T), 21:37549
diffraction by crystals, effects of thermal lattice vibrations on, (T), 21:7343
diffraction by crystals, review of wave theory of, 24:42791
diffraction by molybdenum and tungsten single crystal surfaces, spectra from low-energy ion bombardment, 22:15227
diffraction by single-crystal copper, nickel, and tungsten, model for interpreation of, 22:15220
diffraction from Guinier—Preston zones in copper—beryllium alloy, (E/T), 25:17314
diffraction in crystals of fast, inelastic scattering effects in, (T), 24:12631
diffraction in diffuse radiation near Bragg spot, (E), 22:26456
diffraction of low-energy, structural studies by, 22:26056(R) (NYO-3830-5)
diffraction, abstracts of conference papers on, 21:13649
diffusion across low L shells in radiation belts, radial, (T), 22:15418
diffusion across magnetic fields, coefficients for, (T), 21:7182
diffusion and drift in deuterium at 293°K, 21:6996
diffusion and drift velocities in helium, hydrogen, and nitrogen, calculation of, 22:26253
diffusion at E > 100 keV in outer belt, radial, (E), 23:10543
diffusion at low L values of, radial, (T), 23:10520
diffusion coefficients and lifetimes of near-equatorial magnetospheric, radial, (E/T), 24:51528
diffusion coefficients for 50- to 100 keV, from L = 4 to 7, (E), 22:29344
diffusion coefficients for thermal, in gases, (T), 23:10432 (ORNL-4316, pp 161-229)
diffusion coefficients in gases, time-of-flight measurements of, 22:5105
diffusion contribution to backscattering of monoenergetic, single, 21:13383
diffusion entry of solar-flare, into geomagnetic tail, (E/T), 25:7229
diffusion from ionosphere to magnetosphere, (T), 22:41463
diffusion from radiation belts, (T), 23:30448
diffusion in argon, helium, and neon for measuring primary ionization in streamer chamber, 23:11858
diffusion in aurorae, (T), 22:34381
diffusion in helium and xenon afterglow plasmas, measurement of thermal, 22:1222
diffusion in magnetosphere, effects of shell splitting on radial, (T), 23:42047
diffusion in magnetosphere, simulation in trap with magnetic mirrors of, (E/T), 25:9350
diffusion in Milky Way, (T), 24:19670
diffusion in neon afterglow plasmas, measurement of thermal, 21:29239
diffusion in presence of simultaneous ulf and vlf electromagnetic waves at 400 km, (E/T), 25:16960
diffusion in radiation belts, bimodal, (T), 23:27520
diffusion in radiation belts, pitch-angle, (T), 23:30446
diffusion in radiation belts, radial, (E/T), 24:42603
diffusion in Sag A, (E/T), 25:47236
diffusion in solar corona, (T), 25:7047
diffusion in strong magnetic fields of photo-, (T), 22:2794
diffusion of geomagnetically trapped, into loss cone, pitch-angle, (T), 22:34496
diffusion of relativistic outer-belt, radial, (T), 22:34375
diffusion of solar, in interplanetary magnetic field, (T), 22:13282
diffusion of Starfish, radial, (E), 23:39378
diffusion of trapped, in radiation belts, radial, (E/T), 25:38231
diffusion of trapped, in radiation belts, radial, (T), 24:42605
Dirac equation for fall to center in Coulomb field of nuclei Z > 137, (T), 25:7599
Dirac equation for, book on, 24:15611
Dirac equation for, perturbation theory for, 22:19793
Dirac equation for, Schroedinger representation for solutions of, 23:23404 (ITF-68-87)
Dirac quantum relativistic, covariant position operator for, 24:15427
Dirac quantum relativistic, proper time operator and localization for, 24:15426
Dirac theory of, crossing symmetry in O(4,2) formulation of, 24:26467
Dirac theory reformulation in O(4,2) symmetry for, 22:24700
disappearance in pulse radiolysis of fluorocarbon gases, 25:167
discrimination against muons in photomultiplier, 22:2421
dispersion relations in quantum statistical mechanics, double, (T), 24:40216
distribution and temperature of interstellar gas of, (E), 24:4972
distribution between ionospheric layers, radio-wave focusing by, 21:25037
distribution during auroral substorms, pitch-angle, 21:31313
distribution function in n-type gallium arsenide, (T), 22:13539 (UUIP-550)
distribution in air showers, critical analysis of studies on, (E), 25:36395
distribution in biological materials, evaluation of bubble chamber track measurements on, 25:18995
distribution in cascade showers, (T), 22:21919
distribution in cosmic EAS at 10^3 to 10^7 GeV at sea level, s parameter from space, 23:39351
distribution in extensive air showers at 5200 m, (E), 25:24930
distribution in extensive air showers, (E), 22:13277
distribution in extensive air showers, (E), 22:13278
distribution in extensive air showers, (T), 24:19791
distribution in extensive air showers, lateral, (E/T), 24:42545
distribution in extensive air showers, lateral, (T), 24:15178
distribution in geomagnetic field, effects on whistler propagation, (T), 25:35996
distribution in lower ionosphere, meteoric dust effects on, 21:11512
distribution in magnetosphere, pitch-angle, (T), 23:42089
distribution in magnetosphere, satellite measurement of low-energy, 21:20847(R) (AD-642629)
distribution in neutral sheet of magnetotail, (E), 22:15432
distribution in post-breakup auroral glow of greater than 45- and greater than 110-keV, pitch-angle, (E), 25:38271
distribution in water, use of Monte Carlo method for calculating spectral-angular, 50 keV to 10 MeV, 25:523
distribution of >10-keV, in space, 21:20790 (AD-641509)
distribution of >40-keV, in inner radiation belt, (E), 22:44008
distribution of cascade showers of, use of double-wedge shaped scintillation detectors for determining, 21:16173
distribution of delta-, in tumor irradiated with high-energy electrons, 22:52491
distribution of E greater than 40 keV, in quiet auroral zone, isotropic pitch-angle, (E), 25:1055
distribution of high energy, in heterogeneous tissue, effects of air cavities, bone density, and tissue thickness on, 22:507
distribution of relativistic cosmic, effects of energy-loss mechanisms on, (T), 25:55908
distribution of secondary radiolytic, in cyclohexane, spatial, 25:31995
distribution of thermal, in solar neighborhood, (E), 24:37283 (N-70-18641)
distributions during auroral substorms up to 800 km, pitch-angle, (E), 22:29367
distributions in atmospheric electron—photon cascade showers, spatial and angular, (T), 24:21959
distributions in electron—photon cascade showers, moments method for calculating spatial and angular, (T), 24:21958
distributions of secondary, from photon reactions with target materials, energy and angular, 24:32882
dose calculation for bronchial carcinoma therapy, techniques for 43-MeV betatron, 25:26757
dose calculation methods for, in manned space flight, 21:37525
dose calculations for satellites, 25:45522(T) (ORNL-tr-2465)
dose calculations from ionization measurements by secondary electron equilibrium, 22:51260
dose deposition profiles in aluminum, copper, and tantalum, calculation of electron spectrum from, 23:17791
dose depth distribution in aluminum and copper, use of ionization chambers for measuring 0.5- to 1.0-MeV, 21:24220
dose distribution for therapy, review of physical aspects of, 24:50919
dose distribution in aluminum and cellophane at 1 MeV, 24:32474
dose distribution in cylindrical and multilayer slab targets, computer methods for calculation of, 23:48698 (CONF-690805-3)
dose distribution in deep tissue radiotherapy, integral, 22:51682
dose distribution in human patients during therapy, effects of tissue heterogeneities on, 24:50912
dose distribution in media, effects of scattering on fast, 22:51580
dose distribution in phantom simulating human anatomical irregularities, 22:51578
dose distribution in phantoms, effects of oblique angle of incidence on, 24:32005
dose distribution in phantoms, film densitometry system for optimizing, 25:46844
dose distribution in phantoms, method for calculating pendular, 24:34333
dose distribution in plastics and aluminum, thin-film dyes for measurement of, 24:14321
dose distribution in tissue-equivalent phantoms, (T), 25:55214
dose distribution in tissues, 25:52152 (UCRL-20836)
dose distribution in water at 5 to 35 MeV, 22:51577
dose distribution in water phantom at 10 GeV, 24:44475 (CONF-691101-, pp 185-208)
dose distribution in water phantoms, 5, 10, and 15 MeV, 24:23206
dose distribution in water, use of holographic interferometry to determine, 25:49186
dose distribution measurements for 20-MeV in Perspex, use of physical, chemical, and biological detectors for, 22:51690
dose distribution measurements for evaluating pendulous technique of radiotherapy of hypopharyngeal and laryngeal malignant tumors, 22:51691
dose distribution measurements in phantoms, use of HeLa and Allium cells for, 22:51689
dose distribution of 43 MeV, in phantoms, sensitivity of photographic films for measuring, 25:39764
dose distribution of moving, from linear accelerator, use of computer for calculating, 24:23198
dose distribution with depth in cultured mammalian cells, effects of, on RBE, 35 MeV, 23:50809
dose distribution with depth in Plexiglas, measurement of, 24:44253 (EUR-4452, pp 437-53)
dose distribution with depth near body surface, 23:43764
dose distribution with depth, method for homogenization of, calculations for 10, 30, and 43 MeV, 25:16147
dose distributions in Lucite at 10 to 29 MeV, measurement of, 23:24473
dose distributions in thin shields, computer program for absorbed, 25:40726(T) (ORNL-tr-2480)
dose distributions in vicinity of tissue inhomogeneities, analysis of, 23:50501
dose distributions near interface, LET models for calculating, 22:38049
dose fields for therapy of malignant tumors, use of linear programming and statistical testing for determining optimum, 22:45534
dose for sterilization of drugs, standards for, 22:21643
dose fractionation scheme for high-energy, in therapy of deep-seated neoplasms, 25:26864
dose intercomparisons of, use of thermoluminescent lithium-fluorides for, 21:1649
dose measurements at RPI electron linear accelerator, 24:1686 (RPI-328-172)

dose measurements in Presdwood, Presdwood with inhomogeneities, and water phantoms, 22:51693
dose measurements in Rando phantom for radiotherapy, 35 MeV, 22:51692
dose measurements in water, betatron central axis, 22:51697
dose measurements of, use of lithium fluoride thermoluminescent dosimeters for direct intercomparison of, 21:26235 (CONF-650637-, pp 363-71)
dose of solar, on satellites, (T), 24:35288
dose of, required for sterilization of drugs, 21:13092
dose on satellites in space, calculation of, 24:35289
dose perturbations in vicinity of tissue heterogeneity, method for determining, 23:50502
dose rate from 0.1- to 20-GeV, normally incident to water slab, calculation of, 22:19352
dose rate in irradiation space of 42 MeV betatron, measurement of undesirable secondary, 23:50482(T) (SLAC-Trans-100)
dose rate in water, calculation of high-energy, 24:21170
dose rate measurements around 18 MeV betatron for determining burden to patients during therapy, 24:34336
dose rate measurements of, review of concepts for, 22:43118
dose rates of, performance of thermoluminescent dosimeters for measuring, 22:45337(R) (NYO-3510-5)
dose to gonads during therapy, studies on Alderson phantom with lithium fluoride thermoluminescent detectors for determining, 24:44491
dose to mammalian tissues, use of lithium fluoride thermoluminescence dosimeters to measure high-energy, 24:722
dose to man during scintigraphy, calculation of absorbed, 23:43773
dose to man following whole-body therapy for mycosis fungoides, integral, 22:51746
dose to organs of human body following radiation accident, correlations of film badge readings with high-energy, 23:8016(R) (ACRH-29)
dose to skin and tissues in human phantoms, effects of dose rate on high-energy, 23:38595
dose to tissues at 5.2 GeV, 24:3803 (ORNL-TM-2722)
dose—depth curves for low-energy, 24:1707
dose—depth profiles in plastic dosimeters, effects of trapped charge on, 25:8566
dose-depth distribution measurements of 2.0 MeV, in polystyrene as function of angle and thickness, 25:40751
dosimetry and treatment planning for therapy, review of, 23:6534
dosimetry at 1 MeV, performance of Fricke dosimeter for, 24:25310
dosimetry at 10 MeV, ethanol—chlorobenzene chemical dosimeter for, 24:14322
dosimetry at 15 MeV, response of thermoluminescent dosimeter in polystyrene phantom for, 24:21028
dosimetry at 35 MeV, Fricke dosimeter for, 24:27430 (CONF-690540-, pp 532-7)
dosimetry at small phantom depths, high-energy, 21:45726
dosimetry below 3 MeV, 25:25203
dosimetry for abdominal or thoracic therapy using moving beam technique, 24:12075
dosimetry for lung therapy, high-energy, 24:21166
dosimetry for medical use, 21:24436
dosimetry for pendular therapy of bladder carcinomas, 24:44569
dosimetry for pendular therapy of mammary cancer, 24:44571
dosimetry for postoperative therapy of human mammary carcinomas, method for pendular, 24:34539
dosimetry for processing of foods, 23:29943
dosimetry for sterilization of packaged medical supplies and pharmaceuticals, 22:52073
dosimetry for superficial therapy, 22:36284
dosimetry for therapy, 22:51611
dosimetry for therapy at 10 to 35 MeV, use of tissue equivalent phantoms for, 25:24292
dosimetry for therapy of breast carcinoma in man, geometrical, 21:24474
dosimetry for therapy of human bladder, 23:31876
dosimetry for therapy of man, 22:38271
dosimetry for therapy of superficial skin lesions, use of phantoms for, 24:34543
dosimetry for therapy using x-ray simulator, 21:22455
dosimetry for therapy, design of recorder for determining, 24:12074
dosimetry for therapy, effects of bone tissue on, 23:38572
dosimetry for therapy, performance of chemical dosimeters for, 24:23211
dosimetry for therapy, performance of chemical dosimeters for, 24:23212
dosimetry for therapy, performance of ionization chambers for high-energy, 24:48567
dosimetry for therapy, use of computer calculations in, 25:26761
dosimetry for therapy, use of photographic film detectors and tissue-equivalent phantoms for, 25:24184
dosimetry for use in treatment of lymph node metastases and tumors of larynx, 21:28509 (ACRH-1000-6)
dosimetry in accelerators, use of (γ,γ') reaction for, 24:33657
dosimetry in bacteria and yeasts, 20-MeV, 22:38278
dosimetry in biological materials, use of model for calculation of RBE for high-energy, 22:31084
dosimetry in biologically significant materials, high energy, 22:51681
dosimetry in carbon and water, cavity ionization theory for, 24:50921
dosimetry in cells and organisms, effects of dose-rate on, 23:8016(R) (ACRH-29)
dosimetry in deep tissue in relation to radiotherapy and RBE, delta, 22:51589
dosimetry in human gonads during betatron therapy of thorax at 31 MeV, 21:28440 (NYO-3364-19(Rev.))
dosimetry in human tissues and water-equivalent phantoms, effects of collimator and scatter foils on, 24:713
dosimetry in inhomogeneous matter, 23:50512
dosimetry in man, effects of collimator on betatron, 22:28474
dosimetry in phantoms, 23:38721
dosimetry in phantoms, use of ionization chamber for, 23:933(R) (NIRS-6)
dosimetry in plexiglas, effects of metallic foils on, 22:38363
dosimetry in space satellite, 23:14167
dosimetry in space satellite, (T), 25:24969
dosimetry in therapy, computer programs for, 25:58009
dosimetry in tissue equivalent phantoms, use of miniature ionization chambers for, 24:50912
dosimetry in tissues in relation to LET, 22:38307
dosimetry in tissues, methods for, 23:50489
dosimetry in water-equivalent phantom, 22:36285
dosimetry of 1.0-MeV, in dahlia and dioscorea seeds, 25:52087
dosimetry of 10- to 30-MeV, energy dependence of calcium fluoride and lithium fluoride thermoluminescent dosimeters for, 22:16915
dosimetry of 10- to 30-MeV, performance of cavity ionization chamber for, 23:20019
dosimetry of 10- to 35-MeV, sensitivity of lithium fluoride thermoluminescent dosimeters for, 23:22099
dosimetry of 23-MeV, comparison of ionization chamber and photographic film methods for, 25:42411
dosimetry of 30-MeV, calorimetric techniques for calibrating Fricke dosimeters for, 22:51257
dosimetry of 42-MeV betatron, for therapy using tissue-equivalent phantoms, 25:26865
dosimetry of 5.2-GeV, with respect to depth in tissues, 22:2507 (ORNL-TM-2026)
dosimetry of 5- to 43-MeV betatron, energy and phantom-depth dependence of film sensitivity for, 25:42396
dosimetry of 50-keV to 33-MeV, supralinear response of lithium fluoride thermoluminescent dosimeters for, 22:21357 (COO-1105-129)
dosimetry of 6- to 18-MeV, energy response of calcium fluoride, lithium fluoride, and manganese-doped lithium borate thermoluminescent dosimeters for, 23:7832 (CONF-680920-, pp 410-23)
dosimetry of 6-MeV, design of portable calorimetric dosimeter for, 23:50185
dosimetry of 600-keV pulsed, design of thin aluminum or beryllium calorimeter for, 25:51915
dosimetry of 8-MeV, with Fricke dosimeter, 22:51259
dosimetry of accelerated, using potassium peroxylamine disulfonate—water system, 21:24235
dosimetry of beams of high-energy, 21:45772(R) (ACRH-27)
dosimetry of betatron, use of photographic film for, in polystyrene phantoms, 21:28449
dosimetry of exo-, methods for, 21:331
dosimetry of fast, calibrations and controls for, 25:55224
dosimetry of fast, effects of anatomical surface irregularities on therapeutic, 24:12076
dosimetry of gamma-induced, in spherical tissue-equivalent phantoms, 23:48049 (NYO-2740-6, pp 131-5)
dosimetry of high energy, calibration of dosimeters for, 22:51261
dosimetry of high energy, ferrous sulfate, 22:16974(R) (ORO-2832-56)
dosimetry of high energy, for therapy in comparison to cobalt-60, 24:36795
dosimetry of high energy, performance of ionization chamber as standard, 22:28480
dosimetry of high energy, use of Fricke ferrous sulfate dosimeters for, 21:45649
dosimetry of high-energy, calibration of lithium fluoride thermoluminescent dosimeter for, 22:51256
dosimetry of high-energy, comparison of methods for, 25:21697
dosimetry of high-energy, correction factors for ionization chambers for, 21:3323
dosimetry of high-energy, design and performance of total absorption calorimeter for, 22:6659
dosimetry of high-energy, for therapy, methods for, 25:29596
dosimetry of high-energy, in human bone and water in relation to therapy, 23:16300
dosimetry of high-energy, in tissue-equivalent material, 21:1747(T) (ORNL-tr-1250)
dosimetry of high-energy, intercomparisons between specific institutions on absorbed, 23:50508
dosimetry of high-energy, operation and performance of photographic film dosimeters for, 23:50179
dosimetry of high-energy, performance of aluminum calorimeter for, 23:47849
dosimetry of high-energy, performance of photographic film for, 23:20018
dosimetry of high-energy, portable ionization detector for, 25:32263
dosimetry of high-energy, problems in biological materials for, 23:50496
dosimetry of high-energy, problems of inhomogeneities in, 25:29523
dosimetry of high-energy, reproducibility of TLD-100 dosimeters for, 24:27424 (CONF-690540-, pp 471-81)
dosimetry of high-energy, used in radiotherapy, effects of energy and depth on performance of photographic film dosimeters for, 22:51265
dosimetry of high-energy, with photographic film, 22:51258
dosimetry of high-intensity pulsed, electric conductivity cell for, 24:14318
dosimetry of high-intensity, development of detector systems for, 25:370(R) (NYO-3510-15)
dosimetry of low and high energy, thermoluminescent response of lithium fluoride for, 22:49133
dosimetry of low-level, using pH variation of aqueous solution of chloral hydrate, 23:14056
dosimetry of pulsed, response of various chemical dosimeters for, 25:35034
dosimetry of Siemens 42 MeV betatron, calculation of, 23:20234
dosimetry of, anthracene—gelatin films for luminescence degradation, 23:33539
dosimetry of, design of calorimeter for, 24:27450
dosimetry of, development of tissue equivalent detectors for, 21:22172
dosimetry of, energy response of lithium fluoride thermoluminescent dosimeters for, 25:35027
dosimetry of, luminescence of air for pulsed, 24:46518
dosimetry of, mathematical relations for, 23:31753(T) (ORNL-tr-1555)
dosimetry of, operation and performance of Fricke ferrous sulfate chemical dosimeter for, 23:50186
dosimetry of, operation of micro-calorimeter for, 22:51255
dosimetry of, performance of calorimeters and thermoluminescent detectors for, 21:8791 (COO-78-142, pp 1-81)
dosimetry of, performance of ethanol-chlorobenzene system for high-level, 21:26259
dosimetry of, performance of ferrous—cupric dosimeters for, 23:47852
dosimetry of, performance of heteropolyacids of molybdenum and tungsten for, 22:28180
dosimetry of, performance of lithium fluoride for megarad, 21:32484 (USNRDL-TR-67-56)
dosimetry of, performance of Perspex X for megarad chemical, 24:2502
dosimetry of, performance of plastic calorimetric dosimeters for, 23:31559 (AD-684772)
dosimetry of, performance of polycarbonate photographic film for, 23:20016
dosimetry of, preparation of plastic chemical dosimeters for, 22:21365(P)
dosimetry of, properties of calcium fluoride and lithium fluoride thermoluminescent dosimeters for, 25:26525
dosimetry of, proposed National Bureau of Standards program for calibration of dosimeters used in, 23:50507
dosimetry of, response of thermoluminescent manganese-activated calcium fluoride foils in polytetrafluoroethylene matrix for, 22:49130
dosimetry of, response of various dosimeters in comparison with calorimetric dosimeters for, 23:50180
dosimetry of, review of, 21:16366
dosimetry of, review on oxalic acid dosimeters for, 23:47851
dosimetry of, scattering errors in ionization chambers for, 22:47386
dosimetry of, standards for, 22:14861
dosimetry of, tissue-equivalent pocket proportional detector for, 25:15948 (CEA-N-1393)
dosimetry of, use of cellulose triacetate films for, 22:12657
dosimetry of, use of cellulose triacetate films for, 22:12657
dosimetry of, use of general cavity ionization theory in, 24:44482 (EUR-4452, pp 455-78)
dosimetry of, use of optical density changes in PMMA for, 25:6581 (JAERI-Memo-4121)
dosimetry of, use of oxalic acid system for, 21:24237
dosimetry of, use of polyethylene photoluminescent dosimeters for, 22:2436
dosimetry of, use of polyethylene terephthalate film for, 23:2664(T) (NSJ-tr-125)
dosimetry of, use of potassium iodide in presence of potassium acid phosphate for, 22:2435
dosimetry of, use of pulse height-to-dose conversion system with beta—gamma spectrometer for, 22:47382 (N-68-24341)
dosimetry up to 33 MeV, response of lithium fluoride thermoluminescent dosimeters for, 23:50181
dosimetry up to 8 MeV, differential calorimeter for, 24:44336
dosimetry using lead blocks, 24:21168
drift velocities in air and nitrogen—oxygen mixtures, 21:35018
drift velocities in ethylene and nitrogen at 273 to 472°K, (E), 22:15328 (ORNL-TM-1444)
drift velocities in gases, (T), 22:38756
drift velocities in hydrogen and deuterium at 293°K, (E), 22:974
drift velocity in gases, solution of equation governing initial distribution function for, 23:39484
drift velocity in gases, time-of-flight measurements of, 22:5105
drift velocity in polar molecules, (E), 22:43859 (ORNL-TM-2257)
effect of magnetically conjugate photo-, on predawn enhancement of 6300-A line, (E/T), 25:2959
effect on magnesium oxides, luminescence from, 23:8694
effectiveness for cancer therapy, review of research on, 25:49254
effectiveness for eosinophile granulomas in man, effects of age, dose fractionation, localization, and sex on betatron, 25:16262
effectiveness for food processing, 25:47074
effectiveness for industrial sterilization of supplies, 22:52113
effectiveness for preservation of cod patties, effects of dose on, 25:24525
effectiveness for preservation of trout, effects of dose on, 25:27148
effectiveness for sterilization of prestarter food for gnotobiotic piglets in comparison to heat, 25:22002
effectiveness for therapy of abdominal tumors in man, evaluation of fast, 24:41939
effectiveness for therapy of human retinoblastomas, 25:26880
effectiveness for therapy of neoplasms in man, additive effects of x radiation on, 25:58076

effectiveness for therapy of neoplasms in man, betatron-accelerated 6 to 15 MeV, 24:32130
effectiveness for therapy of skin diseases in comparison with beta particles or x radiation, 24:44568
effectiveness for therapy of surgically exposed carcinomas of bladder, meninges, and pancreas in man, combined effects of external x radiation and 4 to 17.5 MeV, 24:29825
effectiveness for therapy, dosimetry and energy studies related to, 25:58075
effectiveness in combination with interstitial γ radiation for therapy of tongue cancer, high-energy, 24:41945
effectiveness of 10-MeV, for preservation of carp, effects of dose on, 25:27147
effectiveness of 2.5-MeV, for therapy of human mycosis fungoides, 25:44863
effectiveness of fast, for therapy through plaster casts, 25:13539
effectiveness of high energy, for therapy of human bladder carcinomas in comparison to cobalt-60 γ, 24:36796
effectiveness of, for therapy of neoplasms of head and neck, 21:16408
effects at 0.80-MeV on electric conductivity of pyrolytic graphite at low temperatures, annealing of, 23:3160
effects at 1 MeV on logic circuits for space application, 24:4537
effects at 1 MeV, on work hardening of aluminum, 23:34029
effects at 1.0 to 2.2 MeV on electric conductivity and defect formation in niobium and tantalum wires, 23:42392 (COO-1494-7)
effects at 15 keV, on silicon—titanium oxide thermal barriers, 23:18252
effects at 2 MeV on aluminum, recovery model of, 23:22606
effects at 2 MeV on ammonium chromate crystals, 23:33232
effects at 2 MeV on electric conductivity of nickel, annealing recovery stages of, 23:22607
effects at 2 MeV, on crystallized proteins, 23:13781
effects at 2-MeV on surface spallation of gold and lead, 23:34028 (UCRL-50621)
effects at 30°K on strengthening of monocrystalline aluminum, aluminum-base—zinc alloy, and copper, 23:34048
effects at 35 MeV, on germanium physical properties, 21:32943
effects combined with x radiation on lymphogranulomas in man, therapeutic, 25:32507
effects in solids, spontaneous recombination of Frenkel pairs for, (T), 21:37568
effects of 0.3-, 0.625-, and 1-MeV, on carrier properties of cadmium sulfide crystals, 23:25453
effects of 0.3-GeV, on quinone, hydroquinone, and quinhydrone at 120°K, 22:25399
effects of 0.4 to 1.2 MeV, on depth distribution of absorbed energy in low-Z materials, 21:4805
effects of 0.5- to 3.0-MeV, on resolution changes in lithium-drifted silicon detectors, 23:26631 (N-69-10933)
effects of 0.5-, 1.0-, and 1.5-MeV, on silicon integrated circuits, 23:763(R) (N-68-29516)
effects of 0.5-, 1.0-, and 1.5-MeV, on silicon integrated circuits, 23:760(R) (N-68-28846)
effects of 1.0 to 3.3 MeV, on microstructure of aluminum, copper, and gold at 8°K, 23:51079 (JUL-581-FN)
effects of 1.0- and 1.5-MeV, on aluminum, stage III recovery from, 22:4819
effects of 1.4-MeV, on lithium fluoride crystals at 77°K, 23:51777
effects of 1.5-MeV, on bipolar transistors, 21:45489 (HMI-B-61)
effects of 1.5-MeV, on electric properties of capacitors, diodes, resistors, and transistors, 23:2731 (HMI-B-72)
effects of 1.5-MeV, on electric properties of gallium-doped germanium, 21:44201
effects of 1.5-MeV, on MOS field-effect transistors, thermal annealing of, 22:23394
effects of 1.5-MeV, on MOSFET transistors, 23:757 (N-68-27307)
effects of 1.5-MeV, on n—p silicon BPY 70 solar cells, 23:4864 (HMI-B-73)
effects of 1.5-MeV, use of compensation-type calorimeters for measuring absorbed energy of materials from, 22:19214
effects of 1.56-MeV, on copper, stage-III annealing of, 23:7041
effects of 1- to 20-MeV, on luminescence of optical glasses and quartz, 23:42394 (N-69-22194)
effects of 1-MeV, on aluminum oxide MOS devices, 23:50233
effects of 1-MeV, on bromoethane—bromine, yields from, 23:49834
effects of 1-MeV, on dihydromyrcene, 21:12447
effects of 1-MeV, on efficiency of gallium arsenide—phosphide electroluminescent diodes, 24:21046
effects of 1-MeV, on electric conductivity and Hall effect of degenerate silicon, 23:22691
effects of 1-MeV, on lattice parameter of silicon crystals, 23:27680
effects of 1-MeV, on lithium-diffused silicon solar cells, recovery of, 23:29288(R) (N-69-21150)
effects of 1-MeV, on lithium-doped silicon, 23:42388 (AD-682530)
effects of 1-MeV, on lithium-doped silicon solar cells, (E/T), 22:13292
effects of 1-MeV, on n-type silicon detectors, 22:16970
effects of 1-MeV, on nonlinear degradation of gain in transistors, 23:26633(R) (N-69-12245)
effects of 1-MeV, on organic crystals, ESR study of effects of crystal structure on production of free radicals by, 23:47543
effects of 1-MeV, on oxygen sublattice of uranium oxides, 23:42418
effects of 1-MeV, on polyoxymethylenes, 21:38978
effects of 1-MeV, on radiolysis of o-terphenyl at 400 to 482°C, 21:14252
effects of 1-MeV, on silicon solar cells, 23:762 (N-68-29436)
effects of 1-MeV, on sodium acetate trihydrate and substitutents at 77°K, ESR spectra from, 21:8366
effects of 1-MeV, on unsaturation and isomerization of polyisoprene, 21:14265
effects of 10 to 50 keV, on void formation in cadmium selenide monocrystals, 24:6274
effects of 10- to 100-keV, on electric conduction in amorphous selenium films, 24:45330
effects of 10-keV, on production of artificial aurorae, (E), 23:34317
effects of 10-MeV, on latchup in Norden NM1006 differential amplifier, 21:34554
effects of 100 eV, on desorption of oxygen cations from tungsten, 24:36917
effects of 100- and 500-eV, on carbon dioxide desorption from thin tellurium films, 23:30621
effects of 100- to 400-keV, on luminescence of cadmium sulfide, 24:37546
effects of 100-eV, on oxygen sorption in tungsten, 22:43584
effects of 13-MeV pulsed, induced currents in crystalline and fused quartz from, 23:38385
effects of 13-MeV pulsed, on currents in crystalline quartz, 25:45552
effects of 15 MEV, effects of human skin reactions on, determination of RBE for, 22:51897
effects of 15-MeV pulsed, on aqueous solution formation and recombination of H_3O^+ and hydroxide from, 23:45338
effects of 15-MeV, on poly(4-methyl-1-pentene), ESR study of free radicals from, 25:46524
effects of 2 MeV, on creep of aluminum at 260°C and 1000 psi, 24:1058
effects of 2.2 MeV, on defects in niobium and tantalum, relations with annealing, 23:46096
effects of 2.2-MeV, on Frenkel defect formation in niobium and tantalum, 23:42391 (COO-1494-6)
effects of 2.4-keV, on electric conductivity of dioxane, ethyl ether, and hexane, 21:17677
effects of 2.4-MeV, on aluminum- and boron-doped silicon solar cells, 22:38187 (N-68-19924)
effects of 2.5-MeV, on electric conductivity of molybdenum, 21:4984
effects of 2.8- and 3-MeV, on aluminum, copper, and platinum, 24:30380
effects of 2.8-MeV, on microstructure of aluminum and copper at 9°K, 23:51035 (JUL-586-FN)
effects of 2-MeV, on aqueous sodium oxalate solutions, 22:30586 (EUR-3914(Pt.2))
effects of 2-MeV, on carriers in degenerate p-type germanium, 23:18721 (INR-934)
effects of 2-MeV, on coal, 21:46413
effects of 2-MeV, on defect behavior of single-crystal tungsten, 23:22599
effects of 2-MeV, on silicon containing carbon and oxygen, 24:28425
effects of 2-MeV, on terphenyl, 21:25869 (EUR-3172.e)
effects of 2-MeV, on thermal conductivity of cadmium sulfide single crystals at low temperatures, (E), 23:5453 (SC-DC-68-1985)
effects of 25-keV, on coloration in sodium chloride single crystal, 23:42468
effects of 25-kV, on scanning-electron-microscopic channeling patterns from alkali-metal halide crystals, 25:45550
effects of 25-MeV, on n-type silicon, 21:13287(R) (N-66-33436)
effects of 3 MeV, on crystal defects in gold at 80°K, 23:46073 (COO-1198-661)
effects of 3 x 10^{-3} eV, on organic solids at 77 to 260°K, 21:23967
effects of 3.5-MeV, on artificial diamonds, 25:1277
effects of 3.6-MeV, on alkyl sulfides at 110 to 115°K, 23:40686
effects of 3-MeV pulsed, on air, microwave study of electron decay from, 23:47536
effects of 3-MeV pulsed, on benzene and cyclohexane solutions of anthracene and naphthalene, 21:28033
effects of 3-MeV, on anomalous x-ray transmission of copper, 25:14427
effects of 3-MeV, on atomic structure of equiatomic gold—silver alloy, 21:28802
effects of 3-MeV, on copper at 78°K, activation energies of dislocation anchoring produced in, 23:5484
effects of 3-MeV, on inorganic and organic vapors, 24:9347(R) (ORO-2001-17)
effects of 3-MeV, on internal friction in iron and molybdenum, 24:21849 (CEA-CONF-1487)
effects of 3-MeV, on point defects in carbon-containing iron, annealing of, 24:12437 (CEA-R-3857)
effects of 4.5-MeV, on length of germanium single crystals, 21:2333
effects of 4-MeV, on phonon scattering in gallium antimonide, 25:33408 (NP-18836)
effects of 400-keV, on oxidation of negative iodine ions in potassium iodide, 22:2435
effects of 400-keV, on potassium chloride crystals, 23:23285
effects of 48-MeV, on silicon semiconductors, 21:1972(R) (AD-634488)
effects of 5- to 25-MeV, on N—P silicon junctions, 22:4563
effects of 5-keV, on potassium chloride single crystals, 23:23286
effects of 5-MeV, on DTL R-S flip-flop integrated circuits, 23:35577
effects of 5-MeV, on luminescence of cadmium sulfide, 22:45107
effects of 50-keV, on luminescence of molecular gases, 21:10381
effects of 50-MeV, on Fermi level in n- and p-type germanium, 23:3563
effects of 6.5 MeV, on electrical properties of n-type gallium arsenide, (E), 21:23259
effects of 6-MeV, on properties of insulators, 23:40767
effects of 7-MeV, on piezoelectric properties of n-type silicon, 25:33431
effects of 8.7- to 48.7-eV, on solid ethylene at 63°K, 22:47153 (COO-584-36)
effects of 9- to 50-eV, on methane, 22:45092(R) (COO-584-37)
effects of 90-keV pulsed, on laser radiation excited in neodymium-activated yttrium aluminate garnet, 25:38575
effects of accelerated, on fine tip production on tungsten wires, 25:32764
effects of accelerated, on microstructure of graphite, 24:44813 (DP-Report-254)
effects of aquated, on radiolytic yields from cystine solutions, 21:12459
effects of bound, on thermonuclear reactions in stellar interiors, (T), 24:8247
effects of delocalization of π-, on radiation resistance of conjugated molecular systems, 21:8347
effects of depth of irradiation by fast, on genetics of cells in Allium root tips, 21:1841
effects of dose of, on erythropoiesis in rat spleen, 21:14585
effects of fast and slow, on gaseous molecules, effects of chemical nature on primary yields from, 23:21742
effects of fast pulsed, on explosives, 24:48915
effects of fast, effect of dose protraction on time factor of RBE for, 22:51759
effects of fast, factors affecting determination of RBE for, 22:51883
effects of fast, on cells of Ehrlich ascites tumors, 21:16510
effects of fast, on coloration enhancement of caprone, 25:9552
effects of fast, on exciton—impurity complex generation in crystals, (T), 23:25436
effects of fast, on ferroelectric crystals, 25:43442
effects of fast, on linear polyethylene, NMR spectral studies on compounds produced from, 25:10589
effects of fast, on polycrystalline thiourea adducts of cycloheptane and cyclohexene, 24:11638
effects of fast, on properties of methyl methacrylate polymers, 25:2225
effects of fast, on thermoluminescence of polyethylene, 22:42777
effects of fast, on vapor-phase reactions of benzene with molecular system, 25:21023
effects of fast, on zinc sulfide single crystals, 21:9649
effects of high energy, on polymerization of self-supporting film of polyester resins, 23:21745(P)
effects of high-energy, on aluminum cylinder gravitational radiation detectors, 24:40484
effects of high-energy, on bone marrow leukocytes of guinea pigs, 21:8920
effects of high-energy, on carbon contamination of metal surfaces, 24:17339
effects of high-energy, on defect production in lithium-doped zinc oxide at 80 to 330°K, (E), 22:17731
effects of high-energy, on doped silicon, 22:48152(R) (N-68-23464)
effects of high-energy, on silicon solar cells, defect cluster formation, 23:17862
effects of high-energy, on ultrahigh-molecular weight linear polyethylene, 24:9391
effects of high-voltage microscope, on vacancy tetrahedra formation in copper, 25:13731
effects of hydrated, on mechanism of radiolysis of organic nitrogen compounds, 22:40123
effects of interstellar, on pulsar signal dispersion, (T), 24:19644
effects of lethal dose of, on uv-sensitive bacteria in presence and absence of oxygen, 21:16550
effects of localized, on MOS transistors, 22:23393
effects of low-energy, on diffusion of indium and antimony in germanium, 25:1267
effects of low-energy, on gaseous ammonia, ESR studies of free radicals from, 23:47535
effects of micro-, on mammalian skin, 21:6611(R) (NYO-2018-8)
effects of modulated, on photoconduction in cadmium sulfide crystals, 23:2736
effects of nanosecond pulsed, on solutions of anthracene in benzophenone and benzanthracene in naphthalene, 24:27152
effects of nonpenetrating, on charge storage in silicon oxides, 23:2732(R) (N-68-26603)
effects of precipitating, on heating of polar ionosphere, (T), 23:20815
effects of pulse, on 3-hydroxy-2-butanone in aqueous solutions, 22:42753
effects of pulse, on aniline and mixtures of aniline with anthracene, benzanthracene, and naphthalene, 22:37807
effects of pulse, on anthracene and biphenyl, 22:21129
effects of pulse, on aqueous benzoic acid solution, kinetics and spectra of cyclohexadienyl radicals from, 22:42766
effects of pulse, on aqueous solutions of methanol, EPR study of hydrated electron from, 22:42790
effects of pulse, on N,N-dimethyl-p-nitrosoaniline, reactions of free radicals in, 22:23067
effects of pulse, on toluene and benzene, formation of excited states from, 22:37806
effects of pulsed 1.4-MeV, on minority carrier lifetime in p-type silicon, short-term annealing of, 25:22611
effects of pulsed 13-MeV, on crystalline quartz, dependence of induced current on direction of applied electric field, (E), 24:40174
effects of pulsed 15-MeV, on color center formation in calcium fluoride crystal, 21:31491
effects of pulsed 30-MeV, on n-type silicon, short-term annealing of primary defects produced in, 25:22612
effects of pulsed 4-MeV, on benzene in carbon tetrachloride, 23:21747

effects of pulsed 4-MeV, on styrene and α-methylstyrene, 22:35834
effects of pulsed 4-MeV, on styrene and α-methylstyrene, 22:35833
effects of pulsed 48-MeV, on doped silicon, 21:1699(R) (AD-632458)
effects of pulsed, in combination with photons on chemiluminescence of aqueous solutions of fluorescein dyes, 25:29138
effects of pulsed, on 2, 6, 10, 15, 19, 23-hexamethyltetracosane, optical detection of transient solvated electrons from, 24:2225
effects of pulsed, on 2,2'-azobis[2-methylpropionitrile]—benzene, effects of additives on yields of nitrogen from, 25:41872
effects of pulsed, on 2-chlorotoluene, 22:14513 (BNL-50057, pp 60-78)
effects of pulsed, on 2-propanol, effects of alkoxy radicals on, 25:18448(R) (CEA-N-1369)
effects of pulsed, on 5-bromouracil and uracil, 23:280
effects of pulsed, on 6-methylhydrouracil, 24:31355
effects of pulsed, on acetone, 25:39528
effects of pulsed, on acetone solutions of anthracene and biphenyl, spectral studies on excited singlet states and ions produced by, 25:48560
effects of pulsed, on acetonitrile, 22:51014
effects of pulsed, on adenine microcrystals, spectra and decay kinetics of luminescence from, 23:47520
effects of pulsed, on aerated, aqueous p-aminobenzoic acid solutions, mechanism of, 23:13740 (BNWL-715(Pt.2), pp 151-79)
effects of pulsed, on air and oxygen—nitrogen mixtures, 24:33746
effects of pulsed, on air-free aqueous solutions of thiols, reactions of products from, 23:35211
effects of pulsed, on air-saturated perchloric acid solutions, absorption spectra and kinetics of hydrogen sesquioxide and perhydroxyl radical from, 23:279
effects of pulsed, on alcohol solutions of alkali metal halides, 22:12337(R) (COO-1116-6)
effects of pulsed, on alcohol solutions of alkali metal halides and potassium hydroxide, 24:27172
effects of pulsed, on alcohols and water, 25:6374
effects of pulsed, on alcohols at 187°K, decay and yields of solvated electrons from, 25:37436
effects of pulsed, on alcohols, electric conductance changes from, 25:31994
effects of pulsed, on aliphatic acids in aqueous solutions, study of transient optical absorption spectra from, 24:7457
effects of pulsed, on alkali metal halide crystals, (E), 22:48163
effects of pulsed, on alkaline air-saturated water, use of swept beams from 2-MeV Van de Graaff accelerator for studies on, 23:11529 (BNWL-481-2, pp 127-53)
effects of pulsed, on alkaline ethanol solutions, spectral studies on kinetics of, 25:15681
effects of pulsed, on alkaline solutions, 23:47506
effects of pulsed, on alkaline solutions and neutral water, 25:18474
effects of pulsed, on alkaline solutions of potassium hydroxylamine-N,N-disulfonate, reactions of hydrated electrons in, 23:15914
effects of pulsed, on amines adsorbed on magnesium oxide powder or silica gel, ESR spectral studies on, 24:16545(R) (AECL-3477)
effects of pulsed, on amines in various solvents, 22:27775
effects of pulsed, on amino acids, enzymes, and divalent sulfur compounds, 23:35157
effects of pulsed, on amino acids, optical absorption spectral studies of transients from, 24:19016
effects of pulsed, on ammonia and ammonia—propene mixtures, effects of temperature and pressure on yields from, 23:35234
effects of pulsed, on ammonia and carbon dioxide, absorption spectra of ions produced by, 25:18448(R) (CEA-N-1369)
effects of pulsed, on ammonia at 0.1 to 750 Torr, kinetic study of species formed from, 25:54661
effects of pulsed, on ammonia at 300 to 1000 torr, absorption spectra of NH radical from, 22:27771
effects of pulsed, on ammonia in the presence of acetone to produce hydrazine, 23:9451(P)
effects of pulsed, on ammonia, carbon dioxide, hydrogen sulfide, and nitrous oxide, 25:41832(R) (AECL-3851)
effects of pulsed, on ammonia, effects of pressure on yields from, 25:23609(R) (CEA-N-1409)
effects of pulsed, on ammonia, rate of disappearance of NH_2 and NH radicals from, 25:41869
effects of pulsed, on ammonia—water and ethylenediamine—water systems, 24:38977
effects of pulsed, on aniline at 83 and 120°K, 25:8296
effects of pulsed, on aniline at 83 and 120°K, yields from, 25:18465
effects of pulsed, on aniline, benzene, cyclohexane, ethanol, and water, effects of low LET on reactions of excited states, ions, and spurs in, 25:21041
effects of pulsed, on anthracene, biphenyl, and naphthalene in cyclohexane vapor, 23:38003
effects of pulsed, on anthraquinone, study of excited states and radicals from, 23:28924
effects of pulsed, on aqueous 2-mercaptoethanol solutions, 25:42294
effects of pulsed, on aqueous alkaline solutions, 23:35156
effects of pulsed, on aqueous alkaline solutions, 25:37435
effects of pulsed, on aqueous and ammonia solutions, 23:47504
effects of pulsed, on aqueous and organic solutions of α-methylstyrene and styrene, 23:47493
effects of pulsed, on aqueous benzonitrile solutions, spectral studies on short-lived aromatic anions and free radicals produced by, 25:10639
effects of pulsed, on aqueous chloride solutions of deoxynucleotides, purines, and pyrimidines, 25:2259 (GA-10208)
effects of pulsed, on aqueous cobalt cyanide complexes, 24:9355
effects of pulsed, on aqueous copper sulfate—ferrous sulfate—sulfuric acid, effects of dose rate on yields from, 24:19015
effects of pulsed, on aqueous cyanogen solutions, 25:29149
effects of pulsed, on aqueous eosin, 21:28007
effects of pulsed, on aqueous Erioglaucine solutions, spectral studies on yields from, 23:13740 (BNWL-715(Pt.2), pp 151-79)
effects of pulsed, on aqueous ferrous perchlorate, 21:42985
effects of pulsed, on aqueous gold compounds, formation of bivalent gold ions and metallic gold from, 23:47510
effects of pulsed, on aqueous iodobenzene solutions, optical absorption spectra of phenyl radicals produced by, 25:10631
effects of pulsed, on aqueous nitrous oxide solutions and water, 23:35200
effects of pulsed, on aqueous nitrous oxide-saturated solutions of pyrimidine bases, spectra and reactions of free radicals from, 23:33207 (UCLA-12-728)
effects of pulsed, on aqueous nucleic acid derivatives, 23:47531
effects of pulsed, on aqueous oxygen-free solutions of 5-bromouracil and thymine, 23:40684 (UCLA-12-736)
effects of pulsed, on aqueous phenylhydroxylamine, 21:38989
effects of pulsed, on aqueous solutions, 23:35201
effects of pulsed, on aqueous solutions and ice, 23:37976(R) (AE-360)
effects of pulsed, on aqueous solutions and organic liquids, 23:9475
effects of pulsed, on aqueous solutions of alcohols, absorption spectra of free radicals produced by, 24:5691
effects of pulsed, on aqueous solutions of amides, 24:36310
effects of pulsed, on aqueous solutions of amines, reactions of hydrated electrons and hydroxyl radicals produced by, 24:46268
effects of pulsed, on aqueous solutions of amino acids, ESR studies on, 24:31309
effects of pulsed, on aqueous solutions of aromatic compounds, rate constants for reactions of hydrogen atoms from, 23:15919
effects of pulsed, on aqueous solutions of aromatic compounds, 25:39526(R) (AE-419)
effects of pulsed, on aqueous solutions of aromatics, activation energies for reactions of hydrated electrons produced by, 23:40733
effects of pulsed, on aqueous solutions of azides, 25:10643
effects of pulsed, on aqueous solutions of biological materials, 23:28870 (BMwF-FBK-69-11)
effects of pulsed, on aqueous solutions of borohydride ions, yields from, 25:34646
effects of pulsed, on aqueous solutions of carbon monoxide and formic acid, optical absorption and electric conductivity measurements in, 24:41361
effects of pulsed, on aqueous solutions of carbon monoxide, 21:5942
effects of pulsed, on aqueous solutions of chlorofluoromethanes, effects of ethylene on halide yields from, 25:18460
effects of pulsed, on aqueous solutions of cobalt(III) cyanide complexes, kinetics of reactions of hydrated electrons in, 25:54651
effects of pulsed, on aqueous solutions of copper compounds, chemical properties of aquo trivalent ions from, 25:23622
effects of pulsed, on aqueous solutions of cytosine, 24:31354
effects of pulsed, on aqueous solutions of dextran, polyethylene oxide, and poly(vinylpyrrolidinone), kinetics of reactions of hydroxyl radicals in, 24:50427
effects of pulsed, on aqueous solutions of eosin or fluorescein, 25:23619
effects of pulsed, on aqueous solutions of ethylene, 22:4201
effects of pulsed, on aqueous solutions of heparin and keratosulfate, 25:31978
effects of pulsed, on aqueous solutions of hydrogen peroxide and hydrogen—oxygen mixture, 24:4322
effects of pulsed, on aqueous solutions of hydrogen selenide, 23:35210
effects of pulsed, on aqueous solutions of inorganic systems, 24:44032
effects of pulsed, on aqueous solutions of iodomethane, 21:23957
effects of pulsed, on aqueous solutions of lanthanides, 25:51508 (CONF-711001-(Vol.2), pp 560-72)
effects of pulsed, on aqueous solutions of methyl chloride, 25:15673
effects of pulsed, on aqueous solutions of nickel chlorides, nickel perchlorates, nickel sulfates, and uranyl perchlorates, hydrogen yields from, 25:18448(R) (CEA-N-1369)
effects of pulsed, on aqueous solutions of nitric oxide, 24:13950
effects of pulsed, on aqueous solutions of nitric oxide, 24:22665(R) (AECL-3521)
effects of pulsed, on aqueous solutions of nitric oxide, 24:16545(R) (AECL-3477)
effects of pulsed, on aqueous solutions of nitric acid and sodium nitrate, 24:5677 (RLO-2014-6)
effects of pulsed, on aqueous solutions of nitrobenzene, nitromethane, and oxygen, yields of hydrated electrons from, 25:26308
effects of pulsed, on aqueous solutions of nitrobenzene, 22:2134
effects of pulsed, on aqueous solutions of nitromethane, 21:35990(R) (RRL-2310-208)
effects of pulsed, on aqueous solutions of nitrous oxide and oxygen, 21:12460
effects of pulsed, on aqueous solutions of organic compounds, polarographic study of short-lived radicals from, 25:51528
effects of pulsed, on aqueous solutions of oxyiodides, 24:16604
effects of pulsed, on aqueous solutions of pentacyanocobaltate(II), 25:39535
effects of pulsed, on aqueous solutions of peptides, 24:44036
effects of pulsed, on aqueous solutions of periodate, study of transient species from, 25:57466
effects of pulsed, on aqueous solutions of phenyl glucopyranoside, effects of scavengers on production of transient species in, 25:26304
effects of pulsed, on aqueous solutions of poly(ethylene oxide), rate constants for combination of radicals in, 23:49876
effects of pulsed, on aqueous solutions of potassium periodate, 25:41850(R) (CEA-N-1438)
effects of pulsed, on aqueous solutions of potassium bromates or potassium iodates, spectra of radicals produced by, 25:18448(R) (CEA-N-1369)
effects of pulsed, on aqueous solutions of potassium iodate, kinetics of, 25:23609(R) (CEA-N-1409)
effects of pulsed, on aqueous solutions of potassium hydroxides and sodium nitrates, kinetics of primary species decay in, 24:27167
effects of pulsed, on aqueous solutions of pyrimidines, 24:31352
effects of pulsed, on aqueous solutions of pyrimidines, 24:9364
effects of pulsed, on aqueous solutions of pyrrolidine, spectral studies on transients produced by, 24:13908
effects of pulsed, on aqueous solutions of silver compounds, 23:6187
effects of pulsed, on aqueous solutions of sodium carbonates, 24:27169
effects of pulsed, on aqueous solutions of sulfur hexafluoride, 24:31353
effects of pulsed, on aqueous solutions of thiocyanogen, 25:15668
effects of pulsed, on aqueous solutions of thymine, 25:18475
effects of pulsed, on aqueous solutions of tryptophan, mechanism and yields from, 24:9351
effects of pulsed, on aqueous solutions, effects of pressure on absorption spectrum and lifetime of hydrated electrons produced from, 23:43361
effects of pulsed, on aqueous solutions, reactions of aromatic compounds with hydroxyl radicals from, 23:47512
effects of pulsed, on aqueous solutions, reactions of OH and O^- in, 23:49856
effects of pulsed, on aqueous thymine solutions, spectral studies on, 25:2259 (GA-10208)
effects of pulsed, on aqueous, oxygenated, or pure pentane, absorption spectral studies of species from, 25:57458(R) (COO-1116-17)
effects of pulsed, on argon—nitric oxide and nitric oxide, spectral studies on nitrogen oxides produced by, 24:215 (ORNL-4437, pp 48-56)
effects of pulsed, on argon—nitric oxide system, energy transfer in, 23:21759
effects of pulsed, on aromatic compounds, 22:18810(R) (RRL-2310-223)
effects of pulsed, on aromatic compounds in 1,2-dichloroethane solutions, reaction kinetics of molecular cations from, 24:36316
effects of pulsed, on aromatic molecules in solution, 23:47547
effects of pulsed, on aromatic solutions, 23:47497
effects of pulsed, on aromatics in 1,2-dichloroethane, kinetics of formation of molecular cations in, 23:43338(R) (COO-1763-12)
effects of pulsed, on aromatics in aliphatic alcohols, 21:23924
effects of pulsed, on α-chlorotoluene and cyclohexane, lifetime of charged species in, 23:9434
effects of pulsed, on α-chlorotoluene in gaseous cyclohexane, yield of benzyl radicals from, 23:31393
effects of pulsed, on α-methylstyrene and styrene, spectral studies on anion radicals produced by, 24:31382
effects of pulsed, on benzanthracene and naphthalene in liquid and solid solutions, 23:40713
effects of pulsed, on benzene and benzene—cyclohexane mixtures, spectral studies on free radicals produced by, 23:45354
effects of pulsed, on benzene in sulfuric acid solutions containing iron ions and oxygen, 23:28903
effects of pulsed, on benzene, glycerol, methanol, and water, spectrographic studies on, 24:41356
effects of pulsed, on benzene, mesitylene, and toluene, lifetimes of fluorescing species from, 24:39852 (ORNL-4446, pp 197-205)
effects of pulsed, on benzene—naphthalene systems, 23:35189
effects of pulsed, on benzoatopentaamminecobalt perchlorate, oxidation of benzoatopentaamminecobalt(III) by hydroxyl radical from, 25:54669
effects of pulsed, on benzophenone in 1,4-dioxane or tetrahydrofuran solutions, kinetic spectrophotometric studies on effects of alkali metal cations on, 24:13968
effects of pulsed, on biphenyl in liquid paraffin, 24:41331
effects of pulsed, on biphenyl—acetone solutions, 22:12337(R) (COO-1116-6)
effects of pulsed, on bromates in water, spectral studies on, 25:169
effects of pulsed, on bromide in presence of thiocyanate, 23:35151
effects of pulsed, on carbohydrates in aqueous solutions, 23:35180

effects of pulsed, on carbon dioxide and nitrogen, spectral studies on effects of pressure on transitory species produced by, 25:21056
effects of pulsed, on carbon dioxide and nitrous oxide, production of oxygen atoms from, 23:47556
effects of pulsed, on carbon dioxide, carbon monoxide, and nitrous oxide, 23:281
effects of pulsed, on carbon dioxide, effects of dose rate and sulfur hexafluoride on yields of carbon monoxide from, 24:36321
effects of pulsed, on carbon dioxide, effects of sulfur hexafluoride on carbon monoxide yields from, 24: 43934(R) (AECL-3556)
effects of pulsed, on carbon dioxide—carbon tetrafluoride—oxygen system, yields of ClO and CCl radicals in, 23:281
effects of pulsed, on carbon dioxide—oxygen mixtures, ozone yields from, 24:43934(R) (AECL-3556)
effects of pulsed, on carbon dioxide—oxygen systems at 10^{16} eV g^{-1} sec^{-1}, 25:10633
effects of pulsed, on carbon monoxide, effects of propene on carbon dioxide yields from, 24:43934(R) (AECL-3556)
effects of pulsed, on carbon monoxide—oxygen mixtures, 25:54587(R) (AECL-3909)
effects of pulsed, on carbon tetrachloride, absorption spectra of CCl_4 ion produced by, 23:47545
effects of pulsed, on catalase, 22:25415
effects of pulsed, on chemical compounds, 21:38957 (ANL-7327)
effects of pulsed, on chemiluminescence of acriflavine, 24:27173
effects of pulsed, on chloride—thiocyanate mixture, yields of $ClSCN^-$ from, 24:9368
effects of pulsed, on chloroform and chloroform solutions of aromatic compounds, 22:12337(R) (COO-1116-6)
effects of pulsed, on chloroplatinates and cyanoplatinates, kinetic and spectral studies on, 23:21739
effects of pulsed, on cobalt complexes with ammonia and benzoic acid, spectral studies on free radicals produced by, 24:44042
effects of pulsed, on complexes of pyridine or its derivatives and metal ions, ESR study of free radicals from, 23:37982
effects of pulsed, on compounds, identification and kinetic measurements of short-lived species in, 24: 13915
effects of pulsed, on concentrated solutions of nitric acid and sodium nitrate, 24:4321
effects of pulsed, on cyclohexadienol, formation of hydroxycyclohexadienyl radicals from, 23:301
effects of pulsed, on cyclohexane and cyclohexanol at 22°C, 25:39544
effects of pulsed, on cyclohexane and hexane in benzene solutions, 23:311
effects of pulsed, on cyclohexane in presence of dodecafluorocyclohexane, free radical yields and mechanism of, 24:13977
effects of pulsed, on cyclohexane, effects of benzene, nitrous oxide, sulfur hexafluoride, and dose rate on yields from, 23:47489
effects of pulsed, on cyclohexane, hexane, 3-methylpentane, and 2,2,4-trimethylpentane, effects of dodecafluorocyclohexane on yields from, 24:16545(R) (AECL-3477)
effects of pulsed, on cystamine and cysteamine, 22:2166
effects of pulsed, on cysteamine, spectra of free radicals from, 25:34639(R) (USC-113-P-21-3)
effects of pulsed, on deaerated and oxygen-containing solutions of acetone, anthracene, 2-butanone, and 4-heptanone, spectral studies on radiochemical processes in, 25:21045
effects of pulsed, on deaerated aqueous p-bromophenol solutions, spur reactions in, 25:21043
effects of pulsed, on deaerated aqueous solutions of perchloric acid and hydrogen, uv spectra of free hydrogen atoms from, 23:4691
effects of pulsed, on deaerated aqueous solutions of salicylates, 23:47513
effects of pulsed, on deaerated benzene solutions, effects of chloroform and oxygen on emission spectra from, 24:22675
effects of pulsed, on diethylene glycol, ethylene glycol, and polyethylene oxide, effects of cysteamine on free radical repair in, 23:28929
effects of pulsed, on dioxane, 23:310
effects of pulsed, on DNA and related pyrimidine compounds, reactions of hydroxyl radicals in, 23: 47527
effects of pulsed, on electric conductivity of cadmium sulfide, gallium arsenide, and lead sulfide crystals, 25: 7465
effects of pulsed, on electron transfer in aqueous 1,2-dithiolane-3-valeric acid solutions, 25:6370
effects of pulsed, on eosin and fluorescein, 23:35171
effects of pulsed, on ethanol, 24:33744
effects of pulsed, on ethanol, 24:22665(R) (AECL-3521)
effects of pulsed, on ethanol and water, 21:30454
effects of pulsed, on ethanol, yields from, 24:16545(R) (AECL-3477)
effects of pulsed, on ferricyanide in ferrocyanide solutions, reactions of hydrogen atoms in, 22:27770
effects of pulsed, on ferricyanide, nitrate, and nitrite ions in aqueous solutions, electric conductivity method for studying mechanism of transient ion production in, 24: 38938
effects of pulsed, on fluorescence in dioxane and tetrahydrofuran, 24:250
effects of pulsed, on formation of charge-transfer complexes in organic bromine compounds, 24:16617
effects of pulsed, on gaseous ammonia—propene, effects of dose on yields from, 25:48553
effects of pulsed, on gaseous and condensed materials, 23:35177
effects of pulsed, on gaseous α-chlorotoluene—cyclohexane mixtures, 24:2220
effects of pulsed, on gaseous hydrogen sulfide, spectral studies on mechanism and yields from, 24:13982
effects of pulsed, on gaseous hydrogen, spectrophotometric studies on kinetics of reactions of gases with hydrogen atoms produced by, 24:50411(R) (COO-1763-16)
effects of pulsed, on gaseous oxygen, effects of dose rate on ozone yield from, 24:11603
effects of pulsed, on gases, 22:18810(R) (RRL-2310-223)
effects of pulsed, on gases, accelerator design for studies on, 24:33705(R) (NYO-2807-82)
effects of pulsed, on gases, microwave cavity method for studying, 22:40104 (BNL-12552)
effects of pulsed, on glucuronic acid and glucuronic acid complexes with p-toluidine, mechanism of, 24:38925
effects of pulsed, on glycosaminoglycans, reactions of hydroxyl radicals and hydrated electrons in, 22:35868
effects of pulsed, on heavy water, reactions of deuterated electrons from, 22:16630
effects of pulsed, on heavy water—water systems, 25: 54587(R) (AECL-3909)
effects of pulsed, on helium, effects of additives on post-luminescence in, 25:23609(R) (CEA-N-1409)
effects of pulsed, on helium—nitrogen and nitrogen—nitric oxide systems, 24:13876 (RPI-3821-4)
effects of pulsed, on helium-nitric oxide and nitrogen-nitric oxide, yields from, 25:13053
effects of pulsed, on hexabromocyclopentadiene, ESR spectral studies on pentabromocyclopentadienyl radicals produced by, 25:31984
effects of pulsed, on HSO_3^- and $S_2O_3^{2-}$, yields from, 23: 17468
effects of pulsed, on hydrated nitrosobenzene, mechanism of, 25:2272
effects of pulsed, on hydroaromatic compounds, 25:175
effects of pulsed, on hydroaromatic compounds, 23: 35170
effects of pulsed, on hydrocarbons in presence of molecular oxygen, EPR and uv spectra of peroxide radicals from, 23:28894
effects of pulsed, on hydrochloric acid, effects of chlorine on, 24:16545(R) (AECL-3477)
effects of pulsed, on hydrogen, 24:31434
effects of pulsed, on hydrogen bromide, hydrogen chloride, and nitrous oxide gases, effects of pressure on yields from, 24:9352
effects of pulsed, on hydrogen bromide, hydrogen chloride, or nitrous oxide, 23:47475
effects of pulsed, on hydrogen molecules, production of hydrogen atoms by, 25:29158
effects of pulsed, on hydroxy and polycarboxylic acids, in aqueous solution, absorption spectra and proton dissociation of radicals from, 24:7431
effects of pulsed, on ice, 22:4198
effects of pulsed, on ice, 23:37986
effects of pulsed, on ice and frozen hydrofluoric acid solutions, effects of temperature on yields of transient species from, 23:47502
effects of pulsed, on ice, effects of phase and temperature on properties of transient intermediates in, 22:48892
effects of pulsed, on ice, kinetics of polaron decay by, 25:163
effects of pulsed, on inorganic anions, organic compounds, and metals, electron transfer reactions in, 23:47517
effects of pulsed, on inorganic compounds in mass spectrometer, 25:171
effects of pulsed, on ionization of liquids, 24:16605
effects of pulsed, on light-irradiated eosin and fluorescein, 22:16624
effects of pulsed, on liquid 3-bromopropene—cyclohexane, effects of diphenylpicrylhydrazyl on mechanism and yields from, 24:50402 (CONF-690916-(Vol.2), pp 180-5)
effects of pulsed, on liquid alcohols at low temperature, studies on electron solvation process in, 25:34649
effects of pulsed, on liquid amides, 25:44397
effects of pulsed, on liquid and glassy methanol, ESR and optical spectral studies of, 24:2232
effects of pulsed, on liquid cyclohexane, effects of dose rate on, 23:4690
effects of pulsed, on low-temperature glasses, trapping of electrons in, 24:38971
effects of pulsed, on luminescence of aqueous solutions of thallium sulfate at 10 MeV, 25:2233
effects of pulsed, on luminescence of lithium fluoride, 22:4170
effects of pulsed, on lysozyme, effects of various scavengers on, 23:19767
effects of pulsed, on matter, 22:40119
effects of pulsed, on metaphosphate glasses, ESR spectral studies on, 24:13981
effects of pulsed, on methane, effects of dose rate on yields from, 25:31981
effects of pulsed, on methanol, 23:33212
effects of pulsed, on methyl alkyl ketones and symmetrical dialkyl ketones, 23:28895
effects of pulsed, on methyl sulfoxide, 25:51537
effects of pulsed, on methylcyclohexane, kinetics and transient spectra of short-lived intermediates produced by, 25:13050
effects of pulsed, on mitochondrial components, 24: 22699
effects of pulsed, on mono-, di-, and triphosphates and pyrophosphate, effects of nitrous oxide and oxygen on, 24:41360
effects of pulsed, on N,N,N',N'-tetramethyl-p-phenylenediamine, 23:2329
effects of pulsed, on N,N-dimethyl-p-nitrosoaniline in aqueous solution, 23:19777
effects of pulsed, on naphthalene in 3-methylpentane glass at 77°K, mechanism of yields of triplet states in, 23:7574
effects of pulsed, on naphthalene, yields of excited singlet and triplet states from, 23:21726 (AI-AEC-12744, pp 159-61)
effects of pulsed, on neutral aqueous solutions of p-bromophenol, 23:35242
effects of pulsed, on nitric oxide and argon or nitrogen, yields from, 24:48111 (ORNL-4581, pp 70-83)
effects of pulsed, on nitric oxide in aqueous solutions, mechanism of, 24:43934(R) (AECL-3556)
effects of pulsed, on nitric oxide, yields from, 23:21759
effects of pulsed, on nitrogen, 25:41850(R) (CEA-N-1438)
effects of pulsed, on nitrogen oxide-saturated aqueous 5-methylhydrouracil solutions, spectral studies on free radical production in, 23:45308 (UCLA-12-749)
effects of pulsed, on nitrogen, stimulated emissions produced by, 25:23609(R) (CEA-N-1409)
effects of pulsed, on nitrogen—oxygen, luminescence in production of nitric oxide from, 24:48111 (ORNL-4581, pp 70-83)
effects of pulsed, on nitrous oxide, effects of temperature on gas yields from, 24:36320
effects of pulsed, on nitrous oxide—thymine and nitrous oxide—uracil systems, mechanism of, 24:19024
effects of pulsed, on nitrous oxide-saturated aqueous solutions, 25:39545
effects of pulsed, on organic compounds, 23:35176
effects of pulsed, on organic compounds, 24:16615
effects of pulsed, on organic compounds in aqueous ferricyanide solutions, rate constants for oxidation of radicals produced by, 24:13958
effects of pulsed, on organic compounds, review on mechanism of electron transfer and protonation reactions in, 24:31399
effects of pulsed, on organic molecules—hydrogen mixtures, rate constants and transient spectra in gas-phase reactions of hydrogen atoms from, 24:11612
effects of pulsed, on oxalates and oxalic acid, effects of iodides, nitrous oxide, and thiocyanates on, 25:23617
effects of pulsed, on oxalic acid, kinetics of production of carbon dioxide, hydrogen, and hydrogen peroxide from, 25:41850(R) (CEA-N-1438)
effects of pulsed, on oxygen, 24:22665(R) (AECL-3521)
effects of pulsed, on oxygen, effects of dose rate on yield of ozone from, 23:11585
effects of pulsed, on oxygen, effects of pressure on yields of ozone from, 24:11607
effects of pulsed, on oxygen, ozone yields from, 24: 16545(R) (AECL-3477)
effects of pulsed, on oxygen, stoichiometry of method for determination of yields of ozone from, 24:25073
effects of pulsed, on oxygen-saturated aqueous solutions, acid dissociation and decay kinetics of hydroperoxo radicals from, 24:41362
effects of pulsed, on oxygen-saturated iron solutions, reactions of H_2O_2 in, 24:7465
effects of pulsed, on oxygenated alkaline solutions, 21: 28008
effects of pulsed, on oxygenated water, yield of hydrogen peroxide from, 22:16627
effects of pulsed, on oxygenated neutral and acidic methanol, kinetic studies on solvated electrons and hydrogen atoms in, 24:16590
effects of pulsed, on p-benzoquinone—hydroquinone and nicotinamide adenine dinucleotide, 24:48113
effects of pulsed, on p-bromophenol in ethanol solutions, hydrogen yields from, 25:18448(R) (CEA-N-1369)
effects of pulsed, on p-bromophenol, optical absorption spectra of phenoxy radicals produced by, 25:10631
effects of pulsed, on p-hydroxyhydrocinnamic acid, molar extinction coefficients of OH and H adducts from, 24: 7456
effects of pulsed, on p-nitrophenol, 23:47511
effects of pulsed, on phenylalanine, hydroxyphenylpropionic acid, tyrosine, and polytyrosine, 22:27829
effects of pulsed, on plastics, 22:34130 (NP-17353)
effects of pulsed, on polar organic liquids, 25:160
effects of pulsed, on poly(methyl methacrylate) and polystyrene, 23:13771
effects of pulsed, on poly(tetrafluoroethylene), ESR spectral studies on effects of oxygen on free radicals produced by, 23:24225
effects of pulsed, on polystyrene, 22:14513 (BNL-50057, pp 60-78)
effects of pulsed, on polystyrene and poly(methyl methacrylate) containing biphenyl and naphthalene, 23:26260 (AD-680759)
effects of pulsed, on potassium chloride crystal, 24: 19969
effects of pulsed, on potassium chloride crystals at 77°K, 24:19970
effects of pulsed, on potassium chloride crystals at 4°K, 24:19971
effects of pulsed, on potassium iodide and potassium thiocyanate, 23:239
effects of pulsed, on production and decay of hydrated electrons in deaerated water, 23:28915
effects of pulsed, on production of nitrogen trioxide in nitric acid, mechanism of, 21:14269
effects of pulsed, on production of solvated electrons in aqueous potassium hydroxide—sodium hydroxide systems, 22:42795
effects of pulsed, on purine and pyrimidine deoxyribonucleotides and thymus DNA, 23:15890
effects of pulsed, on purines and pyrimidines, 23: 9420(R) (GA-8872)
effects of pulsed, on pyrene in acetone at -75°C, 25: 34658
effects of pulsed, on pyrene in acetone, benzonitrile, and dichloroethane, 25:51532
effects of pulsed, on pyridine, absorption spectra of transients from, 21:40892
effects of pulsed, on radiolysis of deaerated methanol, formation of oxidizing radicals by, 23:19794
effects of pulsed, on radiolysis of N,N,N'N'-tetramethyl-p-phenylenediamine in various solvents, 23:19808
effects of pulsed, on ruthenium hexaammine and ruthenium chloropentaammine in aqueous solutions, spectra of intermediates produced by, 24:38900

effects of pulsed, on ruthenium nitride complexes with ammonia, 25:34657
effects of pulsed, on sheet glass, effects of variables on hole formation and melting in, 25:21008
effects of pulsed, on silver ions in ammonia solutions, reduction in, 23:21731
effects of pulsed, on single crystals of potassium chloride, spectral studies on, (E/T), 25:27846
effects of pulsed, on sodium nitrate crystals, spectral studies on transients produced by, 24:48111 (ORNL-4581, pp 70-83)
effects of pulsed, on solid poly(methyl methacrylate), 23:47493
effects of pulsed, on solution of biphenyl in cyclohexane, 23:33224
effects of pulsed, on solutions of anthracene, biphenyl, or naphthalene, in acetone, ethers, or hydrocarbons, 21:23979
effects of pulsed, on solutions of chlorotriphenylmethane, 24:236
effects of pulsed, on solutions of transition metal complexes, 22:25433
effects of pulsed, on stilbene, effects of solvent on kinetics of production and decay of transient species from, 24:22714
effects of pulsed, on substituted aryl glycosides, rate constants for reactions of hydrated electrons and hydroxyl radicals produced by, 25:26305
effects of pulsed, on tetrahydrofuran, effects of anthracene, lithium aluminum hydride, and pyrene on ion yields from, 24:46265
effects of pulsed, on tetrahydrofuran, ir spectral studies of solvated electrons produced by, 24:50411(R) (COO-1763-16)
effects of pulsed, on thallium-activated cesium iodide phosphor, (E), 22:34768
effects of pulsed, on triethylamine, optical absorption spectra of radicals from, 24:2233
effects of pulsed, on triphenylmethanol, 22:27826
effects of pulsed, on uracil and its derivatives, kinetics of, 24:16581
effects of pulsed, on vinyl compounds, absorption spectra and reactions of transients from, 21:40893
effects of pulsed, on viscous 1-propanol, 23:35138(R) (RRL-2310-276)
effects of pulsed, on water, 22:25408
effects of pulsed, on water, 22:14513 (BNL-50057, pp 60-78)
effects of pulsed, on water and aqueous solutions, 21:5910
effects of pulsed, on water and aqueous solutions of aromatic compounds, 25:41858
effects of pulsed, on water, Cherenkov radiation from, 23:35203
effects of pulsed, on water, disproportionation of perhydroxyl radicals from, 25:44396
effects of pulsed, on water, reactions of hydrated electrons, hydrogen atoms, and hydroxyl radicals from, 24:38942
effects of pulsed, on water, reactions of organic dyes with products from, 23:47519
effects of pulsed, on water, reactions of oxide radical ions from, 24:22707
effects of pulsed, on water, role of hydrated electrons in delayed light absorbance following, 24:41353
effects of pulsed, on water, yields of hydroxyl ions from, 25:39546
effects of pulsed, on water—heavy water systems, 25:41832(R) (AECL-3851)
effects of pulsed, on weakly alkaline aqueous solutions, pH indicator studies on hydrogen yields from, 25:34668
effects of pulsed, or aqueous solutions of benzoate, ethanol, or methanol, 23:24267
effects of radiation-belt, on satellites and materials, (T), 24:35290
effects of radiolytic hydrated, on activity of hemocyanins, 25:26302
effects of secondary, from fission fragments on nitrogen, 24:33705(R) (NYO-2807-82)
effects of secondary, methods for correction in estimating biological, 21:13352 (UCRL-16898, pp 87-96)
effects of short pulses of fast, on polymerization of styrene on α-methylstyrene, 21:23995
effects of slow, on desorption of oxygen and carbon monoxide from tungsten, 23:24966
effects of slow, on graft polymerization of polyethylene, effects of distribution of energy absorption on, 23:35188
effects of up to 1.5-MeV, on silver—zinc storage batteries, 22:36158 (N-68-22226)
effects of, effects of dose and dose rate on RBE for, 22:51695
effects of, for sterilization of food, equation for radioactivity induced after, 21:14782
effects of, on 1-octene and diisobutylenes, 21:10374 (NP-16442)
effects of, on 2,4-dimethylpentane and 2,2,4-trimethylpentane, 21:5949
effects of, on 3-bromopropene, absorption spectra of allyl radical in, 21:14256
effects of, on acrylonitrile, 21:8372
effects of, on alcohol—ethylene systems and ethylene, yields in, 21:14237(R) (JLI-2901-75)
effects of, on alkene—amine systems and amines, yields in, 21:14237(R) (JLI-2901-75)
effects of, on ammonia and hydrocarbon mixtures, 21:105
effects of, on ammonia and hydrocarbon mixtures, 21:106
effects of, on ammonia, mechanism and yields in, 21:10369(R) (AGN-8196(Vol.1))
effects of, on aqueous dye solutions at 4 MeV, effects of scavengers on light emission in, 21:5911
effects of, on aqueous nitrate solutions, 21:12458
effects of, on biological materials, effects of LET and bound water molecules on, 21:12782
effects of, on carbon dioxide—methane mixtures, 21:93 (AERE-R-5286)
effects of, on carbon monoxide—nitrogen, analysis of solid product produced by, 21:14234(R) (AGN-8183)
effects of, on catalytic dehydration of 1-decanol by aluminum oxide, 21:1396
effects of, on cerebellum of guinea pigs, 21:20377
effects of, on chloroethylene polymers, kinetics of free radical formation at 100 to 318°K in, 21:5938
effects of, on color centers in calcium halophosphates, 21:8357
effects of, on compounds, theoretical calculations for dose-saturation, 21:14262
effects of, on continuous gas-phase polymerization of tetrafluoroethylene, 21:1406(P)
effects of, on crystalline aqueous solutions and ice, spectral studies on, 21:5914
effects of, on cycloalkanes and cycloalkenes, ESR studies of, 21:12474
effects of, on decomposition of terphenyls and hydrogenated terphenyls, 21:8325 (AECL-2641)
effects of, on desorption of gases from copper and stainless steel surfaces, 21:13217(T) (NP-tr-1467)
effects of, on electric conductivity of aluminum and its alloys, recovery from, 21:7885(R) (NAA-SR-12175)
effects of, on electric conductivity of iron and platinum, recovery from, 21:7885(R) (NAA-SR-12175)
effects of, on epoxy resins, 21:15924
effects of, on esters in tritiated water, 21:15955
effects of, on ethane, 21:5920
effects of, on ethylene, mechanism and yields in, 21:14237(R) (JLI-2901-75)
effects of, on ethylene, mechanism and yields in, 21:10369(R) (AGN-8196(Vol.1))
effects of, on fine structure of cellulose, effects of heat treatment on, 21:3108
effects of, on fission of virus particles, 21:11155
effects of, on fragmentation of N-substituted morphine, mass spectral studies on, 21:8354
effects of, on gases, irradiation technique for studying, 21:3101
effects of, on hardening of aluminum, 21:7885(R) (NAA-SR-12175)
effects of, on HeLa cells, RBE for, 21:394
effects of, on human body following accidental exposure, 21:18152
effects of, on induction of defects in gallium antimonide, 21:7885(R) (NAA-SR-12175)
effects of, on ionization of hydrogen and deuterium at 3.75 to 5 eV, 21:4541 (AD-637657)
effects of, on isomerization of 2-octene, 21:3120
effects of, on microorganisms, 21:11140(R) (ORO-2832-48)
effects of, on mitosis in grafted Ehrlich tumor cells, 21:13031
effects of, on nitrobenzene in aqueous solutions, 21:8340
effects of, on nitrobenzene in water and alcohol solutions, 21:8341
effects of, on nitrogen compounds to separate nitrogen-15, 21:12517(P)
effects of, on oxygen content, in radiotherapy of neoplasms, 21:14692
effects of, on phosphatase activity in soils, factors affecting, 21:12774
effects of, on polyethylene, 21:12449
effects of, on polyphenylalkanes, EPR and mass spectrometer studies of, 21:112
effects of, on reaction of formamide with alkenes, 21:3124
effects of, on silver bromide crystals, 21:8332
effects of, on solid hexadecane at -78°C, 21:8364
effects of, on solvent efficiency of benzene, mesitylene, toluene, and xylene for PPO, 21:15935
effects of, on voltage pulses from polyethylene terephthalate insulated ribbon wire, effects of shunt capacitance on, 21:13298 (N-66-19036)
effects of, on water vapor, role of excited states in, 21:4567
effects on 1,2-cyclohexanediol, 21:17678
effects on 1.5-MeV, on electric properties of transistors, 23:2729 (HMI-B-70)
effects on 2-phenyl indoles and 2-phenyl indole derivatives, effect of concentration on induced scintillations from, 23:647
effects on 3,3-bis(chloromethyl)oxetane and its polymer, ESR spectral studies on, 21:19686
effects on 3,3-bis(chloromethyl)oxetane polymers, ESR spectral studies on, 24:22691
effects on absorption edge in silicon, Franz—Keldysh mechanism in, (T), 23:42471
effects on absorption edge of pure and antimony-containing germanium, (E), 22:22209
effects on absorption spectra of fused silica, 24:32893 (N-70-17167)
effects on ac hopping conductivity of silicon, 25:52917
effects on acenaphthylene—divinylbenzene cation exchange resin, 21:40914
effects on acetamide and anhydrous and hydrated metal acetates, effects of crystal structure on yields of free radicals in, spectral studies on, 23:4645 (COO-1385-22)
effects on acid mucopolysaccharides in sclerotic human skin, betatron, 23:41268
effects on acrylic acid—ethylene polymers, effects of annealing, mechanism, and yields from, 24:11630
effects on activity of ATPase in relation to estimations of molecular weight, 22:25745
effects on activity of dilute aqueous solutions of lysozyme, protective effects of oxygen against, 23:2778
effects on activity of DNA nucleotidyltransferase in tetrahymena pyriformis, 25:24045
effects on activity of dry bovine hyaluronate lyase, effects of temperature on, 22:452
effects on activity of glutamate dehydrogenase and urease in relation to size of functional subunits, effects of dose on, 25:46717
effects on activity of luciferase system in Photobacterium fischeri, measurement of bioluminescence decay time to determine high dose rate, 25:4730
effects on activity of ribonuclease, low energy, 22:43300 (AERE-PR/HPM-12)
effects on activity of serum aldolases and dehydrogenases in man in relation to regression of cancer, effects of dose fractionation on 20 to 34 MeV, 23:29375
effects on activity of trypsin in vitro, effects of backscattering on dosimetry for monoenergetic, 23:41230(R) (TID-25133)
effects on addition of acetonitrile to olefins, 21:19658
effects on adhesion of polymeric coatings to aluminum foils, 21:26931
effects on aflatoxin in contaminated bread and rice, 25:49108
effects on aging of fiberglass, 24:6292
effects on aging process of films of chlorovinyl resin, 22:27780
effects on air, fluorescence induced in, 22:11195 (LA-3793)
effects on aliphatic ethers, 21:42988
effects on alkali metal atoms, ionization by slow, 22:43885
effects on alkali metal halide crystals at 5 to 45 keV, saturation of F-center formation in, 23:44534
effects on alkali metal halide single crystals at 5 to 45 keV, range and nonuniform coloration, (E/T), 24:42764
effects on alkali metal halides at 0.2 to 2 keV, color centers induced in, 25:33427
effects on alkali metal halides, defects from, (T), 22:22240
effects on alkali metal halides, effect of impurities on defect production, 22:24470
effects on alkali metal halides, mobility of negative ion vacancies produced in, 24:32895 (ORNL-4526, pp 1-17)
effects on alkali metal halides, recombination luminescence, 24:47304
effects on alkylaromatic amines in aqueous—organic systems, 24:33748
effects on alloys, interaction of coherent precipitates with damage in, 25:59163
effects on alpha iron, effects of direction of irradiation on damage rate in, 22:16602
effects on aluminum alloys, 21:28804
effects on aluminum and aluminum alloys, recovery from, (E), 21:2332
effects on aluminum and aluminum alloys, resistivity recovery from, 22:50260
effects on aluminum and copper at low temperature, annealing of defects produced in, (E), 22:28882
effects on aluminum and copper in high voltage electron microscopes, 22:52223
effects on aluminum and copper microstructure, recovery models for, 23:41681(R) (COO-1161-6)
effects on aluminum and its dilute alloys at 90°K and 2-3 MeV, annealing kinetics of, 25:17278
effects on aluminum at 0.16 to 0.40 MeV, 24:3454
effects on aluminum at 0.2 to 0.4 MeV, threshold energy and annealing of, 24:6627
effects on aluminum at 3 MeV and 4.5°K, comparison of lattice parameter and resistivity changes in annealing of, 25:9564
effects on aluminum at 50 keV, radiation from plasmons in, 22:39177
effects on aluminum films at 80 keV, radiative decay of volume and surface plasmons excited in, 25:2885
effects on aluminum foils, photon emission from non-normally incident, 21:42193
effects on aluminum oxide catalysts, ESR studies on, 24:5695
effects on aluminum oxide, boric acid, and distilled water, 23:24251
effects on aluminum single crystals at 0.18 to 0.4 MeV and 10°K, annealing of, (E/T), 23:12971
effects on aluminum, annealing stages of, 22:36517
effects on aluminum, annealing study of Stage-III recovery from, 22:11519
effects on aluminum, copper, and magnesium, 22:34083(R) (ORO-3098-8)
effects on aluminum, displacement functions and threshold energy for defect production in, 24:49251
effects on aluminum, electric conductivity change from, 21:42190
effects on aluminum, I/sub B/ substage as measurement parameter for defects from, (E), 23:12983
effects on aluminum, low-temperature recovery of 0.40-MeV, (E), 22:50226
effects on aluminum, restoration phenomena following, 22:19594
effects on aluminum, stage-III annealing of defects from, (E), 22:31926 (BNL-50083, pp 244-64)
effects on aluminum, study of Stage-III recovery from, 23:42440
effects on aluminum, temperature effects on surface charges from, (E), 22:20048
effects on aluminum—copper-alloy stacking-fault energy, 22:22211
effects on aluminum—zinc fluoride—hydrogen solar cells at 1 MeV, 24:33982
effects on aluminum-doped silicon, EPR and ENDOR of aluminum—vacancy pair from, 21:23278
effects on amino acid films at 40 to 1000 eV, spin interactions in, 25:26277(R) (ORO-3799-7)
effects on amino acids, 21:25884
effects on amino acids in beef, effects of dose rate and energy level on, 22:8684
effects on ammonia, mass spectral studies on products of, 21:45089 (ORNL-4164, pp 101-44)
effects on ammonia, production of anhydrous hydrazine from, 22:37777 (CEA-R-3379)
effects on ammonium and sodium acid fluoride single crystals at 1 MeV, 25:14411 (AD-712321)
effects on ammonium iron sulfate hydrates, 23:19750

effects on anaerobic digestion processes and sludge handling characteristics of fresh solid sewage, 25: 52290
effects on angular correlation of positron annihilaton radiation in iron and nickel, annealing of, 24:49254
effects on animals, role of hematopoiesis in, 22:45691
effects on anisotropic disordering of fcc A_3B alloys, (T), 21:13629
effects on annular, grown, and planar unijunction transistors, 21:4746 (N-66-31669)
effects on anthracene and anthracene solutions, luminescence from, 21:35224(T) (ANL-Trans-496)
effects on anthracene crystals at 40 keV, temperature dependence of carrier yield, 24:51802
effects on antigenicity of Dictyocaulus larvae, RBE for, 24:50785
effects on antigenicity of Ehrlich ascites cell transplants in rats, 24:25407
effects on antimony—gallium intermetallic compounds, energy and orientation dependence of damage from, (E), 22:52861
effects on antimony-doped germanium at 2.5 MeV, one-valley EPR spectrum of, 25:56298
effects on antimony-doped germanium at 4 MeV, thermal-conductivity study of, 25:59134
effects on antimony-doped n-type germanium, evidence for production and annihilation of interstitial impurities from, (E), 22:37014
effects on aqueous chloride solutions of nucleic acid, reactions of Cl_2^- and hydroxyl radicals from, 23:47528
effects on aqueous chloroacetic acid and silver acetate, formation and precipitation of silver chloride by, 23: 19806
effects on aqueous fluorescein, spectral studies on yields of pulse, 22:33452
effects on aqueous iodoacetic acid and silver acetate, formation and precipitation of silver iodide by, 23: 19806
effects on aqueous sodium formate solutions, 22:30587 (EUR-3914(Pt.1))
effects on aqueous solutions of aliphatic polyalcohols, carbohydrates, and polyhydroxy acids, effects of acidity on deoxycompounds and malonaldehyde yields from, 24:38953
effects on aqueous solutions of amines and amino acids, 25:23616
effects on aqueous solutions of carboxymethyl cellulose and gelatin at 1 MeV, 25:57443
effects on aqueous solutions of fumarates, ESR studies of radicals from, 25:54656
effects on aqueous solutions of nitrates, yields from, 23: 47507
effects on aqueous solutions of nitriles, ESR studies on reactions of hydrated electrons and hydrogen atoms from, 24:44054
effects on aqueous solutions of nitromethane, ESR study of radicals from, 23:302
effects on aqueous solutions of organic compounds, 25: 31998
effects on aqueous solutions of organic compounds, ESR studies on, 25:39542
effects on aqueous solutions of organic compounds, rate constants for hydrogen atom reactions following lytic, 25:55132
effects on aqueous solutions of sodium pentacyanonitroxylferrate, kinetics of, 23:19779
effects on aqueous solutions of thiols, ESR studies on radicals from, 25:44399
effects on aqueous solutions, ESR studies on, 24:33706 (RRL-2310-304)
effects on aqueous thiocyanate solutions, kinetics of oxidation by hydroxyl radicals in, 21:34297
effects on aqueous thymine solutions in presence of N-oxide of 2,2,6,6-tetramethyl-4-piperidone, mechanism of pulse, 23:284
effects on argon sorption by nickel surfaces, 21: 18294(R) (AD-642408)
effects on argon- or nitrous oxide-saturated water, spectral studies on hydroxyl radical in, 21:34288 (AE-283)
effects on argon—nitrogen, nitrogen—nitrogen oxide, and nitrogen—oxygen systems at 1.5 MeV, 25:10586 (JAERI-5026, pp 155-7)
effects on argon—water systems, reactions of hydrogen from, 25:57460
effects on aromatic ketones, 25:2266
effects on aromatic molecules, mass spectra of neutral fragments from, 21:25903
effects on arsenic sulfide dielectric, columnar ionization from, 23:10725
effects on arsenic trisulfide dielectric films, threshold energy for electric conductivity from, 23:10715
effects on arsenic-doped germanium crystals, ESR studies of production and annealing of defects from 6-MeV, 22:37000
effects on Aspergillus spores, effects of dextrose, pH, and water on, 22:52044
effects on atomic displacements in monocrystalline cobalt, 25:13733
effects on atoms and ions of Z = 21 to 30, calculations of ionization cross sections and rate coefficients, 22: 43856 (IPP-1/76)
effects on ATPase activity in erythrocyte membranes, 21:28345(R) (UCB-34-P-136-1)
effects on ATPase activity in rabbit muscle, 21:24700
effects on ATPase of rabbit muscle, inactivating, 22: 51411
effects on B1 center formation in n- and p-type silicon at 1.5 to 30 MeV, 21:6372
effects on bacteria, effects of copper on, 22:19366
effects on bacteria, mice, and yeasts, RBE for 20 MeV, in comparison with cobalt-60 γ rays, high-energy photons, and 260 kvp or 20 MeV x rays, 23:50844
effects on bacterial count, shelf life, and taste of carp, gwyniad, and trout, effects of dose on, 25:24500
effects on bacterial survival, nutrients, and taste of foods, 22:15126
effects on barium hydroxide at 4 MeV, ESR studies on O_2^- produced from pulsed, 24:13895
effects on Battelle Research Reactor electrical components, 21:15773
effects on benign lesions in man, therapeutic betatron, 22:51709
effects on benzene and benzene—cyclohexane mixtures, fluorescence spectral studies on, 24:31358
effects on benzene and naphthalene derivatives, emission spectra and decay of emitting species from, 23:7578
effects on benzene derivatives, ESR studies on, 25: 37431
effects on benzene, cumene, indan, 1,2,3,4-tetrahydronaphthalene, and toluene in mixtures with nitric oxide, yields in, 23:9437
effects on benzene—2,3-butanedione solutions, effects of cyclohexene on mechanism and yields in pulse, 23:270
effects on benzoquinone and hydroquinone, free radical production in, 21:28019
effects on beryllia at 3 MeV, EPR identification of V_1 centers produced in, (E/T), 24:42762
effects on beryllia single crystals at 3 MeV, EPR of neutral beryllium vacancy induced in, 25:36283
effects on beryllium at 20°K, annealing of defects produced in, (E), 22:28866
effects on beryllium at 20°K, annealing of defects produced in, (E), 23:14371(T) (WAPD-Trans-107)
effects on beryllium films at 80 keV, plasmon emission in, 25:9554
effects on beryllium oxide at 0.25 to 1 MeV, spectra of defect induced in, 25:33402(R) (ORNL-4669)
effects on beryllium oxide crystals during electron microscopy, dislocation-loop formation from, (E), 24: 5200
effects on beta-silicon carbide at 3.6 MeV, fine structure of red luminescence induced in, 25:7446
effects on binding energy in gaseous ethanol, 22:12389
effects on biochemical activity of hemolytic antibodies for determination of molecular structure, 22:10685
effects on biological activity of potassium and sodium salts of penicillin, 21:26697
effects on biological materials in relation to oxygenation, 24:4560(R) (NYO-910-121)
effects on biological materials, effects of LET on, 22: 25755
effects on biological materials, RBE for, 21:30906
effects on biological materials, RBE for, 22:38348
effects on biological materials, RBE for 20 MeV, 23: 50844
effects on biological objects, comparison of photons to, 22:38447
effects on bladder carcinomas in man, combined effects of x rays on therapeutic high-energy, 22:51723
effects on bladder carcinomas in man, condition of patient following therapeutic high-energy, 22:51724
effects on bladder carcinomas in man, therapeutic, 23: 6537
effects on blood pressure in human infants during therapy of Wilm's tumor, 24:2819
effects on blood vessels in kidneys of guinea pigs, pathological, 23:918
effects on blood vessels in rabbit ears, protective effects of trihydroxyethylrutoside against, 22:40797
effects on blood vessels of rabbit ear chambers, protective effects of troxerutin against, 23:781
effects on bond scission of cyclic, 22:42719(T) (AEC-tr-6937, pp 176-83)
effects on bonding of foamed material to sheet or plate, 22:45119(P)
effects on bonding of small molecules to DNA, 24: 20823
effects on bone marrow and intestinal tissues of mice, effects of hypoxia on, 25:35161
effects on bone sarcomas in man, therapeutic high-energy, 22:51717
effects on borax at -196°C, ESR spectral studies on free radicals produced by, 22:8135
effects on borax at -196°C, ESR studies of free radicals from, 22:42721(T) (AEC-tr-6937, pp 192-201)
effects on boron hydrides, 21:34311(R) (NYO-1396-103)
effects on boron-containing graphite, 24:17331 (ORNL-4449, pp 165-213)
effects on brain of cats, electroencephalography study of 50 to 210 krad, 24:34672
effects on brain of guinea pigs, effects of dose on, 21: 45797
effects on brain of guinea pigs, effects of dose on accumulation of carbohydrates in white matter following fast, 23:31955
effects on brain tumors and Ewing sarcomas in children of man, therapeutic high-energy, 22:51710
effects on brain tumors in man, therapeutic, 21:20237
effects on brain tumors in man, therapeutic high-energy, 22:51714
effects on breast cancer in man, therapeutic, 23:6538
effects on broadening of silicon lines, (E), 25:9187
effects on bromates, chlorates, iodates, and nitrates of alkali metals and alkaline earths, yields in, 22:16589
effects on bronchial carcinomas, development of lung complications following therapeutic high-energy, 22: 51728
effects on C_3 hydrocarbons, chemical reactions of carbon-11 recoil atoms produced by, 21:25871 (IS-T-118)
effects on C-reactive protein content of malignant and normal tissues of man, 22:45407
effects on cadmium at 0.4 to 1.7 MeV and low temperatures, (E/T), 24:1478
effects on cadmium iodide crystals at 75 kV, 24:12879
effects on cadmium selenide thin film transistors, 21: 6394
effects on cadmium selenides at 77°K, 21:7351
effects on cadmium selenides at low temperatures, (E), 21:37576
effects on cadmium sulfate solutions, 21:22841 (ORNL-4076, pp 55-79)
effects on cadmium sulfide at 2 MeV, annealing of thermal conductivity changes induced by, (E), 25: 22213
effects on cadmium sulfide at 25 kV, gain studies of laser emission spectra, 23:14913
effects on cadmium sulfide at 65 keV, 25:7470
effects on cadmium sulfide carrier concentration, electric conductivity, and Hall mobility at 10 MeV, (E/T), 24: 40175
effects on cadmium sulfide crystal, infrared attenuation of current induced by, 23:43645
effects on cadmium sulfide crystals at 10 MeV, annealing of, (E), 25:17279
effects on cadmium sulfide crystals at 75 keV to 2 MeV, (E), 22:7353(R) (SU-DMS-68-T-9)
effects on cadmium sulfide crystals, luminescence yield, (E), 22:3193
effects on cadmium sulfide films, electron microscope study of amorphous to crystalline transformation from, 22:52862
effects on cadmium sulfide single crystals, energy for separation of electron—hole pair by, (E), 21:16996
effects on cadmium sulfide, decay of luminescence in, 24:19942
effects on cadmium sulfide, germanium, and silicon, production of oriented polycrystalline films from, (E), 22:49984 (N-68-20295)
effects on cadmium sulfides, mechanism of excitation of luminescence from, (E), 22:41694
effects on cadmium sulfides, photoelectric determination of, 22:29573
effects on cadmium sulfides, room-temperature lasing by, 21:11702
effects on calcium fluoride crystals at 1.2 MeV, thermoluminescent, 25:45561
effects on calcium fluoride crystals at 10 kV, 24:19964
effects on calcium fluoride crystals doped with rare earths at 4 MeV, 24:19975
effects on calcium fluoride microhardness at 1.2 MeV, (E), 25:49984
effects on calcium molybdate crystals, ESR studies of defects produced in, 23:27685
effects on calcium molybdates, spin-Hamiltonian parameters for defects from, 21:18800(R) (NYO-2047-38)
effects on calcium-45 uptake by rats following local knee irradiation, abscopal, 22:51899
effects on calf thymus DNA, spectra and decay kinetics of luminescence from, 24:2221
effects on cancer of head and neck, development of complications following preoperative, 23:35824
effects on cancer of mouth in man, therapeutic high-energy, 22:51738
effects on capacitance and conductance of aluminum, silicon, and silicon oxide MIS structures, 35- to 100-keV, 22:33702
effects on capacitor-type meteoroid detector, dielectric breakdown due to, 23:16216 (N-68-33277)
effects on capillaries of rabbits, protective effects of trihydroxyethylrutoside against fast, 22:40738
effects on capillary system of ear in rabbits, protective effects of tri-(hydroxyethyl)-rutoside against fast, 23: 48087
effects on Capron fibers, effects of surface modification and additives on, 25:18425
effects on capture center energy spectra of cadmium sulfide crystals at 3 keV, 25:43437
effects on carbohydrates, yield of deoxy compounds from, 22:42750
effects on carbon atom displacement in vanadium carbide at 33 to 100 keV, 23:22696
effects on carbon dioxide desorption from tungsten, 23: 24867 (ORNL-TM-2307)
effects on carbon dioxide, carbon monoxide, and methane, observation of ^{13}S carbon atoms in, (E), 21: 5917
effects on carbon monoxide, 21:40896
effects on carbon monoxide at 1.5 MeV, design of apparatus for spectral studies on, 25:10585 (JAERI-5026, pp 153-5)
effects on carbon monoxide, effects of propane or propene on yields from, 25:2287
effects on carbon monoxide, spectral studies on yields in, 22:30623
effects on carbon tetrachloride solutions of aromatics to produce transient charge-transfer complexes, 21:32211
effects on carbon—iron alloys, ethylene polymers, and graphite, 24:39727
effects on carbon-doped silicon at 2 MeV and 130°K, infrared absorption spectral study of, 25:56325
effects on carcinomas of larynx in man, of combined effects of surgery on therapeutic high energy, 22: 10803
effects on carcinomas of ovaries in man, therapeutic, 22: 25913
effects on carcinomas of vulva in man, therapeutic high energy, 23:6536
effects on carrier concentration in n-type germanium, recovery from 1.5-MeV, (E), 22:36988
effects on carrier concentration in n-type germanium, recovery from, (E), 22:39150 (AD-668468)
effects on carrier content, Hall mobility, and photoconductivity of n- and p-type cadmium telluride at 1 MeV, 25:59161
effects on carrier lifetime degradation in p-type silicon at 4.5 MeV, effects, 25:37705
effects on carrier lifetime in junction diodes and solar cells at 4.5 MeV, 25:1261 (NP-18472)
effects on carrier mobilities in inversion layers of MOSFET devices, 22:12737
effects on carrier properties of doped silicon crystals at 80°K, 23:42458
effects on carrier removal rates of n- and p-type silicon, 22:29562
effects on carriers in lithium-doped float-zone silicon, 1-MeV, (E), 22:13576

effects on cartilage cells in growing rat tails in relation to RBE and therapy, 25:44921
effects on cartilage homografts in man, 21:45525
effects on cathodes of photoelectric cells used for middle and vacuum uv, 22:51293
effects on cathodoluminescence of silicon carbide crystals, (E), 21:37594
effects on cathodoluminescence of zinc telluride at 100 to 400 keV, (E), 25:43460
effects on cathodoluminescence spectra of silicon carbide crystals, (E), 21:18811
effects on cathodoluminescence spectrum of beta-silicon carbide at 3.5 MeV, (E/T), 25:59139
effects on cathodoluminescence spectrum of cadmium telluride, 25:56290
effects on cellophane, 21:3321
effects on cells of cervical carcinoma, effects of dose on, 23:43834
effects on cells, in relation to therapy, 21:45747
effects on cellulose, 25:41873
effects on central nervous system in mammals, lethal, 24:21293
effects on cerebral tissue of man, 21:41499
effects on cervical carcinomas in pregnant man, combined effects of surgery on therapeutic high-energy, 22:51718
effects on cesium bromide and cesium chloride crystals, mechanism of formation and conversion of color centers from, (E), 22:50229
effects on cesium iodides from -180°C to +20°C, luminescence from, (E), 23:3570
effects on chain scission and crosslinking in vulcanized natural rubber, stress relaxation studies on, 23:37995
effects on charge carrier concentration and microhardness of n-type antimony-doped and p-type gallium-doped germanium crystals, (E), 22:39184
effects on charge carrier mobility in gallium arsenides, temperature dependence of, 21:11710
effects on charge carriers in germanium crystals, 24:19948
effects on charge storage in Mylar, model of, 21:9257 (NASA-CR-656)
effects on chemical and mechanical properties of polysulfone, 24:11631
effects on chemical and physical properties of elastomer gaskets, 24:16585
effects on chemical annealing reactions in neutron-irradiated metal carbonyls, 24:19012
effects on chemical dosimeters of malachite green carbinol-, ethoxide-, or methoxide-doped poly(bromostyrene) and poly(chlorostyrene) films, 24:13897
effects on chemical reactions in polymers, 22:14515(R) (COO-1614-1)
effects on chest wall and neck following tumor surgery, protection of lungs and spinal cord during therapeutic high-energy, 22:51703
effects on Chlamydomonas, effects of LET on RBE for fast, 23:24767
effects on Chlamydomonas, effects of oxygen on repair of fractionated dose, 22:43483
effects on chlorination of toluene at 80 to 150°C, 24:22683
effects on chlorophyll synthesis in mutant of Chlamydomonas reinhardi, inhibitory, 21:22280
effects on chromosomes and chromosome constituents, 24:39426(R) (AI-AEC-12974)
effects on chromosomes and genes of organisms, effects of energy level on protective effects of indene compounds against aberrant and mutagenic, 25:46883
effects on chromosomes in human leukocytes, effects of dose rate on aberrant, 22:31050
effects on chromosomes in onion root tips, effects of energy spectrum on frequency of mutagenic 14 MeV, 24:44621 (EUR-4452, pp 801-12)
effects on chromosomes in root tip cells of onions, aberrant, 21:45605
effects on chromosomes of Allium cepa, effects of cell cycle on sensitivity to aberrant, 23:29453
effects on circuits and semiconductor devices, transient currents from, 21:14520 (SC-DC-66-2443)
effects on cis- and trans-stilbene in benzene or cyclohexane solutions, spectral studies on effects of additives on pulse, 23:271
effects on cobalt and gadolinium, annealing of, 23:16866 (CEA-CONF-1028)
effects on cobalt at 20°K, defect annihilation from, 22:26466
effects on cobalt, Frenkel pair formation and mutual annihilation from, (E), 23:30628
effects on cobalt, point defect formation in, (E), 23:18718 (CEA-R-3604)
effects on cobalt—nickel alloy orientation substructure under magnetic fields, 22:4820
effects on cobalt-activated borosilicate glass, ESR studies of, 21:31110
effects on coincidence detectors, 21:14519 (N-66-39985)
effects on coliphage T7, inactivating, 25:8808
effects on color center formation in polystyrene films in presence of peroxides, 23:17479
effects on color chimeras in Dianthus caryophyllus, 24:915
effects on color stability and storage life of beef, effects of sodium tripolyphosphate on, 25:27162
effects on combustion of ammonium perchlorate-base fuels, 23:28871(T) (JPRS-48117)
effects on commercial curing of reinforced plastics, 22:11102
effects on commercial mixtures of terphenyls, yields in, 22:48873 (CONF-660553-7)
effects on complex formation between DNA and nitroxide free radicals, binding energy and reaction kinetics for, 25:51994
effects on complex formation between lysozyme and nitroxide free radicals, binding energy and reaction kinetics for, 25:51993
effects on condensation of gold nuclei from atomic beam on ionic crystals, 25:29910
effects on conductivity and photosensitivity of gallium arsenide, 1-MeV, 23:34496
effects on conductivity of insulators at 30 MeV, scaling laws for, 23:17885
effects on conidia of Aspergillus and Penicillium, effects of culture age, media, and temperature on, 23:35942
effects on content of acid mucopolysaccharide in rabbit ears, 22:51335
effects on content of aspartate aminotransferase in blood of guinea pigs, 23:50354
effects on content of calcium, cholesterol, magnesium, and potassium in human blood, 22:19407
effects on content of tocopherol and tocopherol acetate in sunflower oil, effects of oxygen and water on, 24:25390
effects on contrast of electron microscopic sections, 21:17969
effects on cooking time and rehydration parameters of dried vegetables, 1 MeV, 24:29900
effects on cooling of interstellar gases by impact excitation of impurities, (T), 24:4976
effects on copper, 23:43995
effects on copper and aluminum, production and recovery of point defects from, 21:33547
effects on copper and aluminum, properties of interstitial atoms in defects from, (E), 21:40116
effects on copper at 0.6 to 1.4 MeV, I/sub D/—I/sub E/ stage of annealing of defects induced in, 25:11957
effects on copper at 1 MeV, internal friction study of dislocation pinning by defects in, (E/T), 25:52905
effects on copper at 1 to 2 MeV, damage in, 25:22592(R) (COO-1800-13)
effects on copper at 2 MeV, point defect cluster formation in, 24:49250
effects on copper at 2.8 MeV and high temperatures, annealing of, 25:33412
effects on copper at 3 MeV, annealing of defects and Young' modulus changes produced in, 24:21857
effects on copper at 3 MeV, dislocation pinning rate, (E), 24:45319
effects on copper at low temperatures, 23:43998
effects on copper coins in acetic acid and/or ethanol solutions, reactions of alkyl and peroxy radicals in, 22:2113
effects on copper foils, electron-microscope observation of black-spot defects from, 22:31935 (BNL-50083, pp 374-88)
effects on copper in high-voltage electron microscope, (E), 25:33409
effects on copper of 3-MeV, nature of defects produced in, 23:25431
effects on copper single crystals, 21:26871
effects on copper single crystals at 3 MeV, 24:8518 (COO-1198-672)
effects on copper used in superconducting magnets, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on copper, electron microscope study of damage loops, 24:6633
effects on copper, gold, and silver, annealing recovery stages of, 22:15223 (CONF-670924-3)
effects on copper, kinetics of crowdion reactions in annealing stage I/sub E/ of, (T), 25:56333
effects on copper, orientation dependence of defect cluster formation from, (E), 24:42801
effects on copper, recovery in Stage I annealing of, 24:15383(R) (COO-1800-9)
effects on cracking resistance of polyethylene, 22:42733
effects on critical shear stress of aluminum and copper, relation of lattice defects to, 21:2298
effects on cross-linking and graft polymerization of plastics, review on, 25:44384
effects on cross-linking of plastics to improve properties, 21:24041(P)
effects on cross-linking of polyethylene with 1-butene and propene, effects of crystallinity on, 23:11577
effects on crosslinking coil coatings, 24:13944
effects on crosslinking of coatings, 24:18983 (CEA-CONF-1413)
effects on crosslinking of diene monomers to polystyrenes, 24:13983
effects on crosslinking of elastomers, 24:13923
effects on crosslinking of ethylene copolymers, 22:6349
effects on crosslinking of ethylene polymers with epoxidized polyolefins, 24:4304(P)
effects on crosslinking of glass-like polymeric materials, 24:20837(P)
effects on crosslinking of hydrogenated polyethylene, 22:37783
effects on crosslinking of natural and synthetic elastomers, effects of additives on, 24:20788 (CEA-CONF-1417)
effects on crosslinking of poly(vinyl chloride) with polyfunctional unsaturated esters, 21:25927(P)
effects on crosslinking of polyethylene insulation on copper cables at 3 MeV, 24:13930
effects on crosslinking of polyethylene, developments in industrial, 21:40878 (BNL-11294)
effects on crosslinking of polyethylenes in presence of free radical catalysts, 25:29115(P)
effects on crosslinking of polymeric materials to produce heat-recoverable articles, 23:45336(P)
effects on crosslinking of polymerized tubes, 22:37817(P)
effects on crosslinking of polymers and graft polymerization of textiles, review on, 25:21018
effects on crosslinking of polyvinyl chloride with polyethylenically unsaturated esters, 22:37815(P)
effects on crosslinking of vinyl polymers with pendant norbornenyl groups, 24:44046
effects on crosslinking polymers in tubing, 24:4305(P)
effects on crystal structure of aluminum and copper, 22:52223
effects on crystal structure of martensitic carbon steel at 2 MeV, low-temperature, 25:13729
effects on crystalline anthracene, mechanisms of carrier generation in, 23:38018
effects on crystallization of metal and oxide-containing glass, 23:39066(P)
effects on crystallographic phase changes in monocrystalline, effects of thermal stresses on, 23:7575
effects on crystals having diamond structure, calculation of damage rates as function of beam energy and orientation, 24:42803
effects on cubic silicon carbide at 1 MeV, luminescence of defects induced in, 25:45565
effects on cultured bone marrow cells and Pseudomonas fluorescens, effects of ultra-high dose rate on RBE for, 22:45729 (UCSF-10-P-2-52)
effects on cultured human cells, effects of depth on RBE for, 23:6471
effects on cultured mammalian cells and proliferating hair in relation to lack of skin response when used in therapy, high dose-rate, 23:50494
effects on cultured mammalian cells, biological, 25:29596
effects on cultured mammalian cells, effects of depth-dose levels on RBE for 35 MeV, 23:50809
effects on cuprous thiocyanate, 24:5698
effects on curing industrial polymer coatings, 25:21022
effects on curing of benzoyl peroxide—diallyl phthalate in mixtures with monomers for use as laminate for wood veneer, 24:11571 (JAERI-5022, pp 111-24)
effects on curing of butadiene polymers, 25:21020
effects on curing of coatings and paints, review on, 25:21018
effects on curing of coatings composed of polyesters—aryl sulfonamide—formaldehyde resins containing halogenated photoinitiators, 25:29114(P)
effects on curing of coatings on wood, 25:29123
effects on curing of coatings, review on research on, 25:44382
effects on curing of diallyl phthalate mixtures with acrylonitrile, methyl acrylate, and vinyl acetate using benzoyl peroxide catalyst, 24:11570 (JAERI-5022, pp 103-10)
effects on curing of diallyl phthalate mixtures with acrylonitrile, methyl acrylate, methyl methacrylate, and vinyl acetate, conditions for, 24:31397
effects on curing of diallyl phthalate prepolymer—vinyl monomer—wood mixture, 25:10606 (JAERI-5026, pp 101-7)
effects on curing of glass-fiber-reinforced laminates and polyester prepregs, physical properties of products from, 23:26278
effects on curing of glass-fiber-reinforced plastics, 22:10268
effects on curing of liquid mercaptan terminated acrylonitrile—butadiene polymer films, 23:40731
effects on curing of natural rubber latex, review on research on, 25:44383
effects on curing of organic coatings, 23:40683 (RISO-M-910)
effects on curing of paint binders, 25:29120(P)
effects on curing of paint films, 25:51503 (A/CONF.49/P-647)
effects on curing of paint films, effects of dose on, 24:31396
effects on curing of paint films, viscoelastic properties of products produced by, 24:31395
effects on curing of paints, 23:40781
effects on curing of paints, 23:45350
effects on curing of paints, 24:22712
effects on curing of paints and thin films, 24:7480
effects on curing of paints, developments in, 25:2243
effects on curing of paints, review on, 25:51498
effects on curing of polyester-based surface-coating compositions, 23:264(P)
effects on curing of polymer coatings on solids, 24:27903(P)
effects on curing of polymer coatings, viscoelastic properties of products from, 24:41380
effects on curing of resin-type coatings, 25:18439(P)
effects on curing of resins for coating metals, 25:10608 (JAERI-5026, pp 121-9)
effects on curing of surface coatings, 24:11585(R) (RISO-M-1202)
effects on curing of unsaturated polyester—monomer systems, 24:5699
effects on curing of vinyl-resin paints, 25:4095(P)
effects on cyanorhodate ions in potassium chloride host lattice, 25:18462
effects on cyclic ethers at 77°K, ESR spectral studies on free radicals produced by, 22:8129
effects on cyclic ethers at 77°K, ESR studies of free radicals produced by, 22:42714(T) (AEC-tr-6937, pp 117-32)
effects on cyclohexane, effects of α-chlorotoluene and nitrous oxide additions on benzyl radical and hydrogen yields in, 21:36043
effects on cyclohexane, effects of dose rate on kinetics of, 23:24219(T) (NP-tr-1761)
effects on cyclohexane, kinetics of yields produced in, 21:30479
effects on cyclohexane—nitric oxide system, effects of dose and dose rate on yields in, 23:9432
effects on cyclohexanecarboxylic acid, ESR spectra of free radicals from, 21:42980
effects on cylindrical rods of aluminum and copper, stress waves from, (E/T), 21:18824
effects on damping and elastic modulus of copper at 1-MeV, 25:24604 (COO-1800-12)
effects on decomposition and volume of lithium fluoride powder, effects of temperature on, 24:5680 (UCRL-50747)
effects on decomposition of tetramethylsilane to produce silicon films, 300-keV, (E/T), 23:42413
effects on decomposition products and food value of potato starches, 5 and 10 Mrad, 24:29901
effects on deep and superficial tumors, effects of irradiation technique on therapeutic, 22:51751

effects on deep tissue tumors, techniques for therapeutic, 22:51752
effects on defect formation in silicon, temperature effects on, (E), 22:15640
effects on defect production and recovery in tantalum foils at 3-MeV, 24:32469 (JUL-642-FN)
effects on defect production and thermal recovery of platinum at 4.5°K, 23:36145 (JUL-577-FN)
effects on defect production in n-type germanium semiconductors at 1.1 MeV, 24:42162 (COO-1198-735)
effects on defects in aluminum, model of recovery from, 23:22579 (AI-AEC-12744, pp 169-78)
effects on defects in copper and platinum, design of low temperature irradiation facility to study, 23:35362 (JUL-579-FN)
effects on defects in copper monocrystals, 24:12447
effects on defects in nitrogen-doped and pure molybdenum, 24:23500
effects on deformation processes in zinc single crystals, anisotropy in, (E), 21:37595
effects on deformed fcc metals, effects of dislocation resistivity increment on damage rate and stage I recovery of, (T), 25:33420
effects on degradation of silicon solar cells, 24:33986
effects on density of vitreous silica, 23:3564
effects on density, dielectric constant, and index of refraction of poly(methyl methacrylate), 21:36036
effects on desorption of ammonia from tungsten surfaces, 22:28975
effects on desorption of carbon monoxide by tungsten, 22:11013
effects on desorption of carbon monoxide from tungsten surfaces, 22:36477
effects on desorption of carbon monoxide, nitric oxide, and oxygen, on tungsten, 22:11011
effects on desorption of water by nickel and tungsten, 22:11015
effects on deuterated and normal ethanol in solid state at -196°C, hydrogen precursors in, 22:18827
effects on deuterated and normal orthoboric acid monocrystals, ESR spectral studies on, 22:8112(T) (AEC-tr-6908, pp 237-44)
effects on deuterated and normal orthoboric acid monocrystals, ESR spectral studies on, 21:19707
effects on development of peritoneal adhesions in rats, effects of dose on, 24:21303
effects on diamond surfaces, 24:25806
effects on diamond, optical absorption and symmetry of ND1 center produced in, 24:28405
effects on diamonds at 1.5 MeV, ESR spectra of S = 1 center induced in, 25:17284
effects on diamonds at low temperatures, ESR study of, 25:52913
effects on diamonds, (E), 21:25207
effects on diamonds, no-phonon spectra from, 25:25221
effects on dielectric breakdown in plexiglass, 21:6380
effects on dielectric breakdown in polycarbonate and polyethylene, effects of temperature on, 22:51010
effects on dielectric breakdown in polymer films, 23:22703 (N-68-36070)
effects on dielectric liquids, ion neutralization in, 23:47544
effects on dielectric materials, 21:46023(R) (AD-645535)
effects on dielectric properties of poly(tetrafluoroethylene), 24:38915
effects on dielectric properties of polymers in air and vacuum, 24:12499
effects on dielectrics at 1 MeV, charge-trapping, (E), 22:13579
effects on diffusion in gold—silver alloys at 2 MeV, 25:35512
effects on diffusion of chlorine ions in potassium chloride crystals, (E), 25:25209
effects on dihydrothymine in sulfuric acid solutions at 77°K, 24:33708 (UCRL-19420, pp 56-63)
effects on dilute aqueous solutions of lysozyme, effects of, on reactions with cysteine and oxygen, pulsed, 23:2777
effects on dimer formation in 2- and 3-hexene, mechanism of, 22:18813
effects on dimerization of 2-methyl- and 3-methyl-2-pentene, 23:35216
effects on dimethylglyoxime monocrystals, ESR studies on radical pairs produced by, 25:46513
effects on diphenyl carbonate and related carbonates, intramolecular cage recombinations in, 22:27792
effects on diphenylamine at 77°K, ESR studies on, 25:37430
effects on dislocation loops in 1100 aluminum, relations with preinjected hydrogen, 25:52413
effects on dislocation pinning at 45 to 330°K in molybdenum crystals, 23:22604
effects on dislocation pinning in copper, 24:8149 (AERE-R-5944(Vol.1), pp 205-13)
effects on dislocation pinning in copper, relations with temperature, 23:22602
effects on dislocation pinning in copper, relations with temperature, 23:22579 (AI-AEC-12744, pp 169-78)
effects on dislocation pinning in silver, relations with temperature, 23:22579 (AI-AEC-12744, pp 169-78)
effects on dislocation production and agglomeration in nickel, 23:12370 (CEA-CONF-1106)
effects on dislocation velocity in tensile samples of iron, determination using stress relaxation, 22:21748
effects on displacement of surface atoms in graphite at 100 to 200 keV, threshold energy for, 25:35584
effects on DNA in cells and spores of Bacillus subtilis, 24:46587
effects on DNA in Escherichia coli, protective effects of glycerol, 1,2,3-indantrione, methyl sulfoxide, N-ethyl maleimide, and thiourea against, 25:4551
effects on DNA in Escherichia coli, protective effects of chemical compounds against lytic, 24:16992
effects on DNA in germinating spores of Bacillus subtilis, biochemical mechanisms for repair of, 25:46714
effects on DNA in solutions, effects of incorporation of 5-bromouracil on energy transfer mechanisms of, 25:4542
effects on DNA of Bacillus subtilis spores, effects of germination on repair of high energy, 23:50335
effects on DNA of P388 F cells, effects of dose rate on degratory, 25:11028
effects on DNA, effects of radiation dose on formation of free radicals in low-temperature, 23:9486
effects on donor—acceptor pair green-edge emission of cadmium sulfide at 260 keV and 4.2°K, 25:40773
effects on doped calcium fluoride crystals, formation of colloidal calcium by, (E), 22:34794
effects on doped gallium arsenides, recombination radiation spectra from, (E), 22:24421
effects on doped germanium, 23:30612(R) (ORNL-4408)
effects on doped n-type gallium arsenide at 1.5 to 2.0 MeV, effects of annealing on electric properties and photoluminescence spectra following, 25:59156
effects on doped n-type germanium, 23:12371(R) (COO-125-54)
effects on doped p- and n-type silicon at 1 MeV, 21:6373
effects on doped silicon at 2 MeV, annealing of, 24:6632
effects on doped silicon, photoconductivity studies of 1.5- and 45- to 50-MeV, 22:36994
effects on drift-field solar cells, 21:34931(R) (N-66-28417)
effects on Drosophila sperm, effects of nitrogen and oxygen posttreatment on, 22:40615(R) (EUR-3889)
effects on durability and creep of amide polymers, 24:2249
effects on Ehrlich ascites tumors in mice, RBE for x radiation and, 21:34787
effects on electric capacitors, 25:13327 (LCIE-364)
effects on electric conductivity and ordering in silver-base—zinc alloys, (E), 23:42399
effects on electric conductivity and stored energy of pyrographites at 20.4°K, 23:8344
effects on electric conductivity of aluminum and aluminum alloys, stage-III recovery from, (E), 21:46409
effects on electric conductivity of aluminum and aluminum alloys, stage-I recovery of, (E), 21:40071
effects on electric conductivity of aluminum and aluminum alloys, stage-II recovery from, (E), 21:46408
effects on electric conductivity of aluminum—nickel alloys at 1.5 MeV, 21:26865(R) (HW-74679)
effects on electric conductivity of cadmium sulfide single crystals at 5 MeV, 25:9563
effects on electric conductivity of calcium fluoride crystals at 1.2 MeV, 25:45560
effects on electric conductivity of gallium arsenide, relations of annealing with recovery from, 23:22579 (AI-AEC-12744, pp 169-78)
effects on electric conductivity of high-purity n-type silicon at low temperature, 30-MeV, 23:34495
effects on electric conductivity of insulators, 22:12721
effects on electric conductivity of n-type germanium pellets at 20 keV, (E), 21:37621
effects on electric conductivity of n-type silicon, at 30 MeV, 22:769(R) (N-67-25672)
effects on electric conductivity of polyethylenes, 24:4314
effects on electric conductivity of polymer films, 23:15917
effects on electric conductivity of polymers, effects of electric field on, 23:28821
effects on electric conductivity of rubidium chloride and potassium chloride—rubidium chloride crystals, 25:59172
effects on electric conductivity of semiconductors, (E), 23:44520
effects on electric conductivity of silicon, annealing by irradiation at lower temperature of 1.0-MeV, (E), 22:36996
effects on electric conductivity of solid naphthacene in presence of magnetic field, 24:13902
effects on electric conductivity of titanium, 23:22579 (AI-AEC-12744, pp 169-78)
effects on electric conductivity of tungsten at low temperatures, annealing stages of, 22:44249
effects on electric conductivity of zirconium, 23:22579 (AI-AEC-12744, pp 169-78)
effects on electric conductivity, carrier concentration, and Hall mobility of n-type cadmium sulfide crystals, annealing of 10-MeV, (E), 23:36791
effects on electric insulators at 13-MeV, current pulses from, 22:43198
effects on electric properties and internal friction of high purity iron, 23:3102
effects on electric properties of alkylvinylcarbazole polymers, 23:35191
effects on electric properties of antimony—gallium alloys at low temperatures, (E), 21:40069
effects on electric properties of germanium, 21:45968 (AD-632539)
effects on electric properties of lithium niobate at 1.3 MeV, 25:52482
effects on electric properties of semiconducting diamonds at 1 MeV, annealing of, 25:11966
effects on electric properties of variable capacitors, 21:37554
effects on electric resistivity of aluminum and beryllium, recovery from, 22:1306
effects on electric resistivity of aluminum at 0.22 to 0.4 MeV, energy dependence of stage-I recovery from, (E), 22:3199
effects on electric resistivity of aluminum foils, size effects in, (E), 21:37604
effects on electric resistivity of aluminum, stage-I recovery from, (E), 22:17823
effects on electric resistivity of copper, relation of defect interactions to stage-I recovery from, (E), 22:17822
effects on electric resistivity of niobium, 21:512
effects on electric resistivity of noble metals, stage I annealing of 2-MeV, (E), 22:24487
effects on electric resistivity of silicon, 21:28859(R) (AD-640804)
effects on electrical behavior of p-type germanium at 78°K of 4.5-MeV, (E), 21:15225
effects on electrical characteristics of MOS transistors, 22:38188
effects on electrical resistivity of crystalline solids and semiconductors, analysis of 1-MeV, 23:12955 (AI-AEC-12721, pp 339-55)
effects on electrical-discharge patterns of insulation plates, 22:28974
effects on electron spin resonance of amides, 21:23710 (BNL-994, pp 45-69)
effects on electronic devices, trapped, 21:8663
effects on electronic properties of semiconductors at 10 eV to 10 keV, review, 24:42808
effects on electrophysical properties of barium titanate crystals, 22:18845
effects on electrophysical properties of barium titanates, 23:3555(T) (JPRS-45638)
effects on elongation of aluminum and copper, relations with annealing, 23:24969
effects on embryos of Drosophila melanogaster, effect of dose fractionation on, 22:51758
effects on emission spectra of cadmium telluride at 100 to 400 keV, (E/T), 25:40788
effects on endogenous spleen colony formation in mice, RBE for 18 MeV, 23:10038
effects on energy storage in beryllium, recovery after, (E), 22:17794
effects on energy transfer in poly(methyl methacrylate), effects of cumene and α-methylstyrene on, 22:2095 (COO-1224-15)
effects on energy-level inverse population in neodymium-activated glass lasers, 24:30134
effects on enzyme activity and protein solubility in milk, 24:6005
effects on enzyme activity in cultured melanomas, fast, 22:51336
effects on enzymes by, determination of molecular weight following inactivating, 22:51412
effects on enzymes, calculation of molecular weights from, 23:9886
effects on epitaxial growth of fcc metals on potassium chloride cleaved in ultrahigh vacuum, 22:48196
effects on epitaxial n-type gallium arsenides, electric studies of, (E), 23:36788 (SC-DC-69-1670)
effects on epitheliomas of skin in man, therapeutic betatron, 22:51748
effects on epitheliomas of tonsillar tissues, therapeutic, 22:51702
effects on epoxy resins, 21:38983
effects on equilibrium potentials of isolated metal films, 21:39662
effects on Escherichia coli and yeast, effects of depth on RBE for, 23:6472
effects on Escherichia coli cells, effects of 5-bromouracil substitution in DNA on, 25:49099 (UCLA-12-815, pp 1-36)
effects on Escherichia coli, effects of anoxia and triacetoneamine-N-oxyl on, 23:50953
effects on Escherichia coli, effects of high dose rate on, 23:6470
effects on esophagus of man following therapy for esophageal carcinomas, effects of dose on high-energy, 22:28631
effects on esophagus, heart, liver, and lungs of man, pathological, 23:50779
effects on ESR of n-type silicon carbide, 21:5323
effects on ethmoid and maxillary sinus tumors in man, combined effects of surgery on therapeutic high-energy, 22:51739
effects on ethylene oxide polymers, 22:6347
effects on ethylene polymers, ESR, ir, and uv spectral studies on yields of alkyl, allyl, and dienyl radicals from, 24:27151
effects on ethylene polymers, kinetics of conversion of alkyl to allyl radicals in, 24:27150
effects on ethylene—propylene rubbers, 24:13904
effects on eye metastases in man, protection of cornea, lens, and skin during therapeutic high-energy, 22:51743
effects on eyes of rabbits, effects of dose on high-energy, 23:6584
effects on eyes of rabbits, RBE of pathological, 21:45823
effects on F-aggregate center induction in sodium chloride at 2 MeV, (E), 23:39546
effects on F-center production in potassium chlorides and potassium iodides at 125 to 300°K, (E), 23:42396
effects on fats and oils, 21:17679
effects on FBH 162 integrated circuits, 24:44378 (HMI-B-92)
effects on fcc metals, model for, 21:14864
effects on fcc metals, model of, 23:43995
effects on fcc metals, review of recovery processes in, 22:28867
effects on ferromagnetic materials, coupled-measurement studies of, 21:40117
effects on fiber-glass-reinforced plastics, EPR and ir study of, 24:2251
effects on fixation of nitrogen by diphenylmethane, effects of iodine on yields in, 22:30630
effects on flavor and shelf life of trout, 24:48778
effects on flexibility of polyimidpyrrolone, 24:12496
effects on fluorescence of anthracene or pyrene in cyclohexane solutions, effects of electric fields on, 22:42749
effects on fluorescence of aromatic hydrocarbons in cyclohexane in presence of electric field, 23:17465
effects on fluorescence of polyethylene, 22:2436
effects on fluorescence of serpentines, 21:34305
effects on foods, health hazards due to induced radioactivity from, 22:31301
effects on formation of color centers in lead glass, (E), 25:45540

effects on formation of defects and sputtering in alkali halides, 25:30651
effects on formation of hydrocarbon contaminants on objectives of electron microscopes, 23:4659
effects on formation of molecular cations in radiolysis of anthracene, biphenyl, stilbene, and p-terphenyl, 23:17500
effects on fracture energy and tensile strength of polyhydroxy ethers, 22:45098
effects on fracture of germanium, indium antimonide, and silicon, 21:6376
effects on fragmentation of deuterium-labeled octanes, model for distribution of peaks in spectra produced by, 23:49803
effects on fragrance of perfumes, 22:10313(P)
effects on free radical formation in methylenecycloalkanes, 21:22003
effects on free radical formation in trypsin, 22:30937 (UCRL-17751, pp 1-26)
effects on free radicals in Dahlia seeds, EPR analysis of, 25:11305 (NP-18394)
effects on free-carrier absorption in silicon, (E/T), 23:39531
effects on free-radical destruction in N-acetyl-DL-valine, effects of temperature on, 25:35103
effects on Frenkel defect production in copper at 3 MeV, saturation phenomenon in, (E/T), 23:18722 (JUL-541-FN)
effects on frozen 5-methylhydrouracil solutions in sulfuric acid, ESR and uv spectral studies on effects of heat on mechanism of, 24:18989
effects on frozen aqueous lactose solutions, EPR studies on formation and transformation of free radicals in, 22:45132
effects on function and morphology of eyes in rabbits, effects of dose on, 23:50864
effects on functional groups of lipids, 21:41321
effects on functions and morphology of retina in rabbit eyes, 23:2945
effects on fused silica at 1.5 MeV, optical absorption induced in, 25:22598 (N-71-10380)
effects on gadolinium of 3-MeV, annealing of, 23:16875
effects on gage factor of silicon strain gages at 7 MeV, 24:44380
effects on galactic continuum radio emission, (T), 24:28125
effects on gallium antimonide at 20 keV, luminescence spectra induced in, 25:7469
effects on gallium antimonide doped with tellurium, thermal-conductivity study, 24:28431
effects on gallium arsenide, 24:22665(R) (AECL-3521)
effects on gallium arsenide and silicon solar cells, 21:14518 (N-66-39899)
effects on gallium arsenide at 0.46 to 1.3 MeV, annealing of, (E), 24:21858
effects on gallium arsenide diodes, 25:40767 (AD-715305)
effects on gallium arsenide p-n junctions, 21:6384
effects on gallium arsenide p-n junctions at 6.5 MeV, (E), 21:23260
effects on gallium arsenide, gallium phosphide, and their mixtures, 24:1476
effects on gallium arsenide—phosphide electroluminescent diodes at 1 MeV, electrical measurements on, 24:42768
effects on gallium- and indium-doped p-type germanium, annealing of damage from 1.5-MeV, (E), 22:37013
effects on gallium-antimonide and gallium-arsenide transport properties, 21:42174
effects on gaseous ammonia in static and flow systems, 22:2131
effects on gaseous ammonia, effects of temperature and various additives on, 22:2130
effects on gaseous benzene, reactions of ion products produced by, 23:49864
effects on gaseous ethane, ethylene, and methane, 25:10644
effects on gaseous hydrocarbons, ESR study of radicals from, 25:51509 (FRNC-TH-221)
effects on gaseous oxygen at high dose rate, yields of ozone in pulse, 23:217 (ORNL-4306, pp 58-65)
effects on genetics of chrysanthemum plants, 21:24671
effects on germanium and silicon, 21:17270(R) (RPI-328-71)
effects on germanium and silicon semiconductors, 22:9427 (TID-24201)
effects on germanium and silicon semiconductors, effects of arsenic and phosphorus on, 21:12738(R) (N-66-24959)
effects on germanium and silicon thin films, recrystallization from, (E), 22:39159(T) (N-68-17613)
effects on germanium and silicon, use as tool for defect studies, review, 23:1534
effects on germanium at 20°K, mechanism of recovery from, 22:39151 (AD-668469)
effects on germanium at 30 MeV, ESR centers from, (E), 22:20059
effects on germanium at 700 keV, luminescence spectra from defects induced in, 25:56328
effects on germanium dioxide glasses and crystals, 24:5198
effects on germanium oxide and germanium oxide—alkali metal oxide glasses at 4 to 300°K, ESR studies on, 23:46548
effects on germanium oxide, tin oxide, and titanium oxide crystals, ESR study of paramagnetic defects from, 22:44213 (ORNL-TM-2264)
effects on germanium p-type single crystals, angular dependence of electric conductivity and secondary electron emission induced by, (E), 22:37024
effects on germanium single crystals at 0.6 to 6 keV, fine structure in anisotropy of, 23:5458
effects on germanium tunnel diodes, dislocations from, 23:20074 (IAE-1658)
effects on germanium, annealing of Hall-mobility changes from 1-MeV, (E), 22:1301
effects on germanium, ESR studies of radiation damage and annealing from, 23:8674
effects on germanium, induced interstitial copper impurity in, 21:42167
effects on germanium, interaction of dislocations with defects from, (E), 23:3583
effects on germanium, interactions of dislocations with defects from, (E), 21:18812
effects on germanium, low-temperature annealing in darkness and light of defects from, (E), 22:22231
effects on germanium, mechanism for interaction of edge dislocations with interstitials from, 22:13559
effects on germanium, negative resistance due to impact ionization from, 22:39173
effects on germanium, stability of defects from, 23:18731
effects on glassy germanium oxide and alkali metal—germanium oxide mixtures, ESR study of paramagnetic defects from, 22:44213 (ORNL-TM-2264)
effects on glucocorticoid and glycogen contents in rat endocrine glands, 25:35164
effects on glucose and water used to culture Pseudomonas, 25:47063
effects on gold at 130°K and 3 MeV, 23:34032
effects on gold at 3 and 1.2 MeV at 7.5 to 36°K, recombination of close Frenkel defects induced in, 25:33415
effects on gold at low temperatures, 21:511
effects on gold foils during ion bombardment, 21:34939
effects on gold in-matrix atoms, relations with energy, 23:22579 (AI-AEC-12744, pp 169-78)
effects on gold, annealing of, 22:40993(R) (COO-1198-534)
effects on gold, annealing vacancies from, 22:7372
effects on gold, as evidence for interstitial migration, 24:21856
effects on gold, effects of heat treatments on, (E), 22:19583 (COO-1198-511)
effects on gold, stage-III annealing in, 23:8685
effects on gold—15 at. percent silver alloys, crowdions induced in, (T), 25:59153
effects on gold—15 at. percent silver alloys, evidence for crowdion formation in, 25:59162
effects on gold—silver alloys at 3 MeV, annealing recovery of, 25:1293
effects on gold-doped platinum at 4.5°K, annealing of Frenkel defects induced in, 25:56284 (JUL-731-FF)
effects on graft polymerization of acrylic acid with polyester fabrics, effects of atmosphere, solvents, and temperature on, 24:11565 (JAERI-5022, pp 79-83)
effects on graft polymerization of methyl methacrylate with polyethylene, ESR spectral studies on reactivity of trapped radicals produced by, 24:31376
effects on graft polymerization of monomers with paper cellulose, dry and wet tensile properties of products from, 23:45306 (IRI-133-69-6)
effects on graft polymerization of polyesters with acrylic acid vapors, economics of, 24:11545 (CEA-CONF-1414)
effects on graft polymerization of styrene to cellulose, properties of products of, 22:8119
effects on graft polymerization of styrene to cellulose, properties of products from, 22:42703(T) (AEC-tr-6937, pp 21-32)
effects on graft polymerization of styrene with cellulose, effects of solvent on, 24:29337
effects on grafting acrylic acid to starch, 22:40147
effects on grafting of 2-methylpropene on poly(vinyl chloride), 22:2107
effects on grafting of acrylic acid on polyester fibers, 25:31957
effects on grafting of monomers to silicones, 24:5701(P)
effects on grafting of olefin—vinyl alcohol copolymer to conjugated dienes, 22:16631(P)
effects on grafting of styrene on polynosic rayon, 22:33445
effects on grafting of vinyl monomers on cellulose and its derivatives, free radical formation in, 21:24042
effects on graphite at 150 and 200 kV, damage clusters induced in, 25:33402(R) (ORNL-4669)
effects on graphite at 80°K, annealing of, 23:10306
effects on graphite, defect clusters produced in, 23:30612(R) (ORNL-4408)
effects on graphite, model development for, 23:45984 (ORNL-4396, pp 211-68)
effects on growth and mitosis of fibrosarcoma and L cells, effects of cell phase on, 25:52176 (A/CONF.49/P-358)
effects on growth of barley roots, effects of oxygen on RBE of, 23:20436
effects on growth of large faulted dislocation loops in nickel, 25:13732
effects on growth of mouse fibroblast cells in vitro, 22:49218
effects on growth of primary leaves of barley, effects of energy spectrum on 14 MeV, 24:44621 (EUR-4452, pp 801-12)
effects on growth of tibia of rats in comparison with effects of hard γ rays and x rays, low dose, 22:38463
effects on growth of transplanted sarcomas in mice, effects of dose on, 25:58083
effects on growth rate of hair of mice, use of, as biological dosimeter, 22:51611
effects on hair follicles and incidence of tumors in skin of rats, effects of LET on, 22:47633
effects on hair follicles and tumor induction in rat skin, RBE for, 23:6588
effects on hair follicles in rats, in relation to tumor formation, 21:24603
effects on hair growth of mice, effects of LET on, 23:29762
effects on hands of personnel following accidental exposure, 23:16429
effects on hardening of aluminum monocrystals at 23 and 85°K, mechanism of, 21:20539 (COO-1367-8)
effects on hardening of aluminum, aluminum—zinc alloys, and copper, 22:15224 (COO-1367-16)
effects on hardening of aluminum—zinc alloys, relations of annealing temperature with recovery from, 23:12372 (COO-1367-22)
effects on hardening of copper, relations of annealing temperature with recovery from, 23:12372 (COO-1367-22)
effects on hardening of interstitial-containing niobium, relations of complex defects with, 25:35517
effects on hardening of paints and varnishes, 25:23606
effects on hardening of polyester resins, 25:18443
effects on hardness of aluminum and copper, 24:8042 (AERE-R-5944(Vol.3), pp 682-92)
effects on hardness of metals and alloys, review, (E/T), 22:17824
effects on hcp and fcc cobalt in electron microscope, displacement threshold energy, 25:7471
effects on heart of rabbits, effects of energy, dose, and dose rate on pathological, 25:37893
effects on heating of plane bodies, tables for transient temperatures from, 25:56267
effects on HeLa cells, effects of dose rate on, 21:41354
effects on HeLa cells, effects of oxygen content on high-energy pulsed, 23:9834(R) (NYO-910-70)
effects on HeLa cells, RBE for, 22:8436(R) (NYO-910-58)
effects on HeLa cells, RBE of, 22:375(R) (NYO-3510-3)
effects on hematopoietic cells of mice, effects of age on whole-body, 21:39499
effects on hematopoietic system of man, 21:22541
effects on heptane, yields from, 25:34635 (NP-18810)
effects on hexachloroethane, effects of hydrogen atoms on site migration of free radicals produced from, 25:2246
effects on hexane, ion scavenging from, 22:27801
effects on Hodgkin's disease, therapeutic, 21:22541
effects on human blood coagulation following therapy for lung tumors, 25:32601
effects on human bronchopulmonary tumors, effectiveness of bronchoscope for evaluation of therapeutic, 25:32599
effects on human cancer, review of planning for therapeutic, 23:883
effects on human cancer, therapeutic, 23:12171
effects on human cells during therapy in comparison to γ and x radiation, methods for determining, 24:23278
effects on human eyes following therapy for maxillary sinus tumors, histology of, 25:39940
effects on human gynecological neoplasms, therapeutic, 24:17114
effects on human heart, effects of dose on latent, 24:2752
effects on human kidneys following therapy of neuroblastomas, 23:41470
effects on human liver, scintiscanning using gold-198 colloids and iodine-131-labeled Rose Bengal for evaluation of betatron, 23:31855
effects on human neoplasms, therapeutic, 23:12167
effects on human ovaries during therapy of pelvic neoplasms, protective effects of shielding against, 24:34363
effects on human rectosigmoid intestine following cancer therapy, diagnosis and treatment of, 24:34420
effects on human respiratory system following therapy for lung neoplasms, 25:32598
effects on human respiratory tract following use for therapy of bronchial cancer, 23:16422
effects on human skin following therapy at 5 to 42 MeV, evaluation of, 25:32596
effects on human skin following tumor therapy, protective effects of dianabol ointment against, 24:6067
effects on human skin following use for therapy, 23:29859
effects on human skin following use in therapy of tumors of nervous system, 10 to 20 MeV, 24:12313
effects on human skin tumors, review of therapeutic, 22:51686
effects on human skin, effects of dose on, 23:16425
effects on human skin, effects of dose on therapeutic, 23:33888
effects on human skin, effects of dose, dose rate, and energy level on erythemia, 23:35922
effects on human skin, effects of energy on pathological, 23:50906
effects on hydrocarbons, calorimetric detection of hydrogen reactions and radical accumulation processes in, 22:33421
effects on hydrocarbons, effects of electric field on, 21:28017
effects on hydrogen desorption from tungsten, 22:8746 (ORNL-4170, pp 245-7)
effects on hydrogen sulfide, effects of sulfur hexafluoride on hydrogen yields from, 25:41860
effects on hydrogenated HB-40 terphenyl at 350°C, of 1.5 MeV, 21:43685
effects on hypopharyngeal carcinomas in man, therapeutic high-energy, 22:51733
effects on ice crystals, spectral studies on, 21:34288 (AE-283)
effects on impedance characteristics of thin films, 23:26629(R) (N-68-20347)
effects on impregnation polymerization of acrylic acid on polyester films, 25:10598 (JAERI-5026, pp 52-5)
effects on impurity photoconductivity of silicon, 21:16993
effects on impurity—vacancy pair in silicon, 21:821 (AD-632466)
effects on impurity-containing gallium phosphide and zinc telluride, fluorescent decay time of excitation from, (E), 21:16976
effects on incorporation of phage phie into spores of Bacillus subtilis, effects of phosphorus-32 decay on, 25:16386
effects on induction of single-strand breaks in DNA of human lymphocytes, kinetics of repair of, 25:57958
effects on infrared absorption spectra of Type-Ia diamonds at 1 MeV, 25:36279

effects on inorganic phosphors at 50 to 250 keV, light emission, 25:21506
effects on insulating materials at 6.0 MeV, 25:2819 (LCIE-342)
effects on insulators and semiconductors of pulsed, fast optical studies of, 21:3556(R) (AD-641725)
effects on insulators and silicon, 21:19084(R) (AD-642415)
effects on insulators, induced conductivity from, (E), 21:9648
effects on insulators, space charge formation in, 21:3366
effects on integral coverslips for silicon solar cells, (E), 23:7924
effects on integrated circuits, 23:4865 (HMI-B-74)
effects on interference patterns induced in Permalloy films, opposed magnetic domain influence on, (T), 25:40793(T) (UCRL-Trans-1445)
effects on internal discharge in Lucite, 22:416(R) (AD-648643)
effects on internal friction of copper, 21:36899
effects on internal friction of copper at 78 to 310°K, 25:24603 (COO-1800-11)
effects on internal friction of gold, 21:32946
effects on internal friction of gold at 80 and 280°K, 23:6711
effects on intestinal tumors in man, preoperative therapeutic high-energy, 22:51725
effects on intestine of mice, sensitizing effects of hypoxia and indanetrione on, 22:49523
effects on intestines of mice, effects of on survival, acute, 22:49538
effects on ionization and conductivity in insulators, 21:6381
effects on ionization and displacement damage in silicon transistors, 21:6386
effects on ionization and fragmentation of phosphorus compounds, review on, 22:25421
effects on ionization of aliphatic ethers, 22:8109(T) (AEC-tr-6908, pp 201-10)
effects on ionization of argon, cross sections for, 21:40917
effects on ionization of ethane, ethylene, hexane, and toluene in strong electric field, velocity of decay of excited ions in, 21:40884
effects on ionization of ethyl methyl ether, 22:8110(T) (AEC-tr-6908, pp 211-15)
effects on ionization of hydrogen and hydrogen positive ions, cross sections for, (T), 21:41749 (AD-644978)
effects on ionization of methanol, methylamine, and water, mass spectrometric studies on, 21:17602 (AD-637661)
effects on ionization state in lower atmosphere, 21:699
effects on ionization state in lower ionosphere, 21:39879
effects on ionosphere due to dumping, trapped, 21:9446
effects on ir absorption of polished gallium arsenide at 1.5 MeV, spectral studies on, (E/T), 25:59155
effects on ir spectra of poly(vinyl chloride), 23:9490
effects on iron and copper at 900 and 1000 keV in high-voltage electron microscope, diffraction dependence of damage induced by, 25:1295
effects on iron and nickel at 1 to 3 MeV, point defects induced in, 25:38539 (CEA-R-4144)
effects on iron and nickel at 1.5 and 3 MeV, dislocation loop nucleation in, 25:9541 (CEA-CONF-1680)
effects on iron and nickel at low temperatures, 24:3444 (CEA-R-3757)
effects on iron and silicon single crystals, lattice anisotropy effects on defect production from, (E), 22:31929 (BNL-50083, pp 304-13)
effects on iron at 2.5 MeV, positron interactions with vacancies induced in, (E/T), 25:19851
effects on iron at 3 MeV, magnetic relaxation study of defects induced in, 25:40786
effects on iron citrates, Moessbauer spectroscopy studies on, 25:6372
effects on iron precipitation catalysts in Fischer—Tropsch synthesis, 25:21028
effects on iron, annealing of point defects, (E), 23:16868 (CEA-CONF-1030)
effects on iron—nickel alloy, Moessbauer study of ordered domains induced in, 24:47306
effects on iron—nickel alloys, 21:21052(R) (N-67-13103)
effects on iron-doped and pure magnesium oxides, production of F centers from, (E), 21:37589
effects on isochronal annealing of oxygen-containing p-type silicon, 24:16545(R) (AECL-3477)
effects on isomerization of 2-butene in benzene solution, 22:16606
effects on isotactic propylene oxide polymers, ir and uv spectral studies on, 23:26266(R) (COO-1088-33)
effects on junction diodes and transistors, 21:28858(R) (AD-640585)
effects on K-LL Auger spectrum of nitrogen, 24:33713
effects on laryngeal carcinomas in man, therapeutic high-energy, 22:51731
effects on laryngeal tumors in man, effective doses for therapeutic high-energy, 22:51730
effects on laryngeal tumors in man, effects of, on surrounding tissue, therapeutic high-energy, 22:51732
effects on laryngeal tumors in man, treatment planning for combined surgery and therapeutic high-energy, 22:51705
effects on laser characteristics of gallium arsenide at 250 to 800 keV, 25:22623
effects on lasers, 21:14921(R) (N-66-39911)
effects on latchup response of (pn)-junction-isolated circuits at 30 MeV, 23:43648
effects on lattice displacements in aluminum at 175 to 750 kV, 25:2816 (ORNL-4570, pp 16-19)
effects on lattice parameters of aluminum at low temperatures and 3 MeV, 25:13723 (JUL-664-FN)
effects on lattice parameters of silicon, x-ray studies of, 22:37019
effects on lattice vacancies in graphite at 100 to 500 keV, (E), 21:16984
effects on lattice volume of single crystal aluminum oxide and silicon oxide, 23:41681(R) (COO-1161-6)
effects on lead at 3 MeV and 4.6°K, annealing of, 24:45333
effects on lead at 3 MeV, migration of monovacancies and self-interstitials in annealing of, 25:33423
effects on lead sulfides, electric conductivity changes from, (E), 22:15642
effects on lead zirconate—titanate piezoelectric discs at 0.2 to 1.0 GeV, vibrational, 24:16939 (AD-695420)
effects on lead-doped sodium chloride and potassium chloride at 1.5 MeV, 25:36303
effects on length of aluminum and copper at 2.2 MeV, annealing of, 23:43994
effects on length of copper, stage-I recovery from, (E), 22:11506
effects on leukocyte count in patients following therapy for cancer, 24:29782
effects on light emission by tryptophan, 22:12822
effects on light scattering in solutions of polyribonucleotides and ribonuclease, 23:9887
effects on lip cancers in man, therapeutic high-energy, 22:51745
effects on lipid peroxidation in endoplasmic reticulum of microsomes, protective effects of glutathione, o-phenanthroline, and vitamin E against, 24:41770
effects on lipid peroxide formation in subcellular fractions from liver cells of rats, 22:454
effects on liquefied gas refrigerants used in radiochemistry, hazards of, 24:611
effects on liquid acetonitrile, 21:19654
effects on liquid alkanes and cycloalkanes, ESR spectral studies on transient free radicals produced by, 22:42746
effects on liquid and solid hexatriacontane, products from, 23:31370
effects on liquid helium used in superconducting magnets, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on liquid propane of 35-MeV pulses of, solvated electrons induced in, 25:57468
effects on liquids and gases, apparatus for production of, 22:6319(T) (UCRL-Trans-10148)
effects on lithium diffusion in silicon, 21:15217 (N-66-34630)
effects on lithium diffusion in silicon, 22:4845
effects on lithium fluoride crystals at 1.4 MeV, formation of F, M, and R centers in, (E), 23:51784
effects on lithium fluoride single crystals, density and size of defect clusters from, (E), 21:18807
effects on lithium fluoride single crystals, lithium oxide precipitation in, 25:11964
effects on lithium fluoride, formation of I centers in, 24:32902
effects on lithium fluorides at 25-keV, coloration properties from, 22:44240
effects on lithium fluorides, covalent interaction in M°-center formation by, 21:37579
effects on lithium fluorides, dielectric breakdown from, 21:7350
effects on lithium hydride crystals, temperature dependence of EPR spectra of, 21:27233
effects on lithium mobility in silicon, 22:13010
effects on lithium sulfate monohydrate single crystals, EPR studies of defects from, 22:36967 (COO-1054-39)
effects on lithium sulfate single crystals at 1 MeV, EPR studies of defects induced in, 25:38562
effects on lithium sulfate single crystals, EPR studies of, 21:25193
effects on lithium sulfate single crystals, EPR study of thermal decay of hydroxyl groups from, 22:29558
effects on lithium-containing silicon diodes and solar cells at 1 MeV, recovery rate and capacitance measurements for, 23:17861
effects on lithium-diffused n-type silicon at 30 MeV, defects induced in, 25:56309
effects on lithium-diffused silicon at 1.5 and 5 MeV, structure of defects induced in, 24:51789(R) (N-70-28137)
effects on lithium-diffused silicon at 1.5 MeV, 25:22597(R) (N-70-43095)
effects on lithium-diffused silicon at 1.5 MeV, 25:40768(R) (N-71-18417)
effects on lithium-diffused silicon solar cells at 30 MeV, divacancy production and annealing from, 24:14379(R) (N-69-40757)
effects on lithium-doped n-type germanium at 1 MeV, 25:56301
effects on lithium-doped n-type silicon at 1 MeV, electrical studies, 23:44514
effects on lithium-doped n-type silicon at 1 to 1.5 MeV, lithium—defect interactions in, 25:56310
effects on lithium-doped silicon at 1 MeV, 25:14423
effects on lithium-doped silicon at 1 MeV, annealing of damage, 25:22615
effects on lithium-doped silicon at 1 to 1.5 MeV, EPR study of defects induced in, 25:9558
effects on lithium-doped silicon at 1.5 MeV, ESR and photoconductivity study of annealing of, 25:30653
effects on lithium-doped silicon at 77°K of 1-MeV, 300°K annealing of, 23:44496
effects on lithium-doped silicon solar cells, 23:761(R) (N-68-28996)
effects on lithium-doped silicon solar cells, 23:26632 (N-69-11598)
effects on lithium-doped silicon solar cells at 1 MeV, 21:6383
effects on lithium-doped silicon solar cells at 30 MeV and 77 to 400°K, 24:51239(R) (N-70-25471)
effects on lithium-doped solar cells at 1 MeV, 23:16217(R) (N-68-33502)
effects on lithium-ion drift in p-type silicon at 1 MeV, (E/T), 24:5203
effects on lithium-ion drift velocity in p-type germanium at 4 MeV, (E), 25:25212
effects on local composition of alkali silicate glasses, (E), 21:27245
effects on localized vibrational modes in silicon-containing gallium arsenides, (E), 23:39533
effects on long-term stability of lithium-doped silicon solar cells, 23:26635(R) (N-69-14919)
effects on low-conductivity liquid ionization chambers at 1 MeV, ionization currents from, 24:25267
effects on low-temperature heat transfer of silicon and germanium, 22:52849 (CEA-R-3387)
effects on lubricating properties of graphite and molybdenum disulfide dry films, 22:8851
effects on luminescence and color centers in pure and uranium-doped lithium fluoride, (E/T), 23:51789
effects on luminescence in silver-activated zinc sulfides, 22:30842
effects on luminescence of aluminum—antimony alloys, gallium arsenides, and indium phosphides, (E), 22:37020
effects on luminescence of cadmium sulfide crystals, (E), 21:830
effects on luminescence of cadmium sulfide crystals, (E), 21:828
effects on luminescence of cadmium-doped gallium arsenide at 1 MeV, 23:44515
effects on luminescence of cadmium-selenide lasers at 1 MeV, (E), 24:51782 (AD-708734)
effects on luminescence of copper-doped zinc sulfide, 25:8485
effects on luminescence of electroluminophors, 24:31411
effects on luminescence of glasses and powders, 24:5689
effects on luminescence of Ne—N_2 systems, 3-MeV, (E), 23:10434(R) (ORO-3349-4)
effects on luminescence of nitrogen, 24:22672(R) (ORO-3349-7)
effects on luminescence of rare gases, 22:95 (AD-646604)
effects on luminescence of single crystals of zinc sulfide, effects of stacking faults on, (E), 23:42444
effects on luminescence spectra of diamonds annealed at 400 to 800°C, (E), 22:37023
effects on luminescence spectra of silicon at 2.5 MeV, effects of uniaxial stress and temperature on, 25:56295
effects on luminescence spectra of silicon at 3 MeV, effects of annealing and lithium impurity on, 25:56294
effects on luminescence yield of molecular crystals, 24:21879
effects on luminescence yield of toluene, as function of solute concentration, 23:2613
effects on lunar surface materials, (E), 25:24837
effects on lung carcinomas, effects of, on pulmonary blood flow, 22:45702
effects on lungs and pleura in man following therapy for mammary carcinomas, method for determining, 24:36843
effects on lungs of man following presurgical therapy of carcinomas, high-energy, 23:26950
effects on lungs of rabbits, late, 22:51898
effects on lungs, ribs, and skin in man following therapy for mammary carcinomas, 25:13584
effects on lymph node metastases and tumors of larynx, therapeutic, 21:28509 (ACRH-1000-6)
effects on lymph node metastases in man, effects of energy level on therapeutic, 22:51712
effects on lymph node metastases in man, therapeutic high-energy, 22:51713
effects on lymph system following use in treatment of carcinomas and lymphomas, 21:28522
effects on lymphoid tissues in mice, RBE for whole-body, 25:8780
effects on lymphosarcomas and retotheliosarcomas in man, pendulum method for therapeutic, 25:29599
effects on m-terphenyl at 100 to 450°C, 22:51025
effects on m-terphenyl, mechanisms of decomposition in, 22:16574
effects on magnesia at 0.3 to 2.0 MeV, low-temperature length change study of mechanism of, 24:45334
effects on magnesia crystals at 0.23 to 29 MeV, 25:25222
effects on magnesia crystals at 2 MeV, luminescence of defects induced in, 25:7458
effects on magnesia crystals, absorption and luminescence spectra of defects produced in, 24:6635
effects on magnesia single crystals, production and annealing of defect cluster centers, (E), 23:44512
effects on magnesia, energy dependence of zero-phonon defects produced in, 24:32895 (ORNL-4526, pp 1-17)
effects on magnesia, luminescent, 24:32895 (ORNL-4526, pp 1-17)
effects on magnesium at 0.125 to 0.40 MeV, damage rate and threshold energy, (E), 23:44513
effects on magnesium at 4.2°K of 0.3- and 0.4-MeV, low-temperature annealing of, (E), 22:26067
effects on magnesium fluoride and zinc sulfide electric conductivities at 10 keV, 21:23287
effects on magnesium fluoride single crystals, color centers produced in, 23:25454
effects on magnesium oxide and potassium chloride crystals, comparison of defect production from, (E), 22:31938 (BNL-50083, pp 410-19)
effects on magnesium oxide crystals, ionization-induced, 21:16980
effects on magnesium oxide crystals, zero-phonon lines produced in, 23:42464
effects on magnesium oxide of 4-MeV, long wave-length neutron scattering study of, (E), 22:24474
effects on magnesium oxide single crystals, dose and temperature dependence of ionization and electric conductivity from, (E), 22:31939 (BNL-50083, pp 420-7)
effects on magnesium oxides, crystal hardening from, (E), 23:32567
effects on magnesium, recovery of, 24:35529(R) (ORO-3098-13)
effects on magnetic properties of iron—molybdenum—nickel alloys, energy dependence at 0.5 to 2.0 MeV of, (E), 21:20543
effects on magnetic properties of iron—molybdenum—nickel alloys, defect-annealing studies of, 22:15590

effects on magnetic properties of iron—molybdenum—nickel alloys, relation to defect production, (E), 22: 31927 (BNL-50083, pp 265-72)
effects on magnetic properties of superconducting niobium at 3 MeV and 4.5°K, (E), 24:42607 (JUL-647-FN)
effects on magnetoresistance of aluminum single crystals at 3 MeV, (E/T), 25:56334
effects on magnets of superconducting accelerators, 23: 42787 (BNL-50155(Pt.3), pp 967-1132)
effects on male germ cells of Drosophila larvae and prepupae, 21:18021
effects on malformations, mitosis, and nuclei in Ehrlich ascites cells, 23:20318
effects on malignant melanomas in man, combined effects of surgery on therapeutic fast, 22:51747
effects on malignant tumors in man, therapeutic fast, 22: 51704
effects on mammals, physical factors affecting, 24:14601
effects on mammary carcinomas in man, development of lung complications following therapeutic high-energy, 22:51726
effects on mammary carcinomas in man, development of lung complications following therapeutic high-energy, 22:51727
effects on mammary carcinomas in man, therapeutic, 21: 26545
effects on mammary carcinomas, therapeutic high energy, 22:10793
effects on man during surgery of stomach carcinomas, effects of dose on, 24:14562
effects on man following therapy for mammary cancer, 24:44571
effects on man following therapy of bladder carcinomas, pathological, 24:23281
effects on man following therapy of gynecological neoplasms, pathological, 24:17114
effects on man, development of necrosis following combined neck dissection and therapeutic, 25:42603
effects on mechanical properties and structure of modified Kapron fibers, 25:8270
effects on mechanical properties of aluminum at 23 and 85°K, (E/T), 22:17824
effects on mechanical properties of aluminum, aluminum—zinc alloy, and copper at 1- to 2-MeV, 24: 21400
effects on mechanical properties of polymers of 3,3',4,4'-biphenyltetramine and 1,2:4,5-dianhydride of 1,2,4,5-benzenetetracarboxylic acid, 22:18825
effects on mechanical properties of single-crystal fcc metals, 23:12372 (COO-1367-22)
effects on mechanical properties of wood, 23:25024
effects on medical supplies, dosimetry for sterilizing, 23: 12254 (RISO-185)
effects on melanophore-stimulating hormone in fiddler crab eyestalk, 21:36703
effects on membrane permeability of Ehrlich ascites tumor cells in cultures, protective effects of cysteamine and 2-amino-3-methyl-butanethiol against, 25:4568
effects on membranes of Ehrlich ascites tumor cells, combined effects of excess oxygen and Synkavit on, 25:4568
effects on meningiomas of sphenoid, development of necrosis in temporo-frontal region following therapeutic high-energy, 22:51757
effects on mesitylene adsorbed in molecular sieve, ESR spectral studies on free radicals produced from, 23: 40714
effects on mesopharyngeal tumors in man, therapeutic high-energy, 22:51736
effects on metabolism of calcium and strontium in bones of dogs, effects of dose on, 23:12148 (NYO-910-75, pp 10-26)
effects on metal crystals, theory, 23:32564
effects on metal ion transport in rat liver mitochondria, 22:440
effects on metal lattices, diffusional theory of migration and reactions of defects produced in, 24:40162
effects on metal—insulator—silicon capacitors, 21:6388
effects on metals at 4.5°K, spontaneous and subthreshold recombinations of defects produced in, 24:30385
effects on metals at low temperatures, cryostat design for, 22:30747 (NAA-SR-Memo-12404)
effects on metals at low temperatures, production of defects from, review, 22:31925 (BNL-50083, pp 204-29)
effects on metals of 0.4-MeV, annealing of, (E), 23: 30619(R) (ORO-3098-12)
effects on metals, comparison of interstitial diffusion models with experiment in stage I annealing of, 24: 21875
effects on metals, defect recovery by interstitial diffusion in annealing of, (T), 24:21852 (JUL-604-FN)
effects on metals, design of cryostat for studying, 22: 9242
effects on metals, impurity trapping effects in correlated diffusion annealing of, (T), 25:1292
effects on metals, mechanisms and rates of production of defects from, (E/T), 22:31931 (BNL-50083, pp 327-34)
effects on metals, method for defect study involving quenching and, 22:31932 (BNL-50083, pp 335-47)
effects on metals, method for identification of interstitial atoms in defects from, 21:40116
effects on metals, rate of defect production from, review, 22:17820
effects on metals, theory of defect migration and reaction in, 24:21851 (COO-1800-7)
effects on methane at 7.5 MeV, 25:23629
effects on methane in electric field, 22:40131
effects on methane, acetylene, ethane, and ethylene yields in, 22:10279
effects on methane, inelastic cross sections of products from, 21:40917
effects on methane, thresholds for, 25:44400
effects on methane, yields of acetylene in, 22:10280
effects on methyl ethyl ether, identification of products from, 21:42992
effects on methyl-substituted cyclohexenones, structural studies on ketene loss in, 21:30446
effects on mice, 21:36672
effects on mice, effects of hypoxia on four-day death rate following, 22:40739
effects on mice, protective effects of AET combined with serotonin against, 21:26490
effects on mice, RBE for 16.5-MeV, 25:32560
effects on mice, RBE of whole-body, 22:15090
effects on mice, relation of survival of jejunum stem cells to dose dependent, 25:42633
effects on microcirculatory units of blood vessels from earlobes of mice, effects of dose fractionation on, 25: 11254 (BNL-50203, pp 174-80)
effects on microhardness of borate glasses at 1.2 MeV, 25:32866
effects on microhardness of germanium, 22:31439
effects on microorganisms in sewage, sterilizing, 23: 29941
effects on microstructure of bcc, fcc, and hcp metals, recovery stages from, 24:14822
effects on microstructure of graphite at 200 kV, 25: 58168 (ORNL-4676, pp 139-233)
effects on microstructure of high-purity aluminum at 200 keV, 25:13727
effects on microstructure of metals, 25:29909
effects on microstructure of niobium, mechanisms of recovery from, 24:36921 (CEA-CONF-1513)
effects on mineral metabolism in dog bones, local exposure, 21:17995
effects on miniature avalanche diodes, damage, 25:4408
effects on minority carriers of p-type indium antimonide, 24:21882
effects on MIS transistors at 1 MeV, models for, 24: 4536
effects on mitosis in cells of tail of mice, effects of formalin and Teepol on, 22:542
effects on mitosis in regenerating liver and tumor tissue of rats, 22:40851
effects on mitotic activity in cells of liver of rats, RBE of, 22:8463
effects on mixed alkali metal halide crystals, efficiency of F-center production in, 23:25457
effects on mixed potassium magnesium fluoride—potassium manganese fluoride crystals at 2 MeV, color centers induced in, 25:33402(R) (ORNL-4669)
effects on mixtures of nitrogen—oxygen, computer solutions of reaction rate equations for ions from, 22: 33370 (AD-662061)
effects on mixtures of oxygen, hydrocarbons, and sulfur dioxide to yield sulfonic acids, 22:4221(P)
effects on molecular weight of ATPase in mitochondria, 24:2573
effects on molecular weight of melt- or solution-crystallized polyethylene etched by nitric acid, 22: 12380
effects on molten polyethylene at 155°C, 25:39543
effects on molybdenum at 2 MeV and 4.2°K, study of recovery processes in annealing of, 25:25215
effects on monocrystalline sodium bromate, ESR spectral studies on paramagnetic species produced by, 22:2112
effects on monocrystals of 5-methylhydrouracil at 77°K, ESR studies on, 24:27159
effects on monocrystals of hydrazine dihydrofluoride, ESR spectral studies on products of, 24:13871 (COO-1385-32)
effects on monocrystals of thymine monohydrate at 77 and 295°K, 24:29319
effects on morphology and structure of polymer crystals, review on, 23:28896
effects on morphology of normal cells of human larynx, following therapy, effects of dose on, 23:48242
effects on MOS and metal nitride semiconductor-insulated-gate FET transistors, 21:6389
effects on MOS capacitors at 1 MeV, effects of heat treatment in electric field on interface states induced in, 25:35080
effects on MOS devices, 21:34559
effects on MOS transistors, 24:29617
effects on MOS transistors and capacitors at 1 MeV, 24: 33978 (CEA-CONF-1508)
effects on MOS transistors at 1 MeV, 24:5971
effects on MOS transistors at 30 keV, annealing of, 24: 23050
effects on MOS transistors, thermal recovery of, 24: 4535
effects on MOSFET devices at 1.5 MeV, bias—temperature study of, 23:17887
effects on MOSFET devices in simulated space environment, 21:6391
effects on MOSFET transistors, 21:22223
effects on MOSFET transistors, 25:42233
effects on MOSFET transistors, dose rate dependence of P-channel enhancement from, 21:34556
effects on mucosa and subcutaneous tissues during radiotherapy, 22:51764
effects on mucosa in human oral cavity following therapy, 25:32597
effects on mucous membranes of mouth of man, protective effects of benzidamine against, 21:32696
effects on mushrooms, comparison of γ ray effects to, 23:18161 (CONF-681006-, pp 123-6)
effects on mycosis fungoides in man, therapeutic, 23: 6541
effects on mycosis fungoides, integral dose to man following whole-body therapeutic, 22:51746
effects on Mylar capacitors, 22:416(R) (AD-648643)
effects on Mylar micrometeoroid detectors, 22:40509 (N-68-13147)
effects on n- and p-type germanium at 15°K of 1.0-MeV, stored-energy release measurements at 20 to 80°K, 23: 3592
effects on n- and p-type silicon at 10 to 100 keV, subthreshold, 25:59127
effects on n- and p-type silicon semiconductors at 48 MeV, 22:764(R) (AD-644889)
effects on n- and p-type silicon, energy dependence of anisotropy of, 21:2324
effects on N-acetylglycine in the presence of ammonia at 7.5 MeV, 25:54650
effects on n-type germanium, 23:16505
effects on n-type germanium at 1 MeV, 65°K stage in annealing of, (E/T), 25:25207
effects on n-type germanium at 1 MeV, annealing of primary defects induced in, 25:22606
effects on n-type germanium at 1 MeV, charge state and annealing of simple defects produced in, 24:21870
effects on n-type germanium at 1 MeV, effects of impurities on 65°K annealing stage, 25:56331
effects on n-type germanium at 1 MeV, kinetics of 100°K annealing stage of, 25:11954
effects on n-type germanium at 1.1 MeV and 5°K, 0.5-MeV-electron annealing of defects induced in, 25: 45566
effects on n-type germanium at 1.1 MeV and 5°K, low-temperature annealing of defects induced in, 25:27850
effects on n-type germanium at 1.5 MeV, 35°K annealing stage of defects induced in, 24:1475
effects on n-type germanium at 30 and 77°K, model of defects induced in, 25:3200
effects on n-type germanium at 30°K of 1.5-MeV annealing of defects produced by, 23:16884
effects on n-type germanium at 5°K, radiation annealing of defects induced in, 25:59132
effects on n-type germanium at 88°K and 28 MeV, (E/T) , 25:7455
effects on n-type germanium at low temperatures, defect production in, (T), 25:36293
effects on n-type germanium at subthreshold energies, properties of defects from, 21:18829
effects on n-type germanium crystals, properties of defects from, (E/T), 22:41645 (INR-890)
effects on n-type germanium, absorption edge in, (E), 23:14904
effects on n-type germanium, effects of donor impurity on 35 and 65°K stages in annealing of, 25:56330
effects on n-type germanium, energy dependence of recovery from damage from, (E), 22:37040
effects on n-type germanium, energy threshold for damage from, (E), 22:17733
effects on n-type germanium, influence of impurity concentration on photoconductivity induced by less than or equal to 2-MeV, (E), 22:36987
effects on n-type germanium, influence of optical bleaching on annealing of defects from 1.5-MeV, (E), 22:36991
effects on n-type germanium, kinetics of near-65°K annealing of, (T), 25:38558
effects on n-type germanium, model of permanent defects induced in, (T), 25:43444
effects on n-type germanium, properties of defects from, (E), 21:40070
effects on n-type germanium, radiation annealing of low-temperature, 23:7056
effects on n-type silicon, 21:34974(R) (N-67-12164)
effects on n-type silicon at 2 MeV and low temperatures, infrared study of defects induced in, 25:27845
effects on n-type silicon at 200 to 400 keV, defect introduction rates from, (E), 25:45570
effects on n-type silicon at 4.5 MeV, influence of molecular oxygen on, (E), 22:9482
effects on n-type silicon crystals, anisotropy in displacement energy of 100- to 400-keV, (E/T), 24: 6620
effects on n-type silicon diodes at 90 to 350°K, annealing of pulsed 10-MeV, (E), 23:34497
effects on n-type silicon, annealing of, 21:9255
effects on n-type silicon, comparison with other types of radiations, 24:35540
effects on n-type silicon, impurity and irradiation-temperature dependence of formation and annealing of defects from, (E), 22:3202
effects on n-type silicon, photoconductivity and stress-response studies of defects from, (E), 23:1555
effects on n-type silicon, production mechanisms and identification of defects from, review, 22:36999
effects on n-type silicon, properties of irradiation-temperature-dependent and irradiation-temperature-independent defects from, (E), 22:36998
effects on n-type single-crystal germanium, photo-induced annealing of defects from, (E), 22:36989
effects on naphthalene and N,N,N',N'-tetramethyl-p-phenylenediamine in polymeric solvents at 1.9 MeV and 86°K, triplets and molecular ions from, 25:51507 (AD-722057)
effects on naphthalene in 1,2-dimethoxyethane and tetrahydrofuran solutions, yields of solute excited states and radicals in, 22:45126
effects on naphthalene monocrystals, ESR and optical spectral studies on free radical yields from, 24:31371
effects on naphthalene monocrystals, vibronic structure of radicals from, 25:13047
effects on naphthalene single crystals, EPR and optical absorption studies on, 24:25082
effects on nasopharyngeal carcinomas in man, therapeutic, 23:6540
effects on nematode larvae, effects of dose on attenuating, 25:19101
effects on neodymium-activated calcium tungstate of light and 5-MeV pulses of, luminescent, 25:40780
effects on neoplasms in bladder, development of cystitis following, 22:4677
effects on neoplasms of man, development of necrosis following therapeutic fast, 22:36400
effects on neoplasms, effects of dose fractionation and high pressure oxygen on therapeutic, 22:19391
effects on neoplasms, therapeutic, 22:31274
effects on neoplastic and normal tissues of man, RBE for x ray and high energy, 22:38276

effects on neutron-irradiated cobalt bromide, chloride, iodide, and nitrate complexes with ammonia and ethylenediamine, 21:19684
effects on newts, effects of dose on, 24:21279
effects on nickel and iron foils in high-voltage electron microscope, 25:36301
effects on nickel at 650 kV, oxidation effects on void formation in, 25:14416
effects on nickel foils at 650 keV, diffusion model of growth rate of interstitial loops induced in, 25:52907
effects on nickel foils at 650 keV, growth of defect clusters induced in, 25:36299
effects on nickel foils, electron microscopic study of agglomerated defects, 22:48169
effects on nickel monocrystals, 24:6611 (CEA-R-3854)
effects on nickel without and with silicon impurities at 2 MeV, 25:11977
effects on nickel, dose dependence of swelling, 25:30652
effects on nickel, relations with impurities, 21:1920(T) (AI-Trans-220)
effects on nickel, stage I annealing of, 23:16867 (CEA-CONF-1029)
effects on nickel—manganese crystals, average number of replacement collisions in, (E/T), 23:3610
effects on niobium and tantalum, 22:11017
effects on niobium and tantalum at 1 to 2.2 MeV, lattice displacement threshold energies from, (E), 24:15391
effects on niobium and tantalum at 2.2 MeV, annealing spectra of, 24:15390
effects on niobium and tantalum, annealing spectrum from 13 to 301°K of 2 MeV, 21:41633
effects on niobium at 3 MeV, superconducting flux pinning by point defects induced in, 25:9379
effects on nitride precipitation in iron—nitrogen solid solutions, 21:28800 (HW-84618)
effects on nitroethane and polynitroethylene, ESR spectral studies on free radicals produced by, 24:22710
effects on nitrogen sorption by solid surfaces, 21:18294(R) (AD-642408)
effects on nitromethane, 22:2154
effects on nitrosation of cyclohexane and toluene, 22:2157
effects on nonmetallic single crystals, ESR and optical absorption studies of defects from, 22:17725(R) (NYO-2047-42)
effects on normal and deuterated benzene, 21:28021
effects on normal and deuterated methane, 21:36029
effects on normal and tumorous tissues in mice, comparison of fast neutron and, 25:24399
effects on normal human tissues, therapeutic, 23:6542
effects on nuclear volume in Ehrlich tumor cells, 21:24590
effects on nucleic acid content and weight of organs of mice, quantitative analysis of, 23:18105
effects on nucleic acid content and weight of spleen and thymus of mice, 23:2939
effects on nucleic acid fragments in aqueous solutions, 25:57930
effects on nucleic acids, lytic, 25:49099 (UCLA-12-815, pp 1-36)
effects on nucleotides of DNA, ESR studies of, 23:11941 (AI-AEC-12721, pp 357-61)
effects on one-phonon absorption of aluminum in silicon, 1.5-MeV, (E), 24:28424
effects on operable tumors in man, preoperative therapeutic high-energy, 22:51707
effects on optical absorption bands of lithium fluoride crystals, 23:23279
effects on optical absorption in zinc sulfide crystals at 8 MeV, 23:36792
effects on optical density of Bacillus megaterium spores, low-energy, 23:10121
effects on optical fluorescence spectra, 23:213 (IS-1900, Paper 3)
effects on optical materials, (E), 22:13571
effects on optical materials, transient, (E), 22:24411 (LA-DC-8636)
effects on optical properties of lithium hydride crystals as function of initial defect concentration, (E), 22:46239
effects on optical properties of lithium-doped silicon solar cells at 1 to 5 MeV, 24:539(R) (N-69-35558)
effects on optoelectronic devices at 600 keV and 1.5 MeV, 25:10904 (HMI-B-97)
effects on oral cavity and oropharynx neoplasms in man, therapeutic, 23:6539
effects on oral cavity tissues of rabbits, effects of dose fractionation on, in comparison to x rays, 23:10065
effects on orange peel, effects of LET on local and whole-surface 1.5 MV, 23:29946
effects on organic compounds, ESR studies on, 23:31365 (EUR-4233)
effects on organic compounds, measurement of decay time of luminescence from, 21:35225(T) (ANL-Trans-499)
effects on organic coolants at -170°C, 21:17656
effects on organic insulator foils at 0.1 to 3 keV, 24:46555
effects on organic liquids, model for, 25:2260 (IRI-133-70-2)
effects on organic molecules, production of super-excited states by, 24:9347(R) (ORO-2001-17)
effects on organic peroxides to 300°K, EPR studies on radical pair formation in, 23:254
effects on organic scintillators in supercooled molten state, 22:4188
effects on organic solids, yield of carriers from, 24:41334
effects on organoleptic properties and shelf life of carp, 24:25619
effects on organoleptic properties and shelf life of rainbow trout, 24:25618
effects on organoleptic properties and wholesomeness of rice, effects of dose on, 23:29938
effects on organoleptic properties and wholesomeness of fish, meats, and poultry, status of U.S. Army research program to determine, 23:26978
effects on organoleptic properties of meat, effects of storage at refrigerator temperatures on, 21:28707
effects on organoleptic properties, physical properties, storage life, and vitamin content of commercial orange juices, 24:51123
effects on orotic acid single crystals, ESR spectral studies on free radicals produced by, 24:13909
effects on orotic acid, ESR studies on, 24:33707 (UCRL-19420, pp 46-55)
effects on outer radiation belt, kinetic instability and, 21:29126
effects on outgassing of bulk insulators, 22:11095
effects on ovaries of mice, combined effects of age and hypoxia on, 22:43418
effects on oxidation kinetics of polyethylene, 21:34291
effects on oxidation of AV-18 anion-exchange resin, 25:44379
effects on oxidation of benzene in aqueous solutions of ferrous ions and oxygen, 21:23986
effects on oxidation of polystyrene, 21:25888
effects on oxidative demethylation of aminopyrine and p-chloromethylaniline and on hydroxylation of aniline by microsomes of rat liver, effects of temperature on, 24:41952
effects on oxidized silicon surfaces and planar devices, 21:32555
effects on oxygen adsorption on silver surfaces, 23:40746
effects on oxygen desorption from tungsten, 23:41649
effects on oxygen desorption from tungsten single crystals, mechanism of, 22:34773
effects on oxygen diffusion time in Escherichia coli, high intensity double-pulsed, 24:36705
effects on oxygen enhancement ratios of bacteria, effects of surface or suspension location on fast, 25:8811
effects on oxygen level in mouse intestine, 25:46893
effects on oxygen sorption on silver, 25:39523
effects on oxygen, effects of argon, helium, nitrogen, and pressure on, 21:45145 (ORNL-4164, pp 35-45)
effects on oxygen-doped germanium, influence of irradiation temperature on production of defects from 2.0-MeV, (E), 22:36990
effects on oxygen-doped n-type silicon, infrared absorption measurements of, 21:13647
effects on oxygen-free p-type germanium, EPR studies of defects from, 21:18828
effects on oxygen-free p-type germanium, EPR study of defects from, 21:40068
effects on p—i—n silicon devices at 1 MeV, current oscillations due to, 23:17892
effects on p-channel FET transistors, 21:43315 (AD-651760)
effects on p-type germanium at 1 MeV and 8°K, defects induced in, 25:56302
effects on p-type germanium at 1.5 MeV and 77°K, annealing of defects induced in, 25:56329
effects on p-type germanium at 1.5 MeV, 220°K defects induced in, 25:56300
effects on p-type germanium at 1.5 MeV, shallow traps induced in, 25:27843
effects on p-type germanium at 10°K and 1 MeV, defect detection and recovery after, (E), 22:17732
effects on p-type germanium at 77°K of 1.5-MeV, 80-140°K stage in annealing of, 24:24118
effects on p-type germanium, annealing in, (E), 23:51767
effects on p-type germanium, annealing of defects from fast, 21:33543
effects on p-type silicon at 1 Mev, impurity effects on annealing of, 25:9549
effects on p-type silicon at 1.2 MeV and 15°K, photoconductivity study of annealing of defects induced in, 25:30658
effects on p-type silicon at 1.2 MeV, 175°K stage in annealing of, 24:24112
effects on p-type silicon at 1.2 MeV, photoconductivity spectral study of, 25:56308
effects on p-type silicon, damage coefficients for, 22:13574
effects on p-type silicon, influence of irradiation temperature on defect production by, (E), 22:37001
effects on palladium and platinum at 3 MeV, mechanism of lattice parameter changes from, (E/T), 23:27720
effects on palladium at 1 to 3 MeV, 21:13643
effects on parotid tumors in man, therapeutic high-energy, 22:51742
effects on patients during radiotherapy, 22:51760
effects on peaking in open geometry p-channel MOSFET devices, 22:12741
effects on PEMEX lubricants and refinery residuals, 22:33471
effects on penis carcinomas in man, dose determinations for therapeutic high-energy, 22:51721
effects on pepsin, 21:22356
effects on pepsin, effects of water on inactivation, 21:24304
effects on performance of ceramic-ferrite rf attenuators, 24:29616
effects on performance of shielded and unshielded silicon solar cells aboard Explorer 23 satellite, 23:759 (N-68-27541)
effects on Permalloy films at 2 MeV, annealing of, 25:25217
effects on permeability of membrane of ascites carcinoma cells to potassium ions, 23:50817
effects on peroxidase enzymes of horseradish and turnip, effects of ferric chloride, glucose, heat, 3-indolylacetic acid, pH, and sodium bisulfite on, 22:30973
effects on personnel during metal melting or welding, protective measures against, 24:41861
effects on petroleum residues after distillation, yields of light hydrocarbons from, 25:41853 (NP-18817)
effects on phantoms using HeLa cells at different depths, RBE for 20 MeV, 23:50495
effects on phase transformation in barium and lead titanates, 23:18284
effects on phenoplast molding materials, 25:10634
effects on phosphors in cathode-ray tubes, evidence for decompositional mechanism of, 21:29387
effects on phosphors, equipment for measuring luminescence spectra from, 23:2585
effects on phosphorus-doped germanium at 1.5 MeV and 77°K, annealing of, 24:18028
effects on phosphorus-doped n-type germanium at 1.5 MeV, EPR study of, 25:56299
effects on phosphorus-doped n-type silicon at 1 MeV, annealing of E centers induced in, (E/T), 25:19854
effects on phosphorus-doped n-type silicon at 1 MeV, annealing of, 25:45553
effects on phosphorus-doped silicon, ESR and galvanomagnetic studies of defects from, 22:31942 (BNL-50083, pp 454-61)
effects on photoconductivity and thermally stimulated current of zinc sulfide and cadmium sulfide single crystals at 5 MeV, 22:43196
effects on photoconductivity of cadmium sulfides at 3 and 45 keV, 24:45317
effects on photoconductivity of germanium single crystals containing oxygen, (E), 21:7356
effects on photoconductivity of high-density polyethylene, 22:4178
effects on photoconductivity of undoped cadmium sulfide at 280 MeV, (E), 24:12885
effects on photoconductivity spectra of antimony-doped germanium, (E), 22:41678
effects on photoconductivity spectra of n-type germanium, (E), 22:39152 (AD-668470)
effects on photoconductivity spectra of oxygen-doped gallium arsenide crystals, (E), 21:18810
effects on photoconductivity spectra of p-type silicon at 1 MeV, 25:22624
effects on photoconductivity spectra of p-type silicon crystals, (E), 25:1274
effects on photoelectric properties of germanium films at 50 to 3000 eV, 25:45563
effects on photoemission spectra of potassium iodide and rubidium bromide crystals, (E), 23:51790
effects on photoluminescence spectrum of silicon-doped n-gallium arsenide at 1.7 MeV, annealing of, 25:36274
effects on photomultipliers aboard OGO-2 and OGO-4 satellites up to 1500 km, 23:26638 (N-69-18074)
effects on physical properties of alloys and metals, review on, 21:45976
effects on physical properties of graphite, 22:17187
effects on physicochemical properties of powdered selenium mixtures with copper, iron, and nickel, 23:28906
effects on piezoresistivity of n-type silicon, (E/T), 25:5151 (N-70-35737)
effects on plastic scintillators and anthracene, at 4 to 10 keV, 22:16967
effects on plastically deformed germanium at 3.5 MeV, influence of impurities on photoconductivity spectra from, (E/T), 25:5161
effects on platinum and platinum—gold alloy at 3 MeV and 90°K, annealing of, 25:36306
effects on platinum at 3 MeV, stored-energy-release study of Frenkel defects induced in, (E), 25:3197
effects on platinum at 90°K, damage production rate as function of impurities and vacancies, (E), 22:31933 (BNL-50083, pp 348-58)
effects on platinum foils at 90°K, (E), 22:3195
effects on platinum, defect production at low temperature by, (E), 21:16974
effects on platinum, dose dependence of Stage-III recovery from, (E), 23:42443
effects on platinum, recovery at 10 to 300°K of defects from, 21:16975
effects on ploidy of ascites lymphoma cells of mice, RBE for, 22:33902 (ORO-3343-1, Paper 3)
effects on point defect production in aluminum, relations of annealing with Stage I recovery from, 25:58341
effects on point defects in high-purity nickel, 24:8155 (CEA-R-3772)
effects on point-defect coagulates in alkali metal halide crystals, 23:44497
effects on point-defect creation and annihilation in niobium at 20°K, 1.4-, 2.2-, and 3.0-MeV, (E), 25:11949(T) (AI-Trans-267)
effects on polarization of oxygen—platinum electrode in aqueous potassium hydroxide solutions, 24:11554 (JAERI-5022, pp 13-17)
effects on poly(chloroethylene) at low temperatures, uv spectral studies on free radical yields from, 24:11633
effects on poly(methyl methacrylates), mechanisms of formation of tree-shaped cracks from, 25:29100
effects on poly(methyl methacrylate) stereoisomers and copolymers, protection against, 22:35856
effects on poly(methyl methacrylate), ESR studies on decay of free radicals from, 25:13058
effects on poly(vinyl acetate), chemical-transformation, 21:38965
effects on poly(vinyl chloride), uv and visible spectra of free radicals formed during storage following, 24:44039
effects on poly-3-methyl-1-butene, infrared spectra of, 21:23939
effects on polycarbonates, 24:16568
effects on polychloroethylene, ESR and optical absorption spectra of free radicals from, 23:35195
effects on polycrystalline amino acids and proteins at 77°K, ESR studies on free radicals produced in, 24:38923
effects on polyethylene and poly(propylene oxide), 25:29144
effects on polyethylene crystals, 25:2234
effects on polyethylene oxide, ESR spectra of free radicals produced by, 21:30459
effects on polyethylene terephthalate capacitor-type meteoroid detector, 21:14519 (N-66-39985)
effects on polyethylene, calorimetric detection of free radical yields from, 23:43356
effects on polyethylene, diene and cis- and trans-vinylene yields from, 23:26266(R) (COO-1088-33)

effects on polyethylene, ESR spectral studies on, 22: 30584(R) (COO-1088-30)
effects on polyethylene, ir and uv spectral studies on mechanism and yields of free radicals from, 23:47495
effects on polyethylene, mechanism and free radical yields from, 23:26266(R) (COO-1088-33)
effects on polyethylene, spectra of free radicals from, 23:212 (COO-1088-29)
effects on polyethylenes, antioxidants as protective agents against, 21:42991
effects on polymer creep rates, 22:6346
effects on polymer films, production of electrets in, 23: 33225
effects on polymer foils at 10 to 40 keV, charge trapping, 25:43436
effects on polymerization crosslinking of monomers, 25: 4100(P)
effects on polymerization crosslinking of styrene with esters, kinetics of, 23:26279
effects on polymerization in plastics industry, review on, 25:29127
effects on polymerization of 1,1-dichloroethylene in wood, effects of moisture content on, 24:31323
effects on polymerization of 1,1-dichloroethylene in wood, properties of composites produced by, 24:11572 (JAERI-5022, pp 125-34)
effects on polymerization of 1,3-butadiene with poly(vinyl chlorides), 23:40774(P)
effects on polymerization of 2-hydroxyethyl methacrylate on polyester fabrics, hydrophilic properties of products from, 25:10600 (JAERI-5026, pp 63-7)
effects on polymerization of 2-hydroxyethyl methacrylate with bis(2-methacryloyloxyethyl) toluene-2,4-dicarbamate, kinetics of, 24:11639
effects on polymerization of 2-methylpropene, in 3-methylpentane glass at 77°K, mechanism of, 22:8131
effects on polymerization of 2-methylpropene, in 3-methylpentane glass at 77°K, mechanism of, 22: 42716(T) (AEC-tr-6937, pp 145-57)
effects on polymerization of acetylene—carbon tetrafluoride, properties and structure of fluorinated polymer produced by, 23:35220
effects on polymerization of acrylic acid on poly(ethylene terephthalate), effects of solvent on, 25:10597 (JAERI-5026, pp 46-51)
effects on polymerization of acrylic acid on polyester fabrics by impregnation method, properties of products from, 25:10601 (JAERI-5026, pp 68-72)
effects on polymerization of acrylic acid, dodecafluoroheptyl acrylate, and vinyl monomers with ethylene—propene polymer, 23:19755
effects on polymerization of acrylonitrile on poly(vinyl chloride) powders, effects of dose rate on, 25:10596 (JAERI-5026, pp 42-5)
effects on polymerization of acrylonitrile—poly(diallyl phthalate) in wood, 25:10607 (JAERI-5026, pp 108-20)
effects on polymerization of acyclic silicone-modified paint binders, 23:28919(P)
effects on polymerization of adsorbed monolayers of acrylamide and furan, 21:30441 (COO-1580-1)
effects on polymerization of alkene oxides, 24:27165(P)
effects on polymerization of aminoplast film for coating particles, 25:8278(P)
effects on polymerization of carbon monoxide and 1-acetylaziridine or 1-acetyl-2-methylaziridine and ethylene or propene, 24:217(P)
effects on polymerization of carbon monoxide and ethylene or propene and ethylenimine or 2-methylaziridine, 23:49854(P)
effects on polymerization of cyclic silicone-modified paint binders, 23:28918(P)
effects on polymerization of di(2'-methacryloxyethyl)-4-methyl-m-phenylenediurethane produced by reactions between 2-hydroxyethyl methacrylate and 4-methyl-m-phenylene isocyanate, kinetics of, 23:11582
effects on polymerization of diallylhexamethylcyclotetrasiloxane on metallic surfaces, 23:28890
effects on polymerization of ethylene developments in industrial, 21:40878 (BNL-11294)
effects on polymerization of ethylene in presence of carbon dioxide, 24:20836(P)
effects on polymerization of ethylene with vinyl ester or an acrylate monomer, 21:30480(P)
effects on polymerization of foamed resins, 22:45117(P)
effects on polymerization of frozen acrylonitrile, 25: 18440
effects on polymerization of furan adsorbed on carbon black, 23:9418(R) (COO-1580-4)
effects on polymerization of furan adsorbed on carbon black, mechanism of, 23:47478
effects on polymerization of gaseous cyclotetrasiloxane on metallic surfaces, 22:42769
effects on polymerization of hydrocarbons adsorbed on metal surfaces, 21:17655
effects on polymerization of lubricant films, 24:41327
effects on polymerization of methyl acrylate—1,2-polybutadiene, effects of catalysts and crosslinking agents on, 25:10609 (JAERI-5026, pp 130-6)
effects on polymerization of methyl methacrylate with polyethylene, ESR studies on radical processes in, 24: 13933
effects on polymerization of monomer systems on wood, 21:24033
effects on polymerization of monomer—polymer systems for production of coatings, 24:13942
effects on polymerization of monomer-impregnated wood to improve its structural properties, 22:10283
effects on polymerization of monomeric unsaturated compounds and unsaturated polyesters, effects of alkyl arsines, phosphines, and stibines on, 25:41847(P)
effects on polymerization of monomers in wood, 25: 51503 (A/CONF.49/P-647)
effects on polymerization of nitroethylene, 21:23938
effects on polymerization of olefins having 5 to 20 carbon atoms, 23:28922(P)
effects on polymerization of paint on polyolefin surface, 24:19033(P)
effects on polymerization of polyester—styrene systems on fiber boards, 24:13943
effects on polymerization of polypropylene, 21:25880
effects on polymerization of polystyrene on cellulose, 22:45136
effects on polymerization of propylene oxide in methylene chloride or 2-methyltetrahydrofuran, 22: 51032
effects on polymerization of resin coatings on metals, 24:9353(P)
effects on polymerization of silicone oil vapors, effects of electric field on, 22:51030
effects on polymerization of solid acrylonitrile, 24:20830
effects on polymerization of solid acrylonitrile at 80 to 180°K, calorimetric studies on, 22:33416
effects on polymerization of styrene oxide, 22:4197
effects on polymerization of tetrafluoroethylene in liquid and solid states, 22:4196
effects on polymerization of thermoplastic resins, 22: 45122(P)
effects on polymerization of trioxane, 22:4194
effects on polymerization of trioxane for production of polyacetal resin, 25:4098
effects on polymerization of unsaturated monomers, 24: 36298(P)
effects on polymerization of unsaturated paint binder resins, 23:28917(P)
effects on polymerization of unsaturated polyester resins, 25:29116(P)
effects on polymerization of vacuum oil vapors, 24: 13964
effects on polymerization of vinyl chloride at low temperatures in presence of metal oxide catalysts, 23: 33235(P)
effects on polymerization of vinyl monomers and urethane resins for coating substrates, 23:45355(P)
effects on polymerization of vinyl monomers in wood, 25:41843(R) (ORO-2945-10)
effects on polymerization of vinyl monomers on polyurethan, 22:6351
effects on polymerization of vinylidene chloride in wood, properties of products from, 25:10603 (JAERI-5026, pp 80-5)
effects on polymerization properties of cotton, 21:28023
effects on polymers containing norbornenyl unsaturation, yields of products from, 25:29124
effects on polymers in high-voltage electron microscopes, 24:38975
effects on polyoxymethylene at -196°C, ESR spectral studies on effects of dose and heat treatments on, 22: 8130
effects on polyoxymethylene at -196°C, ESR studies of effects of dose and heat treatment on, 22:42715(T) (AEC-tr-6937, pp 133-44)
effects on polyoxymethylene, effects of temperature on yields from, 23:26266(R) (COO-1088-33)
effects on polystyrene containing solutes, spectral studies on, 22:10276
effects on polystyrene, mechanism of pulse, 22:42700 (AD-664883)
effects on polytetrafluoroethylene, ESR studies on, 23: 38010
effects on polytetrahydrofuran at 14°C, gel fraction, ir spectral, and chromatographic studies on, 24:13984
effects on polyvinyl chloride films, 21:31118
effects on positron annihilation radiation from platinum, 24:37212
effects on potassium and sodium bifluorides, ESR and optical absorption spectra of fluorine ions from, 21: 18800(R) (NYO-2047-38)
effects on potassium and sodium cyanate at 1 MeV, ESR studies on, 23:33230
effects on potassium bifluoride crystals, ESR study of, (E), 21:15226
effects on potassium chloride and bromide at 2 MeV, effects of plastic deformation on V centers induced in, 25:52911
effects on potassium chloride and bromide single crystals at 19 keV, channeling effect in F-center production in, 24:18023
effects on potassium chloride and sodium chloride crystals at 15°K of pulsed, color center formation in, (E), 25:17287
effects on potassium chloride and sodium chloride single crystals, photostimulated exoemission of electrons excited by, (E), 22:41655
effects on potassium chloride at 2 MeV, thermoluminescence induced by deformation and light after, 25:56321
effects on potassium chloride at 30 keV, relation of V_1 band with F band in, 24:32908
effects on potassium chloride crystals, 25:40767 (AD-715305)
effects on potassium chloride crystals at 5 keV, color center formation in, 24:35533
effects on potassium chloride crystals at 5 keV, saturation of F centers induced in, 25:14415
effects on potassium chloride crystals of 60-MeV pulsed F-center formation and decay in, 23:25465
effects on potassium chloride, EPR study of structure of V_1 color center produced in, 24:10603
effects on potassium chloride: silver phosphors, color centers produced in, 25:40791
effects on potassium chloride, uv absorption bands induced in, 23:3596
effects on potassium chlorides, influence of electron-trapping impurities on creation and infrared bleaching of defects from, 21:46424
effects on potassium chlorides, surface dissociation by low-energy, (E), 23:7062
effects on potassium chlorides, thermoluminescence and F-center bleaching from, 21:37580
effects on potassium iodide single crystals at 50 and 100 keV, F-center production in, 25:33429
effects on potassium magnesium fluoride and potassium manganese fluoride at 2 MeV, F-center production in, 25:22608
effects on potassium magnesium fluoride crystals, thermoluminescent, 24:32916 (ORNL-4526, pp 34-43)
effects on powdered amino acids, EMR studies on, 24: 9382
effects on precipitation of nitrides in iron, 21:24810
effects on precipitation of silicon in electron microscopic fields, 25:42886 (UCRL-20500, pp 86-146)
effects on prepainted coatings, curing, 25:45023
effects on preparation of metals from their aqueous salt solutions, 25:2237 (N-70-32826)
effects on previously irradiated cancers in man, therapeutic, 23:6535
effects on primary lesions of cervical neoplasms, therapeutic, 21:22527
effects on production of expanded olefin polymers, 24: 16563(P)
effects on production of F centers in alkali metal halides at 400 keV, electron-trapping impurity effects on, (E/T), 21:834
effects on production of fiberglass, 25:21012
effects on production of glass—plastic, 25:23605
effects on production of graft copolymers, 23:40778(P)
effects on production of hydrocyanic acid, 24:33734
effects on production of impurities in anthracene, influence on lifetime of excited states and photoluminescence yield from, 23:16107
effects on production of krypton fluorides, 25:57455
effects on production of luminescence in dyes, pulsed, 22:30994
effects on properties and shelf life of gwyniads, effects of dose on, 25:27146
effects on properties of electric insulators, 24:17404
effects on properties of lithium-doped silicon photovoltaic cells, 25:2814 (N-70-27167)
effects on properties of polyethylenes at melting point, 22:27783
effects on properties of potato starch granules, 21:28389
effects on protein inactivation, mechanisms of slow, 25: 46499(R) (COO-1155-8-1)
effects on proteins, effects of dose on low-energy, 24: 48436
effects on proton relaxation time in lanthanum magnesium double nitrate doped with neodymium, 21: 42513
effects on Pseudomonas fluorescens in different gaseous mediums, ultra-high dose, 23:24773
effects on pulsed gallium arsenide diodes, 24:36675
effects on pure gold at 3 MeV and liquid nitrogen temperature, Stage III annealing of, 23:3106
effects on pure iron at 4.2°K, isochronal annealing of, 22:4815
effects on pure or lithium-doped zinc oxide crystals, ESR studies on, 24:19011
effects on pyrolysis of saturated hydrocarbons, 24:13896
effects on pyrolytic graphite, atomic displacements from, 21:5330
effects on pyrolytic graphite, basal plane electric conductivity measurements on structure of recovery stages in, 23:8364
effects on quality of geraniol, 22:23082(P)
effects on quantum efficiency of photocathodes for middle and vacuum ultraviolet, 22:48154 (N-68-24731)
effects on quartz crystal oscillators, 25:21508
effects on quartz oscillator crystals, 21:6382
effects on quartz, thermoluminescence and thermally stimulated current study of defects induced in, 25: 7457
effects on rabbits, determination of RBE for, 22:51900
effects on radical formation in aqueous phenol solutions, relations with water elimination, 21:28870
effects on radical production and destruction in djenkolic acid, 25:39532
effects on radioinduced polymerization of N-chlorophenylmaleimide, 23:316
effects on radiosensitive dyes in soaps, labeling process based on, 25:48528(P)
effects on radiosensitivity, design and construction of apparatus for determining, 22:16974(R) (ORO-2832-56)
effects on rare earths, cathodoluminescence from, (E), 23:10704
effects on rare gases at 0 to 250 eV, multiple ionization, 21:31204
effects on rat skin, effects of dose on tumorigenic, 21: 24598
effects on rat skin, effects of dose, dose rate, energy, and LET on tumorigenic, 25:44892(R) (NYO-2785-5)
effects on rat skin, effects of grid and seive patterns of exposure on inflammatory and tumorigenic, 21:24597
effects on rat skin, tumorigenic, 21:20319(R) (NYO-2785-1)
effects on rate of mitosis in tumor cells, RBE for γ and x, 22:12763
effects on rate of synthesis of DNA in cultured human lymphocytes, effects of temperature on, 24:39435
effects on rats, RBE of 17.5 MeV, 22:33943
effects on reaction of chlorine gas with hydrocarbons, 21:19713(P)
effects on reaction of ethylene and deuterium, sensitized with krypton, 22:47158
effects on reactions between heparin and methylene blue in aqueous solutions, spectral studies on pulse, 22: 33461
effects on reactions of alcohol radicals with hydrogen sulfide, 21:32202
effects on reactions of atomic and molecular oxygen, 21: 42976
effects on reactions of nitrogen with hydrocarbons, 24: 13901
effects on reactively sputtered alumina/silicon junctions at 1 MeV, 25:10905
effects on rearrangement in organic molecules, 22:51034

effects on recombination radiation emission from cadmium sulfide, (E), 22:52857
effects on recombination spectra and lattices in silicon carbide, 3-MeV, (E), 22:20076
effects on recovery of Chlamydomonas, effects of dose fractionation on, 25:8795
effects on recrystallization behavior of copper and stainless steel, 25:32754
effects on rectal tumors in man, combined effects of x rays on therapeutic high-energy, 22:51722
effects on recurrent breast, skin, and thyroid tumors in man, therapeutic, 22:51708
effects on reduction of ammoniacal nickel sulfate to metallic nickel, 23:40681 (N-69-24940)
effects on reduction of molecular weight of methyl cellulose, 23:4705
effects on reduction of trivalent europium in thoria, 24:10626
effects on reflectance of aluminum, lacquer, paints, and Teflon at 20, 50, and 80 keV, 23:51151 (N-69-30549)
effects on reflectance of optical and thermal control coatings for use in space, (E), 24:44747
effects on reflectance of thermal control coatings for space uses, 23:3167
effects on removal of dissolved oxygen from aqueous solutions, 23:40728
effects on removal of phenol odor from smoke flavors, 22:8160(P)
effects on reproductive organs in newts, methods for determining, 24:21291
effects on resistivity of aluminum and copper, 21:7358
effects on resistivity recovery in copper, 21:14863
effects on resonance frequency of different sections of quartz plates, (E), 22:41695
effects on reticulocytes in mice and spermatocytes in rats, RBE for x ray and fast, 22:51884
effects on riboflavin and Vicia faba, effects of dose rate on, 23:31878
effects on rubies, decay rate and intensity of fluorescence from, (E), 21:18837
effects on ruby crystals at 2 MeV, absorption spectral study of, 25:40140 (N-71-13982)
effects on rutile crystals, dielectric loss study, 24:30400 (TID-25434)
effects on sarcomas in man, histopathological evaluation of therapeutic fast, 22:51706
effects on satellite electronics, 21:30765
effects on satellite flown solar cells and transistors, trapped, 21:8664
effects on satellites in Van Allen belts, bremsstrahlung from, 24:24103(T) (ORNL-tr-2202)
effects on scintillation crystals, light yields from, (E), 21:364
effects on scintillations in organic phosphors, 22:40417
effects on sea urchin eggs and newts, effects of dose on, 24:21278
effects on secondary electron emission from thermally-activated beryllium—copper alloys at 400 eV, 24:42166
effects on seeds of tomatoes, genetic, 22:17050(R) (EUR-3606)
effects on segregation in copper—nickel alloys, 21:28800 (HW-84618)
effects on self diffusion of silver, 22:45794
effects on semiconducting diamonds, 25:19769(T) (LIB/Trans-307)
effects on semiconducting diamonds at 1 MeV, annealing of, 25:25220
effects on semiconductor and dielectric materials at 50 to 150 keV, 21:16629
effects on semiconductor antimony—gallium intermetallic compounds, relations with zinc doping, 23:22579 (AI-AEC-12744, pp 169-78)
effects on semiconductor devices, transient annealing of defects from, 24:48355
effects on semiconductor devices, transient annealing of, 24:36674 (SC-RR-70-397)
effects on semiconductor diodes, solar cells, and transistors, 25:37706
effects on semiconductor excess carrier spatial distribution, 21:27237
effects on semiconductors at 0.1 to 1 keV, design of beta spectrometer for determining, 21:16174
effects on semiconductors, annealing of, 23:16219 (SC-DC-69-1615-A)
effects on semiconductors, design of cryostat for low-temperature photoconductivity and infrared absorption studies of, 23:23048
effects on semiconductors, drift mobility of excess carriers from, (E/T), 22:31940 (BNL-50083, pp 430-41)
effects on semiconductors, electric conductivity and Hall effect in presence of excess carriers from, (E/T), 22:31940 (BNL-50083, pp 430-41)
effects on semiconductors, energy and orientation dependence of defect production from, review, 22:37010
effects on serine uptake in hair of mice, 22:6710 (ACRH-1000-26)
effects on Serratia marcescens, combined effects of nitric oxide on lethal 1.8 MeV pulsed, 23:35955
effects on Serratia marcescens, sensitizing effects of N-ethylmaleimide on, 23:8092
effects on shelf life of food, effects of dose on organoleptic properties following, 24:44639
effects on shelf life of foods, 23:12253(T) (ORNL-IIC-14, pp 82-107)
effects on shelflife of foods, 22:47659
effects on shrinkage and tensile strength of collagen-containing tissue for transplants, 22:52092
effects on silica and germania, ESR studies of defects induced in, 25:59174
effects on silicate minerals, EPR spectra of defects produced in, 24:28428
effects on silicon and germanium, 24:21850(R) (COO-125-55)
effects on silicon and germanium, 24:51780 (AD-707080)
effects on silicon and germanium monocrystals at 0.4 to 2.9 MeV, laser interferometric determination of surface motion, 23:17886
effects on silicon and germanium, studies of defect behavior in, 25:22590(R) (COO-125-56)
effects on silicon at 0.35 and 0.5 MeV and low temperatures, ac hopping conductivity study of, 25:36305
effects on silicon at 0.35 to 2 MeV and 1.3 to 6°K, ac hopping conductivity study of defects induced in, 25:22591 (COO-1198-781)
effects on silicon at 1.2 MeV, electrical studies on, 24:22665(R) (AECL-3521)
effects on silicon at 1.5 and 45 MeV, divacancy identification in, 25:22613
effects on silicon at 1.5 to 5°K, 25:1260 (COO-1198-744)
effects on silicon at 10 MeV, annealing of, 23:18733
effects on silicon at 100 to 400 keV, effects of beam energy, crystal orientation, and temperature on production of atomic displacements by, 24:42802
effects on silicon at 2.5 MeV, EPR spectra of defects induced in, 25:17285
effects on silicon at 30-MeV, displacement, 22:47442 (N-68-23246)
effects on silicon at 300°K of 30-MeV, new ESR centers produced by, 23:44518
effects on silicon at 4 MeV, phonon scattering by defects from, 21:37619
effects on silicon at 50 MeV, transient, 21:19152(R) (TID-23685)
effects on silicon at low temperatures, 1-MeV, (E), 22:24490
effects on silicon carbide single crystals, dependence on particle energy and surface state of luminescence from, (E), 22:39182
effects on silicon carbide single crystals, ESR of centers induced in, 25:9545
effects on silicon containing antimony and arsenic, ENDOR and EPR studies of impurity—vacancy pairs from, (E), 22:52854
effects on silicon crystals, defects and optical transitions in luminescence, 24:51781 (AD-707690)
effects on silicon dioxide at low energies, charge buildup and release in, 23:32571
effects on silicon dioxide of pulsed, subsecond annealing of space charge induced in, 25:36302
effects on silicon dioxide—zirconium dioxide pigment, 22:11093
effects on silicon doped with germanium, oxygen, and carbon at 2.8 MeV and 90°K, infrared absorption spectral study of, 25:56297
effects on silicon electric conductivity changes, 1- to 5-keV electron, (E/T), 23:1547
effects on silicon epitaxial films at 6 to 100 keV, 25:1268
effects on silicon integrated microcircuits, 21:12741(R) (N-66-26760)
effects on silicon integrated microcircuits, 21:45490(R) (N-67-25481)
effects on silicon microcircuits at 3 MeV, 21:1974(R) (N-66-23592)
effects on silicon monocrystals, energy spectra from, 21:26930
effects on silicon n-p solar cells of 0.5 to 2.5 MeV, energy dependence of damage coefficient for, 24:21048
effects on silicon nitride insulated MOSFET devices, 22:12740
effects on silicon nitride-passivated bipolar transistors at 20 keV and 1.5 MeV, 23:17889
effects on silicon oxide etching rate, 22:1300
effects on silicon oxide nir and "A" bands at 2 MeV, (E), 23:39554
effects on silicon oxides at 5 keV, surface potential changes from, 23:16882
effects on silicon p—n junction stability at low energies, 23:17891
effects on silicon p-on-n solar cells, 21:3733
effects on silicon photoelectric devices, defect production in, 22:28270
effects on silicon photovoltaic cells at subthreshold energies, 24:29614 (N-70-20409)
effects on silicon single crystals during electron microscopy, dislocation motion from, (E), 22:34772
effects on silicon solar cells, 21:12739(R) (N-66-24989)
effects on silicon solar cells, 21:41866
effects on silicon solar cells, 21:39658(R) (N-67-17985)
effects on silicon solar cells, 23:7925
effects on silicon solar cells, 24:535(R) (N-69-34379)
effects on silicon solar cells, 25:21485(R) (N-70-43156)
effects on silicon solar cells at 1 MeV, 25:482
effects on silicon solar cells at 1 to 45 MeV, annealing of, 25:1287
effects on silicon solar cells at 30 MeV, 25:481(R) (N-70-33998)
effects on silicon solar cells at 30 MeV, 24:537(R) (N-69-34973)
effects on silicon solar cells, 1-MeV, 22:7189
effects on silicon solar cells, recovery action of lithium on, 23:16215(R) (N-68-32919)
effects on silicon surface-barrier detectors at 200 keV to 1 MeV, 25:57907
effects on silicon with carbon content at 2 MeV, 24:18019
effects on silicon with lithium admixtures, recombination rates in, (E), 23:51768
effects on silicon, annealing kinetics of defects from, (E/T), 21:16966
effects on silicon, annealing of defects from, 22:1318
effects on silicon, deep levels in forbidden band from 300-keV, 23:5463
effects on silicon, defect correlation with divacancy, 21:7359
effects on silicon, distribution with depth of defects from, 22:22214
effects on silicon, effects of carbon, oxygen, or their mixtures on defects from, 23:42442
effects on silicon, EPR spectrum of Si-S1 centers induced in, 25:45567
effects on silicon, formation of complex defects in, 22:50232
effects on silicon, fractionation study of annealing of, 25:1306
effects on silicon, interaction of Li and O with defects from 1.5- and 47-MeV, (E), 23:12992
effects on silicon, luminescence spectrum induced in, 25:27849
effects on silicon, measurement of transient, 21:2283(R) (AD-630701)
effects on silicon, method for calculation of anisotropy of damage rate from, (T), 22:37009
effects on silicon, microwave-reflection study of defects from, 22:31941 (BNL-50083, pp 442-53)
effects on silicon, review of defects produced in, 25:59135
effects on silicon- and tellurium-doped n-type gallium arsenide at 1 MeV, 25:56292
effects on silicon-controlled rectifiers, 21:6397
effects on silicon-doped gallium arsenide at 1 MeV, optical-reflectivity determination of, (E), 23:34494
effects on silicone films, 23:15897
effects on silver at 1.6 and 3.0 MeV, stage-III annealing of, 23:32558 (COO-1198-626)
effects on silver at 3 MeV, stage III annealing of defects from, (E), 24:15393
effects on silver bromide microcrystals at 50 to 1200 eV in emulsions, (E), 23:33582
effects on silver bromide microcrystals, (E), 21:9653
effects on silver of 2-MeV, stage I recovery in annealing of, (E/T), 23:25433
effects on silver, damage threshold at liquid-helium and liquid-nitrogen temperatures for, (E), 21:3525
effects on simple organic crystals, magnetic resonance studies of free radicals produced following, 23:50835(R) (TID-25119)
effects on single crystals of anthracene, optical absorption bands of radicals formed by, 25:48522
effects on single crystals of germanium oxides, titanium oxides, or tin oxides at 4 to 300°K, ESR studies on, 23:46548
effects on single-crystal ammonium bifluoride and sodium bifluoride, ESR studies on, 23:31388
effects on single-crystal and polycrystalline aluminum at 0.2 to 0.4 MeV, 24:35529(R) (ORO-3098-13)
effects on singlet and triplet π-electronic states of benzene and naphthalene, 22:16603
effects on skin after use for therapy, 21:22730
effects on skin and mucosa during radiotherapy, 22:51763
effects on skin and mucosa during radiotherapy, effect of dose fractionation on, 22:51762
effects on skin and underlying tissues of rabbits, effects of dose on, 22:38419 (CEA-R-3294)
effects on skin during high energy radiotherapy, 25:19066
effects on skin during therapy, study of dose buildup as a function of depth in relation to high-energy, 23:35861 (ACRH-31, pp 45-53)
effects on skin of man, physical factors affecting, 21:32753
effects on skin of mice, repair of, 22:12931
effects on skin of patients following radiotherapy, late, 22:51761
effects on skin of rats in comparison with effects of alpha particles, beta particles, and x rays, RBE for neoplastic, 24:21281(R) (NYO-2785-4)
effects on skin of rats, carcinogenic, 24:34633
effects on skin of rats, effects of penetration depth on injuries and tumor formation following, 23:2938
effects on skin of rats, histology of tumorigenic, 23:31953
effects on skin of swine, effects of dose and energy level on, 24:25573
effects on skin of swine, effects of dose on, 21:43504
effects on skin response in mice, effects of hypoxia on recovery from 15 MeV, 22:40877
effects on skin tumors, therapeutic, 21:24524
effects on sodium acetate trihydrate, sodium salt of chlorodifluoroacetate, and trifluoroacetamide crystals, ESR spectra of free radicals produced by, 21:21966 (COO-1385-20)
effects on sodium bromide crystals at high energies, color centers induced in, 25:38547
effects on sodium chloride directional breakdown at 33.5 to 44 keV, (E), 22:17735
effects on sodium chloride single crystal at 25 keV, rate of F-center production in, 24:24128
effects on sodium chloride, color center formation in, 21:11709
effects on sodium chlorides, polygonization of crystal surfaces from, (E), 23:32566
effects on sodium nitrate at 20 to 77°K, 21:40895
effects on sodium tetrafluorosuccinate, ESR spectral studies on, 25:31987
effects on soft tissue sarcomas in man, comparison of x rays to therapeutic high-energy, 22:51716
effects on soft tissue sarcomas in man, therapeutic high-energy, 22:51715
effects on soft tissues in human mouth during therapy of oral cancer, management of, 23:41364
effects on solar cell cover glass of protons and 1-MeV, effects of cerium doping on, 25:43008 (N-71-12278)
effects on solar cell power output, thermal annealing of, 22:24419
effects on solar cell power systems, 22:41400 (N-68-16191)
effects on solar cells at 0.5 to 2 MeV, 21:30764
effects on solar mirrors, 21:36951
effects on solid ammonia at 0.2 to 6 keV, ESR study of centers induced in, 25:57470

effects on solid binary mixtures of benzene derivatives with toluene, 23:35160
effects on solid-state polymerization of 2-methyl-N-phenylacrylamide, 23:15879
effects on solids at low temperatures, effects of subthreshold events on, (T), 23:32575
effects on solids, calculations on production by atomic displacement of defects from, 22:37011
effects on solids, review on defects from, 23:23244
effects on solubility of calcium and strontium sulfate crystals, 23:13751
effects on sorbed gases and electric conductivity in thin tellurium films, 22:45797
effects on sorption of nitrogen by tungsten, 22:11012
effects on sorptive properties of semiconducting catalysts of aluminum oxide—chromium oxide—cesium oxide, 23:10713
effects on soybean protein, 25:44393
effects on space charge in insulators, (E/T), 22:7366
effects on space flight personnel, factors affecting, 22:6847
effects on space vehicles, use of Lincoln accelerator facilities for studying, 21:12733 (AD-639962)
effects on space-charge field in dielectrics, mathematical model for, 21:27246
effects on spacecraft thermal control materials, 22:11094
effects on specimens in electron microscopy, 23:50225
effects on specimens in microscopes at 100 to 200 kV, 25:13628
effects on spores of Bacillus megaterium, low energy, 24:34773
effects on stability of exocarp of cherries, effects of calcium chloride and storage time on, 25:4721
effects on stability of silicon MOS transistors, 21:6392
effects on stability of silvered and aluminized FEP teflon second-surface mirrors, 25:55656 (N-71-27736)
effects on star tracker photomultiplier, noise from, 22:12728
effects on starches, 21:27998
effects on steel at 2.5 MeV, 22:8790
effects on sterility of aortic valve homografts in comparison to β-propiolacetone, 22:19465
effects on sterility of bacon for human consumption in USA, 22:33998
effects on sterility of catgut, 22:15133
effects on sterility of disposable plastic syringes, effective dose for, 22:52079
effects on sterility of medical supplies, comparison of, with use of ethylene oxide, 22:52078
effects on sterilization of fermentation mashes, 24:20832(P)
effects on storage life and organoleptic properties of gwynaids, 24:34822
effects on storage life and wholesomeness of fish, oranges, sausages, and wheat, 23:29937
effects on storage life and wholesomeness of foods, 21:26743
effects on storage life and wholesomeness of fresh beef, 24:32284(R) (COO-1689-5)
effects on storage life and wholesomeness of fruits, meats, seafood, and vegetables, research programs in Japan on, 24:32311
effects on storage life and wholesomeness of onions, potatoes, and wheat, 25:32633
effects on storage life of food, comparison of, with other forms of ionizing radiation, 22:49669
effects on storage life of foods, 22:52061 (CONF-670945)
effects on storage life of fruits, meats, and vegetables, economic aspects of, 25:32636
effects on storage life of oranges, commercial application of, 22:8679
effects on storage life of packaged chipped potatoes, 25:47076
effects on storage life of vegetables, 21:26739
effects on storage quality of potatoes, fast, 21:24701
effects on stored energy in platinum at 3 MeV and less than 40°K, 25:13722 (JUL-658-FN)
effects on strength of glass plastics, 24:48912
effects on strength of monocrystalline bcc iron, 25:19252 (COO-1367-36)
effects on strength of polychlorotrifluoroethylene and polytetrafluoroethylene, 22:12372
effects on stress-rupture stability of thermoplastics by cross linking, 25:2249
effects on structural properties of polyethylene at 100 to 3000 eV, 25:6350
effects on structure and properties of cis-butadiene rubber, 25:19300
effects on structure of aluminum—copper alloy at 100 to 300°C, 21:43643 (JUL-448-RW)
effects on structure of amine-reinforced ED-5-type resins, 25:2273
effects on structure of cesium uranyl nitrate monocrystals, ESR spectral studies on, 22:47151
effects on structure of clays and minerals, 23:30197
effects on structure of iron, 23:3103
effects on structure of martensite lattice in steel—uranium alloy, 25:2764
effects on structure of polycrystalline barium titanate at 4 MeV, (E), 22:29588
effects on structure of rubber at low temperature, spectral studies on primary and secondary processes in, 22:21098
effects on styrene polymers, variation in low-temperature thermal properties due to radioinduced cross-links from, 22:22212
effects on styrene, intermediate species produced by, 21:23929
effects on subsequent graft polymerization of ethyl acrylate with cellulose fibers, properties and structure of elastomers produced by, 24:27141
effects on subsequent grafting of methyl methacrylate on polyethylene, effects of specific surface area on, 25:31966
effects on subsequent polymerization of starch with acrylamide or acrylic acid, 23:24257
effects on subsequent polymerization of trioxane, pilot scale studies on, 24:31389
effects on subsequent polymerization of vinylpyrrolidinone on silicone, 24:13925
effects on superconducting upper critical field of niobium at 3 MeV, annealing of, 24:21736
effects on superficial tumors of man, factors affecting dose distribution in therapeutic high-energy, 22:51754
effects on superfluid helium, uv emission from, 24:21723
effects on surface atoms, kinematics of desorption by emerging high-energy, 22:36731
effects on surface contamination of carbon, effects of size of electron beam on, 22:16576
effects on surface electrodesorption of gas from nickel and titanium in 10^{-6} to 10^{-7} torr, analysis of, (E), 22:52215(T) (SLAC-Trans-86)
effects on surface plasmon induction in silver, radiative decay from, (E/T), 24:24144
effects on surface potential of metals in vacuum, (E), 22:36744
effects on surface properties of germanium p-n junction photovoltaic cells at 250 keV, (E), 21:11693(R) (N-66-33388)
effects on surfaces and deposit epitaxy of sodium fluoride substrates at 0.2 to 1 keV, 25:56322
effects on surfaces of silicon MOSFET, 21:14522
effects on surfaces of tissue cultures, primary and secondary fast, 21:45760
effects on surrounding tissues during human tumor therapy, effects of body inhomogeneities on, 25:58141
effects on survival of animal cells, RBE for, 22:31274
effects on survival of bacteria and yeasts, RBE for γ, 20-MV photons, and 20 MeV, 22:38503
effects on survival of cells and viruses, effects of LET on, 22:47647
effects on survival of cultured cells, effects of pulsing on 8 to 14 MeV, 23:45874
effects on survival of cultured hamster cells, effects of dose and energy range on, 24:9913
effects on survival of Escherichia coli, effects of oxygen on acute, 22:49462
effects on survival of Escherichia coli, effects of oxygen concentrations on high energy pulsed, 24:29897
effects on survival of Escherichia coli, effects of oxygen concentration on pulsed, 23:50944
effects on survival of HeLa cells, 24:6056
effects on survival of HeLa cells in polystyrene phantoms, effects of dose on biological 20-MeV, 22:28380
effects on survival of Hela cells, effects of 10 MeV dose on 10 nanosecond pulsed, 24:51017
effects on survival of HeLa cells, effects of dose-depth and oxygen content on high-energy, 23:11993 (NYO-910-75, pp 26-31)
effects on survival of mice, effects of oxygen on, 25:46893
effects on survival of mice, RBE for 21-MeV photon and 20-MeV, 22:38277
effects on survival of mice, RBE for x radiation and, 21:34788
effects on survival of Photobacterium, effects of dose rate per pulse on, 25:19154
effects on survival of soil microorganisms, 21:20031(R) (UCB-34-P-50-3)
effects on survival of yeasts in glucose media, effects of dose fractionation on, 23:43912
effects on survival of yeasts, effects of oxygen abundance on 12 MeV, 24:34747
effects on sympathogoniomas in children of man, post operative therapeutic, 22:51711
effects on synthesis of carotenoids in Japanese persimmons, effects of dose on, 25:57926
effects on synthesis of DNA in human lymphocytes, effects of anoxia and phytohemagglutinin on, 23:41246
effects on synthetic diamonds at 3.5 MeV, 25:22626
effects on tantalum foils at 1.0 to 3.2 MeV, anisotropy of swelling energy for production of Frenkel defects in, 25:59125 (JUL-729-FF)
effects on tantalum foils at 1.2 and 3 MeV at 4.5°K, influence of spontaneous recombination processes on Frenkel defect production in, 25:36273
effects on tantalum oxide films, 24:23515
effects on tellurium at 0.6 and 1 MeV and 10°K, annealing recovery of, 25:56306
effects on tellurium-doped germanium, 24:19954
effects on temperature characteristics of silicon semiconductor strain gage at 2 MeV, 22:47444 (N-68-25414)
effects on temperature of bombarded body, mechanism of, (T), 21:20725 (CEA-R-3139)
effects on temperature rise in thin metallic foils, (T), 25:716
effects on tensile properties of aluminum single crystals at 1 MeV, 23:12372 (COO-1367-22)
effects on tensile properties of aluminum—zinc alloy at 20°K, 22:719
effects on tensile properties of aluminum—zinc alloy single crystals at 1 MeV, 23:12372 (COO-1367-22)
effects on tensile properties of cotton, rayon, and other textiles, 23:17449 (JAERI-5018, pp 1-4)
effects on terphenyls at 150 to 350°C, 23:329
effects on terphenyls, effects of partial hydrogenation on, 23:330
effects on testes of mice, RBE of, 22:36400
effects on tetrahydronaphthalene, 21:23988
effects on tetrahydronaphthalene, 22:4219
effects on thermal annealing of neutron-irradiated potassium chromates, chemical effects of, 22:27827
effects on thermal conductivity at 5 to 80°K of antimony-doped n- and p-type germanium, 21:37590
effects on thermal conductivity of antimony-doped germanium at 4 MeV, 25:33403 (CEA-CONF-1745)
effects on thermal conductivity of cadmium sulfide at low temperatures, relation to defect formation and mobility, (E), 22:39211
effects on thermal control coatings, 23:44025 (N-69-23865)
effects on thermal control materials, 23:41760 (N-69-24925)
effects on thermal conversion of interstitials in polycrystalline copper at 78 to 400°K, internal friction study of 1-MeV, 25:24605 (COO-1800-15)
effects on thermal oxidation of benzene with oxygen, 25:26284
effects on thermal reflectance of Alzak, Kapton, white paint, and Teflon at 35 KeV, 25:786 (N-70-32499)
effects on thermoluminescence of 4,4'-dimethylbenzophenone, 21:111
effects on thermoluminescence of beryllium complexes with 2,4-pentanedione, 24:11577 (JAERI-5022, pp 175-9)
effects on thermoluminescence of polystyrene, p-terphenyl, and their mixture in solid solutions, 23:17459 (JAERI-5018, pp 61-2)
effects on thermoluminescence of thermoluminescent dosimeters, predose influence on, 23:7829 (CONF-680920-, pp 364-88)
effects on thick silicon targets, x-ray spectra from, 21:6978 (NASA-TN-D-2773)
effects on thin films of 1-hexene, at 77°K, yields from, 24:27154
effects on thin films of ethane and ethylene, 22:14552
effects on thin-film capacitors, 22:710(R) (AD-648742)
effects on thin-film solar cells at 425 keV to 1.5 MeV, 24:33983
effects on thin-film solar cells, (T), 21:16848
effects on thiol content of subcellular organelles from liver of rats, 22:19247
effects on thoria single crystals grown from different fluxes, ESR spectra of centers induced in, 24:51798
effects on thulium (III) dopant in calcium oxide and strontium chloride crystals of 1.7-MeV, reducing, 23:1560
effects on thymine dimers in aqueous solutions, 22:51038
effects on thymine dimers in Escherichia coli, fast, 22:45445
effects on thyroid tumors in man, combined effects of surgery on therapeutic fast, 22:51729
effects on tissue physiology of citrus fruits, 25:27135 (IAEA-R-362-F)
effects on tissues of lungs of rabbits, effects of dose on pathological, 25:16305(T) (LF-tr-33)
effects on tissues, discussion of, 22:25911
effects on tissues, review of RBE for, 24:27655(T) (AD-699247)
effects on tissues, theoretical derivation of parameters for, 25:24280
effects on titanium—beryllium and titanium—magnesium oxide shf energy absorbers, 22:1343
effects on toluene solutions of deuterated naphthalene at -180°C, 23:40688
effects on tongue base tumors in man, comparison of x ray-to therapeutic betatron, 22:51735
effects on tongue base tumors in man, comparison of photon-to therapeutic high-energy, 22:51735
effects on toxicity of foods, 23:12252(T) (ORNL-IIC-14, pp 67-81)
effects on toxins of Clostridium botulinum, effects of dose on inactivating 4 MeV, 24:48765
effects on transforming ability of DNA from vegetative cells and spores of Bacillus subtilis, effects of oxygen or saline solutions on, 22:16984
effects on transient ionization in silicon at 48 MeV, 21:6377
effects on transient processes in semiconductors, 21:22224
effects on transistor gain, current component analysis of, 21:6385
effects on transistorized circuits at 55 MeV, 21:1954(R) (AD-641164)
effects on transistors, 22:413 (AD-648236)
effects on transistors, 21:36475 (NP-16772)
effects on transistors and solar cells, 22:19231
effects on transport processes in erythrocyte membranes, 21:28345(R) (UCB-34-P-136-1)
effects on trifluoroacetamide single crystals, 21:28034
effects on triglycerides, 21:25877
effects on trypsin and constituent amino acids, 24:600
effects on tumors in body of man, effects of density of tissue on treatment planning for therapeutic, 22:51749
effects on tumors in man, comparison of therapeutic, with high energy x rays, 23:6543
effects on tumors in man, dose schedules for therapeutic, 23:6544
effects on tumors in man, effects of irradiation rhythm on therapeutic high-energy, 22:51750
effects on tumors in man, symposium on therapeutic high energy, 22:51681
effects on tumors in man, therapeutic betatron, 23:6525
effects on tumors of eyes in man, therapeutic high-energy, 22:51744
effects on tumors of maxillary antrum in man, effects of wedge filters on dose distribution during therapeutic high-energy, 22:51740
effects on tumors of nasopharynx, therapeutic high-energy, 22:51741
effects on tumors of tongue in man, techniques for therapeutic high-energy, 22:51737
effects on tumors, development of skin reactions following therapeutic high-energy, 22:51756
effects on tumors, effects of dose on high-energy, comparison with effects on normal tissue, 23:41398
effects on tumors, performance of 42 MeV betatron as source for therapeutic, 22:23575
effects on tumors, repair of, 22:38447
effects on tungsten at 250 MeV, field-ion microscopic study of defects induced in, 25:49989
effects on tungsten surface atoms, desorption, 21:33530
effects on tungsten surfaces, desorption of ions and molecules from adsorbed gases by, (E), 24:51185
effects on tungsten, low temperature recovery from, 23:22605
effects on tunnel diode built-in voltages, 21:8665

effects on uranium at 7°K and 1.7-MeV, annealing of, (E), 22:28871
effects on urease activity in soils, tracer study determination of, 24:25404
effects on valence changes in europium ions in thorium oxide, ESR spectral studies on, 23:44495 (TID-25126)
effects on valence changes in thulium and ytterbium ions in calcium oxide and strontium chloride hosts, ESR spectral studies on, 23:44495 (TID-25126)
effects on valine, ESR study of free radical conversion processes in, 24:36318
effects on vapor-phase polymerization of monomers on polymers, 21:30463
effects on viability of bacteria and viruses on plastic syringes, 22:19463
effects on viscosity-dependent ion recombination luminescence in paraffin oil and squalene at 215 to 298°K, 23:7568
effects on vitamin E content of foods, effects of oxygen on, 24:48409
effects on vitamin E in foods and on tocopherol solutions, 24:44645
effects on void formation in cobalt at 1 MV, 25:58325
effects on void formation in copper at 1 MV, (E/T), 25:58327
effects on void formation in metals, comparison with heavy ions and neutrons, 25:47142 (BNWL-SA-3966)
effects on void formation in neutron-irradiated nickel, 25:58333
effects on void formation in neutron-irradiated nickel, 25:58330
effects on void formation in nickel in high-voltage electron microscope at 280 to 600°C, 25:58328
effects on void formation in solids in high-voltage electron microscope, (T), 25:58316
effects on void formation in stainless steel at 1 MeV, relations with helium content, 25:58329
effects on void migration in molybdenum at 2 MeV, Stage III annealing mechanisms of, 24:39676
effects on void production in argon ion-bombarded nickel at 1 MV, 24:44750
effects on void swelling in nickel and stainless steel, high-voltage electron microscope, 25:40090
effects on void swelling in nickel in high-voltage electron microscope, 25:58326
effects on volt—ampere characteristics of gallium arsenide p—n junctions, (E), 21:21075
effects on volume of single-crystal magnesium oxide, 23:41681(R) (COO-1161-6)
effects on vulcanization of latex rubber at 2 to 10 MeV, design of continuous irradiation facility for studying, 25:44497(P)
effects on vulcanization of rubber, 25:34632
effects on vulcanization of rubber at 20 to 30 MeV, 22:21101
effects on vulva carcinomas, therapeutic fast, 22:28587
effects on vulvar carcinomas in man, combined effects of surgery on therapeutic high-energy, 22:51719
effects on vulvar carcinomas in man, therapeutic high-energy, 22:51720
effects on Walker sarcomas of rats, 9-MeV, 22:51901
effects on water and aqueous solutions of aromatics, 24:36263(R) (AE-397)
effects on water vapor at 100 eV, 24:13972
effects on water vapor, review on, 25:10651
effects on water, effects of temperature on absorption spectrum of hydrated electrons from, 25:54658
effects on water, nature of molecular hydrogen precursor in, 21:45145 (ORNL-4164, pp 35-45)
effects on water, origin of free radical production in, 21:21963 (BNL-994, pp 3-19)
effects on weight of testes of mice, oxygen enhancement ratio for, 25:24389
effects on wholesomeness of dehydrated and fresh carrots, effects of dose on, 23:29942
effects on wholesomeness of fish, fruits, meats, and vegetables, 2 MeV, 23:26979
effects on wholesomeness of foods, 21:28712
effects on Wilm's tumors in children of man, preoperative therapeutic, 22:51711
effects on wood—monomer combinations, 21:38986
effects on x-radioinduced breaks in DNA of mammalian cells, 25:16217 (UR-49-1389)
effects on yield of water-extractable matter from tea leaves, 22:36425(P)
effects on Yoshida sarcomas in rats, effects of demethylchlortetracycline on fast, 24:44529
effects on zinc at 0.4 to 1.7 MeV and low temperatures, 25:36288
effects on zinc oxide at 2 MeV, ESR spectrum of F⁺ centers produced in, 24:15400
effects on zinc single crystals at 0.4 to 3.5 MeV, 25:47150
effects on zinc sulfide at 8 MeV, ESR study of defects from, (E), 24:40176
effects on zinc sulfide crystals, threshold energies of trapping centers induced in, (E), 24:45332
effects on zinc sulfide single crystals, ESR signals from 5-MeV, (E), 23:36793
effects on zinc telluride, decay of luminescence in, 24:19942
effects on zinc, production rates and threshold energies for atomic displacements from, (E/T), 22:31930 (BNL-50083, pp 314-26)
effects on zirconium at 0.5 to 1.7 MeV at low temperatures, annealing of Frenkel defects induced in, 25:33416
effects on zirconium at 1.5 MeV, annealing kinetics of low-temperature, 24:42783
effects on zirconium, low-temperature recovery of electric resistivity from, 22:24446
effects on zone-refined nickel, recovery stages in annealing of, (E), 22:28870
eigenfunctions for, in field of stationary finite electric dipole, 24:18045 (ORNL-4431)
eikonal functions in electrodynamics, radiative correction to, 24:37700
ejection by ion bombardment from adsorbed gases, model for, 22:11539
ejection from atomic shells in ionization processes, calculation using sudden approximation, 22:26252
electric charge and flux quantization for, electromagnetic coupling constant from, 25:14618
electric charge of, constancy of, 22:5131
electric charge of, constancy of, (T), 25:19883
electric charge of, cosmological consequences of deficient, (T), 22:31564
electric charge of, testing time invariance using uranium-238 spontaneous fission, (E), 22:14033
electric charge of, time variation of, 22:5132
electric conductivity and thermoelectric power in degenerate gas of, (T), 22:1327
electric dipole moment of free, new upper limit for, 21:41763
electric dipole moment of, (E), 21:5348
electric dipole moment of, model for CP violation with intermediate vector boson for, (T), 23:16950
electric dipole moment of, observation of v x E effect in measuring, 21:37167
electric dipole moment of, upper limit for, (E), 22:44375
electric dipole moment of, upper limit for, review, 24:19734
electric dipole moment of, upper limit from atomic-beam magnetic-resonance experiments, 23:5224
electric dipole moment of, upper limit from atomic-beam magnetic-resonance measurements, 24:1270
electric dipole moments in atoms, calculation of amplification coefficients for, 23:39308
electric dipole moments of, contribution to electric dipole moments of one-electron atoms, (T), 22:29182
electromagnetic coupling constant for, (T), 23:18757
electromagnetic radiation pressure on free, in spectral field of radiation, (T), 25:53084
electromagnetic self-field of, static, (T), 24:3585
electromagnetic wave scattering at high energies by, polarization parameters of photons emitted from intense, 23:51900
electromagnetic wave scattering by free, classical theory of intensity-dependent frequency shift in, 22:29604
electromagnetic wave scattering by free, effect of radiation reaction on nonlinear, 21:24940
electromagnetic wave scattering by free, effects of constant uniform magnetic field on, (T), 22:5477
electromagnetic wave scattering by free, frequency shift in, 22:17371
electromagnetic wave scattering on free, frequency mixing in, (T), 22:13612
electromagnetic wave scattering on free, frequency mixing in, (T), 22:13613
electromagnetic wave spectra in degenerate fluid in magnetic field, 22:29655
electromagnetic-wave scattering by bound, double scattering effects in, (T), 25:19949
electron paramagnetic resonance study of hydrated, from pulse radiolysis of aqueous solutions of methanol, 22:42790
electron spin resonance spectra of trapped, in gamma-irradiated 3-methylpentane, 21:8353
electronic properties of solvated, effects of dielectric saturation on, 22:42784
electrostatic field of ions loaded in toroidal configuration of, 22:46612 (UCRL-18103, pp 291-7)
electrostatic field of toroidal configuration of, amplitudes of oscillations for positive ions in, 22:46609 (UCRL-18103, pp 273-4)
emission at 40 keV during solar flares, (E), 24:35100
emission by 400-eV electron-excited silicon and germanium, effects of temperature and free carrier density on secondary, 25:13967
emission by alkali metal halides bombardment by inert-gas ions and atoms, 25:35840
emission by aluminum and gold excited by keV x rays, (E/T), 24:37192
emission by argon ion-bombarded copper (100) face, effects of incident angle on kinetic, (E/T), 22:44212 (NP-17564)
emission by beryllium oxide of exo-, diffusion-controlled self-excitation in, (E), 23:25432
emission by dielectrics irradiated by 1-MeV electrons, (E/T), 23:7058
emission by faces of niobium single crystals, parameters of thermionic, (E), 22:46268
emission by gadolinium and terbium, energy spectra of photo-, 24:24139
emission by germanium and gold films excited at 1.5 to 8 keV, spectra of secondary and photo-, 23:5207
emission by ion-bombarded copper crystals, angular and energy dependences of secondary, 25:38135
emission by metals irradiated with gamma rays and electrons, low-energy, (E), 25:22617
emission by molecular crystals, compressed-gas model of secondary, (T), 24:46994
emission by molybdenum bombarded with rare gas ions, effects of adsorbed monolayers on, 24:24131
emission by molybdenum single crystals, energy dependence and anisotropy of yields of secondary, 24:46993
emission by niobium single crystals bombarded by 25-keV argon ions, angular distribution of secondary, 25:13969
emission by pure and doped calcium sulfate of exo-, radiation effects on, 23:40769 (RT/FI-(70)41)
emission by pyrolytic zirconium-carbide and tungsten coatings, thermal, 23:51056
emission by rhenium—tungsten and iridium—tungsten couples at 1600 to 1800°C, effects of interdiffusion on, 23:48478
emission by silicon single crystals, effects of incident electron energy (100 to 2000 eV) on angular dependence of secondary, 23:5460
emission by surfaces of irradiated γ-alumina, 23:23281
emission by tantalum boride coatings and pressed cathodes, thermal, 23:51127
emission by tungsten (100) surface bombarded by protons at 50 to 225 keV, (E), 22:17402
emission by uranium dioxide surfaces of secondary, energy distribution of, 24:28074
emission characteristics from Sun, (E), 25:49659
emission current of relativistic, space charge effects on field, (T), 24:8551
emission during melting and solidification of metals, 21:1909
emission during solar flares, relation to x-ray bursts, (E), 23:36426
emission from (110) and (111) faces of molybdenum single crystals bombarded with helium and argon atoms and ions, (E), 22:50253
emission from arbitrary surfaces in nonstationary case, space charge and electric field effects on, (T), 21:24146
emission from argon ion reactions with copper at 20 to 80 keV, 21:13385
emission from barium oxide—uranium oxide dispersions in tungsten, thermionic, 21:27034
emission from baryon leptonic decay, correlation with baryon polarization, (T), 21:35291
emission from copper and gold single crystals bombarded by argon ions, temperature dependence of angular dependence of secondary, (E), 25:49700
emission from copper single crystal bombarded by argon, ions, energy—angular distributions of, 24:21878
emission from electron-irradiated potassium chloride and sodium chloride single crystals, kinetics of photostimulated, (E), 22:41655
emission from erbium, scandium, and yttrium at 1150 to 1500°K, 22:4783
emission from films bombarded by sodium ions and atoms at 30 to 2500 eV, 25:33053
emission from gases under 300-keV to 1.7-MeV proton bombardment, angular and energy distributions, (E), 24:49014 (BNWL-1307(Pt.2), pp 52-4)
emission from germanium bombarded by rare-gas ions, 25:59175
emission from germanium bombarded by rare-gas ions, angular dependence of secondary, (E/T), 25:59146
emission from germanium single crystal, effects of temperature and ion bombardment on angular distribution of secondary, 23:30622
emission from germanium single crystals bombarded with hydrogen and helium ions, secondary, 24:10364
emission from germanium-76 double beta decay, germanium detector study of lepton nonconservation in, (E), 22:7432
emission from guns, mechanisms in field, 24:31159 (COO-1721-23)
emission from ion-bombarded crystals, use in structure determinations, 21:26858
emission from ion-bombarded molybdenum and tantalum surfaces, (E), 22:7352 (RT/EL-(67)8)
emission from K shell of lead by photon scattering at 279 keV, (E), 21:31249
emission from laser scattering on solids, 21:9298
emission from materials, manual of tables on, 25:56346
emission from metal surfaces, determination of work-function distribution for patchy, 21:29075 (UCRL-17437)
emission from metals bombarded by protons at 0.12 to 5 keV, secondary, 25:40341
emission from molecular beam scattering on tungsten surface, secondary, (E), 21:39832
emission from molecules by photons in relation to primary biological effects, 21:22249
emission from molecules, angular distribution of photo-, (T), 23:1190
emission from niobium single crystal bombarded by 25-keV argon ions, anisotropy in angular distribution of secondary, (E/T), 25:49701
emission from plasma vacuum sparks, properties of, 21:29275
emission from plastically deformed, x-irradiated monocrystals of sodium chloride, 21:18821
emission from polycrystalline molybdenum, effects of oxidation on, 22:7012
emission from radio galaxies, origin of x-ray background in, (T), 25:11657
emission from refractory surfaces in cesium vapor, (E), 22:24454
emission from rhenium-base alloys, thermal, 22:4782
emission from solar flare of July 7, 1966, spatial gradient of, (E), 23:22814
emission from solar flares of May 23 and 28, 1967, (E), 23:27289 (N-69-10670)
emission from solar flares, (E), 22:879
emission from solar flares, (E/T), 25:4927
emission from solids by atomic bombardment, statistics, 22:44239
emission from solids, kinetic secondary, 22:5103
emission from Sun during the period Jan. 24 to Feb. 24, 1967, 23:16593 (N-68-31506)
emission from surface of body in plasma, instability of disturbed zone near body in presence of, (T), 21:46249
emission from surface of single-crystal films bombarded by fast ions, theory of spectrum of, 24:25954
emission from terrestrial and lunar minerals of thermally stimulated exo-, 24:28069 (ORNL-TM-2869)
emission from thin films, research program on vacuum-uv photo-, 25:30665(R) (UH-235-P-9-2)
emission from tungsten single crystals, 1- to 4-keV positive rare-gas-ion-induced, (E), 23:42397
emission from tungsten under proton bombardment, effect of nitrogen adsorption on, 21:14952 (SC-R-67-1038)
emission from tungsten-clad urania and uranium carbide—zirconium carbide elements, 21:3544 (N-66-29388)
emission from Vela X, (T), 25:9256
emission from x-irradiated fluorides of barium and strontium, photo- and thermostimulation of, (E), 22:31969

emission from x-irradiated surfaces of solids of exo-, (T), 21:16988
emission from x-irradiated surfaces of solids, impurity detection from exoelectron, (T), 22:26454(T) (UCRL-Trans-10225)
emission in ion bombardment of alkali metal halide single crystals, temperature dependence of, (E), 21: 37597
emission in ion reactions with gas-coated surfaces, model for, 22:11560
emission in ion—metal reactions as function of angle of incidence, (E), 21:11456
emission in July 7 to 9, 1966 solar flare, greater than or equal to 54-keV, (E), 22:43792
emission in metals in electric field, many-body effects on, (T), 25:33476
emission in μ^-, μ^0, π^-, π^+, and π^0 decay, formula for kinetic mass for, 22:29646
emission in proton reactions at 50 to 225 keV on (100) surface of tungsten, (E), 21:13350 (SC-DC-66-1559)
emission in reactions of 30-keV rare gas ions with copper, effects of target orientation and temperature on, (E), 21:16989
emission in solar flares, 22:8974
emission in solar flares, (T), 23:27288 (N-69-10668)
emission of > 40-keV, in solar flares, (E), 22:49976
emission of 10- to 100-keV, during solar flares, (E), 25: 35726
emission of 40-keV, in solar flares, (E), 25:13894
emission of auroral-zone precipitation, relation to vlf chorus, (E), 22:22051
emission of auroral-zone, detection of microburst, (E), 22:22052
emission of exo-, development of dosimeters based on thermally-stimulated, 23:9939 (ORNL-4316, pp 231-69)
emission of exo-, during oxygen and water chemisorption on magnesium surfaces, 25:19758 (ORNL-4584, pp 74-86)
emission of exo-, from alkali halide crystals, (E), 25: 43489
emission of exo-, from Apollo 12 samples, thermally stimulated, (E), 25:4935 (ORNL-TM-3131)
emission of exo-, from electron-irradiated aluminum and silver, (E/T), 25:49712
emission of exo-, from Geiger-Mueller detectors during operation with reversed potentials, 22:16873
emission of exo-, from rocks, use in study of trapping energy, 21:183
emission of exo-, radiation dosimeter based on thermally-stimulated, 23:700
emission of exo-, use as principle in radiation dosimetry, 23:24472
emission of exo-, use of methane flow detector for evaluating performance of dosimeters based on, 23: 24445
emission of photo-, from hot spherical body in plasma, (T), 21:5251
emission of relativistic, during proton flare of July 7, 1966, (E), 23:22832
emission of relativistic, from solar flares, (E), 23:10408
emission of secondary exo-, mechanism for, (E/T), 24: 35158
emission of secondary, at 1.5 to 7 GeV from single metal foils, 23:29148 (DESY-69/12)
emission of secondary, by high-energy neutral atoms in rf gas discharge, 22:52546
emission of secondary, by x-irradiated metallic targets, 24:4986 (UCRL-50691)
emission of secondary, from alpha particle and fission fragment motion in thin films, 23:46245
emission of secondary, from aluminum alloys, effects of lanthanum and magnesium on, 24:4784
emission of secondary, from aluminum foils, influence of electric field on, (E), 25:43101(T) (SCL-T-69-256)
emission of secondary, from atomic hydrogen and nitrogen scattering on metals, 21:13348 (ORNL-4063, pp 71-87)
emission of secondary, from carbon and metals bombarded by ion beams at 2 to 40 keV, 24:10369
emission of secondary, from electron—potassium reactions, (E), 21:7363
emission of secondary, from molybdenum bombarded by multiply ionized noble gases, 23:16636
emission of secondary, from targets bombarded by mercury ions, 25:13971
emission of secondary, in argon atom and ion reactions with gas-covered surfaces, (E), 22:17409
emission of secondary, in electron beam scattering in thin silver films, (E), 21:41796
emission of secondary, in heavy ion irradiations, (T), 21: 5067 (UCRL-16405(Rev.))
emission of secondary, in ion bombardment of intermetallic BeCu at 0.3 to 3 keV, 21:16968
emission of secondary, in ion bombardment of intermetallic Cs_3Sb and Cs_3Sb at 0.5 to 3 keV, 21: 16969
emission of secondary, in ion bombardment of metallic crystals, (E), 21:25197
emission of secondary, in ion bombardment of metallic crystals, (E), 21:25199
emission of secondary, in low-pressure discharges by metastable nitrogen molecules, (E), 22:9378
emission of secondary, in rare gas-ion reactions with metals, (E), 22:29213
emission of secondary, in reflection of fission fragments and alpha particles by aluminum/alumina, 24:44976
emission of secondary, proton beam monitoring by measuring, 21:41202 (CERN-67-17)
emission of secondary, statistics of, 24:29497 (KAPL-P-3879)
emission of solar, relation to solar x-ray and radio bursts, (E), 22:19685 (CONF-670953-1)
emission of suprathermal, during solar storm activity, (E), 25:22315
emission of two or more, in photoionization of argon, helium, and neon, probability of, (E), 21:22987
emission processes of, secondary, 22:40424
emission spectra of exo-, from metal surfaces, (E/T), 24: 35160
emission spectra of graphite conduction band states, secondary, 25:19864
emission spectra of secondary, from yttrium and lanthanum, (E), 22:34762
emission spectra of silicon and germanium induced by gamma rays, Monte Carlo calculations, 25:22619
emission yield calculations of secondary, from sodium excited by fast electrons, 23:18419
emission, thoriated thermionic system for, 21:20804(R) (AD-640184)
energies of relativistic, in vicinity of Jupiter, (E), 25: 22346 (N-71-10051)
energy absorption profiles in aluminum and copper at 1.5 MeV, thermoelastic response measurements of, 25: 8569
energy and angular distribution of, from proton reactions with gaseous targets, 23:13974 (BNWL-715(Pt.2), pp 181-225)
energy and distribution in solar atmosphere, Compton effect on relativistic, (T), 21:24871
energy and distribution in transition region and magnetosphere, 21:15023 (LA-DC-6769)
energy and equation of state of quantum gas of, (T), 21: 18869
energy and flux variations of auroral, 22:5251
energy and intensity in magnetosphere, OGO 3 measurements of, 21:23113
energy and lifetime of relativistic, in non-thermal radio sources, (T), 22:17334
energy and pitch-angle distribution of, during ionospheric vlf emissions, (E/T), 25:7236
energy deposition in solid radiation-sensitive plastics as function of charge fluence, 25:22570 (SC-RR-70-427)
energy deposition profiles in radiation-sensitive plastics of pulsed, 25:22575
energy deposition—depth distributions in aluminum at 0.50, 0.75, and 1.0 MeV, 25:22574
energy dispersion in transmission by thin foils, (E/T), 23:30625
energy dissipation in matter near plane and spherical interfaces, model for, 25:27835
energy dissipation in the Galaxy and Metagalaxy of cosmic, (T), 21:634
energy distribution and yield of secondary, from normal and sodium-covered germanium, 21:26999
energy distribution from p + anti p at rest, (T), 21: 33066
energy distribution in cosmic radio sources, derivation from synchrotron spectrum, (T), 23:51226
energy distribution in gases in electric fields, stochastic simulation of, 22:26253
energy distribution in gases, analysis of kinetic, 21: 18434
energy distribution in ionosphere, probe system for measurement of, 22:1067
energy distribution in magnetosphere, 21:24975 (N-67-11369)
energy distribution in plasma, perturbation by probes, (T), 21:3834
energy distribution in shielding, absorption method for determining, (T), 25:7433
energy distribution in thermionic converter, effects of excitation relaxation on, (T), 25:9267
energy distribution of 6.74-MeV, after passage through metal films, (E), 24:24219
energy distribution of, from helium and neon ion collisions with helium, (E), 21:2033
energy distribution of, from x irradiation of alkali metal halides, (E), 21:37607
energy distribution of, producing solar microwave and x-ray bursts, (T), 22:15297
energy distributions from reactions of helium and neon ions with helium, (E), 21:46165
energy distributions in magnetotail, (E), 22:15431
energy distributions in rare gases in dc electric fields, tabulation of calculated steady-state, 21:22973 (RT/FI-(66)35)
energy eigenfunctions and eigenvalues for ground-state, in electric-dipole fields, (T), 23:12993 (ORNL-4297)
energy eigenvalues for, in electric dipole field, variational method for calculation of, 25:12056
energy flux at 120 to 178 km, soft, (E), 25:9345
energy flux at 6.6 R/sub E/ during magnetopause crossings, effect on electric fields, (E), 25:16941
energy flux in radiation belts in 1966, fast, (E), 25:9354
energy in active auroras, rocket measurements of, 21: 39933
energy in extensive air showers, inelastic effects of longitudinal component of, 24:19784
energy in intense magnetic fields, radiative correction to ground-state, 24:13007
energy in outer radiation belt, effects on intensity maxima, (E), 21:43940
energy in Penning discharge in argon and xenon, estimation of, 21:27200
energy in quantum electrodynamics, renormalization functional relations for solution of self-, 25:9848
energy level structure of, in metals, (T), 21:5320(R) (COO-623-115)
energy levels and charge distribution of hydrated, 23: 35144
energy levels and charge distribution of hydrated, 22: 42784
energy levels in Debye field, (T), 23:51657
energy levels in field of two fixed nuclei, WKB method for determining, 22:41288 (JINR-P4-3842)
energy levels of free relativistic, Rayleigh—Ritz method for stationary, 22:46501
energy levels of gases of, discontinuity of momentum distribution in ground state, (T), 23:21018
energy levels of metallic atom, relations with diffusional mobility, 24:21405
energy levels of, in magnetic fields, radiative self-energy of Landau, (T), 24:20006
energy loss and straggling in thick layers at 24.8 MeV, 25:45525
energy loss by fission fragments, approximation for, 21: 38385
energy loss calculations for 0.1- to 20-GeV, in semi-infinite slab of water, 22:2507 (ORNL-TM-2026)
energy loss distribution in aluminum, copper, gold, and silver at 1.52, 2.65, and 3.66 MeV, 22:19741
energy loss function in solid polystyrene, vacuum uv equipment for studying, 24:11575 (JAERI-5022, pp 165-8)
energy loss in aluminum and polystyrene at 0.45 to 0.75 MeV, 22:25711 (COO-78-163, pp 1-38)
energy loss in aluminum and polystyrene at 5 to 30 keV, 25:17257 (NIRS-9, pp 1-14)
energy loss in aluminum and polystyrene, effects of distance from source and energy level on determination of fast, 23:2740(R) (COO-78-174)
energy loss in aluminum at 10 to 20 MeV, (E/T), 22: 38801
energy loss in aluminum, mica, mylar, and polyethylene at 365, 626, and 972 keV, (E), 23:22885
energy loss in gold as function of sample thickness, (E), 23:3301
energy loss in inhomogeneous alloys, effects of elastic constraints on, 24:1043
energy loss in lead and tungsten targets, relativistic, 25: 49963
energy loss in light-oxidizable metals at 34 keV in ultrahigh vacuum, 21:3662
energy loss in magnetized HCR foil of helical, polarization straggling effect in, 25:30644
energy loss in matter at high energies, review of density effect in ionization, 24:37710
energy loss in nuclear emulsions at relativistic velocities, (E), 24:40234
energy loss in solids under channeling conditions, dielectric approach to, 24:30411
energy loss in water, calculation from G-values and LET distribution, 24:44967 (EUR-4452, pp 479-92)
energy loss of 0.3- to 1.0-MeV, in aluminum foils, Monte Carlo calculation of total, 23:1743
energy loss of high-energy, from ionization in Ilford G-5 emulsions, (E), 24:51892
energy loss processes in metal films, review of optical emission studies of, 22:31922 (BNL-50083, pp 144-54)
energy loss spectra at 115 eV in anthracene, naphthacene, and pyrene, 25:13968
energy loss spectra at 37 keV in solid hydrogen, neon, and argon, 25:49699
energy loss spectra in alkali metal halides and copper, silver, and gold of 50-keV, and comparison with optical measurements, 21:3649
energy loss spectra in argon, (E), 22:19789
energy loss spectra in cesium at 145 to 3280 eV, (E), 21:21081
energy loss spectra in helium, instrumental effects in retarding field energy analyzer for measuring, 23: 26620
energy loss spectra in holmium, erbium, thulium, and ytterbium at 25 keV, 25:45529
energy loss spectra in matter, (E/T), 22:52492
energy loss spectra in ruthenium, rhodium, and palladium, 25:964
energy loss spectra in thin aluminum and lead films at 40 keV, temperature dependence of, 24:44983
energy loss spectra in vanadium and vanadium pentoxide, characteristic, 25:9583
energy loss spectra in water at 20 eV, 24:36265(R) (CALT-767-P-4-63)
energy loss spectra of fast, from carbon-covered silver foils, (E/T), 22:38771
energy loss spectra of osmium, characteristic, 24:44987
energy loss spectra of silver foils at 51 keV, comparison of calculated and measured, 24:46995
energy loss spectrum of 20-keV, in beryllium, (E), 22: 45938
energy loss to ionosphere of injected, (T), 22:15475
energy loss to surface excitations in thin films of ionic crystals and metals at 25 keV, (T), 25:4937 (IS-T-380)
energy losses from, passing through organic films, measurement of, 21:20074
energy losses in absorbers, method for measuring, 25: 38533
energy losses in aluminum and copper at 50 to 100 MeV, (E), 24:12625 (AD-691762)
energy losses in aluminum at 0.6 to 3 MeV, 25:25203
energy losses in beryllium films on gold backings at 6 keV, (E), 21:33196
energy losses in carbon films and graphite single crystals at 25 keV, spectra for loss range 20 to 400 MeV, (E), 25:9167
energy losses in copper and lead at 53, 75, and 93 MeV, distribution of, 24:30137
energy losses in copper and nickel, characteristic, 23: 23242(R) (ORO-2755-24)
energy losses in dielectric slabs, nonretarded and Cherenkov bulk, (T), 24:35156
energy losses in dysprosium and gadolinium at 60 keV, (E), 25:24875
energy losses in gadolinium, lead, and tin at 52 to 92 MeV, (E), 25:14392 (AD-711005)
energy losses in layered metallic thin films, 21:18839
energy losses in liquid aluminum—indium and bismuth—indium alloys at 8 keV, (E), 22:15371
energy losses in lithium fluoride crystal films due to surface vibrational modes, (T), 25:11677
energy losses in Lucite at 20 and 35 MeV, spectra of, 23:25742
energy losses in matter, review, 25:25203
energy losses in metals, temperature dependence of, 21: 594(R) (AD-632895)
energy losses in multilayered shielding materials, (T), 24:19936
energy losses in polystyrene films, ionization, (E/T), 22: 38729(T) (SLAC-Trans-82)

energy losses in single crystals, differentiation method for analyzing, 25:22349
energy losses in solid molecular films at low energies, spectrometer for measurement of, 25:52891
energy losses in solids, line shape for characteristic, (T), 22:17755
energy losses in strontium, measurement of, 22:50228
energy losses in thin aluminum films, surface effects on, (E), 22:52499
energy losses in thin films, quantum theory of, 25:22573
energy losses in thin foils, semiclassical formula including retardation for, 22:52534
energy losses in thin metal foils, double-plasmon excitation in, (T), 24:21876
energy losses in thin solid films, spectrometer for measurement of, 24:25336
energy losses in tissue-equivalent materials, calculation of, 23:16160 (CEA-CONF-1087)
energy losses in tissue-equivalent materials, calculation of, 23:45556(T) (ORNL-tr-2199)
energy losses of 51-keV, in silver and gold microspheres, 24:18032
energy losses of fast, (T), 24:28073
energy losses of, in ionosphere, (T), 23:34336
energy losses of, qualitative analysis by, 22:10176(T) (UCRL-Trans-10184)
energy losses to ionization at high energies in emulsions (E), 21:3972
energy measurement below 100 eV, apparatus for, 21:15570
energy measurement in ionosphere, experiment design for, 24:19808
energy measurement of 5 to 500 MeV/c, system for detecting transition radiation for, 23:7791(T) (NP-tr-1717)
energy measurements in bubble chambers, use of photons from decay of π^0 for, 23:47822
energy measurements of solar, near polar caps, 24:35089 (AD-701739)
energy of 20- to 50-MeV, use of transition radiation intensity for determination of, (E), 23:39653
energy of classical, Maxwell equations and special relativity for, (T), 25:27986
energy of cosmic, angular distribution in emulsions, (E), 21:33231
energy of fast, in initial stages of impulse spark in streamer chambers, 22:16905
energy of gases of, correlation, (T), 24:1494
energy of primary cosmic, electron—photon cascades in lead scintillator systems for determining, (E), 23:23326(T) (ORNL-tr-1892)
energy of radiating, in Type IV solar bursts, 24:3119
energy of, design and performance of calorimeter for measuring, 21:39305
energy of, electrostatic spherical analyzer for determination of, 24:41660
energy of, quantum electrodynamics for finite value of self-, (T), 25:9867
energy of, relation between renormalized and bare mass and charge in approximation for divergences of self-, (T), 25:1457
energy range in aluminum, factors affecting fast, 23:22890
energy relaxation in solid phases, 22:35829(R) (CALT-383-5)
energy selector for slow, design of, 23:7886 (CEA-R-3546)
energy shifts between conducting plates, quantum electrodynamics for, (T), 25:17451
energy spectra above 500 MeV, OGO-5 satellite data on cosmic, (E), 25:27575
energy spectra and flux of cosmic, Proton-1 and Proton-2 measurements of, 21:18478
energy spectra and flux of splash and reentrant albedo of cosmic, (E/T), 21:13408
energy spectra and fluxes of 30- to 300-keV, sounding rocket experiment for, 25:49798 (NP-18976)
energy spectra and fluxes of photo-, for pre-dawn and sunlit atmospheres, (E/T), 25:7243
energy spectra and intensities of low-energy, in magnetosphere, 21:11529
energy spectra and intensity of greater than or equal to 5-GeV cosmic, emulsion-detector study of, (E), 25:22385
energy spectra and lateral density distributions in near-vertical EAS, (E), 21:639
energy spectra and origin of cosmic, above 12 GeV, 21:37199
energy spectra and pitch-angle distribution in magnetosphere, (E/T), 24:30234
energy spectra and slowing down of secondary, from fast neutron—water reaction, 21:40058
energy spectra and structure deduced from magnetospheric vlf discrete emissions, Helliwell criterion for, (E/T), 25:30371
energy spectra at satellite altitude, ATS-B experiment for measurement of, (E), 24:12688 (N-70-11028)
energy spectra at sea level for 0.05- to 6.0-GeV/c cosmic, (E), 24:19792
energy spectra during auroral substorms up to 800 km, (E), 22:29367
energy spectra during magnetic storms, 21:37297
energy spectra from argon ion collisions with copper, (E/T), 22:5039 (NP-17144)
energy spectra in aluminum and graphite of, produced by bremsstrahlung reactions, (E), 22:3152
energy spectra in auroral zone, satellite measurements of, 22:5267
energy spectra in auto-ionizing states of oxygen, (E/T), 22:26256
energy spectra in cascade showers in intergalactic space, 21:13410
energy spectra in Coulomb field, equivalence of subclass of Feynman diagrams to Dirac equation for, 24:37716
energy spectra in electromagnetic and uniform magnetic fields, (T), 22:50262
energy spectra in inner radiation zone during Oct. 1963 to Dec. 1968, 24:17808
energy spectra in ionosphere from OV 1-2 spacecraft, 21:41893(R) (AD-648719)
energy spectra in ionosphere of 40- to 400-keV, (E), 25:11813
energy spectra in radiation belts, 21:5131 (N-66-30334)
energy spectra in silicon during gamma irradiation, calculation of, 21:7334 (N-66-27321)
energy spectra in upper atmosphere at intermediate latitudes, (E), 24:30223
energy spectra in Van Allen belt, Explorer-14 measurements of, 21:5140
energy spectra in water at 10 to 20 MeV, calculation of, 24:50920
energy spectra near earth's bow shock, Vela-4 measurements of, 24:17806
energy spectra of 0 to 20 keV, during auroral breakups, (E), 25:7309
energy spectra of 10- to 200-MeV primary, in interplanetary space, (E), 23:51410
energy spectra of 45 to 450 keV, Feb. 23 to Mar. 2, 1969 ESRO data at northern high latitudes of trapped and precipitated, (E), 25:27568
energy spectra of auroral zone, at 0.5 to 20 keV, (E), 24:17834
energy spectra of auroral, balloon measurements, 21:7100
energy spectra of cosmic solar, satellite observation of, (E), 25:27533
energy spectra of cosmic, above 200 GeV in emulsions, (E), 24:18064
energy spectra of cosmic, between 12 and 210 MeV, near Fort Churchill, Canada, summer 1968, 24:30173 (N-70-20441)
energy spectra of cosmic, in interstellar space and in vicinity of Earth, (T), 24:42547
energy spectra of cosmic, in range 70 to 2000 MeV, (T), 24:6388
energy spectra of delta, produced by fast charged particles in emulsions, 24:20064
energy spectra of disturbed and quiescent magnetospheric, differential, (E), 25:2950 (AD-709363)
energy spectra of emergent, in magnetosphere, 21:43905
energy spectra of extraterrestrial, at 70 to 2000 MeV, 21:29139
energy spectra of precipitated, in auroral zones, (E), 25:24985
energy spectra of precipitated-auroral, in presence of x-ray components, (E), 25:27549
energy spectra of primary cosmic, between 5 and 300 GeV, (E), 25:22376
energy spectra of radiating, effect on magnetospheric synchrotron radiation, (T), 25:35976
energy spectra of secondary, from barium oxide films as function of film thickness, 21:27244
energy spectra of secondary, in upper atmosphere, 21:9734
energy spectra of, emitted from photon irradiation of a molecular system, (T), 24:23731
energy spectra of, from argon—ion and proton reactions with argon, (E), 21:2035
energy spectra of, in water, effects of depth on, 22:31079
energy spectra of, use of spark chambers for measuring, 23:45552
energy spectra, flux, and densities in plasma sheet in earth's magnetic tail, (E), 21:11524
energy spectra, intensity, and pitch angle distribution in radiation belts, 21:9432
energy spectrum and flux of cosmic, at 42°N geomagnetic latitude, (E), 23:10464
energy spectrum and intensity of low-energy, incident at Fort Churchill, (E), 22:41478
energy spectrum at high altitudes of secondary, (T), 22:13285
energy spectrum for secondary, from charged α particles in aluminum foil, (T), 21:13352 (UCRL-16898, pp 87-96)
energy spectrum in distorted, one-dimensional, periodic lattice, (T), 21:35221 (NP-16782)
energy spectrum of 3.5 to 80 GeV, in primary cosmic radiation, (E), 22:21963
energy spectrum of cosmic, (E), 23:12598
energy spectrum of cosmic, and universal blackbody radiation at 3 deg K, 21:3704
energy spectrum of precipitating, dependence of intensities of auroral lines on, 22:2922
energy spectrum of primary cosmic, 21:43728
energy transfer between ions and, in plasma, (T), 21:7232
energy transfer to magnetic perturbations with application to geomagnetic tail, (T), 21:23068 (D-1-82-0589)
energy—ionization relation for relativistic, in emulsions, exact method for measuring, 24:12923
energy-dependent momentum transfer cross section for, in N_2, O_2, O, H, and He, (E/T), 21:3658
energy-deposition spectra in spherical volumes of water, Monte Carlo calculations of, 24:44968 (EUR-4452, pp 541-66)
energy-eigenvalue spectra in uniform finite and zero magnetic fields, (T), 24:6668
energy-exchange rate with protons in solar wind, collisional, (T), 22:21829
energy-loss distributions in aluminum and aluminum oxide at 20 keV, L-shell excitation from, (E), 22:17365
energy-loss factors in hot gases, method for measuring, 24:12789 (N-69-35413)
energy-loss functions for, in planetary gases, (T), 22:13243
energy-loss rates of slow, in hydrocarbon vapors, 24:38967
energy-loss spectra at 30 to 140 eV for CO_2, NO_2, and SO_2, (E), 25:40735
energy-loss spectra in germanium films, correction for plural scattering, 24:44986
energy-loss spectra in second- and third-series transition metals, (E), 23:6886
energy-loss spectra in thin films, multiple-plasmon effects in, (T), 25:14486
energy-loss spectra in tungsten single crystals, 25:22589
energy-loss spectra in yttrium, zirconium, niobium, and molybdenum at scattering angles 39 and 141°, 24:35155
energy-loss spectra of germanium, evidence for double plasmons in, 25:36257
energy-momentum tensor for, (T), 21:7553
engineering significance of, in studies of materials and processes, 21:26036
entropy of relativistic gas of, (T), 23:48600
equation of spinning, derivation of Schroedinger—Pauli, 21:3962
equation of state of relativistic gas of, in intense external field, (T), 23:18323
equations for relativistic, in quantum mechanics, 21:46447
equations of state with pair creation for, partially degenerate, (T), 22:49919
equilibrium with positrons in magnetic fields, (T), 24:46866
escape from irradiated water and ice, effects of dielectric relaxation on, 21:42984
escape of photo-, from ionosphere, (T), 22:47904
escape of thermal, in irradiated dipolar systems, 21:42983
escape probability of monoenergetic, from thin gold foils, (T), 21:28238
exchange for hadron production in $e^+ + e^-$ interactions in colliding beams, (E/T), 25:52990 (DESY-71/28)
exchange potential in atoms and solids, Hartree—Fock calculation for, 22:38781
exchange reaction between tetravalent and hexavalent uranium ions in hydrochloric acid at 30 to 70°C, rate of, 23:113
exchange reactions of, between tetravalent and hexavalent uranium, oxygen-18 tracer study on, 24:41282
excitation and ionization of valence, by ionizing radiation, calculation of, 22:2160
excitation cross sections for rubidium, effective slow, 21:6989
excitation of dayglow, calculations of photo-, 21:37306
excitation of electrostatic ion cyclotron waves in solar wind, (T), 25:40268
excitation of gases in the gravitational field of quasar, (T), 21:43730
excitation of helium and hydrogen molecule by low-energy, exchange, 21:41753 (CALT-532-12)
excitation of highly ionized atoms, potentials in, (T), 21:29014
excitation of hydrogen in HII regions by, cross sections for, (T), 24:19618
excitation of interstellar CN molecules by, (T), 23:41827
existence of anomalous, upper limits for, (E), 22:26553
exoemission from lithium fluoride thermoluminescent detector, 21:3320
experimental methods for studying primary cosmic, 24:28125
extinction of captured, in γ-irradiated alkaline glasses, 24:38958
extinction of trapped radiolytic, in alkaline ices at 77°K, thermal and photostimulated, 25:8287
ferromagnetism in degenerate gas of, (T), 23:41794
field of classical spinning, asymptotic properties of, 23:30736
field of, torsionless affine Einstein field theory for static spherically symmetric, 23:46806
field theory for orbital systems of, formulation of multiconfigurational self-consistent, 21:23296
field theory for, null planes in formulation of quantum electrodynamics in, (T), 25:53312
field theory for, real spinor, 21:33763
flow into and from the magnetotail, (T), 22:41471
flux and decay times in low L-shell region, trapped, 21:25039
flux and east—west asymmetry of cosmic, at 5.36-GV cutoff rigidity, (E), 22:34319
flux and energy spectrum of cosmic secondary, at balloon altitudes over Fort Churchill, (E/T), 23:16684
flux and spectrum above 12 GeV in primary cosmic radiation, (E), 21:37206
flux at 100 to 400 km at L approximately 3.7, correlation with vlf emissions, Kerguelen Islands-launched rocket study of, (E/T), 25:7237
flux at 200 to 500 km in atmosphere, (E), 24:42557
flux at 200 to 500 km, rocket measurement of, 22:2919
flux at high altitudes of secondary, (T), 22:13285
flux at magnetopause during magnetic storm of Jan. 13—14, 1967, (E), 22:47979
flux at synchronous altitudes, temporal variations in, 22:5231
flux distribution of secondary, from heavy ion reactions in metal foils, (T), 21:13352 (UCRL-16898, pp 87-96)
flux during solar event of Feb. 5—12, 1965, Mariner IV and Injun IV observations of, 21:43693 (N-67-26441)
flux during space flight, for use in evaluation shielding calculations, 21:30805(R) (AD-638920)
flux enhancements from solar activity Dec. 1969 to June 1969, high-energy, (E), 25:27574
flux from Argus events 1 and 2, (E), 22:29380
flux in aurorae, (E), 22:34395
flux in auroral zone, satellite observations of precipitating, 22:2927
flux in broad atmospheric cosmic showers, 21:29032
flux in extensive air showers, (E), 22:24082
flux in extensive air showers, variation of, (T), 22:24083
flux in inner belt on Dec. 19, 1961, (E), 22:34374
flux in inner radiation belt, longitude dependence of, (E/T), 21:43915
flux in magnetosphere at 5 to 20 R/sub E/, (E), 23:3337 (N-68-28765)

flux in magnetosphere, (E), 22:34357(R) (AD-663234)
flux in magnetosphere, (E), 23:27444(R) (N-69-14773)
flux in mid-latitude nighttime, precipitation, (E), 25: 27601
flux in nonequilibrium zones near interfaces exposed to gamma rays, forward and backscattered components of secondary, (E/T), 23:14858
flux in outer magnetosphere of energetic, anisotropic, (E) , 23:23018
flux in outer radiation belt, rapid increases of, (E), 22: 31711
flux in outer radiation belt, satellite measurements of, 21:9435
flux in plasmapause vicinity, (T), 24:32754
flux in primary cosmic radiation, (E/T), 25:4980
flux in primary cosmic radiation, (T), 24:4968
flux in radiation belts, proton measurements limited by, 21:20856
flux in silicon during gamma irradiation, calculation of, 21:7334 (N-66-27321)
flux in tail of magnetosphere, 21:46219 (N-67-18713)
flux increase in magnetosphere, spectra and time histories of rapid low-energy, (E), 22:41442 (N-68-18191)
flux intensities in magnetosphere, (T), 24:32756
flux into dayside auroral oval, properties of region of low-energy primary, (E), 25:30367
flux magnitude and pitch-angle distribution for post-substorm auroral, (E), 23:42057
flux measurement at synchronous altitude, relation to plasma-sheet convection velocities, low-energy, (E/T), 25:38268
flux measurements at 4000 km of 50-eV to 100-keV, (E), 23:10528
flux measurements in aurora with rockets, 21:7095
flux near dawn magnetopause, relation with magnetic-field observations, (E/T), 25:40478
flux of 0.4- to 3.0-MeV, at 6.6 R/sub E/ during Jan. 13—14, 1967 magnetic storm, (E), 22:47980
flux of 10- to 200-MeV primary, in interplanetary space, (E), 23:51410
flux of 12- to 1000-MeV albedo, at 2 g/cm², (E), 23: 27446 (N-69-15723)
flux of 12- to 1000-MeV primary and albedo, at balloon altitudes during 1967, (E), 24:6400
flux of cosmic primary, at 0.2 to 300 BeV, (E), 22: 38653 (N-68-16483)
flux of cosmic, between 17 and 63 MeV at high altitude, (E), 22:26269
flux of cosmic, review of data on, 21:18482
flux of extragalactic, (T), 23:27397 (N-69-18033)
flux of high-energy, from outer radiation belt, (E), 24: 30221
flux of low-energy, at 80 to 165 km at nighttime intermediate latitudes, (E), 24:30224
flux of low-energy, in high polar regions, (E), 22:31710
flux of low-energy, observations at 6.6 R/sub E/ of, (E/T), 25:7232
flux of low-energy, over auroral zone, (E), 24:26073
flux of low-energy, precipitated in auroral zone, (E), 24: 15193
flux of magnetospheric energetic, during magnetic storms, (E), 22:36797 (AD-665422)
flux of metagalactic, upper limit for, 23:22951
flux of primary cosmic, (T), 24:23831
flux of primary cosmic, at Fort Churchill in 1967, (E), 23:10463
flux of primary cosmic, for magnetic rigidity 5 GeV, 21: 641
flux of secondary cosmic, at balloon altitudes, 22:2863
flux of secondary cosmic, from measurement of low-energy atmospheric gamma radiation, 23:36540 (HASL-209)
flux of secondary, in upper atmosphere, 21:9734
flux of soft sea-level, effect of radon beta decay on, 21: 1458 (TID-23366)
flux of solar, in lunar vicinity, (E), 22:29312
flux of solar, in radiation belts during magnetic storm June 9, 1968, (E), 24:42581
flux of suprathermal photo-, in topside ionosphere, (E), 23:23021
flux of terrestrial, beyond the bow shock, (E), 22:22049
flux of trapped 10-keV, at low altitudes, (T), 21:18541
flux of trapped, during fall of 1964 by satellite observations, 21:13447
flux of trapped, relation of polar substorms to, 22:5225
flux of trapped, spacecraft measurements of, 21: 43894(R) (N-67-23326)
flux produced by high-altitude nuclear explosion, variation of trapped, (E/T), 21:9442
flux quantization for interacting, one-dimensional model treatment of, 22:17606
flux spectra in aluminum from copper-64 and gold-198 sources, (E), 22:31616
flux spectrum of escaping photo-, at ionospheric conjugate points, (T), 22:47931
flux—energy spectrum of nonfission, in South Atlantic anomaly, (E), 22:31707
fluxes and spectra in the evening sector of magnetosphere, (E), 22:29371
fluxes at latitudes above outer-zone cutoff, (E), 23: 27427 (AD-679149)
fluxes in bow shock and upstream in the solar wind, (E), 23:10496
fluxes in inner radiation belt in 1965, absolute, (E), 23: 1958
fluxes in outer geomagnetic field, (T), 23:30444
fluxes in outer radiation belt during magnetic bays, (E), 23:12680
fluxes in polar ionosphere, scatter and magnetic disturbance-dependence of, (E), 25:27580
fluxes in polar regions from synchronous photometric and riometric observations, (T), 23:32251
fluxes of 500- to 1500-MeV, at various levels in atmosphere, (E), 25:14068
force acting on, near metal in gravitational field, 23: 32827
form factor and impact factor for, relation between, 24: 3567
form factor from threshold dominance in sidewise dispersion relations for e + N → N + π interactions, 23:42607
form factors from Coulomb scattering, (E/T), 23:49072 (CERN-69-22)
form factors of, contribution of corner graphs and self-mass graphs to slope of Dirac, 24:26408
form factors of, effect on polarization in e + p interactions and e + e interactions, 21:37753
formation and reactions in radiolysis of frozen aqueous solutions, 22:25411
formation and reactions in radiolysis of organic liquids, 22:25404
formation of fast, in solar flares, (T), 22:23919
formation of solvated and trapped, 22:27841
formation of solvated, by dissolution of irradiated alkali metal halide crystals, 22:34770
g factor of, (E/T), 22:9080
g factor of, discrepancies in, 23:5512 (SLAC-PUB-502)
g factor, measurement using polarized fields, 22:36706 (CEAL-1042)
g-2 experiments for, range of validity of Lorentz invariance from, 23:32782
g-2 factor measurement in high field, sixth-order quantum electrodynamic contribution from, (E), 25: 59560
g-factor anomaly of free, (E/T), 22:24517
g-factor anomaly of, measurement of, (E), 24:30433
g-factor for, measurement of, 23:21042
g-factor for, relativistic and binding-energy corrections for, 25:25369
galactic intensity of cosmic-ray, (T), 22:9124
gamma emission from high-energy, in vicinity of pulsars, (T), 23:14488
gamma production by cosmic, (T), 23:14654
gamma resonant radiation interference from, in Sn-119 single crystals, (E), 23:27721
gamma scattering on polarized, left—right asymmetry in Compton, (E), 25:40724(T) (BNL-tr-428)
gas of, fast randomization of, by trapped electro—acoustic waves, (T), 23:12791
gas of, in envelope of magnetic white-dwarf stars, behavior of, (T), 23:22715
gas of, pair distribution function for interacting, 21: 44206
gases of, low-temperature specific heat of, (T), 23:51826
generation of high-energy, in supernovae remnants, 22: 2728
generation of, in cosmic-ray processes, (T), 22:29102
glowcurves of exo-, design of heatable Geiger—Mueller detector with twisted anode for measurement of, 23: 21960
gravitational field of, asymptotic, (T), 22:44378
gravitational field of, spin contributions to, (T), 24: 45595
gravitational force on freely falling and metallic, (E), 22: 1486
gravitational force on, measurement of, (E), 23:3820
Green functions for large momenta for, asymptotics of renormalized, 24:3587
ground state of system of, particle-density description of, (T), 25:49754 (CONF-690732, pp 1.1-24)
group theory and infinite-component fields for composite, relativistic, 23:30778
gyration of relativistic, in solar magnetic field, gyro-synchrotron emission from, (T), 22:34234
gyro-synchrotron radiation from accelerated, effect of collisionless magnetoplasma on, (T), 25:38243
gyromagnetic ratio of free, feasibility study for measuring, 22:24609
gyromagnetic ratio of free, in quantum electrodynamics, 22:53020
gyromagnetic ratio of, review, 23:36479
gyromagnetic ratio of, review of values for, 23:36480
gyromagnetic ratio relative to proton, measurement in hydrogen atom, 24:19734
Hamiltonian of, relativistic and spin-dependent part of the, 21:40125
heat transfer in relativistic flow of, (T), 21:13422
heating by fast hydromagnetic waves in neutral sheet, stochastic, (T), 23:30418
heating effects on metallic films, microthermocouple measurements of, (E/T), 25:5163
heating in solar wind beyond 0.1 AU, (E), 23:30265
heating mechanism for thermospheric, (E/T), 23:16706 (N-68-31337)
heating of ambient ionospheric, by charged-particle beams, (T), 22:17516
heating of solar wind, in colliding streams, (E), 25: 16698
heating of, in solar wind, (T), 24:10269
helicity from μ^- decay, (E), 22:3253
helicity of, method for relative measurement of, 23: 18832
hydrodynamic equations for nonideal relativistic gas of, 21:29407
image of toroidal configuration of, program for analysis of incoherent, 22:46628 (UCRL-18103, pp 401-18)
impurities in surface regions of gases of, screening of, (T) , 22:3098
infrared divergences of electron—photon system in strong interactions, (T), 25:38685
injection in Crab Nebula from pulsar, (T), 24:42386(T) (CSIRO-Trans-10122)
injection in pulsed magnetic fields, formation of intense electron rings for ion acceleration from, 23:19099
injection into 35-MeV betatron, mechanism for, (E/T), 21:2560
injection into betatrons, mechanism of, 21:23389
injection into betatrons, method for, 21:19143(P)
injection into Cambridge synchrotron, system for multi-cycle, 21:23362 (CEAL-1035)
injection into geomagnetic field, production of vlf hiss by, (T), 22:36852
injection into Helium II from immersed tungsten filament, 22:31749
injection into ionosphere, echo experiment from, (E/T), 25:35966
injection into region between radiation belts, (E), 25: 30352
injection of cosmic, into the Galaxy from Sag A, (E/T), 25:47236
intensities at latitudes above auroral zone, (E), 22:31717
intensities at low altitudes in outer radiation belt, temporal variations, 21:5149
intensity and energy at synchronous altitudes, model environment from trapped, 21:23073 (NASA-SP-3024(Vol.3))
intensity and spectrum in vicinity of boundary of radiation belts, (E), 22:34483
intensity and variations in outer radiation belt, satellite observations of spatial and temporal, 21:9438
intensity at 300 to 500 km in auroral zone, Geiger—Mueller observations during Feb. 25, 1969 solar event, (E), 25:27572
intensity contours in outer radiation zone, omnidirectional, (E), 23:14693
intensity distribution of cosmic, near 100 km, 22:38836
intensity during Feb. 25, 1969 solar flare, ESRO-II observations of, (E), 25:27471
intensity fluctuations in cascade showers, (T), 22:21916
intensity fluctuations in geomagnetic tail, 22:5230
intensity fluctuations of outer-zone, (T), 23:30443
intensity fluxes near ionospheric equator, late-evening soft-, (E), 25:16959
intensity in auroral substorms, (E), 22:22056
intensity in early-morning pulsating aurorae, energetic, Dec. 18, 1968, (E), 25:16950
intensity in geomagnetic tail, (E), 22:22048
intensity in inner radiation belt, Explorer observations of, 21:13436
intensity in inner radiation belt, satellite observations of, 21:41957
intensity in inner radiation zone before Starfish burst, 21:13430 (N-66-37210)
intensity in outer radiation belt, measurements in equatorial region of, 21:25031
intensity in outer radiation belt, relation of storm-time extraterrestrial ring current to, 21:41894(R) (AD-648909)
intensity increase in Feb. 25-Mar. 5, 1969 of solar cosmic-ray, (E), 25:27470
intensity measurements of primary cosmic-ray, (E), 21: 31266
intensity modulation of 2-, 4-, and 10-keV auroral, at large distances from the Earth, (E), 23:27473
intensity observations by IMP-B satellite, position of trapped radiation boundaries and, 22:5268
intensity of 1.6 to 36.4 MeV, in cosmic radiation, (E/T), 25:24972
intensity of 100 eV to 50 keV, between inner boundary of plasma sheet and plasmasphere, (E), 24:51535
intensity of 2.7- to 21.5-MeV cosmic, in interplanetary space, (E), 23:48759
intensity of 30-keV, in magnetosheath and beyond, (E), 22:15430
intensity of 50- to 150-keV, at magnetopause, (E), 22: 47978
intensity of auroral, pulsations in, 21:33283
intensity of auroral-zone, during magnetic disturbance, (E), 22:41483
intensity of cosmic, beneath inner radiation belts, 22: 38835
intensity of greater than or equal to 0.3-BeV cosmic, (E), 21:31263
intensity of high-energy albedo, in the atmosphere, (E), 23:10474
intensity of low-energy, diurnal variations at Fort Churchill of, (E), 23:18507 (N-68-19857)
intensity of outer-zone E greater than or equal to 150 keV, correlation with geomagnetic indexes, 25:2969
intensity of primary cosmic, in solar neighborhood, (E), 24:37142
intensity of primary cosmic-ray, review of balloon and satellite data on, 25:7199
intensity of solar, Mariner 4 and Injun 4 observations of, 21:43843
intensity of stream of multiply-reflected, equation for determining with respect to target material, 23:17033
intensity of trapped, satellite measurements of, 21:9459
intensity of, beyond the outer belt, (T), 22:34443
intensity profiles of solar 35 keV, at 2000 to 3000 km, rigidity-dependent latitude, (E), 25:11797
intensity variations in outer radiation belt, 21:5169
intensity variations in outer radiation belt, (E), 21:31315
intensity variations in South Atlantic anomaly, (T), 22: 17494
intensity variations in stratosphere of cosmic, (E), 22: 11274
intensity variations near polar cap, low-energy, 21:43920
intensity variations of cosmic, solar effects on, 23:48768
intensity variations of, in aurorae, rapid, (E), 22:15417
intensity variations of, in the magnetosphere, T), 22: 34482
intensity, spectra, and angular distribution in aurora, rocket measurements of, 22:1064
interaction e + p → e + p at 380 and 980 MeV at 180°, cross section ratio of $e^+ + p \rightarrow e^+ + p$ interactions to, (E), 25:38633 (LAL-1251)
interaction frequencies in ionospheric F2 layer from cosmic noise absorption, 21:39875
interaction in H I regions of thermal, with cosmic secondaries, (T), 24:1177
interaction in hydrogen like atoms, effect of pseudocharge, 21:5086
interaction of bombarding and conduction, during metal bombardment, 21:42187
interaction of conduction, with acoustic waves, (T), 21: 21093
interaction of relativistic, with cosmic background microwaves, (T), 24:10340

interaction of solar energetic, with bow shock and magnetopause, (E), 25:27538
interaction processes in ionosphere, review of slowdown and recombination, 25:11810
interaction with cosmic microwave background, (T), 25:11597
interaction with ionized intergalactic medium, (T), 23:20650
interactions anti τ + e → anti τ + e, cross sections for, (T), 25:9746
interactions anti τ + e → anti τ + e, recoil electron spectrum for, (T), 24:32998
interactions anti τ + e → anti τ + e, restrictions on recoil electron spectrum shape in, (T), 25:33651
interactions anti τ + e → anti τ + e, sodium-iodide—plastic scintillator detector study for test of V—A theory in, 24:35641
interactions anti τ + e, attenuation effects on polarization properties of recoil electrons from, 22:15742
interactions anti τ + e, electron polarization properties from elastic and inelastic, (E), 23:46671
interactions anti τ + e, experimental facilities for study of, 23:1586(R) (UCI-10-P-19-7)
interactions anti τ + e, model determination for, (E), 25:17366
interactions anti τ + e, proposed experiment for measuring, (E), 22:44315
interactions anti τ + e, star structure and evolution theory for limit on value of constant for, (T), 25:25386
interactions anti τ + e, white-dwarf-star statistics for upper limit for coupling constant for, (E), 24:20068
interactions anti τ + e^- → anti τ + e^-, nonderivative four-fermion interaction analysis of upper limits for, (T), 24:49416
interactions anti τ/sub e/ + e → anti τ/sub e/ + e at relativistic electron energies, (T), 21:11761 (JINR-P-2779)
interactions anti τ/sub e/ + e → anti τ'/sub e/ + e', mean energy losses in, (T), 21:44335
interactions anti τ/sub e/ + e^- → anti τ/sub μ/ + μ^-, μ polarization from, (T), 22:3321
interactions anti τ/sub e/ + e^- → anti τ/sub μ/ + μ^-, two- and four-component theory for, 22:22376
interactions anti τ/sub e/ + e^- → τ/sub e/ + μ^-, μ polarization from, (T), 22:3321
interactions anti τ/sub e/ + e^- → τ/sub μ^-/ + μ^-, differential cross sections and μ^- polarization from, 22:13725
interactions anti τ/sub e/ + e^- → τ/sub μ/ + μ^-, μ polarization from, (T), 22:3321
interactions anti τ/sub μ/ + e at relativistic electron energies, (T), 21:11761 (JINR-P-2779)
interactions as dipole with photons, physical creation—annihilation operators in model for, 23:32674
interactions at 1 to 5 GeV, energy spectra and general formula for cross sections for μ^+ - μ^- pair production from, 23:51888
interactions at high energies in air showers, review of, (E), 25:36395
interactions at high energies in dilute gases, review of total energy loss and photon-production spectrum from bremsstrahlung, synchrotron radiation, and Compton scattering in, (T), 25:22755
interactions at high energies in quantum electrodynamics, 23:51987
interactions at high energies, conference on, 24:24276
interactions at high energies, particle unified theory from, (E), 24:5233
interactions at high energies, quark-model perturbation theory for cross sections of inelastic, 24:8587
interactions at high energies, relativistic partial wave analysis of amplitude for, 21:27331
interactions at high energies, single bremsstrahlung in, (T), 21:4025
interactions at high energies, theory of diffraction, 24:30481
interactions at low energies, equal-time commutators for amplitudes of meson (π) production in, 23:39740
interactions at very high energies, scaling laws for particle production in deep inelastic, (T), 25:5319 (CONF-700314-, Paper 8)
interactions between conduction, in spin-wave spectrum of weakly magnetized sodium, (T), 24:32940
interactions e + ^{3}H → e + n + n + p at 250 to 550 MeV, cross sections for, (E/T), 24:5272
interactions e + ^{3}He → e + p + n + p at 250 to 550 MeV, cross sections for, (E/T), 24:5272
interactions e + ^{3}He, neutron electromagnetic form factors from, 22:3326
interactions e + ^{4}He → ^{4}He + π^0, verification of vector dominance in, (T), 25:12140
interactions e + anti τ → e + anti τ at high energies, higher-order terms in V—A theory of weak interactions for, (T), 25:50111 (ORO-3992-51)
interactions e + anti τ → μ + anti τ, calculation of cross section for, (T), 22:9561
interactions e + anti τ → μ^- + anti τ at high energies, higher-order terms in V—A theory of weak interactions for, (T), 25:50111 (ORO-3992-51)
interactions e + anti τ/sub e/, γ angular and energy distributions in μ^+ + e → τ + anti τ + γ interactions for properties of, (T), 22:26618
interactions e + d → Δ (1236) + Δ (1480), differential cross sections for, (T), 22:13710
interactions e + d → e + d and e + d → e + n + p, status of research on, (E/T), 23:8714 (TID-24667, pp 287-302)
interactions e + d → e + d at 70 to 280 MeV, cross sections and deuteron magnetic form factor from backward, (E), 25:43528 (LAL-1250)
interactions e + d → e + d at low momentum transfers, deuteron-to-proton and neutron-to-proton electric form factor ratio and deuteron radius from, (E), 25:12070
interactions e + d → e + d at low momentum transfers, neutron-to-proton and deuteron-to-proton electric form factor ratios from, (E), 25:5247 (AD-710385)
interactions e + d → e + d at very large momentum transfer, cross sections for, (T), 24:21962
interactions e + d → e + d, CP invariance violation in elastic, (E/T), 21:894 (JINR-P-2891)
interactions e + d → e + d, determination of angular distribution asymmetry of electrons from deuteron anapole moment in, (T), 25:17432
interactions e + d → e + d, deuteron polarization and neutron form factors from, (T), 21:13692
interactions e + d → e + d, effect of Δ(1236) - Δ(1236) configuration admixtures on deuteron form factors for, (T), 25:59367
interactions e + d → e + d, helicity and T invariance in, 22:20297
interactions e + d → e + d, ratio of neutron—proton electric form factors from, (E), 25:5246 (AD-709922)
interactions e + d → e + d, recoil deuteron vector polarization in, (T), 23:23406
interactions e + d → e + d, recoil deuteron vector polarization in, (T), 24:52002 (LNF-70/20)
interactions e + d → e + d, time reversal invariance in, (T), 24:40307
interactions e + d → e + d, time reversal violation in cross sections of, (T), 25:36546
interactions e + d → e + n + p at four-momentum transfers 0.39 to 0.78 $(GeV/c)^2$, magnetic spectrometer and scintillation counter study of ratio of electron scattering cross sections on quasi-free protons and neutrons, binding effects, and neutron form factors from, (E), 24:8554 (DESY-69/34)
interactions e + d → e + N + p at q^2 = 0.39 to 0.78 $(GeV/c)^2$, neutron form factors from quasi-elastic, (E), 24:1500
interactions e + d → e' + n + p in backward inelastic scattering, (T), 21:29874
interactions e + d → e + p + n at 70 to 280 MeV, cross sections for backward, (E), 25:43528 (LAL-1250)
interactions e + d → e + p + n at high energies, cross sections, angular distributions, and neutron electric form factors from, (E), 25:27951 (NP-18725)
interactions e + d → e + p + n with large momentum transfer, final-state interactions in, (T), 24:49402
interactions e + d → e + p + n, effects of final-state interactions on cross sections for, (T), 21:44323
interactions e + d → e + p + n, multi-pion exchange contribution to nucleon-nucleon binding in, (T), 25:56527
interactions e + d → e + p + n, neutron electromagnetic form factors from, (E), 21:46464
interactions e + d → n + p + e, production of high-energy monochromatic monitored neutron beams from, 21:29772
interactions e + d → p + n + e at very low momentum transfers, formalism for cross sections and nucleon polarizations in backward, 22:29619
interactions e + d → p + n + e, coincidence counting methods of radiation corrections for, 21:40139
interactions e + d (polarized) → e + d, test of T invariance in elastic, 21:13718 (DESY-66/30)
interactions e + d at 0.27 to 4.47 $(GeV/c)^2$, differential cross sections for inelastic, (E), 23:42531
interactions e + d at 0.27 to 4.47 $(GeV/c)^2$, neutron form factors from quasi-elastic, (E), 22:50280
interactions e + d at 1 GeV, time reversal invariance in elastic, (E), 22:52920
interactions e + d at 1578 MeV, search for N'(1470) production in, (E), 23:14942
interactions e + d at 4.4 and 4.9 GeV, cross sections for elastic, (E), 23:18787
interactions e + d at 4.5 to 19.5 GeV, cross sections for inelastic, (E), 24:51882 (SLAC-PUB-796)
interactions e + d at high energies, book on, 21:2430
interactions e + d at high energies, covariant theory for disintegration in, 22:39333
interactions e + d at high energies, cross sections, Δ(1236) production in e + n interactions, and cross sections for inelastic e + n and e + p interactions from inelastic, (E), 25:56405 (DESY-71/33)
interactions e + d at high energies, cross sections for, (E), 21:2354
interactions e + d at high energies, proton and neutron magnetic form factors from quasi-elastic, (E), 22:29614 (DESY-68/14)
interactions e + d at high energy, electric and magnetic contributions to elastic, (E), 21:33878
interactions e + d at q^2 = 18 to 100 fm^{-2}, neutron magnetic form factor and cross sections from quasielastic, (E), 22:26554
interactions e + d, charge and quadrupole form factors from cross sections for elastic, (E), 25:50047
interactions e + d, consistent treatment in one-boson-exchange model for N + N exchange currents for, 23:51950 (DESY-69/28)
interactions e + d, CP invariance violation in elastic, (T), 21:21180
interactions e + d, cross section for threshold disintegration of deuterons in, 22:34909
interactions e + d, cross sections and form factors for elastic, (E), 23:8715 (TID-24667, pp 303-16)
interactions e + d, cross sections for π^+ and π^- production in, (E), 25:47714
interactions e + d, deuteron form factor from, (E), 21:26150 (MIT-2098-299, pp 35-51)
interactions e + d, differential cross sections and T-violation for polarized elastic, (T), 24:49426
interactions e + d, electric neutron form factor from cross sections for, (T), 25:27980 (DESY-71/7)
interactions e + d, electromagnetic form factor of neutrons from, 22:11626
interactions e + d, finite-energy sum rules and scaling behavior of inelastic, 25:33608
interactions e + d, magnetic spectrometer, Cherenkov, and shower counter study of forward-angle quasielastic, (E), 21:44250
interactions e + d, neutron electromagnetic form factors from, 22:3326
interactions e + d, neutron electromagnetic form factor from elastic and inelastic, 22:11611
interactions e + d, neutron form factors from quasi-elastic, (T), 22:44357
interactions e + d, possible test of internal symmetries of electromagnetic current from π^0 production from, (E), 22:1406
interactions e + d, relation between deuteron wave function and n-p-d vertex function from, 21:37750
interactions e + d, T invariance from recoil polarization in elastic, (T), 24:45561
interactions e + d, Tamagaki and Hamada—Johnston potentials for elastic, 25:59335
interactions e + d, test of T invariance from vector polarization in elastic, (T), 24:45558
interactions e + d, validity of potentials from sensitivity of deuteron form factors to D state in elastic, (T), 25:5830
interactions e + e → 2e + $\pi^+(K^+)$ + $\pi^-(K^-)$ in colliding beams, π and K pair production and amplitudes and phases for γ + γ → π^+ + π^- interactions in, (T), 25:53048 (DESY-71/30)
interactions e + e → 2μ^-, test of lepton conservation law in upper limit for cross section for, (E), 24:15506 (AD-696698)
interactions e + e → e + e + epsilon(750), cross sections for, (T), 25:56463
interactions e + e → e + e + epsilon(750)(f(1260)), finite-energy sum rules for γ + π^0 → γ + π^0 interactions for epsilon$\gamma\gamma$ and f$\gamma\gamma$ coupling constants, radiative widths, and cross sections for, (T), 25:43582 (DESY-71/20)
interactions e + e → e + e + f(1260), cross sections for, (T), 25:56463
interactions e + e → e + e + γ at 2 x 160 MeV, integral cross section for production and probabilities of emission of γ in, (E), 22:44304
interactions e + e → e + e + hadrons, total cross sections for γ + γ → hadrons interactions from, 25:53081
interactions e + e → e + e + K + anti K, contribution of Feynman diagrams for, 24:24291
interactions e + e → e + e + mπ^+ + mπ^-, soft-pion techniques, PCAC hypothesis, and current algebra for cross sections for, (T), 25:40925
interactions e + e → e + e + $\mu^+(\pi^-)(K^-)$ + $\mu^+(\pi^+)$ (K^+) at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
interactions e + e → e + e + τ + anti τ in nondegenerate electron gas, neutrino energy loss in stars from, (T), 23:46655
interactions e + e → e + e + π^+ + π^-, experimental determination of S-wave $\pi\pi$ phase shifts in, 24:3498
interactions e + e → e + e + π^+ + π^-, Feynman diagram model of, 25:56460
interactions e + e → e + e + π^+ + π^-, hadron electrodynamics in resonance model for, 25:59386
interactions e + e → e + e at 300 MeV, angular distribution of, 21:29427
interactions e + e → e + e at high energies, analysis of microcausality for, 22:24571(T) (LA-tr-68-6)
interactions e + e → e + e, frame-dependence of cross sections for, 22:26591 (JINR-P2-3590, pp 81-5)
interactions e + e → e + W^- + τ/sub e/ in colliding beams, angular distributions and total cross sections for, (T), 22:24586
interactions e + e → e + W^- + τ/sub e/, W^- → μ^- + anti τ, effects of W^- polarization of μ^- angular distribution in, 23:25546
interactions e → e + γ in external field, impact factors for, 24:26399
interactions e + e → μ^+ + μ^+ + e + e, contribution of Feynman diagrams for, 24:24291
interactions e + e → μ^+ + μ^-, spark chamber study of upper limit for cross section of, (E), 23:23407
interactions e + e → μ^+ + μ^-, upper limit on cross section for, (E), 24:49304
interactions e + e → π^+ + π^+ + e + e, contribution of Feynman diagrams for, 24:24291
interactions e + e at 1112 MeV, test of quantum electrodynamics from differential cross section for, 25:38702
interactions e + e at 2 x 43 to 2 x 160 MeV in colliding beams, spark chamber study of quantum electrodynamics test from, (E), 22:13712
interactions e + e at 2 x 43 to 2 x 160 MeV, test of quantum electrodynamics from spark chamber study of angular distribution in, (E), 22:20109 (NP-17322)
interactions e + e at 2 x 550 MeV, preliminary results of spark chamber study of A^2 in form factor for Moller scattering distribution for, (E), 22:22275 (CONF-670923-, pp 376-86)
interactions e + e at high energies in colliding beams, total and differential cross sections for e and μ pair production in, (T), 25:36433 (LNF-71/1)
interactions e + e at high energies in quantum electrodynamics, eikonalization for, 25:19961
interactions e + e at high energies, amplitudes for, 23:42618
interactions e + e at high energies, asymptotics and amplitudes of, 25:33625
interactions e + e at high energies, calculation of amplitudes of elastic, 23:32655
interactions e + e at high energies, Feynman diagrams for physical description of diffraction, 23:46658
interactions e + e at high energies, impact factor and form factor from, 24:3567
interactions e + e at high energies, impact factor and amplitudes for, 23:42619

interactions e + e at high energies, leading singularity in complex angular momentum plane in quantum electrodynamics for asymptotics of, (T), 25:14802
interactions e + e at high energy limit, multiphoton exchange amplitudes for elastic, 24:18134
interactions e + e at high energy, behavior of fixed-angle amplitude for, 24:52215
interactions e + e at infinite energy, radiative corrections to, 24:37707
interactions e + e at wide angles in quantum electrodynamics, 25:59354
interactions e + e in central field approximation, generalized Rajnak—Wybourne identity from electrostatic, (T), 25:40938
interactions e + e in colliding beams, amplitudes and differential cross sections for hadron production in $\gamma + \gamma$ interactions in, (T), 25:40913 (COO-264-578)
interactions e + e in colliding beams, differential cross sections for hadron production in deep inelastic, (T), 25:59371
interactions e + e in colliding beams, diffractive inelastic processes in, (T), 25:53050 (DESY-71/36)
interactions e + e in colliding beams, feasibility of experiment for deep inelastic e + γ interactions from, (T), 25:50097
interactions e + e in colliding beams, $\gamma + \gamma \rightarrow \gamma + \gamma$ interactions from amplitudes and differential cross sections for, (T), 25:40913 (COO-264-578)
interactions e + e in colliding beams, pair production in, (T), 25:36448
interactions e + e in colliding beams, π—π s-wave phase shifts from amplitudes and differential cross sections for $\gamma + \gamma \rightarrow \pi + \pi$ interactions in, (T), 25:40913 (COO-264-578)
interactions e + e in colliding beams, test of CP violation in $\gamma \rightarrow 2\gamma$ transitions in, (T), 22:24699
interactions e + e in colliding beams, two amplitudes and relative phase for $\gamma + \gamma \rightarrow \pi^+ + \pi^-$ interactions from differential cross sections for pionization in, (T), 25:45690 (DESY-71/23)
interactions e + e in eight-dimensional space, (E), 22:5535
interactions e + e in quantum electrodynamics, high-energy behavior of amplitudes for, 25:7592
interactions e + e in quantum electrodynamics, logarithmic factors in high-energy behavior of, 24:37705
interactions e + e in relativistic quantum electrodynamics, Breit operator form for, 24:3744
interactions e + e, axial-vector current in two-dimensional spinor electrodynamics with nonvanishing fermion mass for, 24:3741
interactions e + e, design of experiment for studying cross sections of, (E/T), 25:3245
interactions e + e, double bremsstrahlung production in, (T), 23:15018
interactions e + e, effect of long-range weak-force on evolution of homogeneous isotropic universe, 24:26414
interactions e + e, eikonal form of amplitude for elastic, 25:1600
interactions e + e, Feynman method for determining cross sections of, 24:26539
interactions e + e, hadron production in deep inelastic e + γ interactions in inelastic, (T), 25:59333 (JINR-E2-6036)
interactions e + e, impact factor representation of amplitude for, 24:12990
interactions e + e, in colliding beams, spinless boson pair production in, (T), 25:53048 (DESY-71/30)
interactions e + e, infinite-momentum quantum electrodynamic model for number and momentum distributions, total cross sections, and amplitudes for production of electron pairs in, (T), 25:59345
interactions e + e, j-plane singularities in channel with vacuum quantum numbers for, 24:18121
interactions e + e, modification of one-photon—electron vertex function effects on angular dependence of differential cross section of, (T), 23:39661
interactions e + e, polarization correlations in cross sections for, (T), 22:17909
interactions e + e, proposed experiment using laser light for interference effects in, 21:37659
interactions e + e, Regge-pole-theory prediction of scaling in hadron production in, (T), 25:59376
interactions e + e, two-photon generation mechanism for angular distributions and production cross sections for π^0 production in, (T), 25:59370
interactions e + γ in $e^+ + e^-$ and e + e interactions in colliding beams, feasibility of experiment for deep inelastic, (T), 25:50097
interactions e + γ in inelastic e + e interactions, hadron production in deep inelastic, (T), 25:59333 (JINR-E2-6036)
interactions e + N $\rightarrow$ Δ(1236), dispersion relations solution for, 22:3328
interactions e + N $\rightarrow$ e + hadrons in dispersion-theoretic models, Bjorken limit and scaling behavior of structure functions for, 25:17430
interactions e + N $\rightarrow$ e + N + π + π (soft), nucleon axial-vector form factor from, (E), 23:30734
interactions e + N $\rightarrow$ e + N + π + π using current algebra and PCAC method, measurement of nucleon axial-vector form factor from, 22:34903
interactions e + N $\rightarrow$ e + N + π (soft), nucleon axial-vector form factor from, (E), 23:30734
interactions e + N $\rightarrow$ e + N + π in (3,3) resonance region, kinematics and model of single π production in, (T), 23:8777
interactions e + N $\rightarrow$ e + N + π, at threshold energy, current algebra and PCAC hypothesis for, 22:50331
interactions e + N $\rightarrow$ e + N + π, dispersion relation theory of π production in, 22:24604
interactions e + N $\rightarrow$ e + N + π, dispersion relations for partial-wave amplitudes of, 23:23414
interactions e + N $\rightarrow$ e + N + π, photon—vector-meson analogy model for, 23:42598
interactions e + N $\rightarrow$ e + N + X, crossing relation with lepton pair production in strong interactions, (T), 24:10726 (JINR-E2-4791)
interactions e + n $\rightarrow$ e + n, form factors of neutrons from, 21:29460
interactions e + N $\rightarrow$ e + N, scaling, Pomeranchuk trajectory, and J = 1 fixed poles from finite-energy sum rule analysis of virtual Compton, (T), 25:43584 (ITF-71-27-E)
interactions e + N $\rightarrow$ e' + N*, N* $\rightarrow$ N + π, electromagnetic transition form factors for, (T), 21:2416
interactions e + N $\rightarrow$ e + N*', C violation in, (T), 21:29475
interactions e + N $\rightarrow$ e + N_{11}*, form factors for γ NN* vertex from, (T), 21:2420
interactions e + N $\rightarrow$ e + π + N, reconstruction scheme for amplitude of, 22:13702
interactions e + N $\rightarrow$ Λ + K, use of current algebra and PCAC hypothesis for amplitudes of, 22:15715
interactions e + N $\rightarrow$ N + π, nucleon and electron electromagnetic form factors from threshold dominance in sidewise dispersion relations for, 23:42607
interactions e + N $\rightarrow$ N*, form factors and vertex amplitudes for, (T), 22:5534
interactions e + N $\rightarrow$ π + N at high energies and large momentum transfers, (T), 22:5539
interactions e + N $\rightarrow$ π + N at high energies, Regge formalism for meson (π) electromagnetic form factor from, 24:3592
interactions e + N $\rightarrow$ π + N at low energies, dispersion theory of low-energy limits for, 22:46436
interactions e + N $\rightarrow$ π + N at low energies, PCAC hypothesis for threshold cross sections for, (T), 25:5333
interactions e + N $\rightarrow$ π + N at threshold, current algebra sum rules for physical amplitudes of, 23:39658
interactions e + N $\rightarrow$ π + N, choice of frame in mass extrapolation in vector dominance model for, (E), 24:28502 (DESY-70/11)
interactions e + N $\rightarrow$ π + N, computer program and Born approximation for cross sections for, (T), 23:1614
interactions e + N $\rightarrow$ π + N, evaluation of multipoles for, (T), 23:16948
interactions e + N $\rightarrow$ π + N, Jost—Lehmann—Dyson representation for covariance of retarded commutators for, (T), 24:42920
interactions e + N $\rightarrow$ π + N, kinematical singularities in gauge invariance for amplitudes of, (T), 25:38693
interactions e + N $\rightarrow$ π + N, momentum transfer dependence of γNN* vertex in dispersion theoretical model for, 23:46651
interactions e + N $\rightarrow$ π + N, on-shell subtracted dispersion relations and low-energy theorems and sum rules from current algebra for, (T), 25:3368
interactions e + N $\rightarrow$ π + N, π form factor from production in, 23:5572
interactions e + N $\rightarrow$ π + N, review of vector dominance model for π production in, (T), 25:53076
interactions e + N $\rightarrow$ π + N, sum rule for axial vector form factor and mass of axial-vector meson in, (T), 24:47399
interactions e + N $\rightarrow$ π + N, time reversal violation effects in, (T), 23:3781
interactions e + N $\rightarrow$ π + N, vector-meson dominance for π + N $\rightarrow$ rho + N interactions relation with, (T), 25:53074
interactions e + N $\rightarrow$ $\pi^0(\pi^+)$ + N near Δ(1236), Born terms for longitudinal cross section for, 24:12974
interactions e + N $\rightarrow$ π^+ + N, test of vector dominance model in cross sections for, (E/T), 25:40927
interactions e + N $\rightarrow$ $\pi^+(\pi^-)$ + N at low energies, current algebra for, (T), 25:7584 (DNPL/R-8)
interactions e + N $\rightarrow$ Σ + K, use of current algebra and PCAC hypothesis for amplitudes of, 22:15715
interactions e + N at 6 GeV in lead absorber, lateral distributions for electromagnetic cascade production from, (E), 21:40165 (IAE-1201)
interactions e + N at high energies and large momentum transfer, one-particle-exchange diagrams for π production from, (T), 22:11628
interactions e + N at high energies and large momentum transfers, production of soft mesons in, (T), 23:34619
interactions e + N at high energies in renormalizable theory, deep inelastic, 24:47407
interactions e + N at high energies, asymptotic cross sections for, (T), 23:51893
interactions e + N at high energies, composite structure of nucleons from, (E/T), 24:24285
interactions e + N at high energies, conserved vector current hypothesis and current commutators for relation with τ + N interactions for, (T), 25:53106
interactions e + N at high energies, constitution of electric current from asymptotic behavior of cross sections for inelastic, (T), 23:10789
interactions e + N at high energies, differential cross sections and vector dominance model for pseudoscalar meson production in, (T), 25:22727 (ITF-70-72)
interactions e + N at high energies, form factors from transverse polarization measurement in elastic, 24:12994
interactions e + N at high energies, inelastic, (T), 22:22343 (CONF-670923-, pp 109-27)
interactions e + N at high energies, lectures on current commutators, dynamical models, and quantum electrodynamics for hadron and electron production in, (T), 25:22761 (INP-712(Vol.1), pp 1-52)
interactions e + N at high energies, longitudinal photoabsorption cross sections for, 24:15507 (SU-1206-217)
interactions e + N at high energies, review of experiments on inelastic, 22:22271 (CONF-670923-, pp 128-55)
interactions e + N at high energies, review of inelastic, (T), 25:53072
interactions e + N at high energies, vector meson dominance model for cross sections and vector meson spin density matrix elements for phi, ω, and rho production in, 23:36867 (DESY-69/18)
interactions e + N at low and intermediate energies, conference on, 24:26365
interactions e + N at low energy, equal-time commutators for π production in, 25:7606
interactions e + n at very high energies, neutron internal structure determination from, (E/T), 25:36445
interactions e + N at very low energies, review of π^+ and π^0 production in, (E/T), 25:56404 (CONF-701121-8)
interactions e + N below 6 GeV, review of experiments on nucleon form factor from, 22:22269 (CONF-670923-, pp 59-77)
interactions e + N beyond resonance region, model with π form factor for π production in, (E/T), 25:43583 (DESY-71/22)
interactions e + N for test of current commutation relations, minimum electron energy for, 21:29499
interactions e + n in deuterium at 0.27 to 4.47 (GeV/c)^2, ratio of e + p interactions to inelastic, (E), 23:42531
interactions e + n in e + d interactions at high energies, cross sections for inelastic, (E), 25:56405 (DESY-71/33)
interactions e + n in e + d interactions at high energies, cross sections for Δ(1236) production in, (E), 25:56405 (DESY-71/33)
interactions e + N in parton model, scaling in deep inelastic, 25:59431
interactions e + N in Regge theory, pion production in, 23:46648
interactions e + N up to 2 GeV, installation for analysis of, 22:44567
interactions e + n, (n - p) mass difference from, (T), 21:29478
interactions e + N, absence of form factor in e^2 corrections to amplitudes of, 25:30819
interactions e + N, asymptotic behavior of amplitude for one-hadron production in, 24:37687
interactions e + N, asymptotic behavior of form factors from, (T), 23:8770 (UCSD-10-P-10-48)
interactions e + N, asymptotic behavior of N* production in, 22:39319
interactions e + N, asymptotic properties of structure functions for inelastic, 23:16949
interactions e + N, Bethe—Salpeter wave function with single nucleon and meson (π) exchange γNN*-transition potentials for Δ(1236) production amplitudes in, 23:51879 (DESY-69/33)
interactions e + N, breakdown of scaling invariance in generalized Bjorken limit of perturbation theory for meson production in, (T), 25:1438 (AD-706834)
interactions e + N, broken scale invariance for kinematic moments of production cross sections of, (T), 24:52003 (ORO-2504-159)
interactions e + N, broken-scale invariance for current-commutator scheme for asymptotic sum rules for particle production cross sections in, 24:10709
interactions e + N, class of asymptotic limits for π production in, 25:45696
interactions e + N, coincidence experiments for N* production in, 24:24271
interactions e + N, comparison of vector-meson dominance predictions with π production in, 25:27982 (DESY-71/12)
interactions e + N, current algebra and PCAC constraints on asymptotic behavior of nuclear form factors from, 24:12996
interactions e + N, current algebra sum rules for nucleon form factors and pion production amplitude in, 21:35286
interactions e + N, current commutators near light cone for generalized scaling laws for inelastic, (T), 24:49386
interactions e + N, Deser—Gilbert—Sudarshan representation for structure functions for particle production in, (T), 25:3329
interactions e + N, dimension of scale-invariance-breaking Hamiltonian from longitudinal structure function in inelastic, (T), 25:47803
interactions e + N, dispersion relation predictions of multipoles for π production in, 24:52031
interactions e + N, e—μ equality from elastic, 23:5512 (SLAC-PUB-502)
interactions e + N, effect of electromagnetic structure of nucleons on equivalent photon spectrum for peripheral, 22:26598
interactions e + N, electromagnetic form factors from elastic, 22:3326
interactions e + N, electromagnetic structure of nucleons from, 23:8713 (TID-24667, pp 113-36)
interactions e + N, empirical relation of $\pi^+ + p \rightarrow \pi^0$ + missing mass interactions with inelastic, (T), 25:30795
interactions e + N, equal-time commutators from broken conformal invariance for asymptotic sum rules for particle production in, (T), 24:49567 (IFPTH-7/70)
interactions e + N, field theoretic model for deep inelastic, 23:21075
interactions e + N, final-state interactions and T-violating effects in single π production in, 24:24412
interactions e + N, fixed-t dispersion relations for P_{11} resonance production in, (T), 25:30801
interactions e + N, form factors and vertex amplitudes for elastic, (T), 22:5534
interactions e + N, gauge invariance and Born approximation in π production in, 24:18143
interactions e + N, hadronic electromagnetic mass difference relation with inelastic, (T), 24:12993
interactions e + N, hadronic s-channel helicity conservation for 2π production in diffractive, (T), 25:12165

interactions e + N, inelastic form factors for nucleon resonance production in, (T), 22:22356
interactions e + N, infinite multiplets for lepton pair annihilation channel in deep inelastic, (T), 25:47819
interactions e + N, kinematics and saturation of sum rules for inelastic, 22:22352
interactions e + N, lectures on, (T), 25:22726 (INP-712(Vol.1), pp 97-106)
interactions e + N, light-cone expansions for sum rules for deep inelastic, (T), 25:47791
interactions e + N, low-energy theorems and sum rules for π production amplitudes of, 23:44627
interactions e + n, magnetic spectrometer and scintillation counter study of cross sections for, (E), 24:8554 (DESY-69/34)
interactions e + N, mass-dispersion and current algebra theory for double-π production in, (T), 23:10778
interactions e + N, model dependence of form factors for inelastic, (T), 22:39715
interactions e + N, model for excitation of nucleons in, 22:26596
interactions e + N, model for excitation of nucleon from, 22:3334
interactions e + N, model for hadrons as extended objects for particle production in deep inelastic, (T), 25:53151
interactions e + N, model for q^{-4} dependence of electronmagnetic form factors from, 23:21079
interactions e + N, models with isobar resonances for deep inelastic, (T), 25:17442
interactions e + N, momentum-transfer dispersion relations for π^+ and π^- production in, 24:37702
interactions e + N, multiperipheral model for scaling property of structure functions for deep inelastic, (T), 25:19959
interactions e + N, nucleon electromagnetic form factors for, 22:46362
interactions e + N, nucleon electromagnetic structure from, (T), 22:17900
interactions e + N, nucleon electromagnetic structure determination from, (T), 22:13718
interactions e + N, nucleon form factor at asymptotically great momentum transfer from, (T), 23:7108
interactions e + N, nucleon form factors from, 23:15031
interactions e + N, nucleon structure determination from N* production in, (T), 25:40937
interactions e + N, octet dominance on light cone for particle production in deep inelastic, (T), 25:50104
interactions e + N, one- and two-pion exchange in, (T), 21:37856
interactions e + N, Orsay electron linac experimental facility for studying, 23:52089
interactions e + N, overlapping resonance model of deep inelastic, (T), 24:49369 (NYO-4076-9)
interactions e + N, overlapping resonance model of deep inelastic, 25:30782
interactions e + N, parameters from inelastic, 23:5512 (SLAC-PUB-502)
interactions e + n, parton and quark models for deep inelastic, (T), 25:3310 (DESY-70/50)
interactions e + N, parton model with Poisson distribution for inelastic, (T), 24:45471
interactions e + N, PCAC hypothesis and current algebra analysis of cross sections for pion production in, 25:53061
interactions e + N, pion-gauge conditions for N* production in, 24:5268
interactions e + N, polarization asymmetry in inelastic, 24:32995
interactions e + N, Pomeranchuk exchange contribution to virtual γ + N Compton interactions from inelastic, 23:27780
interactions e + N, Pomeranchuk trajectory and fixed poles in virtual Compton amplitude for, 25:33648
interactions e + N, positivity restrictions among structure functions for polarized inelastic, 25:45706
interactions e + N, production of strongly interacting W boson in, 24:12988
interactions e + N, π production and form factors from, 22:3326
interactions e + N, quantum electrodynamics test from elastic, 22:5636
interactions e + N, Regge model with scale invariance for deep-inelastic, 25:38704
interactions e + N, Regge pole model for hadron production from, (T), 25:14635 (NYO-4204-9)
interactions e + N, relativistic gauge-invariant model for N* production in, 24:3570
interactions e + N, relativistic model for inelastic form factors, widths, and locations of N* production in, (T), 25:59337
interactions e + N, review of deep inelastic, (T), 25:9706 (SLAC-PUB-843)
interactions e + N, review of duality and resonance behavior in inelastic, (E/T), 25:12068 (SLAC-PUB-842)
interactions e + N, review of elastic and inelastic, (E/T), 23:51876 (DESY-69/21)
interactions e + N, review of elastic, (E/T), 23:49156
interactions e + N, review of experimental data on N* production in, 24:24282
interactions e + n, review of neutron electromagnetic properties from, (E), 24:15581 (JINR-P3-4783)
interactions e + N, review of nucleon structure from experiments on, 22:22272 (CONF-670923-, pp 156-95)
interactions e + N, review of π production from, 22:1403 (SLAC-PUB-355)
interactions e + N, review of research on π production in, (E/T), 23:8768 (TID-24667, pp 523-40)
interactions e + N, review of vector dominance model for total cross sections for particle production in, (T), 25:53076
interactions e + N, review of vector meson dominance in hadron production in, (E/T), 25:1361 (DESY-70/31)
interactions e + N, review of, (E/T), 25:1439(T) (BNL-tr-372)
interactions e + N, review on theoretical aspects of inelastic, 24:21964
interactions e + N, Saclay experiments on π production in, 23:8717 (TID-24667, pp 574)

interactions e + n, scattering length and effective potential for, (E), 21:23534(R) (ANL-7246)
interactions e + N, structure functions rapid approach to universality in inelastic, (T), 25:14610
interactions e + N, SU(6)/sub W/ symmetry for higher baryon resonance production in, 22:35058
interactions e + N, sum rule for inelastic, 25:33613
interactions e + N, superconvergence and current algebra for production amplitude of, 22:20176
interactions e + N, theory for N*(1236) production from, 21:18938 (DESY-67/1)
interactions e + N, theory of N* (1236) production in, 21:46514
interactions e + N, vector dominance model and broken symmetry for nucleon electromagnetic structure from, 25:47792
interactions e + N, vector meson dominance predictions for single π production in, (T), 25:30789
interactions e + N, vector-meson dominance model of diffractive production of vector mesons in, 24:10708
interactions e + $\tau \to e(\mu^-) + \tau$ at high energies, higher-order terms in V—A theory of weak interactions for, (T), 25:50111 (ORO-3992-51)
interactions e + τ, current algebra for soft pion production from, 22:3364
interactions e + p → e + Δ (1236), C-violation in, (T), 21:46568
interactions e + p → e + Δ(1236) at 1.5 to 6 GeV, transverse and longitudinal cross sections for, (E), 23:1581
interactions e + p → e + Δ(1236) at 1.5 to 6 GeV, magnetic spectrometer measurement of cross sections for, (E), 22:50274 (DESY-68/42)
interactions e + p → e + Δ(1236), Δ → p + π^0 at 1.3 GeV, cross section for, (E), 23:10735
interactions e + p → e + Δ(1236), Δ(1236) → p + π^0, $\gamma p\Delta$ vertex form factor from, (E), 22:52919
interactions e + p → e + Δ*(1236), Δ*(1236) → p + π^0 at 1.3 GeV, $\gamma p\Delta$ vertex form factor from, (E), 24:35596
interactions e + p → e + hadrons + particles, light-cone analysis for scaling behavior of inclusive, 25:47780
interactions e + p → e + hadrons in parton model, polarization effects in deep inelastic, 25:53099
interactions e + p → e + hadrons, off-mass-shell bootstrap model for, 24:18144
interactions e + p → e + n + π^+ and e + p → e + n + π^0 at energies less than 500 MeV, cross sections and form factors for, (E/T), 23:8716 (TID-24667, pp 541-54)
interactions e + p → e + n + π^+ at 2.2 GeV, π^+ form factor from, (E), 22:24522
interactions e + p → e + n + π^+ at high energies, eta* electromagnetic form factor from cross sections of, (E), 24:20098
interactions e + p → e + n + π^+ near Δ(1236) resonance, differential cross sections for, (E), 24:3494
interactions e + p → e + n + π^+ near Δ(1236) resonance, π form factor and angular distributions from, (E/T), 22:34830
interactions e + p → e + n + π^+ near threshold energy, soft-pion theorem for nucleon axial-vector form factor from, 24:10706
interactions e + p → e + n + π^+ near threshold, π^+ electromagnetic form factor from, (T), 23:23421
interactions e + p → e + n + π^+ on polarized target, asymmetry in, (T), 23:7113
interactions e + p → e + n + π^+, asymmetry for forward and p polarization contributions to cross sections for, (T), 24:24303
interactions e + p → e + n + π^+, coincidence counting methods of radiation corrections for, 21:40139
interactions e + p → e + n + π^+, cross sections for polarized virtual photon production of π^+ in, (E), 22:29618
interactions e + p → e + n + π^+, dynamics of, 23:23422
interactions e + p → e + n + π^+, n and π form factor effects on cross sections for, (T), 25:33618
interactions e + p → e + n + π^+, preliminary results for cross section of, (E), 23:14954
interactions e + p → e + n + π^+, π^+ electromagnetic form factor for asymmetry in, 22:26592 (JINR-P2-3774)
interactions e + p → e + n + π^+, π^+ form factor from, (T), 22:7472
interactions e + p → e + n + π^+, radiative corrections for, (T), 23:7142 (NP-17681)
interactions e + p → e + n + π^+, spark chamber study of, (E), 22:17844 (DESY-F-32/3)
interactions e + p → e + n + W^+, cross section for, (T), 22:24616
interactions e + p → e + N* at high momentum transfers, O(3,1) analysis of vertex functions for, 24:10712
interactions e + p → e + n, cross sections and π form factors from, (E), 22:5491
interactions e + p → e + N* in symmetric quark model, form factors for, 22:34911
interactions e + p → e + N*, cross sections for polarized, 24:52013
interactions e + p → e + N*, excitation function for N_{11}*(1688) doublet production from, (T), 21:40175
interactions e + p → e + N*, extended-particle-quark model for electromagnetic inelastic form factors of, (T), 24:52024
interactions e + p → e + N*, quark-model predictions of form factors for N* resonances from, 25:17445
interactions e + p → e + N*, relation to p + p → p + N* interactions, 23:42615
interactions e + p → e + N*, simple harmonic forces in nonrelativistic quark model for, (T), 25:9788
interactions e + p → e + N*, structure and excitation mechanism for, (T), 21:46519
interactions e + p → e + N*, symmetric quark model with Coulomb potential for, 22:50338
interactions e + p → e + n(p) + $\pi^+(\pi^-)$ near threshold, meson (π) and nucleon form factors from cross sections for, (E), 24:12921
interactions e + p → e + n(p) + $\pi^+(\pi^0)$ near threshold, scintillation counter telescope study of cross sections and meson (π^+) electromagnetic form factor from, (E), 24:5231 (NP-18072)
interactions e + p → e + p + ..., form factor effects on total cross section for, 23:25581 (JINR-E2-4370)
interactions e + p → e + p + 2π, rho, ω, and phi production in, (T), 24:32994
interactions e + p → e + p + γ at 0.9 GeV, test of quantum electrodynamics from wide-angle bremsstrahlung production in, (E), 23:13019
interactions e + p → e + p + γ at 900 MeV, cross sections for wide-angle, (E), 22:48206 (LNF-68/46)
interactions e + p → e + p + γ at very high energies, recoil protons from wide-angle bremsstrahlung in, (T), 24:21954 (LAL-1196)
interactions e + p → e + p + γ, Bethe—Heitler calculation of wide-angle bremsstrahlung contribution to proton spectra in, (T), 25:17447
interactions e + p → e + p + γ, integrated cross sections for wide-angle bremsstrahlung production in, 24:15523
interactions e + p → e + p + γ, test of quantum electrodynamics from virtual photon Compton effect in, 22:48256 (LNF-68/38)
interactions e + p → e + p + γ, test of quantum electrodynamics and virtual-proton Compton effect in, 23:7118
interactions e + p → e + p + π^0 at 2.2 GeV, π^0 form factor from, (E), 22:24522
interactions e + p → e + p + π^0 at 4 GeV/c, cross sections and angular distributions for, (E), 25:50048
interactions e + p → e + p + π^0 at energy region of Δ(1236) resonance, differential cross sections for, (E), 22:26552
interactions e + p → e + p + π^0 near Δ(1236) resonance, differential cross sections for, (E), 24:3494
interactions e + p → e + p + π^0 near threshold energy, soft-pion theorem for nucleon axial-vector form factor from, 24:10706
interactions e + p → e + p + π^0, angular distributions and cross sections for Δ(1236) production in, (E), 25:9625
interactions e + p → e + p + π^0, angular distributions, cross sections, Δ(1236) production and γNN* form factor from, (E), 25:22658 (DESY-70/65)
interactions e + p → e + p + π^0, dynamics of, (T), 23:23422
interactions e + p → e + p + π^0, experimental method of radiative correction in coincidence measurements of, 25:49011
interactions e + p → e + p + π^0, γNN* form factor and multipole amplitudes from analysis of, 22:26609
interactions e + p → e + p + π^0, γNN* form factor and Δ(1236) production from, (E), 25:25377
interactions e + p → e + p + π^0, nucleon axial vector form factor from, (E/T), 24:24217
interactions e + p → e + p + π^0, preliminary results for cross section of, 23:14954
interactions e + p → e + p + π^0, radiative corrections for, (T), 23:7142 (NP-17681)
interactions e + p → e + p + π^0, spectrometer study of production of Δ(1236) and cross sections for, (E), 25:1363 (DESY-70/36)
interactions e + p → e + p + π^+ + π^- at 4.9 GeV, spark chamber study of rho° production from, (E), 22:13634 (DESY-67/41)
interactions e + p → e + p + rho° (phi,ω) at high energies, angular distributions in, (T), 23:46649
interactions e + p → e + p + rho° at 7.5 to 9.5 GeV, cross sections for, (E), 25:33520
interactions e + p → e + p + rho°, field-theoretic model calculations of, 23:32672
interactions e + p → e + p at 0.7 to 25.0 GeV/c, magnetic spectrometer and total-absorption shower counter study of cross sections for, (E), 22:11569 (SLAC-PUB-372)
interactions e + p → e + p at 1.0 to 3.75 $(GeV/c)^2$, scaling in ratio of proton electric and magnetic form factors from, (E), 24:18065
interactions e + p → e + p at 1.14 to 6.56 GeV, proton electromagnetic form factors from spectrometer study of cross sections for, (E), 25:1373
interactions e + p → e + p at 100 GeV, proposed experiments on, 24:51883 (TID-25473(Vol.4), pp 77-8)
interactions e + p → e + p at 15 and 18 GeV, magnetic spectrometer and scintillation counter hodoscope study of polarization in, (E), 24:24214
interactions e + p → e + p at 15 and 18 GeV, search for polarization in, (E), 25:5252 (UCRL-20093)
interactions e + p → e + p at 15 and 18 GeV, search for polarization in asymmetry in, (E), 25:45633
interactions e + p → e + p at 4 and 10 GeV at 2.6 to 35.0°, magnetic spectrometer study of cross section ratio with e^+ + p → e^+ + p interactions for, (E), 24:32955
interactions e + p → e + p at 5 GeV/c, simulated time reversal violation in, (T), 24:47489
interactions e + p → e + p at 5.275 GeV, use of magnetic spectrometer for momentum analysis of, 21:36456

interactions e + p → e + p at 5.5 and 6 GeV, magnetic spectrometer and scintillation counter study of cross sections for elastic, 21:29430
interactions e + p → e + p at 6 GeV, proton form factors from elastic, (E), 21:29429
interactions e + p → e + p at 70 to 280 MeV, cross sections and proton magnetic form factor from backward, (E), 25:43528 (LAL-1250)
interactions e + p → e + p at high energies, equal strengths for second- and first-order contributions to, 25:1428
interactions e + p → e + p at high energies, polarization dependence of differential cross sections for, (T), 25:1452
interactions e + p → e + p at high energies, proton electromagnetic form factors from spectrometer study of cross sections of, (E), 25:1366 (DESY-70/42)
interactions e + p → e + p up to 6 GeV, design of magnetic spectrometer for analysis of, 21:28205 (DESY-67/10)
interactions e + p → e + p, cross sections for elastic, (E/T), 21:29488
interactions e + p → e + p, e^2 and e^4 approximations for amplitude structure in, (T), 25:25360 (JINR-P2-5629)
interactions e + p → e + p, effects of Veneziano-model form factors on ratios of cross sections for $e^+ + p \rightarrow e^+ + p$ interactions and, (T), 25:19942
interactions e + p → e + p, electromagnetic form factors for, (E), 21:2404 (SLAC-PUB-225)
interactions e + p → e + p, extended-particle-quark model for nucleon form factors from, (T), 24:32024
interactions e + p → e + p, form factors of protons from, 21:29460
interactions e + p → e + p, general expression for differential cross section for polarization dependence of, (T), 22:39329
interactions e + p → e + p, proton electromagnetic form factors from data on, (T), 25:50090 (JINR-P2-5901)
interactions e + p → e + p, renormalizable theory with charged and neutral intermediate bosons for, 25:22773
interactions e + p → e + p, S-matrix evaluation for elastic, 21:29479
interactions e + p → e + p, three-pole formula for proton form factors from, (T), 22:22366
interactions e + p → e' + p(n) + $\pi^+(\pi^-)$ at 1000 to 1170 MeV, Born-approximation and isobaric-model analysis of cross sections for, (E/T), 25:38641
interactions e + p → e + p(n) + $\pi^+(\pi^-)$, review of, 23:39659
interactions e + p → e + p(π^+) + MM, production cross sections for, (E), 25:38689 (DESY-71/19)
interactions e + p → e + π^0 + p at 4.0 to 5.4 GeV, differential cross sections for backward, (E), 25:47707 (DESY-71/29)
interactions e + p → e + π^0 + p, differential cross sections for, (E), 25:59353
interactions e + p → e + π^0 + p, test of dip mechanisms in hadron interactions using, (T), 25:59346
interactions e + p → e + π^+ + Δ^0(1236) at 4.0 to 5.4 GeV, differential cross sections for, (E), 25:45629 (DESY-71/25)
interactions e + p → e + π^+ + Δ^0(1236), differential cross sections for, (E), 25:50049
interactions e + p → e + π^+ + N + nπ at 0.7 to 3 GeV, spark chamber and threshold Cherenkov counter study of, (E), 22:11567 (DESY-67/31)
interactions e + p → e + π^+ + n at 0.7 to 3 GeV, spark chamber and threshold Cherenkov counter study of, (E), 22:11567 (DESY-67/31)
interactions e + p → e' + π^+ + n at 4 to 5.4 GeV, differential cross sections for, (E), 25:27950 (DESY-71/9)
interactions e + p → e + π^+ + n at 4.0 to 5.4 GeV, differential cross sections for, (E), 25:40865
interactions e + p → e + π^+ + n at 4.5 GeV, π form factor and cross sections for, (E/T), 25:40864
interactions e + p → e + π^+ + n at high energies, tests of vector dominance model, finite-energy sum rule predictions for electromagnetic processes, and π form factor from, (T), 24:52009
interactions e + p → e' + π^+ + n in spark chamber, cross section for π^+ production in, (E), 22:9500
interactions e + p → e + π^+ + n, angular distributions of, (E), 25:33612
interactions e + p → e' + π^+ + n, differential cross sections for, (E), 25:30718
interactions e + p → e' + π^+ + n, longitudinal part of cross section for, (E/T), 25:30719
interactions e + p → e + π^+ + n, virtual photoproduction cross sections and π form factor from, (E), 25:33611
interactions e + p → e + π^+ + π^- + p, cross section for rho' production in dual model for diffractive, (T), 25:12137 (DESY-70/56)
interactions e + p → e + rho^0 + p at 4.9 GeV, differential cross section for $\gamma + p \rightarrow$ rho^0 + p interactions from, (E), 22:15716
interactions e + p → heavy electron + p, upper limit for cross section for, (E), 21:26150 (MIT-2098-299, pp 35-51)
interactions e + p → Λ + τ, cross sections, Cabibbo hypothesis, PCAC, and T invariance for weak, 23:18868
interactions e + p + p → ^{1}D + τ, test of lepton nonconservation from neutrino capture rate at earth from, (E/T), 23:46678
interactions e + p → p + 2π, hadronic s-channel helicity conservation in, (T), 25:14636 (NYO-4204-10)
interactions e + p → p + W^- + τ, total cross sections for, 24:24270
interactions e + p → π^0 + e + p, polarized incident electron foζ asymmetry in, (T), 25:17440
interactions e + p → π^0 + n at threshold, neutron electromagnetic form factor from, (E), 25:3244
interactions e + p → π^0 + n in first resonance region, angular distribution for, (T), 23:30732
interactions e + p → rho^0 + p, Pomeranchuk decoupling from ordinary Regge trajectories in rho^0 transverse polarization in, (T), 25:5348 (COO-264-562)
interactions e + p above second resonance, review of π production in, (E), 25:56406 (DESY-71/35)
interactions e + p and p + p at large momentum transfers, relation between elastic, 22:48257 (LNF-68/40)
interactions e + p and p + p at large momentum transfers, relation between elastic, 22:50415
interactions e + p at 0 to 10 GeV, review of nucleon inelastic electromagnetic form factors from, (E/T), 25:52995
interactions e + p at 0.1 to 0.6 (GeV/c)^2, resonance production from, (E), 22:3343
interactions e + p at 0.647 to 1.910 GeV, electromagnetic form factors of proton from, (E), 23:8724
interactions e + p at 0.8 and 2 (GeV/c)^2, ratio of transverse and longitudinal cross sections of deep inelastic, (E), 24:10652 (DESY-69/46)
interactions e + p at 0.80 to 1.12 GeV, cross sections for absorption of transverse and longitudinal photons in inelastic, (E), 25:36381
interactions e + p at 1.5 to 6 GeV, cross sections for inelastic, (E), 23:18780 (DESY-68/53)
interactions e + p at 1.5 to 6 GeV, Δ(1236) production and form factor from, (E), 23:18780 (DESY-68/53)
interactions e + p at 1.5 to 6 GeV, form factor of $\gamma N\Delta$ vertex and cross section for π production from, (E), 23:5513
interactions e + p at 100 and 245 F^{-2}, magnetic form factors from elastic, (E), 21:3973
interactions e + p at 100 eV, laser-induced multiphoton processes in, (T), 25:33634
interactions e + p at 12 to 18 GeV, test of time reversal invariance in inelastic, (E), 24:52161
interactions e + p at 15 and 18 GeV, magnetic spectrometer and scintillation and shower counter study of time reversal invariance in inelastic, (E), 24:24213
interactions e + p at 150 GeV, self-coupling of weak lepton currents in, (T), 25:43612
interactions e + p at 180°, experimental arrangement for studying, 22:6642 (LAL-1182)
interactions e + p at 19.5 GeV, cross sections and proton structure functions for inelastic, (E), 24:51882 (SLAC-PUB-796)
interactions e + p at 2 GeV/c, cross sections for π production in, (E), 25:53006
interactions e + p at 2.71 to 8.46 GeV, electromagnetic form factors from, 21:27291 (NP-16765)
interactions e + p at 3.5 to 6.0 GeV, cross sections for elastic, 21:21131
interactions e + p at 4 to 20 GeV, review on inelastic, 23:13055
interactions e + p at 4.0 to 17.8 GeV, cross sections and magnetic form factors for elastic, (E), 22:13641
interactions e + p at 5 GeV, search for heavy electron in inelastic, (E), 22:22283
interactions e + p at 7 to 17 GeV at 6 and 10°, cross sections for inelastic, (E), 23:51838
interactions e + p at 7 to 17 GeV at 6 and 10°, structure function from inelastic, (E), 23:51837
interactions e + p at 8.5 MeV, differential cross sections and spectra for elastic, (E), 21:40378
interactions e + p at 938 to 1400 MeV, one-quadrupole spectrometer study of cross sections for inelastic, (E), 22:22279 (DESY-67/34)
interactions e + p at GeV energies, multiple-parton-model predictions for deep inelastic, (T), 25:50098
interactions e + p at high energies, amplitudes for, 23:42618
interactions e + p at high energies, Bjorken limit for inelastic, 23:8770 (UCSD-10-P-10-48)
interactions e + p at high energies, book on, 21:2430
interactions e + p at high energies, broken scale invariance and kinematic moments of cross sections for, 25:17449
interactions e + p at high energies, chiral SU(3) x SU(3) equal-time commutation relation extension to light cone for amplitude of forward spin-averaged, 24:3590
interactions e + p at high energies, complete correspondence identity for nonrelativistic quantum dynamics of Rutherford, 23:39668
interactions e + p at high energies, effect of transverse momentum distribution in parton model for inelastic, (T), 25:3323
interactions e + p at high energies, electromagnetic form factors from, (T), 22:50328
interactions e + p at high energies, extended version of diffraction model with duality, quarks, and partons for electron and hadron production in, 24:12986
interactions e + p at high energies, field theoretic model for neutral vector meson production in, 24:30479 (NYO-2262-TA-217)
interactions e + p at high energies, field-theoretic model of soft, neutral-meson production for deep-inelastic, 25:14607
interactions e + p at high energies, impulse approximation and parton model for deep inelastic, (T), 25:7604
interactions e + p at high energies, models for inelastic, 23:27766 (SLAC-PUB-571)
interactions e + p at high energies, multiperipheral model for form factor for inelastic, (T), 25:43602
interactions e + p at high energies, natural pseudoscalar meson renormalizable theory without cutoff for deep inelastic, 24:24293
interactions e + p at high energies, nonrelativistic quark model for sum rule for inelastic, 21:31564
interactions e + p at high energies, nonrelativistic quark model for sum rules in, 24:18130
interactions e + p at high energies, parton model of protons for inelastic, 24:8592
interactions e + p at high energies, polarization and cross sections for, (T), 22:17903
interactions e + p at high energies, quantum electrodynamics for electron and hadron production in, 23:51987
interactions e + p at high energies, Regge analysis of particle production in, (T), 25:22728
interactions e + p at high energies, review of field theoretic models for deep inelastic, (T), 25:5320 (CONF-700314-, Paper 17)
interactions e + p at high energies, scaling and duality for behavior of resonances and form factor relations for inelastic, (T), 24:51902
interactions e + p at high energies, validity of vector meson dominance from inelastic, (T), 24:42906
interactions e + p at high energies, vector-meson dominance model for rho production in, 24:12973
interactions e + p at high energies, vector-meson dominance model for inelastic, 23:25559
interactions e + p at high energy, form factors from, (E), 21:25262
interactions e + p at high energy, validity of infinite-momentum limit, 24:13000
interactions e + p at high momentum transfer, field-theoretic bootstrap of vertex functions for elastic, 24:3589
interactions e + p at high momentum transfer, inequality for inelastic backward, 22:5550
interactions e + p at high momentum transfer, sum rules for total cross sections for, 23:18853
interactions e + p at high momentum transfer, total absorption cross section for virtual photons in inelastic, (E), 23:7072 (DESY-68/48)
interactions e + p at high momentum transfers, absorption cross section for virtual photons in inelastic, (E), 23:7077
interactions e + p at q^2 = 0.773 and 1.935 (GeV/c)^2, cross sections for inelastic, (E), 23:27734 (DESY-69/7)
interactions e + p at q^2 = 0.773 and 1.935 (GeV/c)^2, cross sections for inelastic, (E), 24:1496
interactions e + p at q^2 = 75 f^{-2}, proton charge form factor from elastic, (E), 21:31515 (DESY-67/18)
interactions e + p at q^2 = 75 fm^{-2}, proton charge form factor from elastic, (E), 21:42240
interactions e + p at small angles, comparison of cross section for elastic e^+ + p interactions with, (T), 24:32992
interactions e + p at small momentum transfers, proton electric form factor from effective charge distribution for, (T), 23:49076
interactions e + p at ultrahigh energies, polarization effects in, (T), 22:39320
interactions e + p at very high energies, proton internal structure determination from, (E/T), 25:36445
interactions e + p below 18 GeV at 18 to 34°, cross sections for inelastic, (E), 25:22660 (SLAC-129)
interactions e + p in CERN ISR storage ring, 22:32350 (CEAL-2000, pp A135-8)
interactions e + p in composite model, scale invariance of structure function for deep inelastic, 25:56465
interactions e + p in deep continuum region, cross sections for, (E/T), 24:24289
interactions e + p in deuterium at 0.27 to 4.47 (GeV/c)^2, ratio of e + n interactions to inelastic, (E), 23:42531
interactions e + p in e + d interactions at high energies, cross sections for inelastic, (E), 25:56405 (DESY-71/33)
interactions e + p in field-theoretic model, Bjorken scaling limit for deep inelastic, 25:22733
interactions e + p in multiperipheral model with scalar couplings, scale invariance in inelastic, (T), 24:45455
interactions e + p in parton model, structure functions for deep inelastic, 24:13001
interactions e + p in quantum electrodynamics, proton models for, 24:20102
interactions e + p in resonance region, upper limits for ratio of longitudinal to transverse cross sections for particle production in, (E), 25:22659 (DESY-71/2)
interactions e + p in Veneziano model, scaling law for deep inelastic, 24:52025
interactions e + p in Veneziano-type model with diffraction, deep inelastic, 25:53098
interactions e + p near Δ(1236), spectrometer study of cross sections for inelastic, (E), 25:43527 (DESY-71/21)
interactions e + p near N(1470), analyticity of inelastic hadronic form factor and model of CP violation for, (T), 25:14765
interactions e + p near threshold, parton model for relation of proton elastic electromagnetic form factor with structure function of deep inelastic, 24:12991
interactions e + p on polarized targets, π angular distribution from production in, (T), 22:50322
interactions e + p to 1.1 GeV, analysis of inelastic, (E/T), 22:11614
interactions e + p to 5 GeV/c, excitation of N*(1238), N*(1512), N*(1688), and N*(1920) in inelastic, (E/T), 21:29422
interactions e + p up to 18 GeV at 18 to 34°, form factors, scaling, and cross sections for inelastic, (E), 25:59242
interactions e + p with polarized protons at 3.98 to 5.98 GeV, time reversal invariance in inelastic, (E), 22:52917
interactions e + p, (n - p) mass difference from, (T), 21:29478
interactions e + p, amplitude for production of two soft π in, 25:43596
interactions e + p, angular distribution of meson pair production in, (T), 22:1411
interactions e + p, asymptotic behavior of highly virtual photons from deep inelastic, 25:25379

interactions e + p, asymptotic behavior of production cross sections for, 23:49093
interactions e + p, asymptotic scaling of structure functions for, 25:59342
interactions e + p, asymptotic sum rules for electroproduction, 24:28512
interactions e + p, Bjorken limit and Jin—Martin lower bound for, (T), 25:3294 (NYO-4204-5)
interactions e + p, bremsstrahlung model for relation of differential cross sections for p + p → p + p interactions with proton electromagnetic form factors in, (T), 24:52145
interactions e + p, C-invariance violation from asymmetry in, 25:33792
interactions e + p, canonical quantum field theory of deep-inelastic, 24:30480
interactions e + p, classical theory for correspondence identity derivation for Rutherford, 23:39667
interactions e + p, coincidence measurement of cross sections for elastic, (E), 24:37607
interactions e + p, comparison of structure functions with inelastic p + p interactions at 19.2 GeV/c, 25:7541
interactions e + p, conformal symmetry for deep inelastic, 24:40304
interactions e + p, contribution of elastic intermediate states to polarization of recoil proton in elastic, 25:22752
interactions e + p, contribution of longitudinal virtual photon in inelastic, (E), 23:14941
interactions e + p, cross sections for electromagnetic polarized, (T), 22:22367
interactions e + p, cross sections for inelastic, (E/T), 24:24217
interactions e + p, cross sections for inelastic, (E), 22:34833
interactions e + p, cross sections for inelastic, (T), 22:1412
interactions e + p, current algebra methods and scale invariance for deep inelastic, 25:33601
interactions e + p, diffraction model in eikonal approximation for deep elastic, 24:18132
interactions e + p, dispersion sum rules for inelastic, 24:26395
interactions e + p, distributions of transverse momenta in inelastic, (T), 25:27974
interactions e + p, domain of validity of vector-dominance model for inelastic, 24:18123
interactions e + p, effect of electron structure on polarization for one-photon-exchange, 21:37753
interactions e + p, effect of proton structure on quasi-potential of, 22:9542
interactions e + p, electromagnetic contribution to bremsstrahlung production from, 21:23321
interactions e + p, electromagnetic form factor of protons from, 22:11626
interactions e + p, electromagnetic form factor of proton from cross sections from elastic, (E), 25:30786
interactions e + p, electromagnetic form factors from elastic, 22:3326
interactions e + p, experimental methods and equipment for elastic, 22:11611
interactions e + p, extrapolation of structure function from deep inelastic region to resonance region in, (T), 25:40923
interactions e + p, field theory for Compton scattering amplitude and duality in deep inelastic current, (T), 25:59363
interactions e + p, final particle correlations in deep inelastic, 24:24295
interactions e + p, fixed pole in virtual Compton amplitude for, 25:14608
interactions e + p, fixed poles in virtual Compton amplitudes for q^2 dependence of structure functions of inelastic, 24:24294
interactions e + p, form factor from elastic, 23:10784
interactions e + p, form factors from inelastic, 22:11611
interactions e + p, form factors of N* resonances from, (E/T), 23:8711 (ISS-68/15, pp 30-44)
interactions e + p, generalized vector meson dominance for phenomenological scaling in inelastic, (T), 25:40914 (COO-264-580)
interactions e + p, geometrical interpretation of scale invariance in, (T), 24:45458
interactions e + p, geometrical interpretation of scale invariance for inelastic, (T), 24:47397 (LNF-70/34)
interactions e + p, hadron electrodynamics in resonance model for, 25:59386
interactions e + p, incoherent droplet model for inelastic, 24:24265 (ANL/HEP-6909, pp 150-8)
interactions e + p, incoherent droplet model for multiparticle production in, 23:16947 (MIT-2098-506)
interactions e + p, isobar model calculations of polarization of recoil protons in elastic, (T), 25:30780
interactions e + p, ladder model for structure functions for deep-inelastic, 25:14612
interactions e + p, leading light-cone behavior in deep inelastic, (E), 25:7600
interactions e + p, lectures on parton model for structure functions, sum rules, and asymptotic behavior for electron production in deep inelastic, (T), 25:47778
interactions e + p, light-cone expansions of current operator products for exclusive, 25:33614
interactions e + p, limits on P-violating polarization in, 21:46569
interactions e + p, LISP program for algebraic computation of radiative corrections for, 21:18942
interactions e + p, longitudinal γ contribution to π production from, (E), 22:13635 (LAL-1185)
interactions e + p, longitudinal photon contribution to π production in, (E), 22:26550
interactions e + p, magnetic spectrometer and scintillation counter study of cross sections for, (E), 24:8554 (DESY-69/34)
interactions e + p, meson and baryon resonance production in, 22:46375
interactions e + p, model for renormalizable theory for weak, 22:48280
interactions e + p, modification of one-photon—electron vertex function effects on polarization in, (T), 23:39661
interactions e + p, most probable number of partons in parton models for inelastic, (T), 25:43585 (SU-1206-246)
interactions e + p, multi-Regge model for inelastic, (T), 25:14621
interactions e + p, multi-Regge model for inelastic, 24:13006
interactions e + p, nucleon electromagnetic structure determination from, (T), 22:13718
interactions e + p, nucleon structure function from three-quark-boson model for deep inelastic, 25:40933
interactions e + p, O(3,1) analysis of currents and current commutators for singularities of Fourier transforms for inelastic, (T), 25:19934
interactions e + p, P-odd effects in, 23:23438
interactions e + p, parton and quark models for deep inelastic, (T), 25:3310 (DESY-70/50)
interactions e + p, parton model for analysis of inelastic, (T), 24:40318
interactions e + p, parton model for differential distributions for large-invariant-mass μ^+—μ^- pair production in inelastic, (T), 25:47784
interactions e + p, parton model for inelastic, (T), 24:10701 (SU-1206-207)
interactions e + p, parton model for structure functions for hadron production in deep inelastic, (T), 25:5330
interactions e + p, parton—duality model for structure functions for deep-inelastic, (T), 25:17441
interactions e + p, PCAC hypothesis and current algebra analysis of cross sections for pion production in, 25:53061
interactions e + p, phenomenological analysis of inelastic nucleon form factors from, (T), 24:20100
interactions e + p, phenomenological model for proton electromagnetic structure in, 24:28509
interactions e + p, phenomenological predictions from virtual photon interactions for deep-inelastic, 25:22753
interactions e + p, pion production in, (E), 24:37608
interactions e + p, polarization of recoil p in elastic, (E), 24:45405
interactions e + p, production of heavy lepton in, (T), 23:7116
interactions e + p, production of N* resonances in, (T), 23:8770 (UCSD-10-P-10-48)
interactions e + p, proton electric form factor from elastic, (E), 23:42532
interactions e + p, proton electromagnetic form factors and cross sections for backward elastic, (E), 25:45641
interactions e + p, proton form factors and radius from, (T), 25:27991
interactions e + p, proton form factors from analysis of cross-section data for, 24:47396 (JINR-P1-5178)
interactions e + p, proton polarization in elastic, (T), 24:40321
interactions e + p, proton self-mass from cross section for, 25:7603
interactions e + p, π production cross sections in electron reactions with carbon-12 at 1.150 GeV at 25 to 60° for Δ(1236) production in, (E), 24:28470
interactions e + p, quark model with relativistic extended internal structure for structure functions for deep inelastic, (T), 25:36444
interactions e + p, radiative corrections for elastic, (T), 23:7142 (NP-17681)
interactions e + p, radiative corrections for two or more observation uncertainties in elastic and inelastic, (T), 23:15035
interactions e + p, radiative corrections to, 23:32667
interactions e + p, radiative corrections to elastic and inelastic, 23:15039
interactions e + p, radiative corrections to inelastic, 25:59366
interactions e + p, range of virtual photons in deep inelastic, (T), 24:40319
interactions e + p, ratio of cross sections for elastic e^+ + p and, 22:44302
interactions e + p, Regge residues for extrapolation of γ + p total cross sections at high energies to deep inelastic region of, (T), 25:3312 (NYO-4204-6)
interactions e + p, Reggeization scheme for photon processes for deep inelastic, (T), 25:12148
interactions e + p, relation among asymptotic behavior of amplitude, spectral function of current commutator, and sum rules for Schwinger term for, 25:9701 (ITF-70-73)
interactions e + p, relation between p + p interactions at high energies and deep inelastic, 25:9805
interactions e + p, renormalizable theory of weak interactions for, 22:44386 (ITEF-580)
interactions e + p, review of inelastic, (E/T), 23:49156
interactions e + p, review of parton and vector dominance models for cross sections and structure functions for hadron production in deep inelastic, (T), 25:36452
interactions e + p, review of research on, 21:29421
interactions e + p, review on theoretical aspects of inelastic, 24:21964
interactions e + p, scale invariance breaking from models for Q^2 dependence of structure functions for inelastic, (T), 25:17422 (SU-1206-236)
interactions e + p, scale invariance of proton inelastic structure function from, 25:27995
interactions e + p, scaling properties in, (T), 25:36435 (NYO-1932(2)-189)
interactions e + p, Schwinger-term sum rule for structure function in inelastic, 25:17434
interactions e + p, search for time reversal invariance violation in inelastic, (E), 25:5400 (UCRL-20041)
interactions e + p, search for violation of time-reversal invariance in inelastic, (E), 24:32957
interactions e + p, separation of infrared contributions to radiative corrections in, (T), 23:13063
interactions e + p, separation of infrared contributions to radiative corrections in terms of exponential factor for, 22:29654 (DESY-68/16)
interactions e + p, spaceon structures in higher dimensions for, 25:38791
interactions e + p, spin-dependent structure functions in cross sections of deep inelastic, (T), 24:26404
interactions e + p, structure function and scaling behavior of inelastic, 25:27999
interactions e + p, structure functions and cross sections for meson production in, 25:30783
interactions e + p, structure functions in ladder model with spin-$^1/_2$ nucleons for deep inelastic, (T), 25:3311 (NYO-4204-4)
interactions e + p, sum rules relating proton electromagnetic form factors to cross sections for, 24:24315
interactions e + p, super-eikonal model for structure function of deep inelastic, (T), 25:19939 (NYO-2262-TA-221)
interactions e + p, supereikonal model for structure function of deep inelastic, (T), 24:45466
interactions e + p, tensor operators of rank two for SL(2,C) symmetry for inelastic, 24:37844
interactions e + p, test of μ—e universality from comparison of μ + p inelastic interactions and inelastic, (E/T), 25:50050
interactions e + p, test of time reversal invariance in asymmetry in inelastic, (E), 25:45634
interactions e + p, test of weak interaction renormalization theories in, (T), 25:14646
interactions e + p, transverse momentum distribution in parton model for inelastic, (T), 24:42899 (SU-1206-225)
interactions e + p, two-photon exchange contribution to differential cross sections for, (T), 23:42601
interactions e + p, two-photon exchange contribution to, 24:3568
interactions e + p, two-photon generation mechanism for angular distributions and production cross sections for π^0 production in, (T), 25:59370
interactions e + p, two-photon-exchange contribution to elastic, 22:44367
interactions e + p, up—down asymmetry in inelastic polarized, 24:45465
interactions e + p, use of harmonic analysis for inelastic, 25:40930
interactions e + p, validity of Sachs—Schwebel theory of quantum electrodynamics for, 23:15226
interactions e + p, vector dominance model for deep inelastic, 24:6707
interactions e + p, vector dominance model for inelastic, 25:59365
interactions e + p, vector-meson dominance for, 24:24280
interactions e + p, vector-meson-dominance predictions for inelastic, 24:12989
interactions e + p, Veneziano-like model for two-current amplitude of deep inelastic, (T), 25:19954
interactions e + p, weak interaction effects in, (T), 23:13060
interactions e + p, wee parton model for single-particle production, 25:59387
interactions e + π → e + A_1, cross sections and polarization effects in, (T), 23:13058
interactions e + π → W^- + τ + π at 30 to 300 GeV, total cross sections for, (T), 25:43603
interactions e + π at ultrahigh energies, polarization effects in, (T), 22:39320
interactions e + π^+ → e + π^+ + sigma*, elementary and composite pion ladder models for asymptotic behavior of amplitudes in, (T), 25:22731
interactions e^+ + e^- → e^+ + e^- + π^+ + π^-, Feynman diagram model of, 25:56460
interactions e^+ + e^- → hadrons, experimental verification of C invariance in, 25:30926
interactions e^+ + e^- → π^0 + γ, π^0 → γ + γ, test of vector-meson dominance model in, 24:15509
interactions e^- + anti ν/sub e/ → e^- + anti ν/sub e/ + γ, cross sections for, 21:25271
interactions e^- + d → e^- + n + p, inelastic scattering study of, (E), 23:5804
interactions e^- + d below 370 MeV, cross sections for, (E), 21:18880
interactions e^- + d, neutron electric form factor from elastic, 21:25257
interactions e^- + d, neutron electromagnetic form factors from, (T), 21:15296
interactions e^- + d, neutron form factor from quasielastic, (E), 21:3970(R) (NP-16354)
interactions e^+ + e^- → μ^+ + μ^- in colliding beams, quantum electrodynamics breakdown in, (T), 23:23526 (LNF-69/1)
interactions e^+ + e^- → (2n+1)π, test for ΔI less than or equal to 1 in, 22:46368
interactions e^+ + e^- → 2γ at 1 GeV, validity limit of quantum electrodynamics, 25:14520
interactions e^+ + e^- → 2γ at high energies, cross sections for, (T), 21:18955
interactions e^+ + e^- → 2γ at high energies, γ circular polarization in, (T), 22:13709
interactions e^+ + e^- → 2γ, at high energies in colliding beams, quantum electrodynamics for polarization of finite particles in, 22:39318
interactions e^+ + e^- → 2γ, experimental method for investigating, 21:42306
interactions e^+ + e^- → 2γ, quantum electrodynamics predictions for, 22:48360
interactions e^+ + e^- → 2π, inelastic and finite-width effects for, 24:12985
interactions e^+ + e^- → $2\pi^+$ + $2\pi^-$, Veneziano model predictions for, (T), 24:52033
interactions e^+ + e^- → 3γ at high energies, spectra and angular distributions of photons in, (T), 23:3677
interactions e^+ + e^- → 3γ, C nonconservation in, (E), 21:17023

interactions $e^+ + e^- \to 3\gamma$, test of quantum electrodynamic equation linearity from double-logarithmic asymptotics of, 23:36890
interactions $e^+ + e^- \to 3\pi$, inelastic and finite-width effects for, 24:12985
interactions $e^+ + e^- \to 3\pi$, method for deriving angular correlations in, 22:41774 (NP-17531)
interactions $e^+ + e^- \to 3\pi$, relation between amplitudes for $\pi^0 \to 2\gamma$, $\gamma + \gamma \to 3\pi$, and, 25:59357
interactions $e^+ + e^- \to 3\pi$, test for isotensor couplings in, 24:49395
interactions $e^+ + e^- \to 4\pi$ from threshold to 850 MeV, cross sections from vertex function for, 24:3636
interactions $e^+ + e^- \to 4\pi(5\pi)$ below 2 GeV, quasi-two-body enhancement of tails of rho, ω, and phi for total cross sections of, (T), 25:25366
interactions $e^+ + e^- \to A_1 + A_1$ in colliding beams, methods for determination of particle parity in, (T), 25:33642
interactions $e^+ + e^- \to A_1 + \pi$ in colliding beams, test of hard-pion current algebra models from predicted total cross sections and angular distributions for, (T), 25:17423
interactions $e^+ + e^- \to A_1 + \pi$ in colliding beams, A_1rhoπ vertex and vector dominance for, 23:27782
interactions $e^+ + e^- \to A_1 + \pi$, chiral SU(2) x SU(2) current-algebra predictions for, 25:33702
interactions $e^+ + e^- \to A_2 + \pi$, cross sections and polarization effects in, (T), 23:13058
interactions $e^+ + e^- \to$ anti $N + N^*$, total cross section for, 23:49079
interactions $e^+ + e^- \to$ anti $\tau + \tau$, cross sections for, (T), 21:17095
interactions $e^+ + e^- \to$ anti p + p, differential and total cross sections and modulus and phase of form factors of proton electric dipole moment from, (T), 25:12224
interactions $e^+ + e^- \to$ antiparticle + particle in colliding beams, infrared corrections for, 22:11623
interactions $e^+ + e^- \to e^+ + e^- + 2\gamma$, angular distribution, energy spectra, and cross section for, 21:33651
interactions $e^- + e^- \to e^-_1 + e^- + 2\gamma$, angular distribution, energy spectra, and cross section for, 21:33651
interactions $e^+ + e^- \to e^+ + e^- + 2\gamma$, sandwich lead-scintillation counter study of luminosity in, (E), 24:6690 (LAL-1222)
interactions $e^+ + e^- \to e^+ + e^- + A^+ + A^-$, lower order of perturbation theory for cross section relation of $\gamma + \gamma \to A^+ + A^-$ interactions with, (T), 25:19938 (JINR-P2-5505)
interactions $e^- + e^- \to e^- + e^- + e^+ + e^- + e^+ + e^-$ at 1 to 10 GeV, cross sections for, 25:53052
interactions $e^+ + e^- \to e^+ + e^- + e^+ + e^- + e^+ + e^-$ at 1 to 10 GeV, cross sections for, 25:53052
interactions $e^+ + e^- \to e^+ + e^- + e^+ + e^-$ at 1 to 10 GeV, cross sections for, 25:53052
interactions $e^- + e^- \to e^- + e^- + e^+ + e^-$ at 1 to 10 GeV, cross sections for, 25:53052
interactions $e^+ + e^- \to e^+ + e^- + e^+ + e^-$ at 2 x 510 MeV, cross section and angular distribution for, (E), 25:27994
interactions $e^+ + e^- \to e^+ + e^- + e^+ + e^-$, cross section for, (T), 25:36440
interactions $e^+ + e^- \to e^+ + e^- + \gamma + \gamma$, cross sections for π^0, eta, and eta' production in, 25:59389
interactions $e^+ + e^- \to e^+ + e^- + \gamma + \gamma$, proposal for experimental study of $\pi^0\gamma\gamma$, eta $\gamma\gamma$, and $X^0\gamma\gamma$ vertices from, 25:59253
interactions $e^+ + e^- \to e^+ + e^- + \gamma$ at 15 GeV (lab) and 600 and 4000 MeV (cm), bremsstrahlung spectrum from, (T), 21:18950
interactions $e^+ + e^- \to e^+ + e^- + \gamma$ in Adone storage ring, luminosity measurements from, 23:28208
interactions $e^+ + e^- \to e^+ + e^- + \gamma$, hard bremsstrahlung in, 25:53068
interactions $e^+ + e^- \to e^+ + e^-$ + hadrons, total cross sections for $\gamma + \gamma \to$ hadrons interactions from, 25:53081
interactions $e^+ + e^- \to e^- + e^+ + K$ + anti K, contribution of Feynman diagrams for, 24:24291
interactions $e^+ + e^- \to e^+ + e^- + K^+ + K^-$ at 2 and 10 GeV, study of $\gamma\gamma$ interactions from, (E/T), 25:7607
interactions $e^- + e^- \to e^- + e^- + K^+ + K^-$, double-logarithmic approximation for cross sections for, 25:27997
interactions $e^+ + e^- \to e^+ + e^- + K^+ + K^-$, double-logarithmic approximation for cross sections for, 25:27997
interactions $e^+ + e^- \to e^+ + e^-$ + $m\gamma$ at high energies, double-logarithmic approximation for bremsstrahlung cross sections for backward, (T), 25:59374
interactions $e^+ + e^- \to e^+ + e^- + m\pi^+ + m\pi^-$, soft-pion techniques, PCAC hypothesis, and current algebra for cross sections for, (T), 25:40925
interactions $e^- + e^- \to e^- + e^+ + \mu^+ + \mu^- + \mu^+$, contribution of Feynman diagrams for, 24:24291
interactions $e^- + e^- \to e^- + e^- + \mu^+ + \mu^-$ at 1 to 10 GeV, cross section for, 25:53052
interactions $e^+ + e^- \to e^+ + e^- + \mu^+ + \mu^-$ at 1 to 10 GeV, cross sections for, 25:53052
interactions $e^+ + e^- \to e^- + e^+ + \mu^+ + \mu^+$ at 2 and 10 GeV, study of $\gamma\gamma$ interactions from, (E/T), 25:7607
interactions $e^+ + e^- \to e^+ + e^- + \mu^+ + \mu^-$, double-logarithmic approximation for cross sections of, 25:27997
interactions $e^- + e^- \to e^- + e^- + \mu^+ + \mu^-$, double-logarithmic approximation for cross sections of, 25:27997
interactions $e^+ + e^- \to e^+ + e^- + \mu^-(\pi^-)(K^-) + \mu^+(\pi^+)(K^+)$ at 2 and 3 GeV, numerical calculations with two-photon exchange and double Williams—Weizsacker approximation for, 24:3566
interactions $e^+ + e^- \to e^+ + e^- + \pi^+ + \pi^-$ at 2 and 10 GeV, study of $\gamma\gamma$ interactions from, (E/T), 25:7607
interactions $e^+ + e^- \to e^- + e^+ + \pi^- + \pi^+$, contribution of Feynman diagrams for, 24:24291
interactions $e^+ + e^- \to e^+ + e^- + \pi^+ + \pi^-$, double-logarithmic approximation for cross sections of, 25:27997
interactions $e^- + e^- \to e^- + e^- + \pi^- + \pi^-$, double-logarithmic approximation for cross sections for, 25:27997
interactions $e^+ + e^- \to e^+ + e^-$ + $\pi^+(K^+) + \pi^-(K^-)$ in colliding beams, π and K pair production and amplitudes and phases for $\gamma + \gamma \to \pi^+ + \pi^-$ interactions in, (T), 25:53048 (DESY-71/30)
interactions $e^+ + e^- \to e^+ + e^-$ at 1.4 to 2.4 GeV, test of quantum electrodynamics from, (E/T), 25:38636
interactions $e^+ + e^- \to e^+ + e^-$ at 1.4 to 2.4 GeVin colliding beams, test of quantum electrodynamics from cross sections of, (E), 25:41058 (LNF-71/13)
interactions $e^+ + e^- \to e^+ + e^-$ at 1.5 to 2.4 GeV, cross sections for Bhabha, (E), 24:47357 (LNF-70/38, pp 3-20)
interactions $e^+ + e^- \to e^+ + e^-$ at 2 x 0.8 to 2 x 1.0 GeV at wide angles, search for J/super PC/ = 1^{--} neutral bosons and test of quantum electrodynamics in, (E), 24:47355 (LNF-70/36)
interactions $e^+ + e^- \to e^+ + e^-$ at 2 x 510 MeV, test of quantum electrodynamics from, (E/T), 24:30486
interactions $e^+ + e^- \to e^+ + e^-$ at 2 x 510 MeV, test of quantum electrodynamics from spark chamber and scintillation counter study of cross sections for, (E), 24:5331 (LAL-1221)
interactions $e^+ + e^- \to e^+ + e^-$ at 2 x 590 to 2 x 670 MeV, efficiency and background for, (E), 25:47709 (NP-18932)
interactions $e^+ + e^- \to e^+ + e^-$ at high energies, validity of quantum electrodynamics from absolute cross section of, (E), 24:49569 (LAL-1235)
interactions $e^+ + e^- \to e^+ + e^-$ in Adone storage ring, luminosity measurements from, 23:28208
interactions $e^+ + e^- \to e^+ + e^-$ in colliding beams, quantum electrodynamics breakdown in, (T), 23:23526 (LNF-69/1)
interactions $e^+ + e^- \to e^+ + e^-$, frame-dependence of cross sections for, 22:26591 (JINR-P2-3590, pp 81-5)
interactions $e^+ + e^- \to e^+ + e^+$, magnetic spectrometer for measuring Bhabha scattering parameter for, 22:16900
interactions $e^+ + e^- \to e^- + e^+$, proposal for Adone experiment with charge recognition for, 22:48205 (ISS-68/20)
interactions $e^+ + e^- \to e^+ + e^-$, quantum electrodynamics test from spark chamber study of Bhabha cross section for, (E), 24:6690 (LAL-1222)
interactions $e^+ + e^- \to e^+ + e^-$, S-matrix element for, 25:9740
interactions $e^+ + e^- \to e^+ + e^-$, testing predictions of quantum electrodynamics by, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^- \to e^+ + e^-$, use in determining validity of quantum electrodynamics and electron nature of mesons (μ), 22:11576
interactions $e^+ + e^- \to e^+ + W^- + \tau$, total cross sections for colliding-beam, (T), 24:24270
interactions $e^+ + e^- \to e^+ + W^- + \tau$, $W^- \to \mu^-$ + anti τ, effect of W^- polarization on μ^- angular distribution in, 23:25546
interactions $e^+ + e^- \to e^- + W^+ + \tau$/sub e/ in colliding beams, asymmetry in, (T), 22:24586
interactions $e^+ + e^- \to e^+ + W^- + \tau$/sub e/ in colliding beams, asymmetry in, (T), 22:24586
interactions $e^+ + e^- + e^+$, binding energy calculation for, 21:33643
interactions $e^+ + e^- \to e^+(e^-) + e^-(e^+)$ and $e^+ + e^- \to \mu^+(\mu^-) + \mu^-(\mu^+)$, test of crossing symmetry in quantum electrodynamics from, 25:53004
interactions $e^+ + e^- \to$ eta + γ, effect of rho° and ω° interference on cross sections for, (T), 22:24606
interactions $e^+ + e^- \to$ eta + γ, resonant cross sections for, (T), 21:11752
interactions $e^+ + e^- \to$ eta + γ, vector-dominance model and SU(3) symmetry for cross sections of, 24:5275
interactions $e^+ + e^- \to$ eta + π^0, C invariance in, 24:40442
interactions $e^+ + e^- \to$ eta $(X^0) + \gamma$, eta $(X^0) \to 2\gamma$ in colliding beams, gauge-field and quark-field algebra for test of vector dominance model for, 24:28506 (LNF-69/64)
interactions $e^+ + e^- \to$ eta°$(X^0) + \gamma$ in vector meson region, vector dominance model with linear and quadratic mixing of eta and X^0 for cross sections for, (T), 25:59377
interactions $e^+ + e^- \to \gamma$ + final state, radiative corrections and cross sections for, 25:22742
interactions $e^+ + e^- \to \gamma + \gamma + \gamma + \gamma$, cross sections for, (T), 24:30478 (N-69-10274)
interactions $e^+ + e^- \to \gamma + \gamma$ at 0.025 to 5.46 eV in negative hydrogen ions in metal hydrides, angular correlation for, (T), 21:44305
interactions $e^+ + e^- \to \gamma + \gamma$ at 1.4 to 2.4 GeV, test of quantum electrodynamics from, 25:47712
interactions $e^+ + e^- \to \gamma + \gamma$ at 2 x 0.7 to 2 x 1.2 GeV, test of quantum electrodynamics from cross sections, angular distributions, and luminosity of, (E), 25:45796 (LNF-71/16)
interactions $e^+ + e^- \to \gamma + \gamma$ under astrophysical conditions, γ spectra from, (T), 22:20175 (NP-17317)
interactions $e^+ + e^- \to \gamma + \gamma$, calculation of matrix elements with anomalous magnetic moment and polarization effects for, 22:20177
interactions $e^+ + e^- \to \gamma + \gamma$, existence of L particle in cross sections for, (E), 23:25493 (LNF-68/63)
interactions $e^+ + e^- \to \gamma + \gamma$, proposed experiment for, 21:27288 (LNF-66/56, pp 25-36)
interactions $e^+ + e^- \to \gamma + \gamma$, testing predictions of quantum electrodynamics by, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^- \to \gamma + \gamma$, use in determining validity of quantum electrodynamics and electron nature of mesons (μ), 22:11576
interactions $e^+ + e^- \to \gamma$ + pseudoscalar mesons, properties of annihilation cross sections of polarized, 21:25254(T) (SLAC-Trans-63)
interactions $e^+ + e^- \to \gamma$ at very high energies, total bremsstrahlung spectrum for, (T), 22:13704
interactions $e^+ + e^- \to \gamma$ in eight-dimensional space, (T), 22:5535
interactions $e^+ + e^- \to$ hadrons + particles, light-cone analysis for scaling behavior of inclusive, 25:47780
interactions $e^+ + e^- \to$ hadrons at high energies, asymptotic behavior of total cross section for, 21:29486
interactions $e^+ + e^- \to$ hadrons at high energies, asymptotic behavior of total cross section for, (T), 22:7466 (ITEF-493)
interactions $e^+ + e^- \to$ hadrons at high energies, constraints on, 24:28511
interactions $e^+ + e^- \to$ hadrons at high energies, neutral pseudoscalar theory for, 24:47402
interactions $e^+ + e^- \to$ hadrons at high energies, statistical model for, (T), 24:32989
interactions $e^+ + e^- \to$ hadrons at high energies, total annihilation cross sections for, (T), 22:1408
interactions $e^+ + e^- \to$ hadrons in parton model, asymptotic behavior of cross sections for, 25:40929
interactions $e^+ + e^- \to$ hadrons, bound on hadronic vacuum polarization contribution from, (T), 23:42595
interactions $e^+ + e^- \to$ hadrons, composition, energy distribution, and multiplicity of secondaries from, 25:25374
interactions $e^+ + e^- \to$ hadrons, current algebra theory for sum rules and asymptotic behavior of, 24:24287
interactions $e^+ + e^- \to$ hadrons, effect of finiteness of electromagnetic self-mass in, 24:8597
interactions $e^+ + e^- \to$ hadrons, Sugawara model and total cross sections for, 23:46650
interactions $e^+ + e^- \to$ hadrons, Sugawara model for high-energy behavior of cross sections for, 24:8713
interactions $e^+ + e^- \to$ hadrons, vector-meson field theory and PCAC for, 21:40168
interactions $e^+ + e^- \to$ hadrons, Veneziano-like model for, 24:32982
interactions $e^+ + e^- \to K$ + anti K above 1 GeV, test of vector-dominance hypothesis from, 24:12983
interactions $e^+ + e^- \to K$ + anti K, inelastic and finite-width effects for, 24:12985
interactions $e^+ + e^- \to K$ + K total cross section for, (T), 25:12141
interactions $e^+ + e^- \to K^0$ + anti K^0, CP violation in, (T), 23:18838(T) (BNL-tr-249)
interactions $e^+ + e^- \to K^0$ + anti K^0, cross section for phi contribution to, (T), 21:11752
interactions $e^+ + e^- \to K_1^0 + K_2^0$ at 510 MeV, experiment preparation for, 21:27286 (LNF-66/56, pp 3-13)
interactions $e^+ + e^- \to K^+ + K^-$ at 350 to 750 MeV, experiment preparation for, 21:27286 (LNF-66/56, pp 3-13)
interactions $e^+ + e^- \to K^+ + K^-$, cross section for phi contribution to, (T), 21:11752
interactions $e^+ + e^- \to K^+ + K^-$, efficiency of spark chambers for studying, 23:38313 (LNF-69/16)
interactions $e^+ + e^- \to K^+(\pi^+) + K^-(\pi^-)$ near resonant masses, electron bremsstrahlung effects on cross sections of, (T), 25:40915 (LNF-70/51)
interactions $e^+ + e^- \to l^{0+} + l^{0-}$, search for heavy leptons in, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^- \to \Lambda$ + anti Λ, Λ magnetic moment effects on, (T), 24:20119
interactions $e^+ + e^- \to$ mesons cross section for, (T), 25:17450
interactions $e^+ + e^- \to$ mesons, one-photon exchange approximation for, 24:15519
interactions $e^+ + e^- \to$ mesons, vector-meson dominance model for, 24:15519
interactions $e^+ + e^- \to m\gamma$ at high energies, twice-logarithmic asymptotic behavior of amplitude of, 24:18113 (ITF-69-88)
interactions $e^+ + e^- \to m\gamma$, double-logarithmic asymptotics of, (T), 24:52016
interactions $e^+ + e^- \to m\pi^+ + m\pi^- + \gamma$, soft-pion techniques, PCAC theory, and current algebra for cross sections for, (T), 25:40925
interactions $e^+ + e^- \to m\pi^+ + m\pi^- + n\pi^0$ at 1.6 to 2.0 GeV, (E), 24:47359 (LNF-70/38, pp 31-43)
interactions $e^+ + e^- \to \mu$ + e at 0.8 to 1 GeV, test of validity of leptonic selection rules from colliding-beam, (E), 25:14515
interactions $e^+ + e^- \to \mu^+ + \mu^- + \gamma$, cross sections for, (T), 21:33656
interactions $e^+ + e^- \to \mu^+ + \mu^- + \gamma$, invariant tensor integration for polarization in, (T), 23:27781
interactions $e^+ + e^- \to \mu^+ + \mu^- + \gamma$, nonlocal interaction theory with polarization for, 22:9532
interactions $e^+ + e^- \to \mu^+ + \mu^- + \gamma$, properties of annihilation cross sections of polarized, 21:25254(T) (SLAC-Trans-63)
interactions $e^+ + e^- \to \mu^- + \mu^+ + \pi^0$, analysis of, (T), 21:25256
interactions $e^+ + e^- \to \mu^+ + \mu^-$ at 1.6 to 2 GeV, test of e—μ universality and quantum electrodynamics from, (E), 24:47358 (LNF-70/38, pp 21-9)
interactions $e^+ + e^- \to \mu^+ + \mu^-$ at 2 x 290 to 2 x 352 MeV, test of quantum electrodynamics from spark chamber study of, (E), 24:6690 (LAL-1222)
interactions $e^+ + e^- \to \mu^+ + \mu^-$ at high energies in colliding beams, quantum electrodynamics for polarization of finite particles in, 22:39318
interactions $e^+ + e^- \to \mu^+ + \mu^-$ at high energies, double-logarithmic asymptotics for backward, (T), 21:44309
interactions $e^+ + e^- \to \mu^+ + \mu^-$ at high energies, unified model for heavy vector boson interaction effects in, 24:18126
interactions $e^+ + e^- \to \mu^+ + \mu^-$ in Adone, 22:11826
interactions $e^+ + e^- \to \mu^+ + \mu^-$ in colliding beams, calculation of radiative corrections for, 22:11622

interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$ near resonant masses, electron bremsstrahlung effects on cross sections of, (T), 25:40915 (LNF-70/51)
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, asymptotic behavior of amplitude and cross section for forward, 21:40280
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, J-plane singularities in amplitude of, 23:36887
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, radiative corrections to colliding-beam, (T), 21:11752
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, testing predictions of quantum electrodynamics by, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, tests of anomalously large leptonic weak interactions in, (T), 24:45463
interactions $e^+ + e^- \rightarrow \mu^+ + \mu^-$, use in determining validity of quantum electrodynamics and electron nature of mesons (μ), 22:11576
interactions $e^+ + e^- \rightarrow N$ + anti N, production of S(1727), S(1414), d(1382), and d(1855) in colliding-beam, (T), 25:59358
interactions $e^+ + e^- \rightarrow N$ + anti N(anti Δ), local current algebra sum rules for nucleon isovector radius and slope at threshold for cross sections of, 24:24267
interactions $e^+ + e^- \rightarrow N$ + hadrons in dispersion-theoretic models, Bjorken limit and scaling behavior of structure functions for, 25:17430
interactions $e^+ + e^- \rightarrow N^*$ + anti N^*, differential cross sections for colliding-beam, (T), 22:29667
interactions $e^+ + e^- \rightarrow n\gamma$ (n greater than or equal to 3), double logarithmic asymptotics and cross sections for, 23:30727
interactions $e^+ + e^- \rightarrow n\gamma$ at high energies, quantum electrodynamics for, 24:10816
interactions $e^+ + e^- \rightarrow \tau$ + anti $\tau + \gamma$, cross section for, 21:17082
interactions $e^+ + e^- \rightarrow \tau$ + anti $\tau + \gamma$, tests of anomalously large leptonic weak interactions in, (T), 24:45463
interactions $e^+ + e^- \rightarrow \tau$ + anti τ at high energies, calculations using intermediate vector mesons for cross sections of, 22:3348
interactions $e^+ + e^- \rightarrow \tau$ + anti τ in stars, neutrino energy density in universe from, 24:15539
interactions $e^+ + e^- \rightarrow \tau$ + anti τ, (T), 21:40179
interactions $e^+ + e^- \rightarrow \tau$ + anti τ, four-fermion weak interaction theory for, 21:18967
interactions $e^+ + e^- \rightarrow \tau$ + anti τ, neutrino-pair exchange in, 22:20205
interactions $e^+ + e^- \rightarrow \tau$ + anti τ, radiative corrections to, 21:35293
interactions $e^+ + e^- \rightarrow \tau$ + anti τ, stellar energy loss from, 22:50355
interactions $e^+ + e^- \rightarrow \tau$/sub e/ + anti τ/sub e/, radiative corrections for differential and total cross sections for, (T), 23:15019
interactions $e^+ + e^- \rightarrow \omega \rightarrow$ eta + γ, resonant cross section for, (T), 21:11752
interactions $e^+ + e^- \rightarrow \omega + \pi$ at 1.4 to 2.4 GeV, cross sections for new vector meson production in, 25:33629
interactions $e^+ + e^- \rightarrow \omega \rightarrow \pi^+ + \pi^- + \pi^0$ in colliding beams, (E/T), 24:30427 (CONF-690521-, pp 373-412)
interactions $e^+ + e^- \rightarrow \omega^0 \rightarrow \pi^+ + \pi^- + \pi^0$, partial width of $\omega^0 \rightarrow e^+ + e^-$ from, (E), 23:14948
interactions $e^+ + e^- \rightarrow \omega^0$, parameters for, (E), 23:7075 (LAL-1202)
interactions $e^+ + e^- \rightarrow p$ + anti p + ..., form factor effects on total cross section for, 23:25581 (JINR-E2-4370)
interactions $e^+ + e^- \rightarrow p$ + anti p in renormalizable theory of weak interactions, total cross sections for, (T), 25:53060
interactions $e^+ + e^- \rightarrow p$ + anti p, scaling law for proton form factors for, 25:59361
interactions $e^+ + e^- \rightarrow p$ + anti p, use of Adone storage ring for determining baryon form factors from, 22:11828
interactions $e^+ + e^- \rightarrow p$ + anything, hadron electrodynamics in resonance model for, 25:59386
interactions $e^+ + e^- \rightarrow p$ + hadrons, parton model for deep-inelastic, 24:37686
interactions $e^+ + e^- \rightarrow p$ + hadrons, Regge model with scale invariance for deep-inelastic, 25:38704
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow$ eta + γ, resonant cross section for, (T), 21:11752
interactions $e^+ + e^- \rightarrow$ phi + γ, cross sections and polarization parameters for phi in, (T), 24:49377
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow K^0$ + anti K^0, measurement of CP violating parameters in $K^0 \rightarrow 2\pi$ and $K^0 \rightarrow \pi + l + \tau$ decays from, 23:39772
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow K^+ + K^-$ in colliding beams, cross sections for, (E), 25:47708 (LAL-1247)
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow K^+ + K^-$, (E), 24:42863
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow$ K/sub s/^{0} + K/sub L/^{0} in colliding beams, (E/T), 24:30427 (CONF-690521-, pp 373-412)
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow \mu^+ + \mu^-$ at 2 x 510 to 2 x 670 MeV, determination of limit of validity of quantum electrodynamics from cross sections for, (E), 25:47934 (NP-18931)
interactions $e^+ + e^- \rightarrow$ phi + π at 1.4 to 2.4 GeV, cross section for new vector meson production in, 25:33629
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow \pi^+ + \pi^- + \gamma$, conformal symmetry for, 25:59542
interactions $e^+ + e^- \rightarrow$ phi $\rightarrow \pi^+ + \pi^- + \pi^-$ in colliding beams, (E/T), 24:30427 (CONF-690521-, pp 373-412)
interactions $e^+ + e^-$ phi at 2 x 508 to 2 x 514 MeV, resonance parameters for, (E), 25:47710 (NP-18933)
interactions $e^+ + e^-$ phi at 2 x 510 MeV, phi width and total cross sections for, (E), 25:22661
interactions $e^+ + e^-$ phi in colliding beams, cross sections for, (E), 25:47708 (LAL-1247)
interactions $e^+ + e^-$ phi, optical spark chamber and scintillation counter study of total width, cross section, and branching ratio for, (E), 24:6690 (LAL-1222)
interactions $e^+ + e^-$ phi, parameters of, (E), 23:7074 (LAL-1199)
interactions $e^+ + e^-$ phi, phi $\rightarrow K^0$ + anti K^0 and phi $\rightarrow 3\pi$, partial width of phi from, (E), 24:37599 (LAL-1231)
interactions $e^+ + e^-$ phi, phi $\rightarrow K^+ + K^-$, phi electromagnetic width from spark chamber and scintillation counter study of, (E), 24:37600 (LAL-1233)
interactions $e^+ + e^-$ phi, phi decay branching ratios and partial widths from, (E), 23:14949
interactions $e^+ + e^-$ pseudoscalar mesons and photons, cross sections for, (T), 21:33656
interactions $e^+ + e^- \rightarrow \pi + A_1$, asymptotic behavior of cross sections for, 25:47851
interactions $e^+ + e^- \rightarrow \pi + A_1$, π and A_1 form factors in, 25:1511
interactions $e^+ + e^- \rightarrow \pi + \omega$ above 1 GeV, test of vector-dominance hypothesis from, 24:12983
interactions $e^+ + e^- \rightarrow \pi$ + phi above 1 GeV, test of vector-dominance hypothesis from, 24:12983
interactions $e^+ + e^- \rightarrow \pi + \pi$ above 1 GeV, test of vector-dominance hypothesis from, 24:12983
interactions $e^+ + e^- \rightarrow \pi + \pi$ in Adone, proposed experiment for rho^0 production from, 21:27287 (LNF-66/56, pp 15-24)
interactions $e^+ + e^- \rightarrow \pi + \pi$ in jet model, cross sections for annihilation, 25:25378
interactions $e^+ + e^- \rightarrow \pi + \pi$, shape of rho in, 25:40990
interactions $e^+ + e^- \rightarrow \pi + \pi$, total cross section for, (T), 25:12141
interactions $e^+ + e^- \rightarrow \pi$ + rho above 1 GeV, test of vector-dominance hypothesis from, 24:12983
interactions $e^+ + e^- \rightarrow \pi^0 + e^+ + e^-$, cross sections for, 24:42918
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$ in vector meson region, vector dominance model for cross sections for, (T), 25:59377
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, asymptotic behavior of highly virtual photons from, 25:25379
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, cross sections for, 24:42918
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, effect of rho^0 and ω^0 interference on cross section for, (T), 22:24606
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, proposed experiment for, 21:27288 (LNF-66/56, pp 25-36)
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, $\pi^0 \rightarrow 2\gamma$ in colliding beams, gauge-field and quark-field algebra for test of vector meson dominance model for, 24:28506 (LNF-69/64)
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, resonant cross sections for, (T), 21:11752
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, rho$^0 \rightarrow \pi^0 + \gamma$ decay width and rho—ω interference from, (T), 23:25553
interactions $e^+ + e^- \rightarrow \pi^0 + \gamma$, twice logarithmic approximation with soft photon radiation for radiative corrections to, 24:37712
interactions $e^+ + e^- \rightarrow \pi^0 + \omega$, $\omega \rightarrow \pi^+ + \pi^- + \pi^0$, ωrhoπ coupling constant from, 24:10713
interactions $e^+ + e^- \rightarrow \pi^0$ + rho^0, asymptotic behavior of highly virtual photons from, 25:25379
interactions $e^+ + e^- \rightarrow \pi^0$(eta) + γ at 2 x 350 to 2 x 400 MeV, quark model for rho^0 and ω interference in cross section of, 22:34897 (NP-17476)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + 2\pi^0$, (T), 24:18108 (CONF-690330-, pp 36-46)
interactions $e^+ + e^- \rightarrow \pi^- + \pi^+ + \gamma$ in storage rings, search for existence of even-C $\pi\pi$ resonances from colliding beam, 24:15508
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$ in storage rings, study of even-charge hadronic systems from, (T), 25:14621
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, (T), 24:18108 (CONF-690330-, pp 36-46)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, contribution of epsilon resonance to, (T), 24:49371 (RLO-2041-42)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, contribution of epsilon (760) to, (T), 25:7598
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, γ circular polarization and phase of π form factor from, 23:30728
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, $\pi + \pi$ interactions and charge conjugation violating effects in, (E), 24:37602 (LNF-69/77)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \gamma$, $\pi\pi$ states of even charge conjugation from, 24:37703
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \pi^0$ in colliding beams, spark chamber and scintillation counter study of cross sections and ω production in, (E), 24:20056 (LAL-1229)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \pi^0$ with ωrhoπ coupling, cross section for, (T), 21:11752
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \pi^0$, final state interactions in, 23:8773
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \pi^0$, proposed test for isotensor current from, (E/T), 24:49368 (NYO-4076-8)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^- + \pi^0$, test for presence of isotensor current from, 24:49391
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ and $e^+ + e^- \rightarrow \pi^0 + \gamma$, coherent rho—$\omega$ interference in, 22:48271
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ angular and energy distributions for, (T), 25:56459
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 1.6 to 2.0 GeV, (E), 24:47359 (LNF-70/38, pp 31-43)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 2 x 290 to 2 x 470 MeV, ω—rho interference in, (E), 23:44582
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 2 x 290 to 2 x 510 MeV, position and shape of rho from colliding-beam, (E), 21:46460
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 2 x 290 to 2 x 510 MeV, preliminary results of spark chamber study of cross sections for, (E), 22:22275 (CONF-670923-, pp 376-86)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 350 to 750 MeV, experiment preparation for, 21:27286 (LNF-66/56, pp 3-13)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 775 MeV, scintillation counter and spark chamber study of, (E), 22:7419 (LAL-1181)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at 775 MeV, scintillation counter and spark chamber study of cross section for, (E), 22:9499
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ at energies around rho^0 mass, (E), 23:7076 (LAL-1203)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ in colliding beams, feasibility for study of angular distribution charge asymmetry at f-mass energy in, (E), 25:33519
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ in colliding beams, spark chamber and scintillation counter study of rho^0—ω interference in, (E), 24:20056 (LAL-1229)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ in colliding beams, quantum electrodynamics breakdown in, (T), 23:23526 (LNF-69/1)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ in renormalizable theory of weak interactions, total cross sections for, (T), 25:53060
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ in rho^0 region, π electromagnetic form factor from cross section for, (E), 23:14947
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ near rho mass, vacuum polarization corrections for amplitude of, 24:42911
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ π electromagnetic form factor in Veneziano model for, 25:7605
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$ rho—ω interference from production in, (T), 24:40310
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, asymptotic behavior of total cross sections for, 24:20112
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, cross section for intermediate rho^0 contribution to, (T), 21:11752
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, current algebra prediction of total cross section for, 23:36922
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, current-algebra prediction for cross section for, 22:39348
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, dispersion relation and sum rules for π form factor in, 23:32662
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, dispersion sum rules for π form factor from, 23:16956
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, effect of higher-mass vector mesons on π form factor in, (T), 24:40376
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, effective range resonance formula for, (E/T), 23:39593 (NYO-3399-193)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, efficiency of spark chambers for studying, 23:38313 (LNF-69/16)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, infrared radiative corrections for production of ω, phi, and rho in, 23:21074
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, mass and width of rho from, 24:8590
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, ω—phi mixing angle and rho—ω interference in, 24:18136
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, parameters for $\omega \rightarrow 2\pi$ and rho $\rightarrow 2\pi$ interference in, 24:10744 (COO-264-531)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, parametrizations of π form factor for rho mass and width in, (E/T), 23:32657
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, π charge structure and $\pi\pi$ phase shift from, 22:24600
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, π form factor from, 22:48289
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, radiative corrections to, 25:22742
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, relativistic resonance formula for analysis of, 24:24274
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, rho mass, width, and branching ratio from, (E/T), 24:15446
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, rho—$\omega$ interference in, 24:1552
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, rho—$\omega$ interference in, 24:32990
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, spark chamber study of cross sections for width of meson (rho^0) in, (E), 24:18062 (CONF-690330-, pp 15-34)
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, SU(2) x SU(2) chiral symmetry for rho$\pi\pi$ coupling from, (E/T), 22:35055
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, sum rules for, 25:38700
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, two-photon-exchange contribution to, (T), 21:11752
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, upper and lower bounds on π form factor from, 25:53069
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, upper limit for phi production in, (E), 25:12074
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, vacuum polarization effects in, (E/T), 23:44623
interactions $e^+ + e^- \rightarrow \pi^+ + \pi^-$, vacuum polarization effects of hadrons in rho - ω interference in, (T), 23:8781
interactions $e^+ + e^- \rightarrow$ rho $\rightarrow$ eta + γ, resonant cross section for, (T), 21:11752
interactions $e^+ + e^-$ rho + eta' at 1.4 to 2.4 GeV, cross section for new vector meson production in, 25:33629
interactions $e^+ + e^-$ rho + eta at 1.4 to 2.4 GeV, cross section for new vector meson production in, 25:33629
interactions $e^+ + e^- \rightarrow$ rho + f, test of tensor-meson dominance in, 25:53065
interactions $e^+ + e^- \rightarrow$ rho $\rightarrow \pi^+ + \pi^-$ at 600 to 1000 MeV, rho parameters and cross sections from, (E), 23:18784
interactions $e^+ + e^- \rightarrow$ rho $\rightarrow \pi^+ + \pi^-$, cross sections for photoproduction of rho from, 22:9554
interactions $e^+ + e^-$ rho' at 1.4 to 2.4 GeV, cross sections for new vector meson production in, 25:33629
interactions $e^+ + e^-$ rho$^0 \rightarrow \pi^+ + \pi^-$ in colliding beams, (E/T), 24:30427 (CONF-690521-, pp 373-412)

interactions $e^+ + e^- \rightarrow$ rho^0, ω^0, and phi^0, vector meson dominance predictions for, (E/T), 23:14946
interactions $e^+ + e^- \rightarrow$ rho$^0(\omega^0) + \gamma$, cross sections and polarization parameters for rho^0 and ω^0 in, (T), 24:49377
interactions $e^+ + e^- \rightarrow$ rho$^-$ + rho$^+$, electromagnetic form factors from, (T), 22:13711
interactions $e^+ + e^- \rightarrow W^- + e^+ + \tau$ at very high energies in colliding beams, total cross sections for, (T), 25:33600
interactions $e^- + e^- \rightarrow W^- + e^- + \tau$ at very high energies in colliding beams, total cross sections for, (T), 25:33600
interactions $e^+ + e^- \rightarrow W^+ + W^-$, expressions for C-, P-, and T-odd correlations in, 22:44376
interactions $e^+ + e^- \rightarrow W^+ + W^-$, identification of intermediate vector bosons in, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^- \rightarrow W^+(W^-) + \mu^-(\mu^+)$ + anti $\tau(\tau)$ in colliding beams, total cross sections for, (T), 25:33598
interactions $e^+ + e^- \rightarrow X^0(960)$ + rho$^0(\gamma)$ in colliding beams, determination of spin and parity of $X^0(960)$ from, (T), 25:53063
interactions $e^+ + e^-$ (arbitrarily polarized), photon emission from, (T), 21:27328
interactions $e^+ + e^-$ above 2 x 1 GeV, energy and angular dependence of cross sections for meson production by two-photon annihilation in, (T), 24:49388
interactions $e^- + e^-$ above 2 x 1 GeV, energy and angular dependence of cross sections for meson production by two-photon annihilation in, (T), 24:49388
interactions $e^- + e^-$ and $e^+ + e^-$, use in determining optimum operating conditions of storage rings, 21:33829
interactions $e^+ + e^-$ at 0 to 500 MeV at large angles in colliding beams, test and cut-off of quantum electrodynamics from cross sections and luminosity of Bhabha, (E), 25:53296
interactions $e^+ + e^-$ at 0.6 to 15 GeV, computer algorithms for Dirac algebra for relativistic wide-angle bremsstrahlung spectrium in, 23:25561
interactions $e^+ + e^-$ at 0.7 x 2 to 1.2 x 2 GeV, spark chamber and scintillation counter study of Bhabha scattering and μ pair and hadron production in, (E), 25:9621 (NP-18581)
interactions $e^+ + e^-$ at 0.8 to 1 GeV, production of heavy leptons in, (E), 25:14517
interactions $e^+ + e^-$ at 0.8 to 1.0 GeV, track analysis and time distribution of elastic, (E), 25:12073
interactions $e^+ + e^-$ at 1.4 to 2.4 GeV in colliding beams, new vector meson production in cross sections for hadron production in, (T), 25:40917 (LNF-71/8)
interactions $e^+ + e^-$ at 1.4 to 2.4 GeV, analysis of elastic, (E), 25:59250
interactions $e^+ + e^-$ at 1.4 to 2.4 GeV, cross sections for multiple particle production in, (E), 25:59251
interactions $e^+ + e^-$ at 1.52 to 2.62 MeV, differential cross section for, (E), 22:46314
interactions $e^+ + e^-$ at 1.6 to 2 GeV, multiplicities and total cross section for multiple particle production in, (E), 25:12143
interactions $e^+ + e^-$ at 1.6 to 2.0 GeV, peaking approximation in radiative corrections to, (E), 25:47717
interactions $e^+ + e^-$ at 1.6 to 2.0 GeV, scintillation counter and spark chamber telescope study of cross sections for multiple particle production in, (E), 24:40229 (LNF-70/37)
interactions $e^- + e^-$ at 2 x 135 MeV, angular distributions from 40 to 90° in, 21:33166
interactions $e^- + e^-$ at 2 x 43 to 2 x 160 MeV in storage rings, double bremsstrahlung production from, 22:11816
interactions $e^- + e^-$ at 2 x 43 to 2 x 160 MeV, double bremsstrahlung emission from, 21:33167
interactions $e^+ + e^-$ at 200 and 500 MeV, cross sections for, (E), 21:5350(R) (N-65-16276)
interactions $e^+ + e^-$ at 800 to 1000 MeV in colliding beams, status report on, (E), 25:52996
interactions $e^+ + e^-$ at high energies in colliding beams, vector dominance and statistical models for cross sections for meson production in, (T), 25:1440 (DESY-70/44)
interactions $e^+ + e^-$ at high energies in colliding beams, total and differential cross sections for e and μ pair production in, (T), 25:36433 (LNF-71/1)
interactions $e^+ + e^-$ at high energies in colliding beams, classification of cross sections and sum rules for hadron production in, (T), 25:38690
interactions $e^+ + e^-$ at high energies in crossed beams, cross section for production of two electron pairs in, (T), 24:49380
interactions $e^+ + e^-$ at high energies in quantum electrodynamics, 23:51987
interactions $e^+ + e^-$ at high energies, amplitudes for, 23:42618
interactions $e^+ + e^-$ at high energies, asymptotic behavior of structure functions for hadron production in, 24:5270
interactions $e^+ + e^-$ at high energies, double-logarithmic asymptotics for backward, (T), 21:44309
interactions $e^+ + e^-$ at high energies, hypothesis of similarity for hadron production in, (T), 24:45507
interactions $e^+ + e^-$ at high energies, impact factor and amplitudes for, 23:42619
interactions $e^+ + e^-$ at high energies, impulse approximation and parton model for hadron production in, (T), 25:7604
interactions $e^+ + e^-$ at high energies, integral equation for cross sections from partial waves with multi-Regge poles for bremsstrahlung amplitudes in backward, (T), 25:59369
interactions $e^+ + e^-$ at high energies, light-cone properties of axial-vector and electromagnetic current commutators for π and hadron production in, (T), 25:19941
interactions $e^+ + e^-$ at high energies, parton model for total cross sections for hadron production in, 24:40308
interactions $e^+ + e^-$ at high energies, spectral sum rules in Sugawara model with modified stress tensor for cross sections for hadron production in, (T), 25:28006
interactions $e^+ + e^-$ at high energies, Sugawara field theory of currents for total cross sections of hadron production in, 24:40306
interactions $e^+ + e^-$ at high energies, universal isovector current for $\pi\pi$ resonance production in, 24:32984
interactions $e^+ + e^-$ at high energies, vector meson current for Schwinger terms for asymptotics of total cross sections for hadron production in, (T), 25:33617
interactions $e^+ + e^-$ at infinite energy, radiative corrections to, 24:37707
interactions $e^+ + e^-$ at ultra high energies, polarization effects in annihilation, (T), 22:39320
interactions $e^+ + e^-$ in Adone storage ring, Monte Carlo program for simulation in magnetic analyses of products from, 23:37039 (LNF-69/13)
interactions $e^+ + e^-$ in Cambridge Synchrotron, 22:32254 (CEAL-2000, pp 112-18)
interactions $e^+ + e^-$ in colliding beams, angular correlation for baryon resonance production from, (T), 23:23427
interactions $e^+ + e^-$ in colliding beams, baryons, antibaryon, meson, single hadron, and multiple particle production and total cross sections for, (E/T), 25:52990 (DESY-71/28)
interactions $e^+ + e^-$ in colliding beams, contribution to total cross section from bremsstrahlung mechanism for differential cross section for hadron production in, (T), 25:59375
interactions $e^+ + e^-$ in colliding beams, differential and total cross sections for production of single neutral vector mesons and W boson in, (T), 25:33599
interactions $e^+ + e^-$ in colliding beams, differential cross sections for spin-3/2 baryon pair production in, (T), 22:24587
interactions $e^+ + e^-$ in colliding beams, differential cross sections for hadron production in deep inelastic e + e interactions from, (T), 25:59371
interactions $e^+ + e^-$ in colliding beams, feasibility of experiment for deep inelastic e + γ interactions from, (T), 25:50097
interactions $e^+ + e^-$ in colliding beams, feasibility of studying resonances with positive charge parity in, (E), 25:33519
interactions $e^+ + e^-$ in colliding beams, $\gamma + \gamma$ forward scattering from photon and hadron production in, (T), 24:52000 (JINR-E2-5347)
interactions $e^+ + e^-$ in colliding beams, hadron production through single photon exchange and electron exchange in, (E/T), 25:52990 (DESY-71/28)
interactions $e^+ + e^-$ in colliding beams, mesons (ω) and (phi) production in, (E), 24:18061 (CONF-690330-, pp 2-14)
interactions $e^+ + e^-$ in colliding beams, pair production in, (T), 25:36448
interactions $e^+ + e^-$ in colliding beams, review of, 24:18059 (CERN-69-29, pp 61-95)
interactions $e^+ + e^-$ in colliding beams, selection rules for $\gamma + \gamma$ interactions in, (E/T), 25:52990 (DESY-71/28)
interactions $e^+ + e^-$ in colliding beams, soft photon emission from, (T), 23:5556(T) (JPRS-45594)
interactions $e^+ + e^-$ in colliding beams, soft photon emission from, (T), 22:29659
interactions $e^+ + e^-$ in colliding beams, spark chamber and scintillation counter study of partial width and branching ratio of ω in, (E), 24:20056 (LAL-1229)
interactions $e^+ + e^-$ in colliding beams, tests of quantum electrodynamics in, (E/T), 25:52990 (DESY-71/28)
interactions $e^+ + e^-$ in colliding beams, two amplitudes and relative phase for $\gamma + \gamma \rightarrow \pi^+ + \pi^-$ interactions from differential cross sections for pionization in, (T), 25:45690 (DESY-71/23)
interactions $e^+ + e^-$ in colliding beams, weak interactions in, (E/T), 25:52990 (DESY-71/28)
interactions $e^+ + e^-$ in colliding-beam experiments, diagonal and nondiagonal, 24:45459
interactions $e^+ + e^-$ in complex space, 22:11621
interactions $e^+ + e^-$ in crossed beams, Landau—Lifshitz process for cross sections for hadron production in, (T), 25:59334 (LNF-71/14)
interactions $e^+ + e^-$ in parton model, structure function for annihilation, 24:13001
interactions $e^+ + e^-$ in preasymptotic region, parton model predictions for hadron production in, (T), 25:36434 (LNF-71/5)
interactions $e^+ + e^-$ in Stanford Linac and storage ring colliding beam experiments, luminosity and interaction rates for, 25:50579
interactions $e^+ + e^-$ in storage rings, experimental conditions for $\gamma + \gamma$ interactions from, 25:36451
interactions $e^+ + e^-$ in storage rings, physics of, 22:11818
interactions $e^+ + e^-$ in storage rings, review of vector meson production in, (E), 24:37601 (LAL-1234)
interactions $e^+ + e^-$ in Wilson cloud chamber, Bhabha exchange effects on cross sections for, (E), 23:3631
interactions $e^+ + e^-$ using Adone storage rings, 24:47356 (LNF-70/38)
interactions $e^+ + e^-$ using polarized beams, general formula for two-particle production in, 22:37119
interactions $e^- + e^+$ via meson (phi) and (ω) production, integer quark charge for, 21:15379
interactions $e^+ + e^-$, amplitude for production of two soft π in, 25:43596
interactions $e^+ + e^-$, angular correlations for 3π production in, 22:24579
interactions $e^+ + e^-$, atomic effects on annihilation rates for, (T), 25:1455
interactions $e^+ + e^-$, beam bypass design for Cambridge Synchrotron for providing, 22:32255 (CEAL-2000, pp 119-22)
interactions $e^+ + e^-$, Bethe—Salpeter equation for, 22:53019
interactions $e^+ + e^-$, bremsstrahlung and elastic radiative corrections to annihilation, 21:11756
interactions $e^+ + e^-$, chiral SU(3) x SU(3) equal-time commutation relation extension to light cone for amplitude of hadron production in forward spin-averaged, 24:3590
interactions $e^+ + e^-$, cross section for heavy lepton production in, (T), 25:59390
interactions $e^+ + e^-$, current commutators near light cone for hadron production in, (T), 24:49386
interactions $e^+ + e^-$, design of experiment for studying cross sections of, (E/T), 25:3245
interactions $e^+ + e^-$, double-logarithmic asymptotics of bremsstrahlung amplitudes in backward, 22:1409
interactions $e^+ + e^-$, effect of weak interaction of polarization in colliding-beam, (T), 24:42901
interactions $e^+ + e^-$, eikonal form of amplitude for elastic, 25:1600
interactions $e^+ + e^-$, estimate of hadronic contribution to charge renormalization from scale invariance in hadron production from, (T), 24:45467
interactions $e^+ + e^-$, Feynman diagrams for physical description of diffraction, 23:46658
interactions $e^+ + e^-$, Feynman rules in statistical mechanics for, 21:33645
interactions $e^+ + e^-$, field—current identity and vacuum polarization effects of hadrons in colliding-beam, 23:13054 (LNF-68/60)
interactions $e^+ + e^-$, final particle correlations in deep inelastic, 24:24295
interactions $e^+ + e^-$, form factors from colliding-beam, 22:11611
interactions $e^+ + e^-$, general causality conditions for form factors for hadron pair production from virtual photon in, 23:46657
interactions $e^+ + e^-$, Goldstone theorem and Bethe-Salpeter equation for amplitude of, 21:15402
interactions $e^+ + e^-$, hard bremsstrahlung contribution to total production cross section for, 25:53068
interactions $e^+ + e^-$, high-energy behavior of total cross sections for hadron production in, (T), 23:44626
interactions $e^+ + e^-$, hypotheses for strong interactions at high energies from single photon annihilation into hadrons in, (T), 25:38733
interactions $e^+ + e^-$, in colliding beams, spinless boson pair production in, (T), 25:53048 (DESY-71/30)
interactions $e^+ + e^-$, in storage rings, study of even-charge conjugation hadronic systems from production of hadronic states and photon in, (T), 25:14621
interactions $e^+ + e^-$, inelastic e + γ interactions from colliding-beam, 25:47793
interactions $e^- + e^+$, infrared corrections for colliding beam experiments on, 22:3320
interactions $e^+ + e^-$, infrared radiative corrections for resonant processes in, (T), 22:44353 (LNF-68/26)
interactions $e^+ + e^-$, intensities and spectral energy density of radiation from, 24:20111
interactions $e^+ + e^-$, intermediate vector meson production in annihilation, (T), 21:7488
interactions $e^+ + e^-$, invariant tensor integration for polarization in photon production in, (T), 23:27781
interactions $e^+ + e^-$, lectures on parton model for structure functions, sum rules, and asymptotic behavior for proton production in annihilation, (T), 25:47778
interactions $e^+ + e^-$, limits on production and decay modes of heavy leptons from, 25:27998
interactions $e^+ + e^-$, Orsay and Novosibirsk experiments on rho^0, ω, and phi production in, 25:5250 (DNPL/R-7, pp 139-72)
interactions $e^+ + e^-$, pair production of spin-2 particles in, (T), 23:39664
interactions $e^+ + e^-$, PCAC hypothesis and current algebra for spectral functions from soft pion production in annihilation, (T), 24:49370 (NYO-4204-2)
interactions $e^+ + e^-$, PCAC hypothesis and current algebra for spectral functions from soft-pion production in, (T), 24:49389
interactions $e^+ + e^-$, phi resonance study from colliding-beam, (E), 24:24212
interactions $e^+ + e^-$, polarization effects in identical meson pair production in, (T), 25:36438
interactions $e^+ + e^-$, polarization effects on charge-conjugation tests in annihilation, 24:13011
interactions $e^+ + e^-$, production and decay chains of meson resonances from colliding-beam, 22:50326
interactions $e^+ + e^-$, production and decay of vector mesons in, (E), 23:32600 (LNF-69/6)
interactions $e^+ + e^-$, production of heavy lepton in, (T), 23:7116
interactions $e^+ + e^-$, production of pseudoscalar mesons in, 25:56459
interactions $e^+ + e^-$, production of rho, ω, and phi in, 23:13055
interactions $e^+ + e^-$, properties of current propagator from hadronic cross sections in colliding-beam, 24:45461
interactions $e^+ + e^-$, proposed experiment using Adone for annihilation, 21:27285 (LNF-66/56)
interactions $e^+ + e^-$, quantum electrodynamics with external current and potential for, 22:32200
interactions $e^+ + e^-$, quasipotential description in quantum field theory of, 22:24592
interactions $e^+ + e^-$, radiative corrections to, 24:12997
interactions $e^+ + e^-$, radiative corrections to neutral vector boson mediated, (T), 21:905
interactions $e^+ + e^-$, radiative corrections to resonant particle production in colliding-beam, (T), 22:39326
interactions $e^+ + e^-$, Regge-pole-theory prediction of scaling in hadron production in, (T), 25:59376
interactions $e^+ + e^-$, relation with infrared divergences for annihilation, 23:15223

interactions $e^+ + e^-$, relativistic quasipotential equations for, (T), 25:1444 (JINR-E2-5225)
interactions $e^+ + e^-$, review of, (E), 24:51876
interactions $e^+ + e^-$, rho° width from production in, 22:39416
interactions $e^+ + e^-$, scaling symmetry relative to $\mu^+ + \mu^-$ in elastic, (T), 25:22858
interactions $e^+ + e^-$, self-consistent dispersion-theoretic amplitudes for, 25:33602
interactions $e^+ + e^-$, similarity hypothesis for hadron cascade formation and energy distribution in annihilation, (T), 25:38694
interactions $e^+ + e^-$, singular terms in current commutators for annihilation, 21:37923
interactions $e^+ + e^-$, spark-chamber study of rho production in colliding beam, (E), 24:6679(T) (SLAC-Trans-105)
interactions $e^+ + e^-$, statistical and parton models for predictions for hadron production in, (T), 24:49367 (LNF-70/21)
interactions $e^+ + e^-$, statistical model and parton theory for predictions on hadron production in, 24:40309
interactions $e^+ + e^-$, strongly interacting particle production processes in, 21:21153 (CEAL-TM-153)
interactions $e^+ + e^-$, test of C noninvariance in neutral vector-meson production in colliding-beam, (T), 21:37878
interactions $e^+ + e^-$, test of constituents of electromagnetic currents from sum rules for, 23:25560
interactions $e^+ + e^-$, tests of C invariance in, (T), 23:32789
interactions $e^+ + e^-$, tests of ΔT less than or equal to 1 rule in, 21:46510
interactions $e^+ + e^-$, total cross sections for W and e^+ production in colliding-beam, 25:59383
interactions $e^+ + e^-$, vacuum polarization corrections for amplitude of annihilation in, (T), 24:42911
interactions $e^+ + e^-$, vector meson production from, (E/T), 23:49072 (CERN-69-22)
interactions $e^- + \mu$, bremsstrahlung production in relativistic, (T), 21:2407
interactions $e^- + \mu^+$ at high energies, double-logarithmic asymptotics for backward, (T), 21:44309
interactions $e^- + \mu^-$, asymptotic behavior of amplitudes for backward, 21:40280
interactions $e^- + N \rightarrow e^- + N + \pi$, multipole amplitudes for, 21:31557
interactions $e^- + N \rightarrow e^- + N + \pi$, reduction scheme of amplitudes for, (T), 21:7481 (JINR-P2-3062)
interactions $e^- + N \rightarrow e^- + N$ at high energies and low momentum transfers, Compton scattering cross sections for two-photon-exchange contribution to, (T), 25:59372
interactions e^- + n at low energy, (E), 22:5809(R) (ANL-7354)
interactions e^- + N, angular distribution and T-noninvariant effects of final hadrons from, (T), 21:895 (NP-16279)
interactions e^- + n, form factors from, (E), 21:5348
interactions e^- + N, nucleon form factors from elastic and inelastic, 21:33641
interactions e^- + N, PCAC restrictions on π-production amplitudes in, 21:9747
interactions $e^- + \nu/\text{sub } e/ \rightarrow e^- + \nu/\text{sub } e/ + \gamma$, cross sections for, 21:25271
interactions $e^- + p \rightarrow e^- + \pi^+ + n$, cross sections for, (E), 21:3970(R) (NP-16354)
interactions $e^- + p \rightarrow e^-$ + baryon + meson, baryon form factor from, 21:40183
interactions $e^- + p \rightarrow e^- + n + \pi^+$, angular distribution for, (T), 22:3313
interactions $e^- + p \rightarrow e^- + n + \pi^+$, charge form factor from, (T), 21:21179
interactions $e^- + p \rightarrow e^- + n + \pi^+$, π^+ angular distributions for, (T), 21:35285
interactions $e^- + p \rightarrow e^- + n + \pi^+$, radiative corrections for inelastic, (T), 21:2406
interactions $e^- + p \rightarrow e^- + N^*$, $N^* \rightarrow p + \pi^0$, cross sections for, 23:10961(R) (NP-17704)
interactions $e^- + p \rightarrow e^- + N^*(1230)$, γNN^* form factor from, (E), 21:18882
interactions $e^- + p \rightarrow e^- + n\pi^+$ (n = 1, 2 ...) at 700 to 900 MeV, magnetic spectrometer scintillation telescope study of cross sections of, (E), 22:3244
interactions $e^- + p \rightarrow e^- + p + \pi^0$, angular distribution for, (T), 22:3313
interactions $e^- + p \rightarrow e^- + p + \pi^0$, π^0 angular distribution for, (T), 21:35285
interactions $e^- + p \rightarrow e^- + p + \pi^+ + \pi^-$ at 700 to 900 MeV, magnetic spectrometer and scintillation telescope study of cross sections for, (E), 22:3244
interactions $e^- + p \rightarrow e^- + p$ at 0.2 to 20.0 GeV, cross section relative to $e^+ + p \rightarrow e^+ + p$ interactions, (E), 22:22270 (CONF-670923-, pp 102-8)
interactions $e^- + p \rightarrow e^- + p$ at 1.700 GeV, differential cross section ratio relative to $e^+ + p \rightarrow e^+ + p$ interactions, (E), 23:46597
interactions $e^- + p \rightarrow e^- + p$ at high energies, $e^+ + p \rightarrow e^+ + p$ interaction ratio to, (E), 23:49032
interactions $e^- + p \rightarrow e^- + p$ at high energies, proton form factor from, (E), 23:49032
interactions $e^- + p \rightarrow e^- + p$, nucleon form factors from, (E/T), 21:4021
interactions $e^- + p \rightarrow e^- + p$, scintillation counter study of cross sections for backward, (E), 22:13639
interactions $e^- + p \rightarrow e^- + p$, scintillation counter study of backward, (E), 22:7420 (LAL-1183)
interactions e^- + p at 1.700 GeV, Cherenkov and scintillation counter and spark chamber study of cross sections for elastic, (E), 22:3240
interactions e^- + p at 2.34 GeV/c, spectrometer, scintillation and Cherenkov counter study of cross section for elastic, 21:37656 (DESY-67/22)
interactions e^- + p at 2.4 GeV, cross sections and proton electromagnetic form factors from elastic, (E), 21:3970(R) (NP-16354)
interactions e^- + p at 2.4 GeV, excitation of nucleon isobars in inelastic, (E), 21:3970(R) (NP-16354)
interactions e^- + p at high energies at 180°, proton magnetic form factor from, (E), 21:18885
interactions e^- + p at high energies, form factors from elastic, (E), 21:7445 (DESY-66/27)
interactions e^- + p at q^2 = 11.66 and 35.1 fm^{-2}, elastic cross section relative to e^+ + p interactions, 21:42241
interactions e^- + p, Cabibbo-Radicati relation and sum rules for, (T), 21:893 (JINR-E-2865)
interactions e^- + p, form factor for N*(1236) production from, 21:18941 (UR-875-189)
interactions e^- + p, form factors from, (E), 21:5348
interactions e^- + p, neutron electromagnetic form factors from, (T), 21:15296
interactions e^- + p, proton structure from, (T), 21:17112 (CERN-67-3)
interactions e^- + p, π production in, (E/T), 21:2424
interactions e^- + p, π^+ production from, (T), 21:2418
interactions e^- + p, radiative corrections to, (T), 21:15295
interactions e^- + p, search for heavy electron production in, (E), 21:3970(R) (NP-16354)
interactions $e^- + \pi^+(\pi^-) \rightarrow e^- + \pi^+(\pi^-)$, dispersion relation and sum rules for π form factor in, 23:32662
interactions $e^- + Z \rightarrow e^- + e^+ + e^- + Z$ at 1.25 to 4 GeV, 21:18879 (JINR-P1-3143)
interactions $e^- + Z \rightarrow e^- + e^+ + e^- + Z$ at high energies, differential cross section for, 21:18946
interactions $\gamma + e \rightarrow e + \tau$ + anti τ, stellar energy loss rate from cross sections for, (T), 25:14650
interactions $\gamma + e \rightarrow e$, S-matrix theory for vertex in, 23:36873
interactions $\gamma + e \rightarrow \gamma + e$, nonequilibrium effects on Compton energy exchange in, (T), 24:37708
interactions $\gamma + e \rightarrow \gamma + e$ above 1 keV, Monte Carlo method of sampling Klein—Nishina probability distribution for Compton, (T), 25:36432 (LA-4663)
interactions $\gamma + e \rightarrow \gamma + e$ at 1 to 3 MeV, germanium detector study of relation between energy and momentum for, (E), 25:53001
interactions $\gamma + e \rightarrow \gamma + e$ at 412 keV, search for left-right asymmetric photon polarization in Compton, (E), 25:22741
interactions $\gamma + e \rightarrow \gamma + e$ at 662 keV, Compton polarimeter study of γ polarization in Rayleigh, (E), 22:22348
interactions $\gamma + e \rightarrow \gamma + e$ at high energies, asymptotics and amplitudes of Compton, (T), 25:33625
interactions $\gamma + e \rightarrow \gamma + e$ at high energies, infinite multiplets for discrepancy for Galilei and SO(4) symmetry for Compton, 24:5321
interactions $\gamma + e \rightarrow \gamma + e$ at high energies, scintillation counter study of polarization of scattered radiation in Compton, (E), 23:36819
interactions $\gamma + e \rightarrow \gamma + e$ in field of intense laser beam, resonance Compton, (T), 22:13703
interactions $\gamma + e \rightarrow \gamma + e$, approximate description of attractive, (T), 25:19945
interactions $\gamma + e \rightarrow \gamma + e$, approximation for inverse of Klein—Nishina probability distribution for Compton, 24:32981 (LA-4448)
interactions $\gamma + e \rightarrow \gamma + e$, effective field equations for one-electron multi-photon stationary states for Compton, (T), 25:12139
interactions $\gamma + e \rightarrow \gamma + e$, electromagnetic self-energy of particles in Compton, (T), 24:18138
interactions $\gamma + e \rightarrow \gamma + e$, general formulas for energy losses of electrons from inverse Compton effect in, 24:24304
interactions $\gamma + e \rightarrow \gamma + e$, independence of target spin for amplitude of e^+ Compton, (T), 25:38685
interactions $\gamma + e \rightarrow \gamma + e$, method for derivation of low-energy theorems for Compton, (T), 25:53070
interactions $\gamma + e \rightarrow \gamma + e$, Monte Carlo scheme for integrated cross section for Compton, (T), 25:33596 (LA-4592)
interactions $\gamma + e \rightarrow \gamma + e$, Monte Carlo scheme for integrated cross section for Compton, (T), 25:33596 (LA-4592)
interactions $\gamma + e \rightarrow \gamma + e$, nomogram for energy relations in Compton, (T), 24:15527
interactions $\gamma + e \rightarrow \gamma + e$, scale invariance in lambda phi⁴ theory for Compton, (T), 25:12149
interactions $\gamma + e \rightarrow \gamma + e$, semiclassical treatment for nonlinear wavelength shift in high-intensity Compton, (T), 25:50094 (ORO-3992-62)
interactions $\gamma + e \rightarrow \gamma + e$, spin dependence in Compton, (T), 24:49401
interactions $\gamma + e \rightarrow \gamma + e$, test of CP violation in $\gamma \rightarrow 2\gamma$ transitions in Compton, (T), 22:24699
interactions $\gamma + e \rightarrow \gamma + e$, users manual for computer code calculating densities and velocities of Compton, 24:21950 (FOA-4-4374)
interactions $\gamma + e \rightarrow \gamma + \gamma + e$, total cross sections for double Compton, (T), 25:19958
interactions $\gamma + e \rightarrow \gamma\ (2\gamma) + e$ in constant electromagnetic field, spectral and angular distributions for Compton and induced Compton, (T), 25:59368
interactions γ + e at 1.17 and 1.33 MeV, integrated Compton cross section for, (E), 21:864
interactions γ + e at 2.62 MeV, streamer chamber study of pair production in, (E), 25:17363
interactions γ + e at 5 to 20 GeV, virtual Compton effect contribution to electron pair production from, (T), 21:11754
interactions γ + e at 50 and 100 GeV/c, proposed experiment for Compton, 24:51885 (TID-25473(Vol.4), pp 139-47)
interactions γ + e at 500 and 950 MeV, pair production and Compton, (E), 22:44301
interactions γ + e at 550 MeV, angular and energy distribution of gamma quanta in crossed beam Compton, (E), 23:1494[illegible]
interactions γ + e at 662 keV, solid-state detector study of differential cross sections and photon spectra for inelastic Compton, (E), 24:26361
interactions γ + e at high energies and small angles, amplitude and electron pair production cross sections for Delbrueck, (T), 24:10831
interactions γ + e at high energies in crossed beams, polarization of photons from Compton, (T), 23:51900
interactions γ + e at high energies in hydrogen-like atoms, Compton, (T), 24:20109
interactions γ + e at high energies, amplitudes for, 23:42618
interactions γ + e at high energies, asymptotic behavior of amplitudes and cross sections for Compton, 21:33644
interactions γ + e at high energies, asymptotics and amplitudes of, (T), 25:33625
interactions γ + e at high energies, calculation of amplitudes for elastic, 23:32655
interactions γ + e at high energies, leading singularity in complex angular momentum plane in quantum electrodynamics for asymptotics of, (T), 25:14802
interactions γ + e at high energies, quantum electrodynamics for Compton, 23:51987
interactions γ + e at high energy limit, multiphoton exchange amplitudes for elastic, 24:18134
interactions γ + e at low energies, Singh lemma for Compton, 22:3315
interactions γ + e from colliding-beam $e^+ + e^-$ interactions, inelastic, 25:47793
interactions γ + e in e^+-e^- colliding beams, inelastic, (T), 25:33593 (DESY-71/15)
interactions γ + e in eight-dimensional space, (T), 22:5535
interactions γ + e in electromagnetic field, anti τ—τ pair production in, (T), 25:53057
interactions γ + e in hydrogen at 500 and 950 MeV, spectrometer study of cross section for Compton, 21:29417 (SLAC-PUB-307)
interactions γ + e in lasers, quantum electrodynamics with external current and potential for, 22:32200
interactions γ + e in magnetic field, electron beam polarization from resonant, (T), 24:24301
interactions γ + e on bound electrons, intermediate-state binding effects for transition probabilities for Compton and Raman—Smekal incoherent, 24:18142
interactions γ + e on K-shell, elastic Compton, 23:25564
interactions γ + e on relativistic electrons, differential cross section for Compton, (T), 23:5563
interactions γ + e relativistic, polarization properties of photons from laser beam, 23:36875
interactions γ + e with electron beams in crystals, anomalous transmission in, (T), 25:59228
interactions γ + e with intensive photon flux, time delay theory in resonance, 24:37714
interactions γ + e, at high energies, Feynman diagrams for physical description of diffraction Compton, 23:46658
interactions γ + e, Compton scattering and renormalization for, 21:33648
interactions γ + e, cross sections for double and triple Compton, 22:22285
interactions γ + e, cross sections for W pair production in, (T), 25:9707
interactions γ + e, currents as coordinates for amplitude of forward, 22:48260
interactions γ + e, disturbance of second-order coherence of photon field in quantum electrodynamics for forward, (T), 25:56456
interactions γ + e, effects of coherence on intensity-dependent frequency shift in Compton, 25:43590
interactions γ + e, Feynman rules in statistical mechanics for, 21:33645
interactions γ + e, form factors and equal-time commutators in quantum electrodynamics for, 23:16945 (DESY-68/54)
interactions γ + e, formula for differential cross section for Compton, 22:22364
interactions γ + e, frequency shift in Compton, 21:901
interactions γ + e, intensity-dependent frequency shift in high-intensity Compton, (T), 23:51885
interactions γ + e, j-plane singularities in channel with vacuum quantum numbers for, 24:18121
interactions γ + e, plane-wave packets in nonlinear Compton, 24:37717
interactions γ + e, Pomeranchuk pole exchange contribution to forward Compton, 23:44629
interactions γ + e, quark—parton model for inequalities for structure functions of inelastic Compton, (T), 25:43586 (SU-1206-250)
interactions γ + e, radiative corrections and polarization effects contributions to cross sections for, (T), 25:53059
interactions γ + e, relativistic quasipotential equations Compton for, (T), 25:1444 (JINR-E2-5225)
interactions γ + e, spectrum of inverse Compton, (T), 22:22349
interactions γ + e, test for gauge-invariant modifications of quantum electrodynamics from single, double, triple, and multiple Compton, (T), 23:32805
interactions γ + e, uncertainty principle for Einstein—Bohr ideal experiment for, 23:34561
interactions γ + e, uncertainty principle for generalized Compton, 23:34563
interactions γ + e, use of Feynman diagrams for Compton, 23:15210
interactions $\gamma + e^- \rightarrow e^+ + e^- + e^-$, cross sections for, 21:42307
interactions $\gamma + e^- \rightarrow e^- + e^+(\mu^+) + e^-(\mu^-)$, cross sections for lepton pair production in, (T), 23:51880 (JINR-P2-4644)
interactions $\gamma + e^- \rightarrow e^- + \tau$ + anti τ in hot plasma, neutrino energy loss rate from, (T), 21:18963
interactions $\gamma + e^-$ at 661.6 keV, cross section for double Compton, (E), 21:9691

interactions $\gamma + e^-$, bremsstrahlung and elastic radiative corrections to cross sections for Compton, 21:11757
interactions $\gamma + e^-$, frequency shift in Compton, 21:5367
interactions $\gamma + e^-$, polarization effects in inelastic, (E/T), 21:15252 (CONF-660221-, pp 251-4)
interactions in atoms, matrix factorizations for Coulomb, 23:22878
interactions in atoms, numerical solution of S-limit Schroedinger equation for, 22:24498
interactions in copper, lead, and tin at 900 MeV, scintillation counter study of cascade showers from, 21:40181
interactions in electromagnetic fields, electromagnetic interaction constant and flux and charge quantization for, 23:15047
interactions in external electromagnetic fields, exact solutions of Dirac equation for, 22:34900
interactions in field of electromagnetic wave and homogeneous magnetic field, Green function for, 23:23303 (ITF-68-88)
interactions in gas of, thermodynamics of, 23:39589
interactions in hydrocarbon flames, ions produced by, 22:975
interactions in infinite square well, quantum mechanics of one-dimensional two-particle model for, 21:37630
interactions in intense electromagnetic field, amplitude of elastic, (T), 24:10719
interactions in intense electromagnetic fields, photon emission from, 21:33642
interactions in magnetic fields, Coulomb, (T), 21:9339
interactions in metals, (T), 23:48984 (NP-18018)
interactions in nuclear emulsions at 10.0 and 16.0 GeV, total and differential cross sections for inelastic, (E), 23:18788
interactions in pure emulsion and lead—emulsion sandwich stack at high energies, experimental tests of cascade theory for, 23:14939
interactions in radiation field, polarization function for, 25:9867
interactions in superconductors, theory for pairing, 22:7233
interactions in tenuous regions of space, inverse Compton radiation from, 21:7037
interactions in tenuous regions of space, synchrotron radiation from, 21:7037
interactions in uniform magnetic field, expression for synchrotron radiation for single photon emission in, 22:44373
interactions $K^+ + e \rightarrow K^+ + e + \gamma$, bremsstrahlung circular polarization from, (T), 22:7470
interactions $K^- + e \rightarrow K^- + e + \gamma$, bremsstrahlung circular polarization from, 22:7470
interactions $\mu + e$ at 150 GeV/c, proposed experiments for, 24:52177 (TID-25473(Vol.4), pp 101-9)
interactions $\mu + e$ in atoms, bremsstrahlung emission in, (T), 22:22281
interactions $\mu + e$, bremsstrahlung spectrum from, (T), 21:27326
interactions $\mu^+ + e \rightarrow \mu^+ + e$ at 10.1 GeV/c in emulsions, cross sections for, (E), 25:27955
interactions $\mu^+ + e \rightarrow \mu^+ + e$ at 10.1 GeV/c in emulsions, (E), 23:49028
interactions $\mu^- + e \rightarrow \mu^- + e$ at 14.5 GeV/c in emulsions, (E), 23:49028
interactions $\mu^- + e \rightarrow \mu^- + e$ at 5.0 and 14.5 GeV/c in emulsions, cross sections for, (E), 25:27955
interactions $\mu^+ + e \rightarrow \tau +$ anti $\tau + \gamma$, angular and energy distributions of γ in, (T), 22:26618
interactions $\mu^+ + e$ at 10.1 GeV/c, cross sections for elastic, (E), 24:28474
interactions $\mu^- + e$ at 5.0 and 14.5 GeV/c, cross sections for elastic, (E), 24:28474
interactions $\mu^+ + e$ at 5.5 and 10.5 GeV/c, energy distributions from, (E), 22:44312
interactions $\mu^- + e$ at 5.5 and 10.5 GeV/c, energy distributions from, 22:44312
interactions $\mu^+ + e$ at 6 and 11 GeV, electromagnetic shower counter study of cross sections of, (E), 22:52916
interactions $\mu^- + e$ at 6 and 11 GeV, electromagnetic shower counter study of cross sections of, (E), 22:52916
interactions $\mu^+ + e^- \rightarrow \tau/$ sub e/ $+ \tau/$ sub $\mu/ + \gamma$, effect of bremsstrahlung photon on, 21:40196
interactions $\mu^- + e^-$, radiative corrections to, 25:30820
interactions n + e from neutron diffraction by tungsten-186, coherent amplitudes for, (E/T), 25:36380 (JINR-E3-5713)
interactions $\tau + e \rightarrow e + \tau$ at high energies, S-matrix models for, (T), 24:40328
interactions $\tau + e \rightarrow e + \tau$, S-matrix element for, 25:9740
interactions $\tau + e \rightarrow e^+ +$ n, lepton charge conservation in, (T), 24:5277
interactions $\tau + e \rightarrow \mu^- + \tau$, electromagnetic radiative corrections to lowest-order weak amplitudes for, 24:45474
interactions $\tau + e \rightarrow \tau + e + \gamma$, γ energy and angular distribution and radiative corrections for total effective cross sections for, (T), 25:14600
interactions $\tau + e \rightarrow \tau + e$, electromagnetic renormalization of vector part of, 22:41766(T) (ANL-Trans-643)
interactions $\tau + e \rightarrow \tau + e$, electromagnetic renormalization of vector part of, (T), 23:3699
interactions $\tau + e \rightarrow \tau + e$, field exchange for, (T), 25:36571
interactions $\tau + e \rightarrow \tau + e$, intermediate spinless bosons in model of, 24:37735
interactions $\tau + e \rightarrow \tau + \mu$, radiative corrections for differential and total cross sections of, (T), 24:20131
interactions $\tau + e \rightarrow \tau + \mu^-$ at 200 GeV in 5-ton hydrogen bubble chamber, feasibility of studying, 24:51926 (TID-25473(Vol.2), pp 113-20)
interactions $\tau + e \rightarrow \mu + \tau$, weak-interaction model for, 24:37730
interactions $\tau + e$, analysis of deviations from V—A theory for, 23:39677
interactions $\tau + e$, effect of motion of electrons in nondegenerate and degenerate gas on cross sections for, 24:3606
interactions $\tau + e$, electron polarization properties from elastic and inelastic, (E), 23:46671
interactions $\tau + e$, evaluation of background for iron—transparent-plastic spark chamber for underground detection of, 23:42541
interactions $\tau + e$, form and magnitude of self-coupling for, 23:25509 (CERN-69-7, pp 111-30)
interactions $\tau + e$, meson (W) theory for, 21:9753
interactions $\tau + e$, neutral currents for effective cut-off of diverging integrals of α-order radiation corrections to, (T), 25:25394
interactions $\tau + e$, photon—neutrino coupling theory for cross sections for, 24:3606
interactions $\tau + e$, radiative corrections to, 21:35293
interactions $\tau + e$, scaling symmetry relative to $\tau + \mu^-$, in elastic, (T), 25:22858
interactions $\tau + e$, upper limit for cross sections from spark chamber study of, (E), 24:24221
interactions $\tau + e^- \rightarrow$ anti $\tau + e^-$, tests of V—A theory from cross sections for, (T), 24:45482
interactions $\tau + e^- \rightarrow$ anti $\tau + \mu^-(e^-)$, tests of V—A theory from cross sections for, (T), 24:45482
interactions $\tau + e^- \rightarrow e^- + \tau$ in heavy liquid bubble chamber, upper limits for diagonal and neutral current couplings for, (E), 24:26368
interactions $\tau + e^- \rightarrow \tau + e^-$, nonderivative four-fermion interaction analysis of upper limits for, (T), 24:49416
interactions $\tau + e^- \rightarrow \tau + e^-$, upper limit on cross section for, (E/T), 24:49307
interactions $\tau + e^- \rightarrow \tau + \mu^-$, tests of V—A theory from cross sections for, (T), 24:45482
interactions $\tau/$sub e/ $+ e \rightarrow \tau/$sub e/ $+ e$ at relativistic electron energies, (T), 21:11761 (JINR-P-2779)
interactions $\tau/$sub e/ $+ e \rightarrow \tau'/$sub e/ $+ e'$, mean energy losses in, (T), 21:44335
interactions $\tau/$sub e/ $+ e \rightarrow \tau/$sub $\mu/ + \mu^-$, neutrino component determination from cross section of possible, 22:22379
interactions $\tau/$sub e/ $+ e$ in stars, (E), 21:2010
interactions $\tau/$sub e/ $+ e^- \rightarrow \tau/$sub e/ $+ e^-$ at relativistic electron energies, neutrino energy spectra from, 21:33676
interactions $\tau/$sub $\mu/ + e^- \rightarrow \tau/$sub e/ $+ \mu^-$, differential cross sections and μ^- polarization from, 22:13725
interactions $\tau/$sub $\mu/ + e^- \rightarrow \tau/$sub e/ $+ \mu^-$, μ polarization from, (T), 22:3321
interactions $\tau/$sub $\mu/ + e^- \rightarrow \tau/$sub e/ $+ \mu^-$, two- and four-component theory for, 22:22376
interactions of bound, (T), 25:7586 (IC-70/34)
interactions of cosmic, with primary cosmic protons, (T), 24:42540
interactions of galactic-halo, with microwave background, (E/T), 25:35903
interactions of heavy, with e - γ system, coupling constant for, 21:26150 (MIT-2098-299, pp 35-51)
interactions of low-energy, with atmosphere during geomagnetic-field perturbations, x-ray spectra from, (E/T), 24:5014(T) (ORNL-tr-2207)
interactions of many-body system of gas of, unified collective theory of, 21:29168
interactions of metagalactic, with cosmic-background microwaves, (T), 23:51346
interactions of primary cosmic, with matter, magnetic fields, and radiation fields in space, (T), 24:28125
interactions of rare earth f- and conductivity, spin Hamiltonian for exchange, 21:9311
interactions of relativistic, with plasma waves, (T), 22:7096
interactions of systems of, correlation functions for four-fermion pair negative, 23:13053 (JINR-P4-4184)
interactions of virtual $\gamma + e \rightarrow \gamma + e$, tensor operators of rank two for SL(2,C) symmetry for Compton, 24:37844
interactions of, anomalous gravitational, 21:46499
interactions of, asymptotic behavior of electroproduction structure function for, 23:30735
interactions of, complex scattering amplitudes in elastic, 22:3335
interactions of, conference on, 22:22342 (CONF-670923)
interactions of, current algebra for kinematics of, 21:46523 (SLAC-PUB-338)
interactions of, double-coincidence experiments for charged lepton pair production in, 22:3341
interactions of, formalism for perturbative S operator for Fermi, 23:25692
interactions of, functional calculus for infrared divergence of cross sections of potential, 23:42726
interactions of, method for solving cascade theory equations for, 21:5366
interactions of, pair correlation function for Hartree—Fock approximation for, 21:43786
interactions of, radiative corrections to cross sections for colliding-beam, 22:1410
interactions of, review of, 24:37678 (SLAC-PUB-746)
interactions of, review of elementary particle property determination from, 22:1403 (SLAC-PUB-355)
interactions of, review on radiative corrections for, 23:15040
interactions of, structure functions for vector and axial vector currents in τ + N deep inelastic interactions for deep inelastic neutrino interaction relations with deep inelastic, (T), 25:36455 (ORO-3992-24)
interactions of, sum rules from local current algebra for, 24:8599
interactions of, symmetry operators for configurations (d + s)/sup N/, 21:31560
interactions of, test of Regge trajectory conspiracy from renormalizable perturbation expansion for, 22:37104
interactions of, tests of quantum electrodynamics from structure of Feynman amplitude for Compton, (T), 25:30965
interactions of, vacuum structure in quantum electrodynamics for, 22:39473
interactions of, Volkov solutions of Klein—Gordon electron wave equations in electromagnetic wave for, 22:34924
interactions $\pi + e \rightarrow \pi + e$, π electromagnetic form factor from cross sections with radiative corrections for, (T), 24:10717
interactions $\pi + e \rightarrow \pi + e$, sum rules for, 25:38700
interactions $\pi + e$, polarization determination from meson (π) electromagnetic form factor for, (T), 22:20186
interactions $\pi + e$, π electromagnetic form factor determination from e polarization in, (T), 21:35279 (JINR-P2-3338)
interactions $\pi + e$, radiative corrections for, 23:16946 (JINR-P2-4178)
interactions $\pi + e$, radiative corrections for, (T), 23:13052 (JINR-P2-4177)
interactions $\pi + e$, summation methods for radiative corrections for external, 22:46558
interactions $\pi^+ + e \rightarrow \pi^+ + e + \gamma$, bremsstrahlung circular polarization from, (T), 22:7470
interactions $\pi^- + e \rightarrow \pi^- + e + \gamma$, bremsstrahlung circular polarization from, (T), 22:7470
interactions $\pi^- + e \rightarrow \pi^- + e$ at high energies, differential and integral cross sections for elastic, (T), 22:9547
interactions $\pi^+ + e \rightarrow \pi^+ + e$, radiative corrections with finite particle energy, angle of recoil emission, and momentum coplanarity restrictions on, (E/T), 23:42591 (JINR-P4-4532)
interactions $\pi^- + e \rightarrow \pi^- + e$, radiative corrections with finite particle energy, angle of recoil emission, and momentum coplanarity restrictions on, (E/T), 23:42591 (JINR-P4-4532)
interactions $\pi^- + e$ at 16.2 GeV/c in nuclear emulsion, absolute cross sections for, (E), 25:3253
interactions $\pi^+ + e$, π electromagnetic radius from cross sections for, (E/T), 22:46311 (NYO-2262-TA-193)
interactions $\pi^- + e^- \rightarrow \pi^- + e^-$ at 50 GeV/c, filmless spark chamber study of meson (π^-) electromagnetic radius from, (E), 24:10654 (JINR-E1-4786)
interactions with atmospheric gases, primary ions produced by, 21:5130(R) (GA-7419)
interactions with baryons, production of $^3/_2{}^+$ baryons in, (T), 21:2423
interactions with baryons, review of dispersion sum rules for, 22:11644 (ITF-67-13)
interactions with bremsstrahlung at 2.04 MeV, differential cross sections for, (T), 21:2021
interactions with charged particles and neutrons, capture cross sections for, 21:3684
interactions with charged scalar mesons, structure functions for deep inelastic, 25:33632
interactions with cosmic gamma radiation at high energies as origin of high-energy gamma radiation, Compton, (E), 23:18463
interactions with cosmic microwave background, ultraviolet radiation from, (T), 25:27429
interactions with Coulomb field at high energies, Feynman diagrams for physical description of diffraction, 23:46658
interactions with Coulomb field, solution of relativistic quantum equation for, 23:27776
interactions with crystals, circularly polarized coherent bremsstrahlung production from, (T), 21:2352
interactions with deuterons, neutron production in, (E/T), 23:34266 (ORNL-4401, pp 160-75)
interactions with dipole magnetic fields, synchrotron radiation from, (T), 21:24985
interactions with electromagnetic field at 4 GeV/c in propane bubble chamber, direct electron pair production in, 25:56467
interactions with electromagnetic field in quantum electrodynamics, dynamic invariance for, 22:48368
interactions with electromagnetic field, frequency shift in Compton, 21:901
interactions with electromagnetic fields, charge fluctuations and zitterbewegung in, (T), 23:13128
interactions with electromagnetic fields, Dirac equation solutions for, 21:9674
interactions with electromagnetic fields, Green function for, 22:44284
interactions with electromagnetic fields, spin effects on Dirac, 22:44285
interactions with electromagnetic waves in presence of parallel magnetic field, (T), 24:18048
interactions with electromagnetic waves, intensity-dependent gain in momentum for, (T), 22:34923
interactions with electromagnetic waves, quantum intensity-dependent frequency shift, (T), 22:44290
interactions with electrons at 2 x 135 MeV in storage rings, angular distribution from, 22:11815
interactions with electrons in dirty superconductors, (T), 23:48849
interactions with electrons in metals, role in theory of positron annihilation, 25:981
interactions with electrons in solar atmosphere, gravitational radiation power calculation for, 22:39486
interactions with electrons, cross sections for, (E), 21:14943 (CONF-660221-, pp 176)
interactions with electrons, energy transfer in, (T), 22:957
interactions with electrons, mean free paths and scattering cross sections in Fermi gas for, (T), 22:41295 (ORNL-TM-2072)
interactions with electrons, radiative corrections to scattering cross sections from, (T), 21:13355(T) (SLAC-Trans-52)
interactions with electrons, single-electron theory for, 22:43857 (LA-3899)
interactions with elementary particles, low energy theorems and sum rules for, 24:24288

interactions with elementary particles, spin-related polarization effect in Compton, 23:18837(T) (AD-673841)
interactions with emitter, principles of, 21:45527
interactions with external classical electromagnetic field, elementary C* algebra for electron—positron field, 24:13156
interactions with external field, electromagnetic many-body forces for, (T), 25:3328
interactions with external field, quantum electrodynamics at infinite momentum for, 25:25363
interactions with external potential in quantum electrodynamics, model for, 21:40267 (JINR-P2-3382)
interactions with external static Coulomb field in quantum electrodynamics, 23:51987
interactions with films of amino acids, analysis of excited states produced from spin, (E/T), 23:16226(R) (ORO-3799-1)
interactions with gamma radiation in crystals, interference of resonance, 22:38740
interactions with gamma radiation in crystals, theory of resonance, 22:38736
interactions with glass plates at 20 to 60 MeV, transition radiations from, 24:20041
interactions with hadrons at extremely high energies, behavior of partial cross sections and multiplicity of secondaries from, (), 25:22758
interactions with hadrons at high energies, cross sections for elastic and inelastic polarized, 23:15038
interactions with hadrons at high energies, extended version of diffraction model with duality, quarks, and partons for electron and hadron production in inelastic, 24:12986
interactions with hadrons at high energies, fixed poles in, (T), 24:45456
interactions with hadrons at high energies, suppression of electromagnetic corrections to, (T), 25:59372
interactions with hadrons at high energies, vector meson dominance model for, 21:42338
interactions with hadrons at very high energies, hypothesis of limiting fragmentation for, (T), 24:42938
interactions with hadrons in gluon model, structure functions for deep inelastic, 25:33637
interactions with hadrons in infinite-multiplet theory, electromagnetic structure function of hadrons from, 25:40924
interactions with hadrons in vector dominance model, π production in, 25:1464
interactions with hadrons, breakdown of scaling invariance in generalized Bjorken limit of perturbation theory for parton models of deeply inelastic, (T), 25:1438 (AD-706834)
interactions with hadrons, cross section and density matrix for inelastic, (T), 21:895 (NP-16279)
interactions with hadrons, diffraction model for production, (T), 24:40322
interactions with hadrons, dipole selection rules for diffraction dissociation in one-photon exchange in electron and hadron production in, 23:49071 (CALT-68-220)
interactions with hadrons, direct-channel resonance model for deep-inelastic, 25:22759
interactions with hadrons, divergent electromagnetic masses of hadrons from deep-inelastic, 24:8593
interactions with hadrons, electromagnetic transition form factors for inelastic, (T), 21:2416
interactions with hadrons, integral representations and light-cone commutators for inelastic structure functions for, 24:37706
interactions with hadrons, light-cone singularities and scaling behavior in deep-inelastic, 25:7603
interactions with hadrons, production of spin-2 mesons in, (T), 24:42917
interactions with hadrons, review of, 22:11568 (SLAC-PUB-370)
interactions with hadrons, scaling, fixed poles, and sum rules for, 25:14614
interactions with hadrons, universality of deep inelastic, (T), 24:40343
interactions with hadrons, Veneziano model for production amplitudes of, 23:49114
interactions with heavy electron—photon system, coupling constant for, (E), 21:26150 (MIT-2098-299, pp 35-51)
interactions with intense photon fields, electron mass shift determination from, (T), 21:4022
interactions with ionosphere at 90 to 160 km, calculations for, 24:6441
interactions with ions in ionosphere, effects on plasma motion, (T), 24:17784
interactions with ions in plasma, energy transfer in, (T), 21:12027(R) (UCRL-50001-66-2)
interactions with laser beam, stimulated Compton energy exchange rate in, (T), 25:56266 (UCRL-51065)
interactions with layered media, resonant transition radiation from, 23:10961(R) (NP-17704)
interactions with lead at 0.5 to 4.0 GeV, longitudinal development of electron—photon cascades in, (E/T), 24:40230
interactions with light at high energies, dependence on optical properties of medium for radiation from, 24:1535 (JINR-P4-4646)
interactions with magnetic fields, photon emission from relativistic, 21:615
interactions with massless pseudoscalar meson, energy balance of sun for upper bound on, (T), 23:7117
interactions with members of SU(3) and SU(2) multiplets, current—current scattering amplitude for inelastic, 24:3582
interactions with mesons, derivation of Omnes function for, 22:50314
interactions with moving dislocations in superconductors, (T), 24:35355
interactions with neutrinos in solar interior, (T), 24:42426
interactions with neutrinos, implications for stellar evolution, (T), 23:34144
interactions with neutrinos, radiative corrections to, 21:13318
interactions with neutrons, measurement using thermal-neutron scattering by rare gases, (E), 21:2652(R) (ANL-7198)
interactions with nonquantum subsystem in nonsteady state, mass—momentum operator in Dirac equation for hidden momentum in, (T), 25:19953
interactions with nuclei at high energies, nuclear effects in bremsstrahlung emission by, (T), 22:1737
interactions with nuclei, influence of finite nuclear dimensions and magnetic moment on bremsstrahlung production by polarized, (T), 21:44767
interactions with optical phonons in ionic crystal films, quantum theory, 24:45345
interactions with paramagnetic impurities in superconductors, (T), 22:29402
interactions with phonons and electrons in superconducting semiconductors, (T), 23:14726
interactions with phonons and impurities in metals, deviations from additivity in theory of scattering, 25:30697 (NP-18822)
interactions with phonons in metals, (T), 21:7394
interactions with phonons in metals, calculation of coupling functions for, 25:33475
interactions with phonons in positron annihilation in metals, (T), 24:25986
interactions with phonons in rhenium, two-band model, 24:45343
interactions with phonons in solids, theory of isotopic effects in, 22:24440
interactions with phonons in transition metals, effects on paramagnetic susceptibilities, (T), 25:50022
interactions with phonons, Boltzmann equation for, (T), 21:16793
interactions with phonons, contribution to properties of aluminum, (T), 21:11560
interactions with phonons, double-time Green's function calculations, 25:7523
interactions with phonons, temperature dependence of collective excitations, (T), 23:14887
interactions with photon fields, Pauli and Fierz model with infrared catastrophe for, 24:15659
interactions with photons in Compton scattering, effect on electron distribution function of, 22:19756
interactions with photons, Compton effect in scattering, (T), 21:9324
interactions with photons, kinetic theory of, 25:14490 (AD-711681)
interactions with photons, Klein—Nishina scattering cross sections for, (T), 25:5167
interactions with photons, multiple Compton energy losses in, (T), 24:19781
interactions with photons, renormalization phenomena in quantum theory for, 21:2019
interactions with plane monochromatic electromagnetic wave in quantized field, wave function for, (T), 23:32670
interactions with plane-wave electromagnetic pulses, (T), 25:14506
interactions with plasma in beam-generated systems, (T), 22:22166
interactions with plasmon system of relativistic, calculation of mean free path for, 24:45378
interactions with polarized hadron targets, one-photon approximation for cross sections for, (T), 21:7480 (JINR-P2-2991)
interactions with polarized hadrons, direct-channel resonance model for deep-inelastic polarized, 25:22760
interactions with positrons in electron gas, 21:6987
interactions with positrons in electron gas, many-body treatment of, 24:37213
interactions with positrons in gas, annihilation lifetime for, 21:24895
interactions with protons and electrons in solar atmosphere, gravitational radiation power calculation for, 22:39486
interactions with protons in molecules, magnetic, (E/T), 21:46143
interactions with relic and radiofrequency radiations and magnetic fields in metagalaxy at high and superhigh energies, 24:24304
interactions with solar, neutrino, (T), 22:2845
interactions with spin-zero target, asymptotic behavior of highly virtual photons from rho° production in, 25:25379
interactions with standing light waves, stimulated Compton scattering in, (E), 22:20118
interactions with suprathermal cosmic protons, diffuse x-ray production from, (T), 24:19697
interactions with suprathermal protons, bremsstrahlung from, (T), 25:58837
interactions with suprethermal cosmic protons, x-ray production in, (T), 23:44201
interactions with time-dependent electromagnetic field, (T), 23:27772
interactions with uniform magnetic fields, electron mean energy for, (T), 21:44311
interactions with waves in strong electric fields, transverse conductivity for, 23:10729
interactions with weak gravitational fields, covariant Green functions of, (T), 25:20094
interferometer for 100-keV, description of biprism, 21:24264
ion desorption from metal surfaces by, effects on accuracy of hot cathode vacuum gages, 24:22979
ion reactions with M-shell, calculation of cross sections for, 21:33214
ionic crystal, excitation phenomena, conductivity, and radiation coloration associated with, 21:21058
ionization by, energy of partial, (T), 25:1009
ionization energy as function of temperature in lithium-drifted germanium and silicon detectors, 22:14809
ionization in K shell by relativistic, (T), 22:947
ionization of lithiumlike and sodiumlike ions, (T), 25:27443
ionospheric heating by magnetic conjugate point photo-, (E), 22:5271
ionospheric precipitation into auroral zones near geomagnetic noon, (E), 23:30411
isodose charts for multiple-field arrangements of high energy, 21:18072 (STI/PUB-100(Vol.2))
kinetic equation with magnetic interactions for, derivation of quantum, 22:52540
kinetic equations for nonuniform relativistic gas of, (T), 21:29398
kinetics in cavity resonators, approximate calculation of, 21:25363(T) (AD-643981)
kinetics in magnetosphere, time-averaged, (E), 24:8389 (N-69-37576)
kinetics in strong crossed electric and magnetic fields, diffusion approximation for, (T), 25:19960
kinetics of fast, in magnetosphere, (T), 24:21671
laser action of relativistic, synchrotron radiation from, (T), 22:34278
leakage from normal galaxies, diffuse cosmic x rays from inverse Compton collisions of, (T), 23:51343
leakage losses from radiation belts, (T), 23:30442
lifetime of 1-MeV, at 350, 500, and 700 km, (T), 22:15451
lifetime of cosmic, determination of upper limit for leakage, (T), 21:9359
lifetime of cosmic, effective, (T), 22:7092
lifetimes in static quadrupole field trap, (E), 21:23002
lifetimes in the galactic disk and halo of cosmic, (T), 21:5099
lifetimes of outer-zone, (T), 23:30443
light absorption and scattering by excess, in liquid helium, (T), 22:9244
light scattering by, in gases and plasmas, (T), 21:18742
light scattering during motion in refracting medium, (T), 22:39322
linear energy transfer distribution of, method of calculating, 21:12874
linear energy transfer in dielectric liquids, (T), 22:38800
linear energy transfer tracks of, in radiation chemistry, 21:100
loading in magnetic suppressed accelerator tubes, 21:38003
loss and replenishment of E > 0.3 and 0.5 MeV, in inner radiation zone, mechanisms for 1965 to 1967, Pegasus measurements of, 25:33125
loss mechanisms for Argus 1 and 2 shells, (T), 22:29380
loss spectra in tantalum carbide produced by heating tantalum in benzene vapor, 25:45528
losses from outer radiation belt, (E), 22:9224
losses in afterglow hydrogen plasma, (E), 21:11658
luminescent processes in gases from bombardment with 3-MeV, (E), 22:5044(R) (ORO-3349-3)
lunar shadowing of, in magnetotail, (E), 23:10382
magnetic dipole moments in hydrogen atoms, relativistic treatment of shielding of, 23:41936
magnetic field effects on solar, interplanetary, 21:5025 (N-66-32640)
magnetic field effects on, in electric discharge, 22:5383
magnetic hyperfine anomaly, classical derivation of, 22:7169
magnetic ion interactions with system of conduction, (T), 21:13656
magnetic moment effect on pair production, anomalous, (T), 22:41344
magnetic moment in intense electromagnetic field, enhancement of anomalous, (T), 24:10719
magnetic moment of free, bolometric measurements of anomalous, 25:30720
magnetic moment of free, g-factor anomaly in, 22:5102
magnetic moment of free, method for measurement of anomalous, 24:6352
magnetic moment of heavy, quantum electrodynamics for, 23:42731
magnetic moment of mesons(μ) and, radiative correction to difference of anomalous, 24:47408
magnetic moment of, (g - 2) experiments for measuring, 22:46512
magnetic moment of, anomalous, (T), 23:8705
magnetic moment of, Compton wavelength for anomalous, 23:13128
magnetic moment of, computer program for anomalous, (T), 25:20055 (CNRS-CPT-70-P-335, pp IV.26-38)
magnetic moment of, computer programs for constructing Feynman diagrams for calculating anomalous, (T), 25:12136 (CNRS-CPT-70-P-336)
magnetic moment of, contribution of leptonic boson to anomalous, 23:25585
magnetic moment of, due to zero-point vibrations of quantized field, (T), 24:20006
magnetic moment of, effect on nonlinear Lagrangian of electromagnetic field, 23:15032
magnetic moment of, effects of large injection velocity in hf plasma accelerator on, 21:27201
magnetic moment of, Feynman diagrams with vacuum polarization insertions for sixth-order radiative corrections to anomalous, (T), 25:12065 (CNRS-CPT-70-P-339)
magnetic moment of, fourth-order vacuum polarization contribution to sixth-order radiative correction to, 23:23426
magnetic moment of, g - 2, (T), 22:13706
magnetic moment of, linear representation of spinor by tensors for, 21:27319
magnetic moment of, near equality of nucleon anomalous magnetic moment and anomalous, 24:12969
magnetic moment of, polarization function for calculation of anomalous, (T), 25:9867
magnetic moment of, review of anomalous, (E), 23:49199
magnetic moment of, review of anomalous, (T), 25:19936 (CNRS-CPT-70-P-335, pp IV.1-15)
magnetic moment of, self-interaction correction in nonrelativistic formalism for, 22:15731
magnetic moment of, sixth-order anomalous, (T), 25:40928

magnetic moment of, sixth-order contribution to anomalous, 22:26594
magnetic moment of, sixth-order corrections to anomalous, 25:12145
magnetic moment of, test of quantum electrodynamics from determination of e/h for fine structure constant for anomalous, 23:42725
magnetic moment of, test of quantum electrodynamics from anomalous, 22:24722
magnetic moment of, three-photon exchange contribution to sixth-order anomalous, 24:37697
magnetic moment of, vacuum polarization contributions to sixth-order anomalous, 25:14616
magnetic moments of μ and, sixth-order contribution to difference of anomalous, 23:3674
magnetic moments of, sixth-order radiative corrections to anomalous, 25:43594
magnetic monopole moment of, use of superconducting quantum interferometer for determination of, (E), 22:50282
mass and charge in quantum electrodynamics, Green functions for bare, 22:39475
mass and renormalization constant in quantum electrodynamics, dynamics, 23:30798
mass as universal constant for mass of nuclei and elementary particles, 24:20089
mass difference (μ - e), consequences of e—μ universality violation for, 24:52043
mass difference (μ - e), muonic moment in lepton anomalous interaction for, (T), 22:37118
mass distribution in scalar—tensor and general relativity theories, exact solutions for static spherically symmetric, 24:52205
mass equation in relativity theory, 23:36986
mass from positron annihilation, effective, (E), 21:43776
mass in gravity-modified quantum electrodynamics, 25:53290
mass of classical, fluid-dynamic approach for determining, (T), 25:1451
mass of heavy, quantum electrodynamics for, 23:42731
mass of, approximation for relation between renormalized and bare, (T), 25:1457
mass of, continuity equation for scalar Riemann curvature of space—time for μ/m and α for ratio of proton mass with self, 22:34919
mass of, extremum relation for, 22:5551
mass of, formulas for relation with gravitational constant for, (T), 25:9878
mass of, gravitational theory for, 24:13167
mass of, model of finite self-, 23:15057
mass of, multitemporal theory of relativity for removal of singularities in relativistic, 22:41841
mass of, paradox of electromagnetic, 23:49089
mass of, particle composition method for determining, (T), 22:29646
mass of, relative to μ mass, (E), 24:45411
mass of, renormalization in quantum electrodynamics for, 23:46799
mass of, rest, 25:27988
mass of, rheon-particle calculations for, 22:20160
mass of, shift in transverse electromagnetic, 21:13382
mass relative to mesons (μ), formula and boundary conditions on invariant cut-off in quantum electrodynamics for, 23:51989
mass relative to muons, analysis of basis for, 24:5278
mass relative to muons, electromagnetic form factors for, 22:13719
mass relative to protons in gravitational fields, calculation using Landau equations, 23:5683
mass relative to protons, quadrupole gravitational radiation theory for calculating, 23:15010
mass renormalization in quantum electrodynamics, functional relations for, 25:9848
mass shift and peculiar motion in traveling electromagnetic wave, crossed electron and laser beams for determining, (E), 24:8555
mass shift and trajectory in traveling electromagnetic waves, (T), 23:15021
mass shift in cesium-133 in intense electromagnetic field, (E), 25:14514
mass shift in intense electromagnetic field, enhancement of, (T), 24:10719
mass shift of bound, in cesium-133 in intense electromagnetic field, search for, (E/T), 23:51371 (UCRL-19245)
mass splitting of μ—e, second kind of weak interaction for, (T), 25:40953
mean free path in aluminum and Permalloy foils, (E), 25:56281
measurement of bursts of auroral-zone, of 5 to 25 msec, 21:43913
measurement of primary cosmic-ray, (T), 21:37192 (ESRO-SP-6, Paper 16)
measurement of trapped, satellite low-altitude, 21:9428
meson (K^0) regeneration $K_2^0 \rightarrow K_1^0$ on, asymmetry and CP violation in, (T), 23:18838(T) (BNL-tr-249)
meson (K_2^0) → (K_1^0) regeneration on, 23:8766 (JINR-P2-4047)
mesons (K^0) regeneration $K_2^0 \rightarrow K_1^0$ on, 25:47875
microwave and x-ray emission from solar-flare, (E), 23:27293 (N-69-15555)
microwave scattering on, cosmic background, (T), 22:21980
migration in noncubic single crystals of cadmium and zinc, (E/T), 25:38577 (RPI-1044-23)
mobilities of hydrated, in pulse radiolysis of aqueous solutions, 23:35201
mobility in gaseous helium at low temperatures, many-body calculations, 24:51564(R) (COO-1569-59)
mobility in helium gas of photo-, at low temperature, (E), 21:16828
mobility in helium, relaxation-time approximation for, (T), 21:39829
mobility in lithium-compensated germanium at 77°K, (E), 21:6274
mobility in random potential, Green function for, 22:3331
mobility in weakly ionized gases in magnetic field, gyromagnetic effect on Pedersen, (T), 24:8475
model for classical extended, gravitational effects in general relativity theory for, (T), 25:53089
model for, (T), 24:47398
model for, in liquid helium, (T), 22:31731 (COO-1112-158)
model of extended, classical, 25:38691
model of spinning and precessing electric and magnetic fields for, 24:1539
models for solvated, 23:33219
models in classical electromagnetic fields, review of extended, 24:28602 (AD-701726)
modulation of cosmic primary, by solar wind, (T), 23:46320
modulation of cosmic, solar, (T), 24:3203 (CEA-R-3815)
modulation of cosmic, spectra of quiettime and near-solar minimum to calculate solar, (E/T), 25:22384
modulation of equatorial, in pulsating aurora, (E), 25:38272
modulation of galactic cosmic, at solar minimum, 21:33234
modulation of galactic, measurement of solar, 22:5160
modulation of magnetospheric trapped, relation of coupled magnetic-field-line oscillations to, (T), 25:27623
modulation of primary cosmic, solar, (E), 25:1026
modulation of primary cosmic, solar, (E), 24:28130
momentum distribution from positron annihilation in germanium and silicon single crystals, (E), 21:46174
momentum distribution in solids following positron annihilation, 23:46255 (RCN-108)
momentum measurements of pulsed, in heavy-liquid bubble chambers, radiation correction calculations for, 23:31552
momentum of classical, Maxwell equations and special relativity for, (T), 25:27986
momentum transfer between, and photons in rotating stars, effects on magnetic field generation, (E), 24:10243
monitoring at 1.5 to 18 GeV, response of aluminum and gold foil secondary emission monitors for, 23:7730 (CEAL-1045)
monitors for secondary emission, theory of, 22:36035(T) (SLAC-Trans-85)
monochromator for, development of nanosecond time-of-flight, 21:26281
monochromators for, design equations for, 21:14512
motion above the photosphere, 25:49596 (AD-715925)
motion along auroral arcs, (T), 23:32256
motion along magnetic-field lines, effect on torsional hydromagnetic oscillations in inhomogeneous plasma, (T), 25:38248
motion along periphery of cylindrical resonators, induced radiation from, (T), 25:52981
motion and properties in strong external fields, (T), 25:36369
motion in argon in ionization chamber, pulsed method for measuring, 23:45515
motion in asymmetric magnetosphere, effect of longitudinal electric field on trapped, (E/T), 25:38244
motion in axial-nonsymmetric magnetic mirror trap, nonadiabaticity parameter for, (E), 22:3110
motion in axially symmetric electrostatic fields, induced radiations from, (T), 25:33504
motion in axially symmetric focusing-type magnetic field, quantum theory of relativistic, (T), 25:17437
motion in axially symmetric magnetic fields, (T), 24:30422
motion in collisionless plasma, shock waves from, (T), 24:47197
motion in constant and homogeneous magnetic fields, quantum theory of radiation from relativistic, 21:25388
motion in constant crossed electric and magnetic fields, exact solutions of Dirac equations for, (T), 24:47400
motion in constant electric field, radiation spectrum from, (T), 23:39652
motion in constant electric fields, differential probability of quantum processes in, 25:14498
motion in constant homogeneous magnetic fields, induced transitions of relativistic, (T), 24:6675
motion in crossed electric and magnetic fields, (E), 22:24781
motion in crossed electric and magnetic fields, electromagnetic radiation from, 21:26982
motion in crossed electric and magnetic fields, orbit calculations for relativistic, 23:44795
motion in crossed fields, discrete potential distribution for numerical calculation of, 23:42603
motion in crossed fields, radiation emission during, (T), 21:13779
motion in crystals, computer simulation using classical model of correlated multiple scattering, 24:42793
motion in cyclic resonance accelerator, Klein—Gordon equation for, 24:37680
motion in cylindrical electrostatic systems with arbitrary cross sections, 22:26742
motion in diatomic molecules, coupling to nuclear motion, (T), 21:29021
motion in electric and magnetic fields, Dirac, (T), 24:26344
motion in electric field with two Coulomb centers, dynamic symmetry group in quantum mechanics for, 22:9647
motion in electromagnetic field, existence proof for solutions of classical two-electron problem for, (T), 25:53066
motion in electromagnetic fields and in homogeneous magnetic fields, quasi-energetic spectra of, (T), 24:21905
motion in electromagnetic fields, calculations for, 23:52063
motion in electromagnetic fields, computer programs for integrating equations of, 21:11827 (LA-3609, pp 229-32)
motion in electromagnetic fields, radiations from, (T), 23:13013
motion in electromagnetic fields, solution of Klein—Gordon equations for, 22:44294
motion in electromagnetic fields, spin equation involving radiative effects, 24:21904
motion in electromagnetic lenses, impossibility of diverging, 24:15753
motion in electromagnetic wave field, 21:43761
motion in electron-ring accelerators, solution near Q = 1 resonance of equation describing, 22:46615 (UCRL-18103, pp 304-17)
motion in field of finite electric dipole, analysis using Hamilton—Jacobi theory, 22:24503
motion in field of many potentials in crystals, energy spectrum calculation for, 21:5324
motion in field of plane electromagnetic wave, dependence of radiation stimulated emission on polarization, frequency and spectral width of second perturbing wave for, (T), 23:51904
motion in field of point electric dipole, classical, (T), 22:24504
motion in field of two electromagnetic waves, photon emission from, (T), 25:25269
motion in gravitational field, (E/T), 22:1486
motion in gravitational field, vierbein formalism for radiation damping in, 22:35118
motion in homogeneous electromagnetic fields, (T), 24:20039
motion in homogeneous magnetic and weak electrostatic fields, (T), 21:22993
motion in homogeneous magnetic field, vacuum magnetic moment for, 23:32676
motion in homogeneous magnetic fields, equations for synchrotron radiation production by, 23:52062
motion in inclined-field acceleration tubes of minimum section length, calculations for, 23:21195
motion in inhomogeneous magnetic fields, effects of synchrotron radiation on, 21:25389
motion in inhomogeneous magnetic fields, stimulated transition radiation from, (T), 21:9892
motion in inhomogeneous magnetic fields, synchrotron radiation from almost complete conversion of energy of rotational, (T), 24:40222
motion in inner solar system, galactic, 21:14924 (N-66-36065)
motion in intense crossed external electromagnetic field, mass operator, eigenfunctions, and exact Green's function for, (T), 25:17431
motion in ionosphere and internal gravity waves, (E/T), 21:43891 (AD-651937)
motion in laser beams, covariant classical, (T), 25:14506
motion in liquid helium-3 at critical point, (E), 21:37355
motion in magnetic field, function of Landau levels for realization of Lie group G(0,1) for, (T), 25:7699
motion in magnetic fields from helix, cyclotron resonance, 25:3235
motion in magnetic fields, classical theory of radiation from relativistic, 21:25387
motion in magnetic fields, classical theory of synchrotron radiation from, 21:25386
motion in magnetic fields, polarization by electromagnetic waves, 24:18055
motion in magnetic fields, radiative polarization of free relativistic, 25:12060
motion in magnetic fields, stimulated emission from relativistic, (T), 21:43835
motion in magnetic mirrors, adiabaticity parameter for, 21:31394
motion in magnetosphere, adiabatic, (T), 21:18541
motion in one-dimensional fields, Dirac equation for, (T), 23:30682
motion in one-dimensional square well, integral equation for, 25:17428
motion in orthogonal electric and magnetic fields in semicircular spectrometer, equations for, 23:19990
motion in orthogonal magnetic and electric fields, solutions of Dirac equation for, 24:26397
motion in outer zone, geoelectric- and geomagnetic-field model studies of, 21:2123
motion in plane electromagnetic fields, radiations from, (T), 23:13014
motion in plane polarized electromagnetic wave, spin orientation from induced radiation from, (T), 25:12161
motion in plasmas in electric and magnetic fields, effects of electron—ion collisions on, (T), 21:37457
motion in point electric-dipole field, quantization of classical solution, 21:44221
motion in quadrupole field, cyclotron frequency for, (E), 22:18054
motion in quantized field of flat electromagnetic wave, 25:3233
motion in radiation belts, instability-associated anisotropy of distribution function of ultrarelativistic, (E/T), 25:16972
motion in random electric field, distribution function for, (T), 23:7068
motion in refracting medium, light scattering by, (T), 22:39322
motion in single crystals, effects of lattice structure on, 22:26475
motion in solid silver selenide, silver sulfide, and silver telluride, 25:10339(T) (ANL-Trans-868)
motion in spiral in magnetic field, equations for synchrotron radiation production in, 23:49025
motion in statistically nonuniform media, electromagnetic-wave radiation from, (T), 24:20010
motion in storage rings, linear theory of, 22:26745
motion in strong Coulomb field, Sommerfeld orbits in, (T), 25:56394
motion in superimposed fields, adiabatic invariants of, (T), 22:24181
motion in transparent uniaxial crystal, quantum theory for Cherenkov radiation polarization from, 24:24306
motion in traveling-wave field, phase equation for, considering space charge, 25:27946

motion in uniform magnetic field, synchrotron motion with radiation reaction for longitudinal velocity of, (T), 25:59359
motion in uniform magnetic fields, Schrauben functions for, (T), 23:30681
motion in weak external fields, review of many-body problem of, 23:36528
motion in weakly ionized plasma in electric fields, (T), 21:1642
motion near conducting periodic structure, theory of Smith—Purcell radiation from, 21:16787
motion of classical, self-force of, 25:47789
motion of cosmic, in galaxy, (T), 22:21942
motion of coupled ionospheric, equation of, 25:27521
motion of Dirac, in parallel electric and magnetic fields, exact solutions for, 24:40204
motion of point, spin effects extracted from Lorentz—Dirac equations of, 24:45379
motion of relativistic, approximate method for numerical integration of nonlinear differential equations for, 22:24584
motion of relativistic, in electromagnetic field with axial symmetry, 22:1551
motion of relativistic, trajectory differential equation governing, 22:46644
motion of, classical approach to quantum and wave phenomena in, 22:39315 (INR-P-908/XVIII/PP)
motion of, from plane sources of emission, 21:18707
motion of, paradox of quantum-relativistic free, (T), 25:33513
motion within closed metallic container, 22:29651
movement of shower-produced, in the atmospheric electric field, 22:24085
neutrino emission by relativistic, in intense magnetic field, (T), 24:40332
nuclear spin polarization induced by hot, in crystals, 21:3936
occurrence in magnetospheric quasi-trapping region of, solar, (E/T), 25:11783
occurrence in primary cosmic radiation, (T), 23:46304
origin and propagation of cosmic, 24:19794
origin of galactic primary cosmic, (E/T), 24:49042
origin of secondary cosmic, 22:2863
oscillation amplitude in toroidal configuration of, buildup of, 22:46614 (UCRL-18103, pp 301-3)
oscillations of degenerate liquid of, dispersion relation for spin-independent, 22:26421
oscillations with paramagnetic resonance in betatrons, model for amplitudes and phase dynamics of radial free, 24:38010
pair correlation of superconductive type in polycyclic molecules, (T), 21:31354
pair distribution function of classical gas of, asymptotic behavior of, 22:34818
pairing across barriers in superconductors, possibility of, 21:33318
paramagnetic relaxation of trapped radiolytic, in sugar ices, 25:157 (UCLA-12-792)
paramagnetic relaxation of trapped, in γ-irradiated alkaline ices, 21:42982
paramagnetic relaxation of trapped, in γ-irradiated organic glasses, 24:27115
paramagnetic resonance of captured, in irradiated potassium hydroxide solution at 77°K, 21:24037
paramagnetic resonance of trapped, in gamma-irradiated glassy aqueous solutions of sugars at 77°K, 22:23052
penetration in deep tissue, effects of, on therapeutic applications, 22:51753
penetration into atmosphere of streams of, space—time characteristics of, (E), 22:11250
penetration into polar cap atmosphere, solar, 21:18529
penetration into solids and liquids, comparison with positron, 21:33177
penetration of biological materials, effects of specimen thickness and voltage on, 22:51467
penetration of dielectrics at 0.59 to 1.185 MeV, 21:9341
penetration of shielding materials for space use, 21:9641
penetration of shielding, comparison of codes for calculation of, 24:24102 (ORNL-RSIC-28)
penetration through shielding material, 21:9640
performance of accelerator-generated low megavolt, for superficial therapy, use of absorbers for scattered x-rays during, 22:28615
photo-ejection from bubble states in helium II, (E), 21:33290 (COO-1112-114)
photodetachment from carbon and oxygen anions, angular dependence of, (E), 22:21868
photodetachment from helium, affinity measurement by, 21:41764
photodetachment from ions, calculation of angular distribution of, 22:17398
photodissociation of complex hydrated, 25:54595 (CONF-700652-(Vol.3))
photoejection from bubble states in liquid helium II, (E), 22:1128
photoejection from tryptophan and tyrosine in frozen aqueous solutions containing divalent metal salts, 24:13971
photon Compton scattering by bound K-shell, (T), 23:46288
photon emission from excited bound, natural line width in quantum field theory for, 21:27437
photon multiple scattering by freely oriented, intensity and polarization from, (T), 23:51901
photon reactions with, forced level shifts and energy renormalization in, (T), 25:43518
photon scattering by bound K-shell, evaluation of nonrelativistic matrix element for Compton, 23:25132 (IFA-FT-74)
photon scattering by power-law relativistic, inverse Compton effect for, (T), 25:7005
photon scattering by, in stellar photospheres, (T), 22:43710
photon scattering by, in Van Allen belt, inverse Compton solar, (T), 25:14108
photon scattering by, Legendre polynomial expansion for Klein—Nishina formula for, 22:946
photon scattering by, spin dependence of Rayleigh, (E), 22:46753
photon scattering from high-energy, in Crab Nebula, photon flux from, (T), 21:37205
photon scattering from Maxwellian gas of free, (T), 22:36629
photon scattering in Maxwellian gas of, eigenfunction analysis of, (T), 23:39315
photon scattering on cosmic, inverse Compton, (T), 24:19783
photon scattering on gaseous, Compton cross sections for, 22:45919 (AWRE-O-33/68)
photon scattering on, in refractive media, (T), 22:29176 (JINR-E4-3760)
photon scattering on, spectral change due to multiple Compton, (T), 22:31601
photoproduction of hydrated, compact apparatus for, 23:47515
pitch redistribution of emergent, in magnetosphere, 21:43905
pitch-angle distributions in outer radiation zone, (E), 22:29379
polarization at rest in magnetic field, (T), 25:7602
polarization from gadolinium, field emission, 21:42191
polarization from induced radiation from motion in plane polarized electromagnetic wave, (T), 25:12161
polarization in crossed beams, characteristic, (T), 22:17920
polarization in magnetic field, radiative, (T), 21:27327
polarization in magnetic fields, radiative, (T), 21:20775
polarization of argon-scattered, angular dependence of, (E), 21:9326
polarization of high-energy, in storage rings, determination of transverse, 23:25741
polarization of high-energy, in storage rings, determination of transverse, 24:8788(T) (SLAC-Trans-107)
polarization of magnetically trapped, detection by interaction with atomic beams of spin, (E), 25:40375
polarization of, relation between renormalized and bare mass and charge in approximation for divergences of vacuum, (T), 25:1457
polarization of, review of production and detection techniques for, 23:36468
positron annihilation by bound, in solids, (T), 22:17380
positron annihilation by gases of, consistency requirements for ladder-approximation calculations on, 23:34271
positron annihilation rates in gas of, calculation using bound-state concept, 24:6357
positron reactions with conduction, in solids, thermalization time in, (T), 23:30319
positron self energy in gas of, 21:6987
potential well of toroidal configuration of, calculations of electrostatic, 22:46610 (UCRL-18103, pp 275-8)
precipitation accompanying sudden impulse in geomagnetic field, auroral-zone, 21:25030
precipitation and geomagnetic micropulsations relation to auroral substorms, 21:5151
precipitation and ionospheric disturbance from outer radiation belt, 21:11531
precipitation at 200 to 260 km in ionosphere, mechanisms of day and nighttime, (E), 25:24961
precipitation during aurorae, production of vlf emissions by, (T), 22:9218
precipitation during auroral breakup, impulsive, (E), 24:39951
precipitation during auroral breakup, millisecond fluctuations in, (E), 25:24955 (N-70-32498)
precipitation during auroral substorm, 21:39939
precipitation during auroral substorm, correlated geomagnetic micropulsations and, 21:39940
precipitation during auroral substorms, (E), 22:17539
precipitation during magnetic-storm main phase from minimum and maximum L shells intersected by stormtime plasmapause, (T), 25:43243
precipitation during magnetospheric substorms, large-scale azimuthal drift of, (E), 24:51550
precipitation events in auroral zone, east—west movement of, (E), 22:24188
precipitation following sudden storm commencements, (E), 22:47937
precipitation from magnetosphere, finite amplitude pulsations in, 24:17812
precipitation from outer radiation belt, (E/T), 22:9228
precipitation from outer radiation belts, 25-keV to 2.7-MeV high-latitude, (E), 24:17759
precipitation in and near auroral zone, (T), 23:46400
precipitation in and near auroral zone, (T), 22:47921
precipitation in auroral substorms, (T), 22:17473
precipitation in auroral zone and sudden impulse in geomagnetic field, 21:37282 (N-67-20378)
precipitation in auroral zone, (E), 21:704
precipitation in auroral zone, accompanied by geomagnetic continuous pulsations, 21:35093
precipitation in auroral zone, daytime observations of, 22:5221
precipitation in auroral zone, effects of electrojet on, (T), 22:17470
precipitation in auroral zone, motions associated with, (E), 24:26087
precipitation in auroral zone, relation of x-ray flux to, 21:7126
precipitation in auroral zone, relation to micropulsations and substorms, (T), 22:47947
precipitation in auroral zone, rocket measurements of, 21:13427 (N-66-24642)
precipitation in auroral zone, satellite measurements of, 22:5267
precipitation in auroral zone, temporal 10 cps periodicity in, 21:39936
precipitation in auroral zone, temporal and spatial characteristics of, 21:35111
precipitation in auroral zone, temporal, energy, and spatial characteristics of, 21:39941
precipitation in auroral zone, x-ray microbursts produced by, (E), 21:11532
precipitation in auroral zones, relativistic, 21:2119
precipitation in auroral zones, spectrometer for detecting, 24:39326
precipitation in conjugate regions of auroral zone, (E), 22:38917
precipitation in conjugate regions of the auroral zones, (T), 22:2913
precipitation in ionosphere after magnetic storms, 21:35092
precipitation in magnetically conjugate regions, (E), 22:38919
precipitation in radiation belts, (E), 22:36838
precipitation in the auroral zone, x-ray microbursts from, (E), 22:29373
precipitation into atmosphere, 21:9441
precipitation into auroral zone during increased solar activity, (E), 23:12696
precipitation into auroral zone during substorms, (T), 22:17471
precipitation into auroral zone from magnetotail, (E), 23:10516
precipitation into auroral zone, (E), 22:34396
precipitation into auroral zone, (E), 22:15415
precipitation into auroral zone, (E), 23:42087
precipitation into auroral zone, (E), 24:51507 (N-70-29987)
precipitation into auroral zone, (E), 25:14103
precipitation into auroral zone, (E), 22:11326
precipitation into auroral zone, (E), 23:10525
precipitation into auroral zone, (T), 23:20805
precipitation into auroral zone, (T), 23:46402
precipitation into auroral zone, (T), 23:16718
precipitation into auroral zone, bremsstrahlung production in, (T), 23:51449 (AD-689458)
precipitation into auroral zone, bremsstrahlung x-ray production from, (E), 25:24964
precipitation into auroral zone, effect of magnetospheric-acceleration mechanisms on energetic, (T), 25:17047
precipitation into auroral zone, effects on cosmic-noise absorption and x-ray emission, (E), 24:26068
precipitation into auroral zone, evidence for 130-keV monoenergetic beams during, (E), 23:30410
precipitation into auroral zone, observations of optical and x-ray aurorae from, (E), 24:49073
precipitation into auroral zone, radio absorption study of, (E), 22:41460
precipitation into auroral zone, relation to hf radar and optical aurorae, (E), 23:12661
precipitation into auroral zone, satellite-borne electrostatic analyzer observations of, (E), 25:40480
precipitation into auroral zone, shape and displacement of nighttime, (E), 23:23006
precipitation into auroral zone, spectra and pitch-angle distribution in, (E), 23:10529
precipitation into auroral, effects of electrojet on, (T), 22:52639
precipitation into lower atmosphere, world-wide magnetospheric, 21:46266
precipitation into lower ionosphere, effects of geomagnetic disturbances and aurorae on, (E), 24:30216
precipitation into midlatitude nighttime D region, ionization source of, (E/T), 25:7288
precipitation into upper atmosphere from magnetosphere, 24:32759
precipitation into upper atmosphere, relation to airglow emission, (E), 23:6936
precipitation occurring during auroral substorms, (T), 22:17472
precipitation of 1- to 20-keV, during auroral breakup, (E), 24:17748 (N-69-41121)
precipitation of 1- to 300-keV, in ionosphere, (E), 24:32743
precipitation of 10- to 40-keV outer-belt, into auroral zone, (E), 23:8533
precipitation of 100- to 500-MeV magnetically trapped, into atmosphere, (E), 25:30353
precipitation of 2- to 4-keV, during auroral breakup, (E), 23:39376
precipitation of auroral, correlation of radar echoes from aurora with, 22:2942
precipitation of auroral, energy spectrum of, 21:33289
precipitation of auroral, into atmosphere, (E/T), 24:35319
precipitation of low-energy, at high latitudes, (E), 23:25233
precipitation of outer-belt, into auroral zones, correlation of, (E/T), 24:39940
precipitation of relativistic, from ionospheric forward scatter, 21:2119
precipitation of solar, into Antarctic stratosphere, effects on 1963 Spring warming, 23:44213
precipitation pattern at auroral latitudes, low-energy, (E), 23:27435 (N-69-10508)
precipitation patterns for keV, auroral, over northern polar cap, 1968, (E), 25:27576
precipitation patterns in auroral zone during magnetic quiettime, (E/T), 25:22417
precipitation poleward of auroral zone, (E), 23:10500
precipitation to 100 km in auroral zone, ground-based observations of, (E), 25:33155
probability laws in uniform magnetic field, random electrodynamics for, 24:20103
production and coupling strength of heavy, upper limit for, 21:27339
production and loss rates for ionospheric F region over Hawaii, (E), 23:10526
production and loss rates in ionospheric F region, (E), 23:5317
production and propagation in upper atmosphere, secondary negatrons and positrons, (E/T), 25:43235
production and properties of hydrated, 24:16584
production and properties of hydrated, review of, 21:19655
production and properties of hydrated, review on, 23:35155

production and properties of trapped radiolytic, in polar substances, 25:54593 (CONF-700652-(Vol.2), pp 261-93)
production and reactions of solvated, in radiation chemistry, review on, 25:48555
production and reactions of solvated, review of, 22:33459
production and recombination of holes and, in x-irradiated anthracene, 21:2322
production by photon interactions in nuclear field and in atomic field of neon, pair and triplet, 21:42244
production from cosmic particle reactions with carbon above 100 GeV, inelasticity coefficient for, (E), 21:7448
production from γ + N interations at 2.0 GeV/c, magnetic spectrometer and differential gas Cherenkov counter study of cross sections for, 21:33590
production from γ + p interactions at 100 to 250 MeV, triplet, 21:37668
production in D region of ionosphere by cosmic radiation, (T), 22:22067
production in D region, diurnal variation of, (E), 23:16733
production in double beta decay, lepton conservation in, (T), 24:5277
production in electron reactions with aluminum, beryllium, and platinum at 500 MeV, pair, triplet, quartet, and trident, 22:26593
production in electron reactions with aluminum, beryllium, and platinum at 500 MeV, ionization chamber spectrometer, and scintillation and Cherenkov counter study of trident and quartet, (E), 22:26547 (SLAC-PUB-330)
production in electron reactions with beryllium, beryllium—iron, and iron at 16 and 18 GeV, yields of, (E), 22:20113
production in electron—photon cascades at 1 to 2 GeV in xenon bubble chamber, fluctuation of characteristics of, (E), 23:42530(T) (ORNL-tr-2174)
production in electron—photon showers from cosmic particle interactions with lead at 200 and 440 MeV, (E), 23:23326(T) (ORNL-tr-1892)
production in gamma reactions with thick foils, Monte Carlo calculations, 25:50573
production in γ + N interactions in strong electromagnetic field, final-state interaction for, (T), 25:43606
production in γ + p interactions at nucleon resonance, real part of Compton amplitude from, 24:13009
production in $\gamma + \pi \rightarrow \pi + e + \tau$ interactions near threshold, sum rules, rho dominance, and amplitude of, 22:29665
production in ionosphere by primary and solar cosmic radiation, (T), 23:27456
production in ionosphere, review of, 25:11810
production in $K_2^0 \rightarrow \pi + e + \tau$ decay, time reversal invariance test in Coulomb final-state interaction corrections for charge asymmetry in, (T), 25:43660
production in lower ionosphere by cosmic rays, (T), 23:10565
production in lower ionosphere by cosmic rays, (T), 23:18464
production in lower ionosphere by solar corpuscular streams, (T), 25:14126
production in lower ionosphere by solar particles, (E/T), 25:14124
production in lower ionosphere, (E), 23:25231
production in lower ionosphere, cosmic-ray induced, (T), 21:5106
production in $\mu \rightarrow e + \tau$ + anti τ decay, weak interaction model for energy spectrum for, (T), 25:14631 (ITF-70-64)
production in τ + N interactions at high energies, (T), 21:9762
production in τ reactions with nuclei, form factors for $\pi^0 \rightarrow 2\gamma$ and axial variant of $\pi \rightarrow e + \tau + \gamma$ decays and parameter for dependence of form factor on momentum transfer for cross sections for, (T), 25:38723
production in p + n interactions at 960 to 1065 MeV, differential cross sections for, (T), 24:10785
production in photon interactions in aluminum, carbon, copper, and lead at 1.2 to 4.0 GeV, total cross section for, (E), 22:34832
production in photon reactions with liquid xenon at 35 to 2000 MeV, (E), 25:17255 (JINR-P1-5482)
production in polar cap ionosphere due to solar cosmic rays, (T), 22:26299
production in $\pi^- + p \rightarrow e^+ + e^- + n$ interactions at 275 MeV, energy and emission angles for, (E), 25:38672
production in quantum electrodynamics, theory of sources for, 24:5263
production in radiolysis of liquids, 22:21131
production in $\Sigma^- \rightarrow n + e^-$ (μ^-) + anti τ decays, asymmetry with respect to Σ^- polarization in, (E), 24:32963
production mechanism for relativistic, in cosmic radio sources, (T), 24:10265
production mechanisms for secondary photo-, in point—plane corona discharges in air, 21:24924
production of 750-eV, in Ne—Ne, Ne^+—Ne, and Ne^{3+}—Ne collisions, (E), 22:38744
production of atmospheric, by meteoritic processes, (T), 23:30432
production of blanket of energetic, in magnetic mirror plasma, 21:27205(P)
production of compressed rings of, in static magnetic field, method for, 23:15324
production of cosmic, in cascades from particle interactions at high energies at 2900 m in emulsions, vertical intensity and spectrum for, (E), 22:22286
production of e^+—e^- pairs in $\gamma + e^- \rightarrow e^- + e^+ + e^-$ interactions, cross sections for, (T), 23:51880 (JINR-P2-4644)
production of e^+—e^- pairs in photon reactions in liquid xenon at 35 to 2000 MeV, cross sections for, 25:52994
production of e^+e^- in electron interactions with electromagnetic field at 4 GeV/c in propane bubble chamber, direct, 25:56467
production of electron—photon showers in layered media, calculations for, 24:15512
production of electron—photon showers in photon reactions in xenon bubble chamber at 20 to 300 MeV, (E), 24:15444(T) (ORNL-tr-2257)
production of electron—photon showers, cascade theory for, 21:46509
production of electron—photon showers, from cosmic meson (μ) interactions, (E), 21:29040
production of heavy, in anti τ + n $\rightarrow$ p + e^- interactions, (T), 22:44384 (IFVE-STF-67-57-K)
production of heavy, in e^- + p interactions, 21:3970(R) (NP-16354)
production of heavy, in electron reactions with nuclei at high energies, upper limits for coupling constant for, (E), 25:14529
production of heavy, in inelastic e + p interactions at 5 GeV, (E), 22:22283
production of high-energy polarized, from circularly polarized photons, (T), 25:33641
production of hydrated, as measure of reducible substances in irradiated aqueous solution, 23:15818(P)
production of hydrated, by potassium-40 decay in seawater, 23:26272
production of hydrated, equipment for, 25:18854(P)
production of hydrated, in pulse radiolysis of water, 22:25408
production of hydrated, methods for, 23:47500
production of intense fast, design of water-dielectric generator for, 25:3478
production of low-energy cosmic, 21:635
production of pairs of, in quasars, (T), 25:35678
production of photo- and Auger from x-ray interaction with matter, (E), 22:36700(R) (AD-662607)
production of photo-, in the upper atmosphere by euv, (T), 22:36840
production of polarized, by electron reactions with oriented alkali metal atoms, 24:45031
production of polarized, by Penning collisions of argon with metastable helium atoms, (E), 24:25955
production of secondary, preparation of thin film magnesium oxide surfaces for, 23:4858
production of showers of, in bremsstrahlung reactions with lead at 0.1 to 1.0 GeV, (E), 21:7447 (JINR-P1-2990)
production of solvated and trapped, in aqueous media, 23:35080
production of solvated, by picosecond pulsed radiolysis of water and alcohols, 25:6374
production of solvated, by pulse radiolysis of ice, 21:14240(R) (RRL-2310-194)
production of solvated, in photolysis of ferrocyanides, 21:35990(R) (RRL-2310-208)
production of solvated, in radiolysis of methanol, 24:16590
production of solvated, methods for, 22:40113
production of trapped, in γ-irradiated alkaline ice, 22:16604
production of tridents in electron reactions with nuclei at 13.75 GeV in emulsions, (E), 23:39610(R) (UCR-34-P-107-84)
production with W in γ + N interactions, threshold and asymptotic cross sections for, (T), 25:1441 (IFVE-SVM-70-2)
propagation between magnetospheric conjugate points, (E), 23:10521
propagation in expanding universe, (T), 24:15121
propagation in interplanetary space of solar, effects of field variations on, (T), 21:39774
propagation in liquid helium, photoejection—pressure study of bubble model of, 25:5034 (TID-25601)
propagation of 40-keV solar, in interplanetary space, (E), 24:25909
propagation of 40-keV, in solar flares, (E), 25:13894
propagation of cosmic primary, in the neutrino sea, (T), 25:2875
propagation of cosmic, through far-infrared radiation field, (T), 23:30369
propagation of cosmic-ray, (T), 25:9256
propagation of galactic primary cosmic, (E/T), 24:49042
propagation of high-energy cosmic, in universe, 23:46294 (ITF-69-44)
propagation of primary cosmic, (T), 24:28125
propagation of solar flare, in interplanetary space, (E), 22:2874
propagation of solar flare, in interplanetary space, (T), 22:889
propagator for complex $e^2 2\pi/hc$, analytic behavior of, 22:24723
propagator under harmonic force, functional integration methods for, 25:59349
propagators in quantum electrodynamics for, macrocausal, 24:3751
properties and rate processes of solvated, 22:40113
properties in extensive air showers, temporal distribution in, 23:44211
properties in homogeneous time-varying electric fields, wave-mechanical description of, 21:2341
properties of cosmic, conference on, 23:18456 (CONF-671217-, pp 224-86)
properties of dipole-trapped, in organic cyanide crystals, 23:47465(R) (ORO-2968-49)
properties of electron—photon component of extensive air showers, (T), 23:10467
properties of excess, in liquid helium, (T), 21:33330
properties of gas of, in magnetic fields of gravitational collapse, (T), 23:22713 (N-68-36362)
properties of hydrated, 21:17687
properties of hydrated, from radiolysis of water, 21:15961
properties of hydrated, semicontinuum model for, 24:27149
properties of primary cosmic, in solar system, (T), 24:28125
properties of radiolytic solvated, 23:35178
properties of solvated, 22:23055
properties of solvated, energetic, mobility, and spectral, 22:40125
properties of solvated, in pulse-irradiated ice, 22:96(R) (RRL-2310-214)
properties of stabilized, review on, 25:15643
properties of temperature-stimulated emission of exo-, design of heating control circuit for studying, 23:50175 (ORNL-TM-2687)
properties of trapped radiolytic, in alkaline aqueous glasses, 25:54627 (CONF-700652-(Vol.2), pp 295-330)
properties of trapped, in γ-irradiated glassy 3-ethylpentane, methylcyclohexane, 3-methylpentane, and 1-propanol, 24:27153
properties of trapped, in irradiated frozen aqueous and alcoholic systems, 23:47498
properties of trapped, in nonpolar solids, 25:54594 (CONF-700652-(Vol.2), pp 331-64)
properties of, comparison with muons, 25:43591
properties of, in 10^{13} gauss magnetic fields, (T), 25:22240
properties of, in Universe, (T), 24:28125
properties of, proposed experiments for studying, 22:22277 (CONF-670923-, pp 494-509)
properties of, two-particle quantum electrodynamics for, 23:42716 (IS-2085)
proton injection spectra for 1956 to 1967, (E), 23:22843
pulse radiolysis studies of hydrated, using nanosecond electron pulses, 21:45467
quantum depolarization in magnetic fields, 21:29782
quantum electrodynamics for, 22:9682
quantum electrodynamics for massless, spontaneous breakdown of current conservation in, 24:10818
quantum mechanics of, in uniform time-dependent field, (T), 25:38612
quantum theory of gas of, with anomalous magnetic moments in intense magnetic fields, 23:14932
quantum—relativistic concept of, (T), 21:44212
radial diffusion in outer radiation belts, observations of May-June 1967 bimodal, (E/T), 25:27626
radiation absorption by, synchrotron, (T), 24:12569
radiation by, in uniform circular motion in form of multipoles, (T), 21:44214
radiation dose calculations for secondary, 25:16134(T) (JPRS-52121, pp 51-7)
radiation effects on density of, in epidermal cells, uv, 22:49179(R) (ORO-3578-4)
radiation effects on lungs of rabbits in comparison to cobalt-60 γ rays and x rays, 17.3 MeV, 23:31945
radiation effects on reactions of hydrated, with sulfur hexafluoride in aqueous solutions, mechanism of γ, 23:2332
radiation effects on recombination of unpaired, in peptides and proteins, γ and uv, 22:33747
radiation effects on recombination of unpaired, in polypeptides and proteins, effects of temperature on γ and uv, 22:49176(T) (JPRS-43645, pp 95-7)
radiation effects on structure of dipole-trapped, in acetonitrile, ESR spectral studies on γ, 24:11597
radiation effects on thorax of rabbits, comparison of lung changes following γ, x, and, 23:50849
radiation effects on trapping of, in frozen sodium hydroxide solutions, gamma, 21:23910
radiation effects on trapping of, in glassy 1-butanol, ethanol, 1-pentanol, and 1-propanol, spectrophotometric studies on γ, 24:31416
radiation effects on trapping of, in glassy methanol, spectrophotometric studies on γ, 24:31415
radiation effects on trapping of, in methanol glass, mechanism of, 22:51009
radiation effects on trapping of, in propanol glass, spectral studies on γ, 22:51008
radiation effects on yield of hydrated, in solutions, effects of pH on x, 22:36205
radiation from 1.3- to 4.0-GeV, passing through crystal, energy dependence of dynamic γ, (E), 25:36382
radiation from 20- to 50-MeV, energy determination from intensity of transition, 23:39653
radiation from classical spinning, (T), 24:30484
radiation from monoenergetic, moving in circular orbits, computer program for spectral intensity, angular distribution, and polarization of synchrotron, (T), 25:17443
radiation of polarized, in magnetic fields, (T), 21:44223
radiation propagation in medium of, nonrelativistic quantum field theory for, 24:6747
radiation scattering by metagalactic, background x- and γ-, (T), 24:1307
radiations from spiralling, in magnetoplasma, (T), 23:5403
radiations from, in strong magnetic fields, 25:12059
radiative corrections to electron—photon vertex, fourth-order, 24:26408
radiative relaxation of relativistic, in cosmic radio sources, (T), 23:22761
radiative transfer in stellar atmospheres of, (T), 24:39755
radio emission by, in Milky Way, (T), 22:8869
radioemission from auroral, (E), 23:12659
radioinduced ejection of loosely bound atomic or molecular, mechanisms of, 22:25402
radioinduced formation and stability of solvated, in ice, 24:20804
radioinduced formation in solutions, 22:33459
radioinduced formation of solvated, by photolysis and pulse radiolysis of acetonitrile, 22:51014
radioinduced formation of solvated, in aqueous potassium hydroxide—sodium hydroxide systems, 22:42795
radioinduced hydrated, in water, reactions of, 22:40126
radioinduced in dielectric systems, self-trapping of, 22:22234

radioinduced in γ radiolysis of glassy ethanol, mechanism of reactions and trapping of, 25:10630
radioinduced production in glassy and polycrystalline alkaline ice, paramagnetic relaxation of, 24:237
radioinduced production of ammoniated, in aqueous solutions of hydrogen—potassium amide, 25:57477
radioinduced production of solvated, 25:164
radioinduced production of trapped, in acetonitrile, EPR studies on γ, 24:48135
radioinduced production of trapped, in glassy organic compounds, review on, 24:50412 (KURRI-TR-62)
radioinduced production of trapped, in ice at 77°K, ESR studies on, 23:35208
radioinduced production of trapped, in polycrystalline hydrocarbons at 77°K, 23:2340
radioinduced production of trapped, in water and heavy water at 77°K, ESR studies on γ, 23:35213
radioinduced solvated, in water, toxicity of, for biological systems, 21:45530
radioinduced trapped, in glassy sodium hydroxide ice, γ, 24:50414
radioinduced trapped, in polyethylene, ESR spectral studies on, 23:304
radioinduced trapping in ice, mechanism of, 24:21867
radioprotective effects of conjugation of π, on aliphatic compounds, x, 23:33739
radius of, divergenceless electromagnetic field for classical, (T), 25:19952
range and stopping power for, in various materials, (E), 21:11393 (NASA-SP-3036)
range in aluminum oxide, beryllium oxide, magnesium, and magnesium oxide at 0.5 to 4 keV, (E), 23:44154
range in aluminum, beryllium, copper, gold, and silver at 4 to 24 MeV, (E/T), 24:39813
range in carbon, oscillating behavior of stopping power in, (T), 22:41302
range in elemental materials at 4 to 24 MeV, (E/T), 25:47607
range in foils of fast, calculation for mean projected, 23:14857
range in matter, 25:47609
range in metals of monoenergetic, measurement of maximum, 23:18437
range in rare earth metals, comparison of 1.88-MeV positron range with 1.77-MeV, (E), 23:14631
range in solids, x-ray method for measurement of, 22:34273
range measurements of low energy, low pressure cloud chamber for, 23:26508 (AERE-R-5991)
range of 1.77-MeV, in benzene, toluene, and water, 21:13390
range of 2.8- to 32-MeV, in aluminum, copper, lead, and water, (E), 24:32614
range of Compton, in air in presence of EM field, LEMP 1 calculation of air, 24:42552 (LA-4348)
range of fast, measurement of, without bremsstrahlung effect, 24:32614
range of secondary, in sapphire single crystal irradiated by 30-MeV electron pulse, (E/T), 25:22618
ranges and energy loss profiles in anthracene crystals at 25 to 40 keV, 25:11673
ranges in aluminum and beryllium at 4.1 to 15 MeV, (E), 23:36470
reaction excitation of N_2^+, O_2^+, and CO_2^+ bands at 80 to 1500 eV, (E), 22:15369
reaction kinetics of hydrated, in irradiated foods, 22:52119
reaction of hydrated, with water and oxonium ions, 21:23896
reaction with molecular oxygen in lower ionosphere, (E), 21:2117
reactions (e, He-3 e') and (e, T e') with helium-4 at 30 to 80 MeV, cross sections for, (E), 23:28232(R) (SAL-12)
reactions (e,2e) with atoms, value and limitations in study of atomic structure, 24:15167
reactions (e,α) 2α with carbon-12 at 17.5 MeV, integrated cross section and mechanism for, (E), 23:3946
reactions (e,e',p) with carbon-12 with quasielastic scattering, calculations using projected Hartree—Fock wave functions with distorted-wave impulse approximation, (T), 22:46718 (ISS-68/17)
reactions (e,e'2p) with nuclei, study of proton-proton correlations by, (T), 25:28491
reactions (e,ed) with helium-4 at 35 to 50 MeV, differential cross sections for, (E), 25:17698
reactions (e,e'd) with light nuclei, use for nuclear structure research, (T), 23:19396
reactions (e,e'd) with lithium-6, cross section for, (T), 21:4226
reactions (e,e'n) and (e,e'p) with light nuclei at high energies, (T), 23:28336
reactions (e,e'N) with beryllium-9, form factors for, (T), 25:53618
reactions (e,e'n) with nuclei at 600 MeV/c, neutron detection in, 22:21313 (ISS-67/18)
reactions (e,e'N) with nuclei at high energy, calculations using independent-particle model with L—S coupling, (T), 22:50676
reactions (e,e'n), (e,e'p), and (e,e'α) with nuclei, counting rates for coincidence experiments on, (T), 23:9033 (TID-24667, pp 478-9)
reactions (e,e'n), (e,e'p), and (e,e'np) with nuclei, data analysis for, (E/T), 23:9029 (TID-24667, pp 427-42)
reactions (e,e'np) and (e,e'N) with helium-4 at 180 to 250 MeV, cross sections for, (E/T), 21:44548
reactions (e,e'np) with lithium-6 at 260 to 350 MeV, cross sections for, (E/T), 21:44548
reactions (e,e'p) and (e,e'n) with nuclei, feasibility of studying difference between proton and neutron distributions, (T), 24:52644 (ISS-69/34)
reactions (e,e'p) with A = 88 to 144 nuclei with isobaric analog excitation, proton spectra from, (E), 25:38982 (JAERI-1205, pp 22-7)
reactions (e,e'p) with aluminum-27, arsenic-75, beryllium-9, calcium-40, carbon-12, and sulfur-32 with quasielastic scattering, (E), 22:27381
reactions (e,e'p) with arsenic-75 at 590 to 600 MeV, cross sections for, (E), 21:35440
reactions (e,e'p) with arsenic-75 at 590 to 880 MeV with quasielastic scattering, (E), 22:1617
reactions (e,e'p) with barium-138, bismuth-209, lead-208, strontium-88, yttrium-89, and zirconium-90, proton spectra and excitation functions for, (E), 25:10053
reactions (e,e'p) with bismuth-209 and lead-207, cross sections for, (E), 25:46032
reactions (e,e'p) with calcium-40 at 600 to 750 MeV with quasielastic scattering, electron-proton coincidence spectra for, (E), 22:20538
reactions (e,ep) with carbon-12 and -13 at 43 MeV, proton spectra and angular distributions for, (E), 25:31232
reactions (e,e'p) with carbon-12 at 45.9 MeV, proton angular distributions and energy spectra from, (E), 25:28193
reactions (e,e'p) with carbon-12 at 600 MeV with quasielastic scattering, proton angular distributions from, (E), 21:38231 (ISS-66/30)
reactions (e,e'p) with carbon-12 at 600 MeV, angular distribution of protons from, (E/T), 21:38258
reactions (e,e'p) with carbon-12 at high energies, single-particle wave functions from, (T), 22:7653
reactions (e,e'p) with carbon-12 with quasielastic scattering, final-state interactions in, (T), 22:39593
reactions (e,e'p) with carbon-12 with quasielastic scattering, angular distribution and energy spectrum for, (T), 21:38232 (ISS-67/14)
reactions (e,e'p) with carbon-12, calculations using wave functions of Hartree—Fock single-particle orbitals of undefined parity, (T), 22:48604
reactions (e,e'p) with carbon-12, calculations using distorted-wave impulse approximation, (T), 21:23535 (ISS-66/44)
reactions (e,e'p) with carbon-12, calculations using projected Hartree—Fock wave functions with Volkov potential, (T), 23:1816
reactions (e,e'p) with carbon-13 at 43 MeV, proton angular distributions and energy spectra from, (E), 25:28193
reactions (e,e'p) with deuterium with quasielastic scattering, neutron form factors from, (E), 22:13926 (DESY-67/21)
reactions (e,e'p) with light nuclei, low-accidentals coincidence system for measuring, 25:42131
reactions (e,e'p) with light nuclei, structure research using, (T), 23:10985
reactions (e,e'p) with nuclei at 300 to 600 MeV, calculations using Monte Carlo method, (T), 21:21573 (ISS-66/37)
reactions (e,e'p) with nuclei at 300 to 600 MeV, Monte Carlo calculations for parameters of, (T), 22:7739 (ISS-67/9)
reactions (e,e'p) with nuclei at high energies, analysis using impulse approximation, (T), 23:47079
reactions (e,e'p) with nuclei at high energies, proton separation energies from, (E/T), 21:42580
reactions (e,e'p) with nuclei at high energy, (T), 21:12111
reactions (e,e'p) with nuclei at high energy, interpretation of, (E/T), 21:17387 (ISS-66/40)
reactions (e,e'p) with nuclei, annular scintillation detector system for studying, 22:6561 (ISS-67/17)
reactions (e,e'p) with nuclei, calculation of Coulomb distortion effects in, (T), 22:24914
reactions (e,e'p) with nuclei, calculations using independent-particle and Jastrow models for momentum distributions and quasi-elastic peaks from, (T), 25:39089
reactions (e,e'p) with nuclei, cross section expression for, (T), 25:15156
reactions (e,e'p) with nuclei, design of beta spectrometers for studying, 23:7777 (TID-24667, pp 35-8)
reactions (e,e'p) with nuclei, DWBA calculations of coincidence cross sections for, (T), 25:46132
reactions (e,e'p) with nuclei, shell-structure research by quasi-free scattering, (T), 21:31715
reactions (e,e'p) with nuclei, study of hole states by, (E/T), 22:16071
reactions (e,e'p) with nuclei, use in measurement of nucleon separation energies, (E/T), 21:25566 (ISS-67/2)
reactions (e,eπ⁻) with calcium-42, cross sections for, (T), 22:52959
reactions (e,e'π⁺) with helium-4 and oxygen-16 at 500 to 900 MeV/c, cross sections for, (T), 25:25654
reactions (e,eπ⁺) with oxygen-16 at 310 MeV, cross sections for, (T), 22:52959
reactions (e,eπ⁻) with strontium-88 at 350 MeV, cross sections for, (T), 22:52959
reactions (e,e'x) with nuclei at high energy, cross-section calculations using impulse approximation, (T), 21:21574 (ISS-66/45)
reactions (e,e'x) with nuclei, interpretation of, (E/T), 23:9032 (TID-24667, pp 474-7)
reactions (e,f) with bismuth-209 at high energy, cross sections for, (E), 22:39677
reactions (e,f) with bismuth-209, lead-208, samarium-154, uranium-238, and ytterbium-174 at 60 to 1000 MeV, cross sections for, (E), 23:31040
reactions (e,f) with bismuth-209, tantalum-181, and uranium-238 at 250 and 500 MeV, fission-fragment angular distributions and cross sections for, (E), 22:27112
reactions (e,f) with natural uranium at 1.5 and 3.0 GeV, fission-product yields from, (E), 22:14009
reactions (e,f) with uranium at 35 to 260 MeV, (E), 22:22586 (NP-17325)
reactions (e,f) with uranium-238 at 35 to 260 MeV, cross sections for, (E), 21:21563
reactions (e,f) with uranium-238 at 50 to 500 MeV, calculations of integrated cross section using photofission cross section, (T), 23:15466
reactions (e,γ) with tungsten at 0.662 and 2 MeV, gamma circular polarization from, (E), 25:20374 (NP-18597)
reactions (e,pt) with helium-4 at 50 and 100 MeV, coincidence spectra from, (E), 25:42131
reactions (e,π) with nuclei, nuclear structure research by, (T), 23:9037 (TID-24667, pp 497-502)
reactions and properties of trapped, in γ-irradiated organic glasses, 23:47539
reactions at 0 to 20 eV with deuterated and normal ammonia, cross sections for dissociative electron attachment in, (E), 23:22900
reactions at 10 and 50 keV with air and nitrogen at various pressures, (E), 23:18505 (AD-673995)
reactions at 10 to 50 keV with atoms, molecules, and thin crystal films, quasi-elastic ejection of valency electrons in, (T), 22:50036
reactions at 5 GeV, radiative corrections to bremsstrahlung and pair production from bremsstrahlung spectra of, (E), 22:22284
reactions at threshold to 400 eV with 2s level of atomic hydrogen, excitation and ionization cross sections for, (T), 21:43751 (N-67-23283)
reactions below 10 keV with atoms and ions, ionization cross sections, (T), 21:31233
reactions in an atmosphere, x-ray production by, (T), 24:5061
reactions in argon and helium gases below 1.0 eV, total cross sections for, (E), 21:17830
reactions in auroral zone atmosphere, x-ray microbursts from, (E), 22:22053
reactions in bubble chamber at 1.25 to 4 GeV, cross sections of e^+e^- pair production from, (E), 22:50275 (JINR-P1-4023)
reactions in crystals at 6 GeV, coherent bremsstrahlung from, (E/T), 24:28516
reactions in crystals of varying thickness at various energies, channeling effects in backscattering and characteristic x-ray excitation in, (E/T), 25:40775
reactions in crystals, coherent bremsstrahlung production in, 23:10783
reactions in emulsions for ultrarelativistic, gap distribution measurements for ionization, (E), 24:20057
reactions in gases, steady-state method for measuring, 24:13877(R) (RRL-2310-287)
reactions in ionosphere, secondary auroral ionization and excitation processes from, 21:18531
reactions in irradiated aqueous and organic solutions, 22:48882
reactions in irradiated DNA, 23:21727 (AI-AEC-12744, pp 179-82)
reactions in lead at 1 GeV in streamer chamber, charge component of showers produced in, (E), 22:37070
reactions in lead at 3 GeV, Monte Carlo program for calculating parameters of electron—photon cascades for, 22:3308 (DESY-67/24)
reactions in plasma, effects on spectral line broadening and shift, (T), 23:41802
reactions in pulse radiolysis of NAD, 23:2768
reactions in pulse-irradiated gases, 23:2312(R) (RRL-2310-251)
reactions in radiation chemistry, 22:21113
reactions in radiation chemistry of liquids and solids, 24:13928
reactions in radiation chemistry processes, 22:35873
reactions in shielding, absorption and dose rates from, 21:37531
reactions of adducts of, with oxygen during radiolysis of aqueous thymine solutions, 25:15674
reactions of bound, with hydrogen ions at high energies, theory for charge exchange for three-body, 21:42300
reactions of deuterated, from pulsed-x or -electron radiolysis of heavy water, 22:16630
reactions of fast, with molecules, optical approximation of cross sections for, 23:47525
reactions of high-energy, astrophysical implications of, (T), 22:29102
reactions of hydrated radiolytic, in aqueous solutions of organic compounds, 25:54632 (CONF-700652-(Vol.3), pp 649-92)
reactions of hydrated radiolytic, with benzene, 1,3-cyclohexadiene, 1,4-cyclohexadiene, and cyclohexene, rate constants for, 24:38942
reactions of hydrated radiolytic, with biological tissue and food extracts, effects of acetone, cysteine, and nitrate additives on, 25:4117
reactions of hydrated, chemical, 22:25401
reactions of hydrated, chemical reaction kinetic studies using, 25:54631 (CONF-700652-(Vol.3), pp 601-48)
reactions of hydrated, during and after x-radiation pulses, 21:92 (AD-634693)
reactions of hydrated, during and after x-ray pulse radiolysis of acidic and alkaline solutions, 22:18815
reactions of hydrated, from pulse radiolysis of aqueous solutions, 23:9475
reactions of hydrated, from radiolysis of aqueous solutions, 21:30443 (IA-1079)
reactions of hydrated, from radiolysis of water, effects of deuterium on, 21:3088
reactions of hydrated, in chemistry, 23:47500
reactions of hydrated, in electron pulse and γ radiolysis of aqueous solutions of substituted aryl glycosides, rate constants for, 25:26305
reactions of hydrated, in electron-pulse radiolysis of potassium hydroxylamine-N,N-disulfonate, 23:15914
reactions of hydrated, in γ and pulse radiolysis of eosine complex with human serum albumin, rate constant for, 24:38930
reactions of hydrated, in γ radiolysis of aqueous solutions of dyes, 23:24220(T) (NP-tr-1764)
reactions of hydrated, in pulse radiolysis of eosin or fluorescein, 25:23619

reactions of hydrated, in pulse radiolysis of water at pH 7.0 to 12.7, 25:8291
reactions of hydrated, in pulse radiolysis, activation energy for, 24:13915
reactions of hydrated, in radiation chemistry of aqueous solutions, 23:35202
reactions of hydrated, in radiolysis of glucosides, 22:27761
reactions of hydrated, in radiolysis of nucleic acids and their components, 23:35158
reactions of hydrated, in radiolysis of water, mechanism of, 22:23034 (IA-1128, pp 78-96)
reactions of hydrated, mechanisms of, 21:5834 (IA-1082, pp 77-202)
reactions of hydrated, produced in pulse radiolysis of aqueous solutions of thiols, 23:35211
reactions of hydrated, produced in radiolysis of aqueous solutions of aromatics, activation energies for, 23:40733
reactions of hydrated, pulse radiolytic studies of, 24:252
reactions of hydrated, study of, 23:47515
reactions of hydrated, with acridine orange or methylene blue, effects of polyanions on, 22:42783
reactions of hydrated, with amino acids, ESR studies on deamination, 24:31309
reactions of hydrated, with carbon dioxide in pulse radiolysis, 21:5942
reactions of hydrated, with dyes, 22:16608
reactions of hydrated, with gelatin and RNAase, effects of conformation of molecules on reaction rate for, 22:30996
reactions of hydrated, with heavy water and water, 22:12387
reactions of hydrated, with hydrogen sulfides during radiolysis, 21:19664
reactions of hydrated, with inorganic complex ions and oxy-anions, kinetics of, 23:47503
reactions of hydrated, with inorganic compounds, 23:4692
reactions of hydrated, with iodide ions, kinetic salt effects of, 22:2086
reactions of hydrated, with ions and molecules, activation energies for, 22:23034 (IA-1128, pp 78-96)
reactions of hydrated, with metal ions and organic compounds, 22:25408
reactions of hydrated, with methyl green, 22:42783
reactions of hydrated, with nitrous oxide, 23:47514
reactions of hydrated, with organic compounds, 25:54631 (CONF-700652-(Vol.3), pp 601-48)
reactions of hydrated, with organic dyes, 23:47519
reactions of hydrated, with p-nitrophenol, 23:47511
reactions of hydrated, with polycations, effects of polyanions on, 22:42783
reactions of hydrated, with polynucleotides, effects of secondary structure on, 25:55131
reactions of hydrated, with salicylate ions, 23:47513
reactions of hydrated, with various reactants, production of atomic hydrogen by, 23:15878
reactions of hydrated, with water, activation energy of, 22:12308
reactions of hydrolytic, in radiolysis of 1-propanol, effects of temperature on, 23:49836
reactions of hyperrelativistic, statistical fluctuations of energy losses from radiative, 21:17087
reactions of low-energy, with carbon monoxide adsorbed by molybdenum, 22:11014
reactions of low-energy, with polyatomic molecules, 22:2139
reactions of magnetospheric, on lunar surface, x-ray excitation by, (T), 22:15445
reactions of mobile radiolytic, in aqueous acid solutions at 77°K, 25:34648
reactions of organic monomers with solvated, rate constants of, 25:57475
reactions of photochemically produced, in acidified hexacyanoferrate solution, effects of deuterium on, 22:47131
reactions of photolytic and radiolytic, with amino acids in alkaline heavy water glass, 24:27171
reactions of radiolytic hydrated, 23:40722
reactions of radiolytic hydrated, from pulse radiolysis of air-free alkaline solutions, effects of solution structure on, 25:51506 (AD-721299)
reactions of radiolytic hydrated, in aqueous cobalt cyanide complexes, effects of deuterium on, 24:9355
reactions of radiolytic hydrated, in aqueous solutions of cobalt(III) cyanide complexes, kinetics of, 25:54651
reactions of radiolytic hydrated, with benzene, effects of micellar surfactants on, 25:15671
reactions of radiolytic hydrated, with cetylpyridinium chloride or Methylene Blue and glycosaminoglycans, 23:35238
reactions of radiolytic hydrated, with ferric iron, 25:51523
reactions of radiolytic hydrated, with nitriles, 24:44054
reactions of radiolytic hydrated, with nitrogen, 24:41363
reactions of radiolytic hydrated, with nucleic acid derivatives, 23:47531
reactions of radiolytic hydrated, with oxalic acid, 23:35202
reactions of radiolytic hydrated, with ribonuclease, effects of temperature on rate constants for, 23:47521
reactions of radiolytic solvated, in aqueous carbohydrate solutions, 23:35180
reactions of radiolytic solvated, in frozen solutions, 23:35187
reactions of radiolytic solvated, with amines, rate constants for, 24:46268
reactions of radiolytic solvated, with organic compounds in aqueous solutions, 23:35179
reactions of radiolytic, in frozen aqueous solutions, 23:35186
reactions of radiolytic, with chromosome constituents, 23:50331 (AI-AEC-Memo-12861)
reactions of radiolytic, with ions, 25:54591 (CONF-700652-(Vol.1), pp 221-58)
reactions of relativistic polarized, with solids, polarization of coherent bremsstrahlung in, (T), 22:5040 (NP-17173)
reactions of relativistic, mean free path for plasmon excitation in, 25:19757 (ORNL-4584, pp 58-73)
reactions of slow, with sulfur-containing compounds in gaseous state, 21:23968
reactions of solvated and stabilized, in radiation-chemical processes, 25:164
reactions of solvated, formed in aqueous chloroacetic acid solutions by silent electric discharge, yields from, 23:26275
reactions of solvated, in gamma-irradiated methanol, kinetic salt effects on, 21:28029
reactions of solvated, in γ radiolysis of potassium nitrosodisulfonate, 24:9393
reactions of solvated, in γ-irradiated ice at 77°K and water at 300°K, 21:36033
reactions of solvated, in radiolysis of alcohols, 25:23624
reactions of solvated, in radiolysis of chlorobenzene and its derivatives in lower aliphatic alcohols, 25:15688
reactions of solvated, in radiolysis of ethanol and water, 21:30454
reactions of solvated, in solutions, 22:40125
reactions of solvated, kinetics of, 23:35178
reactions of solvated, produced by radiolysis of water with nitroparaffins, rate of, 21:25901
reactions of solvated, with 2-propanol, 21:5834 (IA-1082, pp 77-202)
reactions of solvated, with alcohols and water, energies and entropies of activation of, 23:49832
reactions of solvated, with atomic hydrogen in water, kinetics and thermodynamics of, 23:15878
reactions of solvated, with γ-irradiated aqueous polyethylene oxide solutions, effects of scavengers on, 25:48546
reactions of solvated, with water in liquid ammonia, 21:45108
reactions of thermal, in radiobiological processes, 24:31432
reactions of thermal, use of pulse sampling method to study dissociative and nondissociative attachment, 23:47552
reactions of trapped, in irradiated ethanol at -196°C, 21:15933
reactions of, produced in γ-irradiated silicon dioxide, 25:139
reactions of, radiative lifetimes using phase-shift method for, 22:41331
reactions of, target orientation by excitation from, 24:13235
reactions of, transmission and range measurements at 4 to 30 MeV, 23:3261(T) (ORNL-tr-1862)
reactions with 2p/sup q/ ions in gaseous nebulae, (T), 23:16565
reactions with acrylamide in pulse radiolysis, mechanism of scavenging, 23:267
reactions with adsorbed gases and solids below 2 keV, production and detection of Auger electrons from, 23:22931
reactions with air and nitrogen molecules at 0.65 to 1.6 MeV, absolute fluorescence intensity of first negative band of N_2^+ from, (E), 24:28099
reactions with air at 700 eV, fluorescence efficiency in, (E), 23:6933
reactions with air, average energy of ion-pair formation in, literature survey, 23:32153 (CEA-Bib-144)
reactions with air, copper, and lead at 100 to 10,000 MeV, shower distribution tables for, 24:26407
reactions with air, energy spectra of secondary electrons from, (T), 23:41951
reactions with alcohol and water during γ-radiolysis of methanol, 22:37796
reactions with alkali metal atoms up to 1 keV, calculated absolute total cross sections for ionization in, 23:22921
reactions with alkali metal atoms up to 5 eV, differential cross sections for excitation of resonance lines in, (T), 25:40383
reactions with alkali metal atoms, excitation-cross-section calculations using classical impulse approximation and quantal momentum distribution, 23:22901
reactions with alkali metal atoms, ionization cross sections for, (T), 22:17362
reactions with alkali metal atoms, ionization in, (E), 25:58741
reactions with alkali metal atoms, kinetic energy of bound electron in calculation of ionization cross sections for, 25:35870
reactions with alkali metal atoms, measurement of excitation cross sections of resonance lines in, 21:24899
reactions with alkali metal halides at 25 keV, inner-electron excitation in, (E), 22:5090
reactions with alkali metal halides at 4 to 12 keV, secondary electron emission in, (E/T), 22:49988 (SLAC-86)
reactions with alkali metal halides at low energies, sputtering in, (E/T), 24:42804
reactions with alkali metal halides, energy loss in, (E), 22:29204
reactions with alkali metal, helium, and hydrogen atoms, excitation rate coefficients for, (T), 25:24882
reactions with alkali metals up to 30 eV, absolute excitation cross sections for, (E), 21:37128
reactions with alkali metals, helium, and mercury atoms, excitation in, (E), 25:58741
reactions with alkali metals, review of ionization in, (E/T), 24:21586
reactions with alkaline earth oxides, secondary electrons from, 21:31226
reactions with alloys and metals at 1 to 3 MeV, backscatter and transmission coefficients for, (E), 25:2883 (N-70-25499)
reactions with aluminum and copper at 30 keV, Monte Carlo calculation of energy losses and depth distribution of x-ray production in, 25:14400
reactions with aluminum and gold at 0.05 and 0.20 MeV, bremsstrahlung cross sections for, (E/T), 25:7138
reactions with aluminum and gold at 1.5 to 18 GeV, secondary emission yield from, (E), 23:32601
reactions with aluminum and gold at 2 MeV, bremsstrahlung polarization from, (E), 24:21917
reactions with aluminum and iron at 0.5 to 2.8 MeV, bremsstrahlung spectra from, (E), 22:29205
reactions with aluminum and iron at 16 GeV, relative yields for radioisotope production by, (E), 23:1826 (ORNL-TM-2309)
reactions with aluminum and nickel, secondary electron emission from, 21:37553
reactions with aluminum and silver, transition radiation from, 21:24894
reactions with aluminum and tungsten foils at 28 MeV, most probable energy loss and straggling in, (E), 24:35150
reactions with aluminum and water at 1 GeV, cascade showers production from, (E), 23:30690 (AD-683704)
reactions with aluminum and water at 1 GeV, energy deposited as function of depth and radius from electron—photon cascades from, (T), 24:6704
reactions with aluminum at 1 GeV, density effect on longitudinal energy deposition from cascade showers from, (T), 24:10725
reactions with aluminum at 3 to 30 keV, cross sections for K-shell ionization in, (E), 23:41919
reactions with aluminum at 50 keV, radiation from surface plasmons in, (E), 23:32132
reactions with aluminum at 54, 75, and 97 MeV, electron energy loss as function of target thickness in, (E), 23:34259
reactions with aluminum below 2 keV, range, backscattering, and secondary production in, (E), 24:17628
reactions with aluminum copper, gold, and tin at 0.2, 1.0, 1.7, and 2.5 MeV, bremsstrahlung production cross sections and spectra for, 21:38267
reactions with aluminum films, convolution effects in analysis of energy-loss spectra from, 23:48710
reactions with aluminum foils at 0.6 to 1.2 MeV, energy loss in, (E/T), 22:21893
reactions with aluminum foils at 1 eV to 4 keV, attenuation length, charge equilibrium distance, and stopping power for, (E), 23:16632 (ORNL-TM-2406)
reactions with aluminum foils at 34 keV, plasma oscillations from, 22:7304
reactions with aluminum foils at 6 to 10 MeV, influence of electric field on secondary electron emission from, (E), 25:43101(T) (SCL-T-69-256)
reactions with aluminum thick targets at 1 GeV, energy deposited by electron—photon cascades from, (T), 24:40302
reactions with aluminum thick targets at 6 to 20 MeV, effect of high electric fields on secondary-electron yield in, (E), 23:18413
reactions with aluminum up to 2000 eV, Auger transitions and supplementary electron ejection in ionization by, (E), 25:43102
reactions with aluminum, analysis for LET spectra and excitation and ionization yields by flux measurements from, 22:8435 (CONF-670305-, pp 241-54)
reactions with aluminum, beryllium, and magnesium films at 80 keV, radiative decay spectra from, (E), 25:19758 (ORNL-4584, pp 74-86)
reactions with aluminum, beryllium, and magnesium films in keV range, radiative decay of surface plasma waves stimulated by, (E), 24:51791 (ORNL-TM-3158)
reactions with aluminum, beryllium, and platinum at 500 MeV, ionization chamber spectrometer, and scintillation and Cherenkov counter study of trident, quartet, and bremsstrahlung production in, (E), 22:26547 (SLAC-PUB-330)
reactions with aluminum, beryllium, and platinum at 500 MeV, trident and pair production in, 22:26593
reactions with aluminum, boron, carbon, and silver at 1 to 4 keV, x-ray emission as function of target thickness from, (E), 24:4988
reactions with aluminum, copper, and lead at 6 GeV, longitudinal and lateral development of electromagnetic cascades from, (E), 24:3491 (DESY-69/39)
reactions with aluminum, copper, and lead at 600 MeV, energy losses in cascade showers produced by, (E), 21:33963(R) (NP-16498)
reactions with aluminum, copper, and lead at 600 to 1000 MeV, cascade shower production in, (E), 24:12927
reactions with aluminum, copper, and platinum at 25 to 45 MeV, effect of target thickness and Z on bremsstrahlung produced in, (E), 25:17658
reactions with aluminum, copper, and tin surfaces, fine structure in Auger spectra from, (E), 24:25953
reactions with aluminum, copper, gold, and tin at 1.0, 1.7, and 2.5 MeV, bremsstrahlung cross sections for, (E), 21:39828
reactions with aluminum, copper, iron, and nickel at 13.3 GeV, absolute cross sections for radioisotope production by, (E), 23:1826 (ORNL-TM-2309)
reactions with aluminum, copper, iron, and nickel at 3 to 13 GeV, photon energy emission from products from, 24:35775
reactions with aluminum, distribution of energy deposition for cascade showers induced by 1-GeV, 23:48701
reactions with aluminum, gallium, and indium, ionization cross sections for, (E), 25:4956
reactions with aluminum, gold, and iron at 1 MeV, bremsstrahlung angular distributions from, (E/T), 21:37523
reactions with aluminum, gold, and tin at 50 and 100 keV, effects of atomic number and target thickness on bremsstrahlung spectra from, (E), 21:26998
reactions with aluminum, gold, iron, and tin at 1 MeV, angular distributions and energy spectra for backscattering, 25:2886

reactions with aluminum, iron, and tantalum at 5.0 GeV, (E), 24:52566(R) (ORNL-4534)
reactions with aluminum, low-energy, (E), 22:11197 (ORNL-TM-2030)
reactions with aluminum-27, carbon-12, copper-63, phosphorus-31, and silicon-28 up to 260 MeV, cross sections for, (E), 23:21322
reactions with ammonia, benzene, and methane at 10 to 200 eV, cross sections for production of Lyman-alpha radiation in, (E), 23:12519(R) (GA-9062)
reactions with anthracene single crystals at 30 keV, anisotropy of energy-loss spectra for, (E), 24:3145
reactions with anthracene, carrier generation and transport from 10- to 60-keV, (E), 22:38776
reactions with argon and helium, threshold behavior of cross sections for ionization in, (E), 23:16671
reactions with argon and magnesium up to 1000 eV, crossed-beam measurements of multiple ionization in, 24:32647
reactions with argon and neon, double ionization and K-Auger spectra from, (E), 24:26009
reactions with argon and nitrogen molecules at 1 to 15 keV, angular and energy distribution of ionization electrons from, (E), 24:3165(R) (GA-9713)
reactions with argon at 250 to 700 eV, cross sections for simultaneous ionization and excitation to 4p states in, (E), 24:28098
reactions with argon at 3 to 16 keV, cross section for excitation of K x rays from, (E), 23:22887
reactions with argon at 60 to 100 eV, cross sections for excitation and ionization in, (E), 24:6374
reactions with argon at 60 to 100 eV, excitation cross sections for, (E), 23:12520 (NP-17742)
reactions with argon at 75 to 200 eV, angular distributions and energy losses of electrons from ionization in, (E), 25:40389
reactions with argon ions, collision processes in laser, 22:38806
reactions with argon ions, excitation processes and cross sections in laser for, 22:41711
reactions with argon up to 200 eV, excitation cross sections for, (E), 24:39864
reactions with argon, autoionization in, (E), 22:11227
reactions with argon, chlorine, and xenon at 3 to 16 keV, cross sections for excitation of K x rays in, (E), 25:14008
reactions with argon, cross sections for ionization in, 24:28091 (ANL-7615, pp 214-18)
reactions with argon, excitation cross sections for, 21:27004
reactions with argon, helium, and neon at 10 keV, determination of oscillator strengths from coincidence measurements of electrons and ions from, 25:14003
reactions with argon, helium, and neon up to 150 eV, excitation, ionization, and formation of negative-ion resonances in, (E), 25:14002
reactions with argon, helium, and neon up to 80 eV, excitation spectra from, (E), 24:15148 (ORNL-TM-2618)
reactions with argon, helium, and neon, autoionizing states and negative-ion resonances from, 25:19490 (ORNL-4584, pp 92-104)
reactions with argon, helium, and neon, bound-state calculation of resonance energies associated with electron attachment in, 24:35185
reactions with argon, helium, hydrogen, and nitrogen at 0.44 to 13.75 MeV, capture cross sections for, (E), 21:5068 (UCRL-16765)
reactions with argon, helium, mercury, neon, and xenon atoms, excitation of Rydberg states in, (E), 22:19794
reactions with argon, hydrogen, methane, and nitrogen gases at 1 to 10 keV, angular distributions of secondary electrons from, (E), 24:35177(R) (GA-10135)
reactions with argon, hydrogen, methane, and nitrogen gases at 1 to 10 keV, differential cross sections for secondary electron emission in, (E), 24:35176(R) (GA-10133)
reactions with argon, ionization cross sections for ground and excited states from, (T), 22:7133
reactions with argon, ionization in threshold region by, 22:9029
reactions with argon, krypton, and neon, calculation of excitation cross sections for, 21:22999
reactions with argon, neon, and nitrogen, luminescence from, (E), 21:22974(R) (TID-23789)
reactions with argon, radiation lifetimes and transition probabilities from, 23:51384
reactions with argon, Stark broadening in spectra from, (E), 22:24321
reactions with aromatic-hydrocarbon vapors at 30 keV, characteristic energy losses in, (E), 24:3173
reactions with atmosphere, Fokker—Planck equation for diffuse auroral, (E/T), 25:47409
reactions with atmospheric molecules, ionization cross sections for, (T), 25:24887
reactions with atmospheric oxygen, radiations from, (E/T), 23:44327
reactions with atomic and molecular gas jets at 2 to 10 keV, spectra from vacancy cascades produced in, (E), 25:14038
reactions with atomic and molecular gases, at 0.05 to 20 keV, semi-automatic monochromator for determining excitation cross sections in, 21:14505
reactions with atomic helium, differential excitation functions of n = 2 states for 19- to 23-eV, 22:41353
reactions with atomic helium, phase shift of s wave for elastic, (T), 22:38741
reactions with atomic helium, polarization of light from, 23:3278
reactions with atomic hydrogen at 30.61 eV, calculation of excitation cross sections for, 21:24925
reactions with atomic hydrogen in excited state, cross sections for further excitation in, (T), 25:7025
reactions with atomic hydrogen, excitation and ionization cross sections for, (T), 24:37047
reactions with atomic hydrogen, ionization in, (E), 22:15359
reactions with atomic hydrogen, Lyman-α radiation from, (E/T, 23:3297
reactions with atomic hydrogen, theoretical and numerical study of 1s—2s excitation for, (T), 22:41337
reactions with atomic hydrogen, threshold law for ionization, 21:37171
reactions with atomic mercury, ionization potentials for, 23:3270
reactions with atomic mercury, rf resonance of 6^3P_2 state for, (E/T), 22:36711 (UCRL-18178)
reactions with atomic neon, rf resonance in, (E/T), 22:36711 (UCRL-18178)
reactions with atomic nitrogen, effects of isotropic thermal motion on s-wave scattering phase for slow, (T), 22:41351
reactions with atomic oxygen, excitation cross sections for, (T), 21:18467
reactions with atomic sodium, measurement of cyclotron and spin resonance of free electrons from spin-dependent, (E/T), 22:41345
reactions with atomic vapors, excitation by, 22:41321
reactions with atoms $10 < Z < 20$, x-ray satellite intensities from, 22:26244
reactions with atoms $13 < Z < 79$ at 120 keV, bremsstrahlung emission cross sections for, (E), 23:25152
reactions with atoms adsorbed on surfaces, differential cross sections for K-shell ionization in, (E), 25:49711
reactions with atoms and diatomic molecules at low energies, review of total and momentum-transfer cross sections for, (E), 25:55856
reactions with atoms and ions from Z = 21 to 30, cross sections and rate coefficients for ionization in, (T), 23:18446
reactions with atoms and ions having closed shells, construction of model potentials for, 25:58772
reactions with atoms and ions having one and two electrons, formulas for total cross sections for bremsstrahlung emission in, (T), 23:46264
reactions with atoms and ions having one and two electrons, review, (E/T), 24:19749
reactions with atoms and ions, calculation of excitation cross sections for, (T), 25:2915
reactions with atoms and ions, electron correlation effects in sudden-approximation treatment of multiple excitation accompanying ionization by, 23:32170
reactions with atoms and ions, empirical formula ionization cross sections, (T), 21:43769
reactions with atoms and ions, excitation and ionization from, review, 24:45045
reactions with atoms and ions, excitation and ionization in, (T), 22:5084
reactions with atoms and molecules at 25 to 60 eV and 0 to 80°, energy loss spectra and differential excitation cross sections for, (E), 23:48707
reactions with atoms and molecules at 300 to 500 eV, selection rules for excitation at small momentum changes in, (T), 25:997
reactions with atoms and molecules at low energies, review, 23:16678
reactions with atoms and molecules at low energies, review of resonances associated with compound states in, (E), 23:36510
reactions with atoms and molecules at low energies, critical compilation of cross sections for ionization, dissociation, and vibrational excitation in, (E), 24:4993
reactions with atoms and molecules near excitation threshold, detection of triplet and temporary negative ion states from, 22:17399
reactions with atoms and molecules, calculation of differential cross sections for ejection of electrons in, 24:19748
reactions with atoms and molecules, computer control system for studying, 25:55094
reactions with atoms and molecules, cross sections for inelastic, (T), 24:15131
reactions with atoms and molecules, interactions between ionization processes in, (T), 25:998
reactions with atoms and molecules, lectures on, (T), 21:16783 (AERE-L-170)
reactions with atoms and molecules, measurement of efficiency curves for formation of neutral metastable species in, 24:42531 (UCRL-19594)
reactions with atoms and molecules, production of long-lived excited ionic states in ions from, (E), 22:29275
reactions with atoms and molecules, research program on energy degradation in, 24:35178(R) (ORO-3798-50)
reactions with atoms and molecules, review of atomic- and molecular-beam techniques for study of, 22:930 (AGARD-CP-12(Vol.1), pp 191-216)
reactions with atoms and molecules, review of electron-beam studies of ionization in, 24:21592
reactions with atoms and molecules, review of energy resolution in, 25:58747
reactions with atoms and molecules, semi-empirical impact cross sections for, 21:37114
reactions with atoms and molecules, trapped-electron studies of excitation in, 24:39853 (ORNL-4446, pp 206-15)
reactions with atoms at <5 eV, excitation cross sections for, 21:28961(T) (AD-644072)
reactions with atoms at 100 keV, Monte Carlo calculations of slowing-down spectra for, 24:39852 (ORNL-4446, pp 197-205)
reactions with atoms at 150 to 900 MeV, x- and γ-ray studies of intensity ratios and K-ionization cross sections for, (E), 25:47345
reactions with atoms at 5 keV to 1 MeV, exact screened calculations of relativistic bremsstrahlung cross sections for, 24:39851 (NYO-3829-51)
reactions with atoms at 5 keV to 1 MeV, exact screened calculations of relativistic bremsstrahlung cross sections for, 25:11681
reactions with atoms at 50 to 150 keV, equipment and methods for studying inelastic, 25:3472 (CONF-700322-, pp 379-92)
reactions with atoms at high energies, calculation of ionization cross sections for, 22:7170
reactions with atoms at intermediate energies, calculation of relativistic differential bremsstrahlung cross sections for, 24:17697
reactions with atoms at low energies, calculation of transport cross sections for, 22:21882
reactions with atoms at thermal energies, Monte Carlo trajectory calculations of excitation and ionization in, 23:46278
reactions with atoms from hydrogen to calcium, ionization cross sections for, 21:35006 (IPP-1/62)
reactions with atoms having high Z, cross sections for electron ejection in, (T), 25:52642
reactions with atoms having outer 2p and 3p electrons, cross sections for ionization in, (T), 23:5233
reactions with atoms having two outer-shell electrons in eV range, binary-encounter-model calculations of cross sections for excitation and ionization in, 23:41971
reactions with atoms having Z = 1 to 20, calculations of ionization cross sections in, 23:1175
reactions with atoms having Z = 2 to 11, calculation of ionization cross sections for, using generalized oscillator strengths, 25:11715
reactions with atoms having Z = 21 to 50, x-ray emission spectra and $K\alpha_2/K\alpha_1$ transition probabilities from, (E), 24:51388
reactions with atoms having Z = 29 to 83 at 150 to 900 MeV, cross sections for x-ray production and search for γ-ray production in, (E), 24:51390
reactions with atoms having Z = 5 to 10 and 13 to 18, Born and Ochkur calculations of cross sections for removal of 2s or 3s electron from, 24:23777
reactions with atoms having Z up to 108 at up to 1 keV, cross sections for single ionization from ground state in, (E), 24:15153
reactions with atoms in plasma, mean cross sections for ionization in, (T), 24:1289
reactions with atoms of Z = 11 to 18, ionization cross sections for, (T), 22:45931
reactions with atoms of Z = 2 to 10, cross sections for production of singly charged ions in, (T), 22:45932
reactions with atoms, angular correlation of scattered and ejected electrons in, 24:23811
reactions with atoms, anomalous energy effects on polarization of radiation from, 22:15335
reactions with atoms, applications to problems in astrophysics of, 22:38808
reactions with atoms, approximate analytical expressions and scaling relations for excitation and ionization cross sections for, 25:58740
reactions with atoms, approximation formulas for cross section for K-shell ionization in, 23:41974
reactions with atoms, approximation methods for cross sections for, 22:38818
reactions with atoms, atomic-beam recoil technique for spin analysis in, 23:27376
reactions with atoms, binary-encounter approximation for secondary-electron distributions from, 23:8458
reactions with atoms, binary-encounter calculations of angular correlation of scattered and ejected electrons in, 24:47017
reactions with atoms, Born approximation for collisional, 25:33083
reactions with atoms, Born effective cross sections for excitation in, (T), 24:23770(T) (ANL-Trans-816)
reactions with atoms, bremsstrahlung emission cross sections for low-energy, (T), 21:16824
reactions with atoms, calculation of bremsstrahlung cross sections using Sommerfeld—Maue eigenfunctions for, 23:32177
reactions with atoms, calculation of effective Born cross sections for, 22:43864
reactions with atoms, calculation of excitation and ionization rates using Gryzinski cross sections and Maxwellian electron distributions, 23:30323 (N-69-22168)
reactions with atoms, calculation of mean energy of electrons ejected in, from differential ionization cross sections, 25:11727
reactions with atoms, channel-projection theory for rearrangement, 21:33163
reactions with atoms, classical calculation of bremsstrahlung and inverse bremsstrahlung cross sections for, 24:37230
reactions with atoms, classical, variational, and Fadeev methods in, 22:38814
reactions with atoms, close-coupling approximations for electron-atom, 22:38817
reactions with atoms, close-coupling method for calculation of cross sections for continuum processes in, 24:23806
reactions with atoms, conference on physics of, 22:38810
reactions with atoms, correlation effect on Born approximation of two-electron transitions in, (T), 25:989
reactions with atoms, correlations among perturbers in theory of spectral line broadening by, 24:26010
reactions with atoms, Coulomb wave approximation for excitation of, 22:9075
reactions with atoms, coupled-state impact-parameter method for calculation of excitation in, 24:51441
reactions with atoms, cross sections for excitation and ionization in, (T), 21:623
reactions with atoms, crossed-beam study of ionization measurements of, (E), 22:43861 (UCRL-71195)
reactions with atoms, effective Gaunt factors for positive ion excitation in, (T), 23:41852
reactions with atoms, effects of atomic shell structure on ionization in, (T), 22:5114
reactions with atoms, effects of close coupling on threshold behavior of excitation cross sections for, 24:39857
reactions with atoms, effects of perturber radiation on spectral line broadening in, (T), 23:16630 (N-68-31661)

reactions with atoms, effects of thermal motion on s-wave scattering phase for slow, 22:41351
reactions with atoms, energy losses from ionization in, (T), 24:37241
reactions with atoms, evaluation of bremsstrahlung cross sections for elastic scattering phase shifts for, 24:1281
reactions with atoms, excitation of levels by, (E), 22:41325
reactions with atoms, excitation processes in, (T), 22:21904
reactions with atoms, Feynman theory for, 21:33165
reactions with atoms, formula for excitation cross sections in, 22:41296
reactions with atoms, formulas for ionization cross sections for, 22:45933
reactions with atoms, general binary interaction theory for region between impact and static regimes of, 24:6378
reactions with atoms, Hartree—Fock theory of continuum states in, 24:23819
reactions with atoms, impact-parameter formulas for excitation cross sections for, 24:45040
reactions with atoms, intensity beats in resonance radiation from coherent excitation by, 21:28960 (UCRL-17445)
reactions with atoms, intensity beats in resonance radiation from, 21:43830
reactions with atoms, ionization efficiency curves for, 21:14989
reactions with atoms, ions, and molecules, review of theory of resonances in, 25:16807
reactions with atoms, kinetic energy of bound electron in calculation of ionization cross sections for, (T), 25:11701
reactions with atoms, methods for measurement of ionization cross sections for, 24:21602
reactions with atoms, modified Born approximation for, 22:44453
reactions with atoms, optical potential for inelastic, (T), 21:5079
reactions with atoms, penetration effect and atomic number corrections for electron probe microanalysis of, (T), 22:36715
reactions with atoms, polarization of characteristic x radiation from, 22:21896
reactions with atoms, polarization of radiation emitted in, review, 24:19749
reactions with atoms, problems in experimental study of, 22:38812
reactions with atoms, quasi-classical approach to ionization in, (T), 25:40384
reactions with atoms, quasi-classical method for calculation of cross sections for, 25:2917
reactions with atoms, review of binary-encounter and classical theories for, 24:21590
reactions with atoms, review of experimental and theoretical research on, 24:39855
reactions with atoms, review of experimental methods for study of, 23:30337
reactions with atoms, review of theory of, 23:36512
reactions with atoms, review of threshold laws for excitation and ionization in, 25:58745
reactions with atoms, role of intermediate states in excitation in, (T), 25:2916
reactions with atoms, role of intermediate states in excitation by, 22:43898
reactions with atoms, semi-empirical formula for ionization cross sections for, 25:58738
reactions with atoms, spin magnetic effect on polarization of radiation from, (T), 22:21878
reactions with atoms, sudden-approximation calculations of cross sections for multiple excitation accompanying ionization in, 24:21573
reactions with atoms, theoretical estimation of maximum cross sections for ionization in, 23:22899
reactions with atoms, theory of, 22:38815
reactions with atoms, theory of, 23:36524
reactions with atoms, theory of ionization from, 22:43905
reactions with atoms, theory of polarization of line radiation excited by, 22:41322
reactions with atoms, threshold for ionization in, (T), 22:47792 (N-68-24734)
reactions with atoms, ultrahigh-vacuum apparatus for study of, 24:39869
reactions with atoms, Vainshstein method applied to excitation and ionization during, (T), 21:14985
reactions with atoms, Vainshtein approximation for, 21:43811
reactions with atoms, velocity distribution of metastable atoms produced by, (E/T), 24:1288
reactions with atoms, Wannier threshold law for ionization in, (T), 25:38168
reactions with barium and cesium, multiple ionization in, (E), 25:35865
reactions with barium and strontium ions, effective cross sections for transitions between excited states in, (E), 25:14000
reactions with barium ion (Ba^+) at 3 to 100 eV, semiclassical calculations of cross sections for excitation in, 24:17679
reactions with barium ions (Ba^+) at 10 to 1000 eV, absolute cross sections for single ionization in, (E), 25:16799 (ORO-3027-18)
reactions with barium ions at 8 to 98 eV, cross sections for resonance transitions in, (E), 22:19738(R) (ORO-3027-12)
reactions with barium ions at 8 to 98 eV, cross sections for excitation of electric dipole transitions in, (E), 23:12547
reactions with barium ions at 8 to 98 eV, equipment for measurement of absolute excitation cross sections for, 23:32156(R) (ORO-3027-15)
reactions with barium ions up to 100 eV, absolute emission cross sections for excitation of dipole transitions in, (E), 24:47014 (ORO-3027-17)
reactions with barium ions, cross sections for ionization by, 22:52483
reactions with barium ions, excitation and ionization in, 22:31599(R) (ORO-3027-13)
reactions with barium ions, research program on cross sections for excitation and ionization in, 24:37220(R) (ORO-3027-16)
reactions with barium oxide films on tungsten at 3 to 50 eV, elastic scattering and secondary electron emission in, (E), 21:13361
reactions with barium oxide films on tungsten, effects of film thickness on secondary electron emission from, 21:27244
reactions with barium, calcium, and strontium up to 1 keV, total cross sections for ionization in, (E), 25:58777
reactions with barium, calcium, and strontium up to 1000 eV, ionization efficiency curves for, (E), 24:39868
reactions with barium, calcium, magnesium, and strontium, Rydberg states from, (E), 22:19797
reactions with barium, calcium, strontium, and thallium, cross sections for ionization by, (E), 21:33155
reactions with benzene at 13.6 and 20 eV, first, second, and third triplet states from, (E), 23:51396
reactions with benzene of fast, Born-approximation calculations of cross sections for π-electron excitation in, 23:18415
reactions with benzene, cross sections for excitation of lowest-lying triplet states in, (T), 24:8339
reactions with benzene, ethane, ethylene, and methane at 0.5 to 6 keV, cross sections for production of excited hydrogen atoms in, (E), 23:12581
reactions with benzene, hydrogen chlorides, and naphthalene, excitation spectra from, 22:7132 (ORNL-4168, pp 119-82)
reactions with benzene, measurement of cross sections for, 22:37795
reactions with beryllium and tantalum at 150 MeV, energy distribution of photoneutrons from, (E), 24:43122
reactions with beryllium at 10 and 16 GeV, production of mesons (K_2^0) and neutrons in, (E), 23:25496
reactions with beryllium at 18 GeV, particle yields from, (E), 23:49032
reactions with beryllium, beryllium—iron, and iron at 16 and 18 GeV, π, K, p, anti p, e^+, and e^- yields from, (E), 22:20113
reactions with beryllium, calcium, and magnesium ions, classical binary-encounter calculations of excitation cross sections for, 24:17694
reactions with beryllium, energy distribution of photoneutrons from 150-MeV, (T), 24:12873 (ORNL-TM-2751)
reactions with beryllium-9 and carbon at 110 to 119 MeV, charged-particle yields from, (E), 22:24830
reactions with beryllium-9 at 1.0 and 2.0 MeV, atomic electron contribution to bremsstrahlung cross sections for, (E), 22:50557
reactions with beryllium-like ions in plasma, excitation-rate coefficients for, (E), 25:52804
reactions with binary mixtures in xenon filling gas, light emission from avalanche, 24:39287
reactions with biological materials, effects of LET on high-energy pulsed, 23:12066 (NYO-910-75, pp 31-7)
reactions with bismuth, lead, tungsten, and uranium at 45 MeV, neutron angular distributions and spectra from, (E), 21:42634
reactions with boron trichloride, threshold excitation and slow-electron production in, 25:19490 (ORNL-4584, pp 92-104)
reactions with bromohydrocarbons below 10 eV, electron attachment and dissociative electron attachment in, (E), 25:7130 (ORNL-TM-3163)
reactions with bulk crystals, orientation dependence of x-ray emission from, (E), 22:19752
reactions with cadmium and manganese, Auger effect in multiple ionization in, 24:45036
reactions with cadmium sulfides, spectra from, 22:15376
reactions with cadmium vapor at 60 to 150 eV, generalized oscillator strengths and electric quadrupole transition probabilities for, (E), 25:47340
reactions with cadmium vapor, energy distribution of electrons from autoionization in, (E), 25:40379
reactions with cadmium, effective cross sections for formation of excited ions in, (E), 25:52668
reactions with cadmium, mercury, and zinc atoms at 0 to 260 eV, cross sections for production of excited ions in, (E), 24:39876
reactions with cadmium, mercury, and zinc atoms, intermediate-coupling approximation of Born effective cross sections for excitation of fine-structure components of, 25:45308
reactions with calcium and magnesium ions, close-coupling approximation and impact excitation cross sections for, 22:43932
reactions with calcium and neon, quasi-classical calculation of excitation cross sections for, 25:2917
reactions with calcium at 3 to 30 eV, cross section for excitation of 4^1P^o term in, (E), 23:48734
reactions with calcium at 9.5 and 15.5 eV, relative cross sections for excitation from, (E), 23:3296
reactions with calcium atoms and oxygen ions (OV), configuration-interaction calculations of cross sections for dielectronic transitions in, 25:2918
reactions with calcium ions, polarization of line radiation and transitions between fine-structure levels excited by, (T), 24:45025
reactions with calcium ions, width and shift of resonance lines from, (T), 24:23778
reactions with calcium, crossed-beam ionization cross sections from threshold to 200 eV from, (E), 24:17662
reactions with calcium, lead, silver, and thallium, crossed-beam measurements of ionization cross sections for, 24:28111
reactions with calcium, lifetimes of excited states from, 21:41803
reactions with carbon and copper at 2.5 to 9.5 GeV, spectrometer and Cherenkov counter study of cross sections for wide-angle bremsstrahlung from, (E), 24:35599
reactions with carbon and nitrogen ions, cross sections for ionization in, (E), 25:58769
reactions with carbon and nitrogen, elastic scattering cross sections and polarization for 5.5- and 10-eV, (T), 22:38757
reactions with carbon at 2 to 30 keV, cross sections for K-shell ionization in, (E), 25:40350
reactions with carbon at 2 to 30 keV, K-shell-fluorescence yield from, (E), 25:43108
reactions with carbon at 4.9 GeV, test of timelike photon propagator in quantum electrodynamics from μ^+—μ^- pair production in, (E), 24:37605
reactions with carbon atoms, oxygen ions (O^{1+}), and nitrogen ions (N^+), effective cross sections for excitation in, (T), 25:52670
reactions with carbon below 9.5 GeV, wide-angle bremsstrahlung production in, (E), 23:14953
reactions with carbon dioxide and carbon monoxide up to 350 eV, cross sections for excitation of CO fourth positive bands in, (E), 25:22368
reactions with carbon dioxide and nitrogen molecules at 600 keV, photon emission and absorption by ions produced in, (E), 24:45030
reactions with carbon dioxide and nitrogen molecules at 600 keV, photon emission and absorption by ions produced in, (E), 25:30274(T) (ANL-Trans-881)
reactions with carbon dioxide and nitrous oxide, cross sections for vibrational excitation near threshold for, (E), 24:8354
reactions with carbon dioxide and nitrous oxide, ionization by, 21:43836
reactions with carbon dioxide and oxygen molecules in eV range, temperature dependence of cross sections for dissociative attachment in, (E), 24:8346
reactions with carbon dioxide and water vapor at 30 to 60 eV, vibrational excitation in, (E), 23:10443
reactions with carbon dioxide in positive column of glow discharge, rate of dissociation in, (E), 23:22911
reactions with carbon dioxide up to 14 eV, temperature dependence of threshold for formation of zero-kinetic-energy O^- ions in, (E), 23:12524
reactions with carbon dioxide up to 300 eV, cross sections for emission produced by dissociative excitation, excitation, and ionization in, (E), 25:58760
reactions with carbon dioxide, absolute cross sections for simultaneous excitation and ionization in, (E), 22:24063
reactions with carbon dioxide, carbon monoxide, and methane at 600 keV, radiative lifetimes of excited products from, (E), 25:30273(T) (ANL-Trans-879)
reactions with carbon dioxide, formation of metastable carbon monoxide and oxygen by dissociation in, (E), 25:58765
reactions with carbon dioxide, hydrogen, nitrogen, and nitrous oxide in eV range, production of metastable species in, (E), 23:22882
reactions with carbon dioxide, impact cross sections for, (T), 24:6415
reactions with carbon dioxide, nonresonant vibrational excitation in, (T), 25:14028
reactions with carbon foils at 0.3 to 1.1 MeV, transition radiation in light emitted by, 25:58686
reactions with carbon ions, cross sections ionization from C^{4+} and C^{5+} levels, (T), 22:13220
reactions with carbon monoxide adsorbed on tungsten, particle analysis from, 23:3273
reactions with carbon monoxide and deuterium, hydrogen, and nitrogen molecules, absolute cross sections for vibrational excitation in, (E), 24:3183
reactions with carbon monoxide and nitric oxide at 45 eV, excitation of forbidden vibrational transitions by, (E), 23:1193
reactions with carbon monoxide and nitrogen molecules at 10 keV, K-shell excitation and ionization in, (E), 25:2910
reactions with carbon monoxide and nitrogen molecules, excitation functions and lifetimes of metastable states produced in, (E), 25:16816
reactions with carbon monoxide and oxygen molecules, resonances in total cross sections for, (E), 25:35861
reactions with carbon monoxide at 1.5 to 3 eV, mechanism of excitation at 2.3 eV in, (E), 23:27360
reactions with carbon monoxide at 100 eV to 5 keV, relative cross sections for emission of vacuum ultraviolet radiation in, (E), 24:37225
reactions with carbon monoxide at 300, 400, and 500 eV, generalized oscillator strengths and selection rule for transitions in, 25:52683
reactions with carbon monoxide at 9 to 14 eV, cross sections for formation of carbon ions (C^-) by dissociative attachment in, (E), 24:49032
reactions with carbon monoxide at low energies, close-coupling calculation of cross sections for vibrational excitation in, 24:3181
reactions with carbon monoxide at low energies, close-coupling calculation of differential cross sections for vibrational excitation in, 24:23784
reactions with carbon monoxide at low energies, electron-scavenging study of excitation to a $^3\pi$ state in, 24:28105
reactions with carbon monoxide molecules on solar photosphere, dissociation rate from, (T), 23:36359
reactions with carbon monoxide up to 300 eV, cross sections for emission produced by dissociative excitation, excitation, and ionization in, (E), 25:58759
reactions with carbon monoxide, nitric oxide, oxygen, and water molecules, production cross sections and decay lifetimes of excited oxygen atoms from, (E), 24:37252
reactions with carbon monoxide, nitrogen, and oxygen, formation of highly excited atoms in, 22:47820
reactions with carbon, cross sections for wide-angle bremsstrahlung production in, (E), 24:28475

reactions with carbon, differential cross sections for μ pair production in, (T), 22:34825 (AD-665851)
reactions with carbon, neon, nitrogen, and oxygen, K-shell ionization cross sections for, 21:41802
reactions with carbon, radiative corrections to symmetric pair production in, 22:26606
reactions with carbon-12 and -13 at 43 and 46 MeV with proton knockout, proton energy spectra and angular distributions from, (E), 25:3566 (SAL-14)
reactions with carbon-12 and oxygen-16, meson (π) production from, (T), 21:4017
reactions with carbon-12 at 1.150 GeV at 25 to 60°, Δ(1236) production in e + p interactions from cross sections for π production in, (E), 24:28470
reactions with carbon-12 at 100, 150, and 200 MeV, proton spectra and angular distributions from, (E), 24:38109
reactions with carbon-12 at 580 to 805 MeV, cross-section calculations for, (T), 25:25652
reactions with carbon-12 with nucleon knockout, cross-section calculations using Woods—Saxon potential, (T), 25:3714 (ITF-70-35)
reactions with carbon-12, cross section for disintegration, (E), 21:40378
reactions with carbon-12, optical-model calculations of cross sections for high-energy, (T), 25:38899
reactions with carbon-12, production of meson (π) in bound state from, 25:59355
reactions with cesium and helium atoms, cross sections for ionization in, (T), 25:58738
reactions with cesium at 3 to 68 eV, excitation cross sections for, (E), 23:5225
reactions with cesium atoms at 0.2 to 0.6 eV, cross sections for, 21:603(R) (NASA-CR-72076)
reactions with cesium atoms up to 2.0 eV, survey of probabilities for momentum transfer in, 24:17655 (N-69-38773)
reactions with cesium atoms, calculation from drift-velocity measurements of momentum-transfer cross sections for, 23:46258
reactions with cesium atoms, momentum transfer cross sections for, (T), 22:26238
reactions with cesium vapor up to 100 eV, cross sections for ionization in, (E), 22:50007
reactions with cesium, excitation of autoionizing states between 12 and 20 eV in, (E), 25:38150
reactions with cesium, potassium, and rubidium atoms, cross sections for, 21:9314
reactions with chlorine, ionization and attachment coefficient measurements, 21:11417
reactions with chlorine-35, production of meson (π) in bound state from, 25:59355
reactions with clean and oxygen-covered copper surfaces, energy distribution of secondary electrons from, (E/T), 22:22204(R) (ORO-2755-20)
reactions with complex atoms, irregularities in classical ionization cross sections for, (T), 24:32652
reactions with complex nuclei at 1.0 to 1.178 GeV, pion electroproduction mechanism in, (E/T), 25:52993
reactions with compounds and elements at 0.01 to 100 MeV, calculations of energy losses from ionization and bremsstrahlung emission in, 24:42501(T) (ORNL-tr-2331)
reactions with compounds and elements at 0.01 to 100 MeV, calculations of energy losses from ionization and bremsstrahlung emission in, 24:12626 (CEA-R-3942)
reactions with converter materials at 2.0 to 4.0 MeV, positron conversion yield differential in, 22:24760
reactions with copper (110) face, fine structure in energy angular distribution of secondary electrons from, (E), 22:34288
reactions with copper and nickel, characteristic energy losses in, (E/T), 22:22204(R) (ORO-2755-20)
reactions with copper and tin at 900 MeV, electromagnetic cascade showers from, (E), 22:24065
reactions with copper at 12 GeV, search for fractionally charged particles from, (E), 22:20116
reactions with copper at 12 to 30 keV, depth distribution of x rays produced in, (E), 25:58685
reactions with copper at 31.5 MeV, positron spectrum from trident production, (T), 22:22355
reactions with copper at 400 MeV, energy and angular distribution of photoproduced nucleons and mesons (π) from, 25:5255
reactions with copper at 5.8 MeV, cross sections for direct electron pair production in, (E), 25:3250
reactions with copper at 50 to 400 MeV, analytic representation of photopion, photoneutron, and photoproton differential yields from, 23:49073 (ORNL-4442)
reactions with copper at 50 to 400 MeV, intranuclear cascade model and electron—photon cascade calculations for nucleon and meson (π) production from, 23:49074 (ORNL-4443)
reactions with copper at 900 MeV, description of computer-controlled data acquisition system for studying electromagnetic showers from, 21:32526
reactions with copper surfaces, desorption of ions in, 21:46152
reactions with copper, lead, and aluminum at 6 GeV, longitudinal and radial development of electromagnetic cascades from, 25:1370
reactions with copper, silver, and gold thin films at 0.3 to 1.1 MeV, transition radiation and bremsstrahlung from, 25:45531
reactions with coronal iron ions, ionization cross section calculations for, 21:41750 (AD-644979)
reactions with crystalline solids, design modifications for 100—400-keV Van de Graaff accelerator for precise atomic displacement threshold energy determinations from, 22:39526
reactions with crystalline surfaces, surface-property studies using, 21:35220(R) (N-67-20254)
reactions with crystals, bremsstrahlung emission from, (T), 24:40224
reactions with crystals, classical treatment of directional effects in, 24:42790
reactions with crystals, lattice vibrations from, 22:34784
reactions with cyano group at low energies, excitation cross sections from, (T), 23:46280
reactions with cyanogen, rotational excitation by, (E), 25:40360
reactions with deuterated and normal ammonia at low energies, excitation and negative-ion formation in, (E), 23:16669
reactions with deuterium and deuterium hydride at low energies, rotational excitation in, (T), 24:32648
reactions with deuterium and helium, kinetic energy of autoionization in, 22:17385
reactions with deuterium and hydrogen at 0.05 to 6 keV, cross sections for production of excited hydrogen atoms in, (E), 23:12582
reactions with deuterium and hydrogen molecules at low energies, cross sections for rotational excitation in, (T), 25:22364
reactions with deuterium and hydrogen molecules at 10 to 500 eV, emission in extreme ultraviolet from autoionizing levels excited by, (E), 23:22923
reactions with deuterium and hydrogen molecules at 10 to 80 eV, cross sections for dissociative excitation in, (E), 23:12519(R) (GA-9062)
reactions with deuterium and hydrogen molecules at 11 to 14 eV, identification of vibrational states excited by, (E), 24:6365
reactions with deuterium and hydrogen molecules up to 300 eV, angular distribution of deuterons and protons from dissociative ionization in, (E), 24:51448
reactions with deuterium and hydrogen, velocity distribution of metastable atoms from, (E), 21:35005 (COO-1112-120)
reactions with deuterium hydride ions, angular distribution of deuterons or protons from dissociation in, (T), 25:43152
reactions with deuterium hydrides at 1.0 to 13.6 eV, effective cross sections for rotational excitation in, (T), 25:19502
reactions with deuterium molecules at 10 to 500 eV, cross sections for production of 2s atoms in, (E), 25:14045
reactions with deuterium molecules below 1.0 eV, exchange and polarization effects on cross sections for rotational excitation in, (T), 25:38163
reactions with deuterium near threshold energies, analysis using dispersive approach, (T), 24:3849
reactions with deuterium with quasi-elastic scattering, semi-relativistic calculations for, (T), 22:15941
reactions with deuterium, hydrogen, and deuterated and normal methane molecules at 12 to 16 eV, ionization efficiency curves for, (E), 23:32169
reactions with deuterium, hydrogen—deuterium, and hydrogen gases, negative ion production in, (E), 21:33199
reactions with diamond crystals at 4.8 GeV, production of coherent bremsstrahlung in, (E), 21:3970(R) (NP-16354)
reactions with diamond monocrystal at high energies, coherent bremsstrahlung from, (E), 24:35595
reactions with diamond single crystals, coherent bremsstrahlung from, 21:39793 (DESY-67/23)
reactions with diatomic ions, excitation of forbidden transitions by dissociative recombination in, review, 23:44172
reactions with diatomic molecular ions, rotational and vibrational excitation in, (T), 22:38735
reactions with diatomic molecules at intermediate energies, quantum mechanical model for vibrational excitation in, 24:35191
reactions with diatomic molecules at low energies, effects of molecular structure on bremsstrahlung cross sections for, (T), 24:51389
reactions with diatomic molecules of hydrogen, nitrogen, and oxygen; rotational transitions and excitation cross sections for, (E/T), 22:41293 (NP-17519)
reactions with diatomic molecules of nitrogen, dissociation cross sections for, (E/T), 22:41293 (NP-17519)
reactions with diatomic molecules, adiabatic theory of rotational excitation of non-Σ states in, 25:11725
reactions with diatomic molecules, calculation of static potential for, 24:32644
reactions with diatomic molecules, calculations using fixed-nuclei approximation for rotational excitation in, 23:44175
reactions with diatomic molecules, effect of overlapping energy levels on, (T), 23:5216
reactions with diatomic molecules, inelastic collision integral for, (T), 25:27459
reactions with diatomic molecules, model for vibrational excitation in, 25:9240
reactions with diatomic molecules, projection operators in theory of dissociative attachment in, 24:3195
reactions with diatomic molecules, resonant effects in light emitted by excited states from, (T), 25:24884
reactions with diatomic molecules, resonant effects on light emitted in, (T), 24:45027
reactions with diatomic molecules, selection rule for Σ^+—Σ^- transitions in, 25:58732
reactions with diatomic molecules, vibrational excitation cross sections for, (T), 21:18467
reactions with doubly ionized argon, krypton, and neon, excitation cross sections for, (T), 22:47834
reactions with dry air, attachment—detachment, (E), 21:11412
reactions with Duralumin and organic glass at 600 MeV, bremsstrahlung spectra from, 21:43793
reactions with electrons, Maxwellian energy distribution for weak, 22:39092
reactions with elements, calculation of single-ionization cross sections for, 21:18455
reactions with emulsion nuclei at 13.75 GeV, direct production of electron pairs, (E), 25:45640
reactions with enstatite achondrites at 2 MeV, thermoluminescence, 21:9266
reactions with ethane and methane, excitation in, (T), 25:24912
reactions with ethylene, cross section for momentum transfer in, (E), 22:15328 (ORNL-TM-1444)
reactions with ethylene, Ochkur—Rudge calculation of exchange excitation in, 23:27353 (CALT-532-39(Vol.1))
reactions with foods, criteria for limiting high energy, 22:8677
reactions with gallium and indium compounds with antimony, arsenic, and phosphorus at 55 keV, energy losses in, (E), 23:48706
reactions with gallium selenides, electroluminescence from, (E), 22:29561
reactions with gas atoms in high vacuum, pressure measurements using, 22:43023(P)
reactions with gaseous atoms, ionization cross sections for, (T), 22:34266
reactions with gaseous molecules, K—LL Auger spectra from, (E), 25:58736
reactions with gaseous nitrogen and oxygen at 1.5 MeV, optical radiation from, 23:18376 (JAERI-5018, pp 63-4)
reactions with gases and metal vapors at 250 to 2200 eV, energy dependence of single and double ionization in, (E), 22:17407
reactions with gases at 0 to 4 eV, mean fractional energy loss in, 24:39852 (ORNL-4446, pp 197-205)
reactions with gases at 1 to 10 keV, research program on energy deposition in, 24:35177(R) (GA-10135)
reactions with gases at 33 to 100 eV, impact spectra for, (E), 22:43881
reactions with gases at high temperatures, energy-loss factors for, (E), 24:37217 (N-70-15044)
reactions with gases below 2 eV, research program on, using time-of-flight method, 24:47015(R) (RPI-4144-1)
reactions with gases, energy transfer processes and specific primary ionization in, 23:817 (ANL-7360, pp 1-67)
reactions with gases, equipment for measurement of angular and energy distributions of products from, 23:12519(R) (GA-9062)
reactions with gases, limits of validity of continuous-slowing-down approximation for energy deposition in, 24:3184
reactions with gases, procedure for removing effects of beam energy distribution from measurements on, (T), 24:39820
reactions with gases, production of 2S hydrogen atoms in, (E), 23:22919
reactions with gases, specific ionization in, 24:28091 (ANL-7615, pp 214-18)
reactions with gases, total cross sections for threshold excitation and ionization, 24:23737
reactions with germanium, absorption spectra and photoconductivity after, 22:34754
reactions with germanium, secondary emission from, 25:58683 (FRNC-TH-49)
reactions with glass at 1 GeV, transition effect in electromagnetic cascade showers at glass—Plexiglas interface from, (E), 23:42535
reactions with gold at 300 keV, differential cross sections for bremsstrahlung production in, (E), 25:33398
reactions with gold at 50 to 500 keV, calculation of bremsstrahlung cross sections using relativistic self-consistent-field potential, 23:30344
reactions with gold films up to 60 keV, transition radiation from, (E), 21:24898
reactions with gold foil at 300 keV, study of bremsstrahlung production for, (E/T), 22:41352
reactions with gold, angular distribution of bremsstrahlung from 300-keV, (E), 22:45923(T) (NP-tr-1688)
reactions with gold, silver, and tin at 0.10 to 2.00 MeV, cross sections for K-shell ionization in, (E), 21:7012
reactions with gold—tungsten targets at 5.3 to 20.9 MeV, bremsstrahlung spectra from, 23:17792
reactions with gold—tungsten thick targets at 5.3 to 20.9 MeV, sodium iodide spectrometer measurements of bremsstrahlung spectra from, 23:16133 (EGG-1183-2179)
reactions with graphite, energy storage from, 21:14912
reactions with group IVb atoms, ionization cross sections for, (E/T), 22:11224
reactions with H^+ and Li^+, elastic scattering up to 3.0 Rydberg for, (T), 22:38724 (N-68-19386)
reactions with halocarbons, hydrocarbons, and rare gases at 70 eV, ionization cross sections for, (E), 24:51417
reactions with halogenated aliphatic and aromatic hydrocarbons, dissociative attachment in, 23:10432 (ORNL-4316, pp 161-229)
reactions with heavy nuclei, gamma spectra from, 25:15204
reactions with heavy nuclei, Monte Carlo calculations for, 21:3631 (AERE-R-5172)
reactions with heavy nuclei, rho + N → rho + N amplitudes and rho photoproduction from Drell—Trefil theory extension for coherent rho^0 production in, (T), 25:5336
reactions with heavy water and water at 10 to 30 eV, metastable fragments formed by dissociation in, (E), 25:40390
reactions with heavy water and water, cross sections for negative-ion formation in, (E), 21:16825
reactions with helium and hydrogen atoms, impulse-approximation calculation of differential cross sections for ionization in, 24:45018
reactions with helium and hydrogen atoms, review, (E/T), 24:19749
reactions with helium and hydrogen molecules at low energies, calculation of excitation cross sections for, 23:1215
reactions with helium and hydrogen molecules, angular dependence of differential cross sections for excitation of singlet—triplet transitions in, (T), 24:47034
reactions with helium and hydrogen, energy distribution of electrons from ionization in, (E/T), 24:19749

reactions with helium and mercury at 5 to 30 eV, polarization of radiation emitted in, (E), 24:12637
reactions with helium and mercury up to 30 eV, polarization of spectral lines excited by, (E), 25:984 (NP-18463)
reactions with helium and nitrogen molecules, calculation of discrete energy deposition in, 24:3184
reactions with helium at 0 to 250 eV, multiple ionization and 1S—2S transition in, (E), 22:29232
reactions with helium at 0.008 to 6 eV, cross sections for momentum transfer in, (E), 25:22363
reactions with helium at 0.05 to 6 keV, cross sections for excitation in, (E/T), 22:29252
reactions with helium at 0.05 to 6 keV, cross sections for excitation and polarization of radiation from, (E), 23:36519
reactions with helium at 100 to 2000 eV, angular and energy distributions of electrons from ionization in, (E), 25:55847
reactions with helium at 100 to 400 eV, excitation cross sections for, (T), 22:9062
reactions with helium at 120 to 160 eV, excitation cross sections of levels from, (E/T), 22:21875
reactions with helium at 18 to 100 eV, zero-angle excitation functions for, (E), 25:984 (NP-18463)
reactions with helium at 20 to 2000 eV, cross sections for excitation and polarization of light emitted from, (E), 25:52657
reactions with helium at 25 eV to 2.5 keV, Fano factor and mean energy for ionization in, (T), 23:22925
reactions with helium at 25 to 135 eV with, excitation of metastable states in, (E), 21:9337
reactions with helium at 25 to 260 eV, angular distributions and energy losses of electrons from ionization in, (E), 25:40389
reactions with helium at 26 to 81.6 eV, differential and integral cross sections for excitations of 2^1P state in, (E/T), 24:21576
reactions with helium at 26 to 81.6 eV, differential and integral cross sections for excitation of 2^1S state in, (E/T), 25:52630 (SC-RR-710474)
reactions with helium at 28 to 57 eV, angular and energy dependence of cross sections for forbidden transitions in, (E), 22:17397
reactions with helium at 30 to 1000 eV, absolute cross sections for excitation of n^1P levels in, (E), 24:39866
reactions with helium at 30 to 50 eV, angular distributions and probabilities for allowed and forbidden transitions in, 25:35882
reactions with helium at 35 to 150 eV, angular and energy dependence of generalized oscillator strengths for 1^1S—2^1S transition in, (E), 25:4959
reactions with helium at 35 to 150 eV, generalized oscillator strengths for 1^1S—n^1P transitions in, (T), 24:47018
reactions with helium at 38, 50, and 100 eV, excitation of $3^{1,3}D$ and $4^{1,3}F$ levels in, (E), 23:20704
reactions with helium at 40 to 150 eV, differential cross sections for 1^1S—2^1P transition in, (E), 24:45023
reactions with helium at 50 and 114 eV, angular correlation of electrons scattered and ejected in ionizing, (E/T), 23:10458
reactions with helium at 50 to 400 eV, differential cross sections for excitation of 2^1P and 2^1S states in, (E), 25:9222
reactions with helium at 50 to 600 eV, cross sections and pressure dependence of exchange excitation of 4^3S, 3^3P, and 3^3D levels in, (E), 25:30285
reactions with helium at 500 eV, excitation of lowest singlet S and singlet P states in, (T), 25:9217
reactions with helium at 55 to 62 eV, resonance excitation of 4^3S and 3^3P levels in, (E), 24:39865
reactions with helium at 55 to 62 eV, resonances in excitation in, (E), 25:24914
reactions with helium at 55.5 eV, Born—Oppenheimer calculations of differential cross sections for excitation in, 25:995
reactions with helium at 65 to 250 eV, energy spectra of electrons ejected from autoionization states excited by, (E), 24:12644
reactions with helium at E less than or equal to 20 keV, effective excitation and ionization cross sections for, (T), 24:48994
reactions with helium at high energies, Born-approximation calculation of cross sections for ionization in, 24:4998
reactions with helium at high energies, generalized oscillator strengths and Born cross sections for excitation in, (T), 24:51421
reactions with helium at low energy, momentum-transfer cross sections for, (E), 21:39809
reactions with helium atoms and lithium ions up to 9 keV, Born cross sections for ionization in, 24:23791
reactions with helium atoms, exchange contribution to double ionization in, (T), 22:31630
reactions with helium atoms, excitation cross sections for, (T), 22:29247
reactions with helium atoms, level-crossing method for structure study by, 22:41327
reactions with helium atoms, polarization of radiations from, (E), 22:24034
reactions with helium below 2.5 keV, calculations concerning ionization cascades in, 23:48729(T) (ANL-Trans-774)
reactions with helium gas atoms, influence of asymmetric angular scattering on elastic, (T), 21:11415
reactions with helium gas, cross sections for excitation processes in, (E), 22:45930
reactions with helium gas, liquid, and solid at 4.2 and 20°K, scattering and thermalization in, 25:24848
reactions with helium gases, thermal metastable atom production in, (E), 22:34254
reactions with helium in discharges, effective cross sections for excitation from 2^1S state in, (E), 23:41980
reactions with helium in eV range, absolute cross sections for production of He I 4713-A and He II 4686-A emissions in, (E), 25:11702
reactions with helium in eV range, bound-state effects on differential cross sections for excitation from ground to 2^3S state in, (T), 24:23788
reactions with helium in eV range, cross sections for elastic scattering, excitation, and ionization in, (E/T), 23:51388 (NP-18037)
reactions with helium ions (He_2^+) in high-pressure plasma, electron-density dependence of recombination-rate coefficient for, (E), 24:45052
reactions with helium ions (He^+) and hydrogen atoms, review of elastic scattering, excitation, and ionization in, (E/T), 24:21574
reactions with helium ions (He^+), binary collision approximation for excitation and ionization in, 22:41292 (N-68-22388)
reactions with helium ions (He^+), excitation by, (T), 23:12567
reactions with helium ions (He^+), resonance effect in fluorescent light from 4^3S/sub 1/2/ and 4^3P/sub 1/2/ levels excited by, (E), 23:22904
reactions with helium ions at 54.4 eV to 10 keV, comparison of measurements with Bethe and Born approximations for ionization cross sections for, 24:23792
reactions with helium ions, Coulomb—Born—Oppenheimer calculations of cross sections for transitions between 1s, 2s, and 2p states in, 24:26012
reactions with helium ions, experimental method for study of excitation to 2P state in, 25:14042
reactions with helium ions, review, (E/T), 24:19749
reactions with helium liquid at 160 keV, spectroscopic identification of excited and metastable states of atoms and molecules from, 24:3148
reactions with helium metastable 2s atoms, absolute cross sections for ionization in, (E), 24:17690
reactions with helium up to 2 keV, polarization-free vacuum-ultraviolet excitation cross sections for, (E), 25:35857
reactions with helium up to 35 eV, crossed-beam measurements of excitation and ionization in, 23:36514
reactions with helium up to 75 eV, mechanism of formation of diatomic helium ion (He_2^+) in, (E), 23:46282
reactions with helium, accurate first Born approximation cross sections for excitation by, (T), 23:12568
reactions with helium, angular dependence of 2^3S excitation for high-energy, 22:38795
reactions with helium, Born and multistate impact-parameter calculations of cross sections for $2\ ^1S$ and $2\ ^1P$ excitation in, 24:23785
reactions with helium, Born cross sections for impact excitation of $2\ ^1S$ and $3\ ^1S$ states in, 22:31652
reactions with helium, Born—Oppenheimer approximation for excitation to metastable states in, 25:55843
reactions with helium, calculation of absolute-zero-angle cross sections for excitation in, 21:29015
reactions with helium, calculation of cross sections for simultaneous excitation and ionization in, 24:17659
reactions with helium, calculation of differential cross sections for 1^1S to 2^1S transition in, 22:43880
reactions with helium, calculation of first Born approximation cross sections for excitation in, 23:5240
reactions with helium, calculations for excitation of helium 2^1P level by, 21:2031
reactions with helium, Coulomb-wave explanation of threshold behavior of ionization coefficient for, 24:21599
reactions with helium, cross section for ionization in double, (T), 21:27000
reactions with helium, cross sections for excitation to 2^1P state during, (T), 22:36738
reactions with helium, cross sections for excitation of He^+ lambda 4686-A and He lambda 4713-A lines by, (E), 21:37109
reactions with helium, cross sections for excitation of 4F states by, 22:7168
reactions with helium, cross sections for excitation to n ^1P and n ^1D state during, (T), 22:36739
reactions with helium, double ionization in, (T), 22:14513 (BNL-50057, pp 60-78)
reactions with helium, drift velocity and elastic collision cross section measurements for, 23:817 (ANL-7360, pp 1-67)
reactions with helium, eikonal approximation for excitation of 2^1P state in, 25:55874
reactions with helium, electron exchange in n ^1P and n ^1D excitation for, 22:36720
reactions with helium, energy level excitation by, (E/T), 21:20759
reactions with helium, energy-loss spectrum for, (E), 22:5096
reactions with helium, excitation cross sections for, (E), 22:15370
reactions with helium, excitation cross sections for, 22:5083
reactions with helium, excitation cross sections for, (T), 25:16804
reactions with helium, excitation from ground singlet state by, (T), 22:7155
reactions with helium, excitation processes in, (T), 21:37159
reactions with helium, excitation spectrum for, (E), 24:37221
reactions with helium, excitation to 4S states from, (E), 21:31240
reactions with helium, generalized oscillator strengths and cross sections for, (T), 23:41964
reactions with helium, hydrogen, nitrogen, and oxygen molecules, total ionization cross sections for, (T), 24:45038
reactions with helium, impact cross sections for, (E/T), 21:37113
reactions with helium, ionization and excitation in, (T), 21:20762
reactions with helium, ionization cross sections from, (T), 22:7137
reactions with helium, ionization—excitation cross sections for, 21:37154
reactions with helium, line shapes of He^- states and autoionizing states in ionization curve for, (E), 25:43139
reactions with helium, lithium, nitrogen, and oxygen, ionization cross sections for, (T), 22:17363
reactions with helium, neon, argon, and acetylene at 100 to 2000 eV, ionization cross sections for, 21:46141
reactions with helium, Ochkur approximation for excitation of 1^1S state to 2^1S state by, 21:43759
reactions with helium, polarization of 4922 A optical radiation from, (E), 21:22983
reactions with helium, polarization of radiations from, (T), 22:24057
reactions with helium, polarized optical radiation near threshold from, 22:41323
reactions with helium, rates of formation of metastable helium atoms in, (E), 24:47025
reactions with helium, relativistic effects on excitation of triplet states in, 22:5074
reactions with helium, threshold structure in excitation functions for, (T), 21:11418
reactions with helium, total cross section for excitation of $(2p^2)^3P$ state near threshold in, (E), 25:7181
reactions with helium, trapped-electron study of resonances in excitation in, 25:55851
reactions with helium-3 and tritons, effects of exchange currents on polarization of nucleons emitted in disentegration, (T), 25:36664
reactions with helium-4, calculation of disintegration cross section using translationally invariant particle-hole model, (T), 25:5530
reactions with helium-4, impulse approximation and broken SU(3) for A-H^4 production in, 22:24622
reactions with helium-ion and hydrogen 2P states, cross sections for, (T), 24:49025
reactions with hexafluoride molecules at 0 to 10 eV, mechanisms of negative-ion formation in, 24:47032
reactions with high-Z nuclear Coulomb fields, ω, phi, and rho production from, (T), 21:2409
reactions with high-Z thick targets, analytical expressions for bremsstrahlung spectra from, 23:41912 (SC-TM-67-2900)
reactions with highly charged positive ions, ionization rates for, (T), 24:37215 (AD-690070)
reactions with highly ionized atoms, Coulomb—Born calculation of total cross sections for excitation in, 25:7170
reactions with highly ionized atoms, excitation cross sections for, (T), 25:47333
reactions with highly ionized complex atoms, collision strengths for excitation in, (T), 25:47342
reactions with highly ionized ions, calculation of total cross sections for excitation in using Coulomb—Born approximation, 24:30157 (UCRL-19712)
reactions with hydrocarbons at 0.010 to 0.063 eV, cross sections for momentum transfer in, (E), 21:18449
reactions with hydrogen and nitrogen molecules up to 360 eV, semiclassical calculation of cross sections for excitation and ionization in, 23:18384
reactions with hydrogen and oxygen molecules up to 350 eV, cross sections for vacuum ultraviolet emission from dissociative excitation in, (E), 25:58728
reactions with hydrogen and rare gases, cross sections and macroscopic coefficients for, 23:41965
reactions with hydrogen at 250 to 2200 eV, ionization cross sections for, (E), 22:26239
reactions with hydrogen at high energies, correspondence between classical and quantum cross sections for ionization in, (T), 21:33157
reactions with hydrogen atoms and molecules, polarization of Lyman-α radiation from, (E), 24:17657 (N-70-10707)
reactions with hydrogen atoms and molecules, polarization of Lyman-α radiation from, (E), 24:23802
reactions with hydrogen atoms at 0.5, 10, and 34 keV, ionization cross sections for, (T), 23:41951
reactions with hydrogen atoms at 1 to 50 rydbergs, distorted-wave calculations of angular distributions from elastic exchange scattering in, 25:22372
reactions with hydrogen atoms at 10 to 400 eV, Glauber-approximation calculations of differential and total cross sections for 1s—3d excitation in, 25:35859
reactions with hydrogen atoms at 10 to 700 eV, polarization of Lyman—α radiation from, (E), 23:41950
reactions with hydrogen atoms at 10.2 to 50 eV, resonances in cross section for excitation to 2p state in, (E), 23:16672
reactions with hydrogen atoms at 100 to 450 eV, Balmer optical excitation cross sections for, (E), 25:43137
reactions with hydrogen atoms at 12.6 to 680.3 eV, distorted-wave calculations of excitation of 2s state and angular distribution of scattered electrons from, 25:11714
reactions with hydrogen atoms at 40 to 200 eV, Glauber approximation calculations of cross sections for 1s—2s excitation in, 24:35205
reactions with hydrogen atoms at high energies, ionization cross sections for, (T), 23:8456
reactions with hydrogen atoms at low energies, multichannel quasi-particle treatment of, 23:48735
reactions with hydrogen atoms at low energies, use of free-fall atomic model in three-body calculations of ionization cross sections for, 25:55836 (INR-P-1327)
reactions with hydrogen atoms at zero energy, asymptotic form of wave function for ionization in, 23:27369
reactions with hydrogen atoms up to 1000 eV, cross sections for excitation of 2S metastable state in, (E), 24:17656 (N-70-10626)
reactions with hydrogen atoms up to 1000 eV, cross sections for excitation to 2^2S/sub 1/2/ state in, (E), 24:23803

reactions with hydrogen atoms up to 1000 eV, cross sections for excitation to metastable 2^2S/sub 1/2/ state in, (E), 24:47027
reactions with hydrogen atoms up to 54.4 eV, cross sections for excitation of 2s and 2p states in, (T), 25: 9208
reactions with hydrogen atoms, application of simplified second Born approximation to excitation in, 22:24048
reactions with hydrogen atoms, asymptotic form of total wave function for excitation in, 23:14615
reactions with hydrogen atoms, Born cross section for n-n' transition in, (T), 24:35195
reactions with hydrogen atoms, calculation by Glauber approximation of cross sections for 1s - 2p excitation in, 24:35183
reactions with hydrogen atoms, calculation by various approximation methods of differential ionization cross sections for, 24:1295
reactions with hydrogen atoms, calculation of ionization cross sections for, 22:45933
reactions with hydrogen atoms, calculation of phase shift and resonances for, using separate treatment of open and closed channels, 25:9220
reactions with hydrogen atoms, classical cross sections for ionization of degenerate states of excited states in, 22:43865
reactions with hydrogen atoms, complex-energy calculation of ionization amplitudes for, 25:43145
reactions with hydrogen atoms, cross sections for excitation and ionization in, (T), 25:24885
reactions with hydrogen atoms, differential and integral cross sections for excitation of 2^2S state in, (T), 23: 34274 (CALT-767-P-4-45)
reactions with hydrogen atoms, distorted-wave calculations of differential cross sections for 1s—2s excitation in, 24:39872
reactions with hydrogen atoms, effects of peak approximation on calculation of cross sections for excitation and ionization in, 25:24916
reactions with hydrogen atoms, eikonal approximation for excitation of 2p and 2s states in, 25:55874
reactions with hydrogen atoms, exchange and nonexchange cross sections for ionization in, (T), 23: 18382
reactions with hydrogen atoms, excitation in, (T), 24: 51427
reactions with hydrogen atoms, Faddeev equations with local potentials in, 22:37162 (UCSD-10-P-10-36)
reactions with hydrogen atoms, Glauber amplitudes for excitation of ns and np levels in, (T), 25:58766
reactions with hydrogen atoms, Glauber and Vainshtein approximations for total cross sections for 1s—2p excitation in, 25:55850
reactions with hydrogen atoms, Glauber theory of excitation to 2s, 2p, 3s, and 3p levels in, 24:28095
reactions with hydrogen atoms, Glauber-theory calculations of excitation cross sections for, 25:35878
reactions with hydrogen atoms, impact ionization to 2S state, (E), 22:17384
reactions with hydrogen atoms, Ochkur-approximation calculation of cross sections for excitation of 3s, 3p, and 3d states in, 23:48747
reactions with hydrogen atoms, origin of wave functions for calculating cross sections for, 25:19494
reactions with hydrogen atoms, perturbation-theory calculations of 1s—2s excitation in, 25:55877
reactions with hydrogen atoms, polarized-orbital calculations of cross sections for excitation to 2s and 2p states in, 24:23790
reactions with hydrogen atoms, prior and post approximations in calculation of excitation cross sections for, 25:52676
reactions with hydrogen atoms, pseudostate calculation of excitation of 2s and 2p states near threshold in, 24: 45037
reactions with hydrogen atoms, resonances in cross sections for excitation (1s—2s) in, (E), 25:33081
reactions with hydrogen atoms, semi-empirical cross sections and rates for excitation and ionization in, 25: 9184
reactions with hydrogen atoms, semiclassical calculation of total cross sections for 1s—2s excitation in, 24: 51429
reactions with hydrogen atoms, simplified second Born approximation to total cross sections for excitation in, 24:5002
reactions with hydrogen atoms, symmetrized impact-parameter calculation of cross sections for excitation in, 24:51428
reactions with hydrogen atoms, two-electron wave functions for treatment of excitation in, 24:23782
reactions with hydrogen excited atoms at high energies, Born-approximation calculations of ejected-electron energies and ionization cross sections for, 23:27357 (N-69-18056)
reactions with hydrogen excited atoms, Born cross sections and rate constants for transitions in, 24:21597
reactions with hydrogen excited atoms, relation of principal quantum number to ionization cross section for, (T), 23:22930
reactions with hydrogen fluoride, nitrogen, and water, bound-state calculation of resonance energies associated with dissociative electron attachment in, 24: 35185
reactions with hydrogen ions (H_2^+) asymptotic-closure calculations of cross section for 1ssigma/sub g/—2psigma/sub u/ excitation in, 23:32182
reactions with hydrogen ions (H_2^+), classical calculation of cross sections for dissociation and ionization in, 24: 26002
reactions with hydrogen ions (H_2^+), cross sections for dissociative recombination in, (T), 25:52645
reactions with hydrogen ions (H_2^+), range of vaidity of adiabatic approximation for rotational excitation cross sections for, (T), 24:35211
reactions with hydrogen ions (H_2^+), review of colliding-beam studies of proton formation in, 24:21589
reactions with hydrogen ions (H^-) at 12 to 1000 eV, cross sections for electron detachment in, (E), 25:1003
reactions with hydrogen ions (H^-) at 14.4 to 850 eV, cross sections for proton formation in, (E), 25:22374
reactions with hydrogen ions (H^-), cross sections for electron detachment by, (T), 23:46273
reactions with hydrogen ions (H^-), partial-wave treatment of electron detachment in, 23:18381
reactions with hydrogen ions, application to problems in astrophysics of, 22:38808
reactions with hydrogen ions(H^-), inclined-beam measurements of electron detachment in, 25:24898
reactions with hydrogen molecular ion H_3^+ and helium hydride ion HeH^+, vibrational excitation cross sections for, (T), 22:38735
reactions with hydrogen molecules at 1 to 912 eV, quantum mechanical calculations of cross sections for vibrational excitation in, 24:35191
reactions with hydrogen molecules at 10 eV, differential cross sections for vibrational excitation in, (T), 23: 34275 (CALT-767-P-4-46)
reactions with hydrogen molecules at 10 to 16 eV, formation and decay of H_3^- resonances in, (E), 24: 37256
reactions with hydrogen molecules at 100 eV, cross section for Lyman-α emission in, (E), 25:58729
reactions with hydrogen molecules at 11 to 13.5 eV, trapped-electron measurements of resonances in excitation from, (E), 24:15156
reactions with hydrogen molecules at 11 to 16 eV, temporary formation of H_3^- in, (E), 25:49749
reactions with hydrogen molecules at 12 to 200 eV, polarization of ultravilolet radiation from, (E), 23: 41950
reactions with hydrogen molecules at 20 to 400 eV, absolute cross sections for production of n = 3 and 4 atomic states in, (E), 24:26019
reactions with hydrogen molecules at 20 to 400 eV, absolute cross sections for production of Balmer lines in, (E), 25:11702
reactions with hydrogen molecules at 7 to 81.6 eV, differential and integral cross sections for vibrational excitation in, (E/T), 24:35189
reactions with hydrogen molecules at gas temperatures of 300 to 1300°K, cross sections for dissociative electron attachment in, (E), 25:43155
reactions with hydrogen molecules below 10 eV, exchange and polarization effects on cross sections for rotational excitation in, (T), 23:32185
reactions with hydrogen molecules in eV range, cross sections for excitation of n = 2 singlet states in, (T), 23:27370
reactions with hydrogen molecules up to 10 eV, differential and integral cross sections for vibrational and rotational—vibrational excitation in, (T), 24:51443
reactions with hydrogen molecules up to 85 eV, angular dependence of excitation cross sections for, (E/T), 23: 12531
reactions with hydrogen molecules, calculation by close-coupling approximation of differential elastic and rotational-excitation cross sections for, 23:41957
reactions with hydrogen molecules, calculation of cross sections for vibrational excitation in, 24:17659
reactions with hydrogen molecules, comparison of experiment with Gerjuoy-Stein theory for rotational excitation near threshold in, 24:51437
reactions with hydrogen molecules, cross sections for excitation of parity-forbidden transitions in, (T), 25: 52661
reactions with hydrogen molecules, cross sections for vibrational excitation in, (E), 24:51439
reactions with hydrogen molecules, differential and integrated cross sections for rotational excitation in, (T), 24:12651
reactions with hydrogen molecules, effects of vibrational level on kinetic-energy distribution of protons from, (T) , 25:55857
reactions with hydrogen molecules, excitation cross sections for, (T), 21:7020
reactions with hydrogen molecules, final states from dissociative excitation in, (E), 25:49747
reactions with hydrogen molecules, magnetic resonance of energy levels excited by, (E), 23:48721
reactions with hydrogen molecules, polarization potential in two-center coordinates for, (T), 24:3180
reactions with hydrogen molecules, velocity distribution of metastable H atoms from dissociative excitation in, (E), 25:35864
reactions with hydrogen molecules, zero-range potential approximation for excitation of triplet state in, 25: 16827
reactions with hydrogen up to 100 eV, cross sections for singlet—triplet excitation and molecule dissociation in, 21:28985
reactions with hydrogen, adiabatic approximation and conditions for bound states for, 22:52493
reactions with hydrogen, behavior of ionization cross section in high-energy, 23:1158 (N-68-29879)
reactions with hydrogen, Born-exchange and Vainshtein approximation treatments of impact ionization cross sections for, 23:1184
reactions with hydrogen, calculation using coupled integral equations, 22:29185
reactions with hydrogen, cross section for $2l_0$ - 3l transition in, (T), 22:29183
reactions with hydrogen, cross sections for inelastic, (T), 22:36903
reactions with hydrogen, cross sections, excitation function, and polarization from, (E), 22:41324
reactions with hydrogen, elastic P-wave scattering phase shifts calculation for, 22:38790
reactions with hydrogen, exchange amplitudes for excitation in, (T), 22:24033
reactions with hydrogen, excitation cross sections for 1s—2p level, (T), 22:50024
reactions with hydrogen, excitation cross sections and polarization of Hα line from, (E), 22:17419
reactions with hydrogen, excitation cross sections for n = 2 states from, (T), 22:17373
reactions with hydrogen, excitation cross sections for, (T) , 22:9019
reactions with hydrogen, excitation resonances near threshold of 2p level, (E), 22:50023
reactions with hydrogen, ionization cross sections for, (T) , 21:24938
reactions with hydrogen, Monte Carlo calculation of ionization cross sections for, 23:8440
reactions with hydrogen, optical-potential calculation for singlet, 22:38786
reactions with hydrogen, polarization of Lyman-alpha radiation produced in, 22:7152
reactions with hydrogen, polarized electron source based on elastic spin-exchange, 24:38006
reactions with hydrogen, Stark broadening of Lyman-α by, (T), 25:24876
reactions with hydrogen, variational principles for three-body, 23:32857
reactions with hydrogen-containing molecules in eV range, cross sections for Lyman-α emission from dissociative excitation in, (E), 23:48744
reactions with hydrogen-like ions, Coulomb—Born calculation of excitation cross sections near threshold for, 25:24881
reactions with hydrogenic atoms and ions, analytical expressions for approximate cross sections for excitation, ionization, and recombination in, 25:19489 (NP-18680)
reactions with inert gases and carbon monoxide, total ionization cross sections for, 21:11413
reactions with inorganic and organic compounds during radiolysis in aqueous solutions, rate constants for, 21: 32200
reactions with insulators and metals, secondary electron emission from, 21:20766
reactions with iodine molecules in eV range, temperature dependence of dissociative electron attachment in, (E), 24:8351
reactions with ions in ionosphere, electromagnetic, (T), 22:9213
reactions with ions in plasma in electric fields, model for, 21:2225 (MATT-441)
reactions with ions of $3p^3$ configuration, cross sections for excitation of metastable levels in, (T), 21:18431
reactions with ions, calculation of ionization cross sections for, 23:41952
reactions with ions, cross sections for excitation of ^3P levels in, (T), 23:14523
reactions with ions, crossed-beam technique for measurement of emission cross sections for excitation of electric dipole transitions in, 22:19738(R) (ORO-3027-12)
reactions with ions, effects on spectra from, (T), 23: 10634
reactions with ions, experimental techniques for, 21: 9332
reactions with ions, formulas for excitation and ionization cross sections for, 25:2914
reactions with ions, ionization in, (T), 23:16631 (N-68-32562)
reactions with ions, research program on excitation and ionization in, 24:37220(R) (ORO-3027-16)
reactions with ions, review of dielectronic recombination and competing processes in, 24:19527
reactions with ions, review of dissociative recombination in, (E/T), 25:11729
reactions with ions, review of experimental methods for study of, 24:21589
reactions with ions, review of merging-beams experiments on, 24:25949
reactions with iron at 1 GeV, transition effect in electromagnetic cascade showers at iron—Plexiglas interface from, (E), 23:42535
reactions with iron at 1.5, 3, and 5 GeV, photofission in, (E), 22:35292 (ORNL-4217, pp 1-81)
reactions with iron at 3 GeV, radioisotope production cross sections for, (E), 21:33872(R) (ORNL-4122)
reactions with iron at 40 MeV to 16 GeV in thin targets, yields for, (E), 25:45963
reactions with iron at 40 MeV to 16 GeV, radioisotope production in, (E), 24:52566(R) (ORNL-4534)
reactions with iron in highly evolved stars, (T), 24: 46879
reactions with iron XVII, excitation from, (T), 22:11229
reactions with iron-56 and manganese, x-ray emission from, 21:16827
reactions with iron-56 at 150 GeV, self-coupling of weak lepton currents in anti $\tau + \tau$ pair production in, (T), 25:43612
reactions with Krebs cycle esters, use of LKB combination mass spectrometer-gas chromatograph to study thermal, 23:41231(R) (TID-25162)
reactions with krypton and xenon at 2 to 14 keV, cross sections for multiple ionization in, (E), 24:51424
reactions with krypton and xenon up to 150 eV, ionization cross sections for, (E), 25:14002
reactions with krypton at 40 to 140 eV, excitation functions of spectral lines of Kr II in, (E), 25:14040
reactions with krypton ions at 25 to 430 eV, ionization cross sections for, (E), 23:12591
reactions with krypton, autoionizing states produced by, (E), 25:43154
reactions with lamellar media at 600 MeV, x-ray intensity from, 21:26986
reactions with lead and tantalum absorbers, parity conservation from circular polarization of bremsstrahlung production in, (E), 24:51891
reactions with lead at 1 and 5 GeV, transition effect in electromagnetic cascade showers at lead—Plexiglas interface from, (E), 23:42535
reactions with lead at 100 to 400 MeV, angular distributions and ranges from, (E), 25:36788

reactions with lead at 100 to 550 MeV, ionization calorimeter study of transitional effects at lead—copper boundary in electromagnetic cascades from, (E), 25: 1378
reactions with lead at 115 and 217 MeV, cascade shower production in, 23:10736
reactions with lead at 115 and 217 MeV, scintillation counter study of electron—photon showers in, (E), 22: 46310 (JINR-P1-3976)
reactions with lead at 115 and 217 MeV, scintillation detector study of electron—photon showers in, 23: 11759(T) (ORNL-tr-2069)
reactions with lead at 200 and 900 MeV, electromagnetic cascade showers from, (E), 22:24065
reactions with lead at 200 MeV, efficiency of multilayer spark chambers for detection of cascade showers from, 23:16101
reactions with lead at 200 to 440 MeV, cascade showers from, 21:43233
reactions with lead at 3 GeV, Monte Carlo calculations for electron—positron cascades from, 23:51881(T) (ORNL-tr-1908)
reactions with lead at 45 to 330 MeV, fluctuations in showers produced in, 21:11680
reactions with lead at 50 to 350 MeV, cascade curves and angular distributions of secondary electrons in, (E), 21:2353
reactions with lead at 6 GeV, electromagnetic cascades from, (T), 23:5445(T) (ORNL-tr-1923)
reactions with lead at 7.5 to 400 eV, cross sections for single and multiple ionization in, (E), 24:21602
reactions with lead titanate zirconate piezoelectric disks at 1 GeV, mechanical vibrations from, 23:35516
reactions with light atoms, calculation of excitation cross sections for, using Slater wave functions and Born and Bethe approximations, 24:49020
reactions with light nuclei at high energy, scattering solutions of Dirac equations for, (T), 22:9979
reactions with light nuclei with quasielastic scattering, structure research using knockout, (T), 23:10985
reactions with light nuclei, analysis of knockout in, (T), 25:3714 (ITF-70-35)
reactions with liquid helium at 160 keV, optical and infrared emission spectra from, (E), 25:13973
reactions with lithium and sodium up to 5 eV, polarization of resonance lines from excitation in, (T), 24:35181
reactions with lithium and sodium, polarization of resonance lines excited by, (E), 21:9325
reactions with lithium and sodium, relation to excitation by polarized light, (E), 21:9315
reactions with lithium atoms up to 54.4 eV, close-coupling calculations of cross sections for elastic scattering, excitation, and spin polarization in, 23: 41970
reactions with lithium atoms, calculation of total cross section for ionization, 24:35157
reactions with lithium atoms, polarization of resonance lines excited by, (T), 25:24897
reactions with lithium ions (Li^+) and magnesium ions (Mg^+), Coulomb—Born calculations of cross sections for single ionization in, 24:17673
reactions with lithium ions at 3 to 25 keV, comparison of measurements with Bethe and Born approximations for ionization cross sections for, 24:23792
reactions with lithium ions, cross sections for ionization by, 22:52483
reactions with lithium ions, radiative recombination into first excited state in, (E), 25:24880
reactions with lithium up to 60 eV, Born-approximation calculations of excitation cross sections for, 25:55864
reactions with lithium, cross sections for 2s—2p excitation in, (T), 25:38147
reactions with lithium, excitation cross sections for ground-state levels by slow, 21:40080
reactions with lithium, potassium, and sodium ions, semiclassical calculation of cross sections for double ionization in, 25:52663
reactions with lithium, potassium, and sodium up to 40 eV, classical calculation of ionization cross sections for, 24:23787
reactions with lithium-6 and -7, charged-particle spectra from, (E), 25:1714
reactions with lithium-6 and lithium-7 at 140 MeV, cross sections for, (E), 22:50547
reactions with lithium-6 and lithium-7 at 64 to 128 MeV, cross sections and spectra for, (E), 22:15954 (SAL-8)
reactions with lithium-6, lithium-7, and sodium-23, polarization of resonance lines excited by, (T), 21: 33138
reactions with lithium-like ions, excitation cross sections for, 21:11398
reactions with low-pressure gases, emission spectra from, (E), 22:941 (N-67-22260)
reactions with luminescence centers in polyethylene to produce thermoluminescence, 24:25814
reactions with machine parts of NINA electron synchrotron, radioactivity induced by, 23:52067
reactions with magnesium at low energies, cross sections for excitation in, (T), 24:45017
reactions with magnesium atoms, relative excitation functions for, (E), 25:38061
reactions with magnesium ions Mg^+ from threshold to 2000 eV, cross sections for ionization to Mg^{2+} in, (E), 22:43866
reactions with magnesium oxide single crystals, energy-loss spectra as function of beam incidence angle and crystal thickness for, (E), 23:48709
reactions with magnesium up to 1130 eV, crossed-beam measurements of total cross sections for ionization in, 24:35210
reactions with matter at 5 keV to 1 MeV, screened potentials in calculation of bremsstrahlung and pair production cross sections for, 25:24909
reactions with matter at 50 to 1200 keV, electron path in, (T), 23:32129
reactions with matter at 6 GeV, measurement of electromagnetic and nuclear cascades from, 22:39147
reactions with matter below 1 keV, classical calculation of excitation, ionization, ranges, and stopping powers in, 25:22581
reactions with matter, effective density of, 22:52489
reactions with matter, radiations from, 23:3249 (ISS-68/23)
reactions with matter, secondary neutron yield from, (T), 25:7131
reactions with matter, slowing down spectra for, (T), 23: 10432 (ORNL-4316, pp 161-229)
reactions with mercury and neon, paramagnetic rf resonance of metastable from, 22:41326
reactions with mercury at 25 to 180 eV, angular dependence of electron spin polarization with excitation in, (E), 24:35197
reactions with mercury at 50 eV, angular correlation of photons emitted by excited atoms from, (E), 25:9206
reactions with mercury atoms at 25 to 180 eV, differential cross sections and angular dependence of spin polarization in, (E), 25:14039
reactions with mercury atoms at 4 to 15 eV, cross sections for production of metastable states in, (E), 23: 20710
reactions with mercury atoms at low energies, polarization of light from, (E), 23:39294
reactions with mercury atoms, production of polarized Hg^+ by stepwise excitation and ionization in, (E), 23: 39334
reactions with mercury ion beams, neutralization of space charge by thermionic, 22:41301
reactions with mercury up to 80 eV, excitation cross sections for, 21:28976
reactions with mercury vapor at 50 to 300 eV, oscillator strengths and relative cross sections for spectra of, 23: 32160
reactions with mercury vapor, polarization of $L\alpha_1$ x rays from, (E), 25:7177
reactions with mercury, calculation of cross sections for excitation in, 24:17659
reactions with mercury, coherent excitation of $^3P_2$ state by, 21:43825
reactions with mercury, cross sections for excitation of 6^3D_3, 6^3D_2, 7^3P_2, and 7^1S_0 levels by, (E), 21:18466
reactions with mercury, excitation function of metastable 6^3P_0 level in, (E), 24:51434
reactions with metal surfaces, photon emission by plasmons excited in, (T), 24:39809 (ORNL-4446, pp 163-76)
reactions with metal targets at 0.5 to 15 keV, optical radiation from, (E), 25:55813 (JINR-P4-5957)
reactions with metal targets at 40 to 140 keV, K/sub α//K/sub β/ x-ray intensity ratios from, (E), 25: 24850
reactions with metal vapors, collision cross sections for, 21:601(R) (N-66-22305)
reactions with metallic films at 60 keV, optical radiations from, (E), 21:3699
reactions with metallic spheres, plasma oscillations from, 23:7018
reactions with metals at 0.4 to 1.4 MeV, secondary electrons from, (E), 23:44150 (AD-688809)
reactions with metals at 0.5 to 3 MeV, energy and angular distribution of bremsstrahlung produced in, (T), 23:16847 (N-68-35535)
reactions with metals at 100 to 500 keV, penetration depth of, (T), 25:49968
reactions with metals at 12.5 to 22 MeV, bremsstrahlung yields from, 25:59106
reactions with metals, transition radiation emission from, (T), 23:5485
reactions with metastable helium, cross sections for spin exchange for, 22:38788
reactions with metastable helium, effects of spin exchange in afterglow, 22:38788
reactions with molecular beams in plasma, mean cross sections for ionization in, (T), 24:1289
reactions with molecular beams, production and detection of metastable excited states in, 22:24027 (UCRL-18032)
reactions with molecular deuterium and hydrogen, deuteron and proton energy distributions from, 21: 33203
reactions with molecular gases at 13 keV, infrared emission spectra from excitation, (E), 23:36520
reactions with molecular gases at 50 keV, mechanisms of excitation and extinction of luminescence from, 21: 33124(T) (ANL-Trans-495)
reactions with molecular hydrogen at 0.05 to 3 keV, $H\alpha$ production cross sections for, (E), 22:13222
reactions with molecular hydrogen at 1.5 keV, proton distribution from, 24:44972 (ORNL-4545, pp 124-37)
reactions with molecular hydrogen ion, dissociation cross sections for, 22:9427 (TID-24201)
reactions with molecular hydrogen ions at 5 to 1000 eV, cross section for proton production in, (E), 22:8996
reactions with molecular hydrogen ions, calculation of angular distribution of dissociation products in, 21: 37110
reactions with molecular hydrogen ions, cross sections for impact dissociation by, (E), 21:16818
reactions with molecular hydrogen ions, cross sections for, 21:43752 (ORNL-4150, pp 103-12)
reactions with molecular hydrogen ions, dissociation by, (T), 21:16819
reactions with molecular hydrogen ions, effect of vibrational excitation on dissociation in, (T), 22:9036
reactions with molecular hydrogen, excitation cross sections for, (T), 22:959
reactions with molecular hydrogen, ionization in, (E/T), 22:15360
reactions with molecular hydrogen, polarization of light from excitation, (E), 21:37126
reactions with molecular hydrogen, potential energy curves for $^1\Sigma$/sub g/$^+$ and $^1\Sigma$/sub u/$^+$ states in dissociative attachment, 22:43916
reactions with molecular hydrogen, velocity spectrum of metastable atoms from, 21:33202
reactions with molecular nitrogen and oxygen, calculations of auroral intensities from impact cross sections for, 21:37307
reactions with molecular nitrogen at 1 to 12 eV, excitation in, (E), 22:34255
reactions with molecular nitrogen ions, dissociative recombination in, (E), 24:32820
reactions with molecular nitrogen, excitation cross section for N_2^+ 3914 A, (E), 22:17423
reactions with molecular nitrogen, excitation cross sections for, 22:11194 (LA-3783)
reactions with molecular nitrogen, excitation cross sections for, (T), 24:15132
reactions with molecular nitrogen, excitation spectra for, 21:9295 (ORNL-4007, pp 121-69)
reactions with molecular nitrogen, impact cross sections for, (T), 21:37112
reactions with molecular nitrogen, nitrogen ion energy levels from, 21:33148
reactions with molecular nitrogen, oscillatory energy and cross-section dependence of resonant, (T), 22:43929
reactions with molecular oxygen and nitrogen ions, dissociation cross sections for, (E), 22:965
reactions with molecular oxygen ions at low energies, absolute cross sections for excitation in, (E), 23:6887
reactions with molecular oxygen, cross section for rotational excitation less than or equal to 1 eV, (T), 21:22969 (LA-DC-7484)
reactions with molecular oxygen, excitation cross sections for, (E/T), 22:50009
reactions with molecular oxygen, impact cross sections for, (T), 21:37111
reactions with molecular, high-resolution energy-loss spectrum from 25-keV, 22:43936
reactions with molecules at 0 to 30 eV, excitation spectra from, (E), 23:34276 (NP-17938)
reactions with molecules at low energies, electron attachment in, 24:39853 (ORNL-4446, pp 206-15)
reactions with molecules at low energies, equipment and theory for study of excitation in, 23:27353 (CALT-532-39(Vol.1))
reactions with molecules at low energies, products of associative electron attachment in, (E), 23:30324 (ORNL-TM-2546)
reactions with molecules at low energies, review of theory of rotational excitation in, 25:55855
reactions with molecules at low energies, review on, 25: 34618
reactions with molecules at low energies, review of rotational excitation in, (T), 25:11730
reactions with molecules at low energies, review of excitation processes in, 24:37216 (CALT-767-P-4-61)
reactions with molecules at low energies, review of methods of measurement of cross sections for, 25: 55855
reactions with molecules at thermal energies, attachment rates for, 25:19490 (ORNL-4584, pp 92-104)
reactions with molecules in gas mixtures in drift tubes, (E), 21:3690
reactions with molecules, angular dependence of scattering products in resolant excitation and in dissociative attachment in, 23:1188
reactions with molecules, correlation of excess energies with translational energies of products in, (E/T), 22: 34265
reactions with molecules, differential cross sections for excitation of vibrational levels in, (T), 24:10389
reactions with molecules, electronic vibrational states of ions formed by, (T), 24:15155
reactions with molecules, energy distribution of negative ions formed by dissociative attachment in, (T), 21: 22986
reactions with molecules, equipment and method for electron-swarm study of, 22:15328 (ORNL-TM-1444)
reactions with molecules, excess energy in dissociative electron attachment in, 25:16812
reactions with molecules, frame transformations in calculations of, 24:49026
reactions with molecules, kinetic energy of fragment ions from, (E), 21:24913
reactions with molecules, mechanisms for production of spurious dissociative attachment peaks in, 25:58730
reactions with molecules, polarization of line radiation excited by, Percival—Seaton theory analysis of, 23: 1187
reactions with molecules, polarization of radiation from, 22:41304
reactions with molecules, review of effects of centrifugal force in, 24:19755
reactions with molecules, rotational and vibrational excitation in, (T), 22:21905
reactions with molecules, secondary reactions induced by, 21:28036
reactions with molecules, theory of dissociative attachment and recombination in, 22:47799
reactions with molecules, threshold excitation and temporary negative ion spectra from, (E), 23:12522 (ORNL-TM-2156)
reactions with molecules, two-state theory of dissociative attachment in, 23:46271
reactions with molecules, vibrational and rotational excitation excitation cross sections for, (E/T), 22: 41293 (NP-17519)
reactions with molybdenum hexacarbonyl, preparation of molybdenum carbide films by, 21:45982
reactions with naphthacene and pyrene at 50 eV to 10 keV, cross sections for excitation in, (T), 25:43127(T) (BNL-tr-429)
reactions with natural lead, tungsten, and uranium at 550 and 1300 MeV, fission-fragment cross sections and energies from, (E), 25:36791
reactions with negative hydrogen and oxygen ions, electron detachment cross sections for, (E), 22:31637

reactions with negative hydrogen ions at 9 to 500 eV, cross section for electron detachment in, (E), 21: 39813
reactions with negative ions, review of colliding-beam studies of electron detachment in, 24:21589
reactions with neon and air at 3.2 keV, K Auger spectra from, 24:44972 (ORNL-4545, pp 124-37)
reactions with neon at <150 eV, cross sections for energy level excitation during, 21:23010
reactions with neon at 100 eV, cross sections for excitation of 250 spectral lines in, (E), 23:30329
reactions with neon at 3 to 10 keV, K-Auger spectrum from multiple excitation in, (E), 24:15163
reactions with neon atoms, ionization rate coefficients for, 22:11196 (MATT-582)
reactions with neon ions (Ne_2^+) in afterglow at 300 to 4600°K, electron-temperature dependence of recombination coefficients for, (E), 23:20712
reactions with neon ions at 8 to 100 eV in stellarator plasma, ionization rate coefficients for, (E), 22:52509
reactions with neon up to 50 eV, total excitation cross sections for, (T), 23:39329
reactions with neon, energy level transitions from, (E), 22:19796
reactions with neon, excitation cross sections for, 21: 35015(T) (ORNL-tr-1711)
reactions with neon, excitation cross sections for, (E/T), 24:51447
reactions with neon, oscillator strengths and cross sections for excitation of P states of, (T), 23:51395
reactions with neon, rates of energy-level transitions in, (T), 25:2920
reactions with neon, trapped-electron study of auto-ionizing and negative-ion states from, 24:3154
reactions with neon-20, production of meson (π) in bound state from, 25:59355
reactions with neutral atoms in plasma, effects on probe shot noise, 22:44096
reactions with neutral atoms, ionization of, (T), 21: 16788
reactions with neutral molecules in D region of ionosphere, collision frequency for, 22:46022
reactions with neutral molecules in gas phase, cyclotron resonance method for studying, 24:5266 (CEA-Bib-163)
reactions with neutrals in ionosphere, ionization, (T), 22: 44017
reactions with nickel at 0.2 to 1 keV, effects of excitation by secondary electrons on Auger emission in, (E), 23: 34261
reactions with nickel at 2 to 30 keV, shape and position of Lα x-ray emission line from, (E), 24:17629
reactions with nitric oxide at 0 to 2 eV, electron attachment and vibrational excitation in, (E), 25:30281
reactions with nitric oxide, cross sections for radiation emission from long-lived excited states produced in, (E), 25:22369
reactions with nitrogen and oxygen atoms in shock tubes, vacuum-ultraviolet studies of recombination in, 23: 22869 (N-68-32284)
reactions with nitrogen and oxygen atoms up to 150 eV, cross sections for excitation of resonance states in, (E), 25:43143
reactions with nitrogen and oxygen in air, energy losses in, (T), 23:41951
reactions with nitrogen and oxygen molecules at 45 eV, excitation of forbidden vibrational transitions by, (E), 23:1193
reactions with nitrogen and oxygen, mean energy expended per ion pair formed in, (T), 24:45026
reactions with nitrogen at 15 to 80 eV, excitation cross sections for, 24:45029
reactions with nitrogen at 19 to 300 eV, effective rotational temperature of ionized nitrogen molecules from, (E), 21:20754
reactions with nitrogen at 2 to 3 eV, rotational excitation in, (E), 21:21963 (BNL-994, pp 3-19)
reactions with nitrogen at 35 to 100 eV, singlet—triplet transitions from, 21:31223
reactions with nitrogen at 50 keV, mechanism of luminescence excitation in, 21:29023
reactions with nitrogen at 80 eV to 4 keV, excitation cross sections of N_2^+ Meinel bands, 23:16680
reactions with nitrogen at low energies, excitation cross sections for, (E), 21:22974(R) (TID-23789)
reactions with nitrogen atoms at 2 Rydbergs, differential ionization cross sections for, (T), 24:32658
reactions with nitrogen below 70 eV, determination of appearance potentials in, 21:33132
reactions with nitrogen gas at 10^{-4} torr, visible radiation spectrum from, (E), 23:14610
reactions with nitrogen in aurorae at .045 to 25 keV, excitation cross sections for, (E), 25:27616
reactions with nitrogen ions (N V) at 4 to 100 eV, semiclassical impact calculations of excitation cross sections for, 24:35186
reactions with nitrogen ions (N V), coefficients for excitation to 2P, 3S, 3P, 3D, and 4P levels in, (E), 24: 45043
reactions with nitrogen ions (N_2^+) and oxygen ions (O_2^+) in afterglow at 300 to 5000°K, electron-temperature dependence of recombination coefficient for, (E), 23: 20711
reactions with nitrogen ions (N_2^+) in eV range, dissociative recombination in, 25:16800(R) (ORO-3771-3)
reactions with nitrogen molecular ion at 5 to 30 eV, (E), 22:38749
reactions with nitrogen molecules and oxygen atoms and molecules—summary of semi-empirical cross sections for excitation and ionization in, 24:35207
reactions with nitrogen molecules at 0 to 450 eV, cross sections for excitation of first negative and Meinel bands of N_2^+ in, (E), 23:22870
reactions with nitrogen molecules at 0 to 50 eV, cross sections for excitation of N_2 first positive bands in, (E), 23:22870
reactions with nitrogen molecules at 0.07 to 4.0 keV, cross sections for excitation of N_2^+ first negative and Meinel bands in, (E), 25:13997
reactions with nitrogen molecules at 0.1 to 6 keV, cross sections for emission of N_2^+ first negative band system in, (E), 23:30331
reactions with nitrogen molecules at 0.1 to 6 keV, cross sections for emission of first negative band of N_2^+ in, (E), 23:36516
reactions with nitrogen molecules at 0.5 to 20 keV, excitation functions for first negative bands of N_2^+ in, (E), 25:13998
reactions with nitrogen molecules at 10 to 150 eV, vacuum ultraviolet study of dissociative excitation in, 23:12519(R) (GA-9062)
reactions with nitrogen molecules at 10 to 208 eV, cross sections for photon emission in vacuum ultraviolet in, (E), 24:37218 (N-70-21219)
reactions with nitrogen molecules at 10 to 208 eV, emission cross sections in vacuum ultraviolet for, (E), 24:39878
reactions with nitrogen molecules at 100 eV to 13.5 keV, velocity dependence of vibrational excitation in N_2^+ first negative system in, (E), 23:8457
reactions with nitrogen molecules at 100 to 2000 eV, cross sections for excitation of Lyman—Birge—Hopfield band system in, (E), 24:3176
reactions with nitrogen molecules at 15 to 50 eV, transitions between 12 and 14 eV in energy-loss spectrum of, (E), 23:51389
reactions with nitrogen molecules at 150 eV to 4 keV, cross sections for emission of N^+ lines from, (E), 24: 4995
reactions with nitrogen molecules at 16 eV, excitation functions for a $^1\Pi$/sub g/ and $D^3\Sigma$/sub u/+ states in, (E), 25:14013
reactions with nitrogen molecules at 2 to 5 keV and 0.69 to 2.8 torr, spatial distribution of fluorescent radiation emission from, (E), 24:39860
reactions with nitrogen molecules at 25 keV, configuration-interaction effects on energy-loss spectrum for, (E), 23:12569
reactions with nitrogen molecules at 30 to 300 eV, rotational temperature of 3914-A band of N_2^+ excited by, (E), 23:18425
reactions with nitrogen molecules at 300, 400, and 500 eV, differential cross sections and generalized oscillator strengths for two forbidden transitions in, (E), 25:996
reactions with nitrogen molecules at 5 to 50 eV, cross sections for excitation of triplet states in, (T), 23: 44172
reactions with nitrogen molecules at 500 to 1000 eV, angular and energy distributions of ejected electrons from, (E), 25:24879 (SC-RR-710050)
reactions with nitrogen molecules at 560 keV, stimulated emission in first and second positive bands from, (E), 25:38148
reactions with nitrogen molecules at 6 to 13 eV, trapped-electron study of threshold excitation spectrum for, 24:45020
reactions with nitrogen molecules at 750 and 1000 eV, cross sections for K-shell ionization in, (E), 25:24879 (SC-RR-710050)
reactions with nitrogen molecules up to 10 keV, cross sections for excitation of (0,0) first negative band of N_2^+ in , (E/T), 24:21579
reactions with nitrogen molecules up to 140 eV, excitation cross sections for, (E), 21:24916
reactions with nitrogen molecules up to 15 eV, efficiency of formation of neutral metastable species in, (E), 24: 42531 (UCRL-19594)
reactions with nitrogen molecules up to 20 eV, ion cyclotron resonance study of excitation in, 23:36525
reactions with nitrogen molecules up to 30 eV, cross sections for excitation of metastable states in, (E), 23: 44181
reactions with nitrogen molecules up to 80 eV, total cross sections for excitation of triplet states in, (T), 24:51444
reactions with nitrogen molecules, cross sections for emission of second positive bands in, (E), 23:18383
reactions with nitrogen molecules, cross sections for excitation of N_2 first and second positive and N_2^+ Meinel bands in, (E), 25:22361 (N-70-42220)
reactions with nitrogen molecules, effects of secondary electrons in calculation of rotational temperatures from, 23:36523
reactions with nitrogen molecules, emission spectrum and radiative lifetime of metastable E state from, (E), 23: 30339
reactions with nitrogen molecules, energy distribution from ionization cross sections of, (T), 21:14963
reactions with nitrogen molecules, excitation of first and second positive bands outside beam area during, (E), 24:45024
reactions with nitrogen molecules, molecular-orbital calculation of 2-eV resonance state of N_2^- from, 24: 28097
reactions with nitrogen molecules, photon emission in 3914-A band from excitation and ionization in, (T), 23:41951
reactions with nitrogen oxide (N_2O) up to 4 eV, temperature dependence of cross sections for dissociative attachment in, (E), 24:1294
reactions with nitrogen oxide (N_2O), mechanism of N_2O^- formation in, (E), 24:1296
reactions with nitrogen oxides (N_2O) and ozone, electron attachment in, (E), 23:22867 (AD-675287)
reactions with nitrogen oxides (N_2O) in mixtures with various gases, electron attachment rates for, 24:39852 (ORNL-4446, pp 197-205)
reactions with nitrogen oxides (NO_2) up to 6 eV, ion yields from dissociative electron attachment in, (E), 23:20689
reactions with nitrogen oxides N_2O, swarm—beam measurements of electron attachment rate in, 23: 46283
reactions with nitrogen, angular distribution, appearance potential, and energy distribution of nitrogen ions from, (E), 21:20750
reactions with nitrogen, cross sections for simultaneous excitation and ionization of, (E), 22:21872
reactions with nitrogen, excitation of N_2^+ first negative bands by, (E/T), 23:1189
reactions with nitrogen—oxygen mixtures and oxygen molecules at 1.5 MeV, electron attachment and ionization in, (E), 23:12546
reactions with nitrous oxide at 115 eV, energy-loss spectra and oscillator strengths for, (E), 25:14014
reactions with nitrous oxide in drift tubes, pressure dependence of negative-ion formation in, (E), 23: 10444
reactions with noble gas atoms, energy loss spectra for keV, 23:5222
reactions with noble gases, resonances in total cross sections for metastable excitation in, (E), 22:21873
reactions with nonstationary dipolar systems, critical dipole moments for electron binding in, 25:19757 (ORNL-4584, pp 58-73)
reactions with normal and metastable mercury atoms and ions, formation of excited 6 $^3P(^1/_2)$ from, 22:41319
reactions with normal and sodium-covered germanium, energy distribution and yield of secondary electrons from, 21:26999
reactions with nuclear Coulomb field in molecules, additive potential method for solution of wave equation for displacement from, 23:36472(T) (CERN-Trans-68-11)
reactions with nuclear field at arbitrary energies and small angles, differential cross sections for many-photon polarized bremsstrahlung from, (T), 24:24302
reactions with nuclei at 1 GeV in lead—air and lead—copper two-layer systems, transition effect for electron—photon shower from, 24:5269
reactions with nuclei at 1 GeV in thick targets of water, energy deposited by electron—photon cascades from, (T), 24:40302
reactions with nuclei at 1.25 to 4 GeV in propane bubble chamber, cross sections for electron pair production in, (E), 23:27738
reactions with nuclei at 1.25 to 4 GeV, cross sections for electron—positron pair formation in, (E), 23:13017(T) (SLAC-Trans-88)
reactions with nuclei at 10.0 and 16.0 GeV in emulsions total and differential cross sections for meson production in, (E), 24:12922
reactions with nuclei at 13.75 GeV in emulsions, direct production of electron pairs from, (E), 25:14525
reactions with nuclei at 13.75 GeV in emulsions, trident production in, (E), 23:39610(R) (UCR-34-P-107-84)
reactions with nuclei at 6 GeV in crystals, coherent bremsstrahlung from, (E/T), 23:30694 (DESY-69/14)
reactions with nuclei at high energies, angular dependence of cross sections for wide-angle bremsstrahlung and upper limits for coupling constant for heavy electron production in, (E), 25:14529
reactions with nuclei at high energies, impact factor and amplitudes for, 23:42619
reactions with nuclei at high energies, nuclear structure sensitivity of meson (π) production in, (E), 21:4200
reactions with nuclei at high energies, polarization in multiphoton bremsstrahlung in, (T), 25:1450
reactions with nuclei at high energies, proton spectra from spallation, (T), 24:18464
reactions with nuclei at high energies, soft-photon approximation for radiative corrections to cross sections of double bremsstrahlung in, (T), 25:33620
reactions with nuclei at high energy, surface effects in, (T), 24:3983
reactions with nuclei at low and intermediate energies, conference on, 24:26365
reactions with nuclei at low energies, cross section for W production in Coulomb field in, (T), 22:34926
reactions with nuclei below 150 MeV, photonuclear data index, Jan. 1965 to Jan. 1970 for, (E), 25:22961 (NBS-SPEC. PUBL-322)
reactions with nuclei in two-layer absorber, transition effect for electron—photon shower from, 24:5269
reactions with nuclei in white dwarf stars, neutrino pair production in, (T), 22:39331
reactions with nuclei up to 2 GeV, installation for analysis of, 22:44567
reactions with nuclei with bremsstrahlung production, effect of nuclear size on, 24:35913
reactions with nuclei with nucleon knockout at high energies, cross-section dependence on Woods—Saxon potential parameters, (T), 25:10058 (ITF-70-38)
reactions with nuclei, analysis using cluster model, 23: 52177
reactions with nuclei, analysis using multipole expansion, (T), 23:52174
reactions with nuclei, cross sections for, (T), 23:46330
reactions with nuclei, cross sections of τ + anti τ pair production in, (T), 25:3335
reactions with nuclei, determination of exchange currents by disintegration, (T), 24:43523
reactions with nuclei, electromagnetic vertex from inelastic, (T), 21:3635 (N-66-19870)
reactions with nuclei, exchange currents from disintegration, (T), 24:40714
reactions with nuclei, invariant imbedding for solution of quantum mechanical problems for, 21:40180
reactions with nuclei, neutrino bremsstrahlung from, 25: 33604
reactions with nuclei, rho-dominance predictions for energy and A dependence of total cross sections for, 23:42626
reactions with nuclei, scale-invariant light-cone SU(3) x SU(3) current commutators for universal structure functions for particle production in, (T), 25:5328
reactions with nuclei, virtual photon cross sections for two-body disintegration, (T), 25:23095
reactions with nuclei, wave function for periodic, formed with bound l = 0 state of hydrogen atoms, 23:27732

reactions with nuclei, with quasielastic scattering, (T), 21:34031(R) (ORO-2915-79)
reactions with nylon at high energy, polarized bremsstrahlung production in, 22:29202
reactions with one-electron atoms, polarization in analysis of elastic scattering and excitation amplitudes for, 25:30287
reactions with organic and inorganic phosphors, energy losses in, 22:45290
reactions with organic compounds at different eV ranges, design of corona discharge cell to study, 23:41231(R) (TID-25162)
reactions with organic fluorine compounds, attachment and ionization cross sections for, 21:31225
reactions with organic liquids at 4 to 36 keV, emission spectra from, 22:9069
reactions with organic liquids, excitation spectra from, 22:7132 (ORNL-4168, pp 119-82)
reactions with organic molecules, attachment rates and lifetimes of negative ions from, 25:19491 (ORNL-4584, pp 105-24)
reactions with oxygen ions up to 1 keV, cross sections for ionization in, (E), 25:58774
reactions with oxygen molecules at 0 to 1 eV, vibrational excitation in, (E), 25:9210
reactions with oxygen molecules at 10, 15, and 20 eV, differential cross sections for excitation in, (E), 25:58732
reactions with oxygen molecules at 100 eV to 3 keV, emission cross sections for O_2^+ first negative bands from, (E), 25:993
reactions with oxygen molecules at 4 to 45 eV, differential and integral cross sections for excitation in, (E), 25:52677
reactions with oxygen molecules at 5.75 to 8.40 eV, angular distribution of oxygen ions (O^-) from dissociative electron attachment in, (E), 25:9221
reactions with oxygen molecules at low energies, dissociation into metastable atoms in, (E), 25:24911
reactions with oxygen molecules up to 1000 eV, absolute cross sections for excitation of first negative bands of O_2^+ in, (E/T), 24:26003
reactions with oxygen molecules up to 200 eV, mechanism of light emission in vacuum ultraviolet during, (E), 23:18429
reactions with oxygen molecules up to 300 eV, cross sections for ultraviolet emission produced by dissociative excitation in, (E), 25:58758
reactions with oxygen molecules, absolute cross sections for emission of first negative bands of O_2^+ in, (E), 23:34286
reactions with oxygen molecules, cross sections for dissociative electron attachment in, (E), 23:32179
reactions with oxygen molecules, energy spectra of metastable oxygen atoms formed by dissociation in, (E), 25:38155
reactions with oxygen molecules, mechanism of formation of stable O_2^- ions by attachment in, (T), 24:8343
reactions with oxygen, calculations of auroral intensities from impact cross sections for, 21:37307
reactions with oxygen, energy distribution of negative ions formed by dissociative attachment in, (E), 21:22986
reactions with oxygen, excitation of spin multiplets of ground state by, (T), 21:2041
reactions with oxygen, excitation processes in, (T), 22:21908
reactions with oxygen, mass-spectrometer studies of ionization processes in, (E), 21:18432
reactions with oxygen, neon, silicon and iron; ionization equilibria calculation from ionization, excitation, and recombination processes in, 22:38722 (N-68-18121)
reactions with oxygen, Townsend-method measurements of attachment and detachment in, 21:33133
reactions with oxygen, uv radiation from dissociation in, 22:9030
reactions with oxygen-containing molecules at 60 eV, production of excited oxygen ions (O^+) in, (E), 25:58763
reactions with p-benzoquinone at 0.02 to 3 eV, electron attachment in, 24:39852 (ORNL-4446, pp 197-205)
reactions with p-benzoquinone, mechanisms of nondissociative attachment in, 25:7130 (ORNL-TM-3163)
reactions with parahydrogen at low energies, cross sections for momentum transfer and rotational and vibrational excitation in, (E), 24:15166
reactions with platinum at 2.5 to 50 keV, atomic scattering factor for, 23:44153
reactions with plutonium-239, thorium-232, uranium-233, uranium-235, and uranium-238 at 20 to 60 MeV, neutron yields from, (E), 22:32584
reactions with polarized alkali metal atoms, polarization of electrons ejected from, 24:45031
reactions with polarized metastable deuterium atoms, collisional ionization in, 22:36702(R) (AD-664668)
reactions with polyatomic molecules at 1 to 10 eV, impact spectrometer for studying, 23:20041 (COO-913-32)
reactions with polyethylene below 50 eV, energy of hydrogen 2S atoms from, (E), 24:12632
reactions with polymethylmethacrylate massive samples at 20 to 80 keV, intensity and spatial distribution of transient radiation from, (E), 23:51370
reactions with positive calcium and hydrogen ions, spectral line broadening in, 21:22977
reactions with positive ions in p/sup q/ configuration, excitation, (T), 22:45948
reactions with positive ions, asymptotic solutions of coupled equations for, 23:39325
reactions with positive ions, binary-encounter approximation for cross sections for ionization in, 23:14616
reactions with positive ions, Coulomb—Born—Oppenheimer calculations of excitation in, 24:26012
reactions with positive ions, impact-approximation theory of spectral line broadening in, 23:46265
reactions with positive ions, review of colliding-beam studies of excitation and ionization in, 24:21589
reactions with positive ions, review of theory of, 23:36511
reactions with potassium at 0.5 to 1.2 eV, differential cross sections for elastic scattering and spin exchange in, (E), 25:30282
reactions with potassium at 200 eV, maximum escape depth of secondary electrons from, (E), 21:7363
reactions with potassium at 3.0 to 5.2 eV, differential cross sections for excitation of 4S—4P transition in, (E), 25:14034
reactions with potassium atoms, energy loss spectra and collision cross sections and oscillator strengths for 40- to 200-eV, (E/T), 22:43931
reactions with potassium bromide films, electron energy loss and optical constants for 51-keV, (E/T), 22:41355
reactions with potassium polarized atomic beams at 1.6 to 20 eV, depolarization in, (E), 25:11707
reactions with potassium, octupole transitions in excitation by, 22:52487
reactions with potassium, spin change from 4^2S/sub 1/2/ to 4^2P/sub 1/2,3/2/ transitions in, (E), 23:27376
reactions with propane at 1.25 to 4 GeV, electron pair production from, (E), 21:18879 (JINR-P1-3143)
reactions with propane molecules, effect of deuterium on ionization in, 21:40921
reactions with pyrimidine derivatives, role in radiolysis of, 23:20135
reactions with quantum plasmas, theory and observation probabilities for nonlinear interactions excited by, 22:31923 (BNL-50083, pp 155-66)
reactions with rare earth oxides at 60 to 140 keV, x-ray spectra from, (E), 25:49703
reactions with rare earths, self-absorption effects in soft x-ray emission spectra from, 22:7149
reactions with rare gas atoms, formation, scattering, and destruction of metastable atoms from, (E), 25:49739
reactions with rare gases at 2 to 16 keV, ionization cross sections for, (E/T), 23:44180
reactions with rare gases at 500 keV, evidence for molecule formation in absorption and emission spectra from, 23:32163
reactions with rare gases in keV range, electron spectra from auto-ionization processes excited by, (E), 23:32157 (UUIP-589)
reactions with rare gases up to 150 eV, cross sections for ionization in, (E), 24:15148 (ORNL-TM-2618)
reactions with rare gases up to 2 eV in rf discharges, momentum-transfer cross sections for, (E), 23:12545
reactions with rare gases, absolute total excitation cross sections for, (E), 23:32164
reactions with rare gases, angular dependence of spin polarization for, (E/T), 22:38767
reactions with rare gases, angular distribution of ions from, (E), 24:35182
reactions with rare gases, distorted-wave calculations of oscillator strengths for excitation in, 25:38159
reactions with rare gases, distorted-wave calculation of cross sections for excitation in, 25:14015
reactions with rare gases, electron-scavenging study of threshold excitation in, 24:45021
reactions with rare gases, independent-particle-model calculations of oscillator strengths for excitation in, 25:38158
reactions with rare gases, ion excitation cross sections from, 22:9041
reactions with rare gases, streamer-chamber study of thermal diffusion and thermalization in, 23:39337
reactions with scavengers in γ-irradiated alcohols, 24:36308
reactions with shielding, use of magnetic beta spectrometer for determining changes in energy distribution during, 23:14106
reactions with silicon at 1 GeV, energy spectrum of collimated bremsstrahlung from, (E), 25:47715
reactions with silicon at 1.5 and 45 to 50 MeV, optical studies of lithium defect complex from, 23:16214(R) (N-68-25718)
reactions with silicon at 100 to 1000 eV, energy-loss and secondary-electron spectra from, (E), 24:6344
reactions with silicon at 2-GeV, collimation of photon beam from, 23:5722 (DESY-68/52)
reactions with silicon at 31.5 to 767.2 MeV, energy loss and straggling in, (E), 23:27328
reactions with silicon at 5 to 50 keV, anisotropy of secondary electron yield from, (E/T), 24:42504
reactions with silicon at 80 keV to 1 MeV, channeling in, 21:21069
reactions with silicon at 90 keV, recombination radiation from, (E/T), 22:46283
reactions with silicon foils, transition radiation from 50-keV, (E/T), 25:43429
reactions with silicon single crystals, coherent bremsstrahlung from, 21:2302
reactions with silver foil, bremsstrahlung and transition radiation from, 21:13387
reactions with silver, ionization cross sections for, (E/T), 22:11225
reactions with single crystals of silicon, production of quasi-monochromatic polarized bremsstrahlung from, 21:29784
reactions with singly ionized barium ions at 0.5 to 50 eV, de-excitation cross sections for, (T), 24:19610
reactions with singly ionized lithium, double ionization cross sections for, 21:43805
reactions with sodium at 1 to 22 eV, excitation cross sections for, (T), 24:49020
reactions with sodium at 25 to 500 eV, differential and integrated cross sections for 3s—4s excitation in, (T), 25:47341
reactions with sodium chloride and mercury hydride, dissociation cross sections for, (E/T), 22:41293 (NP-17519)
reactions with sodium chloride monocrystals, energy losses in 21.5-eV, 23:1521
reactions with sodium chloride, formation and bleaching of colloids during, (E), 21:15232
reactions with sodium chlorides, surface potential measurement using chlorine ion ejection by, (E), 22:3184
reactions with sodium foils at 1 eV to 4 keV, electron current from, (E), 23:16632 (ORNL-TM-2406)
reactions with sodium, excitation cross sections for, (T), 25:35881
reactions with solid hydrogen, ion-cluster formation in, (E), 23:44137
reactions with solid media, angular distribution and energy spectra of bremsstrahlung from, (T), 21:42206
reactions with solid surfaces, review of ion emission in, 25:16767
reactions with solid targets at 4 to 12 MeV, coefficients for backscattering and transmission in, (E), 23:41920
reactions with solid xenon, energy loss and optical constants for 51-keV, (E/T), 22:41354
reactions with solids at 2 to 25 MeV, displacement of atoms by collision cascades in, (T), 22:24441
reactions with solids up to 100 keV, review of experimental methods for study of, 23:30299
reactions with solids, calculation of true secondary energy distributions in, (T), 22:22204(R) (ORO-2755-20)
reactions with solids, dielectric theory of energy losses in, 22:22204(R) (ORO-2755-20)
reactions with solids, estimated probability of observation of electron energy gain by photon absorption in, 21:21083
reactions with sorbed carbon monoxide layer on tungsten, 22:26265
reactions with spacecraft materials, bremsstrahlung production from, (E), 24:5195 (N-69-33416)
reactions with spacecraft shielding, bremsstrahlung production from, 24:28395 (N-70-15058)
reactions with specimens in microanalysis, electron transport model for, 21:3654
reactions with substituted benzenes, lifetimes and yields of negative ions from, 25:19490 (ORNL-4584, pp 92-104)
reactions with sulfur hexafluoride at 273 to 473°K, attachment cross sections for, (E), 22:15328 (ORNL-TM-1444)
reactions with sulfur hexafluoride, attachment rates for, (E), 25:19491 (ORNL-4584, pp 105-24)
reactions with tantalum, energy distribution of photoneutrons from 150-MeV, (T), 24:12873 (ORNL-TM-2751)
reactions with tantalum-181 and uranium-238 at 70 to 1000 MeV, electron—positron cross-section ratio for, (E), 24:24561
reactions with targets at 1 to 6 GeV, effects of target thickness and collimator angle on bremsstrahlung production by, 22:5683 (DESY-67/29)
reactions with targets at 2.0 to 4.0 MeV and 24.5 MeV, positron production conversion yield in, 22:24762
reactions with targets in storage rings, calculations for, 22:5696
reactions with targets, x-ray emission induced by 100 to 1000 eV, (E), 22:52526
reactions with thick tantalum targets at 30 and 57.4 MeV, angular distribution of bremsstrahlung dose from, 24:45646 (CONF-691101-, pp 684-91)
reactions with thick tantalum targets at 30 to 200 MeV, electron—photon cascade calculations and neutron yields from, 21:12031
reactions with thick tantalum targets at 640 and 1220 MeV, positron yields from, 23:21202
reactions with thick targets at 0.2 to 2.8 MeV, bremsstrahlung production in, 24:33073
reactions with thick targets at 1 to 10 MeV, bremsstrahlung spectra from, (T), 22:44754 (UCRL-50442)
reactions with thick targets at 10 to 30 MeV, calculations for photoneutron production in, 23:10889
reactions with thick targets at high energies, calculation of collimated bremsstrahlung spectra from, 23:9049
reactions with thick targets at high energies, experimental facility for producing muon beams from, 23:19107
reactions with thick targets of 0.2 to 0.8-MeV, bremsstrahlung from, (E), 21:41757(T) (UCRL-Trans-10124)
reactions with thick targets of aluminum, iron, and lead at 3.0 GeV, yields of radionuclides in, (E), 24:30734
reactions with thick targets, bremsstrahlung emission in, (T), 23:27671(T) (SLAC-Trans-93)
reactions with thick targets, cross section calculations for bremsstrahlung production in, 24:40658 (AD-701380)
reactions with thick targets, positron conversion yields from, (T), 24:13218 (FR-68-1/1)
reactions with thick targets, yield of characteristic x radiation from, (E/T), 24:4989
reactions with thick tungsten targets at 10 to 60 MeV, Monte Carlo calculation of bremsstrahlung emission from, 24:45635 (CONF-691101-, pp 302-22)
reactions with thin films of copper, yield of K shell radiation from, 21:2059
reactions with thin foils at 0.3 to 1.1 MeV, photon emission spectra from, 25:19471
reactions with thin magnetized foils in MeV range, energy loss straggling in, (T), 23:39297
reactions with thin silicon crystal at 1 GeV, monochromatization of collimated coherent bremsstrahlung from, 25:22946
reactions with thin silicon crystals at 7 to 10 MeV, bremsstrahlung spectra from, (E), 25:59149
reactions with thin targets at 3.5 MeV, magnetic analysis of Compton electrons produced by bremsstrahlung from, 23:38309
reactions with thin targets, polarized bremsstrahlung from, 22:9081

reactions with thin targets, total cross sections for radiational losses and energy losses, (T), 25:17264
reactions with thorium dioxide, F centers from, 21: 33020
reactions with tin at 4 and 8 MeV, bremsstrahlung yield from, (E), 24:6602
reactions with tin zinc phosphide crystals, recombination radiation from, 22:34759
reactions with trapped positive ions, ionization and excitation during, (E/T), 21:11397
reactions with tryptophan at 150 eV to 1 keV, spectral studies of electronic excited states produced by, 24: 17625(R) (ORO-3799-3)
reactions with tungsten at 10 to 60 MeV, Monte Carlo calculations of bremsstrahlung and photoneutrons from, 25:12496
reactions with tungsten at 240 MeV, auto-ion microscope studies of, 22:31988
reactions with tungsten at 8.8 and 6.3 MeV, angular distribution at low energies of bremsstrahlung from, (E) , 24:12876
reactions with tungsten oxides, crossed-beam measurements of ionization cross sections for, 24: 28111
reactions with tungsten targets at 6.3 and 8.8 MeV, angular distribution of bremsstrahlung from, (E), 24: 28654
reactions with tungsten with adsorbed carbon monoxide, ion desorption in, (E), 24:35371(R) (RLO-1548-23)
reactions with tungsten, desorption of carbon monoxide by, 21:32942
reactions with uranium at 1.5 and 3.0 MeV, photofission in, (E), 22:35292 (ORNL-4217, pp 1-81)
reactions with uranium-235 and natural uranium at 34 and 100 MeV, photoneutron production from, 21: 25544
reactions with water as tissue-equivalent medium, spectral-angular characteristics of, (T), 25:43421(T) (ORNL-tr-2476)
reactions with water at 1 GeV, density effect on longitudinal energy deposition from cascade showers from, (T), 24:10725
reactions with water at 3 to 10 keV, secondary emission from, (E), 25:24851
reactions with water molecules at thermal energies, cross section for electron attachment in, (E), 23:39337
reactions with water molecules, dependence of generalized oscillator strengths on momentum transfer in, (E), 25:55880
reactions with water molecules, generalized oscillator strength for $^1A_1$—$^1B_1$ transition in, (E/T), 23:44184
reactions with water phantoms at 20 MeV, calculation of energy and charge deposition in, 23:50500
reactions with water phantoms, relation between absorbed dose and cavity ionization from, 23:50511
reactions with water vapor at 50 to 6000 eV, cross sections for production of excited hydrogen atoms in, (E), 23:20676
reactions with water vapor at 8 to 55 eV, detection and identification of triplet states excited by, (E), 25:19499
reactions with water, distribution of energy deposition for cascade showers induced by 1-GeV, (E), 23:48701
reactions with water, LET for, 23:8006 (ZFK-128)
reactions with water, secondary emission in, (E), 24: 44978
reactions with xenon at 400 eV, generalized oscillator strengths from differential excitation cross sections for, (E/T), 22:52539
reactions with xenon at 8 to 40 eV, threshold excitation and ionization spectra for, (E), 23:48743
reactions with xenon atoms, excitation cross sections for, (E), 22:21857
reactions with xenon fluorides (XeF_6 and XeF_4) at low energies, dissociative electron attachment and excitation in, (E), 23:48750
reactions with xenon, alignment of ionic ground state in, 22:31639
reactions with xenon, cyclotron resonance absorption from, 21:37127
reactions with xenon, exchange collisions between ionic ground state and neutral metastable state formed in, 21:41756 (UCRL-17342)
reactions with xenon, excitation of the 1470 A resonance line by, (E), 22:41312
reactions with xenon, threshold excitation of 5s electron in, (E), 24:3185
reactions with xenon, time correlation of photon emission after excitation by, (T), 23:8479
reactions with xenon-131 with metastable excitation, nuclear alignment through atomic collisions in, (E), 21:35468
recombination in negatively charged solid particles, 21: 43862
recombination of F2 layer, with O_2^+ ions, relation of dissociative, to heating mechanism, 25:7268
recombination of ionospheric, with O_2^+ ions in aurorae, (E), 23:34335
recombination with carbon dioxide ions in Martian ionosphere, (E/T), 21:33190
recombination with helium ions in afterglow of helium discharge, (E), 21:7233
recombination with ions in astrophysical situations, calculation of rates of, 23:18403
recombination with ions in ionosphere during recovery from excess ionization, 23:1265 (SC-DC-68-2407)
recombination with ions in ionosphere E region, effective coefficient for, 22:19883
recombination with ions in laser-produced hydrogen plasma, (E/T), 21:3845
recombination with molecular helium ions in helium afterglow plasmas, (E), 22:26426
recombination with oxygen ions (O_2^+ and O_4^+), temperature dependence of coefficient for, (E), 22: 47806
reflection and transmission by aluminum shields, review of data on, 25:14396 (N-70-37470)
reflection by magnetic fields, photon radiation from, (T), 25:11679
reflection by silicon and molybdenum single crystals at 50 to 1000 eV, fine structure in coefficients of, (E/T), 24:6644
reflection by standing light waves, (T), 21:25285
reflection by tungsten (100) and (110) faces at 0.3 to 3 keV, (E), 25:24841
reflection from aluminum, germanium, copper, and gold, energy loss spectra from, 21:43766
reflection from nickel (001) surfaces, surface atom displacement from 1.0- to 600-eV, (E), 25:12017
reflection from niobium(100) surfaces at 11 to 500 eV, 25:17276
reflection from or transmission through elemental foils, angular distributions and energy spectra of, 21:813 (AD-640865)
reflection of fast, diffusion approximation for calculation of, 22:50056
relation of energetic, to solar s component radio emission, (T), 24:51344
relation of exo-, to thermoluminescence glow curve, 21: 183
relativistic Slater integrals for K and L shell, (T), 21: 33170
relaxation times of radiolytic, in alkaline ice, effects of oxygen on, 23:35214
renormalization constants for, quantized tensor gravity for finite and gauge-invariant computation of, 25: 22708 (IC-71/3)
research on, in Japan, index of papers in Busseiron—Kenkyu (1943 to 1962) on, 21:12385 (UCRL-14288)
role in γ-radioinduced inactivation of lysozyme, 24: 16971
rotation of many-body system of, observability of spin change of spinors under 2π, 21:37643
scanning system for measuring dielectric properties of ceramic materials, 22:12184 (SC-CR-67-2825)
scattering above 1 MeV, graphical approximation of Moliere theory for multiple, 24:21956
scattering and penetration in matter, Monte Carlo calculation of, 21:7030
scattering and transmission at 0.075 to 1.0 MeV on aluminum and stainless steels, 22:41291 (N-68-17898)
scattering at 0.5 MeV in thick anodes, bremsstrahlung spectra from, (E), 21:24905
scattering at 0.5, 1, and 2 MeV in thick targets, depth dose distributions, (E), 22:11220
scattering at 1 eV to 1 MeV, spin polarization effects in elastic, (E/T), 24:30154 (IPP-7/1)
scattering at 5 to 54.4 eV by helium atoms, calculation of S-wave phase shifts for, 22:43883
scattering at 50 keV in thin aluminum foils, energy spectra for, (E), 22:9077
scattering at 50, 100, and 200 keV in thin foils of aluminum, nitrogen, and silver, multiple, (T), 21:28992
scattering at 900 eV by heavy metal foils, spin polarization after elastic, (E), 21:28966
scattering at high energies, review of experiments on inelastic, 22:22271 (CONF-670923-, pp 128-55)
scattering at large angles, characteristic energy losses from back-, (T), 25:49705
scattering at large angles, magnet design for studying, 23:8878 (TID-24667, pp 207-9)
scattering at non-normal incident angles on metal surface, anomalous skin effect in specular, (T), 22: 50236
scattering at small angles at 20 keV to 1 MeV, convolution and deconvolution problems in plural, 23: 14602
scattering by 2.7 °K thermal background photons, diffuse cosmic x rays from inverse Compton, 23:51343
scattering by 2s1d-shell nuclei, form-factor calculations using projected Hartree—Fock wave functions, (T), 22:9968
scattering by A = 3, 4, 16, 40, and 48 nuclei, form-factor calculations using cluster expansion and correlated basis functions, (T), 25:33969
scattering by A = 50 to 198 nuclei in giant resonance region, partial wave calculation of cross sections for inelastic, (T), 23:1851
scattering by air and nitrogen, density determinations in rarefied flow by, 21:31234
scattering by aligned and randomly oriented holmium-165 at 160.6 to 462.2 MeV, Born-approximation analysis of excitation functions for, (E), 25:25734
scattering by aligned holmium-165 nuclei, differential cross sections for elastic, (E), 23:23740
scattering by alkali metal vapors at low energies, review of elastic, (E), 24:32666
scattering by alkali metals at low energies, review of calculations on elastic, 24:19754
scattering by alkali metals, polarized-orbital method for calculation of elastic, 25:47338
scattering by aluminum and gold at 0.2, 1.0, and 2.0 MeV, differential cross sections for inelastic, (E), 25: 38153
scattering by aluminum and polystyrene at 5 to 30 keV, angular distribution of, 25:17257 (NIRS-9, pp 1-14)
scattering by aluminum at 0.25 and 0.5 MeV, energy spectra, angular distributions, and coefficients for back- , 24:29546
scattering by aluminum barriers at 0.4 to 2.0 MeV, angular and energy distributions from, (T), 25:4938
scattering by aluminum foils at 1 MeV, cross section angular distribution of Coulomb, (E), 24:43202
scattering by aluminum single crystals at 40 to 100 keV, mean free path for plasmon excitation in, (E), 21: 42177
scattering by aluminum, beryllium, copper, gold, and silver at 4 to 8 keV, Z dependence of differential cross sections for, (E), 21:34008
scattering by aluminum, cadmium, copper, and lead at 10 to 20 MeV, coefficients for back-, 23:7760
scattering by aluminum, copper, and silver, energy distribution of 1-MeV, 21:621
scattering by aluminum, copper, gold, and tin, bremsstrahlung production cross sections from, 21: 24891 (NASA-CR-759)
scattering by aluminum, copper, lead, and silver foils at 100 to 1300 keV as function of foil thickness and incidence angle, single, plural, and multiple elastic, (E), 25:9225
scattering by aluminum, electron energy loss spectra for 23- to 70-keV, (E/T), 22:43926
scattering by aluminum-27 and silicon at 25 to 60 MeV, differential cross sections for, (E), 24:13329
scattering by aluminum-27 at 2.5 to 6 GeV, one-photon-exchange for form factors for inelastic, (T), 21:21192
scattering by aluminum-27 at 300 keV with bremsstrahlung production, cross section for, (E), 24: 28760
scattering by aluminum-27 at 80 to 200 MeV, elastic, (E/T), 21:7743
scattering by aluminum-27 at 80 to 90 MeV, cross sections and spectra for elastic and inelastic, (E), 21: 42586
scattering by aluminum-27, copper, gold, and silver at 3.2 to 14.1 MeV, angular distributions in transmission measurements on, (E), 22:44744
scattering by aluminum-27, phosphorus-31, and sulfur-32 at high energy, (T), 21:42585
scattering by argon and helium, low-energy total and momentum-transfer cross sections for, (T), 21:2038
scattering by argon and neon at 0 to 1 rydberg, polarized-orbital calculations of total cross sections for elastic, 25:52674
scattering by argon and neon at low energies, effective cross sections for elastic, (T), 25:9237
scattering by argon and nitrogen at 20 to 100 keV, plural and multiple, (E/T), 24:10394
scattering by argon at 10 keV, multiple ionization from inelastic, (E), 25:58754
scattering by argon metastable atoms at 0.35 to 6.75 eV, total cross sections for, (E), 25:24891
scattering by argon metastable atoms at low energies, total cross sections for, (E), 25:11706
scattering by argon plasma at 25 keV, angular distributions from, (E), 25:11879
scattering by argon, classical calculation of cross sections for elastic, 24:12643
scattering by argon, helium, and neon at low energies, analysis of data on, 22:21876
scattering by argon, helium, and nitrogen at 13, 23, and 43 keV, total cross sections for, (E), 25:991
scattering by argon, krypton, and mercury at low energies, effects of electron exchange and polarization of shell electrons on spin polarization and differential cross sections for elastic, (T), 24:6362
scattering by argon, krypton, and xenon, calculation of differential cross sections for elastic, using potential-scattering model, 25:11722
scattering by argon, krypton, neon, and xenon at 40 kV, cross sections for, (E/T), 22:5108
scattering by argon, neon, and xenon shock-heated at 8000 to 15000°K, cross sections for neutral bremsstrahlung from, (E), 23:27351 (AD-681158)
scattering by argon, nitrogen, and oxygen, shock-tube measurements of cross sections for, 21:2039
scattering by argon-40 at 40 to 60 MeV, cross section for, (E), 25:31272
scattering by argon-40 at 78 to 120 MeV, differential cross sections for, (E), 25:53685
scattering by asymmetric potentials, general theory of elastic, 21:37119
scattering by at 3.5 to 500 eV, exchange and relativistic effects on differential cross sections and spin polarizations for, (T), 23:22875
scattering by atmospheric gases at 15 eV to 40 keV, review of inelastic, 24:35201
scattering by atomic and molecular oxygen, absolute measurements of total cross sections for, 21:16782 (AD-639196)
scattering by atomic and molecular oxygen, total cross sections for low-energy, (E), 21:16816
scattering by atomic helium, polarization effects in elastic, (T), 21:24893
scattering by atomic hydrogen, modified close-coupling approximation for, (T), 21:18438
scattering by atomic hydrogen, S-wave amplitude of triplet, 22:44507
scattering by atomic potentials, low-energy, 21:5084
scattering by atomic systems at m;w energies, random phase approximation for elastic and inelastic, 25:52640
scattering by atomic systems, resonant, (T), 21:11459
scattering by atomic systems, theory for, 22:9054
scattering by atoms $0 < Z < 55$ at 10 to 100 keV, amplitudes for elastic, (T), 22:5134
scattering by atoms and ions having two valence electrons, configuration-interaction calculations of, 25: 2918
scattering by atoms and ions with 2p/sup q/ and 3p/sup q/ configurations, theory of, 21:35011 (N-67-18195)
scattering by atoms and ions, computer program for asymptotic solution of coupled second-order differential equations for, 24:6368
scattering by atoms and ions, computer program for calculation of collision strengths for, from stored reactance matrices, 24:32656
scattering by atoms and ions, computer program for calculation of cross sections for, 25:2903
scattering by atoms and molecules, 24:36265(R) (CALT-767-P-4-63)
scattering by atoms and molecules, calculation using many-body Green-function techniques for elastic, 24: 21583
scattering by atoms and molecules, electrostatic analyzer for studying, 24:46545
scattering by atoms and molecules, general proof of Lassettre's theorem concerning, 24:49035
scattering by atoms and molecules, generalized random phase approximation for calculation of inelastic, 25: 19507

scattering by atoms and molecules, low-energy, 22: 48872(R) (CALT-532-37)
scattering by atoms and molecules, low-energy, 21: 40813(R) (CALT-532-15)
scattering by atoms and molecules, perturbation theory for Feshbach resonances in, 21:23013
scattering by atoms and molecules, relation between cross sections, ionization yields, and loss functions in, (T), 23:5229
scattering by atoms and molecules, review of electron-beam studies of elastic and inelastic, 24:21592
scattering by atoms and molecules, review of meaning and research applications of quasi-free, 24:39870
scattering by atoms and molecules, review of models and interpretations of resonant processes in, 24:47019
scattering by atoms and molecules, stabilization method for calculation of resonance energies in elastic, 24: 23804
scattering by atoms and molecules, two Channeltron coincidence circuits for determining electronic wave functions from, 23:35498
scattering by atoms and molecules, unified model for resonances in cross sections for, 24:45032
scattering by atoms and molecules, Z dependence of spin polarization of low-energy, (T), 23:1185
scattering by atoms and nonpolar molecules at very low energies, cross-section measurements using cyclotron resonance for, 21:37134
scattering by atoms and positive ions, exchange contribution in, (T), 21:29013
scattering by atoms at 100 to 500 eV, eikonal theory for elastic, 25:49704
scattering by atoms at 25 to 800 eV, tables of amplitudes and spin polarizations for elastic, (T), 25:13995 (AD-711664)
scattering by atoms at 40 keV, calculated total elastic and inelastic cross sections for, 24:6370
scattering by atoms at high energies, linear-response theory of inelastic, 25:9217
scattering by atoms at high energies, optical-potential approach to elastic, (T), 24:3178
scattering by atoms at intermediate energies, (T), 25: 9214
scattering by atoms at intermediate energies, eikonal theory of elastic, 25:52678
scattering by atoms at low energies, central-potential form for, (T), 25:43148
scattering by atoms at low energies, close-coupling method using polarized-orbital expansion for calculation of elastic and inelastic, 25:47339
scattering by atoms at low energies, perturbation calculation of target distortion in, 23:12549
scattering by atoms at low energies, phase shift in first order in long-range potential for, (T), 25:14019
scattering by atoms at low energies, relativistic effects in, (T), 22:962
scattering by atoms at low energies, review of theory of, 24:17664
scattering by atoms at low energies, tables of coefficients for determination of long-range contributions to, 23: 46267
scattering by atoms at low energies, use of local exchange potential in relativistic Hartree—Fock theory of elastic, 25:9237
scattering by atoms at very low energies, relation of Fermi theory of line shifts to elastic, 25:14057
scattering by atoms below 200 eV, comparison between relativistic and nonrelativistic theory for, 22:52535
scattering by atoms having one and two electrons, infinite-channel close-coupling treatment of charge polarization in, 25:11718
scattering by atoms having one electron outside a closed shell, uniqueness of solutions for close-coupling equations for elastic, 24:23789
scattering by atoms having Z = 1 through 57 and 72 through 90 at 10 to 100 keV, factors for, 25:58748
scattering by atoms in keV range, absorptive part of charge polarization corrections in, (T), 24:26020
scattering by atoms in keV range, method for rapid calculation of factors for, 21:37137
scattering by atoms in solids, calculation of cross sections for elastic and inelastic, 24:48986
scattering by atoms near excitation thresholds, effects of long-range forces on cross sections for, (T), 22:21899
scattering by atoms near excitation thresholds, method for asymptotic solutions of equations for, 22:21900
scattering by atoms nonexchange-type integrals for, 24: 12652
scattering by atoms with 2p/sup q/ configurations, calculation of elastic and inelastic cross sections for, 21:28977
scattering by atoms with configurations 2p/sup q/ or 3p/sup q/, formulation for, 23:12550
scattering by atoms, accuracy of x-ray scattering factor in calculation of inelastic, 22:34250
scattering by atoms, adiabatic representation of exchange amplitude for inelastic, (T), 24:32642
scattering by atoms, analytical expression for, 21:18815
scattering by atoms, angular distributions and phase factors for plural, (T), 24:32653
scattering by atoms, Bethe—Goldstone equations in theory of, 21:22985
scattering by atoms, Born approximation excitation cross sections and integrated rate coefficients for, 22: 52474(T) (CLM-Trans-13)
scattering by atoms, calculation of complex factors for, 22:52510
scattering by atoms, close-coupling-approximation calculations of cross sections for, 23:8454
scattering by atoms, complex potentials in theory of, 21: 24917
scattering by atoms, computational procedure for multichannel resonances in, 25:55861
scattering by atoms, cross sections for elastic and inelastic, (T), 25:22350
scattering by atoms, cross-section calculation by variational method including exchange and polarization effects, 21:33210
scattering by atoms, distorted-wave calculations of differential cross sections for inelastic, 24:39872
scattering by atoms, distortion potential derived from many-body perturbation theory for, 23:30350
scattering by atoms, electrostatic analyzer for measuring, 25:44737
scattering by atoms, equivalent potential solutions for, 21:18454
scattering by atoms, estimation of long-range interactions by modified method of strong coupling in, 22: 19739(T) (NP-tr-1613)
scattering by atoms, estimation of resonance widths in, (T), 24:51426
scattering by atoms, evaluation of integrals involved in variational calculations of, 25:1019
scattering by atoms, exchange correction to amplitude for, (T), 23:39330
scattering by atoms, higher Born approximations for elastic, 23:36522
scattering by atoms, independent-particle potential-scattering model for, 24:37257
scattering by atoms, integrals for expansion calculations of, 24:12653
scattering by atoms, ions, and molecules, resonances in cross sections for, review, (T), 23:18404
scattering by atoms, model neglecting correlation between incident and atomic electrons in, 24:3167
scattering by atoms, model potential for calculation of elastic, 24:45054
scattering by atoms, modified least-squares technique for nonrelativistic attractive exponential potential, (T), 25: 53387
scattering by atoms, modified optical-potential approach to, (T), 21:2036
scattering by atoms, molecules, and solids at low energies, review of spin polarization by, (E/T), 23: 27350 (AD-673963)
scattering by atoms, molecules, and solids below 10 keV, review of electron spin polarization in (E/T), 23: 14633
scattering by atoms, multiple solutions of Hartree—Fock equations in, 23:10435
scattering by atoms, optical potential calculations for, 21:37155
scattering by atoms, optical potentials for, 22:13232
scattering by atoms, pair-equation approach to calculations of, 24:6373
scattering by atoms, partial-wave calculation of factors for, 21:20748
scattering by atoms, phase shifts and wave functions for elastic, (T), 21:614
scattering by atoms, polarized-orbital method for, 25: 55871
scattering by atoms, quantum defect theory analysis of resonance structures in, 23:12564
scattering by atoms, quantum mechanical interference for minima in cross sections for inelastic, 24:23822
scattering by atoms, radiative decay after coherent excitation by, 21:16785 (UCRL-17286)
scattering by atoms, relation to atomic many-body effects, (T), 21:20763
scattering by atoms, resonances in, (T), 21:592 (AD-629001)
scattering by atoms, resonances in, (T), 21:7019
scattering by atoms, review of theory of, 24:28113
scattering by atoms, review of theory of inelastic, 24: 32667
scattering by atoms, review of uses of polarized electrons in study of, 23:36468
scattering by atoms, single-particle formulation of, including strong correlation effects, 25:4966
scattering by atoms, statistical-model calculations of form factors for, 25:40385
scattering by atoms, T-matrix formalism for treatment of charge polarization in elastic, 25:30280
scattering by atoms, threshold law for excitation of ns-n's transitions in, (T), 23:20723
scattering by barium-138 at 200 and 500 MeV, differential cross sections for, (E), 25:59793
scattering by beryllium and carbon at 53 MeV, cross sections for elastic, (E), 21:42563
scattering by beryllium and lead at 0.1 to 5 keV and at high angles of incidence, (E), 21:18814
scattering by beryllium and lead at 0.2 to 0.8 keV at large angles of incidence, inelastic, (E), 21:37133
scattering by beryllium foils at high energies, calculation of distribution function for multiple, 22:17379
scattering by beryllium ions and lithium, calculation by method of polarized orbitals, 22:43879
scattering by beryllium-7 and lithium-7, angular distributions for inelastic, (E), 23:44846
scattering by beryllium-9 and carbon-12 at 70 MeV, nuclear radii from elastic, (E), 21:2622
scattering by beryllium-9 and carbon-12 at 750 MeV with proton emission, proton energy spectra and momentum distributions for quasielastic, (E), 24:52415 (INSJ-122)
scattering by beryllium-9 at 25 to 58 MeV, differential cross sections for inelastic, (E), 23:3950
scattering by beryllium-9 at 300 to 700 MeV at 28 to 100°, form factor from cross sections of elastic, (E), 24:8852
scattering by beryllium-9 at 340 MeV, form factors for elastic and inelastic, (E), 21:25456
scattering by beryllium-9 at 340 MeV, form factors for, (E), 21:19175 (LAL-1165)
scattering by beryllium-9 at 42, 58, and 68 MeV, excitation functions and electron energy distributions for inelastic, (E), 22:24831
scattering by beryllium-9 at 50 to 500 MeV, energy levels from inelastic, (E), 21:35420
scattering by beryllium-9, boron-10, boron-11, and lithium-7, M3 form factors for, (T), 22:26912
scattering by beryllium-9, boron-11, calcium-40, carbon-12, lithium-6, lithium-7, magnesium-24, oxygen-16, and silicon-28, inelastic, (E), 22:20472
scattering by beryllium-9, carbon-12, lanthanum-139, niobium-93, silicon-28, and yttrium-89, elastic and inelastic, (E), 22:26911
scattering by beryllium-9, carbon-12, neon-20, and oxygen-16 at 70 to 250 MeV, form factors for inelastic, (E), 25:38885 (JAERI-1205, pp 71-7)
scattering by beryllium-9, carbon-12, nickel-58, nickel-60, oxygen-16, and titanium-46, angular distributions and form factors for inelastic, (E), 24:20332
scattering by beryllium-9, carbon-12, nickel-60, oxygen-16, and titanium-46, form factors for inelastic, (E), 24: 20324
scattering by beryllium-9, carbon-12, oxygen-16, and silicon-28, inelastic, (E/T), 22:37299
scattering by beryllium-9, elastic, 23:40138
scattering by beryllium-9, excitation function for inelastic, (E), 22:27380
scattering by beryllium-9, form factor calculations using projected Hartree—Fock method for elastic and inelastic, (T), 23:21287
scattering by beryllium-9, form factor for inelastic, (T), 21:2626
scattering by beryllium-9, form factors for elastic and inelastic, (T), 25:53618
scattering by beryllium-9, inelastic, (E), 21:5593
scattering by beryllium-9, lithium-6, and lithium-7 at high energy, elastic and inelastic, (E), 22:14116
scattering by beryllium-9, lithium-6, and lithium-7 at high energies, cluster model calculation of form factors for inelastic, (T), 23:30952
scattering by beryllium-9, lithium-6, and oxygen-16, inelastic, (E), 22:53095 (BMwF-FBK-68-11)
scattering by bismuth at 300 eV, exchange effects in calculation of spin polarization and differential cross sections for elastic, 24:23807
scattering by bismuth atomic beam at 5 to 1200 eV, angular distributions in elastic, (E), 22:47839
scattering by bismuth-209 at 50 to 150 MeV, effect of proton charge halo on elastic, (T), 23:25912
scattering by bismuth-209, lead-206, lead-207, and lead-208 at 28 to 70 MeV, cross sections for inelastic, (E), 22:20635
scattering by bismuth-209, lead-206, lead-207, and lead-208, inelastic, (E), 21:25518 (WASH-1071)
scattering by bismuth-209, lead-206, lead-207, and lead-208, inelastic, (E), 21:40432 (WASH-1074)
scattering by bismuth-209, lead-206, lead-207, and lead-208 at 28 to 83 MeV, inelastic, (E), 22:42076
scattering by boron-10 and cobalt-59, analysis using phenomenological theory, (T), 24:24635
scattering by boron-10, orientation effects in elastic and inelastic, (T), 24:52432
scattering by boron-11 at 100 to 300 MeV, angular distributions and spectra from, (E/T), 25:36672 (LAL-1243)
scattering by boron-11, aluminum-27, and silicon-28 at 600 to 1150 MeV, quasi-elastic and inelastic, (E), 25: 33963
scattering by bound electrons and nuclei, effects of energy loss on longitudinal depolarization from, 22: 34287
scattering by bound states, general eigenvalue theory of, 24:45050
scattering by cadmium-111, indium-113, indium-115, mercury-199, and strontium-87 with isomeric excitation, (E), 21:27593
scattering by calcium isotopes and helium-4 at high energies, review of elastic, (E), 22:50675
scattering by calcium isotopes at 250 and 500 MeV, analysis for nuclear charge distributions, (E), 22:53152
scattering by calcium isotopes at 750 MeV, dynamical deformations in charge distributions from, (E/T), 24: 52505
scattering by calcium-40 and -48 at 40 to 60 MeV, angular distributions and form factors for elastic and inelastic, (E), 24:10976
scattering by calcium-40 and -48 at 750 MeV, differential cross sections for, (E), 21:38263
scattering by calcium-40 and -48, model analysis of quasi-elastic, (E/T), 24:47632
scattering by calcium-40 and calcium-48 at 20 to 60 MeV, elastic and inelastic, (E), 24:18396
scattering by calcium-40 and calcium-48 at 283 MeV, excitation functions for inelastic, (E), 23:1868
scattering by calcium-40 and calcium-48 at 500 MeV, elastic, 23:23645 (AD-675038)
scattering by calcium-40 and calcium-48, cross sections for elastic and inelastic, (E), 23:28304 (WASH-1124)
scattering by calcium-40 and oxygen-16 with monopole excitation, inelastic, (T), 21:31718
scattering by calcium-40 and oxygen-16, monopole matrix elements and transition radii for inelastic, (T), 23:25837
scattering by calcium-40 at 183 and 250 MeV, Born approximation, cross sections, and charge distributions from elastic, (T), 25:5661
scattering by calcium-40 at 183 and 250 MeV, differential cross sections for, (E), 25:7842
scattering by calcium-40 at 250 and 750 MeV, radial variations of charge density from direct analysis of elastic, (T), 24:15862
scattering by calcium-40 at 250 MeV, Hartree—Fock calculations of angular distributions from elastic, (T), 25:36712
scattering by calcium-40 at 250 MeV, nuclear charge distribution from, (E), 21:5348
scattering by calcium-40 at 60 MeV, angular distributions for inelastic, (E), 23:1882 (WASH-1093)
scattering by calcium-40 at 60 MeV, spectra for inelastic, (E), 22:20578 (WASH-1079)
scattering by calcium-40 at 750 MeV, differential cross sections for elastic, (T), 22:22562
scattering by calcium-40 at 750 MeV, short-range correlations in elastic, (E/T), 24:30739

scattering by calcium-40, -42, -44, titanium-46, -48, -50, and iron-56 at 198 to 300 MeV, differential cross sections for inelastic, (E), 25:36695
scattering by calcium-40, calcium-42, calcium-44, calcium-48, and titanium-48 at 250 MeV, elastic, (E), 23:23645 (AD-675038)
scattering by calcium-40, carbon-12, magnesium-24, silicon-28, and sulfur-32 at 28 to 60 MeV, electron spectra from inelastic, (E), 24:45770
scattering by calcium-40, carbon-12, magnesium-24, silicon-28, and sulfur-32 at 30 to 60 MeV, cross sections for inelastic, (E), 23:1795
scattering by calcium-40, carbon-12, oxygen-16, silicon-28, and sulfur-32, calculation of form factors for inelastic, (T), 25:10010
scattering by calcium-40, carbon-12, oxygen-16, silicon-28, and sulfur-32 at 0 to 300 MeV/c, E1 and M2 matrix elements for, (T), 22:26926
scattering by calcium-40, magnesium-24, and magnesium-26 up to 60 MeV, cross sections for inelastic (E), 24:35837
scattering by calcium-48 at 750 MeV, radial variations of charge density from direct analysis of elastic, (T), 24:15862
scattering by carbon 12, independent-particle models for quasi-elastic, 22:48286
scattering by carbon and fluorine, estimation of resonance widths in, (T), 24:51426
scattering by carbon and oxygen at high energies, 24:24297
scattering by carbon at 1 to 5 GeV, test of sum rules from Cherenkov and scintillation counter study of, (E), 22:3238
scattering by carbon at 20 to 80 MeV, form factor for elastic, (E), 25:22962(R) (NP-18497)
scattering by carbon dioxide and dipolar gases at very low energies, cross-section measurements using cyclotron resonance for, 21:37139
scattering by carbon dioxide below 20 eV, compound-state formation and vibrational excitation in, (T), 24:32662
scattering by carbon dioxide, carbon monoxide, and nitrous oxide at 0.01 to 0.1 eV, cross sections for momentum transfer and rotational excitation in, (T), 24:51432
scattering by carbon films at 30 to 80 keV and at small angles, (E/T), 24:44990
scattering by carbon monoxide and nitrogen molecules at 300, 400, and 500 eV, absolute differential cross sections for, (E), 24:23813
scattering by carbon monoxide, helium, and nitrogen molecules at 500 eV, absolute differential cross sections for elastic, (E), 23:30340
scattering by carbon, aluminum-27, nickel, molybdenum, and tungsten at 1178 MeV with pion production, cross section and spectra for inelastic, (E), 24:33119
scattering by carbon, copper, and gold thin targets at 0.1, 0.2, 0.4, and 3.0 MeV, energy spectra from inelastic, (E), 25:7139
scattering by carbon, nitrogen, and oxygen atoms at low energies, calculation of cross sections for elastic and inelastic, 23:12550
scattering by carbon-12 above the one-particle threshold, inelastic, (T), 24:35814
scattering by carbon-12 and -13 at 40 to 65 MeV, differential cross sections for inelastic, (E), 22:5775
scattering by carbon-12 and calcium-40 in a square-well shell model, quasielastic, (T), 25:3577
scattering by carbon-12 and oxygen-16 at 183 and 250 MeV, form factors for inelastic, (E), 23:19182
scattering by carbon-12 and oxygen-16 at 375 and 750 MeV, cross sections and charge distribution from elastic, (E), 25:3587
scattering by carbon-12 and oxygen-16 at 600 to 800 MeV, alpha-particle model analysis of, (E/T), 24:52452
scattering by carbon-12 and oxygen-16 at $q = 1$ to $4F^{-1}$, cross sections for elastic, (E/T), 25:7805 (AD-707047)
scattering by carbon-12 and oxygen-16 in giant resonance region, analysis using continuum model, (T), 24:38103 (RLO-1388-567)
scattering by carbon-12 and oxygen-16 in giant resonance region, analysis using continuum model, (T), 24:24507
scattering by carbon-12 and oxygen-16 in giant resonance region, analysis using continuum model, (T), 23:1807
scattering by carbon-12 and oxygen-16, cross-section calculations using independent-particle model for inelastic, (T), 23:28245 (LAL-1208)
scattering by carbon-12 and oxygen-16, form factors for elastic, (T), 25:25643 (RLO-1388-597)
scattering by carbon-12 and oxygen-16, form-factor calculations using Woods-Saxon potential with finite-range residual interaction for inelastic, (T), 22:5888
scattering by carbon-12 and oxygen-16, giant resonance excitation from, (T), 22:3638
scattering by carbon-12 and silicon-28 at 690 to 1115 MeV at 16 to 40°, quasi-elastic scattering in inelastic, (E), 24:20063
scattering by carbon-12 at 1 to 4 GeV, cross sections for meson production and quasi-elastic scattering from inelastic, (E/T), 25:33980
scattering by carbon-12 at 100 and 200 MeV, form factors from elastic, (E), 21:17307
scattering by carbon-12 at 100 to 200 MeV, energy levels from inelastic, (E), 22:18143
scattering by carbon-12 at 100 to 200 MeV, inelastic, (E), 21:1032
scattering by carbon-12 at 100 to 800 MeV, form factors for elastic and inelastic, (T), 23:1799
scattering by carbon-12 at 112 to 390 MeV, differential cross sections for, (E), 22:1604
scattering by carbon-12 at 115 and 200 MeV, spectra from inelastic and quasi-elastic, (E), 23:39970
scattering by carbon-12 at 120 to 220 MeV/c, elastic and inelastic, (E), 21:27526 (SAL-6)
scattering by carbon-12 at 17 to 37 MeV excitation, sum rules for inelastic, (E/T), 25:7809
scattering by carbon-12 at 17 to 37 MeV, form factors for inelastic, (E), 25:33991
scattering by carbon-12 at 177 and 250 MeV, excitation of the giant resonance in inelastic, (E), 24:30706
scattering by carbon-12 at 190 MeV/c, electron spectra from quasielastic, (E), 24:43134
scattering by carbon-12 at 200 MeV, form factors and spectra in giant resonance region from inelastic, (E/T), 25:20296
scattering by carbon-12 at 200 MeV, nuclear structure probed by inelastic, (E/T), 24:30875
scattering by carbon-12 at 250 MeV, longitudinal and transverse form-factor spectra for inelastic, (E), 25:5572
scattering by carbon-12 at 250 MeV, spectra from inelastic, (E), 25:53617
scattering by carbon-12 at 375 MeV, differential cross sections for elastic, (E), 25:45913 (CEA-N-1390, pp 139-98)
scattering by carbon-12 at 400 to 1100 MeV with π-meson production, electron spectra from inelastic, (E), 24:6833
scattering by carbon-12 at 50 to 70 MeV, cross sections and form factors for inelastic, (E), 23:32904
scattering by carbon-12 at 500 to 1000 MeV, inelastic form factors for quasielastic, (E), 23:5819
scattering by carbon-12 at 52 to 102 MeV, matrix elements for, (E), 24:20334
scattering by carbon-12 at 53 MeV, cross section for elastic, (E), 21:38242
scattering by carbon-12 at 580, 805, and 968 MeV, cross sections for, (E), 23:25815
scattering by carbon-12 at 60 to 100 MeV with giant resonance excitation, cross section for, (E), 22:41963
scattering by carbon-12 at 63.7 MeV, spin and parity of 19.4-MeV level from, (E), 22:15959
scattering by carbon-12 at 8.5 MeV, differential cross section and spectra for, (E), 21:40378
scattering by carbon-12 at high energies, single-particle wave functions from, (T), 22:7653
scattering by carbon-12 at high energy, analysis using oblate deformed model, (T), 25:59729
scattering by carbon-12 at high energy, calculations using projected Hartree—Fock wave functions for elastic, (T), 22:46718 (ISS-68/17)
scattering by carbon-12 at high energy, energy spectra from quasi-elastic, (E), 25:17742
scattering by carbon-12 at high energy, form factors for inelastic, (T), 21:38249
scattering by carbon-12 at high momentum transfer, form factors for inelastic, (E), 22:53121
scattering by carbon-12 in helium plasma, electromagnetic de-excitation from inelastic, 21:41740
scattering by carbon-12 up to 643 MeV/c, energy levels from inelastic, (E), 21:23439
scattering by carbon-12 with 15.1-MeV level excitation, inelastic, (T), 24:43127
scattering by carbon-12 with giant resonance excitation, particle—hole calculation of cross section for inelastic, (T), 23:7231
scattering by carbon-12 with nucleon emission, analysis using multipole expansion, (T), 23:52174
scattering by carbon-12 with proton emission, radiative corrections in quasi-elastic, 25:43979
scattering by carbon-12, -13, nitrogen-14, and oxygen-16 at 30 to 60 MeV, cross sections for, (E), 25:31219
scattering by carbon-12, calculation using wave functions of Hartree—Fock single-particle orbitals of undefined parity, (T), 22:48604
scattering by carbon-12, calculations using projected Hartree—Fock wave functions for form factors of elastic, (T), 23:1816
scattering by carbon-12, effects of short-range correlations on form factors for elastic, (T), 22:29906 (ISS-67/49)
scattering by carbon-12, form factor for elastic, (T), 21:38232 (ISS-67/14)
scattering by carbon-12, form factors for inelastic, (E), 22:18130
scattering by carbon-12, form factors for inelastic, (E), 25:45923
scattering by carbon-12, giant resonance in inelastic, (T), 21:9949
scattering by carbon-12, harmonic-oscillator shell model analysis of inelastic, (T), 24:35829
scattering by carbon-12, helium-4, and oxygen-16, quasi-elastic contribution to cross sections for, 23:5961
scattering by carbon-12, inelastic, (E), 21:13803 (AD-639800)
scattering by carbon-12, lead-208, and nickel at 500 MeV and 60°, cross sections, nuclear Fermi momentum, and average nucleon interaction energy from quasi-elastic, (E), 25:25674
scattering by carbon-12, lithium-6, and oxygen-16, nucleon—nucleon correlation corrections to form factors for elastic, (T), 23:15378
scattering by carbon-12, lithium-6, and oxygen-16, effect of short-range nucleon—nucleon correlations on form factors for elastic, (T), 23:10940 (LNF-68/48)
scattering by carbon-12, magnesium-26, and silicon-28 in giant resonance region, Coulomb-distortion corrections to inelastic, (E/T), 23:10953
scattering by carbon-12, meson exchange effects on form factors for inelastic, 24:49398
scattering by carbon-12, meson exchange effects on form factors for, (T), 24:52433
scattering by carbon-12, meson exchange-current effects on form factors for, (T), 24:30867 (CEA-R-3960)
scattering by carbon-12, nickel-58, nickel-60, and oxygen-16, form factors for inelastic, 24:20331
scattering by carbon-12, oxygen-16, and silicon-28, form-factor calculations using isotensor dipole sum rules, (T), 25:56868
scattering by carbon-12, oxygen-16, and silicon-28 at 140 MeV with giant resonance excitation, magnetic quadrupole strength in inelastic, (E/T), 22:50596
scattering by carbon-12, short-range dynamical correlations in elastic, (T), 22:35241
scattering by carbon-13 at 120 to 750 MeV, cross sections for elastic, (E), 25:17770
scattering by carbon-13 at 250 MeV, differential cross sections for elastic, (E), 22:1611
scattering by carbon-13 at 36 to 65 MeV, electron spectra from inelastic, (E), 24:15815
scattering by carbon-13 at 36 to 65 MeV, spectra from inelastic, (E), 24:35824
scattering by carbon-13 at 40 to 125 MeV, differential cross sections and form factors for elastic and inelastic, (E), 25:17721
scattering by carbon-13 up to 20 MeV, form factors for carbon-13 energy levels from inelastic, (E), 25:36682
scattering by carbon-13, cross section and form factors for elastic, (E), 25:12376 (AD-710383)
scattering by carbon-13, form factors for elastic and inelastic, (E), 24:43133
scattering by carbon-13, particle—core coupling-model analysis of inelastic, (E/T), 23:44843
scattering by carbon-13, rms charge radius ratio for carbon-13 to carbon-12 from elastic, (E), 25:36682
scattering by central field at high energies, Dirac equation for, 21:17075
scattering by central potential in Dirac theory, 22:9548
scattering by central potential, in Dirac theory, 22:9552
scattering by cerium-140 at 50 and 60 MeV, energy spectra from inelastic, (E), 25:10046
scattering by cesium, potassium, and rubidium at 0.3 to 9 eV, absolute total cross sections for, (E), 25:19506
scattering by charged and neutral particles, equipment and method for magnetoplasma transient-response studies of, 23:32156(R) (ORO-3027-15)
scattering by collodion foils, angular, 23:11995(R) (ORO-2832-74)
scattering by complex atomic systems, (T), 23:3279
scattering by complex atoms, procedure for calculation of, (T), 25:24900
scattering by complex materials, calculation of effective atomic number for back-, 25:11674
scattering by complex nuclei at high energy, quasi-elastic, (T), 21:2790
scattering by condensed media, nonrelativistic theory of back-, 25:13961
scattering by copper and platinum around 1 MeV, cross sections for, 23:34733 (AD-681054)
scattering by copper single crystals, energy distributions in, 21:18802(R) (ORO-2755-17)
scattering by copper-63 at 80 MeV, electron spectra from inelastic, (E), 25:22962(R) (NP-18497)
scattering by cosmic-background microwaves, (T), 24:3206
scattering by cosmic-background microwaves, Compton, (T), 24:1239
scattering by Coulomb field at high energies, dynamic symmetry for, 22:44471
scattering by crystals and ions, induced bremsstrahlung effect on relativistic, (T), 21:3694
scattering by crystals at 20 to 40 keV, energy losses in elastic, (E/T), 21:13366
scattering by crystals at liquid-He temperatures, 21:46149
scattering by crystals at low energies, three-dimensional Kronig—Penney potential treatment of, 24:30136
scattering by crystals of fast, calculations for phonon, 25:36280
scattering by crystals, diffraction intensity of low-energy, (T), 21:825
scattering by crystals, monochromatization of bremsstrahlung spectra from, (T), 21:5076
scattering by deformed nuclei, phenomenological theory for, 24:24635
scattering by deuterium and hydrogen molecules at low energies, rotational resonances in, (T), 23:10450
scattering by deuterium at 38, 70, and 90 MeV, cross sections for inelastic, (E), 23:5804
scattering by deuterium at high energy, electric and magnetic contributions to elastic, (E), 21:33878
scattering by deuterium up to 100 MeV with breakup, analysis for Coulomb effects in inelastic, (T), 24:15813
scattering by deuterium, data analysis for neutron electric form factor, (T), 22:44602
scattering by deuterium, elastic form-factor calculation using shell model with nucleon correlations, (T), 23:30927
scattering by deuterium, helium-3, helium-4, and tritium, sum rule for, (T), 24:52409
scattering by deuterons, low momentum transfer neutron form factors from inelastic, (T), 21:12088
scattering by diamonds at high energies, angular distribution of bremsstrahlung from, (T), 22:39334
scattering by diatomic closed-shell molecules at low energies, general computer code for study of, 25:16823
scattering by diatomic molecules at intermediate energies, quantum mechanical model for elastic, 24:35191
scattering by diatomic molecules having closed shells, (T), 24:32645
scattering by diatomic molecules in approximation of two short-range potentials, 22:43899
scattering by diatomic molecules, resonance processes in elastic and inelastic, (E/T), 23:22871
scattering by electric fields, second approximation of generalized WKB method for, (T), 25:50031
scattering by electromagnetic waves, mathod of measuring, 22:24046
scattering by electrons, corrections for photon scattering effects in, (T), 21:46146
scattering by elements at 50 to 1200 keV as function of electron energy and target density, back-, (E), 23:18386

scattering by elements, calculation of coefficients for back-, 23:34262
scattering by erbium-167, gold-197, hafnium-179, and iridium-191 at 2.3 to 3.6 MeV, cross sections for inelastic, (E), 25:5637
scattering by ethyl iodide and iodine at 200 to 600 eV, spin polarization from, (E), 23:20719
scattering by ethylene at 35, 50, and 75 eV, large-angle spectra for, (E), 21:13369
scattering by evaporated carbon films, energy loss spectra for 23- to 70-keV, (E/T), 22:43925
scattering by even nickel isotopes and tin isotopes, differential cross sections for elastic, (E), 23:5849
scattering by excited mercury atoms, inelastic, 21:33204
scattering by formaldehyde at 250 eV, oscillator strengths for transitions in inelastic, (E), 25:35883
scattering by gaseous radioactive krypton, (E), 22:7156
scattering by gases and solids of polarized, cross-section formulas for, 25:58687
scattering by gases, angular distributions in multiple, (E/T), 24:32650
scattering by gases, design of refrigerated target system for measuring, 24:10881
scattering by gold and tungsten single atoms and crystals in eV range, differential cross sections for elastic, (T), 24:19724
scattering by gold foils at 0.255 to 1.38 MeV, effects of foil thickness on asymmetry of Mott, (E), 23:8473
scattering by gold foils at 300 keV, angular distribution of bremsstrahlung from, (E), 22:971
scattering by gold, temperature dependence of large-angle, 21:41806
scattering by gold-197 at 22 to 48 keV using bulk target, polarization in Mott, (E), 25:34137
scattering by graphite, energy distributions in, 21:18802(R) (ORO-2755-17)
scattering by heavy atoms at 100 to 2000 eV, angular and energy dependence of Mott polarization in elastic, (T), 22:5091
scattering by heavy atoms at small angles, calculation of cross sections for, 21:24915
scattering by heavy atoms in foils, intensity shift in small-angle, (T), 21:13372
scattering by heavy nuclei at high energies, study of nuclear collective states from inelastic, (T), 22:3803
scattering by heavy nuclei with γ emission, study of low-lying excited states by inelastic, (T), 25:28491
scattering by helium and hydrogen atoms at 100 eV, 500 eV, and 40 keV, charge-polarization corrections in elastic, (T), 25:30280
scattering by helium and hydrogen atoms, effects of charge polarization on differential cross sections for elastic, (T), 25:11718
scattering by helium and hydrogen atoms, impact-parameter and second-order-Born calculations of cross sections for elastic, 23:48739
scattering by helium and hydrogen molecules at 34 to 100 eV, polarization effects on angular dependence of, (T), 25:43138
scattering by helium and hydrogen, corrections to polarization potential in calculation of, 22:21879
scattering by helium and neon in ground state, calculations using configuration-interaction and Hartree—Fock wave functions for elastic and inelastic, 23:20714
scattering by helium at 0 to 500 eV, calculation of cross sections and phase shifts for elastic, using modified Born approximation, 24:37258
scattering by helium at 0 to 60 eV, performance of energy-moderated high-resolution beta spectrometer for, 25:18762
scattering by helium at 0.04 eV, cross sections and phase shifts for elastic, (T), 25:985
scattering by helium at 1 to 95 eV, extended-polarization-potential calculations of differential cross sections for elastic, 24:37249
scattering by helium at 100 and 700 eV, wave function for evaluation of Glauber amplitude for elastic, 25:35868
scattering by helium at 100 to 400 eV, phase-shift calculations of target-distortion effects in elastic, 23:16668
scattering by helium at 100 to 500 eV, calculation of elastic, using independent-particle potential-scattering model, 24:37257
scattering by helium at 100 to 500 eV, eikonal-theory calculations of elastic, 25:52678
scattering by helium at 19.3 MeV, data-logging measurement of resonant differential, 23:39317
scattering by helium at 19.5 to 24 eV, multichannel resonances in inelastic, (E), 21:18414
scattering by helium at 20 to 60 eV, differential cross sections for excitation in, (E), 23:27354 (CALT-532-39(Vol.2))
scattering by helium at 3.1 to 19.1 eV, differential cross sections from 25 to 145° for elastic, (E), 24:5000
scattering by helium at 3.1 to 19.1 eV, phase-shift analysis of elastic, (T), 24:5001
scattering by helium at 30 eV, spectrum for inelastic, (E), 24:32668
scattering by helium at 50 to 400 eV, differential cross sections for elastic, (E), 25:9222
scattering by helium at 500 eV, exchange and charge-polarization corrections to differential cross sections for elastic, (T), 24:3174
scattering by helium at 800 MeV, relativistic effects on differential cross sections for elastic, (T), 25:17798
scattering by helium at low energies, calculation of Jost function for elastic, 24:15154
scattering by helium at low energies, pair-equation calculation of cross sections and s-wave phase shifts for elastic, 24:6373
scattering by helium at low energies, resonance peak at 19.30 eV in elastic, (E), 24:32668
scattering by helium at low energies, structures in cross sections for, (E), 24:17689
scattering by helium at zero energy, calculation of scattering lengths for elastic, 23:5234
scattering by helium atoms at 100 to 500 eV, plane-wave calculations of differential cross sections for elastic, 25:24902
scattering by helium atoms, calculation of differential and total cross sections for elastic, 24:32640
scattering by helium atoms, calculation using correlated target wave function, elastic, 22:29189
scattering by helium atoms, calculation using Hylleraas product target wave function, elastic, 22:29188
scattering by helium atoms, third-order calculation of differential cross sections for forward elastic, 25:52648
scattering by helium excited- and ground-state atoms at low energies, close-coupling calculation of cross sections for elastic and inelastic, 23:32188
scattering by helium ions, close-coupling calculation showing resonances in, 23:18406
scattering by helium ions, pseudopotential approach to calculations on ¹S and ³S elastic, 23:20696
scattering by helium metastable atoms at low energies, cross sections for elastic, (T), 23:46276
scattering by helium up to 20 eV, expansion calculations of cross sections for elastic, 23:16634
scattering by helium, angular dependence of inelastic, (E), 21:28964
scattering by helium, Born cross sections for elastic, (T), 22:29184
scattering by helium, differential cross sections calculated using static field and dipole polarization plus exchange and plane wave approximations for elastic, 23:32167
scattering by helium, excitation cross sections for, (E), 21:16789
scattering by helium, excitation of 2'S and 2'P states in, 23:47455(R) (CALT-767-P-4-54)
scattering by helium, Glauber-theory calculations of differential cross sections for elastic, 24:28094
scattering by helium, hydrogen ions (H^-), and lithium ions (Li^+), Born factors for elastic, 24:28077 (ANL-7615, pp 209-13)
scattering by helium, modified optical-potential approach to, (T), 21:2036
scattering by helium, neon, and argon, slow, (E/T), 22:2812
scattering by helium, phase-shift calculations below 1 eV for, 21:5084
scattering by helium, s-wave phase shift near 73.5-eV resonance in elastic, (T), 25:4961
scattering by helium-3 and -4 at 56 MeV and 180°, elastic, (E), 23:39928
scattering by helium-3 and -4 at 56 MeV, electron spectra and cross section at 180° for inelastic, (E), 24:52402
scattering by helium-3 and tritium at high energy, form factors for, (T), 21:42557
scattering by helium-3 and tritium, effects of short-range nucleon-nucleon correlations on, (T), 21:17318(R) (AECL-2659)
scattering by helium-3 and tritium, form factors from, (E), 21:5348
scattering by helium-3 and tritium, model analysis of quasi-elastic, (E/T), 25:22970
scattering by helium-3 and tritium, model analysis of quasielastic, (T), 25:45893
scattering by helium-3 and tritium, neutron form factors from inelastic, (E), 21:2612
scattering by helium-3 and tritium, structure determination from elastic, (T), 21:38384
scattering by helium-3 at 110 to 663 MeV, differential cross sections and spectra for elastic, (E), 21:33880
scattering by helium-3 at 200 MeV, inelastic, (E), 21:9925
scattering by helium-3 at 360 to 838 MeV, differential cross sections and spectra for, (E), 21:33880
scattering by helium-3 at high energies, charge and magnetic form factors and charge distributions from, (E/T), 25:5535
scattering by helium-3, charge and magnetic form factors for high-energy, (E), 25:9965 (AD-710384)
scattering by helium-3, coincidence and integrated cross sections for, 21:25430
scattering by helium-3, effects of short-range correlations on inelastic, (T), 21:23409
scattering by helium-3, helium-4, and neon-20 at 56 MeV, electron spectra from elastic and inelastic, (E), 24:43109
scattering by helium-4 at 150 to 400 MeV, cross sections and electron spectra for inelastic, (E), 22:20436
scattering by helium-4 at 30 to 59 MeV, cross sections for, (E), 22:11900
scattering by helium-4 at 30 to 59 MeV, differential cross sections for elastic, (E), 25:36658(T) (CERN-Trans-71-13)
scattering by helium-4 at high energies, effect of nucleon—nucleon correlations on elastic, (T), 21:44554
scattering by helium-4 at high energies, short-range dynamical correlations from elastic and quasi-elastic, (T), 25:17426
scattering by helium-4 at high energies, short-range nucleon-nucleon correlations from elastic and quasi-elastic, (T), 25:17421 (LNF-70/47)
scattering by helium-4 at low momentum transfer, level spin—parity assignments from, (E), 24:43103
scattering by helium-4, analysis using Brueckner and Jastrow methods, 25:59704
scattering by helium-4, angular correlations between momentum transfer and emitted nuclear fragments in, (T), 23:45006
scattering by helium-4, calculation of form factors using central potentials, (T), 23:42860
scattering by helium-4, calculations using space-fixed central potentials for elastic, (T), 23:25773 (LAL-1205)
scattering by helium-4, effect of dynamical nucleon—nucleon correlations on form factor for elastic, (T), 23:1789
scattering by helium-4, effect of short-range correlations in form-factor calculations for elastic, (T), 24:26585
scattering by helium-4, effect of short-range correlations in elastic, (T), 24:8837
scattering by helium-4, effects of nucleon correlations on form factors for elastic, (T), 22:26789 (LAL-1191)
scattering by helium-4, form factor calculations for elastic, (T), 25:33957
scattering by helium-4, form-factor calculations using Hartree—Fock charge distribution, (T), 24:15779
scattering by helium-4, method for calculating charge form factor of helium-4 for, 24:1735
scattering by helium-4, method with nucleon—nucleon correlations for calculation of elastic, 22:46712 (LNF-68/27)
scattering by helium-4, N + N correlations from elastic, (E/T), 22:5499 (INP-567/PL/PH)
scattering by helium-4, nuclear charge distribution from elastic, (E), 21:40371
scattering by helium-4, nucleon—nucleon correlation effects on form factors for, (T), 23:15354
scattering by helium-4, perturbation calculation of charge form factor from, (T), 25:50633
scattering by heptane and methane, coincidence studies of energy transfer in, 21:28994
scattering by holmium-165, design of Stanford cryogenic oriented target for studying, 22:35166(R) (AD-663169)
scattering by hydrogen and nitrogen molecules at 0 to 40 eV, elastic and inelastic, (E), 25:984 (NP-18463)
scattering by hydrogen and nitrogen, vibrational excitation in, 23:47455(R) (CALT-767-P-4-54)
scattering by hydrogen and other atoms, expansion approach to low-energy, 21:43758
scattering by hydrogen and oxygen, calculation of cross sections for, 21:33210
scattering by hydrogen at 15 to 540 eV, ionization cross sections, (T), 21:609
scattering by hydrogen at low energies, peaking approximation in, 23:12563
scattering by hydrogen atom, pseudostates in close-coupling formalism for, (T), 25:43140
scattering by hydrogen atom, three-particle theory of, 21:27001
scattering by hydrogen atoms above 10 eV, comparison of calculated and observed resonances in elastic, 23:34278
scattering by hydrogen atoms above ionization threshold, complex energy method for elastic, (T), 23:41918
scattering by hydrogen atoms at 0.7 to 10.5 eV, total cross sections for elastic, (E), 24:32664
scattering by hydrogen atoms at 1 to 50 keV, relativistic effects on cross sections for inelastic, (T), 24:37237
scattering by hydrogen atoms at 1.21 to 2.25 rydbergs, complex-energy calculations of s-wave elastic, 25:55860
scattering by hydrogen atoms at 10 to 12 eV, close-coupling approximation for, 22:9002
scattering by hydrogen atoms at 10 to 12 eV, correlation-method calculations on excitation in, 22:8998
scattering by hydrogen atoms at 10 to 12 eV, cross sections for hydrogen excitation to n = 2 level in, (E/T), 22:8999
scattering by hydrogen atoms at 10 to 12 eV, resonance above n = 2 threshold in, (T), 22:9001
scattering by hydrogen atoms at 10 to 12 eV, resonance effects on excitation in, (T), 22:9000
scattering by hydrogen atoms at 26 and 52 eV, channel coupling and atomic polarization in elastic, (T), 24:17674
scattering by hydrogen atoms at 50, 100, and 200 eV, angular distributions in elastic, (E/T), 23:36504
scattering by hydrogen atoms at 500 eV and 40 keV, total cross sections for inelastic, (T), 24:47020
scattering by hydrogen atoms at intermediate and high energies, approximation methods including second-order effects for, (T), 25:22373
scattering by hydrogen atoms at low energies, application of Fredholm method to elastic, 24:23795
scattering by hydrogen atoms at low energies, calculation using Faddeev equations of phase shift for, (T), 23:41956
scattering by hydrogen atoms up to 13.6 eV, calculation of S-wave phase shifts for elastic, 22:43882
scattering by hydrogen atoms, algebraic close-coupling approach to, 25:55854
scattering by hydrogen atoms, algebraic cross-coupling calculation of, 25:30286
scattering by hydrogen atoms, application of Fredholm method to inelastic, (T), 25:7182
scattering by hydrogen atoms, application of simplified second Born approximation to elastic, 22:24048
scattering by hydrogen atoms, calculation of inelastic, 22:43878
scattering by hydrogen atoms, calculation of singlet and triplet s-wave Hartree—Fock phase shifts for, 24:8341
scattering by hydrogen atoms, calculations using M-matrix extrapolation methods for, 23:18407
scattering by hydrogen atoms, compact-operator method for triplet s-wave, 23:14617
scattering by hydrogen atoms, eigenphases near resonances in, (T), 24:51425
scattering by hydrogen atoms, Fredholm theory for elastic, 24:17681
scattering by hydrogen atoms, Harris-method calculation of phase shifts for s-wave elastic, 25:35879
scattering by hydrogen atoms, lower bounds on phase shifts for elastic, 25:19757 (ORNL-4584, pp 58-73)
scattering by hydrogen atoms, parameters for multichannel resonances in, (T), 25:55861
scattering by hydrogen atoms, polarized-orbital-method calculations of s-wave phase shifts for elastic, 24:6364
scattering by hydrogen atoms, pseudopotential approach to calculations on ¹S-wave elastic, 23:20696
scattering by hydrogen atoms, pseudostate-expansion calculation of phase shifts for elastic, 24:5004

scattering by hydrogen atoms, resonance structures in elastic, (T), 25:52680
scattering by hydrogen atoms, review of use of Sturmian functions in calculation of, 25:11732
scattering by hydrogen atoms, structure of resonances in, (T), 21:22988
scattering by hydrogen atoms, variational calculation of bounds for phase shifts in, 25:14024
scattering by hydrogen atoms, variational calculations of resonance widths in, 23:39318
scattering by hydrogen atoms, variational calculations using discontinuous trial functions for, 24:25998
scattering by hydrogen atoms, virial theorem for variational functions in, (T), 25:35871
scattering by hydrogen ions (H_2^+) at low energies, quantum defect method for calculation of cross sections for, 22:43889
scattering by hydrogen ions (H_2^+), analysis including coupling of differential partial waves, (T), 24:1279
scattering by hydrogen ions (H_2^+), calculation of phase shifts in, 22:43888
scattering by hydrogen molecules at 1 to 912 eV, quantum mechanical calculation of differential and integral cross sections for elastic, 24:35191
scattering by hydrogen molecules at 10 eV, differential cross sections for elastic and inelastic, (E/T), 23:34275 (CALT-767-P-4-46)
scattering by hydrogen molecules at 13.5 to 15 eV, resonance due to short-lived compound state in, (E), 23:39316
scattering by hydrogen molecules at 7 and 60 eV, differential cross sections for elastic, (E), 23:34272 (CALT-767-P-4-43)
scattering by hydrogen molecules at 7 and 60 eV, differential cross sections for vibrational excitation in inelastic, (E), 23:34272 (CALT-767-P-4-43)
scattering by hydrogen molecules at 7 to 81.6 eV, differential and integral cross sections for elastic, (E/T), 24:35190
scattering by hydrogen molecules at low energies, calculation of cross sections for elastic, 22:5109
scattering by hydrogen molecules at low energies, calculations using numerical solution of two-dimensional Schroedinger equation for elastic, 23:44182
scattering by hydrogen molecules at low energies, two-center calculations of differential and total cross sections for elastic, 23:48748
scattering by hydrogen molecules below 10 eV, exchange and polarization effects on cross sections for elastic, (T), 23:32185
scattering by hydrogen with 1s-2s excitation, cross-section calculations using optical model potential, 21:34031(R) (ORO-2915-79)
scattering by hydrogen, calculation of upper- and lower-bound phase shifts for, 22:45929
scattering by hydrogen, integral expressions for amplitude of, 22:24060
scattering by hydrogen, nitrogen, and oxygen molecules, relation of molecular binding energy to cross sections for, 21:41792
scattering by hydrogen, nitrogen, oxygen, and hydrocarbon compounds, angular distributions for resonant, (T), 22:52547
scattering by hydrogen, polarized-orbital calculations of s-wave phase shifts for, 25:24908
scattering by hydrogen, position and width of ^1S and ^3P resonances in, 21:22989
scattering by hydrogen, resonances in elastic, 21:2064
scattering by hydrogen, use of Faddeev equation to calculate length of singlet and triplet, 24:45033
scattering by hydrogen, variational calculations of s-wave phase shifts for, (T), 24:32672
scattering by hydrogen, variational upper and lower bounds on phase shifts for s-wave elastic, 23:3280
scattering by hydrogen-like atoms at high energies, local potential for relaxation of diabatic approximation for, 24:28096
scattering by hydrogen-like ions, Harris method calculations of phase shifts for elastic, 25:40377
scattering by impurities in metals in temperature gradients, (T), 21:21049 (CEA-R-3096)
scattering by indium-115 near threshold, inelastic, (E), 22:53207
scattering by ions in strong radiation fields, cross sections for bremsstrahlung emission in, (T), 22:2806
scattering by ions trapped in compressed electron ring, 22:22491 (SLAC-PUB-386)
scattering by ions, spectral line broadening from inelastic, (T), 22:45947
scattering by iron-56 at 60 MeV, angular distributions from inelastic, (E), 24:52490
scattering by lanthanum-139 at 225 MeV, differential cross section for elastic, (E), 21:38338
scattering by lanthanum-139 at 225 MeV, differential cross section for elastic, (E), 22:14061
scattering by laser beam, stimulated Compton, 21:39794 (IS-T-137)
scattering by laser beams, Compton, (E), 21:41825
scattering by layers of materials, device for studying back-, 25:18823
scattering by lead and bismuth-209 at 40 to 60 MeV, differential cross sections for elastic, (E), 23:37204
scattering by lead at 248 and 502 MeV, relativistic effects on differential cross sections for elastic, (T), 25:17798
scattering by lead isotopes at 50 to 80 MeV, cross-section differences in elastic, (E), 25:22962(R) (NP-18497)
scattering by lead-208 and oxygen-16 at 420 and 840 MeV, cross sections and dispersion corrections for elastic, (T), 25:50818
scattering by lead-208 and vanadium-51 at 1 to 100 MeV, nuclear-size effects on polarization functions for elastic, (T), 25:12664
scattering by lead-208 at 175 and 250 MeV, differential cross sections for, (E/T), 21:35469
scattering by lead-208 at 248 and 502 MeV, cross sections for elastic, (E), 24:13391
scattering by light atoms and ions, configuration-interaction and Hartree—Fock calculations of factors for, 25:27460
scattering by light deformed nuclei, cross section in Born approximation for elastic and inelastic, (T), 23:30944
scattering by light deformed oriented nuclei, Born approximation for, (T), 24:52427
scattering by light nuclei at high energies, cross sections for magnetic, (T), 21:2801
scattering by light nuclei at high energies, testing cluster model by, (T), 21:4226
scattering by light nuclei at high energies, testing nuclear cluster model by, (T), 21:7693 (AD-631176)
scattering by light nuclei at high energy, data analysis using cluster model, (T), 23:19192
scattering by light nuclei at very high energies, 22:3309 (INP-555/PL/PH, pp 113-15)
scattering by light nuclei with M1 excitation, analysis for Coulomb distortion effects in inelastic, (T), 24:15813
scattering by light nuclei with M2 electroexcitation, Coulomb-distortion effects in inelastic, (T), 25:12657
scattering by light nuclei with the expulsion of clusters, inelastic, (T), 25:50836
scattering by light nuclei, cluster-expansion for correlated charge form factor for elastic, 25:7589
scattering by light nuclei, method with nucleon—nucleon correlations for calculation of elastic, 22:46712 (LNF-68/27)
scattering by light nuclei, sum rules for inelastic, 21:2016 (INP-485/PL)
scattering by light nuclei, transverse sum rules for inelastic, (T), 21:25594
scattering by light nuclei, transverse sum rules for inelastic, (T), 21:25593
scattering by light waves, Kapitza—Dirac effect calculation for, 22:41308
scattering by light-weight nuclei at high energies, effects of radial wave functions on elastic and inelastic, (T), 21:46672
scattering by light-weight nuclei, excitation of collective levels by, (T), 21:29902
scattering by linearly polarized radiation, 25:14601
scattering by liquid helium layers at 50 keV, thickness and temperature dependences of, 24:39856
scattering by liquid helium-4 at low momentum transfer, inelastic, (E), 25:5528
scattering by liquid hydrogen at 140 and 200 MeV, background problems in 180° experimental facilities for measuring cross sections in, 23:8879 (TID-24667, pp 210-11)
scattering by lithium atoms, calculation of amplitudes for, from correlated and Hartree—Fock wave functions, 24:47035
scattering by lithium atoms, modified Glauber approximation for total cross sections for elastic, (T), 25:52649
scattering by lithium atoms, polarized-orbital approximation cross sections for elastic, (T), 25:45293
scattering by lithium-6 and -7 at 100 to 600 MeV, nuclear charge form factors for elastic, (E), 21:46674
scattering by lithium-6 and -7, charge form factors from elastic, (E), 25:3558 (AD-704484)
scattering by lithium-6 and carbon-12 at 100 to 300 MeV, form factors for inelastic, (E), 24:52428
scattering by lithium-6 and lithium-7 at 140 MeV, cross sections for elastic and inelastic, (E), 22:50547
scattering by lithium-6 and lithium-7 at 60 to 130 MeV, form factors for inelastic, (E), 23:21282
scattering by lithium-6 and oxygen-16, effects of short-range two-body dynamical correlations on elastic, (T), 22:41951 (ISS-68/10)
scattering by lithium-6 and oxygen-16, form factors for inelastic, (T), 23:9024 (TID-24667, pp 346-55)
scattering by lithium-6 at 100 to 300 MeV, cross sections and form factors for inelastic, (E), 23:17078
scattering by lithium-6 at 140 MeV, form factor for exciting 3.56-MeV level in inelastic, (E), 22:9786
scattering by lithium-6 at 200 and 500 MeV, differential cross sections for elastic and inelastic, (E), 25:31211
scattering by lithium-6 at 30 to 58 MeV, cross sections for inelastic, (E), 23:5834
scattering by lithium-6 at 500 MeV, cross sections for elastic, (E), 25:45628 (AD-714022)
scattering by lithium-6 at 80 to 100 MeV, differential cross sections and form factors for inelastic, (E), 25:25646
scattering by lithium-6 at high energy, electric form factor for, (T), 21:42564
scattering by lithium-6 at high energy, form-factor calculations using projected Hartree-Fock method for elastic and inelastic, 21:33891
scattering by lithium-6 up to 60 MeV, cross sections for inelastic, (E), 24:1752
scattering by lithium-6 with the formation of a deuteron cluster, cross section for inelastic, (T), 25:50836
scattering by lithium-6, analysis for cluster effects in elastic, (T), 24:45738
scattering by lithium-6, analysis using translation-invariant shell model with nucleon correlations for elastic and inelastic, (T), 23:21376 (ZFK-130, pp 58-69)
scattering by lithium-6, Born-approximation calculation of nuclear charge form factor using correlated wave functions for high-energy, (T), 25:34001
scattering by lithium-6, calculations using nucleon-association model for form factor for inelastic, (T), 23:28268
scattering by lithium-6, carbon-12, and oxygen-16 at high energies, short-range nucleon—nucleon correlations and Woods—Saxon potential from, 24:35828
scattering by lithium-6, carbon-12, and oxygen-16, form-factor calculations using two oscillator model with recoil corrections and nucleon-nucleon correlations, (T), 24:18357 (LNF-69/19)
scattering by lithium-6, charge form factor for, (T), 24:1878
scattering by lithium-6, cluster-model analysis of inelastic, (T), 23:52118
scattering by lithium-6, cluster-model calculations for inelastic, (T), 21:21445
scattering by lithium-6, effect of exchange terms on form factors for, (T), 24:45740
scattering by lithium-6, form factor calculations using oscillator cluster model, (T), 24:8843
scattering by lithium-6, form factors for elastic and inelastic, (T), 21:9950
scattering by lithium-6, form factors for inelastic, (E), 25:38886 (JAERI-1205, pp 78-80)
scattering by lithium-6, form factors for inelastic, (T), 25:31229
scattering by lithium-6, short-range dynamical correlations in elastic, (T), 23:7233
scattering by lithium-6, study of cluster effect in inelastic, (E/T), 24:45733
scattering by lithium-6, use of PCAC hypothesis for meson (μ^-) capture rate in lithium-6 from inelastic, 24:24518
scattering by lithium-6, variational calculation for elastic form factors using trial radial wave functions, (T), 23:13214
scattering by lithium-7 at 0.478 MeV, Coulomb form factors for elastic and inelastic, (E/T), 22:26840
scattering by lithium-7 at 35 to 90 MeV, electron spectra from elastic and inelastic, (E), 25:22962(R) (NP-18497)
scattering by lithium-7 at high energies, calculation of transverse form factors using projected Hartree—Fock wave functions, (T), 24:10919
scattering by lithium-7, cluster-model calculation of form factors for elastic and inelastic, (T), 24:13282
scattering by lithium-7, form factor calculations using projected Hartree—Fock wave functions, (T), 24:43151
scattering by lithium-7, magnesium-24, magnesium-26, nitrogen-14, nitrogen-15, titanium-46, titanium-48, titanium-50, inelastic, (E), 22:53095 (BMwF-FBK-68-11)
scattering by lithium-7, nitrogen-14, and nitrogen-15, inelastic, (E), 22:53095 (BMwF-FBK-68-11)
scattering by magnesium and magnesium-26 at 39 and 56 MeV, electron spectra for inelastic, (E), 22:27071
scattering by magnesium at 39 and 56 MeV, magnetic dipole transitions from inelastic, (E), 22:50567
scattering by magnesium at low energies, cross sections for elastic, (T), 24:45017
scattering by magnesium oxide crystals up to 1 MeV, (E), 21:37600
scattering by magnesium-24 and -26 at 225 MeV, Born-approximation analysis of elastic and inelastic, (E), 25:1734
scattering by magnesium-24 and magnesium-26 at 60 MeV, energy levels from inelastic, (E), 21:4244
scattering by magnesium-24 and silicon-28 at 100 to 260 MeV, form factors for elastic and inelastic, (E), 22:44633
scattering by magnesium-24 at 39 and 56 MeV, resonances in inelastic, (E), 22:41983
scattering by magnesium-24 at 45 to 54 MeV, giant resonance in inelastic, (E), 21:17332
scattering by magnesium-24 up to 59 MeV, electron spectra for, (E), 23:17088
scattering by magnesium-24, $\Delta T = 1$ M2 transitions from, (E/T), 24:40592
scattering by magnesium-24, neon-20, and silicon-28 at 183 and 250 MeV, form factors for inelastic, (E), 25:53671
scattering by magnesium-24, silicon-28, and sulfur-32 at 100 to 300 MeV, cross sections for elastic and inelastic, (E), 24:52428
scattering by magnesium-25 at 39 and 56 MeV, differential cross sections for inelastic, (E), 24:15853
scattering by magnesium-26 at 52.1 MeV, splitting of E1 giant resonance in inelastic, (E), 24:28745
scattering by magnetic materials, technique for study of, 21:18802(R) (ORO-2755-17)
scattering by manganese-55 at 25 to 60 MeV, electron spectra and differential cross sections for elastic and inelastic, (E), 24:13341
scattering by manganese-55 at 60 MeV, spectra for elastic and inelastic, (E), 23:49398 (WASH-1127)
scattering by materials at 0.8 to 2.0 keV, secondary electron emission from plasmon decay in, (E), 24:46997
scattering by materials, method for multiple, (T), 24:51765
scattering by matter, angular distribution of monoenergetic, (T), 24:51772
scattering by medium-weight and heavy spherical nuclei with giant resonance excitation, partial-wave analysis of inelastic, (T), 22:18330
scattering by medium-weight and heavy spherical nuclei with giant dipole resonance excitation, (T), 21:34062
scattering by mercury at 0.25 to 8 eV, exchange effects in relativistic and nonrelativistic calculation of cross sections for elastic, 25:1001
scattering by mercury at 20 to 300 eV, angular distributions at 20 to 155° for elastic and inelastic, (E), 24:15160
scattering by mercury at 340 eV, relation of spin polarization to scattering potential in, 23:8474
scattering by mercury at low energies, applicability of Hartree potential to polarization in, (E/T), 21:33158
scattering by mercury at low energies, effects of atomic distortion in, (T), 24:35200
scattering by mercury atomic beams at 6.75 eV, production of low-energy polarized electron beams from, (E), 23:41973
scattering by mercury atoms at 25 to 150 eV, comparison of static potential approximation with measured differential cross sections for elastic, 23:18432

scattering by mercury atoms at 46 to 204 keV, cross sections for, (T), 22:31622
scattering by mercury atoms at 46 to 204 keV, cross sections for, (E), 22:31623
scattering by mercury atoms in $^3P_1$ state, cross sections for inelastic, (E), 22:1018
scattering by mercury excited atoms at low energies, superelastic, (E), 25:35872
scattering by mercury vapor at 300, 400, and 500 eV, absolute differential cross sections for elastic, (E), 24:3177
scattering by mercury, angular distributions in elastic and inelastic, 21:37180
scattering by mercury-199, platinum-195, and strontium-87 with isomeric excitation, cross sections for, 23:23669
scattering by metallic thick targets at 0.5 to 2.0 MeV, Monte Carlo calculations of angular distributions and energy spectra from back-, 25:13959 (UCRL-19719)
scattering by metastable helium below 10 eV, calculation of cross sections for elastic, 21:39826
scattering by methane at 40 keV, cross sections for total elastic and inelastic small-angle, (E/T), 24:37226
scattering by molecular hydrogen, vibrational structure of dissociative attachment in, (E), 22:15350
scattering by molecules, 22:10203(R) (COO-977-1)
scattering by molecules at 20 to 60 eV, differential cross sections for excitation in, (E), 23:27354 (CALT-532-39(Vol.2))
scattering by molecules at 60 to 1600 eV, spin polarization from, (E), 23:20720
scattering by molecules, angular distributions for resonant, (T), 22:52488
scattering by molecules, calculation of inelastic, 22:43878
scattering by molecules, effects of vibronic excitation on angular distributions from resonant, (T), 25:35869
scattering by molecules, rotational effects on angular distributions in resonant, (T), 23:5235
scattering by molecules, use of asymptotic closure relation in calculation of first Born cross sections for, 23:32181
scattering by N = 50, 82, and 126 nuclei with proton emission, proton spectra and angular distributions from quasielastic, (E), 24:20399
scattering by neodymium-142 at 129.4, 199.3, 299.1, and 499.5 MeV, differential cross sections for, (E), 25:59793
scattering by neodymium-142 at 15 to 60 MeV, anomalous elastic, (E), 24:5425
scattering by neodymium-142, -144,-146, -148, and -150 at high energy, differential cross sections for, (E), 25:17854 (AD-712082)
scattering by neodymium-142, -146, and -150 at 15 to 60 MeV, angular distributions for, (E), 25:12622
scattering by neodymium-142, -146, and -150, at 40 and 60 MeV, angular distributions for, (E), 25:36758
scattering by neodymium-150 at 60 MeV, electron spectra from inelastic, (E), 24:40550 (WASH-1136)
scattering by neon (Ne^+), oxygen (O^-), and sodium (Na^+) ions at 1 to 40 keV, nonrelativistic partial-wave and Born-approximation calculations of differential cross sections for, 23:8455
scattering by neon at 0.37 to 20 eV, total cross sections for, (E), 24:37260
scattering by neon atoms, equivalent potential solutions for, 21:18454
scattering by neon in keV range, electron-diffraction study of correlation effects in differential cross sections for elastic plus inelastic, 24:3186
scattering by neon, modified optical-potential method for low-energy, 23:3254 (N-68-27614)
scattering by neon, spin polarization in, (E), 22:991
scattering by neon-20 at 39 and 56 MeV, energy spectra from, (E), 25:45958
scattering by neutral atoms, excitation cross sections, (T), 21:605
scattering by nickel single atoms at 2 to 100 eV, phase shifts for, (T), 25:16751 (NP-18640)
scattering by nickel-58 and nickel-64 at 150 and 225 MeV, analysis using nuclear excitation model for inelastic, (E/T), 23:21305
scattering by nickel-58 at 100 to 250 MeV, reorientation and dispersion effects in, (T), 24:13429
scattering by nickel-58 at high energies, study of nuclear collective states from inelastic, (T), 22:3803
scattering by nickel-58, -60, -61, -62, and -64 at 300 MeV, charge parameters and K transition energies for elastic, (E), 25:3687
scattering by nickel-58, -60, and -62, form factors for inelastic, (E), 22:3667
scattering by nickel-58, -60, and -64 and tin-112 and -118 at 225 MeV, angular distributions for elastic, (E), 24:38186
scattering by nickel-58, -60, and -64 at 150 and 225 MeV, form factors for inelastic, 23:46966
scattering by nickel-58, -60, and -64 at 225 MeV, differential cross sections for elastic, (E), 24:1795
scattering by nickel-58, nickel-60, and nickel-62 at 45 to 65 MeV, energy levels from inelastic, (E), 21:33951
scattering by nickel-58, nickel-60, and nickel-64 at 150 to 200 MeV, form factor for inelastic, (E), 23:28287
scattering by nickel-58, nickel-60, nickel-64, tin-112, and tin-118 at 225 MeV, cross sections for, (E), 23:17086
scattering by nickel-60 at 183 and 250 MeV, spectra and form factors for inelastic, (E), 24:10961
scattering by niobium-93 at 225 MeV, differential cross sections for elastic and inelastic, (E/T), 21:31766
scattering by nitrogen (N^+) and oxygen (O^+ and O^{2+}) ions at low energies, collision strengths for, (T), 23:12550
scattering by nitrogen and oxygen molecules at 37 and 60 keV at small angles, cross sections for, (E), 21:41781
scattering by nitrogen atoms and molecules and oxygen atoms at high temperatures, cross sections for neutral bremsstrahlung from, (E), 23:27352 (AD-681159)
scattering by nitrogen atoms at 2 Rydbergs, cross sections for elastic, (T), 24:32658
scattering by nitrogen ions (N_2^+), use in ion structure determination, 23:1221
scattering by nitrogen molecules at 0 to 40 eV, calculation of total elastic cross sections for, 21:18465
scattering by nitrogen molecules at 40 keV at large angles, (E), 24:6366
scattering by nitrogen molecules at 40 keV, chemical binding effects in, 24:6367
scattering by nitrogen molecules at low energies, (T), 24:32645
scattering by nitrogen molecules, dissociative recombination in, (T), 21:14948(R) (N-66-35962)
scattering by nitrogen up to 16 eV, angular dependence of resonance in, (E), 21:41797
scattering by nitrogen, cross section for, (T), 21:21963 (BNL-994, pp 3-19)
scattering by nitrogen-14 at 250 and 400 MeV, cross sections for elastic, (E), 25:1709 (AD-707999)
scattering by nitrogen-14 at 250 and 400 MeV, cross sections for elastic, (E), 25:7817
scattering by nitrogen-14 at 35 5o 58 MeV, inelastic, (E), 22:35220
scattering by nitrogen-15 at 250 and 400 eV, electron spectra from elastic, (E), 24:20319 (AD-695417)
scattering by nitrogen-15 at 250 and 400 MeV, cross sections for elastic and inelastic, (E), 25:1709 (AD-707999)
scattering by nitrogen-15 at 250 and 400 MeV, cross sections for elastic and inelastic, (E), 25:7817
scattering by nitrogen-15 at 250 and 400 MeV, elastic, (E), 24:15799
scattering by nitrogen-15 at 50, 53, and 57 MeV, differential cross sections for inelastic, (E), 22:22557
scattering by nitrogen-15, fabrication of targets for high-energy, 21:25380
scattering by nonspherical atoms at low energies, (T), 21:18460
scattering by nuclear Coulomb field at high energies, distortion effects for radiation from, (T), 25:25368
scattering by nuclear matter, inelastic, (T), 22:35370
scattering by nuclei, 22:39956 (ISS-67/30)
scattering by nuclei above 10 MeV, partial-wave amplitude for, 21:31866
scattering by nuclei above 250 MeV, effect of finite nuclear size on small-angle multiple, (T), 25:20545
scattering by nuclei and nucleons, review of electromagnetic structure studies using, (E/T), 21:2603
scattering by nuclei at 0.2 to 2.0 MeV, Coulomb corrections to Bethe—Heitler cross sections for bremsstrahlung production by, (T), 25:28451 (N-71-10999)
scattering by nuclei at 100 to 250 MeV, analysis for higher order effects in elastic and inelastic, (T), 24:13429
scattering by nuclei at 180 degrees, equipment for measuring, 22:16945
scattering by nuclei at 180°, magnet system for measurement of, 25:36629
scattering by nuclei at 50 to 1000 MeV/c, radiative background in inelastic, (T), 23:9019 (TID-24667, pp 265-7)
scattering by nuclei at 750 MeV, optical potential from dynamic analysis of elastic, (T), 24:43473
scattering by nuclei at high energies, (T), 21:46785 (BNL-11722)
scattering by nuclei at high energies, closure approximation method for estimating nonstatic correction to elastic, (T), 25:25456
scattering by nuclei at high energies, correlation structure of light nuclei from, (T), 23:28337
scattering by nuclei at high energies, dynamical nucleon—nucleon correlations in, 23:37304
scattering by nuclei at high energies, polarization effects for inelastic, (T), 21:2800
scattering by nuclei at high energies, radiative corrections for spectra from elastic and inelastic, 23:31089
scattering by nuclei at high energies, second Born corrections to cross section for bremsstrahlung production in, (T), 22:50669
scattering by nuclei at high energy, (T), 22:9920 (JINR-P4-3568)
scattering by nuclei at high energy, dispersion effects on, (T), 22:20698
scattering by nuclei at high energy, optical potential for elastic, (T), 24:22193 (JINR-P4-4833)
scattering by nuclei at high energy, quasielastic, 22:50676
scattering by nuclei at high energy, radiative corrections to inelastic, (T), 23:9017 (TID-24667, pp 249-50)
scattering by nuclei at high energy, second-order corrections to DWBA calculations for, (T), 22:50689
scattering by nuclei at high momentum transfer, effects of short-range nucleon—nucleon correlations on elastic, (T), 21:31832 (INP-540/PL)
scattering by nuclei at low momentum transfer, model-independent evaluation of inelastic, (T), 22:32691
scattering by nuclei at low momentum transfer, monopole and quadrupole excitations in, (T), 22:42115
scattering by nuclei at medium and high energies, cross sections for summed inelastic and quasi-elastic, (T), 25:56849
scattering by nuclei below 30 MeV, energy-loss analyzer for studying inelastic, 22:49107
scattering by nuclei in giant dipole resonance region, form factors for inelastic, (T), 22:20733
scattering by nuclei in stellar matter, electromagnetic de-excitation from inelastic, 21:41740
scattering by nuclei through giant resonance and quasielastic regions, strong-coupling particle—hole analysis of, (T), 25:59869
scattering by nuclei up to 100 MeV, facility at EVA 85-MeV electron linear accelerator for studying, 23:44778
scattering by nuclei using polarized beams, triple scattering experiment on polarization vector change in large-angle, (E/T), 22:42139
scattering by nuclei with arbitrary charge density distribution in high-energy approximation, method for calculating cross section of elastic, (T), 22:46818 (JINR-P4-3941)
scattering by nuclei with bremsstrahlung production, 25:7806(R) (BMBW-FBK-70-14)
scattering by nuclei with bremsstrahlung production, polarization effect of nuclear magnetic moment in, 25:5820
scattering by nuclei with excitation of collective multipole states, inelastic, (T), 21:10091
scattering by nuclei with excitation of low-lying levels, analytical method for analysis of inelastic, (T), 24:38373
scattering by nuclei with giant resonance excitation, shell model description of inelastic, (T), 23:28232(R) (SAL-12)
scattering by nuclei with magnetic moments using polarized electrons, calculations using Born approximation, (T), 22:3775
scattering by nuclei with multipole moments, effects of nuclear structure on bremsstrahlung produced in polarized and unpolarized, (T), 25:56862
scattering by nuclei with nucleon emission, (T), 22:9964
scattering by nuclei with nucleon emission, analysis for nuclear neutron and proton distributions by quasi-free, (T), 25:20544
scattering by nuclei with nucleon emission, radiative corrections in quasi-elastic, 25:43979
scattering by nuclei with proton emission, effect of final-state interactions in quasifree, (T), 24:38356
scattering by nuclei with π-meson production, cross-section calculations using Fermi gas model, (T), 24:1913
scattering by nuclei with virtual excitation, elastic, (T), 21:2792
scattering by nuclei with Z = 6 to 92, coefficients for adjustment of complex scattering factors for fast, (T), 25:10055
scattering by nuclei, analysis for isotensor components in dipole sum rules for, (T), 25:56868
scattering by nuclei, analysis for nuclear charge distributions, (T), 22:22636
scattering by nuclei, analysis of photon and particle decay in inelastic, 24:52681
scattering by nuclei, approximation for data analysis in inelastic, (T), 23:9008 (TID-24667, pp 146-9)
scattering by nuclei, asymmetry in, (T), 22:39720
scattering by nuclei, beta spectrometer for experimental facility of EVA 85-MeV electron linear accelerator for studying, 23:43636
scattering by nuclei, computer program for inelastic differential and total cross sections for, 22:16066
scattering by nuclei, computer program for inelastic, 21:30031 (YALE-2726-E-49)
scattering by nuclei, conservation laws for Bethe—Salpeter equation for inelastic, 22:5877
scattering by nuclei, corrections for effects of intermediate states in, (T), 22:27237
scattering by nuclei, Coulomb corrections to inelastic, 21:31874
scattering by nuclei, Coulomb corrections to inelastic, (T), 22:20578 (WASH-1079)
scattering by nuclei, Coulomb corrections to inelastic, (T), 23:9013 (TID-24667, pp 186-95)
scattering by nuclei, current monitoring system for experimental facility of EVA 85-MeV electron linear accelerator for studying, 23:44779
scattering by nuclei, data analysis for nuclear charge distributions, (E/T), 23:8956 (TID-24667, pp 137-45)
scattering by nuclei, data analysis method for, 24:40659 (AD-702392)
scattering by nuclei, description using first moment of charge distribution, (T), 23:32965
scattering by nuclei, design of beta spectrometers for studying, 23:7777 (TID-24667, pp 35-8)
scattering by nuclei, design of magnet system for elastic and inelastic 180-degree, 22:16959
scattering by nuclei, Dirac formalism for amplitudes and cross sections for, 22:48268
scattering by nuclei, dispersion corrections to elastic, (T), 23:9011 (TID-24667, pp 167-80)
scattering by nuclei, effect of generalized deformations on monopole elastic, (T), 24:43524
scattering by nuclei, effect of short-range correlations in, (T), 25:56824 (LYCEN-7104, C4.1-17)
scattering by nuclei, effect of short-range correlations on form factors for elastic, (T), 25:46111
scattering by nuclei, effects of continuum structure on inelastic, (T), 22:27271
scattering by nuclei, effects of short-range correlations on nucleon emission in, (T), 25:50834
scattering by nuclei, effects of virtual nuclear excitation on cross section of elastic, (T), 25:15166
scattering by nuclei, effects of virtual transitions on elastic, (T), 21:21575 (JINR-P4-3174)
scattering by nuclei, eigenchannel formalism for elastic and inelastic, (T), 22:35375
scattering by nuclei, eigenchannel theory for, 24:20443
scattering by nuclei, elementary particle formalism for backward elastic, 24:5280
scattering by nuclei, form factors for, (T), 22:16063
scattering by nuclei, form factors of nuclei from elastic, 21:29460
scattering by nuclei, form-factor calculations using Helm model for inelastic, (T), 22:3762
scattering by nuclei, independent-particle formalism for inelastic, (T), 23:28245 (LAL-1208)
scattering by nuclei, independent-particle model for prediction of spectra from inelastic, (T), 23:40153
scattering by nuclei, measurement of nuclear radii by elastic, (E), 22:53095 (BMwF-FBK-68-11)
scattering by nuclei, meson (π) contribution to inelastic, (T), 23:23775

scattering by nuclei, method for analysis assuming arbitrary Fermi-like charge density, (T), 23:25946
scattering by nuclei, model-independent analysis of monopole excitations in inelastic, (T), 24:15959
scattering by nuclei, nonstatic second-order corrections to elastic, (T), 25:39109
scattering by nuclei, nuclear charge distribution from, (T), 22:48594
scattering by nuclei, nuclear structure analysis by, 22:3574
scattering by nuclei, nuclear structure research by gamma spectroscopy in, (E/T), 23:9038 (TID-24667, pp 505-11)
scattering by nuclei, nuclear structure research with, 24:52676
scattering by nuclei, nuclear time-dependent nucleon-nucleon correlations from inelastic, (T), 21:13907
scattering by nuclei, nucleon emission from, (T), 22:3638
scattering by nuclei, Orsay electron linac experimental facility for studying, 23:52089
scattering by nuclei, overlapping scintillation detector for experimental facility of EVA 85-MeV electron linear accelerator, 23:43551
scattering by nuclei, partial-wave analysis of inelastic, (T), 23:9012 (TID-24667, pp 181-5)
scattering by nuclei, particle and photon decay following inelastic, (T), 23:42992
scattering by nuclei, quantum electrodynamics test from elastic, 22:5636
scattering by nuclei, quasielastic, 21:23535 (ISS-66/44)
scattering by nuclei, radial matrix elements for, (T), 25:15195
scattering by nuclei, radiative corrections for elastic, 25:59880
scattering by nuclei, radiative corrections for inelastic, (T), 22:18345
scattering by nuclei, radiative corrections to, (T), 23:9016 (TID-24667, pp 231-48)
scattering by nuclei, radiative tail near elastic peak in, (T), 23:9018 (TID-24667, pp 251-64)
scattering by nuclei, research on low-momentum transfer, 24:52678
scattering by nuclei, review of experimental techniques for high-energy, 25:416 (NBS-TN-523)
scattering by nuclei, review of methods and results in, (E/T), 25:38888 (LNF-70/57)
scattering by nuclei, review of nuclear structure from experiments on, 22:22272 (CONF-670923-, pp 156-95)
scattering by nuclei, review of theory for elastic and inelastic, 23:42977
scattering by nuclei, second Born-approximation calculation of radiative tail in elastic, (T), 25:34170
scattering by nuclei, spectra, form factors, and charge distributions from, (E), 25:10014
scattering by nuclei, structure research using elastic and inelastic, (E), 22:27380
scattering by nuclei, structure research using elastic and inelastic, (E/T), 22:18312
scattering by nuclei, study of short-range nuclear correlations using elastic and inelastic, (T), 24:52653
scattering by nuclei, sum rule for cross sections of inelastic, (T), 22:20734
scattering by nuclei, sum rules for inelastic, (T), 22:5868 (INP-566/PL)
scattering by nuclei, sum rules for inelastic, (T), 23:9010 (TID-24667, pp 155-66)
scattering by nuclei, sum rules for, (E), 23:19347
scattering by nuclei, survey of nuclear structure research by, (E/T), 23:9007 (TID-24667, pp 93-112)
scattering by nuclei, survey of research on, 24:52677
scattering by nuclei, test of shell-model theory by inelastic, (T), 22:16076
scattering by nuclei, theory of elastic, 25:31206 (SAL-17)
scattering by nuclei, use in research on nuclear structure, 22:20731
scattering by nucleons, form factors for quasi-elastic, (T), 21:31872
scattering by oriented holmium-165 at 160.6 to 452.2 MeV, cross sections and electric charge distributions from elastic, (E), 25:59796
scattering by oriented holmium-165 at 200 MeV, differential cross sections for, (E/T), 21:23485
scattering by oriented nuclei, α-particle model for elastic and inelastic, (T), 24:14335
scattering by oxygen and nitrogen, accuracy of measurements using photographic recording techniques, 22:5113
scattering by oxygen at 0.5 to 11.8 eV, absolute cross sections for, (E), 21:7034
scattering by oxygen at less than 6.5 eV, cross sections for elastic, (T), 21:43816
scattering by oxygen molecules at 2.35 to 21 eV, total cross sections for, (E), 24:37260
scattering by oxygen molecules at low energies, differential cross sections for elastic, (E), 25:7173
scattering by oxygen, cross sections for, 21:593(R) (AD-631485)
scattering by oxygen-16 at 100 to 400 MeV, form factors for inelastic, (E), 24:5395
scattering by oxygen-16 at 33 to 60 MeV, cross sections for inelastic, (E), 22:41974
scattering by oxygen-16 at 34 to 58 MeV, electron spectra from inelastic, (E), 24:30717
scattering by oxygen-16 at 50 to 200 MeV, cross sections for M0 transitions in inelastic, (T), 25:20294
scattering by oxygen-16 at 51 to 105 MeV, electron spectra and form factors for inelastic, (E), 24:20330
scattering by oxygen-16 at 52.4 MeV, 0⁺ level at 14 MeV from inelastic, (E), 23:39959
scattering by oxygen-16 at 60 to 260 MeV/c, form factors and spectra for inelastic, (E), 22:3615
scattering by oxygen-16 in giant resonance region, electron spectra and matrix elements for inelastic, (E), 25:5558
scattering by oxygen-16 in giant resonance region, calculations using generalized Goldhaber—Teller model, (T), 23:28331
scattering by oxygen-16 in giant resonance region, form factors and cross sections for, (T), 22:35248
scattering by oxygen-16 near 13-MeV excitation energy, cross sections for, (E), 24:22084
scattering by oxygen-16 up to 60 MeV, gamma spectra from, (E), 24:22077
scattering by oxygen-16 with E0 and E2 excitations, (E), 22:18124
scattering by oxygen-16, -17, and -18 at 94 to 121 MeV, form factors for elastic, (E), 24:18360
scattering by oxygen-16, analysis using Born approximation with pair correlation effects, (T), 22:20497(R) (AECL-3009)
scattering by oxygen-16, Brown—Green calculations of form factors for elastic and inelastic, (T), 25:48030
scattering by oxygen-16, effects of short-range correlations on form factor for elastic, (T), 23:39952
scattering by oxygen-16, electron excitations in inelastic, (T), 23:34726
scattering by oxygen-16, form factors for excitation of (0⁺) 6.056 MeV and (3⁻) 6.135 MeV levels by inelastic, (E/T), 22:5780
scattering by oxygen-16, form factors for inelastic, (T), 21:31838 (RHEL/R-136, pp 89-130)
scattering by oxygen-18, inelastic, (T), 21:31838 (RHEL/R-136, pp 89-130)
scattering by p-shell nuclei at high energy, analysis using Nilsson orbitals with admixtures from higher major shells, (T), 23:13309 (LAL-1206)
scattering by p-shell nuclei, correlated charge form factors for, (T), 24:1871
scattering by p-shell nuclei, form factor calculations using extended Nilsson model for elastic and low-lying inelastic, (T), 23:42978
scattering by pair production in silicon, 21:37577
scattering by partially aligned holmium-165 at 200 MeV, distorted wave calculation of cross sections for elastic and inelastic, (E), 23:49426
scattering by partially aligned nonspherical odd-A nuclei at high energy, (T), 21:21606
scattering by phosphorus-31 and sulfur-32 at 50 MeV, differential cross sections for inelastic, (E), 21:21478 (AD-641115)
scattering by photons at relativistic energies, (T), 22:29102
scattering by photons, effects in opposite-beam e—e studies of, (T), 21:46146
scattering by plane thick layer, particle distribution in multiple, (T), 22:39303
scattering by plasmas, application of Moliere's theory to, 22:26422
scattering by plasmons in silicon single crystals at 70 keV, elastic and inelastic, 25:40808
scattering by point defects in beryllium, effects on electric conductivity, 21:7371
scattering by polar gases, velocity dependence of momentum transfer in, 24:39852 (ORNL-4446, pp 197-205)
scattering by polar molecules at low energy, differential and total cross sections for, (T), 21:41813
scattering by polar molecules at thermal energies, cross sections for momentum transfer in, 24:51430
scattering by polar molecules, cross section for slow, (T), 21:24941
scattering by polar molecules, cross sections for, (E), 22:43859 (ORNL-TM-2257)
scattering by polar molecules, rotational excitation from, (T), 23:1186
scattering by polarized deuterons, isospin invariance in elastic, (T), 21:21586
scattering by polyatomic molecules, (T), 21:12027(R) (UCRL-50001-66-2)
scattering by potassium at 0.5 to 1.2 eV, ratio of spin-exchange to full cross section for elastic, (E), 22:43907
scattering by potassium at 0.5 to 1.2 eV, spin-analyzed differential cross sections for elastic and inelastic, (E), 24:19749
scattering by potassium at 0.5 to 9 eV, total cross sections for elastic, (E), 25:30282
scattering by potassium at 0.9 to 15 eV, differential cross sections for elastic, (E/T), 25:40347
scattering by potassium at 1.0 to 5.2 eV, differential cross sections for elastic, (E), 25:14034
scattering by potassium atoms; exchange cross sections for, (E), 21:18464
scattering by potassium, elastic differential spin-exchange cross sections for slow, 22:7154
scattering by potassium-39 and sodium-23, cross sections for elastic and inelastic, 23:42876
scattering by potassium-39 at 500 MeV, cross section for elastic, (E), 25:48047
scattering by potassium-39 at 60 MeV, angular distributions for inelastic, (E), 24:22120
scattering by rare gas atomic beams, angular distribution in elastic, (E), 21:9326
scattering by rare gas metastable atoms, calculations by effective-potential method for elastic, 23:27377
scattering by rare gases at 0.034 to 0.21 eV, total cross sections for, (T), 24:1280
scattering by rare gases at 500 eV and 40 keV, total cross sections for inelastic, (T), 24:47020
scattering by rare gases in keV range, differential cross sections for inelastic, (T), 24:19751
scattering by rare gases near 1 keV, cross sections and form factors for, 21:9344
scattering by rare gases up to 10 keV, differential cross sections for inelastic, (T), 24:49013(T) (AEC-tr-7173)
scattering by rare gases, classical treatment of Ramsauer effect in elastic, 24:12643
scattering by rare gases, resonances in elastic, (E), 25:14035
scattering by rare isotopes at approximately 100 MeV, design of high-pressure cooled gas targets for studying, 23:44762
scattering by rotating dipoles, model for, 25:43130
scattering by rubidium atoms at low energies, phase-shift calculation for, 23:14618
scattering by scandium-43, titanium, and vanadium-51 at 50 to 65 MeV, spectra from elastic, (E), 25:22962(R) (NP-18497)
scattering by scandium-45, vanadium-51, iron, cobalt-59, nickel, copper, and zinc at 60 MeV, differential cross sections for, (E), 24:13330
scattering by screened nuclei at 0.2 to 10 MeV, cross sections for elastic, (T), 21:4281
scattering by screened polar gas molecules, elastic, (T), 23:25159
scattering by semi-infinite barriers at 0.04 to 2 MeV and angles of 0 to 75°, energy spectra from, (T), 25:7136
scattering by shielding, angular distribution of monoenergetic, (E/T), 25:7436
scattering by silicon (111) surfaces at 30 to 200 eV, relation of band structure to energy-loss spectra in, (E), 23:32133
scattering by silicon-28 at 100 to 200 MeV, transition matrix elements from differential elastic and inelastic cross sections, (E/T), 22:5805
scattering by silicon-28 at 110 to 260 MeV differential cross sections for elastic and inelastic, (E), 23:8957
scattering by silicon-28 at 150 to 225 MeV with giant dipole resonance, differential cross sections for inelastic, (E), 22:50578
scattering by silicon-28 at 39 and 56 MeV, differential cross sections for inelastic, (E), 24:15852
scattering by silicon-28 in giant resonance region, electron spectra for inelastic, (E), 23:28282
scattering by silicon-28 in giant resonance region, inelastic, (E), 22:22567
scattering by silver foils at 50 keV, temperature dependence of diffuse, 24:6346
scattering by silver-atom beams at 60 keV, differential cross sections for, 21:3693
scattering by single-crystal surfaces of palladium, platinum, and lead, properties of specular 10- to 500-eV, (E), 22:43937
scattering by singly charged positive ions, dependence of phase shift on atomic number and energy for elastic, (T), 23:27385
scattering by sodium and potassium atoms, effects of long-range forces on phase of elastic, (T), 23:14608
scattering by sodium atoms, spin exchange in, (E), 21:2030
scattering by sodium-23 at 225 MeV, elastic and inelastic, (E), 23:7280
scattering by solid mercury targets, spin polarization after inelastic, (E), 21:28965
scattering by solid targets at 3.2 to 14.1 MeV, backscattering and secondary emission coefficients for, (E), 22:13969
scattering by solids at low energies, prediction of sideband diffraction from quantum-field-theory calculations of differential cross sections for inelastic, 25:963
scattering by solids at oblique angles of incidence, coefficients for back-, (T), 24:1264
scattering by solids in eV range, excitation of interband transitions in inelastic, (T), 23:32133
scattering by solids in eV range, quantum mechanical calculation of differential cross sections for elastic, 24:19724
scattering by solids, beta-spectrometric study of plural and multiple, 24:19722
scattering by solids, elastic energy losses from, (E/T), 21:46123 (BMwF-FBK-67-64)
scattering by spherical nuclei in giant resonance region, partial-wave analysis of inelastic, (T), 22:27072
scattering by spherically symmetric force center at high energies in homogeneous magnetic field, (T), 22:11618
scattering by standing electromagnetic waves, multiple, (T), 23:25138
scattering by standing electromagnetic waves, theory for, 23:18439
scattering by strong electromagnetic field, Kapitza—Dirac effect in, 21:26987
scattering by strontium-88 and yttrium-89 at 65 and 70 MeV, energy levels from inelastic, (E), 22:15970
scattering by sulfur-32 at 1115 MeV, quasi-elastic, 25:3615
scattering by sulfur-32 at 13 to 31 MeV, giant resonance excitation by inelastic, (E), 24:13344
scattering by sulfur-32 in giant resonance region, microscopic calculation of form factors for inelastic, (T), 25:28220 (UJV-2553-F)
scattering by sulfur-32 in giant resonance region, form-factor calculations using particle-hole model, (T), 25:45983
scattering by sulfur-32, inelastic, (T), 21:21490
scattering by targets, effects on shielding of high-energy beams, (T), 22:31895
scattering by the 4.46 and 5.04 MeV levels of boron-11, cross sections for inelastic, (E), 21:11973
scattering by thick and thin targets, energy and angular distributions from, (E), 23:42379(T) (ORNL-tr-2178)
scattering by thin foils at 180 to 395 keV, calculation and measurement of plural, 21:14965
scattering by thin foils, Monte Carlo calculations of reflection and refraction in, 23:18449
scattering by thin gold films, inelastic, 21:37108
scattering by thin metallic films at 2.91 and 5.89 MeV, energy distribution from multiple, (E), 24:12630
scattering by thin monocrystal at high energies, beam spatial regrouping in, (T), 22:29583
scattering by Thomas—Fermi atoms at low energies, analytical expression for cross section for, 21:24931
scattering by tin-116 with excitation of collective states, calculations using quasiparticle Tamm-Dancoff theory for inelastic, (T), 22:20654

scattering by tin-116, -118, -120, and -124 at 60 MeV, cross sections for elastic, (E), 24:1858
scattering by tin-116, -118, and -120 at 60 MeV, form factors for inelastic, (E), 24:1858
scattering by tin-116, -118, and -120 at 60 MeV, form factors for inelastic, (E), 23:47006
scattering by tin-116, -120, and -124 at 150 MeV, form factors for inelastic, (E), 22:7725
scattering by tin-116, -120, and -124 at 150 MeV, cross sections for, (E), 22:1682
scattering by tin-116, form factors for inelastic, (T), 23:7334
scattering by tin-116, tin-118, and tin-120, inelastic, (E), 22:20578 (WASH-1079)
scattering by titanium-46, titanium-48, and titanium-50, cross sections for elastic, (E), 23:23625 (NP-17768)
scattering by titanium-46, titanium-48, and titanium-50 at 29 and 58 MeV, differential cross sections for, (E), 21:31745
scattering by titanium-48 at 250 MeV, analysis for nuclear charge distribution, (E), 22:53152
scattering by transverse waves in magnetic field, trapped, (T), 22:5228
scattering by tritium and helium-3, cross sections for inelastic, (E), 21:1015 (AD-634756)
scattering by tungsten at 0 to 50 eV, effects of adsorbed gases on, 21:6972 (AD-636598)
scattering by tungsten at 50 eV to 200 keV, depolarization due to spin flip in triple, (T), 25:14020
scattering by tungsten at 50 to 350 eV, energy distributions from, (E), 21:37116
scattering by tungsten, mean inner potential from Kikuchi patterns from, 23:21011
scattering by two-electron ions, model for elastic, 22:50041
scattering by unscreened nuclei, program for evaluating Mott scattering cross sections and Goudsmit—Saunderson angular multiple scattering distribution for, 24:28818 (BNL-50199)
scattering by uranium at 0.0085 to 36 eV, Ramsauer effect in elastic, (T), 23:48702
scattering by uranium, comparison of calculation methods for factors for, 23:18426
scattering by vibrational nuclei, dispersive effects in elastic, (T), 24:38375
scattering by vibrationally excited nitrogen molecules, cross section for inelastic, (E), 23:8437
scattering by xenon atoms at 2.35, 42, and 202 eV, calculation of cross sections for elastic, 22:41297
scattering by yttrium of hot, mean free path of, 24:21549
scattering by yttrium-89 at 225 MeV, differential cross sections for elastic and inelastic, (E/T), 21:31766
scattering by yttrium-89 at 70 MeV, cross sections and spectra for inelastic, (E), 21:40432 (WASH-1074)
scattering by yttrium-89, form factor for inelastic, (T), 21:1064
scattering by yttrium-89, form factors for inelastic, (T), 21:31838 (RHEL/R-136, pp 89-130)
scattering by Yukawa potential in magnetic fields, (T), 21:5083
scattering by Z = 3 to 26 nuclei, Born and distorted-wave Born approximations for inelastic, (T), 22:20681
scattering by Z = 3 to 82 nuclei at 500 MeV and 60°, average nucleon interaction energy and nuclear Fermi momentum from quasi-elastic, (E), 25:25674
scattering by Z = 4 to 22 nuclei, inelastic, 23:23625 (NP-17768)
scattering by Z = 6 to 92 atoms at 50 keV to 22 MeV, empirical equation for coefficient for back-, 25:45296
scattering by zinc-64 and -66 at 150 and 225 MeV, differential cross sections and form factors for elastic, (E), 25:20345
scattering by zinc-64 and -66 at 150 and 225 MeV, form factors for inelastic, (E), 25:25681
scattering by zirconium-90 at 210 MeV, differential cross sections for inelastic, (E), 25:45913 (CEA-N-1390, pp 139-98)
scattering by zirconium-90 at 58 MeV, collective energy levels from inelastic, (E), 23:49388 (CEA-CONF-1323)
scattering by zirconium-90 at 58 MeV, cross section for inelastic, (E), 24:43401
scattering by zirconium-90 at 60 MeV, analysis of elastic and inelastic, (E/T), 24:30836
scattering by zirconium-90 at 60 MeV, angular distributions for inelastic, (E), 21:40432 (WASH-1074)
scattering by zirconium-90 at 60 MeV, spectra from inelastic, (E), 21:25518 (WASH-1071)
scattering contribution to backscattering of monoenergetic, single, 21:13383
scattering cross sections for nuclei, calculation using Woods-Saxon potential with spin-orbit coupling, (T), 22:5888
scattering cross sections for, computer calculation of inelastic, by phase shift method, 24:45013 (CEA-N-1259)
scattering elastically by calcium-40 and -48 at 758 MeV, analysis using single-particle wave functions with configuration mixing, (T), 24:20358
scattering elastically by calcium-40, analysis for long-range correlations using particle-hole model, (T), 24:52495
scattering elastically by calcium-40, calcium-48, carbon-12, and lead-208, analysis using non-local potential, (T), 24:52430
scattering elastically by helium-4, form factor calculations using central potential, (T), 24:45725
scattering elastically by lead-208, analysis using Hartree—Fock wave functions, (T), 24:43423
scattering elastically by nuclei, use for determination of higher order magnetic moments, 24:52514
scattering elastically by p-shell nuclei, form-factor calculations using finite well wave functions, (T), 24:38369
scattering elastically on helium atoms at 100 eV, Ochkur approximation for, (T), 21:16791
scattering elastically on helium, effects of higher-order partial wave phase shifts in, 21:46161
scattering experiments on bismuth-209 at 180°, counting rates for, (T), 23:9014 (TID-24667, pp 212-15)
scattering experiments on nuclear collective and particle states, sensitivity of inelastic, (T), 23:9009 (TID-24667, pp 150-4)
scattering factors for many electron atomic systems for, (T), 22:36746
scattering foil device for high-energy, design of, 23:29056
scattering from [100] faces of potassium chloride and sodium chloride, energy distribution of, (E), 21:16985
scattering from aluminum and copper, characteristic energy losses of 9- to 265-eV, (E/T), 22:43927
scattering from atomic helium, energy and angular dependence of excitation for short-lived compound states in low-energy, (E), 22:41350
scattering from atomic hydrogen, upper and lower bounds on s-wave, (T), 22:41374
scattering from atoms and molecules, compound states in, (T), 25:58804
scattering from atoms, coupled-states method for calculating, (T), 22:41370
scattering from atoms, cross sections for elastic, (T), 21:18453
scattering from atoms, polarized-orbital method for amplitude calculations in, (T), 22:41369
scattering from beryllium, nickel, and lead at 0.2 to 3 keV, energy spectra from inelastic, (E), 25:30260
scattering from carbon monoxide and hydrogen molecules, energy and angular dependence of 0.5- to 10-eV resonance, (E), 22:41375
scattering from copper (111) surface at low energies, elastic and inelastic, (E), 22:50003
scattering from foils, determination of foil thickness by fast, 22:41311
scattering from hydrogen of slow, rotational transitions from, (E), 22:43893
scattering from magnetic crystals, effects of exchange interactions on elastic, (T), 23:10723
scattering from massive targets, calculation of average relative energy of back-, 24:28075
scattering from molecular hydrogen, deuterium and nitrogen, rotational resonance, 22:38756
scattering from molecules of hydrogen, polarization potential in low-energy, (T), 22:41372
scattering from nuclei, review of radiative corrections to, (T), 25:5800 (AD-706717)
scattering from potassium halide single crystals, channeling and temperature effects on back-, 25:52916
scattering from silicon semiconductor detectors at 50 to 625 keV, 22:25647
scattering from single-crystal surfaces of copper, graphite, and tungsten, 22:15222
scattering from solid surfaces, energy losses in, 23:40616 (UCRL-18735, pp 5-80)
scattering from thick solid targets at 3.2 to 14 MeV, angular distributions and coefficients for back-, 21:43773
scattering from thin films, thickness measurement using back-, 25:44716
scattering from tungsten at 300 eV, energy and angular distributions of, (E), 25:47321
scattering gases at low energies, depolarization due to spin flip in triple, (T), 25:14020
scattering in aluminum foils, Boltzmann calculations for, 23:39525
scattering in aluminum, lead, and silver foils at 0.5 to 2.0 MeV, multiple, (E/T), 22:11966
scattering in atmospheres of O and B stars, (T), 22:807
scattering in crystals near symmetry axis, quantum effects in emission patterns of back-, (T), 25:1297
scattering in crystals, theory of inelastic, (T), 23:23264
scattering in distorted geomagnetic field of trapped, radial motion due to pitch-angle, (T), 23:42071
scattering in electromagnetic field, generalized coherent state for, 22:50454
scattering in electron-impact ion sources, effects on ion-source performance, (E), 21:628
scattering in external fields, treatment by field theory technique, (T), 22:5466 (BARC-292)
scattering in graphite, inelastic, 25:27902
scattering in hydrogen and deuterium, transport coefficients for, (e), 22:15364
scattering in ionized gases, nonlinear and second-order thermal, (T), 21:31231
scattering in ionized intergalactic matter, (T), 23:48694
scattering in ionosphere of photo-, heating efficiency in, (E), 22:15433
scattering in lead at 10^7 to 10^{13} eV, energy spectra in, (T), 21:20801
scattering in molecular gases, study of, (E/T), 22:41293 (NP-17519)
scattering in nuclei of intense sources of infrared radiation, inverse Compton, (T), 24:3206
scattering in paper laminates at 250 to 600 MeV, effects of multiple scattering on resonance radiation emission from, (E/T), 24:12627
scattering in photoelectric angular distributions, representation of, 22:52498
scattering in silver films, energy loss measurements, (E), 21:31232
scattering in solar corona, obliteration of strong Fraunhofer lines by, (T), 23:10387
scattering in solids, continuous-energy-loss approximation for, (T), 22:5121
scattering in thick targets, Monte Carlo simulation of, 21:33131
scattering in thin films at oblique incidence, inelastic, (T), 22:9467
scattering in thin layers, angular distributions for elastic incoherent multiple, 22:46374
scattering in upper atmosphere of fast, (E/T), 22:9215
scattering inelastically at 20 to 100 keV into crystal reflections, (T), 22:17795
scattering inelastically at 34 keV in thin foils of aluminum and potassium, (E), 22:17394
scattering inelastically by deuterium near disintegration threshold, analysis using Jankus—Durand theory, (E/T), 24:24501
scattering inelastically by lithium-6, analysis using nucleon—nucleon correlation, (T), 25:28201
scattering inelastically by nuclei with excitation of low-lying levels, analysis using analytical method, (T), 24:38373
scattering influence on metallic field effect in thin layers, 21:20780
scattering of 60- and 80-kV, by carbon films at small angles, (E), 21:3659
scattering of auroral, by atmosphere, (E/T), 24:17846
scattering of auroral, by atmosphere, conjugate effects of, (T), 22:38908
scattering of auroral-zone, bounce-resonant, (T), 23:10502
scattering of cosmic, on diffuse infrared background, (T), 24:25935
scattering of electromagnetic waves by free, cross section for second harmonic in, (T), 21:18859
scattering of fast, effects of collisions on angular distribution of multiple, (T), 25:50095
scattering of fast, on nonlocalized excitons, (T), 22:31978
scattering of fast, quantum mechanical formulas for total inelastic, 23:20671
scattering of free, radiative transfer theory for, 21:37115
scattering of ionospheric photo-, from plasma waves, radar Thomson, (E), 22:13339
scattering of kilovolt, in solids and liquids, (E), 22:3154
scattering of laser beam by relativistic, (E/T), 22:2814
scattering of light in stellar atmospheres by, noncoherent, (T), 22:41229
scattering of longitudinally polarized, effects of nuclear magnetic moment on bremsstrahlung from, (T), 21:17419
scattering of low energy, by biomolecules, 25:37728(R) (AECL-3860)
scattering of low-energy, thermal diffuse, (E/T), 21:13397
scattering of medium-energy, recursion calculations of inelastic backscattering and transmission coefficients, 23:8468
scattering of nonrelativistic, low-frequency bremsstrahlung from Coulomb, (T), 24:20049
scattering of photons by, effects in Friedmann cosmologies, (T), 22:26118
scattering of polarized, by one-dimensional electrostatic potentials, (T), 25:50089 (CONF-690732, pp 14.1-12)
scattering of polarized, from one-dimensional electrostatic potentials, (T), 24:6702
scattering of polarized, left-right asymmetry in Compton, (E), 24:18430
scattering of relativistic, by spherically symmetric energy centers, magnetic field effects on, (T), 21:44241
scattering of relativistic, Compton, (T), 24:12568
scattering of slow, by perfect crystals, dynamic, (T), 21:33544
scattering of slow, by polar molecules with nearly critical dipole moments, (T), 22:13214
scattering of slow, on molecular hydrogen, rotational excitation cross sections for, (T), 22:31603
scattering of ultrarelativistic, bremsstrahlung during, (T), 21:2405
scattering of, bibliography on small-angle, 25:33457
scattering of, coherence properties of bremsstrahlung from, 22:13244
scattering of, design of high-resolution beta spectrometers for studying, 23:47808
scattering of, Dirac theory for potential, (T), 25:33626
scattering of, effects on stellar curves of growth, (T), 23:46171
scattering of, experimental facilities for Amsterdam linear accelerator for studying, 23:8874 (TID-24667, pp 27-30)
scattering of, matrix analysis of anisotropic, 21:24934
scattering of, method for radiative corrections to spectra from, 23:44613 (AD-687711)
scattering of, nonadiabatic target distortion in low-energy, 22:7132 (ORNL-4168, pp 119-82)
scattering of, radiative corrections to back-, (T), 25:15175
scattering of, radiative corrections to, (T), 23:9015 (TID-24667, pp 219-30)
scattering of, relation of bremsstrahlung in molecules to elastic, (T), 21:11422
scattering of, sensitivity of chemical analysis by triple back-, 22:30486
scattering of, stopping power and backscattering effects in electron probe microanalysis, 23:3244 (CONF-670655-1)
scattering of, use of orthogonalized plane waves in theory of, 21:3964
scattering of, wave theory for reflection and refraction of, (T), 23:18776
scattering on $1s^22s^22p$/sup q/ levels of neon and nitrogen, cross sections for, 22:7132 (ORNL-4168, pp 119-82)
scattering on aluminum and silver foils, bremsstrahlung emission from, 21:9295 (ORNL-4007, pp 121-69)
scattering on aluminum foils, energy losses in, 21:43765
scattering on aluminum, slowing-down spectra for, 21:9295 (ORNL-4007, pp 121-69)
scattering on atomic and molecular systems, exchange and nonadiabatic polarization effects in, (T), 23:10432 (ORNL-4316, pp 161-229)
scattering on atomic hydrogen at 11.7 and 13.6 eV, Ochkur approximation for, (T), 21:16790
scattering on atomic hydrogen, diffraction theory for, 22:21859
scattering on atomic hydrogen, elastic resonance in, (T), 22:15338
scattering on atomic oxygen at 0 to 25 eV, cross sections for, 21:9295 (ORNL-4007, pp 121-69)

scattering on atomic oxygen in upper atmosphere, cooling from, (T), 22:19884
scattering on atomic systems, angular distributions from ionizing, 22:50025
scattering on atoms and molecules, resonances in elastic, (T), 21:31247
scattering on atoms at 20 eV to 150 keV, relativistic effects in, 22:31636
scattering on atoms, amplitude for ionization and excitation in, (T), 21:29002
scattering on atoms, book on, 21:11409
scattering on atoms, Born approximation calculations for, 21:11432
scattering on atoms, cross sections for low-energy, (T), 25:40374
scattering on atoms, data compilation of, 21:18617
scattering on atoms, energy loss in elastic, (T), 23:1161
scattering on atoms, excitation cross section calculations for, 22:38798
scattering on atoms, excitation cross sections for, (T), 22:7158
scattering on atoms, impact excitation and ionization in, (T), 21:3636 (N-66-29474)
scattering on atoms, optical model for elastic, 22:45945
scattering on beam of barium atoms, polarization of light emitted in, (E), 22:17366
scattering on carbon, helium, hydrogen, and lithium, excitation cross sections for, 21:11427
scattering on carbon, lead, and water, primary and secondary spectra from, 21:13363
scattering on copper crystals at 30 to 350 eV, energy loss spectra from, 22:31605
scattering on copper, lead, and silver up to 150 eV, ionization cross sections for, 21:11429
scattering on cosmic-background photons, ultraviolet radiation from, (T), 25:45287
scattering on diamond crystals, 1- to 40-GeV coherent bremsstrahlung from, 21:18444
scattering on dielectrics and ferroelectric materials, optical bremsstrahlung from, 21:11428
scattering on embedded nuclei, neutrino-pair bremsstrahlung from hot degenerate gas of, 23:32692
scattering on gold at 15.7 MeV, Moliere theory for, 21:13378
scattering on gold at 200 eV, adsorbed gas effects on photon production in, 21:9336
scattering on ground state of hydrogen, asymptotic form of forward amplitude in, (T), 21:31239
scattering on helium at 100 to 400 eV, cross sections for elastic, (E), 22:31638
scattering on helium in the ground state, ionization and excitation from, (E), 21:43767
scattering on helium ions at 42 to 52 eV, excitation in, 22:2783
scattering on helium ions, excitation in, 22:2782
scattering on helium, nitrogen, ethylene, and benzene at 10 to 40 eV, spectra from, 22:5061
scattering on helium, orthogonality in adiabatic-exchange, (T), 22:17369
scattering on helium, polarized light from, 21:11438
scattering on helium, pressure effects on differential cross sections for, 22:5062
scattering on helium-3 and hydrogen-3, electromagnetic form factor of nucleons from elastic, 22:11626
scattering on homonuclear diatomic molecules, theory of, 22:5060
scattering on hydrogen at 13.6 to 217.6 eV, cross sections for, (T), 21:35029
scattering on hydrogen at 300 eV, differential cross sections for, (T), 22:5053
scattering on hydrogen atoms, excitation cross sections for, (T), 21:24939
scattering on hydrogen atoms, variational bounds on s-wave phase shifts, (T), 21:18461
scattering on hydrogen atoms, variational calculations of elastic, 22:9083
scattering on hydrogen in galactic H II regions, Stark broadening of rf spectra from, (T), 21:26943
scattering on hydrogen, (E), 25:49621 (AD-716800)
scattering on hydrogen, equivalence of Rubinow and second Hulthen variational methods for, 21:43799
scattering on hydrogen, exchange amplitudes for, (T), 22:17352
scattering on hydrogen, Ochkur approximation for, (T), 21:46160
scattering on hydrogen, s-wave phase shifts for, 21:11441
scattering on hydrogen-bound electron, cross section for, (T), 21:46163
scattering on ionospheric oxygen, inelastic, (T), 24:35315
scattering on krypton, excitation cross sections for, 22:1016
scattering on layered beryllium—gold targets, thickness curves for back-, 21:43834
scattering on magnesium and magnesium oxides at 0.25 to 4 keV, secondary electrons from, (E/T), 25:11672
scattering on mercury at 180 to 900 eV, angular distribution and spin polarization from, (E), 22:13249
scattering on metallic foils, plasma effects on transition radiation from, (T), 24:42503
scattering on metals and alloys at 600 to 1200 keV, reflection of, 22:45965
scattering on metastable helium at 0.003 to 10.0 eV, cross sections for elastic, (T), 22:50029
scattering on methane at 19.5 eV, second ionization potential from, 21:26988
scattering on molecular deuterium and hydrogen at 0.11 to 2.75 MeV, ionization in, 21:26967 (ANL-7220, pp 19-20)
scattering on molecular gases, differential cross sections for, (E), 22:17355
scattering on molecular hydrogen ions, polarized single-center orbital calculations for, 21:37160
scattering on molecular hydrogen, rotational excitation of, 21:37156
scattering on molecular oxygen at energies below 100 eV, cross sections for, (T), 22:15365
scattering on molecules at 300 eV, spin polarization from, (T), 22:24056
scattering on molecules at 6 to 50 keV, spin polarization from, (T), 22:24055
scattering on molecules in D region, energy loss factors for, (T), 22:19880
scattering on molecules, configuration interaction in continuum states of, (T), 22:31619
scattering on molecules, dissociative recombination in, (T), 22:31618
scattering on molecules, effect of bond formation on cross sections for, 22:26263
scattering on molecules, total cross sections in, (E), 21:41751(R) (AD-646244)
scattering on nickel, effective atomic scattering factor elastic, (E/T), 23:1220
scattering on nitrogen in atmosphere, energy loss spectrum from, (E), 23:48818
scattering on nuclei, gamma angular correlation with inelastic, 21:14946 (ISS-66/31)
scattering on nuclei, matrix elements for relativistic electrons in Coulomb fields, 24:42505
scattering on oxygen, cross sections for, (E), 21:41751(R) (AD-646244)
scattering on polar molecules at low energies, (T), 22:15367
scattering on polar molecules, cross sections for, (E), 23:10432 (ORNL-4316, pp 161-229)
scattering on positive ions, properties of, (T), 21:11389 (JILA-89)
scattering on potassium-seeded argon and helium plasmas, cross sections for, 21:11652
scattering on protons, radiative corrections for inelastic, (T), 21:13391
scattering on radiation targets, secondary electron emission yields from, 21:43833
scattering on rare gases, cross sections for, 21:7008
scattering on rare gases, total cross sections in, (E), 21:41751(R) (AD-646244)
scattering on silver targets, surface wave excitation in, 21:46153
scattering on single crystals, bremsstrahlung spectra from, (T), 22:9067
scattering on thick targets, angular distribution of bremsstrahlung from, (E/T), 21:35012 (NASA-TN-D-4063)
scattering on thin crystals, bremsstrahlung polarization from, (T), 21:11386 (DESY-66/37)
scattering quasielastically by finite-temperature nuclei, analytic description using Fermi gas model, (T), 24:38363
scattering spectrum of keV, with energy losses smaller than band gap, (T), 21:29347
scattering, differences in multiple positron-, 21:13389
scatttering by helium, matrix for elastic, (T), 24:39809 (ORNL-4446, pp 163-76)
scavenging by bromopropane, 22:37780(R) (RRL-2310-242)
scavenging in ethanol and methanol, 23:35138(R) (RRL-2310-276)
scavenging in hydrocarbon radiolysis using monosubstituted benzenes, 21:23980
scavenging in irradiated cyclohexane solutions, 22:18810(R) (RRL-2310-223)
scavenging in irradiated cyclohexane solutions, 21:35990(R) (RRL-2310-208)
scavenging in irradiated liquids, 22:21128
scavenging in irradiated liquids, 22:21131
scavenging in irradiated viscous hydrocarbons, 23:35138(R) (RRL-2310-276)
scavenging in liquid hydrocarbons by bromomethane, 22:37780(R) (RRL-2310-242)
scavenging in radiolysis of aqueous solutions of chloromethane, 24:13877(R) (RRL-2310-287)
scavenging in radiolysis of hydrocarbon solutions, 23:220 (RRL-2310-226)
scavenging in radiolysis of liquids, 21:19669
scavenging of dry and mobile radiolytic, in ethylene glycol—water glasses, 25:39550
scavenging of, by pyridine coenzymes, kinetics of, 21:378
Schroedinger equation for two, in Coulomb potential, 25:38168
Schroedinger equation for, in uniform magnetic field, (T), 23:46587
self energy from extension of the renormalization group, 21:44312
self-charge and self-mass of, effect of weak interaction on, (T), 24:42901
self-energy graphs for, renormalization group for asymptotic behavior of, 22:15840
self-energy graphs of quantum electrodynamics, asymptotic estimates of Feynman integrals for, 22:50449
self-energy in quantum electrodynamics, sidewise dispersion relation for, 22:52958
self-energy of, use of Compton amplitudes in derivation of dispersion relation for, 24:30483
self-fields of toroidal configuration of, 22:46611 (UCRL-18103, pp 279-90)
self-mass and propagator in renormalized quantum electrodynamics, 25:33827
self-mass in quantum electrodynamics, infinitesimal nonlinear interactions for, 24:43020
self-mass of, broken scale invariance in quantum electrodynamics for electromagnetic, 25:41069
separation energies for atoms, calculations using many-body perturbation theory, 21:34031(R) (ORO-2915-79)
shielding against 2- to 7-MeV trapped, quasi-hollow conductor magnet for, 21:37519
shielding against, in manned space flight, (T), 21:37525
shielding against, in space, computer program for evaluating, 21:42150 (NP-16824)
shielding against, use of rotatable slats of shielding materials for, 21:6126(P)
shielding of 4.0- and 8.2-MeV, by aluminum, 22:36961 (N-68-10702)
shielding of cylindrical space vehicles against, design of magnetic shield for, 25:43425
shielding of spacecraft against, (E), 21:7306
shielding spacecraft against 3-MeV, (E), 22:13532
shock heated by high-altitude nuclear explosion, artificial radiation belt from, 21:9463
shock-wave propagation in degenerate gas of, (T), 22:17338
slowdown in helium, 24:22672(R) (ORO-3349-7)
slowdown in media, Monte Carlo calculations of degradation spectra for 100-keV, 25:36258
slowdown in multiplate liquid ionization detectors at 60 keV to 2 MeV, Monte Carlo calculation of, 25:4322 (NP-18433)
slowing down in aluminum and water at 10 to 28 MeV, Monte Carlo study of spectra of, 25:14398
slowing down in aluminum, copper, and gold at 300 eV to 20 keV, classical calculations of, 25:960 (AD-709258)
slowing down in aluminum, copper, and water at 10 to 15 MeV, Monte Carlo calculations of, 25:14397
slowing down in collection of hard spheres, (T), 23:51814 (AD-690168)
slowing down in germanium and tungsten, 25:19759 (ORNL-4584, pp 87-91)
slowing down in heavy gases, equations for, 21:20782
slowing-down spectra in aluminum and copper, (T), 21:39800
solar modulation of cosmic-ray, (T), 22:9124
solar modulation of primary cosmic, relation to galactic nonthermal radio emission, (T), 23:18457 (N-68-21341)
solids of, instability and melting of, (T), 21:33490
source concept for electrodynamics, 21:37727
space-charge field calculations for axially symmetrical bunches of, 23:52060
specific heat of relativistic degenerate gas of, (T), 21:5336
spectra between 0.5 and 5 GeV of cosmic, long-term time variations in, (E), 23:32204
spectra between 11 and 204 MeV of primary, (E), 24:51464 (N-70-28733)
spectra from atomic particle collisions, electrostatic lens for measurement of, 23:47910
spectra from deuteron disintegration in π + d interactions at 12.0 MeV, (T), 24:49421
spectra from meson (μ) interactions in iron plates of cloud chamber underground, analysis of, (E), 24:15449
spectra from meson (μ^-) decay in copper, (E/T), 21:17028 (UCRL-16168)
spectra from polarized μ decay, 25:59404
spectra from unpolarized μ decay, low-energy, (T), 22:26634
spectra in auroras, (E), 22:13358
spectra in auroras, above Fort Churchill, differential energy, (E), 22:22054
spectra in B approximation of cascade theory for, medium polarization and multiple scattering in equilibrium, 21:2412
spectra in biological materials, high-energy, 22:31084
spectra in magnetosphere of low-energy, cinematographic display of, (T), 22:36791 (AD-662228)
spectra in magnetosphere, energy, 23:27444(R) (N-69-14773)
spectra in magnetosphere, satellite-borne detector system for measuring, 24:22990 (UCRL-50745)
spectra in MeV range, determination from dose deposition profiles, 23:17791
spectra in midnight luminous aurorae, comparison with proton, (E), 25:27578
spectra in primary cosmic radiation, (E), 22:36767
spectra in radiation felts, relativistic energy, (E), 22:9224
spectra in self-absorbed radio sources, relaxation of, (T), 21:43705
spectra in tagged photon beams, 21:27462 (CALT-68-128)
spectra in water from 20, 30, and 39 m_0c^2 beams, calculations, 24:1468 (NYO-910-131)
spectra measurements above 100 MeV, miniature Cherenkov shower spectrometer for, 25:21437
spectra measurements of cosmic, at 10 MeV to 2 GeV, 21:16190
spectra measurements with silicon detectors, magnetic selector for, 23:47794
spectra of 0.1 to 5 MeV, in radiation belts, (E), 22:34452
spectra of 2 to 30 keV, in large auroral substorm during recovery phase, (E), 25:47399
spectra of Auger, from clean rhenium crystal surfaces, 24:17305
spectra of auroral, design of spectrometer for measuring, 22:346 (SC-TM-67-591)
spectra of auroral-zone, (E), 22:31709
spectra of cosmic primary, at 0.2 to 300 BeV, (E), 22:38653 (N-68-16483)
spectra of cosmic primary, at 2.7 to 21.5 MeV, (E), 23:27390 (N-69-11633)
spectra of cosmic primary, between 30 and 1500 MeV, (E), 22:38825 (N-68-21534)
spectra of cosmic primary, from sources of varying geometry, (T), 23:32198 (CEA-R-3674(E))
spectra of cosmic, astrophysical implications of, (E/T), 23:34242
spectra of cosmic, at 12 to 220 MeV, (E), 23:27395 (N-69-15908)
spectra of cosmic, at 20 MeV to 3 BeV during 1968, time variations of, (E), 23:48773
spectra of cosmic, between 12 and 220 MeV, measurement of, 23:16685
spectra of cosmic, over Hyderabad, (E), 25:24932
spectra of cosmic-ray, (T), 22:38828
spectra of cosmic-ray, in interstellar space, (T), 23:6898

spectra of cosmic-ray, in Milky Way, (T), 22:47723
spectra of extragalactic, (T), 25:19462
spectra of galactic cosmic-ray secondary, energy, (T), 22:17432
spectra of hard, synchrotron spectra associated with, (T), 22:43688
spectra of high-energy, undergoing Klein—Nishina losses, (T), 25:36263
spectra of hydrated, effects of temperature on, 25:54658
spectra of hydrated, uv, 22:12308
spectra of interstellar, derivation from nonthermal radio background, (E/T), 24:28130
spectra of low-energy auroral, fine structure in, (E/T), 23:16707 (N-68-31351)
spectra of low-energy cosmic, (E), 24:37283 (N-70-18641)
spectra of low-energy diffracted, from clean rhenium crystal surfaces, 24:17305
spectra of low-energy, diurnal variations at Fort Churchill of, (E), 23:18507 (N-68-19857)
spectra of low-energy, during visible aurora, (E), 21:16867
spectra of low-energy, from conducting materials irradiated with 1.25- or 0.66-MeV photons, (E), 22:31985
spectra of outer-belt, space and time variations of, 21:43912
spectra of outer-zone, at 10 to 100 keV, (E), 22:29381
spectra of primary cosmic, (E), 25:30134
spectra of primary cosmic, (E/T), 24:5015
spectra of primary cosmic, (T), 25:22380
spectra of primary cosmic, above 30 GeV, (E), 25:30328
spectra of primary cosmic, at 20 MeV to 5.5 BeV, (E), 21:27023
spectra of primary cosmic, between 0.09 and 8.4 BeV, (E), 22:36764
spectra of primary cosmic, diffusion-loss model of, (T), 24:28128
spectra of primary cosmic, in interstellar space, (T), 24:28125
spectra of radiolytic hydrated, 23:40722
spectra of radiolytic hydrated, ESR, 25:31998
spectra of radiolytic hydrated, in alkaline solutions, 25:37435
spectra of radiolytic solvated, in 1-propanol, 23:35138(R) (RRL-2310-276)
spectra of recoil, in anti $\tau + e \rightarrow$ anti $\tau + e$ interactions, restrictions on shape of, (T), 25:33651
spectra of relativistic cosmic, (T), 25:58830
spectra of relativistic, in solar particle events, (E), 25:35727
spectra of scattered, method for radiative corrections to, 23:44613 (AD-687711)
spectra of secondary, in polystyrene, 22:43853(T) (AEC-tr-6937, pp 6-11)
spectra of secondary, in polystyrene, 22:8117
spectra of shower, in aluminum, copper, graphite, and iron, (T), 22:2849
spectra of solvated, 23:35178
spectra of solvated and trapped, formed during photolysis and radiolysis, review of, 22:40112
spectra of solvated, from radiolysis of heavy ice, 24:36263(R) (AE-397)
spectra of solvated, in ammonia and amine systems, ir, 23:43338(R) (COO-1763-12)
spectra of solvated, in gamma-irradiated ice, 22:96(R) (RRL-2310-214)
spectra of solvated, in irradiated ice, 22:4198
spectra of solvated, in irradiated ice, 21:19708
spectra of solvated, in pulse radiolysis of ammonia—water and diethylamine—water systems, optical absorption, 24:38977
spectra of solvated, in pulse radiolysis of benzene, glycerol, methanol, and water, 24:41356
spectra of solvated, in sodium hydroxide solutions, 22:18810(R) (RRL-2310-223)
spectra of solvated, produced by pulsed-electron radiolysis of tetrahydrofuran, ir, 24:50411(R) (COO-1763-16)
spectra of splash and re-entrant cosmic albedo, 21:27020 (N-67-12219)
spectra of stabilized, in gamma-irradiated Y-type zeolites, 23:4694
spectra of trapped radiolytic, in glassy ethanol, 25:10648
spectra of trapped radiolytic, in light and heavy ice, 23:37976(R) (AE-360)
spectra of trapped radiolytic, resolution of structure in, 24:38981
spectra of trapped, ENDOR and ELDOR, 23:47465(R) (ORO-2968-49)
spectra of trapped, in β-irradiated frozen aqueous sodium hydroxide solutions, power saturation phenomena in ESR, 23:45340
spectra of trapped, in deuterated, γ-irradiated acetonitrile, optical absorption, 24:13884
spectra of trapped, in flash photolysis of ice, 24:215 (ORNL-4437, pp 48-56)
spectra of trapped, in γ irradiated isobutyl vinyl ether and isobutyl vinyl ether—3-methylpentane glasses, ESR, 24:4338
spectra of trapped, in γ-irradiated acetonitrile and succinonitrile, ESR, 23:35192
spectra of trapped, in γ-irradiated and photoionized organic glasses, ESR relaxation, 23:45346
spectra of trapped, in γ-irradiated organic glasses, 24:13953
spectra of trapped, in γ-irradiated organic glasses, effects of dose on ESR, 22:27825
spectra of trapped, in γ-irradiated organic glasses, effects of matrix polarity on ESR and optical, 23:7577
spectra of trapped, in γ-irradiated polymers, ESR, 24:13875 (ORNL-4400, pp 151-7)
spectra of trapped, in γ-irradiated tetrahydro-2-methylfuran glass, ESR, 24:41364
spectra of trapped, in irradiated polyethylene, 24:29340
spectra of trapped, in irradiated potassium hydroxide, sodium hydroxide, and sodium perchlorate in normal and heavy water, optical absorption, 21:3112
spectra of trapped, spacecraft measurements of, 21:43894(R) (N-67-23326)
spectra of, calibration of hydrogen bubble chamber for measuring, 22:6594
spectra of, Fermi-function integrals for line intensities in, (T), 21:10057
spectra of, in solar flares, (T), 25:49678
spectra of, produced in photolysis or radiolysis studies, review on, 21:15919 (UJV-1625)
spectra of, satellite instrumentation for measuring energy and angular, 21:11502
spectral measurements of low-energy, design, operation, and performance of parallel-plate vacuum-chamber-type detectors for, 22:43092
spectroscopy of, from molecular gas photoionization, 21:17855
spectrum from pion decay in interstellar space, (T), 21:3708
spectrum of 200- and >200-GeV cosmic, balloon measurements above Hyderabad, India of, (E), 25:35920
spectrum of 3- to 12-MeV, emitted during proton flare of July 7, 1966, (E), 23:22813
spectrum of cosmic primary, between 10 and 40 MeV, (E), 22:17430
spectrum of cosmic, in disc—halo galactic model, (T), 21:37204
spectrum of primary cosmic, (T), 22:29308
spectrum of primary cosmic, between 25 and 600 MeV, (E), 22:9121
spectrum of secondary, produced in interstellar space by primary cosmic radiation, (T), 22:9126
spin and cyclotron resonance of, methods for measurement of free, (E/T), 22:41345
spin and orbital motions in homogeneous magnetic fields, g-factor anomalies from, 23:32691
spin interaction with nuclear spin in liquids and solids in magnetic fields, (T), 21:44771
spin magnetic moment of free relativistic, 25:33605
spin of, torsion pendulum for limit on anomalous torques on, (E), 24:1646
spin polarization in solids by strong electric current in quantizing magnetic field,, (E/T), 22:17753
spin polarization in spiral orbit in magnetic field, radiation-induced, (T), 22:24502
spin polarization of slow, analyzer for measuring, 24:23042
spin relaxation of trapped, in irradiated ice-d_2, 21:14240(R) (RRL-2310-194)
spin resonance spectra of trapped, in γ-irradiated 3-methylpentane glass, 22:16617
spin self-polarization during motion along spiral in magnetic field, (T), 22:52911
spin—orbit interaction of, derivation, 21:18852
spin—polarization effect of, in magnetic field, 22:52904
stability of cylindrical layer of, surrounded by metal shield in uniform magnetic field, 22:46640 (UCRL-18103, pp 501-22)
stability of trapped di-, in aqueous systems, 23:35194
stopping in hydrocarbon vapors, 25:19491 (ORNL-4584, pp 105-24)
stopping of 20- to 1000-MeV, dependence on atomic number of material for empirical relations between range and energy for, (E), 23:42590 (JINR-P1-4529)
stopping power for aluminum, copper, gold, and silver at <500 keV, (T), 25:17962
storage of relativistic, in solar corona, (E/T), 25:19403
storage rings for, development of, 21:38141
structure of hydrated, in aqueous solutions, 23:15878
structure of hydrated, model for, 24:31321
structure of, classical field theory for inner, (T), 25:1620
structure of, relation of zitterbewegung to, 24:15427
structure of, theory of bach, tamaid, and zeus for, 23:34550
studies of solvated, 23:6158
sum rules for, review of current algebra for, 23:18839 (ISS-68/33)
symmetry for, representations of U(2) for, (T), 25:50166 (CONF-690732, pp 12.1-14)
symmetry wih mesons (μ) in two-component neutrino theory, 25:3351
synchrotron deceleration of 100-keV, as source of Type II and III solar radio bursts, (T), 25:32977
synchrotron emission at 35 to 560 from, in Crab Nebula, (E), 23:12481
synchrotron emission from an ensemble of relativistic, (T), 23:16555 (N-68-33525)
synchrotron emission from coronal, (E), 23:10409
synchrotron emission from cosmic, (T), 25:11747
synchrotron emission from inner belt, detection of, (T), 23:39380
synchrotron emission from intermediate-energy, effect of ionized medium on, (T), 22:31551
synchrotron emission from interstellar, (T), 23:18457 (N-68-21341)
synchrotron emission from mildly relativistic, (T), 24:51332
synchrotron emission from radiation belt, (T), 22:26317
synchrotron emission from relativistic, in intense magnetic fields, (T), 24:15078
synchrotron emission from relativistic, in magnetosphere, (T), 23:27522
synchrotron emission from trapped, above auroral zones, (T), 23:27482
synchrotron emission from ultra high-energy cosmic, (E), 22:38653 (N-68-16483)
synchrotron emission from, in cosmic radio sources, (T), 22:47765
synchrotron emission from, in magnetoactive plasma, (T), 24:4920
synchrotron emission from, in solar microwave bursts, (E/T), 24:25891
synchrotron emission from, negative reabsorption of, (T), 24:25872
synchrotron emission from, of various energy spectra, (E/T), 25:36001
synchrotron emission from, Stokes parameters for, (T), 24:1167
synchrotron emission from, theory of, 22:49964
synchrotron emissivity for helically moving relativistic, corrections for, (T), 22:34160
synchrotron radiation emission from relativistic, formulae for, 22:19694
synchrotron radiation emission in intense magnetic fields, quantized, (T), 24:8595
synchrotron radiation from relativistic, elliptical polarization of, (E), 22:41317
synchrotron radiation from, in helical orbits, (T), 22:5469
synchrotron radiation from, inverse Compton effect in quasars, 21:6954
synchrotron radiation in Crab nebula from, (T), 21:43703
synchrotron spectra of relativistic, below Razin cutoff, (T), 23:22760
temperature and concentration in ionosphere, satellite measurements of, 21:11538
temperature distribution of, in outer ionosphere, (T), 25:40463
temperature in active auroras, rocket measurements of, 21:39933
temperature in aurora, rocket measurement of, 21:39934
temperature in aurora, rocket observations of, 22:2917
temperature in ionosphere, 21:20864
temperature in ionosphere between 110 and 500 km, (T), 21:41909
temperature in ionosphere from F-region absorption of cosmic noise, 22:2964
temperature in ionosphere, (E), 21:41932
temperature in ionosphere, effects of 10.7-cm solar flux on, (T), 21:41931
temperature in ionosphere, measurements by incoherent scattering, 21:35096
temperature in ionosphere, satellite measurement of, 21:41918
temperature in ionospheric D region, simulation by photoionization of nitric oxide, (E/T), 21:689(R) (N-66-23719)
temperature in ionospheric F region, 21:673(R) (AD-629430)
temperature in ionospheric F region at sunspot minimum, midlatitude, 21:39869
temperature in ionospheric F1 layer, 21:31330
temperature in solar wind, effects on double shock-wave structure, (E/T), 23:12492
temperature in the ionosphere, effects of nonlocal heating on, (T), 21:41923
temperature measurement in alkali-metal-seeded rare-gas plasma, use of line-reversal method for, 22:44086 (IPP-3/69)
temperature measurement in hot plasma, spectrophotometer for, 22:5317
temperature measurements in ionosphere and use of grids for Langmuir analysis, 21:46215 (N-67-17812)
temperature measurements in plasma in torus, 22:5316
temperature measurements in upper atmosphere, review of, 22:5218
temperature of equatorial ionospheric, measurements of, 21:11506
temperature of interplanetary, 24:15081
temperature profile in ionosphere, layer structure in, 21:11510
temperature surrounding reentry vehicles, use of Langmuir probe to determine, 21:43892(R) (N-67-21425)
temperature variations in temperate zone ionospheric sporadic-E layers, 21:25013
temperatures at 200 to 630 km in ionosphere, (E), 23:30421
temperatures of interplanetary plasma, (E), 23:10380
theory for difference between μ and, discrete scale transformations for lepton mass spectrum for, (T), 25:53114
theory for electron—photon showers, characteristic functional for cascade processes in, 22:17896
theory for free, single-operator relation in Dirac, 22:15717
theory for free, strong correlation between Cherenkov effect and properties of photon tachyons in disappearing Fresnel wave in, (T), 25:59573
theory for noninteracting system of, quantum correlation function in, 21:43786
theory for relativistic, tensor forms of Dirac equations in, 21:17177
theory for spinning, quasi-classical pure gyroscope model for, 22:3311
theory for, general relativistic particle model, 23:15244
theory for, invariant imbedding for solution of quantum mechanical, 21:40180
theory for, lectures on acausality in classical, (T), 25:47779
theory for, mass spectrum of preparticles in, 21:33627
theory for, muon—electron problem in, (T), 24:42909
theory for, muon-electron problem in, 23:23417
theory for, perturbation calculation of generalized two-point function in, 22:37186
theory for, pseudo-locality of space—time in, 21:46525
theory for, solution of Dirac equation with Coulomb potential in, 22:9546
theory for, special form of propagator in quantum electrodynamics for, 21:19061
theory of degenerate gas of, integrals in, (T), 21:3866
theory of Kikuchi, 24:43921 (UCRL-19631)
theory of Kikuchi, dynamic, 25:42886 (UCRL-20500, pp 86-146)
theory of thermal behavior of ionospheric, 21:18503(R) (N-66-24115)
theory of trapped di-, in polar media, 23:35194
theory of, Frenkel—Kramers model and extended Heisenberg picture of Dirac, 22:29649

theory of, resolution of energy paradox in classical, 24: 40223
theory of, S-matrix, 21:18966
theory of, third-order nonrelativistic approximation of Dirac, 21:31507
theory of, truly covariant Hamiltonian, 24:45393
therapy with, accident reports on overdoses during, 21: 12851
thermal conduction by, in stellar matter, (T), 23:34157
thermal conductivity in ionosphere, 21:20864
thermal decay of radiolytic hydrated, 23:35133(R) (NYO-3383-16)
thermal decay of trapped, ESR study of, 23:295
thermal decay of trapped, in γ irradiated 3-methylpentane at 77°K, 23:35199
thermal decay of trapped, in irradiated frozen solutions, 23:248
thermalization in irradiated gases, 24:38979
thermalization in plasma by collisions, 21:2253
thermodynamic properties of hydrated, predictions of, 23:47501
tracks in dense media, model for studies on, 23:19803
tracks in dielectric liquids, electric conductivity study of structure of, 25:22585
tracks in light media at 1 keV to 3 MeV, effects of chemical composition and initial energy on physical structure of, (T), 25:22583
tracks of fast, structure of, 23:47525
tracks of secondary, scaling law for scattering and slowdown in, 25:22587
trajectories in combined axially symmetric electric and magnetic fields, (T), 24:1495
trajectories in geomagnetic field, (T), 21:9451
trajectories in heavy-liquid bubble chambers, (T), 22: 44300 (LAL-1190)
transfer by molecules in aqueous and alcoholic solutions, effects of, on radiosensitivity of biological materials, 21:41348
transfer in thermionic converters by negative-ion formation, (E), 21:23042
transient ionization currents produced in gases and liquids by 0.9 MeV, performance of ionization chamber for measurement of, 23:2740(R) (COO-78-174)
transition radiation from high-energy, spark chamber detection of x-ray, 24:46512
transition radiation from, nuclear resonance absorption of, (T), 25:9703 (JINR-P2-5042)
transition to continuous spectrum, quantum theory of, 21:18441
transmission and range in aluminum, cadmium, carbon, copper, and lead at 4 to 30 MeV, 21:27006
transmission by aluminum, carbon, lead, and tin at 6.74 MeV, angular distributions from, 23:48708
transmission in aluminum shielding at 0.5 to 6 MeV, (T), 21:37521
transmission of 1.0- to 2.0-MeV, through carbon and polystyrene slabs, 22:8043(T) (AEC-tr-6908, pp 6-9)
transmission of 1.0- to 2.0-MeV, through carbon and polystyrene slabs, 21:19634
transmission through aluminum and polystyrene thin films at 5 to 30 keV, angular distributions and energy losses in, (E), 25:25199
transmission through aluminum foils at 1 eV to 4 keV, (E), 25:19766
transmission through aluminum, beryllium, and gold at 4 and 8 MeV, angular and energy distributions for, (E/T), 24:19716
transmission through aluminum, gold, and tin at 1.0 and 2.5 MeV, angular and energy distributions from, (E), 25:17259
transmission through gold foils of 40-keV, effects of crystal thickness and aperture size on temperature dependence of anomalous, 23:23300
transmission through layers of matter, calculation of secondary electron spectra buildup in, 24:44970 (EUR-4452, pp 595-613)
transmission through materials, mass absorption coefficients relative to positron coefficients for, (E), 23:51363
transmission through one-dimensional finite crystal, coefficient calculations for, 22:11207
transmission through silicon at 2.43 MeV, effects of target thickness on angular and energy distributions in, (E), 23:27669 (N-69-19113)
transmission through silicon targets, (E/T), 21:46124 (N-67-25059)
transmission through silicon targets, effects of thickness on energy and angular distributions in, (E), 22:45922 (N-68-25285)
transmission through solid films, generalized theory of, 21:13625
transmission through thick gold foils at 40 keV, effects of inelastic multiple scattering on anomalous, 24:39817
transmission through thick layers of matter, fast, 22: 41636(T) (ANL-Trans-608)
transmission through thin dielectric foils at high energies, transition and Cherenkov radiation and energy losses from, (T), 24:37711
transmission through thin films, Monte Carlo calculation of, 21:37558
transmission through water, photon yields from, 23: 35021
transport by discrete ordinates method, 1- to 8-MeV, (T), 25:52887 (ORNL-TM-3438)
transport by infinite media, (T), 24:45310
transport calculations, Monte Carlo method for, 24: 45305
transport calculations, Monte Carlo method for, (T), 25: 33394(T) (ORNL-tr-2464)
transport coefficients in parahydrogen, 23:1168
transport coefficients of stellar degenerate gas of, (T), 21:6936
transport in aluminum at 1 MeV, (T), 25:47600
transport in aluminum slabs at 1 MeV, ANISN calculations for, 25:30630 (ORNL-TM-3318)
transport in dielectrics, (T), 22:31896
transport in electric and magnetic fields, magnetic corrections to Boltzmann equation for, 21:7234
transport in gases, energy loss calculations for, 21:31196 (AD-644625)
transport in gases, space charge effects in Townsend—Huxley swarm technique for, (T), 22:973
transport in gases, use of Fourier transforms in analysis of data on, 21:8612
transport in gold and silver, bremsstrahlung yield from, (E/T), 24:51763 (N-70-28160)
transport in magnetic field of degenerate gas of, equations for, (T), 24:32838
transport in materials up to 2 MeV, mathematical simulation of, 24:44966 (EUR-4452, pp 401-35)
transport in materials, Monte Carlo calculation of, 23: 14853 (IKF-20)
transport in materials, Monte Carlo calculation of multiple scattering and energy loss for, 23:34258(T) (ORNL-tr-2126)
transport in matter, calculation of distribution of dissipated energy from, 23:51364
transport in plasma in transverse magnetic field, (T), 23: 3499
transport in slabs, energy deposition in, (T), 23:36773
transport in slowing-down medium, spectral, angular, and spatial distribution, (T), 21:37524
transport in solids, Monte Carlo calculations for, 25: 56362
transport in strong magnetic fields, quantum theory for, 22:44286
transport in tin, energy and angular distribution for, (E/T), 24:51763 (N-70-28160)
transport in tin, energy and angular distribution from, (E), 23:36774
transport of <10-MeV, review of calculations, theory, and experiments for, 21:21019
transport of 1.5-MeV, in lucite, (T), 22:31896
transport of cosmic, in homogeneous media, Monte Carlo simulation of, 24:5010 (HASL-213)
transport of solar, into magnetosphere over polar cap, (E), 24:42582
transport of, evaluation of Mott cross section and Goudsmit—Saunderson multiple-scattering distribution for, (T), 25:10087
transport of, program for evaluating Mott scattering cross sections and Goudsmit—Saunderson angular multiple-scattering distribution for calculations of, 24:28818 (BNL-50199)
transport problems of, modified phase space time evolution method for, 25:5242
transport processes in tunnel diodes, theory of, 22:11492 (NP-17210)
transport theory of relativistic, 21:37522
transport theory using invariant-imbedding method for, 23:34263
transport through aluminum, analysis using phase-space time-evolution method, (T), 25:43424
transport through thick targets at 1 to 10 MeV, (E), 21: 37520
transport using phase space time evolution method, (T), 25:40756
transport velocity in topside ionosphere, nighttime, 21: 39932
trapped from Argus, Starfish, and Russian bursts, 21: 9461
trapped, longitude dependence of geomagnetically, (T), 21:9445
trapping and stabilizing, with electrostatic and magnetostatic fields, (E), 21:23002
trapping at low and high altitudes during magnetic storms, (E), 22:47974
trapping in dielectrics, shielding against bremsstrahlung in spacecraft by, 25:40731
trapping in gamma-irradiated heterocyclic compounds, 24:13877(R) (RRL-2310-287)
trapping in γ-irradiated ethylene glycol—water glasses at 4 and 77°K, mechanism of, 24:41354
trapping in γ-irradiated polymers, 24:37003 (ORNL-4586, pp 118-25)
trapping in ionospheric electrostatic double layers, (E), 25:14103
trapping in irradiated alkaline glassy ice, EPR spectrum of, 24:15392
trapping in irradiated hydrocarbon polymers, ESR studies on, 25:23625
trapping in metal oxide insulators, thermal stimulation studies, (E/T), 24:24130
trapping in polymers, 23:47465(R) (ORO-2968-49)
trapping mechanisms in irradiated alkaline ice, 25:26298
trapping of 280-keV, in outer radiation belt, (E), 23: 39397
trapping of 40-keV, in outer radiation zone, (E), 22: 47891 (N-68-23254)
trapping of radiolytic, in alkane glasses, 25:21058
trapping of radiolytic, in water-walled cavity in alkaline glasses, 25:26310
trapping of relativistic, at synchronous altitude, (T), 24: 49066 (AD-702799)
trapping of relativistic, within magnetotail neutral sheet, (E), 23:25211
trapping of rings of, in 15-kG pulsed magnetic mirror field, 23:1749
trapping of solar, in closed field lines of magnetosphere, (E/T), 25:14101 (AD-712045)
trapping of, geomagnetic field correlations with, 21:2127
trapping of, in γ-irradiated ethylene glycol and glycerol glasses, 21:8346
tunneling across annealed tantalum/tantalum oxide interface, (T), 22:15632
tunneling between two-zone superconductors with nonmagnetic impurities, (T), 22:29436
tunneling from normal metals into superconductors containing paramagnetic impurities, (T), 21:46285
tunneling in aluminum/alumina/aluminum junctions, analysis of, 25:30706
tunneling in Josephson junctions, zero-bias supercurrent and barrier energy calculations, 22:1112
tunneling in lead/insulator/aluminum junctions near transition temperature, (E), 22:1108
tunneling in metal—polymer—metal systems, low-energy, 24:11576 (JAERI-5022, pp 169-74)
tunneling in normal metal/insulator/metal junctions, emission and self-energy effects in, (E), 23:27708
tunneling in oxide diodes, general theory, 22:1346
tunneling in superconducting lanthanum thin-film diodes, structure due to phonon effects, (E), 22:31753
tunneling in superconductor/normal metal interfaces, 23: 14732
tunneling through dielectric layers, theory of effect of atomic cores on, 25:30678
tunneling through superconductor-CdS film-superconductor junctions, effects of light on, (E), 22: 31752
ultrasonic attenuation in free, in magnetic field, (T), 21: 27232 (N-67-11810)
universality of e—μ in strangeness-changing decays, violation of, 24:52043
universality of μ—e in K → π + l + ν decay, violation of, 25:1477
universality of μ—e, e + p and μ + p inelastic interactions for test of, (E/T), 25:50050
universality with mesons (μ) in two- and three-body K decays, (T), 25:36470
universality with mesons (μ), momentum transfer range dependence relative to e + p → e + p interactions and absolute magnitude of cross sections for μ + p → μ + p interactions for test of, (E), 24:10660 (NEVIS-176)
universality with mesons (μ), $\mu^+ + p \rightarrow \mu^+ + p$ and $\mu^- + p \rightarrow \mu^- + p$ interactions at 6 to 17 GeV for test of, (E), 24:8558 (NEVIS-178)
universality with mesons (μ), review of, (E), 23:51876 (DESY-69/21)
universality with mesons (μ), test of, (E), 23:36820
universality with muons, alternative form of, (T), 23: 13074
universality with muons, $\Sigma^- \rightarrow n + l^- + \nu$ decay for test of, (E), 23:39603
use for cancer radiotherapy, conference on, 23:6526
use for control of insects infesting grain, review of, 21: 24703
use for estimation of molecular weights of enzymes in membranes of erythrocytes, microsomes, mitochondria, and nerve cells, 22:33716(R) (UCB-34-P-136-2)
use for food processing, 21:30937 (CONF-670202, pp 9-13)
use for food processing, 21:26723
use for food processing, review of principles involved and wholesomeness considerations in, 25:27132 (CONF-680112-, pp 221-39)
use for gynecological therapy, comparison of, with other sources, 23:865
use for high-energy therapy, conference on dosimetry for, 23:50491
use for pencil beam scanning in therapy, 23:6530
use for postsurgical exposure of regional lymph nodes for treatment of human mammary gland carcinomas, 24: 32138
use for preservation of food, review of, 21:24704
use for processing agricultural products, review on, 21: 45857
use for processing beef and pork, 21:24700
use for processing foods, economics of, 21:26708
use for radiotherapy, 22:23565
use for radiotherapy, history of betatron, 23:6533
use for radiotherapy, problems of beam shaping and dose planning for, 23:6529
use for radiotherapy, telecentric small angle pendulum technique for, 25:26878
use for single-dose therapy of metastatic tumors in man, evaluation of, 24:12208
use for therapy in comparison with γ and x radiation, high-energy, 24:48658
use for therapy in man, effects of combined antibiotic, corticoid, and vitamin preparation on topical treatment of secondary effects following, 24:755
use for therapy in man, evaluation of, 24:34560
use for therapy in man, linear accelerator, strontium-90, and Van de Graaff generator, 23:6531
use for therapy in relation to radiobiological research, high-energy, 23:50763
use for therapy of abdominal tumors, telecentric small-angle pendulum method for, 25:26867
use for therapy of advanced cancer in man, evaluation of technical improvements in, 24:48647
use for therapy of breast cancer, high-energy, 21:39467
use for therapy of breast carcinomas and pituitary adenomas in man, dose distribution and treatment plan for 15 to 37 MeV, 23:50766
use for therapy of bronchial carcinomas, combined effects of antineoplastic drugs and surgery on, 24:4661
use for therapy of cancer of human head and neck, 24: 23287
use for therapy of cancer of human head and neck area, evaluation of, 24:34534
use for therapy of cerebellar medulloblastoma in children, 23:29695
use for therapy of deep seated tumors in comparison to cobalt-60 γ and x rays, 23:43835
use for therapy of esophageal cancer in man, megavoltage, 23:29691
use for therapy of eye diseases in man, methods for bilateral fast, 25:4690
use for therapy of Hodgkin's disease, effects of dose fractionation on, 23:26952
use for therapy of human carcinomas, combined effects of 5-fluorouracil on, 24:6058
use for therapy of human carcinomas, tumor site as indication for, 24:34558
use for therapy of human keloids, 24:4665
use for therapy of human larynx, histopathological study of lesions following, 23:48179
use for therapy of human lip neoplasms, 23:38701

use for therapy of human nasopharyngeal tumors at 10 MeV, development of conformation method for, 25: 35194
use for therapy of human neoplasms, in comparison to interstitial gamma and x, 24:6088
use for therapy of human skin cancer, methods and problems in, 24:25544
use for therapy of human tumors, 24:21261
use for therapy of human tumors, evaluation of, 23: 31874
use for therapy of lung metastases, pleural and peritoneal carcinomas, and skin cancer, dosimetry and methods for fast, 25:13538
use for therapy of mammary cancer, development of method for pendular, 24:44571
use for therapy of neoplasms in children, advantages of, 24:34536
use for therapy of neoplasms of human ovary, effects of dose on, 24:2750
use for therapy of neoplasms of human ovary, effects of dose on, 24:2749
use for therapy of ophthalmologic tumors, protective effects of lead shielding during, 23:35758
use for therapy of treatment-resistant glaucomas in man, method for, 24:27654
use for therapy of tumors of larynx, lip, and tongue in man, combined effects of surgery and betatron, 23: 31880
use for therapy, 6 MeV, 24:23276
use for therapy, design of scattering-foil filter for use during, 24:2751
use for therapy, method for dose modification in, 25: 46935
use for treatment of intracranial Hodgkin's disease in man, 24:7966
use for tumor therapy in man, limitations of, in relation to RBE, 23:50801
use for tumor therapy, methods for improving, 24:34531
use in radiation processing of foods, 23:17657
use in therapy in relation to effects of heavy particles on biological materials, 23:50811
use of 42 MeV, for therapy of inoperable breast carcinomas in man, method for, 24:12200
use of 5 to 30 MeV, for absorbed dose calibration of thimble ionization chambers, 22:19118
use of beams of, for radiopreservation of chicken meat, 21:18202
use of fast, for food radiosterilization in United Kingdom, 21:6743
use of fast, for therapy of human breast cancer, development of pendular method for, 25:35191
use of high energy, in food processing research, 23: 35970
use of high-energy, for therapy in man, problems of collimation, field size, and focus-skin distance in, review of, 25:567
use of high-energy, in radiation processing, technical and economic factors in, 22:25570 (CONF-660706-, pp 159-72)
use of high-energy, in radiotherapy, dose fractionation schemes for, 21:8833
use of linear accelerator produced, for therapy in man, 23:6532
use of pulsed, in stroboscopic pulse radiolysis, 23:299
use of, accident report on therapeutic, 21:6555
use of, for processing fruits and vegetables, 21:9006(R) (EUR-3163.e)
use of, for total-skin therapy, complications from, 21: 4827
use of, in food irradiation, pilot plant for, 21:16553
use of, in therapy for tumors of head and neck, evaluation of, 21:14680
uses in industry, review of, 22:19056
uses of, in radiotherapy, apparatus and physical basis for, 21:3433
variations of MeV-range, satellite measurements from Dec. 1968 to June 1969 of energy, flux, and time, 23: 51264 (CEA-CONF-1403)
velocity dispersion in auroral, 21:33283
velocity distribution function for ionospheric, effects of oscillating electric fields on, (T), 24:30233
velocity distribution in partially ionized gas in electric and magnetic fields, (T), 22:9375
velocity distribution in positive column, (T), 22:3023
velocity of field of, instantaneous, 22:17898
velocity spectra of, produced by interactions of protons with hydrogen, 22:4600 (BNL-11877)
wave function for, covariant spinor field theory for, 24: 30569
wave function in quantum electrodynamics, potentials for, 24:35704
wave function renormalization constants in quantum electrodynamics, functional relations for, 25:9848
wave functions for bound and free, tables of, 21:35498 (BNL-50002)
wave functions for, computer program for calculating, 23:46248 (UJV-2184-F)
wave functions for, in Coulomb field, Farri—Sommerfeld—Maue approximation for, 21:9676
wave propagation in plasmas of, turbulence theory of, 21:2250
wavefunctions for systems of many-, sum rules in geminal expansion of, 21:33548 (AAEC/TM-382)
x rays from solar, emission of hard, (T), 23:25108
x-ray scattering by bound, impulse approximation analysis of Compton, 24:37254
x-ray scattering on bound, (T), 25:47704
x-ray scattering on, in solids, theory of Raman, 21: 16998
yield of hydrated, from irradiated water, effects of deuterium on, 23:33214
yield of secondary emission, from electron and positron reactions with aluminum and gold at 1.5 to 18 GeV, (E), 23:32601
yield of solvated, in γ-radiolysis of ethanol—water mixture, 22:16592
yields from ferrocyanide photoionization or γ radiolysis of alkaline ices, effects of acrylamide on, 24:44052
yields from ion reactions with crystals, 23:44493 (AD-682373)
yields from radiolysis of hydrocarbons, 25:10652
yields from radiolysis of liquids, 22:21128
yields from target surfaces, Polya statistical model for secondary, 21:36449
yields of hydrated, from electron-pulse radiolysis of aqueous solutions, effects of pressure on absorption spectrum and lifetime of, 23:43361
yields of hydrated, from γ radiolysis of neutral aqueous solutions, 23:19802
yields of hydrated, from pulse radiolysis of aqueous solutions of nitrobenzene, nitromethane, and oxygen, 25:26308
yields of hydrated, from radiolysis of aqueous solutions, effects of pressure on, 22:12367
yields of hydrated, from radiolysis of water, effects of pH on, 22:25410
yields of hydrated, from radiolysis of water, effects of LET on, 23:35245
yields of hydrated, in radiolysis of water and aqueous solutions, 23:35153
yields of solvated, from electron pulse radiolysis of alcohols at 187°K, 25:37436
yields of solvated, from γ radiolysis of alkaline methanol, 25:51533
yields of solvated, from γ radiolysis of formamide, effects of nitrous oxide on, 25:41863
yields of solvated, from pulse radiolysis of alcohol solutions of alkali metal halides and potassium hydroxide, 24:27172
yields of solvated, from pulse radiolysis of aqueous hydroxide solutions, 25:37429
yields of solvated, from pulse radiolysis of ethanol, 24: 33744
yields of solvated, from radiolysis of 2-propanol—water, effects of nitrate ions on, 24:9366
yields of solvated, from radiolysis of ice, 23:37986
yields of solvated, from radiolysis of water, 25:2257 (CEA-R-4046)
yields of solvated, in pulse radiolysis of crystalline ice, effects of temperature on properties of, 22:30591(R) (RRL-2310-231)
yields of solvated, in radiolysis of alcohol solutions of alkali metal halides, 22:12337(R) (COO-1116-6)
yields of solvated, in radiolysis of ethanol, effects of temperature on, 21:38971
yields of trapped from gamma radiolysis of glassy methanol, 21:23971
yields of trapped, from γ radiolysis of aqueous monosaccharide ices at 77°K, EPR studies on, 25: 29153
yields of trapped, from γ radiolysis of organic glasses at 4 to 77°K, ESR studies on, 25:29156
yields of trapped, from γ-radiolysis of aqueous solutions of ethylene glycol and glycerol, 24:16566
yields of trapped, from radiolysis of 1-propanol, 25:6377
yields of trapped, from radiolysis of glassy methanol, 22: 37803
yields of trapped, in γ radiolysis of alkaline glasses, ESR spectral studies on effects of chloroorganic compounds on, 23:13790
yields of trapped, in irradiated frozen aqueous and alcoholic systems, 23:47498
yields of trapped, in pulse radiolysis of ice and frozen hydrofluoric acid solutuions, effects of temperature on, 23:47502
yields of trapped, in pulse radiolysis of low-temperature glasses, 24:38971
yields of, from radiolysis of aqueous solutions of nitrates and nitrogen oxides, 21:8382
ELECTROPHORESIS
see also Iontophoresis
apparatus for analysis of radioactive materials by, 21: 40805(P)
bibliography on, 1967-69, 24:26948
cation transference numbers in solutions in, 22:1936 (UCRL-17807)
conference on, Brussels, Sept. 16-18, 1968, 24:25106
design of automatic counting and recording unit for use in, 21:10263
developments in, review on, 22:25305
equipment for radioisotope separation by paper, design of, 21:4609
method for carrier-free buffer stream, using continuous electrofocussing in natural pH, 25:10414(T) (UCRL-Trans-1429)
method for preparation of radiation targets, 25:58183 (CONF-711002-, pp 160-5)
method for separation of radioisotopes, 22:33525
radiation effects on, of myoglobins, γ, 24:31843(R) (UCB-34-P-95-17)
radioactive material on moving bands in, scintillation detector for studying local concentration of, 25: 18688(P)
review of countercurrent, 25:54742
use for measurement of x-irradiated fractions of soluble proteins of rabbit muscles, 23:6366
use in biochemical analysis, review on, 22:25271
use in separation of lymphocytes from whole blood, effects on growth of lymphocyte in tissue culture, 21: 20035 (UCLA-12-612, pp 69-76)
use of zone, on paper for separation of elements and radioisotopes, 22:33492
ELECTROPHOTOGRAPHY
bibliography on methods for, 24:44211 (AERE-Bib-173)
book: Use of Various Biophysics Methods in Selective-Genetics Studies, 23:35590
development for recording x-ray images, 25:39892
equipment and methods for, conference on, 22:4547
ELECTROPLATING

aberrations in mass spectrometer, calculation of chromatic, 25:22935
aberrations in prism-type, 25:22932
angular response of spherical plate, 23:22041
beam focusing characteristics of cylindrical-mirror, for beams with finite angular divergence, 25:49066
beam focusing in, with cylindrical fields, 24:38043
calculations for a sector field magnetic and, 25:56606
calculations for hollow and cylindrical charged-particle beams, 25:3487
calibration and performance of 127° cylindrical, 25: 18843
calibration of deflection-type, for photoelectron spectroscopy, 24:46541
charged-particle energy spectra from gridded, analysis of integrated, 23:20052
charged-particle motion in hemispherical-shaped, computation of, 22:14891
charged-particle transmission through cylindrical plate, 22:19150
charged-particle transmission through spherical plate, 21:24272
description for use with channel electron multipliers for measurement of auroral electrons and protons, 25: 57790
design and construction of, 21:6330 (IA-1082, pp 289-94)
design and performance for spectrometry, Q-value for, 25:48972
design and performance of, for measuring energy spectra of neutral particles, 22:40437 (EUR-CEA-FC-255)
design and theory for low-energy large diameter electron beams, 25:22948
design for computer-controlled three-stage mass spectrometer, engineering drawings for, 22:33694
design for low-energy particles on space vehicles, 24: 31760
design for particle energy distribution measurements in atomic and molecular collisions, 24:44972 (ORNL-4545, pp 124-37)
design for scattered electrons, 25:44737
design for studying electron scattering by atoms and molecules, 24:46545
design improvement of planar, for slow electrons, 25: 55072 (FRNC-TH-54)
design of, 25:29408(P)
design of 15 cm spherical, engineering drawings for, 24: 41660
design of cylindrical, for detection and measurement of 1- to 20-keV electrons and protons in aurorae, 22: 28096
design of cylindrical-mirror type, 25:42215
design of double-focusing, field considerations in, 25: 13325
design of parallel-plate, for low-energy electrons, 24: 48352
design of satellite-borne, for 1- to 100-keV charged particles, 22:28094
design with ring focusing in field of cylindrical condenser, 25:18849
development for measuring electron spectra from gas-discharge guns, 25:32268
electron energy distributions of, calculations of, 25: 55084
electron multipliers mounted in, performance degradation of, 23:22043
energy resolution in Hughes—McMullen 127°, method for improving, 23:22045
focusing properties of parallel plate, 25:8576
geomagnetic field effects on, 21:1561 (AD-640976)
ion-optical properties of cylindrical, with ring-axis focusing, 25:43761
performance as magnetometer using electron beam, 25: 18865
performance as time-of-flight spectrometer for plasma diagnostics, (E), 25:56137
performance for electron spectrometry, 25:55083
performance for energy analysis of ions at 10 eV to 15.2 keV, 24:25324 (NP-18202)
performance of cylindrical-mirror and spherical-deflection, 22:8416
performance of cylindrical-mirror, spherical-deflector, and spherical-mirror, comparison of, 23:47874 (IA-1183)
performance of gridded, for time resolution of plasma potential, 25:25098
performance of, criterion for comparing, 24:24486

performance of, methods for measuring, 25:44736
properties of cylindrical capacitor as, for nonrelativistic charged particles, 21:37977
properties of cylindrical, relativistic dynamic and optical, 22:23358 (IA-1128, pp 185-212)
resolution of plane and cylindrical, calculation of, 25:37628
response of quadrispherical ARC Pioneer 6/7 plasma probe, mathematical model of, 25:42209
space-charge effects on use for plasma diagnostics, 25:19660
spectra from charged-particle, method for evaluation of, 25:55082
use for measurement of solar wind aboard HEOS A satellite, 22:14891
use for measuring time-varying energy distribution of hydrogen atoms emitted from plasma at 2 to 80 keV, 22:40378
use for solar-wind analysis on lunar surface, suppression of uv sensitivity for, 22:51230
ELECTROSTATIC FIELDS

design for 8 MeV tandem Van de Graaff accelerator, 24:18326
design for 8-MeV tandem Van de Graaff accelerator, 24:10866 (CISE-N-130)
design for collecting recoil atoms from heavy-ion induced nuclear reactions, 21:6362
design for fast neutron production, 22:24757
design for producing neutrons and gamma rays for well logging, 23:44782(P)
design for production of neutrons, 23:24496(P)
design for production of neutrons, 23:24495(P)
design modification of D + T neutron source, 21:7608
design modification using charge exchange for increasing beam energy from 10.5 to 14 MeV, 25:43766
design of, 24:6795(P)
design of 10.5 MeV, with overcharging, 23:17030
design of 4 MeV Dynamitron, mechanical, 21:38012
design of 750 keV Pierce preinjector, for Brookhaven AGS, 24:3796 (BNL-14138)
design of Marx, for REBA 3.2-MeV 43-kA electron accelerator, 25:20136 (SC-DR-70-872)
design of neutron generator, 23:39877(P)
design of neutron-producing, 23:42809(P)
design of neutron-producing, 23:42810(P)
design of parallel plate-type, 22:13890(P)
design of proton, for crystal structure studies at 10 to 100 keV, 25:9918
design of pulsed d—T neutron, for research in reactor physics, 23:19089
design of sealed-tube, for use in radiography of fuel elements, 23:38214
design of single gap high-gradient, for acceleration of 200-mA proton beams to 300 keV, 25:36613 (UARAEE-87)
design of tandem, having method for controlling electric field, 23:21205(P)
design of two-stage tandem Dynamitron, 23:27949
design of water-dielectric, for production of intense fast electron and hard decelerated x-ray pulses, 25:3478
design study of charge-change heavy-ion, 23:39892
development, 21:32372 (RHEL/R-129, pp 79-95)
development for acceleration of intense positive ion beams at MV potentials, 23:27957
development for neutron production, 21:38011
development of 100-kV, for studying tritium (t,α) reactions, 23:52095
development of 3.0-MeV Dynamitron, 21:9647(R) (NYO-2391-41)
development of 4 MV positive ion, for production of high beam currents, 21:38010
development of Dynamitron, 23:46871
development of multistage tandem, 23:27948
development of, review, 22:15884
development of, review on, 24:35747
electric potential stabilization system for, design of corona triode for, 23:46884
electrical discharge of large, methods of energy control during, 25:50296
experimental facilities for 4-MeV Dynamitron, data processing system for, 24:8757 (CONF-690301-, pp 37-53)
gas handling system for Dynamitron, design and fabrication of sulfur hexafluride, 21:38017
injector for charge exchange, design of deuterium, hydrogen, and tritium negative ion, 21:17241
ion source for EG-2, emittance of long-lifetime rf, 21:7601
ion source for Erlangen tandem proton, design of polarized, 21:21343
ion source for, development of lithium, 21:9319
ion sources for cascade-type, design of lithium, 23:34692
ion sources for tandem, development of polarized negative, 21:21340
ion sources for, beam injection system for terminal, 25:20204
ion sources for, design of high-frequency negative hydrogen, 22:37267
ion sources of, design of magnetic separator for removing unwanted beam components from, 23:10903
magnet system for, optical parameters of quadrupole doublet-analyzing, 24:30635
magnets for, performance of 90° uniform field bending, 21:27468 (RHEL/R-119)
materials for high-voltage columns of Dynamitron, use of methyl methacrylate as, 21:38012
operation and performance of ANL Dynamitron tandem, 25:50292
operation as injector for ITEP proton synchrotron, 21:19100(T) (LA-tr-65-31)
operation of 4 mA Dynamitron, for production of 30- to 500-keV neutrons, 23:32884 (NYO-3822-9)
operation of 4-mA Dynamitron, as source of monoenergetic neutrons at 30 to 500 keV, 23:27967
operation of 4-MeV Dynamitron, for fast neutron experiments, 24:43118(R) (ANL-7620)
operation of 4-MV Dynamitron, at ANL, 25:1710(R) (ANL-7641)
operation of Oxford, 21:4145(R) (RHEL/R-120)
operation of, theory of, 24:20277
performance of ANL 4-MV Dynamitron with heavy-ion source, 25:50282
power supplies for Dynamitron MV, design equations for, 23:27960
pumping tubes for removal of ion source or stripper gases from, development of differential, 21:38004
research and development at ANL Dynamitron, 25:25705(R) (ANL-7739)
safety manual for, radiation and nonradiation hazard, 23:13149 (MORP-68-12)
shielding material for, x-ray, 25:56603(P)
terminal voltage measurements for Dynamitron 3-MeV, design of voltage divider board of composite carbon resistors for, 23:27909 (N-69-14398)
transformers for, single-wire induction, 24:38021
use in production of beam of negative hydrogen ions with currents up to 1.0 mA, pulse duration of 1.5 msec, and energy 1.5 MeV, 22:7581
use of positive-ion, as pulsed source for neutron wave propagation experiments, 23:10922
uses of, review of, 22:11754
vacuum pumps for, development of turbomolecular, 21:38011
voltage of electrode of, differential generating voltmeter for measurement and control of, 24:11870
voltage rectifiers for, description of slave, 25:7769 (FEI-189)
voltage regulation for Dynamitron, multi-loop feedback system for, 21:38014
x-ray emission from Rayotron, measurement of, 24:47527 (BRH/DEP-70-22)
ELECTROSTATIC LENSES
see also Electron Lenses
aberration coefficients of quadrupole, spherical, 21:22219
aberration curves for asymmetrized quadrupole, 25:20151
aberration of quadrupole, use of octupoles for compensation of spherical, 22:48400
aberration of stigmatic quadrupole doublet, spherical, 22:48401
aberration of symmetrical quadrupole doublet, equations for spherical, 24:26553
aberration of two-dimensional quadrupole, calculations for chromatic, 23:15322
aberrations in three-electrode telescope systems in cylindrical, chromatic and geometric, 25:22934
aberrations of asymmetrized quadrupole, 25:56604
aberrations of ionic microanalyzers for filtering broad images, second order, 25:38822
aberrations of quadrupole, equations for third order, 24:26552
aberrations of three-electrode transaxial cylindrical, 25:50584
analysis of periodic-focusing, for electron beam transport, 22:46654
beam current in velocity selector, maximum useful, 22:16951
beam transport through thin, 22:39509 (UCRL-18217)
charged particle focusing in, with diameters from 0.1 to 0.0001 cm, 23:13169
charged-particle beam optics in, graphical calculation of waist-to-waist transfer in, 24:30622
charged-particle beam transport properties of twisted quadrupole, 24:35755
charged-particle focusing in axially-symmetric, calculations for, 23:52085
charged-particle focusing in cylindrical, 23:30878
charged-particle focusing in cylindrical, relativistic, (T), 22:39528
charged-particle focusing in, book on, 21:35036
charged-particle motion in quadrupole, first-order end effects in, 24:10877
charged-particle motion in three-electrode, 24:15740
charged-particle motion in, matrix method for calculation of, 24:26563
charged-particle motion through periodic, containing lumped nonlinear elements, long term stability of, 22:32371 (UCRL-17795(Add.))
charged-particle trajectories in helical quadrupole, 25:33924
charged-particle trajectories in toroidal, third order approximation for fringing field effects on, 25:20139
charged-particle trajectory and potential distribution in Einzel, for Van de Graaff accelerator tube, 23:37062
description of two-tube electron, in limiting case of high lens strength, 21:11891
description of two-tube, in limiting case of high lens strength, 21:11891
design for focusing hollow spiraling electron beams, 22:53038(R) (AD-667906)
design for transport of ion beams, 25:36608 (NP-18855)
design for use with magnetic analyzer to determine differential scattering cross section of hydrocarbon ions, 22:45508(R) (PG-Report-826)
design of cylindrical diverging, proof of impossibility of, 21:29698
design of ion-retarding, for improving abundance sensitivity of mass spectrometers, 22:12681 (ANL-7393)
design of iron-free superconducting quadrupole, 21:3791

design of quadrupole, for electron beam irradiation device, 24:26554
design of triplet of quadrupole—octupole, 24:36670
design of ungridded, for bending ions from off-axis ion sources for tandem Van de Graaff accelerators, 22:13885
development of condenser, for bending charged-particle beams, 24:15748
development of magnetic, for measuring yields and angular distributions from proton sputtering, 23:14095
electric field measurements for bending charged particle beams, 23:46864 (ITEF-651)
electric field potential in, calculation of axial, 23:27929
electron motion in arbitrary cross-section, (T), 22:26742
electrostatic field calculations for three-electrode cylindrical, 22:16941
fabrication of electrostatic prisms, method for, 24:18327
field calculations and measurements for asymmetric, 24:38008
field calculations for achromatic multipole, with helical symmetry, 23:15327
field configuration in circular concave quadrupole, with finite thickness, 23:31580
field equations for quadrupole—octopole, for corrected spherical aberration, 24:10880
focusing parameters of three-electrode, calculation and verification of, 25:20152
focusing properties of, 23:52047(T) (LIB/Trans-215)
focusing properties of quadrupole, 24:22048
focusing properties of quadrupole, in heavy ion linear accelerators, 23:19072 (BNL-50120(Pt.2), pp 745-54)
fringing field measurements of, 25:25602
operation for measurement of electron energy spectrum from atomic particle collisions, 23:47910
optical characteristics of pair of quadrupole, 23:39870 (UJV-2177-A)
optical properties of, used in retardation devices of isotope separators, 22:25703
performance of alternating-gradient beam deflector, for synchrotron injection system, 22:15870 (AERE-GP/R-2379)
properties of deflector, particle-optical, (T), 22:20378(T) (UCRL-Trans-10214)
properties of four-electrode telescope system of cylindrical, paraxial, 25:22933
properties of Hughes—Rojansky capacitors for electron beams, calculation of dispersion and focusing, 23:15325
properties of telescoping, 22:9042
theory for focusing axially-symmetric electron beams, 21:41805
use for electron-sheet beam focusing, in symmetric planar structure, 21:9333
use for focusing and defocusing ion beams on targets for production of modulated neutron beams, 21:37969
use for focusing beams of elliptic cross section, 22:2781
use for improving brightness of ion beams by aberration suppression, 21:7586 (CEA-R-3002)
Electrostatic Memory Tubes
see Memory Devices
ELECTROSTATIC PRECIPITATORS
description for fuel leakage detection, 22:16958
description of liquid surface, for fission product monitoring, 21:14460
design and performance for estimation of plutonium-239 content in atmosphere, 23:47908
design and performance of ionization chamber, using 165 Ci cobalt-60 gamma source, 25:48701
design for charged radioactive particles using liquid flow collection, 24:14360(P)
design for in-core fission product detection, 22:51279(R) (RISO-M-729)
design for separating particles suspended in liquids, 22:19228(P)
design of large-volume, for sampling stratospheric aerosols, 21:30547 (TID-23860)
development for determination of size distributions of charged aerosols, 24:19257 (CEA-R-3940)
efficiency for radioactive dust collection, 22:2233
performance of mobile, for decontamination of air in radiation working areas, 23:14206
silicon detectors for, used in alpha particle detection in air, 22:4423 (CLOR-65/D)
use to measure radon-222 concentration in air, 21:4686 (CLOR-47/D)
use with fission gas monitoring system, for burst can detection, 21:12250
use with radiation detectors for fission product analysis, 22:14820(P)
ELECTROSTATIC SEPARATORS

detection of magnetospheric waves, (E), 22:17474
development of, review of, 22:11754
excitation of ionospheric waves near lower hybrid resonance frequency, (T), 23:12662
Green's function application in, (T), 22:24501
potential between coaxial circular and square cylinders, two-dimensional, (T), 22:39947 (AECL-3110)
statistical theory of electric polarization, 22:7344 (ANL-7381)
theory for, gravitation theory with α correspondence for derivation of nonlinear, (T), 25:25483
wave propagation in the ionosphere, (T), 22:24138
ELEMENT 104
alpha decay of A = 257 and 259, α spectra for, (E), 23:40042
alpha decay of A = 260, research using plutonium-242 (Ne-22,4n) reactions, (E), 22:39632 (JINR-P7-3835)
alpha decay of, effect of α radioactive background in studies of, 25:15017
alpha decay of, spectra from, (E), 25:25777
alpha decay properties of A = 257, 259, and 261, 24:43318 (UCRL-18633)
analysis of, chemical and radiometric methods for, 22:44973 (JINR-P7-3855)
bibliography on, 22:24860 (TID-3317)
book: Heavier Than Uranium, in Russian, 23:47426
chemical properties of, 22:48848 (JINR-P7-4021)
chemical properties of, 23:40615(T) (NP-tr-1828)
chemical properties of, 23:43310
chemical properties of, equipment in internal cyclotron beam for studies on, 23:43326
chemistry of, 23:43290(T) (KFK-tr-291)
chemistry of, 23:43325
chemistry of, 22:35772 (JINR-P7-3783)
chemistry of, 25:20970
chemistry of aqueous solutions of, 24:43318 (UCRL-18633)
decay properties of, effect of α-radioactive background in determination of, (E), 24:45778(T) (KFK-tr-327)
decay properties of, tables and charts on, (E), 22:7723
fission of A = 258, properties of spontaneous, 24:43318 (UCRL-18633)
fission of A = 258, tentative identification of spontaneous, (E), 23:40042
fission of, periods for spontaneous, 21:13860
half-life of A = 261 isotope of, (E), 24:49899
identification of 261 isotope of, 25:6290 (UCRL-19530, pp 270-308)
identification of, use of dielectric track detectors for, 23:35480
nuclear characteristics of, predicted, 22:27090 (UCRL-17907)
preparation and chemical identification of, method for, 22:10251
production at Berkeley, 24:48125
production by neon-22 bombardment of plutonium-242, 22:12342(T) (JPRS-44045)
production in plutonium-242 (Ne-22,xn) reactions, 24:49866
production of, 23:19697
production of alpha-emitting isotopes of, review of Berkeley work on, (E), 25:25777
production using heavy ion reactions with collimation method identification, 25:10030(T) (KFK-tr-329)
production, properties, and separation of, review on, 24:41338
properties of, compared with those of hafnium and other elements, 22:40051(T) (ANL-Trans-632)
properties of, comparison of, with those of hafnium and other elements, 22:140 (JINR-D6-3281)
research at Berkeley Hilac, 24:43318 (UCRL-18633)
search for alpha and spontaneous fission activity of, (E), 23:52143 (UCRL-18667, pp 1-64)
separation by cation exchange, chemistry of, 25:13088
separation by thermalized recoil atom conversion into volatile chloride, equipment for continuous, 25:10669 (LYCEN-7034, pp 9-22)
separation from niobium, 22:18747
separation from other elements by gas chromatography, 23:43325
separation from other elements by ion exchange chromatography, 25:6290 (UCRL-19530, pp 270-308)
separation from products of neon-22-ion bombardment of plutonium-242, thermochromatographic, 25:51581 (JINR-D12-5845)
separation from transuranium elements, aqueous method for, 24:43318 (UCRL-18633)
separation of, from nobelium by chloride volatility, 21:15877 (JINR-E6-3076)
synthesis of, description of, 25:39021
ELEMENT 104 CHLORIDES
chemical properties of, 23:43310
sorption by solid surfaces, 24:2193
sorption from gas phase by surfaces of glass and potassium chloride crystals, 25:20970
sorption from gas phase on solid surfaces, 22:35772 (JINR-P7-3783)
sorption from gas phase on solid surfaces, 23:43290(T) (KFK-tr-291)
sorption on glass and potassium chlorides, 24:36225
thermodynamics of, 23:43290(T) (KFK-tr-291)
vaporization of, heat of, 22:35772 (JINR-P7-3783)
volatility of, 22:44973 (JINR-P7-3855)
volatility of, 21:8235 (JINR-P6-3076)
volatility of, 24:2193
ELEMENT 105
alpha decay of A = 260, half-life and α energy for, (E), 24:45791
alpha decay of, half-life and α energy for, (E), 25:28350(T) (KFK-tr-350)
alpha decay of, half-life for, (E), 25:34135
fission of A = 261 isotope of, half-life for spontaneous, (E), 25:12620
fission of, half-life for spontaneous, (E), 25:5757
fission of, half-life for spontaneous, (E), 24:26637 (JINR-P7-4932)
preparation in Soviet Union, 22:35854
preparation using nitrogen-15 reactions on californium-249, 24:45791
production and identification of, 24:29241 (JINR-P12-5120)
production in americium-243 neon-22 reactions, (E), 25:5757
production in neon-22 reactions (Ne-22,xn) with americium-243, excitation functions for, (E), 24:40614 (JINR-P7-5108)
production in neon-22 reactions with americium-243 at 120 MeV, effective cross sections for, (E), 25:28350(T) (KFK-tr-350)
production in neon-22 reactions with americium-243 at 119 MeV, cross sections for, (E), 24:26637 (JINR-P7-4932)
production of, 23:19697
production of spontaneously fissioning isotope of, by neon-22 reactions with americium-243, (E), 24:49858 (JINR-P7-5164)
production using americium-243 (Ne-22,4n) and (Ne-22,5n) reactions, 22:18208 (JINR-D7-3548, pp 3-14)
production using americium-243 (Ne-22,4n) and (Ne-22,5n) reactions, 22:44678(T) (ANL-Trans-633)
production, properties, and separation of, review on, 24:41338
search for short-lived α-emitting isotopes of, using neon-22 reactions with americium-243, (E), 22:35290 (JINR-P7-3808)
ELEMENT 105 CHLORIDES
volatility of, 24:29241 (JINR-P12-5120)
ELEMENT 110
alpha decay of, half-life calculations for even A = 280 to 292 isotopes, (T), 25:25718(R) (MNC-3783-9)
existence in earth's crust, method for determining possible, (E), 25:46047
fission of compound nucleus of, mass and charge distributions and yields from, (E), 25:23047
potential-energy surfaces for, effects of asymmetric distortions in single-particle potential on, (T), 25:28313 (CERN-70-30(Vol.2), pp 689-99)
production by argon-40 reactions with uranium-238, (E), 22:48544
search for, and isotope 294, in nature, 23:49772 (UCRL-18667, pp 277-312)
ELEMENT 112
alpha decay of, half-life calculations for even A = 284 to 296 isotopes, (T), 25:25718(R) (MNC-3783-9)
production by secondary reactions in proton reactions with tungsten at 28.5 GeV, test for, (E), 25:48083
production in tungsten by 24-GeV protons, evidence for, (E), 25:25737
ELEMENT 113
chemical properties of, predicted, 24:1823 (ORNL-4437, pp 20-39)
properties of, prediction of chemical and physical, 24:18948
ELEMENT 114
alpha decay of, half-life calculations for even A = 288 to 298 isotopes, (E), 25:25718(R) (MNC-3783-9)
binding energy and mass density of A = 198, calculation using Hartree—Fock method with Skyrme interaction, (T), 24:49968
binding energy of A = 198 isotope of, calculation using statistical theory, 24:49935 (UCSD-10-P-11-105)
binding energy of A = 298 isotope of, calculation using statistical theory, 25:20486
binding energy of A = 298, statistical calculation of deformation effects on, 24:24615
chemical properties of, 23:45244(T) (ORNL-tr-2212)
chemical properties of, predicted, 23:37945
chemical properties of, predicted, 24:1823 (ORNL-4437, pp 20-39)
detection in meteorites from krypton-86 and xenon-136 abundances, 24:12502
electron binding energies and x-ray energies for, calculation using relativistic self-consistent-field atomic wave functions, 22:47807
energy levels of A = 298, calculation using K-matrix interactions, (T), 25:46043
existence in earth's crust, method for determining possible, (E), 25:46047
fission of, effect of oblate—prolate transitions on half-life for spontaneous, (T), 25:39018
fission of, estimation of properties of, (T), 24:1903
fission properties of, predictions on, 24:28802
natural occurrence of, search for, 24:43409
nuclear stability of, (T), 24:1824
nuclear stability of, calculation using hydrodynamic model with shell corrections, 24:43526
nuclear structure and stability, (T), 22:39695 (UCRL-17989, pp 101-25)
nuclear structure calculations using Brueckner—Hartree—Fock method with Reid soft-core potential in harmonic-oscillator basis, (T), 25:45971
nuclear structure calculations using shell model with effective two-body interactions, (T), 25:23092
production of, 23:19697
production of isotope-284 of, cross sections for, 23:49772 (UCRL-18667, pp 277-312)
production of, methods for, (T), 23:42907(T) (ANL-Trans-746)
production of, prospects for, 24:1837
production using heavy ion-induced reactions, (T), 22:18209 (JINR-D7-3548, pp 39-47)
production, properties, and separation of, review on, 24:41338
properties of, atomic, (T), 25:35592
properties of, prediction of chemical and physical, 24:18948
research on, review of, 25:5719
search for, using argon-40 reactions with curium-244 and curium-248, (E), 22:39640 (UCRL-17989, pp 127-57)
search in lead minerals for, by neutron fission and delayed neutron counting, 24:30837
stability of mass-298 isotope against fission, (T), 21:38395
use for dating of meteorites, (T), 24:17407
ELEMENT 126
production of, methods proposals for, 22:39673
production of, with A = 310, (E), 22:1690

synthesis of, calculation of cross sections for, (T), 22: 30097
ELEMENTARY PARTICLE MODELS
absorption model consistent with elastic unitarity for high-energy hadron interactions, 22:37149
absorption model for production of spin-$^3/_2$$^+$ in meson interactions with baryons, comparison with Regge-pole model, 23:32739
absorption, differential cross sections for $\pi^- + p \rightarrow \pi^0 + n$ interactions at 5.9 to 18.2 GeV/c in, 23:44662
absorption, for convergence of electromagnetic form factors for πN systems, mesons (π), and nucleons in, 24:10702
absorption, for meson-exchange $\pi + p$ interactions, 24: 3675
absorption, for photoproduction processes, 24:1540
absorption, for $\pi + \pi$ scattering, 24:45511
absorption, for $\pi^- + p \rightarrow \pi^0 + n$ interactions, 23: 51940
absorption, hyperplane formalism for helicity states for, 23:39633
absorption, of n + p and anti p + p charge-exchange interactions at 2.85 GeV, 23:36960
absorption, polarization of Σ in $\pi^+ + p \rightarrow K^+ + \Sigma^+$ and Λ in $\pi^- + p \rightarrow K^+ + \Lambda$ interactions in, test of empirical rule for cuts and line reversal relations in, 25:36502 (CALT-68-300)
absorption, $\pi^- + p \rightarrow \pi^-(\pi^0) + p(n)$ and $\pi^+ + p \rightarrow \pi^+ + p$ backward interactions in, 25:53187
absorption, Regge cuts for scattering amplitudes in, 25: 19992
absorption, test of empirical rule for cuts and line reversal relations in strong interactions in, 25:36502 (CALT-68-300)
absorption, with strong cuts, differential cross sections and density matrix elements for backward rho$^+$ production in $\pi^+ + p \rightarrow$ rho$^+$ interactions at 5.0 and 5.2 GeV/c in Reggeized, 25:25419
absorptive optical, for scattering at all angles in $\pi^- + p \rightarrow \pi^0 + n$ and $\pi + p$ interactions at 3 GeV/c, (T), 24:40393
absorptive peripheral, for $\gamma + p \rightarrow \pi^+ + n$ interactions, Reggeized U(6) x U(6) x O(3) symmetry scheme in, 24:37701
absorptive peripheral, meson—nucleon interactions in Reggeized U(6) X U(6) X O(3), 25:1536
Amado, proton energy spectra and break-up cross sections for n + d interactions at 14.4 MeV in, (T), 24:52116
anisotropic, for $\pi^- + p \rightarrow n + \pi^+(2\pi^+) + \pi^-(2\pi^-) + m\pi^0$ interactions at 4 GeV, 25:12204 (JINR-P1-5431)
Bach—Tamaid theory for, 23:25539
Bach—Tamaid theory of particle mass, 22:52954
Bach—Tamaid, for elementary particle mass and structure, 22:34888
bach—tamaid, structure of baryons, leptons, and mesons from relation of quarks with, 24:51998
baryon resonance structure and decay widths in SU(6) orbital excitation, 21:42428
baryon—antibaryon model for mesons, 23:25598
baryon—antibaryon, boson mass assignments in, 24: 37756
baryon—antibaryon, for photon decay of mesons, 24: 42952
bilocal-field-exchange, for p + p interactions at high energies, 24:52144
book: Models of Elementary Particles, 25:7629
bosons in higher configurations of, theory for G-parity doublet, 21:17060
breakdown of vector dominance, in rho^0 and ω production in $\pi^- + p$ and $\pi^+ + d$ interactions at 2.7 and 4 GeV/c in bubble chamber, (E/T), 23:14993
bremsstrahlung, for p + p interactions at high energies, 24:24400
broken chiral SU(3) x SU(3), for angle of eta—X mixing, 25:36551
Bronzan—Lee model, strong-coupling theory solution to, 22:26625
Bronzan—Lee, strong-coupling solution of, 23:42651
Byers—Yang, for $\pi + N$ elastic and charge-exchange interactions at high energies, arbitrariness of amplitude relations in, 24:3688
Carlitz—Kislinger, for parity twins for fermion trajectories, 25:1651
cascade evaporation, Monte Carlo method for calculating π and N reactions with nuclei at 0.01 to 100 GeV in, 25:59508(T) (ORNL-tr-2514)
cascade—evaporation, for analysis of low-energy particles produced in proton reactions with nuclei below 5 GeV, 25:17515 (JINR-P2-5549)
charged scalar static, two-meson solution of, 24:18156
Chew—Low static, weak axial-vector coupling constant in, 24:47425 (SINP-TH-67-21)
Chimeron, for intermediate-vector bosons, 24:45476
chiral Lagrangian, closed-fermion-loop calculations of electromagnetic processes in, 25:53053
chiral symmetry and dual, relation between, 25:1588
classical stochastic, formulation of Bohr-like, 25:56450
cluster, meson mass relation from, 22:29685
coherent droplet, for meson photoproduction, modified, 23:15025
coherent droplet, with long-range pion exchange for forward peak structure in quasi-two-body hadron interactions, 25:14722
coherent state, for strong interactions at high energies, 24:35615 (JINR-E2-5141)
coherent-state, for factorization of dual N-point amplitudes, 25:17585 (JINR-E2-5568)
coherent-state, two-body strong interactions in, 25: 45722 (ITF-70-99, pp 102-12)
composite hadron, validity for $\gamma + p \rightarrow$ rho^0 + p, $\gamma + p \rightarrow \omega + p$, and $\gamma + p \rightarrow$ phi + p interactions at high energies and neutral vector meson leptonic decay, 22:5532
composite hadrons in, model dependence of asymptotic behavior of form factors for, 23:15069
composite model in O(4) theory, mass formulas in, 22: 53011
composite model of fermion—antifermion system, 23: 5553
composite model of mesons as two-body bound state of Dirac particles, 22:32138
composite pion ladder, for asymptotic behavior of amplitudes in $e + \pi^+ \rightarrow \pi^+ + e +$ sigma^0 interactions, 25:22731
composite relativistic O(4,2), for form factor and mass corrections to weak decay amplitude, 23:23513
composite, Bethe—Salpeter amplitudes for p-wave meson decay widths in relativistic, 25:40997
composite, breaking of chiral symmetry for π as Goldstone boson in, 24:49361
composite, coherent inelastic contributions to absorptive corrections in, 24:37813
composite, exchange of two urbaryon—antiurbaryon pairs in baryon interactions with urbaryons, 24:47443
composite, for energy dependence of $\pi^- + p \rightarrow \pi^0 + n$ interactions at high energies, 23:39736
composite, for form factor ratio f/sub -//f/sub +/ for meson (K) three-body leptonic decay, 24:1561
composite, for hadron elastic interactions and proton elastic scattering by oxygen-16 at very high energies, 23:44669 (INP-678)
composite, for p + p interactions at high energies, comparison of finitely and infinitely, 24:3691
composite, for vector meson decay into two pseudoscalar mesons, 23:39695
composite, from O(4) symmetry for bound-state amplitude of Dirac particles, relativistic, 24:43006
composite, hyperon nonleptonic decay amplitudes in, 25:53124
composite, inelastic effects in $\pi + d$ interactions at high energies in, 24:24392
composite, mass formula in, 23:39696
composite, meson decays in dynamic urbaryon, 24: 42925
composite, meson internal dynamics in nonrelativistic, Schroedinger equation for, 25:28030
composite, nucleon electromagnetic form factor and form factor for anti N + N $\rightarrow$ anti N + N interactions in, 25:5372 (CNRS-CPT-70-P-331)
composite, π electromagnetic form factor and p-wave ground-state spin-orbit force in nonrelativistic, Schroedinger equation for, 25:28030
composite, $\pi^0 \rightarrow 2\gamma$ decay in relativistic, 25:40918
composite, regularities among baryon resonance decay widths from, 25:3405
composite, structure of hadrons from multiple scattering mechanism in, 23:44672
consistency of multi-Regge exchange, for $\pi^- + p \rightarrow \pi^- + X + p$, $X \rightarrow \pi^+ + \pi^-$ interactions at 25 GeV in bubble chamber, 23:14985
CP and T violation in weak interactions in, 24:10704
current algebra for consequences of, 22:3490
current flow analog, for multiparticle amplitude, 25:1642
deformable sphere, for level structure of hadrons, 25: 17475
derivative-coupling, perturbation-sustained internal symmetry in, 24:37827
description of, for hadron elastic interactions at high energies, 23:15063 (COO-1573-49)
diffraction dissociation, duality in, 25:41021
diffraction dissociation, partial-wave expansion and final-state interactions for $p + p \rightarrow p + (\pi + N)^+$ interactions in, (T), 24:42989
diffraction models for high-energy interactions, 23:10804
diffraction, cross sections for p + p interactions at 6.8 to 24.6 GeV/c in, (E/T), 24:8667
diffraction, elastic strong interactions at high energies in two-channel, 25:22779
diffraction, for elastic p + p interactions above 20 GeV/c, 25:3417
diffraction, for electroproduction and photoproduction, 24:40322
diffraction, for high-energy leptonic interactions, 24: 49418
diffraction, for lepton interactions with nucleons at high energies, 24:18145
diffraction, for p + p interactions at high energies, review of, 25:5347 (CONF-700314-, Paper 13)
diffraction, for p + p interactions at high energies, 24: 18226
diffraction, forward peaks in $K^+ + p \rightarrow K^+ + p$ and anti p + p $\rightarrow$ anti p + p interactions in, 24:37799
diffraction, interactions $\tau + p \rightarrow \mu^+ +$ hadrons in, 24: 33003
diffraction, properties of Pomeranchuk singularity for, 24:45503
diffraction, with duality, quarks, and partons for electron and neutrino interactions with hadrons, extended version of, 24:12986
diffraction—dissociation, for rho production in $\gamma + p \rightarrow \pi^+ + \pi^- + p$ interactions at high energies, (T), 24: 42898 (DESY-70/23)
diffraction-dissociation resonance and dual-resonance, for $\gamma + p \rightarrow \pi^+ + \pi^- + p$ interactions, 25:5323 (DNPL/R-7, pp 3-28)
diffractive, multiplicity and single-particle spectra in, 25: 33674
diffractive, scaling for Pomeron and Adler sum rules from cross section ratio for anti τ + N and τ + N interactions in, 24:47415 (LNF-70/27)
direct-channel resonance, for S-matrix relations and amplitudes of $\pi^- + N$ interactions below 1.6 GeV, 24:6723
direct-channel resonance, review of backward interactions at high energies, 25:30836
dislocation, for tachyons, Frenkel—Kontorova, 24:30468
double peripheral, for analysis of four-momentum transfer distributions in $K^+ + p \rightarrow K^+ + \pi^- + N^{*+}$ interactions at 5 GeV/c, (E/T), 24:15587
double peripheral, for hadron three-body interactions and $K^+ + p \rightarrow K^0 + p + \pi^+$ interactions at 5 GeV/c, 24: 20139
double peripheral, $K^+ + p \rightarrow K^+ + \pi^- + N^{*++}$ interactions at 5 GeV/c as test of, (E/T), 24:12948 (INP-682, pp 168-204)
double-peripheral, for $K^+ + p \rightarrow K^+ + \pi^- + N^{*++}$, 24: 49512
double-peripheral, for $p + p \rightarrow p + n + \pi^+$ interactions at 7 GeV/c, 24:18223
double-pole, A_2 mass distributions in $\pi + p$ and $\pi^- + p \rightarrow$ eta + n interactions in, 25:17482
drop, particle structure from hydrodynamical theory of, 25:25349
droplet, elementary particle structure in relativistic extension of, 25:27970
droplet, for high-energy scattering, operator formulation of, 24:37748
droplet, proton structure in, 24:8667
droplet, $\pi + N \rightarrow \pi + N$ interactions at high energies in spin-dependent, 25:53199
droplet, zeros in $\pi^- + p$ and $\pi^+ + p$ interaction amplitudes in, 23:39728
dual absorptive, dips in inelastic strong interactions in, 25:38734
dual Bardakci—Ruegg, for mass dependence of slopes in differential cross sections for three-body production processes, (T), 24:47390
dual diffractive, for L and Q production in $K^+ + p \rightarrow p + K^+ + \pi^+ + \pi^-$ interactions, 25:7662
dual harmonic oscillator, general vertex for hadrons in, 25:28021
dual oscillator, conformal invariance for, 25:43655
dual oscillator, hadron total widths on leading Regge trajectory in, 25:43619
dual quark, functional integral approach to, 25:59435
dual quark—parton, for hadron interactions, 25:56481
dual resonance model in extended particle model with quark—antiquark pairs, 25:9771
dual resonance, A_2 two-peaked structure in, 25:40942
dual resonance, algebraic structure of generalized Ward identites in, 25:36591
dual resonance, amplitude for N nonspurious excited particles in, 25:30830
dual resonance, amplitudes corresponding to globular Feynman diagrams in, 25:53382
dual resonance, analysis of cross sections for two-particle production in hadron two-body interactions at high energies in, 25:50088
dual resonance, canonical quantization of proper time formalism in, 25:56480
dual resonance, compatibility with gauge boson interactions for electromagnetic and weak interactions, 25:40919
dual resonance, construction of convergent loops in, 25: 7761
dual resonance, construction of current amplitudes in, 25:47831
dual resonance, construction of physical, 24:37767
dual resonance, cross sections for single-particle production in two-body interactions in, 25:45684 (NYO-2262-TA-239)
dual resonance, cross-sections for two-body production in hadron interactions at high energies in, 25:40959 (NYO-2262-TA-244)
dual resonance, current amplitudes in, 25:56449
dual resonance, direct and crossing-symmetric amplitudes for equal-mass spinless scattering in, 25:14823
dual resonance, divergences and renormalization of multiloop planar diagrams in, 25:5409
dual resonance, double proper-time formulation of, 25: 40960
dual resonance, electrostatic analog for, 25:5353
dual resonance, elimination of spurious states from, 25: 45803
dual resonance, factorization in, 23:46714
dual resonance, factorization of multiloop diagrams in, 25:3443
dual resonance, factorization properties of, 24:6699
dual resonance, factorization without spurious states in, 24:20263
dual resonance, Feynman-like diagrams in, 25:12189
dual resonance, for diffraction dissociation $p + p \rightarrow p + N + \pi^+$ interactions, (E/T), 24:52122
dual resonance, for hadron electromagnetic and weak interactions, current amplitudes in, 25:22724 (CONF-700948-1)
dual resonance, for many-body scattering amplitudes, unitarity for factorization theorem for removal of level degeneracy in, 25:25523 (OU-LNS-71-1)
dual resonance, for N-pion-type particles with two trajectories, level structure of, 24:52075
dual resonance, for $\pi\pi\pi$N anti N five-point function for $\pi^+ + p \rightarrow$ rho$^+$ + p interactions, (T), 24:45538
dual resonance, for $\pi\pi\pi$N anti N five-point function for $\pi + N \rightarrow$ anti π + anti π + anti π + N interactions at high energies, (T), 24:45537
dual resonance, for strong interactions, 23:49119
dual resonance, for strong interactions, scaling of, 25: 28016
dual resonance, for vector currents in hadron interactions, 24:42892 (UCRL-19780)
dual resonance, formulation of factorizable meson, 25: 45745
dual resonance, functional representation of Green function for Nambu—Miyamoto equation for, 25: 22906
dual resonance, hadron interactions with photons and weak bosons in, 24:40299
dual resonance, interpretation in quantum field theory, 25:47832
dual resonance, invariance properties of Lagrangian formulation of, 25:9696
dual resonance, invariance properties of proper time formulation of, 24:49617
dual resonance, Lagrangian approach to $\pi + \pi$ amplitudes in, 25:14697
dual resonance, Lorentz analysis of nonspurious resonance states in, 25:30829

dual resonance, mass shifts in second order of perturbation theory in, 25:30835
dual resonance, multiperipheral bootstrap conditions from coupling-constant sum rule in, 25:14674
dual resonance, multiple factorizations of N-Reggeon amplitudes in, 25:7758
dual resonance, μ^-p resonance production in $\tau + p \rightarrow \mu^- + p$ interactions in, 25:40942
dual resonance, n-point pion amplitudes in, 24:47428
dual resonance, nonlinear trajectories in, 25:7756
dual resonance, nonlinear trajectories in, 25:47827
dual resonance, off-shield functions of, 25:9695
dual resonance, one-loop amplitudes in Neveu—Schwarz, 25:59433
dual resonance, operator formalism as quantized version of analog model, 25:40968
dual resonance, parton theory based on, 25:28002
dual resonance, phi³ theory from zero-slope limit of unitarized, 25:53328
dual resonance, positive-intercept trajectory in tachyon-free, 25:25538
dual resonance, positivity of partial widths and s-wave scattering lengths for $\pi + \pi$ interactions in, 25:40980
dual resonance, projective group for loop terms and counterterms in, 25:25525
dual resonance, proper-time formulation for one-loop diagrams of, 25:40967
dual resonance, proper-time formulation in, 25:12185
dual resonance, proper-time formulation of, 25:40966
dual resonance, properties of meson coupling to baryons in, rigorous inequalities from positivity and duality in zero-width approximation for, 25:50130
dual resonance, properties of multiparticle, 24:43066
dual resonance, quark diagrams for loop terms in, 25:59445
dual resonance, quark interpretation in operator formalism of, 25:59441
dual resonance, reformulation of π, 25:47850
dual resonance, relations with Regge trajectories for pseudo-scalar meson octet, 25:22814
dual resonance, removal of trajectory degeneracy in, 25:59457
dual resonance, renormalization of planar diagrams in, 25:40973
dual resonance, review of, 25:9887 (ITF-70-43)
dual resonance, single-particle production in, 25:53156
dual resonance, twisting invariant factorization in, 25:36594
dual resonance, twisting invariant factorization of n-point amplitudes in, 25:12184
dual resonance, unitarity in, 24:52217
dual resonance, unitarization of amplitude in, 25:43718
dual resonance, unitarization of amplitude in, 25:43719
dual resonance, unitarization of amplitudes in, 25:43717
dual resonance, vector currents in, 25:36490
dual resonance, vertex function for excited particle three-body scattering, 23:49220
dual resonance, Ward-like identities in, 24:15681
dual resonance, with different trajectories, operator formalism for, 25:38799 (OU-LNS-71-4)
dual resonance, with logarithmic trajectories, factorization of, 25:47841
dual resonance, with second sheet resonances, effects of unitarity-like features in inclusive interactions in, 25:56476
dual resonance, zeros of multiparticle amplitudes in, 25:59625
dual resonances, for π, 25:40991
dual, baryon interactions with antibaryons in, 24:35652
dual, connections of average multiplicity and average perpendicular momentum for interactions at high energies in, 25:59322 (NP-19024)
dual, crossing-symmetric amplitude in split-width, 25:53384
dual, degeneracy breaking for form-point function in ghost-free, 25:45732
dual, existence of Goldstone—Nambu bosons in, 25:50132
dual, five-point function for anti $p + n \rightarrow 2\pi^- + \pi^+$ interactions at rest in, 25:59465
dual, for lepton—hadron interactions, 23:49098
dual, for meson and recriprocal bootstraps without parity doubling, 24:18197
dual, for rho' production in diffractive $e + p \rightarrow e + \pi^+ + \pi^- + p$ interactions, 25:12137 (DESY-70/56)
dual, group-theory approach to π N-point amplitudes on, 25:43714
dual, interference amplitudes from, 24:49453
dual, lectures on strong interactions in, 25:30823 (CERN-71-7, pp 285-358)
dual, meson interactions with baryon decuplet in, 24:35660
dual, multiloop diagrams in, 25:25405
dual, no-go theorems for construction of positive-intercept, 25:22784
dual, relation between fixed momentum transfer and fixed-angle asymptotic behavior of interactions in, 25:25429
dual, review of, 25:31015 (MIT-2098-726)
dual, spin and SU(3) in ghost-free, 25:45731
dual, with unitarity for $\pi + \pi$ interactions, 24:52082
dual—cut, for unstable particles, 25:59439
dual—parton, amplitude for meson interactions with baryons in, 25:47866
dual—resonance, scattering amplitudes for excited particles in, 24:24451
dual-resonance model, strictly localizable field theories with rising trajectories, 25:1610
dual-resonance, Adler condition in, 25:14668
dual-resonance, allowed spectrum in, 25:5428
dual-resonance, Bjorken scaling limit in, 25:33681
dual-resonance, characterization of physical states in quantum electrodynamics in, 25:12180
dual-resonance, currents in, 24:47433
dual-resonance, differential cross sections for inclusive interactions in, 25:38731
dual-resonance, divergence of N-loop planar graph in, 25:33670
dual-resonance, divergence of two-loop planar graph in, 25:14666
dual-resonance, factorization and level structure of Balachandran, 25:14665
dual-resonance, for analysis of $\gamma + p \rightarrow p + \pi^+ + \pi^-$ diffractive interactions, 24:28517
dual-resonance, for backward $K^- + N$ interactions, 25:12215
dual-resonance, for diffractive $\gamma + p \rightarrow K^+ + K^- + p$ interactions, 24:35630
dual-resonance, four-Reggeon vertex function from multifactorizations of N-point amplitude in, 24:47516
dual-resonance, general trees and loops in unitarization of, 25:33852 (UCRL-20272)
dual-resonance, generalization of amplitude for excited nonspurious particles in, 25:53371
dual-resonance, inclusive reactions in, 25:33673
dual-resonance, internal-symmetry factor in, 25:17468
dual-resonance, level structure of, 24:10738
dual-resonance, level structure of nonspurious resonance states in, 25:36474
dual-resonance, loop diagrams and nonlinear trajectories in, 25:33875
dual-resonance, N-point amplitudes with fermions in, 24:10857
dual-resonance, new amplitude in generalized, 25:14675
dual-resonance, no-go theorems for N—particle amplitudes in, 25:38808
dual-resonance, off-mass-shell extrapolation of amplitudes in, 25:36598
dual-resonance, operators for constructing Feynman diagrams in, 25:3353
dual-resonance, oscillation modes in, 24:37750
dual-resonance, primitive graphs of, 24:28590
dual-resonance, project on operator of nonspurious states in, 25:53362
dual-resonance, projected propagator for constructing tree and loop operators in, 24:40358
dual-resonance, quark spin factors in, 25:33716
dual-resonance, renormalization and unitarity in, 24:45496
dual-resonance, renormalized self-energy operator in, 24:35647
dual-resonance, scattering amplitudes for physical states in, 25:53372
dual-resonance, selection rule for real and spurious states in, 25:1647
dual-resonance, selection rules for resonance decay in, 25:14658
dual-resonance, spinor formalism for factorization of, 24:37743
dual-resonance, statistical properties of level structure in, 24:15693
dual-resonance, strong interaction amplitudes in dynamical, 25:45723 (ITF-70-99, pp 113-30)
dual-resonance, SU(1,1) analysis of, 24:47484
dual-resonance, symmetry of n-point amplitude in, 25:14822
dual-resonance, universally coupled vector mesons in, 25:14667
dual-resonance, vertex operators for physical states in, 25:33870
dual-sigma, N-point functions for mesons in chiral-symmetric, 25:19981
duality, bounds of s-wave scattering lengths for $\pi + \pi$ interactions in, 24:13079
duality, Feynman-like diagrams in, 24:37976
duality, quantitative tests for forward elastic amplitudes, 24:40503
duality, superconvergence conditions and exchange-degeneracy in cross-, 25:25400
duality—parton, for deep inelastic $\tau + N$ interactions at high energies in freon and propane, 25:30809
dynamic resonance, scaling and duality of electromagnetic currents in, 25:50101
dyon, scale invariance breaking and Regge trajectories for hadrons in, 25:59430
dyons having electric and magnetic charges in, 23:49091
eikonal, dual description of $K^- + p \rightarrow \pi^- + Y^{0*}$ and $\pi^+ + p \rightarrow K^+ + Y^{0*}$ interactions in, 25:36514
eikonal, for elastic strong interactions at high energies, 25:30893 (INR-P-1233)
eikonal, for high-energy p + p interactions, 23:44677
eikonal, for strong interaction dynamics, 24:21974
eikonal, for uncorrelated meson production in N + N interactions at high energies, 24:28567
eikonal, formulation with high-energy s-channel helicity conservation, 25:28034
eikonal, reggeon calculus from, 25:30980
eikonal, structure function of deep inelastic e + p interactions in super-, 25:19939 (NYO-2262-TA-221)
eikonal, total cross sections and slope of differential cross sections for elastic strong interactions in, 25:47881
eikonal, with soft virtual neutral vector meson exchange for cross sections and angular distributions of $n + p \rightarrow n + p$ and $p + p \rightarrow p + p$ interactions at large angles, (T), 24:45542 (NYO-2262-TA-223)
elementarity of decimet baryons in, 21:37811
elementary pion ladder, for asymptotic behavior of amplitudes in $e + \pi^+ \rightarrow e + \pi^+ + \text{sigma}^0$ interactions, 25:22731
exchange models in Regge pole theory, formulation in terms of s-channel amplitude of high-energy, 22:35141
exchange, convergent power series for absorption corrections to amplitudes in, 25:14831
excited-baryon, with fireballs and inelasticities for $\pi + p$, $\mu + N$, and nu + N interactions at high energies, 24:30524
extended duality, polarization, masses, widths, and elasticities of Δ resonances in backward $\pi^+ + p \rightarrow \pi^+ + p$ interactions at intermediate energies in, 25:47886
extended particle model, theory of, 23:7104
extended particle, nucleon electromagnetic form factors at high momentum transfer in, (T), 24:42902
extended particles in, Regge pole description of, 23:7103
extended, in general relativity theory, 24:45590 (JINR-E2-5271)
extended-particle, angular distribution of secondaries in, 25:14661
factorization, for $\pi\pi$ phase shifts in rho region, 24:8639
Fermi—Yang, baryon currents in, 25:43644
Feynman diagram, elastic scattering of spinless particles in ghost-free dual, 25:43634
Feynman gas and multiperipheral, relations between, 25:53145
fireball existence from multiperipheral models for two-bump structure of angular distributions from interactions above 10^{12} eV, (T), 24:8575
fireball lifetime for particle interactions, experimental determination of, 22:24626
fireball production in cosmic hadron interactions at 10^{11} to 10^{12} eV, (E), 23:34577
fireball production in N + N interactions at 0.4 to 100 TeV in emulsions, (E), 24:24234
fireball production in N + N interactions at 100 to 3000 GeV, (E), 25:1402
fireball production in theory of strong inelastic interactions at high energies, 22:24627
fireball with transverse momentum, for ICEF 440 (4 + 8p) jet analysis, 24:42871
fireball, definition of, 25:14669
fireball, for inelastic peripheral interactions, pre-asymptotic increase of cross sections in, 24:24259
fireball, for inelastic scattering at high energies, 25:17419
fireball, for meson (μ) direct production in hadron—hadron interactions and meson direct production from $\mu + N$ interactions at high energies, 24:3612 (SJC-P-68-6)
fireball, for N^* production in N interactions at very high energies, 25:17473
fireball, meson (π) production mechanism in $\pi^+ + p \rightarrow p + 4\pi^+ + 3\pi^-(+\pi^0)$ and $\pi^+ + p \rightarrow n + 5\pi^+ + 3\pi^-$ interactions in, 25:45746 (INP-755)
fireball, meson (π^+) and (π^-) angular distribution in p + p interactions at 12.5 GeV/c at high transverse momenta in frame of, (E), 24:15470
fireball, multiple particle production in strong interactions at very high energies in, 25:19971 (ANL-7727)
fireball, pionization in nucleon reactions with nuclei at 0.1 to 100 TeV in emulsions in, 25:9635 (INP-722)
fireball, with double Regge pole exchange for multiple meson production, (E/T), 24:40428
fireballs in multiperipheral strong interactions at high energies, finite-energy sum rules and Bethe—Salpeter equation for duality and, 24:13042
fireballs in strong interactions, evidence for, 23:30745
fixed-pole, Pomeranchukon in, 25:22778 (SU-1206-239)
formalism based on fermion fields, 25:53304
formalism for weak interactions, review of, 23:46673
formulation and use of statistical model with angular momentum conservation, 22:29684 (DESY-68/10)
formulation for composite particles based on five-dimensional scheme, 23:3707
formulation for structured particles, internal degree of freedom in, 24:49362
formulation of general relativistic, 23:15244
formulation of infinite set of, with crossing symmetry, duality, and Regge behavior, 23:39837 (NYO-3399-196)
formulation with infinite component fields, 22:9579
Frautschi—Margolis, for multiple Pomeron exchange in phi + p → phi + p interactions, $\gamma + p \rightarrow$ phi + p interactions for tests of, 24:52034
Frautschi—Margolis, for Regge-cut multiple-scattering corrections to differential cross sections of $\gamma + N \rightarrow \pi + N$ interactions at high energies, 24:51999 (AD-705700)
generalized interference, for eta production in $\pi^- + p \rightarrow$ eta + n interactions, 24:15586
geometrical, mass spectra, spins, and parities in, 23:36969
Glauber multiple scattering, for effects of short-range nucleon—nucleon correlations on hadron elastic and inelastic scattering by helium-4 at high energies, 25:36538
Glauber multiple scattering, for rho—γ coupling constant and rho + N amplitude in photon reactions with nuclei at 8.8 GeV, 24:40298 (INR-P-1166)
Glauber multiple scattering, meson (π^-,rho$^-$) and (π^-, rho^0) reactions with A = 20 to 208 nuclei at 30 GeV in, coherent and incoherent, 25:3406 (IFVE-STF-69-71)
Glauber, differential and total cross sections and assumptions for π^- elastic scattering by carbon-12 near Δ(1236) in, comparison with Kisslinger model, 25:25458
Glauber, double-scattering corrections for p + d interactions in, 24:3693
Glauber, for coherent production in $\gamma + N \rightarrow$ rho^0 + N interactions, hadron reactions with nuclei, and A_1 production in meson (π^-) reactions with fluorine at 15 GeV/c, 24:18110 (CONF-690330-, pp 152-60)
Glauber, for π + d interactions, (T), 25:14630
Glauber, Regge cuts for amplitudes of deuteron interactions in, 25:19992
Glauber, review of hadron interactions with nuclei at high energies in, 25:36533
gluon, electroproduction functions for light cone theorems in, 25:33637
gluon, for strong interactions, Bjorken limit in perturbation theory in, 24:37749
H-quantum, for photon lateral distribution in air showers, 25:30793
hadron decay in quark, broken SU(6) sum rules for, (T), 25:5394
hadron interactions and properties in relativistic, 23:46692
hadron interactions at high energies in, total cross sections for, 25:50122
hadron interactions with hadrons in, review of, 24:20141

hadron semileptonic weak interactions in, 23:44630 (NYO-3399-202)
hadron strong interactions in dynamical, based on classical limits, 24:20241 (BNL-50212, pp 121-57)
Harari, for S-matrix relations and amplitudes of $\pi^- + N$ interactions below 1.6 GeV, 24:6723
harmonic oscillator quark, for hyperon resonance spectra, 25:56507
harmonic oscillator, equivalence of dual-symmetric Veneziano model for hadron structure to, 24:30496
harmonic oscillator, for hadron structure, dual-symmetric loop diagrams from, 24:30497
harmonic oscillator, for hadron structure, nonplanar diagrams in Veneziano model from, 24:30498
harmonic oscillator, for hadrons, dual-symmetric, 24:30499
harmonic oscillator, for particle interactions, Fourier transforms in nonpolynomial, 25:50081 (ORO-3992-53)
harmonic-oscillator model for baryons, 23:32748
harmonic-oscillator, for baryons, 22:50403
Hartree—Fock, for AN tensor force effects on A binding energy in A-He^3, 24:47463 (CONF-690557-(Vol.1), pp 333-47)
hypernuclei nonmesonic decay with direct transition of hyperon (A) into nucleon in, 23:44639
hyperon decays in pole, weak radiative, 23:16958 (ITF-68-47)
incoherent droplet, for inelastic e + p interactions, 24:24265 (ANL/HEP-6909, pp 150-8)
independent-particle, in Glauber theory for A_1 production from diffraction dissociation in π reactions with nuclei, 24:49532
infinite-multiplet, with SU(3) symmetry for mesons, 24:49561 (DEMO-70/14)
interactions K + N with broken exchange degeneracies and secondary trajectories in, charge and hypercharge exchange, 24:21985
interactions p + p at high energies in, small distance phenomena in, 24:21990 (BNL-50210)
interference, duality concept from analysis of $\pi + N$ interactions in modified, 24:42972
interference, finite-energy sum rules for scattering amplitudes in generalized, 24:49482
interference, for backward $\pi^- + p \rightarrow \Sigma^-(A^0) + K^+(K^0)$ interactions, 24:3677
interference, for cut-dominated interactions, Regge singularity and Pomeranchukon in dual set for validity of, 24:18181
interference, for forward $\pi + N$ interactions, 24:37785
interference, for $\gamma + p \rightarrow \pi^+ + \pi^- + p$ interactions, 25:5323 (DNPL/R-7, pp 3-28)
interference, for K + N forward elastic interactions at intermediate energies, 24:13091
interference, for K^- + p and K^- + n interactions at 0.6 to 4 GeV/c, 24:13091
interference, for N(2300) parity doublet in $\pi + p \rightarrow \pi + p$ forward interactions at 1.5 to 5 GeV/c, modified, 24:1611
interference, for near-forward $\pi + N$ interactions, 23:46727
interference, for $\pi^- + p \rightarrow$ eta + n interactions, generalized, 24:49509
interference, for $\pi^- + p \rightarrow \pi^- + p$ and $\pi^- + p \rightarrow \pi^0 + n$ interactions, generalized superconvergence sum rule for modified, 24:35656
interference, for π^- + p forward charge-exchange interactions at 2 to 18 GeV, 24:20170
interference, for resonance interpretation of phase shift analysis of anti K + p, K + p, and π + p interactions, 25:7671
interference, for resonances in $\pi + \pi$ interactions, 25:14692
interference, interactions K^+ + p and K^- + p in, (T), 24:49500
interference, resonances in duality relation with, 25:14678
interference, use of dispersion relations for derivation of, 23:49123
interference, with duality for π^+ + p interactions, (T), 24:42974
intermediate scalar meson, of weak interactions, 23:46675
intermediate vector boson model for weak interactions, CP violation in strong cubic, 23:36971
intermediate vector boson, theory for strong cubic and strong quadratic, 23:25594 (CERN-69-7, pp 371-89)
isobar, Dalitz plot analysis of $\pi^- + p \rightarrow \pi^- + K^0 + \Sigma^+$ final-state interactions in, 24:10768
isobar, differential and total cross sections for $\pi^- + p \rightarrow e^+(\mu^+) + e^-(\mu^-) + n$ interactions near $\Delta(1236)$ in, 25:25420
isobar, for analysis of cross sections and amplitudes of meson—nucleon interactions, 24:1588
isobar, for angular distributions for phenomenological $\Delta(1236)$ production in $N + N \rightarrow N^* + N(N^*)$ and $\pi + N \rightarrow N^*$ interactions below 3 GeV, 25:17517 (ORNL-TM-3132)
isobar, for $\Delta(1236)$ production in $\pi + N \rightarrow \pi + \pi + N$ interactions, 24:26443
isobar, for hadronic and electromagnetic components of cosmic EAS, 25:30839
isobar, for overlapping resonances in three-meson states, 24:13076
isobar, for total cross section ratios of π^+ to π^- to π^0 production in $N + N \rightarrow N + N + \pi$ interactions at 600 MeV, 25:38754
isobar, Monte Carlo calculation of anti p annihilation at rest in nuclei in, 25:25460
isobar, planar duality constraints on multibody, 25:59446
isobar-pionization, for diffraction peak in elastic p + p interactions at superhigh energies, 24:40427
isobaric, for total and differential cross sections for $\tau + n \rightarrow \mu^- + \pi^- + \pi^+ + p$ interactions at 1 to 50 GeV with N(1518) exchange, 24:13014
isobaric, Veneziano model results from, 24:3642
Kikkawa—Sakita—Virasoro, Regge cuts in scattering amplitudes in, 24:49605
Kisslinger, differential and total cross sections and assumptions for π^- elastic scattering by carbon-12 near $\Delta(1236)$ in, comparison with Glauber model, 25:25458
ladder, gauge invariance condition in high virtual-photon mass limit in $\gamma + \pi^+ \rightarrow$ sigma$^+$ + π^0 and Compton $\gamma + \pi^+ \rightarrow \gamma + \pi^+$ interactions in, 24:49403
ladder, interactions e + p in, deep inelastic, 25:3311 (NYO-4204-4)
Lamb statistical, cross sections of anti p + p $\rightarrow$ K + anti K + mπ interactions at 2.5 GeV/c in, 25:30866
Landau relativistic gas dynamics, for hadron production in strong interactions, 24:24335 (ANL/HEP-6909, pp 159-80)
Lee and separable potential models for bound states, $Z_1 = 0$ limits of, 24:15549
Lee model for bound-state scattering, tau functions in V—2theta sector of, 23:25710
Lee model for composite particles, equivalence in (1,1) sector of, 24:20090
Lee model for interacting particles, convergent relativistic theory of modified, 22:41797
Lee model in all sectors, strong-coupling solution of nonrelativistic, 23:23451
Lee model in, physical single-particle states in generalized, 23:32821
Lee model with additional coupling, compositeness conditions in, 22:46392
Lee model with dipole-ghost, unitary S-matrix in, 23:32813
Lee model with indefinite metric, extended, 23:7172
Lee model, algebraic solution in V—theta sector of, 22:20327
Lee model, bound-state operator in, 22:39371
Lee model, dispersion calculations in 2V sector of, 23:3800
Lee model, Haag theorem for point-coupling relativistic, 22:50446
Lee model, renormalization and composite effects in, 22:44347
Lee model, strong-coupling, solution of, 22:11652
Lee model, third sector of, 22:46390
Lee model, unitarity in Nthetatheta sector of, 23:25712
Lee model, unstable particles in, 23:25696
Lee model, V—N potentials in, 23:8794 (COO-1764-1)
Lee, adiabatic approach to wave matrix in, 23:46855
Lee, Argand diagrams for elastic amplitudes in, 25:1488
Lee, asymptotic fields of, 23:46814
Lee, Bjorken limit in, 24:47429
Lee, Bjorken theorem and equivalence principle for equal-time commutators in, 25:30973
Lee, completeness and indefinite-metric theories in NTHETA and NNTHETA sectors of, 24:20219
Lee, complexity criterion for meson and baryon resonances in, 25:33763
Lee, continuous mass spectrum of V particle and energy-conserving V—NTHETA vertex in, 25:43671
Lee, decays of interfering unstable V-particles in, nonexponential, 25:59438
Lee, dispersion theory for three-meson problem in, 24:26427
Lee, dynamical Lie algebra for solution in all sectors of, 24:20136
Lee, equal-time commutators, fixed-point theorems, superconvergence, and PCAC in, 24:21947
Lee, for elementary and composite particles, 23:49196
Lee, for overlapping resonances in three-meson states, 24:13076
Lee, generalization for arbitrary spin and parity of Galilean invariant, 25:47835
Lee, iterative expansion for general higher sectors of, 24:35719
Lee, LSZ formalism in (n,2) sector of, 25:43673
Lee, N + theta resonances in, 23:36902
Lee, properties of, 25:59575
Lee, properties of amplitudes and approximate solutions for integral equations for scattering in generalized, 25:17588
Lee, scattering amplitude properties in renormalized and relativistic generalization of, 24:13194
Lee, unified treatment of V—theta and V—2theta sectors of, 25:56553
Lee, V-particle propagator in, analytic regularization of, 25:7635
Lee, with arbitrary number of baryon states, intermediate-coupling approximation for extended, 24:8622
Lee, with unstable V particle, equal-time commutator in, 24:45586
Lovelace—Wagner—Veneziano, test of single-channel, in off-mass-shell amplitude of $\pi + \pi$ interactions in $\pi^- + p \rightarrow \pi^+ + \pi^- + n$ interactions, 24:26500
mass relations in, bach (m = 0.3263 MeV) and tamaid (m = 25.95 MeV) particles in theory for, 22:7455
meson—baryon interactions in coherent-droplet, in SU(3), 21:42429
meson—baryon, duality functions in, 24:52055
multi-particle dual, operatorial approach for analysis of, 25:43578
multi-Regge, connections of average multiplicity and average perpendicular momentum for interactions at high energies in, 25:59322 (NP-19024)
multi-Regge, equations at nonzero t in, 24:26484
multi-Regge, for analysis of $p + p \rightarrow p + p + \pi^+ + \pi^-$ interactions at 8.1 GeV/c, 25:1559
multi-Regge, for hadron inelastic interactions, 24:5284
multi-Regge-exchange, for spinless particle elastic scattering, overlap function in, 23:42584
multi-Regge-peripheral model for missing-mass spectrum, 24:40405
multicluster, for interactions at very high energies, 25:30755
multicluster, for spinless secondary production in interactions of two scalar particles at very high energies, (T), 24:49353 (IFPTH-8/70)
multiparticle production, angular distributions from, 25:14661
multiperipheral and multi-Regge models for inclusive interactions, 25:36478
multiperipheral bootstrap for absorptive part of two-body amplitude, integral equation for, 24:3615
multiperipheral bootstrap, for strong interactions, 23:49119
multiperipheral model for Pomeranchuk exchange in p + p $\rightarrow \Delta^{++} + \pi^- +$ p interactions at high energies, 23:34624
multiperipheral Regge, for diffraction dissociation and exchange processes in many-body strong interactions, 24:49441
multiperipheral Regge, for n-particle production amplitudes, 23:44728
multiperipheral, angular distributions of secondaries in, 25:14661
multiperipheral, asymptotic single-particle distributions in, 25:22785
multiperipheral, behavior of scattering amplitudes in Amati—Stanghellini—Fubini, 24:47432
multiperipheral, bootstrap conditions from duality assumptions in, 25:47848
multiperipheral, charged and neutral particle distributions from isospin structure, 25:30845
multiperipheral, comparison of π^+ + p, π^- + p, and K^- + p interactions in, 24:52103
multiperipheral, complex Regge poles and oscillatory average multiplicity in particle interactions in, 25:14585
multiperipheral, complex Regge poles in Amati—Bertocchi—Fubini—Stanghellini—Tonin, 25:33855
multiperipheral, connections of average multiplicity and average perpendicular momentum for interactions at high energies in, 25:59322 (NP-19024)
multiperipheral, cross sections for production of anti K - K pairs in p + p $\rightarrow$ 2p + n(K + anti K) + mπ interactions in, 25:33693 (SU-1206-247)
multiperipheral, diffractive Pomeron bootstrap for fragmentation in p + p interactions in, 25:33768 (UCSD-10-P-10-77)
multiperipheral, distribution of charged π from interactions in, 25:12179
multiperipheral, double diffractive dissociation, sequence of neutral particles, and statistical fluctuations in, 24:40360
multiperipheral, dynamic Regge trajectories for $\pi\pi$ system from, 24:18175
multiperipheral, dynamics at zero-momentum transfer, 24:24459
multiperipheral, dynamics of, 25:5302 (CONF-700314-, Paper 11)
multiperipheral, factorization of total cross sections in, 24:13046
multiperipheral, for asymptotic single particle distributions for π and N production in p + p interactions at high energies, 25:7684 (RLO-1388-585)
multiperipheral, for complex Regge poles for damped oscillations in total cross sections of strong interactions at high energies, 24:13043
multiperipheral, for dynamics of strong interactions, 23:46691
multiperipheral, for fireball existence from two-bump structure of angular distributions from interactions above 10^{13} eV, (T), 24:8575
multiperipheral, for high-energy total cross sections, complex Regge poles and oscillatory average multiplicity in, 25:12122 (NYO-2262-TA-228)
multiperipheral, for interactions of two spinless particles, group-theoretic approach to, 24:13038
multiperipheral, for interference effects in anti p + p $\rightarrow 3\pi^+ + 3\pi^-$ interactions at 1.2 GeV/c, 23:44655
multiperipheral, for N + anti N and N + N total cross sections at high energies, 23:36920
multiperipheral, for strong interactions, 24:24334 (ANL/HEP-6909, pp 73-113)
multiperipheral, form factor for inelastic e + p interactions in, 25:43602

one boson exchange, mesons as N anti N bound state in, 25:50133
one boson exchange, theory for nuclear forces, 24:45547
one pion exchange, approximation for spin-density matrix elements for $\pi + N \rightarrow \Gamma^* + N$ interactions in, 24:18206
one pion exchange, for $K^- + p \rightarrow K^- + p + \pi^+ + \pi^-$ interactions at 5.0 GeV/c, (E/T), 24:8658
one-baryon exchange, review of backward interactions at high energies in, 25:30836
one-boson exchange, calculation of partial p-waves of p + p interactions in, 25:25459
one-boson-exchange potential, for $\Lambda + N$ interactions, 25:3416
one-boson-exchange, for nuclear forces, (T), 24:40426
one-boson-exchange, for particle internal structure effects on nuclear forces, 24:49970
one-boson-exchange, meson spectrum in bound states of anti N + N interactions, 25:3358 (DESY-70/49)
one-boson-exchange, multichannel approach to p + p interactions in, 24:49539
one-boson-exchange, $N + N \rightarrow N + N + \gamma$ interactions in, 24:47480
one-boson-exchange, $N + N \rightarrow N + N$ interactions in relativistic, 25:53224 (DESY-71/34)
one-boson-exchange, N + N exchange currents in electromagnetic interactions in, 23:51950 (DESY-69/28)
one-boson-exchange, potential for N + N interactions in, 24:37804 (NYO-4032-22)
one-boson-exchange-potential, for baryon interactions with baryons, 24:47459 (CONF-690557-(Vol.1), pp 51-91)
one-fireball, for azimuthal correlations for meson (π) and nucleon reactions with nuclei above 100 GeV, 24:42993
one-particle exchange, for amplitudes of interactions at low energies, 24:15505
one-particle-exchange, for high-energy interactions, analyticity structure of, 25:28013
one-photon-exchange, cross sections of $\mu^+ + p \rightarrow \mu^+ + p$ and $\mu^- + p \rightarrow \mu^- + p$ interactions at 6 to 17 GeV for test of, (E), 24:8558 (NEVIS-178)
one-pion exchange, forward structure in $K^- + p \rightarrow K^{*0}(890) + n$ interactions at 3.9 and 4.6 GeV/c in hydrogen bubble chamber for test of absorption-modified, (E/T), 25:19918
one-pion-exchange absorption, for $\pi^- + p \rightarrow rho^- + p$ interactions at 3 GeV/c, effect of Kronecker-delta terms in, 23:36946
one-pion-exchange, effective mass spectrum for π system in $\pi + N \rightarrow m\pi + N$ interactions in, 25:59496
one-pion-exchange, experimental validity of, (E/T), 24:30533 (CONF-690521-, pp 1-26)
one-pion-exchange, for $p + p \rightarrow p + n + \pi^+$ interactions at 660 and 970 MeV, 25:17516 (JINR-P2-5572)
one-pion-exchange, for $p + p \rightarrow p + \pi^+(\Delta^{++}) + \pi^-$ + p interactions at 19 GeV/c, 25:20020 (USIP-70-5)
one-pion-exchange, for p polarization in $p + p \rightarrow p + n(p) + \pi^+(\pi^0)$ interactions at 669 MeV, 24:26447 (JINR-P2-4937)
one-pion-exchange, form factors and decay distributions for resonances in $\pi^+ + p \rightarrow rho^0 + \Delta^{++}$ interactions at 2.35 to 16 GeV/c in, 25:45747 (INR-P-1323)
one-pion-exchange, predictions for $p + p \rightarrow \pi^+(\pi^0) + n(p) + p$ interactions at 600 to 660 MeV in, 25:25297 (JINR-P1-5571)
one-pion-exchange, theory and uses of absorptive, 22:24668
one-vector-meson exchange, for $\gamma + N \rightarrow rho + \Delta$ interactions, 24:37696
one-vector-meson-exchange, for $\gamma + n \rightarrow rho^- + p$ interactions at threshold to 3.0 GeV, 24:12995
operator-droplet, field-theory realization of, 25:9860
optical and Regge, equivalence of, for scattering, 25:50114 (COO-2009-23)
optical, amplitude and phase of K_1^0 regeneration in carbon and copper in, (T), 25:38749
optical, and S-matrix descriptions in single model for p + p → p + p interactions at high energies, (T), 24:45552
optical, for anti p + p and p + p interactions at 2.74 GeV/c, 24:24249
optical, for backward peaks in π^- + p interactions at high energies, 24:24371
optical, for differential cross sections for elastic p + p scattering, 25:3413
optical, for high-energy amplitude relations, arbitrariness of, 24:3688
optical, for large-angle p + p interactions, (T), 24:40420
optical, for spin-averaged differential cross sections for large-angle p + p → p + p interactions at high energies, 25:47898
optical, interactions at high energies and all angles in, 25:43571
optical, interactions π + N at high energies and all angles in, 25:43571
optical, particle interactions at intermediate energies for equivalence of Regge and, 25:59421 (COO-2009-30)
optical, π reactions with nuclei near $\Delta(1236)$ in, 25:53225 (FRNC-TH-51)
optical, rho matter density in $\gamma + p \rightarrow$ rho + p and π + p → rho + p interactions at high energies in, (T), 25:22820
parity constraints in Veneziano, (T), 23:15084 (COO-264-471)
parton, angular distribution of secondaries in, 25:14661
parton, breakdown of scaling invariance in generalized Bjorken limit of perturbation theory for deeply inelastic electron—hadron interactions in, 25:1438 (AD-706834)
parton, cross sections for μ^-—μ^+ pair production in γ + p interactions, 24:32993
parton, current interactions in nonperturbative, 25:28015
parton, current-algebra sum rules from, 24:49422
parton, differential distributions for large-invariant-mass μ^+—μ^- pairs in inelastic e + p interactions in, 25:47784
parton, dual amplitude for $\gamma + \pi \rightarrow 2\pi$ interactions in, 25:43592
parton, existence of Goldstone—Nambu bosons in, 25:50132
parton, for analysis of inelastic e + p interactions, (T), 24:40318
parton, for composite structure of nucleons, 24:24285
parton, for deep inelastic $e^+ + e^- \rightarrow$ p + hadrons interactions, 24:37686
parton, for deep inelastic interactions at high energies, 25:7604
parton, for deep inelastic lepton—nucleon interactions and lepton—pair annihilations, 24:13001
parton, for deep inelastic lepton—nucleon interactions, 25:28001
parton, for deep-inelastic e + p interactions, 24:30480
parton, for dual amplitudes in hadron strong interactions, 24:37744
parton, for elementary particle interactions at very high energies, (T), 25:5304 (CONF-700314-, Paper 18)
parton, for inelastic e + N interactions, 24:45471
parton, for inelastic e + p interactions, 24:10701 (SU-1206-207)
parton, for inelastic hadron-hadron interactions at high energies, 24:49449
parton, for inelastic lepton-nucleon interactions, effect of transverse momentum distribution in, 25:3323
parton, for massive lepton pair production in strong interactions at high energies, 24:40414
parton, for multiplicity, asymmetry, and inelasticity in N + N interactions at ultrahigh energies, 25:1562
parton, for π + N interactions at high energies, 25:5345
parton, for predictions of hadron production in $e^+ + e^-$ interactions, 24:49367 (LNF-70/21)
parton, for predictions on hadron production in $e^+ + e^-$ interactions, 24:40309
parton, for proton and neutron internal structure, 25:36445
parton, for relation of structure function of deep inelastic e + p interactions near threshold with proton elastic electromagnetic form factor, 24:12991
parton, for structure functions for hadron production in deep inelastic e + p interactions, 25:5330
parton, for structure of nucleons, 24:8592
parton, for total cross sections for hadron production in $e^+ + e^-$ interactions at high energies, 24:40308
parton, formulation based on dual resonance model, 25:28002
parton, Galilean invariance in infinite momentum frame for, 25:59431
parton, hadron electromagnetic mass difference from virtual Compton scattering amplitude in, 25:12155
parton, hadron inelastic processes with two photons for impulse-approximation and field-theory approaches to, 25:38729
parton, interactions e + p and e + p in, deep inelastic, 25:3310 (DESY-70/50)
parton, lectures on structure functions, sum rules, and asymptotic behavior for deep inelastic e + p, $e^+ + e^-$, π + p, and anti π + p interactions in, 25:47778
parton, most probable number of partons for inelastic e + p interactions in, 25:43585 (SU-1206-246)
parton, nonpolynomial Lagrangians for interactions at high energies in, 25:33574 (INP-713(Vol.2), pp 117-21)
parton, polarization effects in deep inelastic e + p and π + p interactions in, 25:53099
parton, predictions for hadron production in $e^+ + e^-$ interactions in preasymptotic region and structure in high-mass μ^+—μ^- pair production in p + p interactions in, 25:36434 (LNF-71/5)
parton, probability function for, 25:45754
parton, review of cross sections and structure functions for hadron production in deep inelastic e + p interactions in, 25:36452
parton, scale invariance breaking in Q^2 dependence of structure functions for inelastic e + p interactions in, 25:17422 (SU-1206-236)
parton, transverse momentum distribution for inelastic e + p interactions in, (T), 24:42899 (SU-1206-225)
parton, with Poisson distribution for inelastic π + N interactions, 25:40945
parton—duality, structure functions for deep inelastic e + p interactions in, 25:17441
peripheral absorption model in U(6,6) for backward π + p interactions, 23:34608
peripheral absorption model in U(6,6) for production processes, 23:34579
peripheral mechanism for production of three-body final states in K^- + p interactions at 6 GeV/c, double, 23:27755
peripheral model with absorption corrections for two-particle interactions, double, 23:5602
peripheral, decay correlations and polarization in, 25:1487
peripheral, for origin of dips and spikes in differential cross sections for π + p, γ + p, and K + p interactions, review of, 24:52099
peripheral, for ω production in $\gamma + N \rightarrow \omega + N$ interactions at high energies, 24:52015
peripheral, for $\pi^+ + d \rightarrow p + p + \pi^+ + \pi^- + \pi^0$ interactions at 13 GeV/c in deuterium bubble chamber, triple-, (E/T), 24:37649 (COO-1428-225)
peripheral, for π^+ and π^- production in π^- + p interactions near 1 GeV with π and N exchange, 25:5376
peripheral, for $\pi\pi$ phase shifts in $\pi + N \rightarrow \pi + N$ interactions at low energies, (T), 24:40370
peripheral, Kronecker-delta terms in dispersion amplitudes from, 24:18159
peripheral, ω—rho interference in absorptive, for $\pi^- + p \rightarrow e^- + e^+ + n$ interactions at 1.65 GeV/c, 23:23482
peripheral, predictions for cross sections of $\gamma + p \rightarrow \pi^0(eta^0) + p$ and $\gamma + n \rightarrow \pi^0 + n$ interactions at high energies, 23:51878 (DESY-69/31)
peripheral, predictions for $\gamma + N \rightarrow \pi^0 + N$ interactions, 24:1553
peripheral, spikes and dips in t dependence of cross sections for hadron interactions in, 24:5282 (DESY-69/38)
peripheral, theory and applications of, 23:10799
peripheral, with two-meson exchange for backward K^- + p → $K^+ + \Xi^-$ interactions at intermediate energies, 25:41006
phenomenological, for hadron couplings, 24:42936
pion-pole, for branching ratio of $K_1^0 \rightarrow \gamma + \gamma$ decay, 24:13023
planar Feynman diagram, transverse momentum distribution of partons in, 25:47829
pole models for s-wave hyperon decay amplitudes, 23:3690
pole-dominance model for $\pi + \pi$ scattering length, 23:34589
pole-vector-dominance, for $\pi + N \rightarrow$ rho + N and π^- + p → rho$^-$ + p interactions at high energies, 24:20154 (ITF-69-70)
Pomeranchuk exchange and direct channel resonances for elastic K^+ + p and K^- + p interactions at high energies, 23:23476
potential, hadron interactions at high energies and scattering in field theory in, 25:22706 (DESY-70/67)
production processes in, unitarity, crossing, and two-body effects in low-energy, 24:13095
proton electromagnetic structure in phenomenological, 24:28509
quark parton, deep inelastic lepton interactions with hadrons in, 25:33649 (LPTHE-TH-71/12)
quark—parton, form factors of nucleons in, 25:59391
quark—parton, inequalities for neutron and proton inelastic structure functions in, 25:33731 (SU-1206-244)
quark—parton, inequalities for structure functions of inelastic γ + e Compton interactions in, 25:43586 (SU-1206-250)
quark—parton, nucleon structure functions in, 25:38705
quark—parton, predictions for total cross sections of antineutrino and neutrino interactions, 25:40950
quartet and three-triplet, urbaryon transitions for nonleptonic hyperon decays in, 25:59423
quartet composite, for effective Hamiltonian for hadron weak decays, 24:3610
quartet, hyperon nonleptonic decays and baryon beta decays in, (T), 24:42923
quasi-nuclear, for many-baryon resonance production in Δ + N interactions, 25:30895 (NP-18779)
quasipotential model for high-energy elastic scattering, relativistic, 23:27894
quasipotential, for high-energy elastic scattering amplitude, relativistic, 23:46690
quasipotential, for p + p → p + p and n + p → n + p interactions, (E/T), 24:3518
Regge absorption, π and eta production in forward $\gamma + N \rightarrow \pi(eta) + N$ interactions in, 25:56452 (CALT-68-313)
Regge dipole, for duality and differential cross sections for A_2 production in $\pi^- + p \rightarrow$ eta + n interactions, 25:14704
Regge pole eikonal, for amplitude and differential cross sections for $\pi^+ + n \rightarrow \Delta^{++} + \pi^-$ interactions, 25:14715
Regge trajectory exchange, for differential cross sections of photon reactions (γ,rho^0) with carbon-12 at 4.0 to 16.0 GeV, 25:22739
Regge—eikonal, for elastic and charge-exchange meson (π) and meson (K) reactions with helium-3, 24:24397
Reggeized absorption, modification for high-energy inelastic scattering, 25:5381
Reggeized generalized optical, for multiple and diffraction scattering and dips in $\pi^- + p \rightarrow \pi^0 + n$ interactions at high energies, 25:12205

Reggeized multiperipheral, for amplitudes of high-energy spinless-particle scattering, formulation of convergence of unitarity series saturated with, 24:26522
Reggeized multiperipheral, for analysis of p + p → p + p + π^+ + π^+ + π^- + π^- interactions at 28.5 GeV/c, (E/T), 24:3701
Reggeized multiperipheral, for energy dependence of cross sections for inelastic π^- + p and π^+ + p interactions at 1 to 12 GeV/c, (E/T), 24:37801
Reggeized multiperipheral, hadron interactions in, 25:30764
Reggeized one-pion-exchange, diffraction production of N(1470) and N(1688)in n + p → 2p + π^- interactions at 2 to 30 GeV in, 25:56521 (JINR-P1-5975)
Reggeized pion-exchange, single π production in π^- + p → n + rho° and p + p → n + Δ^{++} interactions in, 25:47882
Reggeized tadpole, hadron electromagnetic mass differences and amplitude of π + N interactions in, variational method for chiral symmetry for, 25:22748
Reggeized U(6) x U(6) x O(3) absorption, for π^- + p → π^0 + n interactions at 30 to 70 GeV/c, 24:40400
relativistic rotator, infinite multiplets for meson and nucleon resonance mass spectra in, 24:52078
relativistic rotator, Lie algebra of, 24:8702
renormalizable and nonrenormalizable, for weak interactions, 24:28533
rescattering, for angular distributions for K^- + p → K^{*-}(892) + p interactions at 1.2 to 2.1 GeV/c, (T), 24:30526
resonance classification in, 23:18880 (NP-17766(Pt.3))
resonance production in photon interactions with hadrons in, review of, (T), 23:49086
resonance production in, mechanisms for, 23:5593
review of, for hadron interactions, 23:46681 (UCRL-19205)
review of, for strong interactions, 25:50119
review on multiperipheralism, multi-Regge pole and bootstrap, 23:13077
rho dominance, s-wave scattering lengths for π interactions with arbitrary target in, 24:51991
rho exchange peripheral, for differential cross sections for γ + p → n + rho° interactions, 25:7585 (EFI-TF-6-69)
rigid-α model, for AN tensor force effects on A binding energy in A-He^3, 24:47463 (CONF-690557-(Vol.1), pp 333-47)
rising phase shift, mass and width of rho' in anti p + n → π^+ + 2π^- interactions in, 25:56485 (ORO-3992-66)
rotator, theory for classical relativistic, 24:8576
scalar boson exchange, neutrino form factor in renormalizable, 24:37731
semi-statistical, for high-energy particle production, 23:23395
shell, for particle properties and interactions, 23:39629
shell-type, meson—nucleon systems for empirical regularities in small-mass baryon spectra in, 24:28548 (JINR-P2-4987)
sigma model for π + π interactions, Pade approximation for unitary amplitudes in, 23:36913
sigma model without nucleons for current algebra identity and amplitudes of meson (π) interactions with vector currents and axial-vector currents and meson (π) production by axial-vector currents, 24:12992
sigma, axial vector current and PCAC hypothesis in boson, 25:33692 (NYO-3829-69)
sigma, baryon and K electromagnetic mass shifts and eta → 3π and eta' → 3π decays in SU(3), 25:33791 (SU-1206-245)
sigma, charge renormalization of SU(3) x SU(3) chiral-invariant, 24:37852
sigma, chiral SU(3) breaking of vacuum for hadrons in linear, 25:38769 (NYO-2262-TA-242)
sigma, conformal invariance spontaneous breakdown in particle interactions in, 25:25351
sigma, divergence conditions in PCAC and CVC hypotheses in perturbation theory in, 25:43689
sigma, for consistency of PCAC hypothesis with unitarity, 25:5367
sigma, in SU(3) x SU(3) for spin-zero fields, 24:26412
sigma, renormalization of linear, 25:22781
sigma, six-π amplitude to fourth order in momenta in nonlinear, 25:59456
sigma, summation of soft pseudoscalar π pairs in, 25:9782
sigma, two-loop approximations to propagators in, 25:43684
sigma, unitary amplitude of π + π interactions in, two-loop approximations to propagators for, 25:14683 (NYO-2262-TA-219)
sigma-model generalization from chiral symmetry and dual models, 25:1588
single-particle exchange, for inelastic π + N interactions at 1 to 8 GeV, 25:17513
soft pion, for analyses of p + p → p + p + π^+ + π^+ + π^- + π^- interactions at 28 GeV/c, (E/T), 24:3701
soft-particle emission, for multiparticle production, 25:30857
solution for field dressing, mass renormalization from, 23:14996 (ITF-68-28)
source theory and magnetic charge in, 22:50318
space—time, U(3,1) group for, 25:41035
spinor, for nucleon and hyperon structure, 25:7678
static approximation for single particle production in π + N → 2π + N interactions below 1 GeV, 24:8663
static baryon model, fixed-point theorems for solutions to one-meson Low equation of, 23:32697
static model bootstrap solution for arbitrary number of particles, equivalence of sum rules and, 23:42647
static model, relation between superconvergence sum rules and [SU(2)/sub I/ x SU(2)/sub J/] x T_z algebra in, 22:39463
static model, saturation of sum rules in strong-coupling, 22:34995
static strong-coupling, mixed parity spectra in, 24:45501
static, 3-pole N/D approximation for Δ(1236) production in π + N interactions in, 25:1540
static, convergence of perturbation theory for charged-scalar, 24:45581
static, review of strong coupling theory in, 24:45500
statistical isospin, for final-charge-state cross section ratios for π^- + p → N + mπ interactions at 1 to 16 GeV, (T), 25:14700 (JINR-P1-5471)
statistical thermodynamic, asymptotic form of transverse-momentum distribution of secondary particles from strong interactions at high energies in, 25:59427
statistical, asymmetry parameters for π pair angle distributions in π + p → p + 5π interactions at 5 GeV/c in, 25:30880
statistical, branching ratios for N^*(1470) and N^{***}(1470) decays in, 24:18203
statistical, for cross sections for meson and baryon production in N + N and meson-baryon interactions at high energies, 25:14680 (INP-719)
statistical, for cross sections for meson production in e^+ + e^- interactions at high energies in colliding beams, 25:1440 (DESY-70/44)
statistical, for cross sections for meson production in anti N + N interactions at high energies, 25:14680 (INP-719)
statistical, for cross sections of hadron strong interactions, 24:30492 (INR-1163)
statistical, for high-energy interactions, 22:50408
statistical, for large-angle scattering, 24:3785
statistical, for particle spectra from p + p interactions, two-temperature, 24:8674
statistical, for predictions of hadron production in e^+ + e^- interactions, 24:49367 (LNF-70/21)
statistical, for predictions on hadron production in e^+ + e^- interactions, 24:40309
statistical, for π^- + p → n + π^+(2π^+) + π^-(2π^-) + mπ^0 interactions at 4 GeV, 25:12204 (JINR-P1-5431)
statistical, hadron interactions in, 25:30764
statistical, Lorentz-invariant and -noninvariant momentum space in thermodynamic, 25:59432
statistical, multiple particle production in interactions at high energies in SU(3) version of, 25:22857 (JINR-E2-5599)
statistical, multiple particle production in SU(3)-, 25:53257
statistical, multiplicity spectrum for π^- and π^+ production in π + p interactions in Fermi-like Lorentz-invariant, 25:41013
statistical, one-dimensional exact, 24:47395
strong absorption, double-particle exchange in strong interactions in extension of, 25:47836
strong coupling baryon bootstrap, coupling constants between baryons and pseudoscalar mesons in SU(3), 25:56503
strong coupling, recoiling source in nonrelativistic, 24:13033
strong-absorption, π + N, anti K + N, and γ + p interactions at high energies for tests of, 25:12206
Sugawara current theory, equivalence with theory of Goldstone bosons, 24:37866
Sugawara, for spectral-function sum rules, 23:46650
Sugawara, for strong interactions, 25:17467
Sugawara, sum rules for current-hadron scattering amplitudes in, 24:37742
supereikonal, for structure function of deep inelastic e + p interactions, (T), 24:45466
symmetry breaking in dynamic, algebraic method for, 21:21276
tadpole, sigma-commutator terms and electromagnetic effects in, 25:22746
tensor meson dominance, decoupling of f-exchange contribution from A amplitude in π + N interactions in, 25:9764 (DESY-70/58)
tensor meson dominance, meson decay widths and nucleon coupling constants for empirical test of, 25:9764 (DESY-70/58)
tests of, current algebra, 21:13700
theory for composite systems in, constructive force in, 21:40210
theory for dynamic, based on unitarity and analyticity, 24:20242 (BNL-50212, pp 249-86)
theory for hadrons, 22:3369
theory for N—anti N composite, for ω and rho, 21:23331
theory for relativistic quasipotential, for two spinless hadron interactions at high energies, 23:17002 (JINR-E2-4251)
theory for weak interactions with heavy leptons and three types of intermediate vector bosons, 24:13012
theory for, 26-MeV-mass tamaid particle in, 22:5525
theory for, review of validity of, 24:49445
theory of bach and tamaid particles, for elementary particle mass relations, 22:9528
theory of composite, for meson electromagnetic form factors, 21:17081
theory of current-mixing, symmetry-breaking effects in, 22:50315
theory of deformable sphere, quark model relation with, 22:32118
theory of incoherent droplet, for multiparticle production in e + p interactions, 23:16947 (MIT-2098-506)
theory of Lee model in Galilean quantum field theories, 21:17167
theory of two-temperature, for particle spectra from p + p interactions at high energies, 23:16967 (N-68-33548)
theory with geometrical symmetry for particle spectra, 23:15011
theory with infinite-component fields, for mass spectra, 22:7531 (NP-17151)
thermodynamic, for atlas of particle-production-momentum spectra from p + p interactions below 800 GeV/c and proton reactions with nuclei below 70 GeV/c, 25:14733 (NP-18660)
thermodynamic, for multiple particle production in, (E/T), 24:24404
thermodynamic, for secondary particle momentum spectra in p + p interactions at 10 to 30 GeV/c, multi-Regge model for velocity weight function in, 24:37812
thermodynamic, of strong interactions, 25:3355
thermodynamic, test in momentum distributions of secondary π produced in π^+ + p interactions at 5 GeV/c, 25:30746
thermodynamic,strong interactions in, 25:30838
thermodynamical, for particle spectra from p + p interactions at high energies, velocity weight function in, (T), 25:7682 (NP-18551)
three-meson-exchange, for p + p scattering, (T), 24:40425
two-baryon sector, indefinite metric in, 24:1567
two-baryon sector, with indefinite metric and SU(2) symmetry, 24:1566
two-fireball, comparison with multiperipheral model, 24:40360
two-fireball, for photon lateral distribution in air showers, 25:30793
two-pion-exchange model for rho decay angular distribution and cross section for γ + p → rho° + p interactions at 4.4 GeV, 23:23412
two-temperature statistical, for particle spectra in p + p interactions at high energies, 24:35665
two-temperature statistical, for spectra from p + p interactions at high energies, 24:6729 (AD-691488)
two-temperature, multiple particle production in strong interactions at very high energies in, 25:19971 (ANL-7727)
uncorrelated jet model, analysis of, 22:24625
uncorrelated jet, for high-energy interactions, 25:22852
uncorrelated jet, for phase of large-angle elastic scattering amplitude, 23:46834
uncorrelated jet, unitarity calculation for amplitudes of boson elastic interactions with identical bosons in, 25:33690 (NP-18823)
unified, with broken V—A symmetry for strong and weak interactions, 24:28523
unitarization of Veneziano, for strong interactions, 23:39686 (ITF-69-37)
urbaryon rearrangement, dynamic structure of hadron amplitudes in, 25:12219
urbaryon rearrangement, hadron structure and dynamics in, 25:12183
urbaryon, for P-wave nonleptonic hyperon decays, 24:8616
urbaryon, hadron mass level structure in, 25:12182
use of cluster, for mass formula and structure of baryons, 21:35310
use of composite, for baryon structure from nonleptonic hyperon decay, 21:40265
use of dynamical, for magnetic moments of 56-plet baryons, 21:17161
use of incoherent-droplet, for multiparticle production in high-energy hadron interactions, 21:29518
use of Lee model for compositeness criteria in quantum field theory, 21:15410
use of one-boson Lee, for dispersion relations, 21:17070
use of pole approximation, for baryon production from high-energy neutrino interactions, 21:17152
use of spinning-top, for classifying baryon and meson states, 21:15321
validity of, use of algebra of currents for testing, 21:17102
Van Hove, elimination of parity-doubled states from Regge amplitudes in, 25:45737
Van Hove, fermion Reggeization without parity doubling in π + N interactions in, 24:13097
Van Hove, nonleptonic hyperon decay in, 25:14637 (SU-1206-238)
Van Hove, Regge cuts for differential cross sections and polarization in forward π^- + p → π^0 + n interactions in, 25:41001 (RLO-2041-57)
Van Hove, Regge-eikonal formalism for diffraction scattering in, 25:25532
vector dominance between photon- and vector-meson-initiated interactions at high energies in helicity frame, 24:3651 (DESY-69/40)
vector dominance diffractive, for rho° photoproduction on deuterons, 24:8603
vector dominance for coupling constant and width for rho → π^+ + π^- decay, 24:21979
vector dominance for predictions of forward peak in π^- + p → rho^0 + n and forward dip in π^+ + p → rho° + N^* interactions at high energies in helicity frame, 24:3651 (DESY-69/40)
vector dominance model for π photoproduction, 23:27767 (SLAC-PUB-589)
vector dominance, 0^- and 1^- meson radiative decays in broken SU(3) in, 25:5402
vector dominance, algebra of vertex strengths for rho photoproduction in modified, 23:49095
vector dominance, analysis of rho° density matrix elements for tests of, 24:37795
vector dominance, asymmetry in π^+ production in photon reactions with nuclei at high energies in, 25:53075
vector dominance, cross section of off-mass-shell strong interactions relation with effective mass spectrum for meson (μ) pair production in two-body strong interactions, 24:10735 (JINR-P2-4824)
vector dominance, cross sections for e^+ + e^- → π^0 + γ and e^+ + e^- → eta(X^0) + γ interactions in vector meson region in, 25:59377
vector dominance, cross sections of e + N → π^+ + N interactions for test of, (E/T), 25:40927
vector dominance, decrease of differential cross sections for lepton pair production at high energies and large angles, 25:36429
vector dominance, deep inelastic e + p interactions in, 24:6707
vector dominance, differential cross sections of rho° + p → rho° + p interactions relation with differential cross sections of γ + p → rho° + p interactions in, 25:53091

vector dominance, e + p → e + π⁺ + n interactions at high energies for test of, (T), 24:52009
vector dominance, for cross sections for meson production in e⁺ + e⁻ interactions at high energies in colliding beams, 25:1440 (DESY-70/44)
vector dominance, for diffractive electroproduction of vector meson, 24:10708
vector dominance, for e + N → π + N interactions, choice of frame in mass extrapolation in, (E), 24:28502 (DESY-70/11)
vector dominance, for electromagnetic hadron processes, 24:8635
vector dominance, for form factor for K → 2π + l + τ decay, (T), 25:12194
vector dominance, for γ + N → π + N interactions, 24:42914
vector dominance, for hadron electromagnetic form factors in field theory of composite systems, 24:30477 (LNF-70/7)
vector dominance, for hadron production in γ + N interactions at high energies, review of, (E/T), 24:6705
vector dominance, for incoherent production of mesons (rho⁰) and (π⁺) and total cross sections for photon reactions with nuclei at 3 to 16 GeV, (T), 24:18140
vector dominance, for incoherent rho⁰ production in photon reactions with nuclei above 2 GeV, 23:51898
vector dominance, for K → π + π + l + τ vector form factor, 23:36898
vector dominance, for meson (π) and nucleon form factors, generalized, 24:8629 (COO-264-525)
vector dominance, for partial widths of vector meson radiative decays, 24:28543
vector dominance, for photoproduction of vector mesons, 25:5301 (DNPL/R-7, pp 29-70)
vector dominance, for photoproduction processes, 24:24281
vector dominance, for probability of hyperon decays, 24:35683
vector dominance, for π photoproduction in electric Born model, tests of, 23:49094
vector dominance, for π⁰ → 2γ, ω → π + γ, and ω → 3π decays, mass dispersion relations near light cone for, 25:7618
vector dominance, for π⁰ photoproduction at high energies, 23:36868(T) (SLAC-Trans-96)
vector dominance, for π⁺ + p → Σ(1385) + K⁺ interactions at 1.7 GeV/c, (E/T), 25:1425
vector dominance, for radiative vector and pseudoscalar meson decays, 24:5275
vector dominance, for relation between γ + p and π⁺ + p interactions, 24:12976
vector dominance, for relation of γ + N → π⁻(π⁺) + N interactions at high energies with vector meson production in π + N interactions, 24:10721
vector dominance, for rho⁰ production in γ + p → rho⁰ + p interactions at 3 to 16 GeV, 23:51898
vector dominance, for t-channel helicity relations in Regge models for π⁻ + p → rho⁻ + p interactions at high energies, 24:35659
vector dominance, for t-channel helicity relations in Regge models for π + N → rho + N interactions at high energies, 24:35659
vector dominance, for total cross sections of γ + p → rho⁰ + p interactions, 23:51877 (DESY-69/30)
vector dominance, form factors and charge radii for K and N in, 25:12141
vector dominance, gauge-field and quark-field algebra for e⁺ + e⁻ → π⁰ + γ, π⁰ → 2γ and e⁺ + e⁻ → eta(X⁰) + γ, eta(X⁰) → 2γ interactions in colliding beams for test of, 24:28506 (LNF-69/64)
vector dominance, hadron weak interaction form factors in, 25:56468 (FRNC-R-1)
vector dominance, hadronic form factors in generalized, 24:40323
vector dominance, hyperon form factor for hyperon—meson coupling constants for anti Λ + Λ + anti Σ + Σ, and anti Ξ + Ξ interactions in, 25:25457
vector dominance, interactions e⁺ + e⁻ → phi for test of, (E), 24:42863
vector dominance, isovector asymmetry in rho production, π photoproduction, and electroproduction for test of, 25:5326
vector dominance, k² dispersion relation for invariant amplitudes of π production in γ + N → π + N interactions in, 25:59351
vector dominance, kinematic structure of, (T), 24:40325
vector dominance, meson (π⁰) production from photon reactions with nuclei at high energies for test of predictions of, 23:51891
vector dominance, photon reactions with nuclei for test of, 24:24298
vector dominance, predictions for Δ(1236) production in γ + p → π⁻ + Δ⁺⁺ and γ + n → π⁺ + Δ⁻ interactions, 23:51899
vector dominance, predictions for pseudoscalar and vector meson decays, 24:52077
vector dominance, predictions for vector meson production in nonstrange boson decay, 25:22809
vector dominance, pseudoscalar meson production in e + N interactions at high energies in, 25:22727 (ITF-70-72)
vector dominance, π electroproduction in, 25:1464
vector dominance, π production in e + N → π + N interactions relation with rho production in π + N → rho + N interactions in, 25:53074
vector dominance, range of photon interactions with hadrons at high energies in, 25:53074
vector dominance, reduction of differential cross sections for lepton pair production in strong interactions at high energies and large angles in, 25:45719(T) (CERN-Trans-71-14)
vector dominance, Regge trajectory effects in γ + N → γ + N forward Compton interactions at high energies for test of, 25:22730
vector dominance, relation between γ + N → π + N and π + N → rho + N interactions in, 24:24272
vector dominance, review of cross sections and structure functions for hadron production in deep inelastic e + p interactions in, 25:36452
vector dominance, review of photo- and electroproduction in, 25:53076
vector dominance, rho⁰ coherent production in photon reactions with light nuclei for test of, 25:5336
vector dominance, scaling in inelastic e + p interactions in, 25:40914 (COO-264-580)
vector dominance, sum rules for K + N interactions at low energies in, 25:36519
vector dominance, test in e⁺ + e⁻ → π⁰ + γ, π⁰ → γ + γ interactions, 24:15509
vector dominance, tests in pseudoscalar meson production in γ + N interactions, (E), 25:52998
vector dominance, tests in vector meson production in e⁺ + e⁻ interactions, 25:5250 (DNPL/R-7, pp 139-72)
vector dominance, theory for, 24:18109 (CONF-690330-, pp 48-60)
vector dominance, total hadronic cross sections for γ + p interactions from, 23:36870
vector dominance, vector meson exchange contributions to γ + N → π + N interactions in, 25:36447
vector dominance, verification in γ + ³He, π⁺ + ³He, π⁻ + ³He, and e + ³He interactions, 25:12140
vector gluon, divergence of axial-vector current in, 25:19984
vector meson dominance for (π⁰ → e⁺ + e⁻)/(π⁰ → 2γ) branching ratio, (T), 24:8608
vector meson dominance in electromagnetic interactions, review of, 24:6716 (COO-264-524)
vector meson dominance in helicity frame, 24:1613
vector meson dominance, for K → 2π decays and p-wave contributions to K → 3π and eta → 3π decays, 24:21967 (COO-264-539)
vector meson dominance, implications of inelastic e + p interactions at high energies for, (T), 24:42906
vector meson dominance, review of hadron production in γ + N and e + N interactions in, (E/T), 25:1361 (DESY-70/31)
vector meson dominance, use of diagonal frame in tests of, 24:37692
vector-dominance, Ball amplitudes for polarized photoproduction of π in, 25:38703
vector-dominance, domain of validity for e + p inelastic interactions, 24:18123
vector-dominance, for ω → 3π, ω → π + γ, and π⁰ → 2γ decays, 23:44646
vector-dominance, for p-wave contributions to K → 3π and eta → 3π decays, 25:1472
vector-dominance, photon propagator in, 25:9846
vector-meson dominance model with coupling of electromagnetic and vector fields, 23:10781
vector-meson dominance models, consistency problems in, 23:5664 (DESY-68/46)
vector-meson dominance, for incoherent photoproduction of rho⁰ from nuclei above 2 GeV, 23:51877 (DESY-69/30)
vector-meson dominance, for photon reactions with nuclei at high energies, 25:12151
vector-meson dominance, for pseudoscalar meson production in γ + N interactions, review of, 24:8582 (DESY-69/41)
vector-meson dominance, for radiative corrections to K → π + l + τ + γ decay, 24:33004
vector-meson dominance, Lorentz-invariant formulation of, 25:9723
vector-meson dominance, predictions of amplitudes for π⁻ + p → rho⁰ + n interactions, 24:42980
vector-meson-dominance, for inelastic e + p interactions, 24:12989
Veneziano amplitude, 25:14630
Veneziano amplitude for hadron interactions, quark model and, 24:52062
Veneziano amplitude for multiparticle scattering, building of dual diagrams from unitarity and, 23:49219
Veneziano amplitude for neutral dipion distributions in π⁺ + n → p + π⁺ + π⁻ and π⁺ + p → Δ⁺⁺ + π⁺ + π⁻ interactions, 24:37779 (COO-1428-219)
Veneziano amplitude for particle interactions, parametrization of generalized, 23:44611
Veneziano amplitude for π + π → π + ω interactions, duality and crossing symmetry in narrow-resonance, (T), 24:45522
Veneziano amplitude for scattering lengths for π + A → π + A interactions, 24:3669
Veneziano amplitude in, validity of superconvergence relations for gemel symmetry of, 23:42700
Veneziano amplitude of π + π → π + π interactions, Pomeranchuk behavior of, 24:40366
Veneziano amplitude of π + π interactions, sum of finite-energy sum rules for, (T), 24:47435
Veneziano amplitude with Regge asymptotic behavior, explicitly crossing-symmetric generalization of quasi-potential equation with two-body unitarity cuts for, 24:5347
Veneziano amplitude, recursion relations for multi-, 24:37966
Veneziano amplitude, simple Lorentz pole dominance in, 24:3769 (AD-691277)
Veneziano amplitudes for spinless-equal-mass-particle scattering in, uniqueness of generalized, 24:40499
Veneziano amplitudes in, class of integral representations for dual resonance models for, 24:37932 (LNF-69/79)
Veneziano amplitudes satisfying Adler consistency condition for s-wave scattering lengths, mass and width for 2⁺ resonance, and mass and partial width of meson (f) in π + π interactions, unitarized, 24:13058
Veneziano conspiracy and gauge invariance for γ + N → π + N interactions in, 23:51897
Veneziano dual and factorizable n-point functions from, 24:37963
Veneziano for K → π + π + l + τ and K → 3π decay form factors, 24:18118
Veneziano formulas for nonplanar Feynman diagrams, multiparticle, 24:37941
Veneziano functions for mass spectra and angular distributions in anti N + N → K + anti K + π interactions at rest, four-point, 25:9765 (NP-18578)
Veneziano model amplitudes, hard—meson PCAC from field—current identities for constraints on, 23:30748
Veneziano model for p + p → p + p and anti p + p → anti p + p interactions, 23:25644 (LNF-68/74)
Veneziano model for π + π interactions, 23:34598
Veneziano model with duality, 23:34663
Veneziano model with isospin, generalized, 23:32713
Veneziano multiparticle hadron amplitude, dual conserved current from local field interpretation of, 24:40355
Veneziano N-point function for mesons and baryons, quark spin in, 24:37737 (CALT-68-260)
Veneziano n-point function with manifestly crossing-invariant parametrization for meson interactions with mesons, review of, 24:6717
Veneziano poles in S-matrix theory, calculus of finite differences for, 24:3783
Veneziano representation for interactions of pseudoscalar mesons, 23:46705
Veneziano representation in rho bootstrap calculation, 24:26428
Veneziano residues in Regge pole, for π⁺ + p, π⁻ + p, and K⁺ + p interactions, 24:52110
Veneziano theory for scattering amplitudes, twisting operator in multi-, 24:24456
Veneziano three-Reggeon vertices for multiparticle scattering amplitudes in, 23:42765
Veneziano uniqueness of representations for relativistic scattering amplitude in, 23:46852
Veneziano, 0⁻ and 1⁻ meson radiative decays in broken SU(3) in, 25:5402
Veneziano, 4-, 5-, and N-point functions in dual resonance model with nonlinear trajectories, 25:9884 (COO-1764-90)
Veneziano, 5-point function construction in dual resonance models with nonlinear trajectories, rules for, 25:9885 (COO-1764-98)
Veneziano, 6-point functions for amplitudes and widths of meson decays in, 25:25531
Veneziano, absorption parameters for π + π interactions below 2 GeV in unitarized, 24:49462
Veneziano, absorptive corrections to, 25:1518
Veneziano, Adler zero in π + π and π + K interactions in, 24:24348
Veneziano, Adler—Weisberger sum rules for K + π interactions in, 24:18176
Veneziano, algebraic duality of π n-point functions of, 24:37768
Veneziano, amplitude for A + π → A + π interactions in, 25:59464
Veneziano, amplitude for anti p + n → π⁺ + π⁻ + π⁻ interactions in, 24:30509 (CONF-690521-, pp 750-8)
Veneziano, amplitude for any intercept from local Lagrangian, 24:49625
Veneziano, amplitude for K + rho → K + ω, interactions, (K⁺ - K⁰) mass difference from, 24:40382
Veneziano, amplitude for π + N interactions in, 24:40553
Veneziano, amplitude for π + rho → π + rho interactions, (π⁺ - π⁰) mass difference from, 24:40382
Veneziano, amplitude for π interactions in modified, 25:1658
Veneziano, amplitude for resonance degeneracy in meson interactions, factorization in, 23:46711
Veneziano, amplitude for singularities of two-body inelastic unitarity, unified treatment of quantization conditions, particle stability, Pomeranchuk singularity, and meson (π) production in particle decay from integral over, 23:52014
Veneziano, amplitude for unitary nonplanar closed loops, 24:37961
Veneziano, amplitude of anti p + p → 2π⁺ + 2π⁻ interactions at rest in generalized, 23:51931
Veneziano, amplitude of off-mass-shell A₁ + π → π + π interactions in, 25:14698
Veneziano, amplitude of π + π interactions at high energies, duality in, 23:51867(R) (NYO-1984-13)
Veneziano, amplitude of three-body hadron production in K + N, N + N, and π + N interactions with spin in, 25:30889
Veneziano, amplitude of two-body interactions of spinless mesons, factorization and degeneracy of meson spectrum in, 23:49128 (ISS-69/25)
Veneziano, amplitude relation to structured particles in, 24:49359
Veneziano, amplitude with complex trajectories for π⁺ + π⁻ → π⁺ + π⁻ interactions, 24:1569
Veneziano, amplitudes consistent with PCAC conditions for π + π → π + A₁ interactions, π electromagnetic form factor and radius, and A₁ → π + rho decay width in, 25:40984
Veneziano, amplitudes for first-excited and ground-state scalars in, 25:36592
Veneziano, amplitudes for γ + π → π + π interactions, 24:40314
Veneziano, amplitudes for n-scalar mesons in, 24:49446
Veneziano, amplitudes for ω + π → ω + π interactions in, 24:30516
Veneziano, amplitudes for π + N and K + N interactions in, 24:18207
Veneziano, amplitudes for Reggeons and spinning particles in, 25:5440
Veneziano, amplitudes from meromorphy and Regge behavior, 24:15563
Veneziano, amplitudes of K + rho → K + rho, π + rho → π + rho, and π + K → rho + K* interactions and coupling constants of three-vector mesons in six-point, 25:22792
Veneziano, amplitudes of Reggeon interactions with particles and Reggeon interactions with Reggeons in, 25:38806
Veneziano, analysis of K⁺ + p → anti Λ + 2p, K⁻ + p → Λ + anti p + p, and p + p → K⁺ + Λ + p in generalized, 25:53190

Veneziano, analysis of resonances in partial-wave amplitudes for $\pi + \pi \rightarrow \pi + \omega$ interactions in, 24:3641
Veneziano, angular distributions in charge-exchange π + N interactions in, 25:7674
Veneziano, angular-momentum- and Khuri-plane singularities in, 24:18299
Veneziano, ansatz for $\pi + \pi$ interactions, atonous duality for dynamics of narrow-resonance one-term, 24:1586
Veneziano, asymptotic behavior of partial widths of amplitudes for $\pi + \pi$ interactions in, 24:45515
Veneziano, asymptotic behavior of partial-wave amplitudes for $\pi + \pi$ interactions in complex s plane in, 24:45514
Veneziano, asymptotic behavior of partial-wave amplitudes and dispersion relations in complex S plane for $\pi + \pi$ interactions in, 25:36487
Veneziano, asymptotic behavior, poles, and zeros of amplitudes in, 25:45828
Veneziano, axial-vector-current three-pion amplitude consistent with generalized, 24:30514
Veneziano, background term for π—K scattering length in, 23:36911
Veneziano, baryon trajectories in, 24:37781
Veneziano, behavior of very high-order Feynman diagrams from N-point amplitude in, 25:33677
Veneziano, bootstrap conditions from, 24:37747
Veneziano, boson electromagnetic vertex function in, 25:17444
Veneziano, chiral multiplet structure in, 25:47928
Veneziano, chiral symmetry breaking from amplitudes for $\pi + \pi$, π + K, and K + K interactions in, 24:45513
Veneziano, chiral symmetry breaking in $K^+ + \pi^- \rightarrow K^+ + \pi^-$ interactions and three-body leptonic K decay form factors in, 23:51923 (NYO-2262-TA-210)
Veneziano, compatibility with current algebra and chiral symmetry for K + π interactions in, 25:1498 (UH-511-79-70)
Veneziano, consistency conditions for Regge trajectories from factorization of N-point dual amplitudes in, 24:52233
Veneziano, consistency with broken chiral symmetry model, 24:15561
Veneziano, consistency with Yang—Mills coupling of vector meson fields for eta $\rightarrow \pi^+ + \pi^- + \gamma$, $\omega \rightarrow 3\pi$, and $X^0 \rightarrow \pi^+ + \pi^- + \gamma$ decays, 25:19985 (DEMO-71/1)
Veneziano, consistency with Yang—Mills coupling of vector meson fields, 25:43631
Veneziano, constraints for amplitudes of $\pi + \pi$ interactions at low and intermediate energies in, 25:40998
Veneziano, constraints on Regge trajectories from factorization of N-point dual amplitudes in, 24:52224
Veneziano, constraints on zeros and asymptotic behavior of amplitude for $\pi^+ + \pi^+$ interactions in, 25:22790
Veneziano, construction of amplitudes with daughter trajectories in generalized, 24:49629
Veneziano, coupled-channel unitarization of, 25:30860
Veneziano, coupling of normal-parity resonances to all channels in, 25:14681 (INP-730)
Veneziano, cross sections, asymmetry ratios, and baryon residues in $\gamma + n \rightarrow \pi^- + p$ and $\gamma + p \rightarrow \pi^+ + n$ interactions in, 25:40926
Veneziano, crossing $K^- + p \rightarrow \pi^- + \pi^+ + \Lambda$ into $\pi^+ + p \rightarrow K^+ + \pi^+ + \Lambda$ in generalized, 24:52096
Veneziano, crossing symmetry constraints in unitarized, for S-waves in $\pi + \pi$ interactions, 24:37774
Veneziano, crossing symmetry in anti N + N and N + N interactions in, 25:1561
Veneziano, crossing-symmetric amplitude for charge-exchange and elastic π + N interactions in, 24:35810
Veneziano, crossing-symmetric Bethe—Salpeter equation for amplitudes in, 25:7626
Veneziano, crossing-symmetric decomposition into three-graph integrals for five- and six-point formulas in, 25:40906
Veneziano, crossing-symmetric decomposition into tree-graph integrals for n-point formula in, 25:40907
Veneziano, crossing-symmetric description of $K^+ + p$, $K^- + p$, and $\pi^- + p$ interactions in generalized, 24:52091
Veneziano, crossing-symmetric unitarization of amplitude for $\pi + \pi \rightarrow \pi + \pi$ interactions in, 25:12196
Veneziano, current algebra relation of amplitudes of $\pi + \pi \rightarrow \pi + \pi(A_1)$ interactions with meson (π) electromagnetic form factor in, 23:51927
Veneziano, current algebra scattering amplitudes from dual n-point functions in generalized, 24:30596
Veneziano, current amplitudes for lepton interactions with hadrons in, 25:3342
Veneziano, decay form factors of K/sub l4/, K/sub l3/, and K/sub l2/ from current algebra and, 24:37728
Veneziano, decay $K \rightarrow \pi + l + \nu$ amplitudes in, (T), 24:28535
Veneziano, decay pattern of high-spin resonances in generalized, 25:45740
Veneziano, decay rates for $A_1 \rightarrow$ rho + π and $B \rightarrow \omega + \pi$ from finite-energy sum rules and, 24:18164
Veneziano, degeneracy and recurrence of Regge trajectories in, 23:32708
Veneziano, degeneracy of Regge trajectories in, 23:46848
Veneziano, derivation from Regge representation, 24:8748
Veneziano, differential cross sections for $K^- + p \rightarrow p$ + anti $K^0 + \pi^-$ at 3 to 10 GeV/c in five-point, 24:52108
Veneziano, diffraction peak in resonance production in multipoint, 24:5317
Veneziano, diffractive background to $\pi + \pi$ interactions in, 24:52073
Veneziano, dual amplitude for internal space—time structure of bosons in, 24:52081
Veneziano, dual amplitudes for $A_1 + \pi \rightarrow \omega + \pi$ interactions in, 25:7642
Veneziano, dual amplitudes with ω-coupling for 6π interactions, 24:37773
Veneziano, dual amplitudes with Regge cuts in, 25:9899
Veneziano, dual diagram in, parameter-free regularization of one-loop unitary, 24:37951
Veneziano, dual representation of $K \rightarrow 3\pi$ decay amplitudes in generalized, 24:40329
Veneziano, duality and analyticity for Regge poles in representation of, 25:14829
Veneziano, duality and gauge properties of twisted propagators in multi-, 24:40489
Veneziano, duality and S-wave scattering lengths for, 24:42947
Veneziano, duality diagrams and supermultiplet schemes for meson—meson interactions, 24:1577
Veneziano, duality for π—eta degeneracy, 24:47441
Veneziano, duality functions in meson—baryon model, 24:52055
Veneziano, duality series for five-point function in, 24:18300
Veneziano, dynamic model of amplitudes in, 24:28627
Veneziano, Δ and N trajectory widths for π + N interactions in, 23:36938
Veneziano, eikonal model from unitarity corrections to generalized, 25:28034
Veneziano, eikonal-like pole-cut model from unitarity corrections to, 25:28044
Veneziano, elastic unitarity for π electromagnetic form factor in, 24:37695
Veneziano, elastic unitarity in forward $\pi^+ + \pi^- \rightarrow \pi^+ + \pi^-$ interactions at low energies in, resonances, phase shifts, and scattering lengths from, 25:1516
Veneziano, elimination of ghosts and parity partners in generalized, 25:7744 (NP-18543)
Veneziano, equivalence of harmonic-oscillator model for hadron structure to dual-symmetric, 24:30496
Veneziano, extension to π + N and K + N interactions, 24:18186 (CONF-690330-, pp 189-201)
Veneziano, factorization and cyclic structure in, 24:49623
Veneziano, factorization and cyclic structure of amplitudes in, 24:18297
Veneziano, factorization constraints on, 24:3640
Veneziano, factorization exchange degeneracy and duality in $K^- + p \rightarrow \pi^- + Y^{0*}$ and $\pi^+ + p \rightarrow K^+ + Y^{0*}$ interactions in, unitarity corrections for, 25:1533 (UCSD-10-P-10-76)
Veneziano, factorization of N-point amplitude for finite set of Regge trajectories in, 25:33853
Veneziano, factorization of N-point dual amplitudes with Regge trajectories in, 24:52222
Veneziano, factorization of Regge residues for meson interactions with π in, 25:7641
Veneziano, fermion resonances in, 25:47843
Veneziano, Feynman graphs for amplitudes in, 25:47976 (AD-718991)
Veneziano, Feynman-like diagrams compatible with duality in, 24:3733
Veneziano, final-state interactions, 25:53171
Veneziano, finite energy sum rules in dual, 25:59450
Veneziano, fits to $K^- + p \rightarrow K^0 + \pi^- + p$ interactions at 3.3 GeV/c in generalized, 25:3391
Veneziano, five-body amplitude for diffractive $\gamma + p \rightarrow \pi^+ + \pi^- + p$ interactions in, 25:12152
Veneziano, five-point amplitude for cross sections and effective-mass and angular distributions for $\pi^- + p$ interactions in, 25:3378 (ITF-70-77)
Veneziano, five-point function in Regge region for sigma + sigma $\rightarrow$ sigma + sigma + sigma interactions, 24:37759
Veneziano, for 3π Dalitz plot structure in anti $p + n \rightarrow 2\pi^- + \pi^+$ interactions at 1.0 to 1.6 GeV/c in deuterium bubble chamber, (E/T), 25:3270 (INFN-PD-70/2)
Veneziano, for 3π system and $A_1(1070)$ production in $\pi^+ + d \rightarrow d + 2\pi^+ + \pi^-$ interactions at 5.4 GeV/c in deuterium bubble chamber, (E/T), 24:6689 (COO-427-97)
Veneziano, for $A_1 + \pi \rightarrow \pi + \pi$ off-mass-shell amplitude, 24:28541 (JINR-E4-4959)
Veneziano, for amplitude of nonvacuum reggeon interactions with particles, 24:35618
Veneziano, for amplitude with finite number of daughter Regge trajectories, generalized, 25:9888 (ITF-70-78)
Veneziano, for amplitudes of meson interactions with mesons, 25:14695
Veneziano, for amplitudes of π + N interactions, 24:18211
Veneziano, for amplitudes, sum rules, and parity doubling in π + rho $\rightarrow \pi$ + rho interactions, 24:13063
Veneziano, for amplitudes, sum rules, universality relation, exchange degeneracy, and parity doubling in meson interactions with pseudoscalar-octet and vector- and tensor-nonet mesons, 24:13063
Veneziano, for anti N + N and N + N interactions, absorptive, 24:49533
Veneziano, for anti N N anti K K π processes, 25:45733
Veneziano, for axial-vector-current three-pion amplitude, 24:40369
Veneziano, for chiral constraints and absence of ghosts in five-point spinless vertices, 24:10743 (COO-264-522)
Veneziano, for chiral Lagrangians with broken SU(3) X SU(3) symmetry for eta mesons, 24:52074
Veneziano, for Compton $\gamma + \pi$ interactions, 24:24273
Veneziano, for Compton scattering of neutral and charged currents, 24:15516
Veneziano, for contact term for amplitude of $\omega \rightarrow 3\pi$ decay, 23:49131
Veneziano, for crossing-symmetric amplitude, duality of, 23:46703
Veneziano, for dual amplitudes with cuts for two body interactions of equal-mass spinless particles, (T), 24:45492 (IC-70/89)
Veneziano, for elastic $\pi^+ + \pi^-$ interactions, J-plane structure of, 23:46702
Veneziano, for elastic unitarity for resonances in $\pi^+ + \pi \rightarrow \pi^+ + \pi^-$ interactions at low energies, 24:49455 (DEMO-70/9)
Veneziano, for eta + π interactions and $X \rightarrow$ eta + π + π decay, 24:10750
Veneziano, for $\gamma + \pi \rightarrow \gamma + \pi$ Compton scattering, $\omega\pi$rho coupling in, 24:24296
Veneziano, for hadron bootstrap, properties of vector currents consistent with, 25:12177
Veneziano, for hadron bootstrap, vector currents in generalized, 24:18275
Veneziano, for hadron interactions and mass formula, 24:49360
Veneziano, for interactions involving $\pi\omega$rhoA_1 system, 24:3632
Veneziano, for isoscalar-current three-pion amplitude, 24:40367
Veneziano, for K + N interactions, 23:44664
Veneziano, for $K^+ + p \rightarrow K^+ + p + \omega$ interactions at 9 GeV/c, test of double-Regge behavior of generalized, 25:9797
Veneziano, for $K^- + p \rightarrow \pi^- + \pi^+ + \Lambda$ interactions at 3 to 10 GeV/c, (E/T), 24:3674
Veneziano, for low-mass 1^+ 3π system in $\pi^+ + d \rightarrow d + \pi^+ + \pi^- + \pi^+$ interactions at 5.4 GeV/c in deuterium bubble chamber in, (E), 24:12954
Veneziano, for mass and angular distributions in anti p + n $\rightarrow \pi^+ + 2\pi^-$ interactions at 1.0 to 1.6 GeV/c in deuterium bubble chamber, 25:14548
Veneziano, for mass of scalar meson nonet, 23:42666
Veneziano, for meson resonance width ratios and s-wave scattering lengths for $\pi^+ + \pi^- \rightarrow \pi^+ + \pi^-$ interactions, 24:13059
Veneziano, for meson spectra, 24:45508 (IC-70/85)
Veneziano, for mesons, mass formulas from, 24:45519
Veneziano, for n + p $\rightarrow$ p + n interactions, 24:35667
Veneziano, for n-body meson interactions, 24:15572
Veneziano, for N-point amplitude, factorization of generalized, 24:3786
Veneziano, for nonet of stable particles, SU(3) structure of inelastic shadow in, (T), 24:49547
Veneziano, for nucleon form factors, 25:3394
Veneziano, for $\omega \rightarrow 3\pi$ decay, 24:13062
Veneziano, for particle scattering amplitudes, harmonic-oscillator analog for, 23:44738
Veneziano, for pion—vector meson interactions, 25:19997
Veneziano, for pseudoscalar scattering, Adler consistency condition for, 24:18163
Veneziano, for $\pi + A_1 \rightarrow \pi + A_1$ interactions, 24:26430
Veneziano, for π + A scattering, 23:34612
Veneziano, for π + N $\rightarrow$ K + Σ and π + N $\rightarrow$ K + A interactions, 24:13096
Veneziano, for π + N scattering amplitude with PCAC and Adler—Weisberger conditions, 24:3680
Veneziano, for $\pi + \pi \rightarrow \pi + A_1$ interactions, 24:13080
Veneziano, for $\pi + \pi \rightarrow \pi + \pi$ and π + K $\rightarrow \pi$ + K interactions, extrapolation of current algebra results from, 24:15571
Veneziano, for $\pi + \pi$ interactions yielding arbitrary spin particle, 23:42664
Veneziano, for $\pi + \pi$ interactions, satellite terms in, 24:37770
Veneziano, for $\pi + \pi$ interactions, secondary terms in, 24:24350
Veneziano, for π electromagnetic form factors and $A_1 \rightarrow$ rho + π decays, 24:8645
Veneziano, for π exchange interactions, 25:25445
Veneziano, for $\pi^- + p \rightarrow$ eta + n interactions, 24:40406
Veneziano, for $\pi^- + p \rightarrow \pi^0 + n$ interactions, 24:18190
Veneziano, for $\pi^+ + \pi^- \rightarrow \pi^+$ interactions and mass and width of epsilon, unitarized, 24:26424
Veneziano, for quark scattering amplitudes, hadron bootstrap with spin and internal symmetry from, 23:46687
Veneziano, for quarks, dynamics in, 24:49447
Veneziano, for resonances in decay and production processes, (T), 24:42939
Veneziano, for scattering amplitudes, 24:15686
Veneziano, for scattering amplitudes with crossing symmetry and duality, 24:1670
Veneziano, for scattering of arbitrary-spin bosons, 24:13065
Veneziano, for scattering of meson and baryon supermultiplets, 24:49529
Veneziano, for spinning $\pi + \pi \rightarrow \pi + \pi$ interactions, 24:10752
Veneziano, for strong interaction dynamics, 24:21974
Veneziano, for two-body interactions, five-point unitarized formula in, 25:1650
Veneziano, for vector—pseudoscalar interactions, 24:1572
Veneziano, form factors for $K \rightarrow \pi + l + \nu$ and $K \rightarrow \pi + \pi + l + \nu$ decays in, 24:20126
Veneziano, formal multiperipheral integral equation based on full n-point, 24:37935 (RLO-1388-574)
Veneziano, formulation of, 25:7762
Veneziano, four-point amplitude representation as vector on complex plane in, 25:41115
Veneziano, four-point and five-point functions for amplitudes in, 24:40497
Veneziano, four-point functions for mass spectra and angular distributions for anti N + N $\rightarrow$ K + anti K + π interactions at rest in, 25:14691
Veneziano, frame dependence of vector dominance in, 25:14710
Veneziano, functional formulation of N-particle amplitudes in, 25:43722
Veneziano, functional integrals for N-particle amplitude in, 25:9901
Veneziano, gauge identities from Koba—Nielsen operator expression for multi-, 25:1660

Veneziano, general factorization of n-point beta function in extended, 24:37975
Veneziano, general multi-loop amplitude in, 24:52216
Veneziano, generalization for non-diffractive current—current scattering amplitudes, 24:3582
Veneziano, generalization of multiparticle dual amplitudes in, 24:37973
Veneziano, ghost states in, 23:49139
Veneziano, group theory for structure of generalized, 25:59628
Veneziano, group-theoretical construction of N-point, 25:20114
Veneziano, $\gamma + N \to \pi + N$ cross sections in, (T), 25:9717
Veneziano, γ—3π coupling constant in, 24:40324
Veneziano, hadron bootstrap theory from, 24:15541 (INP-681, pp 211-41)
Veneziano, hadron weak and electromagnetic scattering amplitudes in, 23:49114
Veneziano, high-energy limits of Feynman-like diagrams with amplitudes in, 25:25541
Veneziano, inconsistancy of current algebra and off-mass-shell extrapolations of amplitudes in, 24:28617
Veneziano, inelastic meson—baryon scattering in, 25:41008
Veneziano, infinite representations for dual-resonance amplitude, 24:20258
Veneziano, interactions $A + \pi \to A + \pi$ and $A + \pi \to \pi + \pi$ in, effect of spin and isospin on amplitudes for, 24:30515
Veneziano, interactions anti $\Lambda + \Lambda \to \Lambda$ + anti Λ and anti $N + N \to N$ + anti N in, 24:3637
Veneziano, interactions $\gamma + \pi \to \pi + \pi$ in π reactions with nuclei, 23:51892
Veneziano, interactions involving π^+eta$\pi^-\pi^+\pi^-$ and π^+sigma$\pi^-\pi^+\pi^-$ in multipoint, 24:49480
Veneziano, interactions K + N at low, intermediate, and high energies in, 25:33729 (INR-P-1228)
Veneziano, interactions K + N in, 24:1592
Veneziano, interactions $K^- + n \to K^{*-} + \pi^- + p$ at 4.5 GeV/c in generalized, (E/T), 25:1424
Veneziano, interactions $K^+ + n \to K^0 + \pi^+ + n$ and $K^- + n \to$ anti $K^0 + \pi^- + n$ with crossing and charge symmetry in generalized, 25:1545
Veneziano, interactions $K^- + p \to K^{*-} + \pi^+ + n$ in generalized, 24:40403
Veneziano, interactions N + N in, 24:45550
Veneziano, interactions of scalar- and vector-mesons in, 24:49477
Veneziano, interactions π + N and K + N with two- and three-body final states in generalized, (E/T), 25:1537
Veneziano, interactions π + N at low energies in, 24:3654
Veneziano, interactions π + N in modified, 24:42973
Veneziano, interactions π + N in modified, 24:49492
Veneziano, interactions $\pi + \omega \to \pi + A_1$ in, 25:7640
Veneziano, interactions $\pi + \pi \to A_1 + \pi$ at rest in, inconsistency of algebraic realization of chiral symmetry with, 23:39707
Veneziano, interactions $\pi + \pi$ in smoothed, 25:36499
Veneziano, interactions $\pi + \pi$ in unitarized, 24:49461
Veneziano, interactions $\pi + \pi$ in unitarized two-term, 24:42953
Veneziano, interactions $\pi^+ + \pi^- \to \pi^+ + \pi^-$ in generalized, with nonlinear trajectories, 25:36493
Veneziano, interference model for resonances in $\pi + \pi$ interactions from amplitude in, 25:14692
Veneziano, internal structure of hadrons in, 24:18166
Veneziano, intimate connection between resonance parameters and residue functions for forward and backward differential cross sections in, 24:10760 (SU-1206-215)
Veneziano, invariance properties of proper time formulation of, 24:49617
Veneziano, invariant measure and three-cluster representations of n-point function in, 24:49448
Veneziano, $K \to 3\pi$ and eta $\to 3\pi$ decays for test of, 24:10733
Veneziano, K + N interactions at low, intermediate, and high energies in, 25:7656 (IFT-70/5)
Veneziano, $K + \pi$ interactions and $K \to \pi + l + \nu$ form factors in, 24:1573
Veneziano, K electromagnetic mass difference in, 24:13002
Veneziano, $K_1^0 \to 2\gamma$ decay rate from $K \to 3\pi$ decay in, (T), 24:45472
Veneziano, $K^- + p \to \pi^- + \pi^+ + \Lambda$ in generalized, 25:14716
Veneziano, $K^+ \to \pi^0 + l^+ + \nu$ and $K^+ \to \pi^+ + \pi^- + l^+ + \nu$ form factors in, (T), 24:49406
Veneziano, Landau equations for continuous medium for Koba—Nielsen kernels in generalized formula in, 25:36424
Veneziano, lectures on dynamical applications for strong interactions in, 25:33680
Veneziano, level degeneracy of generalized N-particle dual amplitude with satellites in generalized, 25:14826
Veneziano, linear dependence of residue functions of factorized amplitude for, 25:22788
Veneziano, logarithmic trajectories in, 23:49211
Veneziano, M-loop generalized formula for, 24:49366
Veneziano, many-body reactions in review of generalized, 25:7581
Veneziano, mass dependence of diffraction peak in resonance production, multipoint, (T), 24:8628 (COO-264-521)
Veneziano, mass difference (K_1^0 - K_2^0) in, 25:25388
Veneziano, mass extrapolation using dual amplitudes in, for anti $p + n \to \pi^- + \pi^- + \pi^+$ interactions, 24:1578
Veneziano, mass formulas for scalar mesons in, 24:35648
Veneziano, mass spectra of resonances in generalized, 25:14681 (INP-730)
Veneziano, meson (π) electromagnetic form factor from extension of unitarized, 24:12977
Veneziano, meson (π) electromagnetic form factor in, effective-range formula for, 25:22756
Veneziano, meson (π) form factor in, 25:7638 (DEMO-70/17)
Veneziano, meson and baryon resonance recognition in, 25:7649
Veneziano, meson scattering amplitudes in, 24:49485
Veneziano, meson spectra from, 25:40986
Veneziano, meson systems in, relation with chiral symmetry for, 24:1585
Veneziano, method of unitarization with crossing symmetry for $\pi + \pi$ interactions at low energies in, 25:19993
Veneziano, minimal factorized amplitudes for $A_1 + \pi \to A_1 + \pi$, $A_1 + \pi \to \pi + \pi$, and $\pi + \pi \to \pi + \pi$ interactions, 25:1515
Veneziano, model amplitudes with nonlinear trajectories, nondegenerate daughters, and duality in, 24:37958
Veneziano, model for pomeron from duality diagrams in, 25:31022
Veneziano, multipole-free dual amplitudes with Mandelstam analyticity in, 25:47987
Veneziano, multiquark trajectories in, 24:37741
Veneziano, μ^-p and μ^+n resonance production and duality in $\pi + n \to \mu^- + p$ interactions in, 25:45707 (OU-LNS-71-3)
Veneziano, N/D method for unitarization of scattering amplitudes in, 23:37019
Veneziano, N-point dual functions for mesons with physical trajectories in generalized, 25:36485
Veneziano, N-point function construction in dual resonance models with nonlinear trajectories, rules for, 25:9885 (COO-1764-98)
Veneziano, N-point function for scalar meson resonance spectra in, 25:53160
Veneziano, n-point function symmetric representations for meson interactions with mesons in, 25:33688 (INP-713(Vol.2), pp 55-84)
Veneziano, non-zero mass gauge condition for meson scattering amplitude in, 24:42948
Veneziano, nonplanar diagrams from dual-symmetric, 24:30498
Veneziano, normalization using dual six-point function for anti $p + p \to 4\pi$ interactions at rest in, 25:5362
Veneziano, nucleon electromagnetic and axial form factors from $\pi + N \to \pi + N$ and $\pi + N \to N + A_1$(rho) interactions in, 25:12144
Veneziano, off-mass-shell extension of amplitudes for $\pi + \pi \to \pi + \pi$ and $\pi + A_1 \to \pi + \pi$ interactions in, 24:37758
Veneziano, off-shell extension of amplitude for $\pi + \pi$ interaction in, 25:3373
Veneziano, off-shell single-current amplitude in, 25:9725
Veneziano, one-pion-exchange contribution to $\pi^- + p \to \pi^- + p + \omega$ interactions in, 23:46738
Veneziano, operator formalism for factorization of nonplanar dual amplitudes in generalized, 25:17590
Veneziano, operator multiperipheral integral equation in, 24:37945
Veneziano, operator vertices and propagators in generalized, 25:36475
Veneziano, parity constraints and factorization in meson (π) interactions with vector and pseudoscalar mesons, 23:39729
Veneziano, parity constraints on scattering amplitudes in, 23:49140
Veneziano, particle interactions in generalized, 25:30765
Veneziano, PCAC consistency condition for π + K interactions in, 24:3631
Veneziano, pion-pole mechanism for $K_2^0 \to \pi^+ + \pi^- + \gamma$ interactions using, 24:24320
Veneziano, planar duality in, 25:53385
Veneziano, polarization in charge-exchange π + N interactions in, 25:36517
Veneziano, Pomeranchuk singularity in unitarized, 25:28020
Veneziano, positivity conditions for interactions of identical bosons in, 23:39703
Veneziano, positivity conditions for $\pi + \pi \to \pi + \omega$ interactions in, 23:39699
Veneziano, positivity of $\pi\pi$ resonance widths in, 24:15560
Veneziano, potential-theory model for unitarization of amplitude in, 25:9900
Veneziano, prediction of rho" daughter resonance contribution to amplitudes of $\pi^- + p \to \pi^- + \pi^+(\omega^0) + n(p)$ interactions from, (T), 25:9786
Veneziano, predictions for $e^+ + e^- \to 2\pi^+ + 2\pi^-$ interactions in, (T), 24:52033
Veneziano, predictions for existence of rho" (1550), 24:28545
Veneziano, proper time formulation of N-body formula in, 24:43063
Veneziano, proper time formulation with general vertices for N-point amplitudes in, 25:41112
Veneziano, properties of residues for amplitudes of $\pi + \pi$ interactions in, 25:40965
Veneziano, properties of residues for amplitudes of equal-mass strong interactions in, 25:40965
Veneziano, proton form factor effects on ratios of $e^- + p \to e^- + p$ and $e^+ + p \to e^+ + p$ interaction cross sections in, 25:19942
Veneziano, pseudoscalar meson interactions in, SU(3) structure for internal symmetry from, 25:5370
Veneziano, pseudoscalar meson interactions with baryons in SU(3)-symmetric, 25:53207
Veneziano, $\pi + N \to N + \pi$ backward interactions with Regge cuts in, 24:15578 (COO-264-529)
Veneziano, π + N charge-exchange polarization in, (T), 25:9793
Veneziano, $\pi + \pi \to$ eta + boson interactions in, (T), 25:1501
Veneziano, $\pi + \pi$ amplitudes for $\pi + N \to \pi + \pi + N$ peripheral interactions in unitarized, 24:1582
Veneziano, π electromagnetic form factor from $\pi + \pi$ scattering amplitude in, 24:20150
Veneziano, π electromagnetic form factor in, 24:37694
Veneziano, π electromagnetic form factor in, 25:43593
Veneziano, π electromagnetic form factor in, 25:7605
Veneziano, π form factor from Weinberg sum rules in, 24:47445
Veneziano, π trajectory in π + rho scattering in, 24:26429
Veneziano, quantization conditions for linear and nonlinear Regge trajectories in, 24:13184
Veneziano, quantization of symmetry breaking for nonleptonic weak interactions, 25:1475
Veneziano, quasipotential for crossing-symmetric amplitude of strong interactions in, 25:47839
Veneziano, Radon transforms for structure of generalized amplitudes in, 25:59627
Veneziano, Regge behavior of convergent series expansion of scattering amplitude in, 25:7754
Veneziano, Regge cuts and unitarity corrections in, 25:33723
Veneziano, Regge cuts for backward π + N interactions, (T), 24:45527
Veneziano, Regge residue functions and chiral symmetry in, 24:37969
Veneziano, Regge residues for density matrices for spin-1 and -2 resonances from meson (π) exchange in $\pi + N \to 2\pi$ + N interactions, 23:51933
Veneziano, Regge trajectories for mesons in, infinite-component wave-equation associated with relativistic dynamical group for structure and group theory in, 24:1575
Veneziano, Regge trajectories in $\pi + N \to$ eta + N interactions in, 24:1606
Veneziano, Regge trajectory linearity in representation for exchange quasipotential for cross sections of π^- + p and π^+ + p interactions at high energies in, 25:1527 (JINR-E2-5226)
Veneziano, relation between mass quantization conditions and, 25:25401
Veneziano, relation between symmetry of Regge pole residues to, 24:37970
Veneziano, relation to current algebra treatment of eta $\to 3\pi$ and $K \to 3\pi$ decays, 24:1557
Veneziano, relation to meson systems and chiral symmetry, 24:43061
Veneziano, relativistic oscillator model for internal structure of hadrons in, 24:49435
Veneziano, removal of multipoles in dual amplitudes with Mandelstam analyticity in, 25:47988
Veneziano, representation for crossing-symmetric decomposition of n-point, into tree-graph integrals, 25:41114
Veneziano, representation for s- and t-channel exchange conspiracy for forward peak in amplitude of $\gamma + p \to n + \pi^+$ interactions in, 23:44616
Veneziano, representation of scattering amplitude, use of perturbation theory for, 24:33059
Veneziano, representations for π form factor and photon coupling to vector mesons in, 25:59352
Veneziano, residue functions of Y* trajectories for backward $K^+ + p$ scattering in, 23:49164
Veneziano, residue recurrence relations for N-point amplitude in, 25:33868
Veneziano, residues in Regge pole model for $0^- + {}^1/_2{}^+ \to 0^- + {}^1/_2{}^+$ interactions, 25:3384 (TPJU-3/70)
Veneziano, review of, 25:7633
Veneziano, review of hadron strong interactions in, 24:18149 (CERN-69-29, pp 1-30)
Veneziano, review of meson interactions with mesons in, 25:14688
Veneziano, review of multiparticle interactions in, 25:30825
Veneziano, review of $\pi + \pi$ interactions at high energies in, 24:15553 (INP-681, pp 171-92)
Veneziano, review of strong interactions in, 25:1484 (CONF-691202-, Paper 3)
Veneziano, review on multiparticle, 25:41119
Veneziano, rho contribution to nucleon form factors in, 24:18217
Veneziano, rho radiative decay width from amplitude for $\pi + \pi \to \pi + \gamma$ interactions in $\pi + N \to \pi + N + \gamma$ interactions in, 25:22803
Veneziano, rho width and cross sections for $\pi + \pi$ interactions, 24:13077
Veneziano, rho width and s-wave scattering lengths for π interactions with arbitrary target in, 24:51991
Veneziano, S, P, and D partial waves in unitary crossing symmetric calculation for $\pi + \pi$ interactions below 1 GeV, 23:51922 (NYO-1932(2)-153)
Veneziano, S-wave I = 0 $\pi + \pi$ interactions in unitarized, 24:1583
Veneziano, satellite terms in dual-resonance, 24:10848 (COO-264-528)
Veneziano, scale invariance and external mass dependence of Regge residues for amplitude of Compton $\gamma + N \to \gamma + N$ interactions in multi-, 25:22738
Veneziano, scaling law for deep inelastic scattering in, 24:52025
Veneziano, scaling laws for deep inelastic $\pi + p$ interactions in, (T), 25:12166
Veneziano, scattering amplitudes and daughter trajectories in, 24:1663
Veneziano, scattering amplitudes in, Lorentz pole analysis of, 23:46830
Veneziano, selection rules for two-body reactions in generalized, 25:14681 (INP-730)
Veneziano, self-consistent off-mass-shell amplitude for hadron interactions with hadrons in generalized, 24:1568
Veneziano, sign of Regge-pole residues in, 25:3453
Veneziano, signature and parity of trajectories for N-particle scattering in generalized, 24:5355
Veneziano, slope of meson trajectories from asymptotic SU(3) x SU(3) symmetry in, 24:40368
Veneziano, soft-pion and -kaon limits of $\pi + K$ amplitude for form factor ratio of $\pi \to \mu + \nu$ to $K \to \mu + \nu$ decay for validity of, 24:1562

Veneziano, spin and unitary spin in positive-intercept boson and fermion leading trajectories in generalized, 25:7568 (NP-18542)
Veneziano, spin-1 zero-mass photon in conformal, 25:43618
Veneziano, spinning particle amplitudes in dual multi-, 25:14586
Veneziano, statistical approach for given-temperature hadrons in, 24:20135 (COO-264-530)
Veneziano, statistical concepts for n-point function for interactions in, 25:30766
Veneziano, statistical formulation of, 24:20137
Veneziano, strip unitarization for π + N interactions at low energies in, 24:49490 (SINP-TH-69-6)
Veneziano, strong interactions in, review of, 25:36479
Veneziano, structure of Regge trajectories with abnormal parity for 0^- meson interactions with 0^+ mesons in, 24:24353
Veneziano, SU(2) symmetry from unitarity constraints on amplitudes in, 25:14754
Veneziano, SU(3) selection rules for π + eta $\rightarrow$ π + eta interactions in, 23:36910
Veneziano, sum rules, SU(2) x SU(2) charge algebra, and scattering lengths for $\pi + \pi \rightarrow \pi + \pi$ interactions in, 23:42665
Veneziano, symmetric representations of n-point functions in, 25:28014
Veneziano, symmetrical formula for on-mass-shell three-particle vertex in generalized, 24:26535
Veneziano, test from $K^- + p \rightarrow A + K^+ + K^-$ interactions at 3.3 GeV/c, 25:28042
Veneziano, test using rho spin-density matrix elements from π + N interactions, 24:37784
Veneziano, total and differential cross sections, effective-mass and angular distributions for $\pi^- + p \rightarrow p(n) + K^+ + K^-$(anti K^+) interactions at 1.5 to 8 GeV/c in generalized, 25:50138 (JINR-P2-5961)
Veneziano, total and differential cross sections, angular distributions, and f° and Δ^0(1236) production cross sections in $\pi^- + p \rightarrow n + 2\pi^0$ interactions at 1 to 10 GeV/c in generalized, 25:50137 (JINR-P2-5943)
Veneziano, tree graphs of generalized, for unitary closed loops in Feynman diagrams, 24:8711
Veneziano, two-current amplitude of deep inelastic e + p interactions in, 25:19954
Veneziano, unitarization for strong interactions, 23:51917
Veneziano, unitarization method for pion electromagnetic form factor in, 24:15515
Veneziano, unitarization of, 23:51926
Veneziano, unitarized and crossing-symmetric S-wave $\pi + \pi$ amplitudes in, 24:26435
Veneziano, universal rho coupling and Adler—Weisberger theorem for π^- + rho° and π^- + A_1^0 interactions in, 23:46700
Veneziano, vector dominance relation in, 25:41118
Veneziano, Ward-like identities from N-particle dual amplitude with satellites, 24:47522
Veneziano, with indefinitely rising Regge trajectories for high-energy interactions, analytical solution for dynamical calculations and quark-type models in, 24:15544
Veneziano, with mixing of eta and eta' in meson interactions, internal symmetry in, 24:24357
Veneziano, with natural and unnatural parity dominance of Regge trajectories for $\pi + \omega \rightarrow \pi + \omega$ and π + rho $\rightarrow$ π + rho interactions, 24:3668
Veneziano, with π and Pomeron exchange interactions $K^- + p \rightarrow n + K^- + \pi^0$ at 10 GeV/c in, 25:3386
Veneziano, with Regge trajectory assumptions for low-energy parameters for $\pi + \pi$ and K + π interactions, 24:5290 (NYO-2262-TA-211)
Veneziano, zero-mass-limit for parametrization for amplitudes of photon interactions, 23:51883 (UCRL-19220)
Veneziano—Pomeron, for cross sections and polarizations of p + p and anti p + p elastic scattering, 24:26449
Veneziano-like π form factor, hard-pion current algebra for, 24:40365
Veneziano-like, for $e^+ + e^- \rightarrow$ hadrons interactions, 24:32982
Veneziano-like, for π electromagnetic form factor, unitarity in, 24:28505 (LNF-69/58)
Veneziano-type amplitude compatible with PCAC hypothesis and broken chiral symmetry, (T), 24:45615
Veneziano-type π + K amplitudes, resonance saturation of axial charge commutator between meson (K) states for, 24:3647
Veneziano-type representation for scattering amplitudes satisfying unsubtracted dispersion relations, 24:40500
Veneziano-type vertex function for meson (π) electromagnetic form factor from meson (π) and scalar meson production in meson (π) interactions with vector mesons, 24:12978
Virasoro, duality and factorization in operator formalism of generalized, 25:53366
Virasoro, for π + N interactions, 24:15580 (JINR-P2-4883)
Virasoro, Regge behavior, crossing symmetry, and analyticity in amplitude for π + N interactions in, 23:42681
W-pair strong-interaction model, limits on high-energy weak-interaction cross sections and, 23:3686
wave function renormalization constant Z $\rightarrow$ 0 in Lee, 23:18826
weak interactions model of three W bosons interacting with triplet of fermion currents, leading divergences in, 24:13022
weak isospin, for hadron decay, 25:22769
Zachariasen model for broken symmetry effects, generalization of, 23:32781
Zachariasen, for elementary and composite particles, 23:49196
ELEMENTARY PARTICLE MODELS (BOOTSTRAP)
algebras for baryons and mesons, 21:37899
amplitudes of $\pi + \pi$ interactions in Reggeized, 22:39378
baryon classification and spectra in SU(6)-, ground-state, 24:3653
baryon classification, interactions, and properties in W(3)-symmetric, 23:49126
baryon electromagnetic mass differences in SU(6), 22:37107
baryon electromagnetic properties in Capps, p-wave, 23:21073
baryon interactions with mesons in static, strong coupling theory for, 25:17502
baryon mass formula from static, 22:52986
baryon mass formulas in static, strong coupling theory for, 25:17502
baryon resonance decay widths in static, strong coupling theory for, 25:17502
baryon resonances in reciprocal, nonlinear equation for Bethe—Salpeter amplitude for N and Δ, 24:13110
baryon—baryon interactions in quark-, 25:43650
baryons in W(3) symmetry in, 23:25633
bootstrapped symmetries for octet generation in field theory, 22:24724
calculation of $\pi\omega$ as bound state of B meson in reciprocal, 25:33691 (NYO-2262-TA-238)
calculation of rho in $\pi + \pi$ interactions, equivalent potential approach to, 23:18899
calculation of rho, using Veneziano representation in, 24:26428
calculation of self-consistent asymptotic behavior of amplitudes of two-Reggeon production from spinless stable particle two-body interactions at high energies, 23:51915
calculations for composite nucleon on π—N channel, 22:11647
calculations for hyperon nonleptonic decays, 21:37762
calculations for particles in, method for solving Bethe—Salpeter equation for, 25:36568
calculations for particles, SU(6) Clebsch—Gordan coefficients for product 35 x 70 for, 23:39780
calculations for spinless meson interactions with arbitrary-spin baryons, generalized angular momentum crossing relation for, 24:13101
calculations for vector and pseudoscalar mesons, 23:23460
calculations for width of rho resonance, 21:18982
calculations in unitary, analytic continuation of Regge residue function for, 24:37965
calculations in vector meson model, 21:21216
calculations of B and rho production in $\pi + \omega \rightarrow \pi + \omega$ interactions in reciprocal, 25:33691 (NYO-2262-TA-238)
calculations of rho and f°, double-bootstrap, 22:50387
calculations of vector meson parameters using Lippmann—Schwinger equation, 22:11661
calculations using Regge pole and resonance duality, 23:1718
calculations using Regge pole-resonance duality, 23:7136
composite-particle interactions in off-shell crossing-symmetric, 24:3613
concepts and equations in, review of, 24:5287
coupling constant sum rule from duality for, 25:14674
dual models without parity doubling for meson and reciprocal, 24:18197
duality and zero resonance widths for vector currents in hadron, for n-body interactions of spinless mesons, 25:12177
dynamics of π + N interactions at low energies, 24:24383
equations consistent with Cabibbo theory, 24:52041
equations for breaking in SU(3) x SU(3) symmetry, 24:49558
equations for triplet interactions with pseudoscalar mesons, 21:15351
equations for vertex function and propagators, graphical representation from, 25:1493
equations for, conjectured set of exact, 23:49061 (CALT-68-221)
equations from Z = 0 conditions for composite particles, 22:29752
equations with first-order symmetry breaking in SU(3), 21:46566
field theory and generalized groups for, 23:5597
field theory for, 22:13841
field theory for, Z = 0 conditions in scalar, 22:5648
field-theoretic formulation of, 23:7173
finite-energy sum rule, for exchange degeneracy in Y^* couplings and masses, 23:15130
form factor for mesons (π) in, electromagnetic, 23:25544 (BMwF-FBK-68-60)
form factor of π in, relations for electromagnetic, 25:7583 (BMBW-FBK-70-21)
form factors for particles in, electromagnetic, 23:25544 (BMwF-FBK-68-60)
formalism for coupling of vector mesons to baryons, 22:46442
formalism for crossing-symmetric, for nearly degenerate vector-meson octet, 22:3498
formalism for hadrons in, dynamic, 25:1492
formalism for properties of lighter hadrons, 23:15082
formalism of multiperipheral, using multi-Regge hypothesis, 23:15074
formulation for rho from $\pi + \pi$ interactions, 22:15766
formulation for unequal-mass kinetics using finite-energy sum rules, 24:3618
formulation from Veneziano representation, 24:37747
formulation in Lagrangian field theory, 22:44487
formulation in Lagrangian field theory with Z = 0, 22:17937
formulation in local field theory, 25:9690 (NYO-2171-331)
formulation in quantum field theory, 25:33830
formulation of meson (rho), with exact unitarity, 24:3624 (ITF-69-47)
formulation of, crossing symmetric Regge behavior and duality in, 23:46693
formulation using finite-energy sum rules, 24:15686
hadron dynamics in S-matrix formulation in, calculus of finite differences for, 24:3783
hadron dynamics in SU(2), effect of electromagnetism on, 22:11648
hadron electromagnetic mass difference in SU(3), 23:46653
hadron form factors and vertex functions in crossing-symmetric, 22:44405
hadron interactions in, generalized group theoretical analysis of spontaneous symmetry breaking for, 24:35685
hadron processes involving high-mass virtual photons in, unified treatment of, 24:18144
hadron structure in statistical, 25:38730
hadron theory in, 25:9753
hadron weak and electromagnetic properties from self-consistency requirements in, 23:25570
hadronic parameters in S-matrix, complementarity of small, 23:15078
hadronic weak currents in, solution to c-number equations for, 23:32679 (COO-1545-56)
hadrons in S-matrix in multiperipheral, review of, 24:20134 (BNL-50212, pp 287-383)
hadrons in, properties of vector currents consistent with Veneziano model for, 25:12177
hadrons in, review of Veneziano model for, 24:15541 (INP-681, pp 211-41)
hadrons in, symmetry for, 25:17528
hyperon resonance form factors in static, 21:29543
interactions γ + p at high energies in, wide-angle Compton, 24:32988
interactions in, Yang and Regge models for diffractive, 24:37740
interactions $\pi + \pi$ and p + p in, derivation of Wu and Yang conjecture for cross sections of, 25:9809
interactions $\pi + \pi$ at low energies in, numerical approach to, 24:24344
interactions $\pi + \pi$ in, amplitude expansion on Mandelstam triangle for, 25:14678
invariance group for n-body self-interactions of mesons in, 22:39458
many body problem in, 23:18822 (AD-673507)
mass renormalization in Lagrangian field theory for, finite, 22:20163
mass spectra and meson coupling-constant ratios of nucleon isobars in strong-coupling model and Bethe—Salpeter, 21:37831
mass spectra of positive-parity baryons from SU(2) x O(3)-symmetric, 22:26653
meson (phi) mass and width in, set of self-consistent equations for calculating, 24:35642
meson (rho) and (f) mass and width in, Balazs method for, 25:19989

Reggeization of scattering amplitudes in, 22:46413
Reggeized bootstrap of K* in Kπ channel, 22:5670
relations for π + N interactions in static model, comparison of superconvergence sum rules and, 22:22407
review on status of, 22:46388
S-matrix for, review of, 23:18823 (CONF-671217-, pp 370-588)
scattering amplitudes in, N/D model for calculation of, 22:15775
scattering amplitudes in, self-consistency of Regge singularities in, 23:21169
scattering lengths for $\pi + \pi$ interactions in, 24:10746
solution to unitarity equations in model field theory, relation to Z = 0 and strong-coupling solutions, 21:37910
solutions for arbitrary 2 x 2 crossing matrices for meson interactions with fixed baryons in exact static-model, 23:46737
solutions to Bethe—Salpeter equations, 22:46411
static model bootstrap solution for arbitrary number of particles, equivalence of sum rules and, 23:42647
SU(3)-symmetry breaking in Bethe—Salpeter, 22:46492
sum rules for amplitudes of baryon interactions with baryons, coupling constants from, 25:33770
sum rules for $\pi + \pi \rightarrow \pi + \omega$ interactions in, finite-energy, 23:10797 (UCSD-10-P-10-47)
sum rules for resonance production in π + N interactions in Regge, finite-energy, 25:17503
sum rules in, Regge behavior for crossing-symmetric finite-energy, 22:53034
symmetry algebra SU(n) for mesons in, 25:19999
symmetry breaking in, SU(3), 21:29591
symmetry groups in, internal, (T), 21:23534(R) (ANL-7246)
test of Balazs method in, from rho bootstrap in 2π system, 23:23469
theory and uses of, 23:15070
theory for, 21:29514
theory for baryon electromagnetic properties, 21:904
theory for baryon mass differences, 21:5394
theory for dynamics of positive-parity baryon excited states, 21:21246
theory for electromagnetic mass splittings of baryons and mesons, 21:15289
theory for elementary particle structure, 21:18934
theory for hadron currents, 23:5600
theory for mesons in Cutkosky model, 21:33752
theory for π + N amplitude, relation between saturation assumption of superconvergence relation and, 22:35010
theory for π + N and N + N* interactions, 22:32170
theory for π + N interactions in static models, relations with superconvergence sum rules, 22:7503 (LPTHE-TH-217)
theory for quantum fields, conditions in, 21:40272
theory for quark—antiquark channel of SU(3) symmetry fundamental triplet, 22:20291
theory for R, S, T, and U mesons on linear Regge trajectories, 22:20238
theory for Regge trajectories for strong interactions, 21:18980
theory for scalar particle, consequences of internal symmetry crossing matrices in, 22:13861 (COO-1573-31)
theory for strong interactions, 21:18974
theory for strong interactions, Mandelstam iteration in, 21:973
theory for superconvergence of amplitudes in, 22:5595
theory for superconvergence of amplitudes of π + N interactions in, 22:3412 (TH-216)
theory for vector meson, in antibaryon—baryon interactions, 22:15834
theory for, Chew—Frautschi, 21:42285
theory for, derivation of existence and nonexistence theorems in, 21:17105
theory for, equivalence to composite particle theory, 21:19054
theory for, particle symmetries in, 22:7464
theory for, review of, 22:17884
theory for, review of, 21:31577
theory for, self-consistent, 21:11766
theory of multiperipheral, 23:10797 (UCSD-10-P-10-47)
theory of reciprocal, for vector and tensor trajectories from pseudoscalar meson interactions, 22:34969
theory of SU(3) strong coupling baryon, for coupling constants between baryons and pseudoscalar mesons, 25:56503
theory of SU(6)/sub W/, for mesons and baryons, 22:3367
theory of SU(6)/sub W/-symmetric, for even-parity meson resonances, 22:15833
theory of superconvergent, for supersymmetry, 21:42282
theory of unified Chew—Low and Fermi—Yang, for mesons and baryons, 22:3375
theory of, book on, 21:27324
theory of, dynamics of multiperipheral model for, 25:5302 (CONF-700314-, Paper 11)
theory of, incompatibility with closure property of quantum theory, 22:7490
theory with resonances in partial-wave projection of cross-channel Regge pole formula, 22:44430
trajectory for $\omega + \pi \rightarrow \pi + \pi$ interactions in, rho, 24:40372
use for calculating quark—antiquark channel for meson solutions, 22:3386
use for chiral SU(2) algebra, 21:33684
use for dynamical symmetries for pseudoscalar and vector meson interactions, 21:37905
use for dynamics of low-spin baryon states, 21:15348
use for dynamics of strong interactions, 22:24623 (LPTHE-TH-222)
use for hadron axial vector currents, 22:24635
use for kappa(730) and K*(885) production in π + K interactions, 22:29689
use for odd- and even-parity hadrons in SU(6)/sub W/, 21:44427
use for particle elementarity theory, 21:42279
use for $\pi + \pi$ interactions, review of dual dispersion relations in, 22:9582
use for soluble models in S-matrix theory, 22:32218
use of partial-wave, for $\pi + \pi \rightarrow \pi + \pi$ interactions, 22:24646
use of reciprocal, for $\pi + \omega \rightarrow$ rho and $\pi + \omega \rightarrow$ B interactions, 22:3401
use with strip approximation for π—π interactions, compatibility with Regge residue function, 21:33697
vertex functions and scattering amplitudes in field-theoretic, 24:3589
weak interactions in, Cabibbo angle in, 24:3595
ELEMENTARY PARTICLE MODELS (TRIPLET)
abundance in ambient interstellar gas, (T), 21:44346
additivity assumption in quark, for γ + p total hadronic cross sections at 3.5 to 2.5 GeV, 23:39655
additivity assumption in quark, polarization in Σ(1385) production in multibody final states for test of, 24:47434
additivity frame identification with Jackson frame in quark, experimental consequences of, 25:28017
additivity in quark, polarization in π^+ + p $\rightarrow$ rho^0 + Δ(1236) interactions at high energies for, 23:42674
additivity sum rules for inelastic interactions of hadrons in quark, 25:17474
Adler condition in dual relativistic quark, 25:14685
amplitude additivity hypothesis in quark, 22:13732 (ITF-67-33)
amplitude of quark interactions in total cross sections of hadron interactions at high energies, 22:39367
amplitudes for large-angle p + p and anti p + p interactions in quark, 22:46389
amplitudes for meson—baryon and baryon—baryon interactions in quark, factorizability assumption for, 23:5591
amplitudes for meson-nucleon interactions, multiple-scattering corrections to Johnson—Treiman relations for, 22:24654
amplitudes for N + N total cross sections in quark, inequality of, 22:24688
amplitudes for π and K photoproduction on nucleons, quark, 22:50336
amplitudes for π^- + p charge-exchange interactions in quark, Reggeization of, 22:41816
amplitudes for two-body processes in quark, scalar, 23:42648
amplitudes in quark, for Λ to Σ ratio in anti K + N interactions, 22:17967
amplitudes of K$^-$ + N $\rightarrow$ Y + meson interactions at 2.24 and 3.00 GeV/c in quark, 22:22395
amplitudes of K$^-$(890) and K$^+$(890) production in K + p $\rightarrow$ K(890) + p interactions at high energies in factorizable quark, 25:30879
antibaryon and meson production in inclusive interactions in additive quark, sum rules for, 25:45735
antiquark existence in three-triplet quark, hypothesis for stable electrically neutral, 23:36900 (JINR-P2-4267)
baryon and baryon resonance production cross sections from neutrino—baryon interactions in quark, (T), 24:42929
baryon and meson classification scheme in quark, 23:10805
baryon and meson mass formulas in quark, dynamic groups for, 21:44350
baryon and meson mass spectra in nonlinear quark, relativistic and SU(3)-invariant equations for, 25:14684
baryon and meson matrix elements in quark, weak current—current Hamiltonian for octet behavior of, 25:9761
baryon and meson resonance production in SU(3)—, scattering amplitudes for, 23:5595
baryon and meson resonances in quark, review of, 25:7637 (CONF-690608-, pp 387-409)
baryon classification in three-quark model, configuration mixing in SU(6) x O(3)for, 24:24377
baryon coupling to mesons in quark model of broken SU(6) x O(3), 24:24375
baryon currents in quark, 25:43644
baryon currents in quasi-independent quark, relativistic matrix elements of, 22:20239 (ITF-67-47)
baryon decay distributions in, 22:44445
baryon decay into J/sup P/ = $^1/_2{}^+$-octet baryon and pseudoscalar meson in nonrelativistic quark, F/D ratios for, 24:1604
baryon decay widths in symmetric-quark, negative-parity, 23:5627
baryon elastic scattering in quark, cross section sum rules for, 22:9622
baryon electromagnetic transitions in three-triplet, 22:39328
baryon energy level saturation and short-range repulsion in paraquark, 22:46465
baryon interactions in model for free effective quarks, 22:39400 (ITF-67-54)
baryon interactions with pseudoscalar mesons at high energies in SU(3) symmetric quark, 22:22436
baryon leptonic decays in quark, contribution of meson exchange currents to, 22:52968
baryon magnetic moments and mass differences in quark, 22:46432
baryon magnetic moments and mass splittings in quark—diquark, with broken SU(6), 23:3673
baryon magnetic moments in quark, 22:41779
baryon magnetic moments in S(3) nonrelativistic quark, 23:32660
baryon magnetic moments in, nonstatic relations between, 23:42621
baryon mass relations from binding energies of quarks in nonrelativistic, 23:51938
baryon mass relations in quark, effect of SU(3) breaking on, 23:3751
baryon mass relations in SU(6) in quark, 21:21281
baryon mass spectra in quark, hydrogen-like, 24:20164
baryon mass spectra in quark, summary of, 25:25442
baryon mass spectrum in three-quark, 23:36940
baryon mass splitting in boson—fermion quark, 21:25293
baryon mass splittings in quark—diquark, in SU(6), 22:22383
baryon mass splittings in SU(6) x O(3) quark, 21:44417
baryon masses in quark, 22:46394
baryon number and charge of quarks, from global conditions on U(6) symmetry, 21:21272
baryon representations in quark, restrictions on, 22:24724
baryon resonance decay distributions from double charge-exchange and strangeness exchange processes in quark, 23:49169
baryon resonance decay distributions in quark, systematics of, 22:44444
baryon resonance decay widths in quark, 21:37821
baryon resonance mass and partial decay widths in symmetric quark, negative-parity, 25:14718
baryon resonances in 816 representation of SU(18) symmetry, three-triplet model for, 22:20308
baryon resonances in bound-state quark, 22:15786 (CONF-670414-7)
baryon resonances in l-excitation quark, status of, 23:46695
baryon resonances in SU(6)-quark, analysis of lowest-mass negative-parity, 23:5628
baryon resonances in symmetric quark, radiative decays of, 24:28555
baryon resonances in three-quark, 23:25629
baryon spectra in, parastatistics and d-wave quark—quark forces for, 22:39420
baryon structure in quark, for meson interactions with baryons, 24:45530
baryon supermultiplets of SU(6) x O(3) in quark—diquark, 23:23524
baryon—antibaryon interactions in quark, SU(3) violation in, 24:49464
baryon—antibaryon interactions in SU(6) x O(3)-quark, 21:37789
baryon—baryon and meson—baryon backward amplitudes in quark, (T), 21:44348
baryon—baryon and meson—baryon interactions in quark, relations between transversity amplitudes for, 25:14671
baryon—baryon interactions in bootstrap—quark, 25:43650
baryon—baryon interactions in quark, sum rules for S-wave, 24:8673
baryon—baryon interactions in SU(6) x O(3) in quark, 21:37778
baryons and mesons in relativistically covariant effective quark, 23:49160
baryons in quark composite, 24:5314
Bethe—Salpeter equation for quark—antiquark system with Yukawa kernel in, 22:11653
binding of three quarks in S states for baryons, complex charge for, 21:40245
book: Seminar in Theoretical Physics, 23:18831
book: The Quark Model, 23:34581
boson resonance production in hadron interactions at high energies in quark, 22:22402
bound-state systems in quasi-independent quark, 23:5594
commutation relations for sum rules for amplitudes of π production from photon-hyperon interactions in quark, 25:14619
compatibility of quark, with Pomeranchuk theorem, 24:13032
composite model of integrally charged triplets for strong interactions, 21:37780
composite theory with rearrangement of sakatons for high-energy hadron interactions, 22:52971
compound model of complex-spin quarks, 24:40357
conference on quark, 24:52166
corrections to quark, for deviations from exact exchange degeneracy for total cross sections of hadron interactions, three-quark, 24:10770
coupling of baryon resonances to baryons and mesons using partial symmetry in quark, 24:3681
coupling of quark—antiquark system, Bethe—Salpeter equation for, 22:46403
coupling strength of quarks, universal, 25:3405
CP violation for weak interactions in three-triplet, 22:35053
cross section analysis of π + p charge-exchange, π + p $\rightarrow$ eta + n, and K + p charge-exchange interactions in Regge—quark, 23:1644
cross section relations for K$^-$ + p and K$^-$ + n forward double-exchange interactions, 22:22398
cross sections for double scattering processes in quark, multiple-scattering formalism for, 22:52985
current algebra at infinite momentum in relativistic, SO(4,2) group representations of, 24:8623
current algebra at infinite momentum with currents proportional to respective charges in relativistic SO(4,2) quark, representations of, 23:39782
current algebra for radiative corrections to beta decay in quark, 22:34936
current algebra representation of relativistic quark, 21:29520
current algebra SU(3) representations for mesons in relativistic quark, 23:39717
current commutations between vacuum and one-meson states in perturbation theory in, 21:21206
current commutators for algebra of fields for quark, 24:3556

current commutators for current and field algebra for quark, validity of, 25:7569 (NP-18579)
current matrix elements from relativistic quark, 25:38727
currents for mirror asymmetry in $\Sigma \rightarrow \Lambda + e + \nu$ decay in, single-quark, 25:20535
daughter trajectories and dynamics of quarks, 25:7625
decay $A_1 \rightarrow$ rho + π in quark, 22:29697
decay angular distributions for 0^+, 1^+, 2^+, and $^3/_2{}^+$ resonances in 0^- meson interactions with $^1/_2{}^+$ baryons in additive quark, 25:5375 (TPJU-15/70)
decay angular distributions of $\Delta^{++}(1236)$ in $\gamma + p \rightarrow \pi^- + \Delta^{++}(1236)$ interactions in quark, 24:6722
decay constants and magnetic moments of $S = 3/2^+$ baryons and $S = 1^-$ mesons in nonlinear quark, 23:25597
decay correlations and polarization density matrices in quark, 25:1487
decay eta $\rightarrow 2\gamma$ and $\pi^0 \rightarrow 2\gamma$ in quark, with integer charges, 24:49385
decay $K \rightarrow 2\pi$ in quark, 24:40340
decay $K \rightarrow \pi + l + \nu$ in quark, form factors and Cabibbo angle for, 25:36456 (ORO-3992-39)
decay $K \rightarrow \pi + l + \nu$ in quark, relations among vector-current form factor of, 23:3701
decay widths of K resonances from SL(2,C) relativistic quark, 22:34961
decays with π and K emission in quark, weak and strong, 21:44360
detection of fractionally charged, sensitivity of macroscopic oscillator for, 22:3259
development of quark, for hadronic properties and interactions, 21:18972
diffractive scattering in quark, 25:30844
dual quark, construction of new, 25:33683
duality diagrams in three-triplet, group-theory classification of Pomeranchon and Regge exchanges from, 23:42645
duality for total cross section relations for meson interactions with nucleons in quark, 24:35653 (ITF-70-24)
dynamics of relativistic scalar quark, for mesons, 25:28022 (DESY-71/10)
dyon three-triplet, with SU(3) x SU(3) symmetry for hadron spectra, 24:10804
$\Delta(1236)$ production in $\pi + N \rightarrow \Delta + \pi$ backward interactions at high energies in quark, 25:1539
electromagnetic current SU(3) structure in relations among differential cross sections in quark, for production of neutral vector mesons in $\gamma + N$ interactions, 25:1443 (ITF-70-41)
electromagnetic quantities of hadrons, coincident relations of current algebra and nonrelativistic quark, 22:34914
electron interactions at high energies in quark, perturbation-theoretic calculations of cross sections for inelastic, 24:8587
electroproduction of baryon resonances in quark, 24:24283
elementary particle classification in quark, review of, 22:5617
elementary particle classification in static quark, SU(4) symmetry extension to SU(8) symmetry for, 23:51966
elementary particle symmetries in quark, 22:22420 (PUC-937-304)
existence of quark state in superdense stellar cores, 22:29679
fermion quarks of spin-3/2 in, baryon multiplet structure for, 23:32719
field theory formalism with strongly nonlinear bounded Lagrangians for, local divergenceless, 24:10828
field theory of quark, nonlocal, 24:49460
form factors for $e + p \rightarrow e + N^*$ interactions and nucleon form factors from $e + p \rightarrow e + p$ interactions in extended-particle-quark, electromagnetic inelastic, 24:52024
form factors for $e + p \rightarrow e + N^*$ interactions in symmetric quark, 22:34911
form factors for $K \rightarrow \pi + l + \nu$ decay from current algebra and relativistic quark, 23:32686
form factors for π in quark, charge, 22:52977
formalism for nonrelativistic paraquark, for baryons and resonances, 21:31631
formalism for quark-type, from analytic solution for dynamical calculations based on indefinitely rising Regge trajectories in Veneziano model, 24:15544
formalism for SL(6,C) quark fields, combined Lorentz and SU(3) symmetry in Weinberg, 22:15830
formulation and predictions of quark, for bosons, 23:15107
formulation of nonrelativistic quark, for mesons and baryons, 22:9575
formulation of nonrelativistic separable-potential quark, for hadrons, 25:30846
formulation of quark, for high-energy interactions, 23:3705
formulation of relativistic quark, for mesons, 23:39714
formulation of three-quark, in O(6) symmetry for mesons and baryons, 22:9574
Goldberger—Treiman relation from non-group-theoretical conditions in Sakata, 23:42639
gravitational fields of quarks, energy requirements for, 23:39821 (ITF-69-21)
hadron and $\gamma + N \rightarrow N$ + vector mesons interactions, 22:20184
hadron classification in quark, 23:10806
hadron coupling constants and decay widths in relativistic quark, 22:50374
hadron decays in quark, 23:30720 (AD-680287)
hadron diffraction scattering at high energies in quark, 23:7134
hadron dipole electromagnetic form factors in quark, 25:36436 (ORO-3992-28)
hadron dynamics in quark, 24:49430 (COO-264-558)
hadron dynamics in quark, 24:52061
hadron elastic scattering at large angles in quasi-independent quark, additivity and factorizability for, 23:49153 (ITF-69-24)
hadron electromagnetic and strong decays in, 23:16961
hadron electromagnetic properties in covariant quark, 24:3569
hadron inelastic interactions in quark, with factorization hypothesis, 24:24385
hadron interactions and electromagnetic properties in quark, review of, 23:49082
hadron interactions and properties in quark, collinear group for, 21:40203
hadron interactions at high energies and low momentum squared in quark, Pomeranchuk pole dependence on momentum squared and amplitudes of, 23:49120
hadron interactions at high energies in nonrelativistic quark, spin treatment for, 23:46684
hadron interactions at high energies in quark, coherent state method relation with, 25:25343 (JINR-P2-5684)
hadron interactions in quark, 24:49440
hadron interactions in quark arrangement, 25:30764
hadron interactions in quark, cross-section relations for, 21:27355
hadron interactions in quark, factorization of Veneziano amplitude for, 24:52062
hadron interactions in quark, systematics of relations between differential cross sections for, 22:44409
hadron interactions in relativistic trion, in SO(6) symmetry, 22:24709
hadron interactions in sakaton, 22:15752
hadron interactions with three-particle final states in SU(6) x O(3) quark, 22:50381
hadron mass dependence in quark, 24:42941
hadron mass differences and magnetic moments in triplet-sextet, (T), 21:44326
hadron mass in Dirac quark, 24:37751
hadron mass in Dirac quark, 24:49637
hadron mass spectra and bound states in quark, 25:59426
hadron mass spectra in quark, review of, 25:19979
hadron masses in quark, 22:20211 (INP-555/PH, pp 1-4)
hadron masses in quark, 23:18883
hadron masses in quark, SU(6) and U(6) X U(6) symmetry for, 22:13787
hadron multiple production in strong interactions in, urbaryon rearrangement for, 25:40963
hadron multiple scattering in quark model, review of, 24:52064
hadron production interactions at high energies in quark, additivity assumption for, 21:42374
hadron properties in quark, 23:51912 (COO-264-520)
hadron properties in quark, 25:12218
hadron properties in two-particle quark, 23:15083
hadron properties in variants of quark, 24:52063
hadron spectra in quark, 25:7624 (UCR-34-P-107-113)
hadron spectra in quark, quark mass and form of quark—quark scalar interaction effects on, 25:22783
hadron static properties and transition matrix elements in quark, 23:10806
hadron strong interactions in quark, review of, 25:12175 (COO-1764-81)
hadron strong interactions in SU(6) quark, differential cross section relation in second diffraction maximum region in, 24:52067
hadron structure and dynamics in quark, 25:9759
hadron structure in quark, survey of, 25:33687 (INP-713(Vol.2), pp 1-5)
hadron structure in three-entity, long-lived, 24:3623
hadron SU(6) symmetry in quark, review of, 24:5325
hadron superfluid quark, based on Sp(6) symmetry, 23:51978 (JINR-P2-4581)
hadron symmetries in quark, 22:13822 (PUC-937-285)
hadron three-body vertices in quark, 24:35643
hadron total cross sections in quark, numerical analysis of, 22:5559
hadron U(6) x U(6) symmetry in quark, 22:13824
hadron weak decay in Hiroshima urbaryon, neutral weak bosons for, 25:40951
hadron—hadron elastic interactions in Glauber quark, 24:15550
hadron—hadron interactions at high energies in quark, with factorizability assumption, 22:26630
hadrons as extended-particles in quark model with arbitrary number of quark—antiquark pairs, 25:22780
hadrons in quark, for ultraviolet divergences in electromagnetic radiative corrections to lowest-order weak interactions at arbitrary momentum transfer, (T), 25:5343
helicity amplitudes in factorization quark, for anti p + p $\rightarrow$ anti p + p interactions, 24:37755
hyperon decay in nonrelativistic quark, nonleptonic, 22:9567
hyperon decays in nonrelativistic quark, p-wave nonleptonic, 23:25571 (CERN-69-7, pp 197-204)
hyperon decays in quark, three-triplet, and quartet, s-wave nonleptonic, 22:24613
hyperon decays in urbaryon, effective Hamiltonian for nonleptonic, 23:8793
hyperon leptonic decays in quark, relations among vector-current form factor of, 23:3701
hyperon nonleptonic and semileptonic weak decay in refined quark, 24:24332
hyperon nonleptonic decays in quark, 25:17461
hyperon nonleptonic decays in quark, 22:34939
hyperon nonleptonic decays in quark, 24:15536
interactions anti p + p at rest in extended quark-rearrangement, annihilation, 24:3634
interactions at high energies in quark, mechanisms for strong, 25:5354
interactions at high energies in quark, review of backward, 25:30836
interactions $e + N \rightarrow e + N + X$ and $\mu + N \rightarrow \mu + N + X$ in quark, 24:10726 (JINR-E2-4791)
interactions e + p and e + n in quark, deep inelastic, 25:3310 (DESY-70/50)
interactions $\gamma + e$ in quark—parton, inequalities for structure functions of inelastic Compton, 25:43586 (SU-1206-250)
interactions $\gamma + n \rightarrow \gamma + n$ and $\gamma + p \rightarrow \gamma + p$ in extended quark, differential and total cross sections for, 25:59378
interactions $\gamma + N$ in quark, total-cross-section relations for, 25:14595 (ITF-70-63-P)
interactions $\gamma + p \rightarrow K^+ + \Lambda(\Sigma)$ in additive quark, multiple scattering corrections for, 24:10722
interactions $\gamma + p$ at high energies in quark, constant of, 25:14595 (ITF-70-63-P)
interactions in quark, high-energy, 22:37202 (UCRL-18251)
interactions in quark, two-body small-angle, 24:13030 (INP-682, pp 205-17)
interactions in semirelativistic quark, V—A, 25:45734
interactions K + p and π + p in quark, inelastic, 23:42671 (ITF-69-28)
interactions N + N at high energies in quark, 22:39367
interactions N + N in quark, Schwinger terms for, 22:24679
interactions ν + N at high energies in, in freon and propane in duality—quark, deep inelastic, 25:30809
interactions of Dirac particles in nonrelativistic quark, bound-state, 22:32123
interactions of Dirac particles in semirelativistic quark, for mesons, 22:32124
interactions of leptons with hadrons in quark parton, deep inelastic, 25:33649 (LPTHE-TH-71/12)
interactions of mesons with nucleons in quark, 25:12218
interactions of quark pairs in theory for pseudoscalar-octet mesons, semi-relativistic equation for, 22:32122
interactions of, super-strong, (T), 21:23534(R) (ANL-7246)
interactions p + p $\rightarrow$ p + p at high energies in quark, Glauber series for, 23:23498
interactions p + p, anti p + p, π + p, and $\pi + \pi$ at high energies, multiple-quark-scattering analysis of consistency relations among, 23:36959
interactions phi + N in additive quark, phase of forward amplitude for elastic, 25:7655 (DESY-70/53)
interactions $\pi + \pi \rightarrow \pi + \pi$ in dual resonance model with quark spin, 24:52068 (COO-264-557)
interactions $\pi^- + p \rightarrow \pi^0 + n$ and $K^+ + n \rightarrow K^0 + p$ and 0^- meson elastic interactions $^1/_2{}^+$ baryons in Regge quark, 25:25450
interactions $\Sigma^- + p \rightarrow \Sigma^0(\Lambda) + n$ at low energies in quark, baryon exchange in, 23:51955
interactions $\Sigma^- + p \rightarrow \Sigma^0(\Lambda) + n$ at low energies in quark, relation between cross sections of, 23:51955
leptons in quark, including leptonic quarks, 25:47800 (COO-2009-27)
$\Lambda(1405)$ three-quark bound state in, criterion for, 24:1600
magnetic monopoles in, 25:43589
many-body interactions in quark, 23:10807
mass difference ($K_2{}^0$ - $K_1{}^0$) in quark, based on K^0—anti K^0 transition, 24:15564
mass differences for broken symmetry in quark and urbaryon, finite weak and electromagnetic, 25:41048
mass formulas with noneven quark masses, 23:32696 (JINR-P2-4418)
mass splitting (π—rho) in, 22:11655
mass splittings of mesons and baryons in, comparison of quark—quark force with quark—antiquark force for, 21:37782
mass term in Lagrangian model for urbaryon and quark fields, 22:17939
meson (A_1) double-peaked structure in quark, 25:7624 (UCR-34-P-107-113)
meson (K) electromagnetic properties in quark, 22:52961
meson (μ) direct production in two-triplet, SO(6) symmetry for, 24:20190
meson (π) dynamics in urbaryon, 24:30519
meson (π) multiple production in hadron interactions in quark additive, sum rules for, 23:51928
meson (π) production cross sections in quark, 23:5620
meson (π) production in $\gamma + N \rightarrow \pi + N$ interactions in resonance region in quark model of baryons, review of single, 24:6700 (CALT-68-219)
meson (π) root-mean-square radius in nonrelativistic quark, 25:9788
meson bootstrap calculations in quark, 22:34951 (AD-665663)
meson classification and form factor ratios in nonrelativistic quark, 25:12203
meson classification in quark, current status of low-lying, 22:41803 (CALT-68-162)
meson classification in quark, review of $\pi^- + p$ interactions at high energies for, (E/T), 24:15477 (INP-681, pp 150-70)
meson classification in U(6) x U(6) x O(3) in quark, 21:44363
meson couplings and strong decays in quark, axial-vector and tensor, 22:11657
meson couplings in broken SU(6) x O(3) quark, 24:24351
meson couplings in quark, PCAC consistency check on positive- and negative-parity, 24:49463
meson current algebra in quasi-independent quark, 22:22384 (ITF-67-51)
meson decay angular distribution relations in quark, positive-parity, 25:22810
meson decay in integrally charged quark, 22:52963
meson decay rates in quark, Weinberg spectral function sum rules for, 22:29691
meson decays in composite urbaryon, 24:42925
meson decays in relativistic quark, 22:50373
meson dynamics in urbaryon, pseudoscalar and vector, 24:30519
meson elastic electromagnetic form factor from quark selection principle in, pseudoscalar, 25:36439
meson electromagnetic mass spectra in broken SU(3) X SU(3) in quark, vector and axial vector, 23:18945

meson interactions with baryons in quark, dynamical origin of dual and diffractive amplitudes of, 25:40995
meson interactions with baryons in quark, line-reversal symmetry breaking in, 25:17505
meson interactions with mesons in quark, dynamical origin of dual and diffractive amplitudes of, 25:40995
meson interactions with mesons in quark, inclusion of fermions in meromorphic amplitudes for ghost-free leading trajectory amplitudes of, (T), 24:40397
meson interactions with nucleons at high energies in quark model, total cross sections and backward Δ production in, (T), 25:7624 (UCR-34-P-107-113)
meson kinematics in quark, use of two-particle Dirac equation and Klein—Gordon equation for, 21:44364
meson leptonic decay in quark, perturbation-theoretic calculation of soft-pion emission in, 22:22378
meson mass dependence on spin in quark—antiquark, 24:33011
meson mass spectra in quark, 23:13089
meson masses in quark, 22:46394
meson nonet production in π + N interactions in nonrelativistic quark, relations among cross sections for, 25:12203
meson production in anti p + p annihilation interactions at rest in quark, pseudoscalar, 23:5606
meson production in photon reactions with deuterium, helium-3, and tritium in quark, neutral vector, 24:20095 (ITF-69-87)
meson quadratic mass formulas in nonrelativistic quark, field-theoretic method for, 21:37777
meson radiative decays in quark, 22:32091
meson radiative decays in quark loop, coupling constant relations, branching ratios, and widths of, 25:14686
meson Regge families in daughter hypothesis in quark, 24:1603
meson Regge trajectories and residues in relativistic quark, 23:5611
meson resonance and 1/2$^+$-octet and 3/2$^+$-decuplet baryon decay angular distributions in 1/2$^+$-octet baryon interactions with linearly polarized or unpolarized photons in quark, 24:10720
meson resonance classification in quark, 23:21098
meson resonance production in anti p + p interactions at low energies in nonrelativistic quark, (E/T), 24:5240
meson resonance states in quark, review of, 23:49150
meson resonances in l-excitation quark, status of, 23:46695
meson resonances in nonrelativistic quark, nonstrange, 25:9788
meson states in quark, for meson bootstrap, 23:23460
meson strong decays in quark, recoil and rescattering effects in, 23:3715
meson structure in quark, current algebra relations for, 22:46393
meson structure in, (T), 24:42949
meson trajectories in multichannel quark, 25:33696
meson trajectories in nonrelativistic quark, consequences of duality, 24:20151
meson trajectories in relativistic quark, based on Veneziano representation, 24:3627
meson trajectories with increasing multiplicities and trilocal fields in quark, 25:22795
meson—baryon coupling in quark, with broken SU(6) x O(3), for Y* production in K$^-$ + p interactions, 24:3725
meson—baryon couplings in quark, rescattering effects in, 23:15121
meson—baryon interactions in quark, 22:22382
meson—baryon interactions in quark, cross sections for pseudoscalar meson production in, 23:36928 (INR-P-1047)
meson—baryon interactions in quark, effect of double scattering of mesons in, 21:44376
meson—baryon interactions in quark, production of neutral vector and pseudoscalar mesons in, 22:35009
meson—baryon processes in quark—quark—antiquark, vector meson production in pseudoscalar, 22:46439
meson—meson and meson—baryon interactions in SU(6)-quark, superconvergence relations for, 22:20216
meson—nucleon and nucleon—nucleon cross sections in quark, 24:45534
meson—nucleon interactions in Reggeized quark, multiple-scattering effects in, 23:42685
meson-baryon interactions in SU(3)-symmetric quark, double-charge-exchange, 25:22828
mesons as bound states of quark—antiquark pairs, 23:16962
mesons in quark, bound states of relativistic two-particle Hamiltonian for, 22:50371
mesons in quark, permutation symmetry of three triplets and quark binding for unwanted, 24:10740
multiple scattering in quark, 23:1652
multiple scattering mechanism in quark, for analysis of high-energy elastic interactions, 24:8644
multiple-quark-scattering analysis of elastic p + p interactions, 23:18930
multiple-scattering corrections in quark, for hadron differential cross sections, 22:50366
N* decay in nonrelativistic quark, widths of, 25:9788
N* production in e + p → e + N* interactions in nonrelativistic quark, 25:9788
N* production in γ + N → π + N interactions in nonrelativistic quark, 25:9788
N* resonance classification from γ + p → p + eta interactions in quark, low-mass I = 1/2, (T), 24:40395
N* resonance classification in l-excitation quark, 23:10766
neutron beta decay in quasi-independent quark, coupling constant for, 23:21078
nuclear structure in quark, 22:20215
nucleon electromagnetic form factors in extended-particle model based on quark model with arbitrary number of quark—antiquark pairs, 25:22780
nucleon electromagnetic form factors in quasi-independent quark, (T), 23:13066
nucleon electromagnetic form-factor relation in quasi-independent quark, 22:22346 (ITF-67-52)
nucleon form factor in Fermi quark, 23:32645 (DESY-69/17)
nucleon form factors from antisymmetrical wave function in quark, 22:3443
nucleon form factors from Fermi quark, 23:39650
nucleon form factors in quark, 23:7144
nucleon isobars in quark, excitation of negative-parity, 22:24628
nucleon resonance classification in symmetric three-quark, 24:42967
nucleon root-mean-square radius in nonrelativistic quark, 25:9788
nucleon structure functions in quark—parton, 25:38705
nucleon superconductivity in quark, 22:34947 (JINR-P2-3819)
orbital extensions of quark, generalization of W spin to, 24:37745
Pade approximant method for relativistic mesons in field theoretical quark, 24:40373
parity, spin, and width of Σ(1700), A(1745), and Ξ(1930) in quark, 25:7624 (UCR-34-P-107-113)
particle exotic states in three-triplet quark, prediction of baryon and meson, 24:30494
particle structure in bach—tamaid relation with quark, SU(3) symmetry from, 24:51998
particle symmetries in quark, 21:33722
PCAC for Δ^{++} production cross sections in anti π + p interactions in quark, 24:3609
photoabsorption sum rules for γ + N interactions in nonrelativistic quark, (T), 24:42970
photon reactions with nuclei in quark, total-cross-section relations for, 25:14595 (ITF-70-63-P)
photoproduction of charged π in quark, (T), 25:1448
photoproduction of single π in quark, resonance contributions to cross sections for, (T), 24:3580
photoproduction of single π in symmetric quark, baryon resonance contribution to, 23:27779
photoproduction processes in QQ anti Q, 24:37693
photoproduction processes in quark, sum rules for, (T), 24:49375
photoproduction processes in quark, systematics of, 22:44382
photoproduction sum-rule violation in quark, 22:22363
polarization of Λ and Σ in two-body Y* and anti Y* production in baryon interactions with pseudoscalar mesons and baryon interactions with antibaryons in additive quark, 25:3383 (TPJU-2/70)
Pomeranchuk term in dual quark, 24:40504
Pomeranchuk term in dual quark, for strong interactions, 24:37738 (COO-264-547)
Pomeranchuk theorem violation relation with isospin dependence of total cross sections of meson interactions with baryons at high energies in quark, 25:7624 (UCR-34-P-107-113)
Pomeranchuk theorem violation relation with isospin dependence of total cross sections at high energies in quark, 25:12218
predictions for existence of rho" (1550) in quark, 24:28545
predictions of additive quark, for decay distributions of resonances produced in pseudoscalar meson interactions with baryons, 25:47884
predictions of independent quark model and higher symmetries for mesons and baryons, 22:9576
predictions of quark, for 3/2$^+$ baryon resonance decays, 24:49544
predictions of quark, for ambiguities in resonance amplitudes for pseudoscalar meson and 3/2$^+$ isobar and vector meson and 3/2$^+$ isobar production in pseudoscalar meson interactions with 1/2$^+$ baryons, 24:52109
predictions of quark, for amplitudes of pseudoscalar meson interactions with baryons, generalized statistical tensors for, 25:47885
predictions of quark, for baryon resonance decay distributions in photon interactions with spin-1/2 baryons, 24:32985
predictions of quark, for decay distributions of resonances produced with initial polarized baryons, 24:13092
predictions of quark, for elastic scattering amplitudes, 21:44449
predictions of quark, for hadron elastic scattering at high energies and large angles, 23:21096
predictions of quark, for hadron electromagnetic decays, 21:40166 (MIT-2098-359)
predictions of quark, for joint decay distributions in π^+ + p → N*$^{++}$ + rho^0 and π^+ + p → N*$^{++}$ + ω interactions at 8 GeV/c, (T), 23:13099
predictions of quark, for joint decay distributions of strange baryons produced in baryon interactions with baryons, 25:47818
predictions of quark, for K^0 production from γ + n and γ + p interactions at 1.1 to 1.5 GeV, 21:35251
predictions of quark, for production cross sections of vector and pseudoscalar mesons in π + p, K + p, and K$^+$ + n interactions, 24:10773
predictions of quark, for pseudoscalar and vector meson production in K + N and π + N interactions above 3 GeV/c with charge exchange and no strangeness exchange, (E), 23:34532 (INR-1040)
predictions of quark, for π + N, K + N, N + N, and anti N + N interactions, unified description of exchange degeneracy, 24:10769
predictions of quark, for vector meson production at high energies, 23:21106
predictions of quark, with additive baryon exchange, for pseudoscalar meson and baryon production in backward anti K + N, K + N, and π + N interactions, 25:47883
predictions of quark-current algebra for meson (μ) polarization in meson (μ) pair and hadron production in hadron interactions with protons at high energies, 23:49173(T) (SLAC-Trans-98)
production amplitudes for vector and pseudoscalar mesons and 3/2$^+$ baryon resonances in pseudoscalar meson interactions with 1/2$^+$ baryons in quark, ambiguities in, 25:3382 (TPJU-1/70)
production in galaxy, search for, (T), 21:44346
production of quark pairs in proton reactions with nuclei, cross sections for, (T), 25:47901
production of quarks in superstrong final-state interactions from p + p interactions, 25:36530
properties of quark, 22:52969
proton electromagnetic form factor in, dipole dependence of, 25:40995
proton form factors in quark, harmonic oscillator states for, 23:15189
proton magnetic moment and mean radius in quasi-independent quark, 23:21078
proton structure in quark, 24:8667
proton-to-neutron magnetic moment ratio in nonrelativistic quark, 23:30733
quantum dynamics of quark system with complex spins, 24:13036
quantum field theory of quark, meson mass spectra from nonlocal, 23:39802
quark algebra relations with equal-time current—field and current—current commutators, 24:3554
quark amplitudes for baryon-antibaryon annihilation cross sections, modifications of, 21:17108
quark binding in many-body potential model, 22:5560
quark binding mechanism for hadrons in, charge fluctuation as, 25:1494
quark diagrams for poles and cuts, 25:47846 (COO-2009-28)
quark diagrams in, size of dual loop term from, 25:59445
quark fields in, current algebra for, 21:44431
quark focusing at hadronic vertices, 25:9760
quark interaction invariance under cyclic permutations for three-triplet, 24:6711
quark interactions with antiquarks in non-Fredholm Bethe—Salpeter meson, zero-mass states in, 24:21975 (COO-1051-38)
quark interactions with quarks and antiquarks in harmonic oscillator L-excitation, universality of, 25:40962
quark model in strong coupling theory, 22:15757
quark model in SU(6) symmetry for (56,0$^+$), (70,1$^-$) and (20,1$^+$) supermultiplets, 22:5630
quark motion effects in meson decay, relativistic, 23:18879 (ITF-68-48)
quark rearrangement model for calculation of spin-0$^+$, -1$^+$, and -2$^+$ meson decay rates, 23:32714
quark spin in, 25:5358
quark spin in, complex, 25:1486 (ITEF-763)
quark substructure for meson and baryon resonances, 22:3370
quark, for boson resonances, 24:18180
quark—antiquark binding in, Bethe—Salpeter equation in O, symmetry for, 21:33688
quark—antiquark model for mesons, 23:25598
quark—quark forces for baryon resonances, 22:26655
quark-antiquark bound state for mesons, relativistic, 22:50460
quasi-potential equation for relativistic harmonic oscillator for quark, 25:5405 (JINR-E2-5339)
Regge amplitudes from three-particle vertices in SU(6)/sub W/-quark, 24:40446
Regge cuts in quark, for hadron—proton multiple interactions, 23:51959
Regge pole factorization in quark, 21:42461
Regge trajectory of rho in quark, 23:25613
Regge-quark model for hadron-hadron interactions, 21:37783
relativistic treatment of quark, 22:3374
representations of current algebra in two-quark, general form of, 22:46391
research on quark, 22:15696 (NP-17252)
research on quark, review of, 23:18823 (CONF-671217-, pp 370-588)
resonance decay correlations from meson—baryon interactions in quark, 25:14712
resonances in quark, review of, 25:7621 (CONF-690608-, pp 53-60)
resonances in quark, review of, 25:36500
review of quark, 22:20212 (INP-555/PH, pp 115-20)
review of quark, 22:17884
review on quark, 25:59437
sakaton rearrangement for description of cross sections for hadron—hadron interactions, 23:42650
sakaton rearrangement for multiple production processes, 25:12186
sakaton rearrangement for strong interactions, duality in, 23:46688
Sakaton structure for weak interactions, 22:41780
saturation in, Pauli and Coulomb, 23:46736
scattering amplitudes from selection rule in, real part of high-energy forward, 24:37954
scattering amplitudes in relativistic quark, transversity, 25:40972
Schwinger terms in U(12) algebraic quark, 24:49454
search for, research program on, (E), 21:23534(R) (ANL-7246)
selection principle formulation of observed quark combinations in separated clusters for hadrons in, 24:13044
selection rules for diffraction dissociation in hadron interactions with hadrons in quark, 23:49071 (CALT-68-220)
selection rules for diffraction dissociation in π + N → π* + N, K + N → K* + N, and N + N → N* + N interactions in quark, 24:3661
selection rules in quark, for hadron couplings and duality for baryon—antibaryon systems, 24:3622
solutions in two-dimensional relativistic quark, SU(3) x SU(3) current algebra from, 21:37889
spin and statistics of quark from, 23:36903
statistical tensors for scattering amplitudes in quark, measurable, 25:14670

strong interactions in quark, 24:10742
strong interactions in quark, dynamical origin of dual and diffractive n-body amplitudes of, 25:40995
structure functions for deep inelastic e + p interactions and N* level structure and total decay width in quark, with relativistic extended internal structure, 25:36444
structure of A_2 in modified quark, 24:15568
structure of hadrons, many-sakaton cluster-type, 22:13739
SU(3) x SU(3) algebra in quark, Schwinger terms in, 25:53152
SU(6) x O(3)-quark, for strong decays of higher baryons, 22:34992
SU(6)/sub W/ symmetry for two point functions in quark, test of asymptotic, 23:32649 (UR-875-279)
SU(6)/sub X/ symmetry transformations in quark, 22:20302 (INP-555/PH, pp 43-71)
sum rules and cross-section relations for meson interactions with baryons in QQantiQ model, 23:36945
sum rules for amplitudes and cross sections of meson interactions with baryons in quark, 25:36518
sum rules for amplitudes of meson interactions with baryons in quark, 24:24364
sum rules for hadron—hadron interactions at high energies from quark, nonlinear, 22:34959
sum rules for particle interactions in quark, saturation of covariant, 24:10704
sum rules for π + rho and rho + N interactions in quark, 24:47438
sum rules in nonrelativistic quark, for e + p interactions at high energies, 24:18130
sum rules in quark, covariance in equal-time commutators for, 21:7496
superconductivity in quark, for Regge trajectories of N*, 22:39401 (JINR-P2-3802)
symmetries at high energies for, review on, 22:22432 (PUC-937-294)
symmetry breaking in relativistic quark, for mesons, 23:15101
symmetry breaking in SU(3) chiral dynamics in quark, 22:46489
symmetry breaking parameter from spectral function sum rules in, SU(3), 24:49443
symmetry breaking parameter in quark, spectral function sum rules for, 24:18257
symmetry groups in quark, nonlinear realizations of, 24:47494
symmetry of V—A interaction for ΔI = 1/2 rule in fermion, 25:38717
tensor nonet in quark, crossing as group and elimination of exotic channels for, 25:17479
test of additivity from joint decay distributions from double resonance in high-energy interactions in quark, 22:13735
test of factorization quark, for large momentum transfer scattering, 22:41800
test of quark-model predictions for infinite-energy π + N and N + N cross sections using superconvergence theory, 22:34948
testing of quark, using K⁻ + p → anti K* + Δ interactions at 2.6 GeV/c, (E/T), 23:10757
tests of quark, from meson decays, 23:32649 (UR-875-279)
theory and predictions of quark, 22:11646
theory for baryon form factors, 21:906
theory for baryon strong decays, 22:1437
theory for baryon structure in SU(3), 21:2470
theory for baryon total cross sections, 21:9779
theory for electromagnetic mass difference and structure of baryons and bosons, 21:13691
theory for generalized quark, with tower of quarks with all possible spins and parities, 23:39713
theory for hadron structure, C noninvariance in, 21:13703
theory for hadron structure, current algebra tests of, 21:13700
theory for hadrons, saturation criterion for, 21:916
theory for high-energy hadron interactions, experimental evaluation of Regge-pole model and quark, 21:29517
theory for integrally charged, for radiative corrections to leptonic hadron decays, 21:37775 (ISS-67/13)
theory for mass levels and interactions of meson nonets, 21:13708
theory for mass variation of composite particle in relation to mass of constituent particles, 21:17059
theory for mesons as antiquark-quark bound states, 21:21285
theory for mesons, representation of current algebra in, 21:4032 (CALT-68-103)
theory for n- and p-quark, for hadron electromagnetic isomultiplet splittings, 22:9545
theory for nonrelativistic quark, 21:18970
theory for parity-violating nonleptonic decays, 21:18960
theory for quark, 21:15325
theory for quark, 21:21209
theory for quark, 22:3369
theory for quark amplitude nonadditivity in π⁺ + π⁺ interactions at high energies, 21:31587
theory for quark state of matter, 22:17938
theory for quark, compatibility with Regge pole model, 21:40155
theory for quark, for baryon and meson resonances, 21:46539
theory for quark, for hadron classification in higher symmetries, 22:9664
theory for quark, for Λ/Σ ratio in isospin-1 S-wave anti K + N interaction, 22:13753 (LPTHE-TH-226)
theory for quark, for relativistic SU(6)/sub W/ extension to noncollinear processes, 21:29571 (JINR-E2-3279)
theory for quark, for total cross sections at high energies, 21:21211
theory for quark, quark meson field in, 22:9538
theory for quark, representation theory of local current algebras in, 22:34870
theory for quark, review of, 24:52065
theory for quark, review of hadron states in, 21:31629
theory for quark, symmetry properties in, 22:9663
theory for quark—antiquark channel of SU(3) symmetry fundamental triplet, 22:20291
theory for quartet-like and quark-like, for hadron subnuclear structure and weak interactions, 21:17090
theory for quasiquarks from cross sections of fibre bundle C(N), 22:13809
theory for relativistic quark, lectures on, 25:47825
theory for strong interactions involving P-wave pseudoscalar mesons, 21:21219
theory for three-quark system in, lectures in, 25:47865
theory for, review of validity of, 24:49445
theory for, symmetric three-quark interactions in, 21:19051
theory in terms of field vector interaction for quark, general formulation of relativistic, 25:19972 (IFPTH-10/70)
theory of antiquark-quark, for mesons, relativistic kinematics in, 21:2458
theory of composite, for K and π, 21:27366
theory of independent quark, 22:17928
theory of independent quark, for inelastic meson—nucleon interactions, 21:2466
theory of integer charge quark, in electromagnetic processes, 21:15379
theory of integrally charged composite, for strong interactions, 21:40197 (NP-16941)
theory of nonrelativistic quark, for classification and decay of hadron states, 21:29606
theory of nonrelativistic quark, review of, 22:26629
theory of quark, 21:42285
theory of quark model for current algebras, renormalizable, 21:13737
theory of quark molecule, for hadrons, 24:10691(R) (COO-264-532)
theory of quark, correlation with deformable sphere model, 22:32118
theory of quark, for baryon and baryon resonance structure, 21:5398
theory of quark, for baryon and resonance structure and interactions, 22:32125
theory of quark, for baryon current commutation relations, 21:5401
theory of quark, for baryon electromagnetic form factors, 21:4019
theory of quark, for baryon electromagnetic mass differences, 21:4020
theory of quark, for baryon electromagnetic mass splitting, 21:7483
theory of quark, for baryon interactions at high energies, 21:2506
theory of quark, for baryon mass levels, 21:13711
theory of quark, for baryon mass splitting in ground state, 21:27358
theory of quark, for baryon—antibaryon backward scattering, 21:4041 (JINR-E1-2941)
theory of quark, for baryon—baryon cross sections, 21:9797
theory of quark, for baryon—meson interactions, 21:7500
theory of quark, for baryon—pseudoscalar meson coupling, 21:9787
theory of quark, for boson resonances, 21:31628
theory of quark, for commutation of axial charge with axial divergence, 21:27320
theory of quark, for coupling constants and decay widths of nonstrange baryons, 22:29711
theory of quark, for double resonance production at high energies, 21:21234
theory of quark, for elementary-particle structure, 21:18934
theory of quark, for hadron masses and coupling, 21:18979
theory of quark, for hadron properties, 21:37883 (JINR-P2-3149)
theory of quark, for hadron scattering amplitudes, 21:23326 (AD-643088)
theory of quark, for hadrons, 22:11700
theory of quark, for high-energy scattering and weak interactions, 21:29507
theory of quark, for K* → π⁺ + e⁺ + e⁻ decay rate, 21:9758
theory of quark, for leptons, 21:27343 (JPL-TR-32-1082)
theory of quark, for mass formulas in SU(3), 21:42422
theory of quark, for meson and baryon spectroscopy, 23:1625 (SLAC-PUB-508)
theory of quark, for meson mass splitting, 21:27364
theory of quark, for multiple production at high energies, 22:39357 (CERN-68-7(Vol.1), pp 380-412)
theory of quark, for neutral vector meson production in hadron interactions, 23:18877 (ITF-68-36)
theory of quark, for nuclear fission, 22:48613
theory of quark, for parity-violating nonleptonic decays, 21:33671
theory of quark, for particle symmetry, 21:27394
theory of quark, for phenomenological theories of two-body interactions of hadrons at high energies, 22:39356 (CERN-68-7(Vol.1), pp 218-51)
theory of quark, for π⁰ → 2γ decays, 21:2413
theory of quark, for π⁺, 22:26636 (JINR-P2-3590, pp 38-43)
theory of quark, for quasar energy source, 24:10739
theory of quark, for SU(3) particle symmetry, 22:9656
theory of quark, for substructure of hadrons, 22:3397
theory of quark, for total scattering cross sections at high energies, 21:31575
theory of quark, for two-body hadron interactions at high energies, 21:44557
theory of quark, for two-body scattering, 23:8795 (INP-622(Vol.1), pp 39-74)
theory of quark, for unified hadron mass formula, 21:29509
theory of quark, for weak radiative hyperon decays, 21:33677
theory of quark, in formulation of relativistic quark field theory, 22:29743 (DESY-68/11)
theory of quark, in Regge pole model for hadron elastic interactions, 22:39298 (CERN-68-7(Vol.2), pp 1-23)
theory of quark, review of, 25:19980
theory of quark, review of, 22:3366
theory of quark, review of, 22:1469
theory of quark, review of relation with conventional symmetry in, 22:37093 (PUC-937-324)
theory of quark, with additivity assumption, for backward π⁺ + p → Σ⁺ + K⁺ interactions, 22:5575
theory of quark, with factorization assumption for high-energy elastic scattering at 90°, 22:13738
theory of quark, with factorization assumption for high-energy elastic scattering at arbitrary angle, 22:13737
theory of quark, with nonlocal separable potential for baryon states, 21:19013
theory of quark-droplet, for K⁻ + p interactions at high energies, 21:924
theory of quasi-independent nonrelativistic quark, for baryon magnetic moments, 21:17100 (JINR-P2-3115)
theory of relativistic quark, for baryons, 21:2449 (INR-733/VII/PH)
theory of relativistic quark, for composite particles, 23:15003
theory of relativistic quark, for meson mass spectra, 21:33690 (JINR-P2-3353)
theory of relativistically invariant quark, for axial constant renormalization, 22:15788 (ITF-67-18)
theory of renormalizable quark, spectral representation for matrix elements of equal-time current commutators in, 22:20213 (JINR-P2-3661)
theory of Sakata, for (p, n, Λ) and (π, K, eta) triplets, 22:17994
theory of symmetric quark, for baryon resonances, 22:7540 (CONF-670414-6)
theory of three-quark system for baryon resonances in, lectures on, 25:47865
theory with tetrahedron of quarks and one antiquark for baryons, 21:29508
trajectory bootstrap in quark, analytic solution of linear, 24:3616
triplet representation of D-functions in SU(3) in quark, 24:3708 (JINR-P2-4684)
unification of quarks and leptons in global dynamical SO(6,1) symmetry in, 24:26469
unification of quarks and leptons, in global dynamical SO(6,1) symmetry, 24:26469
use for determining π⁺ - π⁰ mass difference, 21:15382
use for explaining asymptotic behavior of photon—hadron forward scattering amplitude, 21:15292
use for hadron interactions, review of, 21:31578
use for high-energy meson—baryon interactions, 21:42369
use in formulation of nuclear models, (T), 22:20737
use of additive quark, for π⁻ + p, π⁺ + p, and p + p interaction cross section relations, 22:29699 (INR-P-881/VI/PH)
use of additivity property of quark, for algebra of vector charges, 23:3701
use of composite, for N* → N + π decay probabilities and mass levels, 21:27372
use of composite, for structure and mechanism of e + p → p + N* interactions, (T), 21:46519
use of dynamic quark, for hadron interactions, 21:44349
use of extended Sakata, for baryon electromagnetic mass differences, 22:5529
use of free quark, for current algebra lightlike charge properties and Weinberg sum rule derivation, 23:39637
use of generalized quark, for cross sections and spin density matrix elements for strangeness-exchange π + p, K⁻ + p, and anti p + p interactions, 22:29693
use of generalized spin-1/2 quark, for group embedding of space-time and internal symmetry groups, 21:33749
use of multiple quark, for π and N form factors from diffraction cross sections of p + p, anti p + p, π + p, and π + π elastic interactions, 22:32116
use of nonrelativistic quark, for radiative transitions of meson and baryon resonances, 21:42340
use of nonrelativistic quark, for strong interactions, 21:29521
use of nonrelativistic quark, for sum rule for e + p interactions at high energies, 21:31564
use of nonrelativistic quark, with Coulomb potential for calculating form factors for e + p → e + N* interactions, 22:50338
use of quark commutation rules from, for mixing effects in baryon spectra, 21:29535
use of quark dissociation, for γ + p → vector meson + N(³/₂)* and γ + p → π + N interactions, 21:27329
use of quark rearrangement, for anti p + n annihilation at rest, 21:27360
use of quark rearrangement, for anti p + p annihilation, 21:31584
use of quark, for additive sum rules for cross sections of π + p and p + p interactions, 22:22308
use of quark, for antibaryon—baryon pair production from anti p + p interactions, 21:33693
use of quark, for arbitrary particle two-body interactions, 22:41864
use of quark, for baryon and meson classification, 21:35333
use of quark, for baryon and meson electric and magnetic polarizabilities, 22:3318
use of quark, for baryon energy level ordering for many-particle systems, 21:46498
use of quark, for baryon exchange magnetic moments, 22:5531
use of quark, for baryon wave functions, 21:42358
use of quark, for baryon—baryon and baryon—antibaryon elastic interactions, 21:21251
use of quark, for charge and strangeness exchange in particle interactions, 21:33689
use of quark, for classifying baryon and meson states, 21:15321
use of quark, for coupling and partial width for K*(1400) → K + π, f_0 → A_1 + π, and f_0 → 2π decays, 21:44354

use of quark, for cross section sum rules for antineutrino and antineutrino scattering by nuclei system, 22:9531
use of quark, for cross sections for π + N → N* interactions, 22:5574
use of quark, for current divergence theory, 22:17882
use of quark, for decay rates for baryons and mesons, 21:37797
use of quark, for double scattering contribution to p + p differential cross sections, 21:31609
use of quark, for electromagnetic form factors and mass of pseudoscalar and vector mesons, 21:33649
use of quark, for electromagnetic properties of baryons, 21:17074
use of quark, for γ + n and γ + p interactions, review of, 22:11609 (NP-17221)
use of quark, for γ + p → baryon + meson interactions, 21:29483
use of quark, for hadron couplings, 23:34574 (IC-69/43)
use of quark, for hadron elastic interactions above 4 GeV/c, 21:42337
use of quark, for hadron electromagnetic mass splittings, 21:29480
use of quark, for hadron interactions amplitudes at 7 to 15 GeV/c, 21:40200
use of quark, for hadron interactions below 10 GeV/c, 23:15064 (ITF-68-34)
use of quark, for hadron properties, 22:34949
use of quark, for hadron structure, 21:44292 (CERN-67-21)
use of quark, for inelastic meson—nucleon interactions, 21:31602
use of quark, for infinite multiplets in hadron theory, 22:7541 (COO-264-403)
use of quark, for Johnson—Low model for spin-0 meson—quark interactions, 22:3382
use of quark, for K → 2π decay, 22:9559 (JINR-P2-3603)
use of quark, for $K_1^0K_1^0$ mass spectrum from π^- + p → K_1^0 + K_1^0 + n interactions, 21:42366
use of quark, for A to Σ ratio from isospin-1 s-wave anti K^0 + p interactions, 21:27374
use of quark, for mass formula for P-wave supermultiplet of higher boson resonances, 21:44425
use of quark, for mass formulas in SU(3) symmetry, 22:9661
use of quark, for multipion production from γ + p interactions, 21:37735 (DESY-67/17)
use of quark, for neutral vector meson production from γ + N interactions at high energies, 21:21175
use of quark, for nucleon resonances, 21:42365
use of quark, for parity violating hyperon and meson nonleptonic decay, 22:9559 (JINR-P2-3603)
use of quark, for particle elementarity theory, 21:42279
use of quark, for π + N, K + N, and N + N elastic and inelastic charge-exchange interactions, 22:3419
use of quark, for π^- + p → p + 2π^- + π^+ + π^0 interactions at high energies, 21:37800 (DESY-67/19)
use of quark, for relation between π^- + p → π^0 + n and π^- + p → ω^0 + n cross sections, 21:25311
use of quark, for resonance baryon classification, 21:7514
use of quark, for rho^0 and ω interference in cross section of e^+ + e^- → π^0(eta) + γ interactions at 2 x 350 to 2 x 400 MeV, 22:34897 (NP-17476)
use of quark, for Schwinger terms in current commutators, 21:37731
use of quark, for stress tensor hypothesis for 2$^+$ mesons, 21:31585
use of quark, for strong interaction symmetries, 22:9659
use of quark, for sum rules for meson—baryon coupling constants, 21:35309
use of quark, for symmetries of scattering with mass splitting, 21:27453
use of quark, for three-body forces in high energy hadron interactions, 21:35296 (JINR-P2-3359)
use of quark, for weak hadronic decays, 21:37816
use of quark, with vector-meson dominance for photoproduction cross sections of multipion systems, 21:37752
use of quark—antiquark channel for meson solutions, 22:3386
use of Regge—quark, for hadron interactions, 21:35295 (AD-651038)
use of relativistic quark, for meson wave functions and decay rates, 21:29523
use of static quark, for pseudoscalar and vector meson decay width calculation, 21:29477
use of static quark, for weak vector boson decay, 21:29496
use of SU(3)-invariant quark, for meson—baryon interactions, 21:29549
use of SU(6) composite model with orbital excitations for baryon magnetic moments and semileptonic decay, 21:37904
use with additivity assumption for π^- + p → p + π^- + π^- + π^+ + π^0 interactions at high energies, 21:42374
validity for γ + p → rho^0 + p, γ + p → ω + p, and γ + p → phi + p interactions at high energies and neutral vector meson leptonic decay, 22:5532
validity of, use of algebra of currents for testing, 21:17102
vector meson coherent production in photon reactions with light nuclei in quark, 24:42915
vector meson decay into two pseudoscalar mesons in urbaryon, 23:39695
vector meson photoproduction on nuclei relation with π and K reactions with nuclei in quark, neutral, 25:1442 (ITF-70-40)
vector meson production in γ + N → N + rho^0(ω^0) and γ + N → N + phi^0 interactions in quark, with electromagnetic current with SU(3) singlet and octet components, 25:22866
vector meson production in K + p and π + p interactions at high energies in factorizability quark, (T), 24:30523 (ITF-70-23)
Veneziano representations for baryon trajectories in relativistic quark, 24:37781
Veneziano representations for multiquark trajectories in relativistic quark, 24:37741
W-spin conservation in quark, 21:37888
Ward identities for three-point functions in free-quark, 23:36989
Ward identities in free-quark, for regularized n-point functions, 24:13031
weak interactions in quark, chiral symmetry breaking, electromagnetism, and Cabibbo angle for divergences in theory of, 23:46674
weak-interaction Hamiltonian for divergences in quark, 25:20039
Elementary Particle Theories
see specific theories, e.g., Current Algebra, Dispersion Relations, Quantum Electrodynamics, Quantum Field Theory, Regge Pole Theory, Scattering, and Symmetry Groups
ELEMENTARY PARTICLES
(See also specific particles, e.g., Mesons and V Particles. For elementary particles with zero or integral spin, see also Bosons and for those with nonintegral spin, see also Fermions.)
see also Baryons

see also Hadrons
see also Leptons
see also Magnetic Monopoles
see also Mesons
see also Photons
see also Strange Particles
see also Tachyons
see also V Particles
absorption and emission of, sign reversal of energy relation with sign reversal of time interval between, (T), 23:39634
abundances in neutron stars, (T), 21:33106
acceleration in general relativity, Einstein equations for gravitational radiation from, 22:9686
angular correlations and phenomenological analysis for, relativistic theory of, 21:11744
angular distributions of elastically scattered, statistical model for, 23:15270
angular momenta for, symmetry for Racah coefficients for, (T), 25:53256
angular momenta of, operator method for addition of two, 22:29724
angular momenta of, quasi-binomial representations of Clebsch—Gordan coefficients for addition of two, 22:29726
angular momentum condition for isospin factored case for, analysis of Gell-Mann—Dashen, 23:30726
angular momentum decomposition for, graphical methods for execution of γ- or sigma-algebra in spinor, 22:11603
angular momentum for, invariants of rotation group for arbitrary, (T), 25:31013 (ITEF-782)
angular momentum of free arbitrary-mass and -spin, (T), 25:43572
angular momentum of, complex, 21:2397
angular momentum of, Dirac bracket for Schwinger calculus of, 22:39299 (IPNO/TH-123)
angular momentum of, representations of Lie algebra of R(3) group for, 22:13806
angular momentum states and charge states of, analogy between coherent superpositions of, 24:12961
annihilation at rest, Stark-effect model for, 21:7494
annihilation of scalar-particle pairs into two gravitons, cross sections from covariant quantum theory for, 22:3531
annihilation of, theory of sources for, 24:5263
beams of, rule for transformation of actual, 23:21070
behavior in an Einstein universe, (T), 24:17614
behavior of, isometric motion groups of Riemannian varieties for unification of internal and external, 23:46755
beta decay of, equal-time current commutators for contributions for radiative, 22:50334
bibliography, 21:42277 (AED-C-23-15)
bibliography, 21:42276 (AED-C-23-14)

conference on, (T), 25:45683 (ITF-70-99)
conference on, (T), 25:53039
conference on, Delhi, India, 10/69, 25:35893 (CONF-691055-(Vol.2))
conference on, Delhi, India, 10/69, 25:35892 (CONF-691055-(Vol.1))
conference, (T), 25:47762 (CONF-700411)
conservation laws for, non-Lagrange theories for generalized, (T), 23:16943
conservation laws for, reciprocal relation to symmetries, 21:944
conservation laws for, review of, 21:37892
cosmological theory for, correlations with constant in, 22:44344
coupling between spin-$^1/_2$ states for spin-1, Bargmann—Wigner equations for, 22:34929
coupling constants for nonzero-rest mass, analytical structure of superpropagator in, (T), 25:17413
coupling constants for, review of Pade approximation for analyticity in, (T), 25:53040
coupling constants in multi-Regge model, bounds for, 22:46545
coupling constants in SU_3 x SU_3 current algebra for, 21:2495
coupling of spin-O and -$^1/_2$, to external quantum fields, (T), 25:30939 (NYO-3829-66)
coupling of spinless, with two Reggeons, (T), 23:51914
couplings of, relation of stress-tensor to s-channel helicity-conserving, 25:19931
CP noninvariant equations for zero-mass and spin-1/2, 25:7698
creation in the Universe, (T), 22:43763
current algebra for, 21:29466
current algebra for, breakdown of associative law for current operators in model in two-dimensional space—time, 21:40157
current algebra for, cellular structure in phase space in fibre bundle theory in, (T), 25:56448
current algebra for, commutators of current components in, 21:29467
current algebra model with linear Regge trajectories for, local, 24:15552
current algebra representations for N identical spin-0 and -$^1/_2$, (T), 25:12125
current commutation relations for, consistency of, 21:7506
current commutators in theory for, review of, 21:31552
current components for, equal-time commutator of axial-vector, 21:2432 (AD-635060)
current computators for, quark model using perturbation theory for Schwinger terms in, 21:37731
current couplings for, current algebra for axial and vector, 21:37773(R) (COO-1428-28)
current theory for, field-dependent, 24:49585
currents as coordinates for, theory of nonlocal, 22:44404
currents of spin-2, spectral-function sum rules for, 22:37095
decay amplitude of excited states of, deviation of exponential, 23:8765
decay and interaction processes involving five particles, physical region for, 22:35150
decay and production amplitudes for, Khuri—Treiman-type equations for three-body, 22:37206
decay and production of, method for deriving angular correlations for, 22:24579
decay and scattering processes of, kinematics of, 21:2526
decay angular distributions for interfering resonances, spin-density matrix from, 23:10809
decay helicity amplitudes of, kinematic singularities of, 25:14592
decay law for resonance, S-matrix theory for exponential, 22:35142
decay laws for, 22:20158 (INP-555/PH, pp 155-70)
decay modes of, research on neutral, 21:27283 (MIT-2098-299, pp 16-18)
decay of 0°, final-state interaction effects in weak three-body, 24:8611
decay of 0°, to 3 hadrons, final-state interaction enhancements in weak, (T), 23:8787
decay of arbitrary-mass and -spin, crossing properties for sum rules with partial waves for two-variable expansion of amplitude for, 24:8738 (SU-1206-209)
decay of arbitrary-spin, invariant amplitudes and low-energy theorems for radiative, 24:20105
decay of arbitrary-spin, magnetic and quadrupole moments from bremsstrahlung in, 23:32648(T) (NP-tr-1784)
decay of cosmic massive short-lived, production of 10^{12}- to 10^{13}-eV mesons (μ) from, (E), 23:39604
decay of degenerate and almost degenerate states of, formulas for, 24:8619
decay of multiplet via interaction with meson bath, (T), 25:43513
decay of neutral spinless particle into charged spin-1 particle and charged spin-0 particle, 21:42289
decay of point-like, second-order radiative corrections for electron and meson, (μ), 23:44614 (IC-69/85)
decay of Reggion, final-state-interaction theory for three-particle, 21:25282
decay of spin-0 and -1, amplitude for 3-photon, (T), 21:17083
decay of spin-0, hidden-variable model for spin measurement of two spin-1/2 particles from, 25:1435
decay of spin-1, into spinless particles, SL(2,C) matrix elements for, 21:4069 (JINR-P2-2957)
decay of spin-1, theory with noncompact groups for, 21:29594
decay of spinless, rescattering effects for three-body, (T), 21:44452
decay of systems of interacting, theory for spontaneous, 21:40153
decay of unstable, model for, 22:3362
decay of unstable, S-matrix description of, 21:35357
decay of unstable, time dependence of, (T), 21:2394
decay of unstable, wave function for, 24:28500
decay of unstable, wave functions for, 22:1393 (JINR-E2-3470)
decay of, (T), 23:49134
decay of, calculation of SU(6) Clebsch—Gordan coefficients for product 35 x 70 for widths for, 23:39780
decay of, computer program for relativistic kinematics and dynamics of, 22:24580
decay of, covariant phase-space calculations of n-body, 25:3303
decay of, CP noninvariance in weak radiative, 22:35050 (JINR-P2-3743)
decay of, CP violation with intermediate vector boson in, (T), 23:16950
decay of, current algebra for two-body, 21:46530 (UR-875-214)
decay of, current algebras and vector-meson pole model for, 21:4093
decay of, current commutation rules for nonleptonic, 22:3356
decay of, Dalitz plots for many-body, 23:23392 (JINR-P1-4279)
decay of, double-variable expansions for amplitude of three-body, 24:6765
decay of, dynamical calculations for final-state interactions effects in three-body, (T), 24:52115
decay of, effects of SU(3) x SU(3) breaking on amplitudes for weak nonleptonic, 22:46488
decay of, equal-time commutators of electromagnetic current components for axial vector coupling constant for beta, 22:3490
decay of, gauge conditions for weak leptonic, 24:15685
decay of, helicity crossing relations between two-body-scattering and three-body channels from, (T), 24:51997
decay of, hyperspherical functions for three-body, 25:53042
decay of, integral over Veneziano amplitude for meson (π) production in, 23:52014
decay of, Khuri—Treiman amplitudes for three-body, 21:9725
decay of, Lee—Dalitz plot for calculating distributions for three-body, (T), 22:50310 (PPAR-4)
decay of, lepton conservation in double beta, 24:5277
decay of, leptonic and nonleptonic weak, 21:15313
decay of, limit of applicability of four-fermion interaction to β- and μ-, 22:1424
decay of, limit of applicability of weak four-fermion interaction theory for β and μ, 22:1417 (ITEF-471)
decay of, mass distribution in quantum field theory for, 21:29620 (IS-T-166)
decay of, method for measuring effective mass in 2γ, 21:7446 (JINR-E13-2971)
decay of, mutual transformations of particles for, 24:20086 (UJV-2312-F)
decay of, Nishijima—Swank model for nonleptonic, 23:39771
decay of, non-octet axial-vector currents for, 23:36894
decay of, nonconservation of CP and T invariance in weak radiative, (T), 22:53007
decay of, nonperturbation approach to strong and weak, (T), 24:42924
decay of, octet dominance in weak nonleptonic, 22:34942
decay of, parity operator as time-dependent observable for, 23:42703
decay of, phase space for, (T), 23:49067
decay of, phase space integral for quantities analogous to statistical parameters for, (T), 25:14584 (NP-18652)
decay of, phenomenological Lagrangian for weak nonleptonic, (T), 23:7124 (NP-17688)
decay of, radiative correction to beta, 22:17914
decay of, radiative corrections for beta, 23:16960
decay of, radiative corrections in beta, 22:7469
decay of, radiative corrections to Fermi part of strangeness-conserving beta, 22:22374
decay of, radiative, (T), 25:14630
decay of, relation between nuclear Coulomb-field production and photonic, 21:9742
decay of, relativistic three-body problem for, (T), 24:51985
decay of, research on, (E/T), 22:22332(R) (UH-511-23)
decay of, resonance extinction in three-body final-state interactions in, (T), 24:51984
decay of, review of current algebra for, 21:46503
decay of, review of experimental data for SU(3) symmetry predictions for electromagnetic, 22:37175 (CONF-670725-, pp 56-73)
decay of, review of mean lifetimes, decay modes, and branching ratios for weak, (E), 23:44586 (NP-17984)
decay of, review of relativistic kinematics for, 23:49066
decay of, review of spin analysis methods for, 23:49064
decay of, review of strong interaction effects on $\Delta S = 0$ weak, 23:49083
decay of, review of, (E), 23:46591
decay of, rheon-particle calculations of energy of, 22:20160
decay of, rheons as structural components for, (E), 22:37094
decay of, shell theory for modes of, 23:39629
decay of, strong interactions and intermediate boson in radiative corrections to beta, (T), 23:34567
decay of, SU(3) for nonleptonic, 21:19042
decay of, SU(3) x SU(3) chiral Lagrangian with gauge fields for semileptonic, 24:18210
decay of, subsidiary condition in quantum electrodynamics for, 22:44482

decay of, test for spin determination in parity-conserving three-body, (T), 22:39365
decay of, time dependence of, 24:37667
decay of, two-variable expansion for amplitudes of, 24:13108
decay of, unitary symmetry breaking for leptonic, 21:29603
decay of, universal Fermi law and selection rules for weak, 23:44586 (NP-17984)
decay of, universality of weak corrections to beta, 24:13025
decay of, weak interaction theory for nonleptonic, 22:1422
decay of, Z dependence of radiative corrections to beta, 23:40103
decay processes of, covariant phase-space calculations of n-particle, 24:8578
decay processes of, Khuri—Treiman-type equations for three-body, 23:18834
decay to massless particles, relativistic kinematics of two-body, 23:3683
decaying states of overlapping resonances, 24:45504
decays $\gamma\gamma$, e^+e^-, $\pi^0\gamma$, and $\pi^+\pi^+$, use of spark chamber—Cherenkov spectrometer system for measuring effective mass in, 21:24216
decays in quark model, π and K emission in weak and strong, 21:44360
decays of spin-0 and -1, forbidden configurations in three-photon, (T), 21:2411
decays of, Cabibbo angle from spontaneous strong breaking of SU(3) for, 23:18949
decays of, current algebra commutator ambiguities for radiative corrections to weak semileptonic, 25:5341
decays of, Dalitz plot for four-particle cascade, 21:9783 (JINR-P1-3049)
decays of, overlapping final-state interactions in three-body, 23:8773
decays of, phenomenological approach to nonleptonic, 22:41785
decays of, quark model and current algebra for radiative corrections to semileptonic and beta, 22:34936
decays of, radiative corrections to leptonic and semileptonic, 24:28531
decays of, radiative corrections to leptonic and semileptonic, 24:28532
decays of, relativistic equations for amplitude of three-particle, 23:7106
decays of, review on leptonic, 22:50344
decays of, semileptonic weak, 23:34568
decays of, sigma commutators for leading divergences in nonleptonic weak, 23:25592
decays of, status of Cabibbo theory for weak semileptonic, 22:41794
decays of, survey of leptonic and semileptonic, 24:28526
decays of, ultraviolet divergences in radiative corrections to weak, 23:5588
decays of, weak charged current and $\Delta I = 1/2$ rule in nonleptonic, 23:3700
decays with soft-γ emission, magnetic and quadrupole moments from, 23:13051 (ITEF-615)
density of quarks in universe, hot model for number, 21:29506
density of zero-mass, in Universe, 23:32125
description of, simple poles of S-matrix for, 21:13684 (UCRL-16983)
detection and discrimination at very high energies, development of negative electron affinity secondary emitter detectors for, 24:21014 (BNL-14466)
detection and identification of high-energy, design and performance of streamer chamber for, 24:21017
detection and identification of, high resolution Cherenkov detector for, 25:6577
detection and recording of neutral, on basis of gamma decay, total-absorption Cherenkov spectrometer for, 23:11864
detection of electromagnetic and strong interacting, development of total absorption nuclear cascade and shower cascade detectors for, 23:33399
detection of high-energy, design of detector using transition radiation in optical region for, 24:2495
detection of high-energy, design of total absorption nuclear cascade detector for, 22:38040
detection of high-energy, using semiconductor detectors, 23:21979
detection of integrally charged, heavy, long-lived, charmed, 25:22786
detection of nonidentical, interference in registration for, 22:26578 (JINR-P2-3763)
detection of pairs of decaying, interference phenomena in, 23:38319
detection of pairs of unstable, interference effects in, 23:7736 (JINR-P2-4145)
detection of relativistic, based on x-ray transition radiation, 23:43600
detection of, detector resolution effects on arrival time measurement in quantum mechanics for, 23:39638
detection of, time of arrival in quantum mechanics for, 23:39640
detection of, uncertainties in statistical theory for arrival time in quantum mechanics for, 23:39639
diffraction, review of strong interactions at high energies in, 25:40978
Dirac equation for massless, Clifford algebra and, 23:39623
discovery of, review of history of, 24:49354 (NP-18410)
discovery of, review of history of, (E), 25:38681
distinction between antiparticles and, absolute, 24:15535
distribution theory for, quantum mechanics for, (T), 25:22723
dosimetry of high-energy, interaction studies for, 21:41282
dynamic groups for, construction of noninvariance, 23:32787
dynamic variables for two-particle systems with spin, relativistic center-of-mass, 23:15001
dynamics of double-peaked resonance, S-matrix poles for, 24:47427
dynamics of, nonlinear Poincare group representations for, (T), 25:41041
dynamics of, review of, (T), 25:47771
eigenstates of spin-1/2, hierachy of idempotent matrices for relativistic, 24:1544
electric and magnetic charges of dyon, 25:33603
electric and magnetic moments of spin-1/2 and -3/2, from soft-γ emission, 23:13051 (ITEF-615)
electric dipole moment of spinor, electromagnetic CP violation effects on, 23:25667 (CERN-69-7, pp 343-8)
electrodynamics for arbitrary spin, convergent, 21:31635
electromagnetic interactions at high energies and momentum transfers, harmonic analysis on SL(2,C) symmetry for scaling laws and light cone behavior for, (T), 25:41044 (LNF-71/6)
electromagnetic interactions at high energies in quantum electrodynamics, theory of diffraction, 24:30481
electromagnetic interactions at high energies, conference on, (E/T), 25:53071
electromagnetic interactions at high energies, cross sections for production of $\mu^+ - \mu^-$ pairs in, (T), 24:49380
electromagnetic interactions at high energies, cross sections for production of two electron pairs in, (T), 24:49380
electromagnetic interactions at high energies, quantum electrodynamics for, 24:24299
electromagnetic interactions at high energies, review of models for, (T), 25:53139
electromagnetic interactions at high energies, scale invariance for asymptotic behavior of, (T), 25:50116 (JINR-E2-5962)
electromagnetic interactions at high energies, tests of quantum electrodynamics from, (E), 23:49198
electromagnetic interactions at low and intermediate energies, conference on, 24:26571
electromagnetic interactions at low and medium energies, conference on quantum electrodynamics for, 24:13140 (CONF-670203-(Vol.1))
electromagnetic interactions at very high energies, lectures on model for quantum electrodynamical, (T), 25:22725 (INP-712(Vol.1), pp 53-96)
electromagnetic interactions at very high energies, scaling laws for, (T), 25:5319 (CONF-700314-, Paper 8)
electromagnetic interactions in N-particle system with arbitrary mass, charge, magnetic moment, and spin, Hamiltonian for, 24:20101
electromagnetic interactions in perturbation theory, sum rules for, 23:25560
electromagnetic interactions of arbitrary spin, form factors and multipoles for, 21:5364
electromagnetic interactions of charged spin-1, quantum theory of, 24:12970
electromagnetic interactions of definite-mass and -spin, in external electromagnetic field, review of relativistic theory for, 24:1543
electromagnetic interactions of extended, Lorentz contraction and asynchronous formulation for acceleration from push or pull of exchanged photons in, 24:22003
electromagnetic interactions of loosely-bound composite systems of, 23:3669
electromagnetic interactions of massless, Schwinger terms for, 23:5566
electromagnetic interactions of pseudoscalar, spinor, and vector, 21:4014
electromagnetic interactions of relativistic two-particle systems, scattering theory of, 24:26416 (DESY-70/12)
electromagnetic interactions of spin one-half, 21:7484
electromagnetic interactions of spinning, cross sections for elastic, (T), 25:25365
electromagnetic interactions of spinor, quasipotential theory for two-body, (T), 25:53281 (IC-71/75)
electromagnetic interactions of two different-spin, cross sections for, 25:36450
electromagnetic interactions of weakly bound composite systems of, 24:52026
electromagnetic interactions of, algebra of observed current operators for, 23:49187
electromagnetic interactions of, angular distributions and differential cross sections for $\pi^- + p \rightarrow \gamma + n$ interactions at 1245 and 1337 MeV for validity of isospin rule for, (T), 25:14567
electromagnetic interactions of, asymptotic behavior of electroproduction structure function for, 23:30735
electromagnetic interactions of, axial-vector coupling for strangeness nonchanging currents for, (T), 25:38713
electromagnetic interactions of, C violation in, 21:23314 (BNL-994, pp 70-102)
electromagnetic interactions of, C, T, and CPT conservation in, 23:25661 (CERN-69-7, pp 291-305)
electromagnetic interactions of, charge conjugation, parity, and time reversal invariance for, 23:49188
electromagnetic interactions of, chiral symmetry for, 21:44412
electromagnetic interactions of, closed-fermion-loop calculations in chiral models for, 25:53053
electromagnetic interactions of, compilation of coupling constants and low-energy parameters for, (E), 25:30841
electromagnetic interactions of, conference on, 24:18060 (CONF-690330)
electromagnetic interactions of, consequence of Lorentz invariance for minimal, 24:33033
electromagnetic interactions of, conservation of six-component angular momentum in Wheeler and Feynman theory for, 23:15037
electromagnetic interactions of, conservation sum rules in Sugawara model for, 24:1551
electromagnetic interactions of, constraints on scale-invariant function for, 25:9720
electromagnetic interactions of, corrections to current commutators for, 23:7163
electromagnetic interactions of, CP violation in, 21:19037
electromagnetic interactions of, CP violation in weak, (T), 21:9732 (JINR-P2-3067)
electromagnetic interactions of, current algebra and symmetry for, 21:27325 (JINR-E2-3203)
electromagnetic interactions of, Dicke interpretation of Mach principle for causal relation among strong, weak, and gravitational interactions and, 23:39824
electromagnetic interactions of, dispersion sum rules for, 21:17101 (JINR-P2-3118)
electromagnetic interactions of, divergences of axial and vector hadronic currents effects on, 21:7479 (JINR-E2-3039)
electromagnetic interactions of, dynamical origin of SU(3) breaking in octet space for, 23:30785
electromagnetic interactions of, $e + p \rightarrow e + \pi^+ + n$ interactions at high energies for test of finite-energy sum rule productions for, (T), 24:52009
electromagnetic interactions of, effect of strong interactions on CP and T invariance of, 24:15533
electromagnetic interactions of, effects of weak interaction on, (T), 24:42901
electromagnetic interactions of, fixed poles in virtual Compton amplitudes of, 24:24294
electromagnetic interactions of, Fubini sum rules for, (T), 21:7478(R) (COO-1371-36)
electromagnetic interactions of, Furry representation of charged scalar and vector meson field interactions in, 21:9851
electromagnetic interactions of, gauge boson interaction compatibility with dual resonance model for, (T), 25:40919
electromagnetic interactions of, generalization of Cook formalism for Fock space for two-body Coulomb, (T), 25:59580
electromagnetic interactions of, generalization of Cabibbo—Radicati relation for nonminimal, 21:31554 (JINR-E2-3339)
electromagnetic interactions of, indefinite metric for cross sections of production of heavy photon in, (T), 25:56547 (NYO-1932(2)-200)
electromagnetic interactions of, isotopic invariance of CP-noninvariant, 21:5409
electromagnetic interactions of, isotopic relations of particles of same isomultiplet produced in, 24:20107
electromagnetic interactions of, lectures on, (T), 25:30772 (CERN-71-7, pp 181-283)
electromagnetic interactions of, light cone commutation functions and Fubini—Dashen—Gell-Mann sum rules for, 25:47782
electromagnetic interactions of, light-cone expansions of current operator, 25:33614
electromagnetic interactions of, model for CP invariance violation in, 23:5657
electromagnetic interactions of, Moessbauer effect in ruthenium-99 for determination of T invariance of, (E), 21:44246
electromagnetic interactions of, nature of, (T), 23:15005
electromagnetic interactions of, parity violation in, 23:21141
electromagnetic interactions of, PCTC for, 21:11758
electromagnetic interactions of, possible C noninvariance in, (T), 21:11791
electromagnetic interactions of, pseudo-hermitian Hamiltonian and indefinite metric for, (T), 25:1471
electromagnetic interactions of, relation to strong SU(3) breaking for, 23:30787
electromagnetic interactions of, research on, 21:17021(R) (ISS-66/35)
electromagnetic interactions of, review of Bjorken method for, 23:18839 (ISS-68/33)
electromagnetic interactions of, review of conformal symmetry breaking in finite-component field representations for, 23:42709
electromagnetic interactions of, review of J-plane phenomena in, (T), 25:1466 (CONF-691202-, Paper 5)
electromagnetic interactions of, review of role of vector mesons in, (T), 25:30796
electromagnetic interactions of, review of tests of time reversal invariance in, (E), 23:49184
electromagnetic interactions of, review of unitary spin in SU(3) symmetry for, 24:5326
electromagnetic interactions of, review of vector meson dominance in, 24:6716 (COO-264-524)
electromagnetic interactions of, review on C and T violation in, 24:22000
electromagnetic interactions of, S-matrix theory for, 23:36873
electromagnetic interactions of, S-matrix theory for, 21:11759
electromagnetic interactions of, S-matrix theory of currents based on unitarity, analyticity, Lorentz invariance, and crossing for, 23:27890
electromagnetic interactions of, scaling behavior and pomeron dominance of structure functions for, 25:30779
electromagnetic interactions of, scattering amplitude on mass shell for construction of coarsened current operator defined for, (T), 25:25536
electromagnetic interactions of, spontaneous breakdown of SU(2) symmetry in, 24:45562
electromagnetic interactions of, spontaneous SU(3) breaking in, 23:23522
electromagnetic interactions of, statistical mechanics for, 21:44298
electromagnetic interactions of, SU(6) symmetry and current algebra for, 23:34632
electromagnetic interactions of, symmetry of leptonic, 23:42632
electromagnetic interactions of, synthesis between weak interactions and, 23:30739
electromagnetic interactions of, test for isotensor component of, (T), 23:46652
electromagnetic interactions of, tests of charge conjugation and time reversal invariance in, (E/T), 25:41043 (LNF-70/55)
electromagnetic interactions of, transition form factors free of kinematic, 24:15520
electromagnetic interactions of, U(3) symmetries for, 23:15172

electromagnetic interactions of, use of Moessbauer effect in testing time-reversal invariance in, 21:7532 (NYO-1932-114)
electromagnetic interactions of, vector current for minimum of, 21:13690 (NP-16545)
electromagnetic interactions of, vector meson dominance in, 24:8635
electromagnetic mass sum rule for, corrections to Coleman—Glashow, 23:5579
electromagnetic parameters of, determination in processes with soft γ emission, 23:7114
electroproduction of, constraints on scale-invariant function for, 25:9720
electroproduction of, low energy theorems and sum rules for, 24:24288
electroproduction structure functions in Bethe—Salpeter model, scale invariance of, 25:1624
elementarity of, double-scattering experiment for determining, 24:35671
elementary length for, asymptotic Meyman amplitudes for, 23:37021
elementary length for, Lie triple algebras for, 24:6697
elementary length for, Moessbauer effect for determining, (T), 22:26574 (JINR-P2-3590, pp 46-51)
elementary length for, Moessbauer experiments and theory of quantized space—time for upper limit for, (T), 22:24572
elementary length in theory for, quantum theory of gravitational field for Planckian, 22:24730
energy density and pressure of n-body system of, noncausality and instability from, 24:42895
energy density of, dimension of chiral and conformal breaking of SU(3) x SU(3) symmetry decomposition of, (T), 25:38761
energy loss in homogeneous absorber, calculation of straggling distribution of, 23:1613
energy loss in matter at high energies, 24:40293
energy losses by ionization, representation of function of, (T), 23:42604
energy losses of relativistic, passing through plate at oblique angle, (T), 23:27770
energy of relativistic, design of detector for measuring, 22:23326
energy of relativistic, use of transition radiation for measuring, 23:27759
energy of ultrarelativistic, device for measuring, 22:38088
energy of, dissipative processes, quantum states, and entropy in theory for, 22:20161
energy of, relativistic phase-space volume for zero-point kinetic, 22:13675
energy spectra for, SU(n,1) representation for harmonic oscillator for, 21:44394
energy—range relation of charged, in materials, FORTRAN subroutine for calculating, 22:9534
energy-momentum tensor of spin-$^1/_2$, (T), 21:7553
equations for spin-$^1/_2$ unequal-mass, quasipotential, (T), 25:9697
equations for spin-3/2, causal propagation of solutions for, (T), 24:10693(R) (NYO-3829-42)
equivalence principle for unstable, test of, 23:1610
exchange in particle two-body interactions, application of Riemann method to Bethe—Salpeter equation for, 22:34885
exchange of coherent states in amplitudes of high-energy scattering, relativistic eikonal expansion for, (T), 25:47978 (ORO-3992-46)
existence of 26-MeV-mass tamaid particle for mass relations among, (T), 22:5525
existence of faster-than-light, causality effects for, 22:3302
existence of four isobars for, 22:50312
existence of L particle in $e^+ + e^- \rightarrow \gamma + \gamma$ interactions, 23:25493 (LNF-68/63)
existence of massive, in cosmic radiation, (E), 22:11566
existence of massless, following symmetry breaking, 22:17984
existence of scalar Goldstone, 22:50329
existence of self-conjugate, with half-integral isospin, non-, 22:46503
existence of stable, in metagalaxy, 22:1507
existence of, with imaginary mass, energy, and momentum, (T), 25:52506
field equations admitting mass—spin spectrum for, intrinsic invariance groups for linear, 23:5554
field equations for arbitrary-spin and zero-mass, conformal covariance of, 24:35703
field equations for arbitrary-spin nonzero-mass, covariant, 21:29633
field equations for elementary domains and, 23:7174
field equations for extended, extremum principles for, (T), 25:17567
field equations for free, finite-dimensional irreducible representations of inhomogeneous de Sitter groups in, 21:46564
field equations for higher-spin, Weinberg, 22:53017
field equations for, de Broglie-wave, 24:1652
field equations of free, 21:4111
field operator for composite, HNZ construction of, 25:3445
field theoretic criterion for zero-mass, 25:36570
field theory for arbitrary mass and spin, 22:44478
field theory for arbitrary-spin, linear equations in, 21:40246
field theory for composite and, 21:21486
field theory for composite and, Lagrangian, 21:21291
field theory for higher spin, 23:15230
field theory for higher spin, Lagrangian formalism for (2J + 1)-component, 21:18931
field theory for higher-spin, 21:33771
field theory for localizability properties of, 22:35096
field theory for massive spin-one, equivalence of Weinberg and Proca formulations of, 22:29746
field theory for orbital systems of, formulation of multiconfigurational self-consistent, 21:23296
field theory for spin-3/2, spectral representation for Rarita—Schwinger, 21:37916
field theory for unstable, hermicity or nonhermicity of Hamiltonian in, 22:26708
field theory for zero-mass, plane-wave spinors in, 24:24432
field theory for, bootstrap in, 22:13841
field theory for, correspondence between first- and second-quantized para-, 24:52179
field theory for, degenerate vacuum and infinite component wave equation in, 22:13838
field theory for, equivalence between two theories of elementary and composite particles for semi-relativistic, 24:37875
field theory for, field and particle coupling in quantum, 22:26702 (JINR-P2-3590, pp 211-27)
field theory for, functional calculus anharmonic oscillator in low approximations in, 23:16987
field theory for, instability of stationary states in nonlinear spinor, 21:967
field theory for, isospin symmetry and C, P, and T transformations in local, 22:13791
field theory for, Lee and Zachariasen models in, 23:49196
field theory for, local, 21:29631
field theory for, model for nonlinear stable, 21:968
field theory for, multimass, spin, and statistics in, 21:19058
field theory for, N-quantum approximation in static models in, 21:11813
field theory for, nonlinear spinor, 21:15280
field theory for, particle-like behavior in nonlinear equation in, 24:45578
field theory for, particle-like solutions for class of nonlinear, 21:44299
field theory for, renormalization theory in, 21:13727
field theory for, review of, 21:40270
field theory for, stability of time-dependent solutions in nonlinear, 24:26476
field theory for, static Maxwell—Einstein—Klein—Gordon, 23:21156
field theory for, Z = 0 conditions in scalar, 22:5648
field theory of elementary domains and, formulation of unified, 23:7175
field theory of free spinless, 21:7549
field theory of, unified, 23:3726
field theory with S_2 invariance for, 21:13702
fields for V-particle in Lee model, interpolating, 22:35107
fields of, relation of Dirac algebra with six-dimensional Lorentz group for, 22:35027
form factor for, lower limit for, (T), 23:27761
form factor in region t < 0 for, lower bound for, 22:46344 (JINR-E2-3986)
form factor of, inequality from analyticity of, (T), 25:33585
form factors and propagation functions for, (T), 22:50314
form factors and scattering amplitudes for, analyticity constraints on, 25:25526
form factors and transition probabilities from noncompact groups, 21:29586
form factors for arbitrary-spin, analytic, 24:32979
form factors for arbitrary-spin, electromagnetic, 21:18943
form factors for spin-1, experiment for determining electromagnetic, 21:25253 (JINR-P2-3227)
form factors for unitary multiplet of, electromagnetic, 23:27840
form factors for, analytic functions and conformal mapping for upper and lower bounds in spacelike region for, 23:39835 (ITF-69-15)
form factors for, asymptotic behavior of electromagnetic, 22:22282
form factors for, bootstrap formalism for electromagnetic, 23:25544 (BMwF-FBK-68-60)
form factors for, current algebra for axial, 21:15365
form factors for, current density algebra for, 21:25248 (JINR-P2-3244)
form factors for, dispersion sum rules for relation with annihilation cross section and root-mean-square radius for, 22:34895
form factors for, Fourier transformations of, 24:1625
form factors for, PCAC and modified Goldberger—Treiman relations for weak, 22:11637
form factors for, status of research on, (E/T), 21:2424
form factors for, subtractions and off-shell continuation of weak, 23:8791
form factors for, Sugawara theory of currents for, 24:45453
form factors for, sum rule for isovector, 21:4008
form factors from representations of algebra of isovector charge-density in O(3,1), E(2), O(4,2), and O(3,3) symmetry for, 24:1628
form factors in SL(2,C) scheme, infinite-momentum E(2) subgroup for calculation of, 22:35032
form factors in two dimensions, integral representations for conformal invariant, 25:12142
form factors of extended, classical dynamics for, 24:6696
form factors of half-integer spin, composite model for bounds on asymptotic behavior of, 22:39319
form factors of integral-spin and nonzero baryon number, vanishing of electromagnetic charge, 24:26400
form factors of scalar, asymptotic behavior of renormalization constants and, 22:37099
form factors of spin-1/2, formula in model in SL(2,C) symmetry for ratio of electric to magnetic, 22:20180
form factors of system of two particles with arbitrary spins and masses, quasipotential method for, (T), 25:30752 (JINR-P2-5691)
form factors of, algorithms for γ-algebra of electromagnetic, (T), 25:59360
form factors of, analytic extrapolations of, 23:49137
form factors of, analytic function representation of scattering differential cross sections for, 23:46844
form factors of, current density algebra for, 22:13795
form factors of, dispersion relations for, 23:15031
form factors of, infinite-component wave equations for, 23:44608
form factors of, phase representation for vertex, 24:12959
form factors of, review and feasibility of experiments for determining electromagnetic, 22:37071
form factors of, theory and review of, 23:10782
form factors of, use of generalized unsubtracted dispersion relations for, 22:48248
form factors with indefinitely rising phases, 24:12964
form-factor shapes of, vector-meson dynamics for, 22:26627
formalism for two-particle system with spins 0 and 1/2, quasipotential, (T), 25:59422 (JINR-E2-6046)
gauge condition for massless, group-theoretic derivation of, 23:36962
gravitation for, short-ranged scalar gravity in Einstein theory of, (T), 25:20093
gravitation in theory for, role of, (T), 25:45807 (ITF-70-99, pp 4-14)
gravitational acceleration of freely falling charged, gravitationally induced electric fields near metals for determining, 22:3385
gravitational coupling constant of, model for, 22:32083
gravitational field of scalar, energy requirements for, 23:39821 (ITF-69-21)
gravitational field of, first-order equation for Einstein, 22:35124
gravitational fields of, action integral quantization and evaluation for, 23:39834
gravitational interaction of, measurement of, 24:30587
gravitational interactions at high energies, theory for, 23:46823
gravitational interactions of massless, Schwinger terms for, 23:5566
gravitational interactions of relativistic systems of, 24:37910
gravitational interactions of spin-0 and -$^1/_2$, with photons, photon polarization effects on, (T), 24:3551
gravitational interactions of, Dicke interpretation of Mach principles for causal relation among strong, electromagnetic, and weak interactions and, 23:39824
gravitational interactions of, flat gravitation model for relativistic quantum, 23:52004
gravitational interactions of, gauge conditions in, 23:42752
gravitational interactions of, Gupta quantum theory for exact relativistic, 24:3551
gravitational interactions of, interrelations of renormalization constants for, (T), 25:45793 (ITF-70-99, pp 15-40)
gravitational interactions of, potential for particle—particle and particle—antiparticle, 24:3551
gravitational interactions with cosmological fields, CP violation in, 24:15613
gravitational potential for identical and antiparticles of identical, (T), 24:3551
gravitational theory for, mass and radius relation with Hubble constant in, 23:39834
Green function for composite, in scalar field model, 21:4009
group theoretical analysis of charged, in external electromagnetic field, 24:28521
group theory applications to, book on, 21:15376
group theory for one-particle helicity state with zero mass, relativistic invariant decomposition of Lorentz group in, 23:36970
group theory for, causality, 22:3477
group theory for, reduction to standard helicity representations for reducible representations of Poincare, 23:15167
hadronic currents for, matrix elements of, 23:23452
Hamiltonian formalism for arbitrary-spin and nonzero-mass, covariant, 23:8838
Hamiltonians and wave functions for spin 0 and 1/2, with nonzero mass, 24:45393
harmonic oscillator problem for single, angular momentum representation of, 23:18762
harmonic oscillator states for, Wigner coefficients of U(3) group for general transformation brackets for, (T), 25:22862
helicity formalism for, lectures on, 25:19925 (NP-18703)
helicity states at infinite momentum, light-like and space-like representations for transformation properties of, (T), 25:59321 (JINR-E2-5993)
helicity states for, hyperplane formalism for, 23:39633
hyperplane formalism of generalized covariance for, 24:18103
identity of, 25:7566 (JINR-P2-5063)
identity of, approximate, (T), 25:30761
interaction amplitudes for four-body process with one massless particle, kinematic singularity structure of, 23:15258
interaction angular momentum in classical mechanics and quantum field theory, 23:3660
interaction Lagrangian for spin > or = 1, noncausality of, 24:18100
interaction Lagrangians for, summation of perturbation series for nonlinear, 24:13162
interaction of spin-$^1/_2$, with scalar particles at high energies, unitary condition for amplitude of elastic, (T), 25:25338 (IFVE-STF-70-1)
interaction point localization for neutral, liquid hydrogen target for final-state, 23:17801
interaction potential for, group theory for symmetry breaking, 21:9826
interaction processes of, magnetic-field effects on, (T), 23:30290
interaction radii of strongly interacting, 22:26631
interactions 0 + 1/2 → 1 + 3/2 spin processes, 0(3,1) symmetry and Lorentz states of exchanged trajectories for, 22:34985
interactions above 10 GeV and with high momentum transfer, analysis and predictions for strong, 22:39362 (CERN-68-7(Vol.2), pp 93-101)
interactions above 10 GeV/c, statistical thermodynamic model of strong, 22:46396

interactions above 10^{13} eV, multiperipheral models for existence of fireballs from two-bump structure of angular distributions from, (T), 24:8575
interactions above 10^{12} eV, production of massive particle in new process in, (T), 25:43567 (INR-1280)
interactions above 100 GeV, mechanism for multiple-particle production from, (E/T), 23:51951 (JINR-P2-4662)
interactions and decay of, electromagnetic properties of short-lived states from photon emission, 22:44366
interactions and decay of, relativistic invariance without angular-momentum conservation in, 23:1661
interactions and models of, C-noninvariant, 21:13703
interactions and properties of, conference on, 21:31547
interactions and properties of, contributions of research with cyclotrons to, 21:19101
interactions and properties of, experimental facility substitutes for data analysis for, 21:26145 (CONF-660722-1)
interactions and properties of, index to papers on, 21:29463 (AED-C-23-12)
interactions and properties of, lectures on, (E/T), 25:47766
interactions and properties of, research at CERN 1959-1969 on, 24:49659
interactions and properties of, research at CERN 1959-1969 on, 24:49660
interactions and properties of, review of, 22:9526
interactions and properties of, review of, (T), 25:1433
interactions and properties of, review on, 21:2391
interactions and properties, reviews of, 23:51873
interactions and structure of, 22:5523
interactions at 0.5 $(10)^{12}$ eV, correlation between pairs of secondary particles in multiple production in, (E), 25:38686
interactions at 10 to 10^3 GeV, properties of, (E), 22:34847
interactions at 10 to 100 GeV, functional for tests for resonance production in, 24:40350 (JINR-P1-5123)
interactions at 100 TeV with high momentum transfer, in cosmic rays, (T), 22:34945
interactions at energies above 1.0 TeV in emulsions, method for measuring angular distributions of, 22:4471 (INR-794/V1/PH)
interactions at finite energies, relation between elastic forward amplitudes of particle and antiparticle, (T), 24:40294
interactions at high and superhigh energies, 22:26580 (NP-17395)
interactions at high and ultrahigh energies, many-body, 22:26581(T) (ORNL-tr-1921)
interactions at high energies and large momentum transfers, asymptotic production amplitude for, (T), 24:18298
interactions at high energies and large momentum transfer, cross-section behavior of elastic, 22:1514
interactions at high energies in dual resonance model, differential cross sections for inclusive, (T), 25:38731
interactions at high energies in fireball model, angular distribution of particles produced in, 23:10827
interactions at high energies in quantum electrodynamics, 23:21153
interactions at high energies in quark model, 25:5358
interactions at high energies near 90°, Euler—MacLaurin sum rule for amplitudes and cross sections of elastic, 24:24454
interactions at high energies near forward direction, Regge pole model for strong, 22:39360 (CERN-68-7(Vol.1), pp 478-93)
interactions at high energies of identical, asymptotic formula for semi-phenomenological analysis of amplitude for, 24:8621
interactions at high energies, 2^+ meson exchange in, 21:27413
interactions at high energies, acausal distance in, 23:39735
interactions at high energies, almost-infinite-momentum frame for, 25:33580
interactions at high energies, amplitude factorization for nonzero-spin resonance pair production from, 21:9774
interactions at high energies, analysis of particle tracks in emulsions for multiple, 24:23022
interactions at high energies, analytical solution for dynamical calculations based on indefinitely rising Regge trajectories in Veneziano model for, 24:15544
interactions at high energies, analyticity constraints for validity of Pomeranchuk theorem and sudden change of slope in cross sections for, (T), 25:53136
interactions at high energies, analyticity structure of one-particle-exchange model for, 25:28013
interactions at high energies, angular dependence of cross sections for, (T), 22:22473
interactions at high energies, angular distribution from scaling hypothesis for inclusive, (T), 24:51987
interactions at high energies, arbitrariness of optical models for amplitudes of, 24:3688
interactions at high energies, asymptotic behavior of amplitudes for, 23:1709
interactions at high energies, asymptotic properties of amplitudes of, 21:17182
interactions at high energies, asymptotic spin flip and polarization in, 23:39847
interactions at high energies, axiomatic quantum field theory for, (T), 25:1594 (AD-706929)
interactions at high energies, behavior of total cross sections for, 25:1490
interactions at high energies, bounded-momentum transfer restrictions on production cross sections for, 21:42288
interactions at high energies, breakdown of eikonal approximation in phi³ theory for amplitudes of, (T), 25:33573 (DESY-71/13)
interactions at high energies, catalog for quantum numbers of crossed-channel exchanges in, (T), 25:43565 (CALT-68-305)
interactions at high energies, charge invariance and group-transformation properties in dynamical model for, 22:3543
interactions at high energies, collinear and double O(2,1) variables for single-particle spectra in, (T), 25:22712 (NYO-2262-TA-229)
interactions at high energies, complex Regge poles and oscillatory average multiplicity in multiperipheral models for total cross sections of, (T), 25:12122 (NYO-2262-TA-228)
interactions at high energies, conference on, 21:31550
interactions at high energies, conference on, 23:46632
interactions at high energies, conference on, 24:24258
interactions at high energies, conference on multiparticle production in, 24:24206 (ANL/HEP-6909)
interactions at high energies, conference on, (E/T), 25:14583(T) (AEC-tr-6882/1)
interactions at high energies, conference on, (T), 25:47769
interactions at high energies, configuration-space representation for, 25:59617
interactions at high energies, connections of average multiplicity and average perpendicular momentum in models for, (T), 25:59322 (NP-19024)
interactions at high energies, correlations between cross sections of strong inelastic, (T), 23:13081
interactions at high energies, criterion for weak perturbing systems for elastic, (T), 22:13865
interactions at high energies, cut discontinuities for cross sections of inclusive, 25:43574
interactions at high energies, design and operation of Omega project for detection of complicated, 24:16881 (CERN-69-29, pp 181-206)
interactions at high energies, design of counter experiments for studying three-body final states in, (E), 25:53017
interactions at high energies, determination of fireball parameters from, 23:34580
interactions at high energies, differential cross sections of large-angle elastic, (T), 23:7135
interactions at high energies, diffractive inelastic, (T), 24:20140
interactions at high energies, effect of spin on amplitude of three-body production in, (T), 23:44663
interactions at high energies, eikonal approximation for multiple, 24:26531
interactions at high energies, eikonal approximation in potential theory for amplitude of two-body, 24:22019
interactions at high energies, equations of motion for, 24:24261
interactions at high energies, evaluation of phase space integrals for, 21:33631
interactions at high energies, experiments for investigating role of Mandelstam cuts in, 21:17189
interactions at high energies, Fermi statistical model calculations of, 21:7476
interactions at high energies, fireball production in inelastic, (T), 21:42290
interactions at high energies, fireball production in theory of strong inelastic, 22:24627
interactions at high energies, fireball theory for inelastic, (T), 25:17419
interactions at high energies, for dosimetry studies, 21:41282
interactions at high energies, forbidden or strongly suppressed, (T), 22:44339(T) (ANL-Trans-650)
interactions at high energies, formulation of convergence of unitarity series saturated with Reggeized multiperipheral graphs for amplitudes of, 24:26522
interactions at high energies, forward and backward peaks in amplitudes for, 21:5425
interactions at high energies, Gaussian interaction probability density for two-body, inelastic, strong, 22:39422 (COO-1112-154)
interactions at high energies, generalization of Moliere approximation of, 22:22479
interactions at high energies, geometry of relativistic n-body, 23:39627
interactions at high energies, helicity poles and triple Regge behavior in single-particle production spectrum from, (T), 25:19926 (NYO-2262-TA-234)
interactions at high energies, helicity poles, triple-Regge behavior and single-particle spectra in, 25:33675
interactions at high energies, hypothesis of limiting fragmentation for, 24:24341
interactions at high energies, impact parameter description of, 23:15014
interactions at high energies, in radiation penetration of matter, 22:34889
interactions at high energies, index on, 22:37091 (AED-C-23-25)
interactions at high energies, index on, 22:37092 (AED-C-23-26)
interactions at high energies, integral representations for relativistic asymptotic amplitudes of, 22:13807
interactions at high energies, kinematic correlations in inclusive, 25:53147
interactions at high energies, kinematical origin of jet structure of, (T), 23:42756
interactions at high energies, kinematics of multiparticle final states in, (E), 25:33576 (NP-18756)
interactions at high energies, lectures on multiperipheral models for, (T), 25:56442 (PURC-4159-42)
interactions at high energies, lectures on, (E/T), 25:22709 (INP-712(Vol.1))
interactions at high energies, light-cone commutators in Bjorken limit for structure functions in, 25:33578
interactions at high energies, limiting partial cross sections for, 25:27974
interactions at high energies, Lorentz contraction in, 21:2403
interactions at high energies, Lorentz-invariant and -noninvariant momentum space in statistical model for, 25:59432
interactions at high energies, mass dependence of momentum transfer distributions in diffraction dissociation in, (T), 25:30767
interactions at high energies, mathematics of N/D method for, 24:52237
interactions at high energies, mechanism for two-body, 21:46535(T) (ANL-Trans-497)
interactions at high energies, method for discriminating types of inelastic, 21:33638
interactions at high energies, model analyses of amplitudes of, (T), 25:30751 (IS-T-426)
interactions at high energies, model analysis of amplitudes for, (T), 25:43580
interactions at high energies, model for multiparticle production and elastic, 21:33687
interactions at high energies, model of elastic, 22:37132
interactions at high energies, model with multiple production for, 22:35162
interactions at high energies, models for energy and angular dependence of particle exchange in nondiffractive, 25:3454
interactions at high energies, modified background calculations for peripheral, 21:18978
interactions at high energies, multi-Regge-pole hypothesis for, 21:42471
interactions at high energies, multiperipheral and multi-Regge models for inclusive, 25:36478
interactions at high energies, multiple diffraction theory of nuclear scattering for, (T), 22:17974
interactions at high energies, near-forward properties of amplitudes for two-body, 23:1715
interactions at high energies, nonlinear chiral dynamics for, 22:39446
interactions at high energies, nonoscillation criterion from phase of amplitude of two-body, 23:42776
interactions at high energies, nonpolynomial Lagrangians for parton model of, (T), 25:33574 (INP-713(Vol.2), pp 117-21)
interactions at high energies, nonspherical potential with spheroidal symmetry for, (T), 25:41123
interactions at high energies, optical model analysis of elastic, 21:7561 (JINR-P2-3018)
interactions at high energies, optical potential for elastic, 23:52015
interactions at high energies, parametrization of unitary and statistical weights for inelastic, 24:13125 (JINR-P2-4845)
interactions at high energies, particle production in Orear-angle region in elastic and inelastic, (T), 23:36866
interactions at high energies, peripheral processes and unitarity condition in direct channel for diffraction in, (T), 25:25348
interactions at high energies, peripheralism hypothesis correlation with unitarity condition in s-channel for diffraction, (T), 25:25339 (IFVE-STF-70-7)
interactions at high energies, phase space integral for quantities analogous to statistical parameters for, (T), 25:14584 (NP-18652)
interactions at high energies, phase-band analysis of, 23:18835
interactions at high energies, phenomenology of multiparticle, 22:48293 (INP-599)
interactions at high energies, polarization in elastic and inelastic, (T), 24:30469
interactions at high energies, polarization properties of particles produced in, (T), 25:59328
interactions at high energies, produced particles scattered at Orear angle from, (T), 23:44607 (IFVE-STF-68-68)
interactions at high energies, progress in experiments on, 21:31524(R) (COO-1537-1)
interactions at high energies, quantum field theory and microcausality for analyticity and unitarity of amplitudes of, 24:5339
interactions at high energies, quark model and algebraic method in Regge pole theory for total cross sections for, 21:21211
interactions at high energies, quark model for diffraction, 23:7134
interactions at high energies, quark model for resonance production in, 23:3705
interactions at high energies, quark model for total cross sections of, 21:31575
interactions at high energies, quark model for two-body, 21:23328
interactions at high energies, quark production from, (T), 22:3366
interactions at high energies, Regge cuts and asymptotic behavior of amplitudes for strong, 22:17935
interactions at high energies, Regge pole and single-particle exchange mechanisms for, 21:17071
interactions at high energies, Regge pole description of two-body exchange, 24:24380
interactions at high energies, Regge pole hypothesis in extended particle model for elastic, 22:5668
interactions at high energies, Regge pole theory for, 24:24450
interactions at high energies, Regge pole theory for, 21:4122 (CALT-68-106)
interactions at high energies, Regge pole theory, diffraction models, and superconvergence relations for, 23:10804
interactions at high energies, Regge poles for large coupling constants for amplitudes of forward, (T), 25:53036 (DESY-71/31)
interactions at high energies, Regge-pole theory for multiperipheral, 23:37009 (BNL-50162)
interactions at high energies, relation between Regge-pole and single-particle exchange models for, 21:44457
interactions at high energies, research at Brown Univ. on, (E), 22:39230(R) (NYO-2262-TB-139)
interactions at high energies, research at Case Western Reserve University, 22:41741 (COO-1749-5)
interactions at high energies, research at Purdue University on, (T), 22:41752(R) (COO-1428-64)
interactions at high energies, research on, (E), 21:46456(R) (NYO-1984-11)
interactions at high energies, resonances in multiple-production, 22:44410
interactions at high energies, review of, 23:51871

interactions at high energies, review of Feynman diagram techniques for, 23:52019
interactions at high energies, review of field theoretic models for diffraction scattering and dissociation in, (T), 25:5320 (CONF-700314-, Paper 17)
interactions at high energies, review of particle models for backward (E/T), 25:30836
interactions at high energies, review of phenomenological Regge pole theory for, 23:46851
interactions at high energies, review of research at Physikalisches Staatsinstitut on, (E/T), 22:48202(R) (BMwF-FBK-68-01)
interactions at high energies, review of superconvergence relations for strong, 22:39358 (CERN-68-7(Vol.1), pp 441-59)
interactions at high energies, review of symmetry for, 22:39310
interactions at high energies, review of theorems on, (T), 25:17418
interactions at high energies, review of two-body, 23:15072
interactions at high energies, review of unitary symmetry for dispersion sum rules for, 23:49213
interactions at high energies, review of, (E), 23:46591
interactions at high energies, review of, (T), 24:20087
interactions at high energies, role of Regge poles and cuts in, 25:45738
interactions at high energies, semi-statistical model for, 23:23395
interactions at high energies, space—time structure in, 23:46634
interactions at high energies, statistical model for large-angle, 24:3785
interactions at high energies, statistical model of many-particle production from, 22:3365 (DESY-67/25)
interactions at high energies, statistical theory for multiple hadron production in, (T), 25:33577
interactions at high energies, status of, (T), 23:10768 (IFVE-STF-68-11-K)
interactions at high energies, strict conformal symmetry for mass-shell amplitudes of, (T), 25:14820 (RLO-1388-598)
interactions at high energies, strong, 22:3371
interactions at high energies, SU(3) statistical model for multiple particle production in, (T), 25:22857 (JINR-E2-5599)
interactions at high energies, sum rules from current identities for, 23:23400
interactions at high energies, symmetry and Regge poles for two-body inelastic, 21:27357
interactions at high energies, test of center-of-mass helicity conservation in diffractive, (T), 24:51986
interactions at high energies, theorems for, (T), 25:5303 (CONF-700314-, Paper 16)
interactions at high energies, theory of diffraction, 24:30473
interactions at high energies, time-longitudinal dilations and scaling behavior of, 25:43575
interactions at high energies, total differential cross sections and resonance production differential cross sections for inelastic, (T), 25:45687
interactions at high energies, transversity amplitudes for kinematics of two-body, 21:4006
interactions at high energies, uncorrelated jet model for inelastic, 22:24625
interactions at high energies, unusual topologies on space—time for, 21:27443
interactions at high energies, upper bound on total cross sections for, 25:53148
interactions at high energies, upper bounds for forward and fixed-momentum-transfer amplitudes for, 22:48380
interactions at high energies, use of overlap function for determining inelastic partial cross sections for, 22:3409 (INP-555/PL/PH, pp 101-12)
interactions at high energies, vacuum pole contribution to cross sections for particle production in inelastic, (E), 25:33586
interactions at high energies, violation of Pomeranchuk theorem on total cross sections for, 25:33581
interactions at high energies, violation of Pomeranchuk theorem and zeros of amplitudes for, 25:43576
interactions at high energies, violation of Pomeranchuk theorem in, 24:35723
interactions at high energies, zero charge in nonlocalizable theories for, 22:46509
interactions at high energy, polarization and complex conjugate Pomeranchuk trajectories for, 25:33871
interactions at high energy, space—time description of inelastic, 23:19016
interactions at high finite energies, rate of decrease of total cross sections for, 24:13190
interactions at high finite energies, relations between particle-and-antiparticle constant and increasing total cross sections and phase behavior for forward elastic, (T), 24:10755
interactions at infinite energy, violation of Pomeranchuk theorem in, 24:24339
interactions at intermediate energies, conference on, 25:53038 (UCRL-20655)
interactions at intermediate energies, equivalence of Regge and optical models for, (T), 25:59421 (COO-2009-30)
interactions at large momentum transfer in, inverse power decrease of vertex functions for, 24:3788
interactions at large momentum transfers, factorization quark model for, 22:41800
interactions at low and intermediate energies, conference on electromagnetic, 24:26366
interactions at low energies, amplitudes for three-body, 24:37950
interactions at low energies, enhancement factors for potentials with exponential tail for two-body final-state, (T), 21:44447
interactions at low energies, high-energy contribution to, 22:1398
interactions at low energies, one-particle exchange model for amplitudes of, 24:15505
interactions at relativistic energies, eikonal approximation for amplitudes of, 24:3787
interactions at relativistic energies, kinematic broadening in, 22:37394
interactions at rest, crossed-channel E(2) expansion of amplitude of, (T), 25:14753
interactions at superhigh energies, (T), 21:2389 (NP-16365)
interactions at ultra-high energies, expectations on properties of, (E/T), 24:35593 (SLAC-PUB-745)
interactions at ultra-high energies, review of Polish research on, 22:34823
interactions at ultrahigh energies, longitudinal momentum distribution of pion production in, 24:5283
interactions at very high energies, conference on, (E/T), 25:5244 (CONF-700314)
interactions at very high energies, multicluster model for spinless secondary production in, (T), 24:49353 (IFPTH-8/70)
interactions at very high energies, multicluster model for, 25:30755
interactions at very high energies, parton model for, (T), 25:5304 (CONF-700314-, Paper 18)
interactions at very high energies, review of cosmic particle experiments for study of, (E), 25:5245 (CONF-700314-, Paper 5)
interactions at very high energies, review of research on, 24:28639
interactions at very high energies, strong, 22:11645
interactions containing identical particles of arbitrary spin, nondynamical structure of, 24:37665
interactions in 10^4 GeV range, fireball model for particle multiplicity in, 23:8763
interactions in bootstrap model, Yang and Regge models for diffractive, 24:37740
interactions in bound system in spin singlet and triplet states, effects of U(3)-invariant, 21:46531
interactions in classical mechanics, relativistic, 23:46810
interactions in colliding beams, computer program for kinematic analysis of, 21:22133 (SLAC-72)
interactions in colliding beams, cross section energy and angular dependence measurement for, (E/T), 25:5360 (RLO-2041-51)
interactions in complex nuclei, Monte Carlo program for high-energy, 21:21146 (IA-975)
interactions in Coulomb field, Regge poles in, 22:41772 (JINR-P2-3866)
interactions in dual resonance models with second sheet resonances, effects of unitarity-like features in inclusive, 25:56476
interactions in dual resonance theory, exotic inclusive, 25:47888
interactions in early Universe, (T), 24:28061
interactions in eight-dimensional space, (T), 22:44348
interactions in electromagnetic fields, CP violation in, 21:25335
interactions in extended Lee model, renormalization constants for, 21:9728
interactions in external vector field, symmetric group of solutions of Klein—Gordon equation for, 22:15697
interactions in field of electromagnetic wave, (T), 21:23320
interactions in field, origin of scale constants for, 21:23313(R) (AD-644486)
interactions in flight, review of annihilation, (E/T), 24:5291
interactions in ladder model, Bethe—Salpeter amplitude and scattering Green function for, 23:8855
interactions in medium and heavy nuclei, theory of coherent and incoherent production of particles in, 22:39429
interactions in meson (π) and nucleon reactions with nuclei at high and superhigh energies, intranuclear cascades with multiple-particle, (T), 24:1616 (JINR-E2-4607)
interactions in Minkowski and Euclidean spaces, dynamics of unrenormalizable, 22:3504
interactions in multiperipheral model with absorptive corrections, self-consistent rising cross sections for, 25:28012
interactions in multiperipheral model, charged and neutral particle structure from, 25:30845
interactions in multiperipheral model, factorization of total cross sections for, 24:13046
interactions in multiperipheral model, multiplicity dependence of cross sections for, 25:47830
interactions in nonperturbative parton model, 25:28015
interactions in nuclear emulsions at 10^{11} ev, transverse-momentum distributions of secondaries from, (T), 21:8589
interactions in nuclear emulsions, (E), 22:40365
interactions in phi^3 theory, elastic and inelastic, 25:53291
interactions in potential model, soft-photon theorem for bremsstrahlung from, 23:3672
interactions in primordial Universe, (T), 25:22338
interactions in quantum electrodynamics, double-logarithmic asymptotics of amplitudes and cross sections for, 22:1478
interactions in quantum electrodynamics, time-symmetric, 24:37877
interactions in quantum field theory, quadratic, 22:1477
interactions in quantum gravitational fields, 24:5342
interactions in quantum phase geometry, 21:46492 (INR-824/VI/PH)
interactions in Regge pole model, cross sections for, 23:8762 (INP-622(Vol.1), pp 28-38)
interactions in relativistic quantum mechanics, 24:37892
interactions in SU(3) symmetry, review of dispersion sum rules for strong and electromagnetic, 22:11644 (ITF-67-13)
interactions in three-body system of, dynamical calculations for, (T), 24:52115
interactions in three-body systems of, behavior of Regge trajectories in, 21:15415 (UCRL-17250)
interactions in three-body systems of, N/D equations for, 21:15415 (UCRL-17250)
interactions in time-dependent electric field, Green functions in quantum kinetic equation theory for weak, 22:9560
interactions in two-body relativistic dynamical systems, no-interaction theorem for, 24:47388
interactions in two-particle system with spin 0 and 1/2, quasipotential equations for amplitude of, (T), 25:59422 (JINR-E2-6046)
interactions involving five, kinematics of, 23:3844
interactions involving pions, algebraic structure of matrix elements for, 24:28540
interactions involving spin-$^3/_2$ particles, uniqueness of, 25:33743
interactions involving virtual pions, current status of study on, 24:30522 (CONF-690521-, pp 533-61)
interactions mediated by vector bosons, models of weak, 22:50352
interactions near phase-space boundary, Feynman relation for particle production in inclusive, 25:59332
interactions near rho mass, rho—ω mixing in multichannel elastic, (T), 25:17484
interactions near three-body threshold, energy dependence of cross sections for, (T), 21:44448
interactions neutral scalar equal-mass, upper bounds of fixed-angle relativistic amplitudes for high-energy elastic, 23:8852 (LPTHE-TH-68/34)
interactions of, 23:18880 (NP-17766(Pt.3))
interactions of arbitrary mass and spin, at high energies, factorization of helicity amplitudes for, 21:21315
interactions of arbitrary mass and spin, high-energy bounds for helicity amplitudes of, 22:32226
interactions of arbitrary number of spinless, sum rules with crossing symmetry for partial waves for multivariable expansion of amplitude of, 24:42944 (NYO-3399-222)
interactions of arbitrary number of spinning, consistent multiple factorization of dual, (T), 24:47525
interactions of arbitrary spin and mass, current algebra sum rules for, 22:26584
interactions of arbitrary spin, general nondynamical formalism for, 21:13687
interactions of arbitrary spin, rotation invariance in general nondynamical formalism for, 21:2396
interactions of arbitrary spin, superconvergence relations for, 21:4128
interactions of arbitrary spin, with isovector photons, non-Abelian Compton, 23:7109
interactions of arbitrary, phase-space structure in nonlocal theory for quark model for two-body, 22:41864
interactions of arbitrary-mass and -spin kinematic constraints on helicity amplitudes for, (T), 24:10736
interactions of arbitrary-mass and -spin, constraints on partial waves of helicity amplitudes from analyticity, unitarity, and crossing symmetry in two-body elastic, (T), 25:1531 (SU-1206-231)
interactions of arbitrary-mass and -spin, crossing symmetry of partial waves, tests of crossing-symmetric models, and multivariable expansion of amplitudes for, (T), 25:59619
interactions of arbitrary-mass and -spin, crossing properties for sum rules with partial waves for two-variable expansion of amplitude for two-body, 24:8738 (SU-1206-209)
interactions of arbitrary-mass and -spin, crossing symmetry and sum rules for, 24:37942
interactions of arbitrary-mass and -spin, group theoretical approach to conspiracy in amplitude of two-body, 22:34869 (NP-17483)
interactions of arbitrary-mass and -spin, group theory for conspiracy problem in, 22:39361 (CERN-68-7(Vol.2), pp 45-54)
interactions of arbitrary-mass and -spin, O(3,1) functions for general expansions of amplitude for, 24:6765
interactions of arbitrary-mass and -spin, wave functions and irreducible representations of Poincare group for, 22:17987
interactions of arbitrary-mass and -total-energy, complete numerical solution for scalar Bethe—Salpeter equation for bound-state, 23:46853
interactions of arbitrary-mass spin-$^1/_2$ with spin-0, kinematic constraints for helicity amplitudes for spin-$^1/_2$ and spin-1 particle production in, (T), 24:10736
interactions of arbitrary-mass spinless, double partial-wave expansion of elastic, (T), 25:5310
interactions of arbitrary-mass, phase-space volume of angular correlations for three-body production in two-body, 24:21945 (JINR-P2-4914)
interactions of arbitrary-mass, phase-space volume of angular correlations for three-body production in two-body, (T), 24:42888(T) (LA-tr-70-15)
interactions of arbitrary-spin, behavior of diffraction peak in elastic, (T), 23:25537 (JINR-P2-4260)
interactions of arbitrary-spin, behavior of diffraction peak for, 23:32639
interactions of arbitrary-spin, canonical method for calculation of cross sections for, 23:25662
interactions of arbitrary-spin, conspiracy of singularities in j plane for, 22:35023
interactions of arbitrary-spin, construction of invariant amplitudes for, 23:3839
interactions of arbitrary-spin, Dirac quadratic equation generalization for vector and scalar, (T), 24:45452
interactions of arbitrary-spin, experimental restrictions in determination of invariant amplitudes of, 22:37098
interactions of arbitrary-spin, extension of axiomatic analyticity properties for superconvergence amplitudes for, 23:44726 (CEA-R-3827)
interactions of arbitrary-spin, Lorentz-covariant theory of gravitation for two-body, (T), 25:33837
interactions of arbitrary-spin, lower bound for width of diffraction peak in, 22:41753 (JINR-P2-3896)
interactions of arbitrary-spin, lower bound for width of diffraction peak for, 23:10774

interactions of arbitrary-spin, method for constructing phenomenological amplitudes for, 22:22330 (ITEF-538)
interactions of arbitrary-spin, nondynamical structure of collinear, (T), 25:40904 (RLO-2041-53)
interactions of arbitrary-spin, partial-wave expansion of density matrix for helicity amplitude of two-body, 24:43056 (CEA-N-1301)
interactions of arbitrary-spin, relativistic Schroedinger equation for electromagnetic, 22:11613
interactions of arbitrary-spin, retarded part of two-time Green function for relativistic amplitude and wave function of two-body, (T), 25:31014 (JINR-E2-5746)
interactions of arbitrary-spin, separation of natural and unnatural parity exchange in limit s → infinity for crossed channel of, (T), 25:53077
interactions of arbitrary-spin, superconvergence relations for, 22:37131
interactions of arbitrary-spin, unified treatment of regularized helicity amplitudes of, 23:46843
interactions of arbitrary-spin, with internal symmetry, 22:32075 (IS-1815)
interactions of arbitrary-spin, with photons, low-energy Compton, 23:15030
interactions of bound in composite system, linear trajectory in theory for, 22:5521
interactions of bound state, solutions of fourth-order Bethe—Salpeter equation for, 23:18975
interactions of bound states of order two, central potential, 21:23329
interactions of bound, integration of Schroedinger equation in imaginary time for three-body Coulomb, 22:9535
interactions of C and T noninvariance in electromagnetic, 22:13813
interactions of charged scalar, with scalar photon, wavepacket Volkov solutions for, 24:15526
interactions of charged, eikonals and Wu—Yang conjecture in quantum electrodynamics for, 24:37879
interactions of charged, in final or initial state, matrix element for arbitrary Coulomb, 23:39663
interactions of charged, possessing magnetic charges, 23:15022
interactions of charged, separation of infrared contributions to radiative corrections in, (T), 23:13063
interactions of covariant unstable, field theory for definition of creation and annihilation operators for, 22:39313
interactions of Dirac, inverse approach to Bethe—Salpeter equation for, 23:34551
interactions of Dirac, nonrelativistic quark model for bound-state, 22:32123
interactions of dynamic systems of, abstract generalizations for, 24:47391
interactions of equal- and unequal-mass, Bethe—Salpeter ghosts for daughter trajectories for, 23:49222
interactions of equal- and unequal-mass, higher symmetries of Regge poles for amplitudes of, 23:44737
interactions of equal-mass pseudoscalar, N/D equations for dispersion relations for two-body elastic, 21:27452
interactions of equal-mass spinless, dual amplitudes with cuts for two-body, (T), 24:45492 (IC-70/89)
interactions of equal-mass spinless, generalized hypergeometric functions for expansion of amplitude of two-body elastic, 24:3772
interactions of equal-mass spinless, superconvergence relations and gemel symmetry for O(4) amplitudes of, 23:42700
interactions of equal-mass, conspiracy and counterconspiracy in, 23:15257
interactions of equal-mass, equivalent potential for two-body strong, 22:15751
interactions of equal-mass, factorization and analyticity constraints for Regge trajectory family classification for, (T), 24:5348
interactions of equal-mass, generalized multipole expansions of amplitudes for inelastic, 23:13137 (NYO-3399-172)
interactions of equal-mass, little group with O(3,1) expansions for amplitude of forward, 24:6765
interactions of equal-mass, SU(1,1) for amplitudes of four-body, 23:23509
interactions of equal-mass, SU(1,1) for analysis of amplitudes of, 23:13136 (LPTHE-TH-68/33)
interactions of equal-time current—current commutators for sigma model in perturbation theory for, 22:39300 (JINR-P2-3827)
interactions of excited, general vertex function in dual resonance models for three-body, 23:49220
interactions of fermion, particle—antiparticle theory with SU(3) symmetry for group theory and dynamics relation and cross sections for two-body, 24:6737
interactions of free massless, symmetry properties of eight-component spinor fields in lattice space for, 23:34631
interactions of gauge properties of Galilei space in theory for, 23:5650
interactions of heavy-mass, production of above-10^{13} eV horizontal air showers from, (E), 25:12071
interactions of identical spinless, Hilbert—Schmidt expansion for solution of Faddeev equations with square-well potential for binding energies and scattering length for three-body, 24:26445 (ITF-69-91)
interactions of identical spinless, quasi-particle method for three-body Yukawa-potential, (T), 24:52069
interactions of identical, Feynman method for determining cross sections of, 24:26539
interactions of identical, linear equation for amplitudes of inelastic, 21:5361
interactions of identical, parastatistics for unified theory for, 22:5522
interactions of identical, theorem for, 25:3304
interactions of identical, theory of pionization in, 25:33672
interactions of identical-quantum-number, compositeness condition for two-body, 22:1396
interactions of infinite multiplets in quantum field theory, Feynman rules for, 22:9670 (JINR-P2-3606)
interactions of isotropic component of cosmic, limit for rate of direct μ production in strong, (T), 22:41821
interactions of many-body system of equal-mass, Schroedinger equation for, 22:1397
interactions of massive, at infinite momentum, helicity transformation for, (T), 25:19924 (JINR-E2-5579)
interactions of massive, in external field, generalized Talmi transformations for, 24:10693(R) (NYO-3829-42)
interactions of massless spinless, exact conformal invariance of S-matrix for, 24:3774
interactions of massless, analytic continuation in mass for coupling constants and amplitude of, 24:15685
interactions of massless, kinematic structure of helicity amplitudes for, 24:8744
interactions of massless, relativistic invariance without angular momentum conservation for two-body, (T), 23:15043
interactions of massless, relativistic kinematics of quasi-elastic, 23:3683
interactions of massless, superconvergence of amplitudes for, 21:46601
interactions of massless, with massless particles, cross sections for gravitational, (T), 25:43706
interactions of neutral spinless, at fixed momentum transfer, field theories with local observables for polynomial behavior of amplitudes of two-body, 24:1667
interactions of neutral spinless, functional methods in S-matrix theory for, 23:17005
interactions of neutral spinless, N/D equations with Regge-pole inelasticity for partial-wave calculations for, 24:15502
interactions of neutral, Blatt and Biedenharn formula in computer programs for analysis of elastic, 22:22328 (EUR-3744)
interactions of neutral, with electromagnetic fields, CP violation and electric current structure for, 22:9562
interactions of nonrelativistic spinless, analyticity of amplitudes for three-body, 23:32856
interactions of nonrelativistic spinless, Jost function for two-channel, 24:10850 (ITF-69-65)
interactions of nonzero rest-mass, Green functions in theory of local unrenormalizable, 24:10695
interactions of one-dimensional fermion system of, Coulomb, 21:21162
interactions of partially polarized, optical theorem formulation for imaginary part of all nonvanishing forward spin amplitudes of elastic, 24:33056
interactions of particles and antiparticles, complex Regge trajectories for amplitudes with constant and different asymptotic cross sections for, (T), 25:41108 (COO-264-577)
interactions of particles and antiparticles, high-energy relations for amplitudes of, 22:9529
interactions of particles and antiparticles, properties of amplitudes not satisfying Pomeranchuk theorem for, 25:25347
interactions of particles with spin, Treiman-Yang criterion for, 21:4040
interactions of planckeons with nucleons, (T), 21:5031
interactions of point, classical relativistic angular momentum for, 22:39306
interactions of polarized spin-1/2, calculation of probabilities for, 22:48385
interactions of pseudoscalar and vector, daughter poles and conspiracy in, 23:5598
interactions of relativistic, 24:28638
interactions of relativistic spinless, via two-body Yukawa potentials, amplitudes for three-body, 22:3547
interactions of relativistic systems of, (T), 25:25354
interactions of relativistic, energy spectra of, 21:888
interactions of relativistic, field theoretic model with persistent vacuum for, 24:52236
interactions of review of superconvergence sum rules in current algebra for, 24:35620
interactions of scalar and pseudoscalar unit-mass identical, estimates of unitarity integral for elastic, 25:3300
interactions of scalar particles and antiparticles with scalar targets, breakdown of Pomeranchuk theorem and behavior of leading J-plane singularity for, (T>, 25:7578
interactions of scalar zero-charge, with photons, review of gauge invariance for amplitudes of 2π production in, 25:53073
interactions of scalar, approximate method for solving quasipotential equations for amplitudes of, (T), 25:45795 (JINR-E2-5833)
interactions of scalar, Bethe—Salpeter equation analysis of amplitude of, (T), 25:25341 (JINR-E2-5640)
interactions of scalar, infrared graviton emission from two-body, 24:47507
interactions of scalar, out of mass surface, expansion of invariant amplitudes of two-body, 25:1597 (JINR-P2-5304)
interactions of scalar, Regge daughter poles in, 23:5598
interactions of scalar, use of Yang—Mills field theory for studying, 21:31565
interactions of scalar, with massive vector field, nonrenormalized propagator of, 21:27427
interactions of scalar, with spin-$^1/_2$ particles at high energies, unitary condition for amplitude of elastic, (T), 25:25338 (IFVE-STF-70-1)
interactions of scalar—spinor, Bethe—Salpeter equation for, 23:46794
interactions of slow, noncentral potential for resonance, 21:9855
interactions of spin-$^1/_2$, with scalar or pseudoscalar bosons, infinite-momentum limit of spinor field theory for, 24:13144
interactions of spin-$^3/_2$, with photons, low-energy theorems for Compton, 24:15517
interactions of spin-0 and -$^1/_2$ identities among observables for, 21:33637
interactions of spin-0 and -$^1/_2$, quasipotential equation for configurational representation and relativistic spherical spinors for, (T), 25:25342 (JINR-P2-5605)
interactions of spin-0 and -1/2, nonlocal potentials for two-body elastic, 24:18102
interactions of spin-0 and -1/2, with photons, amplitudes for, (T), 23:8775
interactions of spin-0, parametrization of trajectory and residue functions for daughter Regge poles for, 23:15249
interactions of spin-1 and spin-0, Regge slopes and residues in O(4) symmetry and Bethe—Salpeter model for, 25:7719
interactions of spin-1 with spin-0, nondynamical structure of inelastic, (T), 21:13742
interactions of spin-1/2, five-dimensional Coulomb, 24:3586
interactions of spin-1/2, non-Fredholm Bethe—Salpeter equations for, 23:25694
interactions of spin-1/2, quasi-potential equations for relativistic scattering amplitude and wave function of, 22:32221
interactions of spin-1/2, with eliptically polarized photons, Compton, 22:26610
interactions of spin-1/2, with gravitational and electromagnetic fields, bound-state solutions for, 24:6763
interactions of spin-1/2, with vector mesons, consequences of infinite mass renormalization for, 22:35005
interactions of spin-3/2, with photon, differential and total cross sections for Compton, (T), 25:5329
interactions of spin-one, with photons, invariant amplitude for Compton, 23:15028
interactions of spin-zero and spin-$^1/_2$, continuous-spin pole exchange in, 25:30892
interactions of spinless bound-state, Bethe—Salpeter equation for, 23:18977
interactions of spinless equal-mass, field theory and S-matrix theory for decomposition into one-particle reducible and irreducible parts for amplitudes of, 24:5259 (NYO-2262-TA-166(Rev.))
interactions of spinless equal-mass, finite-energy sum rules from multiple-scattering model for Regge cuts for two-body, 23:42762
interactions of spinless equal-mass, model for Pomeranchuk terms for, (T), 24:37753 (LNF-69/71)
interactions of spinless equal-mass, Regge pole duality and uniqueness of generalized Veneziano amplitudes for, 24:40499
interactions of spinless equal-mass, upper bound for partial-wave amplitude for, 23:51918 (ITF-69-40)
interactions of spinless particle with arbitrary-spin, superconvergence relations for forward elastic, 22:5672
interactions of spinless relativistic, evaluation of partial-wave unitarity integral for N/D method for, 22:34874
interactions of spinless relativistic, phase operator and S-operator for two-channel, 24:15678 (INP-681, pp 103-25)
interactions of spinless scalar equal-mass, constant bound for total cross sections for amplitudes of, 24:37964
interactions of spinless scalar, existence of Lorentz poles in Bethe—Salpeter model of, 23:15264
interactions of spinless scalar, Froissart—Gribov representation constraints on partial-wave amplitudes for, 25:7651
interactions of spinless stable, at high energies, bootstrap calculation of self-consistent asymptotic behavior of amplitudes of two-Reggeon production from two-body, 23:51915
interactions of spinless, amplitude for bremsstrahlung emission in, 24:52011
interactions of spinless, Bethe—Salpeter equation for Regge daughter poles at nonvanishing energy for, 24:1533
interactions of spinless, Bethe—Salpeter equation in ladder approximation for, 22:35104
interactions of spinless, causality and Lorentz invariance in relativistic quantum mechanics in Hamiltonian for, 24:28587 (UCSD-10-P-10-69)
interactions of spinless, coherent, (T), 21:4003 (INP-494/PL/PH)
interactions of spinless, complete system of equations for nonrelativistic S-matrix theory for two-body separable, (T), 25:22908
interactions of spinless, correlations among s-amplitudes and cross sections for, 22:22475
interactions of spinless, derivation of projection formulas for O(2,1)-invariant off-shell functions for two-body, 23:30826 (NP-17884)
interactions of spinless, dual resonance models with residues having maximum fixed finite number of logarithmic poles for amplitudes of, (T), 25:17489
interactions of spinless, duality for, 23:49118 (CALT-68-218)
interactions of spinless, exactly soluble model of relativistic invariant and local quantum field theory for amplitude of two-body, 24:15638 (NYO-3829-43)
interactions of spinless, Feynman diagram models for asymptotic behavior and duality without ghosts in two-body elastic, (T), 25:50079 (COO-1764-121)
interactions of spinless, formula for overlap function in multi-Regge-exchange model for two-body elastic, 23:42584
interactions of spinless, function integration method for validity of eikonal approximation in quantum field theory for amplitude of two-body, 24:1637 (JINR-E2-4692)
interactions of spinless, infrared divergences in graviton bremsstrahlung from, 23:42751
interactions of spinless, nonrelativistic time-dependent theory for Coulomb potential in two-body, (T), 25:14624
interactions of spinless, O(2,1) symmetry for convergence of multiperipheral series for two-body, 24:5324 (NP-18078)

interactions of spinless, Pade approximant for partial wave integral equation for two-body, 21:27445
interactions of spinless, partial-wave expansion in crossed channel for Galilean-invariant amplitudes of two-body elastic, 23:39630
interactions of spinless, properties of Freedman—Wang amplitudes for, 22:5676
interactions of spinless, quasipotential theory for two-body elastic, (T), 25:53281 (IC-71/75)
interactions of spinless, Regge trajectory derivative from unitarity for positivity of absorptive part of operator for two-body, 24:8620
interactions of spinless, separable expansion of two-body t matrix for three-body, 23:30763 (ITF-69-8)
interactions of spinless, singularities of conformal-invariant elastic, 23:46857
interactions of spinless, stationary phase method in potential theory for, 21:46605
interactions of spinless, SU(3) representations for partial-wave expansion of amplitudes for elastic, 23:15157
interactions of spinless, T-matrix for Faddeev equation solutions for dependence of binding energy on coupling constant for Yukawa potential three-body, 23:49209
interactions of spinless, through massive scalar field, Bethe—Salpeter equation for, 22:53021
interactions of spinless, with gravitons, Schwinger source theory for, 24:24439
interactions of spinning, dual multi-Veneziano amplitudes of, (T), 25:14586
interactions of spinning, lightlike, continuous-spin, and spacelike representations of Poincare group for analysis in Lorentz partial waves of amplitudes of, (T), 25:59532
interactions of spinning, Lorentz basis of Poincare group for timelike, lightlike, and spacelike momenta for partial-wave analysis of amplitudes of, (T), 25:59533
interactions of spinning, O(4) symmetry properties of amplitudes of, (T), 25:14757
interactions of spinning, transversity amplitudes for, (T), 24:32980
interactions of spinor particle with arbitrary potential, eikonal representations for amplitude of, 24:47511 (JINR-P2-5150)
interactions of spinor, with photons, asymptotic behavior of vertex function in theory of nonrenormalizable CP-noninvariant, 22:7538 (JINR-E2-3557)
interactions of stable, conditions for allowed mass distributions of unstable particles from, 22:48246
interactions of system of, with quantized scalar field, energy renormalization for, 24:18282
interactions of system with bound states, three-body, (T), 24:45446 (DESY-70/29)
interactions of systems of, application of displacement and collective variables method to Schroedinger equation for, 21:42280
interactions of systems of, momentum eigenvalue equation in first-order perturbation theory for, 22:9712
interactions of three multiplets of, symmetry algebras and groups for, 21:29588
interactions of three point, maximum number of binary, 22:20169
interactions of three-body bound-state systems of, general approach to, 21:33562
interactions of three-identical, exact solution of Faddeev equations for one-dimensional, 24:15696
interactions of two Dirac spinor, model with harmonic oscillator structure for linear, 25:27973
interactions of two spin-$^1/_2$, off-shell unitarity for amplitude of, 21:29639
interactions of two spinless distinguishable, impact parameter formalism for, (T), 23:17006
interactions of two spinless equal-mass, N/D equations with marginally singular kernels for P-wave elastic, 23:42768
interactions of two spinless equal-mass, one-channel N/D equations in pole approximation for elastic, 23:42769
interactions of two spinless, best error bounds for Pade approximants to Stieltjes convergent series for s-wave amplitude of, 23:30838
interactions of two spinless, group-theoretical approach to multiperipheral model for, 24:13038
interactions of two spinless, multiple poles in amplitudes for, 23:39841
interactions of two unequal-mass, relativistic three-dimensional equations for, 23:3658 (JINR-E2-4030)
interactions of unequal mass spin-1/2, Bethe—Salpeter equation solution for, (T), 22:50361
interactions of unequal mass, daughter Regge trajectories for, 23:7188
interactions of unequal-mass nonzero-spin, Regge conspirators and daughter trajectories in, 22:46546
interactions of unequal-mass scalar, multiple Regge poles in backward, 23:39840
interactions of unequal-mass, analyticity constraints and residue functions of E_2 pole exchange for, 25:31027
interactions of unequal-mass, at high energies, O(4) symmetry expansion for amplitudes of forward, (T), 25:22911
interactions of unequal-mass, cancellation of singularities of Regge pole terms for, 23:39851
interactions of unequal-mass, conspiracy problem in Regge pole theory for, 22:48379
interactions of unequal-mass, O(4) group expansion of helicity amplitudes of high-energy forward, (T), 24:52080
interactions of unequal-mass, perturbation method for bound-state solutions to Bethe—Salpeter equation in Wick—Cutkosky model for, 23:52013
interactions of unequal-mass, Regge poles for amplitude of, 21:19069
interactions of unequal-mass, Regge representation for forward, 23:30830
interactions of unequal-mass, Regge trajectories for amplitudes of backward region of, 21:15423
interactions of unequal-mass, Regge-pole formulas for elastic, 21:975
interactions of unequal-mass, relativistic model of daughter Regge trajectory for, 21:27459
interactions of unequal-mass, representations of Euclidean group E_2 for t = 0 amplitudes of, 23:46747
interactions of unequal-mass, shadow trajectories in Regge-pole model for, 21:19077
interactions of unequal-mass, singularities of Bethe—Salpeter amplitudes for, 22:44505
interactions of unequal-mass, SL(2C) classification of Regge poles for amplitudes of, 23:39854
interactions of unstable, 25:59616
interactions of unstable, anomalous real parts in T matrices for, (T), 24:40359
interactions of unstable, field operator for, 23:8837 (JINR-E2-4149)
interactions of unstable, Lee model and extended LSZ formalism for, 24:35694
interactions of unstable, quantum field theoretic description for, 25:50176
interactions of urfermions, ground state in lattice space for, 21:37917
interactions of zero-mass and infinite-spin, quantum field theory for amplitudes of, (T), 25:45780
interactions of zero-spin, equal-mass, upper bound on absorptive part of elastic, (T), 25:59630
interactions of, 2V sector of Lee model for, 22:35077
interactions of, absorption corrections in double peripheral model for, 23:5602
interactions of, absorption peripheral model for baryon exchange in, 22:11686
interactions of, absorptive Regge cuts from Feynman diagrams for, 23:52023
interactions of, algebra of currents for, 21:33665
interactions of, algebra of currents on light cone for, 23:15013
interactions of, algebra of observed current operators for, 22:41765
interactions of, algebra of polarizations for gauge fields for, 23:30724
interactions of, algebraic approach to solution of one-dimensional model of n-body, (T), 25:30759
interactions of, Amati—Stanghellini—Fubini multiperipheral model for, 24:47432
interactions of, amplitude for soft graviton emission in, 25:7739
interactions of, amplitude in V-THETA sector of Lee model for three-body, 21:15425
interactions of, analysis of background in resonance-production region of inclusive, 25:47834
interactions of, analysis of high-energy jets from, 23:10800
interactions of, analysis of microcausality for, 22:24571(T) (LA-tr-68-6)
interactions of, analytic continuation for calculation of perturbations in strong, 22:50364
interactions of, analytic expressions for phase shifts for short-range potentials for, 24:3700
interactions of, analytic function method for properties of strong forces from nonrelativistic, self-consistent, vector, (T), 25:40908
interactions of, analytic function representation of differential cross sections for parameters of amplitudes of, 23:46844
interactions of, analytic properties and unitary conditions for upper bound of decrease of differential cross sections of multiple production with energy increase in, (T), 25:25340 (IFVE-STF-70-43)
interactions of, analytic properties of certain radial matrix elements for electromagnetic, 22:34917
interactions of, analytic properties of class of nonlocal, 22:44349
interactions of, analytic properties of current algebra vertex functions for, 22:50317
interactions of, analytic properties of partial-wave S-matrix for, 24:18308
interactions of, analytic properties of scalar vertex function for, 25:30770
interactions of, analyticity in momentum transfer of amplitudes for elastic, 22:20359
interactions of, analyticity in momentum transfer of short-range, 21:25352
interactions of, angular distributions and polarizations in three-body, (T), 25:1641 (LYCEN-7046)
interactions of, angular momentum reduction of Faddeev equations for two-body and three-body, 23:30844
interactions of, anomalous properties of axial vector current for, 23:25535 (CERN-69-7, pp 361-9)
interactions of, anomalous thresholds as limits of complex singularities in, 21:4114
interactions of, application of Riemann method to Bethe—Salpeter equation for two-body, 22:34885
interactions of, applications of current algebra for, 24:35622
interactions of, approximate models for three-body, 21:46599
interactions of, approximate saturation of axial current algebra for, 21:19034
interactions of, approximation method for amplitudes of three-body, 22:15865
interactions of, approximations for calculating radiative corrections for real photon emission in, 22:34910
interactions of, asymmetry moments of angular distributions for, 22:24577
interactions of, asymmetry moments of angular distributions of resonance production in two-body, (T), 22:22380 (INR-P-868/VII/PH)
interactions of, asymptotic behavior of cross sections for, 25:3455
interactions of, asymptotic behavior of current algebra sum rules for, 22:20162
interactions of, asymptotic behavior of Stieltjes transforms for dispersion relations for, 21:44296
interactions of, asymptotic behavior of vertex functions at large momentum transfer for, 23:46808
interactions of, asymptotic creation and annihilation operators for, 21:2400
interactions of, asymptotic equalities of cross sections of multiple production from two-body, (T), 23:13047
interactions of, asymptotic lower bound for amplitude phase in t-plane for, 23:37020
interactions of, asymptotic representation of three-body wave function for, 23:42588
interactions of, axiomatic field theory for validity of current algebra for, 22:22340
interactions of, Bakamjian—Thomas theory and Serber model for, 21:19076
interactions of, Bethe—Salpeter equation for exact solution of relativistic two-body separable, 22:39301 (JINR-P2-3865)
interactions of, bilinear expressions for fields with 2(2s + 1) components for, 23:21064
interactions of, biperipheral model for, 22:20157 (INP-555/PH, pp 121-39)
interactions of, book on dynamics of three-body, 22:13688
interactions of, bootstrap and N/D techniques for, 21:2389 (NP-16365)
interactions of, bootstrap equations and static models for strong coupling in, 22:13742
interactions of, Bose—Einstein symmetrization for Goldhaber effect in, (T), 25:30763
interactions of, branching points in amplitude of three-body production from two-body multiperipheral, (T), 24:24260
interactions of, building of dual diagrams from unitarity and Veneziano amplitude of multibody, 23:49219
interactions of, C, P, and T invariance for, (T), 22:41833
interactions of, C-invariance violation in, 25:33792
interactions of, calculus for bootstrap dynamics of, 21:5383 (AD-637560)
interactions of, canonical form factors and current commutation relations for, 21:44297
interactions of, causality and anticausality for duration times of two-body, 23:23389 (ITF-68-82)
interactions of, causality and collision-process lifetimes for, 23:49224
interactions of, causality conditions for analytic properties of S-matrix for two-body, 22:20346
interactions of, causality in S-matrix theory for four- and seven-body elastic, 23:42767
interactions of, causality in space—time description of, (T), 25:25358
interactions of, Cayley equations of reducible Feynman diagram for, 22:3542
interactions of, CDD cuts for dispersion relation as integral equation for inelasticity coefficient for, 24:10849 (ITF-69-39)
interactions of, channel approach and formal theory for, 21:2524
interactions of, chiral algebra and dynamics for, 22:48252
interactions of, chiral dynamics for four-fermion weak, 22:29678
interactions of, CHN universality for relations between cross sections for strong, 23:15289
interactions of, classical electrodynamics as properties of momentum space for, 24:37668
interactions of, coherent production processes for, 23:10783
interactions of, combinatorial feature of Feynman graphs for, 21:21147
interactions of, compilation of coupling constants and low-energy parameters for, 25:7565 (CONF-690608-, pp 411-15)
interactions of, compilation of coupling constants and low-energy parameters for, 24:49364
interactions of, compilation of coupling constants and low-energy parameters for, 24:15551
interactions of, complete set of equations for nonrelativistic S-matrix for amplitudes of two-body separable, (T), 25:53374
interactions of, complete set of solutions of Wick—Cutkosky model for treatment of Bethe—Salpeter equation for mass = 0 bound-state, 23:46854
interactions of, complex helicity and Sommerfeld—Watson transformation of group-theoretic expansions of function defined on SO(3) and SO(2,1) symmetry for Reggeon vertex functions for amplitudes of two-body, (T), 25:22860
interactions of, complex negative-signature trajectories for violation of Pomeranchuk theorem in, 25:43715
interactions of, complex unitary spins in extended symmetry model for, 22:20292
interactions of, compositeness and fixed poles for weak, (T), 22:22372
interactions of, computer program for relativistic kinematics and dynamics of two-body, 22:24580
interactions of, computer program for symbolic analysis of Feynman diagrams for, 24:32976
interactions of, conditions for bound state formation in, review, (T), 24:17665
interactions of, conference on, 22:32079
interactions of, conference on, 23:15007
interactions of, conference on duality Reggeons and resonances in, (T), 25:7580
interactions of, conference on electromagnetic, 22:22342 (CONF-670923)
interactions of, conference on SU(3) symmetry for couplings in, 22:37170 (CONF-670725)
interactions of, conference on Y* production in, (E/T), 25:25432
interactions of, conference on, (E/T), 22:39394 (CERN-68-7(Vol.2))
interactions of, conference on, (E/T), 25:7563 (CONF-690608)
interactions of, conjectured set of exact bootstrap equations for amplitudes of, 23:49061 (CALT-68-221)
interactions of, consequences of internal symmetry crossing matrices for, 22:13861 (COO-1573-31)
interactions of, conservation of six-component angular momentum in Wheeler and Feynman theory for electromagnetic, 23:15037

interactions of, consistency of current commutators for, 21:46496
interactions of, consistent bootstrap in axiomatic field theory for masses and coupling constants of, (T), 23:13126
interactions of, consistent relativization of SU(6) for two-body, 21:4085
interactions of, constraints on angular momentum of t-channel exchanges from s-channel helicity conservation in elastic, 25:30757
interactions of, construction of class of skew-symmetric irreducible representations of current algebra for, 23:44610
interactions of, construction of Green functions in momentum space for unrenormalizable, 23:1679
interactions of, construction of scattering amplitude from differential cross sections for, 23:10861
interactions of, continuation in complex angular momentum of amplitudes of three-body, 22:22466
interactions of, continuation of three-particle integral to complex angular momentum for production amplitudes of, 21:15416
interactions of, continuity equation for scalar Riemann curvature of space—time for μ/m and α for ratio of strong and electromagnetic, 22:34919
interactions of, contribution of dilatation symmetry breaking to, 22:29750
interactions of, correlation between transcendental and polynomial Lagrangians for, 23:3664
interactions of, correlation effects for many-body final states in, (T), 25:30837
interactions of, correspondence of equations of multiperipheral and multireggeon theories of inelastic, 24:37937
interactions of, counter experiments with kinematic separation of three-particle final states in, 25:5318
interactions of, coupling of two-Reggeons with spinless particle for Reggeon-cut, 23:51914
interactions of, covariant formalism for calculating Reggeized differential cross sections for, 24:18098
interactions of, covariant quark model sum rules for strong interaction renormalization effects in semi-leptonic, 24:10704
interactions of, covariant spin operators and transformations for, 23:18827
interactions of, CP violating weak currents in, 22:22424
interactions of, CP violation in three-triplet model for weak, 22:35053
interactions of, CP violation in weak, 22:9654
interactions of, cross sections for, (T), 21:11392 (N-66-23601)
interactions of, cross sections in terms of local observables for, 21:17176
interactions of, crossing Hermitian analyticity and connection between spin and statistics for, 23:1710
interactions of, crossing matrices for fundamental triplet in SU(3) symmetry for, 22:20291
interactions of, crossing symmetry and time reversal invariance for helicity amplitudes of two-body, 21:4079
interactions of, crossing-symmetric Sommerfeld—Watson transformation of two-variable expansion of amplitudes for, 23:44736
interactions of, current algebra and additivity hypothesis for amplitudes of, 22:13732 (ITF-67-33)
interactions of, current algebra and algebra of fields for spectral function sum rules for, 22:44340 (IC-68/61)
interactions of, current algebra and broken symmetry for leptonic and semileptonic weak, 22:5621
interactions of, current algebra and broken-symmetry relations for, 21:21275
interactions of, current algebra and non-Regge behavior of weak amplitudes for, 21:33681
interactions of, current algebra and PCAC for, 22:9565
interactions of, current algebra description of strong interactions as mediator of weak, 22:5549
interactions of, current algebra for, 22:20155 (INP-555/PH, pp 5-42)
interactions of, current algebra for, 22:20171
interactions of, current algebra for, 21:40254
interactions of, current algebra for sum rules for, 22:7535
interactions of, current algebra for sum rules for spectral functions for, 23:39635
interactions of, current algebra for superconvergence sum rules for, 21:46594
interactions of, current algebra for vertex functions for, 22:1399
interactions of, current algebra model with nontrivial mass spectra for, 22:20167
interactions of, current algebra relation between PCAC and vector meson dominance for, 21:2401
interactions of, current commutation relations for, 21:46504
interactions of, current density algebra sum rules in general infinite momentum limit with multiple integral representations of current correlations for, 24:18099
interactions of, current divergences for electromagnetic and semi- and nonleptonic weak, 22:32099
interactions of, current x current hypothesis and $\Delta S = \Delta Q$ rule for weak, 22:17919
interactions of, current x current theory for CP violation in weak, 22:35056
interactions of, current-algebra sum rules and dynamics for, 21:11763
interactions of, currents and symmetry breaking in field theoretic model for, 22:3478
interactions of, cusped vertex Landau curve for, 21:33636
interactions of, Dalitz plots for many-body, 23:23392 (JINR-P1-4279)
interactions of, daughter poles in Reggeized helicity amplitudes at $s = 0$ for, 24:15691
interactions of, definition and interpretation of multipath operators for relativistic, 23:52017
interactions of, derivation of currents from Lagrangian for, 24:3557
interactions of, description in terms of irreducible representations of dynamical group of nonrelativistic, 23:1607
interactions of, description using droplet particle model, (T), 22:7637(R) (COO-1573-33)
interactions of, design of large plastic scintillation detectors for missing mass studies of, 23:47821
interactions of, determination of energy-dependent potentials for, 22:15699
interactions of, determination of invariant amplitudes from experimental observables for, 23:30837
interactions of, difficulties in Fermi and vector boson theories of weak, 22:22370
interactions of, diffractive Pomeron bootstrap for inclusive, 25:40976
interactions of, dips in differential cross sections of two-body forward, (T), 24:40356
interactions of, Dirac and Schroedinger theory for equations for scattering lengths for, (T), 25:50083
interactions of, Dirac bispinor form of Maxwell's equations in theory of, 21:852(R) (AD-632417)
interactions of, Dirac equations in lattice space for, 21:17066
interactions of, Dirac formalism for arbitrary spin in S-matrix theory for, 23:1707
interactions of, Dirac matrix and tensor algebra in computer subroutines for, 22:22339
interactions of, direct and crossed Watson terms for three-body final-state, (T), 25:1655
interactions of, direct generation of Monte Carlo final states for, 21:21150
interactions of, discontinuities of triangle-graph amplitudes for three-body, 21:7473
interactions of, discrete operations for parity in, (T), 24:49552
interactions of, dispersion relations for form factors for amplitudes of, (T), 25:3461
interactions of, dispersion relations in one-boson Lee model for, 21:17070
interactions of, dispersion sum rules for, (T), 25:17411
interactions of, dispersion theoretic perturbation series for, 21:9752
interactions of, divergence conditions and equal-time current—current commutators for, 21:18953
interactions of, double bootstrap theory of, (T), 21:7490 (UCRL-14498-T)
interactions of, double Regge model for density matrix elements in single-particle production, 22:35138
interactions of, double-peaked structure in amplitude for resonance, 23:5601
interactions of, dual amplitudes for six-body π production in, (T), 25:12131
interactions of, dual resonance models for single-particle production cross sections in two-body, (T), 25:45684 (NYO-2262-TA-239)
interactions of, duality and triple Pomeron vertex for diffraction dissociation, 25:38726
interactions of, duality compatibility with conservation of t-channel helicity in diffractive dissociation, (T), 25:36595
interactions of, duality for triple Reggeon coupling relation with low missing-mass spectrum in diffraction dissociation in two-body, (T), 25:36420 (UCSD-10-P-10-78)
interactions of, dynamic conditions for Regge poles in, 21:4064
interactions of, dynamic separation of resonance term from background term in multichannel amplitudes of, 22:50469
interactions of, dynamic theory of strong, 21:18974
interactions of, dynamics at high momentum and vertex functions of spinor electrodynamics for, 22:46507
interactions of, dynamics of strong, (T), 21:18969 (NP-16640)
interactions of, effect of perturbing potential on amplitude and bound-state energy of three-body, 22:37205
interactions of, effect of phases of inelastic scattering matrix elements on width of diffraction cone and uncorrelated jet model in central elastic, 24:8740
interactions of, effective Lagrangians with chiral symmetry for, 23:8760 (COO-1764-10)
interactions of, effective mass spectrum for arbitrary cascades from, 21:18940 (JINR-P2-3162)
interactions of, effects of reaction mechanism and phase-space in cross sections for many-body, 25:14594
interactions of, effects of self-energy terms in Bethe—Salpeter equation for elastic and inelastic, 21:33767
interactions of, effects of SU(3) x SU(3) breaking on amplitudes for weak nonleptonic, 22:46488
interactions of, eigenchannel representation for doubled resonances in, 24:35716
interactions of, eigenvectors of partial-wave crossing matrices for, 23:5711
interactions of, eikonal approximation for inelastic, 25:59330
interactions of, electromagnetic corrections to weak $\Delta S = 0$ vector coupling constant for, 21:25265
interactions of, electromagnetic two-body, 22:44369
interactions of, elimination of t-channel threshold singularities from differential cross section for, 22:35163
interactions of, energy dependence of probability of three-body inelastic, (T), 23:8814 (JINR-P2-4176)
interactions of, energy poles from infinite daughter series contribution to amplitude of, 23:46842
interactions of, enhancement of acausal effects in multiple scattering in, (T), 25:17596
interactions of, enveloping algebras of Lie algebras for, 22:13686
interactions of, equal time commutators of renormalized current operators in perturbation theory for, 21:11804 (DESY-66/24)
interactions of, equal-time commutator and zero-energy theorem in Lee model for, 22:3301
interactions of, equal-time current commutators for, 22:7457
interactions of, equal-time current—field and current—current commutators for, 24:3554
interactions of, equation for four-particle amplitude in terms of two-particle amplitude, 21:2399
interactions of, equation for relativistic amplitude of two-body, 21:46591 (ITF-67-7)
interactions of, equations with connected kernels for T operators for n-particle, 21:33783
interactions of, equivalence between velocity-dependent and static potentials for one-channel two-body, 23:52028
interactions of, equivalent potential approach for masses and widths of rho and f° and $I = 0$ and 1 Regge trajectories in two- and many-body, (T), 25:36422
interactions of, equivalent-potential approach using Bethe—Salpeter and unitarity equations for strong, 23:15071
interactions of, exact relations with data for potential nonrelativistic S-wave two-body, 24:28635
interactions of, exact solution of half-space problem for small-angle multiple, 24:6769
interactions of, existence theorem with Euclidean Green functions for summation of Feynman-diagram, contributions to, 22:22331 (ITF-67-48)
interactions of, expansions of finite groups for strong, 22:9658
interactions of, experimental consequences of form factor analyticity for, (T), 22:20159 (JINR-E2-3729)
interactions of, experimental determination of fireball lifetime for, 22:24626
interactions of, experimental evidence against angular momentum nonconservation in weak, 22:50342 (UCRL-18399)
interactions of, experimental status of C, P, and T invariance in, 22:24692
interactions of, experimental test of Pomeranchuk-like theorem for, 25:7627
interactions of, explicit dual operator representation for N-particle amplitudes of, 24:26521
interactions of, extension of current algebra on light cone for, 22:46345 (JINR-E2-3990)
interactions of, extension of Low soft-photon theorem for radiative cross sections for, 22:9551
interactions of, extension of Veneziano form to N-body, 23:15281
interactions of, exterior wave function for three-body production in, 24:3553
interactions of, extremal value for cross section of differential elastic, 21:5423
interactions of, Faddeev equations with inelastic processes in two- and three-body, 21:9858
interactions of, Faddeev part in integral equations for six-point Green function for three-body, 23:52016
interactions of, Fadeev formalisms for angular distributions and polarizations in three-body, 25:33579
interactions of, fermions and mesons in meromorphic mathematically dual amplitudes of, (T), 25:22719
interactions of, field theory for, 23:15217
interactions of, field theory for strong, 22:18000
interactions of, field theory with infinite multiplets in SU(2,2) symmetry for, 22:20283
interactions of, field—current identities for CP violation from electromagnetic, 22:5619 (NYO-1932(2)-127)
interactions of, fine-structure constant as universal scaling factor for, 25:33631
interactions of, finite solutions for nonrenormalizable, 21:21151
interactions of, finite-particle representations for states of canonical commutation relations for, 21:25347
interactions of, finite-transform sum rules for, 24:28557
interactions of, five-point unitarized Veneziano formula for two-body, 25:1650
interactions of, fixed poles in J plane for, (T), 23:14997
interactions of, fixed-angle limit in inclusive, 25:36421
interactions of, formal multiperipheral integral equation based on Veneziano model for, 24:37935 (RLO-1388-574)
interactions of, formal properties of solution to radiationless relativistic Kepler problem for, 22:34872
interactions of, formulation of action-at-distance field theory for, (T), 25:56550 (ORO-3992-14)
interactions of, formulation of renormalizable theory for weak, 22:9563
interactions of, Fourier transforms in nonpolynomial harmonic oscillator model for, (T), 25:50081 (ORO-3992-53)
interactions of, functional for identification of resonance-production, 23:36854 (JINR-P1-4419)
interactions of, G_2 symmetry for, 21:19036
interactions of, Galilean-invariant theories at infinite momentum for relativistic, 23:15002
interactions of, gauge transformations for generalized multipole-moment operators for, (T), 24:51994
interactions of, general class of cut-off model field theories for, 24:10819
interactions of, general duality predictions for inclusive, 25:30758
interactions of, general sum rules and form of equal-time commutator for, 22:3300
interactions of, general treatment of current algebra for, 22:3298
interactions of, generalization of Cook formalism for Fock space for two-body Yukawa, (T), 25:59580
interactions of, generalization of one-coupling-constant theory for multichannel, 21:25353
interactions of, generalization of quantum mechanics in Feynman formulation for, 22:1479
interactions of, generalized current algebra for Regge poles in, 21:15275 (UR-875-179)
interactions of, generalized current divergence theory for, 22:17882
interactions of, generalized Dalitz plot for four-body final states from, 21:37729
interactions of, generalized duality for inclusive and exclusive, 25:47894
interactions of, generalized functions for dispersion relations for, 21:17064

interactions of, generalized interference model for cut-dominated, 24:18181
interactions of, generalized partial-wave analysis of n-particle, 23:5712
interactions of, generalized Veneziano model for, (T), 25:30765
interactions of, geometrical check of isospin invariance of strong, (T), 22:22381 (JINR-P2-3691)
interactions of, geometrical interrelations of Landau curves for, 21:17184
interactions of, graphical extraction of geometrical part of Feynman—Goldstone diagram for two-body, 24:24448
interactions of, graphical method for crossing matrix in octet model for, 21:33731
interactions of, graphical representation of CPT for, 21:15375
interactions of, graphical treatment of Wick theorem for annihilation, 24:15500 (LYCEN-7001)
interactions of, gravitational effects in, 25:7738
interactions of, Green functions of symmetric spaces associated with Coulomb and Yukawa potentials for, (T), 25:25356
interactions of, group dynamics for, 22:37173
interactions of, group operations in noncompact Lie groups for, 22:46474
interactions of, group property of annihilation and creation operators for, 21:40162
interactions of, Hamiltonian for coupling constants and binding energy of Yukawa-like, 21:15317
interactions of, harmonic-oscillator analog for Veneziano model for amplitudes of, 23:44738
interactions of, helicity crossing relations between three-body-decay and two-body channels from, (T), 24:51997
interactions of, helicity formalism for interference of resonances in, 23:15125
interactions of, helicity formalism for theorem on intuitive tests of parity conservation in two-body, (T), 25:9686 (COO-1764-100)
interactions of, hereditary nature of relativistic, (T), 23:39628
interactions of, high-energy bounds on amplitudes for multiparticle production processes in, 22:22468
interactions of, high-energy limit for retarded product of two isovector currents for, 21:44322
interactions of, higher-order differences in multiple Coulomb, 21:37739
interactions of, hypergeometric difference equations for relativistic Coulomb, 23:27774
interactions of, hyperspherical functions for amplitudes of three-particle production in, 21:31546
interactions of, hyperspherical functions for three-body, 25:53042
interactions of, impact factors for diffractive inelastic, 24:26422
interactions of, impact parameter formalism for amplitudes of elastic, 21:7565
interactions of, impact parameter representation of amplitudes of potential, (T), 25:45819
interactions of, impact parameter theory for Coulomb, 22:9700 (NYO-2262-TA-165)
interactions of, impact-parameter description of relativistic, 21:7577
interactions of, incompatibility of relativistic SU(6) symmetry with unitarity for, 22:13785
interactions of, indefinite metrics for, 22:26586
interactions of, index for research on, 22:5518 (AED-C-23-18)
interactions of, index for research on, 22:15693 (AED-C-23-20)
interactions of, index of research on, 22:20153 (AED-C-23-22)
interactions of, index of research on, 22:24567 (AED-C-23-24)
interactions of, index on, 22:48242 (AED-C-23-28)
interactions of, infinite multiplets in theory for electromagnetic, 22:7541 (COO-264-403)
interactions of, infinite-momentum-limit method with locality for Fubini—Dashen—Gell-Mann sum rule for, 21:31639
interactions of, infinitely rising Regge trajectories for dynamics of strong, 22:17934
interactions of, infrared radiative corrections for resonant processes in, 22:44353 (LNF-68/26)
interactions of, integral equation for multiperipheral dynamics for, 24:24459
interactions of, integral relations between Legendre functions for Lorentz group representations for, 24:30539
interactions of, integration of Schroedinger equation in imaginary time for three-body, 22:22338
interactions of, internal coordinates and explicit representations of Poincare group for, 22:15821
interactions of, interrelation between weak four-fermion and weak bilinear, 23:5583
interactions of, invariance of electromagnetic, 22:7534
interactions of, isospin conservation and polarization effects in, 21:9773
interactions of, isospin crossing matrices for, 21:42470
interactions of, isospin structure of weak nonleptonic strangeness-conserving, (T), 21:2446
interactions of, K-matrix model for Pomeranchuk exchange in elastic and diffraction-dissociation, 24:40286
interactions of, K-parity transformations for systems with SU(3) and charge conjugation for, 23:34629
interactions of, kinematic constraints for quantum number exchange in elastic, 25:33879
interactions of, kinematic singularities in cross sections and density matrices for, 22:32217
interactions of, kinematic singularities in generalized partial-wave analysis of, 23:30831
interactions of, kinematic singularities of helicity amplitudes for, 21:25351
interactions of, kinematic singularities of partial-wave amplitudes for, (T), 21:19296 (UCRL-50001-66-1, pp 1-40)
interactions of, kinematic singularities of transversity amplitudes of, (T), 25:25535
interactions of, kinematic structure of vertex functions for, 23:42774
interactions of, kinematics of resonance production in, 23:10801
interactions of, kinematics of two-body, 24:3555
interactions of, kinematics, phase space, and data presentation for multiparticle final states from, (T), 25:38679 (NP-18757)
interactions of, kinetics of many-body, 21:42448 (AD-644980)
interactions of, Klein—Gordon and Dirac equations for relativistic two-body, 23:7194
interactions of, Kohn variational principle for two-body s-wave, (T), 25:5430
interactions of, Kronecker deltas in angular momentum for weak, 22:24618
interactions of, l-plane branch point in bootstrap model for Regge trajectory lower bound in, 23:30744
interactions of, lectures on, 22:13679
interactions of, lectures on, 22:13689
interactions of, lectures on (E/T), 24:18096 (CERN-69-29)
interactions of, lectures on CP violation in, (T), 25:30915 (NP-18808)
interactions of, lectures on current algebra for, (T), 25:30914 (NP-18804)
interactions of, lectures on functional formulation in S-matrix theory for, 23:52011 (MATSCIENCE-47)
interactions of, lectures on quantum field theory for relativistic, (T), 25:56571 (CERN-71-14, pp 229-87)
interactions of, lectures on SU(2), SU(3), and SU(6) symmetry effects on electromagnetic, strong, and weak, 22:13810
interactions of, lectures on theory for, 22:20170
interactions of, lectures on weak, 22:46385
interactions of, lectures on, (E/T), 24:18101
interactions of, lectures on, (T), 22:48250
interactions of, Lee model for overlapping resonances in three-particle final-state, 21:9772
interactions of, Lee model with several V particles for, 21:18936
interactions of, Lee-type interaction in three-body, 22:17879
interactions of, Levinson theorem for Lee model with ghosts for, 23:1723
interactions of, Levinson theorem in separable potential model for, 21:21152
interactions of, lightlike charges in current algebra in quark model for Weinberg sum rules for, 23:39637
interactions of, limit of applicability of weak four-fermion theory for, 22:1417 (ITEF-471)
interactions of, linear representations of current commutation relations in current algebra for, 23:51866 (ITF-69-48)
interactions of, Lobachevsky geometry for relativistic $s = {}^1/_2$ spin rotation in binary, (T), 25:7567 (JINR-P2-5272)
interactions of, local one-particle approximation for locally conserved currents for, 22:34890
interactions of, local quantum field theories for, (T), 25:22889
interactions of, Lorentz commutators of internal dynamic variables for, 21:19031
interactions of, Lorentz group and Dirac spinors in Galois geometry for weak, 23:5654
interactions of, Lorentz group expansion of amplitudes for two-body, 22:3546
interactions of, Lorentz group for angular analysis of, 23:15158
interactions of, Lorentz pole relation with momentum transfer dependence of Regge residues for transition amplitudes of, 23:39853
interactions of, lower bounds for parameters for particle rearrangement in, (T), 25:5425 (JINR-P4-5332)
interactions of, lower bounds on threshold charge-exchange amplitude from di-pion mass distributions in final states of, (T), 25:5315
interactions of, MacDowell symmetry as consequence of CT invariance for, 24:37848
interactions of, magnetic model for strong, 22:50318
interactions of, many-body treatment of elastic, 21:15429
interactions of, mass dependence of slopes in differential cross sections in models for three-body production from, (T), 24:47390
interactions of, mass equation from tadpoles in nonpolynomial Lagrangians for self-, (T), 25:36425
interactions of, mass quantization conditions from infinite superconvergence and chiral symmetry in, 24:24457
interactions of, mass splitting in current—current, 21:19039
interactions of, matrix elements of representations of O(2,1) groups in continuous basis, 23:35039
interactions of, maximum-complexity theorem for nondynamical parity tests for two-body, 21:37873
interactions of, Maxwell field geometrization effects on CP violation in, 21:17140 (JINR-E2-3089)
interactions of, meromorphic dual amplitude for two-fermion—three-boson, (T), 24:42896
interactions of, meson mass corrections for spectral function sum rules for, 22:3299
interactions of, method for manipulating functions in theory of currents for, 23:23399
interactions of, method for resonance production determination from, 22:15701
interactions of, method of broken symmetries for composite states for four-fermion, (T), 25:1437
interactions of, method using Bethe—Salpeter equation for pre-asymptotic behavior of cross sections for strong, 22:32115
interactions of, methods for classifying many-particle states from, 21:17063
interactions of, methods for constructing amplitudes with finite-width resonances satisfying duality and Regge behavior, 24:8737 (SU-1206-208)
interactions of, methods for determining impact parameter phase shift from differential cross sections of elastic and absorptive-potential, (T), 25:45819
interactions of, microcausality and its violation in asymptotic relations for averaged amplitudes of, (T), 25:22710 (ITF-70-80-E)
interactions of, minimal solutions to conspiracy and Regge pole family classification in, 23:39745 (LNF-69/23)
interactions of, mirror relations as nondynamical tests of conservation laws for, 22:22422
interactions of, model for CP invariance in current—current theory of weak, 22:41835
interactions of, model for CP violation in nonleptonic weak, 22:5624
interactions of, model for renormalizable theory of weak, 22:48280
interactions of, model for saturation of superconvergent sum rule for, 22:7496
interactions of, model of finite self-masses of leptons for weak, 23:15057
interactions of, model of self-induced strong, 22:15754
interactions of, model of self-reproducing pomeron for diffraction, 25:53383
interactions of, model with derivatives for exact solution for, 22:3297
interactions of, model with intermediate scalar boson for leptonic weak, 23:15052
interactions of, model with Regge dipole for breakdown of Pomeranchuk theorem for, 25:30828
interactions of, models for T violation in, 21:4073
interactions of, modified Jacobean peak method for missing mass studies in, 23:38320
interactions of, Moliere theory for multiple, 21:42476
interactions of, Monte Carlo method for cross sections for multiparticle production in, 25:12134
interactions of, Monte Carlo method for generating peripheral, 24:26381
interactions of, Monte Carlo simulation of high-multiplicity peripheral, 23:23393 (JINR-P1-4290)
interactions of, multi-Regge model for generalization of crossing relations by helicity amplitudes for, 22:22464 (LPTHE-TH-235)
interactions of, multichannel rearrangement, 21:9856
interactions of, multiparticle phase space in terms of invariant momentum transfers, invariant masses, and angles for, 24:12960
interactions of, multiparticle production in soft particle emission model for, 22:39363 (CERN-68-7(Vol.2), pp 102-9)
interactions of, multiperipheral dynamics at nonvanishing values of momentum transfer in, 24:33064
interactions of, multiperipheral model for multiplicity dependence of one-particle momentum distributions in, 25:36476
interactions of, multiperipheral models for complex Regge poles and oscillatory average multiplicity in, (T), 25:14585
interactions of, multiperipheral models for, (T), 25:30765
interactions of, multiperipheral Regge model for n-particle production in, 22:15859
interactions of, multiple dispersion relations for short-range potential for, 21:19066
interactions of, multiple scattering matrix with energy losses for, 24:28624
interactions of, multiplicity distribution in Regge-pole theory for inclusive, 25:45730
interactions of, mutual exchange in lattice space for, 21:17068
interactions of, mutual transformations of particles for, 24:20086 (UJV-2312-F)
interactions of, N/D effective-range theory for, 21:9771
interactions of, N/D method for residues of poles in, 21:5424
interactions of, N/D theory with short-range forces for strong, 23:15290
interactions of, n-particle dual amplitude with satellites for, 24:22012 (COO-264-537)
interactions of, n-particle phase-space integral for production processes in, 23:21066
interactions of, natural and unnatural parity exchange contributions to cross sections for quasi-two-body, (T), 22:46458
interactions of, nature of primary, (T), 23:15005
interactions of, nature of relativistic orbits in theory for, 22:34876
interactions of, necessary restriction on pair-correlation function arising from many-body, 22:34875
interactions of, necessity of many-body production amplitude in S-matrix theory for, 22:44509
interactions of, negative-energy off-shell amplitudes for two-body, 21:2527
interactions of, neutron electric dipole moment for CP violation in electromagnetic, 22:39450 (JINR-E2-3801)
interactions of, non-S-matrix experiments on, 22:26576 (JINR-P2-3590, pp 170-82)
interactions of, noncompact groups and dynamic symmetries for, 22:9640
interactions of, nondynamical structure of, 21:29474
interactions of, nondynamical tests of conservation laws in, 22:1459 (TID-24095)
interactions of, nonlinear scalar field theory for, 24:40448
interactions of, nonlocal Hamiltonian for weak, 22:11643
interactions of, nonperturbative solutions of Bethe-Salpeter equation for vertex function for, 21:9730
interactions of, nonrenormalization of axial vector coupling constant for, 21:912
interactions of, nonunitary irreducible representations of Poincare group for unstable intermediate states in, 24:22001

interactions of, nonvanishing asymptotic cross sections for high-energy, 21:7574
interactions of, number operators for representations of canonical commutation relations for, 22:34884
interactions of, O(4) invariant potentials for short-range, 21:4074
interactions of, observable effects from amplitudes with parity conservation in many-body, (T), 25:25345
interactions of, octet dominance in weak, electromagnetic, and strong, 22:5609
interactions of, off-mass-shell effects in bremsstrahlung amplitudes of, 23:25547
interactions of, operator formalism method for summation diagram for amplitudes of, (T), 24:52221
interactions of, operator reduction of Lippmann—Schwinger equation for three-body, 23:1706 (UCD-CNL-101)
interactions of, optimal coordinate representations for, (T), 25:17409
interactions of, optimum Lagrange problem in composite model for, 22:7452
interactions of, Orear formula for statistics of, 21:9722
interactions of, origin of SU(3) breaking in strong, 22:50437
interactions of, origins of CP violation in, 23:5646
interactions of, overlap function and Glauber formula for multiparticle terms in amplitude of two-body, 23:15292
interactions of, overlapping final-state interactions in three-body, 23:8773
interactions of, P, C and T symmetries in, (T), 22:52999
interactions of, Pade approximants with O(4) symmetry for, 23:15283
interactions of, parafields representation of inner degree of freedom of isospin and strangeness type for electromagnetic, 22:13783 (JINR-P4-3602)
interactions of, parametrization of generalized Veneziano amplitude for, 23:44611
interactions of, parametrization of helicity amplitudes and locality of, 21:33736
interactions of, parity and charge conjugation operators as time-dependent observables for, 23:42703
interactions of, parity rule and helicity conservation in diffraction dissociation, 25:17429
interactions of, parity-conserving invariant amplitudes for, 21:33800
interactions of, particle number fluctuations in hydrodynamical theory of multiple production in, (T), 25:5309
interactions of, partly gentle perturbation for annihilation—creation operators for, (T), 21:42291
interactions of, PCAC hypothesis and commutator algebra for, 21:18962
interactions of, PCAC hypothesis for, 22:7463
interactions of, PCAC hypothesis relations with current algebra for, 22:48245
interactions of, peratization of vertex in theory for W production from weak, 22:17916
interactions of, peripheral mechanism for, 22:3372
interactions of, peripheral model with absorption for describing, (T), 21:4003 (INP-494/PL/PH)
interactions of, perturbation approach for regular, 23:17009
interactions of, perturbation theory for potentials with core for two-body, 24:35619
interactions of, perturbative model for current algebra for, 22:7536
interactions of, phase shift analysis for two-body, 23:49216
interactions of, phase space for, (T), 23:49067
interactions of, phase space integral and physical regions for n-particle, 24:24264
interactions of, phase space integrals for, 22:13682
interactions of, phase-space integral with transverse momentum cut-off for multiple production in, (T), 25:25344 (NP-18748)
interactions of, phenomenological models for high-energy elastic, 23:15073
interactions of, physical regions of six-body interactions for integration limits in phase-space integrals in two-to-four- and one-to-five-body, (T), 24:10863
interactions of, physical regions of six-body interactions for formulation of n-body, 24:10863
interactions of, pion dominance and Adler—Weisberger relation for, 22:11650
interactions of, polarization of particles produced in essentially inelastic, (T), 23:7133
interactions of, Pomeranchuk exchange in multi-Reggeon model for contributions to cross sections for two-body, 22:44522
interactions of, Pomeranchuk theorem for particle and antiparticle, (T), 24:45451
interactions of, Pomeranchukon exchange in inelastic two-body, 22:15805
interactions of, possibility of W strong interactions in, (T), 22:22377
interactions of, possible mechanism of nonconservation of CP in electromagnetic and weak, 22:9649
interactions of, possible tests for internal symmetries for electromagnetic, 22:1406
interactions of, potential-correlation function in statistical mechanics for, 22:34873
interactions of, pre-asymptotic increase of cross sections in fireball model for inelastic peripheral, 24:24259
interactions of, predecay resonance mixing in, 21:9769
interactions of, problems on weak, 22:3352
interactions of, production of intermediate resonances in, 21:19310
interactions of, production of overlapping resonances in three-body systems from, (T), 25:12126
interactions of, productset populations for rotation, reflection, and time invariance, 21:2485
interactions of, proof of Pomeranchuk theorem for, 23:7182
interactions of, proof of Pomeranchuk theorem for, 23:15246 (ITF-68-30)
interactions of, propagation functions and renormalization constants for strong, 22:13740
interactions of, properties of amplitudes with logarithmically increasing radius of, (T), 25:33582
interactions of, properties of baryon resonances produced in two-body, 24:5311
interactions of, properties of class of Inonu—Wigner contractions for, 21:44407
interactions of, proposed experiments on, 24:51875 (TID-25473(Vol.4))
interactions of, quantization of relativistic action-at-a-distance theories for, 22:29650
interactions of, quantum and classical nonlocal effects in, 22:11701
interactions of, quantum field theoretic descriptions of elastic, 23:49200
interactions of, quantum field theory for threshold behavior of partial-wave amplitudes of, 22:13680
interactions of, quantum harmonic oscillator in phase representation and uncertainty between number of quanta and phase for, 21:33775
interactions of, quantum mechanical calculation of time for, 21:17069
interactions of, quantum mechanical treatment of relativistic kinematics for N-body, (T), 25:25355
interactions of, quark model for charge and strangeness exchange in, 21:33689
interactions of, quark model for cross sections of electromagnetic, 22:9538
interactions of, quark model for two-body, 23:8795 (INP-622(Vol.1), pp 39-74)
interactions of, quark model predictions for measurable statistical tensors for amplitudes of, 25:14670
interactions of, quark model relations between differential cross sections for photoproduction and strong, 22:44382
interactions of, quasiparticle calculations for three-body, 24:37952
interactions of, quasiparticle method for solution of multichannel, 23:1713
interactions of, radiative correction to low-energy theorems for bremsstrahlung production in, 24:3563
interactions of, radiative corrections to Fermi decays and universal coupling of weak, 23:15061
interactions of, random event generation with preferred frequency distributions for, (T), 25:33587
interactions of, random-phase method for peripheral model for, 21:11823
interactions of, recent experimental developments in weak, 22:17848
interactions of, recent experimental developments in strong, 22:17856
interactions of, recent experimental developments in weak, 22:17845
interactions of, reconstruction of canonical field theories of strong, 22:11660
interactions of, rectangular Dalitz plot for, 23:25705 (JINR-P1-4281)
interactions of, reductions of phase-space integrals for three-body final states, 24:12965
interactions of, Regge behavior in inclusive, 25:33769
interactions of, Regge cut from nonplanar duality of amplitudes for, 23:52022
interactions of, Regge hypothesis for inclusive cross sections in discontinuity formulas for amplitudes of multiparticle, (T), 25:38798 (NYO-2262-TA-240)
interactions of, Regge phenomenology of inclusive, 25:33676
interactions of, Regge pole, bootstrap, and O(4) symmetry theory for strong, 22:17933
interactions of, Regge singularity and Pomeranchukon in dual set for validity of generalized interference model for cut-dominated, 24:18181
interactions of, Regge symmetry for graphical methods in angular momentum theory for, 21:9854
interactions of, Regge-cut amplitudes in finite-energy sum rules for inelastic, 23:8857
interactions of, relation between current-density and charge-current algebras for, 23:46629
interactions of, relation between Marchenko formalism and N/D equations for regular, 22:17955
interactions of, relation of classical and quantal predictions for rescattering probabilities in three-body, (T), 25:12194
interactions of, relation with structured particles for Veneziano amplitude of, (T), 24:49359
interactions of, relations among Wigner 9j symbols for angular momenta coupling in, 22:35038
interactions of, relative time and Bethe—Salpeter solutions for amplitudes of, 21:35275 (NP-16867)
interactions of, relatively compact many-body separable, (T), 23:32644
interactions of, relativistic eikonal approximation for superposition of two, (T), 25:5434
interactions of, relativistic forces in three-body, 21:891
interactions of, relativistic generalizations for SU(6) model for, 21:23349
interactions of, relativistic generalizations of dynamic groups for spherical-potential two-body, 23:46753
interactions of, relativistic harmonic oscillator and superconvergent amplitudes in model for, 22:3548
interactions of, relativistic kinematics for, 22:41755 (JINR-P2-3902)
interactions of, relativistic kinematics for, 23:10770
interactions of, relativistic polarization and angular correlations for, 24:28501
interactions of, relativistic rotation of S = $^1/_2$ spin in two-body, (T), 25:30760
interactions of, relativistic scattering theory for two-body, 23:3854
interactions of, relativistic statistical mechanics for mesic, 21:44298
interactions of, relativistic three-body problem for, (T), 24:51985
interactions of, relativistically covariant equations in quantum field theory for two-body, 21:44432 (JINR-E2-3498)
interactions of, relativistically covariant wave equations in quantum field theory for n-body, 22:41845 (JINR-P2-3900)
interactions of, removal of divergences in, (T), 23:16985 (NYO-1932(2)-145)
interactions of, renormalizable theory for weak, 23:15205
interactions of, renormalization of coupling constant of weak vector currents in broken symmetry for, 22:15826
interactions of, report on experimental data, 1966, 21:37652(R) (NP-16933)
interactions of, representation of current algebra at infinite momentum with isospin factoring out, 22:32080
interactions of, representation of quarks in terms of linked quantized flux loops for, 24:51992
interactions of, representation theory of local current algebras for, 22:34870
interactions of, representation with given orbital momenta for asymptotic behavior of partial amplitudes for inelastic, 21:46593
interactions of, representations of strong coupling group for, 22:5627
interactions of, rescattering effects in multiparticle final states from, 23:25709
interactions of, rescattering effects in resonance production, (T), 25:3459
interactions of, rescattering effects in three-body final-state, (T), 21:44453
interactions of, research at Purdue Univ., June 1968 to May 1969, (E), 23:39609(R) (COO-1428-127)
interactions of, research at Purdue Univ., June 1968 to May 1969, (T), 23:39622(R) (COO-1428-133)
interactions of, research at Tufts Univ., to Sept. 1969, (E/T), 23:51867(R) (NYO-1984-13)
interactions of, research on, 21:17019(R) (UCRL-17282)
interactions of, research on, 22:1375(R) (BMwF-FBK-67-55)
interactions of, research on charge-exchange, 21:27283 (MIT-2098-299, pp 16-18)
interactions of, research on, (E/T), 22:22332(R) (UH-511-23)
interactions of, resonance interference in, (T), 23:49162
interactions of, resonance production and identification in two-body, (T), 21:21202 (JINR-P1-3164)
interactions of, results for many-body problem with repulsive delta-function, 22:7412
interactions of, review of angular analysis for, 23:49063
interactions of, review of charge conjugation, time reversal and CP invariance for, 24:10791
interactions of, review of CP violation in, 22:32178
interactions of, review of CP violation in, (E), 23:25661 (CERN-69-7, pp 291-305)
interactions of, review of cross sections and multiplicity and momentum distributions for, (E), 25:30715
interactions of, review of cross sections for, (E), 24:51876
interactions of, review of crossing and positivity properties of partial waves for amplitudes of, (T), 25:43711 (SU-1206-243)
interactions of, review of current algebra for, 21:46503
interactions of, review of current algebra for, 22:7462
interactions of, review of current algebra for, 22:9522
interactions of, review of current algebra for, 22:32081
interactions of, review of current algebra for, 22:34867 (DESY-68/19)
interactions of, review of current algebra for, 23:16940 (NYO-3399-166)
interactions of, review of current-sharing among, (T), 24:5262
interactions of, review of dynamics of strong, 22:24623 (LPTHE-TH-222)
interactions of, review of electromagnetic, 22:15713 (DESY-67/43)
interactions of, review of electron, meson (π), and nucleon form factors from Coulomb, (E/T), 23:49072 (CERN-69-22)
interactions of, review of experimental research at Kazakhstan on, 22:32042
interactions of, review of experimental tests of SU(3) symmetry for Regge residues in three-body vertices in amplitudes of four-body, 22:37172 (CONF-670725-, pp 105-42)
interactions of, review of experimental tests of SU(3) symmetry predictions for, 22:37185 (CONF-670725-, pp 74-104)
interactions of, review of Faddeev equations for three-body, 23:49212
interactions of, review of field theory for relativistic, 21:31637
interactions of, review of field-current identities and spectral-function sum rules in gauge field algebra for, 24:8574
interactions of, review of fundamental symmetries for weak, 22:3482 (CERN-66-29(Vol.3), pp 1-92)
interactions of, review of generalized Veneziano model for many-body, (T), 25:7581
interactions of, review of hypothesis of limiting fragmentation for, (T), 25:30768
interactions of, review of infinite-component wave equations in current algebra for, 22:39308
interactions of, review of internal symmetries for, 21:29584
interactions of, review of invariance principles in weak, 22:44472
interactions of, review of many-body, 23:10807
interactions of, review of new developments in quantum field theory for, 23:15201 (ITF-68-62)
interactions of, review of PCAC hypothesis for soft π production in, 24:35672
interactions of, review of Poincare group theoretical partial wave analysis of, 23:52009 (IC-67/9(Pt.1) (Amend.))
interactions of, review of problems and status of research on, 22:39231

interactions of, review of relativistic calculations of three-body and n-body, 22:41867 (LPTHE-TH-68/10)
interactions of, review of relativistic kinematics for two-body, 23:49066
interactions of, review of relativistic quantum mechanics for, 24:5262
interactions of, review of research in Italy on, 21:5349
interactions of, review of research on, 22:15696 (NP-17252)
interactions of, review of research on theories for, 22:5519 (NYO-3399-140)
interactions of, review of singular potentials for, 24:28547
interactions of, review of strong, (E), 22:41801
interactions of, review of SU(3) symmetry for, 22:37171 (CONF-670725-, pp 4-16)
interactions of, review of SU(3) symmetry for, 21:31620
interactions of, review of SU(3) symmetry predictions for electromagnetic, 22:7539 (SLAC-PUB-349)
interactions of, review of SU(3) x SU(3) symmetry for weak, 22:3483 (CERN-67-24(Vol.1), Paper 2)
interactions of, review of sum rules and low-energy theorems in current algebra for, 24:5261
interactions of, review of symmetry for strong, 22:1469
interactions of, review of symmetry for strong, 22:9659
interactions of, review of symmetry groups and current algebra for, 22:13798
interactions of, review of theories for, 22:39445
interactions of, review of theory for electromagnetic, 22:32100
interactions of, review of theory for nonleptonic weak, 22:7483
interactions of, review of theory for weak, 22:7481
interactions of, review of theory for weak, 22:32101
interactions of, review of Veneziano model for multiparticle, (T), 25:30825
interactions of, review of, (T), 23:15008
interactions of, review on final-state, 23:14998
interactions of, rigorous lower bounds on energies of many-body, 24:3773
interactions of, role and perspectives of cosmic ray research for study of, (E), 25:19885
interactions of, role of strong interactions and W in radiative corrections to weak, 22:26590 (IC-68/28)
interactions of, S-matrix formalism and properties for transition probabilities for, 24:10851
interactions of, S-matrix theory for classical space—time description of, 23:39856
interactions of, S-matrix theory for electromagnetic, 22:20179
interactions of, S-matrix theory for four-particle production in, 21:29640
interactions of, S-matrix theory for nonrelativistic three-particle, 23:13142
interactions of, S-matrix theory for strong, 23:15265
interactions of, S-operator theory of weak, 22:34946
interactions of, Sakaton structure for weak, 22:41780
interactions of, scalar charged model for production amplitude for, 21:40285
interactions of, scattering theory of resonance mixtures, 24:37955
interactions of, Schroedinger equation for three-body, 21:33632
interactions of, second-order electromagnetic corrections to axial—vector matrix elements for weak, 23:15055
interactions of, second-quantized nonrelativistic time-dependent scattering theory and generalization of in—out formalism for Coulomb potentials for, 25:5431
interactions of, secondary trajectories for isospin-one exchange interactions in, 23:15254
interactions of, separable expansion method for solution of integral equations for three-body, 24:32975 (ITF-70-22)
interactions of, separation of resonance term and background term in total cross section for, 25:53141
interactions of, shell theory for electromagnetic properties of, 23:39629
interactions of, shrinkage of forward and backward diffraction peaks for elastic and inelastic, (E), 22:41754 (JINR-P2-3897)
interactions of, sigma model for conformal invariance spontaneous breakdown in, (T), 25:25351
interactions of, simulation of resonances in final-state, 21:18933
interactions of, single-particle singularities of meson propagators in presence of electromagnetic and gravitational, 22:50316
interactions of, singularities of functions associated with Feynman graphs for, 21:9724
interactions of, singularities of partial-wave amplitudes for, 21:9859
interactions of, singularities of quadrangle graphs with intermediate-state resonances for, 22:11669 (IFVE-STF-67-16-k)
interactions of, singularities of square graphs with resonances in intermediate state for, 21:40204
interactions of, SLAC program for investigating electromagnetic, 22:13877 (SLAC-PUB-369)
interactions of, SO(4) classification of Regge trajectories for two-body backward, 23:27834
interactions of, soft-pion emission processes in minimal, 21:2402
interactions of, solution for Bethe—Salpeter equation in ladder approximation for, 21:23314 (BNL-994, pp 70-102)
interactions of, solution of Bethe—Salpeter equation using Rieman method for two-body scalar, 21:37721 (NP-16895)
interactions of, solution of Bethe—Salpeter equation in inelastic region for, 21:19059
interactions of, solution of nonlinear spinor equation for, 21:21149
interactions of, solutions of Faddeev equations for two- and three-body systems in, (T), 25:5429
interactions of, solutions of physical unitarity equations in static S-matrix theory for three-body, 23:15274
interactions of, source theory with symmetrical treatment of localizability and energy—momentum for, 22:48251
interactions of, Sp(6) symmetry for strong, 22:1470
interactions of, spectral representation for matrix elements of equal-time current commutators in perturbation theory for, 22:20213 (JINR-P2-3661)
interactions of, spin and parity of baryon resonances produced in two-body, 24:5311
interactions of, spin dependence in inclusive, 25:33622
interactions of, spin effects on mass spectra of meson and baryon resonances produced in, (T), 23:46739
interactions of, spin independence of total cross sections for, (T), 21:7475
interactions of, spin-family solution for general field-theoretic equation for coupling constants for, 21:29465
interactions of, spurious solution to Weinberg kernel for three-body, 21:15418
interactions of, stationary-phase approximation of Feynman path integral for, 21:37725
interactions of, statistical concepts for n-point function in Veneziano model for, (T), 25:30766
interactions of, statistical SU(3) breaking symmetry model for multiple particle production from, (T), 21:7523 (JINR-P2-3007)
interactions of, strong coupling limit in potential theory for, 21:27444
interactions of, strong coupling theory for, 23:13079
interactions of, structure of Regge poles and residues for two-body, 24:26527
interactions of, structure of state space in convergent relativistic model for, 24:47389
interactions of, Sturmian functions for quantum mechanical three-body, 22:41759
interactions of, SU(2,2) ladder representations for relativistic two-body, 23:46850
interactions of, SU(3) symmetry breaking in, 23:5645 (NP-17659)
interactions of, SU(3) symmetry for, 22:48331 (CERN-68-23(Vol.1), pp 235-364)
interactions of, SU(3) symmetry for amplitudes of, 24:5328
interactions of, SU(3) x SU(3) algebra of currents for, 21:25329
interactions of, SU(4) current algebra for sum rule for axial vector renormalization constant for, 22:32082
interactions of, subsidiary condition in quantum electrodynamics for, 22:44482
interactions of, subtractions in dispersion relations for partial-wave amplitudes of, 21:19074
interactions of, subtractions in dispersive approach to SU(2) and SU(3) symmetry breaking for medium-strong, 22:9633
interactions of, sum rule for rms radius for, (T), 25:3461
interactions of, sum rules for cross sections of inclusive, 25:59331
interactions of, sum rules for cross sections of inclusive, 25:53045
interactions of, sum rules from Sugawara theory of currents for total cross sections for, 23:36864
interactions of, summation of contributions from Feynman diagrams for, 21:31539 (ITF-67-6)
interactions of, summation of Feynman diagram contributions for, 21:29464 (ITF-67-3)
interactions of, superconvergence conditions for forward elastic, 22:35148
interactions of, superconvergence relations for Omnes equations for bound states in, 25:5427
interactions of, superconvergence relations for two-body, 21:42286
interactions of, superconvergence relations in one-tower approximation for, 22:20219
interactions of, superweak model for CP violation in, 22:46482 (LPTHE-TH-68/12)
interactions of, symmetries for weak, 22:50431
interactions of, symmetries in fundamental, 21:31620
interactions of, symmetries of weak, 22:11702
interactions of, symmetry for superconvergence sum rules for spectral functions from amplitudes of, 21:23347
interactions of, symmetry operators for configurations (d + s)/sup N/ for Coulomb, 21:31560
interactions of, symmetry properties in quark model for strong, 22:9663
interactions of, systematics of elastic, 25:17593
interactions of, test of CPT invariance in weak, (T), 22:44469
interactions of, test of $\Delta I < or = 1$ in, 22:46368
interactions of, tests of time-reversal invariance for, 21:9821
interactions of, tests of unitary symmetry in hadron production from, (T), 21:5410(T) (AEC-tr-6807)
interactions of, theorem on intuitive tests of parity conservation via spin polarization processes for amplitudes of two-body, (T), 25:22718
interactions of, theorem on invariant amplitudes of two-body, (T), 25:33864
interactions of, theories at infinite momentum for, 24:8715
interactions of, theory for, 21:27317 (MIT-2098-299, pp 83-115)
interactions of, theory for Coulomb, 21:21277
interactions of, theory for Regge poles in, 21:7575
interactions of, theory for universal primary, 22:7458
interactions of, theory of dispersion sum rules for, 21:5360
interactions of, theory of local observables for cross sections for, 21:29473
interactions of, theory of primary vector and axial-vector, 25:40969
interactions of, theory of primary weak, electromagnetic, and strong, 22:41799
interactions of, theory of self-induced strong, 22:11710
interactions of, theory of weak, 22:13721
interactions of, theory of weak, 22:48275 (CERN-68-23(Vol.1), pp 129-234)
interactions of, three-dimensional relativistic Faddeev equation for three-body, (T), 25:33575 (JINR-P2-5661)
interactions of, three-particle unitarity condition at complex angular momenta for simple Feynman diagram for, 24:8741
interactions of, three-Reggeon coupling function for, 23:52021
interactions of, threshold behavior of partial-wave amplitude of, (T), 21:9861
interactions of, threshold behavior of three-body production processes from, 21:23358
interactions of, time dependence of, 24:37667
interactions of, time-delay formalism for resonance production in three-particle systems, 21:11824
interactions of, Toller-angle dependence of multi-Regge vertices for three-body final states, 24:13207
interactions of, topological features of Feynman diagrams for, 21:15276
interactions of, topological-covariant formulation of angular momentum theory for, 24:30471
interactions of, total transition probability for properties of short-range, 23:44612
interactions of, transition amplitudes in continuous spectrum for many-body, (T), 22:32077
interactions of, transition from continuous to discrete space—time for, 24:24430
interactions of, transparent nonlocal two-body potentials for, 21:15428
interactions of, Treiman—Yang analysis for test for Toller poles and validity of 0(3,1) expansion of two-body, 23:44685
interactions of, Treiman—Yang test and triangular graphs for, 21:17065
interactions of, twisting operator in multi-Veneziano theory for amplitudes of, 24:24456
interactions of, twisting-invariant factorization of multiparticle dual amplitudes of, 24:24455
interactions of, two-body resonance-pole dominance approximations for three-body, 24:28630
interactions of, two-Reggeon branch points in double charge-exchange, (T), 21:21243
interactions of, two-term separable approximation for binding energy for local Yukawa and exponential potential three-body, 23:52012 (NYO-1932(2)-151)
interactions of, two-variable expansion for amplitudes of, 24:13108
interactions of, U(3) symmetries for strong, 23:15172
interactions of, U(3) symmetries for weak, 23:15172
interactions of, U(3) x U(3) and SU(3) x SU(3) chiral dynamics for, 23:3764 (ITF-68-63)
interactions of, u-channel exchange amplitudes in elastic, 21:25281
interactions of, uncorrelated jet model for empirical distributions in multiple production from, 21:31542
interactions of, uniqueness and symmetry breaking in S-matrix theory of, 21:19071
interactions of, uniqueness of solutions for partial amplitudes of three-body, 24:10862
interactions of, unitarity and normal form of solution in interactions-with-derivatives model for, 22:15694 (ITF-67-26)
interactions of, unitarity condition and angular distributions in elastic and inelastic, 21:40161
interactions of, unitarity condition for asymptotic properties of amplitudes for, 21:21312
interactions of, unitarity constraint on multichannel partial-wave amplitudes with doubled resonance poles in, 24:8745
interactions of, unitarity constraints on S-matrix for two overlapping resonances of same spin and parity from, 23:51913
interactions of, unitarity for production and scattering amplitude relations for, 21:40287
interactions of, unitarity in dual resonance models for amplitudes of, (T), 24:52217
interactions of, unitarity violation in multiple Pomeranchuk exchange in, 22:26589
interactions of, unitarization of relations between operators in Heisenberg and interaction representations of, 23:14995 (ITF-68-27)
interactions of, unitary equations for bound-state amplitudes for three-body, 21:2531
interactions of, unitary irreducible representations of strong coupling group SU(2) for, 22:3492
interactions of, unitary model of gravitational, 22:1488
interactions of, unitary nonshrinking diffraction peaks in model for n-particle production in elastic, 24:10854
interactions of, unitary symmetry for weak, 22:11703
interactions of, unitary transformations of cone for relation between particle—antiparticle amplitudes of, 23:37029
interactions of, universal theory of primary, 23:16959
interactions of, unstable particle production in, (T), 23:49134
interactions of, upper bounds on density matrix elements for resonance production in, (T), 22:24633
interactions of, upper limit of particle radius from, (T), 22:1394 (JINR-E2-3509)
interactions of, use of collinear and double O(2,1) variables for single-particle spectra in, 25:17420
interactions of, use of helicity amplitudes in superconvergent sum rules for strong, 22:3423
interactions of, use of Monte Carlo method for investigating, 23:18830
interactions of, use of polarized proton targets for studying, 22:9715 (CERN-67-24(Vol.4), Paper 3)
interactions of, use of SU(2) chiral transformation for weak, 22:13817
interactions of, V + A currents in weak, 22:1425
interactions of, variational formulation of quantum field theory for, 22:7554
interactions of, variational method in nonlinear field theory for, 22:34877
interactions of, variational principle based on Faddeev equations and analytic structure in total energy of T-matrix for calculations of amplitudes of three-body, (T), 25:28101
interactions of, Veneziano model for fermion resonances in, 25:47843

interactions of, Veneziano model for resonances in, (T), 24:42939
interactions of, Veneziano model predictions for diffraction peak in resonance production in, 24:5317
interactions of, vertex renormalization in Dirac potential, 21:21313
interactions of, violation of Pomeranchuk theorem in asymptotic total cross sections for, 24:35646
interactions of, violation of Pomeranchuk theorem and odd-signature amplitude for, 25:59329
interactions of, wave and scattering operators for rank-one, (T), 24:49608
interactions of, wave equations for position operators and localizability of quantum systems for, 22:44345
interactions of, wave-packet-beams for analysis of resonances in, 21:21307
interactions of, weakly coupled neutral currents in, 25:3302
interactions of, Weyl coefficients for unitary group U(n) for amplitudes of, 22:37174
interactions of, Wick theorem for Fermi-odd, 22:34893
interactions of, Wightman axiomatic theory for nonrenormalized, 21:25339 (JINR-P2-3085)
interactions of, Wightman theory for unrenormalized, 21:25340 (JINR-P2-3086)
interactions of, Wigwam singularities in theory of, 21:17183
interactions of, Yang—Mill intermediate bosons in model of CP violation in weak, 22:24703
interactions of, Yukawa potential for P-wave resonance production in final-state, (T), 25:41014
interactions of, zero points of Mandelstam denominators in complex s-plane for relativistic two-body, 23:27887
interactions of, zero-mass theorems and analytic continuation for, 23:34556
interactions through local plus nonlocal potential, eigenfunction expansions associated with Schroedinger operators for, 23:34673
interactions using bubble and spark chambers, review of research on, 21:23304(R) (COO-1195-91)
interactions with antiparticles and particles at high energies, Pomeranchuk theorem for, (T), 25:1430 (IFVE-STF-69-110)
interactions with antiparticles at high energies, isotopic invariance for difference of total cross sections for, 22:22337
interactions with antiparticles in matter—antimatter interactions, atomic effects on annihilation rates for, (T), 25:1455
interactions with antiparticles, asymptotic integral representations for relativistic amplitudes for, 21:27439 (JINR-P2-3250)
interactions with bound pair above breakup threshold energy, asymptotic form of wave function for, 23:23567
interactions with composite particles, compositeness condition and propagator for, 21:46604
interactions with composite particles, modified Glauber theory for multiple-scattering corrections to, 24:13202
interactions with Coulomb and short-range potentials at high energies at large and small angles, (T), 25:1640 (IFVE-STF-69-106)
interactions with deuterons at high energies, charge independence in, (T), 22:37168
interactions with deuterons at high energies, coherent deuteron breakup and phase of amplitude for, 21:40241
interactions with deuterons at high energies, iterative solution to Faddeev equations for elastic, 23:49176
interactions with deuterons at high energies, three-body interaction effects in, 23:15151
interactions with deuterons at large momentum transfers, Glauber double scattering and pair production from, 25:30910
interactions with deuterons, cross sections for quasielastic,(T), 25:3293 (JINR-P2-5343)
interactions with deuterons, Glauber theory of shadow scattering in, 23:18928
interactions with deuterons, modification of Glauber formula for violation of Pomeranchuk theorem in, 24:24390 (JINR-E2-5007)
interactions with deuterons, recoil polarization and differential cross section for, 21:42387
interactions with electromagnetic fields, 2[2j + 1]-component formalism for relativistic equation for, 23:16953
interactions with electromagnetic fields, CP violation in, 22:9649
interactions with electromagnetic fields, Foldy—Wouthuysen transformation for, 22:3314
interactions with extended many-particle system, quantum treatment of inelastic, 23:3622
interactions with fermions with anomalous magnetic moments at high energies, nonexponentiation in, (T), 25:22707 (DESY-71/1)
interactions with free nucleons in freons and emulsions at high energies, particle track dependence on cross sections of, 23:45544 (JINR-P2-4521)
interactions with gravitational field, Dirac equation for, 22:1489
interactions with gravitational field, particle dimension from velocity fluctuations from, 22:17878
interactions with leptons at high energies, analyticity of differential cross sections of inelastic, 22:41771 (JINR-P2-3856)
interactions with local potentials, separable approximation for three-body, 23:42772
interactions with many-particle production, invariant variables for kinematics of, 25:1431
interactions with massive vector fields, asymptotic behavior of spectral density in nonrenormalizable theory for, 21:40281
interactions with massless fermions, consistency problems in extended Schwinger—Thirring—Wess model for, 22:13678
interactions with massless particles by graviton exchange, cross sections for, (T), 24:45599
interactions with matter, dynamical description of, 23:15217
interactions with mesons (K), statistical model for multiple particle production in, (T), 21:4095 (JINR-P2-2956)
interactions with mesons, solution of Chew—Low-type equations for two-body, 22:5572
interactions with modified Coulomb field, phase shifts for, 21:44313
interactions with muonic neutrinos and antineutrinos, test of muonic lepton number conservation in, (E), 23:42540
interactions with nonorthogonal internal-state, two-body elastic, 24:3770 (JINR-P2-4631)
interactions with nonrelativistic composite systems at high energies, construction of matrix element for, 22:11604
interactions with nonvacuum reggeon, Veneziano model for amplitude of, 24:35618
interactions with nuclei, analysis of mechanism of secondary particle production in, (T), 22:22413
interactions with nuclei, research at Notre Dame Univ, 25:1763(R) (COO-427-105)
interactions with nucleons, cross sections from incoherent contributions to nuclear production processes, 23:36871
interactions with nucleons, Λ and Σ^0 production from peripheral, (T), 21:17128
interactions with nucleons, minimal solutions to conspiracy and Regge pole family classification in, 23:39745 (LNF-69/23)
interactions with nucleons, Regge pole theory for kinematic constraints, factorization, and kinematic zeros in, 22:34981 (LNF-68/5)
interactions with particles and antiparticles at extremely high energies, asymptotic behavior of amplitudes of elastic, (T), 25:56574
interactions with particles and antiparticles at high energies and nonzero momentum transfer, indefinitely oscillating behavior for cross sections of, 24:52235
interactions with particles and antiparticles, complex conjugate Pomeranchuk trajectories and Pomeranchuk theorem for differential cross sections for, (T), 24:45505
interactions with particles and antiparticles, crossing matrices for SU(2) and SU(3) symmetry for, 24:20202
interactions with particles and antiparticles, modified Pomeranchuk theorem for phase of forward amplitudes of, (T), 24:52227
interactions with photons via one-graviton exchange, general relativity and quantum linearized field theories for cross section for, 23:23409
interactions with photons, asymptotic behavior of vertex function in theory of nonrenormalizable CP-odd, 22:32187
interactions with photons, asymptotic expansion with fixed negative photon mass squared for commutators of current-density operators for amplitude of, 24:37713
interactions with photons, extension of Kroll—Rudarman theorem for meson (π) production in, 23:44627
interactions with photons, fixed poles in π production, 24:18128
interactions with photons, Lorentz-covariant theory of gravitation for two-body, (T), 25:33837
interactions with photons, low-energy theorem for Compton, 24:3561
interactions with photons, polarization from, 21:42317
interactions with photons, Regge pole hypothesis for amplitudes of, 22:9553
interactions with photons, research at Lund Univ., 1970, (E), 25:56643(R) (NP-19018)
interactions with photons, review of vector meson production in, (E), 22:39236 (DESY-68/29)
interactions with photons, structure of amplitude and differential cross sections for, (T), 25:56454
interactions with photons, virtual graviton exchange in differential cross sections of gravitational, (T), 24:45592
interactions with polarized targets, review on, 25:53433 (UCRL-20655, pp 117-28)
interactions with protons at high energies, Regge-pole model of diffraction and exchange, 21:33682
interactions with relativistic electrons, spin-related polarization effect in Compton, (T), 23:18837(T) (AD-673841)
interactions with scalar, at high energies and small and large angles, solution of unitarity relation for amplitude and spinor particle polarization in elastic, (T), 25:14590
interactions with self-consistent gravitational field, wave equations with curved metric for, 22:3532
interactions with small momentum transfer, uniqueness of parametrization of Regge residues and trajectories for, 24:3779
interactions with smooth potentials with nonconstant interaction radius, cross sections for, 23:3828 (IFVE-STF-68-19-K)
interactions with soft photon emission, Low approximation for components of polarization tensor for, 22:41770 (JINR-P2-3851)
interactions with spin-$^1/_2$, at high energies and small and large angles, solution of unitarity relation for amplitude and spinor particle polarization in elastic, (T), 25:14590
interactions with three strongly interacting particles in final state, Watson theorem on, 22:50363
interactions with three-body final states, partial-wave analysis of, 25:53182 (UCRL-20655, pp 220a-49)
interactions with three-body final states, physical region on plane of two invariant momentum transfers for, 23:7183
interactions with two missing neutral particles, method for study of, 25:3362
interactions with unequal-mass spin-0 particles at high energies, quasipotential equations for two-body, 23:46623 (IC-69/76)
interactions with unequal-mass spin-1/2 particles at high energies, quasipotential equations for two-body, 23:46623 (IC-69/76)
interactions with virtual photons, Ladder model for asymptotic properties of Compton amplitudes for, 24:13005
interations of, possible structure for C-violating electromagnetic, 22:20301
invariance principles and symmetries for, conference on, 22:3469 (CERN-67-24(Vol.1))
invariance principles for, 22:1463
invariance principles for, 23:49178
invariance principles for, breakdown of, 21:19030
invariance principles for, conference on, 25:14750
invariance principles for, historical review of development and testing of, 22:41837
invariance principles for, lectures on, (T), 25:22856 (BNL-50261)
invariance principles for, lectures on, (T), 25:30915 (NP-18808)
invariance principles for, model for, 22:7534
invariance principles for, relativistic, 21:11781
invariance principles for, review of, 22:3470 (CERN-67-24(Vol.1), Paper 1)
invariance principles for, review of, 23:34627
invariance principles for, review of, 24:5322
invariance principles for, review of, 23:10834
invariance principles for, review of CPT, 21:13716
invariance principles for, review of tests of CPT, 22:17978 (JINR-P2-3668)
isospin of para-, group theory basis of Carruther theorem for, 25:17565
isospin of, para-field representation of intrinsic degrees of freedom of, 22:46354
Kemmer equation for rotational contribution to rest energy of, 23:5555
kinematic concept of unstable, nonunitary representations of Poincare group for, 25:47916
kinematic groups for, classification of, 23:1609
kinematics at infinite momentum, iso-Poincare group for, 22:39439
kinematics in five-dimensional relativistic scheme, 22:7453
kinematics of many-body system of, relativistic, 22:29648
kinetics of one-particle states of, relativistic, 21:31541 (JINR-P2-3333)
kinetics of, computer program for converting angles in lab and center-of-mass systems for analyzing, 22:16930 (INP-565/PL)
kinetics of, unitary representations of Lorentz group for, 21:44402
Klein—Gordon equation for, perturbation treatment of nonlinear wave modulation in, 24:10577
lectures, 24:13027 (INP-682)
lectures on, 21:29472
lectures on, 22:3376
lectures on, 25:30750 (CERN-71-7)
lectures on, (T), 24:15499 (INP-681)
lectures on, (T), 25:17410
lectures on, (T), 25:19933
Lee model as Z limit for composite and, 24:20091
Lee model for unstable N + theta, 23:36902
Lee model for, physical single-particle states in generalized, 23:32821
